By special of Chenoweth's Bill to Regulate the Bill.

The bill is entitled 'An act to regulate railroad companies and to provide for the appointment of railroad commissioners and to provide therefor an act to regulate the first section provides for the appointment, and, as the next general election, for the appointment of three commissioners, to be composed of three commissioners, to hold office for six years, one of them elected every two years, their qualifications are:

Section 3 provides for the election of a secretary, and for the preservation of the records of the commission, etc.

Section 4 provides for the salary and expenses of the commission, and that the same to be paid by the railroad in proportion to the length of the main track or tracks of their respective roads, etc.

Section 5 provides for the manner of the commission in addition to the constitutionally provided for by the laws of this state, and also for a bond in the sum of \$20,000 conditional upon the faithful discharge of his duties.

Section 6 provides for the manner of the commission in addition to the constitutionally provided for by the laws of this state, and also for a bond in the sum of \$20,000 conditional upon the faithful discharge of his duties.

Section 7 provides for an annual statement to be transmitted to the office of the commission by each of the railroad corporations or companies operating in this state, and contains a full and true exposition of the affairs of the respective corporation, and for this purpose a series of 33 interrogatories are provided, and penalties prescribed against officers of railroads failing to respond to the same.

Section 8 provides that the commission shall make just and reasonable rules and regulations to be observed by all the companies in the state, to prevent the charging of a rate for freight transported a longer distance, and other unjust and unreasonable discriminations, the price of paying any rebate or bonus, directly or indirectly, and from misleading or deceiving parties in any manner, and the price of charging for freight and passengers; to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill; and to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill; and to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill.

Section 9 provides for the classification of all railroads in the state, and limits the compensation per mile for the transportation of any person, with or without baggage, to three cents a mile for first-class, and not exceeding 4 cents on all other classes of freight, and to prevent the charging of a rate for freight transported a longer distance, and other unjust and unreasonable discriminations, the price of paying any rebate or bonus, directly or indirectly, and from misleading or deceiving parties in any manner, and the price of charging for freight and passengers; to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill; and to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill.

Section 10 provides for the classification of all railroads in the state, and limits the compensation per mile for the transportation of any person, with or without baggage, to three cents a mile for first-class, and not exceeding 4 cents on all other classes of freight, and to prevent the charging of a rate for freight transported a longer distance, and other unjust and unreasonable discriminations, the price of paying any rebate or bonus, directly or indirectly, and from misleading or deceiving parties in any manner, and the price of charging for freight and passengers; to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill; and to require all agents to furnish to shippers or receivers of freight duplicate copies of their freight bills on demand, and not to receive where the wrong or mistake is apparent from the freight bill.

Mexican mines.—The reporter yesterday met a gentleman who has been at the Santa Rosa (Mexico) mines with the Santa Gertrudis Mining Company of Nashville, Tennessee, from whom some interesting items were obtained.

—The deposit is very large. No metal is yet being taken out, however. The company has already expended between thirty and forty thousand dollars at the mine, and under the superintendence of J. N. Judson, mining engineer and assayer, the company are hopeful of yet realizing largely from the mine.

—There are many other mines in this district, which is rich in silver and has plenty of coal. The Santa Rosa mine is divided, but the San Rafael expects to yield a dividend in the next year.

—The Llanos Indians who live there are not thirty or forty warriors in the Santa Rosa mountains, have recently been doing all manner of devilment in the vicinity of Santa Rosa. They have killed a great many Mexicans, men, women and children, and have stolen horses. They generally come into the Santa Rosa valley on foot and ride out on horseback. They come down at every full moon. The Mexican government has sent a detachment of soldiers to the valley, instructed to hunt them down and exterminate them. They recently caught three of the Indians, and are now taking them to Mexico to be disposed of by the Mexican government.

—The people of Laredo are hopeful of receiving one look. The Laredo people will expect to see the City of Mexico.

—Mexico is in a more prosperous condition than for some time. There has been no war between the United States and Mexico for two years, and confidence in the government is stronger than for many years. In point of progress, however, the northern frontier appears to be stationary.

—The masses know nothing about railroads, hence do not know what to expect from them, and do not know how to prepare to make for their coming. Very few have even an idea of what a railroad is, but there is a great deal of talk about the *ferris* enterprise.

—The country about Santa Rosa is under fair Mexican cultivation. The farmer does not buy land, but so many days of water for the month or year. All the farms are irrigated according to the extent of the water privileges he enjoys. They produce corn, wheat and cane, principally, but produce no potatoes in this section. The cotton grows to about fifteen feet long, at the head of which the stems are yoked. By this method no furrows are turned, but the ground is simply torn or scratched to a depth of from one to two inches. It is plowed one way and then across. It cannot be said that the Mexican peasant stands but the hands of the plow, as it has but one handle to it.

