BIRTHDAY DINNER

Mrs. J. M. Jackson entertained all the family at dinner Sunday in honor of the birthday anniversary of Mr. Jackson, which occurred last week. The children present besides those at home were Mr. and Mrs. Van Winkle and children, Jim Jackson and family and Mr. and Mrs. Howard Gissler and also a nephew, Paul Bugg.

IDLEWHILES BRIDGE CLUB

Mrs. Sid Cox entertained the Idlewhiles Bridge club last Tuesday afternoon. The members present were Mesdames W. P. Cox, Russell, Berry, J. M. Story, Phillips, J. H. Jackson, Perry, M. W. Evans and the hostess. Substitutes were Mesdames Shugart, Swift, McDade and Miss Katherine Clarke.

FORTNIGHTLY BRIDGE CLUB

The club met with Mrs. Frank Seale Tuesday afternoon. Substitutes were Mesdames Fred Brainard, Walter Ferriman and Mark Corbin.

SECOND BRIDGE CLUB

The Second Bridge Club met with Mrs. John Lanning Tuesday afternoon. Those substituting were Mesdames Colby, Crandall, Bigler and C. Bert Smith. A two course luncheon was served by the hostess.

The Rebekahs clothed themselves in ghostly raiments Tuesday evening and surprised the Odd Fellows. The substantial Hallowe'en refreshments they served were much enjoyed by the Odd Fellows after their strenuous work of initiating Dr. Westfall.

LOCALS

Mrs. L. R. Simmons has been on the sick list this week.

Dr. Westfall spent the week-end with relatives in Carlsbad.

E. C. Latta, of Lake Arthur, was transacting business in Artesia Saturday.

G. G. Taylor and wife, of Amarillo, were guests of Rube Dunn and family this week.

Mr. and Mrs. Ossie Coalson motored up from Carlsbad Sunday to spend a few hours with friends.

C. C. Powell, of the Cottonwood community was attending to business matters here Saturday.

William Dooley returned Friday from an extended visit with his family in Kansas City, Missouri.

Max Rody and wife, of Amarillo, came Monday to visit his father, Chas. Rody and other relatives.

Miss Dorothy Haerberlin arrived from Chicago, Saturday for an extended visit with her cousin, Mrs. Ray Bartlett.

Miss Ina Bradshaw has returned to her home near Plainview, Texas, after an extended visit with her brother, Wilburn Bradshaw and family.

Mr. and Mrs. J. S. Sharp and their guests, Mr. and Mrs. J. S. Hamilton, of Argonia, Kansas, went up to the Artesia-Sacramento camp, near Weed Tuesday.

Vagabond Felt Vies With the Skull Cap

Felt hats retain a conspicuous place in the mode. In fact, it is a question as to "who is who" in fashion's blue book registry—felt or velvet? Felts emphasize vagabond types with ripple brim, also the sombrero for those who desire the wide brim, cling-tight skull cap varieties and draped toques.

FRIDAY

P. E. O. meets with Mrs. C. E. Mann at 2:30 p. m.

MONDAY

Library board meeting at 3:30 p. m., at the library.

Hallowe'en Parties

The Sunshine class met at the home of Mrs. Sydney Cox for a Hallowe'en party last Friday. Mrs. C. R. Blocker tendered her resignation as president of the class and Mrs. Reed Brainard was elected to fill the vacancy and Mrs. H. C. McDade as treasurer. Mrs. R. O. Cowan was chosen as teacher of the class. Five new members were added to the Sunshine Circle. After the business session a pleasant social time was enjoyed in playing Hallowe'en games. Delicious refreshments were served by the hostess, assisted by Mesdames W. P. Cox, Austin Brown and Calvin Dunn.

A Hallowe'en masquerade party was given at the Presbyterian church Monday evening under the auspices of Mrs. Sinclair's Sunday school class of young ladies. The membership of the church was well represented and every one enjoyed themselves immensely, especially when everybody unmasked. Hallowe'en games were played and much hilarity was occasioned by the company "going to Jerusalem." Miss Jones was voted the best costumed lady and Messrs. Hugh Kennedy and Warren Collins for the gentlemen. Bountiful refreshments of pumpkin pie, doughnuts and coffee were served.

Mrs. E. N. Bigler gave a Hallowe'en Fancy Dress dance party last Saturday evening for her daughter, Miss Ruth. The guests were Misses Mary Jackson, Mary Smith, Lola Gray, Fern McCaw, La Rue Mann, Camille Horner and Inez Buchanan, Messrs. Geo. McCaw, Billy Garner, Noble Littlejohn, Leon Clayton, Carol Graham and Warren Rogers. Delicious refreshments were served by the hostess.

Miss Modean Faulkner invited several of her little friends to a Hallowe'en party Monday evening. They were all masked and spent the evening playing Hallowe'en games. Those present were Thelma Blair, Mary Ogg, Mack Erby, Ed and Adeline Whitson, Jessie Lee Cunningham and Ansel Pior.

Mrs. Grover Kinder entertained with a hallowe'en party Friday evening for her daughter, Zana Filbert. The little witches haunted the neighborhood the early part of the evening, after which they were ready to unmask and enjoy Hallowe'en games. The hostess served delicious refreshments appropriate to the occasion.

Those present were Thelma Blair, Bernadette Mahoney, Clementine Cobble, Joan Wheatley, Anna Louise and Ola Irene Gage and Zana Filbert.

Miss Frances Finnegan gave a Hallowe'en party Monday afternoon for her dancing class of little girls, at the Brooks apartments. Hallowe'en favors and candy were interesting parts of the amusement. The little girls in the class are Helen Hutcheon, Helen Keiser, Betty McCormick and Marjorie Keiser. Little Mike Donnelly was also present.

Mrs. Ray Bartlett entertained thirty little people for her children, Billy and Phyllis last Saturday afternoon. A special matinee was put on at the picture show for the youngsters, who created considerable interest, as garbed in quaint costumes, they marched from the show to the Bartlett home. After playing games on the lawn they were served to typical Hallowe'en refreshments, in addition to pop corn, which they enjoyed while the picture was in progress. Each little girl was given a snapper with ponpon attached and each little boy, a toy horn as souvenirs of the happy occasion. Mrs. Bartlett was assisted in entertaining the children by her cousin, Miss Dorothy Haerberlin, of Chicago, and by the young girls, Katherine Filbert, Jeanne Wheatley, Evelyn Cobble and Ethelyn Cobble.

Misses Violet Ohnemus, Margaret Frisch and Lilla Jackson entertained a number of their young friends with a Hallowe'en party Saturday night, which was held in the barn at the Ohnemus home. The barn was appropriately decorated for the occasion and the usual Hallowe'en games and stunts furnished amusement, after which refreshments were served.

Mrs. W. C. Martin entertained her Sunday school class of young ladies

BIRTHDAY PARTY

Mrs. Lewis Story invited fifteen little boys and girls to help here little daughter, Wanda, to celebrate her fourth birthday anniversary last Thursday afternoon. The children enjoyed themselves playing games. The hostess served delicious refreshments of ice cream and cake.

The little folks present were Donald and Sybil Pior, Dickey and Jimmy Ferriman, Bettynelle Lanning, Peggy Ann and Albert Linell, Mary and Lloyd Walker, Harold Gene Evans, Nobertis Widney, Joan Littlejohn, John Hartzfeld, Landis Ed Feather and Bobby Feather.

Robes de Luxe for Wear in the Boudoir

The elegance theme, now so much under discussion, finds a most flattering interpretation in milady's boudoir. As to the beguiling negligee robe posed for this picture by pretty Marcelle Daly, who appears on the screen in featured roles, none but inspired creators of the beautiful could conceive such a ravishing mode of gleaming gold and silver brocade.

and their guests at her home Thursday evening with a Hallowe'en party. Various games carrying out the Hallowe'en spirit were played including a visit to the ghost room and the telling of ghost stories. Some of the younger set proved themselves adept in the cracker eating contest.

Following the entertainment, refreshments of pumpkin pie, coffee and sandwiches were served. The hostess was assisted in serving by the Misses Helen Mann and Lulu Wilson. Guests of the class members were: Messrs. Lawrence Bewley, Glen Naylor, Edward Shoeky, Carl Faulkner, H. C. Moorehead and A. J. Savage.

Mrs. H. C. Keiser entertained a company of young folks Monday evening with a Hallowe'en tacky party for her daughter, Miss Evelyn.

Genevieve Gilliland won the prize for the tackiest girl costume and Rowland McLean for the tackiest boy costume. Birch Crockett for the prettiest boy's costume, a cowboy outfit and Glennis Smith, the prettiest girl's costume, a pirate outfit. After everybody was unmasked Hallowe'en games were played. The hostess served delicious refreshments. The guests were Misses Glennis Smith, Genevieve Gilliland, Pauline Vandiver, Marie Holmes, Louise Compton, Violet Ohnemus, Nelda Wilson, Alma Pearson, Margaret Frisch, Wilma Robinson, Bessie Wickson, Jack Ward, Lilla Jackson, Evelyn and Ethelyn Cobble, Neville Simmons and Lillian Heflin and Clarence Crockett, Charlie Bullock, Leonard Vandever, Russell Spivey, Kenneth Compton, Jimmie Welch, Melvin Jernigan, Thomas Kuykendall, Bitsey Yates, Billy Bullock, Charley Bandy, Byrl Blount, Bub Yates and Rowland McLean.

