Be Prepared to Weather a Storm.

THINGS may be going well with you today. You may have a fine position. Your business may be prospering. You may be in the full vigor of youth and health. Of course none cares to look on the dark side. But it always is well to be prepared for a change in the tide. The greatest preparation is a healthy bank account. Drop in and see us about an account. We'll gladly talk it over.

From the Oil Fields

A. J. Jones, of the Home Refinery Co., was in Artesia the greater part of last week. He is elated over the prospects of success at the Altus well. He professes to believe that in ten days they will be pumping oil in paying quantities from this well. He wagered a box of cigars on this opinion, and is ready to wager something more valuable.

Two oil men from Bartlett, Okla., accompanied by a geologist have been in town about three weeks. Like all the oil men they are riding over the valley every day in the effort to satisfy themselves concerning the oil prospects hereabouts. It is a good guess that all the explorers, past and present, are satisfied with the pros-

pects and are in fact trying to secure leases in promising localities.

W. L. Christiana and V. S. Welch, of Robinson, Ill., have been in town several days. They represent extensive interests and are making an exhaustive investigation of the oil situation throughout the whole valley. They are oil men of large experience and they will remain here until their information is complete. They are characteristically reticent, but say unqualifiedly that things look good here.

The people who go about with the word "confidence" written in big letters across their countenances are the people who are drilling the Lincoln Oil Co.'s well at Lake Arthur. They have succeeded in

casing off the water and are pounding away day and night. They are in the immediate vicinity of the "oil sand" and expect any day to reach oil. They are sanguine that they will be the first company now drilling in the valley to reach the coveted prize.

World-Wide Events

A new motor called the Liberty motor has been constructed for airplanes which it is claimed will give the U. S. flyers supremacy in the air. It is the product of the best mechanical and engineering brains in the country and its tests have met with gratifying success. The manufacture of these motors on an immense scale will begin at once.

Immense crowds joined in an anti Germany demonstration at Buenos Aires, and the German legation and German newspaper buildings were stoned. In spite of a strong mounted guard the mob broke all the windows in the office of the newspaper La Union. The German club and a German newspaper building were set on fire.

Frost visited the great lakes region Wednesday night and extended into parts of Illinois and Iowa. In Michigan it was estimated that the corn, bean and potato crops were damaged 30 per cent.

Fort Sumner won the fight for county seat in the new county of De Baca.

The civil and military authorities of Deming clashed last week over exorbitant prices charged in some of the stores, but the Chamber of Commerce took it up and it has been satisfactorily settled.

Tucumcari is going after the aviation camp with a determination to get it, and has sent a committee of four to Washington to see what they can do towards landing it.

F. O. Imboden near Mountainair, has refused \$10,000 for his stand of beans on 125 acres. This is at the rate of \$80 an acre, yet he figures he will make money by harvesting them himself.

The state military institute at Roswell opened last Tuesday. The applications for admission were so numerous that the institution will be taxed to its capacity to care for the students. Until the accommodations are enlarged there will be about three students for every room.

A Juarez paper publishes a story to the effect that Villa would surrender if safety and forgiveness were promised him.

Wedding of Whilom Artesians

The Daily Eagle, published at Enid, Okla., gives an account of the wedding of Miss Bernice Freeman and Mr. Glenn Beach of Hollis, Okla. The wedding took place, according to the Eagle, at the home of the bride's parents, Mr. and Mrs. E. F. Freeman of Enid on August 5th.

Speaking of the contracting parties the paper says:

"The bride, although she has lived here but a short time, has made a circle of warm friends. She has a contralto voice of unusual richness, and graduated in voice from Drake University, Iowa, studying afterwards in Denver

with Bessie Fox-Davis. She was a member of the Madrigal club here. Mr. Beach is the proprietor of the Kee Da hote at Hollis, and he and his bride will make their home there.

To School Patrons

The time of the opening of schools has changed some this year and consequently it is a little difficult for all children to get acquainted with the hours. I shall endeavor to make clear the changes, that parents may be able to cooperate with teachers to bring about the best results.

Pupils may come to the high school at eight o'clock, but not before, unless they come from the country. Upon arrival all are required to go directly to work. Our hour for beginning work is 8:30. At noon pupils are not admitted to the ground or the building until 1 o'clock.

No child should be allowed to start back to the school before 10 minutes of 1. Where the homes are close to the building they should not be allowed to start back before 1 o'clock. I ask the parents' co-operation in this that we may have no street loafing either about town or near the building. It is better for students to come to school in the morning with minds on their work, and at noon, also, than to come with minds full of everything but work. The play can be given after school hours.

