FRIDAY
The Sunshine Class meets with Mrs. Sidwell at 2:30 p. m.

TUESDAY
The Methodist Missionary Society meets at the parsonage at 10:45 a. m. for study of the Conference Minutes. Each lady is requested to bring a dish of food for a covered dish luncheon at noon.

The Second Bridge Club meets with Mrs. Aubrey Watson at 2:30.

The Tuesday Evening Bridge Club meets at the Dr. Clarke home.

SURPRISE PARTY
A dozen friends gave Mrs. V. L. Gates a surprise party yesterday afternoon. The ladies met at the home of Mrs. E. N. Bigler and went in a body to the Gates home, and succeeded in giving Mrs. Gates a complete surprise. The afternoon was devoted to bridge and ice cream and cake were served by the guests. Those composing the surprise party were Mesdames Withington, Wheatley, S. D. Gates, G. R. Brainard, Wm. Knorr of Illinois, Corbin, Russell, Brooks, J. J. Clarke, Bigler and Walter Ferriman.

BRIDGE LUNCHEON
Mrs. J. H. Jackson entertained at the first of a series of two bridge luncheons on Tuesday at one o'clock. Mrs. W. H. Withington of LaPryor, Texas, and Miss Dora Russell, who leaves today for California, were honor guests. The luncheon was served in two courses, Mrs. F. G. Hartell assisting the hostess. In addition to the honor guests there were present, Mesdames Atkeson, V. L. Gates, S. D. Gates, Russell, Mann, C. E. Brown, Kimbrough, Perry, W. C. Martin, Wheatley, Hartell, Albert Richards, Seale and Blocker.

BRIDGE CLUB
Mrs. E. J. Brooks was hostess to the Second Bridge Club last week and entertained an extra table of guests. There were also three substitutes. Refreshments were served in two courses. The special guests were Mrs. Withington, Mrs. Wheatley, Mrs. V. L. Gates and her guest, Mrs. Dobson of Winfield, Kansas. Mrs. M. H. Ferriman and Mrs. J. J. Clarke and daughter, Miss Katherine Clarke, were substitutes.

MISS DORA RUSSELL HONORED
Mrs. Chester Russell was hostess to three tables of bridge Tuesday evening, complimentary to Miss Dora Russell, who leaves today to attend the summer session of the California State University at Berkeley. The Russell home was attractively adorned with flowers in a color scheme of pink and white, the same color motif being used in the tally cards. A salad course and a sherbet course were served by the hostess, assisted by Mrs. J. J. Clarke. Those present besides the honor guest were the Mesdames Esther Morgan, Ruth Morgan, Helen Mann, Vesta Frisch, Katherine Clarke and Marjorie Wingfield and Mesdames Floy Hartzfield, Price Gettinger, Dayton Reecer, Lewis Story, Landis Feather, J. J. Clarke and the hostess.

THE BLACK CATS HAVE AN OUTING
Rev. Simmons, who is teaching the Black Cat class of the Baptist Sunday school this summer, took the "bunch" on an outing to Black River last Thursday. The boys had the time of their lives for a couple of days, although they caught only enough fish for one mess. The boys who went were Noble Littlejohn, Arthur Peyton, J. W. Brown, Wayne Withers, Herman Jones, Jr., Wilbur Stewart, Ira Stewart, Dorris Ransbarger, Jack Cunningham, G. W. Beal and Russell Simmons.

Calling cards, 100 for \$1.75, paneled stock.—The Advocate.

DE AUTREMONT BROS. LEAVE FOR JACKSON CO. OREGON FRIDAY

COLUMBUS, O.—Roy and Raymond DeAutremont left here Friday for Jackson county, Oregon, where they will go on trial on four charges of murder as a result of dynamiting a mail car in a daring train robbery attempt.

The notorious twins were in custody of Sheriff Ralph G. Jennings and his son, a deputy, and two postal inspectors as they started the long westward trip.

"Guess I'll go home now and get some good Oregon cherries," Ray DeAutremont remarked after he and his brother had been measured and photographed here.

"Two years more and we would have been safe" Ray added regretfully.

The two men were arrested ten days ago in Stuebenville after a search of nearly four years by federal officials and police.

THE AUTOMOBILE AT THE RAILROAD CROSSING

(Santa Fe Bulletin)
In the United States 22,046,957 automobiles are registered. There are 232,755 railroad-highway crossings.

In 1926 there were 2,492 persons killed and 6,991 injured at railroad-highway crossings. In the same period 20,819 were killed and 600,000 injured in automobile accidents upon our highways.

The elimination of railroad-highway crossings at grade would end crossing accidents. Generations of time and \$19,000,000,000 are involved in this project.

Ratio of killed and injured to automobiles registered:
One fatality at railroad crossing to 11,201 cars.
One fatality on highway to 1,001 cars.

One injury at railroad crossing to 3,381 cars.
One injury on highway to 39 cars.

All public crossings are marked by crossing signs. Many have advanced warning signs.

202 persons were killed and 1,430 injured by running into sides of trains last year. Automobile accidents at railroad crossings resulted in the death of 50 and injury to 69 passengers and employees on trains.

Railroad engineers are trained, selected, disciplined.

Are automobile drivers—?

"The goods the preacher delivers must be met by the customer half way."

The strumming of a "uke" and gay young voices singing the latest "hits" announced to the townspeople last Thursday night that the younger set were beginning to liven things up for vacation time. A delightful "hen" picnic was held at the Oasis and no dates were allowed on the premises. Peggy Mitchell presided at the piano and the early part of the evening was spent in dancing. Guinn Martin and Lola Ward entertained the guests with a special dance. A large bonfire was built and until an unmentionable hour eating and sport telling was the main outdoor sport. The guest list included: Irene Rehberg, Elaine Feemster, Irena Vandever, Mary Vandever, Velma Richards, Martha Coffin, Lola Ward, Adele Ohnemus, Mozelle Gable, Ella Brown, Marjorie Wingfield, Helen Bullock, Bertha Richards, Marguerite Meek, Guinn Martin, Nettie Ruth Sledge, Peggy Mitchell, Eloise Albee, and Patsy Bynum.

LOCALS

Mrs. Stockard and Miss Naomi Medcalf were visitors from Hope yesterday.

Mr. and Mrs. Lewis Story and children motored to Roswell Tuesday on business.

A daughter was born to Mr. and Mrs. Louis Cole yesterday morning, the 22nd inst.

The Misses Williams, Ruth French and Oleta French were in town from Hope yesterday.

Lawrence Williams has returned from Rankin, Texas, where he has been working on a pipe line.

Dr. Puckett, county health officer was in town Tuesday from Carlsbad. His family accompanied him.

Frank Seale and family and Lewis Story and family attended the Artesita-Loving ball game in Loving Sunday.

Mr. and Mrs. I. C. Dixon left last Friday by auto for a visit with Mr. Dixon's brother and family at Snyder, Texas.

The Misses Ruth Reddy, Verna Reddy and Perry Hill and Cavett Jackson made a trip to the Carlsbad Caverns Sunday.

Mrs. Wm. Knorr and three small boys arrived from Illinois Monday for a visit with her parents, Mr. and Mrs. G. R. Brainard.

Mrs. Dewey Hester and little son, Walter Lee, of Brownwood, Texas, came Wednesday morning for a visit with her sister, Mrs. M. A. McLean and family.

