# Greece Appeals To U. S. For Help President Roosevelt Urges 'Just Peace' Before AFL Humble Charges Texas Oil Inequities

## Railroad Commission Retorts To Statements At Hearing Asking If Large Firm Would Wreck Industry

Commissioner Sadler Declares Declination To Consider 'Distinct Formula' For Output; Baker Produces Tables To Back Up Remarks

AUSTIN, Nov. 19 (AP).—Upon conclusion of a statewide oil proration hearing, Jerry Sadler, member of the Railroad Commission, declared today he would decline to consider any "distinct formula" in allocating permissible production.

The statement followed renewed assault by the Humble Company on oil proration policies of the commission, which regulates the industry in Texas. The company charged inequities existed as between oil fields.

Hines Baker of Houston, representing the company, advocated an allocation formula basing proration 50 per cent on acreage and 50 per cent on wells.

While Chairman Lon A. Smith and Commissioner Ernest O. Thompson did not comment, Sadler, making it clear he was speaking for himself, asserted:

"We are charged only with preventing waste. I'll have no part in subscribing to a formula. Texas has 52 per cent of the nation's reserves and is producing 36 per cent of the nation's supply of crude. I shall have no part in price-fixing."

The hearing was conducted by the commission as a preliminary to issuance of a new statewide proration order which will succeed one that expires November 30.

Sadler probes Baker.

At one point Commissioner Jerry Sadler asked Hines Baker of Houston, Humble attorney, if he was charging that personalities had been involved in the commission's orders.

Baker replied that personalities must be involved unless the commission "accepts a standard of equitable ratings," in which case he declared "competition will divide the markets."

Humble advocated proration according to a formula based 50 per cent on acreage and 50 per cent on the number of wells, Baker said.

Tables of statistics to show the daily allowances, the acreage and the estimated life of various fields and to support the claim of inequities were submitted to the commission.

Cites Oil Tables.

Baker asserted they disclosed that production from comparatively weak fields was greater than from some flush areas.

Ernest O. Thompson, commission member, interrupted with the statement that uninformed persons would consider the figures as a "horrible example of maladministration, but the fields obviously are not comparable."

Later Thompson asked Baker: "Do you mean that the Humble will wreck the industry with its gigantic power?"

"No," Baker replied. "You buy so much oil you can practically dictate the price," Thompson said.

Someone inquired if the Humble's policies were controlled by the Standard Oil Company of New Jersey.

Baker said the Humble sold the "parent company what they want to buy from us."

Bryant Disagrees With Basin Oil Commission

SAN ANGELO, Nov. 19 (Special).—M. D. Bryant, San Angelo oil operator and one of the original vice-presidents of the Permian Basin Association, wired Col. Ernest O. Thompson, member of the Railroad Commission of Texas, yesterday that he did not concur in the association's advocacy Saturday of a separate oil and gas commission in Texas. Several other San Angelos signed the telegram, which was as follows:

"Yesterday the newspapers carried a statement from the president of the Permian Basin Association at Midland of his adoption of a resolution favoring the appointment of a new oil and gas commission at this time. As an original vice-president in charge of the South District of the Permian Basin Association, I want the commission to know that I do not concur with the directors of the Permian Basin Association in passing this resolution, and it does not reflect the wishes of a single operator I have talked to today."

## Seven Programs Are Planned For Midland Schools

Midland public schools will observe Thanksgiving tomorrow as all units present programs.

Schools will be dismissed tomorrow afternoon for the holidays, Thursday and Friday, Supt. W. W. Lackey announced today.

The high school program will be held in assembly at 1:15 p.m.

The program: Band selections, "Dear Old Texas," "W. W. Lackey March," and "Doxology"; chorus, "The Star Spangled Banner"; pledge of allegiance to the flag, student body; chorus, "God Bless America"; student body; reading, "One Hundredth Psalm," student body; reading, "American Thanksgiving," by Janice Pope and play, "Anniversary," characters, Foster Hedrick, Jane Hill, Gene Hays, and Joe Barber.

Junior High Program.  
At junior high at 8:30 a.m. the following program will be presented: Song, "Thanksgiving Song," assembly; reading, "Psalm 100," assembly; song, "Father, We Thank Thee," assembly; "History of the Pilgrims," by Bobby Girdley; song, "Little Indians Looking On," twelve fifth grade boys; piano solo, "Yankee Doodle," by Mary Martha Sivals; gance, "Virginia Reel," by 12 sixth grade students; duet, "Billy Boy," by Lady Kidwell and Billy Wolfe; violin solo, "Mocking Bird," Edith Collins, accompanied by Betty Jo Joplin; roping exhibition, George Friday; and song, "America, the Beautiful," assembly.

Bobby Girdley is master of ceremonies at junior high.

At 1:45 p.m. another program at junior high by 7th and 8th graders lists, these numbers: Song, "Doxology," assembly; Thanksgiving Prayer by Rev. H. D. Bruce; reading "100th Psalm," assembly; piano solo, "Waltz in A Flat Major," Virginia Ann Runagan; reading, "A Brief History of Thanksgiving," Jerry Jordan; song, "I Am An American," by Quincy Belle Ryan and Leroy Hall; violin solo, "Schron Rosmarin," by Betty Jo Joplin; song and dance, by Patsy Lou Arrington; reading, "Thanksgiving," by Eileen Eiland; songs, "Indian Love Call," "Indian Dawn," Choral club; Indian Dance, by Marjorie Barron and son, "Dear Land of Home," assembly.

Master of ceremonies will be Garrett Sindorf.

Two North Programs.  
North elementary school will have two programs. First and second grade students present the first program.

Dies Sends Agents To Seize Documents

CHICAGO, Nov. 19 (AP).—Chairman Martin Dies announced today he was sending seven agents of his congressional committee on un-American activities to four cities "immediately" to seize records of what he described as German and Communist organizations.

He said the agents, half of his staff, were dispatched to Detroit, Mich., two cities in the East and one in the South. He declined to identify the three cities other than Detroit.

This activity followed raids yesterday, Dies said, in Chicago, New York and other cities on "German and Italian organizations."

Dies identified one of yesterday's mysterious witnesses as Heinrich Peter Fassbender, alias Harry Smith, an agent of the Gestapo.

## Advises Leaders Labor Will Find Way For Harmony

Murray Not Candidate To Take Lewis' Place, Tells CIO Convention

ATLANTIC CITY, N. J., Nov. 19 (AP).—Phillip Murray, Pittsburgh labor leader, told the Congress of Industrial Organizations' convention today that he was not a candidate to succeed John L. Lewis as CIO chief.

NEW ORLEANS, Nov. 19 (AP).—President Roosevelt in a message to the American Federation of Labor today urged a "just and honorable peace" with the now divided labor movement in the United States and suggested labor leaders can find a way toward that end.

"Peace will not be easy to achieve," the President said in a letter to AFL President William Green who had it read to the convention, "and the intricate problems involved may not be easy to solve."

"But when men of honor and good intention," the President said, "sit down together they can work out a solution which will restore the much needed harmony either by unity or by a sensible working arrangement."

Need For Unity.

In his message, the Chief Executive stressed the need for "a great and united democracy," in "any emergency which might be forced upon us."

