

The Snyder Signal

THIRTY-THIRD YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, JULY 11, 1919.

NUMBER FOUR

THE REVIVAL MEETING.

The revival at the city tabernacle will probably close Sunday evening next. Many encouraging expressions have been heard of both morning and evening services.

We were very much disappointed because of the absence of the singer engaged to direct the music, but illness in his family has kept him at home, much to his deep regret. He has written expressing his sorrow over the disappointment.

A large audience appreciated the help given Sunday morning by the male quartette of Colorado.

We sincerely pray that during the remainder of our services we will have the prayers and fellowship of all the Christian people of Snyder and the people in the country who can attend.

Henry Taylor Died at Lubbock.

Henry Taylor, thirteen years old, son of Mr. and Mrs. B. C. Taylor of the Knapp precinct was taken to Lubbock a few days ago and operated upon for appendicitis. His condition was found to be extremely serious and he died there Wednesday night. The remains were brought here Thursday for burial. The Signal extends profound sympathy to the bereft family.

The family and a number of neighbors and friends were here yesterday to mingle in sorrow around the bier and it was decided to postpone the funeral to hear from his brother Luther who is in the navy. They hope he may get a discharge in time to be at the funeral. The body is being held at the Stokes undertaking house.

Mr. Forester Submits to Operation.

Mrs. W. L. Forester who went with her husband to Abilene Wednesday, telephoned back to Mr. Grayum about 2 o'clock Thursday saying the surgeons operated on Mr. Forester at noon; up to that time they could not give her any encouragement as to the outcome. His friends here are deeply solicitous about him and anxiously await a more hopeful report.

NEED OF LOYALTY IN THE SCHOOLS.

Gov. Hobby has asked for consideration of a bill to require loyalty in the public schools. The time has come when the American government has to protect itself against secession and anarchy and there is no use to temporize any longer. Our time tried doctrine of free speech and liberty of thought is alright, but treason is treason under whatever guise it comes and the courts may as well realize it now and stop the encroachment of the enemies of the government.

Gov. Hobby makes this suggestion: Gentlemen: At the request of Representative Thompson, I beg to submit for your consideration the following subject, to wit:

"An Act requiring all persons who are employed in the public free schools of the state to pledge in writing and upon oath their allegiance to the United States and to the State of Texas; requiring support of the Constitution and laws of the United States and of the State of Texas; requiring of said persons protection for the children in their rights as pupils of the public free schools, and to respect and honor the profession of teaching; requiring instruction in loyalty and patriotism, and the duties of citizens to their government, requiring said persons in their conduct to be examples of good citizenship and that they shall show respect for all lawfully constituted authority, National, State and local, in the presence of their pupils both in and out of school, prescribing penalties for the violation of this Act, and declaring an emergency."

Respectfully submitted,
W. P. HOFF

Governor.

The Germans have ratified the peace treaty.

CITY COUNCIL MATTERS.

The Council met in regular session July 7, 1919.

Officials present: Mayor W. W. Echols, Marshal O. P. Wolf, Secretary Harvey Shuler and Aldermen J. J. Taylor, H. J. Brice, I. W. Boren, Gay McGlaun, T. J. Blackburn, and J. J. Burnett.

Minutes of previous meeting read and approved.

The secretary was instructed to ask the light company to collect from the parties using the auditorium as has been the custom.

Motion and carried that the water and light bills be discounted 10 percent and warrants issued in payment of same.

Motion and carried that the city refund the net proceeds received from the sale of one black mare said to be owned by Oliver & Bell of Westbrook, Texas, the same amounting to \$20.70.

Motion and carried that the water Superintendent be instructed to rebate on overcharge on A. P. Morris sewer.

The report of city tax collector O. P. Wolfe, was filed and approved by the finance committee.

The following bills were allowed: O. P. Wolfe \$75, W. W. Livingston \$125, T. F. Singletary \$10, P. H. Brumley \$5, Harvey Shuler \$21, W. W. Echols \$3, H. J. Brice \$4, T. J. Blackburn \$4, J. J. Taylor \$4, J. J. Burnett \$4, I. W. Boren \$4, Gay McGlaun \$4, P. M. Bolin \$20, J. S. Lewis, \$11.40, Oliver & Bell \$20.70, S. W. T. & T. Co. \$5, Grayum Drug Co. \$30, Snyder Transfer \$1.50, Snyder Signal \$1.75, Ed Ward \$7.00, Snyder Ice & E. Co., \$58.73, Snyder Tire & Rubber Co., \$1, Earl Justice \$5, Gulf Refining Co. \$31.26, A. J. Riley \$5, T. W. Tatum \$15, Oscar Brown \$3, Higginbotham Harris Lbr. Co. \$21.60.

GOVERNOR GIVEN VOTE OF CONFIDENCE

Austin, Texas, July 7.—Governor Hobby was given a vote of confidence by the Legislature today, there being only two negative votes cast in the entire membership of both branches, and these were recorded in the house. The senate voted 27 to 0 for the resolution and the house stood 80 for, 2 against, and 14 present and not voting. The two who voted in the negative were Messrs. Bertram of Hopkins and Heideke of Guadalupe county. Members of the house Blue Ridge investigating committee did not vote. Messrs. Marshall and Osborne of that committee declared they did not vote as a matter of ethics. Mr. Bertram said he would not vote for a resolution asking the governor to resign, but did not want to exonerate the Prison Commission.

Today's action by the Legislature was prompted by the public statements made by Representative W. E. Pope of Nueces that he would offer four resolutions next Wednesday calling for the resignations of Governor Hobby, Walter J. Crawford from the board of normal regents, and Prison Commissioners R. L. Winfrey and W. F. Pryor.

The concurrent resolution of confidence originated in the Senate and was presented by Senator Hertzberg of Bexar county. It declares that to introduce a resolution demanding the Governor's resignation would be "unfair, unjust and unwarranted."

George Epply has come home from Crowell where he has been working in the harvest fields. He says the wheat in Foard county is making 20 to 35 bushels to the acre. There is lots of work to be had there, but owing to the quality of the water it got his goat and he had to quit and come home.

The Jolly Fourth at Ira.

The Snyder Signal:
On July 4th a number of friends met at Ira and made their lucky getaway on a fish fry, to the river 5 miles west of Ira. On reaching the river the men and boys rushed to the water with the seine to get fish for our dinner, while the women and girls joked and jollied together. At eleven o'clock the boys began coming to camp with strings and sacks of fish, and continued to do so until 12 o'clock, and as a result of their morning's work there were some 75 pounds of nice big fish dressed ready for eating. Dinner was soon spread. Besides the big lot of fish, we had cakes, pies, chicken, ham, pickles, bread, coffee, etc. Just before eating a lady being thoughtful enough to bring her kodak made a snap shot of the good dinner.