Mr. and Mrs. J. S. Sharp and their daughter, Mrs. Marie Walsh, and young daughter, Dorothy, from Kansas drove up to the Sacramento camp today to spend a few days in the Sharp cabin.

Mr. and Mrs. G. P. Whithorn are enjoying a visit this week with Mr. Whithorn's half brother, Mr. James E. Morrison, of Los Angeles, California. This is the first time the brothers have met for about forty years.

The New Mexico Construction Co., of Albuquerque, was awarded the contract for the paving of several blocks in the residential section of Roswell, at a meeting of the city council held at Roswell Monday evening.

Mr. and Mrs. Horace Brown return to Clovis today after a few days' visit to Mrs. Brown's uncle, E. T. Jernigan, and family. While here Mr. and Mrs. Brown enjoyed a fishing trip and a visit to Carlsbad Cavern.

Mrs. Varner and daughter, Mrs. Henderson, who had been visiting Mr. and Mrs. Clint Rice, have returned to their home at Wichita, Kansas. Mrs. Varner is the mother and Mrs. Henderson, a sister, of Mrs. Rice.

Mrs. Allinger was called to Albuquerque last Saturday to be with Mrs. George Williamson, whose husband was lying at the point of death. Both Mrs. Williamson and Mrs. Allinger returned to Artesia Tuesday with Sid Cox.

Rube Dunn and family and their house guests, Miss Nettie Ruth Sledge, niece of Mrs. Dunn, and Mrs. Preston Dunn are spending the week at Ruidoso. They will also visit Aubrey Dunn and Mrs. Dunn at Alamogordo.

W. W. Dobson and family, who had been visiting the Rex Wheatley family left last week for their home in Winfield, Kansas. Miss Jeanne Wheatley accompanied them as far as Amarillo, Texas, where she is visiting relatives.

Mrs. Lena Parsons and son J. E., of Lockney, Texas, arrived in Artesia Saturday for a visit with Mrs. Parsons' sister, Mrs. W. E. Ragsdale and they plan to spend several weeks at the Ragsdale cabin in the Artesia Sacramento camp.

Leave your kodak rolls at Rodden's. In at 9 a. m., out at 5 p. m.

DOWN TO THE SEA IN "HYDROCYCLES"

Victor Astori and Leopoldo Ghersi, noted cyclists in the Argentine, riding in a "hydrocycle" built for two which they constructed themselves. It is able to make 15 kilometres an hour if one is willing to spend the effort.

Vivian, the little daughter of Mr. and Mrs. W. T. Hademan, who underwent an operation for mastoids at the St. Mary's hospital in Roswell, Saturday, is reported to be recovering very nicely.

Mr. and Mrs. Ben Pior drove to El Paso last week with Mrs. Pior's sister, from Wellington, Texas, who had been visiting a sister in Roswell. The sister entered the Homan Tubercular Sanitarium and at last reports was improving.

Rex Wheatley and family leave tomorrow to spend his vacation with relatives in Amarillo, Texas. Virginia and Helen Meredith Gates will accompany them to Clovis, where they will spend the week end with Rev. and Mrs. E. E. Mathes.

Miss Lucine Jones went last Friday to Borger, Texas to visit with Miss Margaret Tarbet. From there she will go to Madison, Wisconsin, to spend her vacation with home folks. Instead of teaching school next year she will attend the State University at Madison.

Mr. and Mrs. T. G. P. Russell and two small children arrived from Dallas, Texas yesterday to visit at the C. E. Mann home for a week or so. Mrs. Russell will be remembered by Artesians as Miss Bess Boyd, who was a resident of this community for a number of years.

C. C. Kearns, of Nowata, Oklahoma, was an Artesia business visitor Tuesday, coming here from Odessa, Texas, where his company has holdings. Mr. Kearns left Wednesday for Nowata, going back through the Texas oil fields, intending to be home for the Fourth.

Rev. and Mrs. L. R. Simmons and daughter, Neville, expect to go up to the Sacramento Camp Saturday and will be guests at the Evans cabin for several days. Rev. Simmons will preach for the people of Weed in the Methodist church there on Sunday both morning and evening.

Dr. Clarke attended the meeting of the State Board of Dental Examiners in Roswell last Thursday, Friday and Saturday. He returned home Sunday accompanied by his friend, Dr. Moran of Deming. On Monday the two dentists returned to Roswell to attend the meeting of the State Dental Association, which was in session Monday, Tuesday and yesterday.

Do you need distillate? Call 12-16-tfc-61

MINES BUREAU DIRECTOR HERE

Scott Turner, director of the Bureau of Mines, of Washington, D. C., is in Carlsbad today and will visit the cavern tomorrow. Mr. Turner is here on official business, with relation to the tests for potash being made in west Texas and this section of New Mexico by the Bureau of Mines, cooperating with the U. S. Geological Survey.

Under direction of Engineer James S. Wroth, the government's second test in southeastern New Mexico is reported completed, though no announcement will be made at the present time of the character of the core brought out.—Current-Argus.

CALENDARS—Call and see samples before you buy—Advocate.

HELD ON BOOZE CHARGES

John N. Shoop again faced the law on Saturday of last week, when the sheriff's force brought him in on charges of possession of liquor for purposes of sale or gift. He had two five gallon kegs of whiskey and eleven pints of "red liquor" when arrested. He gave bond of \$500 to appear before the district court.—Carlsbad Current-Argus.

OIL FOUND WEST OF PECOS RIVER

The following article which appeared recently in the Amarillo News may serve to strengthen the optimism of those who believe oil in commercial quantities may soon be uncovered west of the Pecos in Eddy county.

There used to be a saying in West Texas that there is no oil and no law west of the Pecos. The law part of it was cared for years ago, the Yates pool disproved the "no oil" theory and now production seems assured in the very bed of the river which at one time formed the western limit of civilization in Texas.

The Allsman and Bell No. 1 Pecos River Bed stood with a hole full of 30 degree oil past 1,037 in soft gray lime late the past week and had made a five-barrel head. This was probably the outstanding development in West Texas oil circles during the past week, although the race to the pay in the hot strip in Crane county has been a rather warm sector. Pecos county continues to be the hotbed of the independent operator, and new drilling blocks are being worked up all over the county the reports say.

Six more locations were made on the strip linking the Gulf-McElroy pool and the university pool in Crane county and three more wells were brought in during the week, two by the Landreth Production company and one by the Simms-Atlantic. The Landreth Production company No. 1 made 111 barrels in the first twenty-four hours from a depth of 2,990 feet. Landreth number 2 scored 1,529 barrels in the initial 24 hours from a depth of 2,910. Simms-Atlantic No. 2B University, produced initially 24 barrels of oil a day and is to be drilled to the 3,000 foot level. The other wells on the strip are being carried down rapidly.

In Crockett county the P. H. Williams and family No. 1 Powell, continues to show well, swabbing 555 barrels in one nine-hour period and at another time producing with the swab 475 barrels in four hours. The well is to be deepened from its present total depth of 2,590.

The Texon-Marland Harding in Howard county placed on the pump gave up in nineteen hours pumped 30 barrels oil and 125 of water.

