Rain 'Skips' Around County And Area

around Muleshoe

R. A. Bradley, president of the Muleshoe Heritage Foundation, announced the annual meeting of the organization for Monday, September 18, at 7 p.m. at the Old Depot.

An update will be given on the renovation of the Janes House, and he reminded that annual dues per family are only \$25.

Larry Winkler, Winkler Meat Co., Muleshoe, has been elected to the board of directors of the Texas Association of Meat Processors. The association met recently in San Antonio for its second annual convention and seminar.

The Texas Association of Meat Processors is an organization of meat processors from across Texas organized in 1987.

At the present time, the association has 205 members from throughout the state.

Dove season in Bailey County begins Friday, Sept. 1, with hunting hours from sunup to sundown.

A hunter is permitted to have an aggregate limit of 12 mourning doves in possession.

A special meeting of the board of trustees is scheduled for today, Thursday, August 31, at 7:30 p.m.

Lawrence Ward, MISD superintendent said items on the agenda will be to review and amend 1988-89 budget; adopt 1989-90 budget; and review the Lions Club request for Sunday use of facilities and take appropriate action.

The Childress Volunteer Fire Department is hosting the First Annual Greenbelt Championship "42" Tournament on September, 30.

Persons interested in participating may receive information by contacting the Childress Volunteer Fire Department, P. O. Box 81, Childress, TX 79201.

Coaching Staff Visits Rotary; Give Program

It's going to be an 'interesting' time at the annual Bailey County West Plains Fair on the closing day, Saturday, September 9.

All attention will be focused in the northwest corner of the arena where the Muleshoe Rotary Club will have a 'Cow Pattie Bingo' set up. For the uninitiated, you will just have to attend to see for yourself what all the interest means.

A portion of the corner will be

Crime Line ALERT

From the Bailey County Sheriff's Department, Chief Deputy Steven Bearden has a recent crime that a cash reward is being offered through Crime Line.

Bailey County Crime Line is now offering a \$250 cash reward for information leading to the arrest and indictment of suspects involved in the burglary of a motor vehicle where several items were taken out of a suburban, which was parked on the Muleshoe High School parking lot.

The crime took place sometime between 10 a.m. and 11 a.m. on August 22, 1989.

Call 272-HELP. And remember -- you will remain completely anonymous.

COACHING STAFF VISITS ROTARY CLUB ON TUESDAY--Coaches from Muleshoe High School and Watson Junior High School were visitors at the Muleshoe Rotary Club on Tuesday. Athletic Director Jim Stewart spoke on what can be expected from the junior high and high school athletic programs during the coming school year. Pictured from left are Coaches Ted Johnson, Paul White, Dale Gilbreath, Roy Donaldson, Richard Albertson, Bob Davis, Leon Hagerman, Tom Duncan, Paul Davis, Steven Hatfield and Athletic Director Jim Stewart. (Journal Photo)

Ambulance Budget Decreased; No Third Deputy Approved

(Editor's note: In this edition of *The Muleshoe Journal*, we will be looking into the budgets for the sheriff's office, ambulance service and jail. They are the next three largest items on the county budget.)

In looking at the salary schedule for the sheriff's office for the past three years. For the sheriff, two field deputies and one office deputy, the salaries were \$65,321.51 in 1988; were \$66,852.44 in 1989, and in the proposed 1990 budget, will be at \$68,858.04.

Benefits have gone from \$18,341.20 in 1988; to \$21,722.28 in 1989 to the proposed figure of \$24,260.00 for the upcoming year.

This is out of a total budget of \$114,130.26 for 1988; \$127,824.72 for 1989 and \$137,018.04 for the proposed 1990 budget.

marked in ten inch squares, with a cow roaming around on the square. The squares will be numbered, and the sold numbers posted. When the cow 'bingos' the square bearing the number of the purchaser will be declared the winner.

And, adding to the fascination is the fact that the smallest amount the prize will be is \$500 cash, and it could be as much as \$1,000 cash.

And guess what! You don't have to be present to win. If your square is declared a winner, you will be notified by the Muleshoe Rotary Club of your winnings, but it would be much more interesting to be there.

Tickets will be available, at \$10 each, from any member of the Rotary Club up to Saturday afternoon, September 9.

Dick Chitwood, who is in charge of the commercial booths, said he is having very good luck with the booths, as the Cow Pattie Bingo is proving to be a real 'drawing card' for exhibits for the fair.

President Terry Hutto also announced another interesting item for Rotarians. In an effort to boost attendance at club meetings, a new contest begins with the first meeting in September and will run through the rest of his presidential year.

Names were drawn and each Cont. Page 6, Col. 1

Under operating expense, the figures are tuition for the sheriff at \$109.75 in 1988; \$400.00 for 1989 and \$500.00 in the 1990 budget. Office supplies have gone from \$466.82 in 1988; to \$500.00 in 1989 and \$600.00 for 1990. Postage was \$331.00 in 1988; \$500.00 in 1989 and the same for 1990.

Fuel for cars was \$4,767.56 in 1988; and is the same for 1989 and 1990 at \$5,000.00. Telephone shows an increase from the figure of \$4,856.85 in 1988; to \$5,500.00 in 1989 and to \$6,000.00 in the new budget. Crime line has been funded for the past two years at \$1,000.00. Out of county travel was \$109.16 in 1988; and the same is budgeted for the new year as 1989, at \$750.00.

Repair of office machines was \$192.80 in 1988; budgeted at \$200.00 for 1989 and is on the new budget at \$300.00. Repair and maintenance of cars was \$1,500.00 in 1988; \$1,900.00 in 1989 and is set at \$2,500.00 for the 1990 budget. Repair and maintenance of radios was the same at \$750.00 for 1988 and 1989, but increased to \$1,000.00 for 1990.

Bonds that were \$171.00 in 1988; show the same at \$250.00 for 1989 and 1990.

For the first time, liability insurance is shown on the sheriff's budget. It is budgeted at

Triangle CB Club To Sponsor '89 MD Telethon

Don Prather said the Triangle CB Club will again sponsor the Jerry Lewis Labor Day MD Telethon in Muleshoe.

It will be at the home of Clara Lou Jones, 321 East Cedar on Sunday, September 3 and Monday, September 4.

Triangle CB Club members will be manning the telephone continuously from 8 p.m. on Sunday night to 6 p.m. on Monday evening.

The number to call in Muleshoe with your pledge is 272-3468.

Prather said people are invited and encouraged to drop by Mrs. Jones home to visit during the telethon.

He also reminded that youngsters who want to go door to door to collect money for "Jerry's Kids" should stop by Mrs. Jones home to pick up a packet and the proper identification.

\$4,000.00 for 1990. Motor vehicle insurance that was \$1,035.96 in 1988; shows \$950.00 for 1989 and \$1,000.00 for the 1990 budget. Miscellaneous was \$1,035.96 on the 1988 budget; \$950.00 for 1989 and on the new budget, is shown at \$1,000.00. Capital expenditures did not show up on the 1988 budget, was the same for 1989 Cont. Page 6, Col. 3

Rain Halts Mule Putt Tournaments

Muleshoe Activities Committee (MAC) has concluded their Miniature Golf Season this year because of rain and school activities beginning.

