## DISTRICT COURT IN SESSION

The June term of District Court for the 142 Judicial District, convened last Monday morning with Judge W. R. Chapman, Judge of the 104th District presiding as Judge. W. S. Long, Judge of this District was holding court for Judge Chapman at Roby. Other officials in attendance are District Attorney, J. R. Black, District Clerk, Mrs. Callie Marshall, Sheriff Everett Hughes and Deputy W. A. Pettersson.

The following grand Jurors were impaneled: R. C. Clemer, Foreman, C. E. Barr, R. F. Mayfield, Geo. Biggerstaff, John Shrader, Floyd Coffey, John Bryant, Roy Kendrick, R. E. Clemer, H. E. Jones, A. R. Kelton and R. D. Williams.

The Grand Jury was in session for two days and returned 16 bills of indictment, and adjourned for the time. The Jury submitted the following report to the court:

Baird, Texas, June 11, 1929  
To The Honorable W. R. Chapman, Presiding Judge, District Court, Callahan County, Texas.

We, your Grand Jury, beg to report that we have been in continuous session for two days, to-wit, June 10 and 11, during which time we have examined Thirty Seven (37) witnesses and returned to your Honor Sixteen Felony Indictments. We find law enforcement in our County good; crime in general is on the decrease and all officers are to be commended on their good work. There is one thing however, that this Grand Jury deems to be a matter of grave importance, and that is a prevalence of cattle rustling over this part of the State and we wish to urge that our District and County Attorney and all other officers to do their utmost in an effort to enforce the laws which are now upon our Statute books pertaining to the sale of butchered beef and the report thereof to the proper authorities, the inspection of hides and bills of sale upon transfer of cattle. We urge that other Counties be solicited to cooperate in the enforcement of these laws in order that this class of crime may be checked over this part of the State, and ask to be discharged for the time.

R. C. Clemer, Foreman.

The court has been taken up this week with civil cases, a number being disposed of. The docket for the term in rather light. Cases to be tried by Jury will be heard next week.

Visiting Attorneys here this week were: Irving Harwell, T. E. Hayden and Dallas Scarborough, of Abilene, and Judge Baker of Coleman.

## BUYS JERNIGAN'S BARBER SHOP

Mr. W. J. Cross, of Cross Plains has bought the J. U. Jernigan Barber shop and it will hereafter be known as the City Barber shop. Mr. Cross is an experienced barber and comes highly recommended. ## BOY SCOUT CAMP NEWS

The Scout Camp for Chisholm Trail Area Council will be held at Leuders again this year, as it is almost impossible for the Camp at Buffalo Gap to be completed in time for a camp this summer. Nine Scouts from Baird last summer, and from present indications a larger number will go this year. The date is July 30, August 12.

Preparations are being made to take care of more boys this year, as Executive Ed Shumway says that approximately two hundred and fifty boys will be in camp. Only boys in good standing who have passed their Tenderfoot Test, and have been regular in their attendance on Scout meetings will be allowed to go.

Monday night the program for the Scout meeting was the Court of Honor. In the absence of Mr. Bennett, Mr. B. L. Russell, Jr., as by Mr. Dudley and Mr. Jack Flores composed the Court of Honor. The following awards were made:

Norris Kelton, Chemistry, First Aid and Scholarship. Thaxton McGowan, Firemanship, Woodcarving, and Woodwork, also his application for a Star Scout Badge was granted. To obtain a Star Scout Badge one must have been a First Class Scout three months and win five Merit Badges.

Percy Parrish, First Aid and Public Health.

J. B. Stringer, Firemanship, First Aid, and Public Health.

During the third week in July another Court of Honor will be held. At that time several will complete their work for the Eagle Badge, however only three members are eligible from the standpoint of time.

Mr. Kelton, Mr. Hickman and Scoutmaster Patton represented Baird at the Area Executive meeting June 6, at the Hilton Hotel in Abilene.

## BAIRD BOY ELECTED SECRETARY OF ROBY CHAMBER OF COMMERCE

Announcement has just been made that Edward Thomas, son of Mrs. Clarence West, of Baird has been employed as Secretary of the Roby Chamber of Commerce and will take up his duties with the organization immediately.

Thomas is a Baird boy, graduating from the High school here in 1924, and we are proud to learn of this employment as Secretary.

He served as assistant to Mr. H. O. Tatum during his term as secretary of the Baird Chamber of Commerce for over a year and is well qualified to fill the position.

Thomas, until he recently accepted this position, was with an oil company.

Miss Donna Carter, who attended C.I.A. at Denton the past year, spent several days this week with her grandmother, Mrs. Henry Lambert before going on to her home in Big Spring.

## DR. MCFARLANE DIES AT ABILENE

Dr. Bryan P. McFarlane, son of Mr. and Mrs. J. R. McFarlane, died at the Alexander Sanitarium in Abilene Tuesday at 12:50, his death resulting from pneumonia complications following an operation for appendicitis on Wednesday of last week. His condition became serious Sunday and his parents, Mr. and Mrs. J. R. McFarlane and sister, Mrs. W. P. Brightwell of Baird and other relatives remained at his bedside until his death.

Funeral services were held at the home, 909 Elmwood Drive at 5 o'clock Wednesday evening.

Rites were conducted by Dr. T. S. Knox, pastor of the First Presbyterian church, who read the service when Dr. McFarlane was married to Miss Mary Alice Parramore, July 14, 1928. Assisting Dr. Knox were Rev. Cal C. Wright, pastor of the Methodist church at Baird; Dr. M. A. Jenkins, pastor of the First Baptist church of Abilene, and Rev. Willis P. Gerhart, rector of the Heavenly Rest Episcopal church.

Burial was made in the Masonic cemetery under direction of the Laughter Undertaking company.

Active pallbearers were: Dr. Joe Kennedy, Joe Ellis, Dr. Guy M. Gillespie, R. M. Wagstaff, Franklin Haynes, Jr., of Abilene and Otho Lydia of Baird.

Honorary pallbearers were: Dr. J. M. Alexander, Dr. C. L. Pritchard, Dr. R. H. Tull and Dr. Earle D. Sellers.

Bryan Price McFarlane, was the second son of Mr. and Mrs. J. R. McFarlane, pioneers of Callahan county. Mr. McFarlane having been engaged in the cattle business here for more than 50 years. Bryan was born in Baird on August 28, 1898, would have been 31 years of age on his next birthday. In these 31 short years Bryan has accomplished a great deal. He graduated from the Baird High school at 17 years of age. He then entered the University of Texas for three years and receiving the Bachelor of Science degree. He then attended the medical school of the university at Galveston and was graduated there in 1922.

Following a year's internship at John Sealy hospital, Galveston, Dr. McFarlane went to the St. Vincent Charity hospital, Cleveland, Ohio, for a year, coming from that city to Abilene in 1924. After several months of private practice, he became associated with the Alexander sanitarium as assistant surgeon. Since that time he had taken special courses twice in Chicago and once in Tulane university. He was planning to enter the medical department of Pennsylvania university this fall, having already arranged for matriculation, members of his family said.

He had made wonderful progress in his profession. Was popular with his associates in the medical world and held the confidence and esteem of all who knew him and it seemed that he had wonderful future before him in the great services of his chosen profession his death has been regretted by all.

As a medical student he enlisted in the Reserve officers Training Corps at Galveston in 1918. At the time of his death he was a first lieutenant in the medical corps on the reserve list of the United States army.

Dr. McFarlane was married on July 14, 1928 to Miss Mary Alice Parramore, daughter of Mr. and Mrs. Jack Parramore of Abilene. Mrs. McFarlane's grand-parents were the late Col. and Mrs. J. H. Parramore, among the earliest ranch people of this section. Dr. and Mrs. McFarlane recently established a new home at 909 Elmwood Drive, Abilene.

