ert Tigers op Bulldogs Cage Upset

ALAMOGORDO — An inspired crew of Tigers clawed a leathery victory over the Bulldogs in the feature attraction of the opening session of the annual holiday invitational basketball tournament.

Alamogordo fans were disappointed by the Bulldogs' showing in the past Tiger backer were over a team which apparently came of age several weeks ago.

The Bulldogs paced the Alamo with 16 points and team captain Jake Ramirez and Ernie contributed 13 apiece. The Bulldogs' high scoring Artesia attack was held down by an alert defense and the Bulldogs were unable to muster the scoring evident in their earlier games.

Clyde Chaney mustered only 10 points, while Charles Snow and Bob Cerny hooped 10 each in the losing cause.

Alamogordo took a narrow edge in the first quarter pole and extended their lead in the second quarter to lead at the half 28 to 20.

In the opening game of the invitational doubleheader, Lovington whip-lashed the Bulldogs 21 to 28 with Bill Gadsden 7 points and the winner Junior Jarvis had 12 for the Bulldogs.

Gadsden played without services of star Sal Gonzales. Gonzales plays Gadsden this afternoon in the second round of play. The Alamogordo meets Lovington and Alamogordo meets Lovington in the tourney windup.

Subtle Warning Tells Cleveland Browns Some To Be Missing

CLEVELAND — A subtle warning to the Cleveland Browns, now preparing for the National Football League title game with the Los Angeles Rams, has been issued by Coach Paul Brown.

"This is the time of year I like to study the personnel," Brown told the Cleveland Ad Club yesterday in a statement he knew would reach the ears of his players. "The good ones get better when the going gets rougher."

Brown did not elaborate, but sources close to him interpreted the statement as a hint that some of the others would not be with the team when he 1956 season opens.

Brown is not one for pep talks or pregame oratory, but neither is he adverse to using a little roundabout psychology when the opportunity arises.

The team had a natural letdown following its victory over Pittsburgh which clinched the Eastern Division crown more than two weeks ago and is having to contend with adverse weather conditions in preparing for the title game Monday in Los Angeles Coliseum.

Foe's Speed Changes TCU Coach's Views

FORT WORTH, Tex. — The swish of cleated shoes has changed Texas Christian football coach Abe Martin's attitude toward a football game.

Ordinarily, the head man of the Horned Frogs would be saying something like "we'll run 'em out of the park." But Martin looked games and heard some inside dope from interested parties. Now he over some films of Mississippi merely says TCU's Cotton Bowl meeting with Mississippi at Dallas Jan. 2 will be a "great ball game."

"They have so much speed it's a little disheartening," said Martin after he had sent his squad through its longest workout of the training period, emphasizing running with sprints and football relay races. Martin figured TCU had good speed but he says Mississippi has more of it.

"This Eagle Day and Earl Blair can get up and go and the entire team is fast," Martin commented. "We're going to have quite an afternoon on our hands."

While Martin has been bearing down in practice this week he hasn't held any scrimmages and doesn't plan to. He decided on that last week when Jim Swink, his All-America halfback, got a sprained ankle in some contact work.

"I almost fainted," confessed Martin. "We found it didn't amount to much and Swink will be all right but it decided us against scrimmaging."

Bradley Player Injects Doubt Into Loyola's Integration Plan

NEW ORLEANS — Forward Shellie McMillon, Bradley's Negro basketball ace, created an uncertain atmosphere for Loyola's integrated athletics program last night when he became the central figure in the school's first racial incident.

McMillon, a 19-year-old sophomore from Chicago, aroused the crowd last night when he fouled out and saluted fans by sticking out his tongue.

The cheers which greeted him during pregame introductions turned into jeers and the Loyola band snapped into "Dixie," marching son of the Confederate Army. A number of fans serenaded McMillon with "Bye, Bye Blackbird" as he left the court.

McMillon's fouling tactics, termed "unnecessary" by sports writers.

