1 dead, 7 hurt in shootout

By ELLIOT MINOR.

erupted today and one policeman was killed as authorities using a bulldozer and a cherry-picker began demolishing the headquarters of the radical group MOVE. Officials said at least seven persons were injured.

Authorities said two police officers and one fireman were among those wounded when helmeted police stormed the ramshackle three-story house to remove mop-haired anarchists holed up inside.

At least six members of the group called MOVE, a name with no known significance, were arrested.

'I heard a lot of gunfire and what sounded like a bomb going off," said Paul Lazorko, who lives nearby. "I saw a police officer lying in the street. They put him in a van. Police were running around telling everybody to get off the streets."

A bulldozer smashed a stockadelike fence around the house in about 10 minutes and began plowing into the porch. Members of the group emerged from the house and removed a dog buried in the debris, then returned inside

Fourteen helmeted police officers entered the front door in a apparent attempt to forcibly remove the residents.

Police had a court order to remove 21 persons from the house, but officers estimated that only five persons were inside today when the wrecking began.

The more than 100 police on the scene refused to discuss the situation. PHILADELPHIA (AP) - Gunfire MOVE members in the house took turns cursing over a loudspeaker at Mayor Frank Rizzo, Police Commissioner Joseph O'Neill and Common Pleas Court Judge G. Fred DiBona as police set up what appeared to be the final blockade of the West Philadelphia house.

"The door is open," shouted a male member of the anarchist group. 'After you spill the blood of MOVE men, women and children, you're going to have to keep on spilling the blood of MOVE supporters all over the country."

"You ain't nothing but a bunch of baby killers," shouted a woman member of the group, as police stood by in flak jackets and the bulldozer moved up.

The MOVE members in the house brought their crying babies to the microphone, then came back on themselves to curse the police some

Police brought up a fire department crane, which began punching out boards that MOVE members had put over the windows of the house. A cloud of dust began rising around the house

The city had been trying to remove the group for more than a year, following an armed confrontation that began with an attempt by city officials to make a health inspection.

Earlier this year, police blockaded the house, trying to starve out the "back-to-nature" group of more than 20 persons.

"We believe she was taken hos-

tage," said Yuma County sheriff's Capt. Cecil Crowe. "We're hoping that we find her unharmed."

Crowe said the Lyonses apparently what they thought were travelers I were shot repeatedly as they huddled in the rear seat of a 1969 Lincoln Continental, with Christopher standing between his mother's legs. Investigators found 18 spent 16-gauge and 20-gauge shotgun shells near the car, whose rear window had been blown out by the blasts.

> "This is the worst and most grisly murder I've ever seen," said Crowe, a veteran of 27 years with the sheriff's office.

Gov. Bruce Babbitt agreed. He said the state will offer a \$10,000 reward for information leading to apprehension of the escapees.

Gary Tison, 43, of Casa Grande,

Ariz., and Randy Greenawalt, 28, of Thornton, Colo., both serving life terms for murder, fled the Florence prison July 30, when Tison's three sons allegedly pulled sawed-off shotguns from an ice chest they had brought to the prison, and then locked eight guards in a closet.

"A Lincoln Continental similar to the one they found the bodies in was in possession of one of the Tison boys prior to the escape," said Sgt. Alan Schmidt of the Arizona Department of Public Safety.

The Lincoln had a badly damaged tire, leading Crowe to speculate that Lyon stopped to help the fugitives before the family was killed.

The bodies were discovered Sunday by a game warden, who spotted the Lincoln about a mile from U.S. 95, some 140 miles west of Phoenix. Au-

thorities are looking for Lyons' 1977 orange Mazda. The family was killed July 31 or

early Aug. 1, shortly after leaving on a vacation which was to include a visit with Lyons' mother in Nebraska, Yuma County Attorney Mike Irwin said.

The search for the escapees moved to Flagstaff last Friday when they were reported seen at a mobile home owned by a female acquaintance of one convict. Another witness said he spotted the fugitives driving a small silver or gray foreign car.

The latter report, coupled with the discovery of the Lyonses' bodies, led authorities to guess Monday that the Mazda may have been spray-painted and given New Mexico license plates taken from the Lincoln.

Carter makes concession to big labor's Meany.

By OWEN ULLMANN

and Fremont, Neb.

CHICAGO (AP) - President Carter is trying to pacify an angry AFL-CIO by muzzling his top inflation watcher, who has antagonized organized labor with public demands for wage restraint.

In a concession to AFL-CIO President George Meany, Carter promised Monday that future statements about

LATE NEWS

WASHINGTON (AP) - President Carter will meet with Egyptian President Anwar Sadat and Israeli Premier Menachem Begin at Camp David on Sept. 4, Senate sources said today.

labor's role in his anti-inflation program would be cleared first by a new panel headed by Labor Secretary Ray Marshall.

Carter's concession was announced by Marshall at an AFL-CIO executive council meeting here after Meany assailed Barry Bosworth, head of the White House inflation-monitoring agency, for taking sides with business against unions.

"No effort is being made to muzzle anyone," Marshall said at a news conference. But he acknowledged that in the future, the administration will "go forth with one message ... it will no longer be Mr. Bosworth speaking alone."

In Washington, Tom Joyce, a spokesman for Bosworth, said Bosworth, who is on vacation, had no comment on the action.