Thinking that an operation would relieve a discomfort which he had felt for some time, Dr. McFarlane went to the hospital last Wednesday and in light-hearted mood requested that it be performed. Pneumonia, developing Sunday, was followed by acute nephritis.

In performing the operation, surgeons found evidence of extensive injury to the large intestine, on the right side, believed to have occurred when Dr. McFarlane was hurt in an automobile accident between Brownwood and Comanche, November, 1927. Conditions existing from the old injury are believed by his associates to have contributed to the complications which resulted in his death.

Dr. McFarlane has been a member of the Methodist church since he was 13 years of age. He is survived by his young wife, his father and mother, two brothers, J. W. McFarlane of Baird and Dr. Joe R. McFarlane of Galveston; three sisters, Mrs. W. P. Brightwell of Baird, Mrs. Frank Hudson of Novice and Mrs. Leland Jackson of Abilene and Burk Burnett.

All his family were at his bedside when death came. Relatives from Baird, who attended the funeral were: Mr. and Mrs. Price McFarlane and daughter Misses Opal and Nina, Mrs. J. B. Cutbirth, Mr. and Mrs. Otho Ledia, Mr. and Mrs. Howard Farmer, Mr. and Mrs. J. R. Hart and family Mrs. Cliff Hill, Dr. and Mrs. V. E. Hill, Mr. and Mrs. Earnest Hill and many friends whose names we did not get.

Miss Berna Louise Brightwell, daughter of Mr. and Mrs. W. P. Brightwell who is attending the American Conservatory of Music in Chicago, was the only member of the immediate family not present at the funeral.

## BOY SCOUTS TO HAVE CAMP

The City of Abilene has donated a tract of land near Buffalo Gap to the Boy Scouts of the Chisholm Trail Area, as a camp for a period of 40 years. It is a beautiful location in the hills on Elm Creek, about twenty miles southwest of Abilene with plenty of shade. Steps will be taken at once to begin the establishment and improvement of the camp which will be under the exclusive control of the Chisholm Trail Area Council.

It is doubtful that the camp will be made ready for the encampment this year, which will be held from July 30th to Aug. 12th and the Encampment will likely be held at Leuders.

The presentation of the lease on this camp site was made at a meeting of the Chisholm Trail Area Council, held at Abilene on Thursday June 6th, which was attended by W. O. Patton, Scout Master, and others from Baird, Rod Kelton, of Baird is a member of the Committee, of Ways and Means to formulate plans and work out a definite program for the work of establishing the camp.

## MARRIED

The marriage of Miss Velma Shahan and Ralph Jones was solemnized at twilight Friday evening of last week at Abilene in the home of F. B. Shepherd, evangelist of the Church of Christ, who read the ceremony in the presence of a few intimate friends and relatives of the couple.

Miss Shahan was wearing a three piece ensemble of crepe Elizabeth with white accessories.

She is a daughter of Mrs. Leno Shahan, and came to Abilene ten years ago from Eastland. She is a graduate of the Abilene High school, and for the past four years has been employed by the West Texas Utilities company.

Mr. Jones is the son of Mr. and Mrs. H. E. Jones, of Eula and for several years has been connected Deavours Ware company.

Mr. and Mrs. Jones left immediately for a trip through the Carlsbad Caverns, Davis Mountains, El Paso, and Mexico City. The couple plan to return to Abilene in about two weeks where they will make their home.

W. O. Wylie, Jr., who spent the past two weeks visiting his sister, Mrs. Will Tucker in Lubbock, and with Mr. and Mrs. Tucker, visited the wonderful Carlsbad Cavan, returned home a few days ago accompanied by Mr. and Mrs. Tucker, who will spend several weeks here with Mrs. Tucker's parents, Mr. and Mrs. W. O. Wylie, before leaving for their new home in Pittsburg, Pennsylvania.

Dr. McFarlane was hurt in an automobile accident between Brownwood and Comanche, November, 1927. Conditions existing from the old injury are believed by his associates to have contributed to the complications which resulted in his death.

Dr. McFarlane has been a member of the Methodist church since he was 13 years of age. He is survived by his young wife, his father and mother, two brothers, J. W. McFarlane of Baird and Dr. Joe R. McFarlane of Galveston; three sisters, Mrs. W. P. Brightwell of Baird, Mrs. Frank Hudson of Novice and Mrs. Leland Jackson of Abilene and Burk Burnett.

All his family were at his bedside when death came. Relatives from Baird, who attended the funeral were: Mr. and Mrs. Price McFarlane and daughter Misses Opal and Nina, Mrs. J. B. Cutbirth, Mr. and Mrs. Otho Ledia, Mr. and Mrs. Howard Farmer, Mr. and Mrs. J. R. Hart and family Mrs. Cliff Hill, Dr. and Mrs. V. E. Hill, Mr. and Mrs. Earnest Hill and many friends whose names we did not get.

Miss Berna Louise Brightwell, daughter of Mr. and Mrs. W. P. Brightwell who is attending the American Conservatory of Music in Chicago, was the only member of the immediate family not present at the funeral.

**What We're Doing for M-O-T-H-E-R-S**

**WE** are devoting a large measure of our time and efforts to the Mothers of this great empire of West Texas, always endeavoring to find ways and means of making their lives more pleasant and the duties which they find necessary to perform much easier.

—When we brought electricity into their homes, these Mothers were immediately relieved of oil lamps . . . one task less! It was made possible for them to enjoy the use of the Electric Refrigerator—the Electric Range and the Iron . . . all labor-savers for Mothers.

—There are numerous other electrical servants, all of which are skilled helpers on every household task; those tasks when done in the OLD way were genuine hardships; now they can be done easily and quickly, leaving much time for pleasure and recreation.

—Better lighting for homes . . . comfort appliances such as the heater and fan . . . floor lamps, bridge and table lamps and convenience outlets, too, are great conveniences . . . and there are personal appliances that keep Mothers well groomed. . . All of these we offer to the Mothers of West Texas, those who we are proud indeed to serve.

## Two-Dollar Dinner for Six

- Washed Potatoes—10¢
- Liver with Fried Onions and Spinach—75¢
- Parsley Peas and Carrots—19¢
- Hot Buttered Rolls—25¢
- Mocha Spanish Cream—27¢
- Black Coffee—5¢
- Incidentals—4¢

People can dine charmingly with an outlay of less than a dollar when the money is judiciously spent. Here is how it can be done:

For the pear cocktail, cube and chop into six cocktail glasses the washed pears from a number 2 can and pour the pear syrup over them. Add one tablespoon grenadine to each glass and chill well. The pears cost 25 cents and the grenadine 12 cents.

To prepare the liver, wash a pound and a half (42 cents), cover with boiling water and parboil gently for fifteen minutes. Drain, remove membranes and vein and cut into serving portions. Slice a pound of onions (10 cents) and fry in four tablespoons drippings; remove onions and keep in a hot place. Brown the liver in the pan, reduce heat and cook until tender. Season well and remove to a hot platter, piling onions on top. Heat contents of a number 2 1/2 can of spinach (17 cents) in the pan and

arrange as a border around the liver. Make a gravy of two tablespoons flour, one cup milk and drippings in the pan.

Heat a number 2 can of peas and carrots (15 cents), drain and add two tablespoons butter and one-fourth bunch minced parsley. Season and toss together.

For the dessert: Scald together in a double boiler, one and one-third cups evaporated milk, seven-eighths cup strong coffee, and three-fourths square chocolate until the chocolate melts. Beat two egg yolks slightly, add one-half cup sugar and add to above mixture stirring constantly until thickened. Add one part marshmallows (three tablespoons gelatin softened in three tablespoons cold water) and stir until dissolved. Cook. When about to stiffen fold in two beaten egg whites and chill. In this, the milk costs 3 cents, the gelatin 4, and the eggs 9 cents and the others 6 cents.

