# Artesia Advocate

The Advocate is the only consistent good will builder and booster of the Artesia trade territory.

If you have things to trade, sell, or swap, tell them through The Advocate

VOLUME THIRTY

ARTESIA, NEW MEXICO, THURSDAY, MAY, 18 1933

NUMBER 20

## Roosevelt In Plea For A World Wide Peace Plan

### Gracious Replies Received From Chiefs Of Twelve Nations — Chancellor Hitler Says Germany Wants Peace.

WASHINGTON, D. C.—Friendly but non-committal expressions from France and a cordial response from Germany were weighed by the president last night as he prepared to follow up his direct appeal for world-wide arms reduction with important diplomatic moves at Geneva.

At the arms conference which reopens there today, the United States spokesman, Norman H. Davis, has promised his country would "make very great efforts to assist in the maintenance of peace," once the determination to maintain it is evidenced by genuine steps toward disarmament.

In the meantime, the president is refraining from stating just what those steps will be. The extent to which the United States would go to aid in assuring safety against attack bears directly on the French demand for "security," without which she had hitherto refused to sacrifice her arms.

Swiftly moving events in the great arms drama created by the president's unprecedented message of Tuesday to 54 of his fellow rulers were these:

Gracious replies were received at the White House from the chiefs of 12 nations, including King George of Great Britain, and President Lebrun of France.

An official interpretation of the president's message was given at the White House emphasizing that it does not sacrifice American freedom of action although it conveys a willingness to consult other nations in case its proposed pledges against heavy armaments and aggression are violated; and definite provision was made in the administration's public works construction bill for building naval vessels and naval aircraft and merchandizing army units, subject (Continued on last page, column 2)

### ANALYZES CLOVIS BEER

A sample of 3.2 beer confiscated last week from R. C. Calkins of Clovis was sent to Dr. J. B. Clark of the New Mexico university chemistry department for analysis.

In an analysis completed by K. F. Priest, Clovis high school chemistry instructor, a bottle of beer taken from C. C. Boucher was found to contain less than one per cent alcohol. Authorities said they were not altogether satisfied with the analysis and are anxious to have another test made.

Boucher, who was fined \$50 in a Clovis court, has appealed his case on the ground the city "dry" ordinances does not specify any alcoholic content in its ban on liquor and that his beer is not intoxicating.

## THE LAMBING SEASON FINISHED -- SHEARING TO START IN JUNE

Sheepmen of this area have practically finished the lambing season. The lamb crop percentage was generally higher than last year, although not as high as was anticipated the first of the season. The crop this year averaged from fifty to ninety per cent. A. S. Foster, Lakewood sheepman informs us that his lamb percentage ran about eighty-five per cent. The high cold winds seriously interfered with the season in some sections. One sheepman said high winds prevailed thirty-four days and thirty-six nights during his lambing time. The high winds have dried out the range, which has cut the lamb crop short and will likely cause a short wool crop. The shearing season will start about the first of June.

## LIGHT RAIN FALLS HERE — IS GENERAL OVER EAST N. MEX.

Refreshing rains fell over a major portion of the eastern part of the state Sunday afternoon and evening, but the Artesia section received only a light shower. Beneficial rains extended from Lake Arthur north to Clovis and beyond and south of Dayton to Signal Peak on the El Paso highway. The moisture here was not sufficient to be of material aid. North of here, however the rains will be of aid to both the farms and ranges. A few farmers who have not succeeded in getting a stand of cotton will not welcome additional moisture at this particular time, but rains will be of benefit to other growing crops.

## LAST DRILLING WELLS AT HOBBS ARE TESTED

The last drilling well in the Hobbs pool has been completed and added to the producers column. Proration gauges completed recently on four Lea producers brings the Lea county oil activity to practically a standstill, except for the sale of leases and royalties. Rapid improvement, however is expected to be made as soon as conditions within the industry show an upturn.

Among the wells tested in the Hobbs field includes the Stanolind Oil and Gas Co., Byers No. 29, NE sec. 3-19-38, completed at 4,190 feet and good for 1,296 barrels thru a tubing test. The Byers failed to flow open. The Stanolind Oil and Gas Co., gauged its State No. 8, NE sec. 9-19-38, which made 1,102 barrels thru the tubing with 129,000 feet of gas. No open flow was obtained. A proration gauge was also given the No. 4-G, State of the T. P. Coal and Oil Co., sec. 24-18-37, which made 1,814 barrels thru the tubing with 1,750,000 feet of gas and an open flow of 6,071 barrels with 6,000,000 feet of gas.

In the Jal sector the Shepherd No. 1-B of the Texas Co., 2,310 feet from the south line and 330 feet from the west line sec. 5-26-37, was given a test and made 303 barrels of net oil with 2,000,000 feet of gas. The Texas well was drilled to 3,262 feet.

It is understood that Hobbs operators are trying to reach an agreement, whereby the daily allowable of the field will be reduced to 5,000 barrels until the crude price improves. The reduction which would mean about 24,000 barrels less for the present pipe line runs is still pending.

### SELIGMAN NOT TO NAME SENATOR NOW

SANTA FE—There won't be a senatorial announcement from the governor's office for at least a week.

The governor said Saturday, when asked about applications: "Wait a week, we'll have some more then and maybe I can give you a few names."

So there won't be a senator named for a week anyway.

### COTTON GROWERS MEETING

The Pecos Valley Cotton Growers Association met in Roswell Saturday and elected four members on the board of directors. Board members elected were: G. E. French, Roswell; John Tweedy, South Springs; S. W. Smith, Dexter and Harry Cowan, Hagerman. M. W. Evans of Artesia is a hold over on the board. A meeting will be held soon to elect officers. The association is optimistic over the outlook for a very successful cotton season.

### STEELE TALKS TO ROTARIANS TUESDAY

Jack Steele of Roswell, with the U. S. Geological Survey addressed the members of the Artesia Rotary club at the luncheon program on Tuesday. F. W. Sewell of Hobbs was the only visitor present in addition to Mr. Steele.

### ATTEND MEDICO MEETING

Dr. and Mrs. H. A. Stroup and Dr. C. L. Womack left this morning to attend the New Mexico Medical convention, which convenes at Roswell today.

### FIVE LICENSED TO WED

Five marriage licenses were issued by the county clerk at Carlsbad over the week-end. Licenses were issued to one Carlsbad couple.

## LEGIIONNAIRES SEEK REMOVAL OF HINES FROM VETS BUREAU

### Vets Administration Cost Too Much—Ask Ingalls To Aid In Getting Ex-Service Men A Square Deal.

More than a hundred veterans attended the first American Legion district meeting held at the Artesia Legion hut Tuesday night. Chas. Morgan, president at the meeting which was addressed by a number of outstanding Legionnaires, including: General H. A. Ingalls of Roswell, district committeeman; Col. J. D. Atwood, of Roswell, past state commander; R. W. Drysdale, Roswell, commander of the Roswell post; James Bujac, Carlsbad, commander of the Carlsbad post; Lake J. Frazier, Roswell, department judge advocate, Frank Graham, Roswell, department historian. Representatives were present from five posts, Roswell, Hagerman, Hobbs, Carlsbad and Artesia.

A resolution was introduced and carried asking for the removal of Frank Hines as administrator of the veterans affairs. It was charged in the discussion of the resolution that of the \$800,000,000 in veterans appropriations \$500,000,000 was expended on the administration.

Another resolution empowered General H. A. Ingalls, district committeeman, to act as the representative of the Legion and to take such steps as he deems proper to further the cause of the disabled veterans and to secure modification of the present drastic and unfair regulations affecting them and their compensation. The Legionnaires also approved the four point program of the national commander as announced thru the public press.

Refreshments were served at the conclusion of the meeting with the Artesia Auxiliary acting as hostesses. A dance for the entertainment of the visiting American Legion members was staged by the Auxiliary, after the refreshments were served.

## OBSERVANCE OF 8 HOUR LAW MOOTED QUESTION LOCALLY

Whether Artesia business houses will be able to observe the new eight hour law, is a mooted question at the present time, or rather whether it will be practical for them to try to observe it. Fred Brainard, Chamber of Commerce manager said yesterday, after making a partial survey of the business district, that most of the business men were willing to observe the law, but that all had not agreed to do so. The hours agreed on in other towns are from 8:00 a. m. to 5:00 p. m. with an hour off for lunch. It is understood that two hours a week is allowed for an emergency and Roswell grocers are planning to use the extra two hours to remain open until 7:00 o'clock Saturday evening. The Roswell merchants, however, don't know whether they will be allowed to use the extra two hours on Saturday as an emergency. Consequently they have invited Ralph E. Davy, state labor commissioner to come to Roswell and explain the law.

Two local lumber yards have agreed to abide by the eight hour law, but the matter has not been settled among other merchants.

## PROHIBITION MASS MEETING TO BE HELD SUNDAY AFTERNOON

George M. Hammond, state superintendent of the Anti-Saloon League will answer the question: "Shall New Mexico or America Surrender to the Outlaw?" at a mass meeting next Sunday afternoon at 2:45 o'clock at the Methodist church.

Mr. Hammond will answer the arguments of the wet organizations and the arguments of Mrs. Clark, who spoke at the Artesia hotel last week, in particular.

Mr. Hammond says that anyone wishing to defend the wet side will be given opportunity to do so.

## CLOTHES ARE RIPPED FROM PRODUCE MAN IN FREAK ACCIDENT

Frank L. Wilson, local produce dealer probably owes his life to a cool head. Mr. Wilson's clothing was stripped from his body in a freak accident, which occurred at the produce barn Monday afternoon, while he was operating a feed grinder. When Mr. Wilson sat down to start the engine to the grinder, the leg of his coveralls caught in a drive shaft. Before the shaft could be stopped it had twisted his clothing from his body, tearing his coveralls into five pieces and leaving him with only his shoes and hat on. Mr. Wilson suffered a bruised and skinned leg, but aside from a severe shock, he received no serious injury.

## 5,000 FARMERS IN STATE GET \$625,000 FEDERAL CROP LOANS

The federal crop production loan office at Albuquerque during the last year loaned out \$625,000 to 5,000 New Mexico farmers for an average of approximately \$125 each.

Owen D. Sherrill, manager of the regional loan office at Dallas, said a total of 44,000 loans had been approved in Texas, New Mexico and Arizona by the regional office.

Sherrill also said that since farmers had been given the loans prices had increased. He pointed to the New Mexico bean crop the storage on which was financed by the production loan bureau. Beans, he said, are now being sold at \$4.75 a hundred pounds whereas at the time the loans were made there was no market for beans at \$1.50 a hundred. He also said 65,000 bales of cotton financed by the government, are now being sold at 9 cents a pound instead of 6 cents which was the market price when the loans were made.

New Mexico loans, he said, have an 84 per cent cash collection record and few have been defaulted.

Sherrill conferred at Albuquerque Monday night with Col. A. T. Woods of Artesia, chairman of the governors loan advisory committee. Legislative Floor Leader Coe Howard of Portales; and Dr. H. L. Kent of Las Cruces, president of the state college.

## TAX COLLECTIONS IN COUNTY ABOUT 54 PER CENT TO DATE

Tax collections for Eddy county are good under present conditions according to preliminary estimates by Joe Johns, county treasurer. Information furnished us thru the assessor's office yesterday says that May 1st report showed a payment of 51.1 for the 1932 taxes. Up to the present time, counting collections for this month Mr. Johns figures that fifty-three or fifty-four per cent has been paid.

## MARKETS

### N. Y. COTTON (July Option)

(By Artesia Alfalfa Growers Association).

	Open	Close
May 12	8.92	8.96
May 13	8.88	8.84
May 14	8.44	8.64
May 16	8.55	8.63
May 17	8.62	8.72
May 18	8.80	

Market broke on Monday's opening due to unrest caused by Germany's war attitude. Better growing conditions added to the bearish outlook. The cotton market is overloaded with speculative longs and is due for lower levels without some outside constructive developments.

West Texas has ample sub-moisture and with light rains can now increase our cotton production 1,300,000. The secretary of agriculture announces that he will not use his powers to support the market at this time, ostensibly for the purpose of keeping the market down at a time when higher prices would result in increased acreage. Caution should be used in carrying cotton above nine cents.

## THE DELINQUENT TAX LAW TO BE APPEALED TO SUPREME COURT

### Quay County Holiday Association Prepares Test Constitutionality SB144 By Carrying Case To Supreme Court.

Senate bill 144, the much discussed delinquent tax collection law, is on its way to the state supreme court.

This legal trip was forseen at Clovis Monday night when District Judge Harry L. Patton sustained a defense demurrer to the Quay county farm holiday association's move for an injunction against the county treasurer to prevent enforcement of the law.

Immediately after refusing to grant the injunction, Judge Patton granted Attorney Roy A. Prentice's motion to appeal to the state supreme court.

In sustaining the defense motion Judge Patton passed only on points of law argued before him. Insofar as those points laid before him by attorneys in the case were concerned the judge held the new act to be constitutional.

Judge Patton in ruling on the plaintiff's contention that the legislature had improperly attached the emergency clause to the bill said the legislature had the authority to declare an emergency and was the sole judge of such emergency.