During the '89 season, MAC hosted five tournaments, with a total of 44 players playing 174 games, plus playoff games.

The winning season player goes to Gary McDaniel, who played 10 games with a low total score of 429. Gary will receive \$25 in MAC Bucks for his efforts.

Other players were Todd Shipman with a score of 449; Jenny McDaniel with 469; Kem Bales with 499.

Playing eight games were Mandy Shipman, with a 397; and Sheri Shipman with 384. Each of these players will receive a golf pen for their participation.

All winners are asked to pick up their prizes at Higginbotham-Bartlett.

This year, there were a number of different tournament winners including Lanny Trussell, Linda Trussell, Gary Shipman, Todd Shipman, Gary McDaniel, Jenny McDaniel, Steven Wagon, Wayne Wagon, Terry Field, Charolette Field, Kem Bales, David Claybrook, Reece Hillin, John Gulley, Joel Sinclair, Douglas Field and Larry Wau-

son. MAC said they would like to express their 'thanks' to everyone who participated in the season, and a very 'special thanks' which they say is never enough, to the persons who helped MAC conduct the tournaments.

The MAC members also said they wished to especially thank the Youth Activities Committee for providing their facility to conduct the annual tournaments. "Again, a 'BIG THANK YOU'" to everyone involved, and wishing you a very good year," concluded the MAC spokesman.

Mother Nature has been 'up to some of her tricks again,' and has been skipping around the county and area, depositing good rain in some locations, and only sprinkles in others.

Despite good moisture received in some previously very dry locations in the county, veteran farmers says it's too late to save much of the dryland crops.

Already battered by drought, that left early crops, such as wheat in tatters, and very little wheat to harvest, other dryland crops have suffered in some areas from lack of moisture and heat stress.

In the southwest corner of Bailey County in the Maple-Stegall areas, little rain had been received since last September, until the month of August.

J. G. Arnn said out of the first 28 days of August, measurable rain was recorded one-half of the time, or 14 days.

But, that isn't all a bright spot, as he said cotton that has received little to no moisture, is now receiving rain too late, and will not make a crop.

With almost daily 'Causey clouds,' or clouds the farmer says make up in the Causey, N.M. area, just sail right over, and along with their weekly check, it has been very little.

The past weekend and first of this week has been a little better, as one inch rains have been recorded in 'spotted' locations, according to Arnn.

He has been farming in Bailey County since 1939, and says this is the most unusual summer he has seen in that 50 years of farming here.

From the West Camp community, Mrs. Lewis Scoggin said they received one-half inch of rain Monday and .7 early Tuesday morning, a rain that fell in just a few minutes. She said the rain fell in such a manner that it neither helped nor hurt their crops.

On their sandyland to the southeast of their home place on FM1760, some one-half inch of rain had been recorded during the same time.

At Needmore, Randy Marlow is said to have some of the 'prettiest cotton' in the county at his home place, one mile north of Needmore.

The Marlows recorded .7 in rain over the weekend, and a little more than two inches of rain on Monday.

He said his cotton is irrigated cotton, being watered with a circle.

To the southwest, Jerry Engelking said he received only .1 in moisture on Tuesday morning, with most of the rain being noted from the Oklahoma Lane-Farwell vicinities.

"I haven't had very much rain," he said.

Although Foster Fertilizer received only 'sprinkles' three miles east of Lazbuddie, more moisture, up to two or more inches was recorded to the north and west of Lazbuddie.

The rain in that area was Cont. Page 6, Col. 1

'89 Football Contest Starts This Issue

Okay!! All you football prognosticators get your pencils sharpened up and get ready!! It's time for the annual Muleshoe Merchant's Football Contest.

This year, in addition to the weekly prizes, and grand prize at the end of the contest, *The Journal* is adding another incentive -- MAC Buck tickets.

Each week, the three top winners will receive MAC tickets along with their weekly check.

This should be an added incentive to be sure to get your entry in by the 5 p.m. Friday deadline each week.

And, again as in the past, to help you make your decisions, the Bob Harmon Football Forecast, one of the country's most popular sports features, will appear in *The Muleshoe Journal* each week, along with the contest, during the 1989 football contest starting today, Thursday.

Now in his 33rd year of football forecasting, Bob Harmon's prognostications are published in over 350 newspapers in 45 states.

Harmon uses a formula to arrive at the rating for each of the more than 640 football teams that he follows each fall. The score that is predicted is simply the interpolated difference between the numerical rating of one team and the numerical rating of its opponent.

And, though boasting a college forecasting accuracy equal to any in the nation, The Harmon Forecast makes no wild claims of unbelievable guessing percentages. Harmon has a proven accuracy over the past 30 years of between 73.6 percent and 77.9 percent. His pro forecasting average is between 62.1 percent and 74.2 percent.

AMBULANCE INSPECTIONS HELD--Denny Martin, EMS Field Consultant for the Texas Department of Health, was in Muleshoe Monday to inspect Bailey County Ambulance Service's two ambulances. Here, he is shown measuring the depth of tread left on a tire. He re-certified the ambulances, but recommended new tires for the ambulances. (Journal Photo)

SUPPORT THE MULES

CONTEST RULES

1. IN EACH ADVERTISEMENT YOU WILL FIND A GAME LISTED. CIRCLE THE TEAM YOU THINK WILL WIN. The person's score that most closely matches the TIE BREAKER SCORE will be declared the winner. If several persons are still tied the prize money will be split.
2. The contestant must be 12 years of age or older.
3. Only one entry per person may be made for any one contest.
4. Bring your entry blank by The Journal office by 5:00 p.m. Friday, or if mailed, the entry must be postmarked no later than 5:00 p.m. Friday. Write "FOOTBALL CONTEST" on the mailed entry, and mail to P.O. Box 449, Muleshoe, Texas 79347.
5. Circle the winners and WRITE IN THE SCORE of the tiebreaker game. This score will be used to break weekly as well as determine the grand prize winner. Decision of The Journal's scoring judges will be final.
6. Check the team you think will win; 10 points for first place, 6 points for second place and 4 points for third place.
7. To count for the grand prize, entries must be on official blank printed in the paper.

SMU Off Suspension; Favored Over Rice Owls

This is the beginning, the weekend of September 2nd. It's the start of the 1989 college football season. And it isn't just a weekend of casual match-ups. 18 teams of the 34 that played in post-season games last year will see action. Illinois and Southern California will even see Moscow!

The Pac-10 champion Trojans, 10 and 1 in last year's regular season were 22-14 losers to Michigan in the Rose Bowl. It was the second straight loss for the Pac-10 versus the Big Ten in the Rose Bowl. Southern Cal bowing both times. The Illini, 6-4-1 in 1988, were beaten by Florida 14-10 in the All-American Bowl. Illinois will be a rather large underdog, but there's no telling what might happen behind the iron curtain.