"The Baptism of Pocahontas," "The Embarkation of the Pilgrims," "The Landing of Columbus" and "The Discovery of the Mississippi River" are merely conceptions of the artists, while the pictures hung on the walls of the Capitol at Washington are true to life and events. These are the Trumbull paintings—"The Declaration of Independence," "The Surrender of General Burgoyne at Saratoga," "The Surrender of Lord Cornwallis at Yorktown," and "General Washington Resigning His Commission as Commander in Chief of the Confederate Armies"—and were done by the artist from sketches made where the events took place and with personal acquaintance with most of the characters depicted.

#### Ancient Masques

A masque was a species of dramatic entertainment which reached the highest popularity in England in the reign of James I, but which also was a favorite diversion at the courts of Henry VIII and Elizabeth. The masque probably grew out of the "mummings" which are heard of in England as early as 1377. Masques were commonly played before royalty and the nobility. Rev. Ronald Bayne, writing of the masque, says, "Essential masque was the appeal of the moment to the eye, and the ear, the blaze of color and light, the mist of perfumes, the succession of rapidly changing scenes and tableaux crowded with wonderful and beautiful figures."

#### Vegetable Salt

Necessary and desired as salt is, it is forbidden those suffering from high blood pressure, Bright's disease and dropsy. Victims can forego the ingestion of salt. But its taste they crave. Chemists and pharmacists have long sought to compound a substance that tastes like salt but is harmless in these diseases.

Dr. John Christian Krantz, Jr., chemist and pharmacist at Johns Hopkins, announces that that laboratory of many a beneficent drug has created a salt substitute, which has proved palatable during a year's test. It is called eka salt, and is made from malic acid, apple juice.—Time.

#### So He Let It

No rain had fallen for nearly a year. At last a few drops of the welcome stuff came sprinkling down.

Wherupon Cuthbert, the new English hand, warbled soulfully a popular song of the time. "Let it rain! Let it rain! Let the love in your heart, dear, remain."

Dad glared at Cuthbert and bawled out, "Let it rain! Well, if I catch anyone trying to stop it, I'll screw his blasted neck off!"—Sylvey Bulletin.

#### Can't Assign Credit for Invention of Compass

The origin of the mariner's compass is obscure. By some students the instrument was said to have been introduced into Europe from the East. Others say it was a western invention. It was certainly known to European navigators as early as the Twelfth century. Guyot de Provins, whose satirical "bible" is supposed to have been completed in 1205, described "a contrivance" of sailors which necessarily deceived them.

"They have an ugly brown stone which attracts iron," he wrote. "They mark the exact quarter to which the needle points, which they have rubbed on this stone and afterward stuck into a straw. They merely put it in the water, in which the straw causes it to swim; then the point turns directly toward the (North) star, with such certainty that it will never fall."

Guyot wrote about the compass as if it were a new thing, but other writers reveal that the English by the Twelfth century had already mounted the needle on a pivot and so done away with the straw and water.—New York Times.

#### No Prize Offered for "Mare's Nest" Discovery

"Mare's Nest" is a phrase which we occasionally hear and which we understand to refer to almost any sort of a discovery which upon its face and at first sight seems to be of considerable importance, but which subsequently is ascertained to be a hoax. By inference, therefore, a "mare's nest" has acquired the meaning of something that does not exist.

Just how the expression originated is not clearly established. However, it is authentically conceded that it was first employed over 300 years ago by John Fletcher, and that he himself probably adapted it from an earlier phrase "horse's nest," which, in the then vernacular, referred to any story worn thin by constant repetition. This latter is said to have been first used by Stanyhurst at the end of the Sixteenth century.

The line, "He's come upon a mare's nest and is laughing at the eggs," is frequently heard in Ireland to express derision at somebody who thinks he has discovered something startling when it is in fact something known to all.—Kansas City Times.

#### Swedes Lovers of Beauty

To keep the Swedish railroad stations cheery, the state-owned railroads maintain a special flower garden and hothouse outside of Stockholm. About 50,000 potted plants and 100,000 perennials are annually distributed to the stations of the Stockholm district alone, and the big central station in Stockholm gets not only huge potted laurel trees for the summer season, but fresh cut flowers every day. In the country practically every railroad station has its own flower beds, cared for by the personnel between trains and like the spotless buffets or restaurants inside, they add considerably to the joy of travel. Such refinements the Swedes call "trafik kultur."

#### Bad News

Jenkins married, and in due course his wife presented him with a son. His friends flocked round to tender their congratulations, and incidentally, smoke Bill's cigars.

Jones was on his way to the house when he met Browning returning.

"Where are you going?" asked the latter.

"Oh, I'm just going round to see Bill and wish the luck with that youngster of his."

"Then you're too late," "What? Surely it hasn't died?" "No, the youngster's all right, but the cigar box is empty."—Pittsburgh Sun Telegraph.

#### Camels in Australia

Many camels are used in Australia as beasts of burden. For instance from Wyndham in northwestern Australia the cattle stations are served by camel trains which carry supplies for hundreds of miles into the interior. "The camels are driven by Afghans," says the National Geographic society. "Camel teams are familiar sights in the streets of the little townships, hauling in the great wagonloads of firewood from the outlying district. The first camels were brought to Australia for the use of the early explorers. Later a fine type of dromedary was imported for breeding purposes."

#### Amber and Meerschaum

Amber can be made to burn when heated to a high temperature in the air. It is a fossil resin from trees of the pine family and is dug up from the shores of the Baltic sea and the North sea and a few other places. It is a compound of carbon, hydrogen and oxygen. Meerschaum is a compound of magnesium, silicon and oxygen and resembles a white clay. It is found chiefly in Asia Minor, where it occurs in masses of clay. Of course, the only connection between the two substances is the fact that they are both used in making pipes.

#### Entirely Too Healthy

Little nine-year-old Jo Ann came home from school one day looking very much disgusted. Her mother inquired as to the cause, and Jo Ann said: "O we had election of officers today and I was elected vice president."

"Well, that's fine; why the downcast countenance?" asked mother.

"It would be fine," said Jo Ann, "but John, the healthiest boy in our room, was elected president, and he was never elected on a whole election in the vice president."

#### Haskell Institute Graduates in Native Cost

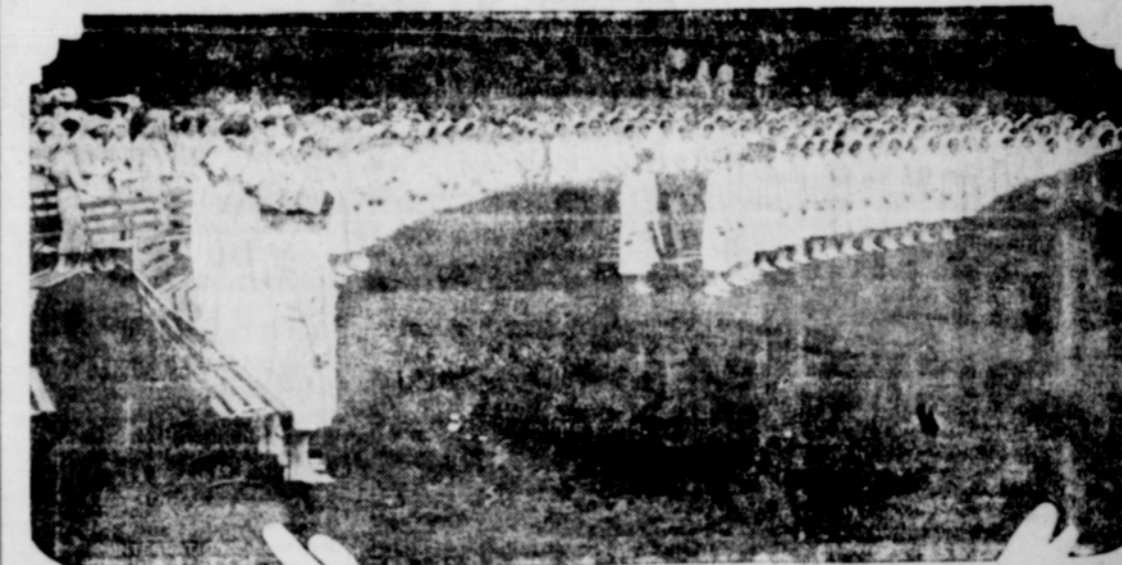

While most of the institutions all over the country are graduating members of their senior classes in the traditional cap and gown, students at Haskell institute donned their native costume. Many of the seniors wore their tribal garb and took part in the war dance—a part of the graduation ceremonies. Haskell Institute at Lawrence, Kan., is the largest Indian school in the United States.

