

# Artesia Advocate

All of the news told interestingly and accurately each week in the Artesia Advocate.

TIME TWENTY-SIX

ARTESIA, NEW MEXICO, THURSDAY, AUGUST 22, 1929.

NUMBER 36

## Russell No. 4 Flowing from Break 3525 Feet

### 213 Barrels On First Cranflin And Reynolds Gets Oil At 3,735

The Marland Meyer

Interest here continues to be centered around the Jackson area in Eddy county. Two of the wells in the Gissler No. 1 of the Y. Oil Co. in the SW 1/4 of the SW 1/4 and the Keel No. 1 of the Y. Oil Co. in the SW 1/4 of the SW 1/4, have so far been somewhat disappointing in that they have not developed the expected production to the fact they have not produced the lower break, but as they drill there is always a possibility that both wells may be a few feet deeper. The Gissler No. 1 was drilling last night at 3,537 feet and may be fifty or sixty feet deeper. Present production of the well is about 150 barrels. The Keel No. 1 was drilling last night at 3,525 feet, after swabbing 140 feet of oil yesterday. Additional drilling is being moved on the lease.

### Russell No. 4, Best Well

Russell No. 4 of the Pueblo Oil Co. in the NW corner NW 1/4 of the SW 1/4, is the pace setter of the important tests of the Jackson area in the matter of production. It is slightly higher in its output than any other well in the area, producing about 185 barrels, the well struck another break Tuesday at 3,525 feet which materially increased the production. From Monday until Tuesday morning, the well produced four hour test, the well produced 213 barrels. This output is not a fair test of the well, since the well only flowed for two hours after encountering the break.

Operations on the Lee or No. 1 of the Pueblo Oil Co. in the NW corner NW 1/4 of the SW 1/4, have been made to shoot the well, according to an announcement here yesterday. The well is feeling very much better over the recent showing in the State No. 1 of the Lee or Reynolds well in the SE 1/4 of the SW 1/4, at 3,735 feet, which has increased the belief that the major break eventually swing in this well is standing in the hole and drilling a foot deeper the well will be started. From present indications it is believed that this well will be as good as the Texas Lynch well making around 1,900 barrels.

Another interesting Lea county well is E. A. Meyers No. 1 of the Y. Oil Co., which according to field information is making a million cubic feet of oil a small amount of oil at the well. Another Marland well looking up is the McCallister well in the SW SE sec. 24-26-36, official report says that the

## BYRD IS KILLED IN AUTO ACCIDENT AT PENDLETON, ORE.

News has reached here of the death of Bob, the third son of Mrs. W. H. Byrd, as a result of an automobile accident at Pendleton, Ore. Details are very meager but it seems that the Byrd family resided two miles south of Rock Springs, Wyo., en route from the latter place to Pendleton, Ore. The young man was a high school senior. Mrs. Byrd is the daughter of W. P. Riley of Rock Springs.

Mrs. Harold Scoggins and her family, drove over to El Paso to attend the state assembly of the Epworth League, which is in session here this week.

## TWO PAY FINES ON A LIQUOR CHARGE IN POLICE COURT TUES.

Officers Ross Conner and J. M. Jackson arrested two men, Bob Luttrell and Homer Luttrell, Tuesday on charge of selling intoxicating liquor. The men had recently moved from a ranch house southwest of town to a vacant house near the highway about three miles north of town. Becoming suspicious the officers visited the premises of the Luttrells and secured about fifty bottles of beer, which was confiscated and destroyed. At the former residence of these men, officers found a keg of beer in the making. The defendants were arraigned before S. W. Gilbert, justice of the peace and were fined \$57.50 and were given a sixty day jail sentence, the sentence being suspended on good behavior.

## OUTGOING STUDENTS--TEACHERS GUEST OF ARTESIA ROTARY CLUB

The Artesia Rotary club was host to approximately twelve students and teachers at Tuesday's luncheon. After the luncheon each student and teacher introduced him or herself and gave the name of the school they planned to attend.

A short but appropriate program was rendered during the program hour. Miss Gladys Cowan made a short address of appreciation, and speaking for the students and teachers, expressed much pleasure for the hospitality of the Rotary club, on this occasion, which has become an annual affair. Miss Katherine Ragsdale, who is soon to leave for Cincinnati, Ohio to enroll in the Cincinnati Conservatory of Music favored the members and visitors with two enjoyable vocal solos, accompanied by Mrs. V. L. Gates at the piano. Mark Corbin, climaxed the program with a short address, mixed with advice and humor. One thing in Mr. Corbin's address which was particularly impressive with the young lady school teachers was how Corbin's heart was crushed by an unthoughtful school "ma'am." He told how, as a young lad he had purchased with his hard earned money a dime's worth of beautifully wrapped candy and stood by the roadside and watched his rival eat the candy with this school "ma'am," whom he admired very much in a "puppy love fashion."

Among the students and teachers present at the luncheon Tuesday included Miss Gladys Cowan, who will soon leave to teach Spanish in the McAllen High school, Paul Stroup, student, State College, Las Cruces, Miss Dora Russell, Clovis High school, Clovis; Fletcher Collins, student, State University, Albuquerque; Wilmer Ragsdale, Oklahoma University, Norman; Miss Helen Bullock, Dunning music teacher, Fort Worth, Texas; Miss Bertha Richards, teacher in the Cottonwood district; Bob Feemster, University of Oklahoma, Norman; Howard Stroup, State College, Las Cruces; Miss Katherine Ragsdale, Cincinnati Conservatory of Music, Cincinnati, Ohio; James A. Cowan, University of Oklahoma, Norman.

Among others who are contemplating leaving soon for school, not present at the luncheon Tuesday include Marvin McCree, Oklahoma University, Norman; Miss Ella Brown, teacher at Hope; Miss Catherine Clarke, who will study music in Fort Worth, Texas; Misses Ina and Gladys Cole and Herman Cole, Montezuma College, Montezuma, New Mexico; Miss Katie Cowan, teacher in the Nara Visa schools.

Visitors present at Tuesday's luncheon were: Ira Stockwell, Carlsbad and Ed Enochs of Amarillo. H. S. Williams local manager of the Southwestern Public Service Co., was welcomed into the club as the "baby member."

Among other students and teachers leaving soon are Miss Lola Ward who will attend Lindenwood College at St. Charles, Missouri; Mrs. Floy Hartsfield, who will resume her position in the Gallup schools and Messrs. William Compton, Stuart Compton, Ernest Harp, Charles Sharp Jr., and Guy Reed Brainard, who will leave soon to attend college, the names of the educational institutions that these young men will attend could not be secured as we go to press.

R. D. Compton and family left Saturday for their annual ten day fishing trip to the Santa Fe country.

well is standing with 2,000 feet of oil in the hole at 3,234 feet. A report reaching here yesterday was to the effect that the Shepherd No. 1 of the Texas Production Co., in the SE NE sec. 6-26-37, made 560 barrels of oil in 12 hours and was making twenty-four million feet of gas.

## EIGHT MILES OF SAND GRAVEL PLACED IN THE HIGHWAY OILING WORK

### Almost Three Miles Of Road Finished -- The Highway Department Trying Out New Method Of Mixing Materials.

The oiling operations on the south highway have been temporarily suspended due to the fact that the supply of oil has been exhausted, however, work still continues on the preliminary operations and laying gravel and sand has been going forward at a rapid rate. Approximately eight miles of gravel and sand have been placed on the surface. Gravel and sand has been laid from the Penasco bridge to the southern juncture of the road and another crew has laid about a mile of gravel south of town.

The cutting method mixture has been employed on this stretch of the road. Sand and gravel being placed on the surface, then the oil is poured over the surfacing materials and mixed by disk and spreading. The pre-mixing method was employed on the Roswell-Dexter road. On this the first oiled road in the valley the materials were mixed by machinery and then placed on the road and packed. C. E. Jones, inspector is inclined to favor the former method and believes that it will be more economical. Tests are being made in the highway office here to determine the right proportion of oil to add to the surfacing materials.

About 2 7-8 miles of the south highway has been oiled and completed for traffic. The oiling operations proper will start just as soon as another shipment of oil is received.

## PENASCO CHAMBER OF COMMERCE IS BEHIND THE NEW HIGHWAY

Seventy-five people, including three representatives from Artesia, Messrs. Irvin Martin, Fred Cole and Boone Barnett attended the meeting of the Penasco Valley Chamber of Commerce, which was held in the Mayhill school house, Saturday evening. The principal object of the meeting was to arouse more interest among local people in the Las Cruces, Cloudcroft and Lovington highway association.

Kenneth Potter of Mayhill, presided over the meeting and the discussion for the evening centered around the proposed improvement to be made in the route through the lower end of Otero county. Messrs. Fred Cole and Boone Barnett made short talks touching on the need of cooperation between the towns and communities along the route.

At Saturday evening's meeting two representatives were chosen to attend the meeting of the association at Cloudcroft next Sunday. M. D. Bradley was selected from Mayhill and Bryant Runyan from Elk.

The Penasco Valley Chamber of Commerce composed of the Mayhill, Elk and Lower Penasco communities has developed into a very active organization. Austin Reeves is president and Jimmy Mayhill is secretary.

## COTTON CULTURE NOT THE TOURIST TRAVEL SUCCESSFUL ON DRY FARM AREA OF STATE PEAK THE PAST WEEK

There are two distinct methods of growing cotton in New Mexico. In Dona Ana, Eddy, Chaves, Otero and Luna counties the crop is grown under irrigation, while in a greater part of the other sections it is a dry farm crop. The uncertainty of the seasonable rainfall shows that dry farming cannot be depended upon for cotton production in New Mexico, except for an occasional favorable year.