Bobby Boyd Puts Win String On Line At St. Louis

ST. LOUIS — Bobby Boyd, fast-rising Chicago middleweight, puts his string of five straight victories on the line tonight in a 10-round boxing bout with aggressive Italo Scorticchini of Italy.

The ninth-ranked Boyd, who started his climb up the middleweight ladder just a few months ago, is rated a 2-1 favorite to handle the shorter Italian.

Boyd, who punches well with either hand, has a knockout victory over George Johnson in that string of five victories and an upset win over Gene Fullmer.

Scorticchini, rated a lighter puncher than Boyd, likes to move in on his opponent in a crowding style.

Boyd, who has about a three-inch height advantage, probably also will hold a three or four pound weight edge in the nationally and locally televised bout (ABC-TV) at 10 p.m. EST.

Under Missouri rules, the two fighters split 10 points a round based on the opinion of the referee and two judges.

Third-Ranked Utah Falls Before Dayton, Dons Win

By JOHN CHANDLER
The Associated Press

It appeared today as if the University of Utah walked into the same kind of a trap as a year ago, when the highly rated Utes found the University of Kentucky fieldhouse one of their biggest jinxes.

While San Francisco retained its No. 1 status last night by downing Wichita 75-65 at Wichita, Kan., Utah saw its No. 3 ranking slightly tarnished when Dayton won a 77-73 decision in the opener of the Kentucky Invitational Tournament at Lexington.

Jim Paxson, a 6-foot-6 Dayton mainstay, was the big man around the basket for the nation's fourth-ranked college club as he contributed 35 points to the cause.

Last December in the same tournament, Kentucky knocked off Utah in the first round, and the Utes then dropped a consolation third place game to Southern California. Utah suffered only two more losses all season.

In the other game at Lexington, Kentucky downed Minnesota 72-65 as Bob Burrow collected 27 points. Dayton will be a slight favorite over Kentucky in tonight's title game. Kentucky ranked ninth nationally, appears to be recovering after a bad start this year.

The San Francisco Dons racked up their 32nd straight, sixth this year, by turning back Wichita as 6-foot-10 All-American Bill Russell tapped in 17 points. Bob Hodson, who fouled out for Wichita, also got 17. San Francisco, winner over

At the moment the Tigers are owned by a trust which includes Spike Briggs and his two sisters. Spike would like the club himself. But he failed in one bid early in the fall. A syndicate which he headed offered between 2 1/2 and 3 million dollars. It was turned down.

Five men are reported to be associated with Bloek including Lester Feinberg, a Boston realtor who said last night:

"I feel this deal is going through very soon."

Briggs said any firm offer from Bloek's group would be considered but not until after Jan. 1 Briggs said any others would have to wait until then, too.

Sources close to the club have said they felt the Briggs family would favor a Detroit or Michigan bid if possible.

It Won't Be Nashua But Little Girl Will Receive Horse Soon

NEW YORK — Twelve-year-old Karen Ann McGuire will get a horse that "would grow old" with her, although it will not be Nashua or any other mount of the famous Belair Stud.

Karen, a blonde fifth grader of Valhalla, N.Y., wanted a horse very badly. When she read in newspapers that Hanover Bank was handling the sale of the Belair Stud of the late millionaire William Woodward Jr., she wrote the bank a letter, enclosing a drawing of Nashua which she made herself.

"Dear Sirs," she wrote. "I read in the papers today that you are going to sell Nashua and his friends. If you have a horse that no one will buy, I would like to..."

"The horse will have a good home, one and a half acres of woods and fields and loving (sic) care. I would like a horse that would grow old with me."

"My sealed bid is \$24.03 but maybe by the time you open the bids I have earned (sic) some more money I can pay a little higher."

Karen's sealed bid failed to top others. Nashua was sold for \$1,251,200.

But the bank officials did not forget the girl and her "loving care" for horses.

They pooled their funds and hired auctioneer Humphrey S. Finney to get Karen a horse to her own liking.

Yesterday, Finney showed up at Karen's home to discuss the matter.

Her first choice, out of a collection of her own sketches, was a black horse with white legs and white tail and mane.