#### In the Navy

A young naval recruit home on leave was asked by one of the Indianapolis navy recruits men how he liked the navy life. The young man replied that everything was fine except that at night when he "stays in" he finds that "the first time he turns over, some fellow turns up and says turn out."—Indianapolis News.

#### Placing the Thermostat

While the thermostat control of an old heating plant seems almost hazy in its regulation of house temperatures, it is no wiser than the man who installed it. A thermostat should be placed where draughts will not blow on it or where the heat of a radiator or a wall-pipe or a chimney will mislead it.

**FATHER'S DAY**

June 16th is Father's Day, and we want to urge everyone not to overlook this occasion. For some reason, Mother's Day is much more widely observed than Father's Day. This is understandable in the light of the beautiful sentiments that are aroused by the very word "mother"—yet father need not be neglected, as too often he seems to be.

Father may seem indifferent to such an occasion as Father's Day. Probably, if asked, he would call it "nonsense" and ask his children to "forget it."

Father may seem austere, or too practical to care for such trinkets as you might be moved to purchase for him, or, in many cases, it might seem ridiculous to present him with a gift out of his own money.

But remember one thing! A man is only a boy grown up. Your father, no matter what his exterior, has hidden away in his heart a little boy. And that little boy will come to the surface and with father will retire to his room as happy about the red pair of suspenders, or the tie, or the box of cigars that you have given him, as my little boy would be about a box of marbles or a baseball glove.

Don't be fooled by your father. He likes little attentions just as much as mother does.—Selected.

**DEMOCRATS SHOULD RALLY  
AT MONDAY GATHERING**

General Grant once said that the Democrats could always be depended upon to act the fool at the right time. The press says that many Democrats will fail to attend the get-together Democratic banquet Monday night in Washington. The Democratic party, somewhat like the ancient Hebrews, has always triumphed when it adhered to its fundamental principles, but always defeated when it did not. Thomas Jefferson founded this Republic and the Democratic party and he, together with his disciples, either ruled or largely dominated this Republic for the first eighty-five years of its existence (1776-1861), and no scandal ever besmirched their record. They extended our boundaries to the Pacific and acquired all the land west of the Mississippi River for less money than the Republicans are spending every year for pretended prohibition enforcement. They, the Democrats, paid all current expenses,

after 1801, including Indian wars and the War of 1812, and in 1835 the public debt was only \$37,000, and there was more than enough money in the Treasury to pay it.

That matchless record was made possible because during all that time they held to Jeffersonian principles without the shadow of turning. They were still in the majority in 1860, but divided into three parties, and a minority party, polling only 40 per cent of the popular vote, triumphed. And as a result, war winged its wide devastation over this land, special privilege became enthroned and is still in power, because the Democrats failed to observe the principle of "majority rules."

The Democrats won again in the nineties, but division caused defeat in 1896. They won again in 1912 and made such a splendid record that they were elected again in 1916. But many Democrats, like the Republicans, listened to the siren voice of expediency and repudiated the doctrine of State rights as set forth in every National Democratic platform from 1801 to 1916, inclusive, and adopted the Eighteenth and Nineteenth Amendments, which insured the party's defeat in 1920, if not for all time.

Many patriotic Americans became so shocked in 1928 at the disclosures of the connections of some Republican cabinet officers and a Republican chairman with Doheny and Sanclair that they looked to the Democratic party for relief. And those Democrats who held the interest of the party above that of any individual made a campaign as was ever waged and by a two-thirds majority selected as sound a candidate and platform as were ever chosen, but a minority bolted because the majority refused to displace the principles of Jefferson with the principles of that Siamese twin, prohibition and religious fanaticism, though they have never pointed out a single sentence of Al Smith's during that campaign that is in conflict with any national Democratic platform from 1801 to 1928. He is the same kind of Democrat as those who were liberated the South from bayonet rule. Some want the Smith executive committee to abdicate. No such request was ever made before, not even to the Bryan committee after his third defeat. The present committeemen have reduced the deficit from \$1,500,000 to \$300,000, and they should stay in there and pith until their successors are duly elected in 1932. Let us get together and stand together by majority rule and ever hold the interest of party above that of any individual.

McKinney, Texas.

**A TRIBUTE**

The finest example of military courtesy I ever have heard of, was most touchingly beautiful, was when the allied commanders conferred on Marshall Ferdinand Foch the leadership over all the mighty hosts rushing to the defense of the great principle of world democracy.

Valiantly the little Frenchman had struggled, his back to the wall, confronted by a merciless foe. Modestly he accepted a position of supreme trust, of highest honor. And he pledged the support of a soldier-citizen, to maintain the dignity of his exalted station. The eyes of the world were upon him—its prayers with him.

At his command the legions sprang to the conflict, against the most terrible fighting machine the world had ever known; a thousand years of history were written within the compass of less than half a bloody decade.

Then, the surrender—the armistice. Nobly he confronted personally his fallen enemy, dictating less of exactions than many considered fair to the conquerors. With dignity he retired to his home, his people, his duty well done. The world acclaimed, but aroused no feeling of selfish vanity on part of its hero.

In his own allotted time he crept away, to lie down beside the unknown soldier, beneath the Arch of Triumph, where both sleep, oblivious to the din and uproar of the cannon.

Another great soldier will repair once in awhile to the shrine near the great cathedral; he will doff his cap and remember the hour when the little marshal accepted the commission naming him the world's greatest commander. He will recall the trying, bloody hours of conflict; and, he will turn away with a swelling heart, for that's the sort of heart our own "old Jack Pershing" has.—Dr. John Joseph Gaines in Heart to Heart Talk.

**NEW MARRIAGE LAW NOW  
IN EFFECT**

"Gin Mating" marriages will show a startling decrease in Texas, in the opinion of an Austin correspondent, if the State has the same experience as California since the law requiring three days' notice of intention to marry went into effect at midnight June 12th.

California hot-shot matrimony dwindled away overnight when they were required to take time to think over before saying "yes." Comparisons in Texas of before and after marriage rates is expected to disclose whether charges that many marriages are thought up under the promptings of hooch and "consummated on the spur of the moment."

This was one of the claims made by sponsors who put the revolutionary law over in Texas.

The house members of the law-making body tacked on an amendment that a man who proposes to marry must present a certificate from a physician that he is free of social disease. Governor Moody promptly approved the law.

Non county clerks are armed with new blank books, and are required to keep on docket for at least three days and not over 30 days, signed and sworn declaration of intention to marry, before license can be issued.

Doctors likely will charge prospective bridegrooms the nominal fee of \$2 or \$3 for the examination, it is said County clerks were authorized to increase the charge for the license from \$1.50 to \$2.

The law is brief and pointed. It carries the "emergency clause," but was not enacted by a sufficient vote to make it effective back in March when it was enacted. The law declares itself with much less legal verbiage than many statutes, as follows:

"Be enacted by the legislature of the state of Texas.

"Sec. 1. That Art. 4604 of the revised civil statutes of the state of Texas, adopted at the regular session of the 38th legislature, 1925, be and the same is hereby amended, so as to read as follows:

"Art. 4604. License. Persons who desire to marry shall procure from the county clerk a license directed to all persons authorized by law to celebrate the rites of matrimony.