The most unique entertainment of the week, carrying out the spirit of Hallowe'en, was a barn dance given at the home of Mr. and Mrs. F. C. Finley. The dairy barn of Mr. Finley's was appropriately decorated for the occasion. The guests assembled at 8:00 p. m. and after a few rounds of dancing removed their masks. Misses Helen Wilcox and Dorothea Swetzer, dressed as Indian girls, won the prize for the cleverest costumes. Hobert Elliff, manager of the Rodden Studio, secured two flash light pictures of the barn dance scenes.

Dancing and fortune telling rounded out the evening's entertainment, at the conclusion of which refreshments of coffee, pumpkin pie and sandwiches were served.

The two eighth grade classes, numbering about eighty, and the teachers of Junior high, held their annual Hallowe'en party on the lawn at the W. R. Hornbaker home, Friday evening. The lawn was attractively lighted with jack-o'-lanterns and the usual Hallowe'en stunts and games including fortune telling, furnished the amusement for the evening. A prize was given to the best costume, which was won by Miss Charlie Burditt. Refreshments of pumpkin pie with whipped cream, and cocoa were served.

PICKED UP ON MAIN

Evidently Uncle Charley Mann, mayor of Artesia, isn't going to follow the example of Big Bill Thompson of Chicago and demand that the Artesia Library burn all pro British books. We take it that Uncle Charley hasn't made up his mind to run for president, however, if he would announce his candidacy on a wet ticket and guarantee about a half inch of moisture, he could get every vote in the Pecos valley.

Duck hunters report the mosquitoes o bad in the marshes this year that he skeeters "et" the sights off their guns.

Speaking about the weather, it hasn't been long since an agent tried to sell us a slicker and a pair of rubber boots. That's a good example of wasted effort in this country.

MILL AT OTIS OPERATING

The Otis Gin and Warehouse company's oil mill at Loving today resumed milling operations which have been suspended since the fire which occurred on October 20th, and which did \$75,000 to \$100,000 damages, destroying the seed house and lamaging much seed.

The big seed piles have been worked over, all damaged seed having been removed, and the good seed piled about the large property in smaller piles. There were about 3,000 tons of seed in the seed house and about 1,500 tons in a pile outside the seed house, both piles being damaged. However most of the seed loss was in the seed house pile.

Manager O. O. Stewart has announced that a seed house will be built next summer, after milling operations are completed for the season. A larger seed house, of fire-proof construction will be built, though plans have not yet been completed for it. It will be either of steel or of concrete. The seed house which was totally lost in the recent fire was of sheet iron construction and was 64x200 feet. The new seed house will probably be located further from the mill as a safety measure, it is reported.—Current-Argus.

Parade of the Wooden Soldiers

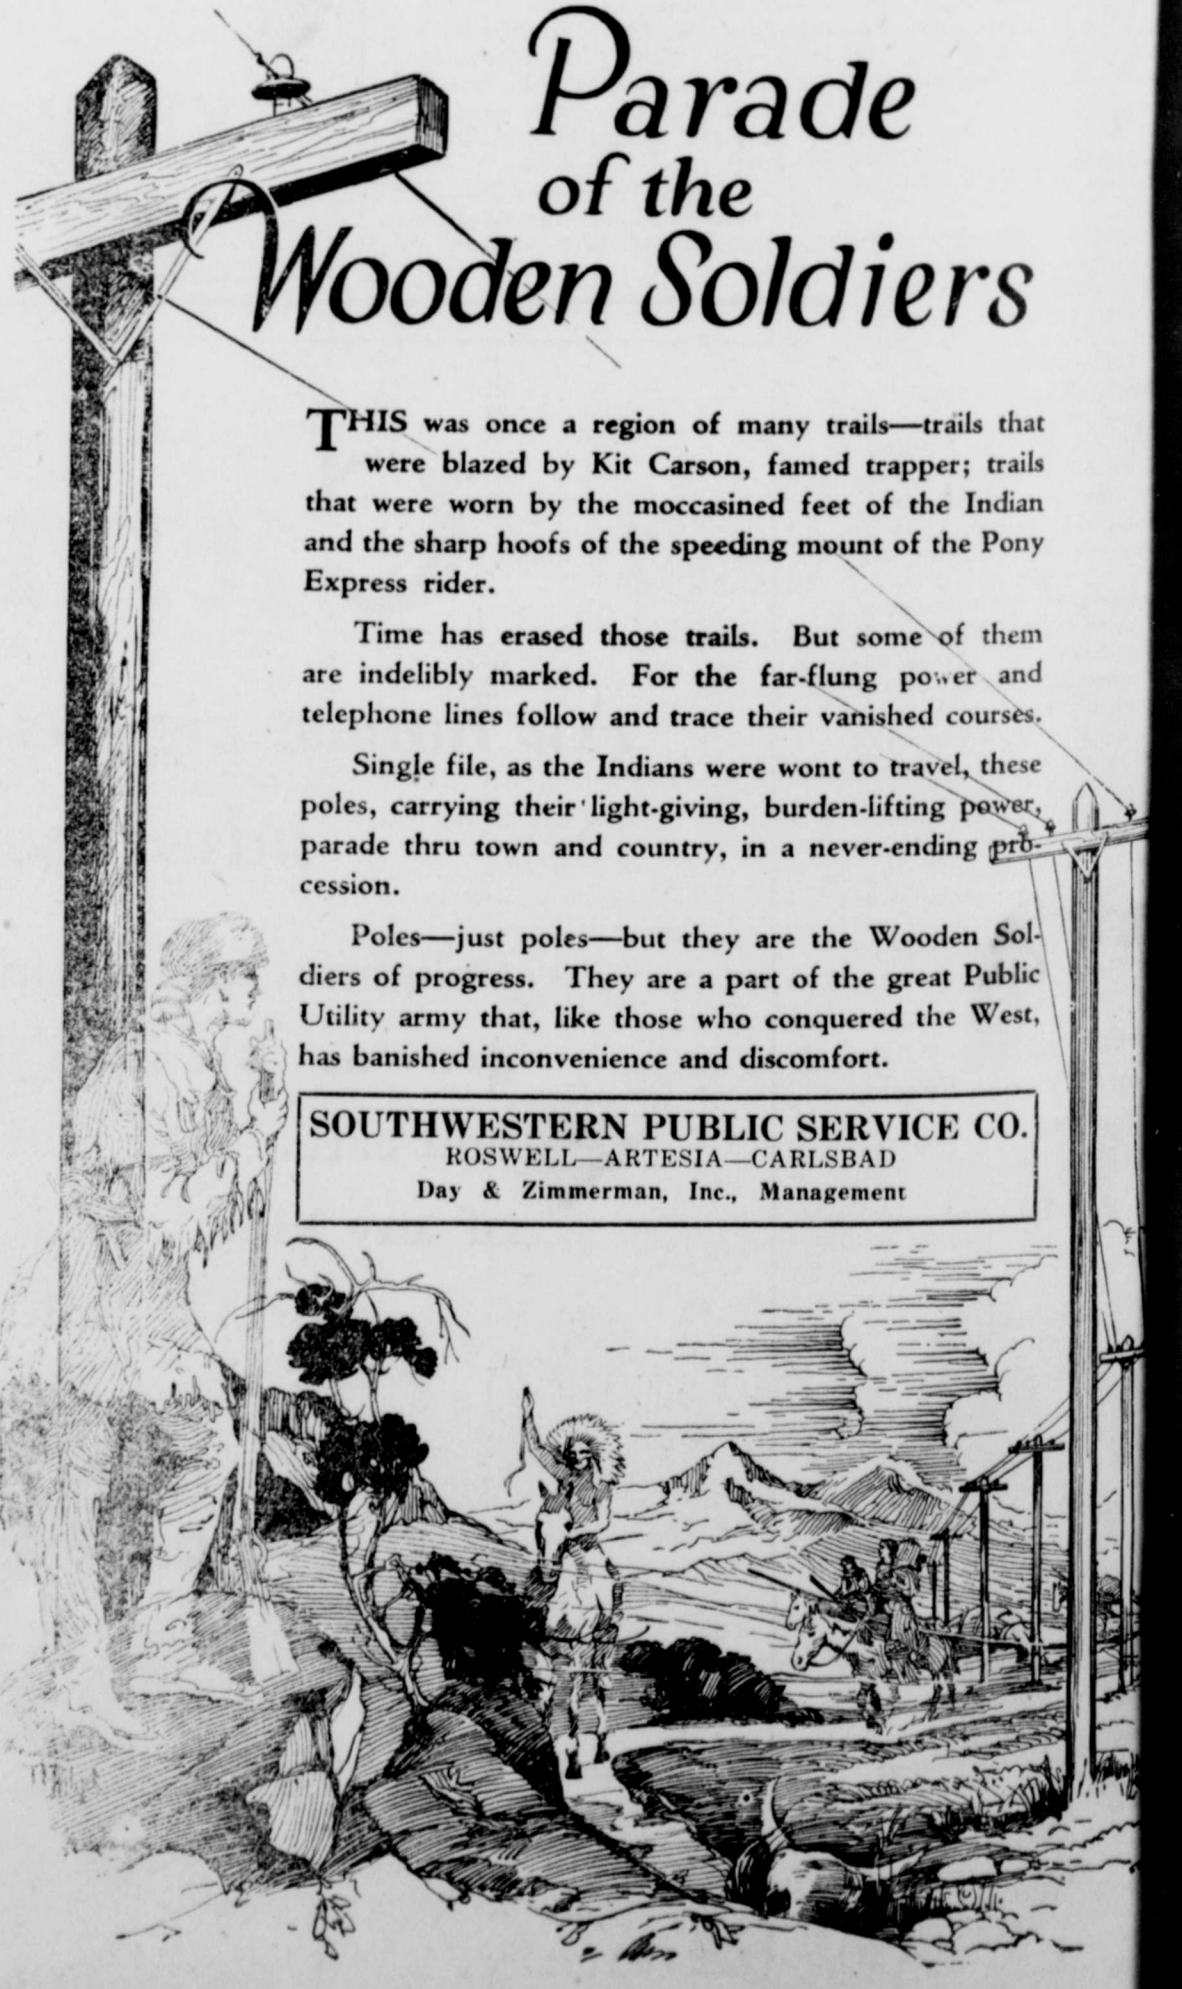

THIS was once a region of many trails—trails that were blazed by Kit Carson, famed trapper; trails that were worn by the moccasined feet of the Indian and the sharp hoofs of the speeding mount of the Pony Express rider.

