ARTESIA, NEW MEXICO, THURSDAY, JUNE 27, 1935

NUMBER 26

TWELVE NEW WELLS WILL BE DRILED

Activity Shown In Two Counties; Local Oil Man Loses Rig In Fire On Monday Night; Four Wells Completed.

Highlights on oil development in southeastern New Mexico include one well rig fire in which a local operator suffered about \$5,000.00 damages, the starting of twelve new tests and the completion of four wells.

The drilling rig of Emery Carper, over the Mary Dodd No. 2 of the Barnsdall Oil Co., sec. 22-17-29, in the Artesia field, was destroyed by fire sometime Monday night, the origin of the blaze is unknown. The well was shot Monday with 150 quarts of nitroglycerin, and although no gauge had been taken of the production, the output was estimated by Mr. Carper at 100 barrels daily.

Monday was spent by the well workers in cleaning out the hole and when they returned to work Tuesday morning, the rig had been destroyed by fire. The rig and equipment was practically a total loss, including a brand new drilling line.

Two wells have been finished in Lea county by the Amerada Oil Co., the best of these being the Isabell No. 2 of the Amerada, sec. 15-24-36, which was drilled to a depth of 3595 feet and treated with 2,000 gallons of acid. After treatment the well flowed 410 barrels in four hours thru a one-inch choke. The Amerada brought in its second producer in the Houston No. 1, sec. 7-21-36, which was completed at 3833 feet and given a 3,000 gallon acid treatment. After acidization the Houston flowed at the rate of 357 barrels in ten hours thru an inch choke on tubing.

High Court Upholds Carlsbad Paving Suit Decision On Tuesday

SANTA FE—The state supreme court, in a divided opinion, Tuesday upheld the district court of Eddy county in its judgment in the Carlsbad paving bond case of 1929. The decision held that first interest on all bonds should be paid from the fund, with unpaid bonds to be taken up in numerical order if a sufficient balance remained. Justice John C. Watson wrote the decision, concurred in by Justices Howard Bickley and A. L. Zinn. Dissenting were Chief Justice D. D. Sadler and Justice Andy Hudspeth, who held the principal payments should be prorated among all holders of unpaid bonds, rather than paying off the bonds in numerical order. They concurred in the judgment that interest should first be paid.

PIONEER WOMAN BURIED

Mrs. Gust Carley, aged 60, a pioneer resident of south Eddy county, died Friday at Globe, Arizona, after a month's illness. Until she moved to Lordsburg last fall, she had resided at Carlsbad since 1903.

Funeral services were conducted by the Rev. A. C. Wiggins, pastor of the Carlsbad Church of Christ, at Carlsbad Monday afternoon. Mrs. Glenn O'Bannon of the Cottonwood, niece of Mrs. Carley, was among the relatives attending the funeral services from this section.

Oil Regulations To Be Adopted At Meet Friday

Several oil operators of southeastern New Mexico will meet the State Conservation Commission in Santa Fe tomorrow to discuss proposed rules and regulations covering oil and gas operations in New Mexico. Dr. E. H. Wells, chairman of the New Mexico Conservation Commission, has previously submitted tentative regulations and permanent rules are expected to be adopted at the Santa Fe meeting. Data discussed will include the proper operations of oil and gas wells, spacing of wells and allocation of the output of the respective oil areas.

V. S. Welch drove up the first of the week and plans to stay over for the session Friday. Mr. and Mrs. C. J. Dexter went up today.

Farm Program Is To Be Safeguarded

Wallace Says Government Will Fill Its Contract With Farmers.

For information to various contract signers under the AAA program, Secretary Wallace, with the approval of President Roosevelt, has made the following statement: "In cooperation with leaders of congress, amendments to the agricultural adjustment act are being perfected which are intended to bring the act's provisions as to marketing agreements and licenses into line with the Schechter case decision and also to safeguard the farmers' voluntary adjustment program on basic commodities.

"These voluntary adjustment programs were not in the path of the Schechter case decision, and in no event could there be any question of the government's ability to fulfill its contracts with farmers."

In voting for the various referenda, the farmers showed that they were in favor of supporting the adjustment program, the vote on the cotton carrying over 89%; wheat 86%; corn-hog 70%; tobacco over 97%. The tobacco vote was taken on an acreage basis. It is also to be noted that the men voting exceeded in number those voting in the general elections.

ATTEND MASONIC BANQUET

Messrs. Jack Clady, Elmo Naylor and Fred Cole attended the Masonic banquet at Roswell Monday night, given in commemoration of the 25th anniversary of the dedication of the Roswell Masonic temple. Two hundred Masons from various sections of the state were in attendance at the banquet.

CARLSBAD NEWSPAPER CHANGES MANAGEMENT

Floyd B. Rigdon, one of the publishers of the Carlsbad Daily Current-Argus, has purchased the interest of his partner, Edwin S. Kerrigan, effective Monday. Rigdon and Kerrigan have operated the Current-Argus since 1933.

ANSLEY APPOINTED DEPUTY MARSHAL

Roy Ansley has been appointed deputy marshal of Artesia and will take up his duties on July 1st, it was announced here this week. Ansley will succeed J. C. Floore as night watchman. Mr. Floore will take up his duties as marshal on the same date. With the appointment of Ansley the roster of the appointment officers recently named by the City Council is completed.

Patterson Making His Mark As Athlete And Student At Annapolis

Hester Patterson, son of Mr. and Mrs. Joe H. Patterson of Oklahoma City, Oklahoma, is making his mark as an athlete as well as a student in the academic department at the United States Naval Academy of Annapolis, Maryland. Mr. Patterson, who is here looking after business matters, tells us that his son plans to spend his vacation in New Mexico on his return from an European cruise August 29th.

Young Patterson, who gave up a football career to devote his time to track work at Annapolis, has made a commendable record as a trackster, breaking the Academy's record in the 220-yard low hurdles in 24 seconds flat and doing the broad jump at 23.7 7/8 feet. He also broke the 120-yard high hurdle record at 15.2 seconds and ran the 100-yard dash at close to the world's record, going the distance in 9.8 seconds.

He is now on an European cruise and will visit in Denmark, Germany and England before his return to Annapolis on August 29th, where he will be met by Mr. and Mrs. Patterson. From Annapolis the Pattersons will come to Artesia and other points in New Mexico for a short vacation.

DENTISTS TO MEET IN ROSWELL IN 1936

Roswell was chosen the 1936 convention city of the New Mexico Dental society and Dr. B. P. Connor of Roswell was elected president in the closing session of the society's convention at Las Vegas Saturday.

Other officers named by the dentists were Dr. J. S. Eilar of Albuquerque, vice-president, and Dr. Fred Muller of Taos, secretary-treasurer.

NITRO BLAST KILLS TWO YESTERDAY

Two Employees of New Mexico Glycerin Co., Killed At Crossing En Route From Artesia To Borger, Texas.

Two men were blown to bits and a third was seriously injured late yesterday when a nitro-glycerin truck exploded at a grade crossing six miles east of Amarillo, Texas, as the two men were en route to Borger from Artesia, according to reports received here.

The dead were Ben McDonald, 55, and Paul Brooks, 25, both of Borger.

Bruce Hayes, 40, of Whittenburg, who was working on an oil truck about 50 yards from the crossing, was injured.

Fragmentary bits of flesh and pieces of the truck, which was believed to have been carrying 350 quarts of nitro-glycerin, were found more than 1,000 yards from the scene of the blast.

The explosion tore a hole six feet deep and 12 feet wide in the highway. Three telephone poles were toppled, telephone and telegraph wires in the vicinity were destroyed and rails were spread for 15 or 20 feet.

A small part of a man's foot was the largest bit of remains found of either victim. They were identified by means of the truck's license plates.

The two men were employees of the New Mexico Glycerin company of Artesia and were en route home after shooting the Mary Dodd well of the Barnsdall Oil Corp., in the Artesia oil field Monday. Van Welch, an official of the company, who was in Santa Fe, left for the scene of the accident this morning. Jack Clady also plans to go to Borger, it was said this morning, and will likely assist in an investigation of the blast.

The cause of the accident has not been determined.

Lake McMillan Has Over 25,000 Acre Feet of Water

The Carlsbad irrigation project will not be bothered with shortage of irrigation water this year, if the present prospects materialize. It was said the first of the week Lake McMillan and Lake Avalon held on that date approximately 30,000 acre feet of water or better and that water was coming into Lake McMillan at the rate of 600 to 1,000 acre feet of water daily. Lake Avalon at that time held about 5,000 acre feet and 25,000 acre feet was in Lake McMillan. The capacity of Lake McMillan is 40,000 acre feet while that of Lake Avalon is 6,000 acre feet. The first irrigation since the planting season will start the latter part of the week.

SEEKS TO STOP SALE OF FARM PRODUCTS

A restraining order stopping disposal of farm products, issued at Roswell last week by James B. McGhee, district judge, was filed in district court, together with an order to show cause why a receiver should not be appointed in the case filed by S. A. Lanning of Artesia against Albert T. Woods and others.

Today is the date for a hearing at Carlsbad to consider the issuance of a temporary injunction and the appointment of a receiver to take over the farm and personal property on a tract of land in the Artesia district, alleged to have been sold by Lanning to Woods in 1930.

Delivery of papers held in escrow by the First National Bank here and the cancellation of a sales contract because of default is asked by Lanning.

REAL ESTATE TRANSFERS

Real estate transfers reported the past week include a residence and six lots in Lake Arthur sold by E. C. Jackson and the sale of two lots here by Gilbert and Collins to Jim Allen near the Junior high school building. Mr. Allen started breaking ground yesterday for the erection of a four room house.

Advocate Want Ads Get Results

ADVOCATE OUT JULY 3rd

Next week The Advocate will be issued one day early and will make its appearance on July 3rd, instead of July 4th, which falls on Thursday, our regular publication day. We are publishing a day early in order that the office force may have the day off and because we wish to cooperate with the business firms and business men who will close on the 4th.

All business houses will be closed on the 4th, with the drug stores and filling stations observing Sunday hours.

We are asking our advertisers to cooperate in getting ad copy in a day early next week. We thank you!

Curb-Guttering Project To Be Launched Here

Committee Sponsors Curb And Guttering As First FERA Project; Work To Be Started As Soon As Possible.

Preliminaries were started Friday evening for the launching of the first FERA project under the new set-up when representatives of six organizations met in the Artesia hotel and discussed plans for making applications for one or more projects. At the meeting Friday evening the FERA committee was formed, composed of a representative of each organization present. Arba Green of the City Council, was chosen chairman. Other committee members were: Chamber of Commerce, C. J. Dexter; Artesia Rotary club, J. S. Ward; School board, Chas. Morgan; Woman's club, Mrs. I. L. Spratt; Clarence Kepple Post, American Legion, Chas. Martin.

At a meeting of the committee Saturday, it was agreed to make application for a curb and gutter project first and to launch the project as soon as possible. Under this project, it is understood the government or the FERA will supply the labor and haul the gravel and the city will furnish the necessary concrete forms. All the property owner is required to do is to pay the cost of the cement, which will not exceed \$25.00 for a fifty-foot lot. Plans for signing the property owners have already been inaugurated. It is said that it will not be necessary for all property owners along one block to agree to the project before it can be started, but that curb and guttering may be undertaken if only one property owner agrees to stand his share of the expense. At least this is the theory on which the project will be asked for.

It is also said that application will be made to gravel the street leading to the cemetery from First street.

A Rural Housing Committee Named For Eddy County

District Supervisor Talks Plans Before the Rural Woman's Clubs of the County; Phagan Will Meet Women July 4th.

A committee dealing with rural housing has been appointed for Eddy county, and a program has been started by calling meetings before the various Woman's clubs on July 3rd and 4th. Mr. Phagan, district supervisor, will be present and will discuss various problems dealing with rural housing. Meetings will be held in the south end of the county for the Black River Woman's club and Otis Woman's club on July 3rd, and on July 4th Mr. Phagan will meet with the Atoka and Cottonwood Woman's clubs at the home of Mrs. R. H. Rambo. All persons interested in rural housing should endeavor to be present at this meeting.

Mrs. Joe Manicchia and small son Billie Joe of Wichita Falls, Texas, have been the guests of Mrs. Fred Mann and family.

ARMY WORM IS AGAIN IN THIS AREA

Worm Appears Again To Plague the Cotton and Alfalfa Farmers; W. A. Wunsch Gives Remedy To Poison the Insects.