"Art. 4604-A. For the purpose of ascertaining all the facts required under the statutes, the county clerk at the time the license is applied for, shall examine the applicants for the license under oath as to age and residence, which shall be reduced to writing by the county clerk and subscribed to by the applicant or applicants. In case either party is absent when the application is made, an affidavit shall be made by a person other than the contracting party as to the age and residence of the absent party. Said affidavit to be filed in the county clerk's office.

"Art. 4604-B. Application for license shall be made, at least three and not more than 30 days before the license shall be issued. Immediately upon receipt of an application for a license the county clerk shall have recorded in a book kept for that purpose and marked "Notice of Intention to Marry" and after the expiration of three and not more than 30 days after the signing the notice of intention to marry, the county clerk may issue said license.

"Art. 4604-C. Before the county clerk shall issue any marriage license the man shall produce a certificate from a reputable licensed physician to show that he is free from all venereal diseases.

"Sec. 2. The fact that this act creates an emergency and an imperative public necessity demanding that the constitutional rule that all bills be read on three several days in each house, be suspended, and that said rule is hereby suspended, and that this act shall take effect and be in force and effect from and after date of its passage and it is so enacted."

The notice of intention forms indicate that though the wording of the law apparently requires at least one of the contracting parties to be present when the notice of intention to marry is given, that the notice may be filed by a third party on behalf of the contracting couple, or by one of the contracting pair and another person, or by both the contracting parties appearing together.

**THE PASSING OF GEORGE  
B. SCOTT**

We take the following beautiful tribute to Geo. B. Scott, from the Cross Plains Review of last week:

In the passing of George Scott another leading citizen of Callahan county has joined the innumerable hosts who have pitched their tents on the eternal camping grounds since time began. He was among the company of the great who has helped to fashion Callahan county from a labyrinth of undeveloped forests and bring about by enduring efforts and study the great advantages we now enjoy. Neither pen nor brush can compose greater eulogy than we have heard in the trend of comment on his untimely passing: "He was the best friend I ever had."

It is truthfully said that the ways of Providence can never be understood by mortals, and that our visions will ever be too limited to see beyond our sphere of human activities.

Perhaps it is best that it should be so. Doubtless what we desire and think we need most the wisdom of God would deny us, for in Him we live, and move, and have our being. Happy and wise are those who bow in humble and willing submission to His mandates and in humble resignation seek His guidance and presses on. There is no greater consolation and divine assurance that all is for the best than is contained in the Biblical answer to the query as to the why and afflictions: "It is not for you to know," why George B. Scott, one so useful and beloved, should be called from the walks of men when it seemed he had reached his best period in life for service and usefulness to his community. A devoted husband and father, a generous and loyal friend to all, a true citizen, capable and willing to lead or follow in every useful and worthy enterprise for his community. In the responsible position as cashier of the First State Bank he was ever awake and cheerfully gave his time to the advancement of its business, and in a manner that would best serve the interests of the people of this community.

His high character and worthy deeds have left an indelible impression that reaches beyond the bounds of Callahan county, and it can be truly said that the world is better for his having lived," and those who knew him best will never cease to revere and honor his name.

Countless friends of the family in Callahan county and elsewhere will join the Review in extending sympathy to those who mourn the loss of so dear a relative and friend, and it is best for them to humbly remember that:

The tomb is not the end of life;  
It is a throughfare—a way  
That closes in soft twilight  
And opens in eternal day."

**NOTICE OF BANKRUPT'S  
PETITION FOR DISCHARGE**

In the District Court of the United States for the northern District of Texas.

In the matter of Benjamin Louis Boydston, Bankrupt. No. 1269, in Bankruptcy.

OFFICE OF REFREE.  
Abilene Texas, June 10th, 1929. Notice is hereby given that Benjamin Louis Boydston, of the County of Callahan, and district aforesaid, did, on the 5th day of June 1929, file in the Clerk's office of said Court, at Abilene, a petition setting up that he has been heretofore duly adjudged a bankrupt under the act of Congress approved July 1, 1898; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy, and praying for a full discharge from all debts provable against his estate in bankruptcy, save such debts as are excepted by law from such discharge.

On considering the above mentioned petition, it is ordered that any creditor who has proved his claim, and other parties in interest, if they desire to oppose the discharge prayed for in said petition, shall, on or before the 22nd day of July, 1929, file with the Referee for the Abilene Division of said district a notice in writing of their opposition to a discharge in the above entitled cause.

**CISCO LOBOS WOLLOP  
THE COYOTES**

The Baseball game that had been advertised for the T. P. Park for last Sunday, turned out to be a Kentucky Derby Classic, with the Cisco entry winning by nine lengths so completely upsetting the Coyotes that the par-mutuels failed and refused to pay-off or offer any kind alibi whatever.

The starting line-ups were as follows:

Coyotes  
Finley, l. f.; Chappell, c.; Cotulla, 3rd.; E. Hall, r. f.; R. Ray c.f.; L. Ray, 1st.; H. Ray, s.s.; Kehrer, 2nd.; Strickland, P.

Cisco Lobos  
Vanhorn, s.s.; Hinson 3rd.; Bryan, r.f.; Pippen 1st.; Bucey c.f. Chapman 2nd.; Smith c. Purvis l.f.; Morre, P.

The game was late in getting started, Umpire McIntosh calling "Play Ball" at 3:49 p.m., Umpire Chas. Fiedler was officiating on the bases.

Strickland walked the first man to face him, Mr. Vanhorn; then Hinson promptly sacrificed, or attempted to and both runners were safe when L. Ray dropped the throw from Strickland; with Bryan at bat Vanhorn scored and Hinson went to second when Chappel let one of Strickland's benders go to the backstop, Bryan then was called out on strikes, Pippen singled by second, scoring Hinson, and took third, when the ball took a bad hop over Hall's head in right field, Bucey singled over 2nd, scoring Pippen, Chapman singled off of H. Ray's glove sending Bucey to 2nd, Harold made a pretty run and dive to knock this ball down, but could not field same in time to get either runner, Smith singled thru second scoring Bucey and sending Chapman to 2nd, Purvis grounded out to L. Ray at first, Chapman scoring on the play, and Smith sent to third, when Lon overthrew 2nd base, Moore his to shortstop, Harold fumbled the ball, Moore was safe at 1st and Smith scored, Vanhorn up for the second time, got the second free transportation, this time he was hit by the pitcher, but Hinson was sympathetic, and ended the agony by fanning, to retire the side, with six runs, 4 hits and 4 errors, with many other stupid plays.

The Coyotes got one hit in the first inning, but no further damage the visitors went out in order in the second, likewise the homeguard again in the third, Strickland held the visitors well in hand, but the Coyotes went on a rampage in their half of the third, Finley flew out to center field, Chappel walked Cotulla shot a hot one to right field, Bryan made a nice run and shoe string catch, but fell and dropped the ball, Cotulla being safe at first at Chappel at second, E. Hall singled to center filling the bases, Raleigh Ray shot a short single to left, scoring Chappel and leaving the bases still loaded, L. Ray forced R. Ray at second, short to second, Cotulla scoring on the play and Earl going to third, Harold Ray scratched a hit by third to core Earl and send Lon to second, but Kehrer rolled out Pitcher to first to retire the side, with three runs 2 hits and one error, this ending the scoring for the Coyotes, however the visitors added another half dozen during the next five innings to make the game all the more ridiculous.

Kehrer, Hall Finley and Cotulla each garnered a hit during the melee, while Harold swipped a couple and Rawleigh and Chappel had to be hoggish and claim three each.

The game very clearly demonstrated that the Coyotes were out-classed, and need much more practice, before they can hope to compete with such terms as the Lobos, however the anvil-chorus that was in full swing after the game Sunday and Monday, will not bring the desired results, hide your hammers and do a little more boasting and rooting and watch the Coyotes go.

Coyotes to play Rising Star here Sunday at T. P. Park, June 16. A large crowd is expected.