Time has erased those trails. But some of them are indelibly marked. For the far-flung power and telephone lines follow and trace their vanished courses.

Single file, as the Indians were wont to travel, these poles, carrying their light-giving, burden-lifting power, parade thru town and country, in a never-ending procession.

Poles—just poles—but they are the Wooden Soldiers of progress. They are a part of the great Public Utility army that, like those who conquered the West, has banished inconvenience and discomfort.

NEW MEXICO NOW HAS THREE MILLIONAIRES SAYS THE TAX REPORT

SANTA FE.—New Mexico has three millionaires, according to copies of an internal revenue service report just received here.
 Every person whose income reported to this service as more than \$50,000 net a year is rated as a millionaire by statistics. There are 30,517 millionaires in the United States, of whom more than thirty percent, or 9,690, live in New York. Pennsylvania comes next with 3066; Illinois, 2792; Massachusetts, 1951, and California, 1694.
 Of the states adjoining New Mexico, Texas has 360, Oklahoma 174; Colorado, 139 and Arizona, 28. Two states have a smaller portion of millionaires than New Mexico, North Dakota with two and Idaho with one.

Combination Barn for Horse and Dairy Herd Good for Small Farm

By WILLIAM A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical building work on the farm, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

We are all more or less familiar with the "old red barn," which until recently was well known along the countryside as the little red schoolhouse. But with the march of progress the little red schoolhouse soon lost its prestige and is now replaced by the more modern and efficient consolidated or district school. It was inevitable that the antiquated barn should follow down the road to oblivion. It has been one of the responsible factors in driving the boy from the farm to the city. For it meant untold hours of drudgery with little recompense. It involved haphazard methods, insanitary conditions and poor stock.

Better farm buildings have been the natural outgrowth of the present century of efficiency and sanitation. The old barn could not survive. Better buildings meant healthier, more contented stock and increased production. Increased production is the forerunner of greater profits and greater profits mean more comforts of life for the farmer and his family.

That is why barns such as that shown are being built on farms whether they are large or small. If large enough a barn is built for the dairy herd alone. And it is well worth the outlay. But if the farm is not large enough or does not have a large enough herd to require a special barn a combination barn is often built to house cattle and horses. Such a building is this. It is a beautiful structure and one that should inspire any farmer. It does not require a vivid imagination to see the sturdy sleek animals housed in this building.

This is called a combination horse and dairy barn, provision having been made for the housing of horses and cows. It is a long building, 124 feet by 38 feet in width. The gambrel roof allows plenty of room above the stalls for a spacious, unobstructed hay mow. Note the two large hollow-tile sills on the side. They are large enough to hold a good supply of silage for the winter feeding and are built next to the feed room which opens into that part of the barn in which the herd is housed.

At this end of the building the horse stalls are located. There are stalls for ten horses with a harness room at one side. These stalls face a central feeding alley down which the feed carrier can be moved along an overhead track. All work of carting feed in wheelbarrows has been eliminated by this overhead equipment and as a consequence much of the drudgery which has made work about the barn so distasteful is removed. A similar overhead carrier track is installed over the litter alleys in the rear of the horse stalls for carrying away the litter to the manure pit.

The barn is frame in construction, set on a solid concrete foundation. The entire floor is concrete with cork brick on the stall floors. Plenty of good-sized windows along the lower floor provide the sunshine and ventilation that is so important in housing animals. It not only keeps them healthy but stimulates production by keeping them active and alert. Active animals are workers and are contented and as the familiar saying goes "contented cows produce plenty of fine-quality milk."

Passing down the main alley of the horse barn we find a door opening into the dairy section. Here two rows of stalls have been built facing it. Again the carrier track over the feeding al-

leys and the litter alleys relieves the help of the heavy work of carting litter from the barn and feed to the animals. These cow stalls are of the latest type, set in concrete. There are individual drinking cups in front of each stall providing the cows with a constant supply of clean fresh water, one of the most important factors in good milk production. The stanchions are humane, yet firm and sanitary. At the far end of the barn are box stalls.

This barn design represents one of the most efficient types of combination barns for the average farm. Additional ventilation is provided by special roof ventilators and protection against fire by lightning is assured by the lightning rods which line the roof. When we stop to think that 95 per cent of farm fires are caused by lightning it is very important that proper and adequate protection should be installed on all of the buildings.

Needless to say if more barns of this type were found on the farms today there would be less agitation about keeping the boys there. In the final analysis drudgery and miserable conditions have been largely responsible for this menacing exodus each year which threatens to devitalize the most important industry of the nation. Better buildings and modern equipment are barriers that will stem the tide.

Leaking Roof in Home Means Poor Building

"No foot, no horse" is the very old saying. "No roof, no house" applies with equally as much force. A house is only as good as its roof. It must be roofed substantially if home's full protective purpose and assurance of comfort are to be realized.

Your roof, like the prow of a vessel, must stem the tide of the elements. It pushes upward against a continuous stream of destructive agencies. Heat and cold, rain, snow and wind are forever pitting their undermining forces against the endurance of your roof.

It is the great protector of your home and will faithfully perform its endurance. It can do no more than that. A weaking cannot be expected to do a giant's work. Hence, if you put on a roof that lacks the stamina to grapple with heat, cold, rain, snow and wind—opponents that never weaken in their attack—you need not expect that kind of a roof to outgame them.

If the natural staying-qualities are not there, though you paint and patch, your roof will lose the battle. Meanwhile, it has cost you more altogether in money outlay than an enduring roof would have cost at the start.

Concrete Slabs Used in Fireproof Building

When a fireproof residence of masonry construction is erected, it is customary to construct the floors of either portland cement or gypsum concrete. This same construction is largely used in the light occupancy commercial buildings of similar character.

Such floor and roof slabs are formed by simply pouring the concrete to the specified depth over a ribbed metal lath, which is attached to metal joists. The surface then is finished off in one of many possible ways—with wood, linoleum, composition flooring, etc.

Both portland cement concrete and gypsum concrete are incombustible. However, the latter is the lighter by about 50 per cent, and if a floor or roof slab of gypsum concrete is specified while the plans for the structure are being drawn, it often makes possible a considerable saving in steel.

THE CHURCHES

HOPE METHODIST CHURCH Rev. B. M. Stradley, Pastor

Services, Sunday, November 6th: 10:00 a. m., Sunday school. A class for every age, and a competent teacher for every class. Noel L. Johnson, superintendent.

11:00 a. m., preaching by the pastor. Subject—"The Lord's Supper." Special vocal quartette by the choir mixed quartette, "Break Thou the Bread of Life." After the morning service the Lord's supper will be observed.

7:30 p. m., preaching by the pastor. Subject "The Singing Christ." Miss Mattie McClellan, soloist of Fort Worth will sing at this hour. The junior quartette will also render a special number.

The congregational song service starts promptly at 7:15 p. m., led by E. A. Traylor.

Prayer service every Wednesday evening at 7:30.

CHRISTIAN SCIENCE SOCIETY 613 West Main Street

Sunday service at 11:00 a. m. Wednesday service at 7:30 p. m. Subject for Sunday, November 6, "Adam and Fallen Man." The public is cordially invited to attend these services.

BAPTIST CHURCH

Our pastor, Rev. Peterson, will have charge of the services next Sunday and will preach morning and evening. Let us give him a good hearing.

Sunday school, 9:45 a. m. Morning service, 11:00 a. m. B. Y. P. U.'s 6:00 p. m. Evening worship, 7:00 p. m.

Topic Senior union, "Devotional"; Intermediate topic, "Friendship." Junior topic, "A Boy Who Did Not Play Fair."

Prayer meeting, Wednesday, 7:00 p. m.

With Nov. 1st our night services automatically move up half an hour. Note the change and act accordingly.

FIRST PRESBYTERIAN CHURCH Corner Fourth and Grand Rev. John Sinclair, Pastor. Phone 249

Sunday, November 6th. 9:45 a. m., Sabbath school.