The army worm is appearing again in alfalfa and cotton fields. Tests show that the most successful way of poisoning was by the use of a bran mash poison scattered on the cotton and alfalfa fields. This bran mash poison is made by the use of 1 pound of white arsenic mixed with 25 pounds of bran. This mixture is combined with 1 quart of molasses and approximately 6 quarts of water to make a moist mixture. Demonstrations on the J. H. Holloman farm show that this mash spread by the use of a cotton planter beside the rows of cotton used about seven pounds of mash per acre, and he secured good results. It can be spread in the alfalfa fields by the use of an end gate spreader. Farmers should watch the alfalfa fields and when the alfalfa is cut, at least streak the borders adjoining the cotton or corn fields. These worms are also causing much damage in flowers and gardens. The same formula can be used; however, this bran should be put out late in the evening, and on large plants it has been found profitable to shake the plants to cause the worms to fall off.

Several farmers yesterday complained that the worm has made its appearance again and threatens to do extensive damage unless checked. Recent damage has been done mostly where cotton fields have been cleaned of weeds. It appears that the worm turns to eating cotton after fields have been cleaned of weeds. Farmers report they cannot profitably wait any longer to plough or clean the fields.

Man Held At Del Rio For Quiz In Death 4 Tourists

SANTA FE—Governor Clyde Tingley last night said he had been advised by the sheriff at Del Rio, Texas, that a man about 21 was being held there for questioning in the case of four missing Illinois persons last seen in New Mexico more than a month ago.

The man was described as being five feet ten inches in height, weighing about 150 pounds, reddish brown hair and having a tattooed right arm.

The governor turned over this information to justice department agent Colvin at El Paso, who is handling the further investigation of the man. The governor said last night he would personally rejoin in the hunt the latter part of this week and stay with it "until the bodies or some evidence is found or until we are convinced the bodies are not in New Mexico."

The national guard detachment of thirteen men and three officers which has been working eastward from Grant, yesterday was ordered to work west from Grant toward the Arizona line.

TO AUCTION CAR

Clyde Guy, proprietor of the Guy Chevrolet Co., will inaugurate a new method in car merchandising Saturday afternoon at 3:30 p. m. when a 1927 Chevrolet coach will be auctioned off and offered to the highest bidder. The auction is expected to attract unusual interest among the car buyers, since the auction method has not been used here for several years.

HAND MANGLED BY BLAST

Raymond Perry of Hope received a badly mangled hand and powder burns on the face when a dynamite cap exploded in his hand, late Wednesday.

According to the story told at Roswell, Perry was riding a horse across his ranch, when he found the dynamite cap. Not knowing what it was, he attempted to cut it with his knife. The explosion followed.

WANTED—Clean Cotton Rags at The Advocate.

Electrification of Rural Districts

County Agent Wunsch To Cooperate; Plan To Be Discussed Here July 3.

Morris L. Cooke, administrator in charge of rural electrification, has asked the county extension agents to cooperate with him in furnishing definite information to those people in the rural communities interested in electrification.

There are four different auspices under which this work can be done: (1) by the federal government; (2) by the states or subdivisions; (3) by the farm cooperatives; (4) by existing utility companies. Mr. Cooke states that the final results will most likely show that all agencies will be instrumental in building rural lines. It is the proposal to extend rural lines into territories not now served by electrical lines; the lines, however, must be self-liquidating, that they must be able to return to the government the money which has been loaned for a period of twenty years. The possible interest rate is expected to be about 3%; this also means that each individual line does not have to be self-liquidating but that the project which might embrace a large number of lines, must be self-liquidating. The loans must be for the entire cost of the project, no grants will be made. It is also emphasized that the rate must be low enough so that the consumer can use current for all purposes on the farm and home. The idea is that every home owner must be able to use current for at least one of three large household appliances, either refrigerator, range, feed grinder, or other motors.

Decisions as to the building of electric lines rests on the percentage of farmers agreeing to take the service; therefore, interested farmers should contact their neighbors and get a large group interested before any work is done. It would also be advisable then for several groups to go in together and make up a larger project.

Plans were underway to make a survey in various communities in Eddy county under the FERA; however, this project fell through for lack of funds. County Agent Wunsch will be glad to assist any group interested, and this phase of work will be discussed before the Woman's club meetings in Artesia July 4th and Carlsbad on July 3rd.

Guy A. Reed of Eddy county is a member of the state electrification board, therefore, he will be able to give additional help on this project.

Artesia Rotary Club Has Eighteen 100 Per Cent Meets Past Year

Members of the Rotary club heard D. I. Clowe, secretary, make a summary of the club attendance record during the past year at the luncheon program of the club Tuesday afternoon. The club will register another 100 percent attendance at the last meeting if two members out of town make up the attendance, making eighteen 100 percent meetings for the year just closing. The Rev. A. C. Douglas made a report on the Methodist assembly, which closed last week at the Sacramento Methodist assembly grounds. The Rev. Douglas stated that the Sacramento assembly was destined to be one of the greatest, if not the greatest of the denomination. He explained the reason for abandoning plans for holding a summer session of McMurry College, stating that plans were going forward to have a splendid summer school there next summer.

Visitors present included Fred Miller of Roswell and N. A. Lydle of Phoenix, Arizona. Tuesday was the last day Chas. Morgan presided as president. On next Tuesday the new officers will take over the club affairs.

Clarke Made Member Of the Local Hole-In-One Golf Club

An apparent secret has at last leaked out and we learn that B. D. Clarke, a local golfer, has joined the hole-in-one club. Mr. Clarke, who accomplished this unusual feat sometime ago, has a witness, who substantiated an early rumor that Mr. Clarke made the hole in one a few weeks ago, which makes him a member of an exclusive club with a limited membership.

Typewriters for rent—The Advocate.

125,000 LBS. WOOL SOLD THRU 24th

Shearing Over Half Done; Clips Lighter Than Last Year; Wool Sells From 16 To 18 3/4 Cents In Sale Monday.

Wool shearing operations are more than half completed in this area and approximately 200,000 pounds of the present clip have been stored at the Bullock warehouse, it was said Monday. Both the quality and quantity of this year's clip is lighter than last year. The crop will be smaller this year due to the large number of sheep sold to the government under the drought relief program. Of the 200,000 pounds in storage here, 125,000 pounds have been sold. Approximately 75,000 pounds were sold at public sale here Monday while about 50,000 pounds have been sold at previous smaller sales. The clips sold here likewise been from the smaller sheep ranches. Wool from forty-seven growers made up the wool sold at Monday's sale.

Prices paid at Monday's sale range from sixteen to eighteen and three-quarter cents per pound. No wool has been sold on consignment this year. Shearing operations will run up until about the middle of July.

Recent strikes in many of the eastern woolen mills have affected the market adversely the past few days, it was said here, notwithstanding the market has shown some strength over two or three months ago.

E. B. Bullock, owner of the Bullock warehouse, stated the total wool storage here this year would amount to about 300,000 pounds against approximately 500,000 last year.

Heavy Rain On Rocky Arroyo Damages Bridge Footing Saturday Nite

Heavy rains fell on the ranges and in the foothills southwest of here Saturday night, but the threatening cloud skirted Artesia after a light sprinkle. The heavy rain appeared to have been centered in the Upper Rocky Arroyo settlement, according to reports, where a hard rain fell quickly. Approaches to the bridge over Rocky were damaged, which almost caused a serious wreck to a Colorado tourist. Highway workers reporting the damage said a woman tourist was injured and some damage was done to the car when the driver hit the treacherous approach unexpectedly. Seven Rivers was also running bank full, it was said.

ROSWELL WINS PHONE SUIT

Reversing a decision of the state district court of New Mexico, the U. S. court of appeals, in Denver, Monday held that the Mountain States Telephone and Telegraph company must obtain a new franchise from the city of Roswell to continue operations, according to press notices Monday night.

BOY SCOUT CAMP CLOSED

The annual Boy Scout Area Council camp in the Sacramento mountains near Weed, attended by Boy Scouts from southeastern New Mexico, disbanded and the boys proceeded to their home yesterday with the conclusion of the nine full days of activities.

Goodwill Trip Plans Taking Form for 10-11

Plans for the annual goodwill excursion to the Sacramento mountain district July 10th and 11th are taking definite form, W. B. McCrory, manager of the Artesia Chamber of Commerce, announced yesterday. Pinon is planning a barbecue for the goodwillers on the morning of July 10th, to be given at 11:00 a. m., it was said.

Definite plans will be announced in the next issue of The Advocate, giving the tentative schedule. Several business firms have entered decorated cars, trucks and floats to make the trip.

Mr. and Mrs. Malcolm Mitchell are leaving Sunday for a vacation trip to their home in New York City.

THE ARTESIA ADVOCATE

ESTABLISHED AUGUST 29, 1903
THE PECOS VALLEY NEWS and THE ARTESIA AMERICAN

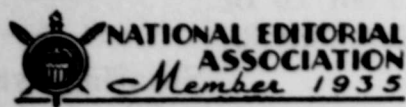

MARTIN & BLOCKER, Publishers
W. C. MARTIN, Editor

PUBLISHED EVERY THURSDAY AT 814 WEST MAIN STREET, ARTESIA, N. M.

TELEPHONE 7

WHAT'S THE USE?

The following isn't original with the writer, but it serves to illustrate the point:

The merchant who says that everyone knows his place of business and therefore he doesn't have to advertise, may be found right here in Artesia as well as other communities in the county.

This same merchant also says that customers come to him when in need of goods he handles, so why should he waste his money in advertising.

An answer has been made to that question by a newspaper whose advertising man no doubt stumbled into places of business where the owner possessed that frame of mind.

This newspaper answered the question, Why should I advertise? as follows: Everyone in this community knows all that happens here, so what's the use of reporting the news, what's the use of having a newspaper?

If the community can get along without a newspaper it can get along without a number of other things which are of value.

For instance: the adults are educated and can teach the children, thus doing away with the need of schools.

The parents are religious, therefore, they can train the young ones in the creeds, thus doing away with ministers and the churches.

Folks can lend their money to one another and thereby eliminate banks.

They can swap their old clothes or learn how to make homespun, thereby greatly reducing expense and actually putting the clothing merchant out of business.

All trade is based upon a desire for goods. Necessity is, mostly, an augmented desire.

Advertising has the function of reminding people of their requirements, but its greatest function—a prime factor in all progress and prosperity—is the creating of new desires; therefore stimulating trade and production and making for the greatest possible of employment.

THORNS HAVE A PURPOSE

The trouble with a lot of us is that we want to accomplish many things, but aren't willing to pay the price.

If life were a game in which the rewards were handed out on a silver platter to anyone who happened to ask for them, lots of folks would sleep in rose beds.

But, unfortunately, you've got to reckon with the thorns. "He who would climb a tree," said Thackeray, "must grasp its branches—not the blossoms."

Which means that you've got to pull yourself up over the rough places and not expect simply to coast down hill all the time.

We get pretty much what we go after—if we go after it hard enough and persistently enough.

About the only thing that has ever come into our life without being worked for or sought after is trouble.

And a lot of that could be traced back to a desire to take hold of the blossoms instead of grasping the branches.

Thorns serve a purpose. They teach us the lesson that, even in plucking roses, one must go about it with care and skill and practical knowledge—or get stuck.—Selected.

We'll soon know whether the state's new port of entry measure is really worth while or whether it's just another expense to the taxpayers. We understand that the port of entry employees, stationed on the principal highways along the border, will check in the tourists, on the same order as California and some other western states. It occurs to us that the money spent in building highways rather than maintaining a force of state employees might prove more beneficial and it would certainly please the tourists more.

Countess Court Haugwitz Reventlow, the former Barbara Hutton, heiress of the five and ten cent store fortune, may have an opportunity of spending a life of regrets after passing the craze for a foreign title. At least she may point to the fact that she was mainly responsible for the agitation for a larger inheritance tax, which will leave her wealthy progeny less opportunity to marry a title and she might even go so far in her later years as to adopt the slogan, "Marry an American first."

Taxes were indeed very heavy and if those laid on by the government were the only ones we had to pay, we might more easily discharge them; but we have many others. We are taxed twice as much by the time we waste, three times as much by our pride and four times as much by our folly.—Benjamin Franklin.

NATION-WIDE DRIVE PLANNED TO DEPORT SIX MILLION ALIENS

WASHINGTON—A nation-wide campaign for legislation to deport approximately 6,000,000 aliens as a partial solution to the United States unemployment problem was pressed Saturday by 155 organizations, estimated by Representative Dies (D-Texas), to represent five million people.

Plans to organize ten million native born and naturalized citizens for a drive to get congressional action on the Dies deportation bill were reported by the tall Texas as he thumbed 50,000 letters and telegrams received in support of the measure.

The organization is to be called "The Americans" and is to be organized in each state on a non-sectarian and non-partisan basis, he said.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

MANN DRUG COMPANY

Chislings

We don't like to boost our own business too much but if you have a second-hand baby buggy to sell, a want ad sure ought to bring results. Fact is, some of The Advocate office force should be in the market before long.