The census reports show that the state crop in 1909 was 206 bales from 790 acres. For the 1919 crop they show 5399 bales from 10,666 acres. Practically the entire crop for both years was grown in Eddy county. In 1919 the acreage of cotton in Dona Ana county amounted to only 15 acres with an average yield of 239 pounds per acre. Since that time the acreage increased to 53,000 acres harvested in 1928 with an average yield of 478 pounds per acre. Cotton is now the most important crop grown in the state.

## TRAINING SEASON FOR FOOTBALL IS STARTED MANY MEN REPORT

### Candidates Report For The First Practice Tuesday-- Prospects Good For Winning Team -- Tentative Game Schedule Made.

About twenty-five football candidates responded to the call of Coach James Allen, Tuesday and reported for the first day of the pre-training season. Last year, Artesia was rated as one of the strongest teams of the valley and prospects are very bright for the locals to develop into even a more formidable squad during the coming season.

A tentative schedule of games has been announced this week. It is hoped that a ten game schedule can be completed before the close of the season. The New Mexico Military Institute Colts are expected to fill one of the open dates, either October 18th or 25th. The following is the schedule as completed up to date:

September 20th, El Paso, here.  
September 28th, Albuquerque Indians, here.  
October 4th, Roswell, here.  
October 11th, Carlsbad, here.  
October 18th, open.  
October 25th, open.  
November 11th, Portales, there.  
November 22nd, open.  
November 28th, Carlsbad, here.

## TAKES UP PET ANTELOPE

M. Stevenson, deputy game warden took up a pet antelope at Elkins on a recent trip and brought it into Roswell, where it was turned over to the proper authorities for future care.

## MRS. JOSEPH BAILEY BADLY HURT WHEN TRUCK OVERTURNS

Mrs. Joseph Bailey sustained a badly crushed foot, Friday afternoon, about a mile north of town, when the truck in which she was riding struck a Mexican's car and overturned. All of the details leading up to the accident are not clear, but it was said Mrs. Bailey was moving to Artesia from the Panhandle of Texas, and was riding with a truck loaded with household goods. When within about a mile of town, a Mexican family drove on the highway and turned on the wrong side of the road. In an effort to avoid a collision, the truck went into a ditch and overturned, striking the rear of the Mexican's auto.

Members of the Mexican family were bruised and shaken, but their injuries did not prove serious.

Mrs. Bailey was taken to the City hospital and is recuperating very nicely according to the last report.

## APPLE PICKING TIME AT HOPE

Apple growers are busy picking the apple crop at Hope now. The picking operations started Monday and two grading and washing machines are at work.

## LEAF WORM UNDER CONTROL

Infestations of the leaf worm have been comparatively heavy in some sections, although the destructive work has been held to a minimum by timely spraying. Dry weather has also been a great aid in combating the damage done by the worm. So far the loss suffered from the appearance of the pest has been very light except in the low land sections.

## FINISHED THRASHING SEED CROP RECENTLY

W. S. Medcalf, postmaster at Hope who was a visitor in Artesia this morning reports that he has just finished thrashing alfalfa seed from a 30 acre patch of alfalfa. The yield he says was 300 pounds per acre. The seed yield this year in the Hope community has run from 150 to 500 pounds per acre. His seed turn out was therefore about an average.

## ACCIDENT ON HIGHWAY

John Hampton of Artesia reports that a Ford car containing three men collided with his car late Tuesday night on the highway between Hagerman and Dexter near the Russell Spur barn. One wheel was torn off his car and was replaced by the C. & C. Garage of Hagerman, allowing Mr. Hampton to proceed home. The north bound car failed to stop and it has not been located as yet.

Mr. and Mrs. Billy Cox returned last Thursday after a month's visit to relatives in Oklahoma and Amarillo, Texas.

## FUNERAL SERVICES FOR A. J. FOSTER ARE HELD HERE FRIDAY

The last rites for A. J. Foster, 63, of Lakewood were held at the Baptist church, Friday afternoon, Rev. R. Peterson, pastor officiating. Mr. Foster died Thursday morning at Carlsbad, as result of injuries received in an altercation with G. C. Wright at the Wright ranch, on August 14th.

The deceased was well known in the Lakewood section. He came to the valley in 1918 and had lived here continuously since that date. He had been ranching in the Lakewood country for nine years. Surviving Mr. Foster is a widow, five sons, Emmett Foster of Seminole, Texas, Jim Foster of Lakewood, Albert Foster of Lakewood, Lloyd Foster of Carlsbad, Lock Foster of Cushing, Oklahoma and a daughter, Miss Gladys Foster of Lakewood.

## RICHARD WHEATLEY TO SAIL FROM HAVRE FRANCE TOMORROW

A recent letter from Richard Wheatley stated that he would sail from Havre, France last Tuesday on the Cunard liner, California, which is due to arrive in New York on the 29th. Among other interesting items the letter gave some of his impressions of the big jamboree. The most impressive thing was the pageant of nations. In this the American Scouts led. Richard as color-bearer of the 19th Troop tipped the flag to the prince of Wales, who saluted in return. A new reel of this pageant is to be shown in Artesia on the 29th.

To the Artesia boy the big thrill of the jamboree came when at a signal the 1500 American Scouts all dressed alike suddenly pulled out and waved small silk American flags and as suddenly concealed them. One boy was selected as a typical scout of each country. Among the Americans this honor fell to Max Gilstrat of Ardmore, Oklahoma. These scouts were to have their pictures printed in the London Mail.

After the close of the jamboree, Richard with the others of his group visited the walled city of Chester and other points of interest in England. One of the things which struck him most forcibly in England was the trains, which are so small that they reminded him of the Toonerville Trolley. When he wrote he was about to leave for a short trip to Holland, Belgium and France before sailing for home.

## FARNSWORTH RANCH SOLD

The C. M. Farnsworth ranch, southwest of Hope, consisting of approximately thirty-five sections was sold last week to M. V. Corn Jr., of Roswell, according to information received from Roswell. The consideration was about \$25,000, it was said.

## THE JACKSON-BOLTON CHEVROLET COMPANY CHALLENGE WINNERS

The Jackson-Bolton Chevrolet Co., organization have issued a challenge to play the winners of the Fireman-Soda Jerker baseball game. The date for this game, however, has not been set.

## LEAF WORM UNDER CONTROL

Infestations of the leaf worm have been comparatively heavy in some sections, although the destructive work has been held to a minimum by timely spraying. Dry weather has also been a great aid in combating the damage done by the worm. So far the loss suffered from the appearance of the pest has been very light except in the low land sections.

## FINISHED THRASHING SEED CROP RECENTLY

W. S. Medcalf, postmaster at Hope who was a visitor in Artesia this morning reports that he has just finished thrashing alfalfa seed from a 30 acre patch of alfalfa. The yield he says was 300 pounds per acre. The seed yield this year in the Hope community has run from 150 to 500 pounds per acre. His seed turn out was therefore about an average.

## ACCIDENT ON HIGHWAY

John Hampton of Artesia reports that a Ford car containing three men collided with his car late Tuesday night on the highway between Hagerman and Dexter near the Russell Spur barn. One wheel was torn off his car and was replaced by the C. & C. Garage of Hagerman, allowing Mr. Hampton to proceed home. The north bound car failed to stop and it has not been located as yet.

Mr. and Mrs. Billy Cox returned last Thursday after a month's visit to relatives in Oklahoma and Amarillo, Texas.

## Three Men Caught When Car Wrecked At Carlsbad

### Buick Car Hits Tree When Two of The Men Engage In A Fight -- One Escapes To Pecos, Texas, But Is Later Caught.

Three men, who are believed to have been bent on robbing a number of business houses in the Pecos valley, have been arrested, according to advices received from the sheriff's department this morning. The arrest of the three men was the result of wrecking a Buick car containing a blow torch, two tanks of oxygen and other paraphernalia used in safe blowing operations, Monday night near midnight in the south part of Carlsbad. The circumstances surrounding the wrecking of the car are rather peculiar and indicates the uneasy state of mind possessed by the criminal. The stories as to the cause of the wreck differ. One is that the men became frightened, thinking that officers were on their trail and in looking back the driver ran into a tree. And another story said to have been told by two of the men now in jail at Carlsbad was that two of the men engaged in a fight and caused the driver to lose control of the car. The men quickly abandoned the Buick after wrecking it and the driver, Bill Harris made his escape to Pecos, Texas on a truck, later to be arrested. The other two men, Louis King and Monroe Wise, were caught soon after the car accident. King was painfully, but not seriously injured.

The wrecked car is said to have been stolen in Pampa, Texas, and the owner is on his way today to claim the auto.

## AUTO ACCIDENT ON HOPE HIGHWAY SATURDAY

Senator and Mrs. John Marshall, of Sherman, Texas had a narrow escape Saturday, a mile west of here, while driving to Cloudcroft when their car over turned. Mrs. Marshall who was driving the car had her attention attracted from the road momentarily and failed to right the auto when it began to swerve with the result that it ran into the ditch, turned over twice with the car headed back in the direction of town.

Fortunately neither occupant of the car was hurt seriously. Senator Marshall was cut about the hand and leg and Mrs. Marshall escaped with a small cut on the hand. The car was a complete wreck.

## MEXICAN YOUTH IS DROWNED AT CARLSBAD

A Mexican youth, Nicolas Rodriguez, age 13 was drowned in the Pecos river, near Carlsbad, Thursday while swimming. The body was held for several hours before identification was made.

