EDDY HEALTH NEWS

Early in July a case of typhoid fever was diagnosed in a Mexican family southeast of Otis.

The two that were not immunized contracted typhoid fever but not one of the seventeen who were immunized had the fever.

No new cases of diphtheria have been reported. Thirty-two children in St. Edwards school were given the Schick test last week.

Alexander, S. Roach, who has been seriously ill with paralysis. Mr. Roach passed away at his home there Saturday.

RATS DESTROY FOOD AND ENDANGER HEALTH

The rat is man's most destructive enemy in the animal world, says H. O. Stewart of the New Mexico State College.

Houses and outbuildings should be constructed so that rats can not enter. This is easily done and adds little to the cost of construction.

During the past few years the U. S. Department of Agriculture has been recommending a ratocide known as Red Quill.

For more detailed information, see your county agent or write the extension service, State College, New Mexico.

STATE TAXES LEVIED SHOWS A DECREASE

Taxes levied for all purposes for the 21st fiscal year show a decrease of \$1,244,507 under those levied for the 20th fiscal year.

For the maintenance of schools the state last year raised \$4,795,203 by taxes and this year it will raise \$4,293,271 or a decrease of \$501,932.

Municipalities raised \$1,009,061 a year ago and will raise \$851,475 or a decrease of \$158,186.

For all state funds the taxpayers raised \$1,874,775 during the 20th fiscal year and this year will raise \$1,994,480 less or a total of \$1,675,295.

The total amount to be raised for county, schools, municipalities and state funds for this year will be \$8,957,269 as compared with \$10,201,776 last year.

The schools with a percentage of 10.47 had the lowest ratio of decrease. The ratio for the other funds was: county, 15.26 per cent; municipalities, 15.66; state funds, 10.64; and all purposes, 12.19.

Art Work Made "Whole" After Five Centuries

Nearly five hundred years ago an artist, whose name is now unknown, painted a wonderful picture of the Annunciation. It was a large work and contained so much detail that was shortly after it was finished it was cut up into four separate pieces.

The first occasion since the artist painted it when the picture was seen as a whole was two years ago, when the parts were joined together at an exhibition in Paris.

Other great pictures have been cut up in the same way, but in nearly every case the severed parts have eventually come into the same hands and have been permanently joined together again.

HOW MODERN WOMEN LOSE POUNDS OF FAT SWIFTLY--SAFELY

Gain Physical Vigor—Youthfulness With Clear Skin and Vivacious Eyes That Sparkle With Glorious Health

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar—in 4 weeks get on the scales and note how many pounds of fat have vanished.

Get a bottle of Kruschen Salts—the cost is trifling and it lasts 4 weeks. If even this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a super-improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

But be sure for your health's sake that you ask for and get Kruschen Salts. Get them at any drugstore in the world.

REVIVAL UNDERWAY AT NAZARENE CHURCH

Rev. R. C. Gunstream, of El Paso, Texas is the evangelist in the revival now underway at the Church of the Nazarene. He will preach each night at 7:30 o'clock.

UNIVERSITY NOW HAS TRANSLATION SERVICE

Are You Keeping An Eye on Your Children?
Howe the children enjoy the "funnies" in the daily papers! It's great sport for them, following the antics of their favorite characters in the comics.
But why are they so likely to spread their papers out before the mon the floor or in other places where they may not be able to see comfortably.
Well, it's one of the peculiarities of children. They're thinking of the pictures, not of their eyes. That's one of the many reasons why your home should be well lighted throughout. With good lighting everywhere, your children will not have to strain their eyes and perhaps become nearsighted.
Now is the time to go over your lighting conditions in preparation for the long winter evenings ahead. Call your Electrical contractor today.
Southwestern PUBLIC SERVICE Company

It's Starting!

SHORT SUBJECTS

Falling Sight at 40
When a person passes forty he enters a period of falling sight, according to the better vision-institute. Forty-two is the average age at which eyes begin to lose their ability to adjust themselves to varying focal ranges. Up to that age most eyes, with or without the aid of glasses, can accommodate themselves to variations in the range of vision, but after that age such accommodations are increasingly difficult to make.

Plumber Joke World-Wide
The joke about the plumber going back for his tools is world-wide, according to a recent investigation in Europe. It persists in all European countries heard from, and has been traced to other lands. A correspondent in Palestine has just reported that native plumbers there follow the back-to-the-shop custom.

Painted Without Eyebrows
Da Vinci's "Mona Lisa" has no eyebrows. During the early Renaissance some ladies followed the custom of having their eyebrows plucked or cut. There are many instances in the sculpture and painting of the period. It is not known whether Mona Lisa had eyebrows in real life, but the picture shows none.

Copied From California
The card displays at football games were introduced at the Naval academy during the 1930 season by Midshipman N. C. Copeland, a member of the 1931 class. However, it was not Copeland's original idea. He received his information regarding these stunts from Stanford university, at Palo Alto, Calif.

Earrings Worn by Men
The custom of wearing earrings is observed by the men in several oriental countries which are included as among the civilized nations. Certain types of East Indians wear earrings, as well as certain of the North African peoples. This form of adornment is also traditional among pirates.

Testing by Mercury
Government tests on mercury used in dental amalgams show that very tiny amounts of base metals cause the mercury to appear badly contaminated and hence the appearance of mercury is in itself a satisfactory test for base metal contamination.

