WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

About 98 per cent of the cotton classed for this week and to date from the states of Arizona, New Mexico, California and Texas, District 1 (the irrigated valleys, west of the Pecos river), has been extra white middling and better. Spotted cotton showed up in amount of about 2% during the past week. Of the extra white cotton, good middling still continues to predominate with strict middling accounting for most of the remainder. Less than 1 per cent has been classed as middling. As is usual for the early ginnings, the preparation is somewhat rough. However, the season as a whole has been more favor_ able for smooth ginning than last year. The percentage of good middling is slightly lower than for the same period last year, due to poorer picking. Staple lengths improved over last week but are not as long as was reported last served as a Canadian hospital. year. DISTRIBUTE 60,000 BOOKS

Nearly 60,000 free text books for New Mexico school children will be sent out by the state board of education, according to word received by H. R. Rodgers of Carlsbad, Eddy county superintendent of public instruction. Rodgers is a member of the state board.

The state has about \$41,000 available to buy the books and after the payment of expenses incidental to distribution, a good fund will be left.

The number of texts sent out, including teachers' editions, for each of the three lower grades supplied includes 15,186 primers, 14,377 first grade, 12,887 second grade, 11,483 third grade. Teachers' editions to be sent out include primers 1,280, first grade 1,327, second grade 1,285, third dread. It has existed in India at grade 1,151.

English Courses Popular Ability to use and write good

English, one of the essential assets for business and social success, was an ambition acknowledged by many hundred Wisconsin citizens whose study requirements were analyzed by the University of Wisconsin extension division. A compilation based on such inquiries over a tenyear period indicated that English courses led in the volume of those who expressed a preferred interest.

Leprosy Old-Time Disease

Although Egypt is called the cradle of leprosy, the disease was by no means confined to that country even in early days. Assyrian and Babylonian hieroglyphics relate to the disease, which was held in due least 3,000 years. Chinese authorities wrote of it 2,000 years ago. It was introduced into Arabia before the time of Mohammed.

BACK TO THE HOME

Back to the home-for reading, study and play.

How much more pleasant that home seems, how much more comfortable every evening activity is carried on, when a modern lighting scheme has been carried out in every room.

For instance, the proper types of reading and bridge lamps place the light where it is needed, not too dim, not too bright. Several of these lamps in the living room, correctly placed, may prove much more satisfactory than a single large light that is too far away for comfort and easy seeing. The charm of a home depends in large measure on the lighting.

Larry took the bag from its perch. The golden cord that served as a handle was broken and he realized that, in the heat of the argument, Olive had unwittingly swung the bag once too often and lost it. Perhaps she had done it intentionally something whispered in his ear, but

he dashed suspicion aside. Jealousy came to take its place. > Pointer Popular Hunter The pointer is quite as popular as the setter with those who engage in upland bird hunting. While it does not possess the lovable disposition of the setter, it certainly matches strides with it when it comes to ferreting out birds and obeying its master's wishes when afield. It is a strong, well-proportioned dog with plenty of stamina and endurance and so long as there is something to hunt the pointer will stick to the job. No dog has a better nose and keener eyesight than the pointer, and it is this combination that endears it in the hearts of the hunter. As a pet, the pointer cannot match the setter, but in hunting it does .- Detroit News.
