

QUIET TRADE IN STEERS

USUAL SMALL WEEK-END RUN INCLUDED NOTHING IN CORN FED LINE.

SOUTHERNS SOLD STEADY

Cows and Heifers Slow at Recent Declines - Bulls Steady - Calves - Dull - Stockers and Feeders Slow.

Cattle receipts were estimated at 800 head here today and 930 head came in, including 300 on the Texas side. The run embraced nothing in the steer line on the native side worthy of mention and the market was normally steady.

The general trend of the trade in beef steers during the week has been downward, liberal receipts in the face of restricted outlet to the east creating an unsatisfactory drag and lower market on the general run of steer stuff.

Outlet for dressed beef to the east has been narrower and with such unexpectedly heavy receipts of cattle at western points packers have been able to dominate the trade, forcing declines in practically all grades of beef steers.

Western steers from Kansas, Oklahoma and Colorado were freely marketed during the week, the feeling on these has been slow and weak and the market is closing up generally 25c lower than a week ago.

The following prices are quotable on the St. Joseph market today: Choice to prime steers, \$13.00 to \$13.75; good to choice, \$12.25 to \$12.75; fair to good steers, \$11.50 to \$12.00; medium to fair, \$10.75 to \$11.25; common to fair, \$10.00 to \$10.50; good to fancy yearlings, \$12.50 to \$13.00.

Not many cows and heifers were offered today and not many appeared to be wanted. Sellers forced a decent clearance of the small supply, however, at prices, as a rule, 25c to 50c as compared with the previous day.

Buyers did not expect cows and heifers in their campaign for lower prices this week and under fairly heavy receipts were able to cheapen cost materially, especially cost of medium and good material. Buyers stepped the good higher priced cows at every opportunity with the result that it was a particularly mean and unsatisfactory market for this class of stock.

Outlet for the good dressed beef cows had to be forced all week and at the close of the week they show full 25c to 50c decline as compared with the prices such cattle commanded on middle and closing days of last week.

Bulls and steers have not suffered materially during the week, a healthy country demand being a prop to this branch of the market. Best light veals are steady to 25c lower with the medium and common calves fully half a dollar lower than the final rounds last week, or \$1.00 to \$1.25 lower than the recent high spot in the early part of last week.

The following quotations are current on the local market: Choice to prime cows, \$5.50 to \$6.50; good to choice cows, \$5.25 to \$5.50; medium to fair cows, \$4.40 to \$5.10; canners and cutters, \$3.50 to \$4.25; choice to prime heifers, \$8.00 to \$9.50; good to choice heifers, \$6.50 to \$7.50; common to good heifers, \$5.25 to \$6.25; good to choice bulls, \$5.00 to \$5.50; fair to good bulls, \$4.50 to \$5.00; veal calves, \$3.50 to \$4.50; medium calves, \$2.00 to \$2.50; common and heavy calves, \$3.50 to \$5.00.

VEAL CALVES

Table with 4 columns: No., Ave. Price No., Ave. Price. Rows include 1, 2, 3, 4, 5, 6, 7, 8, 9, 10.

STOCKERS AND FEEDERS

No new phases of importance developed in today's trade in this department, a few scattered odds and ends of light and medium weight stockers selling without appreciable change in prices compared with yesterday.

Conditions governing trade in this division throughout the current week have been far from satisfactory from sellers' viewpoint, increased supplies of young cattle and limited country demand rendering trade sluggish and unevenly lower at all times.

Especially those from Kansas pastures, are 15c to 25c lower, with a few sales of lighter weight offerings showing a 25c to 35c break. Some of the better choice feeders are still enough for killers, have gone back to the country around \$7.00 to \$7.15, while a fair class of 900 to 1000-pound steers have sold at \$6.50 to \$6.75, with lighter grades at \$5.00 to \$5.25.

Stock cow and heifer values have held up remarkably well, the good heifers selling without appreciable change in prices throughout the week, although some of the plainer grades are closing weak to 15c lower.

Fleshy cows have been in good demand at all times and are around \$10.00 to \$11.00, with some of the thin, plainer grades off a little more.