"Watch Your Step"
"Watch Your Step" might also apply to the foot throttle. It would likely save more lives than elsewhere. Stepping on the gas is coming to mean stepping into the grave.—Los Angeles Times.

A Mouthful
A literal translation of the German word, Oberammergauerpaschons-festspelepenkruanterklosterdelikat-fruhstueckskase, is Oberammergau Passion Play Alpine Herb Monastery Delicate Breakfast Cheese.

"Eminent Domain"
A city or state can condemn any real property for public use, provided the owner is paid just compensation. This unquestionable right of the city or state is called the "right of eminent domain."

As Washington Saw Capital
George Washington helped plan several of the public buildings in Washington, and saw the White House almost ready for occupancy and the first session of the Capitol ready for use.

"Honking High"
The expression "The goose hangs high" is believed to be a corruption of "The goose honks high, as in fair weather." The expression is used to indicate that the prospect is good.

Woman's Feat Recorded
The Colorado Springs Chamber of Commerce says that Mrs. Holmes of Lawrence, Kan., was the first woman to hike up Pike's peak. She did it in 1850.

Childish Mortality
Accidents, tuberculosis, heart disease, pneumonia, diphtheria and appendicitis are the six most important causes of death among children between five and nineteen.

Vinegar From Watermelons
Watermelons have been used successfully for making vinegar, but the juice must be concentrated to about half its original volume to give the proper sugar content.

Giant Frogs
The biggest frogs in the world are the Goliath frogs, whose bodies are about 12 inches long, exclusive of their powerful limbs.

"Doubled Up" Professions
In early Colonial times, the profession of clergyman and physician was often combined.

Almost a Monopoly
California produces practically all the lemons grown in the United States.

Nation's Seal
The Great Seal of the United States was adopted June 20, 1782.

TYPEWRITERS
See the new Remington Portable "Noiseless" Typewriter—Artesia Advocate.

ed if all Pennsylvania looked as gray and hilly as this monstrous iron city that I just could not like it.
As we left Pittsburgh, flying at over 4,000 feet, we could see large town and foundries like chains extending up every valley. Rising to 5,600 feet, we spent an hour crossing mountain ranges in parallel lines almost perpendicular to our course. When crossing these mountains, my thoughts ran like this: "No wonder a man loves his ship when she is trusty! We have 300 horses working faithfully and a pilot who can guide them on a true course. With so much altitude Jim could always pick a fair landing place, but I'm glad he does not have to." Then thoughts of Jim crossing these mountains in 1931 in the Eagle with the motor missing. Had I known this country then the strain would have been greater.
But here we are coming out over a beautiful valley with the picturesque and historical city of Harrisburg on the banks of the Susquehanna river. Coming down to 2,000 feet we fly for another hour up the wide Lehigh valley, passing over many cities and towns, fine farms with trees and winding creeks and come into Allentown, a city of nearly 100,000 population, which is connected with Bethlehem, a city of 67,000.
Our home is within a stone's throw of the Allentown airport with cars whizzing by at high speed and the airplanes buzzing overhead as they take off or prepare to land. This is quite an active little port with a live flying club, several private owned ships besides the five company planes.
This week beside routine business Jim gave instruction in landing an amphibian plane on land, delivered a private plane to New York City flew to Chesapeake bay for his partner, landing on the bay while the tide was out, and in addition won two silver cups at air meets—one for stunting and the other for speed.
We like it here and the people are very nice to us. I am taking note of many curious customs of the people, but that is another story.
Greetings to our New Mexico friends.
(By OLGA CHRISTMAN).

MIDWEST REFINING CO. IS TO BE DISSOLVED

DENVER, Colorado—The Denver Post Thursday said the directors of the Midwest Refining company, with offices in Denver, have voted to dissolve the corporation. A stockholders' meeting will be called soon to ratify the action of the directors, the Post said. The Standard Oil Company of Indiana owns virtually all stock of the corporation.

Midwest is a \$30,000,000 concern. It was organized in 1924, taking over operations of the Midwest Oil Company, organized by Verner Z. Reed and Oliver H. Shoup in 1919. Control of the company passed to the Imperial Oil Company of Canada, a Standard Oil Company subsidiary, and later to the Standard Oil Company of Indiana.

Pittsburgh spent more than a million dollars cutting off the tops of two mountains to make their fine level airport. Two 12-passenger transcontinental planes had full load. Not so many private planes and club planes as at other stops, but this did not surprise me considering the rough country the city covers. I decid-

FOR SALE

50,000 Envelopes

They're in stock for immediate delivery. No waiting days, no C. O. D. charges, no postage to add; charged to your account if you're a customer.

They're full 24lb instead of 20lb stock offered by many specialty bargain houses. Full cut, extra heavy, clean white bond surface.

No slap stick haphazard work to ridicule you when you mail them. Wide choice of type—you are not limited to one or two standards of type or ink.

Every job fully guaranteed; a complaint is immediately adjusted here, and you may see proof if you wish, before printing.

Competitive prices for quality work! And nearly all of what you pay for these envelopes is re-spent in Artesia. Some of it will come back to you, directly or indirectly. Some of it will go to pay taxes, rent, interest, wages, welfare aid, civic purposes, right here in your community.

Talk to us before you buy envelopes. We've got the price!