Mrs. Nealy Baker and daughter, Miss Aline Baker, and Mrs. Lucille Cumbe of Clovis, spent Tuesday and Wednesday nights visiting at the Jeff Hightower home. They were en route to and from the Carlsbad Caverns.

## FIRST CAR OF APPLES SHIPPED--A BIG CROP IS THE PROSPECT

The first of the apple crop has been shipped out and two crews are working here with grading and washing machines. Two grading machines with their crews are likely to start to work at Hope today. The first car to leave this point was loaded out through the Alfalfa Association Saturday. This car was from the Hartell orchard. J. B. Cecil of the C. A. P. ranch, southeast of town loaded the second car. The total shipments up to yesterday afternoon included about six cars.

The crop is unusually heavy and the trees are loaded. Recent estimates place the shipments from this point at 150 cars. This is the first year grading and washing machines have been used in the marketing of apples. The Bullock warehouse, where one of the largest machines is being used, presents a busy scene.

### NEWSPAPER SCRAPS

The two Carlsbad papers are having quite a scrap on paper, but apparently the readers of these papers do not appreciate the merits of the controversy. Ask any old timer here if they appreciated the weekly wrangle which appeared in two Artesia papers years ago.

The Cavern City Chronicle is evidently trying to engage in a three cornered scrap by claiming the largest circulation in Eddy county after six months publication. You never see a real worth while person constantly bragging about their ability or brains. Readers now days are intelligent enough to determine by looking at a paper whether or not the publication has merit enough to warrant a wide circulation. A subscriber takes the papers for the news that interests him or her and not because the management sees fit to cut the price to a dollar per year or secures a tax roll and places a bunch of people on the free list.

A paper that spends its time blowing about its big circulation and stoops to unethical methods to place a big lot of names on its subscription list, makes a "darn" poor advertising medium for the merchant. The fact that a subscriber pays a newspaper a reasonable price shows that he is interested enough to read the paper and if he reads it the advertiser will reap a benefit from his advertising as a matter of course.

Further more it makes little difference to the local advertiser or reader what circulation a paper may have in another section of the country, if the local paper gives a good coverage of the trade territory.

### WHAT CONSTITUTES PROSPERITY

It is generally conceded without argument that the person who is prospering and getting ahead in the world is worth far more to his community than the one who isn't. Money isn't everything of course, but it often times enables us to buy things that make for contentment and happiness.

Yet, notwithstanding this fact we see lots of people who are envious of their neighbors and apparently do not want to see them get ahead. Envy is one of the most useless of human traits. It will buy you nothing, except possibly a lot of ill will.

We believe that every laborer is entitled to a fair return on his effort put forth and also that every business man a fair return on his investment. It does not pain us to deal with a merchant and know that he is making a legitimate profit in the transaction. We know that this is a necessary constituent of a prosperous community. The man who grasps everything that comes his way, yet who "gripes" because he has to pay the laborer for what he does or the business man a profit on his merchandise is unquestionably a selfish individual.

### MOTORISTS CLASSIFIED

Connecticut's new automobile liability insurance law has just gone into effect.

Under this law motorists are divided into five classes. The first two classes are those who pay the regular rates of an insurance company, and those who, because of a good record are granted a reduction in rates. In addition the state provides three additional classes, A, B and C. In class A are the drivers who have minor accidents and infractions of driving rules. Their insurance rate is increased 10 per cent. In class B the rate is increased 25 per cent and includes drivers having more serious accidents. Class C is for drivers involved in highly serious and flagrantly avoidable accidents and calls for a 50 per cent increase in the rate.

The law does not compel a motorist to take out insurance, but the state is empowered to revoke the licenses of any who fails to meet judgments, do not provide financial responsibility or are deemed unsafe drivers. A careful check is to be kept on motor cars and the insurance companies must file lists and charge the scale of rates decided by law.

### DROUGHTS

Droughts have not only affected crop conditions in many west Texas areas, but the water supply of many comparatively large towns as well. Recently we notice where a town of fifteen to twenty thousand people has only a twenty-two day water supply left and the town council has found it necessary to make drastic steps in order to conserve the supply.

Artesia may have suffered other misfortunes, but the water supply has always been a source of pride to us. Here the residents may use all the water they wish without fear of interruption in so far as it affects the growing of gardens and lawns. We can think of no legitimate excuse why Artesia should not be a beautiful town with a plentiful supply of cheap water.

# The Town Doctor

(The Doctor of Towns)

ON

WHERE IS YOUR TOWN GOING?

Two speaking engagements in one day were 150 miles apart by way of paved roads, so it was decided to take an unmarked shortcut.

As we drove, we kept inquiring, "Is this the way to Blankville?" Those to whom the question was put in each case replied, "Where you going?" I decided to ask the next fellow where he was going.

We overtook a man in an open buggy—I say "buggy"—it was once, no doubt, but could hardly be called that "as was". One wheel dished in, another dished out, a front wheel dished both ways. There was no dash-board, the buggy seat had been replaced by a soap box, and if there ever had been paint applied to any part of it, all traces had been obliterated. Seated, or had I better say, perched on the box that served for a seat, all hunched over, was a bewhiskered individual, adorned with raiment much patched and seldom, if ever, washed. As we signaled for half the one-lane road, he chuckled and pushed on the lines that hung over the rump of the most ungainly, specimen of horse flesh I ever had the displeasure of beholding. Slowing to the pace of his steed, I made salutation with, "Where you going, brother?" He turned slowly toward us, evacuated sufficient volume of deep brown liquid to make speech possible, and replied, "Oh, I'm just ridin' in to ride out."

To say I was nonplused would not describe it—I was flabbergasted and stumped. Here is the season of the year a man whose occupation could be none other than one demanding all of his time, was "just ridin' in to ride out." "Why?" I asked, and he replied, "Wa'al, there ain't no chores about the place, so might as well kill time one way as t'other."

There are many towns just like that—"just ridin' in to ride out," saying there isn't anything to do.

If the vehicle your town uses to get somewhere is a wornout, old fashioned, ram-shackle dilapidated, patched-up affair, with a spavined, buck-kneed, string-haltered means of locomotion, the thing to do is wake up to modern ways of doing things. Give your ideas and ways of doing things a shave, shampoo and hair cut. Throw away your home spun jeans and get yourself into a pair of 1929 pants. By so doing, others will do likewise and then, and only then will you get some place.

Where is Artesia going? It must be going some place—ahead or backward. If it is "just ridin' in to ride out," its standing still, which is going back, and soon stagnation will set in, which is even worse than complete annihilation.

Copyright, 1929, A. D. Stone. Reproduction prohibited in whole or in part.

This Town Doctor Article is published by the Artesia Advocate in cooperation with the Artesia Lions Club.

### SPEEDING

Continued and numerous complaints have been made by residents relative to speeding in the city limits with cut out open and more especially along the paved streets. A speeding auto under many conditions constitutes a menace to human life and that's not saying anything about the discomfort suffered by residents living along the main thoroughfares from the open muffler.

There are cases where speeding might be due to thoughtlessness, but not the open muffler. The Advocate along with a number of citizens is in favor of the enforcement of our city traffic regulations without exception.

School time will soon be here and the danger of accidents increased many fold. If the town escapes a tragedy during the coming school term, we are going to have to drive with more care. Some will never do this until they are fined a few times or thrown in jail.

### SAVING THEM FROM THE CHAIR

The Wichita Falls Texas Times comments on the procedure followed in getting the criminal saved from the chair which is about as follows:

The course to be followed by attorneys for prisoners under sentence of death is now pretty well charted. First, exhaust all the possibilities of the courts themselves. Second, use every available means to obtain executive clemency. Then, when these have failed, wait until the eve of the execution date with an affidavit by someone alleging a belief that the prisoner has become insane.

In the Mackenzie case this worked successfully enough. Mackenzie, at a hearing conducted under the archaic system in use in Texas, was adjudged insane and thus escaped the gallows. It remains to be seen whether it will prove equally effective in other cases.

We may expect to see this device adopted regularly hereafter, when the death sentence has been pronounced. It is working nicely.

The Roswell Record complains that the publication is being flooded with free publicity for fairs and carnivals. So have other papers, the Advocate included, but we have not noticed a check for any paid advertising. We fill a waste basket almost every week with free publicity and propaganda, all of which makes us want to laugh when somebody comes in and wants to give us something to fill up the paper.

Cantaloupe culture on a limited scale would pay in this section, it seems to us. Its true that cantaloupe growing for a foreign market has proved a dismal failure in the past but conditions have changed somewhat. Home grown cantaloupes, the best flavor in the world, could be placed on the market without competition from other sections, since they would come in between the marketing time of California and Colorado.

According to a report in the Albuquerque Journal the Sears and Roebuck Store in Albuquerque will be closed the first of the month and the building subleased if possible. Not every chain store can make a go of it in the western towns.

It is getting more or less of a habit with the First Baptist church at Fort Worth, Texas, of which Dr. Frank Norris, militant preacher is pastor, to catch fire. Thursday fire swept through the educational building.

Our idea of nothing is a bladeless knife without any handle.

### WATER SUPPLY IN GOOD CONDITION

The water supply of Artesia is in a satisfactory condition as indicated in a recent analysis by Paul Fox of Santa Fe, sanitary engineer for the Bureau of Public Health. The following letter is self explanatory:

August 17, 1929

Town Clerk  
Artesia, New Mexico

Dear Sir:

The following is the report of the State Public Health Laboratory on the water samples collected by Mr. Frisch on August 10th:

No. 1. Palace Drug Store. Total count 10 bacteria per cc. Negative for B. Coli.