The pen pusher was subjected to more or less abuse last week in this column about what he said and did while on a vacation. If you want to know the truth, a country boy does not have the opportunity of doing too much talking or wise-cracking while in the city. My time was spent in trying to find my way around and I did not do a very good job at that.

As long as the administration goes strong on using all the letters of the alphabet in trying to designate the new departments such as AAA, CCC, FERA, etc., we hope V. D. Bolton never gets a job with the government, because they might use his initials only and leave the impression that they were referring to some brand of underwear.

Lily. "So yo' done mortgaged our li' home."
Mose: "Jes' temporarily, Honey, till de mortgage am foreclosed."

"Would you mind walking the other way and not passing the 'orse?" said a London cabman, with exaggerated politeness, to the fat lady who had just paid a minimum fare.

"Why?" she inquired.
"Because, if 'e sees wot 'e's been carrying for a shilling 'e'll 'ave a fit."

Judge: "What's the charge against this man, officer?"
Officer: "Vagrancy, your honor. He was loafing around a street corner all afternoon."

Judge: "Ah, impersonating an officer; thirty day in jail."

We would have liked very much to have commented on the approaching marriage of Doc Loucks last week, but were pressed for time. Doc just walked right up to the sea of matrimony and splashed right in and liked it. We think the least Artesia business men could have done on this auspicious occasion would have been to declare at least a half holiday and to have given Doc an old time charivari. Our advice to Doc is to take at least a six weeks honeymoon and to be firm right from the start and never accept any back talk from his better half. We do not have a Dorothy Dix column, but will do our best to answer any question Doc has to propound with respect to his future domestic relations.

C. J. Dexter has just gotten rid of a dollar a year job and accepted another one of those free secretary-treasurer jobs. The public must think Dexter is a natural born secretary-treasurer, because the list of organizations and concerns he has served or is serving as secretary-treasurer would fill a page. We have been appointed campaign manager for Dexter and from now on it's president or nothing.

Citizens of Pueblo, Colorado, were amused when they saw this sign in front of a local church. It read: "Subject of Sunday evening's sermon, 'Do You Know What Hell Is?' Beneath it in small letters was printed: "Come and hear our organist."

Postmaster Jess Truett threatens to put up a new sign in the lobby of the Artesia office right under the "no loafing" sign. The new sign would read: "This ain't no dressing room." Monday morning

Income of the U. S. Exceeds Estimates

WASHINGTON—The government's income Monday popped above the figure forecast by President Roosevelt for the financial year ending in just a week, but the spending was nearly \$2,500,000,000 greater than the income.

All classifications of expenditures for the twelve months closing June 30, however, were running below official estimates. Despite its size, even the deficit was nearly \$1,500,000,000 below the \$4,869,000,000 total predicted six months ago by the chief executive.

The national debt stood at \$28,646,898,605. This compared with \$27,035,000,000 at the close of the last fiscal year.

All revenues totaled \$3,743,000,000 as compared with \$3,711,000,000, the year's estimated total, and the \$3,053,000,000 figure for last year.

Comparing the two years, the one about to be closed showed increases in all divisions of receipts. Income tax collections were \$1,083,000,000 as compared with \$801,000,000 a year ago, miscellaneous internal revenue \$1,628,000,000 as compared with \$1,438,000,000, and customs \$335,000,000 as compared with \$307,000,000. Income tax collections for the year are expected officially, now, to reach \$1,149,000,000.

when Postmaster Truett went to work he found a pair of ladies' pink bloomers, evidently lost in Sunday's rush.

Jack Spratt has a rather unusual explanation of the large number of high school students living in Artesia at the present time. Details are not printed for the lack of space.

Our forefathers blazed the trails And labor would not shirk. But today's rugged individualist Is the man who walks to work.—Swiped.

And here's a parting word of advice for Dr. Loucks before we write "finis" to this column: Unfortunately Doc has picked a tough spot in Artesia as a location for the Loucks Love Nest, down where they burn women's clothes, even setting fire to the grass under the clothes lines and burning up the family washing. Two women's clothes fires have occurred in this neighborhood in the last five months and if Doc is as wise as we think he ought to be, he will never locate his clothes line around grass or weeds.

WHEN CHANGING TIRES IS EASY

Many a motorist would be thankful for a machine like this when a blow-out or puncture occurs out on the highway. This machine spins tires on wheels in about the time it takes you to count

wheel. The scene is in the big Hudson Motor Car Company plant at Detroit, where activity is greater this year than in many years, due to increased demand for the new Hudsons and Terraplanes.

Work On Red Bluff Project Is Progressing

Six huge machines were moving dirt at the Red Bluff dam last week, says the Pecos Enterprise, as a new peak in activity and employment was reached at the gigantic PWA project.

This makes a total of three drag lines and three shovels now engaged at the dam.

Workmen were busy all week attempting to rebuild the bridge across the Pecos used for transportation of men and machinery to the east and west sides of the river. The original bridge was swept away by the recent sixteen-foot rise on the Pecos river. Work was rushed and as a result the bridge is expected to be ready for use by Friday.

Meantime, men and materials were transported on a big raft. The raft worked well save for one occasion—Tuesday—when it capsized, the eleven men aboard being forced to swim to safety.

A casualty occurred to Vernon L. Sullivan, district engineer, last week, when he was inspecting work in the vicinity of some blasting. He successfully dodged several boulders but one huge rock bounced from the ground and knocked him down. He was given emergency medical attention at which time it was revealed that one rib was cracked.

Secretary J. H. Miller at the Pecos office stated that all accounts due by the district up to June 1 had been approved by Washington auditors. He said that approximately 25 trucks and 150 men were now finding employment at the dam.

Mr. Sullivan has compiled the following essential information, stressing the magnitude of the dam, at the solicitation of the Enterprise:

The Red Bluff dam, located 8 miles below the New Mexico-Texas state boundary line, will be 9,500 feet long; 104 feet high above the river bed, width of base 555 feet, width of crown 30 feet, contain over 2,000,000 cubic yards of earth, over 200,000 square feet of steel sheet piling; 500,000 pounds reinforcing steel; 600,000 pounds fabricated iron and steel.

The Red Bluff reservoir will have 300,000 acre feet capacity; 12,500 acres area; 76 miles shoreline.

Irrigated Area—40,000 acres under seven independent irrigation systems.

Red Bluff Hydro-Electric Plant—two units. One 1200 H. P. and the other 1600 T. P. Mean capacity 1500 H. P. Weight over 310,000 lbs. Fifty miles transmission line.

CARLSBAD-MALAGA ROAD

Good progress is being made on the stretch of road between Carlsbad and Malaga, according to reports from Carlsbad. At the present time, the traveler from Pecos to Carlsbad must detour thirty-one miles.

LOCALS

Miss Nedra Diver of Springer is the guest of her sister, Mrs. Alton Partee.

Miss Mary Egbert of Carlsbad spent the week-end with Mr. and Mrs. Howard Whitson.

Mrs. Chas. Alsop drove down from Clovis for a week-end visit with her parents, Mr. and Mrs. Ed Conner.

Mrs. Wendell Welch and children left Artesia Sunday to spend the remainder of the summer at the Artesia camp.

The J. K. Wallingfords spent the week-end in the Artesia Sacramentos getting their cabin in readiness for the season.

Mrs. Kenneth Hammond underwent an operation for appendicitis Sunday night at the Eddy County hospital in Carlsbad.

I. H. Burgess, Cottonwood school principal, has moved from Artesia back to the teacherage at the Upper Cottonwood school.

Mrs. Ed Watson underwent a major operation at the St. Francis hospital in Carlsbad last week and at the last report was recovering satisfactorily.

Mrs. Stanley Blocker and Mrs. Howard Whitson will leave on Sunday for a month's vacation at the Artesia Sacramento Camp in the Sacramento mountains.

Miss Opal Neatherlin, daughter of Mr. and Mrs. A. L. Neatherlin of the Oil Field, left for her home at Phoenix, Arizona, Friday after spending a few days visiting her parents.

Mrs. S. S. Ward and daughter, Miss Jack, drove over to El Paso Friday. At El Paso they were joined by Mrs. Ward's daughter, Mrs. J. P. Hare, for a trip to the San Diego Exposition at San Diego, California.

Mr. and Mrs. T. E. May of Big Spring, Texas, spent from Friday to Sunday here visiting relatives. They brought home Mrs. Sadie Wilson and son Billy, who had been visiting them for a few days en route home from a vacation spent in Arizona.

Mr. and Mrs. Howard Whitson, Miss Mary Egbert and Harry Egbert spent Sunday in Alamogordo visiting Mrs. Whitson's mother and sisters. Harry Egbert, who has been with the Whitsons since late in May, remained in Alamogordo.

Joe H. Patterson of Oklahoma City, Oklahoma, arrived here Monday to spend the week looking after his farming interests, coming by way of Albuquerque. Dr. J. M. Thompson, also of Oklahoma City, accompanied Mr. Patterson to the dental examination there with a view to moving to New Mexico.

Car of Wild Steers Shipped To Pecos For the Big Rodeo

PECOS, Texas—A carload of 35 tough, mean, long-horn steers brought from the interior of Mexico, arrived here this week for use in the sixth annual rodeo of the American Legion, to be held here on July 3 and 4.

The steers are wiry and cantankerous, and capable of making the cowboys who rope and ride in this year's show extend themselves to the utmost.

Over \$2,000 will be given away as prizes to the winners in the rodeo, and 50 or 60 rodeo performers—the best in the southwest—are expected to attend.

Pecos will be host to a crowd of visitors which, American Legion officials say, will outnumber all previous performances.

One of the best arranged and most convenient rodeo arenas in this section was being completed this week, with lights for night shows, and other preparations were in full swing, to insure a first-class rodeo.

ALBUQUERQUE MAN HEADS STATE PRESS ASSOCIATION

Concluding their annual two-day meeting at Hot Springs Saturday, members of the New Mexico Press association elected officers, and voted to hold two meetings each year during business sessions Saturday.

Carey Holbrook, editor of the Health City Sun of Albuquerque, was named president; Dave Bronson of Las Cruces, vice-president, and Orville Ricketts of Farmington was re-elected secretary-treasurer. G. S. Valliant of Albuquerque, C. W. Morgan of Alamogordo and R. H. Coleman of Hot Springs were named to the board of directors.

The publishers decided to hold two meetings annually, one in Santa Fe during legislative years, and the other in Albuquerque.

# Social Activities

## McLELLAN-LOUCKS WEDDING

Probably one of the largest and most beautiful weddings ever held in Artesia was solemnized by the Rev. J. A. Breece at the Church of the Nazarene on Tuesday evening, June 25, at 8 o'clock, when Mrs. Rebecca McLellan became the bride of Mr. D. A. Loucks.

The bride was attended by Mrs. Beatrice Rhodes as matron of honor, Miss Wilma Paton and Miss Berthe Alcorn, bridesmaids, and the two small daughters of Mrs. McLellan, Avalee and Maurine, flower girls.

The bride was daintily attired in a gown of blue cord lace, with white accessories. She carried an arm bouquet of pink and white roses. Mrs. Rhodes wore white and carried yellow snapdragons. The frocks of the bride's maids were in light summery shades of organdy, their flowers were gladioli. The flower girls were dressed in pink and carried flower baskets of the same shade.

Prior to the processional Miss Nadine Breece sang, "Oh Promise Me." She was accompanied by Richard Rockwell.

With the first notes of the Lohengrin wedding march, the bridal party proceeded to the altar which had been banked with green plants and flowers. Soft light from tall white tapers in silver candelabra fell upon the party. During the pronouncement of the vows Mr. Rockwell played softly, "I Love You Truly."

Mr. Loucks was attended by S. S. Ward. The bride was given in marriage by her brother, Doyle Cantrell.

After the ceremony the bride and groom and the many friends met at the home of Mr. and Mrs. E. A. Paton where a reception was held on the lawn.

Mr. and Mrs. Loucks are spending several days in El Paso. Upon their return they will reside in their new home on south Second street.

## MRS. WHITSON'S RECITAL

The violin pupils of Mrs. Virginia Whitson presented their recital at the American Legion hut on the evening of June 21 at 8 o'clock. The stage was attractively decorated with flowers. The program was as follows:

Largo-Handel, played by Jane Shugart.

Iris-Renard, John Paul Otts.

Serenade-Toselli, Lewis Story.

Traum Der Sennerrin-Labitzky, Emily and Mary K. Woods.

La Zingana-Bohm, Jane Shugart.

Humoreske-Dyora, Avis Clowe.

Forest Concert Fantasia on Gounod's Opera-Alard, Mary K. Woods.