Mr. M. L. Hill offering a word of thanks we then ate our dinner which was enjoyed by each and every one. As we were leaving the table for resting place, Mr. George Grant presented a nice lot of big peaches to eat on through the afternoon. We had ice cold water to drink which certainly came in good play after a few minutes rest, the men went back to the water to get fish for our supper and to carry home to those who were unable to come. About 5 o'clock they returned with enough fish for all, and began making preparations for home going, regretting so much that night was coming on so soon.

There were 67 present, each one declaring it to be the jolliest 4th they had spent for years.

GETTING IN THE FRONT ROW

Secretary Denson of the Commercial Club is in receipt of a letter which is apt to appeal to patriotism and home pride of every man and woman in Scurry county, and create a general desire for a fine collection of products of the county. It has been suggested that we might get up a rousing picnic for August 16th which will be Saturday and give the Cotton Palace officials opportunity to talk to all the people. By that time we hope to have in a large collection of county products and we can follow up with a general collection of everything and can go to the Waco Cotton Palace with an exhibit that will be a credit to the county in every way.

Mr. Whaley's Letter to Secretary Denson.
Stamford, Tex. July 7, 1919
Secretary Chamber of Commerce.

Dear Sir:
Snyder, Texas.
We have perfected arrangements by which Mr. Jno. L. Spurlin of the Texas Cotton Palace and the writer will be in Snyder, August 16th to take up with the citizens of Snyder and Scurry county, the matter of getting up a general agricultural and mineral exhibit of Scurry county for the Cotton Palace at Waco, Oct. 25 to Nov. 9, 1919.

As you know, this is the very best time in the history of West Texas for us to exhibit and at Waco many oil men will be present in addition to those who will want to see our agricultural products and West Texas' Big Come Back. It is a splendid opportunity—and I think I can convince you, with Mr. Spurlin's aid that it can be done effectively and cheaply for Scurry county.

I will appreciate it if you will take the matter up with prominent citizens, farmers, newspaper people and arrange a meeting for us on that date. Any hour will suit us, but if you contemplate having farmers present, it would probably be best to have the meeting about 2 o'clock p. m. Let me know what hour will suit you best.

Sincerely,
Porter A. Whaley,
General Mgr.

THE WILLARD-DEMPSEY FIGHT

Former Champion Goes Down in Defeat.

The Willard-Dempsey fight was over so quickly last Friday that it hardly paid interest on the money invested by the fans to get the bulletins. Willard has been a favorite in this part of the country and it seems that generally the bets were on the former champion, but Jess proved a short breakfast spell for Jack Dempsey.

From reports sent out from Toledo it seems the country is not so wild over prize fighting as formerly, for while seats had been arranged for 80,000 people it seems that but few more than half that number were there. In the first round Willard was blinded in one eye, and knocked down several times. At the end of the second he was whipped and knew it. His resistance was feeble and the third round put him out. Dempsey was not hurt at any time. Here is a description of the brutality:

Round One: Willard landed the first blow, a light left to the head. The champion landed a light left to the head. Dempsey hooked a left to Willard's stomach. Dempsey missed a left and right to head. Willard snapped a left to the jaw. Dempsey knocked Willard down with a right to the jaw twice. The champion took the count of six each time and when he got up Dempsey knocked him down with lefts and rights to the jaw. The challenger tore into Willard each time and knocked him down each time, flooring him with rights and lefts to the chin.

Round two: Dempsey rushed Willard in his corner, pounding his jaw with rights and lefts. The champion's right eye was closing from the blow. Dempsey landed. Dempsey walked around Willard carefully, measuring him with rights and lefts to the jaw. Willard seemed dazed. Dempsey hit three lefts to the bad eye. Willard landed a feeble uppercut. Willard's eye was rapidly closing. Dempsey had to be called back into the ring for the second round because he thought he had won the fight. Willard staggered to his corner at the end of the second round.

Round three: Dempsey hit Willard twice with lefts to the jaw. Dempsey sent right to the jaw and left to the body. Dempsey peppered lefts to Willard's jaw without a return. Dempsey backed the champion to the ropes and hammered him with lefts and rights.

Dempsey backed the champion to the ropes and hammered him with lefts and rights to the jaw and body. Dempsey hit a right and left to the head and had the blood streaming from the champion's mouth. Willard landed a stinging uppercut to Dempsey's jaw and Dempsey retaliated with a left to the jaw although Dempsey hit the champion with a right and left to the jaw as the bell rang.

The first preliminary was called at 11 o'clock, a six round go between Tommy O'Boyle of Toledo, 116 pounds and Solly Epstein of Indianapolis 114 pounds. Tom Backin of Pittsburg was referee and decided the contest a draw.

COMMERCIAL CLUB HOLDS MEETING

Snyder to Line Up For Great Scenic Highway; Industrial Picnic In Prospect.

The Chamber of Commerce had an important meeting Tuesday evening with President F. J. Grayum in the chair and Secretary J. M. Denson keeping the records.

The primary purpose of the meeting was to provide for representation of Snyder at a meeting of the Florida to Colorado Highway Convention to be held at Brownwood July 14th. O. P. Thrane was chosen to represent Snyder in that convention. The Finance committee of the convention have levied an assessment of \$75.00 as Scurry county's quota of the necessary fund and the membership committee were instructed to raise that sum among the membership and expense money for our delegate.

A total sum of \$90. Mr. Thrane is instructed to use his judgment in the matter and to pay over our quota if he finds it advisable to do so and the other counties along the designated route do so. The counties through which the Highway has been designated are Orange, Hardin, Jefferson, Liberty, Harris, Ft. Bend, Austin, Washington, Burleson, Milam, Bell, Coryell, Lampasas, Mills, Brown, Coleman, Taylor, Nolan, Fisher, Scurry, Garza, Lubbock, Hale, Swisher, Randall, Potter, Oldham, Hartley and Dallam. This gives us a highway entirely across the state that will present Texas scenery in all variations, from the gulf coast, through the forest region, over the rich rolling prairies, across and along the principal rivers, through the bounding blooming scenes of West Texas over the boundless plains right up to the border precincts of the Rocky Mountain region. The route is laid out through live flourishing towns and there will not be a dull mile of minute of travel for the tourist from the flower dells of Florida to the snow capped mountains of Colorado.

The Secretary was authorized to communicate with Congressman Marvin Jones with a view to getting allowed to this county some of the trophies of the war.
The matter of getting up a county picnic, barbecue or some other public get-together entertainment was brought up but no definite action was taken. That is a matter that ought to be readily appeal to all of us and we expect the club to take early action on that line.

New Casing Set In Dunn Well.