The court expressed itself as being disinclined to hold an act unconstitutional unless there are flagrant abuses of the constitutional rights and consequently preferred to refer decision on actual constitutionality of the act to the higher court.

The question of whether the law was unconstitutional was not gone into extensively at the hearing. The problem involved was whether property owners are dispossessed of their property without due process of law.

The action was brought in the name of Roy D. Hutchens for the Quay county farm holiday association.

## STATE HAS 25,341 ACRES LEASED FOR OIL SO' EASTERN AREA

William D. Morris, Ft. Worth independent oil operator, last week consummated sale of 2,400 acres in Chaves and Lea counties to the California Company. The acreage is in undeveloped territory and was obtained by Morris in competitive bidding for state lands according to press reports from Ft. Worth, Texas.

The California Company obtained the north half of section 23, the southeast quarter of section 10, the southwest quarter of section 27, all in township 12 south range 31 east Chaves county.

Also the south half of section 3, the north half of section 4, the northeast quarter of section 8, the south half of section 10, the northwest quarter of section 11, the southwest quarter of section 35 township 12 south, range 32 Lea county; and the east half of section 22, township 13 south, range 32 east, Lea county.

During the first five months of this year a total of 25,341.17 acres of lands owned by New Mexico have been sold under sealed bids at prices ranging from 25 cents to \$12.50 an acre.

A variation of prices ranging (Continued on last page, column 3)

## 25,000 POUNDS WOOL STORED HERE BY SCHARBAUER COMPY

Twenty-five thousand pounds of wool has been stored in the Bullock warehouse from the Scharbauer Cattle Co., ranch west of Hope. The last of the wool was delivered Tuesday. The wool of high quality, is mostly from yearling lambs. Because the market outlook is favorable, the wool will be held in storage for a few days. This is the first quantity wool clip to be received here this season.

Mrs. Sadie Wilson and Mrs. Mary Grimm were guests of Mr. and Mrs. A. C. Kimbrough at their ranch home at Lovington Sunday.

## MR. AND MRS. CAVE INJURED WHEN CAR OVERTURNS MONDAY

Mr. and Mrs. Ward Cave and daughters, Ethel and Edna drove to Rotan, Texas Friday of last week, going for Mr. Cave's mother. On the return trip Monday about twenty-five miles east of Roswell soft dirt was struck causing the car to turn over and leaving it badly wrecked. Mrs. Cave was badly shaken up and received a dislocated shoulder. Mr. Cave had some minor cuts and bruises while the other two occupants of the car were scarcely injured. Some time elapsed after the upset before a bus in passing picked them up and took them into Roswell. The party was given medical attention after reaching home.

## MELON PROJECT MAY BE STARTED AGAIN

Two cantaloupe distributors, W. J. Jettinger and H. Perry have been here and at Carlsbad this week, conferring with farmers on the possibility of launching another cantaloupe project this year. These men held a conference with C. F. Montgomery, of Carlsbad, president of the Cantaloupe Association Tuesday and on Wednesday morning met a number of south Eddy county farmers at the court house in Carlsbad. The distributors also met with three or four farmers here Tuesday, and again visited this section yesterday, but so far as known, no definite plans have been formulated as yet. Last year's experiment proved beyond a doubt that Eddy county can grow fine cantaloupes, although the disastrous market experience of last year has made some a little "leery" in rushing into planting a melon patch of any size.

The market outlook is more favorable at this time for practically all farm commodities, than at the corresponding period of last year, but whether or not a cantaloupe project of any size will be undertaken, is not known.

### CONDEMNATION SUITS STARTED AT CARLSBAD

Several condemnation suits were started in the district court at Carlsbad Monday. The cases are connected with the building of the Cavern highway and the first case on the docket was that of Will Merchant, whose land is cut "cattacorned" by the highway.

### BOBO BITTEN BY DOG

T. M. Bobo, Cottonwood farmer was painfully injured last week when bitten by a German police dog. One of the German police dogs owned by Mr. Bobo had killed a shoat and Mr. Bobo attempted to thrash the dog. When he did this, the dog's mate attacked him and bit him twice on the right arm.

### FLOWER SHOW COMMITTEE HAS MEETING LAST NIGHT

The committees from the flower show and yard and garden or city beautiful contest met last night in the Artesia Chamber of Commerce office and outlined plans for staging the city beautiful contest and the flower show again this year. Mrs. J. M. Story was re-elected chairman and Mrs. S. E. Ferree, elected secretary. These ladies will solicit entrants for the contests.

Detailed plans made by the committee are being worked out and will be announced next week.

### ANTICIPATED ROOSEVELT REQUEST FOR DEFERMENT FARM FORECLOSURES

Referring to the request of president Roosevelt that farm mortgage creditors refrain from bringing foreclosure proceedings until the operation of legislation enacted Friday, Thomas A. Buckner, president of the New York Life Insurance Company, announced that that company had already directed the suspension of all mortgage foreclosures on owner-occupied farms throughout the United States. This action, he stated was taken by the finance committee Thursday in anticipation of the signing of the farm mortgage bill by the president.

### BOARD TO MEET

C. V. Brainard, member of the board of county commissioners announces that the commissioners will meet next Monday as a board of equalization and will hear complaints on tax valuations.

## Turnover In Faculty Is Small For Next Year

### Junior High Faculty Is Not Yet Completed — Two New Teachers Employed — Others To Be Named Later.

After a meeting of the Artesia Board of Education last week we are able to announce the members of the faculty of the Artesia schools for next year:

**HIGH SCHOOL**  
T. C. Bird, principal and science; J. Clark Bruce, social science; Katherine Peterson, English and history; Myrtle Burrows, mathematics; Edna Drury, foreign languages; Charlotte Klyng, home economics; Lucile Forsyth, commercial; Lydia Havener, English; James L. Allen, athletics.

**JUNIOR HIGH SCHOOL**  
Linna McCaw, principal and arithmetic; Mrs. Leone O. French, English; Lucile Rowley, history and civics; James L. Allen, boys' physical education and hygiene.

**CENTRAL SCHOOL**  
Lucile Morriss, principal and fifth; Amy Williams, fifth; Bertha Richards, fourth; Beulah Strang, fourth; Mrs. Nellie Hamann, third; Mary Woods, third; Elsie Palmar, second; Jean McDonald, second; Merril Bradley, first; Kathleen Newman, first; Mrs. Dulcie Hensley, first.

**SUPERVISORS**  
E. L. Harp, orchestra; Alma Thompson, vocal; Mrs. G. C. Kinder, school nurse.  
Miss Havener, English instructor, lives in Clovis. For the past three years she has had charge of the English department of the Ft. Sumner schools. Miss Havener is an accomplished musician as well as English teacher.

Mrs. Hensley received her training at the New Mexico Normal University and had taught primary grades in the state for the past ten years, having taught at Raton for four years and at Las Vegas for five years.

Two more teachers will be added to the faculty of the Junior high later in the summer.

There is a smaller amount of teacher turnover this year than any year for the past five. At its last meeting, the board also re-employed all janitors.

**HIGH PRICE FOR CATTLE**  
Highest price received for fat cattle shipped from Roswell on any of the livestock markets this season was paid at Chicago Monday to J. P. White for two carloads of finished steers, the price being \$6.90 a hundred says the Roswell Dispatch.

These cattle were fed on the White L. F. D. farm east of Roswell, being sold on the Chicago market. The cattle averaged 1,028 pounds when they were shipped out of Roswell and weighed an average of 968 pounds when they were sold at Chicago.

## NO FUNDS ADVANCED FOR SENDING OUT TAX SUIT NOTICES

Joe Johns, Eddy county treasurer will make no effort to send out delinquent tax notices under the provisions of SB 144, because of lack of funds, it was reported Tuesday. So far as known, no funds will be available to enforce the law which requires property owners with delinquent taxes be notified by registered mail, both before and after the foreclosure sale. The county treasurer of Bernalillo county has borrowed \$1,200 from the state commission to mail out notices of delinquent tax sales. The Bernalillo county commissioners refused to appropriate money for this purpose.

G. R. Brainard, commissioner from this district is of the opinion that money for mailing out tax notices can not be provided for on account of the fact that the commissioners are not allowed (Continued on last page, column 3)

# THE ARTESIA ADVOCATE

ESTABLISHED AUGUST 29, 1903  
THE PECOS VALLEY NEWS and THE ARTESIA AMERICAN

MARTIN & BLOCKER, Publishers

### TAXES

Some beautiful theories are being advanced as to the most feasible manner of equalizing the burden of taxation. Due to the present world wide financial condition, an equitable distribution of taxes is made more difficult because taxes can be considered practically a fixed expense, which can not well be raised or lowered with commodity prices.

All of the world's wealth has its origin in land and for this reason an ad valorem tax is fundamentally the soundest method of raising revenue yet devised except in times of stress. The present local difficulty is not due so much to the fact that our ad valorem tax is unsound as to the fact that farm land valuations have been too high.

Many new sources of revenue have been opened up in the form of the sales tax, the income tax, the inheritance tax and the corporate tax, but just as fast as new sources of revenue have been opened up, the politicians have hastened to overload the source.

Mr. Caswell Neal's analysis of the tax situation made here last week at a taxpayers meeting was amusing in many respects. Especially so in the light of recent developments. Many in the audience recalled that Mr. Neal urged the election of the present state administration from the same platform about six months previous. The four laws up for referendum are known to be pet measures of the state administration. Politically Mr. Neal has reversed himself and he now asks the citizens to kill four bills passed by an administration which he requested us to elect only a few months previous. Obviously if Mr. Neal's judgment of what constitutes equitable taxation is as erratic as his political beliefs, his tax ideas are not worth much because he might change his mind again before the referendum.

We used to go pretty strongly on the theory that taxation represented the protection afforded by the government and that the more a man had to protect the more he should pay. If there is anything to this theory then too much sales tax isn't good for us because it hits the poor man with a large family, who in all probability has the least property to protect. Mr. Neal theorizes that if a man eats two pieces of steak he should be made to pay for two (in taxes of course). How about the man with a large family? Are we going to widen the social gulf between the rich and the poor, with an unjust burden on the poor? These are some of the things one must consider when we talk different forms of taxes. Of course if one has a personal reason for favoring a certain form of taxation that is a different matter. The man who led the cheering at the taxpayers mass meeting when the sales tax was mentioned, is a man who owns considerable real estate over town. He has educated his children so far as the public schools go and quite naturally he would like to see taxation lifted from his real estate and placed in some other form.

The gas tax is really a sales tax. We are paying or were paying thirteen cents per gallon for gasoline. Did you ever stop to think how much of that thirteen cents went for taxes. Let's figure a moment. The state gets five cents per gallon the federal government gets one and the company that produces this gasoline has to pay a property tax, a gross production tax, a severance tax. The company selling the gasoline must pay an occupation tax and a property tax. Then how much does it leave the company for profit after the dealer is paid his profit of four cents a gallon? You figure it, the matter gives tax experts a headache. Still some people think that one can add more gas taxes and not hurt the industry.

A state income tax has also figured conspicuously in seeking new sources of revenue. We have a pretty stiff income law, passed by the last legislature. If the national and state laws are scaled down much lower, the incentive for an individual to work and acquire money and property will be gone, if the government takes his earnings in taxes.

We don't know anything about this proposed corporate tax, but an inheritance tax would be unjust in some respects. It appears to us that the ordinary inheritance is taxed enough in its life time.

A great deal of this talk about how equitable these new forms of taxation are, is the bunk, if you want to know what we think about it. Not only are they the bunk, but they are often first class nuisances. The more ways the government finds to tax its people the more the government will poke its nose into private industry.

And another thing, all this talk about how well the people of Mississippi are pleased with the sales tax is more hot air and if you don't believe it go back and ask the people. The sales tax in Mississippi was simply an emergency measure of the last resort to save the state's credit. The reason Mississippi had to change taxation systems was because a big part of the real estate has washed away and the land that wasn't washed away is so impoverished it won't raise anything, with the exception of the Delta and the coast.

Our present system of government has and will need additional sources of revenue because we are expecting more from it both in protection and in the matter of devising regulations to conduct our business by. Those who have studied taxation realize that next to the gold standard, it is the most complex problem we have to deal with today. Devising a painless taxation is the biggest fable heard in modern days.

And here is a little secret. A government like an individual may keep within its income by spending LESS.

### HOODLUMS ON THE RUN

Chicago has the hoodlums and racketeers on the run, if current reports are true. Chicago business men have at last agreed to tell how the racketeers have infested their business. Business men of the Windy City have been encouraged to tell what they know about the operations of the racketeers under the protection of the youthful district attorney. A half a dozen "hoodlums," were arrested during the first few days of investigation and a decisive step has been made to clean out those responsible in a large measure for the present financial plight of Chicago. More power to Chicago.

One newspaper does not like the reforestation project because we face the prospect of paying out a poison ivy pension the next forty years.

## Days We'll Never Forget

### PICKED UP ON MAIN

That proposed farmers strike gives us an idea. If it works, we'll just lay off publishing The Advocate for a month or so until some of these birds come in with their subscriptions.