Miss Lillie Miller was at the piano.

## METHODIST MISSIONARY SOCIETY MET THURSDAY

Members of the Methodist Missionary society met at the parsonage last Thursday afternoon. Mrs. A. C. Douglas and Mrs. T. J. Stagner acted as hostesses. A most interesting program was led by Mrs. Reed Brainard, the theme being, "Stories of the Daughters of Methodism." Those taking part in the program were: Mmes. J. D. McCann, Leone French and Reed Brainard. The devotionals were conducted by Mrs. I. C. Dixon. Mrs. J. D. McCann presided in the absence of the president, Mrs. George Frisch.

## B. Y. P. U. ENTERTAINS

The Senior B. Y. P. U. entertained those members of the organization who have returned from college, with a picnic and swimming party at the Oasis on Thursday evening, June 20. The guests were Messrs. Edgar Bishop, Dennis Bivins, Edward Wilson and Misses Elizabeth Muncy and Lois Bivins. Others who made up the party were Misses Ina Cole, Jennie Beth Bishop, Peggy Wilson and Messrs. Burton Bishop, Lonnie Martin, Carl Everett, Neville Baker, the Rev. and Mrs. P. G. Woodruff and Mr. and Mrs. De Witt.

## HOUSEWARMING FOR MRS. C. BERT SMITH

A housewarming was held at the apartment home of Mrs. C. Bert Smith on Friday evening at 5:30 o'clock. The affair was a picnic supper and was a complete surprise to Mrs. Smith. Those who enjoyed the evening were: Mmes. Landis Feather, E. B. Bullock, Chas. Martin, Williams, Lewis Story, Wingfield, McDonald, Owen McClay, William Linell, Joe Jesse, John Lanning, T. M. Nash of Memphis, Tennessee, and Mrs. C. Bert Smith.

ENGRAVING—THE ADVOCATE

## Social Calendar

TELEPHONE 99

### THURSDAY (TODAY)

Thursday Bridge club meets with Mrs. Charles Morgan.

Presbyterian church picnic at the Oasis, three o'clock. Supper at six-thirty.

Thursday evening at 7:30, meeting of the Eastern Star.

### FRIDAY

Bridge of the Month, Artesia hotel, 1:00 o'clock luncheon, Mrs. Stanley Blocker, hostess.

Friday Evening Bridge club with Mr. and Mrs. Walter Douglas at 7:30 p. m.

Literary club meets at the home of Mr. and Mrs. Nevin Baird.

Hustler's class picnic at M. E. church Friday evening.

### TUESDAY

The Atoka Woman's club will meet with Mrs. J. W. Bradshaw at 2:30 p. m.

Methodist Missionary Society, monthly business meeting, at the Methodist church at 2:30 p. m.

Contract Study club, luncheon at the home of Mrs. L. P. Evans, at 1:00 o'clock.

## PAST MATRONS CLUB MEETS

The Past Matrons club of the Eastern Star was entertained at the home of Mrs. Jessie Morgan on Monday afternoon. Mrs. S. E. Ferree and Mrs. Arba Green were in charge of the program which had a patriotic theme, in keeping with the approach of Independence day.

Mrs. Ferree presented a questionnaire concerning the presidents of the United States and some event of note in the life of each. Mrs. Arba Green sang a patriotic song, the interest of which was enhanced by the fact that the words and music had been written by her.

A very interesting and instructive account of Boston was presented by Miss Ruth Morgan. Two patriotic songs were sung, one to open the meeting and one at the close. Miss Esther Morgan was the accompanist.

Mrs. Cole, Mrs. Glasscock and Mrs. Metcalf of Hope and Mrs. Stanley Blocker were guests. In keeping with the rest of the program the hostess served tea which had been brought from Boston.

The next meeting of the club will be held at the home of Mrs. Metcalf in Hope.

## "YOUTH IN CONQUEST"

The young people's class of the Christian church presented a play, "Youth in Conquest," at the church on Wednesday evening, June 19th. Mrs. Ben Dunn assisted by Mrs. G. U. McCrary and the Rev. Thos. Massie, directed the production. Those who took part were: Ruth Martin, Ruby Rowland, Marion Coll, Lawrence Coll, Cecil Fletcher, Chester Lapsley and Dean Martin. The allegorical characters were: Lee Shearman, Olin Woodside, Harold Bradshaw, Marjorie Rowland, Betty Nell Lanning and Alvin Hadley. Several readings were given between acts. Those participating were: Carrol and Patsy McCrary, Ben Junior Dunn and Margaret McDermott. The play marked the close of the 31st anniversary celebration of the church.

## BARBECUE AT TERRY FARM

Over one hundred friends attended the barbecue dinner celebrating a reunion of the family and old friends of Mr. and Mrs. J. D. Terry on the lawn of their home, on Thursday, June 20, at noon. The guests of honor were: Mr. and Mrs. Jack Terry and family of Spartansburg, South Carolina. Other members of the family who were present were the Tom Terrys and the Paul Terrys. The three oldest residents in the county, Civil war veterans, were also present. These included W. M. Daugherty of Artesia and Thomas Blakney of Hope and the host.

## VIERNES BRIDGE CLUB MEETS

On Friday afternoon Mrs. Bob Company was hostess to the Viernes Bridge club at 2 o'clock. All members were present, including Mmes. Gillispie, Barnes, Glasser, Barnett, R. Barker, McProud, Carroll and the hostess. High score was made by Mrs. Boone Barnett, second high by Mrs. Ed Gillispie and low by Mrs. Barker.

## RHOTEN-SPIVEY NUPTIALS ANNOUNCED

Announcements have been received here of the marriage of Thomas S. Spivey, son of Mr. and Mrs. W. T. Spivey of Artesia, to Miss Sylvia Elaine Rhoten, which occurred at San Jose, California, on June 9th. The Rev. C. B. Sylvester, pastor of the First Methodist church at San Jose, read the impressive marriage vows in the presence of friends and relatives. The bride was given in marriage by her brother, Harold Rhoten. Russell Spivey, brother of the groom, attended him as best man. Following the wedding ceremony a dinner was served in the church parlors and was attended by twenty-two members of the families. Later in the afternoon a reception was held at the home of the bride and this was followed by a honeymoon trip to the Russian river country. After the honeymoon Mr. and Mrs. Spivey will be at home to their friends at 360 South Eighth street, San Jose.

## RECEPTION FOR MR. AND MRS. D. A. LOUCKS TUESDAY

Seventy-five friends of Mr. and Mrs. D. A. Loucks were the guests of Mr. and Mrs. E. A. Paton at a reception given in their honor at their home after the Loucks-McLellan wedding ceremony on Tuesday evening.

The hostess received her guests and in turn presented them to the bride and groom.

A three-tiered wedding cake stood in the center of the dining room table. On top of the cake were the miniature figures of a bride and groom.

The guests were served cake and punch on the lawn of the Paton home.

## MRS. GISSLER ENTERTAINS THURSDAY BRIDGE CLUB

The Thursday Bridge club met with Mrs. Howard Gissler on Thursday morning at 9 o'clock. Contract was played until 1:00 o'clock at which time the hostess served a lovely luncheon. Those present were: Mmes. Gillispie, Seale, Charles Morgan, Marvel Archer, Barnett, Sharp and Lapsley. High score was won by Mrs. Ed Gillispie; second high by Mrs. Charles Morgan and low score prize went to Mrs. Gissler.

## FIRST EVENING BRIDGE CLUB

Mr. and Mrs. C. J. Dexter entertained the First Evening Bridge club at the Artesia hotel on Thursday, June 20th, at 7 o'clock. Dinner was served in the Coffee Shop, after which the guests adjourned to the Dexter apartment for bridge. Those who enjoyed the evening were: Messrs. and Mmes. Rex Wheatley, V. L. Gates, E. N. Bigler, Mrs. Martin Yates, and Mrs. Mabel Bowers and Mr. and Mrs. Carl Bildstone, substituting guests.

## Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.

—The Advocate.

## Culinary Jingles by Marcia Camp

Johnny Jones was most suspicious Food, he'd found, that ranked nutritious Rarely could be called delicious. Now his face is all a-beam. Trac has come his fondest dream—Mother's making SMOOTH ice cream!

DO YOU know that the very best assurance of success with home-made ice cream is—a box of marshmallows in the pantry? Not so long as they stay in the pantry, of course;

they have to get into the ice cream before they can be responsible for its superior texture. And when they do get into it, thereby ousting the sugar, they turn it from an ordinary ice cream into a marlow. Which is a "can't fail" dessert.

## MRS. NASH HONORED

A lovely party, using as its motif the Mexican theme, was given at the home of Mrs. Lloyd Simon on Wednesday afternoon at 2:00 o'clock, honoring Mrs. T. M. Nash of Memphis, Tennessee. At the close of five tables of contract bridge the guest of honor was awarded a beautiful guest prize. Mrs. Lewis Story received the high score prize and Mrs. Howard Whitson the second high award. The guests were: Mmes. T. M. Nash, Hollis Watson, H. H. Hensley, Howard Whitson, Lewis Story, Leslie Martin, John Lanning, Wm. Linell, Nevin Baird and Carl Bildstone.

## C. W. A. ENTERTAINS VISITORS

The Christian Women's association of Artesia was hostess to about seventy-five guests from Roswell and Carlsbad with a two-course luncheon at the American Legion hut on June 20th. The young people's class repeated the performance of "Youth in Conquest." Miss Betty Nelle Lanning sang between the acts.

## IDLEWHILES WITH MRS. JIM BERRY

Members of the Idlewhiles Bridge club met with Mrs. Jim Berry on Tuesday afternoon for contract. Mrs. James Nellis held high score for the afternoon. Substituting guests for the afternoon were Mrs. Howard Williams, Mrs. A. P. Mahone and Mrs. Lewis Story.

## ATTENDS SCHOOL REUNION

Mrs. J. C. Floore, who is visiting relatives in and near Jacksonville, Texas, had the pleasure of attending a reunion of her former classmates in the N. A. Orr Summer-ville Select School at Omen, Texas, last Friday. About 200 former students attended the reunion, an annual event, and Mrs. Floore had the distinction of traveling the farthest distance to attend of any former student present.

## LITERARY CLUB MEETS WITH I. L. SPRATT

I. L. Spratt was host to the Literary club at his home on Friday evening. A fried chicken dinner was served on the lawn to the following club members: Mr. and Mrs. Nevin Baird, Mr. and Mrs. Leslie Martin, Mr. and Mrs. W. B. McCrary, Mr. and Mrs. W. C. Martin, and Mrs. I. L. Spratt. After the dinner Mr. Spratt gave a statistical discussion of railroad and other means of transportation.

## MRS. COLL ENTERTAINS THE H 2 O BRIDGE CLUB

Members of the H 2 O Bridge club were entertained by Mrs. Alf Coll at her home on Friday afternoon. Mrs. Jeff Hightower won the high score honors. Mrs. Arba Green and Mrs. S. E. Ferree were guests.

## COTTONWOOD LADIES AID

Members of the Cottonwood Ladies Aid met at the home of Mrs. I. P. Johnson last Thursday for their regular meeting. A very interesting program was rendered, after which the hostess served delicious refreshments.

## Ford Shows Speed At Indianapolis Track

(Lower right) Converted Ford travelling the Indianapolis Speedway at 120 miles an hour. (Top) High-compression Bohnalite cylinder heads replacing standard equipment in the high-speed Fords. Note two carburetors. (Lower left) David E. Anderson, Bohn company's chief engineer, designer of high-speed equipment for Fords.

INDIANAPOLIS, IND.—Motor-dom still is talking about the impressive showing made by converted Fords in the 500-mile Memorial Day motor classic.

Speed is to be expected from especially-built racing cars upon which neither time nor money has been spared, but when a stock car such as may be found in anybody's garage is transformed almost overnight into a speed machine capable of better than 120 miles an hour, that's automotive history!

While months, and sometimes years, often pass in preparing a car for the Speedway grind, the Fords were made ready in less than three months. They had converted stock engines—eight-cylinder motors converted to racing size chiefly through the use of higher compression and greater breathing capacity. Like the stock Fords they had Bohnalite aluminum cylinder

# NOW we make it!

Freshly Frozen—Pure—Rich—deliciously different

## ICE CREAM

TRULY BETTER... is the only way we can tell you how different ice cream really is when freshly frozen from the finest and purest ingredients.

We have installed the latest and most modern type of freezer... the SUPER-COLD... only because we wanted to give you the very finest quality of ice cream possible. AND at a price you could afford to pay.

Ice cream freshly frozen... is pure, deliciously rich, FULL FLAVORED. You see it made. You know it is PURE. The children can eat all they like... it's good for them. Servings are exceptionally generous.