Good to choice feeding steers are available at \$5.00 to \$5.25; fair to good feeding steers at \$4.50 to \$5.00; good to choice stock steers, \$3.50 to \$4.25; fair to good stock steers, \$3.00 to \$3.50; stock cows, \$4.00 to \$4.75; stock heifers, \$4.50 to \$5.15; stock calves, \$4.50 to \$5.00.

YEARLINGS AND CALVES. No. Ave. Price No. Ave. Price. Rows include 1, 2, 3, 4, 5, 6, 7, 8, 9, 10.

Feeding Cows and Stock Heifers. No. Ave. Price No. Ave. Price. Rows include 1, 2, 3, 4, 5, 6, 7, 8, 9, 10.

RANGERS-NATIVE DIVISION. Only a few loads of western cattle were yarded on the native side today. Such as did get in consisted largely of better stock and stockers and feeders.

Receipts of western range and pasture cattle this week were the heaviest of the year at these yards and there was a free movement to other points.

Western cows and heifers declined unreasonably during the week, the sympathy with the native classes. Medium to good cows are fully 25c lower, plain cows 15c to 25c and canners and feeders 10c to 15c lower.

HOGS MOVE UP AGAIN

LIGHT SUPPLY ABSORBED RAPIDLY AT PRICES FULLY A NICKEL HIGHER.

SPOTS SHOWED DIME GAIN

Top Within a Dime of \$9 Mark-Bulk of Sales Ranged From \$8.70 to \$8.85-Quality Good.

Scant receipts of hogs at all of the western centers today enabled sellers to force prices a little nearer the nine cent mark. Less than 25,000 hogs were in sight at the five western points and Chicago had half that number.

Receipts from Jan. 1 to Date. The following table shows the local receipts from January 1, 1912, and receipts for the corresponding time in 1911:

Table with 4 columns: 1912, 1911, Inc., Dec. Rows include Cattle, Hogs, Sheep.

Receipts by Cars. The following shows the number of cars of stock handled today by railroads centering at the local yards today:

LAMBS HOLD STEADY

LIBERAL WEEK-END SUPPLY FINDS OUTLET AT UNCHANGED PRICES.

MARKET CLOSING LOWER

Lambs Show 15c to 25c Decline—Sheep Off 15c to 25c—Best Lambs This Week Sold at \$6.90.

Week-end supply of sheep and lambs at this point were materially larger than was generally expected, receipts totaling around 4300. Demand was broad and prices fluctuated little from the selling basis of yesterday.

The following shows the number of cars of stock handled today by railroads centering at the local yards today:

Table with 4 columns: C, R. & Q., B. & O., C. R. I. P., Great Western, Missouri Pacific, Joseph & Grand Island, A. T. & S. F., Total.

GRAIN AND PROVISIONS. The following Chicago board of trade quotations are furnished by T. P. Gordon, 1005-1008 New Courthouse Building, St. Joseph, Mo.:

Table with 4 columns: WHEAT, CORN, OATS, RIBS. Rows include Dec, Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov.

FROST CHECKED PLAGUE. Dr. Murphy Back From Kansas and Colorado Talks of Disease.

This run of Western cattle will not continue at its present volume much longer, says Dr. W. B. Murphy, a prominent veterinarian at Ottawa, Kan., who was on the market with four cars of steers.

The federal experts contended all along that the disease was a form of fungus poisoning caused by mold on the grass and this diagnosis seems to have borne out as since the recent frosts there has been very few new cases developed.

Dr. Murphy estimates that not to exceed 12,000 or 13,000 horses were killed by the epidemic in Kansas, though recently published reports place the number of fatalities as high as 20,000 to 25,000.

A LOT OF SOFT CORN. Frost did Extensive Damage in Nebraska, Says Game County Man.

Frost and freezing temperature in the past ten days caused extensive damage in Nebraska, according to David Bryson, one of the leading farmers and feeders of Game county, who was here with two cars of cattle and two cars of hogs.

Another Game county feeder, L. D. Royster, was here with two loads of hogs that sold at highly satisfactory prices.