What may be a new pool is the probable result of a well rated as good for ten barrels daily brought in in the north part of McCullough county, Lehman and Van Beber, independent operators, being the producers.

The Pecos River Bed well of Allsman and Bell is located on a 12 miles stretch leased by the Ozona Development company for 10 cents an acre, and another location a mile and a half north of the well is reported to be planned. The well is producing oil from a sand struck at 955 and penetrated to 990 feet. At the latter depth the bit passed into a lime and anhydrite and that changed to the soft gray lime. The dark lime from which the heavy production is secured on the seven wells of the Mid-Kansas and Trans-continental beginning a mile to the west, has not been struck. Some are of the belief it will be struck at 1,050 to 1,060, but the nearest well in the Yates field is the IC Yates, a mile to the west.

The Pecos county field is pinched in now to about 5,000 barrels a day while the present six-inch line to the field is being paralleled by an eight-inch line, seventeen of the twenty-nine miles of which have been completed. The Yates No. 2B is the drilling well nearest the pay.

Feeding Hens Legume Hay Favored Plan in Winter

Legume hay, either cut in one-half inch lengths or left in its natural form placed in a wire basket or box may be fed to laying hens during winter as a substitute for succulent green feed. The second and third cuttings of alfalfa are best for these carry, the most vitamins and proteins because they have a higher percentage of leaves, according to the New York State College of Agriculture at Ithaca, N. Y.

Quoting the Ohio experiment station, the college says that, from November to May, as good results were obtained from laying pullets confined indoors and fed legume hay as from those having access to an outside range of blue grass.

The hay should be carefully cured to preserve the green color for the valuable properties of the plant seem to be linked with the color. Alfalfa and clover leaf shatterings are often obtainable when these hays are fed to other animals.

The Ohio experiment station reports that no benefits were derived from ordinary alfalfa meal mixed in the mash at a rate of 5 per cent by weight. Whether the recent product, alfalfa leaf meal, will prove valuable like the hay, remains to be determined.

Another good way to feed the legume hay is to tie it in a bundle and suspend it from the ceiling within easy reach of the birds. The department says it is surprising how the birds relish the hay and the quantity they will eat.

Wedding Invitations and Announcements, engraved or printed—The Advocate.

BACK AFTER FOUR YEARS IN THE AFRICAN JUNGLE

Martin Johnson, noted naturalist and explorer, and his wife, Osa, who have just returned from Africa after spending four years in the jungles collecting specimens for the American Museum of Natural History. They are shown here in their hunting togs on one of Africa's veldts.

DAYTON ITEMS (Mrs. W. H. Rambo, Reporter)

We had a very nice rain Tuesday day night.

Miss Cass, of Lakewood was in Dayton Monday.

Price Rone was in Dayton Monday from the Harroun ranch.

Geo. Kaiser has been on the sick list but is improving now.

Louis Hellburg and Mr. Martin, of El Paso were in Dayton Tuesday night.

A few of Harry Turnbull's friends ate a nice birthday dinner at the Turnbull home Sunday.

Word was received from Mrs. Hoyt Owens, who is at the Carlsbad sanatorium that she is improving slowly.

Sunday Mrs. Jessie Thomas and family of Carlsbad spent the day with her parents, Wm. Sterling and family.

Mr. and Mrs. Brazil Gosselin and daughter, of Altus, Oklahoma, are visiting Mr. Gosselin's aunt, Mrs. J. D. Terry and family.

Shortie Moran and wife, returned from McComey Monday of last week and are now visiting with Katie's parents at Harroun ranch near Malaga.

A. L. Thomas, of Carlsbad, was calling on Dayton friends Saturday and reports the birth of a son to his granddaughter, Mrs. Floyd Ruppert of Carlsbad.

The Midwest Oil Co. Terry No. 1 has been shut down several days setting casing and cementing in to shut off water. They expect to resume drilling this week.

Mr. Fish, of Loving was found dead by his daughter, Mrs. Ingles, when she went to call him for breakfast. Mr. Fish was 64 years old and has been in bad health for some time.

J. C. Turnbull and son, Harry returned from their pleasure trip Saturday driving a new Chrysler coach. They went to Portor and Hamos Springs, this state and enjoyed the fine fishing in the mountain streams.

HEALTH NEWS

In 1926 there were twenty-six deaths from tuberculosis reported to the Eddy county health department. During the first quarter of 1927, there were seven deaths from tuberculosis reported.

Tuberculosis is a communicable disease and all active cases should be reported to the health department.

The health department can furnish literature that will tell people how to keep from infecting other people.

The Metropolitan Life Insurance Company has reduced the death rate from tuberculosis among its policy holders two thirds since 1911. They say, "the time is in sight when tuberculosis will no longer be the scourge of early adult life, but will assume a relative minor position as a cause of sickness and death."

The Eddy County Health Department wishes to do all it can to reduce tuberculosis.

Mr. and Mrs. Kelmer and family, of Oklahoma, accompanied by Mrs. Curry of Hagerman, stopped a short time with friends in Dayton Wednesday on their return from the Carlsbad Caverns. Mrs. Kelmer is a sister of Mrs. Curry.

Arthur Kaiser and bride, of California, who have been visiting friends and relatives in Dayton, left Monday for Kansas City, where they will spend several days, returning to the valley for another visit before going to their home in California.

Tuesday J. C. Turnbull and wife left for Panhandle, Texas to visit their daughter, Mrs. Juda and family a few days. They will also visit their son, Arden Turnbull and family at Elida and their daughter, Miss Mable Turnbull of Amarillo. Miss Mable may return with them for a few days visit with Dayton and Artesia friends.

Several friends gathered at the home of Rev. J. D. Terry Monday evening and enjoyed a nice supper. Among those present were Rev. Cochran of Roswell, Rev. Thomas of Loving, Rev. C. C. Higbee and family of Artesia, Mr. and Mrs. Paul Terry and family, Mr. and Mrs. Gosselin of Altus, Oklahoma, Mr. Bradshaw, Miss Turnbull, Mrs. Rambo and Miss Jane Terry

Long experience gives you these extra miles

DON'T think for a minute that the surplus of miles which you find in Summer Conoco Gasoline just happens to be there. Far from it. Conoco's extra miles are the result of over forty years' experience. The reputation and experience back of the Conoco name are your guarantee that Conoco is an unusual gasoline—the gasoline that is packed with extra miles.

DOW RULES THAT AMENDMENT NO. 2 SHOULD BE VOTED ON

SANTA FE.—That the constitutional amendment proposed by the last legislature, known as constitutional amendment No. 2 and providing for four year terms for state officials on alternate years should be held in November of this year as provided for by the legislature is the ruling of Attorney General Robert C. Dow in an opinion handed down Monday. The opinion was requested by Miss Jennie Fortune, secretary of state.

Dow's opinion quotes the part of the constitution which reads that a special election designated by the legislature shall be held not less than six months after the adjournment of the legislature and says that as the 1927 lawmaker made provision for a special election on a date more than six months from the date of adjournment the constitutional provisions have been complied with.

LOCALS

Mr. and Mrs. Ray Scoggins were in from Maljamar Tuesday.

Mrs. Floy Hartzfield arrived home last week from a trip to California.

Mrs. Harold Howard left last week to attend summer school at Las Vegas.

Mrs. John Runyan and children were in from the Runyan ranch Tuesday.