It was clear Carter was seeking to smooth over differences with the 13.6 million-member federation, whose support is critical for the anti-inflation program to succeed

Meany had complained earlier Monday that Bosworth, director of the Council on Wage and Price Stability, was overzealous in urging companies to resist large wage demands by unions, but failed to exert similiar pressure on business to hold prices down

Meany, meanwhile, made a concession of his own Monday, declaring that organized labor has lost its bitter struggle against the business community to revise the nation's labor

"... As far as labor law reform is concerned, the bill that we put in (Congress) lost," Meany said of his organization's failure to defeat a Senate filibuster mounted by opponents of the bill in June.

The bill has been returned to a Senate committee where it is expected to be weakened substantially. Meany said the federation would support the watered-down measure if it contained any new protections for workers engaged in union organizing activities.

But he added, "Labor law reform as we presented it to the Congress is dead for this session." The AFL-CIO said the law was needed to halt companies from violating worker rights.

Ector DA refuses comment on bond forfeitures

for secret conclave

By VICTOR L. SIMPSON

VATICAN CITY (AP) - In the week of Aug. 20, 115 princes of the Roman Catholic Church will barricade themselves in the Sistine Chapel and the adjoining Vatican apartments.

Their conclave will be tightly guarded, and they will not emerge until they have succeeded in their purpose - to elect a new pope, almost certainly one of their own number.

He will succeed Pope Paul VI, who died Sunday.

From the moment it starts, this conclave will be a mixture of the old and new.

The cardinals will probably talk among themselves in Latin, have their meals sent in, and bed down in the apostolic palace.

But when they meet in the 15th century Sistine Chapel, it will be in a conclave room swept clean for electronic bugs beforehand - to ensure secrecy under measures adopted by Pope Paul VI.

There is no foretelling how long the conclave will last.

For example, it took less than three days to elect Pope Paul. But the conclave that elected Pope Gregory X in 1271 — the longest on record — took two years and nine months.

Since the gathering brings together cardinals from North and South America, Europe, Africa, Asia and Oceania, the only common language is that of the church, Latin. Translators are barred. "Although anyone is free to speak

any language, they will probably communicate in Latin most of the time," caid Ernesto Civardi, secre-

tary of the Sacred College of Cardinals

Even before the conclave, the cardinals take an oath of secrecy. Any cardinal breaking it - at any time in his life - faces immediate excommunication from the church.

In 1975 Pope Paul laid down even stiffer rules on secrecy, instructing cardinals to "ensure that the enclosure is not violated in any way."

The pope was reported to have been angered by frequent news leaks from the Vatican and by a book by two Italian journalists titled "Sex in the Confessional" based on their own confessions, tape-recorded without the knowledge of the priests.

Under Pope Paul's directive, two technicians must be at hand to test for the presence of instruments for the recording, reproduction or transmission of voices and images in the Sistine Chapel.

Pope Paul also forbade cardinals to bring in assistants, except for those gravely ill. Their notes and their ballots are to be burned.

According to Vatican historians there are no known cases of valid revelations from recent papal conclaves, although there have been reports published purporting to show how balloting went.

There are no stenographers present to keep records, although individual cardinals may take notes.

In the conclave that elected Pope Paul such notes were sent afterward for storage in the Vatican's secret archives. Pope Paul's rules now bar this and the only permanent record will be that of the papal chamberlain,

EDITOR'S NOTE: Allegations about questionable bonding pro-

cedures, which may have been responsible for keeping Larry Ortega Lozano in the Ector County Jail, surfaced during a

recent federal grand jury investigation into circumstances surrounding the inmate's death. Today in one of several articles, The Reporter-Telegram continues to explore bonding practices in the Permian Basin.

By MARK VOGLER and JIM PARKER

.

ODESSA-Ector County District Attorney John Green Monday refused comment on his office procedures in collecting bond forfeitures. Green, questioned by news-

men in his courthouse office, also refused to allow inspection of the files of 16 judgements nisi. some of them dating to 1972, which have gone uncollected by the district attorney's office, according to District Clerk Wanda McMann.

The nisis represent initial civil actions to claim money pledged by bonding companies as surety that their clients would appear in district court.

Green and Mrs. McMann both declined to be interviewed Monday, the latter claiming to have been misquoted in an article in Sunday's Reporter-Telegram. Green, who recently described some newsmen as "dumbasses," told reporters that he was "too busy" to be bothered with questions.

Green then added, however, that the media "might as well go ahead and print what you want ... you're going to do it anyway.'

Green went on to repeat and get drunk and listen to the

"The trouble with you guys is you read 'All The President's Men' too much. This might surprise you but there are some honest people in county govern-ment; we're not all a bunch of crooks."

Green was vacationing in California last week and was unavailable for comment when the original article detailing uncol-

lected bond forfeitures in Ector and Midland Counties was pre-

Green maintained that his office was pursuing bond forfeitures vigorously. When asked why there were cases dating back to 1972, Green answered, "So what?"

"All you people are trying to do is stir up a bunch of trouble," he said

Mrs. McMann added that in the older cases the defendant had been found and returned to the court. Asked why the cases remained on the books she re-sponded, "I have nothing else to say."

In an apparent reference to recent federal grand jury proceedingS in Midland, Green told reporters to go talk to their

grand jury sources. He then launched an attack on the media handling of the jury probe of inmate Larry Lozano's death Jan. 22 in the Ector County Jail

"You guys made it all up. You never asked me if I were going to testify. Nobody ever asked me if I were going to be indicted. Why bother to ask me anything now?" Green said.