The Aggies of Texas A&M have lost three straight season openers to L.S.U., the Tigers really putting out the lights last year 27-0. A&M is the host this year and after a rather disappointing 7-5 "no-bowl" season in 1988, a win here would be a tremendous spark. However, the Tigers, 23-10 losers to Syracuse in the Hall of Fame Bowl, are slight favorites.

The game that will officially open the '89 college season will be the Kickoff Classic at the Meadowlands in East Rutherford, N.J. on Thursday, August 31st. National champion Notre Dame, 11-0 during last year's regular season and 34-21 winner over West Virginia in the Fiesta Bowl, will be a heavy favorite over Virginia. The Cavaliers posted a 7-4 season in 1988.

Southwest Conference attention will focus on Dallas Saturday where Southern Methodist comes off a three-year suspension to host Rice in a conference game. We're picking the unknown Mustangs to shade the Owls.

We also think Arizona will edge Stanford in a Pac-10 opener in Tucson, and in a Monday night encounter in Boulder, they favor Colorado over Texas.

No Time
The Irishman was relating his adventures in the jungle. "Ammunition, food and whisky had run out," he said, "and we were all parched with thirst."
"But wasn't there any water?"
"Sure, but it was so time to be thinking of cleanliness."

PEST MANAGEMENT UPDATE

Parmer-Bailey Counties

MIKE D. BLANTON

Extension Agent-Entomology

COTTON

Cotton bollworms have been very heavy this year. A large percentage of the fields have already been treated. Egg numbers in program fields have reached 120,000 per acre, with worm counts as high as 60,000 per acre. Hopefully, fields being treated with pyrethroids will have enough residual to carry us through the rest of the season.

Aphids (plant lice) are building to treatment levels in many fields at this time. The economic threshold for aphids is an average of 25 per leaf. An effective method of scouting cotton for aphids is to collect three leaves per plant: one from the top, middle, and lower thirds of the plant. Plants should be selected at random throughout the field. Aphids on each of the three leaves should be counted, with an average of aphids per leaf obtained for each plant sampled. Producers with fields approaching economic threshold for aphids should consider treating for this pest concurrently with bollworm insecticide application.

GRAIN SORGHUM

A number of fields throughout the two-county area are being treated for greenbugs. Parasitic wasp populations are increasing in southern Bailey County; however, this beneficial has not flourished in more northern areas.

Yellow sugarcane aphid are once again causing a problem in grain sorghum fields in southern Bailey county. Similar to greenbugs, this pest feeds on the undersides of leaves. Its toxin, however, is much more harmful to the plant. Although economic thresholds are not available for heading grain sorghum, the threshold for greenbugs can be applied (death of two normal sized leaves). Since the toxin injected by the aphid causes the leaf to turn yellow, this color change can be considered "death" of the leaf.

Spider mites are being reported in grain sorghum in some areas of Parmer and Bailey counties. Mites typically establish on the undersides of lower leaves and migrate up the plant. Heavy infestations may cause extensive webbing on heads and are often associated with stalk rot and lodging. This pest, in large numbers, can reduce the ability of the plant to make grain only until the seed reaches hard dough. Yield losses can occur after hard dough due to mite-induced lodging and other harvest losses. Mite density and plant growth stage dictate the need for miticide application.

WHEAT

Since fall armyworms have been a real problem in grain sorghum and corn this year, the potential exists for a full armyworm problem in wheat for this pest. Control is recommended when four to five larvae per square foot are present and seeding stage loss is occurring.

CORN FIELD DAY

A food corn field day for producers in Parmer, Bailey, Castro and Lamb counties will be held on September 6, at 10 a.m. on the Gene Smith farm. The farm is located two miles north and one mile west of Lazbuddie. Producers will be able to observe 114 varieties of corn which are being tested this year. This year's test includes corn from more than 20 seed companies. Forty white food corn hybrids, 28 yellow food corn hybrids with pink and white cobs, and 48 yellow food corn hybrids are included. Representatives from the seed companies will discuss various characteristics of these hybrids. Results of the tests will be distributed to area producers during the early winter months by County Extension Agents and seed companies.

The field day is free and open to everyone. It is hosted by Mr. Gene Smith, Valley Grain Products, and the Extension Field Crops

committees from the four counties.

COMPUTERS IN AGRICULTURE

Several producers have requested educational programs on the use of computers in agriculture. The Extension Service would like to respond to these needs. Before we can do this effectively, we need to obtain information concerning your needs and interests, current use of computers, and future plans regarding computers.

We will attempt to obtain this information in two ways:

1. Attached survey.

2. September 14-Meeting- "Using Computers in Agriculture"

On Sept. 14 at 10 a.m. Jack Smith, Extension Economist from Lubbock, will discuss how other farmers and ranchers are successfully using computers. He will also discuss software and educational programs that the Extension Service has to offer.

At the September 14 meeting, we would welcome comments from individuals currently using a computer concerning how it has or has not been beneficial to them.

Soil Test Shows Producers What Nutrients Needed

Farmers should take time in the next few weeks to collect soil samples from fields they plan to plant to wheat or other fall-seeded small grains.

Soil test results done now will be returned early enough to allow plenty of time to apply recommended nutrients and incorporate them into the soil during final seedbed preparation, said Spencer Tanksley, county agent with the Texas Agricultural Extension Service.

Incorporating or knifing nutrients into a moist seedbed is important to reduce nitrogen volatilization losses associated with fertilizer applied area-containing fertilizers, said Tanksley. It also allows placement of non-phosphorus nutrients such as phosphorus into the active root zone of plants.

Small grains that are grazed naturally require more fertilizer than ungrazed grain because of nutrients removed by grazing. About 30 to 40 pounds of nitrogen are removed in forages grazed by stocker cattle for each 100 pounds of beef produced per acre.

"This nitrogen, less some recycling, must be replaced to provide adequate nutrition for grain production after livestock are removed," said Tanksley.

A soil test remains the best way to determine fertilizer needs. It discloses how much of a given nutrient to apply, which depends on such factors as the level of that nutrient in the soil,

residue levels, cropping history, available moisture, grazing practices and general management.

A general "rule of thumb" indicates that wheat requires about two pounds of nitrogen per bushel of grain produced, said Tanksley. Therefore, a 30-bushel yield would remove about 60 pounds of available nitrogen per acre. Tanksley said a soil test will determine the amount of residual nitrate-nitrogen in the soil and reduce nitrogen recommendations by that amount.

Teach Children How To Halt Unwanted Pregnancy Epidemic

By: Jim Mattox
Attorney General

Last year in Texas, 23 little girls who were 12 years old or younger had babies. Those children, almost babies themselves, brought 11 newborn boys and 12 tiny girls into this world.

Think of the 12-year-old girls you know: pig tails, chewing gum, sassy carefree. Now add an infant to the picture.

As staggering as that image may seem, consider this: 198 of last year's Texas babies were born to mothers who were 13 years old, 891 had mothers who were 14, and 2,673 were born to 15-year-old mothers.