11:00 a. m., morning worship and sermon. Subject "Favorite Texts of Famous People" (last sermon of series) Harriet Beecher Stowe's Text. 6:15, Christian Endeavor Society.

7:00 p. m. Popular Peoples' Service; Junior choir and orchestra. Sermon subject: "How to Treat Your Best Friend."

Wednesday, 7:30 p. m., Prayer, Praise and Bible study of First Corinthians, 14 and 15.

"Welcome stranger! We are glad you are in town. Come and share a worshipful hour with us at church Sunday."

CHURCH OF CHRIST Corner 7th and Grand Ave.

Communion, 11:00 a. m. Bible school, 10:00 a. m.

The series of meetings will close Friday night. "Why Oppose Instrumental Music in the Church Worship?" will be the subject of Evangelist Wainwright. The entire congregation joins the evangelist in thanking Artesia for the courteous considerations shown. Every one deeply appreciates the record attendance and attention. Be sure to hear Brother Wainwright Friday night in his kind, courteous, educational manner, discuss the momentous question from the standpoints of Bible, history and grammar.

AREZIA METHODIST CHURCH Mims J. Jackson, Pastor

This month (November) is loyalty month in our church. All of the programs in our various church organizations will emphasize loyalty. Do not let anything interfere with a fine attendance at Sunday school and both church services. A remarkable enthusiasm is seen on every hand. "Give to the Lord the best you have, and the best will come back to you."

All morning services at the usual hour. The Sunday evening church service and mid-week service at 7:00 p. m. The pastor will preach at both services Sunday.

CHRISTIAN CHURCH NEXT SUNDAY

"Seeing the Father" was the subject of the sermon last delivered in the Artesia Christian church. "As God Sees Man" will be the theme next Sunday morning at 10:50.

Sunday school at 9:45. It is to these two institutions—the church and Sunday school—that most of us give credit for what we know and what we are morally and spiritually. As each new generation comes into its own, their knowledge and interest in the sacred things of life will be garnered from the same sources; provided, older people see to it that they function properly. For our own sakes, as well as for theirs, we lend our presence and influence to keeping both church and Sunday school to high points of efficiency.

During November, the pastor will deliver sermons at 10:50 a. m. on the first and third Sundays, and 7:20 p.

NOTICE OF PENDING SUIT

In the District Court of Eddy County, New Mexico.

KEMP LUMBER COMPANY, a Corporation, Plaintiff.

Vs. GEORGE LORTON, Defendant. No. 4497

THE STATE OF NEW MEXICO To George Lorton, the above named defendant:

You are hereby notified that suit has been filed against you in the said District Court of Eddy County, New Mexico by the above named plaintiff, and the general objects of said suit are to secure judgment against you, the above named defendant, and in favor of the plaintiff, in the sum of \$36.60 with interest at the rate of 6% per annum from the 24th day of March, 1926 until paid and cost of suit, for material and supplies furnished by the plaintiff to you, the said defendant.

And you, the said George Lorton, are further notified that plaintiff has attached all your interest in and to the following described property, situated in Eddy County, New Mexico, to-wit:

One frame dwelling house, situated in said County and State and located on the NE 1/4 of Section 31, Township 18 South, and Range 28 East.

And you are further notified that unless you enter, or cause to be entered, your appearance in said cause at Carlsbad, Eddy County, New Mexico, on or before Tuesday, January the 3rd, 1928, judgment will be rendered in said cause against you by default, for the amount prayed for in plaintiff's complaint and cost of suit, and the above described attached property will be sold as provided by law, to satisfy plaintiff's judgment in said cause against you. The name of plaintiff's attorney is J. H. Jackson, whose post office address is Artesia, New Mexico.

m. on the second and fourth Sundays. Your presence is most earnestly coveted.

H. A. PEARCE, Pastor.

DENVER TO GET NATURAL GAS

DENVER.—The last legal obstacle to the piping of natural gas to Denver was removed Monday night when the city council unanimously decided that the petition seeking to put the question to the voters was invalid. The action was based upon a report of the council public utilities commission which acted upon an opinion given by City Attorney Gibson.

Gibson held that the petition and the initiated measure did not conform to the requirements of the city charter.

The petition was circulated by the Colorado-New Mexico coal dealers association and it was contended that the rates granting a natural gas franchise to the public service company of Colorado, were too high.

Advocate want ads get results.

Just Because It Hasn't Turned Cold

The weather has been most unseasonable for the sale of Fall and Winter garments—So we are just going to "beat" the weather a little and offer our patrons marked reductions on ladies ready-to-wear, even before the season opens and you know it will turn cold for it always has.

For Thursday, Friday and Sat. Only

WE OFFER YOU THESE ANTI-SEASONABLE SHARP REDUCTIONS

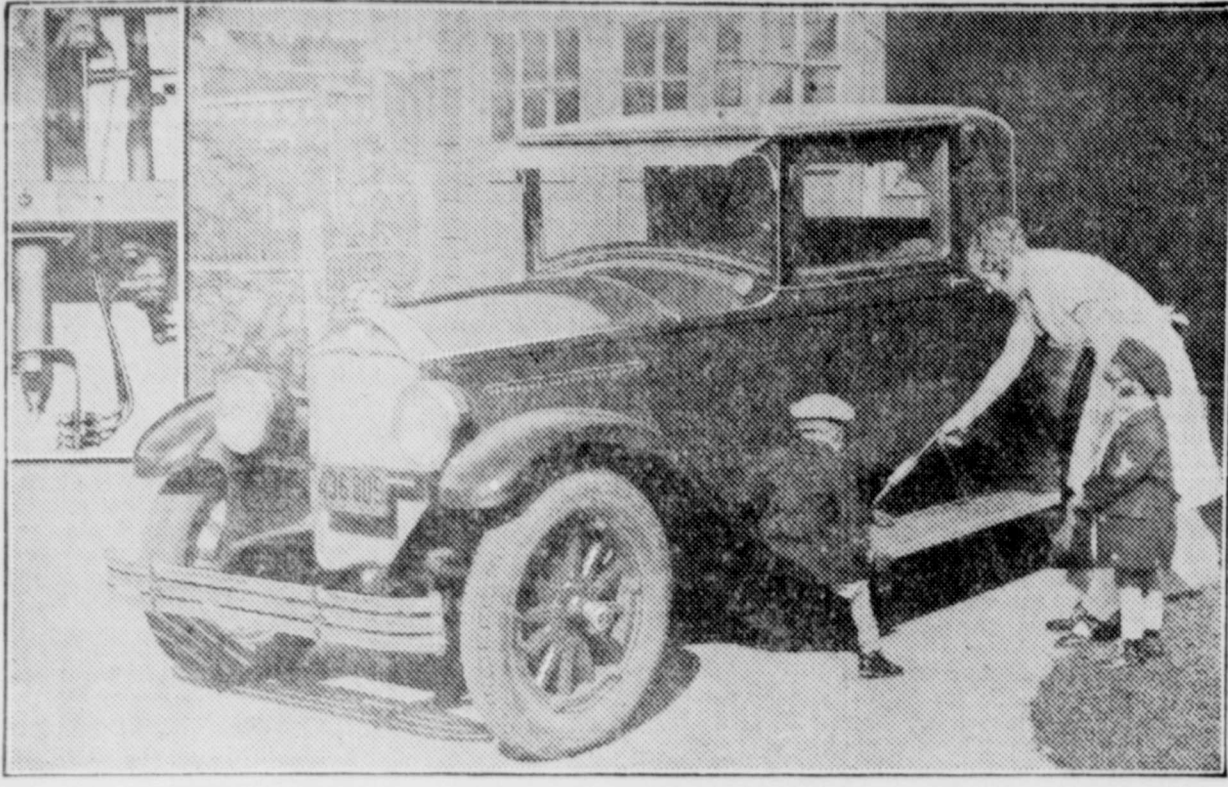

- LADIES' COATS
Up to \$32.95 in value
SPECIAL AT
\$24.95
- LADIES' DRESSES
Value up to \$24.95
SPECIAL AT
\$18.75
- LADIES' COATS
Value up to \$19.95
\$14.95
- LADIES' DRESSES
Value up to \$17.95
\$11.95
- LADIES' HATS
Value up to \$6.95
\$4.95

Probably by the time this advertisement appears the weather have changed and oh! what a bargain feast this will be for you.

Peoples Mercantile Company

Buick Lubrication Easy and Positive

The ease with which Buick for 1928 may be greased is one of its outstanding features. There is no need of crawling under the car, for inaccessible chassis points are reached with grease gun through trapdoors in running board apron, as shown here. Inset shows portion of chassis with cluster of grease connections and extensions which make possible this refinement. Rear end connections are similarly extended.

SHERIFFS FORCE HAS BOY SCOUT MEETING A BUSY WEEK IN THE TO BE HELD SATURDAY COUNTY LAST WEEK ON COURT HOUSE LAWN

While the sheriff's force has not had a heavy run of criminal matters the past few months, this week has given them plenty to do.

Woodrow Lyons, 16, of Loving community, is in jail awaiting hearing before district court on a charge of rape on a five year old girl. Following report of the crime Monday night, he was caught by the sheriff's force Tuesday near Red Bluff. He appeared in justice court at Loving and entered a plea of guilty.