Green, in an answering telegram, assured the President that the AFL executive council was in full agreement that unity or "a sensible working arrangement" can be worked out by men of "honor and good intentions."

Estimates Oil Demand At 3,500,000 Barrels

WASHINGTON, Nov. 19 (AP).—The Bureau of Mines today forecast the December market demand for domestic crude oil at 3,560,000 barrels daily or a total of 110,360,000 for the month.

This was 10,000 barrels a day higher than the November forecast and 10,000 more than the daily average demand last December.

Officials estimated crude oil exports at 3,900,000 barrels, the same as for November.

They said domestic demand for motor fuel likely would reach 46,400,000 barrels during December. This would be 6 per cent more than the total demand in December, 1939.

Exports will be about 1,800,000 barrels, they said, or 100,000 higher than the November estimate but 1,300,000 less than a year ago.

## Oil Men At Meeting Here Agree To Scrap Potential Factor In Setting Abell Field Allowables

Twenty-two operators and representatives of oil companies interested in the new Ordovician field northeast of Imperial in Northern Pecos County—which has tentatively been named the Abell pool—met this morning in the Crystal Ballroom of Hotel Scharbauer for a discussion of suggested proration rules and regulations.

Dan Williams of Dallas, petroleum engineer for Magnolia Petroleum Company, presided at the session.

Operators probably will recommend to the Railroad Commission their preference for a 40-acre proration unit in the pool, with 330-933 spacing of wells. A majority of those present were in favor of a two-thirds acreage and one-third "per-well" allowable factor.

To Disregard Potentials.

They were practically unanimous in agreeing to disregard the potential of wells as part of the allowable factor. However, operators will recommend a completion test for each well in order to establish its rating.

Engineers have suggested that wells be tested for six hours through one-half by six-inch positive choke and that the 24-hour rating be computed by multiplying by eight the production during the lesser of two three-hour periods.

The Abell pool recently was opened by Taubert, McKee & Siemoneit of Fort Worth No. 1 V. W. Crockett, in section 4 1/2 block 3, H.&T.C. survey. The well flowed 928.74 barrels of high-gravity oil in 11 hours and 23 minutes from Simpson sand of the Middle Ordovician series. It entered the Simpson formation at 4,755 feet and is bottomed at 5,357 feet.

Much drilling for the area is presaged by a number of lease expirations within the next year, with a resultant group of forced offsets.

Predicts 5 Millions Will Be Unemployed

NEW ORLEANS, Nov. 19 (AP).—Loss of jobs by perhaps 5,000,000 men, when this country returns to a peace economy was predicted today by Federal Housing Administrator Nathan Straus.

Plans to prevent such wholesale unemployment, Straus said in an address prepared for delivery at the American Federation of Labor convention, should include a public housing program of about 500,000 homes a year.

"I am not speaking of something theoretical or even problematical," said Straus in suggesting that in preparing against war this country should also prepare for peace. "I am speaking of an event which is as certain as death or taxes."

"The armament program will not in the long run solve the problem of technological unemployment," he added. "On the contrary, the defense program will, through sad necessity, in the long run aggravate and double the problem unless we can plan and act now."

## Press Minister Also Directs Plea To Great Britain As Developments Indicate Forging Of Strong Empire

Berlin Dispatches Herald Great Offensive As Hitler Concludes Conference With King Of Bulgaria And Hungary Appears On List

By The Associated Press.

Greece appealed for aid from the United States and other "free countries" in her struggle against Italy today as evidence mounted that the Rome-Berlin Axis might be planning a new explosion in southeast Europe.

The Greek press minister, Theo Nicoloudis, directed the appeal especially to the United States and Britain, declaring that his country was fighting a nation six times greater in war materials and that the world should not be misled by current Greek successes in the field.

Decorating Downtown For Christmas Begins

Stringing of gay Christmas lights, in progress today in downtown Midland, brought realization to old and young that Santa Claus soon will be here and that shopping days are ahead.

Streets around the courthouse square and the business blocks on Main Street will be decorated with colored lights strung in the traditional style, while a hint that "something different" might be featured in the display was given by H. N. Phillips, contractor in charge.

Lights will be turned on the night of Thursday, November 28.

Santa Here Nov. 29.

With Midland in its holiday garb, Santa Claus will come to town Friday, Nov. 29, for his annual visit. He will be greeted in royal style with a parade through the streets and will devote much of his brief visit to dispensing gifts of candy and fruits to the children.

The retail merchants committee of the chamber of commerce met this morning and its members initiated work of collecting funds to pay for Christmas lights and decorations.

The committee also started solicitation of business men to underwrite the 1941 Midland Rodeo on the plan used this year.

J. C. Smith presided at the meeting.

Bulgarian King Talks New Order

By The Associated Press.

SOFIA, Bulgaria, Nov. 19.—King Boris, back in his palace after a secret meeting with Adolf Hitler, conferred with his prime minister and foreign minister today, presumably over Bulgaria's role in the Rome-Berlin "new order" for Europe.

Resignation of the present government, headed by Prime Minister Bogdan Philoff, following new concessions to Germany, and a Nazi request for passage of German troops through Bulgaria to Greece were among the possibilities discussed in political circles as an aftermath of the king's visit to Germany Sunday.

Discussions in Sofia.

Political circles here shied away from the opinion widely expressed in other Balkan capitals that Bulgaria herself may be preparing demands on Greece for territory in Thrace.

Some observers said the public was so thoroughly opposed to war that an ultimatum to Greece might cause serious internal disorders.

The press has revived discussion of Bulgarian claims for an outlet to the Aegean Sea, apparently in expectation of the backing of "friends."

One-Fifth New England Draftees Turned Down

FORT DEVENS, Mass., Nov. 19 (AP).—Falling to meet the army's physical standards, close to 20 per cent of 253 New England men examined in the nation's first peacetime draft returned to their homes today while camp life began in earnest for the remainder.

The 47 rejected men had passed their draft board's physical examinations, but the army doctors said that tests conducted at the induction centers yesterday were of greater scope.

Poor teeth and heart ailments were among the chief causes for rejection as the first men were examined.

## Private Industry's Best Defense

In defending stoutly the American railroad system against possible government operation in defense or war, J. J. Pelley, president of the American Association of Railroads, has hit on the crucial point of the whole question of the relationship between private industry and defense. "The railroads are ready now to do whatever they may be called upon to do," Pelley told the association's annual meeting. "The railroads will keep themselves ready, ahead of any demand which may come."  
If that proves to be true, the railroads need not worry overmuch about government operation.

What the country wants in the present defense drive is service, and what it must have in event of war, is service. It must have what it wants when it wants it.

If private industry furnishes these things promptly, in a public-spirited manner, without excessive profit, there would seem no point in government operation of any industry. The American people are apparently still convinced that except in certain special or emergency conditions, they prefer their industries privately owned and managed. Only if and when they believe those industries are not producing the results socially desired do they turn to public ownership.

Pelley believes the railroads have learned from their experiences of 1917-1918. He believes they have set up regional boards and other means of co-ordinating their facilities such that the government will get what it needs from them, and get it promptly and without red tape.