"A white tail," murmured Finney, "very hard to keep clean. Would you, maybe settle for something else?"

Karen agreed to a pure black one and Finney promised to get busy.

There is one more thing Karen wants. A bicycle.

What would she do with a bicycle when she has a horse, Karen was asked.

"I wouldn't want to take him out in wet weather," she answered thoughtfully. "A bicycle can wipe right off."

Always New Opportunity

EVERY YEAR every individual in every community in the nation has a new opportunity to join with his fellow citizens in helping to do many of the community jobs that need to be done.

As 1955 draws to a close a good many people with perhaps time on their hands begin to realize as they take an inventory of the situation they haven't done much or contributed much to their community.

In many instances this is merely because we just never get started and seemingly there isn't a particular good time to start. A new year, however, always affords an opportunity.

So as we approach 1956 we can give a thought to helping out with a good many of the civic and community jobs during the year. You can be sure there are plenty of jobs to be done; plenty of tasks to be carried out; plenty of programs that need a new helper or some assistance.

In too many communities we all depend on that small group of faithful workers who assume their civic responsibility and endeavor to do all they can for their community. They aid and help in everyone of the finance drives; they serve on the various committees and the boards of directors; they attend various meetings held during the year; they strive to make a real contribution to their community.

They realize these are community jobs that someone has to do if these programs and these projects are carried out. They appreciate fully if everyone refused to help or failed to participate there would be no programs.

For instance in the Boy Scout program there is not only a need for council members but for district committee members; troop committee members; scoutmasters and assistant scoutmasters as well as those willing to raise funds for the program. Without these there would be no Boy Scout program.

This is true about every movement here. Someone must do the work of the local Salvation Army committee or we have no committee. Someone must do the work for the Red Cross workers; someone must do the work for the Band Parents, the Quarterback Club and other groups. Without the workers these organizations could not and would not function.

So if you have not participated in these programs and helped with them in the past the new year is a good time to get started.

Sen. George No Youngster But Not The Oldest To Hold Office

By JAMES MARLOW
AP News Analyst
WASHINGTON — At 77 Sen. George is no chicken—there have been complaints in his native Georgia that this Democrat is too old to run again. But he's by no means the oldest man in the U.S. Senate.

Twelve of the 96 senators are over 70. Six of them are older than George. He said yesterday he would seek re-election in 1956 when he's 78. But that won't set any records, either.

Men older than George have sought reelection in the Senate, and won. Even next year George will probably not be the oldest senator trying for another term.

The oldest senator now is Theodor Green (D-RI), who is 88. He was re-elected in 1954 when he was 87. He may wind up being the oldest senator in history by a mile.

Judging from what he said during his 1954 campaign—he'll be 93 when his present term ends—he will try to stay in the senate until he is at least 100. He's amazingly active.

Here are the 10 other senators, besides George and Green, who are over 70:
Neely (D-WVa) 81; Smith (R-NJ) and Murray each 79; Barkley (D-Ky) and Hayden (D-Ariz) each 78; Lehman (D-NY) 77; Martin (R-Pa) 76; Flanders (R-Vt) 75; Wiley (R-Wis) and O'Mahoney (D-Wyo) each 71. Lehman is two months younger than George.

The terms of Hayden, Lehman and Wiley draw toward a close next year—their terms actually seek reelection in 1956. Hayden will be 79, Wiley 72, and both Lehman and George will be 78.

Neely was 80 when he was re-elected in 1954 but seems shy about letting his age. He does not list his birthdate in the Congressional Directory, where most senators give their ages, nor in Who's Who in America. It took some scouting around to find the date. He was born Nov. 9, 1874.

Barkley and Murray were also re-elected to the Senate in 1954. Barkley having been out since he became vice president in 1949. Barkley was 77 and Murray 78.

Green is not yet the oldest man who has served in the Senate but, according to men who specialize in Senate history, he is missing the record by only seven months. Green is 88 years and 2 months old. Sen. Morrill (R-Vt) died in office in 1898 at the age of 88 years and 3 months. So if Green lives another 6 months he'll tie Morrill and in 7 months he'll be in front.