The promoters of the Dunn well have been busy for the past week and all sorts of reports have been in circulation. H. C. Cotton of that precinct said Saturday that there was more showing of oil there than had been and Mr. Harris said Sunday there will be more yet. They got the new casing in last Sunday and they promise to have more to show and say about the Oklahoma-Snyder operations.

Missionary Society.

The Woman's Missionary Society of the Methodist church met with Mrs. W. M. Curry Monday afternoon. Instead of the scripture lesson each member answered roll call with a verse of scripture.
Motion carried to have "Apron and Bonnet sale," August 23, also an Xmas Bazaar.

After adjournment a most delightful time was spent with needle work while Mrs. Hamilton, Mrs. Waddill and Miss Willie Fern Curry furnished music and Mrs. Frazier delighted us with several readings.

The hostess served white cake and ice tea and punch.

Weekly Health Talks

What Doctor Pierce Has Done For Humanity!

BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloes, root of Jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constipated. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

Bookout Sunday School.

Editor Signal:
In company with O. L. Howell, our county superintendent and superintendent of the Baptist Sunday school who likes to do Sunday school work as well as literary school work, we hit the "bumps" for Book out. Fine thing the top was up on that car, we might have been pitched high enough for the car, to let us fall back behind it however we ran in low gear all the way up there, but my! my!! when we arrived and got in that house and discovered that we were right in the midst of a well organized theological seminary, (in miniature) with Milton West as Superintendent to guide and direct the machinery and B. B. Alexander, L. N. Periman and others equally as good according to age to do the teaching and students with lessons well prepared and all running in high gear except Paul McDermott who is the balance power, that is he balances the books as secretary. He never runs neither above nor below normal but he always gets there with his part of the program all the same and with a superintendent that all honor and respect and with such teachers all honor and respect and with such students that all honor and respect. No wonder that we were soon in unison and running in high gear too. Say, Mr. Editor, if they ever ask you to come out there don't fail to go, for they know the very things to say and do so as to make you feel good and better too, by having been there. Just think about it, "never in the history of that neighborhood has any drunkard's hideous yell been heard to rend the midnight hour," and swearing at the present is never heard.

Not a man nor woman in that neighborhood but what if his neighbor is sick or in trouble all others are ready to lend a helping hand. Yes sir, they are pushing upward and upward, and if they continue and not weary in well doing, those children now being reared in that community will be an honor to the county and may be an honor to the state and nation, but space would fail, for me to tell you the amount of good, that is and may be done, in that neighborhood.

They invited us to come back again and as soon as we get in low gear again, we will go back and get some more inspiration. Once more things are moving in the right direction up there.

I am sure that the time is at hand for a great ingathering of a harvest of souls for the Lord up there. Yes the field is ripe unto harvest now. And now may the God of heaven in love and tender mercy be with them, and finally may they without the loss of one, be safely translated to that city, the walls of which are of the most precious stones, the gates of which are pearl, the streets

of which are pure gold clear as crystal, yes may they all be united in that city whose builder and maker is God, there to sing the praises of our Blessed Redeemer throughout eternity. Amen. E. C. D.

It is announced that the tribunal to try ex-Kaiser William Hohenzollern will hold the trial court in London. The court will consist of the highest judicial dignitaries of England, France, United States, Italy and Japan. It has been intimated that banishment for life will be the limit of penalty but later it is stated the tribunal will be free to impose any penalty they may think the gravity of the Kaiser's crimes may warrant, even the death penalty. The pending trial of the deposed tyrannical emperor is weighing on the consciences of some of his bigger war men. Von Bethmann Hollweg has announced that he was responsible for the extreme cruelties ordered during the war and that the Kaiser did just what he told him to do and now he proposes to be substituted for trial and punishment and the Kaiser go free. Hindenburg has later come out with a like proposition assuming all responsibility for the cruelties and ruin of Belgium and France and wants to be the goat. Then comes the Kaiser's son Eitel Frederick and wants to take his father's place. von Tirpitz, the submarine murderer hasn't yet shown up in the pythian role, but if he was convicted that he could get by without hurt he will offer for the altar. It would be only right and proper to put all the bunch on trial.

SURPRISING PROGRESS IN PHILIPPINE ISLANDS

Seventy per cent of the inhabitants of the Philippines over ten years old are literate, as shown by the 1918 census, according to a cable just received by the War Department from Vice-Governor Yeater at Manila. Of the estimated population of 10,500,000, 10,000,000 are civilized Christians, while 500,000 represents the non-Christians or so-called wild tribes. The latter, however, are included in the population of which 70 per cent are literate.

The percentage of literacy in the Philippines, as shown by the census just completed, is almost as high as that of some of the southern states of the union, higher than that of Greece, Italy, Portugal, Roumania and Servia. It is also higher than

that of any of the new countries whose independence is being recognized by the allies.

It is pointed out there is every reason for the literacy of the Philippines to be still higher within the next few years, through the action of the Philippine legislature at its last session in voting 30,000,000 pesos to extend the educational system so that schools will be available to every child and youth in the Philippines.

Between 1912 and 1913 the total number of children in school increased from 440,000 to 675,000 a gain of 54 per cent in six years. The number of intermediate pupils grew to 67,000, a gain of 160 per cent. The number of high school students reached 16,000, a gain of 220 per cent.

The Philippine legislature composed entirely of Filipinos now supports 4,700 schools, with a teaching force of 12,303 teachers. All instructions is in English, and will continue to be if independence is granted. A large number of American teachers is to be employed and sent to the Philippines within the next year. All of the expense of education is being paid by the Philippine government.

Gov. Hobby has asked the legislature to make it a felony to make a false statement relative to financial conditions in order to obtain anything of more than \$50 value. That will put a crimp in oil stock lying, in as much as they will not dare sell a fellow more than \$50 worth, but why put a minimum limit on lying? Why not just go over the top and pass a prohibition law against lying for profit.

FARM HELPS.

Most all counties in Texas are employing county farm agents whose duty is supposed to be to mingle with farmers and impart instructions along experimental lines. Scurry county has had the services of an agent, who did quite a good deal in the way of lining up farming clubs and placing in the hands of the people the farm bulletins giving scientific and practical information on different phases of agriculture. The county had and still has a contract with the agricultural department for a demonstrator and Mr. Kemp was the man assigned to this county.

Mr. Kemp has gone away and unless another is put here, this county will have no demonstrator and our part of the salary will not have to be paid. It may or may not be best to keep an agent employed at least during stringy times.

Scurry county has not had a fair chance to test out the value of a county agent. No agent last year could have brought big results and the outlook for this year indicates that any sort of an expert will be able to show good results.

