A story of a man who went  
hunting and was caught in a  
rain. He looked around for  
shelter but could find none except  
a hollow log. He found the  
opening rather small, but he  
managed to get in and found it  
good retreat. When the rain was  
over and he attempted to come  
out, he found that the rain had  
swollen the timber until it was  
impossible for him to get out of  
the log. Finally he began to think  
of all the little mean things he  
had done but all to no purpose.  
He thought of having torn his  
neighbor's fence down for spite  
and stealing another neighbor's  
hogs but none of these seemed to  
make him feel small enough to  
release him. At last he thought  
of never having subscribed for  
his home paper and of always  
borrowing his neighbor's paper  
in order to get the news, he came  
out just as easy!—Ex.

### Stopping Papers.

While scanning thru the columns of the Hesperian, our attention was called to the editor's article on the correct way of having your paper discontinued. He says: "There is a proper way of discontinuing a paper. It is much more polite and agreeable to all concerned for the subscriber to see the editor in person or write him a letter advising the editor he no longer desires the paper. It is a business matter and the subscriber is advancing his best interests by being a reader of the paper. If he does not really desire to read the paper the editor is too independent to 'force' it on him, as some people may at times imagine.

Editors are human beings the same as teachers, preachers, and farmers and appreciate polite treatment at the hands of those with whom they deal. As a rule, the majority of those who 'refuse' papers at the postoffice are in arrears and have not the moral courage to do as they should in the matter. The editor would have more respect for them if they would go to him and tell him they are not going to pay for his paper and that it will be saving to him to discontinue their subscription."

### Unnecessary Prosecutions.

When we watch the proceedings of the courts and see the number of prosecutions instituted through malice or prejudice, we are impressed with the importance of a law that will compel the party who makes a complaint against any one, to prove what he alleges in his complaint or pay the cost of such prosecution.

If such was the law in Texas, the dockets of our courts would not be burdened with cases wherein the State and County are put to a great expense, and the officers of said courts, to a great deal of trouble and expense, without any hope of remuneration. Said officers not only lose their time in such cases, but have to pay out their hard earned money to satisfy the malice or prejudice of some "wart" on society. Some of the States have a law such as the one mentioned above, and those who file a complaint under said law, are forced to prove the same, or pay the cost of prosecution.

If we had such a law the above, Jury scrip would go to one hundred cents on the dollar, for the reason the draft on said fund would be reduced one half what it is, and we would no longer be confronted with the claim that we must have open saloons to supply our Jury fund.—Eastland Chronicle.

Upon first reading the above one might readily conclude that such a law as proposed would be about the proper thing; but a careful

looking into the matter is sufficient to convince one that it would be far from right. Such a law would discourage investigation in many instances where a very serious crime had been committed; again, a man might be an eye witness to a crime and be doing his duty as a citizen in making complaint, yet, being alone, he could not prove what he alleged in the complaint, and would be thrown in the cost while the criminal would go at liberty. Such a law would be unjust, notwithstanding the fact that it would prevent many complaints thru prejudice and malice.

### Will Bear Watching.

Whenever you hear a man condemning a newspaper or its editor because of some published article, you may rest assured that said article was the means of turning the searchlight of investigation upon some of his evil deeds or motives. No man with truly honest purposes has anything to fear from newspapers, and very few of them will ever be heard denouncing them. But those whose motives and actions will not bear investigation fear the light and are loud in their denunciation of the local paper if it gives offence to anything on account of their evil notions. Whenever a man begins to condemn newspapers generally, his neighbors had better begin to watch him.—Ex.

While there is much truth in the above statement, yet we believe the writer could have been more charitable. Newspaper men are only human beings, and are as liable to make a mistake as any other class of men, if not more so; since they quite often receive information from an irresponsible source. A newspaper may sometimes contain an article in which there is not a word of truth, and at the same time the writer is perfectly honest and above saying a thing, consciously, that is not the whole truth. Sometimes newspaper men like all other classes of men, lose their heads and allow something to go thru the columns of their paper that is calculated to injure, and does so injure, some innocent person. In such cases a man is not to be blamed for finding fault; on the other hand there are persons who would condemn a newspaper, and thereby injure it, no matter how hard the promotor is striving to do the right thing by everything and every body.