Bonding companies in Ector and Midland Counties have several hundred thousand dollars pending in uncollected forfeitures. The total for the Midland District and County Courts exceeds \$250,000.

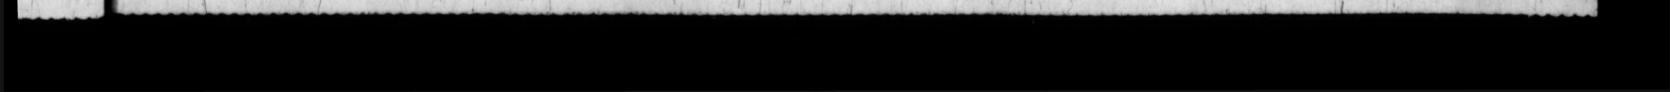

Since Green has refused to divulge his office records relat-

THE MIDLAND REPORTER-TELEGRAM, TUES., AUG. 8, 1978

Albany aid drive begun

ALBANY, N.Y. (AP) - Tons of food, clothing, bedding and cleanup supplies are being airlifted from New York to Texas in an Albany-to-Albany aid drive for flood victims.

Disc jockeys, reporters and Explorer Scouts worked Monday night at local radio station WOKO to pack the emergency supplies for the people of Albany, Texas, where five people have died in floods. The overall death toll in the floods is 28.

Sometime today, a U.S. Air Force C-130 will fly the boxes from state Air National Guard facilities at nearby Schenectady County airport to Dyess Air Force Base in Abilene, Texas. The effort began last Friday when

WOKO news director Bryan Jackson read how Hubbard Creek surged through the Texas town, killing residents and sweeping away homes.

Jackson enlisted the aid of the local Price Chopper supermarket chain, which set up collection boxes at its nine Albany County stores.

Volunteers from WOKO and scouts from Explorer Posts 1460 and 711 manned the boxes as residents responded to the campaign.

U.S. Rep. Samuel Stratton, D-N.Y., contacted Defense Secretary Harold Brown, who approved use of the C-l30 for the aid-lift.

Staff members of an Albany, N.Y., radio stationsort through food and clothing donated by area residents to aid flood victims in Albany, Texas. The

station and a local supermarket chain, with the aid of the U.S. Air Force, are shipping the items to Texas. (AP Laserphoto)

House claims support by Briscoe

By LEE JONES

AUSTIN, Texas (AP) - The chairman of House conferees on a constitutional amendment easing property taxes said today Gov. Dolph Briscoe promised to lobby senators to accept House proposals.

The House meanwhile planned a final vote today on a bill (HB39) calling for a non-binding referendum in November on whether Texans favor a one-cent increase in the state sales tax, dedicated to reducing school property taxes.

Rep. Tim Von Dohlen, D-Goliad, said Briscoe favored a state spending limit that House conferees are holding out for, but which their Senate counterparts have steadfastly rejected.

"The spending limit is critical. Without it, we probably won't have a conference report," Von Dohlen said after a 30-minute bargaining session ended

The House-Senate negotiators planned to meet again during the day which is the last of special legislative

Von Dohlen also quoted the governor as saying he favored another section of the proposal (HJR1) that requires countywide property appraisals for tax purposes instead of numerous appraisal authorities within a county.

The House dropped one section of the proposal which mandates the Legislature to establish and enforce statewide appraisal standards.

Speaker Bill Clayton was worried about the effect of the bargaining sessions on the arithmetic of legislation as the session entered its final hours.

Clayton told reporters "12 or 13 Republican votes ride on" retaining a House provision that restricts future state spending.

Those votes are important, because takes 100 votes in the House and 21 in the Senate to submit a constitutional amendment to the voters.

The House version would limit future state spending increases to the percentage by which Texans' total personal income has risen. Senators bjected this would needlessly tie legislators' hands. The other sticking point remained

major items. These would tax rural land on its income-producing capacity and exempt \$5,000 of the market value of homesteads from school property taxes. Legislators also could allow up to \$10,000 in additional exemptions for the disabled and elderly.

One big question was whether Gov. Dolph Briscoe would call another special session if legislators adjourn at midnight without submitting a property tax constitutional amendment to the voters.

Briscoe already has received a bill repealing the 4 percent state sales tax on household gas and electric bills and raising inheritance tax exemptions from \$25,000 per heir to \$200,000 per estate.

He has not said whether that bill alone, which would cut state taxes by \$491.4 million over the next three fiscal years, would be the "meaningful tax relief" on which he has insisted. House debate of the referendum bill centered on an amendment that would have asked voters if they preferred a tax on gasoline at the refinery to the property taxes they now pay for schools. Representatives voted 87-34 to reject that amendment and stick with the bill's original intent of asking voters what they think of replacing school property taxes with a dedicated state sales tax.

Rep. Ron Coleman, D-El Paso, said replacing property taxes with an increase of the state sales tax from 4 percent to 5 percent would. "take money out of the taxpayer's left hand pocket and put in his right hand pock-

He said out-of-state consumers, however, would pay 70 percent of the refinery tax, which he predicted would raise \$1 billion in 1980

Rep. Buddy Temple, D-Diboll, offered another amendment that would have asked voters' opinion of raising production tax on oil from 4.6 percent to 12.5 percent and dedicating the proceeds to cutting property taxes.