John Richards went to Roswell Monday to consult a specialist in regard to his eyes.

V. S. Welch returned Friday from Amarillo, Texas, where he spent several days attending to business matters.

Rev. Dowd is expected to return from Hot Springs Saturday and will occupy his pulpit at the Christian church Sunday.

Mrs. Una Hutcheon and little daughter, Helen, returned Tuesday from a visit to relatives at Mexia, Hereford and other points in Texas.

Mrs. H. C. McDade, who was operated upon for the removal of her tonsils in Carlsbad last Wednesday, has returned home, but is still quite ill.

Mr. and Mrs. Edson Jones returned the last of the week from their honeymoon trip to Clouderoft and Ruidoso, and left Monday for their home at Blue Island, Illinois.

Miss Lois Burns left last Friday for Los Angeles, California, where she has a position as stenographer for her uncle, Mr. Kenneth Burns, who is an attorney practicing in that city.

F. A. Berry, of Liberal, Kansas and E. H. Brettman, of Wichita, Kansas, officials of the Big Jo Lumber Co., are spending a few days here looking over the Big Jo properties.

A deal has recently been consummated whereby W. C. Hughes has traded his farm, adjoining the Artesia-Sacramento camp to Jesse F. Cook for a filling station located on the south highway.

Miss Leona Allinger, who is conference secretary for the Epworth League of the Methodist church, was in Loving and Carlsbad last Sunday in the interests of her work. She will go to Dexter next Sunday.

Dwight McCree, a former Artesia resident, who was a member of the 1927 graduating class of the Southern Methodist University at Dallas, Texas, has recently moved to Abilene Texas, where he has accepted the position of educational director and assistant pastor of the First Methodist church, under Rev. J. O. Haymes. Rev. McCree plans to return to school later and assume the benefits of his "Fellowship" which he won in the university.

"LOAFERS" AND FISHES

No, this is not a Bible story—rather is it inspired by a soft summer languor which enfolds even the energetic, if somewhat erratic, editor and wafts his thoughts away to placid lake and purling stream, to Craigie height and bosky dell, where lulled to sleep by the song of the busy mosquito, he dreams of the forty-pound bass and the many-hued rainbow trout of which he will tell his admiring yet doubting friends and family.

How sweet are vacation dreams; how smooth the roads; how quiet and vibrationless the swift onward rush of your car—just like the ad you read before you signed the mortgage for it. How tender and juicy are your camp biscuits contrived by your own two hands. How invigorating the black, muddy concoction which you politely designate coffee.

Punctures and blowouts, chiggers and nimble little wood ticks; sugar, coal-oil flavored, and smoky fires, burned potatoes and hard beds may be conveniently omitted from dreams in favor of glorius sunsets, limpid depths, rustling breezes, sweet-scented woodlands and other more poetic and pleasant vacation items.

There are, of course, other and more elite vacations. Those of the summer resort, the seaside and the board-walk variety, where the bodily contour becomes rounder as the purse grows flatter, where the night is filled with alleged music and "sweet young things" and others not so young.

In this great country of ours we have vacations for every taste; whether we choose to investigate the wonders of nature or witness a daily bathing beauty review; whether we would penetrate some mountain fastness or practice the intriguing black bottom. Vacations should not be prescribed by others but should be of personal choosing. They should follow our dreams, for what could be more aggravating than to dream of following a likely trout stream, "listening the while to nature's feathered songsters," and then wake up to the fact that we had been condemned by the family to gyrating over a dance floor to the wailing of a jazz orchestra. Or, on the other hand, what could ruin a sweet disposition more completely than to dream of wandering beside the sea with the golden-orbed moon o'erhead and a golden-bobbed maid on arm, and then realize that some nature-mad, friends had persuaded you out into the howling wilderness, fifty miles from nowhere, and a hundred miles from the nearest dance-hall, where the only girls you could hope to see in a day's drive would wear baggy-seated knickers and would probably invite you to stop and fix a couple of punctures for them.

Yes, pick your own vacation—far be it from us to influence you—but we have an idea that the boys who are still enough of boys to enjoy just plain "loafs" and fishes, have the best of the vacation bargain.

Sport Quickly Ended

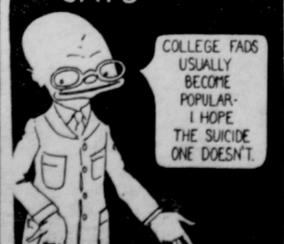

Very fond of hunting, Fred Hermann of Davis, Calif., is in doubt whether he should be regarded as fortunate or unfortunate. Hermann, who was out hunting for the first time this season, bagged two bucks with one shot. As the law allows only two a season, Hermann is through.

Something Wrong

Teacher—If your name is John Smith you must have your father's name.

Small Pupil—No, papa's got his name yet. I guess mine's counterfeited. —Pittsburgh Chronicle Telegraph.

BILL THE BARBER SAYS

HANNETT IS SERVED WITH CITATION TO TO APPEAR AUG. 2

Citation requiring ex-Governor Hannett to appear before the new Mexico board of bar commissioners was served at 2:30 p. m. Friday.

The order is in connection with the ex-governor's published comments on the fitness of Judge Reed Holloman to occupy the bench.

Local republican members of the bar were non-committal when asked to forecast the outcome of the hearing. Democratic opinion ran preponderantly to the belief that the republican majority on the board will try for a political victory by mildly disciplining both Hannett and Holloman, it being pointed out that Holloman will be told to desist from political activity, or the good of the party, and Hannett requested to file his grievances with the commission hereafter instead of giving them publication.

WILL KEEP RELICS IN OLD HOLYROOD

The ancient palace of Holyrood house holds the proud tradition of being the royal palace of the Scottish kings. David I, in 1128, founded an abbey in Edinburgh and named it Holy Rood. The monastery, which was built in the Norman and early Gothic styles, was dissolved in Henry VIII's time and the chapel became a parish church. James II of England made it a chapel royal in 1687, but it began to fall into ruins in 1708.

The adjoining palace, begun by James IV in 1501, was used as the residence of the king until the union. The present king and queen of England make it their abode when visiting Edinburgh. Now a trust has been established to preserve the many articles of historical interest gathered beneath the roof of the ancient palace, and the trust is empowered to add to this collection.—Kansas City Times.

HOPE ITEMS

(Noel L. Johnson, Reporter)

Dick McDonald is shearing his sheep.

Miss Callie Runyan will spend several days vacation in Oklahoma.

W. S. Medcalf returned last week from a trip through the Carlsbad Caverns.

Recent rains have started the grass and vegetation on the ranges, but more rain is needed.

Work on straightening the canal is underway, but has been slow on account of encountering so many rocks.

D. E. Brownlie, John Paul and daughters, Lillian and Beulah, of El Paso, have been visiting in Hope for several days.

Joe Fanning has been in for a few days, preparing to assist in establishing the Girl Scout camp at Bear Canyon.

J. G. Gridgeman and wife and Paris Damewood have returned from California where they have been spending a vacation.

The water in the Penasco has increased considerably the past few days and farmers have plenty of water for irrigation.

A young couple that had received many valuable wedding presents established their home in a suburb. One morning they received in the mail two tickets for a popular show in the city, with a single line: "Guess who sent them."