Some four weeks ago while returning from a call out south of Clyde the doctor found a lady and several children in a car stuck in a mudhole and in assisted them out he injured his ankle and at first thought it was only a sprain, but when so slow healing he went to the Alexander sanitarium where an X-ray showed it to be a fractured bone. Dr. Hamlett had planned to go to California to take a post-graduate course, but will not be able to go just now.

**R. A. ST JOHN BURIED AT CISCO**

In a casket massed with a great profusion of beautiful funeral blossoms the body of R. A. St John, one of Cisco's most respected and earliest citizens, was lowered into a grave in Oakwood cemetery while members of the Masonic order intoned the solemn lines of the last rites of that great fraternity. Interment followed the religious services conducted at the home of the deceased at 609 West Seventh street, by Rev. G. W. Parks, of Roscoe, formerly pastor of the First Baptist church here, and Rev. Acker C. Miller, pastor of the Cisco church.

Citizens not only of Cisco but from the entire county and adjoining counties were present to pay respect to the deceased and to the family forming a concourse that filled all available space within the home, upon the veranda and overflowed upon the lawn.

The casket was placed in the front room and in the dining room the members of the family were grouped.

The Baptist quartet, composed of B. W. Paterson, W. F. Walker, S. E. Hittson and Lory Boyd, opened the services with "There's a Beautiful Land." This was followed by prayer and the reading of the entire 90th Psalm by Rev. Mr. Miller. The quartet sang "Golden Bells."

Rev. G. W. Parks spoke in eulogy of the life and character of Mr. St. John as he had known him in the course of a long friendship. He dealt in reminiscences of this friendship and closed with a comforting reflection upon the assurance of the Christian faith as revealed in the resurrection of Christ.

After this the quartet sang again Then as the piano played "Nearer My God To Thee" the attendants and friends filed by the casket and waited upon the lawn leaving the family and the dead to the privacy of the room for a few moments.

Knights Templar served as an escort of honor. At the entrance to the cemetery the procession halted and the members of the Masonic orders here formed in regular funeral order marching before the casket to the grave where the final rites were said in accordance with the Masonic ritual.

Rev. Mr. Miller acting as Masonic chaplain dismissing the gathering with prayer.

Mr. St. John died at his home shortly after 10 o'clock Wednesday evening after a long illness.

He was best known to the people of Cisco as postmaster for eight years under the Wilson administration.

His life as a citizen and as a Christian gentleman was exemplary. He was always progressive, always conscientious in his beliefs and in his efforts for the upbuilding of his city and the institutions with which he associated himself.

Six children of the immediate family survive. They are three sons, Will St. John, Cisco; Roscoe St. John, and Ralph St. John, of Abilene, and three daughters, Mrs. Fred Cook, of Lubbock; Mrs. Velma Hayden, Cisco, and Mrs. Jack Cabaness, Cisco.

Pall bearers for the funeral were: William Reagan, L. A. Warren, Carl Lowery, F. D. Wright, Dr. E. L. Graham, Fleet Shepard, A. L. Mayhew, Dr. D. Ball, W. J. Armstrong, A. B. O'Flaherty, A. J. Ward, William F. Keough, A. E. Simpson, J. B. Morrison, Elbert H. Davis and George Atkins.

—Cisco Daily News.

Mr. St. John was for number of years a citizen of Baird and Callahan county and many friends here, both old and young are made sad by his death. Friends from Baird who attended the funeral were: Dr. R. G. Powell, T. E. Powell, Otis Bowyer, H. Schwartz, Judge B. L. Russell, and Miss John Gilliland.

## RAISING CHICKS REQUIRES CARE

Success Depends Largely on  
Attention Given Them.

What success New Jersey men have with raising chicks will depend largely upon the attention they give to maintaining cleanliness, plenty of room, and proper feeding equipment. In other words, the principal factors in successful brooding of chicks, says J. C. Taylor, assistant poultry extension specialist, New Jersey state college of agriculture, Rutgers university.

Keep the brooder clean all times. After chicks are added, the brooder house should be cleaned every five days. Remove the litter, sweep the floor, and put in clean litter. Chick boxes, feed bags, pails, coal, and other equipment should not be in the brooder house.

Crowding is common to many poultry farms. It is safe to say that 90 per cent of the poultry men crowd their chicks. Allow two chicks to one square foot of floor space until they are four to six weeks old. After this allow one chick for each square foot of floor space. Where chicks are raised in confinement allow one chick to each two square feet of floor space after the brood is six weeks old. Following these rules eliminates crowding and thus gives all chicks a chance to grow.

Adequate feeding equipment is essential. More chicks die of starvation than from a number of other causes. One inch of hopper space is recommended for each small chick. A hopper three feet long feeding from both sides will accommodate 75 chicks. Keep feed in the hoppers. Water fountains of the two-quart size are good for small chicks, followed by the gallon size when the chicks are older. The important point to keep in mind is to have enough fountains so there will always be water for the chicks to drink.

### Treating Chickens for Severe Colds and Roup

When the eyes of chickens water and then swell, it is usually due to colds which are developing into a roup condition. The nostrils are usually packed with mucus, making breathing difficult and matter due to inflammation gathers in the face and finally becomes packed in a hard, leathery lump.

When colds first appear, squeeze the nostrils with wads of tissue paper to remove the mucus and then inject commercial disinfectant or roup cure or potassium permanganate with a medicine dropper. The commercial roup cures often include a small syringe useful to inject the solution into the nostrils of the bird.

If the head is bulging with hard matter and has the strong odor of roup, it is best to kill the bird, especially if it is badly debilitated and becoming thin. If the hen is in good condition, the hard matter picked out with the point of a small pen-knife. Then inject the roup cure or commercial disinfectant and place a small packing of cotton in the wound so that healing will take place from the inside. The cotton should be moistened with iodine. Whether treatment pays or not depends on the value of the bird, the time of the caretaker, and the condition of the bird when treatment begins.

### POULTRY NOTES

A great many people seem to forget that a baby chick is a baby.

By hatching early the chick gets a good start and is less susceptible when exposed.

Feed plenty of lettuce, mustard, rape, turnip greens and onion tops shredded fine.

Every farm should include in its equipment a portable brooder house for raising young chicks.

A portable brooder house should not be over 8 by 12 feet if it is to be moved with a team.

Feed clean feed in clean containers. Don't use zinc containers for sour milk nor to feed mash in.

The modern poultry house is well lighted, well ventilated, dry, free from drafts, and moderate in cost.

No baby chick should be given food of any kind for at least 48 hours, and it would be better if this time were extended to 72.

The turkeys should not be fed straight alfalfa meal or alfalfa stem meal because it is too bulky to be handled by their digestive systems.

Avoid turning out young turkeys until dew is off the grass and weeds. A little care at first will repay you big. Don't change feed too quickly, but gradually work into another feed.

There are a number of gas burners available for brooding chicks. A satisfactory way to use gas is in a coal stove. Several manufacturers provide gas burners for their coal stoves.

Farm brooding is probably best done with the portable, colony brooder house as the first essential piece of equipment. This type of house possesses many desirable features with economy.

### RUNNING WILD

In the spring and summer especially, complaints are made of children "running wild" on the streets. Not very often are such complaints accompanied by suggestions of remedy or solution to the question of what the children do out of school or in their free time. As always has been, there again will be a "child problem" this spring and summer. But having joined heartily with those who dislike to refer to children as "problems," we prefer to resolve all so-called child problems. For it is the undoubted business of the adult world to look after the interests of the juvenile world.

Children running wild on the streets do annoy us more sedate individuals. But until the community provides adequate opportunity for the exercise of children's instincts to play, the community is obliged to undergo that certain inconvenience occasioned by the unbridled self-expression of youth. Children not only have their rights, but they go about the business of exercising them.

From the child's standpoint, it must be remembered that even

present-day civilization is but a step removed from savagery. The child, true to his ancestral instincts is essentially a hunter, a climber, a soldier, a little ruffian like cave man who recognize little or no property rights except those of his own conquest. And in the modern community there are few places where children can play except in those places of public travel and business intercourse.