Think of the enormous new responsibilities for the young parents. What are their chances of finishing school? Of learning a trade? Of holding a meaningful job? Of living a half-way normal life?

Think even more of the babies. What chances do they have in life?

Who will care for them? Their barely grown mothers? Their grandparents? The state welfare system?

Senior Citizens

The Muleshoe Senior Citizens met Monday, Aug. 28 for their regular covered dish luncheon.

The invocation was given by Bob Dilts. Thirty-eight were present for the meal and fellowship including seven visitors, Marvin and Oletha Sanders, Charlie and Annie Lee Mirando, a quartet from Earth; Cecil and Lois Davis, and Jewell Griffith.

Mae Wilterding, program chairman, introduced the quartet, who sang a host of songs: "I Want To Be Like Jesus", "Beyond The Shadows", "I Am The Way, Guide Me and Lead Me", "A Happy, Happy Day" and "Heavenly Pathway". Marvin Sanders sang a solo "Abundant Life", the quartet then sang "Sweet Paradise And Maury More", "Better Get Ready", "Amazing Grace" and "Eternal Praise".

J.C. Shanks, president, was in charge of the business meeting and minutes of the previous meeting were read and approved.

Mae Wilterding, Bertie Thomas and Katherine Rogers celebrated birthdays. A get well card was sent to Short Bickel and a sympathy card to Ray Edwards, who lost his brother, John Edwards from Illinois.

Jewell Griffith was welcomed as a new member. Iva Wall was back for a visit.

Clifton Finley gave a report on the cemetery.

The closing prayer was by Lester Howard

I am particularly disturbed by the estimated 250,000 abortions performed in Texas over the past three years, including about 4,500 performed on women age 15 and under. I intend to bring this abortion rate down by providing the leadership necessary for us not to have all these unwanted pregnancies.

I strongly support a woman's right of choice, but I just as strongly oppose using abortion as a method of birth control.

I challenge the groups who so vigorously fight to outlaw abortion to do something positive that can really reduce the demand for abortions. I challenge them to speak out just as loudly in support of birth control education--be it in the home, the church or the school.

We must work together to repair this rip in our moral fabric. Everybody's got a role to play.

Here at the Attorney General's Office, we've taken our Paternity/Parenthood (PAPA) program to students in the state's two largest school districts. We started out with a pilot program last year in the Dallas schools. We tried to plant the seeds of parental responsibility in the 2,600 junior and senior high students we spoke with.

In Houston this fall, we have developed a PAPA curriculum we hope will reach 100,000 students in 65 schools. We designed special literature that we hope will interest these youngsters in our message.

Our young men in particular must come to grips with their obligations in birth control and child support. But the Attorney General's Office working with just a few school districts won't solve this problem. Neither will the Texas Education Agency's well designed, but voluntary, programs.

The trustees of every public and private school in Texas must discuss the problem and establish appropriate programs for every child old enough to understand the message.

As a member of the new School Age Pregnancy Interagency Coordinating curriculum for all Texas schools. There's a vacuum of leadership here and we're ready to fill it.

Our churches must re-exert their leadership role in dealing with this extremely important moral issue. Preaching abstinence alone is not a realistic answer to an all-too-real problem. Thousands of our young people obviously are disregarding that instruction.

As the state's official agency for establishing and enforcing child support orders, we in the Attorney General's Office are particularly concerned about children born out of wedlock.

We believe that child support

is a keystone to reforming our welfare system. The parents not the state, are responsible for supporting our children. They must feed and clothe them, see to it that they have good roofs over their heads and provide adequate medical care.

Each child born on welfare can cost taxpayers nearly \$6,000 in Medicaid, Food Stamps and Aid to families with Dependent children in the first year of life. By the time they are old enough to be teen parents themselves, that figure can exceed \$50,000. And that doesn't count the extra costs they incur because of much greater rate of premature births and medical problems among children born to teen-age mothers.

The real price--for society, taxpayers, these mothers and their children--grows even steeper when you realize that most of these mothers drop out of high school and rarely learn useful job skills. Teen mothers are seven times more likely to attempt suicide, and their children are prone to suffer from child abuse and neglect.

In more than half of the Texas families receiving Aid to Families with Dependent Children, the parents were never married. It's usually not very difficult to determine who the legal mother is--she brought them into the world. But unless the alleged father voluntarily admits paternity or submits to a series of blood tests, the children have no legal father.

Paternity is the first step in establishing child support orders that can help families make ends meet without welfare. But it's more than that. This legal action gives children important medical information about their heredity; it gives them access to veteran's and social security benefits; and it provides a support network through the extended families on their fathers' side.

Psychologically, children receive enormous satisfaction just from knowing who both of their parents are.

Because of our responsibility for child support, many of these families turn to us for help. For too long, we didn't have the resources to help very many of them. I'm glad to report that we now have the federal funds--and some new legal tools--to begin attacking this problem.

We created a special Paternity Task Force that is working with our child support field offices to identify clients that need paternity help. We estimate, roughly, that our caseload of 425,000 includes about 136,000 children with no legal father.

We're contacting the alleged fathers, asking them to come to our offices and sign the paternity papers if they are the real fathers. If they refuse--or if they believe someone else is the father--a judge will order a scientific blood test to determine the facts. We call it "plead, or bleed."

The state legislature recently gave us some new tools to help in this battle for our children. We have authority to use DNA testing and other new high-tech blood tests. A father's signature on a birth certificate can be used in court as evidence of paternity. The new law also reduces the red

tape involved in cases where fathers voluntarily admit paternity.

Starting Nov. 1, the social security numbers of both parents must be placed on birth certificates, and our courts will have to move extra quickly on paternity suits.

We must teach them that they are responsible for their actions in this world. We must teach them how not to have children; how not to get pregnant. We simply must address the issue of birth education regardless of how controversial it seems.

We have to teach them in our homes and in our schools and in our churches. We have to teach them, or we'll be the ones who learn the lesson.

We'll learn that you reap what you sow. And we won't like this harvest.

These young fathers need to know that we will use all of the latest scientific and legal tools to

Latest Arrivals

Matthew Benjamin Green

Mr. and Mrs. Glen Green of Lubbock, formerly of Muleshoe, are the proud parents of a son, Matthew Benjamin, who was born on May 20 at 11:12 a.m. at St. Mary's Hospital.

The young man weighed seven pounds and one ounce and was 20 and half inches long.

Grandparents are Ruth and Bill Wimberly of Angel Fire, N.M., James and Linda Elder of Muleshoe, Reverend and Mrs. Don Green of Washington, Missouri and Bobby and Marie Adams of Morton.

Great grandparents are Reverend and Mrs. George Green of Patterson, California, Mae Elder of Portales, N.M. and Mrs. W.R. Adams of Morton.