Dick Attebery says its time to change to summer wind in your tires. Its reasonable to suppose that if you get tired hearing the same old wind, you ought to get tired riding on the same old wind.

The reason some sermons are lengthy is because the preacher has too much breath.

A Negro woman told Judge Ballard, "I see in coat before, once for prostration and once for fragranty."

She—I suppose you've been in the navy so long that you're accustomed to sea legs.

Gob—Lady I wasn't even looking.

A couple of farmers had been bargaining for a cow for over an hour. Finally the prospective buyer came to the point. "How much milk does she give?" he asked. "Wal, I don't rightly know," replied the owner, "but she's a darn good natured critter and she'll give all she can."—Sanbusco Talks.

We don't imagine Hollis Watson and Pete Losey will be worth much around the bank for a few days on account of their visit to Washington. Watson is said to be suffering from sunburned tonsils and Losey used up a gallon of coal oil trying to kill the chiggers he collected on the banks of the Potomac.

Why is it that Horace can pet so much better after he's had a highball?

He drinks rubbing alcohol.

Eloper—What, five dollars for marriage. We haven't that much money.

Justice of the Peace—Well, I can give you a trial marriage for two dollars.

In case you want to give the wife something electrical because she's hard to get along with, have an electric chair sent up.

We bet the colony of nudists over in Germany does not have a pickpocket among them.

Most of us talk too much. Here's something I read which takes care of that situation: "Careful with fire," is good advice we know. "Careful with words," is ten times doubly so.

"Thots unexpressed may sometimes fall back dead: "But God Himself can't kill them when they're said."

### MODERN BANKING CHARGES

1—Entering Bank:

### SPEAK FOR REPEAL OF NATIONAL PROHIBITION

Several Artesia people gathered at the roof garden of the Artesia hotel Thursday morning to hear two state speakers, Mrs. Franklin Lane and Mrs. Hunter Clarkson both of Santa Fe, speak for the repeal of national prohibition. The ladies are touring the state under the auspices of the New Mexico division of the women's organization for the repeal of national prohibition. Col. A. T. Woods introduced the speakers, who declared prohibition was economically unsound, a complete failure as viewed from the standpoint of prohibiting drinking and without basis in the scripture.

### CAMPAIGN ON ROUGH FISH

The campaign to rid the streams of southeastern New Mexico of rough fish is proceeding southward under the direction of M. Stevenson, deputy game warden. A number of shad, said to be the most destructive of all fish have been removed from the Pecos river, north of the Dayton bridge. Work of seining the streams of Chaves county has been practically completed. Work of ridding the various southeastern waters of rough fish is expected to be completed by the time the game fish season opens.

### Hobson Gets His Medal at Last

President Franklin D. Roosevelt presenting, in the name of congress, the Medal of Honor to Richmond Pearson Hobson for heroic services performed during the Spanish-American war.

### WHY I WEAR THE NAME CHRISTIAN

During the pre-Easter meeting, The Rev. A. S. Dowd, preached a sermon on the above title, and several have asked for the references and this is offered here for publication at their request:

God brought his created creatures to Adam, for Adam to name them (Gen. 2:19, 20). Adam called his wife's name Eve in their marriage relation. (Gen. 3:20), but in feminine gender he called her woman (Gen. 2:23). In Gen. 5:2 God called their names Adam, in the singular number designating the relation of man and wife as one from that day through the period of time.

In Rom. 5:14, the apostle Paul says: "Who is the figure of Him that was to come." That is, Adam and wife, were a picture of Christ and the church. "The church the bride of Christ." Eve, the woman wearing the name of Adam her husband. The church, the bride of Christ wearing the name of Christ. In their formation God caused a deep sleep to fall upon Adam, and from his side He took a rib and made woman, Adam's bride. When God wanted to make His church He caused a deep sleep to come upon Christ on the cross, the blood and water that came from His side, John 19:34. He made His church. Blood and water have always been the purifying and the separation of man from sin, for the full explanation read Ephesians 5:22-32 also John 3:29. "He that hath the bride is the bridegroom."

When God made a covenant or changed His relation to man, He gave a name to designate that change.

In Genesis 17:5, shows God wanting to change His relation with Abram and to make a covenant with him, we read "Neither shall thy name any more be called Abram, but thy name shall be Abraham." In Gen. 17:15 "God said to Abraham, as for Sarai, thy wife, thou shalt not call her name Sarai, but Sarah shall her name be." Abram and Sarai had worn their names most 90 years, but God desired that their names be changed and they were changed and ever afterwards they are called by their new names throughout the entire period of Bible history.

Genesis 32:28, we have the name Jacob, changed to that of Israel. "Thy name shall be called no more Jacob, but Israel." If the name we wear, is not considered by our Lord, then why these changes after they have been worn so long.

Luke 1:59, we have the contention over the naming of John the Baptist and his kinsman wanted the child named Zacharias. The angel also brought the report that our Lord was to be named Jesus. Paul and other apostles names were changed, as designated by our Saviour. With the assurance that He was not pleased with their old names.

God tells us through His prophets that He is going to change His covenant relations and will give a new name to designate that change.

Isa. 65-15, "And ye shall leave your name for a curse unto my chosen; for the Lord God will slay thee, and call His servants by the new name." The Jews His chosen people. He has slain and they are scattered to the corners of the earth.

Isa. 62:1, 2, "And the Gentiles

shall see thy righteousness, and all kings, thy glory, thou shalt be called by a new name which the mouth of the Lord thy God shall name." Search through the remaining chapters for the time when the Gentiles shall see the righteousness of the Lord. Neither Matthew, Mark, Luke or John speak of the Gentiles as seeing the righteousness of the Lord—they give the biography of Jesus and show that Christ refused for them, the apostles, to teach the Gentiles. "Go not in the way of the Gentiles, but to lost sheep of Israel." After pentecost we read that the apostles were to go to every nation and the gospel was to be preached to each individual. In commission of Matthew and Mark, last chapter of each writer. On pentecost the apostles preached as the Holy Spirit gave them utterance, and three thousand Jews accepted their message and were baptized and the Lord added them to the church, so no mistake was made in their being saved and to what church they were added.

The new name was to be given when the Gentiles receive thy righteousness. In Acts, 10th chapter, we have the account of the first Gentile convert. He, Cornelius was a praying man, prayed to God at nine o'clock every day. His prayer was heard in heaven and an angel came to tell him his prayer was heard and his alms had come up as a memorial before God. To send to Joppa and call for one, Peter, who shall tell thee word "whereby thou and all thy house shall be saved." This, the first Gentile convert, has seen the righteousness of God and called upon him, the 11th chapter of Acts and the 1st verse says so, and also, the 18th says so, "Then hath God also to the Gentiles granted repentance to life." When the Gentiles, said the prophet, see thy righteousness, God was going to leave their name for a curse unto them and call His people by a new name which the mouth of the Lord thy God shall name; then this new name is not a name given in derision, but the Lord is going to name them. In the 26th verse of the same chapter the new name is given, "And the disciples were called Christians at Antioch." In first Corinthians, first chapter and in the third chapter, Paul tells of the sin of division by wearing different names and bringing divisions and death to the body of Christ, the church.

Individuals preached to in the days of the apostles were convinced that if they accepted the religion of Christ that the apostles preached, they were to wear the name Christian. Agrippa to Paul, "Almost thou persuadest me to be a Christian." Second Peter 4:12 says, "If any man suffer as a Christian." Religious people make a serious mistake calling a good moral man, a Christian, a Christian is a follower of Christ and no man is a follower of Christ who has never confessed Him.

Romans 8:17 says "If we are a child of God, we are an heir of God. Jesus is the only natural heir of God, by being His only begotten son. You and I become an heir of God by adoption into the family of God. Fulfilling the alien law of the United States makes a foreigner, a citizen of this country, for a sinner or alien of God to obey the law of God makes the person a child and an heir of God. I became a child of my parent by birth, hence an heir and, the name of my parent. I become a child of God, an heir of God, by obeying the law of adoption, hence in becoming a child, I wear the name of my

### FARM RELIEF IS EXPECTED TO BRING IMMEDIATE RESULTS

WASHINGTON, D. C.—"Definite accomplishments" are expected to flow from America's new broad-gauged farm relief law within 30 days.

That was the optimistic word given last week by Secretary Wallace who looks hopefully toward an upward swing to higher and more stable prices and, at the same time, to a respite for farmers from the heavy pounding of the auctioneer's hammer.

Heartened by the decision of midwest leaders to call of the national farm strike, scheduled to begin last Saturday, Secretary Wallace plunged at once into the intricate job of bringing back good times to an industry which has been in the grip of deflationary influences for thirteen years.

Henry Morgenthau, Jr., who will administer mortgage refinancing provisions of the sweeping farm relief-inflation act, signed Friday by President Roosevelt, prepared to make his first loans to farmers available this week. These loans will be from a \$200,000,000 fund to help out farmers recently foreclosed or facing such action soon.

Refinancing mortgages up to a limit of \$2,000,000,000 will begin in about a week.

In a statement issued after signing the bill, Mr. Roosevelt urged patience on the part of creditors until the machinery for mortgage relief can be set in motion. He suggested that all foreclosure proceedings be held in abeyance, and there were indications that banks, insurance companies and individuals would comply.

Wallace pinned his first hopes of success in restoring farm prices on efforts to bring producers, handlers and processors into trade agreements.

George N. Peek, Moline, Illinois farm equipment manufacturer, moved into an office a few doors from the secretary to take up the post of chief administrator.

### CUTS FOOT

Miss Clementine Cobble, who was participating in the swimming events at the Girls Scout meet in Roswell Saturday, suffered a severe cut on the bottom of her foot when she attempted to dive from a boat and cut her foot on a protruding bolt. Three stitches were necessary to close up the wound.

parent; if Christ is the bridegroom as the Bible says He is, and the church, His bride, as the Bible says it is; in becoming a child of God we are born of the water and of the spirit, according to John 3:5; and if I wear the name of my parent in the natural world, being their child, God has asked no more of us, being His children, than that we wear His Name in this present world, "If any man suffer as a Christian let him not be ashamed, but let him glorify God in this name or on this behalf."

Ephesians 5:30, "For we are members of His body, of His flesh, and of His bones."

Ephesians 3:14, 15, "For this cause I bow my knees unto the Father of our Lord Jesus Christ, of whom the whole family in heaven and earth is named."

We wear the name of Christ in this world to the glory of God the Father and we wear it in the world to come. Revelation 22:4, "And they shall see His face; and his name shall be in their foreheads."

THE REV. A. S. DOWD.

### "I want my telephone put back, please"

Many people have found that the small cost of telephone service had been repaid many times each month in convenience, in time saved, in comfort and protection.

One emergency call in case of fire, serious illness or accident may be priceless.

A telephone costs but a few cents a day

The Mountain States Telephone & Telegraph Co.

### BLOSSOM QUEEN

When it is peach blossom time in Michigan an annual festival is held in Benton Harbor and St. Joseph, and to preside over the ceremonies a blossom queen is chosen. This year the favored young lady was Miss Marian Evans of Berrien Springs, shown above. She was crowned by Gov. William A. C. Stock, and for a week was the recipient of all kinds of honors and attentions.

### VEHICLE RECEIPTS SHOW AN INCREASE

Motor vehicle receipts for April show an increase over those for the same month in 1932, said J. R. Martinez of the state comptroller's office at Santa Fe Saturday. The March receipts also showed a gain. However, he added, in view of the amount of the registration fees paid earlier in the year, the 1933 collections so far are behind those of 1932.

Martinez believes the gain for the last two months is chargeable to better enforcement of the registration law, in part; but also that more cars and trucks are being brought out of garages, where they have been housed since the first of the year, and operated on the highways.

In view of the gain for March and April, the gasoline tax is expected to show a corresponding increase.

### HEALTH COLUMN

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

#### WOLF, WOLF

It was Sunday morning. The health officer thought that he had a day off. No well baby clinic was scheduled, no children to be vaccinated, no dairy to be inspected, no contagious disease to investigate.

The telephone rings. Someone is speaking from the village of S. F., sixty miles away. A woman is desperately ill, dying. Can he come at once?

The health officers protests that two doctors live at G., only nineteen miles from S. F. It seems that neither of them is willing to attend. So the humane health officer gets in his car and drives sixty miles to S. F.

When he arrives at S. F. he finds that a woman has fallen and broken some ribs. She has been attended by a trained nurse who has applied strapping—the correct treatment. But after the nurse left the patient decided she did not like strapping. Therefore she took it off again. Therefore she is in pain again. Therefore she is in no danger. The illness had been exaggerated on the telephone in order to persuade the doctor to travel sixty-six miles from home.

Every doctor has had experiences similar to this true story. Tender hearted doctors have many of them. Ordinary doctors are disposed to refuse such calls from time to time. Sometimes the danger to the patient is real but the doctor does not believe it. Can you blame him?

Health work must be planned. A rural clinic requires that mothers travel long distances—perhaps to the school house—with babies or toddlers. The health officer must keep his appointments. He should not be expected to answer sick calls, while he is on duty as health officer.