COME IN to-day. See ICE CREAM made. Enjoy this truly better ice cream. Take home a quart at the SPECIAL INTRODUCTORY offer.

Memories of childhood days and home-made ice cream will return with the first taste of SUPER-COLD made ICE CREAM.

### Eddy Health News

A meeting of the district health board here last Thursday, a permanent organization was affected and Dr. O. E. Puckett of Carlsbad, Eddy county health officer, was chosen as district health officer of district six, composed of Eddy, Lea and Chaves counties. Dr. Puckett, who last week returned from Palo Alto, California, where he took a special health course at Stanford University, expects to take over his new duties about July 1st and will likely make his home in Roswell.

Mrs. Luella McGaffey Brown of Roswell was the board's choice as permanent chairman, and C. J. Dexter of Artesia was chosen as secretary-treasurer. The board selected Artesia as its meeting place because of its central location. Board members are: Eddy county—C. J. Dexter, Artesia, and J. B. Morris, Carlsbad; Chaves county—Mrs. Luella McGaffey Brown of Roswell and Mrs. F. L. Mehlpow of Dexter; Lea county—Dr. A. P. Terrell of Hobbs and Tom Neal of Lovington, who was appointed, but resigned.

#### STATE DEPARTMENTAL BUDGETS GIVEN O. K.

**SANTA FE**—Departmental budgets for the next fiscal year, submitted to the stateboard of finance yesterday afternoon suffered no slashes from the appropriations made by the last legislative assembly, as the board went through a four-and-a-half hour session.

The University of New Mexico at Albuquerque, which originally had submitted a budget of \$302,574, had its allocation approved for \$268,000, with the qualification that its requested amount would not be cut in excess of \$12,500 if revenues were not forthcoming in the amount expected in the University's budget.

Included in the list of approvals was a highway program entailing an expenditure of \$5,511,532, the same as the amount of revenue anticipated for the department.

### Eddy County Farm News

County Agent Wunsch calls attention to all cotton producers that all 1934 tax exemption certificates must be turned in to be exchanged for new ones for 1935. Anyone having certificates should contact the agent to secure proper forms to sign and send in their old certificates.

Most of the applications for 1935 tax exemption certificates have been completed, however, there are some farmers that have been slow in signing their applications. The date for receiving applications for Eddy county was set for June 22nd. Due to the fact that some of the farmers were out of the county or ill, some extension of time was allowed; however, applications that are not in the state office by the first of July will receive a delayed hearing, therefore, it behooves the farmers to make some effort to sign these applications. If the owner cannot appear to sign these forms, the tenants or some agent can be given authority to make the application.

### Cottonwood Items

Mr. and Mrs. W. H. Clarke and family of Coffeyville, Texas, were guests of Mr. and Mrs. G. G. Golden and family Sunday.

Vertis Crutchfield received medical attention at Roswell Tuesday.

Mrs. J. A. Reed is reported on the sick list this week.

Mrs. G. G. Golden was reported to be ill yesterday.

Mrs. Duncan and family of Carlsbad visited in the home of her sister, Mrs. Bob Bailey, Saturday.

Mrs. H. R. Rodgers and sons of Santa Fe arrived yesterday for a visit with her parents, Mr. and Mrs. Box of the Cottonwood. Miss Helen Vera Funk, an employe in the office of State Superintendent Rodgers, accompanied them and will visit her parents. Mr. and Mrs. Jess Funk, until Mrs. Rodgers returns home Sunday.

Miss Jean Wheatley returned today from Mt. Holyoke, Massachusetts, where she has been attending school. Miss Wheatley traveled by boat from New York City to New Orleans. She then took the train to El Paso and from there by bus.

### Rufus Rowan Dies Suddenly Tuesday At Outwood, Ky.

Rufus Rowan, aged 40, son of Mr. and Mrs. Beecher Rowan died suddenly Tuesday afternoon near 2:00 p. m. at Outwood, Kentucky, according to a telegram received here a short time after his death. Details surrounding the death of Mr. Rowan are meager, but it was said he was found in an unconscious condition and died in a hospital a few moments after he was found. The cause of his death was not learned. Telegrams of inquiry were sent into Outwood, but additional developments surrounding his death had not been learned up to last night.

Mr. Rowan was reared in the Artesia community and was well known here to the earlier residents. He was an ex-soldier of the World War and at one time was an employe of the Advocate.

Funeral arrangements are pending. It is probable the body will be returned here for burial. In addition to his parents, the deceased is survived by two brothers and four sisters; Ted Rowan of Los Angeles, California; Kenneth Rowan of Los Angeles; Mrs. Bruce McLean, Dimmitt, Texas; Mrs. Rex Williams of San Diego, California; Mrs. Ferris Arnold of Tucson, Arizona and Miss Alene Rowan of Los Angeles, California.

Mrs. Henry Caudel and Mrs. Stanley Blocker were in Hobbs on Wednesday. Mrs. Caudel transacted business and Mrs. Blocker visited Mrs. T. C. Bird.

Mrs. S. B. Miller, mother of Mrs. Fred Mann, who has been visiting here for several weeks, will return to her home in Breckenridge, Texas, on Sunday.

Mr. and Mrs. Howard Stroup left Friday for Tucumcari to spend a short time visiting Mrs. Stroup's parents before going on to Eagle Nest Lake to fish for a short time.

Supt. and Mrs. C. R. Bernard of Lake Arthur left this morning for Fort Collins, Colorado, where they plan to move on their farm. Supt. Bernard who has been superintendent of the Lake Arthur schools for about six years will retire from the teaching profession and devote his time to his farming interests.

LEGAL ADVERTISEMENTS

IN THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF NEW MEXICO.

IN THE MATTER OF ALBERT T. WOODS, INCORPORATED, a Corporation, Debtor.

In Proceedings for Corporate Reorganization Under Section 77-B of the Bankruptcy Act.

NOTICE

TO THE CREDITORS AND STOCKHOLDERS OF THE DEBTOR:

The petition of Albert T. Woods, Incorporated, a corporation, for a reorganization and for relief under Section 77-B of the Bankruptcy Act has been approved as properly filed under said section, and an order was in these proceedings filed on June 21, 1935, temporarily continuing the debtor in possession of its properties and authorizing the debtor to operate its business pending the further order of the Court, and directing proof of claims of stockholders to be filed with the Clerk of the United States District Court for the District of New Mexico, at Santa Fe, on or before the 15th day of July, A. D. 1935, or said claims to be barred, and directing the debtor to give notice in accordance with the order of the Court.

NOW, THEREFORE, NOTICE IS HEREBY GIVEN pursuant to the aforesaid order of a hearing to be heard before the Court in the United States Court House at Santa Fe, New Mexico, July 18th, A. D. 1935, at 10 o'clock A. M. for the following purposes:

- (a) Of determining whether or not a trustee or trustees of the debtor's estate shall be appointed or the debtor continued in possession thereof under the supervision and control of the Court.
(b) Of hearing and either approving or disallowing all claims of creditors.
(c) Of considering and taking such action as may be legal and proper with reference to any plan of reorganization proposed by the debtor; and
(d) Of taking any and all further action in this proceeding as may at that time be lawful and proper.

That all creditors and stockholders must file their claims against, or interest in, said corporation on or before July 15, A. D. 1935, or such claims shall be barred, and the creditors or stockholders holding the same may not participate in any plan for reorganization, except on order for cause shown.

Dated this 24th day of June, A. D. 1935. ALBERT T. WOODS, INCORPORATED, a Corporation, By ALBERT T. WOODS, President.

Attest: SIDNEY S. WOODS, Secretary. 26-2t

IN THE PROBATE COURT OF EDDY COUNTY, STATE OF NEW MEXICO.

IN THE MATTER OF THE ESTATE OF JOHN D. MCCLURE, NO. 748

NOTICE

Notice is hereby given that the undersigned was on the 7th day of June, 1935, appointed the executrix of the estate of John D. McClure, deceased, by the Hon. P. J. McCall, Probate Judge.

THEREFORE all persons having claims against said estate are hereby notified to file same with the County Clerk of Eddy County, within one year from date of said appointment as provided by law or the same will be barred. (Signed) EDITH A. MCCLURE, 26-4t Executrix.

2,918,678 Votes Are Cast In The Four Farm Referenda

STATE COLLEGE—A recapitulation of final figures from the four agricultural referenda held during the last eight months announced last week by the agricultural adjustment administration, shows a total vote cast in the four referenda, of 2,918,678. Of this number, the vote in favor of continuing the agricultural programs was 2,511,109 and the total of those opposing was 407,569.

More than 86 per cent of the votes cast favored a continuance of the programs. Also, the total vote shows that the percentage of farmers who participated in the several referenda, compared to the total number of those who were eligible to vote, was considerably higher than the usual percentage of eligibles voting in civil elections. The total vote was divided as follows: In the corn-hog referendum, 555,690; on the Bankhead act, 1,521,887; on the Kerr-Smith tobacco act, 394,540; in the wheat referendum, 466,561. The vote for continuance of the respective programs was: corn-hog, 374,585; cotton, 1,361,347; tobacco, 370,907; and wheat, 404,270.

In the corn-hog referendum approximately 70 percent of the votes cast were in favor of continuing the adjustment program. This was the lowest percentage supporting the program in any of the referenda. The percentages in the other three referenda were as follows: cotton, over 89 percent; tobacco, over 97.3 percent, and wheat, over 86 percent.

Those voting on the Kerr-Smith tobacco act voted on the basis of acreage and more than 92 percent of the acreage was voted in favor of continuance of the act. This was the only program under which voting was on the acreage basis.

J. B. WESTAWAY DIES AT CARLSBAD

Joseph B. Westaway, aged 84, father of Richard Westaway, county assessor, died at his home in Carlsbad on June 19th, after an extended illness. Mr. Westaway came to New Mexico in 1928 from New Jersey. He was a retired sea captain and had spent most of his life sailing merchant ships. Funeral services were held at the West Funeral Home Friday. A widow, a son, Richard Westaway of Carlsbad, and three daughters survive the deceased.

WANTED—Clean Cotton Rags at The Advocate.

praying for his discharge and a judicial determination of the heirs as set forth in the decedent's will, and that the Hon. P. J. McCall, Probate Judge of Eddy County, New Mexico, has set the 25th day of July, 1935, at the hour of 2:00 p. m. at the Court room in said Court in the City of Carlsbad, New Mexico, as the day, time and place for hearing objections, if any there be, to said report and petition and to render the Court's decree determining the heirship of said decedent and determining the ownership of decedent's estate and the interest of each respective claimant thereto or thereunto.

THEREFORE any person or persons wishing to object are hereby notified to file their objections with the County Clerk of Eddy County, New Mexico, on or before the date set for said hearing.

You are further notified that Watts and Stapp of Artesia, New Mexico, are the attorneys for the Executor.

Dated this 8th day of June, 1935. R. A. WILCOX, County Clerk.

NOTICE STATE ENGINEER'S OFFICE

Number of Application RA-1047 Santa Fe, N. M., May 27, 1935.

Notice is hereby given that on the 24th day of April, 1935, in accordance with Chapter 131 of the Session Laws of 1931, J. H. Everest of Oklahoma City, County of Oklahoma, State of Oklahoma, made application to the State Engineer of New Mexico for a permit to change the location of a well in the Roswell Artesian basin by deepening well filed under RA-1047 from approximately 800 feet to 1100 feet and replace the rights of well filed under RA-953 located in the SE 1/4 SE 1/4 Section 15, T. 18-S., R. 26-E., N. M. P. M. to RA-1047 located in SW corner NE 1/4 SE 1/4 Section 15, T. 18-S., R. 26-E. Applicant agrees to plug well filed under RA-953 and restrict rights of well RA-1047 to those of original declaration and permit of RA-953 and RA-1047.

Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 7th day of July, 1935, the date set for the State Engineer to take this application up for final consideration unless protested. THOMAS M. MCCLURE, State Engineer.

Government Trying To Rebuild Livestock In The Drought Areas

With grass and green feed crops gaining sufficient growth to sustain livestock in a large part of the area stricken by the spring drought of 1935, the government's drought relief operations are now being centered on methods for facilitating return of foundation livestock to the drought areas, and distributing crop seeds especially adapted to these areas. The federal livestock feed agency is curtailing its activities and the cattle transfer unit is discontinuing operations.

Most of the drought area of 1934 was relieved by spring rains, but a large sector, comprising 131 counties in northeastern New Mexico, eastern Colorado, western Kansas, southwestern Nebraska, western Oklahoma and west Texas, was designated as drought territory as of May 17, 1935. Timely rains during the latter part of May have, to a great extent, removed the danger to crops in this area, except for a number of counties in New Mexico, Texas, Colorado and Oklahoma. The drought resignations will be effective until June 30. New designations as of July 1 will include counties where any danger remains, and where the areas have not returned to a self-supporting basis in livestock feed.