Three recent tests show the preparedness of the railroads, according to Pelley. First, the peak freight movement of this year found a nice surplus of cars on hand. Second, during last summer's maneuvers, the railroads moved 40,000 men a day, and did it in better style than they moved an average of 20,000 a day in the peak month of July, 1918. Third, export freight at times this year at one port even exceeded the 1918 peak, and was handled so smoothly that no one noticed it at all.

These are good signs. If other industries can point to a similar ability, readiness and willingness to meet national demands, there will be less talk of nationalization. It is only when industries seem to hold back from the full effort that is being urged on everyone else that talk of nationalization arises.

No good coach takes a player out of the game if he is fighting hard and making good gains at every plunge. It is only the indifferent, sulky, or ineffective player who comes out of the game to make way for a substitute. The best way to keep from being drafted is to volunteer.

## Another Defense Dividend

One of the difficulties in the way of improving the public health is persuading people to have proper physical examinations. Only in that way are defects in health exactly revealed—the first step in getting them remedied.

Of the 16,000,000 men registered for the draft, some 6,000,000 will undergo physical examination, Dr. Paul A. Neal estimates.

If a plan is devised to remedy the physical defects of those who are rejected for selective service, a vast improvement can be made in the health of the manpower of the nation, Dr. Neal believes. That will increase the efficiency and productiveness of the industrial machine, which is now losing vast amounts of man-hours each year through sickness and injury.

Now that we have selective military service, we might as well squeeze out of it every ounce of benefit we can derive for the American people at large. If it can be made to contribute even to the health of those not chosen for service, so much the better.

## Another New High Reached

Recent weeks have been just a succession of new highs.

The census showed a new high in population. Electric power production reaches and passes new peaks every week or so. General industrial production is at a new high. Farm purchasing power is believed now above that of 1929. Steel production eclipses the palmy days of the boom. Lots of things are getting bigger and better than ever before.

Right along with all these is the government payroll. Latest report of the Civil Service Commission shows that government workers now number 1,058,596, with monthly salaries of \$160,000,000—more civil workers to run the regular government departments than were needed in World War days.

That gives a clew as to how really difficult it is going to be to slash ordinary government expenditures to make more room for the defense costs within the budget. Every one of those jobs is somebody's vested interest. That somebody thinks the government couldn't get along without him, and is willing to do battle to prove it.

## Out In the Cold

Left quite literally "out in the cold" by failure of Congress to back up their South Polar expedition, 59 men on the ice of Little America await transport back to the United States.

Congressional funds for continuing the Byrd expedition were refused during the current fiscal year on the ground that war conditions make the work inappropriate. When the Byrdmen finish the sledge and airplane trips of geographic and geologic exploration on which they are now engaged, they will return home.

When they do so, Congress ought to study most carefully the results of their exploration, and then quickly determine whether perhaps it is worth continuing. The richest country in the world, at peace, may abandon such work after deciding that it is not worth while, but not through sheer neglect.

The United States is the outstanding sulphur producer in the world, but we still think our children shouldn't play with matches.

## SERIAL STORY

# DUDE COLLEGE

BY OREN ARNOLD

COPYRIGHT, 1940, NEA SERVICE, INC.

**YESTERDAY:** Ronnie goes west, registers at Pueblo U. meets Dr. Woodrow Wesley York, professor of archaeology. He is young, rather handsome, and easily embarrassed. After her conference, Ronnie flies south, discovers a group of men walking. She swoops down on them, is greeted by a burst of gunfire.

### THE GIRL WITH A CRUTCH

The man across the table from Andre was scowling.  
"A fool you make of yourself," he was saying, "and unfortunate for you is the change in plan."  
"What do you mean?" Andre asked.

"I got your card. That much was all right, the information. But you would have been called here anyway. Ah—what is it you call yourself? Andre Girardeau, hah!"  
Andre's lips tightened. He hadn't come to Washington to be insulted, and yet he was helpless here.

"After all, Herr Girardeau, if you will, you are to do exactly as you are told. Must I explain what I mean? No. I speak not for myself, you know that. Now at home you were always a soft mark for the women, and here in America you make a name for yourself with the first pretty woman you contact. Do you fancy that is approved?"  
"Listen, I—"

"No. You listen. You. Now, you can never work high if you let your attraction for women rule you. Herr—uh—Girardeau, and the newspapers have been picturing you and writing about you and—"

Andre interrupted. "I was not making a fool of myself. I told you the way to get at the father was through the girl. It is he who owns the new bomb sight, remember."  
"Ah, the bomb sight!"

"Exactly! Already I have seen every inch of the big factory here, and soon I could be intimate with the man himself. Even if I married the girl, it would be good cover."  
"If you marry you will never live to be a good husband, for long—remember that! But enough; there is work ahead. You go at once to Pueblo, New Mexico."  
"But that's where the girl is!"  
Andre looked squarely at the other man, a squat, pompadoured one of middle age.

"Right. And the father. And the new bomb sight. What better region than a barren desert, to do bombing tests? Eh? We are not asleep, Herr Girardeau. You can go ahead and follow up your heart interest, impersonally. But not too far, mind you. If you are not shrewd—the man shrugged.  
"Do you need any money?"  
"I must live amid wealth."

"Right. Here is a wallet with \$20,000 in it. There is no lack of money if the goal is attained, just as there is no question—yet—of your loyalty, but—"

Andre nodded, frowning in impatience. He detested this man who was his superior here. "What am I to do now?"  
"Here is a map." They spread a picture of North America, and the short man began measuring with a pencil. "You can see that, by good fortune, Pueblo, New Mexico, is at a strategic advantage. The principal border towns such as Brownsville and El Paso, Texas, Nogales and Tia Juana, are in virtual barricade. But where the international line runs through the open desert land—there, this dot is Pueblo, and there is the university too, where the Bailey girl goes. There also do you go."

"All right."  
"See, it is just this far to Tampico, and here is Guaymas on the Mexican west coast, and Mazatlan."  
"I see."  
"That's all now. You go direct to Pueblo, contact our operative there and get further orders. Here is a ring set with a chrysocolla stone. Wear it for identification. And the other operative there will be feigning a sprained ankle and walking with one crutch."  
"A crutch," echoed Andre, nodding.

"Right. Your ingenuity will then arrange a meeting."  
Andre looked at the man across the table from him. He was young, rather handsome, and easily embarrassed. After her conference, Ronnie flies south, discovers a group of men walking. She swoops down on them, is greeted by a burst of gunfire.

When the conference was ended and Andre had attended to his banking errand, he reserved a place on the next air transport west. There was time before the take off to telephone New York and have his luggage forwarded.

The air trip was interesting until nightfall, and then because there was no stimulating passengers with whom he might converse, he retired early. Dawn found him in Hachita, New Mexico, waiting for the little side-trip train that would take him to the quiet village of Pueblo and its "Dude College." By 1 p. m. he was on the college campus itself.

From the moment he got to Pueblo he was alert for the man walking with a crutch. Of course, chance might dictate more than one man on a crutch, but the ring would pave the way toward identification. Andre knew. He was in no great hurry.

He even thought of hiring or purchasing a car to drive out to the—what had Ronnie said? Rocking R Ranch, and seeing Ronnie herself. But he had been reprimanded for putting personal tastes first; so better he form his business contact first. Ronnie probably would be on the campus anyway.