Green has only 2 months more to go to tie Sen. Glass (D-Va), who was 88 years and 4 months old when he died in 1946. Senate historians say Morrill, Glass and Green are the oldest senators in history.

But then they hedge it by saying that although they feel certain this is correct, they have not checked every senator's age all the way back to the first Congress.

Heretofore, sole voting power has resided in the family and heirs of the late Henry Ford. The stock sale means a shift from family to public ownership, and the registration statement amounts to a request for federal approval for public sale of the stock.

Actual filing of the statement with the SEC was made by Ford attorneys while announcement of the action was issued simultaneously in a dozen cities.

Here, there was a packed news conference at the National Press Club where copies were given to reporters when word was flashed that the actual filing had been completed.

The statement advised the SEC that the company's directors have decided to declare a dividend of 60 cents a share in the first quarter of 1956.

On this basis, the stock would pay \$2.40 a year. The registration statement said, however, that later dividends will be considered each quarter, and will vary "subject to business conditions and the operating and financial position of the company."

The earnings report for the first nine months of 1955 showed earnings amounting to \$5.85 a share.

The offering price of the stock will be reported to SEC later—probably just before Jan. 18, the probable date on which the stock will be placed on sale by some 700 brokers and dealers throughout the country.

Speculation on the price has ranged as high as \$75 a share, which would mean the Ford Foundation would receive three-quarters of a billion dollars in cash for investment.

Nevertheless, the offering represents only about 22 per cent of the Ford stock holdings of the fabulously wealthy Ford Foundation. The prospectus disclosed that dividends equivalent to \$3.27 a share of the capital stock outstanding on Dec. 1, have been paid so far in 1955.

Stalin Peace Prize Awarded Japanese Woman

TOKYO — The Soviet Union has awarded the Stalin peace prize to a Japanese woman who taught two million Japanese workers to sing "The Internationale" in four-part harmony.

Mrs. Akiko Seki, an unknown singer 10 years ago, now heads 3,000 Communist choir organizers, and directs activities of labor union chairs with an estimated two million members throughout Japan.

Mrs. Seki, 56, claims to be non Communist like the la'e Ikuro Oyama, the first Japanese winner of the Stalin prize in 1952.

The four volumes of choir books edited by her have sold 300,000 copies each and are rated among the best sellers in Japan.

Her "Utagee Undo" singing movement started five years ago, and waxed successful on the music loving Japanese. It is considered the only success the Japanese Communists won from the public.

Conservative politicians now belatedly consider countering the movement with their own music movement.

Mrs. Seki's Communist singing campaign started in 1950. Her choir theoretically was separated from the Communist party, but simultaneously her singing school started training Communist musicians on an expanded scale.

Her choir books contain not only labor songs but catchy songs from all countries, including even Negro spirituals from the United States. But the emphasis is on labor songs and Russian Melodies.

The Stalin prize includes a gold medal and 100,000 rubles about \$25,000 at nominal exchange rate.

Small part of the after cabin broke off and remained intact except for a split along the top.

One big pine tree was snapped and it lay across the rear of the cabin wreckage, still smoking as firemen began removing the bodies.

The main part of the wreckage was only a short distance from one of the few houses in the area, just across Highway 17 which leads past the airport. No houses were hit. A chicken coop was torn.

The plane sheared off the top of half dozen tall pines and took the top of a large oak tree. It swept a path about 100 feet wide.

Sgt. W. F. Johnston of the Duval County Highway Patrol, said the plane struck the ground 66 yards from where the first tree was hit, then skidded 26 yards where it knocked down an oak 12 inches in diameter.

Sixty-five yards farther on was the largest portion of the cabin still intact. This was the tail section and rear end of the fuselage. The bodies were found some 15 yards beyond the tail section.

The last motor came to rest 27 yards farther on—about 199 yards from the first tree.