On June 5, western carriers put into effect a tariff which re-establishes reduced rates on shipments of hay, straw, and other roughage to the 1935 drought area, which received rains only recently and will continue to rely upon shipments of dry feed until pasture has attained sustaining growth. Under this rate, shipments of hay to the 131 drought counties in the states above mentioned command a rate of 66 2/3 percent of the normal hay rate, while straw and other roughage may be shipped into the area at 50 percent of the normal

CHAIN TELEGRAMS STAND TO COST 3 1/2 MILLIONS PENALTY

TRENTON, New Jersey—Chain telegrams recently flooded the country may cost the Western Union Telegraph company \$2,600,000. The company was sued for that amount in New Jersey Supreme Court last week under a "common informer" gambling statute of 1877.

Under the old law William F. Zwirner of Merchantville, New Jersey, who filed the suit, stands to win \$1,800,000 for his service to law and order. The law provides that the "informer" gets half of the penalty fixed by the court. The statute recently was upheld by the court of errors and appeals. It gives half of any penalty to the county in which the violation occurred.

Zwirner's \$3,600,000 objective was figured at the rate of \$2,000 maximum fine allowed for each violation—for each of \$1,800 chain telegrams he alleged the company accepted here between June 7 and 15.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock. —The Advocate.

may rate. The new rate expires August 31, 1935.

"My Skin Was Full of Pimples and Blemishes" Says Verna Schleppe: "Since using Adlerika the pimples are gone. My skin is smooth and glows with health." Adlerika washes BOTH bowels, rids you of poisons that cause a bad complexion. Palace Drug Store.

DEMPSTER VERTICAL CENTRIFUGAL PUMPS. Cost Less to Install and to Operate. Dempster Vertical Centrifugal Pumps do away with the expense of big holes, posts, timbers and costly equipment. The only pump designed to be placed in a 24-inch casing. Drive shaft runs in oil bath in oil-tight housing. Timken Roller Bearings carry belt pull and thrust. Sturdily constructed for years of expense-free service. Price Range \$450.00 TO \$650.00.

OUR WANT ADS GET RESULTS

Drive far—drive fast —without a worry!

With Conoco Germ Processed Oil in your crankcase, you KNOW the strain won't hurt your motor!

Tests prove this new alloyed oil has 2 to 4 times greater film strength than plain mineral oils and resists heat better!

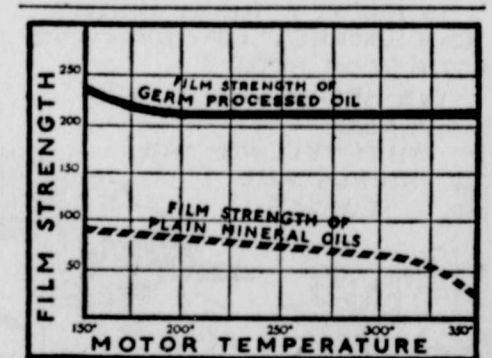

On July 4th or week-end and vacation trips, you'll want to drive far and get there in a hurry. And you don't want that nagging worry of "I wonder if this speed and heat will hurt anything in my motor."

You can't always be sure when you use plain mineral oils, for they have little film strength and oils over-refined by new cleansing processes have even less. Moreover, as motor heat goes up, these oils rapidly lose film strength.

Film strength is the load-carrying ability of an oil, the quality that keeps bearings and cylinders from wearing out. Lack of film strength results in costly damage.

You can drive without a worry when you use Conoco Germ Processed Motor Oil! It has 2 to 4 times greater film strength than any plain mineral oil. Heat does not lessen this advantage.\*

Supervised road tests—over good and bad roads, at low and high speeds, in all kinds of weather—give practical proof that Germ Processed Oil protects motors better.

CONOCO GERM PROCESSED MOTOR OIL PLAIN MINERAL OILS

\*HERE'S THE PROOF Note that as heat increases, the plain mineral oils continue to lose film strength, but that above 225° (Minimum Summer crankcase temperature) Germ Processed oil's film strength is not affected by heat. Tests made with Timken machine.

In every test, gravimetric measurement of motor bearings showed that Germ Processed Oil prevented wear far better than plain mineral oils. Tested in a fleet of cars equipped with the new alloy-metal bearings used in many 1935 cars, a high-quality plain mineral oil permitted 45% more wear on connecting rod bearings than did Germ Processed Oil.

Conoco Germ Processed Motor Oil is the first alloyed oil—alloyed, much as metals are, by adding concentrated oily essence to highly refined oil. It is the only oil made by the Germ Process. It is the oil with the "Hidden Quart" that stays up in your motor and never drains away!

Say "O. K.—Drain"—fill with Germ Processed Oil. Drive far—drive fast—without a worry!

Say "OK-Drain" - FILL WITH CONOCO GERM PROCESSED MOTOR OIL

## Health Column

Conducted by Dr. J. R. Earp, Director, New Mexico Bureau of Public Health.

**Tuberculous Pets**  
The importance of cattle as carriers of tuberculosis has long been recognized. Tuberculosis in domestic pets is a subject that has attracted surprisingly little attention. Yet dogs and cats do get tuberculosis. Routine autopsies carried out in veterinary institutions seem to indicate that in some parts of the world dogs and cats suffer more often than in others. In Berlin three dogs in a thousand have tuberculosis; in France five dogs in a hundred. In Berlin the percentage of tuberculous cats is 2; in France 13.

Two Scandinavian investigators named Hjarre and Herlitz have reported this year six instances in which the pet seems to have been infected by a human friend. Here is one of them:

A poodle lived for seven years with a healthy mistress and remained well all that time. A visitor came to the house in the spring of 1932; began to cough in May, 1932, went away in the fall and died from tuberculosis in February, 1933. She had been very friendly to the poodle and even fed him from her own plate. The dog began to cough in October, 1932, and next month was found by the experts at the veterinary college to have tuberculosis.

Sheep dogs, fox terriers and airedales appear to be the most susceptible breeds of dogs. Male dogs, it is said, are more liable to tuberculosis than female dogs and cats more susceptible than dogs. Health seekers will be glad to be told that they should be careful not to infect their pets.

Because dogs and cats may catch the disease from humans, it does not necessarily follow that humans can catch the disease from dogs and cats. But the possibility is worth bearing in mind.

## VIRGINIA MAN HEADS ROTARY

**MEXICO, D. F.**—The election of Ed R. Johnson, Roanoke, Virginia, to the presidency of Rotary International, for the ensuing year was announced Friday at the final plenary session of the Rotary convention.

## AAA Fixes A Six Cent Cotton Tax

**WASHINGTON**—The Agricultural Adjustment Administration announced Tuesday that 12 cents per pound has been determined as the average price for lint cotton on the ten designated spot cotton markets for a representative period, as the base for determining the rate of the tax on the ginning of cotton under the Bankhead act. This determination by the secretary, under the act, automatically fixes the tax at six cents per pound. The determination proclaimed and in effect for the 1934-35 cotton season was 11.34 cents a pound, with the tax at 5.67 cents a pound.

Under the act, the average central market price per pound of basis 3/8-inch middling spot cotton on the ten designated spot markets constitutes the base for computation of the tax levied on the ginning of cotton in excess of the producers allotment of tax-free cotton. A total of 10,500,000 bales (500 pounds net weight each) of tax-exempt cotton for the current year already has been allotted to producing states.

The act fixes the rate of the tax at fifty percent of the proclaimed price, but in no event at less than five cents per pound. The price proclaimed by the secretary to be used under the act as a base until a different market price shall be determined and proclaimed, was certified as the average central market price over a represented period for 3/8-inch middling spot cotton on the following markets designated under the cotton futures act: Augusta and Savannah, Georgia; Dallas, Houston and Galveston, Texas; Little Rock, Arkansas; Memphis, Tennessee; New Orleans, Louisiana; Montgomery, Alabama; and Norfolk, Virginia.

## STATE TO OPEN FIVE PORTS OF ENTRY JULY 1

**SANTA FE**—Five ports of entry stations will be opened in New Mexico July 1, to be located at Deming, Carlsbad, Jal, Clovis and Clayton. Three men will be employed at each station, working eight-hour shifts. The agents are empowered to enforce all revenue laws.

Badges and regulations have not been completed but the discussions will continue until these points are settled, according to John Bingaman, revenue commissioner, one of the three members of the port of entry board.

## Lake Arthur Items

Miss Ella Ohlenbusch, Reporter

Edwin Selby from Anthony was visiting friends and transacting business here Monday.

Mr. and Mrs. J. B. Crook and son Thomas Arthur spent Sunday at the home of Mr. and Mrs. C. R. Nail at Hogerman.

Mrs. Doring of Gallup was a pleasant visitor at the home of her sister, Mrs. Lyle Moots, last week.

Little Misses Geraldine and Joy Dixon returned to their home at Roswell after a ten days visit with their parents, Mr. and Mrs. J. Jones.

Mr. and Mrs. Millard Derrick of the Cottonwood community were visiting Sunday at the home of his sister, Mr. and Mrs. Roy Hammons.

Mr. and Mrs. C. R. Bernard and Mr. and Mrs. J. A. Kingston motored to Carlsbad Tuesday where they visited and transacted business.

Mrs. B. C. Moots has for her house guests her son Eugene Moots of Chicago and another son, Roy Moots from Belen. They plan to visit here about a week.

Miss Alma Lane went to Artesia to be with her sister, Mrs. O. V. Moore, during the absence of Mr. Moore, who was called to Texas on account of the serious illness of his father.

Mrs. Zee Pate accompanied her sister and family, Mr. and Mrs. Henry Perry of Hagerman, to Hatch where they will visit with their parents, Mr. and Mrs. T. F. Thommason, for a week or ten days.

Mr. and Mrs. D. H. Hill entertained several of their friends with an ice cream supper at their home Sunday night. Among those present were Mr. and Mrs. Ned Hedges and family and Mr. and Mrs. W. L. Bradley.

## SOUTH RAIL SERVICE IS RESUMED MONDAY

Rail service from Carlsbad south to Pecos, Texas, was resumed Monday after two bridges washed out by June 12th floods were repaired. Two bridges were washed out by heavy rains on June 12th, one over the Delaware creek and one near Red Bluff. The damages cost the Santa Fe about \$7,000, it was said.

## LAS CRUCES MAN IS NEW HEAD OF FIREMEN

Miss Ella Ohlenbusch, Reporter

New Mexico State Firemen's association closed its thirteenth annual convention at Santa Fe Saturday noon after electing Chief J. B. Camunez of Las Cruces president for the next year and designating Albuquerque as its next convention city.

Other officers elected were: Chief H. J. Mendenhall, Santa Fe, first vice-president; Chief S. E. Brentari, Gallup, second vice-president; Chief J. B. Fish, Estancia, third vice-president, and Ted Rosenwald, Albuquerque, secretary-treasurer.

The convention, begun at Santa Fe last Thursday, drew delegates nearing the 200 mark, said by officers to be the largest number in the history of the state convention.

LEGAL ADVERTISEMENTS

ORDINANCE NO. 24

AN ORDINANCE FIXING THE AMOUNT OF LICENSE FEE TO BE CHARGED FOR THE SALE OF ALCOHOLIC LIQUORS...

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ARTESIA, NEW MEXICO:

SECTION ONE Definition of Terms: (a) Alcoholic liquors shall mean and include any and all distilled or rectified spirits, potable alcohol...

vided, however, that no license shall be issued to any person who shall not, as a condition precedent thereto, secure a license from the State Board of Liquor Control...

(a) The City Council of the City of Artesia may issue to any person who is the proprietor or owner of any mercantile business...

(b) Beer shall mean any beverages obtained by the alcoholic fermentation of any infusion or decoction of barley, malt and hops...

(c) Wine shall be construed to include the words "fruit juices" and shall mean any alcoholic beverages obtained by the fermentation of the natural sugar contained in fruit or other agricultural products...

(d) The term package shall mean any container or containers or receptacle or receptacles for the purpose of containing any alcoholic liquors, beer or wine...

such violation shall have occurred. When so proposing to cancel a license as herein provided, the City Council shall hold a public hearing...

SECTION SEVEN Time Licenses Shall Run:

All licenses provided for in this Ordinance shall expire June 30th of the year 1936, and may be renewed from year to year under the rules and regulations of the City Council...

(a) Dispensers License: The City Council of the City of Artesia may issue a dispenser's license to any person who is the proprietor or owner of any hotel, restaurant or club...