He liked the general looks of things. Pueblo University surprised him. It was a veritable oasis, as was the whole town. The clerk in the expensive if small hotel here informed him that the town and its cluster of ranches really depended on the one stream that watered this region year round. An eccentric but wealthy cattleman and his wife had endowed the university originally, and unexpected dude patronage had built it into a luxury school.

Andre liked the beautiful Spanish architecture of its five buildings. The landscaping was superlative too, and he walked down an avenue of trees toward the administration building.

He was admiring the nude statue of an Indian maiden in a fountain under the building's main arch, when a long whispering sedan drew up. At the same moment a bespectacled man stepped out of the building, carrying three books and a brief case, but Andre turned idly to look at the car.

"Mmmmmmm!" Andre murmured appreciatively, to himself.  
Through the sedan window he saw the face of a girl, Spanish or Mexican, of extraordinary coloring. He could see that she was small, and reasonably young, but so very sure of herself as to be a trifle haughty. He liked the way her straight hair swept low and backward to frame her face.

The bespectacled man had stepped toward her, and now he dropped his books. He was at her sedan door even before her chauffeur.  
"Hello, Dr. York," she greeted him, and her voice was almost lyric.  
"How are you, Senorita Montoya? May I help you into the building?"

She laughed gaily then and made a joke about her foot, but Andre's chin dropped. He barely regained his poise in time to keep from staring at her as she hobbled past him on one crutch.

## German Big Berthas Bark Across Channel

**By The Associated Press**  
LONDON, Nov. 19.—German "Big Berthas" tossed shells across the mist-shrouded Dover Strait today following a night of stormy weather which sharply curtailed the Nazi air siege of Britain.

For nearly an hour the German batteries shelled the English coast from the direction of Cap Gris Nez, which the British say is the site of eight of the 24 Nazi big gun emplacements strung out along the French coast from Calais to Boulogne.

In last night's curtailed activity a few German raiders stabbed through howling winds to attack Liverpool, one section of the midlands and the South coast. London had four night alarms, but for the first time in week not a single bomb was dropped on the capital.

Mrs. G. E. Hall Honors Husband With Surprise Birthday Dinner Monday; Yellow And Bronze Is Motif Featured

Entertaining at her home, 1810 W. College, Mrs. G. E. Hall honored her husband, better known as "Blondie" Hall, with an elaborately-appointed birthday dinner party, Monday evening at 8 o'clock. The affair was a surprise to Mr. Hall. A bronze and yellow color theme was featured in appointments.

The dinner was served in buffet style from a table spread with a hand-made Venetian lace cloth. Yellow candles and yellow daisies, and autumn leaves carried out the chosen colors on the table where a three-tiered birthday cake was the center of attraction. Turkey was the feature of the menu.

Guests were seated at quartet tables for the meal, in places decorated with huge chrysanthemums.

After dinner, the evening was devoted to dancing.

The guest list included, Meses, Gordon Bird, H. J. Kemler, R. W. Hamilton, John Ward, Hal C. Peck, Ross Williams, Walter F. Smith, Chappell Davis, J. D. Dilard, C. A. Jones, Dr. and Mrs. L. A. Absher, Mrs. H. J. Phillips, Mr. and Mrs. Bill Wellman of Odessa, Tom Gwatney of Fort Worth, F. Iverson of Fort Worth and Al Grobel of Big Spring.

Episcopalians Hear Lesson By Mrs. Milward Miller

Mrs. Milward Miller brought the lesson on "Religion in the Home," continuing a series of studies, at the meeting of the Episcopal Auxiliary at the home of Mrs. John Cornwall, 608 N. Marienfeld, Monday afternoon.

Mrs. Ford was appointed corresponding secretary to take the place of Mrs. Alice Moles who is leaving Midland.

The group discussed the cookbook which the auxiliary is planning and plans for the Sunday School for next year.

Announcement was made that a regional meeting of the auxiliary will be held at Lubbock next Monday.

In the social hour that followed the program, Mrs. I. E. Daniel presided at the refreshment table.

Present were: Meses. B. K. Bufington, J. P. Butler, Daniel, Ford, R. W. Hamilton, R. E. Kinsey, Geo. Kidd, Frank Lewis, J. Guy McMillan, S. M. Miles, McQuinn, of Corpus Christi, Milward Miller, Erle Payne, Peck, Sivalls, W. W. Studdert, W. A. Yeager, Sherrill White, and the hostess.

Next meeting of the auxiliary will be with Mrs. Geo. Kidd.

FEMININE FANCIES

By Kathleen Eiland

Fruit cakes are being featured in bakery displays these days—sure sign that Christmas is just around the corner. Just why fruit cake should mean Christmas rather than Valentine feasting, we don't know. But so it is.

There's something exciting about fruit cakes—their exotic spiciness, their dark, moist lusciousness, the mysterious humps and bumps on their surface, pointing to positive chunks of deliciousness within. Yes, fruit cake is something rather special.

Sure sign of the trend of the times—small girls now practice with home-made baton, striving to perfect the drum majorette's art. America will have a bumper crop of drum majorettes in about three more years, we predict.

Feminine figures and heads have long since become common-places in store window displays. But to us in smaller towns, men's mannequin heads are a novelty. We can't keep from marveling at the wonderful suntan shown by the sophisticated gentlemen who display the latest in men's wear in a downtown store—first of their tribe to reach our town.

And again—our applause goes to a white evening gown. One with twisted, gathered bodice, deeply décolleté. The only note of contrast is found in triangular, outstanding pockets on the skirt, these being crusted with gold and blue embroidery.

The newest thing in those little combing caps to keep powder and wisps of curls from muddying the gown as she completes her toilette is one made of plexy which boasts a convenient little pouch pocket attached in which to stow the powder puff.

Christian Women Meet For Luncheon; Hear Book Review

The Women's Council of the First Christian Church met at the church Monday at one o'clock for a church dinner, with a book review as the feature of the program following.

Mrs. Curtis Gilmore presented the review on Nina Fedorova's "The Family." The scene of this fiction story is laid in China during the Japanese invasion and its characters are refugees from Russia.

Mrs. Geo. Ratliff presented the devotional for the day on "This Man Shall Be Our Peace." She also offered the opening prayer following singing by the group.

Mrs. Joe Norman presided at a short business meeting.

Present were: The Rev. and Mrs. John E. Pickering, Meses. S. P. Hall, Paul Martin, Joe Norman, G. H. Butler, Ella Ragsdale, Mintie Estes, J. H. Elder, Chas. Klapproth, Curtis Gilmore, D. B. Snider, S. E. Mickey, Jessie Downing, Delbert Downing, B. W. Stevens, Glenn S. Brunson, W. E. Shipp, Al Boring, John Casseleman, B. W. Reecer, Geo. Ratliff, A. B. Johnson, Frank Elkin, R. E. Second Play In Children's Theatre Series On Dec. 2

Sponsored by the North Ward P.T.A., the second of a series of four Clare Tree Major Children's Theatre plays will be presented here on Monday, December 2. The play will be "Alice in Wonderland."