RANCHERO TURKEY BEAN BAKE

1 1/2 cups cubed cooked turkey
4 slices bacon, cut into 1" pieces
2 medium cloves garlic, minced
1 can (21 oz.) pork and beans in tomato sauce
1 jar (2 1/2 oz.) sliced mushrooms, drained
1 medium onion, diced
1/2 cup chili sauce
1/2 teaspoon cumin
1/4 teaspoon red pepper
1 can (15 oz.) dark red kidney beans, drained
Preheat oven to 350F. Cook bacon, remove, and set aside. Saute onion and garlic in bacon drippings. Combine all ingredients in 2-qt. casserole. Cover and bake in oven 45 minutes or until heated through. Or combine all ingredients in saucepan and heat, stirring as needed, until heated through.

RECEPTION HONORS COUPLE--Mr. and Mrs. Wayland Ethridge were honored with a reception Saturday evening at the Old Depot, hosted by their friends. Mr. and Mrs. Ethridge have moved to Idalou, where Ethridge has accepted a principal's position with the Idalou schools. He was principal of Muleshoe High School for several years prior to moving to Idalou. (Journal Photo)

EXTENSION GRANTED TO RURAL ROUTE 1

Mrs. E.W. Charles, postmaster, informs us that the local postoffice has been advised of the granting of an extension to Rural Route No. 1 out of Muleshoe. This extension was made necessary by the large number of new settlers who have located in the territory North and East of Muleshoe during the last twelve months.

Route 1 travels one of the richest sections of the country in this part of the State, and the

extension covers a distance of about 22 miles through this fine farming section.

The farmers living along the new route very greatly appreciate the convenience that will be offered them with the establishing of daily mail service. This service began on July 1, 1929.

U.S. SLASHES COTTON PRICE TO GET RID OF SURPLUS

The United States has slashed export prices of cotton today under a one and half cents a pound government subsidy to meet foreign competition and regain world markets.

Agriculture Secretary Henry A. Wallace said the federal subsidy, which became effective Thursday of last week will enable American exports to meet prices of foreign cotton and reduce the 14,000,000 bale surplus.

Increased world production and lower foreign prices have reduced American exports to the lowest point in 57 years. The program is designed to increase exports from 3,400,000 bales this year to at least 6,000,000 bales.

Agricultural officials said the plan-one of several to regain farm markets abroad and increase consumption among low income groups at home-would cost between \$40,000,000 and \$50,000,000 this fiscal year.

NEW PHONE SYSTEM ANNOUNCED

Plans for a dial telephone system at Muleshoe were announced today by G.D. Shelley, District Manager for Southwestern Associated Telephone Company.

Shelley stated that studies were now being made of equipment and cost of a dial system for Muleshoe and that as soon as they are completed he will go before the City Council to explain operation of the system and present rates that will be necessary for dial telephone service. After the City Council has approved plans and rates for dial service, the telephone

company will make a canvas of subscribers to determine whether they want dial service and are willing to pay the rates necessary. Shelley said that if 70 percent approved of the new type service and rates, final plans would be made.

In discussing plans for the dial system, Shelley said that it would be of the switch type, which would be expanded to serve several thousand telephones. It was also stated that a building would be constructed to house the dial equipment.

More than 300 telephones have been added in the last three years, or almost as many as were in service on January 1, 1945. This has been possible only by major additions to the cable and wire system, together with additional switchboard equipment in the telephone office here.

HAIL, WATER AND WIND GIVE BAILEY COUNTY FARMERS ROUGH TIME

Hail, wind and washing rains exacted a heavy toll from Bailey County Farmers, according to figures compiled by County Agent J.K. Adams.

Adams places cotton losses in this county alone during the past two weeks in an excess of twenty-thousand acres. He said wheat damage would average 20 percent or more, all over the area.

JOHN GULLEY MANAGER OF C O F C

A Muleshoe native, John Gulley, was employed by the Board of Directors of the Muleshoe Chamber of Commerce and Agriculture as manager of the CofC and will begin his new

duties Thursday morning.

He was born in the area, attended the Lazbuddie Schools for eight years before transferring to Muleshoe for his high school years.

After graduating from Muleshoe High School in 1968, he attended Texas Tech University where he received a BA in Political Science. Gulley taught for four years at Midland High School, then received a fellowship to complete his education. He received his Masters degree from Tech in Public Administration.

Funds Available

Here To Help

With Heat Stress

Janie Mejia and Debbie Longoria of The South Plains Community Action Association, Inc., said they have received Heat Stress Relief Program Funds, a limited amount, to assist the truly needy in Bailey County.

They said the purpose of the program is to provide assistance to low-income households with a medical need for cooling the household. Each eligible household may be eligible for a one time benefit under the program which runs through September, 1989.

As funds are provided on a first-come, first-served basis, applications must include a form to verify medical need. Proof of income may consist of checks, check stubs, award letters, employer statements, or other similar documents.

You may apply at the Bailey County Community Action Center at 804 W. American Blvd. in Muleshoe. If you cannot go to the center, call 272-5130.

Funds range from \$48 to \$138 and the person applying must bring a utility bill, and evidence of income for the last 30 days. The hours are 8 a.m.-5 p.m. on Monday-Friday.

HONORED ON BIRTHDAY--Mrs. Byron (Veima) Gwyn was honored with a reception Sunday afternoon in the Gwyn Room of the Old Depot, celebrating her 80th birthday. Mrs. Gwyn is a longtime resident of the Progress community. She taught school at Progress prior to its consolidation with the Muleshoe School District.

(Journal Photo)

About S.S.

It's good to keep in mind that social security was not originally intended to be a pension. In the 1930's, when the system was begun, it was repeatedly made clear social security was a supplementary benefit for the elderly, not a pension.

Medicare and Medicaid, later federal benefit programs, were designed to protect the health of the elderly, but not to do it all. The latest addition, catastrophic illness coverage, is the first to almost totally protect the needy elderly from ruin, and is welcome.

Such protection is

expensive; taxpayers were therefore more heavily taxed to contribute to that cost by the 100th Congress.

This Congress, the 101st, is lessening direct taxpayer contributions and the treasury will finance more of the new cost from the general fund.

In the end, taxpayers absorb costs whether they're paid from the general fund or by direct contributions at tax time. But it seems to hurt less coming from the general fund; more people, and more sources of revenue, are involved.

The 1989 revision is interesting evidence of the growing political power of elderly Americans.

JEANS FOR THE LOCAL GIANT--Of course, no one knows who that is -- but, Anthony's has been displaying this huge pair of Levi's in front of their store. Naturally, it's a balloon, but has attracted a lot of attention around town. (Journal Photo)

Coaches Have Program

Cont. From Page 1

Rotarian was paired with another member. If your partner is not present for Rotary, the other half of the team will have to pay a \$2 fine. So it would appear to be in the best interest each week, to doublecheck and make sure your own partner will be attending the meeting Tuesday at noon. Lists were released Tuesday showing the pairings.

Lawrence Ward was winner of the Polio Plus drawing for the week.

Dick Chitwood was in charge of the program for the day, and introduced his coaching staff, both for high school and junior high, and explained some of the

Weather...