The pair had much amusement in trying to identify the donor, but failed in the effort. They duly attended the theatre and had a delightful time. On their return home late at night, still trying to guess the identity of the unknown host, they found the house stripped of every article of value. And on the bare table in the dining room was a piece of paper on which was written in the same hand as the enclosure with the tickets: "Now you know!"

In Great Hotels Where Breezes Must Not Fail

See The Emerson Today

SERVING the hotel guest is a tough job for any fan. Its hours are long. Its season is long. And its performance must always be perfect.

No wonder so many prominent hotels turn to the Emerson Fan with its 5 year guarantee. Here they know they can find unusual economy, long life, reliability and service, because Emerson fans are different—the only line of fans with a 5 year guarantee.

Emerson fans are made in all popular styles and sizes for home and business, and you'll find as the years roll by that they cost less per year of service.

CARLSBAD PLANS FIREWORKS DISPLAY FOR JULY FOURTH

CARLSBAD, June 22, 1927.—The American Legion has arranged a mammoth night fireworks display at the Carlsbad bathing beach for the evening of July 4th. The fireworks will be set off from the east side of the beautiful spectacle of the reflection in the waters of the beach. The display has been purchased at a cost of \$400.

The fireworks celebration has become an annual feature of the local Independence Day program, and citizens of cities within a radius of 100 miles of Carlsbad, annually motor here to witness the unusual pyro-technic display.

A dance at the American Legion Pavilion, which is located on the water's edge at the beach, will be held under the auspices of the American Legion immediately at the close of the fireworks display.

The Carlsbad bathing beach will bring hundreds of visitors here for July 4, in connection with their visit to New Mexico's scenic Carlsbad Cavern, on Sunday, July 3rd. The superintendent of the cavern anticipates a crowd of 500 visitors for July 3 and 4.

MISS ALLINGER VISITS CARLSBAD

Miss Leona Allinger, who is a representative of the Epworth League conference for New Mexico and West Texas was in Carlsbad Saturday and Sunday. Miss Allinger met with the local League Sunday, giving a short address outlining the League's program for the coming months, emphasizing a deeper spiritual quality, a more profound understanding of the duties of each officer, all with a more efficient organization to carry on the work in this conference.

During the summer, Miss Allinger will attempt to visit every organiza- tion in her territory, with each visit, raising the standards of the local League-making them, instead of a drab, forceful, occasional meeting, a living power in the lives of every member.

As a result of Miss Allinger's visit to Carlsbad, the local organiza- tion plans to reorganize into a real discussion group for free minded young people, attempting to solve its own questions in terms of living today.—Carlsbad Current-Argus.

Stringent Blue Laws in Old Connecticut

Under the earliest Connecticut blue laws a young man and young woman who indulged in what would in these days be called "petting," in the presence of the man's sister, were subject to a fine of \$5 each and the sister to a rebuke for tolerating such conduct. These early laws are contained in a small book printed more than 250 years ago. The book contains nothing about kissing one's wife on the Sabbath, but kissing another man's wife or kissing an unmarried woman who chose to complain about it, was a serious offense any day. Under the law no person under twenty-one years old, nor any other not accustomed to the use of tobacco was permitted to use it until he obtained a certificate from a physician and a license from the court. Furthermore, tobacco could not be used in the streets, highways or barnyards, and conviction could be obtained upon the testimony of one witness.—St. Louis Post-Dispatch.

Decollete

She (at the opera)—Why don't you take your eye off that woman in the box?

He—Because I think she should have something on her.

WANTED A YEAR. NOW UNDER ARREST

Sheriff Joe Johns is at Las Cruces where he went to bring back Nicodemus Ruiz, who has been on the wanted list since June 23rd of last year. He is charged with abduction of a minor, having seduced a minor girl to leave her parents and live with him. He has a wife living. He was located about two months ago, in the Orla neighborhood, but got wind of his danger and made escape.—Carlsbad Current-Argus.

LASTING IMPRESSIONS OF THE HOME

Furniture plays a large part in forming an impression of the home. Beautiful and enduring furniture will go a long way toward instilling the pleasant memories of your home life, which will make your children appreciate the home you have built for them

Realizing this we recommend only the standard brands of furniture, which in many cases will outlast the building. These well known brands include Sealy mattresses, Hoosier cabinets, Armstrong linoleum, White Mountain refrigerators etc.

Teddy was about to enter his tenth year. His mother told him he might invite his little friends to a birthday party, and she made the necessary preparations. On the important evening they were waiting for the guests. Suddenly the youngster said, "Mother, don't you think it's time to eat the ice cream and cake now?"

"Certainly not, dear," she replied. "We must wait until your little friends are here."

"Well, I'll tell you the truth, mother," Teddy began. "I just thought that for once in my life I'd like to have all the ice cream and cake I wanted, so I guess we'd better begin now, 'cause I didn't invite anybody."

Before Mr. Sylvania Slike started working in the oil country, he was a sheep herder in Wyoming, says Bridgeport Driller. He decided that he would like to work in the oil fields so he went into the Oil Well Supply store in Casper, Wyoming, and asked a carpenter for a job dressing tools. The contractor asked Mr. Slike if he could "run a ram," to which Mr. Slike answered, "Run one, h—, I kin ketch him."

STATE BRIEFS

COUNTY SCHOOL BUDGETS HAVE BEEN APPROVED

SANTA FE.—The State Tax Commission has completed approval of the county school budgets, it was announced Friday and is starting to hear appeals. Several concerns from Sierra and Santa Fe counties appeared before the commission. Hearing of the appeals will last for several days.

NEW MEXICO OIL RATE HEARING ON JULY 7

SANTA FE.—Hearing of the case of the Gilliland Oil company vs. the Atchison, Topeka, and Santa Fe railroad, et al., relative to interstate freight rates on oil well supplies and casings will be held at Albuquerque by the Interstate Commerce Commission on July 7, according to Capt. Charles Lamb, rate clerk of the State Corporation Commission. Commissioner Disque will conduct the hearing. Lamb stated last week that the reduction on crude oil rates between Dayton and Artesia and Roswell and Albuquerque, which was recently ordered by the state commission, had been approved by the I. C. C.

BIBLE SCHOOL ENJOYS SWIM

The free swim which the pupils of the Vacation Bible School enjoyed at the Lanning pool last Friday, is not a bribe to induce the boys and girls to attend the school. It is rather a reward for honest merit and a feature of religious education. To be entitled to a ticket to the pool, the pupil must rank high in deportment, be absent only on account of sickness and bring a written excuse to that effect, and no tardies allowed in the future.

But one outstanding feature is the fact that in a practical way the children are taught that they can have a good time in the religious life. There is a prevailing notion among irreligious people, and especially young folk, that to be a Christian one must forget having a good time. God wants us to be happy. The pupils of the Bible School are being taught that a good time in a healthful, wholesome way is an integral part of a religious life.

Never before has such an excellent opportunity been afforded in Artesia for the development of the spiritual life of its boys and girls from five to twelve as this Vacation school. Truths stored in the mind and pleasant experiences together will be carried in memory throughout life. Those completing their course creditably will be given a diploma to that effect. A public commencement will be rendered Sunday morning, July 10th, when the students will give an exhibition of some of the things they have learned and of work done.