The poster contest which precedes presentation of each play is now under way in ward schools of the city and in Junior High School.

The North Ward P.T.A., in bringing the Clare Tree Major Children's Theatre to Midland in its gay and imaginative production of that classic favorite of childhood, "Alice in Wonderland" does so in the knowledge that this type of entertainment creates a wholesome, inspiring influence upon youthful minds now too much impressed by stark reality.

"At a time when the world is so filled with fears and hatreds," said Mrs. J. J. Black, chairman, "the children's stories dramatized and presented by Clare Tree Major and her Children's Theatre do more than entertain—they bring to boys and girls a happy release, an escape from a world gone mad."

"Mrs. Major has seen to it," she continued, "that each play has plenty of humor, of light and gay scenes which entrance the child. A skillful blending of fancy and reality is accomplished, with the adult professional cast giving a sincere portrayal of character children love and who appear very real to them on the stage."

The first play in this year's series was Maeterlinck's "Seven Wishes."

# Pearl Harbor And Canal Zone Only Adequate Bases

(Editor's Note: The first duty of the navy is to see that no enemy gets close enough to menace the United States, and of great importance in this respect are the outlying bases. These are the eyes of the fleet, the supply and repair points. They are the subject of the following article, the second in a series of six on the new navy we are building.)

By W. B. Ragsdale

WASHINGTON, Nov. 19 (AP)—Outside of its navy yards on the Pacific and Atlantic coasts, the United States has just two bases well enough equipped to do all a base is supposed to be able to do to every kind of a ship from row-boat to oversized battleship.

These are at the Canal Zone and at Pearl Harbor, Hawaii. Next to them rank the base at San Juan, Puerto Rico, which will handle limited numbers of all kinds of craft except battleships, and that at Guantanamo Bay, Cuba, which provides a deep anchorage and splendid operating facilities. It is a little short of facilities for repairs.

The defense drive and the fleet expansion program has sent a throb of activity pulsing far out into the Pacific islands and down into the Caribbean.

### Facilities Inadequate

But even that will not be enough if the United States is to aim for defense of the Western Hemisphere.

If the United States fleet is to operate effectively far down toward the pear shaped tip of South America, it must have facilities there, or the use of facilities borrowed or leased from South American neighbors.

A naval base capable of supply and replenishing the stored up energy required for naval operations must be a large establishment.

Position, resources and strength are the three key demands that naval experts impose on naval bases.

In the new defense drive, however, the navy is developing and expanding a network of naval stations through the Islands of the Pacific, along the trade routes of the Orient and moving with all speed with plans to use the new sites acquired in the Caribbean from Great Britain.

### Stations Distributed

These are sprinkled through the Pacific and Alaska far out to the Philippines and southward.

They are rising at Kodiak and Sitka, Alaska, at Dutch Harbor, with further developments at Olancho and Cavite in the Philippines, and on the islands of Midway, Wake, Johnston, Palmyra, Tutuila, Samoa, and at Guam, the latter an outpost of tremendous strategic importance which the navy has been trying to do something about for 40 years. But Congress has been hard to sell.

One English authority says that the United States has less than the price of two battleships could throw such a chain of naval bases across the Pacific as to give its fleet entire command of the situation. Guam would be an integral part of such a system, he said.

Most of the other spots in the Pacific are air bases. None of them reaches anything like the proportions of Pearl Harbor. Some of them have ammunition depots. Some have air and submarine facilities.

Pearl Harbor is the most important overseas base of the navy. The yard is on the south shore of the Island of Oahu, 5 miles from the sea and 11 miles from Honolulu.

# Getting In Some Fast Flying

## Army And Navy Prepare For Big Turkey Dinners

WASHINGTON, Nov. 19 (AP)—The army and navy are cooking up the biggest Thanksgiving dinner since the mammoth meals they served in the years just after the World War.

Something like 64,500 turkeys (of 15 pounds each), 111 tons of cranberry sauce and 73 tons of dressing will go into Thursday's feast.

By Thanksgiving, the number of men in the armed services will total 675,000—500,000 in the army and 175,000 in the navy.

The vanguard of selective service trainees will eat the holiday meals at army reception centers, getting the same fare as the regulars.

Its approaches are more heavily fortified than those of any other naval shore establishment except at the Panama Canal. It contains repair facilities, a large dry dock, an ammunition dump, oil storage to last the fleet three months and is an air and submarine base as well.

## FOG WIPES OUT BLACKOUT

BREMERTON, Wash., Nov. 19 (AP)—A total blackout of this U. S. navy yard city was postponed because of the fog.

Authorities wanted to determine how completely the city could be smothered from the view of aerial observers. But the fog was so thick an observer would have been doing well to see the city with the lights on.

They'll try again—weather permitting.

## NIGHT RAID PROBLEM FAR FROM SOLVED

LONDON, Nov. 19 (AP)—Air Marshal Sir Philip Joubert declared today the problem of night air raids on London was "very far from being solved," although the government is "doing its damndest to find an answer."

## WORKERS STRIKE AT EAST STEEL PLANT

SYRACUSE, N. Y., Nov. 19 (AP)—A strike of workers in the Halcomb plant of the Crucible Steel Company which an official said was working on "some" defense orders developed today as several hundred men of the day shift declined to enter the shops because of a wage dispute.

A company spokesman admitted only 250 of the normal day complement of 1,100 men were on their jobs this morning.

## LEOPOLD-HITLER VISIT

# Premier Must Remedy Miscues He Foretold

Churchill . . . as he looked just before the World War . . . and as he looks today.

By Milton Bronner  
NEA Service Staff Correspondent

Prophet without honor in his own country in the very recent past, Winston Churchill today has the grim and heart-breaking realization that Great Britain's plight is due to the fact that what he foretold has come to pass.

The sins of omission and commission were not his. But now he has to fight against results of those sins. Churchill, acting as a lone wolf in the Tory party, day after day not so many years ago weightily warned Britain about the coming air menace from Nazi Germany.

A former British government, when the Kaiser lusted for war and its prizes, built warships for warship with Germany, so Churchill begged the government of the day to build airplane for airplane with Germany. He asserted hostile airplanes were a greater menace to Britain than hostile ships. His warnings went unheeded.

Warned British  
In 1938 Britain, having ended her long bitter differences with southern Ireland, agreed to give back to Eire full control of the naval bases at Queenstown, Berehaven and Loughswilly.

Once more Churchill rose to the attack. He reminded Chamberlain that, at the end of the last war, the admiralty said that in the event of another big war it would be difficult, if not impossible, to keep Britain fed unless the British navy and air force could make use of those very Irish ports. Again he went unheeded.

Today Eire has proclaimed neutrality and the further fact that British warships and airplanes cannot make use of those Irish ports.

In a recent speech Churchill spoke of the grievous and heavy burden placed upon Britain. Speaking to the Dail, Premier de Valera disposed of Churchill's hint in one brief sentence:

"We have our ports and we do not intend to give them back."

The Irish Today—  
The people of Eire are not blind to what is going on in the world. They have seen the fate the Nazis deal out to little nations. Nevertheless, they hope that if they remain strictly neutral they may preserve their land.