No. 2. Tommie's Shop. Total count 15 bacteria per cc. Negative for B. Coli.

No. 3. Smoke House. Total count 600 bacteria per cc. Negative for B. Coli.

These analyses indicate your supply to be in satisfactory condition at the present time.

Sincerely yours,

PAUL S. FOX, C. E.,  
Chief Division of Sanitary Engineering and Sanitation.

### PREPARING ALFALFA SEEDBED

Many failures of alfalfa stands are due to a poorly prepared seedbed. The ideal seedbed is a well-settled surface with a fine surface that is loose to a depth of two inches. The best plan is to plow in the fall, disk in the spring, and harrow occasionally to keep down weeds until sowing time. Where the land has not been plowed in the fall, it should be broken several weeks before sowing, and the soil disked and harrowed frequently to settle the bed. A "Culti-packer" is of help in getting the soil into condition. For late-summer or early-fall sowing land that has been in such crops as early potatoes, peas, or sweet corn can be prepared by removing the vines or stalks and harrowing. In general, sod land is not recommended for alfalfa, but where it seems advisable for some reason to put the alfalfa on clover sod, the land should be plowed as soon as the crop is removed and thoroughly disked and harrowed to make a firm, fine seedbed.

### ZIMMERMAN DIES

FROM INJURIES

Funeral services for J. H. Zimmerman were held in Carlsbad Thursday afternoon. Zimmerman suffered an accident at the ice plant in Carlsbad, Wednesday, in which an ice saw severed his leg.

You probably think you have made your last worthless investment, but you haven't.

## KNOW

THE TRUE VALUE OF TIME—  
NEVER PROCRASTINATE

—Lord Chesterfield

Time and opportunity wait for no one! To procrastinate in securing adequate fire insurance protection for your property is to remain exposed to financial loss—after a fire it is too late to insure.

Let us help you now to strengthen your protection with sound rock fire insurance.

### NEW MEXICO TO PURCHASE UNIVERSITY DEBENTURES

SANTA FE—Purchase by the state treasurer of the \$100,000 worth of series B building bonds recently issued by the state university with the permanent funds of that institution was authorized by the state finance board Friday afternoon. Interest is fixed at 4½ per cent. The state treasurer has on hand only \$50,000 of uninvested money in the university's permanent fund, but will buy the entire issue, making up the balance with other school funds. As university funds are available they will be invested in series B bonds until the entire issue has been purchased with university money.

### FARMERS HAVE VITAL INTEREST IN GOOD ROADS SAYS REPORT

WASHINGTON, D. C.—With 23 of the nation's motor vehicles on farms, congress can speed up road building the agricultural interests their products and further the isolation of rural life, American Automobile Association Monday.

National motoring body decried an increase in the annual appropriation of \$75,000,000, \$25,000,000 will enable the more quickly complete their highway systems and aid in building of secondary or rural

statement continues: In close of 1928, there were 1,200,000 motor vehicles registered in the United States and 5,426,900 on farms. Texas led with 362,600 farm-owned motors, while Ohio, Illinois, Iowa, and Wisconsin trailed in named. It is also significant that the larger proportion of farms are used for work in connection with the farm.

Need for improved roads to the farmer is seen by the fact that the outset of 1928 there were 100,000 farms located on improved dirt roads and 31.3 per cent on improved dirt roads. Small percentage were on surfaced highways.

### MEXICO FARMERS PRODUCE GOOD SEED

Farmers of the New Mexico Crop Improvement Association in the varieties are busy these days roguing their fields and ready for August inspection, says G. W. Berry of the New Mexico Agricultural College. Crops that pass inspection will be eligible for seed later on. Crops to be planted must be planted from pure seed to insure a thrifty growth, be free from weeds, disease and off-types.

Field demonstrations have been held in the past six years in each county where instruction was given. At present most of the work is done by the individual seed producer, although some assistance is being given by the college.

Organizations that have local organizations of the New Mexico Crop Improvement Association include the Chaves, Eddy, Otero, Luna, Hidalgo, San Miguel and Yuma. New Mexico now has 15 regularly organized crop improvement associations and two others probably will be fully organized this year, all of them trying to help their part in supplying New Mexico farmers with pure planting material. The members of the New Mexico Crop Improvement Association are producing certified beans, alfalfa, grain sorghums, wheat, oats, barley and cotton, and other crops of lesser importance. Most of this seed is being produced in New Mexico, but demands from adjoining states are increasing and orders have been received from Mexico.

"Any mysterious strangers here lately?" casually inquired a detective from the city. "No," answered Uncle Eben, "but a feller over to town with a pair of whiskers last week what took a pair of whiskers."

It is better to be thought a fool, than to speak and remove all doubt.

### LOCALS

Earl Pior spent the week end with friends at Tularosa.

Mr. and Mrs. A. C. Brown returned last week from a vacation to Denver.

Miss Ella Bauslin spent Monday with her cousin, Mrs. Oscar Bullock, in Roswell.

R. E. Carper and wife of College Station, Texas were guests at the Hardwick hotel Monday.

Messrs. H. L. Ham and Dick McDonald of Hope were pleasant callers at the Advocate office Friday.

Alf Coll and family visited the other members of the family Sunday at the Coll cabin on the Ruidoso.

## INTEREST IN AND AROUND ARTESIA

### GREEN-LAFOLLETTE

A pretty home wedding occurred Tuesday morning when Miss Irma Green was united in marriage to Mr. Arthur C. LaFollette of Portland, Indiana. The wedding took place at seven forty-five o'clock, the bride entering the living room upon the arm of her father, Mr. Arba Green, to the strains of the Mendelssohn wedding march played by Mrs. C. E. McHenry. Rev. John Sinclair, of the Presbyterian church, read the beautiful ring ceremony, which united the couple in the bonds of wedlock, the bride being given away by her father. Only a few close friends were present.

Immediately following the ceremony a three course wedding breakfast was served, covers being laid for eleven. A beautiful wedding cake surrounded by roses centered the table. Roses and other garden flowers were used effectively in decorating the dining room and living room.

The bride was attractively gowned in a white satin-laced crepe and carried an arm bouquet of white and pink roses. Her going-away costume was a brown and tan ensemble suit with interesting accessories.

Shortly after breakfast the young couple left by auto for Indiana, going the southern route via San Antonio, Galveston, New Orleans and Kentucky. They will be at home at North Vernon, Indiana, where Mr. LaFollette has a position as instructor in the high school.

Both Mr. and Mrs. LaFollette have been popular teachers in the Junior High school, the past year, however, Mr. LaFollette attended Manchester College, in Indiana from which he obtained his degree. Mrs. LaFollette is a graduate of Missouri University, having both the B. S. and M. A. degrees. She was also a member of the Beta Tau Alpha sorority and Honor Board. During her two years' residence here she was active in Sunday school and Girl Scout work and will be greatly missed in the school.

### SPIVEY-RENFRO

The marriage of Miss Vela Spivey to Mr. Charles Renfro, of Melrose, occurred at the latter place last Saturday evening at six o'clock. The ceremony occurred at the home of Mr. and Mrs. Prinston, friends of the young couple and at whose home they first met. Rev. Hatfield, pastor of the Methodist church was the officiating minister using the ring ceremony, and Mr. Roy Keator of Melrose and Miss Grace Renfro of Albuquerque, a sister of the groom attended the happy couple. Immediately after the ceremony the young people left for a honeymoon trip to a mountain resort, El Pecos, near Las Vegas, where they will remain until about the first of September.

The bride was attractively gowned in a blue silk georgette trimmed in tan, with a blue hat and accessories to match and carried a bouquet of lovely mixed flowers.

The bride, who is the daughter of Mr. and Mrs. Tom Spivey, is a graduate of the Artesia High school, and also of State College. For the past year she has been in charge of the commercial department of the Melrose high school. The groom, who is a graduate of the State University at Albuquerque, was also an instructor and coach in the same school, this began the romance, which culminated in the marriage of Saturday. They will make their home in Melrose where they have both been employed for the coming year.

The mother, sister and young brother of the groom from Albuquerque, and Roy Spivey, who motored over to Melrose with his sister, were present at the wedding.

Sincere good wishes are extended to the young couple by Artesia friends of the bride, many of whom have known her from childhood.

### METHODIST MISSIONARY MEET

The Society enjoyed a trip to the country for its meeting last Thursday afternoon, the meeting being held at the Reed Brainerd home. There was a good attendance of members and keen interest shown in the program, which was upon the subject of Africa, the special theme was, "Primitive Homes and the Missionary Task," with talks on the African home illustrated by drawings and patterns. Mrs. Harold Seegins was leader and was assisted in presenting the subject by Mrs. E. O. Cowan, Mrs. L. W. Peemster and Mrs. Abe Burnett. The missionary bulletin was presented by Mrs. I. C. Dixon. Luscious, juicy watermelon as refreshment fitted in very appropriately with the African program and were very acceptable on a hot afternoon.

### THE SECOND BRIDGE CLUB

The club met with Mrs. E. J. Brooks Tuesday, after a pleasant afternoon at cards delicious refreshments in two courses were served to the club members and the following substitutes, Mesdames Vasey, Wheatley, Clarke, V. L. Gates, Stanley Blocker and Ferris Arnold of Roswell.

## Social Calendar

TELEPHONE 317

### THURSDAY (TODAY)

The American Legion will entertain the Auxiliary with a watermelon feast in the park at 7:30 p. m.