#### MORE FISH CAUGHT

Local fishermen are not having the earlier luck in catching the big cat fish from the Pecos river, however big fish continue to bite. Gray Brothers camped on the river for three days last week and brought home three cat weighing fourteen, twenty-one and twenty-four pounds.

### BLOUNT TO GRADUATE

Carlos Cecil Blount, Artesia, is among the 462 candidates for degrees at the Oklahoma A. and M. College this spring, according to an announcement from the president's office.

The Baccalaureate service will be held May 21st at 11:00 a. m. at which time The Rev. John R. Abernathy of Oklahoma City will be the speaker. On Friday, May 26, commencement exercises will be held in the College auditorium. The speaker for that morning will be Dr. E. H. Lindley, chancellor of the University of Kansas.

Ninety-nine of the 462 candidates will be given Master's Degrees. The remaining 363 are candidates for a Bachelor of Science Degree.

Blount is in the school of engineering, majoring in electrical engineering.

### ALAMOGORDO RANCHER KILLED BY PUMP ENGINE

ALAMOGORDO—Buzz Brownfield, 30, son of Mr. and Mrs. W. T. Brownfield, prominent Otero county rancher was killed at his father's ranch in the southeastern part of the county Monday when he was caught in an engine used to pump water for stock.

His widow, the former Geraldine Sutton was visiting her parents, Mr. and Mrs. J. L. Sutton at La Luz at the time of the accident. The body was taken to El Paso.

Henry Ford  
Dearborn, Mich.

May 9, 1933

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

Henry Ford

# Social Activities

## ONE DAY CAMP FOR GIRL SCOUTS SATURDAY

A "One-Day-Camp" for Girl Scouts was held in Roswell Saturday at the Roswell country club with one hundred twenty-five Girl Scouts attending. The Roswell Girl Scout Council sponsored the "One-Day-Camp" in order to create further interest in the six weeks' summer term at Camp Mary White.

At nine o'clock the activities for the day began with a delicious "Indian pit-cooked" lunch being served at the noon hour. A quiet hour was observed after lunch followed by a swimming meet.

Each visiting group contributed a feature to the day's entertainment. Lela Bess Mann and Nina Mae McLean represented the Artesia group by giving two readings.

Miss Evelyn Cobble scout leader accompanied the following scouts to Roswell: Joan Wheatley, Virginia Gates, Avis Clowe, Clementine Cobble, Glenna McLean, Helen Meredith Gates, Nina Mae McLean, Margaret Virginia Kyle, Peggy Brainard, Rachael Swift, Betty Joe Brainard, Lela Bess Mann, Dorothy Gilmore, Donny Belle Morris, Margaret Compary and Ruth Hamilton.

The day was such a complete success that it is expected to become an annual affair.

## FAMILY DINNER AT C. M. COLE'S SUNDAY

The birthdays of five members of the Cole family were celebrated and Mother's Day observed at the same time at the home of Mr. and Mrs. C. M. Cole Sunday.

A sumptuous turkey dinner was served at the noon hour to members of the family and guests. The birthdays of Mr. and Mrs. C. M. Cole, Mrs. Fred Cole, Mrs. Clint Cole and Miss Ina Cole each occurred in the month of May, making them honor guests on this occasion.

Those to enjoy this lovely family dinner were: Mr. and Mrs. C. M. Cole, Mr. and Mrs. Fred Cole and daughter, Mr. and Mrs. Clint Cole, Mr. and Mrs. Lewis Cole and children, Herman Cole, Misses Ina and Gladys Cole, O'Leta Mounts and S. C. Albright and Buford Gray.

## MR. AND MRS. BRAINARD HONOR MOTHERS SUNDAY

Mr. and Mrs. Fred Brainard were host and hostess to their mothers, Mrs. C. V. Brainard and Mrs. J. H. Hollomon at dinner Sunday.

Old fashioned pinks and ponies were used as decorations throughout the house. Seated at the beautifully laid table, centered with an attractive bowl of pinks were: Mr. and Mrs. C. V. Brainard, Mr. and Mrs. J. H. Hollomon and Mr. and Mrs. Brainard who enjoyed a delicious menu which was served at one o'clock.

## MR. AND MRS. LINELL ENTERTAIN MOTHERS

Mr. and Mrs. Wm. Linell entertained Sunday with a Mother's Day dinner in honor of their mothers, Mrs. J. C. Jesse and Mrs. Frank Linell. Seated at this lovely dinner were: Mr. and Mrs. Frank Linell, Mr. and Mrs. J. C. Jesse, Mrs. Jack Clady and baby Jack, Mr. and Mrs. Wm. Linell and children.

## SURPRISE BIRTHDAY PARTY

Miss Lorita Hill was hostess at a surprise birthday party for Miss Mary Jane Terry, at the home of her parents, Monday of last week. Cards and dancing were enjoyed by the young people with light refreshments at the close of the evening.

Those present were: the Misses Mary Jane Terry, Ruth Hogan, Mary Ann Miller, Mattie George, and Clyde Sleasue, Owen McLean, Harry Gilmore, Hansford Shockley and Billie Bullock.

## MRS. BERNARD CLEVE ENTERTAINS FOR MOTHER

Mrs. Bernard Cleve entertained with a family dinner in honor of her mother, Mrs. D. S. Martin at her mountain home at Elk Sunday.

Those of the family who drove up to Elk to help Mrs. Martin enjoy this occasion were: Mr. and Mrs. Irvin Martin and children, Mr. and Mrs. Harold Dunn, Mr. and Mrs. Jim Berry and Dorothy, Mr. and Mrs. Clarence Conner and small son and Miss Opal Martin. Others present were: Mr. Cleve and the boys and Orris Cleve.

## MRS. ROWAN HOSTESS TO CLUB TUESDAY

Mrs. Beecher Rowan was hostess to members of the First Afternoon Bridge club at her home Tuesday afternoon.

The players were seated at three tables where an afternoon of Auction was enjoyed. Mrs. L. P. Evans held high score at the conclusion of the games.

Delicious refreshments were served by Mrs. Rowan to her guests with Mrs. Cash Austin of Farmington, this state, a guest at the refreshment hour. Members present were: Mmes. G. R. Brainard, Mark Corbin, Wallace Anderson, S. D. Gates, Bigler, Ferree, Hightower and Compton. Club guests were: Mmes. L. P. Evans, Stanley Blocker, John Lowry and Carl Bildstone.

## BRIDGE-LUNCHEON

Beautiful garden flowers were used in carrying out a pretty spring decorative motif Tuesday when members of the Idlewhites Bridge club enjoyed a lovely covered dish luncheon at the home of Mrs. Arba Green on Main street.

Guests were seated at one o'clock at a beautifully laid table with a gorgeous bowl of red roses. After enjoying the delicious menu they adjourned to the living room where contract bridge was played during the afternoon. High score was made by Mrs. James Nellis.

Members present were: Mmes. J. M. Story, James Nellis, Arba Green, Thomas S. Cox, J. W. Berry, Fred Brainard, Aletha Phillips, J. H. Myers and J. H. Jackson. Guests who enjoyed this delightful affair were: Mrs. Jessie Morgan, Mrs. Ralph Shugart and Mrs. Chester Russell.

## ENTERTAINS H2O CLUB

The membership of the H2O club met with Mrs. G. R. Brainard at her ranch home Saturday afternoon.

Miss Ruth Morgan has recently been made a member of the club, to fill the vacancy made by the resignation of Mrs. Chester Russell. Those who enjoyed the afternoon of progressive contract with Mrs. Brainard were: Mmes. J. H. Myers, J. B. Atkeson, Jessie Morgan, John Lowry, J. H. Jackson, Thomas S. Cox and Miss Ruth Morgan.

## CONTRACT STUDY CLUB

Mrs. E. N. Bigler was hostess of the Contract Study club at her home Monday.

A delicious one o'clock luncheon preceded the session of contract bridge. Mrs. Aubrey Watson, Mrs. Wm. Linell and Mrs. Rufus Wallingford were guests at this pleasant affair. Members who enjoyed the afternoon with Mrs. Bigler were: Mmes. Hightower, L. P. Evans, R. D. Compton, Aletha Phillips and Chester Dexter.

## SUNDAY IN THE MOUNTAINS

Misses June Carper, Laura Bullock, Catherine Cogdell and Harold Naylor, Paul Crockett and Joe Bill Ballard drove up to the Williams ranch Sunday where they were joined by Miss Agnes Ann Williams for a picnic dinner in the mountains. On their return to the Williams ranch they were served a lovely supper by Mrs. Williams before their return to Artesia.

## BRIDGE OF THE MONTH CLUB

Members of the Bridge of the Month club enjoyed a pleasant afternoon of bridge with Mrs. Carl Bildstone at her apartment on Grand Avenue Monday afternoon.

Mrs. Joe Hamann will be regular substitute for Mrs. T. C. Bird, who is away for the summer. After a session of contract Mrs. J. Harvey Wilson was awarded high prize. Mrs. Hugh Kiddy received second high. Club guests were: Mrs. Roy Langston and Mrs. Leslie Martin, others present were: Mmes. W. E. Flint, Joe Hamann, Willis Morgan, Hugh Kiddy and J. Harvey Wilson. Light refreshments were served by Mrs. Bildstone at the close of the afternoon.

## FIRST EVENING BRIDGE CLUB

Mr. and Mrs. Chester Dexter entertained the members of the First Evening Bridge club at their apartment at the Artesia hotel the first Thursday evening of this month.

At 7:30 o'clock the guests were seated at quartette tables and after enjoying a delicious dinner spent the evening playing auction bridge. Those who shared this affair with Mr. and Mrs. Dexter were: Messrs. and Mmes. V. L. Gates, Rex Wheatley, Earl Bigler, Mrs. Mark Corbin, Mrs. Raymond Bartlett, Dr. J. J. Clark and Martin Yates, Jr.

## W. C. T. U. MEETS

A meeting of the W. C. T. U. was held with Mrs. W. B. McCrory at the Presbyterian manse last Friday afternoon.

Mrs. Frank Smith led in the devotionals. George Hammond the state president of the Anti-Saloon League was present and delivered the message of the afternoon.

Those present were: Mmes. John Shearman, Thigpen, Day, E. A. Paton, Frank Smith, McCrory, M. R. Jackson, Otice Brown, B. F. Owen, C. C. Fior, C. J. Wilde, C. M. Cole, Jess Truett and Mr. and Mrs. Will Benson.

## MISS CARPER ENTERTAINS WITH INFORMAL DANCE

Miss June Carper entertained a group of friends with an informal dance at the home of her parents, Mr. and Mrs. Emery Carper on Roselawn Avenue Friday evening.

The radio furnished dance music for this occasion. The young folks were served lovely refreshments at 11:00 o'clock.

Miss Carper's guests for the evening were: Misses Catherine Cogdell, Inez Knowles, Nell Jackson, Laura Bullock, Ruth Hogan, Lillie Miller, Virginia Woods and Kitty Flint, and Harold Naylor, Leonard Vandever, Oscar Sleasue, Jo Bill Ballard, Billie Bullock, Herman Jones, Charles Brown, Paul Crockett and Clyde Sleasue.

## DORCAS CLASS PICNIC

Members of the Dorcas class of the Baptist Sunday school and their husbands drove down to the banks of the Penasco last Thursday evening for an old fashioned picnic.

Steak fried in the open, roasted weiners and baskets of eats were enjoyed by the picnickers. Those who enjoyed this outing were: Messrs. and Mmes. Joe Jesse, Boone Barnett and children, W. G. Cook, W. C. Martin and children, Morrison Livingston and children, Mrs. V. D. Bolton, Mrs. F. C. Rowland, Mrs. Merrill Roady, Mrs. John Simons and Mrs. Wm. Linell.

## MOTHERS-DAUGHTERS BANQUET TUES. EVE.

The mothers and daughters of the Presbyterian church were signally honored at a banquet given at the church building Tuesday evening, which was attended by more than 100 people. A supper was prepared and served by the men of the church at 6:45 p. m.

After the supper was served the mothers and daughters, seated together were given special recognition in a program. The program opened with congregational singing. This was followed by a toast to the daughters given by Mrs. R. L. Paris. Miss Virginia Gates responded with a toast to the mothers. Misses Shirley Bartlett, Mary Ann Miller and Joan Wheatley rendered an instrumental trio, accompanied by Ray Bartlett. Little Miss Jane Shugart gave two readings. Mrs. V. L. Gates rendered a vocal solo, "I'm Goin' Home," and Mrs. Frank Smith the popular number, "Mother McCree." The program closed with a violin solo by Mrs. Willis Morgan.

The oldest mother in attendance was Mrs. Ella Hewitt, age 76. Her daughter and granddaughter were also present. The youngest mother present, Mrs. Bert Sinclair, was also mother of the largest family present, a family of five.

## GIRL SCOUTS

Miss Evelyn Cobble is the new scout leader for troops Nos. 2 and 3 for the summer. Miss Edna Bullock has been selected as leader for troop No. 4.

Last Thursday troop No. 3 with several members of the council did a considerable amount of work at Puye. Water has been brought onto the grounds from the city main and a lawn is being planted, as well as hedges and shrubs.