For the fifth, sixth, seventh, and eighth grades I have the same request about the morning hours. At noon they will be permitted to return at 15 minutes of 1 o'clock.

In the first four grades the hour is 9 o'clock in the mornings. In almost every case in town the little people can be started at from 8:30 to 8:40 and reach school at just about the right hour. It will not be advisable to have them start before 8:30. If the first four grades are kept away from the building and off the streets as far as is possible until after 8:30 or as near 9 as practicable, the upper grades of the building are at work by this time and the little fellows are more apt to get on better and be less molested. The teachers of the building will appreciate this kindness on the part of parents.

Why the Advocate is Late

The Advocate made its appearance three days late last week, and the prospect at the present writing points to a similar experience this week.

The cause is a lack of power to operate the presses. The

machinery is operated by electricity furnished by the local light and power plant which is out of commission a good portion of the time. One engine is disabled and waiting for a part of its mechanism to come from the factory.

Is Germany Ready to Quit?

It is thought by many well informed persons that Germany will before very long make overtures for peace. The feeling will not down that the central powers are beginning to be discouraged and disheartened, and that right now they are discussing the most diplomatic form of a peace proposal.

Before the United States got into the fight Germany was getting the upper hands, and she knew it. France was getting exhausted in men, money and munitions, and England was having trouble to finance her allies. But Uncle Sam's entrance into the contest, while it was at first sneered at, has changed the situation and hope has turned to fear.

Germany could have proposed conditions for ending the war with much less embarrassment if she had not done so much bluffing and kept her people in ignorance of the real condition of things. Without a doubt Germany would be "ticked to death" to have all territory just where it was at the beginning of the war if that would bring peace. But she well knows that a peace proposal which did not include reparation to Belgium and France would not be accepted.

Without a doubt also Germany would be willing to make this reparation if it could only be done in a way to prevent an internal revolution or not be too inconsistent with three years of bluff and prevarication.

Sweden Real Wrathy

From the beginning of the war Sweden has professed to be neutral, but the allies have noticed that her neutrality was of a very friendly quality—for Germany. When it was found that the greater part of the exports to the so called neutral nations were finding their way into Germany the U. S. government limited the exports to actual necessities. Sweden made a healthy roar. Since it was recently discovered that the Swedish minister at Argentina had aided the German representative to send secret messages through Sweden to Germany the exports have been reduced still more.

Sweden is now trying to appear real wrathly but doesn't say what she is going to do about it.

The Right Kind of Stuff

At a meeting of the American Bar association recently held at Saratoga Springs, N. Y., Chief Justice Andrew A. Bruce, of the supreme court of North Dakota, one of the speakers, aroused enthusiasm when he said:

"I speak from the viewpoint of the foreign born. I and millions of others like me, came to this country alone, without money and without friends. We sponged on all that America had, her free lands, her free schools and above all her spirit of open hearted comradeship. She owed us nothing but she gave us all. We swore allegiance to her flag, her constitution and her laws. We would be recreants, ingrates, perjurers and curs if in this hour of her need we counselled with her enemies and were disloyal to her cause."

HOT TAMALES

We have near-showers most every day. All they appear to lack is water.

During the prolonged dry spell how would we have gotten along without hose!

It is a rather desperate condition of things when every one would enjoy the sight of mud.

Sater and Jupiter Pluvius must be at least distantly related for they are equally fitful and stingy with their juice.

Every thing has its compensations. The ladies who spend their time working for the Red Cross are learning how to sew and knit.

We learn from Petrograd dispatches that Gen. Guchkoff will join forces with Gen. Korniloff if he is not prevented by orders from Gen. Calhlimoff.

According to reports from some of the large cities coal is from fifty cents to a dollar a ton higher than it was before government reduced the price.

Old Mother Hubbard she went to the cupboard to get her doggie some meat; but owing to conservation there was no reservation and the doggie had nothing to eat.

The stories of German atrocities and barbarity would suggest that after the war Germany would be a fruitful field for missionaries. Turks or Fiji Island cannibals would do.

If this conservation business, as applied to eating, keeps up much longer the big extension tables that have so many years done service in the dining room will be permanently superceded by the family sewing table.

Premier Kerensky of Russia has deposed Gen. Korniloff as commander of the Russian army and named Gen. Klembovsky in his place. The names of some of the Russians are more formidable than euphonic.

"What is rarer than a day in June?"

Asked the poet, as all will remember; And we hereby suggest for reply: A New Mexico day in September.

And now Sweden has become involved in a diplomatic scandal. The Swedish representative at Argentina either played into the hands of the Germans or was bamboozled by the German representative. The Germans are expert bamboozlers and Sweden appears to be a willing victim.