But Temple withdrew the amendment after Rep. John Wilson, D-La-Grange, raised'a point of order against it.

Temple later explained the point of order would have killed the entire referendum bill, which was brought up too late under House rules governing close-of-session business.

The House passed, 110-8, and sent the governor a bill forcing common school districts and rural high school districts to become independent districts unless they vote the taxes to pay for county administration. A law passed in 1975 eliminates state aid for most county superintendents' offices, which provide administration for common and rural high school districts.

Port O'Connor to Brownsville: East to southeast winds 10 to 15 knots through Wednesday. Scattered showers and thunderstorms. Seas 4 to 8 feet, gradually decreas-ing to 3 to 5 feet today. Wind and seas higher near

New Mexico, Oklahoma

Oklahoma: Fair to partly cloudy and warm through Wednesday. Widely scattered thunderstorms west today and tonight. Highs 90s. Lows 60s.

New Mexico: Fair lower elevations north with widely scattered thundershowers remainder of the state and most numerous south. Fair northwest with widely scat-tered thundershowers elsewhere Wednesday. Highs 70 to 55 mountains and northeast and 85 to 95 elsewhere. Lows 40 to 55 mountains and 55 to 70 lower elevations.

Haze of summer returning to south-central Texas skies

By The Associated Press

During the first two months of summer, residents of south-central Texas suffered under furnace-like heat. The dry ground cracked open like an overripe melon. There were prayers for rain.

Now the prayers beg for an end to rain, a deluge spawned by Tropical Storm Amelia.

The heavy rains that started about eight days ago created floods which have claimed at least 28 lives. Insured losses have been estimated at \$6 million alone, excluding property dam-

The swirling brown waters are starting to recede and skies over most

Rain possible, forecast says

Temperatures continued to stay under 90 in the Permian Basin Monday, as the weatherman was forecasting more cool weather with a possibility of some rain.

The forecast for Midland calls for partly cloudy weather through Wednesday, with a 20 per cent chance of mainly afternoon and evening showers and thunderstorms.

The high Wednesday is expected to be in the middle 80s with the low tonight in the middle 60s.

Southeasterly winds are forecast at 10 to 15 mph, becoming light southeasterly tonight.

Monday's temperature hit a high of 87 at 6 p.m. The record high for Aug. 7 is 104 degrees set in 1964. The overnight low was 64 degrees, considerably warmer than the low of 57 degrees for Aug. 8 set back in 1939.

of the stricken areas are regaining a familiar summer haze. Most of the National Guard and state police have gone home. Local search teams, a few disaster control inspectors and the Red Cross remain.

Twenty-three of the victims had been found in the Texas Hill Country by Monday night.

The rains that had flooded the Hill Country moved north last week, falling on the watershed that feeds tiny Hubbard Creek, which ambles lazily past Albany. Thursday night, a 20-foot wall of water roared through the town, turning the creek into a churning cauldron of bodies and debris. At least five people died in Albany.

The week-long torrents made their latest appearance at Graham, a city of 7,500 south of Wichita Falls. The Brazos River overflowed its banks and spilled water to within blocks of the Young County courthouse, but nobody was hurt or missing. Refugees began salvaging what they could Monday

Aerial surveys showed about 150 homes under water and 40 to 50 businesses inundated in Graham, according to Bill McAda of the federal **Disaster Assistance Administration.**

At Graham, most residents lost the use of water and electric utilities for an indefinite period. Many were still without electricity today.

"We just don't know how long it's going to take for this stuff to go away, but all our city operation is underwater," said Police Chief William Paul. Some 100 miles of county roads around Graham were reported flood-

The Brazos' crest was headed for Possum Kingdom reservoir, with some lowland flooding expected downstream later in the week.

session that Briscoe called for tax relief.

Asked whether Briscoe had committed himself to working for adoption of a conference report, Von Dohlen said, "He told us he was. . . by personal contact with the Senate conferees.'

storm change course.

French Cardinal Jean Villot, whose record of the balloting and any remarks will then be stored in the archives

According to Vatican insiders, no one actively campaigns for the papacy. Any such politicking is said to be fatal for a cardinal's chances.

One prominent European cardinal killed his chance in the current conclave, according to a high-ranking Vatican source, when he wrote an article a few years ago on how he thought the church should be run.

"No cardinal enters the conclave really papabile (likely to succeed to the papacy)," says Giancarlo Zizola, author of a recent book on the making of a pope

Nevertheless, the case of Pope Paul himself appears to be an exception to the rule.

On his deathbed, Pope John XXIII is reported to have said to an aide, "Cardinal Montini would make a good pope!" and the word was passed on to the conclave.

Vatican sources say that it would

local bishops what kind of pope they would prefer, but this is question of categories - theologian, pragmatist, diplomat, etc. - rather than of individuals.

The balloting can go on indefinitely In the event of deadlocks, the cardinals may decide to drop the need for a two-thirds majority plus one for a simple majority or even a runoff.

DEATHS

Randy M. Reuter

Services for Randy M. Reuter, 33, of 2408 Haynes Drive were to be at 10 a.m. today in Newnie W. Ellis Funeral Home with additional services to be in Goliad.