THEATRICAL AMUSEMENTS. At the Toodle—Until Thursday, matinee daily, "Tillie's Nightmare."

PARCELS POST PLANS

EXPECTED TO BE USED LARGELY IN THE BIG CITIES OF THE U. S.

SMALL BUNDLES GO CHEAPLY

Suit of Clothes Can Be Sent Seventy-Five Miles for Twelve Cents or Pair of Shoes for Six Cents.

Washington, D. C., Oct. 4.—"United States Parcel Delivery" doubts will become a familiar sign on wagons and motor cars in the larger cities after the inauguration of the parcel post, January 1, next.

John Lundeen, a successful farmer and live stock feeder of Nowaday county, Missouri, had a load of prime hogs on today's market.

Excelsio Cattle Fattener has proven a great success. The cheapest and best feed that can be fed with corn. Increases the gain, shortens time of feeding.

John Bath, Jr., a successful young farmer and feeder of Nemaha county, Nebraska, contributed a car of hogs to the local receipts today.

Try Hilgert's 25c merchants lunch and be convinced its the best in the city. 207 So. 6th St.—adv.

W. L. Bunse in Hospital as Result of Runaway Accident.

W. L. Bunse, a Cosby, Mo., farmer 60 years old, is at St. Joseph's hospital suffering from injuries received yesterday afternoon.

W. F. Davis to Sell His Famous Boars in St. Joseph on the 9th.

On Wednesday, October 9, W. F. Davis will sell at public auction at sale pavilion, here at the stock yards, 75 head of Hampshire boars.

NEBRASKA BEEVES AT \$9.65. James Holman, of Richardson county, Nebraska, topped Thursday Market.

ED. HESS BUYING HERE. Was First Buyer for Morris at Local Yards.

ED. HESS BUYING HERE. Ed. Hess, of the cattle buying force of Morris & Co., at Chicago, is here buying steers for the country.

ITEMS IN BRIEF.

G. T. Norfolk, a prominent farmer and feeder of Adair county, Missouri, came in today with a shipment of cattle.

Cook & Sons, extensive live stock operators of Clinton county, Missouri, were represented on today's market with a shipment of hogs.

Advertising Rates Furnished on Application.

Deal 20 per cent commission allowed postmasters, who are authorized to take subscriptions.

CANADA IS ALSO OUT.

Not only has the United States ceased furnishing the British market with beef, but Canada is also out of that trade. A London dispatch says no Canadian cattle have been received at Liverpool for weeks, while Birkenhead has been getting a mere handful and there is "nothing doing" at Glasgow.

OUTLOOK FOR FAT STEERS.

Farmer and Stockman: Whether or not the cattle now going on feed make money will depend on how good they are made. Middle class steers will not escape the competition of good grass cattle at any time this fall, but prime steers will bring a big premium as long as there are not too many offered on the markets, which is not probable before the heavy crop from the new corn begins to move.

Daddy's Bedtime Story

The Big Monkey's Jolly Dinner Party

The Monkeys Drink Milk Out of Cups.

DADDY had been away from home over Sunday, and Jack and Evelyn were anxious to hear what he had seen. "Well," he began, "on Saturday I went to the park to visit the animals. I was quite sure you would want to hear about them."

ers, that the fall movement of hogs will be not heavy, but of rather good weights and in this way prices will be fairly well maintained. As the hogs which will make the product for January delivery are still to be marketed, it is very largely a question of guesswork, not only as to the number of hogs, but also the rapidity with which they will be moved and what price for the live hogs will prove effective in bringing them to market.

TO BE HUNTERS' PARADISE

Prof. L. L. Dyer Plans to Establish Numerous Hunting Grounds in Kansas

Topeka, Kan., Oct. 3.—Prof. L. L. Dyer, who has stocked thousands of ponds in Kansas with millions of fish now proposes to make this state a hunters' paradise. His idea is for the Legislature to set apart two townships in each county where hunting will be absolutely prohibited.

These figures are jokes. Live Stock World: Washington statisticians are still trying to justify keeping their frames on the pay roll.

