You can get a pair of speciacles that will keep your eyes in as good, condition forever after as he a you first use them. These Medicated Glasses have been thoroughly examined and analyzed Prof. Berger, the great French oculist, and Pr. Carl Hollander, the Immous German oculist, of pronounced as far superior to any glasses at or made, and recommended, as the one case is not used to save the eye. American oculists claim that the Medical Glasses have no equal and can some cases restore the eye to its original slight when used in time, and is no case can the eye come impaired by the use of these classes, if properly a appled, for the following reasons:

1. The chemicals action the light to the eye, completely doing away with that these one that is experienced in using glasses after one or (so hours' use.

2. The neclicated propenties contained in the glass make it as hard as a diamond. It will resin its polish and never become dult or disc, hence you will always see through it as bright and as a diamond. or as at first.

2. The chemicals keep the glasses coldes co-result is your optic nerves are always cooling away with any feverish sensations to the eve.

4. These plasses have no equal for night reading or sewing. With them you are at up at the light has no effect on thee; c, with no tiresome secsation whatever, which necessary continues to improve the eye.