Another rape charge was filed Wednesday morning against Manuel Gonzales of the Loving section, the charge being made by the mother of the fourteen year old girl, it is reported. Gonzales and the girl, according to reports, learned that the sheriff's force was hunting them and came here and tried to get a marriage license. The sheriff's force had been advised of the circumstances, and arrested him when he applied for the license. Bond has been set but has not been made. The penalty for rape includes sentences of fifty years.

Wednesday, the sheriff's force arrested Pedro Revero and Jose Monge, against whom charges of manufacture and possession of intoxicating liquors for sale was lodged. Revero made bond of \$500 and Monge is trying to make bond of the same amount. When they were arrested, Revero was found comfortably sitting in a rocking chair near the still, which was pouring out the liquor. He had four gallon bottles filled and the fifth was filling. A still and mash was found in Monge's house 100 yards away.

Heladio Montus, Bill Smith and Savath Gutierrez were arrested Wednesday night at the Mexican dance, charged with being drunk and disorderly, and paid fines.

R. J. Toffelmire's Chrysler sedan was stolen Tuesday night from in front of the old Dr. Glasier office building near the Crawford theater and a day spent in locating it. It was found Wednesday evening late near the Harkey ranch on Black river, in the ditch. It was short of gas and had a flat tire, but otherwise appeared not injured. It had evidently been driven about ten miles. No arrests have been made in connection with it.

Sheriff Joe Johns, accompanied by R. B. Armstrong, left Thursday evening for Santa Fe, taking Martinez and Nicodemus Ruiz to the state penitentiary to begin serving

The field meet of Boy Scouts of the Pecos Valley, including six of eight troops from Roswell, two from Artesia, one from Dexter, one from Hagerman and three of Carlsbad, will be held in Carlsbad on Saturday, November 5th. A big bunch of scouts with their leaders will be here and it is planned to hold the events on the court house lawn. The Carlsbad people are invited and urged to watch the contests, there being no admission charge.

Among contest events the program includes the following:

1. Archers 40 and 60 yards.
2. Distance Archery.
3. Hatchet Throwing
4. Wall scaling
5. Fire by friction (three man event)
6. Flint and steel
7. String burning contest
8. Tent pitching
9. First aid (surprise event)
10. Knot tying (surprise event)

Games included are skin snake, antelope race, three legged race, Paul Revere race, staff relay and others. Scouting events are to be scored 10, 6 and 2 for first, second and third places, while non-scout events will count 5, 3 and 1. Detailed rules and plans will be given just before the meet, and the scouts are especially tested in surprise events, which lead them to prepare for whatever might come.—Current-Argus.

The parson ought to run his church like they do the theater or the auto show. You never heard of folks lining up at the box office to pay for entertainment after the show was over.

Judge—"So your name's Joshua, eh? You're not the Joshua who commanded the sun to stand, are you?"

Eben Holden—"Lor', no, judge. Ah'm de man dat made de moonshine.

sentence imposed by the recent term of district court.

Martinez will serve twelve to fifteen months on an attempted rape charge and Ruiz will serve eight to twelve months on a charge of taking a minor for immoral purposes.

When Sheriff Johns returns from this trip, he will take Conception Juarez to the state penitentiary to serve twelve years on a conviction for second degree murder and Garbosa Salsido to the reform school to serve a year for forgery.—Current-Argus.

HOPE ITEMS

(Noel L. Johnson, Reporter)

All cotton growers are harvesting a good crop.

Oleta French spent the week-end at Malaga with her friend, Miss Hazel Belle Johnson.

Miss Helen Coffin, who has been in the hospital in Carlsbad will return home this week.

Over 5000 lambs were weighed over the Hope scales last week and delivered to the buyers.

Henry Crockett inspected a ranch near Capitan during the week, with a view of purchasing same.

Pastor Stradle yhad a full house at the Methodist church Sunday. A musical program was rendered.

Mr. and Mrs. H. White will return to Carlsbad with their small daughter this week for treatment under Dr. Glasier.

Mrs. A. A. Smith entertained Mrs. Annalou Cox, Miss Mary Keller and Miss Lula Jones at her home one evening this week.

Mrs. C. B. Altman is running the Van store in the absence of Mr. Rowland, who is now in El Paso with Mrs. Rowland and small daughter. They drove over Monday.

Phil Blanchard and Lee Havens, of Roswell received some 1700 head of aged ewes here the other day. They will be put on alfalfa pasture on Cottonwood for the winter.

LAS VEGAS SCHOOL BURNS WITH A LOSS OF \$50,000

EAST LAS VEGAS.—Although school board officials have placed no estimate on the loss by fire Sunday of the Douglas Avenue school building, the city superintendent said the original cost was \$50,000 and that building costs have increased about three fold since 1891, when the first wing was built.

Approximately \$25,000 insurance was carried on the structure and furnishings. Plans are being made for erection of a new building and churches and lodges have offered rooms for temporary use. About \$700 worth of books were destroyed and the school board is finding it a problem to obtain new ones.

LAKEWOOD ITEMS

(Mrs. M. C. Lee, Reporter)

R. L. House went to Artesia on business Monday.

Mrs. J. A. Lewis has been ill with a bad cold for several days.

Cecil Standard and wife left for the Texas oil fields near Pyote, Monday.

Mrs. Belle DeAutremont ate dinner with Mr. and Mrs. M. C. Lee, Sunday.

James House and Sandy McLeod left for McCamey to look for work in the oil field there.

Our teachers have gone to Albuquerque to attend the teachers' convention there this week.

Mr. and Mrs. J. H. Angell went to the oil field Sunday and spent the day with Lewis Angell and family.

Grandma Angell, who has been spending a few weeks with her son, Lewis, in the oil field, returned home Sunday.

The people of Lakewood regret very much losing the Hardins from our midst. They left for Borger, Texas, Wednesday.

Willard Shafer and family came over from Rocky Arroyo Saturday and spent the day here. They will move back to Lakewood soon.

The pie supper and dance given by the teachers and patrons was a decided success. The proceeds amounted to nearly forty dollars.

D. M. Lee came up from Carlsbad Tuesday looking for a shot gun that had strayed from his residence some time ago. Dwight is figuring on potting a few quail while the season is open.

A home talent play will be given at the school house Saturday night, November 12, proceeds to go toward our pastor's salary. The play is entitled "Mrs. Tubbs of Shanty Town" and is a good one. Those taking part in it will put forth every effort toward making it a success.

"I hear your son's at college."

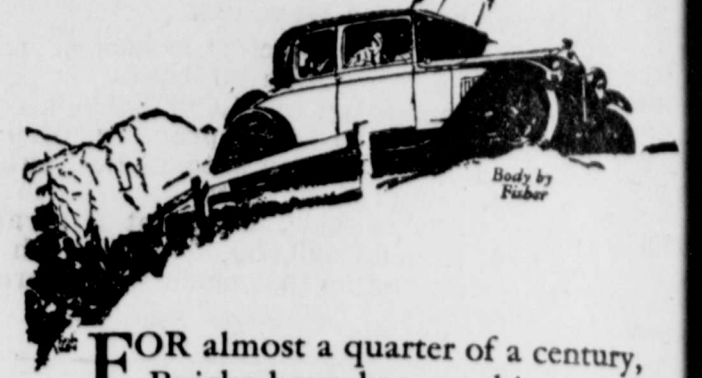

"Yep."

"How's he doing?"

"Pretty good, I guess. He's taking three courses. I've just paid out \$10 for Latin, \$10 for Greek and \$100 for Scotch.

Commissioner, at Artesia, New Mexico, on the 26th day of November, 1927. Claimant names as witnesses: Jesse L. Truitt, John W. Vandegriff, John B. Muncy, Albert L. Ainsinger, all of Artesia, N. M. V. B. MAY, Register.