### TUESDAY

The First Bridge club meets with Mrs. Habel Walker at the C. A. Club home at 2:30 p. m.

### THURSDAY (NEXT WEEK)

The Baptist W. M. U. meets at the church for Bible study at 1:00 p. m.

The Methodist Missionary Society meets at the church for its regular business meeting at 2:30 p. m.

### SWIMMING PARTY

Lola Chapman, the young girl who is here from Portales visiting the members of the Baptist W. M. U., was given a swimming party by Mrs. C. E. Cole and her Sunday school class of girls last Friday afternoon. After a delightful swim in the Gault pool the party had a picnic supper on the grounds and then finished the evening by going in a body to the band concert in the park. In addition to the honors and the class teacher the members of the class present were, Howell Stewart, Catherine Cogdell, Norma Ellen Langsford, Alice Moore and Jessie Lee Cunningham.

### DANCING PARTY

Mrs. Jack Vasey, assisted by her daughter, Miss Mary Katherine Vasey, entertained some twenty-five couples of young people at a dancing party last evening complimentary to Charles Shary Jr., who is leaving to attend military school in Missouri. The party was given on the roof garden of Hotel Artesia and was much enjoyed by the young people and the few older people present among whom were, Mr. Charles E. Shary, and Dr. and Mrs. J. J. Clarke and the hostess.

### BAPTIST MISSIONARY SOCIETY

The Baptist Missionary Society met at the home of Mrs. C. E. Cole last Thursday for its missionary study and social meeting. "Missions in the West," was the special theme. A social hour with refreshments was the last thing on the program.

On Monday afternoon the Union met at the home of Mrs. W. C. Martin to make table covers and dresser scarfs for the Baptist hospital at Clovis.

### IVAN ILER HONORED

Mrs. J. E. Jackson entertained a number of young people at a party Tuesday evening complimentary to her house guest, Miss Ivan Iler, the guests being principally old school-mates of the honoree. Light refreshments were served. The guest list included the Misses Wynona Phillips, "Tots" Vasey, La Rue Mann, Virginia Goodell, Edna Johnson and the honoree and Carroll Graham, John Clarke, Keith Miller, Leon Clayton, Erley Finley, and Caritt Jackson.

Wedding Announcements and Invitations, Engraved or Printed—Advocate

### MR. AND MRS. CAMPBELL ENTERTAINS AT DINNER

Mr. and Mrs. Owen Campbell entertained a number of out of town guests, Sunday evening with a six o'clock dinner, at their home at the Gault. The dinner was given in honor of the visit of Mr. and Mrs. F. E. Klotz of Oklahoma City, Oklahoma. Mr. and Mrs. W. N. Tolson of St. Louis, Missouri and J. E. Clark of Carter City, Oklahoma, wife of Mr. Campbell. Other guests present were Mr. and Mrs. V. T. Haddock and family and Miss Evelyn Kinnrough. Mr. Tolson is assistant vice-president of the Missouri State Life Insurance Co., of St. Louis Missouri and Mr. Klotz is a special representative of the Missouri State. While in the valley Mr. and Mrs. Tolson and Mr. and Mrs. Klotz visited the Carlsbad Caverns.

### ENJOY WATERMELON FEAST

The Intermediate Senior Christian Endeavor of the Presbyterian church enjoyed a delightful picnic, Tuesday night at the W. M. McCaw ranch. The young people enjoyed the evening playing outdoor games. A picnic lunch was served on the lawn followed by a watermelon feast. The members present were, Jeanne Wheatley, Grace Sinclair, Kittle Fern, Evelyn Finley, Thelma McCaw, Mattie George, Mena Sinclair, Shirley Hunk, Martha Sinclair, Hannah Belle McCaw, Fern McCaw, Ernest Hart, Fletcher Collins, Wallace Gates, John Gates, Johnnie Bill Collins, Jack McCaw, Richard Hunk, Edwin McCaw, Boyd Wright, Robert and Marvin McCaw. Miss Dora Russell accompanied the party.

### THE YOUNG WOMEN'S CLUB

The club enjoyed a social meeting at the home of Mrs. Howard Byrd last Friday afternoon, the hostess serving light refreshments. On Tuesday the club had another social event, this time a swimming party at the Gault with twenty present, including members, children and guests. Mrs. J. A. Patton, a former member was up from Carlsbad and Miss Lucille Ferguson of Ft. Stockton was a guest. A delicious picnic supper followed the swim.

### FOURTEENTH BRIDGE CLUB

The club were guests of Mrs. C. E. Mann at their regular meeting Tuesday at which time there were two substitutes, Mrs. C. Bert Smith and Mrs. T. M. Nash, of Memphis, Tennessee. The usual two course luncheon preceded the afternoon of cards.

### BETA ALPHA TAU CLUB MEETS

The Beta Alpha Tau club met at the home of Miss Joan Wheatley, Friday evening. The members present were, Geenna McCaw, Virginia Gates, Joan Wheatley and Martha Sinclair. Refreshments were served by Misses Jeanne Wheatley and Catherine Grace Sinclair.

### PICNIC DINNER

The Illinois Pipe Line firm enjoyed a splendid picnic dinner in the field Tuesday evening. The party was especially to honor Miss Gertrude Fox, daughter of the field manager of the company, who is at home from El Paso spending her vacation.

## LOCALS

Homer Demagot was a business visitor from Roswell Tuesday.

Fin Watson and wife drove over to Lubbock, Texas Sunday, returning Monday.

C. E. Mann and family left yesterday morning for a visit with relatives at El Paso.

Mrs. Clausen, of Roswell, spent all of last week here visiting her son, John Sherman and family.

Mrs. Olive Ackerman and children were at home from Lea county the last of the week in a shopping trip.

Herman Derry and Miss Katherine Lagasale spent last Sunday with Mr. and Mrs. Jim Stagner in Carlsbad.

Mr. and Mrs. Charles Morgan and children left Friday for a visit with his parents in Denver, Colorado. They will return about the 1st.

The Misses Lucille Morris of Hope and Neil Wilkinson returned the first of the week from the State Normal summer school at Silver City.

Mr. and Mrs. George A. Miller, left for their home at Ames, Iowa Friday, after spending several days here looking after property interests.

Mrs. S. A. Head and baby returned Saturday to their home at Amarillo, Texas after a three weeks' visit at the home of her sister Mrs. Will Linsell.

Shirley Vaughn and family, former residents of the Cottonwood community, have been here the past week visiting friends. They are now farming near Ft. Sumner.

Will Ballard, who is taking a vacation from his duties at the Hardwick, with Mrs. Ballard and son, Joe Bill, spent a few days in the mountains the past week.

Bert Mincey drove to Elkins Sunday and returned in the evening accompanied by Mrs. Mincey and the children, who had been visiting relatives on the ranch, near there.

Mr. George and family arrived Tuesday from Sweetwater, Texas and yesterday morning left for the business, accompanied by his brother-in-law, and sister, Mr. and Mrs. E. C. Withers. They expect to return Saturday and on Sunday will go through the Carlsbad Caverns before returning home.

# DON'T--

let a family necessity be the last thing on your purchase list. After most of us have spent money on the auto, made plans to remodel and repaint the house this fall, we owe the family a little consideration. Perhaps a Dining Room Suite, a Bed Room Suite or even a single piece of Furniture will add the necessary cheer to home life.

Whatever your requirements may be in furnishing the home we can help you. A nice assortment of Bed Room, Dining Room and Living Room Suites, Rugs, Floor Coverings, Tables, Desks, Chairs and a miscellaneous standard line of Furniture awaits your inspection here.

### BEST SERVICE SEES SOLUTION OF KAIBAB PROBLEM SOON

**QUERQUE.**—The Kaibab deer problem has presented a lot of difficulties during the past several years. The agreement further states that the state fish and game commission and the national survey and the national agreement between the Forester Rutledge and the commission was made possible by section 4 of the Arizona Game laws which reads: "The commission shall enter into cooperative agreement with the federal department having jurisdiction and regulations as may be necessary over any federal controlled lands in Arizona in carrying out such department for protection and perpetuation of animals thereon."

Essential features of the agreement are: (1) that the open hunting on the Kaibab shall extend from October 1, 1929 to December 15, 1930; (2) any person hunting deer on the Kaibab must have an open license in his possession; (3) any person entering and desiring to hunt deer on the Kaibab will be required to obtain a permit from the game warden at a cost of \$1.50 (this fee to be a cooperative fund to be used to defray a portion of the expenses incurred in handling hunting deer on the Kaibab); (4) each holder of an open hunting license and a service permit may take not more than two deer, only one of which may be a buck; (5) killing of deer under this agreement shall be limited to areas designated on the Kaibab; (6) no carcasses, hides or heads shall be removed from the Kaibab until they have been examined by game wardens appointed by the commission.

W. Straus, president of the Society for Thrift, says that the causes of crime are alarming. While there are a number of theories, some sound and some not, as to the cause of this lawlessness, there is little doubt that lack of early thrift is one important cause.

Young men live beyond their means; many without good training, in either school or home, turn to banditry. Easy money is so good that thought of the consequences does not deter such men in their eagerness to "big haul."

Records and court testimony of hundreds of cases within the last few years will bear out the truth of these statements.

One of the outstanding facts of our life—a fact which the police states of any of our great cities is that instead of sensible practices and living moral lives, many of our young men are allowing themselves, step by step, to get into habits that require more money than they are earning, and due to these habits, are dissipating their ambitions and rotting their lives.