## HOME MAKERS CIRCLE

Circle No. 1 of the Baptist Missionary Society will be known here after as the Home Makers Circle. Tuesday afternoon the above circle met at the home of Mrs. Bert Bishop, the regular routine of business was attended to with Mrs. J. M. Story presiding.

Members of the circle took an examination on a course of study which they had completed, at this time, namely "The Stewardship of Women." Those who took the examination were Mmes. J. H. Myers, Collins, Carroll Brown, B. D. Wilson, J. M. Story, C. M. Cole and Bert Bishop.

Mrs. Bishop served lovely light refreshments to those present.

## JUDSON CIRCLE GIVES PLAY IN ROSWELL

The Judson Circle of the Baptist W. M. U. at the invitation of the First Baptist church in Roswell presented a play "The Heroine of Aha," Wednesday evening. The regular Wednesday evening prayer service was dispensed with in order that they might receive a lesson brought to them in this form.

This is the third time the play has been given, and the following cast deserve a great deal of credit for their splendid interpretation of this little playlet. Mr. and Mrs. Merrill Roady, Mr. and Mrs. R. E. Bean, The Rev. and Mrs. F. C. Rowland, Mrs. John Simon, Mrs. Morrison Livingston, and Russell Floore.

## LAWN PICNIC

Mr. and Mrs. Alf Coll entertained with a lawn picnic at their home just east of the city Friday evening.

Tennis was played by those who cared to play and a picnic supper

## Pope Gives Benediction to Pilgrims

During this special holy year not a day passes without the gathering in Vatican City of large groups of pilgrims from various parts of the world. Our photograph shows Pope Pius XI giving his benediction from the balcony where he is seated on the papal throne beneath the canopy that is carried above him on all state occasions.

## WILLIAMS SISTERS HONOR GUESTS

Misses Margaret and Alice Ruth Williams of Hope were the honor guests at an informal bridge party given by Miss Mabel Vowell at the home of Mrs. Francis Clark in Carlsbad Monday evening. Three tables of contract bridge were in play with high score prize awarded to Miss Edna Hays.

## THURSDAY BRIDGE CLUB

The members of the Thursday Bridge club enjoyed an afternoon of contract with Mrs. Paul Clewell last Thursday. Mrs. Lapsley was the winner of high prize, and second high was won by Mrs. Howard Gissler. Delicious refreshments were served by Mrs. Clewell at the conclusion of the games.

"Where quality and prices meet."

## Peary's Daughter Gets Precious Relic

A tattered strip of a silken flag, a bit of the Stars and Stripes that Admiral Robert E. Peary cached in a cairn in the Far North years ago, was returned to his daughter, Mrs. Marie Ah-ni-gh-to Peary Stafford, at a luncheon at the American Geographical society in New York. The photograph shows Philip W. Henry, vice president and chairman of the council, A. G. S., presenting Mrs. Stafford with the relic, as Dr. Isalah Bow man, director of the American Geographical society, looks on.

## LOCALS

L. N. Barley and son, Charles of Hope were trading in town Saturday.

A. C. Brown of Hobbs was attending to business matters here Monday.

Miss Virginia Puckett of Carlsbad made a brief visit with friends here Monday.

Mrs. Hollis Watson and children spent the day with Mrs. W. L. High of Carlsbad Monday.

Mrs. A. L. Kite spent Sunday in Roswell visiting her parents, Mr. and Mrs. C. E. Woolridge.

W. A. Wunsch, county agent of Carlsbad was a business visitor here for a few hours Saturday.

W. A. Watson of Pecos, Texas former resident of Artesia visited relatives here over the week-end.

The Rev. W. B. McCrory will deliver the graduating address at the Hobbs high school commencement program tonight.

Jack Clady returned yesterday from a visit to Robinson, Illinois and other eastern points. Van Welch also returned with him.

Herman Terry was accompanied by Miss Margaret Frisch Sunday when he drove over to Wink, Texas. They returned the same day.

C. E. Smyer of Clovis, Santa Fe division superintendent passed thru Artesia Friday en route home after an inspection trip down the valley.

E. A. Culberson and Mr. Pauley, oil operators of Los Angeles, California, spent a short time here yesterday looking over the oil fields of this section.

Mrs. Orris Cleve and small daughter of Elk, passed through here last Wednesday en route to Louisiana where she will visit her parents for the next two weeks.

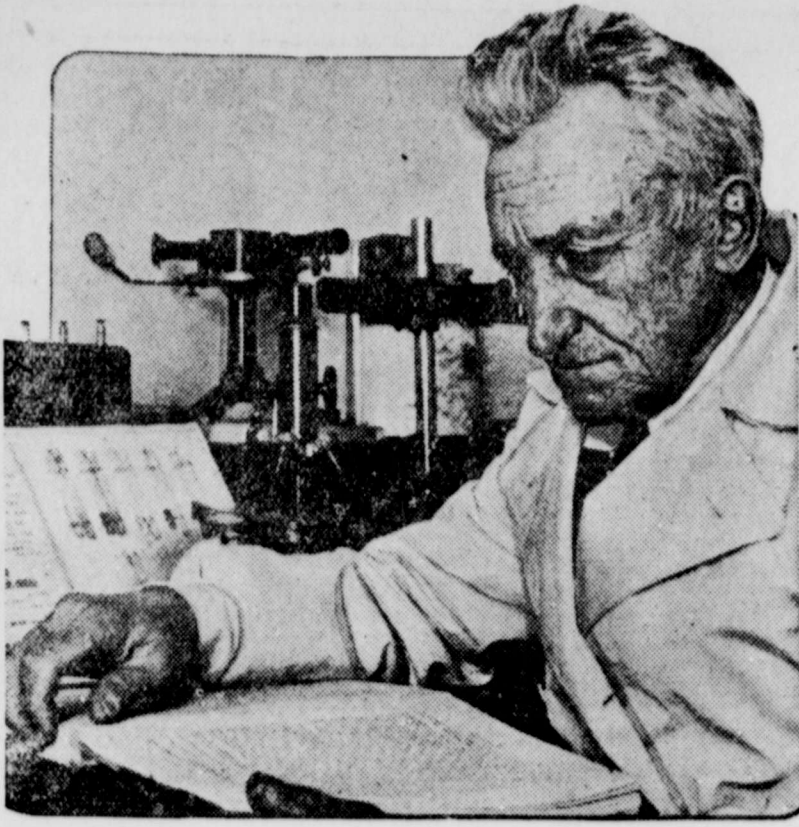

Mr. and Mrs. F. W. Sewell formerly of Hobbs are spending a few days here visiting friends before going to Casper, Wyoming where they will make their home.

## FINAL MEETING OF P. E. O.

Chapter J of the P. E. O. held the closing meeting of the season with Mrs. W. C. Martin Friday afternoon. Members present heard the Artesia delegates, Mmes. Fred Cole, Ralph Shugart and Aletha Phillips make a report of the state convention held at Albuquerque May 5th and 6th. Mrs. M. A. Corbin presented an interesting program of American music assisted by Mmes. V. L. Gates and Fred Cole, with Miss Margaret Phillips as accompanist. The refreshment committee served light refreshments at the close of the afternoon.

## Russian Devises Real Cancer Test

What is regarded as one of the most remarkable of recent developments in man's war upon cancer has been made by this Soviet scientist. Prof. M. F. Stovich, a graduate of the Military Academy of Medicine and bearer of the title of "Udarnik," one of the highest honors awarded by the Soviet union. Professor Stovich's test is based upon the inhaling of chlorine by the patient. He says that the blood of a healthy person has invariably demolized after chlorine inhalation, while that of a person afflicted with cancer has not demolized in any of the tests he has conducted

## FARM NEWS

Insects such as aphids and hoppers and even beetles are making their appearance. These can be very well controlled by spraying with nico dust or aphicide. Nico dust can be made by using lime and black leaf forty mixed well in an air tight can. This dust should be shaken or sprayed on the plants when the wind is not blowing, preferably in the late evening or early morning. As the gas in the powder kills the insects. The powder should be warmed before using.

Much trouble will be caused in poultry flocks unless insect control methods are properly used. In checking the various flocks two new insects have been located in Eddy county in the past month. The head louse an insect that lives under the feathers on the head and neck of a chicken was found in a flock where proper sanitation has been practiced, and the body lice controlled with the use of dust and powder. In one flock the feather mite was found to be causing trouble, these feather mites are different from any other chicken mite as they live on the chicken at all times. The best control method for all lice and the feather mite is by dipping the chickens in a solution using one ounce, or two heaping table-spoons of sodium fluoride to a gallon of water. Luke warm water should be used and the chickens dipped in the warm part of the day. Care should be used in dipping the chickens heads, but the heads should be dipped in order to control the two types mentioned above. Dipping is the least expensive and disturbed the hens less than dusting. Sodium fluoride can be secured at any of the drug stores. Even small chickens can be dipped without injury.

All farmers who collateralized the cotton with the crop production loan should take notice that if they desire to sell their cotton they should wire the Dallas office, Owen W. Sherrill, instructing them to do so. Mr. Sherrill stated that while the contract government reserved the right to sell this cotton, they do not wish to exercise this right without being first so instructed by the farmer.

Plans for inspection and checking of farms were completed at the meeting held at Albuquerque. A. T. Woods, R. L. Kyle and W. A. Wunsch attended this meeting. Plans of work were discussed by Owen W. Sherrill; W. L. Elser, director of extension; and Dr. H. L. Kent, president of State College. Inspections have been started in Eddy county by R. L. Kyle, field inspector and W. A. Wunsch county extension agent. The idea of the inspection is particularly to assist the farmers with any problems that they may wish to have assistance with. All the farmers should bear in mind that they promised to plant a garden in order to produce food for their families. All inspectors were instructed to see that each farmer had planted his garden or report reason why no garden had been planted.

All the crop production loans checks have been received in Eddy county and many of the farmers have received their second allotment. The general farm program planned by the county agent are being followed by these farmers.

Due to the cold windy weather in Eddy county this spring many farmers have had poor success in getting their garden plants to

stand. There is still plenty of time to plant many valuable vegetables. The following vegetables can be planted in May and good crops produced. If any person desires information in regard to specific varieties this information will be gladly furnished by W. A. Wunsch, county extension agent. Beans, snapor pole and lima; beets, cantaloupes and various melons, carrots, corn, cucumber, egg plant, leaf lettuce, pepper, pumpkins, radish, squash, sweet potatoes and tomatoes. Copies of a new garden bulletin can also be secured. This bulletin is of extraordinary value as it lists information in regard to vegetables required for a certain numbered family; varieties and planting date of various garden truck crops; insect and garden pests and the method of control and other valuable information.

All housewives should be planning their vegetable canning campaign, and any information in regard to various canning equipment and other canning information will be gladly furnished by the county extension agent. Every housewife should be able to figure the amount of food necessary for her family and plan to can such foods, to supply this need when fresh vegetables can not be produced.

The latest information on foods require that two vegetables other than dried beans and potatoes be served daily with tomatoes and greens at least twice a week. Plans for the proper storage of canned goods should be made now. Due to extreme cold weather the past winter many people lost much of their canned goods when it was not properly stored. Storage cellars or houses can be constructed at a very nominal cost. Houses can be built of adobe or tamped earth and if the builder so desires even the roof can be constructed of salt cedar cuttings and covered with earth, and there would be no material to buy. C. P. Pardue of Loving is at the present time building a tamped earth storage house according to plans furnished by the extension agent. Plans on various types of buildings will be gladly furnished.

## SUSANNAH WESLEY CLASS PARTY YESTERDAY P. M.

Members of the Susannah Wesley class of the Methodist Sunday school were entertained by Mrs. O. S. Matteson Wednesday afternoon.

Inasmuch as Mrs. Matteson's birthday occurred this week the afternoon was spent by each guest piecing a block in a birthday quilt for her. While work was being done on the quilt blocks Mrs. Stroup conducted a spelling game from an old blue back speller, which furnished a great deal of amusement for those present. Each one of the members made a contribution to the conference fund at this time.

Mrs. Matteson served ice cream cake and lemonade to the following guests: Mmes. George Frisch, A. C. Douglas, Lee Vandagriff, I. C. Keller, T. J. Stagner, M. S. Rigdon, R. O. Cowan, F. W. Hinrichsen, W. S. Williams, E. B. Bullock, J. H. Hollomon, Nancy Eipper, W. S. French and H. A. Stroup. Wm. Daugherty father of Mrs. Matteson who will be ninety-two his next birthday enjoyed refreshments with the ladies.

## ANOTHER BIG FISH

Another big cat fish caught near the mouth of the Penasco was brought into Artesia this morning and weighed 27 1/2 lbs. The cat weighed almost as much as the young fishermen, Willis Briscoe and Roderick Watson.

## THE CHURCHES

### CHRISTIAN SCIENCE SOCIETY

613 W. Main Street  
10:00 a. m. Sunday school.  
11:00 a. m. Sunday service.  
"Soul and Body" is the subject for Sunday, May 21st. One of the scriptural selections in the lesson-sermon is from Psa. 138:3: "In the day when I cried thou answeredst me, and strengthenedest me with the strength in my soul."