We have an idea that a series of years would be the correct time limit for a complete test, really it would not be good policy to employ just any sort of a person for county agent. A man sent out to teach scientific farming should be one who has had ample training in an agricultural college. He should be competent to advise on seed, on methods of planting and cultivating. He should be authority on variety of crops and the proper tools and how to use them. He should be able to analyze

the soil and be able to recommend treatment of the land to bring desired results. Such a demonstration man would be worth all he would cost, and possibly our county could not now pay the price. In the meantime the A. & M. College will furnish regular bulletin service to all who ask for it, covering all these points and more.

If the people would keep up a Farmers' Institute they could read and discuss the bulletins and put the teachings into actual practice on their farms, they will find just about all the scientific information they need.

Galveston saloons will sell two and three quarter beer.

SATISFY!

—what the deuce
does that mean?

It means that NEW thing in a cigarette, that does for your smoke-hunger exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do more than please the taste—it must "touch the smoke-spot."

That's what Chesterfields do. They let you know you are smoking—they SATISFY.

And here's why—Chesterfields have body. The finer, silkier leaves of TURKISH have been properly blended with several varieties of the best DOMESTIC tobaccos, famous for their full-bodied flavor.

SATISFY is something that no cigarette, except Chesterfields, can give you—regardless of price. Because no cigarette maker can copy the Chesterfield blend.

Say "Chesterfield" to your dealer.

"MEN AND WOMEN WHO ARE THOROUGHbred."

Clarence Poe

This month farm work is becoming less pressing. Now let us think a little while about the ends or purposes for which we work.

We work—if we have the right sort of ideals—not merely to make big crops, or to accumulate more land or money, or to provide something to eat or wear for a certain number of human beings who compose our families. Our highest purpose is the development of a high quality of human life in these men and women, boys and girls. Dr. T. N. Carver had the right idea when he said in a "Success Talk" for Progressive Farmer boys:

"Everybody knows that it would be poor economy to grow excellent grain to feed scrub stock. That is not giving the feed a fair chance. It is even worse economy to grow good grain and pork and beef to feed to scrub men. That is not giving the food a fair chance. By scrub men I mean men who, however rich they may be, have no desire, ambition, or interest beyond the gratification of their sensual appetites. The final of good agriculture is the growing of good men and women who are thoroughbred in the real sense of the word."

Now what social agencies are more necessary in order to develop worthy men and women in one's neighborhood? Certainly every list of such agencies would include the schools and churches. Effective school organizations and effective church organizations constitute two of the great foundation-stones of our civilization.

Now the question we wish every one to consider is just this: Is the school of your community getting the support it deserves? Are the churches of your community getting the support they deserve?

Married.

Contributed

On last Sunday, July 6, at 2:30 p. m. Miss Lelan Fee of Whitdeer and Mr. Elmer Luttrell of Mobeetie were united in marriage at the Methodist parsonage by Rev. G. T. Thomas. Only the immediate family and friends were present. The bride wore a beautiful grey messaline and georgette dress with hat to match, white Oxfords. The bridegroom being an honorably discharged soldier wore the conventional uniform. Mrs. Luttrell was formerly a resident of Ira, Texas and has a host of friends there. Since leaving Ira she has taught three successful terms of school. Both of these young people are former students of the West Texas State Normal College, Canyon, Texas.

Immediately after the ceremony Mr. and Mrs. Luttrell left for their home at Mobeetie, Texas. Mr. Luttrell has for past few years been engaged in farming and stock raising on his farm six miles west of Mobeetie. We wish for them a long, prosperous and happy life.

To Protect Cattle Prices.

Washington, July 4.—Relief work in a week or ten days for Texas cattle raisers and bankers who have loaned money on cattle paper is promised by Secretary of the Treasury Glass. The extremely low price now being paid cattle producers is threatening financial disaster to scores of cattlemen and bankers, according to telegrams being received here from Texas. These messages point out that Government assistance is necessary.

Senator Kendrick of Wyoming, president of the American National Live Stock Ass'n.; Representative Hudspeth and Parish of Texas and others conferred with Glass, applying to him for immediate relief.

It was announced today that the Government has already arranged to extend the period of payment on existing loans, also that the War Finance Corporation has been called on to assist in relieving conditions, and with instructions to do everything in its power to maintain this end.

"We are quick to guard the industrial interests of our community of seeking to establish and maintain industrial plants within its bounds.

We should be no less solicitous to guard the investments of our community," said Robt H. Carnutte of the First National Bank today. "If an industry, however small, plans to move to another community, our businessmen and bankers would use every effort to induce its owners to remain. They want its wages to continue to go to local merchants, to buy local homes, and to build up saving accounts. Such business loss directly affects the community's business prosperity.

"Yet when sharpers, dishonest promoters and stock jobbers begin to unload utterly worthless stock and bonds of wild cat companies on our people we make no organized effort to keep them from taking our capital, wages and savings out of our community. Instead of protecting our citizens we are likely to allow these sharpers to ply their trade so long as they do not run afoul of the criminal law.

One of the favorite means of mulching the small investor today is to induce those who have put their savings into War Saving Stamps and other Government securities and transfer their funds into worthless papers. The community, to protect its capital and its property, should organize, if not to punish the sharpers, at least to educate its citizens as to the value of their Government securities and as to the risk of entrusting their money to strangers glib of tongue and unscrupulous in promise and prospectus. Communities who fail to do this fail to realize that some thirty million of people own Government securities but really know very little about the nature or value of bonds and how to use them.

"The 'Baby bonds', The War Saving Stamps are particularly the targets of the vendors of worthless stocks and of stamp scalpers. Owners of these War Saving Stamps ought to know that they are as good as gold and can be readily redeemed for full value, plus interest to date, on ten days' notice at any post office. The scalper, however, even attempts to convince owners of these Stamps that their security has fallen in value in some strange fashion, despite the fact that the stamps can never go below their par value plus the interest accrued today. A favorite trick is to tell persons who have one or more Stamps in a 1918 certificate that these Stamps are valueless unless the certificate is filled with twenty stamps. They then offer to buy these Stamps at a cash discount, or to exchange them for worthless stocks.

"The truth is that War Saving Stamps are as good as gold whether you have one Stamp or one hundred Stamps. The Government on maturity will pay five dollars for the single stamp in a certificate just as readily as it will pay \$100 for twenty of them. Similar arguments are used by the scalpers to discredit the 25 cent Thrift Stamps.

"Where banks, merchants, businessmen and other community leaders fail to make clear to everyone in the community how good Government securities is to hold, they are simply allowing their citizens to be cheated, and are cheating themselves out of investments which ought to be making good business for local business.

Scouts Decorated For Selling W.S.S.