The crash was the third one in Florida in three days. Four Air Force planes collided in two accidents Monday. In one crash eight men died, in the other three. Three men are still missing.

Ford Motor Company Takes Major Step Toward Public Ownership By Filing Stock Registration

By STEVEN V. DAVID
NEW YORK — The giant Ford Motor empire—America's largest privately owned business—takes a major step toward public ownership today.

That will happen when the Ford Motor Co. files with the Securities and Exchange Commission in Washington a registration statement covering the forthcoming sale of some seven million shares of stock in the company by the Ford Foundation.

With the filing, the public will learn for the first time how the fabled company has been doing, at least in recent years. For SEC regulations say that the registration statement, must include data on sales and earnings for at least the last five years, the stock positions of major stockholders and the like. It's expected that state-

ment also will show what dividends have been paid.

The Ford Company, founded in 1903 with \$28,000 in cash, has been a family affair since 1919, when the elder Henry Ford bought out his original partners. Not since that time has the company disclosed its financial affairs. It is known, however, that the original \$28,000 has grown in worth to more than two billions.

Jan. 18 has been set as the tentative date for the public sales of the shares. They will be put on the market not by the Ford Motor Co., but by the Ford Foundation, the philanthropic trust set up in 1936 by Henry Ford. They'll be shares of the Ford Motor Co., nevertheless, although none of the money realized will go to the firm.

Present stockholders—the Fords, key officials and the foundation—stand to make a handsome paper profit, however, because sale of the shares will establish a market price for their own holdings.

The foundation says it is selling the shares because it wants to diversify its investments, now almost entirely Ford stock. The shares to be sold will represent only about 15 per cent of the foundation's holdings after planned recapitalization of the share structure.

The shares involved will represent 60 per cent of the voting right. It's expected they will be listed on the New York Stock Exchange.

Handling the public offering will be seven investment firms, which are expected to name some 700 other houses to participate in the underwriting. The widest possible distribution of the shares will be sought. Wall Street looks for a fast sellout.

The price at which the shares will be sold probably won't be announced until shortly before Jan. 18. Wall Street observers have suggested a range of \$60 to \$70 a share. At the lower figure, the foundation would net around 420 million dollars.

In preparation for the offering, Ford Motor shares are being reclassified. At present here are 3,322,385 shares of nonvoting class "A" stock, of which the foundation owns 3,063,908 shares or 88 per cent. The Ford family holds 190,347 "A" shares and key employees 42,140. In addition, there are 172,645 shares of voting class "B" stock, all held by the Ford family or its interests.

The foundation has announced that these changes will be made. Three new classes of shares will be issued instead of the present "A" and "B" and the number of shares will be increased through splits to 53,461,470. That compares with 278,683,500 shares for General Motors and 3,702,264 for Chrysler.

The class "A" stock will be split 15-for-1 and all that is sold to the public will have voting rights—60 per cent of the voting rights, in fact. Class "A" retained by the foundation will be nonvoting.

The present "B" stock will be split 21-for-1 and all the "A" stock held by the Ford family will be converted into shares of the new "B" stock. All "B" shares will be owned by the Ford family and they will represent 40 per cent of the voting rights.

The fact that the shares in public hands will represent 60 per cent of the votes doesn't necessarily mean the public will be able to control affairs of the company. Since the shares will be widely distributed, and in small lots, at that, it is unlikely that enough shares could be consolidated to match the Ford family's 40 percent.

Sen. Byrd Claims U.S. Cash Used To Cut Britain's Taxes

By JACK BELL
WASHINGTON — Sen. Byrd (D-Va) said today American foreign aid funds had been used to reduce British taxes and help pay off Denmark's debt.

The Virginian cited these as examples of ways he said "billions of dollars have been squandered in foreign economic aid." He demanded such practices be stopped.

Byrd's blast apparently signaled some strong opposition in Congress to the Eisenhower administration's plan to boost economic aid spending by about 200 million dollars in the next fiscal year beginning July 1.