And talking of average prices, there are none. There may be guesses, or approximations, to put it in less offensive language to those indulging in that kind of speculation.

But, after all, the statisticians are not useless as surface indications indicate. Don't they keep their names on the pay roll, and isn't that a performance to which they can point with some degree of pride?

BUMPER POTATO CROP.

Four Bushels Grown for Each Person, Says Eugene Grubb, Expert.

New York, Oct. 3.—Eugene Grubb, author of "The Potato," who eats, sleeps, lives and grows potatoes on a 100-acre potato patch at Carbondale, Colo., when he is not studying the potato problem abroad, talked potatoes for two hours at the Waldorf-Astoria yesterday.

RECREATION FOR PRISONERS

Warden Coddling of Kansas Penitentiary Trying Out New Plan.

Leavenworth, Kan., Oct. 4.—Believing that a little liberty now and then helps in the enforcing of discipline, Warden J. K. Coddling of the state penitentiary has arranged to give the inmates of the institution a little recreation each Sunday afternoon by allowing them to be out in the open for two hours. He has been trying

this plan out for some time and it has been found that the little liberty does much toward lightening the task of the prison officials in managing the prisoners. "We give them two hours every Sunday afternoon," said Warden Coddling. "That tends to break the monotony of seventeen straight hours in the cells. Under the old system Sunday was the hardest day of the week for the prisoners. Although they had no work to do on that day, they could rest, but that was all. On week days they have duties to perform and were moving about, giving them plenty of exercise and keeping their minds occupied."

The plan of granting the prisoners freedom outside of the prison building with a semblance of real liberty is strongly advocated by Warden Coddling. Under the present system, Warden Coddling says that the prisoners have learned to prize the few hours of liberty and maintain good behavior in order to get it. Before Warden Coddling took charge it was very seldom that the prisoners were let out of the building without armed guards. The present warden lets them mingle in the prison yard. Under his system the number of guards needed has been cut to the minimum. It now takes but half as many guards at meal time as were necessary before he took charge. The same number of guards are employed, but instead of working them twelve hours, they are now on duty but ten and a half hours.

BREEDING INDUSTRY HURT

City of Norwich, Eng., Exported Thousands of Canaries Each Year.

London, Oct. 3.—There is one result of the floods that recently came near drowning out the inhabitants of Norwich which does not seem to have been mentioned in any of the accounts of the city's plight sent to the United States, and that is the practical ruin, for the present, of the immense canary breeding industry, which for many years has flourished here.

STINGLESS BEE IS EVOLVED

Safe, Sane, but Tireless Insect an English Production.

Philadelphia, Oct. 3.—The stingless bee has arrived at last, having been produced by an English apiculturist. Burrows, after two years of experiment, a description of the new bee received here, says that it is a splendid worker and less liable to disease than the ordinary honey bee.

GREAT DAIRYING PLACE

SACRAMENTO VALLEY IN CALIFORNIA BEST PLACE IN WORLD SAYS EXPERT.

50,000 COWS THERE NOW

Demand for Product Growing. With Supply Not Equal to It—Valley Has Many Advantages.

Sacramento, Cal., Oct. 4.—The advantages and opportunities offered by the Sacramento valley for the dairying industry are so clearly and forcibly set forth by Judge Peter J. Shields of the Superior court of Sacramento county that the following extracts are taken from an article recently written by him for the Sacramento Valley Monthly, the official publication of the Sacramento Valley Development association.

"According to statistics, imperfectly collected, but little more than 50,000 cows are kept for dairy purposes in this vast valley of fertile land, which should be capable of easily supporting more than ten times as many."

"The cows kept are well up to the average standard of dairy cows in this country."

"The first importations here were largely shorthorns, which for years were the most generally used of the improved breeds. The next state favored was the Jersey, which were extensively brought here and are today probably as grades and pure breeds the most generally used of any of the distinct dairy breeds."

"Of later years the Holsteins have come to be extensively used and are now highly esteemed. Our rich, moist lands and even climate, with abundance of green forage approximates in character and improves in quality their European home. Little impression has been made upon our dairy stock by other of the improved dairy breeds."