(b) Club Licenses: The City Council of the City of Artesia, New Mexico, may issue a club license to any bona fide club...

(c) Restaurant, as herein referred to, shall mean a place provided with special space and accommodation where, in consideration of payment food (without lodging) is habitually furnished to guests at tables or seated at counters...

(d) Hotel, as herein defined, shall mean a place provided with space and accommodations where, in consideration of payment, food and lodging are habitually furnished to guests...

(e) Club, as herein defined, shall mean an organization of persons organized or operated under the laws of New Mexico, operated for non-profit to members, with a membership of not less than twenty-five regularly admitted and enrolled members...

BULK CUTTING ESTATE IS LEFT TO RELATIVES

Value of Property Placed Near \$4,000,000; His Individual Gifts Total Over Million Dollars To Residents of State.

WASHINGTON—An estate valued at almost \$4,000,000 was left by Senator Bronson Cutting of New Mexico, killed last month in an airplane crash in Missouri.

His will, filed Monday with the District of Columbia registrar, left individual bequests totaling \$1,106,000.

Mrs. Justine B. Ward and Mrs. Olivia James, sisters, and Iris Origo, a niece, will inherit the bulk of the estate.

An estimate of \$3,600,000 was placed on the value of the late senator's personal property and \$376,260 on his real property.

Most to Bacas Jesus M. Baca of Santa Fe, New Mexico, was bequeathed the largest single amount—\$150,000—in addition to Senator Cutting's newspaper, the Santa Fe New Mexican.

Herman S. Baca and Briau Dunn of New Mexico were left \$100,000 each.

To his close friend and senate colleague, Senator Robert M. La Follette of Wisconsin, Cutting left \$50,000, and to the latter's brother, Philip La Follette, governor of Wisconsin, \$25,000.

The late senator, who was a bachelor, wrote his will in long-hand on senate stationery on December 20, 1934. He provided legacies for every employe on his Washington staff and left \$25,000 to his secretary, Edgar Puryear.

His mother, Mrs. Olivia M. Cutting of Oakdale, New York, and J. M. Baca were named executors. Senator Cutting maintained residences in Washington and Santa Fe and owned property in New York state.

Carlsbad Men Beneficiaries Caswell Neal, J. S. McCall and Aud E. Lusk of Carlsbad each received \$2,500 bequests in the will of former Senator Bronson M. Cutting, which was filed in Washington for probate Monday.

McCall and Neal, Carlsbad attorneys, and democrats in politics, supported Cutting in the recent election in which he was re-elected to the senate. Both expressed surprise when notified of the bequest. Lusk could not be reached.

Ice Cream Making Machine Installed

By G. Burkhalter Grady Burkhalter, local Frigid-aire representative, has recently installed the latest type of ice cream maker, The Super-Cold, in the Palace of Foods.

Mr. Burkhalter reports that he has enjoyed a splendid business since coming to Artesia. In addition to the installation of a number of electric refrigerators in local homes, he has also served several business institutions with commercial refrigeration and has made three surveys with a view to installing an air conditioning system in offices and business houses.

Mr. Burkhalter has also served the rural communities of Eddy county with several installations of the Koler and Delco electric lighting systems. Rural electrification is available in many instances under an FERA set-up, which enables farmers and ranchers living in remote sections to enjoy all advantages brought to the home by electricity.

HERE'S A GOOD HOT WEATHER SNAKE STORY

A. M. Kilgore, while prospecting a few days ago up the Glade in the vicinity of what is known as Brown's Spring, was suddenly frightened by an unusual rattling of what seemed to be rattlesnakes. Further investigation proved the rattling came from none other than the genuine old rattlers. They were located in a crevice of sand rock. Kilgore made a hook of heavy wire and began pulling them out and killing them. He pulled out twenty-six when a turn in the crevice made his hook no longer of service, but the rattling continued. — Farmington Times-Hustler.

DISTRICT SINGING CONVENTION MEETING

The next meeting of the Eddy, Lea and Chaves district singing convention will be held at Lovington June 30, it was announced at Lovington last week. Representatives are expected to attend from the three counties. A basket dinner will be served on the grounds.

WANTED—Clean Cotton Rags at The Advocate.

Security Safety

The Deposited Funds . . .

—Are given employment as reserves, investments, loans and cash on hand

A bank sets aside a definite percentage of deposits as legal reserves required by law. Then a voluntary "secondary reserve" is set up consisting of short-term, highly liquid investments. A sufficient amount of cash is kept on hand to meet daily requirements. This money is circulated constantly through local business channels.

The bank invests a part of its funds in government, state and municipal bonds and other sound securities. It loans a portion locally to business men and customers.

It is the daily work of this bank to safeguard depositors' funds, render helpful financial services and find safe, useful employment for the money entrusted to our care.

G. U. McCrary returned Sunday from Corpus Christi, Texas, where he spent some time visiting relatives and fishing.

A son was born to Mr. and Mrs. Lawrence Goodell on last Thursday evening at the St. Mary's hospital in Roswell.

Mr. and Mrs. Jerry Jernigan of Hobbs visited the parents of Mr. Jernigan, Mr. and Mrs. E. T. Jernigan, over the week-end.

Mr. and Mrs. N. A. Lytle of Phoenix, Arizona, were the dinner guests of Mr. and Mrs. W. B. McCrary on Tuesday evening.

The small son of Mr. and Mrs. Jim Francis underwent an operation for appendicitis at the St. Francis hospital in Carlsbad last week and is recovering.

Mr. and Mrs. C. J. Dexter motored to Carlsbad Sunday afternoon to meet Mr. and Mrs. R. H. Henderson, who were passing thru there en route to their home in Ft. Worth, Texas.

Mrs. B. B. Thigpen, mother of Mrs. Ben Dunn and her two granddaughters, Margaret and Catherine McDermott and Mrs. Gladys McDermott, who have been visiting in Artesia, left this week for Reserve to spend the remainder of the summer with Mr. Thigpen.

Mr. and Mrs. Ray Pate returned last week from a visit with Mrs. Pate's parents, Mr. and Mrs. Cavin of Lexington, Oklahoma. Miss Lois Cavin, who attended high school here the past year, accompanied Mr. and Mrs. Pate to Lexington and remained to spend the summer with her parents.

Laurence Lockney of Greenville, California, former resident of Artesia and an employee of The Advocate, writes and requests a copy of our special issue of May 30th. Mr. Lockney started his printing career with The Advocate in 1906 or 1907. He is now publisher of the Indian Valley Record of Greenville, California.

Mrs. Joe Hamann, Mrs. Kenneth Williams and Mrs. Fletcher Collins motored to Dexter Thursday morning to attend the wedding of Miss Alma Thompson, former public school music supervisor of the Artesia schools, to Mr. Carl Caruthers of Dexter. The ceremony was performed at the Presbyterian gardens.

### Oilers Win From Cloudercroft 12 to 8

The Artesia Oilers out-hit the CCC camp nine from Cloudercroft ten to twelve to defeat the visitors twelve to eight at the Brainard Park here Sunday afternoon. It was the sixth game won by the Oilers against six games lost, making the season's percentage 500. Bilbrey hit his second home run in three games played with Artesia in the fifth inning.

The score by innings:  
CLOUDCROFT— R H E  
020 004 020— 8 10 9  
ARTESIA— R H E  
101 232 12x—12 12 9

Home run in fifth inning.  
Hits: One home run, one triple, three doubles, seven singles.

### LABOR SHORTAGE ON FARMS

Due to the rains and the necessity of replanting several times, local farmers and especially those in the Cottonwood section are facing a shortage of laborers, although the shortage is probably temporary. Farmers have employed a number of extra laborers, but are needing more, it was said last week. The need will probably exist until the last crops are planted and cultivated for the first time.

## BE SURE the Stove You Buy Has the Amazing New

# BAND-A-BLU BURNER

## ONLY Coleman Instant-Gas Ranges HAVE THIS EXCLUSIVE COLEMAN FEATURE

This wonderful new burner—now on all Coleman Instant-Gas Stoves—brings you better cooking performance than you have ever known before. Lights instantly like gas—Cooks better than gas.

1. Reduces Fuel Cost One-Fifth. Four quarts of fuel now do the work of five.
2. 50% Wider Range of Cooking Heat. You save by using a lower flame for most cooking.
3. Two Cents Worth of Fuel cooks an average meal for a family of five. Fuel cost as low as 75¢ a month.

The Coleman Instant-Gas makes its own gas from ordinary gasoline. Leads in style and beauty. Models for every kitchen and purse.

## When The Weather Is Hot Try An ELECTRIC REFRIGERATOR

If you do not own an ELECTRIC Refrigerator, it will pay you to test each one of the various outstanding electric refrigerator advantages, on one of the hot days, this summer.

1. Positive food compartment temperature control—below 50 degrees, as recommended by The Bureau of Home Economics, U. S. Department of Agriculture.
2. PLENTY of full-sized ice cubes for each member of the family and your guests. An abundant supply frozen between each meal.
3. Desserts freezing on quick predetermined schedule, so that you may definitely plan to serve them at the proper minute. (One to two hours is required for most desserts).
4. Low costs. Prices have been greatly reduced.
5. Operating costs have been greatly reduced. The new models use from 50 to 75 per cent less current than those generally sold five years ago.

In making your tests you will need a thermometer.

**CHRISTIAN SCIENCE SOCIETY**  
613 West Main St.

10:15 a. m. Sunday school.  
11:00 a. m. Sunday services.  
"Christian Science" is the subject of the lesson-sermon which will be read in all Societies and Churches of Christ, Scientist, on Sunday, June 30th. The golden text is: "Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ." (Rev. 12:10).

Among the citations which comprise the lesson-sermon is the following from the Bible:  
"There came also a multitude out of the cities round about unto Jerusalem, bringing sick folks, and then which were vexed with unclean spirits: and they were healed every one." (Acts 5:16).

The lesson-sermon also includes the following passage from the Christian Science text book:  
"We need to understand the affirmations of divine science, dismiss superstition, and demonstrate truth according to Christ."

**FIRST CHRISTIAN CHURCH**

Services for the week:  
Sunday:  
9:45 Bible school, Ben Dunn, superintendent.  
11:00 Morning worship. Sermon subject: "Interdependence Day."  
7:00 Young People's meeting. Leader: Lee Shearman. Topic: "What Makes A Nation Great?"  
8:00 Evening preaching service.  
Wednesday:  
8:00 Bible study. Read the third and fourth chapters of Matthew.  
THOMAS MASSIE, Pastor.

**FIRST BAPTIST CHURCH**

Pastor, P. G. Woodruff.  
Sunday school superintendent, A. L. Wilkinson.  
B. T. U. director, T. F. Wilson.  
9:45 Sunday school. Remember we are not closing up for the hot weather. Help by your presence to beat the "summer slump."  
11:00 Song service and sermon.  
7:00 B. T. U. service. We have a place of training here for all ages, from the cradle to the grave.  
8:00 Song service and sermon.  
Choir practice at seven o'clock Wednesday night and prayer meeting at eight o'clock. We should like to have enough of the officers and teachers of the Sunday school present for a meeting after the prayer service.  
Put first things first and lend your support to the Lord's work.

**CHURCH OF CHRIST**  
Corner 7th and Grand Ave.  
A. G. Hobbs, Jr., Local Evangelist.

Our meeting is in full sway. We are having large crowds and good interest is being manifested.  
We are going to have a great day this coming Lord's day. We plan to spread dinner again at the park and have another service at 2:30 p. m.  
The program for the day will be as follows:  
Bible study 9:45 a. m.  
Preaching 11:00 a. m.  
Dinner at city park following morning service.  
Preaching 2:30 p. m. Subject: "Echoes From the Cross."  
Preaching 8:00 p. m. "Beyond the River of Death."  
The subjects from Thursday will be as follows:  
Thursday 8:00 p. m. "Linked Truth."  
Friday 8:00 p. m. "The Change of Heart."  
Saturday 8:00 p. m. "Beyond

### YOUR CHILD AND THE SCHOOL

By Dr. ALLEN G. HILAND  
Director, Physical and Health Education  
New Jersey State Department of Public Instruction

#### Eating Habits

Consider these bits of common sense.

First of all, what you do the child imitates. Eating habits are contagious. If you say one thing but do something else, the value of what you say is lost. The child will do as you do. Don't expect anything else. You are the model. If you don't eat carrots, don't wonder when your child doubts your assurance that "carrots are good for you." Children aren't that gullible.

Avoid forcing. I mean that vigorous, stern insistence—"you shall eat it or I'll know the reason why." Rebellion, resentment, unhappiness are the only results. Your chance is lost. Do not discuss food values at length nor in technical terms, such as calories, vitamins, minerals and the like. You may understand them but children don't, and more, they don't want to.