A correlative passage from the Christian Science textbook states: "Man is harmonious when governed by soul. Hence the importance of understanding the truth of being, which reveals the laws of spiritual existence."

### FIRST BAPTIST CHURCH

REV. F. C. ROWLAND, Pastor  
Sunday school 9:45 a. m. Fred Cole, superintendent.  
Morning worship 11:00 a. m. Sermon by the pastor.  
B. T. S. 6:30 p. m. H. C. Morehead, director.

Evening worship 7:45 p. m. Sermon by the pastor.  
The Daily Vacation Bible school will begin next Monday morning, May 22nd at 9:00 o'clock. This school was postponed on account of the pastor being out of town. There will be leaders and teachers provided for each age group from 5 years of age to 16. There will be a varied program consisting of singing, Bible drills, yells, stories, handiwork, kitemaking, dolls, etc. The program is being planned to be both interesting and beneficial to the boys and girls of our town who wish to enroll. There will be an enrollment fee of ten cents to help pay for the material used during the handiwork period. The school will run about two weeks.

### CHURCH OF THE NAZARENE

REV. ERWIN G. BENSON, Minister

"A spiritual church in a friendly community."  
Sunday School at 9:45. C. J. Wilde, superintendent. Classes for all. Six point system used. Come to Sunday school next Sunday.

Morning worship at 11:00 a. m. The Rev. Geo. M. Hammond, evangelist will bring the message. Communion will be observed and the doors of the church will be opened.

Combined people's meeting at 6:30 under the leadership of Mrs. Charles L. Killen. "Tobacco" will be the subject. \$30 per year is spent for tobacco in this country for every man, woman and child.

Webb; The Eddy County Abstract Company, a corporation, and all unknown claimants of interest in the premises described in the complaint, adverse to the plaintiff, are defendants, such cause being numbered 5399 on the Civil Docket of said Court, wherein and whereby the undersigned James S. McCall was appointed Special Master and as such instructed and given power and authority to offer at public sale and sell to the highest and best bidder for cash the herein-after described property covered by the real estate mortgage sued upon and foreclosed in said cause, to satisfy the following amounts, which were therein found to be due from the defendants Eunice M. Ballard, C. L. Ballard and Johnie Opal Ballard, and a first and prior lien on said property, said amounts being: (a) Principal on Judgment \$9,287.62 (b) Interest on Judgment to date of sale 383.50 (c) Attorney's fees 935.00 (d) Court costs 42.26 (e) Court costs to accrue herein and expense of sale

NOTICE IS FURTHER GIVEN That the undersigned as such Special Master will, in accordance with said decree of foreclosure, and in order to satisfy the above sums of money, on the 6th day of June, 1933 at the South front door of the Court House in Carlsbad, Eddy County, New Mexico, at ten o'clock A. M. on said date offer at public sale and sell to the highest bidder for cash all of the right, title and interest of the defendants in said cause in and to the following described property, included in and covered by said real estate mortgage, to-wit: Lot 9, 11, 13 and 15, in Block 8 of the Original Town of Artesia, New Mexico as same appears of record on the official plat thereof on file in the office of the County Clerk at Carlsbad, New Mexico. The terms of said sale are that the purchaser shall pay cash at the time the property is struck off to him. J. S. McCALL, Special Master.

VESLEY DISCOVERS A LAND LEASE RACKET

SANTA FE—A racket, according to Frank Vesley, state land commissioner, has grown up in the state land leasing business and he is out to stop it. "State school lands are being subleased," he said, "at a figure several times what the state gets." He cited one case where three school sections were leased for three cents an acre for grazing purposes, and then in turn subleased for 20 cents an acre. The leases provide that land shall not be subleased without the approval of the state land commissioner, Vesley said, and he is going after every case and investigating. Where he finds land subleased, he will cancel the lease under authority granted him, he said.

WANTED—Clean Cotton Rags at The Advocate.

THE FAMILY NEXT DOOR

ROOSEVELT SIGNS FARM RELIEF ACT

Congress has passed and the president has signed the farm adjustment act "to relieve the existing national economic emergency by increasing agricultural purchasing power." Widespread and vivid rural interest has been aroused over this legislation which is a pioneer in the field of economic endeavor. There are three distinct sections to the law. The first part, is the production control and benefit payment section; the second part is the agricultural credits law; and the third part is the national financial and currency measure. The first part is administered by the department of agriculture, the second part by the newly created farm credits administration, and the third part lies at the discretion of President Roosevelt and his treasury aides. Under the production control section, commonly referred to as the farm act, at least three broad means of securing proper adjustment of domestic production of basic farm commodities to meet world demand levels and to attain fair returns for agriculture are provided. The secretary may use one or all of them. They are briefly: (1) Acreage reduction of the basic agriculture commodities by rental and benefit payments to farmers; (2) payment of allotment benefits on the domestic portion of a crop in return for agreements covering specified crop reduction; or (3) the use of marketing agreements with processors and handlers of basic farm commodities so that higher prices will go to farmers under a guaranteed system of production control and special option deals are provided. The basic commodities found in the law are, wheat, cotton, field corn, rice, tobacco, hogs, and milk and its products. To meet the cash payments required to reimburse farmers for acreage reductions and crop control to needed amounts, the federal government has \$100,000,000 in hand for immediate use, but later on the sums paid out of the treasury will be restored by means of a processing tax. The tax will be levied gradually and

ANCIENT BRONZE LAMP

A bronze lamp on a standard, one of the objects recently discovered in a Byzantine-Nubian cemetery at Ballana in Egypt, dating from early Christian days on the Upper Nile.

STUDY CLASS AT METHODIST CHURCH

The first meeting of a new study class was held at the Methodist church Tuesday afternoon. "The Church Teacher," has been selected as the subject and is being taught by Mrs. Grover Kinder. The next class meeting will be an all day affair, Wednesday, May 31st at the church. The lesson will begin at 10:00 o'clock in the morning, at noon a covered dish luncheon will be served and the lesson concluded in the afternoon. All ladies of the church are urged to attend. The lessons will be found in the May and June Adult Student.

URGES CONTROL FOR THE PUBLIC LANDS

The imperative need for systematic control and management of the unreserved public lands was again emphasized by the national land use planning committee, recently in concluding a four-day conference in Washington. The committee reaffirmed its previous position that the principles embodied in H. R. 11,816 of the 72nd congress, as that measure was originally reported out on February 7, 1932, by the committee on public lands, provide the essentials of legislation long needed. The amendments subsequently made in the 72nd congress, and repeated in the present house bill No. 2835, would, in the judgment of the committee, make effective regulation impossible in practice, and would virtually nullify the beneficial principles outlined in other sections of the bill. The land-use committee at its meeting again urged enactment of the principles of the measure in the original and unamended form. There remains in the ownership of the federal government, approximately 176,000,000 acres of unreserved and unappropriated public land, situated almost wholly in the eleven western states. In addition, there are approximately 60,000,000 acres that have been withdrawn from entry for various purposes, such as mineral lands, stock driveways, nontillable reclamation lands and water power sites. For most of this vast area the most suitable surface use is grazing. Though lack of regulation, however, this valuable natural resource has been allowed seriously to deteriorate. Without regulation, further progressive destruction is regarded as inevitable. "Such waste," the committee declared, "should not be permitted to continue. It is the result of a shortsighted policy which in the end benefits no one and which if continued, will result in reduction of large areas to eroded, barren wastes. The livestock industry of the eleven western states is not the only interest concerned, for farmers and stockmen of the middle west and other states to the east rely upon the public range states for large annual supplies of stockers and feeders. Denudation of water sheds, furthermore, increases flood hazards, promotes the siltation of irrigation reservoirs and ditches, and jeopardizes the water supply for irrigation, urban consumption, and other uses." "These lands are the property of the federal government. It is the responsibility, as well as the right of the federal government so to protect, manage and improve these lands as to make them of the highest productive use, to stabilize the livestock industry, to protect watersheds, to check erosion and to control floods. Exercise of this obligation has been prevented through failure to provide the necessary legislation."

HOPE ITEMS

Miss Frances Johnson, Reporter. Mr. and Mrs. F. E. Fite were Roswell business visitors Monday. Bonnie Altman is in El Paso visiting his mother, Mrs. C. B. Altman. E. B. Bullock of Artesia spent Monday in Hope contracting wool from the Hope ranchers. Mrs. Bill Bunting and Mrs. Cy Bunting were visiting and shopping in Artesia Monday. Mrs. M. L. Paulson of Minneapolis, Minnesota is here visiting her sister, Mrs. M. E. Pichke. Twins, a boy and a girl, were born to Mr. and Mrs. E. E. Dunn at their home Monday evening. Hilton Cox of Roswell spent mother's day in Hope with his parents, Mr. and Mrs. E. P. Cox. Mr. and Mrs. Irvin Cox made a trip to the mountains Sunday where they were attending to business. Mr. and Mrs. Ed Bryant of Carlsbad spent Sunday in Hope visiting Mrs. Bryant's parents, Mr. and Mrs. D. Swift. Mrs. B. A. Nymeyer and Mary Catherine Coffin accompanied Ernest Bunting to Roswell Tuesday and spent the day. Claborn Buckner is in Roswell this week under the care of a doctor for injuries received last week while he was freighting. Inez Blakeney and Margaret Ellis of Artesia spent the first of the week in Hope visiting Miss Blakeney's mother, Mrs. Pete Blakeney. C. B. McCormick arrived here Tuesday from La Luz to take charge of the Penasco Valley News which he has purchased recently from Irvin P. Murphy. G. T. Watts an attorney, of Roswell spent Friday in Hope attending commissioners' court which was held before the United States Land Commissioner, Mrs. N. L. Johnson. Mr. and Mrs. John Bunting returned Saturday to their home in El Paso, after spending the week here visiting Mr. Bunting's brothers, Cy, Bill, Dave and Ernest Bunting. Robert Cole and L. P. Glasscock attended the Scottish Rite club of Chaves county at Roswell Saturday evening where the Santa Fe Scottish Rite club of Santa Fe exemplified their work. Joe Parker of Pinon moved his family down to Hope Sunday from their home there. Mr. Parker has purchased the concrete building in the west part of Orchard Park and will make this place his home. Irvin P. Murphy and mother, Mrs. Ascha B. Murphy left Tuesday for La Luz Canyon in the Sacramento mountains where they will cultivate a small fruit farm this summer, which Mrs. Murphy has just purchased. Mr. and Mrs. J. H. Bridgman motored to El Paso Thursday to attend the funeral services of Mr. Bridgman's aunt, Mrs. C. F. Bridgman of that city. C. F. Bridgman

JENNINGS FINISHES EXCAVATION WORK

J. D. Jennings, Hope high school coach, passed thru Artesia Monday en route to Santa Fe, where he went to make a report to the laboratory of anthropology. Mr. Jennings has recently completed some preliminary excavation work on what is believed to be the ruins of an ancient race near the Austin Reeves ranch in the Lower Penasco community. Mr. Jennings refused to comment on his findings until they are confirmed by the laboratory of anthropology. He expects to enter the University of Chicago summer session soon and will not do any more excavation work until additional funds are available.

SPANISH VETS MEET

Members of the Clay Green Camp No. 7, United Spanish American war veterans held an interesting meeting at Roswell Sunday afternoon. Several members of the ladies auxiliary also were present. Twenty-six veterans heard the report of General H. A. Ingalls, of Roswell, on the annual state encampment held at Albuquerque on April 22nd. Mr. and Mrs. George Frisch, Messrs. L. E. Neely, Joe Shuff and Lou Lempeke attended the meeting from Artesia.