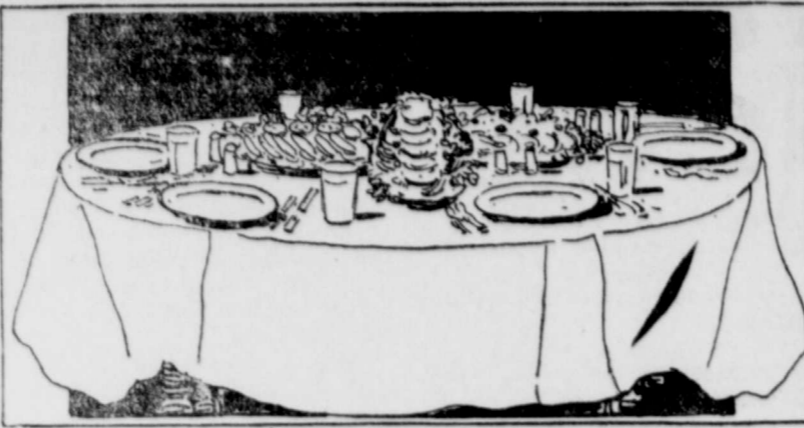

AVOIDING COLDS

How many colds are you going to "catch" this winter? And after you have caught one, how generous will you be in passing it on to others? Unlike charity, this kind of generosity should not only begin at home but end there. In spite of the unwelcome reception given the common cold, it manages to keep more than one tenth of our entire population sniffling and sneezing at one time. How can you keep out of the sorry procession, and how can you help to break up this big parade? To keep yourself free from colds, now that the open season is approaching, observe these simple precautions: Wash hands before eating or handling food. Don't shake hands with persons who have a cold, unless you wash hands carefully at once. Keep away from common drinking cups, roller towels, pipes, pencils and other objects contaminated with fresh secretions. Give coughers and sneezers and spray talkers a wide berth. Don't let them aim at your face. Keep away from people who say they have the "flu." Eat only from dishes washed clean in hot soapy water. Avoid sudden changes of temperatures, close and stuffy air, and fatigue. Maintain as high an internal resistance against infectious agents as you can, by daily attention to bodily cleanliness, exercise, elimination of waste, rest and diet. Suppose you have taken cold, in spite of all precautions. Then you become a source of danger to others. Follow these rules: Be your own policeman. Keep clean. Cover nose and mouth, with cloth or paper handkerchief, when coughing or sneezing. Don't shake hands with others. Wash hands and face frequently with soap and hot water. Stay in bed if possible, or at least away from other people, during the first three days of your cold. See to it that your dishes are thoroughly washed with hot water and soap. The value of cleanliness as an ally in preventing infection may be judged by a careful test of hand-washing, made during the winter months when respiratory diseases are most prevalent. The average man, washing his hands in warm, clear water without soap, is many times as effective as cold water without soap. Therefore, in advising frequent washing of the hands to avoid infection, we mean thorough cleansing with soap and warm water, and not a perfunctory wetting of the fingers. In general, keep you hands away from nose and mouth and use them instead to open windows and check excessive furnace heat.—Eddy Co. Health Dept.

MYSTERIOUS

"What makes you always so popular?" He asked the speedy young spark. And she said with a grin, As she powdered her chin: "I keep all the boys in the dark." A Chinese baby born in Chicago was named after Lindbergh, and what you think they called him? One Long Hop.

Dainties for Party and Picnic

By CAROLINE B. KING Culinary Expert and Lecturer on Domestic Science

- Cold Platter Swiss Style: Arrange in attractive order on a large platter slices of boiled ham, alternating with slices of cold chicken or cold roast beef. Across each end of the platter place thinly sliced Switzerland cheese, with halved stuffed eggs at intervals between the meat slices. Garnish with small tomatoes stuffed with potato salad arranged about the edge of the platter on lettuce leaves. Serve with rye bread and Switzerland cheese sandwiches, and ginger ale.
Switzerland Toastwich: Toast three slices of bread, butter two slices on both sides. Lay crisp lettuce leaves on one slice of toast and cover with stiff mayonnaise. Arrange crisply cooked bacon on the lettuce with slices of Switzerland cheese over the bacon. Cover with a second piece of toast. Repeat and top with the last piece of toast buttered side down. Garnish with quartered tomatoes and sliced dill pickles.
Apple Jelly Toastwich: Toast three slices of bread and butter each on one side. Spread one piece of toast with thin slices of genuine Swiss cheese, cover with a second piece of toast and spread with apple jelly. Place the third piece of toast buttered side down on top of the sandwich. Serve hot.
Swiss Puffs: Roll flaky pastry thin and cut in small scalloped rounds. Place a circle of genuine Swiss cheese on each and bake a delicate brown. Serve hot or cold, each circle topped with a preserved cherry or a cube of tart jelly.
Picnic Salmon: Place a can of salmon in hot water and simmer for one-half hour. Hold the can under cold water for a few minutes before opening—remove the salmon onto a hot platter and serve hot with a brown butter lemon dressing, which is made by placing 3 tablespoonfuls of butter in a pan and allowing it to brown. Then add 1 tablespoonful of lemon juice and pour hot over the heated salmon.
Swiss Eggs: Hard cook a sufficient number of eggs and cool. Remove the shells, halve the eggs lengthwise, take out the yolks, mash and moisten them with Chili sauce and add tiny cubes of genuine Swiss cheese. Fill the whites of the eggs and place the halves together. Wrap in waxed paper, twisting the ends to hold all securely. These stuffed eggs are a very delightful innovation.

ALFALFA SEED MOVING SLOWER THAN LAST YEAR

Movement of alfalfa seed has been slower than last year due in part to later harvesting and threshing in many important producing districts. The U. S. Bureau of Agricultural Economics estimates that approximately 30 per cent of the crop had left the hands of growers up to October 18, which is the same percentage of movement as two years ago but is below last year when 40 per cent was moved at a corresponding date. In general, growers have sold more freely than last year but in some sections, especially where the crop was much smaller than last year, they have been inclined to hold for higher prices. The highest average prices for common alfalfa on October 18 were offered in South Dakota \$17.25, and in Montana \$16.20, and the lowest prices in New Mexico \$12.25 and in Texas \$12.40. Prices were higher in some districts but lower in about as many others and averaged \$14.25 per 100 pounds basis clean, or the same as last year, compared with \$15.30 two years ago. In the largest Grimm alfalfa producing district mostly \$25-\$28 was offered. The fastest movement occurred in New Mexico, California, western Texas and southeastern Kansas. Movement was slowest in Nebraska, Montana, South Dakota and western Colorado. Movement was faster than last year in southeastern Kansas, western Texas, eastern New Mexico and California, but slower than or about the same as last year in the remaining states. Both imports and exports of alfalfa seed showed increases over last year. Imports of alfalfa seed July 1 to October 15 amounted to 210,400 pounds compared with 76,700 in 1925, 132,300 in 1925, 2,999,600 in 1924, 3,247,200 in 1923, 4,639,700 in 1922 and 1,593,600 pounds for the same period in 1921. Exports of alfalfa seed for September amounted

RADIO KOB

Are you taking advantage of the interesting agricultural programs that are being broadcast every Monday evening from 7:30 to 8:30 by KOB? On November 7 a part of the program will be devoted to a discussion on hog cholera; its treatment and the importance of vaccinating as a means of prevention; the treatment of hogs before and after vaccination. There will also be a short talk on bee culture; the life, habits and care of bees. Aunt Sammy will talk on "Getting the House Ready for Winter," giving suggestions on the furnishing and arranging of rooms. She will also broadcast a special recipe for squash and pumpkin pie. If you are fond of pie, don't fail to listen in with notebook and pencil ready. The program of November 14 will be of special interest to corn growers, giving some good suggestions about drying and storing corn. Alfalfa, weeds and straw will also be featured in this talk. Aunt Sammy's subject will be "Modern Methods of Cooking Vegetables"; vitamins and their importance and methods of cooking vegetables so the vitamins will not be destroyed. Remember, Monday evenings, at 7:30 get ready for an hour's good entertainment; interesting talks and good music. Radio KOB, wave length 394.5 meters. Listen in. Christmas Cards, engraved, embossed or printed—drop in and see them—Advocate.

to 87,829 pounds, 92,222 in 1926, 141,241 in 1925, 56,417 in 1924, 103,565 in 1923, and 65,766 in 1922 for the same month. Exports for the nine months ending September 30 amounted to 993,890 this year, 309,575 last year and 477,062 pounds the year before.

SAME HERE BROTHER (Portales News)

Some considerate soul has seen fit to send our subscription to the Chicago Blade and Ledger, with the result that we receive copies of this famous (?) publication regularly. And, although it has been many years since we were addicted to that sheet, along with Young Wild West and Diamond Dick, we just glanced through the last issue and since so doing we are at a loss as to why any man should labor for a daily wage, when, according to this weekly, he can get anything on earth absolutely free of charge—genuine diamond rings, multiple-cylinder limousines, wrist watches with an unknown quantity of jewels, and fabulous sums of money—all for the asking; or at least the most strenuous labor required is the solving of some puzzle so simple that even we could work them. Of all the things advertised in this paper (including typewriters, luck stones, modern homes with hot and cold running water, automobiles, safety razors, shot-guns, kodaks, or what do you want, ninety per cent are postively free. And these ads have all the characteristics (a mighty good word meaning "earnmarks") of a straight forward legitimate proposition. But are they? Why does such "comeon" as this pass the postal authorities who will not allow a local merchant to advertise the gift of premiums to his customers?" No, ma'am, there is no red tape in our uncle's postal department. And, buddy, listen. The next time you feel inclined to give yours truly a subscription to some good publication, please make it The Wampus Cat or Capt. Billy's Whiz Bang. BUG HOUSE FABLES (By Chester) Evans loaning his 30-30 to Higgins on November 8th. Judge McCrary landing a 4 pound or even a four ounce bass. Higgins big profit on the cotton market. Haley occupies new store before Christmas. Chester Dexter getting in the democratic organization as a stump speaker for Jim Reed for president. Chamber of Commerce tearing down grave stone in center of Main street. Dave Bryant high hatting us in the new Ford.

TWO CARS STOLEN

The car stealing epidemic which hit the Pecos valley some weeks ago, apparently continues unabated. Local officers have been advised to be on the look out for an Essex coupe, stolen in Roswell, Sunday evening. On the previous day a Chevrolet coupe was reported stolen in Carlsbad. Loose-leaf binders, special ruling and stock forms—Advocate.