He died Sunday afternoon in a parachuting accident near Crane **County Airport.**

Reuter was born Jan. 16, 1945, in Gotham, Ala. He moved to Midland in 1956. He was graduated from Lee High School in 1963 and from Texas Tech University in 1970. After serving in the Vietnam conflict, he returned to Midland in 1972 and was employed by a plumbing company.

Survivors include his wife, Georgia; two daughters, Kelli Ann Reuter and Kristi Marie Reuter, both of Midland, and his parents, Mr. and Mrs. Myron Reuter of Huffman.

Jose Rodriquez

MENARD - Services for Jose Fan Miquel Rodriguez, 72, of Menard, father of Barbarita Rivera of Midland, were at 10 a.m. Monday in Mission Funeral Home with burial in Garden of Memories.

Rodriquez died Saturday afternoon in a Menard hosptial.

He was born May 8, 1906, in Devine. He was married to Geneva Ramon Oct. 23, 1933, in Menard. He had lived in Menard 46 years. He was a ranch laborer and a cook. He was a Baptist.

Other survivors include his wife, two daughters, two brothers, two sisters, 19 grandchildren and two greatgrandchildren

Tommy R. Piper

SAN ANTONIO - Military services for U.S. Air Force Capt.Tommy R. Piper, 35, of Montgomery, Ala., brother of Sue Fay of Midland, were Friday in St. Peters Catholic Church in San Antonio. Burial was in Mission Burial Park, directed by Porter Loring Funeral Home of San Antonio. Piper died suddenly July 30 in

Montgomery Ala. Other survivors include his wife,

two children and his parents.

Weldon Hinesly

ODESSA - Weldon R. Hinesly, 56, of Odessa, brother of Mrs. E.W. Eastep of Lamesa, died Sunday.

Services will be at 9 a.m. Thursday in Hubbard-Kelly Funeral Home with burial in Greenwood Cemetery in Brownwood.

Survivors include his wife, a daughter, two sons, a brother, four other sisters and six grandchildren.

Paul G. White

BIG LAKE - Services for Paul G. White, 53, of Big Lake were to be at 2 p.m. today in the First Baptist Church here. Burial was to be in Glenrest Cemetery directed by Johnson's Funeral Home of San Angelo.

White died Monday in a Big Spring hospital.

He was born Aug. 7, 1925, in Gorman. He married Pauline Keele on July 8, 1961, in San Angelo. He had been a resident of Big Lake for

Jimmie Minyard He is survived by his wife, Pauline; three daughters, Susan White of

ODESSA — Services for Jimmie Nelson Minyard, 54, of El Paso were to be at 4 p.m. today in Hubbard-Kelly Funeral Home here with burial in Sunset Memorial Gardens.

Minyard died Friday in his El Paso home after a brief illness.

He was born April 24, 1924, in Mexia. He was former owner of Sunshine Iron Works in Odessa. Minyard moved to Odessa in 1928. He had lived in El Paso since leaving Odessa in 1976. He was a veteran of the U.S. Air Force.

He was married to Lynda Lee on April 3, 1976.

Survivors include his wife; a son, Thomas Nelson Minyard of Odessa; three daughters, Cindy Minyard and Melanie Sipes, both of Odessa, and Diane Cheatham of Miami, Fla.; two stepsons, Wesley Fults of Colorado Springs, Colo., and Walter Fults of Houston; two stepdaughters, Gloree Fults and Lucy Fults, both of El Paso; a sister, Marjorie Pearl of Hobbs, N.M., and four grandchildren.

J.G. Bennett

Services for J.G. Bennett, 73, of Greenwood were Monday in Newnie W. Ellis Funeral Home with burial in **Greenwood Cemetery**

Bennett died Friday in a Martin County hospital after a two-year illness. Bennett was born and reared in Wionna, Miss. He moved to O'Donnell in 1926 and to Midland in 1942. He

farmed at both places. His Midland

farm was located east of the city. He retired two years ago.

He married Elizabeth Elms Aug. 1, 1952, in Hobbs, N.M. He was a member of Greenwood Baptist Church.

Survivors include his wife; two sons, Stanley Bennett of Riverside, Calif., and James E. Bennett of Victoria; a daughter, Ruth LaVerne Ganoe of Yoakum; a brother, Oscar Bennett of Wionna; seven grandchildren and four great-great grandchildren.

Pallbearers were to be Alvey Bryant, Louie Koons, Roy Graham, Chris King, Wilbur Casbeer and Don Franks.

Honorary pallbearers were to be Jimmy Lucas, Tee Lucas, Bethal Graham, Pamar Evans, M.J. Bell, Jess Wallace, T.W. Russell and Joyce Lucas.

Thomas Denton

ODESSA — Graveside services for Thomas George Denton, 68, of Odessa, brother of Joe B. Denton of Midland, were to be at 10 a.m. today in

Honduran president accused

TEGUCIGALPA, Honduras (AP) - The commanders of Honduras' armed forces ousted President Juan Alberto Melgar Castro after accusations of government involvement in cocaine smuggling to the United States and appointed themselves a three-man ruling junta.

A communique issued by the junta Monday night said Melgar Castro, a 47-year-old brigadier general, had re-

signed. It said Gen. Policarpio Paz Garcia, the head of the armed forces and commanding general of the army, would head the junta as chief of state, and the other members were Lt. Col. Domingo Alvarez, chief of the air force, and Lt. Col. Amilcar Zelaya Rodriguez, chief of public security.