"I think there is no place in this country as favorable today for the business of breeding pure and registered dairy animals. As one of the choicest dairy sections of the world, this valley will be largely devoted to the dairy industry and a great market can now be found here for richly bred and useful dairy sires for breeding up farm herds."

"The California cities that drew upon the Sacramento valley for their supplies also consume heavily of sweet cream for table use and for use in the manufacture of ice cream and similar food products. Very profitable markets can be thus developed, provided transportation facilities are convenient. But for all the butter now produced in the valley probably ever will be produced here hungry markets are at hand."

"California is close to many mining, lumbering, and non-dairy states and they are heavy and constant consumers of the dairy products. California commands a great part of the large Alaska trade—a trade which is constantly growing and which will grow to enormous proportions."

"The larger part of the Hawaiian trade is supplied by California, and a great territory in the British north-west, Washington, and Oregon, owing to their later springs, take a large quantity of the early spring butter of this state."

"Facilities for marketing dairy products are admirable. Many railroads now traverse the state, while electric roads are now being built and projected wherever need for them exists."

"A great development of electrical transportation can be depended upon in this valley, owing to the abundance of power in the mountains which encircle it. A great many creameries are located in the valley, and the demand for milk and cream is such that frequently wagons come to the farmer's door to receive his products."

"The prices of dairy products in the Sacramento valley are high. Considerable of the economical conditions under which they are produced, the prices are very high, leaving a wide margin of profit for the dairy farmer."

"During the year 1910 the average price for the whole period paid the farmer was 34 cents a pound for butter fat. The price paid by the consumer for the entire year was 29 cents a pound. The creamery business is well organized in the valley, and a great competition prevails among the creameries."

"This keen competition insures fair treatment and the highest market price. The marketing of cheese has not been so extensively engaged in as it should be. A tenacious exists here for such cheese as is made."

"The price here over a number of years has not fallen below 11 cents a pound, being generally much higher, and running frequently to 18 and 19 cents a pound. These prices can be depended upon, the market being safe and permanent."

"For the fancy and soft varieties of cheese there is a large and growing demand. Nearly all of the present supply in the state is imported, but they can be manufactured here in great perfection, and a very profitable field exists for their production."

"No country excels this as a place in which to raise dairy animals. Young things grow rapidly in this mild, even climate, with its abundance of food and open winter, and heifers mature and come into profit here earlier than in more severe climates. Cows likewise produce heavier and live to greater age and are of more prolonged usefulness than elsewhere. It is almost as good a place for cows to live as it is for men, and they prosper here proportionately."

HIGH PRICE FOR BUILDINGS

Kansas Pays \$180,000 for Chicago Real Estate.

Chicago, Oct. 3.—Sherman T. Cooper today sold to Edward H. Davis of Norwich, Kan., the twelve-apartment structure at 2512-18 East 2nd avenue for \$180,000, subject to an incumbrance of \$64,000. In part payment Mr. Cooper acquired the Ardmar ranch in Kingman county, Kan., containing 2,500 acres.

The twenty-four-flat building at the northwest corner of Monroe avenue and Sixth street has been purchased by A. M. Easthart of Kansas City for a nominal consideration, subject to an incumbrance of \$55,000.

There is good money to be made in raising frogs. One of the boys who is attending the Michigan State Agricultural College made \$300 out of it last year, and is paying his way through the institution from his frog farm. When he finishes school he expects to take it up as a steady business.

17-POUND CANTALOUPE. The agricultural stock of Oak Grove, Mo., has renowned the arrival of a seventeen-pound muskmelon, thirty-six inches in circumference.

Hampshire Boar Sale

75--HEAD OF REGISTERED BOARS--75

WHERE? SALE PAVILION, STOCK YARDS, SO. ST. JOSEPH, MO.

WHEN? Wednesday, Oct. 9, 1912

Sale starting at 1 o'clock p. m. sharp

I HAVE FOR PRIVATE SALE AT ALL TIMES BOARS AND BRED SOWS

I am offering in this sale the greatest lot of boars ever sold in a sale ring.