Thus the world wags on. This paper is being run on strictly honest, moral principles, and in case it should be erroneous in any of its utterances it is ready to make amends for it. It proposes to publish the news as received and not to allow petty grievances of any nature go thru its columns.

Rev. P. M. Fitzgerald and Mr. Carter, will conduct a series of meetings at Plainview Texas, beginning August 1st and will continue about 15 days. The present plans are for a camp meeting and it is hoped that a great many of the people of the Plains country will take advantage of this opportunity of hearing them.

Bro. Fitzgerald is an able preacher of the word, full of the Holy Ghost, and ready for great work. Mr. Carter is a great singer. I know Bro. Fitzgerald personally and take pleasure in saying to all the Plains people, you will do well to hear him. Bring your tents and families and have 10 days of profitable study of the Word. Rev. J. T. Franklin, of Running Water Texas, has the advertising in hand and extends a cordial invitation to all. J. M. Hamby, pastor C. P. Church, Silverton Texas.

Mrs. Bishop and family moved into the J. A. Beavers residence in South Silverton Tuesday.

J. L. Bolton and son were up from Quitaque the fore part of the week. Mr. Bolton informed us that he had 100 acres in cane and kaffir corn, that is fine.

### Transfer Your Children.

All persons desiring their children transferred from one school district to another, please notify me at once, as my report must be in the hands of the State Superintendent by July 1st.—J. E. Daniel, County Judge.

W. A. Bishop came in from Oklahoma Saturday, and is visiting relatives here. He is a prospector and will probably locate in this county. He says crops here look better than in Oklahoma, which speaks much for the Plains country, since Oklahoma is known to be a fine farming country.

Henry Demic and J. A. Williams returned last Friday from their prospective tour of the western country, and report finding the country to which they visited settling up very fast. They will probably locate at, or near a small town in N. Mex. known as Rag Town, which will of course entitle either of them to immediate citizenship, as they are constantly wearing the "badge."

### Palace Photo Car.

Another letter has been received from Oliver Boone, the picture man, stating that his car had not arrived at Lockney to date. He made arrangements with Chas. W. Watkins of The Silverton Enterprise to receive and deliver pictures, and collect for same. He sent in half doz. pictures for Mrs. Wood, who will please call for same.

Extreme hot weather is a great

babies; when puny and feeble

and facilitate the digestion of  
their food, so that they soon be-

### Hot Weather Weakness.

If you feel fagged out, listless  
and lacking in energy, are per-  
haps suffering from the debilita-

These symptoms indicate that a  
tonic is needed that will create a  
healthy appetite, make digestion  
perfect, regulate the bowels and  
impart natural activity to the liver.  
This, Herbine will do; it is a  
tonic, laxative and restorative.

H. J. Freegard, Propr. Grand

### His Last Hope Realized.

From the Sentinel, Gebo, Mont.  
In the first opening of Oklahoma to  
settlers in 1889, the editor of this  
paper was among the many seekers  
of fortune who made the big race one  
fine day in April. During his travel-  
ing about and afterwards his camping  
upon his claim, he encountered much  
bad water, which, together with the  
severe heat, gave him a very severe  
pyorrhoea which it seemed almost im-  
possible to check, and along in June  
the case became so bad he expected to  
die. One day one of his neighbors  
brought him a small bottle of Cham-  
berlain's Bolic, Cholera and Diarrhoea  
Remedy as a last hope. A big dose  
was rolling about on the ground, and  
in a few minutes the dose was repeated.  
The good effect of the medicine was  
soon noticed and within an hour the  
patient was taking his first sound  
sleep for a fortnight. That one little  
bottle worked a complete cure, and  
he cannot help but feel grateful. The  
season for for bowel disorders being at  
hand suggests this item. For sale by

The material is being placed on

thing frightfully rotten there.  
This thing of a man wrapped in  
fear and a gauze undershirt, put-  
ting in seven nights out of a week  
running foot races from his  
house to a cyclone cave is getting  
tiresome. It is not only injurious to  
his peace and quiet of mind, but  
it is demoralizing to his dignity."