There is nothing more stabilizing than constant thrift. Those who do not only have the advantage of the conservative material resources, their energy, but they also have the advantage of sane judgment and normal viewpoints upon life's problems and responsibilities of which, in many places, has been a condition that special investigations have been made, a great amount of good could be accomplished by the encouragement of thrift.

Economic practices are closely related to sound morals. Moral standards must depend upon thrift as an essential of human

efforts to stem the tide of which, in many places, has been a condition that special investigations have been made, a great amount of good could be accomplished by the encouragement of thrift.

### DELAYED

The following items mislaid last week and consequently did not appear in the Advocate:

Mr. and Mrs. Tex Polk, Miss Glen Polk and Miss Peggy Dobson, their house guest, went through the Carlsbad Caverns Sunday. They report the biggest day in the history of the cave. There were 1061, such a crowd that they were taken through in two groups.

### FAREWELL PARTY

Mrs. Wm. Compton who was leaving for an extended visit in the east was honored with a bridge party at the home of her son and daughter, Mr. and Mrs. R. D. Compton, Friday evening. Three tables played and delicious refreshments were served. The first prize was won by Dr. and Mrs. J. J. Clarke and the low prize by Judge and Mrs. Ferree. The party included the honoree and Messrs. and Mesdames Hartell, Ferree, Rowan and Clarke and Mesdames Hightower and Brooks and the host and hostess.

### MRS. HEAD HONORED

Mr. and Mrs. Will Linell were hosts Monday evening at a dancing party, complimentary to Mrs. Linell's sister, Mrs. Mildred Head of Amarillo,

Texas. Piano and Victrola music accompanied the dancing and light refreshments were served. The guest list included besides the honoree, Messrs. and Mesdames Aubrey Watson, Landis Feather, Jack Clady, and the Misses Helen Mann, Helen Bullock, Catherine Clarke and Ethel Bullock, and Messrs. Willis Morgan, Tex Henson, Harold Kersey, Ernest Ohnemus and Howell Gage.

Born to Mr. and Mrs. Wendell Welsh at a Carlsbad hospital Monday morning a daughter.

Mr. and Mrs. E. M. Phillips, Misses Wyoma Phillips and Louise Compton and William Compton spent Sunday at the Artesia-Sacramento camp. They were caught in a heavy rain on their way to the mountains but got through all right and had a pleasant outing.

Mrs. Silas Rogers, who had radium treatment for cancer of the hand, in El Paso recently is progressing very satisfactorily, the cancer having been destroyed.

Kenneth Compton accompanied Cavitt Jackson to the Artesia Sacramento camp Saturday.

Mr. and Mrs. L. P. Evans came down from the Artesia-Sacramento camp Monday to meet the parents of Mrs. Evans', Rev. and Mrs. Walk-

er and daughters, who were delayed in getting in from Texas last week. They returned to the mountains with them on Tuesday.

Mrs. Sid Cox came down from her cabin in the Artesia-Sacramento camp and left immediately for Terre Haute, Indiana in response to a telegram announcing the serious illness of her mother, who is known to Mrs. Cox friends here.

Mr. and Mrs. Tom Hefflin drove to Clovis Sunday with their daughter, Miss Lillian, who is leaving to spend a month with her aunt at Nevada, Mo. Next month she will enroll as a student at Cottey College, at Nevada, which recently by request of the founder and owner, Mrs. Virginia Cottey Stokard, became the property of the P. E. O. Sisterhood. Mr. and Mrs. Hefflin are moving today into the apartments at the Hardwick Annex for the winter.

### MEXICAN'S BODY IS BROUGHT TO CARLSBAD

The body of Benecito Nova, age 27, was brought to Carlsbad Thursday from the new town of Lea in Lea county. Nova was killed the night before in a fight with another Mexican, but the name of the assailant was not learned.

### STATE'S TAXES CUT TO SEVEN AND HALF MILLS

SANTA FE—The state tax commission Monday afternoon set the New Mexico tax levy for the next year at 7½ mills. This conformed to the forecast action of the commission and is a reduction from the present levy of 7.54 mills.

The 7½ mills includes 6½ mills for general state purposes, a half mill for the current school fund and one-

half mill to retire the \$500,000 institutional buildings bond issue.

This levy is expected to take care of the \$364,000 deficit account by July 1, 1930, including the \$200,000 casual certificates of indebtedness and return the state to a cash basis.

MARLAND CONTINENTAL Merger  
MEANS TO MOTORISTS

**THE** consolidation of the resources and facilities of the Marland Companies and the Continental Oil Company, under the latter's name, is more than a corporate merger. It is a happy union of well balanced production, manufacturing and marketing operations from which will come a host of unusual advantages to the millions of customers and thousands of distributors.

#### Wide Field for Crude Selection

Out of a total area of more than two and one quarter million acres in eight states, Continental selects the crudes best suited for its manufactured products. Raw materials for oils, greases and gasolines may often come from widely separated regions. Continental controls its own crude supply and chooses the best for each refining operation and thus assures a standard uniform output from year to year.

#### Strategic Location of Eight Refineries

Economical and efficient operation of petroleum manufacture frequently depends upon the relative locations of the raw

product, the refinery and the market. Continental is fortunate in that its eight modern manufacturing plants are well placed to afford prompt and economical delivery both before and after refinement. These properties are located at Baltimore, Maryland; Ponca City and Sapulpa, Oklahoma; Artesia and Farmington, New Mexico; Wichita Falls, Texas; Florence, Colorado; and Glenrock, Wyoming.

#### Exclusive Processes Insure High Quality

Continental refinery engineers enjoy a national reputation in the oil business. Not only have they adopted the newest and most efficient mechanical equipment for these big refineries but they have designed machinery and developed processes which are exclusive to this company. Under centralized control, these facilities now are made available in the manufacture of petroleum products of exceptional quality.

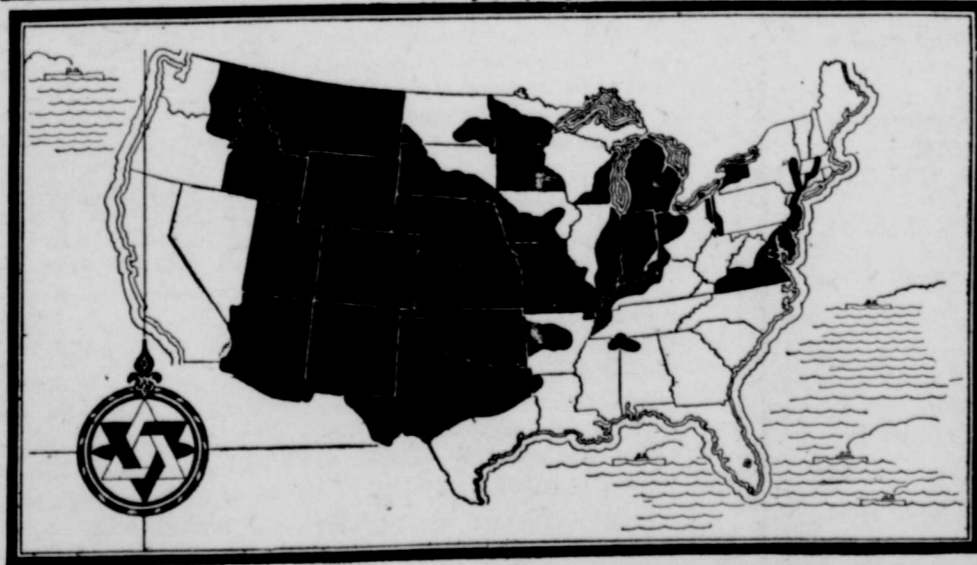

#### Conocoland Covers Tremendous Area

More than forty years marketing experience has spread the distribution of Conoco products over an area which reaches from the western slope of the Rockies, far east to the Mississippi River. Practically half of the United States is dotted so closely with Conoco Stations that a motorist may drive anywhere in that tremendous area without introducing other than Conoco products to his car. The outposts of Conocoland range from the Pacific Northwest to the shores of the Great Lakes and from the Atlantic Seaboard to the California boundary.

#### Prestige Established in Foreign Lands

The Continental coastwise and export fleet operate from terminals at Texas City, Texas; Newark, New Jersey; Baltimore, Maryland; and Norfolk, Virginia; to a dozen foreign countries. Petrol pumps deliver Conoco gasoline to automobilists in the shires of England and Conoco motor oils lubricate industrial plants in north Europe, South America and the Orient.

In brief, the joined forces of these two great companies afford greater, better service to the users of motor fuels and lubricants wherever the sign of the Red Triangle is displayed.

## COTTON FARMERS MAY BE FINANCED BY FARM BOARD IF IN DISTRESS

WASHINGTON, D. C. — Cotton farmers are to receive the full cash equivalent of this year's crop in advance whenever they are "in distress and must have money," under plans announced Monday by the federal farm board.

The funds will be advanced thru the cotton cooperatives. The board itself will advance 25 per cent of the value of the crop, 65 per cent will be loaned by the federal intermediate credit banks, and the remaining 10 per cent will be paid from the capital reserves of the cooperatives.

How much money actually will be required was said by the board to depend solely on the needs of the cooperative associations. It is expected that the sums involved in this year's marketing operations will run somewhere between \$5,000,000 and \$10,000,000, but board members said they stood ready to go as far as the industry required.

The advances to be made by the board will be on cotton upon which "a definite value has been fixed by hedging in the future market."

## LAKE ARTHUR ITEMS

(Mrs. Ned Hedges, Reporter)  
M. Graham and wife of Texas are visiting the family of his brother, Calvin Graham this week.