PROLET WORKING
YEARLY GOAL
1,000,000 CARS

progress toward their "million car year" is now being made during the fall months by the Chevrolet Motor Company, according to C. P. Simpson, El Paso manager of the Chevrolet organization, who has just returned from a big sales meeting held in Southern California. The big annual "Turkey" meeting which has become a Chevrolet selling year is on during October. A high quota of more than 100,000 cars for the month was set for the first twenty days and was considerably in excess of the schedule according to Mr. Klingler. Congratulations were paid to Simpson at the Los Angeles meeting for the showing the El Paso zone has made in sales. Out of forty-three sales zones in the United States the El Paso zone today is in the first class. The city of El Paso is one of the leading cities in the States in its proportion of cars. The features of the meeting in Los Angeles, according to Simpson, was the showing of two reel movies of the work carried on in the Chevrolet division of General Motors proving that the Chevrolet is a great work on wheels. "Since September Chevrolet first started proving ground, they have covered one million miles in test cars there. The proving grounds are all the tests that any car is called on to perform in normal use, as well as many 'torque' tests designed to bring out any weakness that might develop at the hands of an inexperienced or careless driver. Each test car is subjected to tests as riding the clutch, tramping on the brake, racing the motor, straining the engine gear, etc.—not because of the majority of motorists so that the car will stand the severest treatment. The public recognizes the importance of the experience that precedes the offering of new Chevrolet features is given by its extraordinary sales records in the past years."

TEAM WINS PLACING IN CONTEST

The cattle judging team from Mexico College of Agriculture placed 16th among thirty-two teams at the national contest in judging dairy cattle at the National Dairy Show at Memphis, Tennessee, October 15, 1927. The New Mexico team in the half of the thirty-two teams a good showing for the college has entered a team at the National Dairy Show. This team placed 7th among Ayrshires and 15th in Jerseys. The New Mexico team was the only one representing the state at the contest. The cattle judging contest is an affair at the National Dairy Show. This year it was in character, as the team from the Agricultural College. The team from the University of California came second, and North Dakota College was third. The New Mexico team consisted of: Don Deming; Don Downey; Orin Copeland, Roswell; Morris, alternate; Port. O. C. Cunningham, who accompanied the team, represented the College at the American Dairy Association and the College Reference Board. The contest consisted in three classes of four animals each of the breeds Jersey, Holstein and Ayrshire. A constant was required to give the class of cows several hours after the placing of the class of cows. The results of the contest were as follows: The annual banquet of the American Dairy Science Association organization composed of producers and investigators. At the ninety-six men in the contest were invited.

ROBBER SUBSTITUTE

WASHINGTON.—A substitute for rubber, which compares with plantation or Hevea rubber, has been found in "Guayule" according to the United States standards. The completed tests of the rubber which is produced from a shrub grown in Mexico. The Advocate to your door who is away to school—

Dead Spots Still Cause of Trouble

Mineral Deposits and Radio "Shadows" Among Theories Advanced.

By CARROL J. BURNSIDE
Generally speaking, the reason for broadcasting is to gain an audience. The idea is much the same as that behind a newspaper. The paper prints news and other interesting information to draw the attention of the reader and gain an audience with him, so that advertising or news of commercial value may be set before him in a pleasant and inviting way. So it is with the broadcaster.
He gains the attention of the public and pleases by means of entertaining and educational programs and then commercializes this attention by advertising in an agreeable and engaging way.
The value of the newspaper as a commercial medium lies in its audience, its circulation. And in the case of the broadcasting station its value lies in the size of its audience, its "coverage"—the territory over which it can be reliably heard.

Station Must Reach Out.
Good programs, well presented, are worthless commercially if they do not reach the listeners. Therefore, coverage is important above all else. It is useless to go on with the play if the curtain is not raised, even though the house be "sold to the doors."
Coverage depends upon the power of the broadcasting station and the density of population of the territory surrounding the station. These factors can be taken into consideration when the station is erected, but there is one "joker" to the proposition that never shows up until the station is completed and in operation. That is the elusive "dead spot." Because of this phenomenon the broadcasting stations whose programs are heard in foreign countries are sometimes unheard in certain localities only a few miles distant from the station.
Why? Well, at present no particular reason for these so-called "dead spots" has been demonstrated. Several theories have been advanced to prove that the cause may be laid to mineral deposits at or near the dead spot, radio "shadows" caused by mountain ranges, etc., over the dead spot, and other ideas, numerous but unsubstantiated. But, while the reasons and proofs are lacking, the "dead spots" are very much in evidence. The solution is not to worry about why they are present, but how to get around their detrimental effects.
In 1921 the Westinghouse Electric and Manufacturing company erected its New England station, WBZ, in Springfield, Mass. This station was to have the New England states for its coverage, as well as adjacent Canadian provinces. The station met with popular approval and its signals were often heard in every state of the Union and province of Canada.
Dead Spot in Boston.
The coverage was much better than expected, except for one spot and this, ironically, was the most important and densely populated spot in New England—the city of Boston. WBZ's signal, while loud and clear on all sides of this great city, was weak and unreliable on the loud speakers of the listeners in Boston.
First, the power of WBZ was increased and though this added to the reports of reception in distant places it did not appreciably affect the reception in Boston. The final solution to the problem was an engineering feat of no small importance. A second station, WBZA, was erected with only sufficient power to reach the listeners of Boston. The program being sent out from WBZ in Springfield was simultaneously transmitted from WBZA so that Boston was receiving the program sent out by WBZ, but the signal was actually coming from WBZA. This WBZA was just an auxiliary or "booster" station.
Congestion Caused Change.
This booster was temporarily operated on a different wave-length than that of WBZ and the system then operated as two stations putting out the same program at the same time, but on different frequencies.
About this time the wave-band crowding situation arose and the synchronization of WBZ-WBZA released the extra wave channel occupied by WBZA, yet, still retaining the advantage of this station's booster action.
Thus the first successful operation of two stations in synchronism on the same wave-length was achieved. WBZ in Springfield and WBZA in Boston are now operated in synchronism, transmitting the same program on the same wave-length simultaneously. Another so-called impossibility had been accomplished and another milestone in radio and scientific history had been passed.
Soldering Irons
The half-pound soldering iron used for general soldering work is too large for the fine operations of a radio set, and for this purpose a quarter-pound solder should be used, with a long point drawn out on it, preferably with one side of the point one-quarter inch wide and the other slightly narrower

STATE BRIEFS

Approximately 300 head of unbranded horses from Mora and San Miguel counties have been rounded up by the order of the state sanitary board and sold to the soap and fertilizer factories.
Governor Dillon orders the National Guard to Raton to protect the New Mexico coal fields from the threatened I. W. W. invasion.
The section around the state capital, Santa Fe, was visited by a snow fall Friday.

Roswell was hit by a severe hail storm, Friday evening. The area hit by the hail storm was confined principally to the town of Roswell. No damages of any consequence were reported to the farming sector adjacent to Roswell.

Seventeen persons were arrested in liquor raids at Aztec, Farmington and Blanco, Friday by prohibition officers.

SANTA FE.—Miss Mary Bartolino, assistant state comptroller, was severely but not seriously injured and Mr. and Mrs. J. W. Chapman were shaken up when the car in which they were driving to Santa Fe collided head on with another auto near Domingo Friday.

3,400 TONS ESTIMATED BOBBED HAIR CROP

WASHINGTON.—Miss Gertrude B. Lane, editor of the Woman's Home Companion, has computed that 3,400 tons of hair have been shorn from the heads of American women since the bobbed hair came into fashion. Speaking here before the convention of the American Association of Advertising Agencies she also said that there are in the United States today 14,000,000 bobbed heads.

Loose-leaf binders, special ruling and stock forms—Advocate.

INSIDE INFORMATION

Tomato teacup and thick mayonnaise, mixed half and half, make a delicious dressing for plain lettuce and some other salads.

In choosing curtains for the living room, select a fabric that will stand light and laundering. The colors should tone in with the other furnishings in the room without making the windows too conspicuous.

Use the juices from canned vegetables. If the food is good, so is the juice, and it contains valuable minerals which the body needs. Serve the juice with the canned vegetables or use it in soups, stews, or sauces.

Loosely fitted long sleeves are most becoming on fleshy arms. If open at the wrists they are graceful and comfortable. To make the arm seem longer and more slender use bound slashes, bands of material, rows of buttons, etc. Sleeves gathered into a tight cuff with a puffed effect should be avoided by the stout woman.

Tuesday is better than Monday for wash day. A day is needed in most homes to straighten up the house after Sunday's relaxation, to look over the clothes, mend them when necessary to prevent larger tears, remove unusual stains, and put the white clothes to soak. Then an early start can be made on the work Tuesday.

Pear salad is unusually good. Either fresh or canned pears may be used. If using canned pears, drain the fruit, but save the pear juice for a fruit punch, with lemon or orange juice added. Wash and chill the lettuce so that it will be crisp. Arrange the pears on the lettuce, sprinkle with grated cheese and garnish with salad dressing. Fresh pears must be pared and cored just before serving or they will discolor.

Cottage cheese is delicious in salads. Pile it lightly on lettuce leaves or shredded cabbage. Add a colorful garnish such as diced pickled beet, strips of pimiento, chopped green pepper, or sliced raw tomato, and French, mayonnaise, or boiled dressing.

ing. Or for a more elaborate salad, mix the cheese with chopped nuts or olives and form into balls or mold in cups. Cottage cheese also combines well with fruits, fresh, stewed, or canned, in salads.

INFORMATION ON PECANS

A number of farmers in the community have manifested an interest in growing pecans and have planned to plant a few trees this fall. Those who want information on pecan culture should write the state agricultural college at Las Cruces for bulletins on this subject.