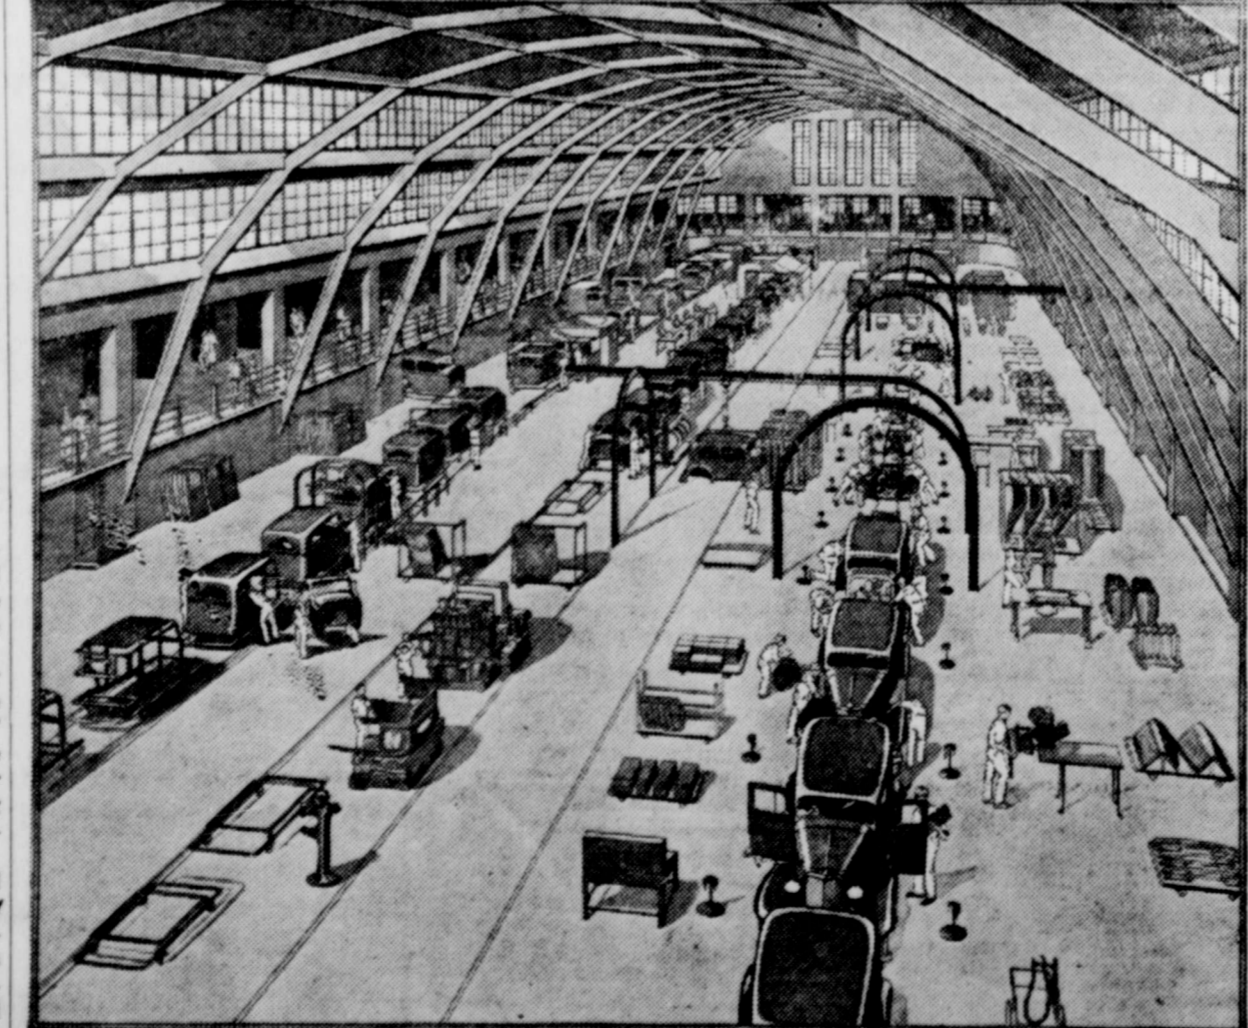

Typewriters for rent at Advocate

and Mrs. Jenny Grigsby of Los Angeles returned to Hope with Mr. and Mrs. Bridgman and spent the week-end here. From here they went to the Carlsbad Caverns where they spent Monday and on to El Paso. Mrs. J. H. Bridgman accompanied them home and will spend the week there visiting.

HOW SHE LOST 29 POUNDS IN 3 MONTHS

"I am using your Kruschen Salts to reduce and I've used a bottle and a half and dieted some and lost 29 pounds in 3 months. I feel so much better and intend to keep on taking the Salts as I was almost 50 pounds overweight." Mrs. Thelma Gravelly, Roseville, Calif. (Jan. 11, 1933). To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning. A jar that lasts 4 weeks costs but a trifle at any drugstore in the world but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and again feel the joy of living — money back if dissatisfied after the first jar. ADV.

Cars Being Built at World's Fair

Millions of people will have their first opportunity to see an automobile being built, when they visit this mammoth room where the Chevrolet Motor Company will assemble "Master Six" coaches and coupes in the special General Motors Building at "A Century of Progress" exposition. On the left, Fisher bodies are being fabricated on a "J" shaped line and on the right, Chevrolets are being assembled from the bare frame to the completed car, ready to be driven out of the building under their own power. Note, in the center of the photograph, the body being swung from the end of the Fisher line over to its place on a Chevrolet chassis. Visitors may purchase cars built here and drive them home.

PHYSICIANS URGING WISEST PRECAUTION

Death of a child in Hobbs on Thursday morning, victim of measles, under circumstances that were tragic, sounds a warning to parents that should not go unheeded. This child attended school Wednesday afternoon, succumbing within eighteen hours thereafter. Local physicians urge that a school child complaining of indisposition should be kept at home, unless a rigid investigation shows that it is not threatened with the contagion. Hemorrhagic or what is commonly called "black measles," seems to be present, in a virulent form. It is proven that foresight, care and caution are very effective with measles, and that, on the contrary, oversight and neglect frequently result in fatalities that can be classed as tragic because preventable by reasonable precaution.—Hobbs News.

Convalescent Cookery for Those Who Attend "Lily White's Party"

Are any of the members of your family attending "Lily White's Party?" In case that is a new one on you, it should be explained that in some sections of the country a person who is sick is said to be "attending Lily White's Party." The name is supposed to have been invented by a children's nurse who wanted to make bed more inviting for her young charges. Obviously, the correct garments for such a party are long, white robes or pajamas, and the party entertainment consists largely of "pounding the ear" in sleep.

Certain it is that there comes a time in every woman's life when she must be head nurse as well as chief homemaker and master of art of preparing the invalid's tray. Pampering the palates of the husky and healthy is a career in itself but new knowledge is needed when a convalescent must be brought back to health as quickly as possible.

When a soft diet is ordered for the convalescent, even more care is required. That tray must be appealing, even exciting, to tempt the flagging appetite, and it must be varied to lighten the monotony of staying in bed. The foods served must be in concentrated form, easily digested, and not very bulky. Eggs and milk are, of course, necessities of the soft convalescent diet. Meat is sometimes included, usually "scraped" or made into broth. Fruits are mainly introduced in the form of juices or beverages. Carbohydrates are very important in the convalescent diet, too, for they help to restore the burned-out tissues and bring back normal strength. But those chosen must be the quick-acting carbohydrates, which are directly assimilated by the body without taxing digestion or circulation. These "quick energy" carbohydrates contain dextrose, the normal blood sugar of the human system. Foods rich in this element quickly restore energy and assist recuperation, and for this reason karo, which is largely dextrose, is valuable in the "get better diet."

Here are some simple foods for "Lily White's Party-Goers" which will make the luncheon tray an event instead of a duty.

**Snow Pudding With Grapejuice**  
1 cup grapejuice  
4 tbsps. Karo (white).  
1 egg white.  
½ cup whipped cream (optional).  
2 tbsps. gelatin.

Pour ¼ cup cold grapejuice over the granulated gelatin and let stand. Heat remaining juice with the syrup to boiling point. Dissolve softened gelatin in hot liquid. Chill, and when thick but not set, beat with egg beater until thick and fluffy. Beat in egg white and continue beating until mixture is thick. Fold in cream if used. Mold and chill.

**Beef in Cream on Rusks**  
Wipe a small piece of top round steak; cut in strips ¼ inch wide. Lay strips on a board and, using a teaspoon, scrape, with the grain of the meat, first on one side then on the other. Add 3 table-

spoons of soft scraped meat to ¼ cup cream. Stir and cook until meat is discolored, salt and serve on Holland rusks, garnished with parsley.

**Lily White's Egg Nog**  
1 egg, separated  
Few grains salt.  
¾ cup cold milk  
1 tbsps. Karo.

Few grains nutmeg.  
Beat egg white stiff but not dry add egg yolk and beat until fluffy. Add syrup, salt and milk. Pour into chilled glass or over cracked ice. Sprinkle nutmeg on top. If you like, add pineapple juice to the beaten egg before adding milk; or flavor with other fruit juice or chocolate. Serve with a graham cracker or vanilla wafer.

**Lemon Snap Dessert**  
Prepare a package or orange gelatin according to directions on package. When it begins to set beat with rotary beater until foamy, then fold in coarsely crumbled lemon snaps (1 box). Pour into mold and let stand in refrigerator until set. Unmold and serve with cream.

**Carmel Cream-Mellow**  
Prepare a package of carmel kremel according to package directions. Put three pasteurized dates in bottom of each serving dish before pouring in the carmel pudding. Garnish with a walnut meat and serve with cream.

HOCKENHULL ACTS HOST

A. W. Hockenhull of Clovis, Lt. Governor acted host to several hundred school children in the annual governor's day ceremonies at the Carlsbad Caverns Saturday. Lt. Gov. Hockenhull presided over the day's ceremonies in the absence of Gov. Seligman, who could not attend.

ROSWELL MATTRESS COMPANY INSTALLS A LARGE STERILIZER

In keeping with the policy of the company to give the people of New Mexico better mattresses and bedding work, they have installed a large electric sterilizer, for the protection of health. Every mattress we renovate and make over is sterilized, thus giving you a complete renovated job at the only factory in Eastern New Mexico that can renovate your mattress and make them germ proof.

If you have had sickness in your home you can get your mattresses, pillows, quilts and blankets, curtains or any thing in this line sterilized, in this electric sterilizer without having them made over or laundered.

It is a good policy to have your bedding and clothes sterilized, before putting them away for the summer. Don't give your mattress to every solicitor that comes along when you can get this extra work at no added cost, be sure you are sending them to the Roswell Mattress Company at 402 South Main Street. Look for the name Roswell Mattress Company on the side of the truck and give them to none other.

We sell all kinds and sizes of mattresses. Renovate and make over cotton, felt, wool, hair, and inner spring mattresses. Clean, sterilize, moth and germ proof all kinds of rugs and give you one day service and guarantee complete satisfaction. Right now this part of the state is overrun with so-called mattress factories, who are here today and gone tomorrow and have no way of renovating or killing germs in mattresses. You are endangering the health of your family by giving your mattresses to one who does not have a sanitary factory. They do nothing more than blow your cotton, dirt and all back into a new tick, finish it up and bring it back to you and you are no better off than when you gave it to them. It will pay you and also give you a surprise to visit one of these so-called factories, and see for yourself how they handle your mattresses; you are sure to find them in some old barn or around some camp ground, or on the edge of the city, where their guarantee is worth nothing, and can leave in a moment's notice and you are the loser; who buys and trades for old second hand bedding, makes them over and sells them to you for new ones. Investigate before you give your mattresses to anyone.

The Roswell Mattress Company invites you at all times to visit the factory. We are sure you will be pleased.—Adv.

Mrs. John Lanning drove to El Paso with Mr. Lanning Friday and visited with her father and mother, Mr. and Mrs. C. Bert Smith. She returned Sunday with Bill Mount who drove over to pay Mr. Smith a visit on Saturday.

EDDY HEALTH NEWS

GET THE FLY BEFORE HE GETS YOU

You don't need to have flies in the house. You may think you do, but you don't. Screen porches and windows; trap the fly before he gets in; keep the back yard clean; destroy all breeding places.

Flies carry filth. Ninety percent of them breed in horse manure. They feed at the garbage pail, the spittoon, the privy vault, and then come to our food, to our babies, to us. They are the connecting link between filth and folks.

Fly season is the season of deaths from diarrheal diseases and typhoid fever. Other dangerous diseases are carried by flies. Fly specks contain disease germs. One fly speck from a fly fed on consumptive's sputum had in it 5,000 germs of tuberculosis.

Kill Wintered-Over Flies

One fly in April may mean six trillion in September. A female fly lays about 120 eggs at a time. She lays two, three or four batches of eggs. In one day the eggs hatch into little white maggots and after five days, each maggot goes into the pupa stage. Five days later the fly emerges full grown from the pupa. Fourteen days later the female flies lay eggs and start other big families of flies on the way. Swarms of flies during July and August mean that we have not been busy swatting flies during the early spring months.

Let us make up our minds that we will not have flies in the house. Every member of the family should know that flies carry filth and disease germs, that they are dangerous, that they are more disagreeable than bedbugs. Don't let mother do all the fly swatting. Every member of the family should help. You are ashamed to tolerate a bedbug or body louse. One fly is more loathsome and dangerous than a hundred bedbugs or body lice.

Flies feed on blood, pus, sputum, human excreta and other disease laden products and deposit these on your food in the form of fly-specks; then—you eat them.

Keep Everlastingly At It

That is the only way to succeed in anything, and it is especially true in combating a pest such as the fly which multiplies with such alarming rapidity.

Keep The Back Yard Clean

This prevents the coming of flies in great numbers. Filth always attracts flies and carelessness about leaving garbage about, or throwing refuse or slop in the back yard, soon advertises itself to the flies.

If you want to know about a family look at their back yard. It is an insight to their character, their health and their citizenship.

The fly that creeps over the face of a tubercular patient may deposit the deadly germ on the lips of a healthy person in your house, making another victim for the great white plague.

Some people think they can clean up and keep things sanitary

by dumping their trash in the alley. The height of the back fence does not bother the fly.

Watch the fly as it is born on the manure heap, see it walk over the slop and garbage, wallow in the disease laden privy vault, bathe in the consumptive's sputum and then wing its blithesome way to the house. Follow it through unscreened window or door and notice it cleansing its filthy body in the milk picher, dropping its specks on the baby's lips or gathering with its companions on the nipple of the child's nursing bottle.