We recently told a little story, strange but true, under the heading, "Names is Names." Now comes Read Bertrees, who first being duly sworn deposes and says that in Pittsfield, Ill., where he came from there were two business partners named Johnathan Holder and Solomon Kissner. Ordinarily we should say that Bro. Bertrees had eaten a hearty supper and had dreams, but when he flashed his "happydavid," as the boy called it, we had to accept his offering at its face value. A Panorama of Telephone Activity

A bird's-eye view of this country today would show a panorama of countless military and industrial activities. Here the smoke of a thousand stacks obscures the view of arsenal, steel and iron works and innumerable factories. There the sun's rays flash upon thousands of glittering bayonets and rise and set on many new and strange looking cities—the mobilization camps of the armies of the Republic, or gild the wings of swift aeroplanes gliding to and fro in bird-like flight over broad aviation fields. The National Capitol would be seen, from which all these vast enterprises are directed and co-ordinated, with hundreds of telephone lines radiating from it to all parts of the country, and linking it to each military and industrial center. A veritable maze of other telephone pole lines, covering the whole country with a net-work of wires, would be visible, connecting city, town, camp, fortification, navy yards, military headquarters, coast-guard stations, and lighthouses. Everywhere busy groups of telephone workers would be disclosed erecting poles and stringing wires to meet new and extraordinary demands for service. All this telephone activity is but a part of the vast work the Bell System is doing. Join us in this patriotic service, by remembering that the more careful you are to make only telephone calls that are necessary and to confine your talks as much as possible, to the less busy hours of the day, the better we can meet the needs of the Nation.

This young lady is seven months old and so far is distinguished by being the youngest child on the entire list of members. Let others give the names of their children and thus identify them with this great work."

Plans to add thousands of workers to the American Red Cross in the Northwest have been launched by the Northern division. Red Cross auxiliaries will be organized in every church, patriotic society, fraternal organization, civic organization, labor union, school and college and club in Minnesota, Montana, North Dakota and South Dakota. Employees of industrial and commercial concerns will be urged to unite into groups for Red Cross work.

Oil News Hard to Get

There are people who think the Artesia papers should devote more space to oil news. These people are not aware that the papers publish all the news they can get. News concerning the oil interests does not come like water through a hose. The only men who can give anything reliable or authentic are the lease owners and operators, and these men are not telling all they know to Tom, Dick and Harry. If in pursuance of their work they make any important discoveries, they naturally want to avail themselves of all the advantages to be derived from that discovery. One can mew and pur around an oil operator and rub against him like a pet kitten for hours, then ask him a leading question about his oil interests and his facial aperture will suddenly close like a clam. You might as well ask him what he said when he proposed to the girl he married.

The Advocate makes an honest effort each week to get all the oil news. It goes to the only source it knows to find what is going on, and prints what it finds. If it found more it would print more. But none of the Advocate force has a bird dog's scent or instinct, and it will not make up a lot of frothy stuff and print it under flashing headlines just to appear sensational.

When any of the companies drilling for oil in this vicinity makes a strike, the Advocate expects to be apprised of the fact, and will then tell the whole story. Until then about all it can say is that things are going on smoothly and that there is no use in getting excited.

Union Red Cross Service

There will be a union Red Cross service at the Methodist church of Artesia this coming Sunday evening. The service will begin at 7:45 o'clock, and the program will be of interest to all. There will be addresses, short but able, upon all subjects connected with the work of the Red Cross, and these interspersed with select music. The following is the program which is free; no collection will be taken:

Prayer—Rev. J. W. Harrison. Singing—Male Quartette. Address—Rev. J. B. Cochran, "Seriousness of War, and its National and Local Application."

Singing—Junior Girls' Chorus. Address—Rev. J. W. Harrison, "My Experience in Red Cross Work."

Singing—Mixed Chorus.

Remarks—Mrs. J. B. Atkeson, "The Local Red Cross."

Address—Rev. Buren Sparks, "The Present Emergency, and What it Calls For"

Vocal Solo—Mrs. Martin Yates.

Apple Shipments Begun

Six cars of apples were shipped from the station the past week, the most of them coming from Hope. One car came from the C. A. P. ranch and one from the Wm. Kissinger farm. The cars were billed to San Antonio, El Paso, White-water and Pecos. On account of the scarcity of boxes many apples are being shipped in baskets, and still more in bulk. The bulk shipments are not sorted but are all sizes, just as they came from the trees.