INCOME TAX MAY BE CUT APPROXIMATELY \$225,000,000 THIS YEAR

WASHINGTON. — Limitation of the prospective tax reduction of approximately \$225,000,000—a lower figure even than previously estimated was recommended Monday by Secretary Mellon at the opening of the tax hearings by the house ways and means committee.

The tax reduction program he submitted follows:

1—Reduction of the corporation tax from 13 1/2 per cent to 12 per cent.

2—Extending permission to corporations with net income of \$25,000 or less, and not more than ten stockholders, to file returns and pay the tax as partnership or corporations at their option.

3—Revision of the surtax rates applying on individual incomes between \$16,000 and \$30,000.

4—Repeal of the estate tax.

5—Examination from taxation of the income derived from American bankers' acceptance held by foreign central banks of issue.

Contrary to expectations, the secretary opposed any change whatever in the remaining wartime excise and miscellaneous taxes. He argued at length for the retention of the present three per cent levy on automobiles and the ten per cent tax on automobiles and the ten per cent tax on admissions applying to tickets selling for more than 75 cents on the ground that these duties and the excise tax on tobacco should be kept "in the interest of a well balanced tax system."

"Unless we are to rely almost exclusively," he said "on direct taxes paid by a few and are prepared to see our national government supported not by the entire body of our citizens, but by a limited class, these are the kinds of taxes which should be retained."

Arguing for the limitation of the total tax cut to \$225,000,000 in the face of surplus of \$635,000,000 for the last fiscal year and a prospective margin of \$455,000,000 for this year, Mr. Mellon insisted that the basis for the reduction must be the surplus available in the fiscal year 1929. This, he said, is estimated at \$274,000,000.

Scotsmen Are Coming

More than 50,000 Scotsmen have registered at the American consulate in Glasgow as desiring to emigrate to this country, states Capper's Weekly. If all come over it will be the largest influx of Scots in any single year of American history.

The Carnegie natatorium in New Haven, where Yale swimmers have established so many intercollegiate records, is said to be the fastest swimming pool in the United States.

Printed Velvets Last Word in Fabric Elegance

Prints again for fall? Yes, indeed, but please to remember that it is velvet prints which are the mode's latest enthusiasm. They are a fabric triumph, these new printed velvets. In plaids these prints are stunning often in repeat designs of tiny motifs often in gold or silver. Dots are outstanding, especially for smart daytime frocks like the one in this picture.

HEALTH OFFICERS ARE MAKING A NATIONAL MILK SURVEY OF SECTOR

Paul S. Fox, state sanitary engineer, of Santa Fe, H. R. Estes, of New York City, staff associate of the American Child Health Association accompanied by Dr. O. E. Puckett, county health officer at Carlsbad, were in Artesia Tuesday in the interest of the national milk survey, which is now in progress. While here, Messrs. Fox, Estes and Puckett were guests of the Rotary Club and explained the purpose of their mission. Mr. Fox, one of the speakers, gave a detailed account of the better milk campaign and aroused considerable interest among the club members.

A gist of the national milk survey is as follows:

The survey is a co-operative effort on the part of the American Child Health Association and the state and local health departments.

In the present instance, the laboratory is a traveling laboratory which is owned and operated by the New Mexico State Health Department. The technical work is done by a state representative—in this case, Mr. Fox.

Samples of milk are obtained from all milk dealers including both the larger dairies and the so-called one cow dairies. These samples are examined for total numbers of bacteria, for E. Coli, for sediment, for solids not fat and for butter fat.

This data is turned over to the local health authorities. If a milk supply shows a need for improvement, meetings are held with the dairymen wherever possible and instructions given as to how the individual supplies may be bettered.

Dairies are also covered by the New Mexico Health Department score cards.

The lack of pasteurized milk supply was noted in Artesia. Pasteurized milk is milk, every particle of which has been heated to a temperature of one hundred and forty-five degrees Fahrenheit and held at that temperature for thirty minutes and then rapidly cooled. The pasteurization process suffices for a milk supply by killing all disease germs. It also kills about ninety-five per cent of the ordinary milk souring germs which are always found in milk.

This process, therefore, helps in keeping milk sweet for a longer period. Pasteurization may or may not kill vitamin "C". This is the vitamin which prevents scurvy.

The addition of orange juice to the diet of the small child who is fed pasteurized milk adequately makes up the deficiency of vitamin "C" in pasteurized milk. In the adult's diet, vitamin "C" is found in large quantities. It is hoped that some of the dairymen will be able to see their way clear to install a pasteurization equipment.

The use of at least one quart of milk a day was advocated because of the great food value of milk. Milk is the only food which can also support human life. Its greater use was advocated.

Mr. Fox ably demonstrated the methods used in examining milk supplies. He showed the members of the Rotary Club the different kinds of apparatus used and had on exhibit petri dishes which contained living cultures of the organisms found in the milk.

The method of testing milk for butter fat content was also demonstrated. "The butter fat content of milk," Mr. Fox stated, is often given more attention than the cleanliness and safety of a milk supply which are by far the most important." The method of telling whether or not milk has been skimmed or watered was also demonstrated, Mr. Fox stating that no evidence of skimming or watering had been found in the Artesia milk supply.

A number of questions were asked by members of the Rotary Club.

JUDGE KIKER HAS RIGHT TO DISMISS HANNETT ACTION STATE BAR COM.

SANTA FE.—E. C. Catron, leading counsel for the State Board of Bar Commissioners, said yesterday he had not decided whether an appeal to the supreme court will be taken from the decision District Judge H. A. Kiker has indicated he will give in the former A. T. Hannett suspension case.

The state supreme court held Tuesday afternoon that Judge Kiker has jurisdiction in the case and dismissed the temporary writ of prohibition restraining Hannett from taking further action. Hannett was suspended from practice as an attorney by the bar board for a year because of charges made by him in a newspaper column against District Judge Reed Hollomaf. Hannett then contended that the law giving the bar board power to suspend him is unconstitutional and Judge Kiker had indicated he would so hold when the bar board attorneys obtained the supreme court writ of prohibition.

"What did the gang say when they heard that I was going to make a speech?"

"They didn't say anything—they just laughed!"

BULLDOGS TAKE HARD FOUGHT BATTLE FROM PORTALES; SCORE 6-0

Artesia Bulldogs succeeded in snatching a 6-0 game from the strong Portales high school last Friday afternoon. Although the boys traveled during the entire morning to reach Portales they did not show any bad effects in the contest.

The play by play is as follows: Artesia won the toss and kicked. McCaw kicked the ball behind the goal line and play started from 20 yard line. Portales was held for downs and punted. Clayton ran back the ball fifteen yards. Two plunges and a pass to House put the ball on the ten yard line. Artesia failed to put it over, and the ball went to Portales. They punted to Clayton. After three plays Clayton passed to Pollard for thirty-five yards which netted a touchdown. Quarter ends Artesia 6, Portales 0.

Second quarter: Portales opened with passes but J. Naylor intercepted one and ran fifteen yards before being downed. The ball see sawed back and forth during remainder of quarter.

Third quarter: Portales came back and opened up with a series of line bucks. Eckers doing all the heavy work. A pass put them on the 5 yard line but they could not gain through the stubborn Artesia line.

Fourth quarter: Artesia gained the ball and punted out of danger. Artesia intercepted a pass but was held. Clayton punted from the 20 yard line and the ball rolled behind the goal posts 80 yards away. It was an unusual punt and caused many ohs and ahs from the excited fans. Portales returned the punt. Clayton again put the ball behind the posts for a second long punt. Portales attempted to pass out, but Artesia intercepted. The ball opened up on passes and the local in scoring distance when the game ended.

Eckers, playing fullback for Portales was easily the best man on the field. Wilson, quarterback for Portales, was also a star. The game was marred by the wind, dust and numerous time outs. Clayton was easily the best bet for the locals with Littlejohn, Montague and Jackson playing good ball.

The Bulldogs will take a good rest until the next game on November 11 with Roswell coming to Artesia. The high school to date has played six games. After Roswell comes a return game with Tularosa and the final game being on Thanksgiving day with Odessa High School as our guests.

WYATT—ROBBINS

A wedding of general interest to valley folks, occurred in Roswell yesterday morning at the home of Judge and Mrs. Charles R. Brice, when their daughter, Mrs. Gladys Brice Wyatt became the bride of Mr. Cutler H. Robbins. Rev. C. C. Hill officiated at the ceremony in the presence of friends and relatives of the bride. Immediately after the ceremony Mr. and Mrs. Robbins left for El Paso and Los Angeles. They will be at home at the country place of Ben Ames in Roswell.

LESS OIL MONEY TO THE SCHOOLS

SANTA FE.—A total of \$1,362,815 of the income state lands was distributed to state institutions and the common school fund during the fiscal year ending July 1 last, according to a report completed yesterday by the state land commissioner's office.

The total cash receipts for the past fiscal year were \$1,387,691. The funds distributed for the preceding fiscal year were \$1,586,788. The decrease was attributed to the slowing up of oil development and production generally throughout the country.

Tree-Planting Experiment

Seedlings of California redwood are soon to be planted in the Natural Arch and other forests of Virginia, according to Science. It is hoped to reproduce the giant trees of the Pacific in many other parts of the country.