The junta pledged to respect previous international commitments.

No disturbances were reported.

Museum

in Stanton completed

STANTON - Members of the Martin County Historical Commission announced recently that the new museum building for Martin County has been completed and paid for. The building will not be

open for another three months. Utilities will be paid for by Martin-County, according to Mrs. Alex Haggard, president of commission.

A grand opening is planned when all furnishings are completed, she said. Glenda Morgan, state

representative for West Texas Museums, met with Mrs. Stanley Reid, Cliff Hazlewood Sr. and Mrs. Haggard recently to discusss museumplans. The services of a state speciaist involved in arrangements if displays will be come a reality in this month, noted

officials. Dan Saunders will continue to direct the Old Jailhouse Museum section, which portrays early day law and order, said Mrs. Haggard.

However, she noted the latter secton was closed 'until further notice." Mrs. Haggard said donations still are being solicited to complete the building in detail.

"We feel that all of Martin County will be proud of this facility. It will become an institution for learning our past history," she said.

Official says struggle for energy losing battle

By STAN BENJAMIN

WASHINGTON (AP) - In the struggle to conserve and develop energy, the federal government is finding it hard to win.

Presidents, administrators, senators and congressmen painstakingly weave energy policies out of uncertain data, economic theory and political compromise, only to be attacked by industry or consumers for doing too much or not enough - depending upon whose bucks are in jeopardy.

"We will never correct this country's problem by looking for new con-ventional oil and gas," said Lisle Reid, director of the Energy Department's Office of Oil and Gas, in a recent interview. "The analyses I've seen lead me to the conclusion that

the resource base is just shot." "There are significant quantities to be had through enhanced oil recovery and unconventional natural gas pro-duction techniques," Reid added. "But it's going to take higher prices." If remote Alaska is opened for development, he said, it might provide big new oil - but that, too, would be costly.

As oil and natural gas supplies tighten and consumer prices rise, the federal government, in its role as regulator of prices, becomes the scapegoat. Industry always has objected to regulation as unnecessary and burdensome, while consumer groups generally have supported regulation as protection for the pocket-

At first, the government's price regulations drew less industry outcry. Natural gas demand was less than the supply and ceiling prices were higher than actual prices. Indeed, from 1959 to 1973, the government placed quotas on low-priced foreign oil, supporting the higher prices of domestic oil.

But times changed.

In the late 1960s, demand for both oil and gas shot above the U.S. industry's ability to find and produce these fuels, forcing removal of the oil import quotas to avoid shortages.

Within months, in late 1973, a foreign producers cartel - the Organization of Petroleum Exporting Countries (OPEC) - began a series of steep price hikes. That turned the tables and placed imported oil prices far above domestic oil prices, which remained under anti-inflation limits.

Since then, the traditional industryconsumer disagreement over regulation has blossomed into a heated battle, in which Congress has generally age to fish and other wildlife. chosen compromise in the form of a gradual increase of average oil prices into 1979, and a still-pending bill to phase out price regulation of new

oil prices rise about as fast as the law permits, but has concentrated increases on so-called "new oil" and other specific categories in an effort to encourage development rather than reward existing production with windfall profits.

"We have established a long-term pricing policy for crude oil which gives American producers the certainty they need to make their decisions on the economics of producing oil," Scott Bush, deputy assistant administrator for regulation and emergency planning, said in an interview. "The administration's policy is that

current prices plus inflation are sufficient to induce a lot of those long-term production decisions by the industry.

But it's a no-win position.

Industry spokesmen such as Charles J. DiBona, head of the American Petroleum Institute, argue that unregulated prices fully matching the world market are needed to pay for future oil development. Consumer spokesmen such as James Flug of Energy Action say the regulated prices are too high.

In defense of the administration's tight-rope act, Bush said, "If crude oil prices were deregulated, it would only result in people paying the companies about \$15 billion more per year for what they are already doing. "Nobody likes regulation," Bush

added. "I don't get my kicks from regulating prices - but we're trying to rationalize a situation which has been subject to a yo-yo effect over the last several years.'

In yet another role, the federal government is the target of conflicting arguments - about offshore and onshore oil leases. The government owns the coastal areas where much of the nation's undiscovered oil might

That responsibility has been shared since last October by the departments of Energy and Interior, but offshore leasing proceeds under timetables established by Interior.

Industry sometimes complains that the leasing schedule is too slow, although it regularly bids for leases on only a fraction of the tracts offered and has encountered shortages of drilling rigs to develop existing offshore areas.