The apple crop is good and poor in spots. Fruit on trees that were irrigated in early spring and had a good growth of leaves was not seriously injured by the early May frost, but trees with meagre foliage lost a good share of their blossoms.

Hope expects to ship about 150 cars of apples, and Artesia

Patriotism of Woman's Club

The Woman's Club of Artesia has joined the patriotic procession and taken its place in the ranks of Red Cross workers. At their last meeting the members of the club voted to abandon the study program that had been arranged and substitute Red Cross work.

The meetings will be held as usual, and as soon as called to order one of the members will read a story, or something of her own selection, and all the other members, while listening, will sew for the Red Cross. There will be two readers for each meeting, in turn. This program will continue indefinitely.

This is a very generous act on the part of the ladies composing the Woman's club and

one that will meet with universal commendation. It is patriotism, pure and practical.

Uncle Jake Returns

Uncle Jake Kissinger and Mrs. Kissinger who spent the summer at Hastings Neb., have returned. They report a cool summer in Nebraska with very few really warm days.

The winter wheat crop was a failure and the wheat was plowed under and the land planted to corn. The corn is a good crop, much better than usual, but it is also later than usual and is in danger of being overtaken by frost. If it ripens it will make one of the biggest corn crops Nebraska ever had.

Should Fill the Building

It is to be hoped that the people of Artesia and vicinity will turn out handsomely to the Red Cross union service at the Methodist church Sunday evening. The interest of the people of Artesia in the Red Cross is less than it should be. There is no town about us that has not done more for the Red Cross, in proportion to its population, than Artesia. Even Hope with less than one fourth of our population has made a better showing. We need an awakening; something that will make us do a little serious thinking.

Every one who can should hear the addresses Sunday

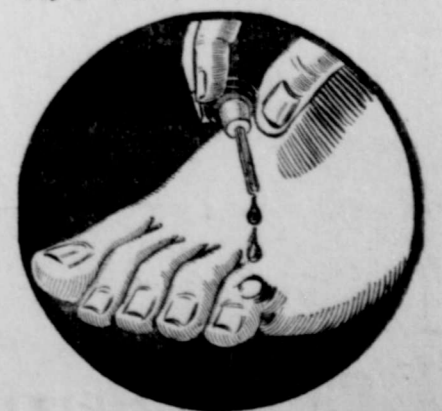

evening. They will be instructive and inspiring, and incidentally there will be an entertaining program.

In abandoning their regular services and joining in a union service in the interest of the Red Cross the ministers of the city have shown a commendable patriotism. Will the people be patriotic enough to go and hear them?

"Gets-It," 2 Drops, Corns Peel Off!

For 25 Cents Peel Off 25 Corns.

"Gets-It," the greatest corn discovery of any age, makes joy-walkers out of corn-limpers. It makes you feel like the Statue of Liberty. Buy a "Liberty" bottle of "Gets-It!"

"It Will Come Off in One Complete Piece!"

right now—free yourself at once from all corn misery. It will peel off painlessly, in one complete piece, any corn, old or young, hard or soft, or between the toes, any callus, or any corn that has resisted everything else you have ever used. Or it comes like magic. Guaranteed.

All you need is 2 or 3 drops of "Gets-It," that's all. "Gets-It" is the only safe way in the world to treat a corn or callus. It's the sure way—the way that never fails. It is tried and true—used by millions. Never irritates the flesh or makes the toe sore. It always works: peels-corns-off-like-a-banana-skin. 25c a bottle as all you need pay for "Gets-It" at any drug store, or send on receipt of price by E. Lawrence & Co., Chicago, Ill.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak... I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Theford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly aggravated by a constitutional condition. It therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Notice of Contest.

Department of the Interior,
United States Land Office.
Contest No. 9724.
Roswell, N. M. Aug. 15, 1917.

To James Sherwood of Dayton, New Mexico, Contestee:
You are hereby notified that Gideon M. Boyd, Jr., who gives Lakewood,

New Mexico, as his post-office address, did on July 16, 1917, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead Entry, Serial No. 027407 made July 7, 1914, for N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 14 and N $\frac{1}{2}$ NE $\frac{1}{4}$, Section 15, Township 19 S., Range 25 E., N. M. P. Meridian, and as grounds for his contest he alleges that said entryman has willfully abandoned said homestead and changed his residence therefrom for more than one year last past and since making said entry. That said tract is not settled upon, cultivated and improved by said party as required by law.

And that said alleged default was not due to service in the Army, Navy or Marine Corps of the United States or in the National Guard of the several States while in the service of the United States, or any military service rendered in connection with operations in New Mexico, or along the border thereof or in mobilization camps elsewhere.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.