Cont. From Page 1

sufficient to force school buses to drive 'pavement only' on Monday and Tuesday, the first two days of school for this year.

Foster Fertilizer said in their location, the roads are dry and dusty.

Bennie Claunch at Claunch Gin in Bula said they had received three inches of rain during the past week, with one and a half inches of that being received on Monday night.

He reported good grain sorghum, and some good cotton, that is looking 'better than average' and is June cotton.

Although the Muleshoe National Wildlife Refuge received only .05 in rain on August 28, they came back on Tuesday with an additional 2.07, which helped a little in replenishing the nearly depleted lakes on the Refuge.

In Muleshoe, only a total of .19 has been recorded in the past four days, but the National Weather Service had predicted a 50 percent chance of more moisture for Wednesday.

athletic program.

All coaches, except Sharon Hampton, junior high school girls' coach, were present for the meeting.

Athletic Director Jim Stewart introduced coaches who stayed with the MISD from previous years, including Tom Duncan, Roy Donaldson and Dale Gilbreath.

New coaches introduced were Leon Hagerman, Richard Albertson, Paul White, Paul Davis, Steven Hatfield, Bob Davis and Ted Johnson.

Coach Stewart invited all Rotarians to attend the 'Meet the Mules' on Tuesday night at 7:30 p.m. and take a look at the freshmen, junior varsity, varsity and cross country teams.

He also said the Mules would be scrimmaging in Canyon on Friday night, September 1. He said the JV and freshmen would scrimmage at 5:30 p.m. and varsity at 6:30 p.m. at Canyon High School.

Cross Country's first meet will be Saturday at Brownfield and the first varsity football game for the year will be on September 8, a home game against the Brownfield Cubs.

The coach said the coaching staff put together are all hard workers, competent, and know what's going on.

Among the sixty-plus players out at Muleshoe High School, Coach Stewart said some 12-13 are returning varsity players from the 1988-89 school year.

He listed 14 freshmen and 50-51 sophomore, junior and senior players. This will be split into 28 on varsity, 22 players for JV and the freshman team will be intact at 14.

He said the two-a-days are over now, and the players have been working "real hard, put in a

Budget

Cont. From Page 1

and 1990, at \$2,000.00. A new car for the sheriff's office was budgeted at \$14,350.16 in 1988; \$16,000.00 in 1989 and only \$15,000.00 in the proposed 1990 budget.

Taking a drastic cut for the 1990 budget year is the ambulance service.

As of September 30, 1988, the ambulance service budget was \$116,443.73; it was \$148,620.29 for 1989; and was cut back to \$116,856.73 in the 1990 budget.

Salaries that were \$33,600.00 in 1988 and \$45,600.00 in the 1989 budget, was reduced to \$24,720.00 for the 1990 budget.

Under the benefits, which totaled \$11,206.96 for 1988; and \$16,113.96 for 1989, was halved

for 1990. Workers' comp for the part-time medics (volunteers) was totally cut out of the budget for 1990, leaving a total of \$570.00 budgeted for workers' comp.

Under operating expenses for the ambulance service show office supplies, which were \$381.94 in 1988, were left the same for 1990 as the 1989 budget, at \$750.00. Postage was \$141.00 in 1988; and at \$250.00 was the same for both 1989 and 1990. Other supplies were shown to be \$1,589.47 in 1988; and \$2,000.00 was budgeted both for 1989 and 1990. Another cut was in fuel for the ambulances. It was \$2,859.06 in 1988; \$4,250.00 for 1989 and shows \$4,000.00 for 1990. Building maintenance and repair was shown to be \$409.84 in 1988; and shows \$1,000.00 for both 1989 and 1990.

Linen service was shown to be \$157.20 in 1988; and was \$250.00 for 1989. This was cut to \$150.00 in the 1990 budget. Pharmacy supplies which were \$2,761.17 in 1988; are the same for both 1989 and 1990, at \$2,500.00.

Paramedic services were \$37,200.00 in 1988; and budgeted at \$36,600.00 for both 1989 and 1990.

Another cut was in the part-time medic budget line item. In 1988, it was \$14,464.00; was \$18,600.00 in 1989 and shows \$15,000.00 for the 1990 budget. Workers' comp for the paramedics was not in the 1988 budget; was \$3,200 for 1989 and shows to be \$2,050.00 in 1990.

The telephone is expected to increase. It was \$1,620.01 for 1988; \$1,650.00 for 1989; and is budgeted at \$1,800.00 for 1990. Out of county travel and training was \$262.92 in 1988; \$500.00 in 1989 and increased to \$1,200.00 for 1990. Gas for heat is shown at \$829.26 for 1988; and \$900.00 for both 1989 and 1990. Water was \$395.47 for 1988; and the budget at \$900.00 is the same for both 1989 and 1990.

Ambulance maintenance and repair was budgeted at \$2,747.41 for 1988; \$3,750.00 for 1989 and \$4,500.00 for 1990. Radio maintenance and repair was \$1,741.59

for 1988; \$1,500.00 and the same for 1990. Liability/Errors and Omissions was not a budget item in 1988; but showed \$3,000.00 for 1989 and again for 1990.

Motor vehicle insurance was \$3,461.22 in 1988; and budgeted at \$5,000.00 for both 1989 and 1990. Under miscellaneous items the budget was \$614.80 in 1988; \$806.33 for 1989 and \$800.00 for 1990.

Under receipts, Bailey County shows a 1988 subsidy to the ambulance service of \$65,000.00 with collections of \$44,153.95; interest of \$1,646.65 and memorials and donations of \$1,138.08 for a total of \$111,938.68. In 1989, receipts were projected to be \$90,000.00 subsidy from the county; \$35,000.00 in collections; \$500.00 for interest; and \$250.00 for memorials and donations. This is expected receipts of \$125,750.00. Then for 1990, Bailey County shows a subsidy of \$90,000.00; collections of \$35,000.00; interest of \$800.00; and memorials and donations of \$250.00 for a total of \$126,750.00.

Salaries and meals for prisoners are the two largest items on the jail budget for the Bailey County Law Enforcement Center.

In 1988, the budget was \$81,177.83; \$95,871.97 for 1989; and \$100,838.36 for 1990.

Under benefits, which includes social security and insurances, as well as retirement, the total was

\$15,625.81 for 1988; \$18,394.28 for 1989 and \$20,183.00 in the budget for 1990.

Under operating expense for the jail, supplies were \$1,564.38 in 1988; \$2,200.00 in 1989 and \$2,500.00 is budgeted for 1990. Linen service has risen from \$656.66 in 1988; to \$950.00 in 1989 and \$1,400.00 in 1990. Meals for prisoners was shown to be \$8,638.26 for 1988; \$11,500.00 for 1989 and the same for 1990.

Transport of prisoners went from \$168.24 in 1988 to \$1,000.00 for both 1989 and 1990. Medical care of prisoners is another expensive item at \$812.51 in 1988; and \$5,500.00 for both 1989 and 1990. Repairs are shown to be \$2,500.00 in 1988; \$3,500.00 for 1989 and \$4,000.00 for 1990.