Before Mr. Sylvania Slike started working in the oil country, he was a sheep herder in Wyoming, says Bridgeport Driller. He decided that he would like to work in the oil fields so he went into the Oil Well Supply store in Casper, Wyoming, and asked a carpenter for a job dressing tools. The contractor asked Mr. Slike if he could "run a ram," to which Mr. Slike answered, "Run one, h—, I kin ketch him."

LOCAL

J. H. Reeves, Lake Arthur merchant, was a pleasant caller at the Advocate office Tuesday.

Walter Pendleton, Lea county rancher, was attending to business matters here Saturday.

Mr. and Mrs. Ross Conner and niece, Miss Florence Conner, left last Thursday for Dallas to visit relatives.

Mrs. Jo McCreary, of Hamlin, Texas, who had been visiting the Keller relatives at Hope, left last Friday for her home.

Mrs. Irvin Cox, of Hope, spent the week-end with Mrs. I. C. Keller and family. Mr. Cox came Sunday and Mrs. Cox returned home with him Sunday evening.

The rains last week ran more than 10,000 acre feet of water into Lake McMillan, according to H. C. Holcomb. This raised the level of the lake about two feet.

W. B. Emery, of Boulder, Colorado, and W. T. Nightingale, of Casper, Wyoming, geologists for the Ohio Oil Co., are spending a few days here this week.

Jeff Hightower left Sunday for Farmington, to spend a two weeks vacation with his daughter, Mrs. Cash Austin and Mr. Austin. Mrs. Hightower and daughter Miss "Jack" were already visiting the Austin home.

Mr. and Mrs. Arba Green returned Sunday morning from their trip to Oklahoma and Missouri. They were accompanied by their daughter, Helen, who was a student in the State University of Missouri last year and will spend her vacation in Artesia.

Mrs. Hubert Ricketts and little daughter Gene and Miss Naomi Langer, of Jerome, Idaho, stopped in Artesia for a few hours Monday while en route to Ozona, Texas, where Mrs. Ricketts goes to visit her mother. Mrs. Ricketts will be remebered by old timers here as Miss Estelle Mauldin who lived in Artesia some fifteen years ago.

Must Bestow Trust
Excessive distrust of others is not less hurtful than its opposite. Most men become useless to him who is unwilling to risk being deceived.—Vauvenargues.

SEVENTY PER CENT OF WORLD'S OIL SUPPLY IS PRODUCED BY U. S.

BY DR. DUDLEY STAMP, B. A., D. Sc., A. M., I. P. T.

(Sir Ernest Cassel Reader in the University of London; written from London)

The United States of America is by far the most important source of crude oil and produces roughly 70 per cent of the world's total. As a set-off against this, it has been calculated recently that five-sixths of all the motor cars in the world are to be found in the States and four-fifths of the world's petrol is consumed there. It is the United States which will first feel the seriousness of a petrol shortage. Experts contended that the amazing succession of vast new fields which were "brought in" in the United States from 1921 to 1924 could not be continued. Notwithstanding the figures for 1925, there is little doubt that the experts were right. Again the percentage increase from year to year affords interesting data: 1922 showed an increase of 18 per cent over 1921; 1923 an increase of no less than 30 per cent over 1922; 1924 a small decrease of about 2 per cent, while 1925 shows an increase of rather less than 6 per cent over 1924 or 4 per cent over 1923.

Reserves and Potential Resources.
The American Petroleum Institute has recently estimated that there is a reserve of three and one-fourth billion barrels in the actual exploited oil fields of the States and a further one and one-half billion barrels in proved but undeveloped fields. At present rate of production these reserves will be exhausted in seven years—by the end of 1932. There remains, however, a further 26 billion barrels capable of extraction by improved (though more costly) methods. To extract the whole of this quantity it may be necessary to mine the oil sands, as is being done in the French fields of Perchelbron. This reserve would sustain the present yield of the United States for a further thirty-five years.

Mexico stands prominent as easily the second country in the list of oil-producing countries of the world. The steady decrease from over 180 million barrels in 1921 to about 107 million barrels in 1925 is indicative of the troubled politics of the country rather than of an exhaustion of its oil resources. The Mexican figures tend to mask the real trend of world production during the past five years. Mexico affords an interesting example of the amazingly complex ramifications of the financial interests of the Great Powers which are so characteristic of the oil industry. The Mexican government officially estimates that nearly 400 million dollars have been invested in the country's petroleum industry. Of this capital 57 1-2 per cent is United States; 26 per cent British, 11 per cent Dutch, 2 per cent Mexican and 2 per cent other nationals.

Future Supply.
Although the rest of the world is responsible for only about 15 per cent of the total production the figures are full of interest. The figures are incomplete, but very roughly the yearly increases from 1921 to 1925 are respectively 17 per cent, 12 per cent, 25 per cent, 12 per cent. Notice that from 1923 to 1924 when the United States registered a decrease, the rest of the world (excluding Mexico) showed an increase of 25 per cent. Outside the United States and Mexico, the oil-producing countries may be divided into three groups:

(a) Those which have been producing oil for a long time and which are likely to decrease rather than to increase their production;

(b) Those which show great promise of increase in the near future;

(c) The lands of unproved possibilities. To the first group belong the Dutch East Indies (Java and Sumatra), Japan, India (including Burma) and Egypt. It may be necessary to add Russia, Galicia in this list, for whilst India and Burma and Trinidad to the list, but in these countries careful geological surveys may reveal new possibilities—especially in Russia. It is said to have to include India as a direct result of conservative development are likely to maintain their production for some years, prospects of extensive new fields in Burma or Assam have practically disappeared, while the Punjab with the exception of its one chief field has scarcely maintained its promise of a year or two ago. It will be noticed that the list includes several of the strongholds of British and Dutch interests.

Promising Oil Fields.
Of the lands of promise Persia (with Mesopotamia), Venezuela, Argentina, Peru and Columbia are proved. Persia could treble its production if the Anglo-Persian Oil company saw fit to do so; the gushers of Mesopotamia are capped and held in readiness. Venezuela has an amazing record of progress and has doubled its production yearly for the past five years and now occupies the fifth place among the world's producers. One company alone optimistically hoped to produce a million tons this year. September has seen that mark already passed. There is, indeed, every indication that the South American countries will repeat

PICKED UP ON MAIN

Last week while Steve was away Abe Conner was requested to get out and run in a jury for a justice court case. According to the story told of Abe's adventures, the populace didn't take his mission very serious and his modest request was often met with a "Go to—?" however they said he did finally manage to secure the required six men, four of whom were over seventy-five years of age and the other two were foreigners (Texans).

Business was on the bum one day last week. A prospective customer started to town with a dime and lost it. Needless to say the entire town felt the result. However, we feel rather optimistic about the future as we saw Jess Truitt taking up the front of his barber shop in an effort to find it and if he does we are expecting another big day.

In passing the bank corner Sunday morning an Advocate reporter espied the fountain running wild and inquired into the details. We were informed that the fountain had been converted into a shower bath for the benefit of some members of the Whittlers Association, who had neglected to take their usual Saturday night's bath.

the history of the United States, but let us hope that the sad story of mad overproduction will never be repeated. It is satisfactory to learn that the leading companies operating in Venezuela have already come to agreements to prevent competitive drilling on the borders of their concessions. From the international standpoint it would seem that British capital has the strongest hold in the world's most promising oil fields—Persia, Mesopotamia and South America—but American and Dutch interests are well represented and to a minor extent French.