On the other hand, environmentalists fear that mishaps on offshore drilling platforms might spill oil into the sea, resulting in widespread dam-

The first petroleum exploration drilling off the mid-Atlantic coast began this year and the two holes so far have found no commercial quantities of oil or gas, to the disappointment of the companies and the government. Thus, Reid thinks government efforts to increase the nation's oil and gas supply stand the best chance when directed at developing new, unconventional sources which are not yet widely commercial. "I think research and development is one thing where the government has been fairly successful," he said. "We have sponsored the enhanced oil recovery program in which the government shares about 40 percent of the cost of actual field experiments with a company." Enhanced recovery means using extraordinary efforts to get more oil out of a field where natural flow is running out, such as injecting steam or chemicals to make the oil flow more readily. The Energy Department has also participated in efforts to increase natural gas production by pumping liquids into the ground at high pressure and fracturing the rocks or tight sands in which the gas is trapped. Reid said information gathered from various government cost-shared programs is available to everyone, so the programs help spread new techniques or experimental data through the industry more rapidly than would be possible if each company had to repeat the experiment for itself. **Energy Department programs also** support work on oil extraction from shale, and pilot programs by private companies are already under way on western lands leased from the Interior Department. Last May, President Carter proposed modifications in tax credits and federal regulations aimed at accelerating shale oil development. Looking to a potentially huge source of oil and gas, the Energy Department also supports research and pilot plants for manufacturing them synthetically from coal. Carter proposed in May to begin design studies on "four or five bonafide coal liquid and coal solid demonstration plants," and to consider participating in design and construction of one or two plants using the "solvent refined coal" synthetic fuel process. The Carter proposals also included a speed-up of research in conversion of plant and animal materials into liquid or gaseous fuels "that closely resemble products now derived from petroleum refining and petrochemical processing". And Carter announced expansion of federal programs to help communities, states and Indian tribes adjust to the sometimes serious financial and social impacts of large energy developments, through federal matching grants and loan guarantees. Such programs, many still in their early stages and others proceeding undramatically in laboratories or out-of-the-way pilot plants, don't generate the heated confrontations and pocketbook fears that the Energy Department's pricing actions do, but everyone agrees there is only so much easy oil and gas in the ground.

THE MIDLAND REPORTER-TELEGRAM, TUES., AUG. 8, 1978

Coke gains three tests

Enrich Oil Corp. of Abilene announced locations for three wildcats in Coke County, approximately three miles southeast of Silver.

Each of the tests will be drilled to 7,200 feet.

No. 1-313 O. B. Jacobs will be drilled 2,178 feet from south and 467 feet from west lines of section 313, block 1-A, H&TC survey and&3/4 mile southwest of the depleted Bloodworth, North (5650 Canyon oil) pool and one location northwest of depleted gas production. Ground elevation is 2,089 feet.

No. 1 Bessie Walker will be dug 1/2 mile northeast of the Bloodworth, North pool and 2,-672 feet from south and 467 feet from east lines of S. A. Elam survey No. 1, abstract 1151.

Enrich wtaked No. 1 O. B. Jacobs 1/.2 mile northwest of the Bloodworth pool and 467 feet from south and west lines of W. F. Allison survey No. 1, abstract

It is a southwest offset to Master Drilling Co., Inc., of Abilene No. 1 Exxon-Walker, an active wildcat that is bottomed at 5,993

Only disappointments hit in Canyon drilling

TULSA, Okla.-Frontier areas of the U.S. Outer Continental Shelf, long considered the nation's best hope for major additions to petroleum reserves, have produced little more than big disappointments so far.

But the oil industry isn't ready to turn away from OCS frontier exploration, despite high risks, soaring costs and difficulties in acquiring leases, the Oil & Gas Journal reports.

In its Aug. 7 issue, the weekly business magazine points out that ex-plorationists drilled more than 50 dry holes during five years before discovering oil and gas in the North Seanow one of the world's major producing areas.

Most oil industry exploration executives agree it is too early to write off the potential of the U.S. OCS frontier. But their mood has changed from nearly euphoric to cautiously optimistic.

"It is obvious to me that if we haven't condemned the OCS frontier we have at least lessened the enthusiasm," one executive told the Jour-

Activity in U.S. offshore frontier

Superior well finals Crane gains producer

The Superior Oil Co. No. 1-P University has been completed in the War-Wink, South field of Ward County, 10 miles northwest of TPyote.

Operator reported a daily flowing potential of 18 barrels of 38.2-gravity oil and 12 barrels of water, through a 3/4-inch choke and perforations from 11,868 to 13,002 feet. Gas-oil ratio is 556-1.

The well is 660 feet from south and 2,050 feet from west lines of section 28.

Mrs. Wiess dies at 89

HOUSTON (AP) - Olge Kieth Wiess, 89, widow of one of the founders of Humble Oil & Refining Co., died Monday.

She was the wife of Harry C. Wiess, who died in 1948 Humble later became Exxon Co. USA

block 18, University Lands survey. Total depth is 17,434 feet and seven and five-eighths-inch casing is set at 16,189 feet. The plugged back depth is 15.850 feet.

Shows of gas were developed on drillstem tests in the Cherry Canyon and Fusselman.

CRANE OILER

Homer Olsen Jr. No. 1 Dawson has been completed as a 1/2-mile southwest extension to the Dawson (Devonian) pool of Crane County, nine miles southwest of Crane. The fifth producer in the field, it

completed for a daildy flow of 106barrels of 40-gravity oil and 30 barrels of water, through a 24/64-inch choke and perforations from 5,268 to 5,272, feet after 500 gallons of acid.

Gas-oil ratio is 1,015-1. Hole is bottomed at 5,300 feet and

4.5-inch pipe is set at total depth. The section 27-11s-30e

second sale is scheduled in April

the North Atlantic area was delayed indefinitely last January by court actions filed by environmentalists.

-Several areas that explorationists consider promising remain to be leased. These include the Beaufort Sea, Bristol Bay and Bering Sea shelf areas off Alaska, lease sales for which have been scheduled.

Several other areas in Alaska show potential for hydrocarbons but haven't been scheduled for lease.