JOYCE COX

Every Boy Scout in the Eleventh Federal War Savings District can wear a Treasury Achievement Button, an Ace Medal and have bronze, silver and gold palms on his medal ribbon, if he will do as much as Joyce Cox, a Boy Scout of Cameron, Texas. Joyce had sold almost \$6,000 worth of War Savings Stamps up to May 1, 1919.

The Achievement Button represents sales of War Savings Stamps to twenty-five individuals. The Ace Medal represents total W. S. S. sales of \$250. A bronze palm represents an additional \$100, a silver palm an additional \$1,000 and a gold palm an additional \$5,000 in War Savings Stamps sold. "I'd like to see every Boy Scout in the District wearing gold palms on his medal ribbon by the end of the year," said Frank M. Smith, Federal District Director of the War Loan Organization. "What one boy has done others can do. One of the best War Savings Societies in the District is in the Boy Scout Troop at Tallulah, La. There ought to be a Savings Society in every troop."

Have you bought your Thrift Stamp today?

Fraternal Orders Strong For Saving

Fraternal orders should take an active interest in the 1919 Savings Campaign in the opinion of Pat M. Neff of Waco, Grand Chancellor of the Texas Grand Lodge, Knights of Pythias. Another enthusiast over the Savings Campaign is J. W. Chancellor of Bowie, Grand Master of the Texas Grand Lodge, Independent Order of Odd Fellows.

"In the Savings Campaign," Mr. Neff said recently, "the Government has placed the stamp of its approval on the fraternal idea. War Savings Societies are not lodges, strictly speaking, but they are next thing to it. Many of the most successful Savings Societies are in the lodges and the Knights of Pythias are doing their share."

"Texas Odd Fellows had a number of strong War Savings Societies last year," Mr. Chancellor said, "and most of them made excellent records. Wherever possible, it would be a fine idea for the members of the lodge to form themselves into a Savings Society again this year, if they have not already done so."

Numerous lodges of various orders over the Eleventh Federal District not only have Savings Societies but are securing sinking funds by investing in War Savings Stamps as a lodge. The members of these lodges are also buying W. S. S. individually.

Has your lodge been organized?

Successful Dollar Is One That Works

The dollar that goes to work is the successful dollar. The idle dollar is a failure.

The successful dollar brings back another dollar with it. It makes itself a dollar and something—two dollars and something—a whole family of dollars.

The careless dollar goes off somewhere and is never seen again.

A Texas man the other day lost a life-time's savings—\$786.00. His dollars had gone off in the pockets of two fake stock promoters. He had not taught his dollars to keep good company.

Hundreds of years ago a man to whom a handful of dollars had been trusted buried them in a napkin. He got no increase—he did not even keep what he had. One might as well have nothing as keep an idle dollar.

The dollar that succeeds is energetic and careful. War Savings Stamps do more than save your dollars. They put them to work at 4% interest. And they never fail. Your Government guarantees every one of

SEEKING TO CHECK MONOPOLY IN FOOD PRODUCTS.

The federal trade commission are taking steps to prevent the five big packing companies of the country from getting control of the economic industries of the nation and dominating the lines of trade in food products. It is being charged that the packers are in collusion to control the supply and prices of live stock, meats, wheat, flour, corn, rice, oil products and in fact just about every thing the people consume. It is charged that they own controlling interests in stock yards, terminal railroads, docks, hotels and mills and that the retail meat dealers and grocery merchants are under the monopolistic domination by reason of their control of the wholesaler and the other storage refrigerator and shipping facilities. Swift and the other packers have sent out a pamphlet setting forth their side of the controversy and they charge that the federal trade commission have made an incomplete investigation and that their report is one sided and therefore misleading. Congress is taking hold of the big question with a view to prevent profiteering and to bring about a condition of production, transportation, distribution and cost to the people of the commodities involved in the alleged monopolistic service. President Wilson will support congress in its effort to block the packers in efforts to dominate the food supplies.

The drive made against the big packers now is to prevent the gobbling up of all important food stuffs. For past questionable acts the packers may have to answer to the department of justice. But the forces at work in the federal trade commission and congress would make it impossible for them to continue their monopolistic control and compel them to let go their death grip on the meat business.

HOW THE FIVE CONTROL MEATS. It is charged by the federal trade commission in a formal report to which President Wilson will give his serious attention, that the Big Five, together with their subsidiaries and affiliated companies, have:

1. By questionable methods secured a monopolistic control over the buying and selling meat markets of the United States.
2. Invaded new fields, extending their control over eggs, poultry, cheese, vegetable oil products and other substitutes for meat and meat products.
3. By rapid strides have extended their dominion and domination to fish, rice and other necessary food and food materials.

Senator Thompson of Colorado has written some of the packers urging them to have care for the peace and quiet of the country. Senator Thompson warns the packers of the effect such control of necessities is apt to have on the social world.

He says: "The one effectual appeal which the anarchists, bombers, Bolsheviks and kindred classes are making, Senator Thomas told Mr. Swift, is based on the constant progress of these great, monopolistic combinations. "Nothing can justify lawlessness," said Mr. Thomas, "but many things lead to and prompt lawlessness in its most violent and dangerous form." The senator further says he is not one to abridge industry and commercial effort by law but when the welfare of the public is being abused, and the country with no

strong arm of the law. The Swift pamphlet carries exhaustive explanations of the varied conditions that enter into their operations which they claim amply justify their methods and give figures to show that by reason of their system they are insuring more favorable conditions and prices to the public. This controversy is of interest to everybody because it affects everybody.

ADVERTISE IN THIS PAPER

SOME INTERESTING FACTS ABOUT THE COLLEGE OF INDUSTRIAL ARTS AT DENTON, TEXAS.

Denton, Texas, July 10th, 1919—The College of Industrial Arts, Denton, Texas, the second largest educational institution of college grade in Texas, the largest college for women in the Southwest, the third largest college for women in the United States, is one of most interesting, democratic, and efficient of the great colleges of country, and the following facts concerning it are of especial interest to the citizens of Texas and to the thousands of Texas girls who ambitious to acquire further education and training for increased happiness and usefulness in life:

1. The law providing for the establishment of the College of Industrial Arts was enacted by the Twenty-seventh Legislature in 1901, the first session of the College was opened September 23, 1903, during which 186 students were enrolled and instructed by a faculty of members, there being only one building in which the work of the College was carried on.

2. During the year 1917-18 there were enrolled 1250 girls the regular session and 650 in the summer session, or a total enrollment for the year of 1910 students. Enrollment for the present year 1918-19, in both the regular session and the summer session exceeds that of last year, and totals more than 2000 girls, with a faculty of members, the work being carried on in 20 buildings located on a beautiful campus of 75 acres.