The Unknown Quantities.

Of the unknown possibilities Sakhalin, Canada and New Guinea remain in the limelight, but they do not seem to have, from the geological standpoint, the immediate prospects of the South American countries. Canada's great possibility is probably with deep oil in Alberta or Saskatchewan along the States border.

The time is ripe for a conference of the world's oil producers. It will be fatal to the effective development of such new fields as those of South America if the policies of the American and Anglo-Dutch interests—so different in the past—are allowed to clash. The possibility of government control of raw materials—including oil—in the near future renders it an urgent necessity that the producers get together and take a common stand as well as draw up a plan of campaign against the inevitable oil famine of the near future.

MEXICAN SHOT AT HARROUN'S RANCH

A Mexican whose first name is Manuel, but whose last name could not be learned at press time, is at Eddy Hospital seriously wounded as a result of a mix-up at Harroun ranch last night about 6:30. Juan Juarez, also located on the Harroun ranch, did the shooting with a revolver. He had not been located this morning though officers searched for him until considerably after midnight last night and resumed the search this morning.

Following the rain, the men could not work in the cotton fields and were celebrating the day off, when the trouble arose. Juarez shot three times, one shot taking effect in Manuel's neck and while located had not been removed. It appears to be a serious wound.

Juarez and his brother fled after the shooting, and after going down the road a ways, met a boy riding a horse. They made him let them take his horse, then drove on as fast as possible, taking a circuitous route to throw off any followers from their trail. The wife of Juarez when asked by officers, declared she knew nothing of his whereabouts.—Carlsbad Current-Argus, Friday, 17th.

NOTICE TO THE PUBLIC

Unfounded rumors are persistent that the conditions at the Oasis swimming pool are unsanitary. This is not true. A consistent effort has been made by the management to keep the premises clean. Running water is circulated through the pool at all times and the health of the patrons is carefully guarded.

GEORGE WILLIAMSON DIES IN ALBUQUERQUE SUNDAY--BURIAL HERE

Funeral services for George Williamson, who died Sunday in Albuquerque, were held at the Methodist church yesterday afternoon at 2:30 p. m., Rev. C. C. Higbee officiating.

Mr. Williamson was well known in the Artesia community, having resided here with his wife for some four years before going to Albuquerque, where it was hoped that his failing health might be benefited.

He was an ex-service man, although he was never permitted to engage in active duty on the battle front. It was during his service in the army that his health began to fail and he was later advised to seek the New Mexico climate. Mr. and Mrs. Williamson moved to Artesia from Alluwe, Oklahoma in 1922 and resided here until their removal to Albuquerque several months ago.

FARM NOTES

Keep boarder cows—until you discover that they are boarders.

Stinking smut which grows in wheat brings a loss that means defeat.

More than 5,000,000 forest trees were planted in New York state this fall.

Cutting the weed trees in the woodlot will improve the quality of the stand in future years.

Hens that are to be used for breeders or layers should have two months' rest between laying seasons.

Control Cadelle By Poison Fumigation One Big Factor Is Cleanliness in Storehouse.

(Prepared by the United States Department of Agriculture.)

Cleanliness in the storehouse and granary is one of the most important factors in the control of the cadelle, a grain pest known all over the world and first described in 1758, says the United States Department of Agriculture. The habit of the larvae of burrowing into wooden floors, partitions and walls of bins, storehouses, and ships, accounts for much of the loss occasioned by fresh supplies becoming infested when placed in storage space formerly occupied by infested material.

A history of the cadelle, its distribution, and information concerning its control are contained in Department Bulletin No. 1428-D, just issued by the United States Department of Agriculture. The pest is usually associated in its attack upon food products with other grain pests. In the case of package goods, such as breakfast foods, the holes it bores in the cartons, give other and smaller pests avenues of attack upon foods that otherwise might remain free from infestation.

The cadelle in all stages can be killed by fumigation with carbon disulphide, from six to eight pounds per thousand cubic feet of bin space being used where bins are tight. Carbon tetrachloride, has the advantage over carbon disulphide in that its vapor is nonexplosive and nonflammable, but it has the disadvantage of being about one-half to one-third as effective and must therefore be used in larger quantities.

On farms where grain bins are usually constructed of wood, hardwood should be used in preference to soft woods, and the construction made as tight as possible. Bins should be inspected annually and any badly burrowed woodwork removed. The substitution of concrete for wood wherever possible is one of the best means of preventing the rapid infestation of fresh supplies of grain or grain products.

A copy of the bulletin may be obtained, as long as the supply lasts, by writing to the United States Department of Agriculture, Washington.

OILERS BEAT LOVING SUNDAY MAKING THEIR 6TH STRAIGHT VICTORY

The Oilers won their sixth straight victory Sunday when they met and defeated the Loving nine at Loving. Stamper, the new recruit pitching for Artesia held the Loving team to five hits, four one base bingles and one three base hit. Field errors on the part of the Oilers gave Loving one earned run out of the ten secured.

Artesia will practice hard for the return game with Loving to be played here Sunday afternoon. Some rearranging of the Oiler line up is expected to materially strengthen the home team and the boys will put fourth a mighty effort to take Sunday's game.

The Oilers will meet Carlsbad here in July 17th.

The box score:

Flexibility Is Big Crop Factor

Rotation Is Long Recognized Principle of Farming Economy.

(Prepared by the United States Department of Agriculture.)

Flexibility in crop rotation is a long recognized principle of farming economy. Agricultural history contains many illustrations of the use that has been made of this idea from the Middle Ages to the present time, especially in Europe. It is commonly observed, however, says the bureau of soils of the United States Department of Agriculture, that uniformity of soil, even on a single farm, is most unusual, and that one field may require an entirely different rotation of crops from another adjoining it. A rotation best suited to a low-producing sandy soil is unlikely to be suited to a highly productive silt loam. Again, a hillside field, subject to soil washing calls for different rotation management from a field on a flat area.

Each Farm Has Problems.

Each farm presents its own problems. The farmer who farms more or less with live stock is not so much concerned with rotation as with the acreage of crops necessary to meet his feeding requirement. The truck grower is concerned primarily with the question of crops in relation to market conditions. In either case rotation is a means to an end, with two aspects: The growing of the desired crops in a manner, or in different rotations, best suited to the soil and crop conditions; and the dovetailing of the different rotations so as to enable the farmer to realize annually the required acreage of each crop he desires.

Influencing Conditions.

Still greater flexibility in crop rotation may be needed, owing to local conditions which may arise, such as insect pests, crop diseases, or weeds. Changing the common fixed rotation may reduce army worm injury, or an additional intertilled crop may help combat some obnoxious weed. Changes in economic or market conditions may compel rotation changes. Any cropping system which will permit of easy alternation is preferable to one that does not possess this quality of elasticity.

Sign Pleases Broadway

Talk about the freedom of the times! "Undies," silk stockings and nighties are washed and hung fluttering on a line right over Broadway in New York, where thousands may—and do—see every night of the week. Crowds are talking about it. The "world's largest electric washer" operates vigorously, the lid flies open, articles of apparel hop out and run through a wringer and then miraculously fly up and pin themselves in a row on a line, flapping in the breeze—all in electric light from 2,600 little winking lamps. It is one of the most intricate and arresting electric signs blase Broadway has ever seen.