The Hampshire hog has proven to be far superior in every way over all other breeds of hogs; that it is in a class by itself is no question, and in this sale I am offering the best bred lot of Hampshire boars of this breed of hogs there is in existence, in other words, you will have a chance to buy a boar at this sale that is unequalled by any herd or brood.

I have been breeding the Hampshire hog the past 15 years, and in breeding these hogs have purchased only the best individuals money would buy and now is your opportunity to secure some of this select stock.

The Hampshire hog is the most healthy bred, they are as near cholera proof as a hog can be made, they are also the greatest rustlers, most easily raised, most prolific, stand up well on their feet, weigh the heaviest, produce the most perfect cuts of meat, an excellent bacon hog and most attractive, and the most sought after hog by the packers when placed on the market, they never fail to top the market, having sold as much as 50c per cwt. above the market.

DO NOT FAIL TO ATTEND THIS SALE, this is an opportunity for you to secure a boar that will improve your herd of hogs more than any breed of hogs you can buy. The best hog in the world is what you are looking for, at this sale you will find them. It costs no more to raise a good hog than it does a scrub. Don't think because you are raising hogs for slaughter only, that most any kind of a boar will do you, this is a mistake, the best is none too good. The Hampshire makes the best cross on any other breed of hogs, being very strong blooded, and this with their great rustling qualities gives them their great disease resisting qualities they are so well known to have.

If you cannot attend this sale send your bids to E. C. Stone, Secy., Hampshire Association, 703 E. Nebraska Ave., Peoria, Ill. Bids mailed after October 5th should be sent to Mr. Stone at Stock Yards, South St. Joseph, Mo., as he will be in charge of this sale, and any bids sent him will be carefully handled and treated confidentially.

All hogs will be crated and delivered F. O. B. cars, St. Joseph, Mo. Pedigree furnished with each hog. Write for catalogue.

THE REMARKABLE SUCCESS OF THE UNITED DOCTORS' SYSTEM IN CURING SOME CASES WHICH HAD GONE THE ROUNDS OF THE BETTER KNOWN PHYSICIANS AND SPECIALISTS, HAS PROVED CONSIDERABLE DISCUSSION AMONG MEMBERS OF THE MEDICAL FRATERNITY. Cases of galtonias which had even undergone a dangerous operation at the hands of good surgeons only to have the old trouble return again; cases of epilepsy, that terrible affliction which has heretofore been the despair of medical science; cases of long standing stomach trouble which had resisted diet, starvation and all the so-called cures in reach. People from all parts of the country, some journeying a thousand miles to reach these Doctors whose wonderful new system made the cures, these are the facts which are arousing the interest and curiosity of medical men.

J. S. Russell is a man who has suffered much and now that he has found relief from his pain and misery he writes the following letter in regard to his experience with the United Doctors. In the medical specialties who have their St. Joseph institute located on the second floor of 729 Felix street:

or to those who are suffering from that dreadful disease, rheumatism; I will say that I was suffering and had suffered for six months, with rheumatism all over me, had no rest or comfort day or night. I had not been able to raise either one of my hands to my head for ten years when I went to the United Doctors. I also tried but been able to put my two hands together without placing them between my knees.

"I began treatment with the United Doctors and after the second dose of medicine my lameness and stiffness was all gone. This may seem unreasonable, but it is the truth and can be substantiated at any time by my son, Frank A. Russell, and family, 413 E. Eleventh street, with whom I am stopping. I can now raise either hand to my head and can put my hands together without any effort. I would not take \$100 for what these doctors have already done for me. My home address is Fredericksburg, Iowa.

"Waterloo, Iowa." "J. S. RUSSELL" There are hundreds of other people who have had the same joyful experience. The wonderful new and more scientific treatment used by the United Doctors in curing of those who have been given up as hopeless cases by ordinary doctors, is why their institute on the second floor of 729 Felix street is always crowded with patients. People come hundreds of miles to be cured by these specialists.—adv.