FOOLISH TALK.—The reporter yesterday covered with a gentleman from Mexico regarding the feeling among the people of the northern part of that country concerning the railway enterprise now being pushed toward Mexico from points in America. The gentleman said that the masses of the common people did not regard the project with favor, and that they entertain a jealous feeling toward this country. This is not the case with the intelligent and industrial people, whose deep-seated desire of having railroad facilities and American commercial connections. Rivalries and jealousies have induced the ignorant people to believe that these enterprises are the precursors of a grand scheme on foot in the United States to obtain the dominion of Mexico. This is not the case. The gentleman who said this to the reporter yesterday was a man of no account, and his words are to be regarded as the words of a fool.

CONSIDERED TO THE GRAVE.—Funeral of Major Clarence F. Mauck. At 11 a. m. yesterday, the remains of Major Clarence F. Mauck, of the 9th U. S. Infantry, were conveyed from the place of his death at the residence of Capt. W. G. Tobin, to St. Mark's Episcopal Cathedral, where they were received by the cortege and will be buried at the residence of Benjamin Smith, Gen. Carl, Col. Martin, Gen. Small, Maj. Wilson, and Maj. Russell.

After the exercises at the Cathedral by Rev. W. H. Richardson, the remains were borne from the church and placed upon a caisson, draped with the flag of our country, the large funeral cortege being ridden in position. The caisson was followed by a left horse, draped in black. Two companies of soldiers, commanded by Maj. Dickey, and the military of the city, attended the remains to the grave, where the final service of the Episcopal church was observed, followed by the military exercises, which terminated with the mournful sound of the "last" by a bugler. The scene was impressive.

FOUR MARRIAGES.—Marriage of Lieut. Hall—Things Done. Our Carrington correspondent says Lieut. Hall, of the 10th Cavalry, recently visited Live Oak county, and returned with a bride, in the person of the lovely and accomplished Miss Herring, daughter of Capt. W. H. Herring, Lieut. Hall owns a large estate on the Nueces, east of Carrington, and is well known in this county. Lieut. Hall is a son of Mrs. Hall, whose death was recently reported by our correspondent. "M. A. B." He is a young man of fine qualities, and will be remembered by many of our citizens, having formerly resided here.

Local opinion and things in general are booming in Eden No. 2.—A good school is flourishing.

PREEDY JUSTICE.—John Reyes Sent Up For Twenty Years For Taking the Life of Bruno Hidalgo. In the district court yesterday, a Mexican, Juan Reyes, was tried for the murder of Bruno Hidalgo, about four miles east of the city, the 24 of this month. The circumstances under which the killing took place have already been fully given the readers of THE EXPRESS. The two men were in camp, having employed as wood-choppers by Messrs. E. H. Herring and Disposition. A dispute arose over an account of \$5, which Reyes had settled for Hidalgo. There were present at the trial, a son of Reyes, aged eleven years, and the wife of Hidalgo. Reyes shot Hidalgo, and smashed his skull with an ax. The son of Reyes, a bright boy, and very sharp, was placed on the witness stand yesterday to testify in behalf of his father, and was his only witness. He stated that Hidalgo first assaulted his father with a large knife, when his father shot him. The wife of Hidalgo told the same story concerning the affair, but made the case a very hard one for Reyes. The boy's testimony about the knife in the hands of Hidalgo was the strongest evidence against the defendant. The case occupied the attention of the court for the entire day, and was decided about 8 p. m. by a jury returning a verdict of guilty, and sentencing Reyes to a penitentiary. He accepted the judgment, and expressed a desire to continue serving his time out without a lawyer. He was ably defended by Messrs. E. H. Herring and John H. Copeland, whose efforts for the defendant were admirable. It was his first case in the district court, both being young attorneys.

Reyes is one of the hardest looking creatures the reporter ever saw. His face bears every mark, almost of the unscrupulous villain, and brutal assassin, who would do any and every thing to get his money, a fellow being than to perform the most ordinary and common acts of every day life. Being ignorant, and unable to speak or understand English, he of course, in the manner of his trial, and sat mutely and inactively with an air of indifference, while his lawyer, "Bill" Herring, conducted the case.

District Attorney Cooke and Thomas S. Harrison conducted the prosecution.

Music and Musicians.—It is rumored that a well known local singer and a prominent lady vocalist will be married shortly. A new mixed chorus will be organized. Prof. Katzenberger has started a musical conservatory on a small scale, but expects to build up.

The Bohemian, Arion and Tontona singing clubs of this city, will visit Galveston to compete in prize singing at the approaching season. A strong effort will be made to bring the next season to San Antonio.

A lively move for Mexico. The International is completed so far as grading is concerned, and will move south of the city. Work was commenced from this point toward Laredo last Wednesday, and the most teams which can be found are being employed. So far the contractors know nothing of running to Comargo, but all is in a lively move toward Laredo. From Laredo the move will be right on for the City of Mexico. This is reliable information.

Our Old Favorites.—The Fay Templeton Star Alliance made their first appearance at the Casino last evening, and were well received. They are all favorites here, and will be glad to see the many friends of our people. Reservations should be secured early, at Hart's.

Acquitted.—A few weeks since, very interesting court trial was held in this city, Lieut. Fielding L. Davies being the accused, and although the prosecution was well made, the fact was, we are credibly informed, and the many friends of Lieut. Davies will be glad to learn, that he has been acquitted of all charges against him.