A certain amount of running wild is necessary in the life of every boy or girl. Without this free play there is chance of a too cramped and disciplinary development into adulthood. We, as grownups ought to stretch a point and stand for much of childish pranks. But we ought also afford our children of the community such facilities as are possible to direct their recreative energies in channels constructive to wholesomeness. Work, study research, association with others the following hobbies, the care of pets, the cultivation of plant and vegetable life, the encouragement in mechanics and in youthful invention—all come properly within the scope of recreation, and are subjects in which the best minds and most willing hearts of the community can engage the young people with pleasure and profit to all.

In addition, there should be a growing appreciation of the need for directed playgrounds. That we are living in an age when these are as necessary as any other institution of social progress is apparent. Educators, social workers, judges and juvenile authorities know this. According to the superintendent of public instruction of one of the largest states in the Union, out of thousands of boys and girls investigated, not one received punishment whose leisure time was properly directed.

### Hot Cross Buns

The pagan cornucopia eaten at the ancient spring festival was made fit for the Christian East by marking it with a cross—and so we have the "hot cross bun." Parish clerks in parts of Dorset and Devon once earned a pleasant penny by carrying small, white cakes, very thin, and from five to eight inches in diameter, around to each house on Good Friday after service.

### Backward Country

Afghanistan is a country of wild highlanders, without one foot of railroad, one mosque or temple or palace of architectural renown, one handicraft of noble culture or one volume of ancient wisdom.

**RAILROADS REDUCE ACCIDENTS**

Within the last ten years the number of persons killed on railway property, owing to conditions within railroad control, has been reduced 61 per cent. In contrast to this, grade crossing accidents have materially increased. It has been repeatedly held that railroads are not responsible for accidents due to persons crossing their tracks. Every effort has been made to protect the public. And the motorist who fails to investigate before venturing across tracks or attempts to race trains, must do on his own responsibility. The utility of trying to force the railroads to remove grade crossings is shown by recent records. Tremendous amounts have been spent for this purpose. Yet in 1927 the last year for which official statistics are available, grade crossings increased 952, due to the construction of new highways and streets across railroad property. In every phase of the accident menace over which the railroads have control, improvement has been made. Under circumstances where control is within the jurisdiction of

the public accidents have increased. Clearly, the railroads are creditably discharging their share of the responsibility and the rest is up to the people.

**SAMPLES OF NEW SIZE CURRENCY TO GO INTO CIRCULATION ON JULY 10 ARE BEING SHOWN AT LOCAL BANKS**

"Samples" of the new United States currency which will go into circulation next month are on display in the lobbies of the First National Bank and the First State Bank of BaIRD. The new money is fully one-third smaller in size than the old money which it resembles in appearance. The smaller size while making it convenient for handling by the public also enables the government to save millions of dollars annually in paper costs. The paper on which the notes are printed is very expensive.

Some changes in the design have been made. In addition to having the denomination of the bill printed in each corner as before it is engraved in large letters on the face of the bill just to the right of the central design, making it doubly hard to "raise" one.

Bills of all denominations will be printed in the small size which will gradually replace the old style currency. A two-dollar bill will also be issued.

Each of the banks receiving "samples" of the new money for display has signed a pledge not to sell or distribute any of it. Each of the local banks received four bills, representing \$18, in denominations of one dollar, two dollars, five dollars and ten dollars.

The following announcements, setting the date for the initial issue of the new size currency has been made by Secretary of the Treasury Andrew Mellon.

"The secretary of the treasury has heretofore announced the adoption of a reduced size, and wholly new designs, for the paper currency issues of the United States.

"The date July 10, 1929, is now set for the initial issue of new small-size currency, and thereafter old-size currency redeemed as unfit for further circulation will be replaced with new small-size currency. The issue will be made through the federal reserve banks and branches. For initial issue, the federal reserve banks have been authorized to make available to the commercial banking institutions of their respective districts limited amounts of new small-size currency, on an equitable basis established by them. After such initial issue, in making payments of currency, the treasurer of the United States and the federal reserve banks and branches will follow the usual procedure and will pay out available old size currency fit for further circulation concurrently with new small size currency in such proportion of each as may from time

to time be determined.  
"The initial issue will include all kinds of currency except national bank notes, and all denominations from \$1 to \$20. Small size gold certificates and federal reserve notes in denominations above \$20 will be issued when available without further notice. Small size national bank notes will be printed for issuing banks in order of charter numbers and commencing about July 15, 1929, will be issued accordingly, as available, against redemption of old size bank notes. Any outstanding old size paper currency heretofore or hereafter issued, will not be recalled. It will be retired gradually in regular course of business, and, in the meantime, its validity will not be affected by the issue of the new small size currency."  
"A. W. MELLON

**FORMER ATTORNEY GENERAL PRAISES LEGION INFLUENCE**

LUDLOW, VT.—The American Legion is a powerful organization and can exert a tremendous influence in the behalf of good citizenship and in combating lawlessness, in the opinion of John G. Sargent, former U. S. Attorney General. In an address before the members of the Ballard-Hobart post of the Legion on his first public appearance since his recent return from Wahington, Sargent urged members of The American Legion throughout the country to rally to the cause of good citizenship and law enforcement.

"The American Legion is the greatest, most powerful organization in the country today," the former Attorney General said. "It can accomplish any good result it sets itself untingedly to do. It has secured whatever it has undertaken for the proper care and relief of the ex-service man and his family. It is present and active in every place, large and small, in the city and country. It is represented in every home by a living relative or a gold star. It acts by the votes of the individual members and exerts its influence in the community by individual example and pressure on those around them.

"It is my firm hope and belief that, as the immediate and pressing problems of attention to personal relief and care for victims of the war are solved and worked out, it will turn its attention and observance of an obedience to the law, for in that only lies the safety of the republic and its institutions. You men once offered all you had, life itself, upon the altar of your country. You were the foremost advocates of its preservation from enemies abroad. You will again continuously and unceasingly advocate its preservation against the enemy of lawlessness at home."

**ABILENE AUTOMOBILE RACES JULY 4th**

Abilene, Texas, June 14.—The feature of the Automobile Race program to be held on the West Texas Fair speedway in this city on Independence Day, July 4, will be a 15 mile event in which a guaranteed purse of \$650 will be given to the winner, and smaller amounts to the next three to finish.

There will be four other competitive events on the card in addition to the time trials which will start at 1:30 p. m. The fair association is putting up a total of \$2,500 as prizes for the various winners and will in addition divide a percent of the receipts among the contestants.

The race meet here on Independence Day will be conducted under the sanction of the contest board of the American Automobile Association. D. H. Jefferies, veteran race official will have charge of the program as official AAA representative and starter.

In order for drivers and cars to enter this race, very stringent regulations must be met, Jefferies says. Spectators will be guaranteed of seeing all the contestants trying to win. There will be no pieced-up machines or inexperienced pilots allowed on the track.

Each of the five races will start eight cars. The first contest on the program will be for ten laps of the five-eighths mile dirt track. This will be open to the eight cars making the fastest time in the time trials and will pay \$250 to the winner.

In the second event, also a ten-lap grind, the cars winning the first three places in the first race will be cut out and the next eight high cars in the qualifying round will be started. First money will be \$175.

The other two events will be five mile races.  
The entry list for the Independence Day classic is open and a large number of starters is expected.

**Kiddies' Evening Story**

By MARY GRAHAM BONNER

**Clock and Brownies**

"I am the village clock. And what is more, I wouldn't be anything else in the world."

"Could you be if you wanted?" asked Bennie Brownie.

"Do not be rude, little brownie," said the clock. "I'm not saying whether I couldn't be or whether I could."

"It's not a matter for discussion."

"Whatever do you mean by discussion?" asked one of the very young brownies.

"Talk, brownie child," said the clock. "Talk and discussion mean the same."

