# Callahan County ASCS Newsletter

**Hail Damaged Wheat And/Or Barley:** Producers who signed an intent to participate in the 1979 Feed Grain, Cotton, Wheat Program, and who have a crop loss from abnormal weather conditions, such as flood, excessive rain, hail, etc, should within 15 days after the loss, file a disaster claim with your county ASCS office. Do not make any other use of the acreage until after a farm visit is made and appraisal of the loss.

**Final Dates:** June 14 is the final date to transfer peanut allotment and quota by lease or owner transfer. July 15 is the final date to certify planted peanuts, grain sorghum, corn, cotton and set-aside.

**ACP Aerial Spraying:** Aerial Spraying will start May 28th and continue for twenty-five days, through June 21, 1979.

**Fuel Allocation for Farm Operations:** The U.S. Department of Agriculture is stressing the need for regulations to protect food and fiber production, and that necessary fuels are provided for such. Any fuel problems will be handled through the Texas State Energy Office. Do Not wait until you are completely out of fuel before checking with your supplier. In the event you or your suppliers are having trouble obtaining the necessary fuel to carry on your farming operations, the ASCS office in Baird has the necessary forms needed to apply for the fuel.

Texas Crop & Livestock

**Questionnaire:** During late May and June, many Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff.

Crop and livestock reports provide a dependable, unbiased picture of Texas' most important industry—agriculture. The estimates in these reports are tools to help farmers and ranchers work out their planting, breeding, feeding, storing, producing, and marketing plans.

All individual farm and ranch information is kept

confidential, and only state and county summaries become part of the final published estimate. This is a cooperative effort of the USDA's Economics, Statistics, and Cooperatives Service and the Texas Department of Agriculture.

**Grain Storage Loans Available:** Funds are available to buy, build or remodel on-farm storage facilities. Under the farm facility loan program, farmers can borrow up to \$50,000 on structures adequate to store two years' crops, with 15 percent down and 10.5 percent interest. They can build conventional type on-farm

storage structures such as steel bins, wooden granaries, and wet storage facilities. To be eligible for farm facility loans, producers must grow one or more crops of barley, corn, grain sorghum, oats, peanuts, rye, wheat and high-moisture forage.

Borrowers must provide adequate security to protect the Commodity Credit Corporation's interest. The program provides for an eight-year repayment term. Additional information on grain storage loans may be obtained from the ASCS office.

**Size Standards Effective July 15**

COUNTY—"Use up your small and undersized envelopes and cards before July 15," Officer in Charge Irvin reminds customers. That is the date when the Postal Service's new size standards become effective.

The Baird OIC said that after July 15, envelopes and cards measuring less than 3 1/2 inches high or 5 inches long will be returned to the sender if mailed.

OIC Irvin said that because the envelope and greeting card industries have had more than three years to prepare for the new standards, few retailers should still be selling undersized pieces.

"Many consumers, however, are likely to still have smaller envelopes and cards in their supply of stationery," Irvin said.

The regulations also prohibit flimsy cards. In the future they must be at least seven-thousandths

(.007) of an inch thick. An official post card, for instance, has a thickness of nine thousandths of an inch.

Undersized pieces and flimsy cards are being banned because they can become trapped in other mail, tear and jam mail processing machinery. As a result, the letters of others can also be damaged.

The standards also affect oversized and odd-shaped pieces of mail, Irvin said. For first-class mail weighing one ounce or less, there will be a surcharge of 7 cents for pieces more than 6 1/8 inches high or 11 1/2 inches long.

For more information, the OIC suggest customers check with a post office window clerk.

# New Lighting System To Be Purchased

**BAIRD-Help!**  
The Baird Youth Recreation Association has undertaken a project to put in a new lighting system for the teenage baseball field in City Park and is seeking help.

There are supposed to be 68 lights on the eight poles, but only about 20 are burning. On some poles, the light bonnets are missing and cannot

be replaced. The Association has agreed to put up 60 quartz lights and the cost will be around \$2,500. Each quartz light is costing \$40.41.

In the next few weeks, members of the Association will be calling on people and businesses in Baird to help raise the money for the lights.

In order for the junior and senior teenage teams

to play games here this season, the Association is borrowing the money from the bank so the lights may be purchased and installed in the next week. The Baird City Council is underwriting the note.

Those wishing to buy a light may do so by calling either Buck Barry, Roger Corn, Larry Segura or Bill Hart. All donations are tax deductible.

In reality, the money is not an investment in lights, but in the youth of Baird. The junior team, boys age 13 to 15, play their games Mondays and Thursdays, while the seniors, ages 16 to 18 play Tuesdays and Fridays. They're in a league with teams from Clyde, Cross Plains, Cisco, Ranger, Eastland and Breckenridge.

Already pledging to buy lights are:  
Jerry Loper Prescription Shop (1 light)  
Hardwick Oil Co. (1 light)  
Hanner Chevrolet (5 lights)  
Curtis Sutphen (1 light)  
J.G. (Bromo) Bennet (1 light)  
Charles Greenway (1 light)  
Don Wilson (1 light)  
Roger's Food Store (1 light)

# IS THE CHURCH PART OF YOUR LIFE?

### HOW IS MY NEIGHBOR DOING?

Someone said, "God is still waiting to see what can be accomplished by a man or a nation that will take seriously His command 'Love thy neighbor as thyself.'"

In today's world, how is my neighbor doing?

Well, two billion of them eat only two meager meals a day. Two billion of them live off of a three acre piece of land on which they raise \$300 in crops. Of this money, \$100 goes to their landlord.

Two billion of them have total holdings amounting to \$5.00. And, as a result of that hard, ignominious life, each of these two billion people will live 30 years less than you or I.

They have seen no magazines all their lives; no electric lights, ever; no running water. And their entire lifetime wardrobe of clothes comes to them second hand, and numbers only 12 pieces.

Now do two things before you lay this down—

1. Be grateful to God for abundance
2. Pray to learn to share more meaningfully