It is decidedly bad to make children "food conscious." You can do so much more by casual, quiet suggestion in a conversational manner, saying, "this milk makes strength" or, "this cheese builds muscle" or, "this fruit keeps you well."

**100 MILLION BOND ISSUE OFFERED BY U. S.**

WASHINGTON—Secretary Morgenthau Sunday night offered to sell \$100,000,000 of 3 per cent bonds of 1946-48, on a "highest bid" basis.

Taking advantage of favorable market conditions, Morgenthau last month sold a similar issue at an average price of 103.4 to yield the purchaser less than 2.60 per cent.

The issue will be dated June 15, 1934, and mature on June 15, 1948, but be called for redemption on and after June 15, 1946.

### BIG WHEAT HARVEST OPENS ON PLAINS; MANY SEEK WORK

KANSAS CITY—The big southwest wheat harvest was on Sunday—the prairie's biggest show.

Kansas farmers are cutting wide swaths through fields expected to yield 67,000,000 bushels, 12,000,000 less than last year's crop. Combines, machines which reap and thresh in one operation, have been ousted in favor of the horse-drawn binders in many sectors because of the unusually wet season.

Around Enid, the wheat capital of Oklahoma, combines have been operated in the fields between showers but the bulk of the harvest has been delayed. Oklahoma farmers look forward to a crop of 33,700,000 bushels, considerably under last year's total of 37,348,000.

Despite warnings from chambers of commerce that no outside help is needed, harvest hands are pouring into the Oklahoma towns.

CURRENT EVENTS PHOTOGRAPHED FOR  
**THE ADVOCATE**

**HONORED**—Newly-elected Imperial Potentate Leonard P. Stuart (right) is presented with a new Cadillac by Richard H. Grant, vice-president of General Motors Corporation, which supplied three hundred and fifty cars during the annual Shrine convention in Washington, D. C.

**BROUGHT MARTIAL LAW**—Scenes of violence like this brought martial law in Omaha, Nebraska, during the street car strike. At Governor's orders guardsmen removed all trolleys from streets and prevented further bloodshed.

**"DOING NICELY, THANK YOU"**—Norma Shearer, (Mrs. Irving Thalberg) lovely screen star, was presented recently with a baby girl. She will return to pictures in the fall, in "Romeo and Juliet."

**MAKES GRAFT CHARGES**—Ewing Y. Mitchell, ousted Assistant Secretary of Commerce, who charged that "improper favoritism and graft abound" in the Department of Commerce. A congressional inquiry into his charge has been started.

**UNIQUE COMMENCEMENT**—Graduates from the Boys' Anti-Crime Council, the first organized movement to nip crime before it starts, receive emblems from J. Edgar Hoover, head of the famous G-men.

**NO BUNK—IT'S A BED!**—One of the many new ideas in furniture to be exhibited at the summer furniture market in the Merchandise Mart, Chicago, next month. Floor coverings, lamps and curtains and drapery markets will be held concurrently in "the world's largest building."

**Vesely Favors Amendment 3**

SANTA FE—Financial gain to New Mexico and a benefit to the livestock interests would result if the state's voters adopt constitutional amendment No. 3, relating to the exchange of state and federal lands, Frank Vesely, commissioner of public lands, said Saturday.

In a letter of Rupert F. Asplund, director of the Taxpayers association of New Mexico, the land commissioner said that about 600,000 acres of state land, at present unleased and non-revenue producing, could be exchanged for land within the ranges of the different livestock producers.

"Also if the amendment carries," his letter read, "the commissioner of public lands will have power to remedy the supposed transfer of the Carlsbad Caverns and make a legal transfer from the state to the federal government and secure proper reimbursement for the lands lost in the exchange."

**CALVARY BAPTIST CHURCH DISBANDED**

The Calvary Baptist church in a business session last night voted to disband. The church membership numbered thirty-four. Only ten of these aided in the organization of the church eighteen months ago. A number of the present membership plan to unite with the First Baptist church.

S. E. Ferree and Carl Martin were in Carlsbad on business on Thursday of this week.

Advocate Want Ads Get Results

**WANT ADS GET RESULTS**

"When you have something to sell, Advocate want ads will get results," E. C. Jackson, prominent Lake Arthur real estate man, said here this week. Mr. Jackson had some farm land listed at \$2.50 per acre near his home. He decided to try for a buyer thru a want ad. The want ad brought results before the second issue, from a neighbor. "Stop that want ad," Mr. Jackson said as he came into the office. "I have already gotten results, but am still getting inquiries."

**WE THANK YOU**

**NOTICE!**  
Please do not send money in an envelope for subscriptions—it is liable to be lost—send a money order or check.

A delegation of University of New Mexico summer school faculty and students will leave Albuquerque July 5 for a trip to the Carlsbad Caverns. The trip is one of a series of recreational events planned for summer school students.

**Plan To Train Young People**

WASHINGTON—A fifty million dollar program for training young people and supplying them with jobs was put under way yesterday by President Roosevelt. Officials estimated that the plan would take care of half a million young men and women between 16 and 25. Upward of the same number are to be helped by the civilian conservation corps.

"The yield on the investment should be high," Mr. Roosevelt said in announcing the program. The new plan was divided into four sections designed to:

- Give young persons work in private industry.
- Train and retain them for private employment.
- Allow them to finish high school and college.
- Give them work relief on youth projects.

Miss Josephine Roche, assistant secretary of the treasury, and Aubrey Williams, assistant to relief administrator Harry L. Hopkins, were put in charge of the new program.

**NOTICE TO BIDDERS**

Sealed bids will be received by the County Board of Education up to 5 P. M., July 8th, 1935, on the following School Transportation Routes:

- Atoka-Artesia.
- Loving Local (West).
- Loving Local (East).
- Harron Farm Local.
- Otis Local.

Call at the County Superintendent's office for specifications.  
G. R. SPENCER,  
County Superintendent.

**Canvasback, Pintail and Ruddy Are Popular Ducks**

The ruddy duck is easily identified by most hunters. They are said to have more vernacular names than any other species of waterfowl—butter-ball, pin-tail, spotter duck, wire-tail and many other names. Recognition marks of the male are: Head, blackish brown, white patch on each cheek; upper surface of body, chestnut brown; tail and wings, blackish; under parts, grayish brown. Ruddy ducks are divers and when under stress they dive, then swim to emerge at great distances.

The American pintail is sometimes known as sprig, sprig-tail, whistler, and gray duck. Recognition marks on the male are: Head, brown; front neck, breast and belly, white; back, finely wavy-barred, dusty and white; wing coverts, brownish gray with bar of metallic cinnamon; tip of wings and two long feathers of tail, black. Female: Head, grayish white suffused with cinnamon brown spots; neck, breast and under parts, brown barred with dark chestnut; back, same as breast only much darker, with whitish circles; tail and wings, same as back. Size, slightly smaller than mallard.

The canvasback is oftentimes mistaken at first glance for the red-head. Recognition marks of the male are: Head and upper part of neck, red, followed with wide band of bluish black around breast; back and under parts, white; wings, dusty white with strip of blue-gray at lower edge of coverts; tail and rump blue-black; a V-shape strip of black extends about halfway up the back from the base of tail. Female: Top of head, blackish brown; side of head, neck and breast, brown; other markings, same as in male. These birds have rather long bills of a blue black hue.

**Importance of Sunspots Is Not Highly Esteemed**

Thermocouples show that the surface heat of the sun varies slightly, being hotter when the spots are numerous. Moreover, the earth's magnetic field usually (but not always) fluctuates in step with the spots. In the opinion of Dr. Seth B. Nicholson, who has studied sunspots intensely with the most precise instruments on Mount Wilson, weather may appear to vary with sunspots, but a scientific study of the facts usually shows that the relationship was accidental and does not hold for any considerable length of time.

We are apt to magnify the importance of sunspots. In the first place, they are 93,000,000 miles away. In the next place, even when most numerous, they cover less than half of 1 per cent of the sun's surface. So it all comes down to this: no very reliable knowledge exists regarding the influence of sunspots on weather, business conditions or human behavior.

**Week-Long Halloween**

There is a week-long Halloween among the descendants of America's most civilized pre-historic inhabitants, the present-day Mayas of Yucatan. A curious mixture of European folk lore introduced by the Spaniards and the age-old legend of their remote ancestors is revealed by Dr. Robert Redfield, ethnologist of the Carnegie Institute of Washington. On October 1 and November 1 all the souls of the dead, according to the Mayan belief still strongly held, return to earth for an annual visit and depart one week later. On these days food is set out for them and they are bidden to eat. The festival is known as "dinner of the souls." It is a domestic rite in which each family recalls and propitiates its own departed members.

**Electricity Locates Ore**

One of the achievements of science has been the perfection of an efficacious method of locating ore deposits by electricity, says the Washington Post. It is based on the recording of a difference of potential set up by electric statics or dynamic waves which are either induced or pre-existent in the metallic ores. The mining expert plots an electric field by recording these variations in potential at different points in a certain locality. Usually if ore deposits are present, they are found at the center of this field, being located either by diamond or churn drilling or underground prospecting methods.

**Twelve Wells—**  
(Continued from page one)

The Simms Oil Co. completed a small well in its Woolworth No. 1, sec. 35-24-36, at a depth of 3476 feet. After acidization with 1,000 gallons the Woolworth flowed at the rate of eight barrels an hour, through a 40/64 inch choke. This well is estimated to be making 15,000,000 feet of gas.

The Skelly Oil Co. has also completed its State 3-B, sec. 16-21-36. From a depth of 3893 feet the State 3-B flowed 200 barrels in five hours on a 3/4 inch choke with an estimated flow of 250,000 feet of gas.

Two wells in Lea county were shut down after developing sulphur water. The Jeffers Oil Co., Jimenez No. 1, sec. 11-20-33, is shut down for orders at 8500 feet with a hole of sulphur water and the Jeffers Oil Co., Etz No. 1, sec. 12-21-32, also encountered sulphur water at 3583 feet and are shut down waiting orders.

Drilling has been resumed on the Coates No. 2 of the Humble Oil and Refining Co., sec. 10-24-36, which was drilled to shut off the gas in the Coates No. 1, the most spectacular gas well probably ever drilled in Lea county.

**New Locations**

New locations staked included: R. Olsen et al., State No. 1, sec. 5-21-36. Jim Murray, Wallace No. 1, sec. 3-21-36. Humble Oil and Refining Co., State 5-B, sec. 29-21-36. Coates No. 3, sec. 10-24-36. Humble Oil and Refining Co., Jim Cooper No. 1, sec. 14-24-36. Repollo Oil Co., and C. J. Dexter, Parke No. 3-X, sec. 15-17-30. California Lease No. 2, State No. 1, sec. 20-21-36. Shell Petroleum Corp., Rice No. 2, sec. 13-18-37. Shell Petroleum Corp., Turner No. 2, sec. 34-18-38. Shell Petroleum Corp., Devonian State No. 2, sec. 20-21-36. J. P. Cusack, Moon No. 2-B, sec. 28-18-38. Twin State Oil Co., Henry S. Record No. 1, sec. 22-22-36.

**ROSWELL WOOL SALE**

The sale of wool clips amounting to 102,000 pounds was made at Roswell Friday and netted four growers \$19,580. The average price was 22 cents per pound.

Typewriters for rent—Advocate.

**N. M. Ad Campaign Brings Inquiries**

SANTA FE—Results of the state's advertising campaign are being felt not only in New Mexico, but in many other states where demands for literature concerning the Land of Enchantment are constantly increasing.

Travel bureaus, motor clubs, newspapers, have written requesting literature in greater quantity this year than formerly, because of this increased demand.

After receiving a supply of 1935 highway maps from the Tourist Bureau, the California State Automobile association wrote requesting an additional 1,000 copies, stating, "We have a great demand for the map."

Thomas Boles, superintendent, Carlsbad Caverns National Park, writes: "I feel that the tourist publicity which was started by the state last year is even now being reflected in the increased travel to the Carlsbad Caverns National Park."

Travel to the Caverns, Mr. Boles' report shows, increased 25 per cent during the first five months this year over the corresponding period for last year.

Since the state's advertisements

appeared in Saturday Evening Post, Time and Literary Digest, Monday is no longer a dull day at the Tourist Bureau. June 24th some 355 inquiries were received in the morning mail, to set a record.

Approximately 3,700 queries were received by the bureau during the first four weeks of the campaign.

**FARM HOLIDAY OFFICIALS TO BE HERE**

Milo Reno, president of the National Farm Holiday association and Arthur Cameron of Clovis, president of the state association are expected here Saturday morning for a conference on the local farm loan situation. The conference will be held at the Col. Woods farm at 10:00 a. m. Saturday morning.