"Sometimes, though, a discussion may be an argument, and sometimes an argument may mean a quarrel."

"So discussion has all sorts of possibilities which talk hasn't got."

"Yes, I'd rather be discussion than talk if I were a word. It has more chance in life."

Billie and Bennie Brownie were laughing so hard they were almost afraid they would burst their sides.

The clock was putting on such airs and trying to be so very learned and wise.

"Could you be a word if you wanted to be?" asked the youngest brownie of all.

"I am a word," said the clock. "And a fine word I am, too. The word which I am is clock, little brownie."

"Yes, clock is certainly a word and that word means nothing else but me—or one of my family."

"Such a fine family as I have. We keep the time. We don't care if people won't obey us."

"Do you suppose, for one minute, when anyone is late that we'll move back?"

"Not a bit of it. We go on and on, and won't stop for anyone."

"That's what it means to belong to the family of clocks."

"Of course, there are clocks that get out of order and stop, but that's only because they have something the matter with their works."

"We won't stop for anything else. We sometimes have to be wound up, but as for stopping because someone was late and didn't want to be!"

"Goodness, we'd never do that. When any of our family has to go to the clock menders or be wound up, the time goes on just the same."

"Yes, we have to keep up with the time. Some people try to keep up with the times they say."

"But we keep up with the real time, the fast-moving time, the never-stopping time."

"People set their watches by me. Children hurry by me on their way to school."

"And sometimes they say: 'How the time has flown. We will be late if we don't hurry.'"

"I am really just going at my usual rate. I don't go by fits and starts. I'm regular."

"But the greatest honor of all was paid to me this spring."

"What was that?" asked Bennie Brownie.

"Yes, do tell us," said Billie Brownie.

"We want to know," said the other little brownies.

"They lighted up my face at night, so now anyone can see me and the time that it is in the night-time, too."

"Oh, I was delighted when that happened. It has made me an even happier clock than I was before."

**A Thimble Game**

The thimble game is quite fun, although it is very simple. Two thimbles are needed, and the players divide themselves into two sides. It will be as well if one player stands aside to see that everybody plays the game. The players line up on each side of the table. At the word "Go," the first player of each side picks up the thimble and pushes it onto the center finger of the right hand of the player behind him. That player in turn pulls it off with his left hand and pushes it on the same finger of the next player. This continues right down each line of players and back again to the starter, and the side to finish first wins the game.

**Had Found Five Already**

The mother threw down a cheap novel she had been reading, exclaiming: "Good gracious, this heroine makes me tired. She has no end of lovers."

"But there's a lot more than that. Why I've found five already," said her little daughter, turning the leaves towards the end of the book. "See what it says here, 'Chap. XXV.'"—Border Cities Star.

**WHAT'S DOING IN WEST TEXAS**

Anson is doing a great deal of building. A theatre with a capacity of 450 on the main floor and 100 in the balcony is to be erected by Knox Pittard. The plans call for a modern theatre front, three entrances, the foyer of tile. Floor will be of cement and tile. The dimensions will be 30 by 120 feet.

Hereford celebrated the opening of a new \$80,000 Baptist church by starting a revival in it. All precedents in church construction were broken in the decoration, seating and architecture of the distinctive church. One thousand auditorium or theatre chairs are in supply. The rose colored, roof, eaves, and circular-topped windows suggest the Spanish motif.

The De Leon Free Press recently celebrated its 4th birthday. It was established late in June in 1889, eight years after the establishment of the town, and has been published continuously ever since. O'Donnell Methodists are spending \$3,500 remodeling their church. Seven Sunday School rooms will be built, besides other improvements. When completed this will be a splendid edifice, and up-to-date in every respect.

Tahoka is to have a new business block. C. A. Hill of Lamesa has announced that he will erect a brick building 50 x 125 in size to house a chain grocery store and an automobile agency. The old Howell building, one of the first garages erected in this section will be razed for the new structure.

A Big Spring building is nearing completion. It is the \$55,000 Read building which contains seven stores on the ground floor, and a 25 room hotel on the second floor. It extends the business district one block on East Seventh. Other buildings nearing completion are the Alta Vista Apartment house, Studebaker plant and six-story Petroleum building.

Silverton's new High School will cost \$80,000, and will be completed by August 15. The school board will make plans to organize both a Junior and a Senior High school, according to C. D. Wright, president of the board.

Brownfield is rushing its street paving. At a meeting of the city council recently, Wichita Falls firm was employed as engineers on street paving, with instructions to start actual construction as soon as possible. It is thought that the proceeds of the bonds recently voted will provide for the paving of several additional blocks.

The Coleman Chamber of Commerce recently elected Sim O'Neal to serve another year as secretary of the civic body. Elmo V. Cook head of the agricultural department and teacher of agriculture in Coleman High school, tendered his resignation to accept a position as agricultural agent in Bosque county.

Borger, the worlds largest carbon black manufacturing center, has ten plants now operating or nearing completion, with 63 unit, consuming 315,000,000 cubic feet of residue gas daily. Four hundred and seventy five thousand pounds of carbon black for tires, etc., are made every day.

The Wichita Falls cheese plant is buying 27,000 pounds of milk a day from farmers and dairymen in the area, which means an income of \$600 daily and \$30,000 monthly from a source that was non-existent only a few months ago. Other creameries and purchasers of milk in that city swell the total considerably.

Perryton will soon have a modern three story hotel. It will contain 41 rooms and will supplement another good hotel under construction containing 26 rooms. Paving of 14 1-2 blocks in the business district is under way and a \$50,000 theatre, equipped with vitaphone is nearing completion.

**Mending Books**

If the binding of a book is loose it can be strengthened in the following manner: Cut a strip of linen the length of the book and about an inch and a half wide, then cross it down the middle and finally glue it inside the cover at the joint. Sew the front and back covers in this way and then place the book under a weight.

**Language Facts**

In the English language the letter "E" is used most frequently, but according to the New Oxford dictionary most words begin with "S." In this dictionary they number 57,428.

**Irrepressible Youngster**

"The street was wide and cold. 'Look, mother,' said little Benny as a policeman stood a yard opposite. 'There's the man who comes every week to the charities money.'"

**HONORING MRS. HAYS  
JAMES MEY**

Mrs. Hays James Mey., nee Brooksie Wright, was honored with a shower at the home of Mrs. W. S. Hamlett, Friday afternoon from four to six o'clock. Some twenty-five guests were registered in the bride's book.

After the guests had been shown through the new home of Mrs. Hamlett and a dainty refreshment plate had been served, Miss Ruth Simons read an appropriate reading.

The bride was seated in the center of the living room and everyone was told to shut their eyes, when little Misses Jo Ruth Arvin and Betty Wright entered drawing a small wagon decorated in pink and white loaded with gifts for the bride. After the presents were passed around for the guests to see, they departed wishing the bride much happiness.

**Her Entire System  
Strengthened By It**

MRS. E. PRUDHOMME

"Two years ago specialists in Louisiana advised me to come to San Antonio to recuperate from a bad spell of malaria, which had poisoned my system and left me in a run-down condition. My complexion and eyes had turned an unhealthy, yellow. Everything I ate gave me trouble, instead of strength. Constipation kept my system from throwing off poisons. I ate almost hopeless.

"Sargon did more for me in less than a month than all the medicines I used in five years. My friends say they have never seen such a remarkable change in anyone in such a short time. Every trace of indigestion is gone. My food gives me the proper nourishment and I have gained five pounds. I feel good all the time.

"Sargon Soft Mass Pills overcome constipation in a natural way. They not only have rid me of constipation but have driven the malarial poisons out of my body.

"I take the greatest pleasure in telling all my friends about it."

The above statement was made recently by Mrs. E. Prudhomme, 316 West Woodlawn, San Antonio, Texas, who is highly regarded by her friends and neighbors.

Sargon may be obtained in Baird from City Pharmacy; and in Cross Plains from the Cross Plains Drug Store.