Mr. and Mrs. D. A. Bradley and family of Roswell were the guests of the Latta family Sunday.

Mr. and Mrs. W. A. Hamilton and sons returned the first of the week from an extended motor trip along the Rio Grande.

Clifford and Lillard McInney and Mrs. F. Glenn and children and Lois McInney were visiting friends in Lake Arthur Tuesday.

Prof. C. R. Bernard and wife returned from Ft. Collins, Colorado last week and are located for the present in the Masonic building.

Word has been received here that Mr. and Mrs. Carlos Sides are the parents of a fine new girl. The Sides' family are now living in California.

Mrs. B. C. Moots returned the first of the week from Albuquerque where she had spent the week end visiting her husband and attending the First American.

School will start the first Monday in September. The building is being put into readiness and a number of teachers are already on the ground ready for work.

Quarterly conference was held at the Methodist church Sunday. Rev. Moore filled the pulpit in the evening at the Presbyterian church, which was the first service of the revival meeting which will continue this week.

The Sew and So club met at the home of Mrs. B. C. Moots Tuesday, after Mrs. Moots presented the members a cut quilt block each, she conducted the business meeting. New officers were elected, four new members voted into membership and a picnic for the near future was discussed. The next meeting will be at the home of Mrs. Ned Hedges, September 3rd.

All union barber shops will be closed on Labor Day, September 2nd.

Miss Linna McCaw returned the last of the week from summer school at Silver City.

## Your Children's Eyes

The classroom of today makes greater demands upon the student's eyes than ever before.

Are you sure that your child is not handicapped by improperly fitted glasses—or by the need of glasses? This is a vital matter which must not be neglected.

Let us examine your little one's eyes now—it may prevent years of discomfort in future life.

DR. EDWARD STONE  
OPTOMETRIST

## FIRST DEATH IN THE CARLSBAD CAVERNS OCCURS LAST WEEK

An account of the first death to occur in the Carlsbad Caverns is contained in the Cavern City Chronicle and follows:

The first casualty ever to happen in the Carlsbad Cavern since the government took it over, occurred last Monday when W. Q. Bowman, retired capitalist and mayor of Hubbard City, Texas, died from heart failure.

Mr. Bowman was sixty-two years old, and was here with his wife and daughter for the purpose of making the Cavern trip. They made the trip and were back to within 1,000 feet of the entrance, when they sat down to rest, as most people do along there. There was no warning that Mr. Bowman was feeling the effect of the trip any more than any of the hundreds of others who were there. Without warning of any kind his heart stopped beating and he fell over.

His wife and daughter left Tuesday with the body for their Texas home, where he was laid to rest.

Out of the army of 140,000 who have tramped through the caverns since the government took it over, this is the first death, and this one was as likely to have happened anywhere else as where it did.

## CARD OF THANKS

We wish to express our appreciation of the many acts of kindness and the sympathy shown us in our sad bereavement in the death of our husband and father.

With sincere regards,  
Mrs. A. J. Foster and family. 36-1tp

# Facts Worth Knowing About the New Ford Car

At the present rate of production Ford factories are turning out approximately 33% of all cars built, and as the other factories are scheduling lower output while Ford is planning increases, this percentage will steadily rise for the rest of the year. It will not be surprising to see Ford dealers delivering 40% of all cars sold at some period between now and the end of the year. Total production of all factories for the month of June was 600,000 cars and trucks and Ford contributed more than 200,000 of this output.

World production of Ford cars and trucks for July was the largest for that month in the history of the Company, all records for retail deliveries to customers also having been broken.

It is announced that requirements for cars during August are placed at considerably more than 200,000 and that every effort will be made to meet this demand. Production of cars and trucks in the United States during July totaled 180,804 and 15,701 for the rest of the world, making a grand total of 196,505.

Retail deliveries to customers in the United States alone totaled 170,676 for the month. There are approximately 150,000 unfilled orders, indicating a good demand outlook. The plant is now turning out cars as fast as the summer schedule permits, production averaging around 7,900 cars and trucks for the current week with the same working arrangement.

**HIGHWAY DEPARTMENT EXPLAINS THE STATE LAW ON ROAD LIMITS**

**SOUTH PL—**Questions or complaints as to newly issued permits are frequently received that some clarification of the point is needed, says a highway bulletin released recently.

The law as passed by the recent Legislature is supposed to read: "The maximum gross weight including vehicle and load allowable is 22,000 pounds or 12 tons. When the vehicle has more than 500 pounds per foot in the axle line, in special cases permit may be issued by highway authorities to exceed these limits."

"The safety angle is of particular importance," says the bulletin. "The law provides that when a load exceeds four feet beyond the bed of the vehicle a red flag during the day and a red light at night shall be hung on the projection. This also holds true of the towing line between two cars when one is being towed by the other. This law cannot be over fifteen feet in length and must have either the red light or red flag depending on the time of day."

**IRRIGATING WOODS OF TREES AND VINES BEFORE WINTER**

Failure to handle properly the wood of grape vines and several of the tender trees often results in considerable loss from winter injury, says A. E. Fox, Associate Horticulturist of the New Mexico A. & M. College. This is especially true of young peach and walnut trees, which often have growing between the roots other crops that are cultivated and irrigated until as late as the fall, that the little trees are apt to be scorched and tender until the first hard frost, which then kills them back to the ground.

Irrigation of such plants should cease sufficiently early in the fall to season and harden the wood before winter. It is difficult to give specific dates for the best fall irrigation, because of the soil and climate variations in different parts of the state, but on the average irrigation should probably cease at least six weeks before the first hard frost.

Young trees and vines may also be injured or even killed, during the winter by becoming too dry. After the trees and vines have become dormant and hardened by frost, and the soil begins to get dry, they should be irrigated. In most parts of the state practically all trees and shrubs should be watered irrigated.

Young Vitis grape vines should be killed up with dirt in the late fall to protect them through the winter until a storm has been developed, after which time they may be left exposed, in the southern part of the state, if the wood is properly cured before winter.

Announcement Cards, Blank or printed—The Advocate.

**HYDRO-ELECTRIC PLANTS SIGHTS BY THE STATE ENGINEERS**

**ALBUQUERQUE—**The State Department of Conservation and the State Engineers (Department of Conservation) through a set of resolutions passed last week, ask State Engineer Herbert Lee, why the appropriation amounting to \$20,000 for the development of underground water in the Pecos basin have not been used.

The resolutions have asked the aid of State Senator Oliver H. Lee and Representative W. J. Bryan in taking the matter before the state engineer.

The teacher was giving a class a lesson on "gravity."

"But children," she said, "it is the law of gravity that keeps us on the earth."

"But please, teacher," inquired one small child, "how did we stay on before the law was passed?"

Lawyer: "Can you tell me if the defendant was extensively parties?"

Witness: "Well, she was, all right. All those expensive parties when I see it."

A lawyer is a person who refuses to be loved if there's an "and," near by.

The lady goes to work a lot more readily than the maid.

Specialist Ribbons—The Advocate

**LIFE HISTORY OF THE COTTON LEAF MORM AND ITS CONTROL**

The leaf morm cannot survive throughout the year in the United States, except on the Gulf, but comes from Central America each year that there is an attack here. The adult morm flies and is borne on the trade winds. It requires three to four days for the eggs laid by the morm to hatch. The morm that hatches in seven to ten days reaches maturity in seven to ten days. The insect spends seven to ten days in the pupa form. The life cycle, therefore, may be a little less than three weeks and as short as seven weeks.

Here in New Mexico the leaf morm has been observed in past years as early as early as the tenth of the month of August. They were in some years as early as the fifteenth of August, but most of them go into the pupa stage a little later and a second generation comes on in September. Mobs to fight keep coming from other fields farther south any time that winds are favorable.

## Lesson for August 25

### BUILDING THE TEMPLE

**TEXT—Ezra 3:10-13; 6:14-15**  
**TEXT—1** was glad when I heard the Lord's voice, let us go and build the temple.  
**TOPIC—Rebuilding God's House.**  
**IMMEDIATE AND SENIOR TOPIC—Rebuilding God's House.**  
**PEOPLE AND ADULT TOPIC—Rebuilding God's House.**

becoming settled in the towns of Jerusalem, the people gathered together for the purpose of rebuilding the temple. The leaders in this movement were Joshua and the priests, Zerubbabel, the governor. In the fact that the clearing of the debris of the old city and the erection of the new temple would take a long time, and would require where sacrifice was offered at once unto God, his newly erected altar were the regular sacrifices commanded by Moses, including those of Tabernacles (Ezra 3:13).

Foundation of the Temple was an auspicious occasion celebrated with most impressive ceremonies. The priests' apparel (v. 10). These symbolized their consecration to the Lord's service. The priests with trumpets (v. 10). Trumpets were used in calling the people.

Levites with cymbals (v. 10). This was according to the arrangement made by David (1 Chron. 15:19). They sang together by course. This means that they sang to God responsively. The one sang, "The Lord is good," the other responded, "For His mercy endureth forever."

Some of the older men who had seen the magnificent temple of Solomon which had been destroyed, and which they saw how far the present foundation came of the temple. Others were glad to see the work of God which had brought back, and that a beginning was made of the new house of worship.

Leading adversaries were the men, a mongrel people—the offspring of the poor Jews who were left in the land and the foreign people who were sent into Palestine after the Jews were taken captive. The enemies which delayed the building of the temple for about fourteen years revealed the persistent methods of the enemy uses to hinder the work of God's people in every age.