3. A summary of the different lines of work done by the College follows: Literary; Manual Arts; Household Arts; Home-making; Music; School Music; Reading or Expression; Rural Arts and Vocations; Industry and Vocations; Fine and Applied Arts; Music—Piano, Violin; Commercial Arts—Typewriting, Short-hand, and Book-keeping; Teacher-Training in Vocational Home Economics. No College or university of first rank in Texas, or the Southwest, gives better industrial training of higher quality than does the College of Industrial Arts; and for the completion of such prescribed training the following college credentials are awarded and conferred: Degree of Bachelor of Arts; Degree of Bachelor of Science; Degree of Bachelor of Music; Degree of Bachelor of Business Administration; Commercial Arts Degrees; Teachers' State Certificates; Public School Music Certificate; Vocational Certificates, Homemakers, Certificates; Kindergarten Certificates.

4. The courses of study are so organized that girls may enter the College and pursue their work for one, two, three or four years, as financial ability may permit and their ambitions suggest. The Vocational Counselor of the College is qualified and ready at all times to assist girls in the selection of their courses of study so as to enable them to accomplish their ambitions and purposes in the shortest possible time.

5. There is not a college or university in Texas which is rendered greater service to the people of the State than is being rendered by the College of Industrial Arts, and the girls of Texas may get at this College precisely the work they most desire and which will best fit for life in its larger, most wholesome, and useful aspects. The College is divided into four quarters of approximately twelve weeks. The next regular session begins September 16, and continues for four quarters, or thirty-six weeks, at the close of which the summer session begins and continues for one quarter, or twelve weeks.

The best friends of the College of Industrial Arts are the thousands of Texas girls who have attended the College, and received the benefit of its instruction and training. Anyone who desires further information concerning the College and its work should inquire of any one of its graduates or former students, or who desires a catalogue should address President F. M. Bralley, College of Industrial Arts, Denton, Texas.

GREAT ENTERTAINMENT

Is Given By World-Picture, "T'other Dear Charmer"

Great screen entertainment is afforded by the new World-Picture, "T'other Dear Charmer," which on Tuesday will be shown at the Cozy theatre with Louise Huff as the star. The story is a modern one and deals with the love affairs of an American aviator who is back from the front to recover from a wound received in an air fight.

Supporting Miss Huff in the attraction is John Bowers, who has appeared with great success in a number of other World-Pictures. This offering is splendid screen entertainment and will be enjoyed by all those who see it.

ALL THE WORLD LOVES A LOVER

Bryant Washburn Has Fine Role in "The Gypsy Trail"

All the world loves a lover, is an old adage and a true one. Therefore it will capitulate when it sees "The Gypsy Trail" with Bryant Washburn as the star at the Cozy Theatre Tomorrow. Mr. Washburn is a true and tried lover, a bit backward, but winning in the end, against a formidable rival in the person of a rover with the instinct of a vagabond, but who appeals mightily for a time for the girl in the story.

These characterization by Mr. Washburn is said to be one of the most pleasing that has ever been offered the screen public. The film playgoers of this city will have the opportunity of proving this for themselves when the picture is shown. Wanda Hawley has the leading feminine role.

When Jess Willard gets over his soreness and his eye gets so he can see out of it he can go back to his oil wells and should try to live a decent life.

It is well that Texas pup prohibition into the state constitution. It is evident now that national prohibition will be indefinitely tied up in the courts.

Mr. Davis of Roby was here Saturday buying horses.

Mr. A. Stavely, Jr., of Ranger was here a couple of days last week. John was well pleased with our crop prospects and stated he expects to return some time next month for a longer visit.

CITATION.

To the Sheriff or any Constable of Scurry County, Greeting.

You are hereby commanded to cite all persons interested in the welfare of Velma, Earnest, Melvin, and Mildred Hester, minors, to be and appear at the next Regular Term of the County Court of Scurry county, to be holden at the Court house thereof in the City of Snyder on the 2nd Monday in July, A. D., 1919, the same being the 14th day of July, A. D., 1919, and contest, if they see proper to do so, the application of Mrs. Dona Hester, which has been filed in said court, for the guardianship of the estate of said minors.

Herein fail not, but have you this writ before said Court at the next term thereof, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court at office in the city of Snyder, this the 23rd day of June, A. D., 1919.

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

- 65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.
- 10 per cent is frozen pork that is to be cured later in the year.
- 6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.
- 19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 1½ lbs. per capita—a 3 days' supply.
- 100%

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

INCREASE IN WAGES.

Fort Worth Record.

The National City bank of New York notes as a fundamental error that of assuming that the living conditions of the masses of the people can be improved by simply pushing up money wages and shortening the hours of labor. The argument is that it is possible that certain groups may improve their relative positions in this way, making gains for themselves at the expense of other wage-earning groups, but such an accomplishment does not raise the general position of labor.

The iron and steel industries and workers have obtained wage advances aggregating 100 per cent since the beginning of the war, which is more than the average advance in all the industries. The selling prices of steel and textile products have been advanced accordingly, and the workers in all other industries are paying the bill.

"The only gains," says the bank, "that signify general benefit are those which represent an improvement in the standard of living for the masses of people, giving more leisure and more comforts which they crave. There are gains for which society should untiedly strive, but wage advances alone do not bring them. Indeed, wage advances which simply put up prices on consumers are so disappointing that they result in embittering the wage-workers against the whole social order, because they feel that they have somehow been cheated out of what had ostensibly been conceded. If each line of industry will contrive to increase its production, thus having more to offer in exchange, it is evident that the workers in every line will have more for consumption.

"The experience of industry during the war has shown that vast gains are possible simply by the full and well-organized employment of all industrial forces. Scientific learning is mobilized for the assistance of the industry more effectively than ever before, and permanent results will follow. Finally, the greatest influence for the improvement of social conditions will be found in more harmonious relations between employers and employees."

These tablets are intended especially for stomach troubles, biliousness and constipation. If you have any trouble of this sort, give them a trial and realize for yourself what a first-class medicine will do for you. They only cost a quarter.

The statement of Mr. Ousley, Assistant Secretary of Agriculture, sheds some light on the menacing predicament of the cattle raising industry. The cattlemen were urged as a matter of patriotic duty to increase the supply of beef. This they did, with the result that their herds are larger than ever before. But the demand that was thus to be satisfied was suddenly contracted greatly by the ending of the war and the return of our soldiers. A decline in the price of cattle followed and this has been increased by the action of the War Department in throwing on the markets of this country immense quantities of beef which had been bought to feed the army in France. But while these things forced down the price of live stock, they did not affect the price of beef in the butcher shops. Nowhere, apparently, has there been a reduction in the retail price of beef, while there has been an increase in many cities, mounting as high as 20 per cent in some. Thus the consumption of beef was diminished by increasing retail prices at a time when the supply of beef on the hoof has been greater than ever before. The law of supply and demand has operated in the natural way

against the cattle raisers, and, seemingly, to some extent at least, against the packers, but has been impotent as against the retail butchers, for it is they, according to Mr. Ousley's account of the matter, who have not only sustained but advanced prices, despite conditions which commanded that they be reduced.—Dallas News.