Repairs are shown to be \$2,500.00 in 1988; \$3,500.00 for 1989 and \$4,000.00 in 1990. Property insurance that was \$204.70 in 1988, shows to be \$400.00 for both 1989 and 1990. Liability insurance was \$464.71 for 1988; and \$1,000.00 for both 1989 and 1990 and miscellaneous is shown to be \$500.00 for each of the three years. Capital expenditures was not on the 1988 or 1989 budget, but shows \$400.00 for the 1990 budget.

(Note: The budget breakdown will continue in the Sunday Bailey County Journal with all other departments in the county with much smaller budgets.)

lot of effort, and have kept a good attitude."

He said in a scrimmage with Sanford-Fritch last week, the Mules came out short on the scoreboard, "but, we couldn't have asked for better effort from each of them," he added. "I believe in playing all the kids, in both junior high school and high school. We're not going to have anyone sitting on the bench."

The athletic director briefly explained some of the plays planned by the coaching staff, such as the wishbone, wing-T, sweeps, and others. He also said there would be a better kicking game this year.

Visitors at Rotary, other than the coaching staff, included James Cox, Jeanne Cox, Angela Crawford, Keitha Glover, Douglass Field, and Jason Clarkson.

EMS CONSULTANT CHECKS AMBULANCES--As Scott Murray, paramedic, left, looks on, EMT Ricky Mata, inside ambulance, shows EMS Field Consultant Denny Martin that equipment inside an ambulance for the Bailey County EMS is in working order. Martin said he inspects 40 ambulance services, and had one more after re-certifying the Bailey County Ambulance Service on Monday afternoon. He again praised the efficiency of the local EMS personnel and their professional dedication to their work. (Journal Photo)

Give

James Crane Tire Co.

A Call and they will come out and give your truck tires and farm equipment tires a **FREE** inspection for the up coming harvest. Labor Day weekend is almost upon us and school is about to start also. Let us check your car tires for travelling holidays and taking the kids to school. Winter is just around the corner and you need good dependable tires for bad weather. We have 6 service trucks ready for the fall harvest, so give us a call. We have a good inventory of 4" to 42" tires. Grain cart wheels, tires and tubes. Truck tires, new and recaps. Call Mike or Cliff or Joe for your tire needs all tires are mounted either at store or in field. We have computer balancer for car and light trucks.

Get These Value-Priced Farm Tires at Your Goodyear Retailer Now.

We'll fix it - in the field! Just give us a call for tire repair or replacement.

DYNA TORQUE RADIAL

With Revolutionary High Traction Tread Design

- Revolutionary 3-lug per pitch design improves traction and ride.
- Computer designed "natural" shape casing improves tire body life.
- Radial construction provides better traction, lower fuel and overall costs.

DYNA RIB

Premium Four-Rib Front Tractor Tire

- Designed for higher horsepower 2-wheel drive tractors.
- Better mobility and more uniform pressure distribution than three-rib design.
- Bead area protected by thick rubber shield.
- Excellent flotation and mobility; smooth ride, uniform wear.

Farms Dangerous Occupation

Farming is America's most dangerous profession, according to statistics released recently.

Valco said that the national death toll is five times the national death toll for all injuries, said Valco, agricultural engineer and safety and mechanization with the Texas Agricultural Extension Service.

Valco said the Texas safety picture parallels the national scene.

"The summer and fall months typically are the worst for farm and ranch fatalities," he said.

A total of 82 fatalities occurred on Texas farms and ranches in 1988, Valco said. Records of fatalities were obtained from death certificates and newspaper clippings.

"Most fatalities took place as a result of farm/ranch activities, but several deaths were a result of recreational activities such as hunting, swimming and horseback riding," he said.

Valco said the highest number of fatalities took place in July, with 13 deaths; while September followed with 12 and October with 11.

The age group between 20 and 29 recorded the highest fatalities with 15 deaths. About 47 percent of these were from gunshot wounds.

Next highest age category was between 60 and 69 years, with 12 deaths recorded. This group was followed by those 70 years or older, with 11 deaths.

Eight children under age 10 died as a result of farming accidents. Many resulted from youngsters riding on farm tractors that hit a bump causing the child to fall under the equipment. Tractors have only one seat, and extra riders should not be permitted," Valco said.

He said tractors and associated machinery were the cause of 28 of all the recorded fatalities. Forty-eight percent of the machinery accidents were the result of people being run over by the tractors and equipment. Another 40 percent of the fatalities occurred from tractor overturns.

"Simple rollover structures could have prevented most of these deaths," Valco said.

Fatalities involving firearms were the next most frequent killer with 14 deaths. Most happened while hunting, being shot by another hunter or mishandling their firearm.

"Many of these victims lived in urban areas. Ranch owners need to insure that visitors follow safe hunting rules and require them to take firearm safety training," Valco said.

High-valued accident categories also were fires and explosions with seven fatalities, some of which occurred during grain fires.

Other farm vehicles, including pickup trucks and all-terrain vehicles, and highway accidents resulted in seven deaths.

Three deaths occurred from falls involving animals, four from drownings, five from being struck by objects,

four from electric current, three from lightning and two from exposure and insect bites.

Valco said it is estimated that with every fatality, there are 100 permanently disabling injuries and 1,000 injuries that require hospitalization.

He said that National Farm Safety Week, as well as Texas and Ranch Safety Week in Texas, will be observed Sept. 17 through 23.

"Safety on the farm and ranch is a concern for everyone. By reviewing these statistics and incorporating safety into your farming activities, accidents can be prevented," Valco said.

Vehicle Owners

Can Pay Taxes

By Credit Card

State Comptroller Bob Bullock said Friday that paying motor vehicle tax will soon be as easy as using a credit card.

A state law passed this year allows county tax assessor-collectors to accept credit card payments beginning Monday, August 28, for the state's motor vehicle sales tax.

The law also permits credit card payment of motor vehicle title transfers and registration fees; property taxes; alcohol license and permit fees; and occupation taxes.

County tax assessor-collectors will decide individually whether to accept credit cards, and which companies' cards to honor.

"Payment of the motor vehicle sales tax will be more convenient than ever in counties where the tax assessor-collectors to charge up to five percent on top of the vehicle sales tax for banking costs associated with accepting credit card payments.

Taxpayers will not be able to use credit cards to pay state taxes to the Comptroller's office or field offices. Cash, cashier's checks and money orders will continue to be accepted.

The motor vehicle sales tax rate is six percent. County tax assessor-collectors forward 95 percent of the motor vehicle tax to the state and keep five percent as a collection fee.

In 1988, the motor vehicle sales tax generated \$896 million in revenue for the state.

Mr. and Mrs. Carroll Legg and girls have returned home from vacationing at Disney World and other points of interest in Florida.

Mr. and Mrs. Doug Jones and girls have returned home from spending the summer at Ruidoso, N.M.