Byrd, a strong advocate of economy in government said in an interview he wants economic aid ended, but that he will go along with foreign military assistance at the level the administration proposes—about three billions. Under administration plans, economic aid funds next year would rise to \$1,900,000,000.

"While I was in Europe this fall, I confirmed through the officials concerned that we gave Denmark 100 million dollars to help pay off her debt," Byrd said.

He added that he had obtained from Harold E. Stassen, former foreign aid chief, confirmation that 200 million dollars in economic aid funds had been given Britain to finance a tax cut before the last British general elections.

Secretary of State Dulles disclosed yesterday that the administration will ask Congress for \$4,900,000,000 in foreign aid appropriations for next year. Byrd said he will oppose any part of this which is designed to build up a reserve fund for foreign aid spending in years ahead.

Dulles said actual foreign aid outlays in the next fiscal year will run about 200 million above the present annual level of about \$4,200,000,000.

Thus if Congress made appropriations, 500 millions of this would go into the reserve fund he said, not increased.

Secretary of Defense William H. Taft said a "substantial" amount in reserve funds for foreign aid should be a "substantial" amount in reserve funds for foreign aid. He said these funds had shrunk from a peak of \$1,000,000,000 on June 30, 1953, to \$480,000,000 now.

Wilson said some military aid require a long time to make that money should be available for them in advance so firm contracts can be let.

Byrd said he is not raising objection to any "reasonable" expenditures in that field. But insisted that contracts could be under advance congressional authorization without actual appropriation of the money until it is needed.

Pentagon Planning To Spend Billion Dollars On Missiles

By ELTON C. FAY
 WASHINGTON — The Pentagon, proposing a big boost in its budget next year, contemplates spending a billion dollars for guided missile development.
 Secretary of Defense Wilson told a news conference yesterday the military will ask Congress to approve a billion-dollar increase in defense spending over the 34 billion currently estimated for the present year. The Pentagon proposes also that Congress increase by almost two billion dollars the amount of money appropriated for defense over the 33 billions asked for the current year. About a billion dollars of this would go into the pipeline to pay for weapons to be bought in later years.

UN Delegates Buy More Juice Than Hard Drinks

UNITED NATIONS, N. Y. — Delegates crowded the U.N.'s cocktail corners this year but they drank more orange juice and coffee than hard liquor.
 The four part-time bars — the one in the delegates' lounge is about 24 feet long and the others are smaller—became fairly crowded when an Assembly session breaks up.
 One of the U.N. staff whose job is to keep an eye on twin problems of bar behavior and supply says the 1955 assembly produced few hard-fisted drinkers among the delegates.

IN FIGHT TO CONTROL EPIDEMIC

SOME 35,000 PERSONS in the Lancaster, Pa., area have been urged to receive injections of vaccine as the number of para-typhoid victims in the County reached 113. Local authorities regard the "presumptive source" of the epidemic as a local dairy, which shut down its operations voluntarily. Above, members of the Sydnanski family line up to receive their para-typhoid injections from Dr. James S. Martin. The State Health Department provides the vaccine to private physicians. U.S. Businessmen Contend Overseas Interests In Peril

WASHINGTON — American businessmen operating abroad contend their trade and foreign investments are imperiled by efforts to apply U. S. antitrust laws to these overseas activities.
 Their protests were summarized in a Senate report made public today. It presented views of U. S. business representatives in England, France, Italy and other European nations, without identifying them by name.
 Among other criticisms it stated that the effort to export U. S. antitrust jurisdiction collides directly with the government's foreign policy of encouraging overseas trade and investments.

Reds Ready Infiltration Of Ethiopia Market

ADDIS ABABA, Ethiopia — Russian infiltration of the Ethiopian market appears to be impending.
 The entering wedge was a huge advertisement by the "Machino-Export" of Moscow, in the local English-language newspaper. It offered a variety of industrial equipment — chemical, metallurgical, cable-making, cellulose and paper-making, electro-technical, electro-thermal and the like.
 Ethiopia is predominantly an agricultural country, and much in need of modern farm machinery. Yet no agricultural implements were included in the Russian advertisement.
 So far Ethiopian imports from Russia have been limited to one commodity, vodka.