THE ROLL CALL SHOWS WHITE TRUCK HAVE HAD A BIG INCREASE

The outstanding motor truck and bus "census" of the year—the annual White Roll Call, just published—gives this vivid picture of the tremendous strides being taken in the motorization of business and industry.

Eleven hundred and four companies, firms and individuals in the United States, Canada and foreign countries owning 39,857 trucks and busses in fleets of ten or more January 1, 1927.

Total investment of \$150,000,000 in transportation equipment produced by one manufacturer.

One fleet of 2,030 trucks representing a single owner's investment of \$7,500,000.

Seven other owners of fleets numbering from 525 to 1,105 trucks each, with individual investments of from \$2,000,000 to \$4,000,000.

Fifty-four owners of fleets of 100 or more, 146 in the 50 truck class, and 368 owning more than 25 each.

Net gains over the previous year's Roll Call of 143 fleet owners and 4,102 units; more fleets added than at any time in seventeen years, except in 1923; a gain greater than the entire total of owners listed in 1916.

The largest all-White fleet is again the Gulf Refining Company, with 2,030 trucks. Next is the Standard Oil Company of New York, with 1,105. Not counted in the 1,000 class are fifteen Associated Bell Telephone Companies, which are listed separately, but whose trucks total 1,337.

Six other owners have more than 500 trucks each. The City of New York is listed with 946, exclusive of 126 more bought since January 1, bringing the total to 1,072. The Union Oil Company of California has 823, American Railway Express Company 689, United States Post Office Department 664, Atlantic Refining Company 552 and Standard Oil Company of Kentucky 525. The largest bus fleet is the Yellowstone Park Transportation Company, with 299 busses out of a total of 322 Whites.

Fleets of three owners increased more than 100 trucks during the year. The Public Service Transportation Company of Newark, N. J., added 156, the American Railway Express Company 104 and the Gulf Refining Company 101. Eight owners added more than 50 trucks each, and twenty-two added more than 25.

"The Roll Call has become an institution," says Walter C. White, president of The White Company. "It has been called the 'blue book of business transportation,' since it contains the names of leaders in all lines of business everywhere. Its record of year by year growth of White fleets is, in effect, the history of their increasing prosperity.

"We have published the Roll Call annually, recording the growth since 1910 when there was one White fleet of more than ten trucks. It was, and continues to be, a departure from business practice because it is a list of The White Company's largest customers. It includes fleets numbering thousands of trucks and busses that have run 100,000 miles or more—up to some that have exceeded 500,000 miles. And, of course, it does not include thousands of owners of important fleets of less than ten trucks and busses and innumerable owners of single units."

Hardest Alfalfa Seed Is Brought From Canada

For many years it was thought that Grimm was the hardest known variety of alfalfa and, for that reason, was most desirable for this region, but recently Ontario Variegated, although not a new variety, has come into prominence and has proved itself fully as hardy as Grimm, according to Prof. L. A. Dalton at the New York state college of agriculture at Ithaca, N. Y.

When Grimm was considered the only good variety to plant, the farmers had to pay high prices, and, frequently, they resorted to common alfalfa as a substitute. The common alfalfa, however, came from many sources where the climate was mild, and therefore the seed was unadapted to our severe winters.

Although Ontario Variegated has been grown in Canada for half a century, the production has not been large enough to meet the demand from the United States until during the past five years.

Ontario Variegated is like Grimm so far as one can tell, says Professor Dalton, and this has a bearing on the question of Grimm versus Ontario Variegated. Grimm is higher priced, and in some instances the Ontario Variegated is purchased and resold as Grimm.

The best way for farmers to get genuine hardy Ontario Variegated alfalfa seed, he says, is to buy from reliable seed men and insist on this variety.

Accuracy in Gunnery

By means of a vacuum tube and a high-speed camera the United States bureau of standards experts are ascertaining the vibrations of guns under various conditions. The experiments, it is thought, will make gunnery more accurate.

INSURE YOUR LIFE AND CLOTHING

by buying The Inshured Wardrobe Trunk, the most complete outfits you have ever seen in an apartment for every need, handy as a pocket shirt and besides you get an

BULLOCK LOSES FINE MILCH COW RESULT OF SWALLOWING METAL

E. B. Bullock, Tuesday was exhibiting on the streets a glass jar containing an assortment of nails, screws, glass, a phonograph needle, a copper and various and sundry articles which was obtained from the stomach of his milk cow as a result of a post mortem examination. All of the above materials were found in a wad in the paunch of the cow.

"Some six months ago," he says, "my cow began failing in flesh, at the same time she refused her usual amount of feed. Her condition gradually grew worse until the boys decided to kill and skin her and afterwards made a post mortem examination to ascertain the cause of her death."

These materials were evidently contained in the hay fed the cow and since a cow does not always masticate her food, it would be an easy matter to swallow nails, metal or anything of this nature.

Value of Horse Manure When Properly Cared For

Experiments at Purdue university indicate that when properly cared for, the manure from a well-fed horse is worth \$14.75 per year; from a dairy cow \$18.75; from other cattle \$11.00; from a sheep \$2.25; and from a hog \$2.10. At present, however, only a few farmers are realizing these values because they do not care for the manure properly.

Over half the total fertilizing value of the manure, solid and liquid, is contained in the urine; therefore every reasonable precaution should be taken to prevent its loss. The urine usually contains about three-fourths of the total nitrogen and four-fifths of the total potash. And these are two of the most important elements needed for plant growth.

A. W. ERBY SUFFERS BROKEN COLLAR WHEN MULE ATTEMPTED TO DRIVE AWAY

A. W. Erby, a section foreman at the Santa Fe found out that a mule will at least on certain occasions that there is a vast difference between the code of those ordinarily supposed to be lowered out by a gentleman as a week ago, while Mr. Erby was attempting to drive a mule railroad right of way, he was tacked by the animal with a broken collar bone and bruises about the head and neck. The unfortunate was in some way ran over by the mule which was somewhat of a mule used his force to strike Mr. Erby about the neck.

MAGAZINES GIVEN

The library has a number of splendid magazines which will be glad to give any one who will call and get them. They are of especial value to those living on ranches or in the camps or oil field. If you are them yourself, perhaps you will do the isolated people of carrying them out to the districts.

Light in "Scratching"

Different poultrymen are reporting that their scratching sheds are one or two small windows of the house so that the light to work over from the litter worked to increasing the area. If measured how much will be surprising how many some poultry houses are service capacity than they would seem to indicate.

PHARMACY IS A PROFESSION

"Pharmacy is an ancient and honorable profession," report of the educational research committee of the Commission on Pharmacy, which recently completed a two year study of pharmacy from a functional point of view.

"The materials that the pharmacist deals with are so dangerous in their effects upon physical well-being that the problems that face him in the handling of these materials are so complex that the public require so much intelligent supervision that the pharmacist is better to be properly prepared—that it is absolutely essential to have a rather wide and intimate acquaintance with the mental sciences upon which the art depends; and since the fact that the trade needs to know only the methods to be proficient while the profession needs to know the methods upon which the methods depend, it follows that pharmacy is a profession rather than a trade." We are proud of our profession and furnish genuine professional service.