As haters of Nazi tyranny, the Irish may pray for Hitler's defeat, but their reason deems it fatal to range themselves in the fight as long as they are not attacked.

But some even in Eire ask: "If Britain succumbs to the Nazis, would Hitler spare Ireland?"  
The answer is always: "There is a better chance that he would, if we keep out, than if we hop in."

## Crude Oil Production Down 25,000 Barrels

TULSA, Okla., Nov. 19 (AP)—Daily crude oil production in the United States declined 25,555 barrels to 3,571,865 for the week ended Nov. 16, the Oil and Gas Journal said today.

Texas production was off 52,260 to 1,298,140; East Texas, 100 to 374,750; the Rocky Mountain area, 3,930 to 95,130; Eastern field, 100 to 105,100; Illinois, 3,590 to 340,840; and Michigan 140 to 47,860.

California production increased 6,300 to 622,550; Kansas 23,250 to 192,200; Louisiana 3,425 to 282,415 and Oklahoma 3,650 to 396,475.

## Local Topics

Mrs. E. F. King of Port Arthur is the guest of Mr. and Mrs. J. P. H. McMullan.

E. P. Whitson and Dick Whitson are on a deer hunt in Mason County. They are expected to return today or tomorrow.

Mr. and Mrs. J. C. Smith, Miss Iva Butler and Miss Gladys Pinson made a trip to Kermit Sunday.

Miss Merle Smith visited her sister at O'Donnell during the weekend.

The Rev. and Mrs. B. A. Rogers and children of Odessa visited her parents, Mr. and Mrs. John King, on their ranch east of town Sunday.

R. C. LaVelle of Amarillo has come to Midland to take charge of the shoe department at the Popular Store.

Friends here will be interested in learning of the birth of a baby daughter to Mr. and Mrs. Bill Landreth of Fort Worth. The Landreths formerly lived in Odessa and have visited frequently in Midland.

The Women  
From "The Women"

Let Us Present—  
Alva (Mrs. John) Butler as Jane, the romantic-minded maid of Mrs. Stephen Haines, who waxes dramatic in the re-enacting of her employers' marital disputes.

With a definite flair for character-acting, Mrs. Butler should make much of this rich little part. Her excellent work as the maid in "The Night of January 16th" will be recalled by playgoers of last season.

Also a part of Mrs. Haines' servant problem is Eleanor (Mrs. J. J.) Black, as Ingrid, the cook, this role being necessarily brief, as she "gives notice" early in the play.

Cast as the governess of the Haines offspring is Miss Dolly Jorgensen, a newcomer to Midland, who will also be seen as Helene, a French maid. In addition, Miss Jorgensen is understudying the role of Peggy.

Tomorrow: Let Us Present—June King as Maggie—(also as assistant to the director of the Civic Theatre).

## Russia Claims World's Best Submarine Fleet

MOSCOW, Nov. 19 (AP)—Soviet Russia claimed today to have the largest submarine fleet in the world. The assertion was made in the government newspaper Izvestia but comparative figures were withheld. "Our submarines are not inferior to the world's best models," Izvestia said. "No doubt our submarines will be able to deal with any enemy who dares attack our Socialist Fatherland."

### Midland Hunting Parties Take Out For Big Bend And Mason County; Moxey Kills 10-Point Black Tail

Midland hunters report a record number of deer hunting parties either in the field or planning to go, with the Big Bend country a chosen spot, and the Mason hill country ranking second.

Ish McKnight returned from the Big Bend with a 4-point-er, shot the first day out. Allen Hargrave was in the party.

W. A. Sherrod, Johnny Sherrod, and M. D. Cox left Friday for Van Horn and the Big Bend. B. T. Graham is a third party.

Wade Attaway and party are in the Big Bend sector. Fred Turner and party also are there.

Tom Hurley left yesterday for the Big Bend.

**Bags 10-Pointer**

Near Fort Stockton, Walt Moxey killed a 10-point mule black-tail deer, weighing 175 pounds.

W. E. Nance, Terry Tidwell, Wesley Williams, Luther Meeks, and Lawrence Beauchamp, will go to Mason Saturday.

Charles Holt and John Phillips and others returned from New Mexico, where Holt bagged a deer the first day.

Hugh Corrigan also killed a deer in New Mexico.

Fred Girdley, Cecil King, and John Pliska reportedly formed a party.

Blondy Hall, hunting in New Mexico, killed an elk. His party, of which Tom Grommer was a member, returned last week. They hunted near Silver City.

**Nine Carcasses Stored**

Deer hunters are plentiful.

Jack Brown hunted over the week end.

Paul Brown, of Austin, and Charles Brown of Midland, returned from hunting because of illness of a hunter in the party.

Nine carcasses are on store at the Southern Ice Co., including Hall's elk. The stored deer belong to Charlie Houpt, W. M. Bivens, R. B. Cowden, Hugh Corrigan, Rae Sindorf, R. J. Kelly, W. M. Irwin, Walt Moxey, and E. A. Culbertson.

The Midland Hardware Company reports a record sale of deer hunting licenses this year.

More Midland hunters are reported in the field than ever before.

### Leading Scorer

Going into his team's ninth game of the season with Xavier in Cincinnati, Jackie Hunt, 195-pound fullback of Marshall College of Huntington, W. Va., was the nation's leading scorer with 114 points.

**Wilson Takes Control Of Questionable Cubs, Says He's No Popoff**

CHICAGO, Nov. 19 (AP)—Jimmy Wilson hadn't been manager of the Chicago Cubs more than 15 minutes before he let it be known that he is no popoff.

"Why should I start talking right about what I am going to do?" he asked. "I'm no popoff. I want to look the situation over before making any recommendations."

Wilson agreed to 16 terms in a conference yesterday with James Gallagher, general manager, and Chas. (Boots) Weber, vice president, and signed a two-year contract last night. He affixed his signature to the paper as soon as Warren Giles, general manager of the Cincinnati club to which he belonged, arrived and personally handed him his unconditional release. The salary figure was thought to be about \$20,000.

He is the fourth Cub manager in the past decade, following in the footsteps of Rogers Hornsby, Chas. Grimm and Gabby Hartnett, who was fired last Wednesday.

**JAP SHIPS NEAR SAIGON**

HONGKONG, Nov. 19 (AP)—A dispatch from French Indo-China today reported that Japanese warships and transports had appeared off the Saigon River, the approach to Saigon, Indo-China's chief port. This was said to coincide with renewed Japanese pressure for permission to land troops at Saigon.

**Three Turkeys Killed In Thanksgiving Shoot**

An annual pre-Thanksgiving turkey shoot, sponsored by the American Legion, got underway yesterday with three birds killed, H. S. Glenn, director, said today.

Midland citizens annually participate in the shoot, being held west of town near the old lake. Pistol and rifle shooting is offered.

Wind yesterday hampered shooters, Glenn said.

The shoot will last through Thanksgiving eve.

**REQUESTS HUNTERS TO SHOUT SIMON LEGREE**

PITTSBURGH, N. H., Nov. 19 (AP)—Hunters hereabouts are requested to shout before they shoot—so that if they come across an escaped tame deer named Simon LeGree it will have a chance to walk up and "shake hands."