CITATION BY PUBLICATION.

The State of Texas.

To the sheriff or any constable of Scurry County, greeting:

You are hereby commanded to cause to be published once each week for a period of ten consecutive days before the return day hereof, in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year in said Scurry county, a copy of the following notice: The State of Texas.

To all Persons interested in the welfare of Marshall C. Higgins, a minor: Mary Olive Higgins has filed in the county court of Scurry county, an application for guardianship upon the estate of said minor, which will be heard at the next regular term of said county court of Scurry county, Texas, to be holden at the court house thereof, in the city of Snyder, on the 14th day of July, A. D. 1919, the same being the second Monday in July, A. D. 1919, at which time and place all persons interested in the welfare of said minor are cited to appear and contest, if they see proper, said application, being number 365 on the docket of said court.

Herein fail not but have you before said court on the said first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Snyder, Texas, this the 3rd day of July, A. D. 1919.

July Fourth at Snyder.

Snyder had a Fourth of July. Just couldn't help it. Many of our folks thought we wouldn't but the calendar had it down and we had to have it. Several towns close about had gatherings and fun and some of our folks went. The banks and the post office and most of the stores were closed all day and the town was strictly quiet. There was no advance in anything but vegetation and interest on notes. Oil jugglers refused to report progress and fellows who went fishing had nothing to say. Those who stayed at home went to church at night wondering why Snyder could not have had a celebration.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drps on the corns, calluses and "hard skin" on bottom of feet, then lift them off. When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make this Beauty Lotion for a few cents and See for Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard whites then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck arms and hands it should help to bleach, clear smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Those of our people who attended the picnic at Lubbock on the fourth report a great big time.

The Joy of Living.

To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged a good share of the time and the poisons that should be expelled are absorbed into the system, producing headache and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.

WITHOUT POLITICS.

The biggest question in the world today is the labor question—how to give a fair deal to and get a fair deal from labor; how to satisfy the reasonable demands of the men and women who do the world's manual work and get them to a state of mind so that they will not make unreasonable demands; how to keep labor power continually applied to production at maximum efficiency. That, take it all round, is the biggest question in the world.

It is not a political question at all—or need not be. Comparatively little political action of any sort is necessary to solve it. We can go right ahead and solve it ourselves if we want to. Every employer and every workman can do his own solving—far easier, surer and better than congresses, legislatures or soviets can solve for him. If the men who do the employing and working will just study, open-mindedly, how to give a fair deal in their own relationships the labor question will solve itself. Political intervention is simply calling in lawyers and courts to settle a questionable boundary case that the parties could settle themselves if they would be fair, reasonable and conciliatory. Don't wait for politics. Start solving on your own hook.—Saturday Evening Post.

NOTICE OF APPLICATION FOR SALE OF REAL ESTATE

The State of Texas: To the Sheriff or any Constable of Scurry County, greeting:

You are hereby commanded to cause to be published in the Snyder Signal a newspaper of general circulation published in said county, at least once a week for 20 consecutive days before the return day hereof, the following notice:

The State of Texas, to all persons interested in the estate of E. C. Taylor deceased.

Know ye, that Hugh Taylor, administrator of the estate of E. C. Taylor, deceased, having on the 16th day of June, A. D. 1919, filed in the County Court of Scurry County, Texas, exhibit application to sell the following described land belonging to said estate: All the east one-half of Section No. 2, block 2 S. P. Ry. Co. survey in Taylor county, Texas; All the east one-half of Section No. 2, block 2, T. & N. O. Ry. Co. survey in Taylor County, Texas;

And all the N. W. 1-4 of Section No. 4, block 2 T. & N. O. Ry. Co. survey in Taylor County, Texas; All the N. E. 1-4 of Section No. 5 block 2 S. P. Ry. Co. survey in Taylor county, Texas; and all of section No. 303 in block 97, H. & T. C. Ry. Co. survey in Scurry county, Texas.

Now therefore these are to notify all persons interested in said estate to be and personally appear at the next regular term of the honorable County Court, to be holden at the court house in the city of Snyder, on the 2nd Monday in July, A. D. 1919, same being the 14th day of said month, and then and there to show cause why such sale should not be made, should they choose to do so. PRO AMENDMENT TO TEXAS CONSTITUTION IS NOW IN EFFECT.

Austin, Texas, July 4.—Following canvassing of the returns of the State Canvassing Board of the election held on May 24 on the four-proposed Constitution amendments, the Governor issued a proclamation late yesterday evening, proclaiming that the prohibition amendment which carried by a majority of 19,624, is now a part of the Texas Constitution. The amendment is self-acting. No additional legislation is necessary to make it operative. The Governor used two pens in signing the proclamation, one of which he gave to H. A. Ivey, a pro leader of Sherman, and the other to R. H. Kirby, leading prohibitionist of Austin.

Tabulation of the official returns disclosed that the woman suffrage amendment was defeated by a majority of 25,120. The amendment to increase the Governor's salary was defeated by a majority of 84,833, and the home owning amendment was lost by a majority of 9,102.

Cattle Down, Meat Up Washington, July 3.—The West and Southwest is anxiously calling on the Government for action that will save the cattle industry from the serious condition with which it is threatened due to what has been termed a manipulation of price cutting at both the producer and retailer. Compared with one year ago, beef on the hoof is off \$5 per hundred, while on the block there is said to have been an advance of 24 per cent. Telegrams reaching members of the Texas delegation in Congress from the cattle-producing section of that State and from the live stock exchanges ask that a policy be put under way that will induce the people to consume more meat.

The situation, which it is asserted tonight seriously threatens the federal banker and general producer, has been under consideration by members of the Kansas delegation in Congress for several days. That State particularly the western portion, and some sections of Oklahoma, are in dire distress, according to the information in Washington, due to a lagging in the market and jeopardizing thousands of dollars' worth of cattle-paper held by Western banks. It is pointed out that the price of hogs has increased, feed also having gone up, while cattle on the hoof has fallen. On top of this the retailing agency is confronted with an increase equal to 24 per cent compared with a year ago.

The wife should be placed upon a regular salary as a means of solving financial domestic contravarsies, was the advocacy of Judge Geo. M. Francis of Minnesota when the court was confronted by a case in which husband and wife had fistic encounters over the family finances.