### Worst of All Experiences.

Can anything be worse than to  
feel that every minute will be your  
last? Such was the experience of  
Mrs. S. H. Newson, Decatur, Ala.,  
"For three years," she writes, "I  
endured insufferable pain from in-  
digestion, stomach and bowel  
trouble. Death seemed inevitable  
when doctors and all remedies  
failed. At length I was induced  
to try Electric Bitters and the re-  
sult was miraculous. I improved  
at once and now I'm completely  
recovered." For liver, kidney,  
stomach and bowel troubles Elec-  
tric Bitters is the only medicine.  
Only 50c. It's guaranteed by  
Burson Bros., druggists.

Trade with your home merchant

county or town in which you live.

"I have been troubled for some  
time with indigestion and sour  
stomach," says Mrs. Sarah W.  
Curtis, of Lee, Mass., "and have  
been taking Chamberlain's Stom-  
ach and Liver Tablets which have  
helped me very much so that now  
I can eat many things that before  
I could not." If you have any  
trouble with your stomach why  
not take these Tablets and get  
well? For sale by Burson Bros.

### A Splendid Remedy.

Neuralgic pains, rheumatism,  
lumbago and sciatic pains yield  
to the penetrating influence of  
Ballard's Snow Liniment. It pen-  
etrates to the nerves and bone,  
and being absorbed into the blood  
its healing properties are con-  
veyed to every part of the body  
and effect some wonderful cures.  
Mr. D. F. Moore, agent Illinois  
Central Railway, Milan Tenn.,  
states: I have used Ballard's  
Snow Liniment for rheumatism,  
backache, etc., in my family. It  
is a splendid remedy. We could  
not do without it. 25c, 50c and  
\$1.00 at Burson Bros.

### Startling Evidence.

Fresh evidence in great quantity  
is constantly coming in, declaring  
Dr. King's New Discovery for  
consumption, coughs and colds  
to be unequalled. A recent ex-  
pression from T. J. McFarland,  
Bentonsville, Va., serves as example.  
He writes: "I had bronchitis for  
three years and doctored all the  
time without being benefited.  
Then I began taking Dr. King's  
New Discovery, and a few bottles  
wholly cured me." Equally ef-  
fective in curing all lung and throat  
troubles, consumption, pneumonia,  
croup, etc. Guaranteed by Burson  
Bros. Trial bottles free; regular  
sizes 50c and \$1.00.

# Malaria

It is the dragon of ill-health. It leaves in its path  
more physical weakness than probably any other one dis-  
ease. It is a deadly enemy.

WHY? Because it causes upon the first indication  
of the disease, the system is usually scourged with  
quinine, or that deadly mineral compound.

Don't Do It. It's Dangerous. It isn't at all  
necessary either. It is positively guaranteed

### "That Day At Quitaque"

Sunday, June 21st, 1903, was  
the day set apart for the Silverton  
Singers to meet with the people  
of Quitaque in song capacity.

For several weeks the people of  
both Quitaque and Silverton had  
looked forward to the day with  
anxiety, and expectation of a  
good time. For several days be-  
fore the event was to take place  
the good people of Quitaque were  
stirring and hustling preparatory  
to entertain the people of Sil-  
verton; in the meantime the Sil-  
verton people were hustling around  
making necessary preparations  
to go to Quitaque. Sunday morn-  
ing dawned clear and bright,  
promising to be a beautiful day,  
which it proved to be, tho rather  
warm. By 8 o'clock A. M. buggy  
and hack loads of people rolled  
out from Silverton and other  
points. By 11:30 A. M. the peo-  
ple from all directions were as-  
sembled at the school house at  
Quitaque. After devoting a half  
hour's time to Sunday School  
work the grand old song revival  
began, and the following pro-  
gram was carried out, all singers  
present taking part.

Opening song by J. M. Hughes,  
W. A. Seagwick organist.