Electrical Union Again Said Under Communist Dominance

WASHINGTON — The Justice Department says the United Electrical, Radio and Machine Workers of America (UE) is "under the domination and control of members of Communist organizations."
 The department leveled this charge yesterday in asking the Subversive Activities Control Board (SCAB) to label the UE as a Communist-infiltrated labor union. The UE was ousted from the CIO six years ago on similar grounds. Many of UE's 100,000 members have been working on defense orders.

If the SACB should agree to brand the UE as Red-infiltrated, the independent union would lose all standing and rights before the National Labor Relations Board (NLRB).
 Albert J. Fitzgerald, president of the UE, said in New York that Atty. Gen. Brownell's "accusations against us are lies."
 Fitzgerald called Brownell a "strikebreaker" because he said the action against UE came "at a very time our union is engaged in a bitter strike against the attempt of the Westinghouse Electric Corp. to slash wages and undermine union conditions of all its employees."
 UE and AFL-CIO International Union of Electrical Workers (IUE) have been on strike against Westinghouse since October in a wage dispute.
 Brownell coupled his SACB move against with a direct appeal to the union's rank and file to "clean their organization of Communist dictators."
 The 1954 Communist Control Act, which provides the machinery for tagging unions as Communist-infiltrated, also offers a means for members of such unions to oust their current officers. The law says that as few as 20 per cent of the members of a red-labeled union may ask the NLRB for an order directing a new election of officers. A union can regain its legal standing by showing it has purged itself of all Red influences.
 Brownell noted in his SACB petition there have been reports that some UE locals have merged with the IUE recently. He spoke, too, of a movement to bring about combination of the UE and the IUE, which was set up after the UE was booted out of the CIO. The Justice Department petition said efforts toward this end "on the part of UE are being guided and directed by the Communist party itself."

Mrs. Roosevelt, Others Ask Reds Given Amnesty

NEW YORK — Forty-two persons, including Mrs. Franklin D. Roosevelt, have petitioned President Eisenhower to grant a "Christmas amnesty" to Communist party leaders jailed under the Smith Act.
 The petition stressed that the signers were "in fundamental disagreement with the philosophy of the Communist party and with essential elements of its program." It added that the motive for their appeal was "their attachment to the democratic way of life."
 The petition, made public yesterday, asked that sentences of 10 jailed Communists be commuted to time already served. They were sent to prison after being convicted of teaching or advocating forcible overthrow of the government.
 The petition said the trials "were carried through in a period of the 'cold war' and in an atmosphere often marked by hysteria."
 It also sought postponement of more than 100 similar cases now pending or under appeal.
 A spokesman for the Communist party expressed surprise and pleasure when told of the petition, which was mailed to Eisenhower Monday.
 In addition to Mrs. Roosevelt, signers included Norman Thomas, former Socialist candidate for president; Dean John C. Bennett of Union Theological Seminary, Lewis Mumford, author; Elmer Rice, playwright; Chaplain John M. Krumm of Columbia University; Stephen Cary, of Philadelphia, secretary of the American Section of the American Friends Service Committee; Henry Steele Co-man, manager of Columbia University; Albert Sprague Coolidge of Harvard University and Roland H. Bainton of the Yale Divinity School.

Insurance Man Delivers Milk 'Just For Fun'

LONDON — Some men like golf. Others play cards.
 Reginald Albert Slade, an insurance broker, delights in delivering milk—just for the fun of it.
 "Of course," he said, "it took a bit of getting used to, but I get by now and the housewives seem content about the way I do the job."
 Slade is 24 and works in a big London insurance office during the week. For relaxation he rises at 1 a.m. every Sunday, joins the regular milkman at suburban Lee (regular and goes the rounds.
 "Everyone has a hobby, or should have," he said. "I happen to prefer delivering milk—for no pay."
 What does the milk company think?
 "They don't mind. They've spotted me on the job and said nothing."