According to the Minnesota Magistrate, the wife should be paid for her labor just as any other member of the human race who works. Pay her a salary and she will not bother her husband about money. She is thrifty enough to live within her income and she will be satisfied if she has a certain amount of money at her own disposal and does not have to ask for every cent she gets. If you don't believe this, added the judge, try this plan as a balm to your family's financial troubles.

WHO IS TO BLAME?

The legislative report on the Blue Ridge farm muddle has led certain politicians to want to censure Gov. Hobby and the penitentiary commission for failure to purchase that farm under the terms of the option. There is no question but that the farm is well worth the option price, but it had been in the minds of the Governor and the legislature that the state should quit farming and therefore would probably not want to buy any more land. About that time the owner of the farm from whom it has been leased, wanted to be released from the sale option and along last spring began to insist on the release. He engaged an attorney to bring about the release.

It will be remembered that Walter J. Crawford was considered a close friend of Gov. Hobby and had been Mr. Hobby's campaign manager and therefore was in the Governor's confidence. Barrett Blakeley the owner of the farm knew of those close relations and engaged Crawford to handle the governor. It was represented that Blakeley wanted the option cancelled so he could borrow money on the farm. Gov. Hobby naturally believed his friend and in as much as the announced policy of the state was to own no more land he was induced to consent to the release and he and two of the commission signed the release. Within two or three days thereafter an oil well was brought in on the farm and then it was understood why Blakeley was in such a hurry to get the option cancelled.

No woman can Senator to offer a resolution to request Gov. Hobby and the penitentiary commissioners to resign charging that they have been negligent in guarding the interest of the state. Those men should not be censured for failure to know about the oil well. Possibly they knew the well was being drilled, but thousands of wells have been drilled to no profit. The blame in this case rests on the supposed friend of the governor. The man who managed the campaign and was under sacred obligation to help the administration but instead of doing that he betrayed the friendship and confidence of the governor to the hurt of that official and of the state.

A news space writer in New York made specific report showing that for all the peace treaty has been signed and is being ratified, there are now 23 nations at war. That fact doesn't prove failure of the peace treaty. Some of these nations are new, others have lost territory and as yet, the boundaries aren't fully understood, and much of the so-called wars is mere expressions of protest which will finally be adjusted and the countries will settle down in agreement with the new conditions. When people quarrel, or even when they submit to arbitration there are disappointments in awards, but after a season of fret and resentment, they come to acquiescence, and peace comes as a result of reason restored.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. _____ had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

IT CANNOT BE SO NOW.

Eitel Frederick the young prince who took his Bavarian troops over to France to save his brother's army and got them shot up is now ready to offer himself in his father's stead for trial and punishment. He has sent to King George of England this message:

"To His Majesty, the King of England: In fulfillment of natural duty of son and officer, I with my four younger brothers, place myself at your majesty's disposal in place of my imperial father, in the event of his extradition, in order by our sacrifice to spare him such degradation. In the names of Princes Adalbert, August William, Oscar and Joachim. (Signed) EITHEL FREDERICK."

The world will admire the filial spirit of the boy's offer. There are thousands of American boys who would gladly step to the front to bear the burdens of their fathers but the laws of the land do not provide that one man shall be punished for the crimes of another and therefore the tearful appeal will have to be turned down.

Mr. E. H. Chorn of Mansfield is the guest of his brother J. I. Chorn.

Good and Bad Roads.

The farmer, above all men, is most concerned in getting good roads, because he uses them most, and hauling to and from town is a part of farming.

It has been estimated that the cost of hauling a ton of freight a mile averages, on the railroads, seventy-eight cents on ordinary roads in the United States, 23 cents, and on ordinary Texas roads, 43 cents. If these figures are correct it costs the Texas farmer almost twice as much to do his hauling as it does the average farmer of the United States.

Good roads usually keep company with prosperous farms and farmers. The greatest single factor for progress, perhaps, whether for the farmer or the community, is the road. If the farmer is freed from the burdens imposed upon him by bad roads, he will create wealth for himself, and incidentally prosperity for every one.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

Aspirin is the trade mark of Bayer manufacture of Monoaceticacidester of Salicylicacid.

Austin, July 5.—E. P. Smith, assistant attorney general, left today for New York, Washington and other large cities of the country to represent Attorney General Cureton in the taking of depositions in the pool hall cases now pending in the federal court involving the constitutionality of the Texas anti-pool hall law. Testimony is being taken by the prosecution with a view of showing that playing pool and billiards is a recreation and not harmful, and Mr. Smith is to cross-examine the witnesses.

The case is to come up next September at Amarillo.

The State of Texas.

To the Sheriff or any constable of Scurry County, Greeting:

You are hereby commanded to cause to be published in the Snyder Signal, a newspaper of general circulation published in said county, at least once a week for twenty (20) consecutive days before the return day hereof, the following notice:

The State of Texas

To all persons interested in the estate of Nancy Ann Harris, deceased and J. C. Harris, deceased.

M. W. Bavousett administrator of the estate of Nancy Ann Harris, deceased, and J. C. Harris, deceased has filed his annual report which said proceedings will be heard by said court on the 14th day of July, 1919, at the court house of said County in Snyder, Texas at which time all persons interested in said estate are requested to appear and answer said proceedings should they desire to do so.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Snyder, Texas, this 17th day of June, 1919.

Some of the Republican Senators who have been fighting the proposed League of Nations have served notice on the country that if their party helps to ratify the League as drafted they'll quit the republican party. There seems to be nobody worrying about it. Times have been when democratic politicians have quit their party, but it has gone right along doing business without them.

First Baptist Church.

As a news item we would say that there were more men in our prayer meeting last week than there were women, and that isn't talking about the women either, but sometimes the unusual happens.

Our picnic last Friday was a great one. Not all our people were present, but there were many. The fried chicken, lemon ade, etc., were in abundance. The pastor has felt better ever since.

One addition to the church last Sunday and the whole day was a glorious success. The evening crowd was the largest we have had for some time, and the service was unique and very greatly enjoyed by all. A special program had been provided and was rendered according to plan, the service flag was removed with appropriate ceremony and a memorial to the sacred memory of William Carroll Porter who laid down his life in the great war, was presented by the church to the family. It was a most touching hour for all, and our hearts beat in sympathy with the bereaved ones.

Next Sunday morning is to be Cradle Roll hour. All the mother whose babies are on the cradle roll will be expected to be present and bring the babies and their daddies. Special conveyance will be provided for those who need it. Of course everybody will want to see all these babies. This will be one of the best hours we have ever had. A special program will be rendered, and the pastor will also speak to the mothers.

W. H. SIMS, Pastor.

In the matter of the Blue Ridge farm transaction it seems that the governor was betrayed with a kiss.