Song by W. D. Demic.

Two songs, Chas. W. Watkins.

Adjournment.

The above program was car-  
ried out in full, the most inter-  
esting feature being dinner.  
That dinner was sufficient to  
convince anyone that the good  
women of Quitaque understood  
preparing dinner for a large  
crowd of hungry people; and the  
way the people did eat was suf-  
ficient to convince the good  
women that they, the people,  
understood preparing themselves  
for a good dinner.

All who were present expressed  
themselves as having had the  
best time of their lives.

The Quitaque people are a  
thriving, moving, progressive  
people. They have prospects for  
a nice little town; they have  
some of the best country in Texas  
with which to build and support  
may they move onward

### A Letter from Rubin.

Say! Mister Editor, we all  
went down too Kitauquay didnt  
we, and didnt you and them  
Kitauquay foakes doo sum good  
singin. I shoar enjoyed my fule  
self; my old pardner was awfully  
dull that day, but reckon it was  
just cause it was his furst trip  
with me, think he will doo better  
next time if I ever let him go en-  
ny moar, but I'll bet he was as  
intertainin to me as Charly  
Wouldburn was to his pardner,  
most every time I sead him he  
was alookin at hur and a grin-  
nin. I bet him and Brooce Jerdis  
got sick frum eatin so much din-  
ner, they just had them chicken  
boanes a flyin in the are all the  
time. Befoar dinner my bruther  
sead Brooce Jerdises pants was 4  
numbers too big in the waste, but  
after dinner thay was a leetle too  
small. Them Silverton boys and  
gals seamed to hav lots of fun as  
thay was a cummin home frum  
down thar a runnin raises in ther  
buggies, and I herd Charly  
Wouldburn liketo run over a litle  
boy in the rode on the cap-rock,  
and when he was cummin back,  
he run his hoss into the fense  
and broak his buggy. That red  
nosed Willums frum Laikvew  
was with two purty litle gals,  
dont no if they care enny thing  
fur him or not, but dont think  
they doo, fur I beleave I sead  
them a makin fun of him. Jona-  
than S. Mason and that Bobbie  
Melton was out here sune Sundy  
mornin, and I nowed Jon was a  
cummin after sum body, cause I  
good see them purty to be a singin  
in 4 hunderd yards befoar I met  
him. I herd Bobs hoss giv out  
and he had to walk in home. Sum  
body told me Bud Dimics and  
Charly Wadkims tryed all weak  
to git sum gals to go with them  
but gloriously faled and rather  
than go alone, they took sum  
boys with them. I nowed they  
was a playin out with the gals  
when I was to yore big singin at  
Silverton. Mister Editer did you  
git enny nu subskribers down  
thar? I herd you ask several to  
let you send them yore paper.

If I had spaise and time, I cood  
tell you all about Willie Donnill  
a gowin with that girl, and about  
Orlandir takin that girls jacket  
and gloves off with him so he  
cood go and take them back home  
but I must quit to keep from tel-  
lin a heap moar on them Sil-  
verton foakes, fur it was the furst  
time sum of them was away frum  
home, and I think they will doo  
better next time. So if I hav faled  
to say enny thing about enny  
of you, excoose me cause you  
was a funny lookin set, so good  
buy Mister editer.

Rubin Smollygoster.

The horrible news comes from  
Kansas that a boy climbed a corn  
stalk to see how the corn was get-  
ting on and the stalk is growing  
up faster than the boy can climb.  
The boy is out of sight. Three  
men have undertaken to cut  
the stalk with axes and save the  
boy from starvation, but it grows  
so fast they can't hack twice in  
the same place. The boy is living  
on nothing but raw corn and he  
has already thrown down over  
four bushels of cobs.—Ex.

Burke Braly and wife returned  
last Snturday from a months visit  
to relatives in Eastland, Fannin,

were in from their ranch in  
the southern part of the coun-  
ty trading Monday.

Mr. Weathersby came in last  
week with a number of Spalding

trading among our people several  
days.

Miss Nina, are now domiciled  
in the Burleson house, where  
they will reside in the future.