DR. O. E. PUCKETT, Health Officer.

"What's this gadget?"

he asked - and we sold him 4 new tires

FLAT TIRES

Expertly Fixed  
Tube Vulcanized  
—not cold-patched.  
Rim cleaned,  
straightened, tire  
carefully re-  
mounted on  
any wheel. 50c

The "gadget" is a little machine that shows the difference between ordinary cord, used in other tires, and Super-twist cord, used in Goodyears. . . That difference is in the stretch and come-back—you can see how Super-twist cord stretches and comes back, how the cord in other tires loses its life and elasticity. . . It takes about 3 minutes to tell the story—but as this customer said—"If every car owner could see that demonstration, there wouldn't be anything used but Goodyear Tires."

### R F C BACKS UP--NEW PLAN IS SUBMITTED

Definite action on a new re-opening proposal of the First National Bank here by the R. F. C. is expected to get underway as soon as the bank representatives, Hollis Watson, conservator and W. A. Losey, Hagerman banker arrive home from Washington tomorrow. Hopes of working out the April 11th reopening proposal have been abandoned after word was received here that the R. F. C. had backed up on the promise to supply \$50,000 in preferred stock, after first approving the plan.

Mr. Watson, who has been in communication with the bank during his stay in Washington Saturday wired that April 11th proposal had been okayed by the Reconstruction Corporation. In a telegram Tuesday morning he stated that this organization had backed up and had submitted a new proposal, whereby the Reconstruction Corporation agreed to advance money to individuals to buy the preferred stock, the money to be advanced on the financial statement of the individual for the amount of stock subscribed. Efforts to get the last proposition in writing have not been met, so far as known.

Messrs. Watson and Losey will undoubtedly be in position to supply detailed information on their arrival here and it is then that the new plan will be placed before the community to accept or reject.

Superintendent and Mrs. W. E. Kerr and daughter, Marjorie left this morning for Kansas City, Missouri where they will visit for a few weeks with their parents and other relatives. They expect to leave there about the tenth of June for Iowa City, Iowa, where Mr. Kerr will resume his studies in the graduate school of education and Marjorie will enroll in the Iowa State High School Orchestra and Chorus where she will have daily rehearsals and weekly private lessons on the cello. The Kerr family expect to return to Artesia about the first of August.

### Roosevelt In Plea—

(Continued from first page) to their suspension by the president in case of an international agreement "for the further limitation of armament."

**Hitler Wants Peace**  
BERLIN—Chancellor Hitler yesterday in his eagerly awaited pronouncement before the Reichstag, proclaimed Germany's demand for equality in armaments, accepted President Roosevelt's proposals for world peace, and announced Germany's readiness to co-operate with other nations in guaranteeing international security and tranquility.

"There is but one great task before the world, namely, to secure the peace of the world," the Nazi chieftain asserted in an address which while stoutly reaffirming Germany's "right to live" on equal terms with other peoples, was marked by obvious moderation.

The German chancellor roundly scored the Versailles treaty, but pledged his government to abide by it until some better instrument could be found to replace it.

### State Has Leased—

(Continued from first page)

from \$1.06 to \$10.53 has been received in the sealed bids on the same acreage.

Carter Oil Co., and Humble Oil and Refining Co., both subsidiaries of Standard of New Jersey, are keen rivals in the bidding for New Mexico state lands.

Among the companies offering bids on leases so far this year are Amerada, Carter, Honolulu Oil Co., Phillips Petroleum Co., Empire, Ohio Oil Co., Humble, Skeby Oil Co., Denovian Oil Co., Shell Gypsy Oil Co., Monongahela Oil Co., National Refining Co., and T. P. Coal and Oil Co.

Among the independents submitting bids on the lands offered in Lea and Roosevelt counties are: W. E. Lee, Tucson, Arizona; Ellis Bauer, Charles Kaune, F. S. Donnell and Theodore N. Espe all of Santa Fe; J. C. Maxwell and Morris of Ft. Worth.

The 25,341.17 acres leased by New Mexico through sealed bidding has been in the restricted district in the southeastern part of the state.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

### No Funds Advanced—

(Continued from first page)

under the Bateman act to appropriate funds from money that has already been spent.

So far as known the action of the Bernalillo county treasurer is the only effort being made in the state to enforce the collections of delinquent taxes under the provisions of SB 144.

WANTED—Clean Cotton Rags at The Advocate.

### WOOL CONTRACTED AT 17¢ RECENTLY BY BOSTON (MASS.) FIRM

G. B. Armstrong, Chaves county sheepman has contracted his 1933 wool clip amounting to 130,000 pounds at seventeen cents per pound, it was announced at Roswell Saturday. The purchasers are Sheldon and Company of Boston. The wool contracted is on the sheeps back, but will likely be sheared in June.

Pecos valley sheepmen are now predicting twenty-cent wool within a few weeks and possibly within a few days. A forty thousand pound clip was sold at Abilene, Texas Friday for twenty-five cents per pound.

### LUM RICHARDS AND SON IN BAD CAR WRECK

Lum Richards and son, Hubert were through here last Thursday and spent the night with his brother, Albert Richards, they were en route to Odessa, Texas.

On the return trip quite early Saturday morning their truck which was loaded with two hundred cases of soda pop bottles was struck by a Greyhound bus about twenty-five miles east of El Paso. Three ladies who were passengers of the bus and Mr. Richards and son were rushed into the Masonic hospital. According to word received here yesterday Mr. Richards is still in an unconscious condition, and Hubert had received internal injuries which might prove serious.

### LOCALS

Lester Hinrichsen is here from his home in Hagerman spending the week with his mother, Mrs. Hinrichsen.

Mrs. L. O. French and family will leave the last of the week for Portales where they will spend most of the summer.

Ned Martin was taken to the St. Francis hospital in Carlsbad last Friday for medical attention. He was sufficiently recovered to be removed to his home on Monday.

Tuesday evening of this week Mrs. J. H. Myers entertained at dinner, her guests were: Mr. and Mrs. G. P. Putnam, Dr. and Mrs. Yearby of El Paso and Mr. and Mrs. Bert Bishop.

Messrs. F. L. Austin, vice-president of the Kemp Lumber Co., and C. J. Stillwell, secretary-treasurer of the same company, both of Roswell were looking after company business here yesterday.

Sam Lewis, Pinon rancher returned Friday from Wichita, Kansas, where he went to make preparations to market some lambs fed out near Wichita the past winter.

J. C. Floore, Jr., drove to Gallup last Saturday on business, he also paid his sister, Mrs. Floy Hartsfield a visit while there. On his return trip he was accompanied by his nephew, little John Hartsfield, who will spend the summer here. They arrived Wednesday morning.

Monday Mrs. G. U. McCrary and daughter, Mrs. Tom Shipp and house guest, Mrs. Bob Allison drove to Carlsbad with Mr. McCrary who went on legal business. While there the ladies went to see "Forty-Second Street," which was showing at the Cavern theatre. On Tuesday the above ladies were in Roswell and saw "Today We Live." Miss Elsie Jernigan was also a member of the party in Roswell.

The Rev. W. B. McCrory expects to leave Tuesday for Sterling, Kansas for a visit with his father. Mrs. Perley George and daughter, Miss Mattie will accompany him as far as Colwell, Kansas for a visit with the family of The Rev. J. P. Sinclair, former Artesia residents. Mr. and Mrs. A. M. Tarbet will also accompany The Rev. McCrory as far as Amarillo, Texas for a visit with relatives living near Dumas.

#### TYPEWRITERS

New Woodstocks, Coronas, and Remingtons. Rebuilt in all other makes at The Advocate.

Freeman Douglas who is a student of the McMurry College at Abilene, Texas visited here with his parents, The Rev. and Mrs. A. C. Douglas Saturday and Sunday.

Miss Dorothy Gallagher and her friend, Miss Delcie Zancher of Topeka, Kansas were here Thursday and Friday of last week as guests of Mr. and Mrs. L. L. Harvey.

Mr. and Mrs. S. B. Barnett and family accompanied by Mr. and Mrs. James Lee of Roswell made the valley mountain loop Sunday, driving to Cloudercroft, Alamogordo, the White Sands and home by way of Ruidoso and Roswell.

Mrs. G. P. Putnam of El Paso Texas visited her husband who is located on the Lawrence ranch here, Monday and Tuesday of this week. She was accompanied by Dr. and Mrs. Yearby also of El Paso. Dr. Yearby is pastor of the First Baptist Church there.

Mrs. Tom Shipp and her friends, Mrs. Bob Allison of Ft. Worth, Texas who are here visiting her parents, Mr. and Mrs. G. U. McCrary spent from Thursday until Sunday with Mr. and Mrs. Keith McCrary who are located west of Roswell. While there they drove up into the White mountains.

John Dunn and Harve Muncy returned Sunday from a two weeks visit with relatives at various points in California. Mrs. Dunn and children remained for a longer visit. Mrs. Muncy who is a patient at the Queen of Angels hospital in Los Angeles is recovering quite satisfactorily, and upon leaving the hospital will visit with her children for several weeks before her return.

WANTED—Clean Cotton Rags at The Advocate.

### PRESERVE EGGS NOW FOR WINTER USE

Efforts are being made by poultry raisers to preserve eggs which are cheap in spring and summer, until the next winter when egg prices usually range higher says W. M. Ginn of New Mexico State College. Here are two methods of preserving eggs on the farm, which have proven satisfactory to many New Mexico farmers:

The water glass method requires the use of:

- 5 to 7 gallon crock or jar.
- 9 quarts of water,
- 1 quart of sodium silicate (water glass).

Scald and dry the crock. Boil the water and let it cool. Mix the water glass with the water by stirring well. Place the solution and eggs in the jar; being careful that the top eggs are well covered with the solution. Cover the top of the jar and store in a cool place.

Another method that has been reported as giving satisfactory results requires the following materials:

- 1 pound of lard.
- 1 cake of paraffin.
- 4 ounces of dry boric acid.

Mix well. Take a small lump about the size of a pea in the palm of the hand and work well over the egg. Wrap each egg in a piece of paper and store in a cool place.

These two methods will preserve eggs that are suitable for cooking and some report them as being good poached, fried, scrambled, boiled, etc.

Fertile, fresh, clean eggs are required to begin with. Do not store fertile or cracked or old eggs and expect them to keep well.

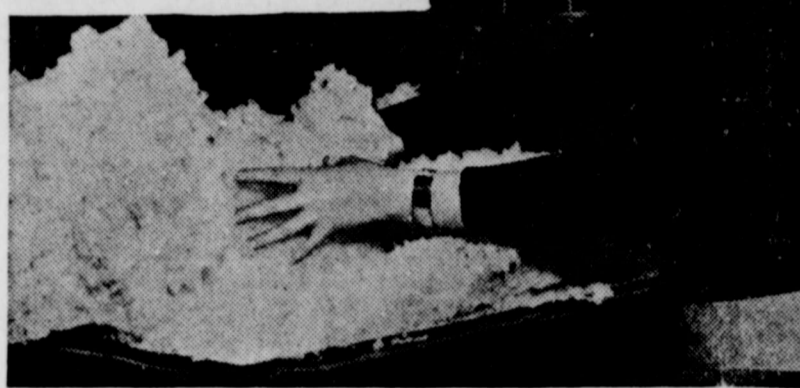

Further information on preserving eggs may be found in U. S. D. A. Circular G-25: "The Canning and Preservation of Eggs."

Monday evening Mr. and Mrs. G. P. Putnam had as their guests for dinner at the Lawrence ranch Dr. and Mrs. Yearby of El Paso, Mr. and Mrs. Bert Bishop and Mr. and Mrs. J. H. Myers.

Mrs. R. E. Horne and son, R. E. Jr., arrived Sunday and were overnight guests at the home of her daughter, Mrs. Howard Byrd. On Tuesday they left for their home at Fort Sumner taking a load of household furniture which Mrs. Horne had stored here.

### Much Silver Reclaimed From Films

A small blast furnace in one movie studio in Hollywood reclaims about 2,000 ounces of silver weekly from films, or about \$40,000 worth yearly. It is then melted into bars and sold for use in coins, jewelry and silverware. The dime with which you buy a cigar may have performed as Maurice Chevalier, Marlene Dietrich, Sylvia Sydney or Miriam Hopkins. The photograph shows Lona Andre with some of the regained silver.

### MAY REFUSE PETITIONS

Mrs. Marguerite P. Baca, secretary of state, Saturday said she had not yet reached a decision as to whether she would accept petitions for referenda on legislative acts carrying the emergency clause or providing money for the schools.

The constitution says acts in either of these categories are not subject to the referendum. It is contended, however, that the mere fact that an emergency clause is attached to an act does not necessarily mean that an emergency exists; that whether there is an

emergency is not a question for the legislature to say, but the court.

Referendum petitions have been filed so far on three laws, the lubricating oil tax, the severance oil and gas tax and the delinquent tax collection act, SB 144. Two of these carry emergency clauses; one, the severance tax, provides money for the schools. The delinquent tax act also might be considered to belong to the latter classification.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.