Our annual "wash bill" from soil erosion amounts to many millions of dollars, and remedies for this enormous waste can be applied better now than later, say soil scientists of the U. S. Department of Agriculture, who recommend the following control measures. Soil-saving and water-saving terraces should be built in thousands of fields. Much steep land and highly erosive soil used for clean cultivated crops should be devoted to permanent pasture or timber. Over-grazed ranges should be regulated according to their carrying capacity. Fire prevention on watersheds should be practiced.

The advice of an agricultural specialist is often instrumental in saving large sums of money to a community. In a community in South Carolina plans were being made to sell stock and organize a cheese factory. A careful survey by a specialist from the bureau of Dairy Industry, U. S. Department of Agriculture, showed that a sufficient volume of milk and other necessary requirements for successful operation were lacking and upon his advice the project was abandoned. The cost of the building and equipment as

Keep Going  
The science of flying teaches us that we will not go down as long as we go on. The birds have long wings and they fly. Keep going, hoping, loving, and you can soar!

Will the Master Say?  
The matter at last whether you are rich or just lived from month to month? What will the Master say? That is the question.—Dr. J. H. H.

Every automobile should be equipped with ash receivers for both front and rear seats, for the benefit of the smokers of the family. Many a woods fire or grass fire is caused by burning cigarettes or matches tossed out of moving cars along the road.

Various experiments on the use of alfalfa meal for livestock show that the grinding of alfalfa hay into meal has little effect in the feeding value, the chief advantages of the meal being that it can be fed with less waste than hay, is in more convenient form, and can be shipped at less expense.

Farm returns in 1928 showed improvement over 1927 and were the best for any year since the post-war agricultural depression, according to the annual survey of farm returns compiled by the U. S. Bureau of Agricultural Economics. The average net return based on reports received from about 12,000 owner-operated farms is \$1,334 for the year 1928 as compared with an average return of \$1,290 on 14,000 farms in 1927.

Have you figured out the amounts of various feeds the dairy cow will need for the coming year? A cow weighing 1,000 pounds and giving 25 pounds of milk a day testing 4 per cent will require in one year, when the pasture season lasts for 6 months, 5,400 pounds of silage, 2,500 pounds of hay, and 2,000 pounds of grain. Larger or high producing cows will need a little more feed, and smaller or low producing cows a little less.

There is no cure-all for all types of worms that infest poultry and other animals. Labels or vermifuges, or "worm expellers," must state the name of the worm or worms for which the preparations are to be used, and the proper dosage (if the dosage is given) for the type, weight, size, and age of the animal for which they are recommended, according to a ruling of the Food, Drug, and Insecticide Administration, U. S. Department of Agriculture.

Feed flavors and odors in milk are most frequently caused by succulent feeds. When fed to dairy cows one hour before milking, silage made from corn, alfalfa, sweet clover, or soy beans; and green alfalfa, cabbage, turnips, rape, and kale seriously affect the flavor and odor of milk. Milk is affected only slightly by green rye, green cowpeas, potatoes, dried beet pulp, or carrots. Green corn, green oats and peas, green soy beans, pumpkins and sugar beets have practically no effect on the flavor and odor of milk.

The advice of an agricultural specialist is often instrumental in saving large sums of money to a community. In a community in South Carolina plans were being made to sell stock and organize a cheese factory. A careful survey by a specialist from the bureau of Dairy Industry, U. S. Department of Agriculture, showed that a sufficient volume of milk and other necessary requirements for successful operation were lacking and upon his advice the project was abandoned. The cost of the building and equipment as

planned would have been at least \$10,000.

**Control Methods**  
Dusting with calcium arsenate, five pounds to the acre, is the common method of destroying cotton leaf worm. In rank cotton it may require as much as six or seven pounds an acre. One-half ounce to every 100 feet of cotton row would be at the rate of about four pounds an acre. There is no advantage in diluting the poison with lime or flour thinking that it helps to make the poison adhere to the leaf, most experiment stations do not advise its use.

Some growers use the mule back duster, which has sold at around \$50 each. Most farmers know how to make a duster of a 1 x 4 in. board and muslin. This outfit is also operated by a man riding horseback. Directions for making this may be had at the county agent's office, where one is made up.

The poison may also be applied as a spray. One pound of calcium arsenate to 40 gallons of water is satisfactory for spraying.—Rio Grande Farmer.

## RECORD NUMBER OF VISITORS AT CAVERNS

A record number of visitors went through the Carlsbad Caverns, Saturday and Sunday, according to reports reaching here, Saturday's visitors numbered 1,180 while Sunday the number reached 1,253. Of the latter number 1,000 registered from Texas.

A lot of people are broadminded until they come up against a practical problem.

By the time you're able to boast about how well your hens lay, you find that everybody's hens are laying.

Melissa H. Rigdon to Mary L. Hart-Line \$1.00 Lots 10, and 12, Blk. 21, Artesia Imp. Co., add to Artesia and Lots 10 and 12 in Blk. 13 Chisum Add. to Artesia.

## INSIDE INFORMATION

Use fairly large, flat buttons on children's clothing so they will learn to manage them without help from you.

To make grape juice sherbet, sweeten the juice to taste with sirup rather than plain sugar, after adding one tablespoon of lemon juice for each quart of grape juice. Turn in the freezer until stiff. Add a beaten egg white after the mixture is frozen give the dasher a few more turns, remove, pack, and let stand an hour or more before serving.

You don't have to know much to know more than most people.

We all know what we should do but most of us do as we please.

**LOCAL**

Mrs. Frank Probst who has been seriously ill for some time is worse this week.

Mrs. F. G. Hartell left Tuesday to spend a month or six weeks with her mother in Kentucky.

Mr. and Mrs. G. G. Taylor, of Amarillo, Texas, were guests at the E. E. Dunn home Monday and Tuesday.

Mrs. Lucy Robinson and Mrs. Ed Willingham departed last week by auto for a visit with friends in Kansas City, Mo.

Mr. and Mrs. Will Lineil, Mrs. Martha Harris and Mrs. T. M. Nash of Memphis, Tennessee, visited the Carlsbad Caverns Sunday.

J. T. Collins accompanied Mrs. Mabel Her and daughter, Miss Ileana of Boulder, Colorado through the Carlsbad Caverns yesterday.

H. Q. Bailey returned this week from Arkansas, where he was called by the illness of his mother who is very ill at her home in Little-rock.

Mr. and Mrs. W. P. Cox returned last week from Clinton, Oklahoma and other eastern points, where they made an extended visit with relatives and friends.

Jim Cowan came in from Oklahoma the first of the week for a visit with home folks before returning to Oklahoma University for his senior year's work.

Mrs. Sam E. Preston, of Midland, Texas, was here Tuesday visiting Mrs. Abe Burnett en route home from Estes Park, Colorado. The ladies were school mates at the State University.

Mrs. Gayle Talbot, who had been the guest of her husband's sister, Mrs. J. P. Lowry for some weeks, went to Hagerman last week to be with her mother, Mrs. Brown, who is visiting there.

Mr. and Mrs. E. F. Jones and family and Mrs. John McElhaney all of Aspermont, Texas are visiting the parents of Mesdames Jones and McElhaney, Mr. and Mrs. K. L. McElhaney of Artesia this week.

Mrs. Winnie Martin, who was called here last week by the sudden death of her son, Lloyd Martin, returned Wednesday evening with her brother Floyd Bradshaw, who accompanied her here, to her home at Anna, Texas.

Hector Reeves accompanied by his father-in-law John Boren both of Amarillo, Texas spent a short time visiting the former school mate of Mr. Reeves, Emil Bach and family. On Sunday Mr. and Mrs. Bach accompanied Messrs. Reeves and Boren through the Carlsbad Caverns.

Miss Glenn Polk and her friend, Miss Peggy Dobson, who have been visiting Miss Polk's parents, Mr. and Mrs. Tex Polk, for the past two weeks, left Saturday for a visit at Grand Canyon en route to Phoenix, Arizona, where they both have positions with the Western Union.

Mrs. Frank Ohmsen left to-day with her son, Frank, and daughter, Violet, for Lubbock, Texas, where she will place the children in school. The remainder of the family will remain in Artesia for the present and have moved into apartments at the Hardwick Annex.

**OILERS EVEN ROSWELL SERIES WITH VICTORY THERE SUNDAY--13-10**

The Oilers journeyed to Roswell Sunday and returned with the heavy and of a 13 to 10 slug feast. The final score is not a true indication of the wide margin held by the Artesia boys over their Roswell opponents, as Brainard, who was doing the chucking for the locals in the final frames eased up a bit after his mates amassed a long lead for him to work on. The victory was even more impressive for the Oilers due to the fact that they routed the highly touted Lefty Ward, who lasted less than two innings. Henry Eitz took up the hurling duties at this point and managed to get the Artesia boys out in the sixth.

Fessler started on the mound for the Oilers, but was relieved by manager Brainard, in person, after getting off to a wild start in the first round. He had walked two, hit two and made a wild pitch before Brainard rushed to his rescue and struck out Paul for the final out.

Rocky Kyle was the leader of the Artesia attack with four hits and a walk, giving him a perfect day at bat. Carl Manda hit a home run inside the park during the sixth inning. Mickey of Roswell also crashed out a home run earlier in the contest.

The two teams are playing the rubber game of the series at Roswell to-day. Both clubs have one victory; the first encounter being a tie.

**LOCALS**

Miss Lois Laverne Schnoor left Tuesday for Keata, Kansas where she will be supervisor of music in the public schools. She was accompanied by her mother, Mrs. J. J. Schnoor and her sister, Miss Neva. They will spend some time visiting friends and relatives before returning home.