Frank Baldwin, Simon's owner, made the request. He said the deer had been trained so that, upon hearing its name shouted, it would advance and extend its right fore-foot in friendly greeting.

### Wilson Signs To Manage Cubs

Jimmy Wilson, left, 40-year-old coach and catcher of the Cincinnati Reds, signed a one-year contract to manage the Chicago Cubs. He succeeded Gabby Hartnett, whose dismissal was announced last week. At right is Jimmy Gallagher, newly-appointed general manager of the Cubs.

### Tickets Go Fast As Bulldog Club Snaps In Drills

While Midland fans beat a hot path to get tickets for the game, the Bulldogs snapped through a spirited drill yesterday and Coach Bud Taylor still frowned when asked about his team's chances with Odessa in Thursday's Thanksgiving game here.

The contest will be played on Lackey Field, starting at 2:30 p. m. Railbirds detected an encouraging hustle among the Bulldogs yesterday as they toiled in a dummy scrimmage, mainly on the offense.

White and I. Hall alternated at wingback. Bigham, Williams and Kelly rounded out the secondary. Charging in the line were Reinders, Soke, Britain, Edson, Hall, Buffington, and Lester. Corbett got in at center at times, subbing for Reinders.

**Good Odessa Sale**

Over at Odessa where tickets are going fast, the Broncs are also hard at work.

Emphasized in the privacy of the Bulldogs' kennel is the fact that Billy Hogan can pass, Christian can run, and Cowser and the others can block and tackle.

Taylor yesterday held out football duets to the SMU-TCU game and barked: "I've got some tickets here and a letter for you fellows that can show me you want them."

Thereupon drill picked up. The coach plans to take a group of players to the down-state game Nov. 28.

Dummy scrimmage was planned today with tomorrow's expected to be light.

### Strange Game Shows Organizational Need

NEW YORK, Nov. 19 (AP)—Although Cornell and Dartmouth, with the co-operation of Referee Red Friesell, seem to have worked out a satisfactory solution to their "fifth down" mixup, the whole affair seems to offer a good argument of making the "Ivy League" an official organization.

When pictures of the disputed play on which Cornell secured its touchdown last Saturday finally were developed, it revealed Cornell had been given five downs in the series. Officials' reports provided there had been no double offense called, and Friesell promptly admitted he had been in error and telegraphed his apologies to all concerned.

**Agree On 3-0**

Both sides will regard it hereafter as a 3-0 triumph for the under-dog Dartmouth team and the end of Cornell's string of 18 games without a defeat.

The confusion surrounding the game, however, indicated the need of some sort of organization which would have jurisdiction over such cases. Where organized conferences exist, such an affair would be referred to conference authorities for decision. There's no major conference in the East, however, and if Cornell had been disposed to argue about the play, the doubt might have lasted indefinitely.

### Bullpups Will Close Season Tomorrow In Battle With Steers

Midland junior high Bullpups will ring down the curtain on their 1940 season here at 3 p. m. tomorrow when they face Big Spring's little Steers.

Yesterday Coaches Freels and Hargrave sent the Pupettes through the final hard drill. A touch-tag game followed dummy scrimmage. Freels and Hargrave divided the squad and played with it.

The Pups hold an earlier season 7-6 decision over Big Spring, but Coach Coleman's lads last week defeated a strong Lubbock junior high aggregation.

**In Good Condition**

After the last two-hour scrimmage, Freels pronounced his eleven in top shape.

He said his starting lineup probably would be: Estes and Kelly, ends; Bird and Lee, tackles; Stevens and Cowden, guards; Watson, center; Noyes, quarter; Stickney and Whitmire, halfbacks; and Bill Richards, fullback.

Ready to play are: Wheeler, Turbow, Scharbauer, Cooke, McMillan, Tisdale, Harris, Larsh, Hudson and Kidwell.

Last week the Pups found a new offensive to smash Odessa's Colts, 19-6.

There will be a small admission charge for tomorrow's game, Freels said.

### DESTROYERS CONNECTED WITH TAMPIO EPISODE

MEXICO CITY, Nov. 19 (AP)—Crews of the Mexican tanker Cerro Azul and the Honduran freighter Ceibra said today upon arrival in Tampico from New Orleans that United States destroyers eight miles off Tampico had ordered them to stand by for inspection of the ship's papers.

Official Mexican reports said the presence of the destroyers last Saturday caused one German merchant ship master to scuttle his vessel and three others to hurry back to Tampico for refuge, believing the warships were British.

LONDON, Nov. 19 (AP)—Sir Edward Grigg, war office undersecretary, warned the House of Commons today the Germans might attempt to invade Britain "at any time, particularly since their triumphs are beginning to look a little tarnished."

### France Heralds Nazi Prisoner Concessions

VICHY, France, Nov. 19 (AP)—German concessions which would restore to France some of the prisoners and internees she lost in capitulation to the Axis were heralded today by a government spokesman as the first tangible results of French-German collaboration.

Georges Capini, a blind deputy with ambassadorial rank who now is in Berlin, notified his government yesterday that Adolf Hitler had agreed to grant "leave from captivity" to French prisoners who are fathers of four or more children, or who are elder brothers in families in which the father is unable to work.

In addition, Scapini said Germany consented to release of 30,000 French prisoners interned in Switzerland.

Today organized bridge is not merely a pastime. Thousands of dollars are raised annually for charity and some really fine work is done by bridge organizations.

For instance, consider the activity of Mrs. Elizabeth Banfield of New York. Three years ago I undertook to start an activity in different cities to teach the blind the game of bridge, and Mrs. Banfield took charge of the teaching in New York. She opened her season his year with eight tables of blind players.

One member of her class is deaf, dumb and blind, and with the aid of someone who understands the deaf and dumb language by hand pressure, she is going to teach that young man how to play bridge! Mrs. Banfield does this work without one cent of remuneration, and I am happy to say that this activity is going on in several other cities now.

Mrs. Banfield, who is a fine player as well as a very capable teacher, is one of the few women whose name is engraved on the national contract team-of-four trophy. Today's hand is one that I well remember her playing in one of the national tournaments.

Mrs. Banfield (South) won the opening hand with dummy's ace of hearts, cashed the ace of clubs and ace of spades, then led the ten of clubs and overtook in dummy with the king. She ruffed the small spade, played a small diamond to dummy's ace, ruffed the queen of spades, then cashed the king and queen of diamonds.

When West showed out, she knew that her only chance was to find that East had held only one heart. She led the fourth diamond, discarding a heart from dummy. East had to return either a diamond or a spade, allowing Mrs. Banfield to ruff in one hand and discard from the other.

### MEXICAN MILITARY LAW SUBMITTED TO CARDENAS

MEXICO CITY, Nov. 19 (AP)—Plans for administration of Mexico's compulsory military service law, which becomes effective Jan. 1, have been submitted to President Cardenas by the Ministry of National Defense.

The preamble of the regulations sets forth that "completion of military service constitutes a badge of honor for all Mexicans subject to the law which will safeguard our national sovereignty, our institutions, our country and its interests."

WISH ME LUCK, SALLY! MOTHER'S INVITED HIM FOR DINNER TOMORROW NIGHT.