Mr. and Mrs. James Withrow and their daughter, Martha Drake of Austin recently were in Lake Tahoe for a family reunion. Mr. and Mrs. W.O. Stephens also attended.

Mr. and Mrs. Jason Huff and children from Abilene and Marcus Huff and Aren and Chrystal Huff from Lubbock spent the weekend with the Bud Spents. Chrystal will spend the week with her grandparents.

Know THE Weather

One of the mysteries of weather is the veer of winds and all weather to the right in the northern hemisphere. It's called many things—defective force, Coriolis force or Ferrel's law.

This force affects not only the weather, but we have learned, but ocean currents, rivers and projectiles from guns. The truth is projectiles don't alter a straight course; nor do winds and weather veer on their own.

What happens is that the turning of the earth produces the effect of a right veer—in this hemisphere. (Veer is to the left in the southern hemisphere).

Part of this mystery is why in high-pressure weather fronts, the wind veers clockwise while in low-pressure weather systems the winds circle counter-clockwise.

There have been various theories about this. Accepted theory today is that the veer of

the earth makes winds spiraling down from a mountain of air (high pressure on the ground measures this height of air) veer clockwise.

This air, however, turns into counter-clockwise veer and turns when it circles into a hole (low pressure on the ground measures this hole—the air mass above not being high).

Some of the mystery remains, even when accepting the scientific fact that the constant spiraling of the earth creates the deflective force which makes weather a circular phenomenon.

Why couldn't the clockwise spin of air continue when masses move into low pressure "holes?" That's a good question. We know it doesn't and know that currents in the oceans and circular weather patterns equalize by counter flows.

It was not until the 19th century, that this was finally accepted, about wind movements.

Not Much "Pa," said Willie, "a man's wife is his better half, isn't she?"

"Well, we are told so, my son," said father noncommittally.

"Well, then," continued Willie, "if a man marries twice, there isn't anything left of him, is there?"

Modern Reading "What are you reading, daughter?"

"A novel, father entitled 'The Lover's Lovers,'"

"Umph! The usual modern rubbish I suppose!"

"It's a book you presented to mother years ago."

Money Talk

By Charles Carlson, Dow Theory Forecasts
There's good news on the home front.

Fixed-rate mortgages in July reached their lowest level in two years by falling to 9.73%.

It's no secret that interest rates have a major impact on housing affordability. For example, a 1% drop in mortgage interest charges on a \$100,000 mortgage will reduce the monthly payment \$75—or \$27,000 over the life of a 30-year mortgage.

What's more, some analysts believe rates could fall even lower over the next year.

Not only are falling mortgage rates good news for prospective home buyers, but they also bode well for the economy.

Given the housing sector's importance to the overall economy, the drop in mortgage rates should help to keep the economy on its path for a "soft landing."

Those who need advice rarely want it, those who ask it seldom follow it.

'89 Waterfowl Regulations Near Same As Last Year

Waterfowl regulations proposed for the upcoming 1989-90 hunting season in Texas will be almost the same as last year, including a three duck per day bag limit.

Texas Parks and Wildlife Department officials said, however, that the regulations framework set by the U.S. Fish & Wildlife Service (USFWS) will allow a return to the traditional 30 minutes before sunrise to sunset shooting hours this season. Last year the federal agency mandated sunrise-to-sunset shooting hours along with more restrictive bag limits in an effort to reduce the duck harvest. The highly restrictive season length and bag limits of last fall were aimed at cutting the harvest by 25 percent. They actually reduced the harvest by 50 percent nationally and about 60 percent in Texas.

Poor nesting conditions for ducks due to drought and habitat loss in Canada and the Northern United States during the past several years have caused significant declines in populations of most popular duck species. Geese, which generally breed in the Arctic, have fared better and continue to have strong populations.

Bob Jessen, waterfowl program leader for the TPWD, said the federal framework also offers the option of an extended snow goose season for the Texas Gulf Coast region, increasing to 100 days.

Jessen said the department's proposal for duck bag limits, to be acted upon by the Parks and Wildlife Commission on Aug. 31, calls for a basic three-duck aggregate daily limit. The daily bag would include restrictions similar to last year for mallards, wood ducks, pintails, redheads, mottled ducks and hooded mergansers. The possession limit, as usual, would be twice the daily bag limit.

Jessen noted that the proposals are subject to small changes, depending on the final federal framework. He said the state will have the option of a return to a 100-point system of bag limits, but a point system would still have a basic three-duck daily bag limit.

Those interested in commenting on proposed waterfowl regulations should write Bob Jessen, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744, or call (512) 389-4578.

Jessen said surveys conducted by the USFWS and the Canadian Wildlife Service continue to reveal less than encouraging prospects for the fall flights. "The breeding populations of nine of the 10 major duck species showed a decline from the previous year," Jessen said. Only canvasbacks, which were protected by a closed season last year, showed an increase. Habitat conditions on the prairies have improved some and ducks are having a more productive breeding season, he said.

"While these declines were widespread, they have to be considered statistically small," Jessen said. "For all practical purposes, duck hunters can expect about the same number of ducks coming down the flyway this year as there were last year."

Labor Day Death Toll Set At 34

The traffic death count for the Labor Day weekend could go as high as 34 persons, the Department of Public Safety has estimated.

"This may scare you, but you need to know that as many as 34 people could die in traffic accidents in Texas this Labor Day weekend," DPS Director Col. Joe Milner said.

In 1988, 30 persons died in traffic accidents during the 78-hour Labor Day period. Two critically-injured persons died later, for a total of 32 fatalities. This year's Labor Day period also is 78 hours, beginning at 6 p.m. Friday, Sept. 1 and continuing through midnight, Monday, Sept. 4.

"The Department of Public Safety will be doing everything it can to ensure you have a safe

holiday, but we need your help," Col. Milner said. "Please don't drink and drive, stay within the speed limit, and wear your safety belt."

Last year, 21 persons died in DWI or speed-related accidents during the Labor Day period. That amounts to 66 percent of all the deaths. Also last year, of the 23 persons killed as occupants of cars, trucks or buses, 18—or 78 percent—had not been wearing safety belts.

"We believe safety awareness does make a difference," Col. Milner said. "So far, no traffic fatality has been reported anywhere in Texas for June 13. If this holds up, it will be the first time since 1977 we have had a day with no traffic deaths in Texas. Let's make it happen again this Labor Day."

Letter To The Editor

Dear Editor:

It is with an humble and sincere spirit we say "thank you" to the EMT who within minutes, after the call went out, were in our home ministering so efficiently to B. C. in a time of crisis.

'Special thanks' also to Dr. Purdy and the nurses for their

dedicated services. Ask us if Muleshoe needs a Medical Center, our doctors and ambulance service!!

Sincerely,
B. C. Stonecipher
and family

Cultured Them
"Yes," said the old man. "I'll be ninety-six tomorrow, and I haven't an enemy in the world."
"A beautiful thought," answered the new vicar.
"Yes, sir," went on the old man. "I've outlived them all."