I'M GLAD YOU LIKE THE COFFEE, MR. AMES, THAT'S JANET'S SPECIALTY IN OUR HOUSE.

NONSENSE, MOTHER, ANYONE CAN MAKE GOOD COFFEE IF THEY STICK TO MOUNTAIN GROWN FOLGERS.

JANET, WEREN'T YOU BEING MODEST IN GIVING ALL THAT CREDIT TO FOLGERS? AREN'T COFFEE BRANDS REALLY ALL THE SAME?

MOST COFFEES ARE THE SAME. THAT IS, THEY COME FROM THE LOWLANDS. BUT FOLGERS IS TRULY DIFFERENT.

Folger's has a distinct flavor advantage because it is imported from the tropical Central American mountains where volcanic soil produces a miracle in flavor. Yet Folger's luxury need not cost you one cent extra. Thousands of women say they can use one-fourth less Folger's and still enjoy the best flavor. Make tomorrow morning an especially good morning by serving Folger's!

### Navy Will Rush Plans On Bases

WASHINGTON, Nov. 19 (AP).—The navy plans to rush construction, informed persons said today, on a \$60,000,000 chain of bases for the sites acquired from Britain in the Western Hemisphere.

There also were indications that United States naval tenders might move into some of the newly-acquired anchorages immediately and provide temporary base facilities for American submarines and seaplanes guarding the Atlantic and Caribbean approaches to the vital Panama Canal area.

Agree Upon Sites.

The way to a general start of construction and partial occupancy of some bases appeared cleared by the navy's formal announcement last night that "all the British authorities concerned" had agreed upon sites to be leased by this government in Bermuda, the Bahamas, Jamaica, Antigua, St. Lucia, British Guiana and Newfoundland.

Only at Trinidad, the southern "anchor" of the chain, were arrangements still incomplete.

American surveying parties already are at work in Newfoundland, northern "anchor" of the new chain, where a major defense post is planned.

### Legion Honors Four Volunteers At 5 p. m.

The American Legion at 5 p. m. today in the district court room will honor four volunteers who at 10:15 p. m. entrain for an induction center at Fort Bliss, El Paso, for a year's military training.

William Iley Pratt, Jr., Phillip Maurice King, Odell Carr and Peeler Lawson, the volunteers, will be honored guests at the program, with legionnaires, parents and families of the four.

A sendoff is planned at the station for the volunteers who will fill Midland County's quota in the first call.

### Advices Football Fans To Purchase Tickets Now

Supt. W. W. Lackey advised Midland football fans today to purchase tickets without delay for the Odessa-Midland game Thursday. Odessa reported sale of more than 1000 east side duets, and is ordering more.

End zone and standing room are available to general admission ticket holders. West and east side stands are reserved and only a few remain. Lackey said that 250 tickets from the west side would be sent to Odessa.

#### Dividends For Market After Light Selling

NEW YORK, Nov. 19 (AP)—A burst of pleasing dividend announcements brightened stock market spirits today after light selling had depressed prices of leading issues fractions to more than a point.

At the close a fair assortment of plus signs was in evidence.

Transfers of approximately 700,000 shares, however, were above yesterday's turnover.

#### BRITISH WAR EXPENSES DROPPED DURING WEEK

LONDON, Nov. 19 (AP)—Britain's war expenditures dropped to a daily average of \$38,000,000 last week, against an average of \$48,000,000 the previous two weeks, exchange figures disclosed today.

The report showed a deficit of \$191,100,296 for the week for all government expenses with revenue of \$79,376,192 against expenditures of \$270,476,488.

#### MIRACLE INFANT DIES AT VAN ZANDT HOME

VAN (Van Zandt County), Texas, Nov. 19 (AP)—Five-months-old Vevia Marie Camper, the miracle infant swathed in a 22-year-old doll dress who survived premature birth in a cook stove oven "incubator," is dead.

Vevia Marie died several days ago of pneumonia.

#### BULGARIA AND RUMANIA READY TO JOIN WARFARE

ROME, Nov. 19 (AP)—Italian sources asserted today that Bulgaria and Rumania would join in forthcoming war moves by Germany and Italy.

Spain's decision, these sources added, will become known after Ramon Serrano Suner, Spanish foreign minister, returns to Madrid, following his conversations with Adolf Hitler yesterday.

### Storm Snows-In 25 Cars In Minnesota

### GERMANY CLAIMS TEN MERCHANT SHIPS SUNK

BERLIN, Nov. 19 (AP)—Ten British merchant ships totaling 51,220 tons were sunk off England yesterday and last night—eight by submarines and two by dive bombers—the German high command reported today. In addition, a communique said, three other ships were damaged by bombs.

Rainbows may sometimes be seen all day long in Siberia, due to the reflection of the sun on fine particles of snow in the air.

### State Unit Cannot Defer Registrants

AUSTIN, Nov. 19 (AP)—State selective service headquarters has no authority to grant or recommend deferments of registrants called for classification, Adjutant General J. Watt Page reminded today.

The state director of selective service said his announcement was in response to numerous inquiries from mothers, wives and employers interested in individual registrants.

General Page added that anyone with a legitimate interest in a registrant may appear personally before or given written evidence to local draft boards.

He announced also that local boards may issue duplicate registration cards to registrants who lost their original card but only after the board is satisfied the card was actually lost.

"Any instance of fraudulent use of registration certificates should be reported to the department of justice," he declared.

### Wilson Services Will Be Held In Odessa

Funeral services for John Wilson of Wink, who died Monday in a San Antonio hospital after a week's illness, will be held in Odessa at 2 p. m. tomorrow.

Mr. Wilson, 51, was a produce dealer, supplying the Wes-Tex Food Market here and in Odessa. He is survived by his wife and children.

### Rotarians And Lions Plan Joint Meeting

Annual Thanksgiving joint meeting of the Midland Rotary and Lions clubs will be held tomorrow noon at Hotel Scharbauer.

Plans for the program were being arranged today by Clint Lackey, who was seeking an out-of-town speaker.

Held each year the meeting brings together two of the city's leading service clubs.

### Every Dealer listed below Now has the Sensational Nash Ambassador "600" . . . and is Ready to give Demonstrations and Accept Orders

AT LAST, it's here! The sensational new kind of car in the lowest-price field—the Nash Ambassador "600".

Your first surprise is coming when you see the tremendous size of this Nash—and hear it will deliver 25 to 30 miles on a gallon of gas with good driving.

At the first touch of the throttle you'll realize that here is the "liveliest" car you ever had your hands on.

Sleek, low-slung—built with its body and frame as one welded unit, it rides the curves like a locomotive, but steers light as a feather. Here for the first time is Two-way Roller Steering—and for the first time on any low-priced car—soft coil springs

on all four wheels. The smoothest ride possible.

Even the air you breathe is different—fresh, warm, dustless—thanks to Nash's Weather Eye Conditioned Air System.

Yes—you'll discover new savings of \$70 to \$100 on gas, oil, touring expenses. And every idea about what an automobile can be or do or cost will change when you see and drive this new kind of car.

Today in the Aeropowered Nash Six and Eight, as well as the Nash "600"—the differences in size and economy are switching thousands of new car buyers to Nash.

Factory production has now caught up. See your dealer below for immediate delivery.