Frontier exploration-especially off Alaska-is expensive. Industry sources estimate it coasts \$1 million per thousand feet of hole to drill in Alaskan waters, and about one-third to one-half that off the East Coast.

Those costs come after the so-called front-end costs of leases. Since 1973, oil firms have spent \$4.116 billion on leases in U.S. OCS frontier areas.

Many industry representatives critize U.S. government policies, especially those incorporating alternative bidding systems that increase the sums companies must pay before they are allowed to drill.

Still, oil firms want to continue the search for hydrocarbons on the OCS.

"We cannot leave any potential basin untested," says one exploration manager. "We can't, for instance, let the Gulf of Alaska scare us off from our responsibility in evaluating the continental shelves.'

When it runs out, sooner or later, no amount of regulation will bring it back.

That's when research and development must be ready to pay off.

A native of Village Mills in Hardin County, Mrs. Wiess grew up in Beaumont.

In 1974, Mrs. Wiess gave her residence to Rice University, where her husband was vice chairman of the board at the time of his death.

In addition to Rice and other Houston institutions, Mrs. Wiess made gifts to the Baptist Hospital of Southeast Texas in Beaumont and helped construct the nurses home there.

Survivors include three daughters, Mrs. Lloyd H. Smith, Mrs. Theodore N. Law, and Mrs. James A. Elkins

Services will be Tuesday at Christ Church Cathedral.

Discovery potentials

Elliott Oil Co. of Abilene No. 1 Pruitt-Henson Ranch has been completed as a Tannehill discovery in Stonewall County, eight miles southwest of Aspermont.

It completed for a daily flow of 115 barrels of 49.5-gravity oil, with gas-oil ratio of 200-1, through a 12/64-inch choke and perforations from 3,336 to 3,340 feet.

Total depth is 3,400 feet and 4.5-inch casing is sect at 3,399 feet.

Operator has request field designation of Johnson's Chapel (Tannehill). Wellsite is 330 feet from north and 1,009 feet from west lines of sectidon

199, block D, H&TC survey. The Noodle Creek was hit at 3,265 feet and the Tannehill was entered at

3.336 feet on kelly bushing elevation of

Operator sets wildcat

1,919 feet.

A wildcat operation has been spotted in Crockett County.

J. Cleo Thompson of Dallas No. 2 C. E. Davidson and others is to be drilled as an 8,800-foot gas explorer in Crockett County, six miles east of Ozona.

It is 1,209 feet from south and 467 feet from west lines of section 49. block GH, GC&SF survey.

The site is 3/4 mile northeast of Thompson No. 1-B C. E. Davidson, 1.5 mile north extenson to the Davidson Ranch (7890 Pennsylvanian) field.

Replacement test staked

Harken Oil & Gas Corp. No. 1-R Gilbreath is a replacement test in the Tippen, Southeast area of Cottle County, two miles north of Chalk.

The project is 1,044 feet from north and 857 feet from east lines of tract 1, Mary A. Cook survey, abstract A-65. Scheduled for a 7,000-foot bottom, it is one location east of the only well in the 6800 conglomerate pay. The site replaces No. 1 Gilbreath.

Location is 555 feet from northwest and southwest lines of section 12, block 6. H&TC survey.

ECTOR TEST

Benchmark Oil Co., Ltd., of Midland No. 1 Diamond Lill is to be dug as a 4,300-foot operation 1.5 miles southeast of Grayburg production in the VEM field of Ector County.

The project is nine miles south of Odessa and 660 feet from south and 1,980 feet from east lines of section 41, block 43, T-3-S, T&P survey.

WARD TESTS

Gulf Oil Corp. spotted a pair of project in the Block 17, Southeast (Delaware) field and the Caprito (middle Delaware) pool.

No. 1-XA State is 1,980 feet from south and 660 feet from east lines of section 38, block 17, University Lands survey and one location south of Middle Delaware production and one location west of Delaware production. It is to drill to 6,900 feet.

Gulf No. 1-QK State, another 6,900foot test, is 1,980 feet from north and west lines of section 22, block 17, University Lands survey and 1/2 mile west of middle Delaware dproduction and 7/8 mile west of Delaware production.

Borden gets wildcat site

WES-TEX Drilling Co. of Abilene No. 1 D. K. Burkhart has been spotted as a wildcat operation in Borden County, four miles northwest of Vealmoore.

The 9,200-foot test is one location east of the depleted Dean discovery in the Ackerly, Southeast field.

The drillsite is 467 feet from north and 863 feet from east lines of section 18, block 33, T-3-N, T&P survey.

V. T. Bolleter

in new post

HOUSTON-Vernon T. Bolleter has been named general manager of Tenneco Oil Co.'s Frontier Projects group in Houston.

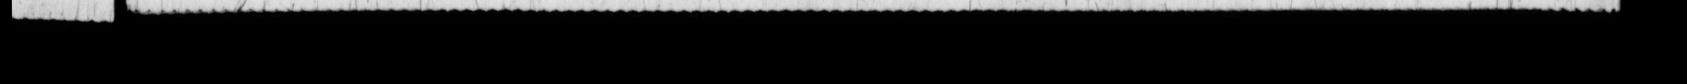

He formerly was manager of the group. His new position gives him increased responsibility for Tenneco's oil and exploration activities in the U.S. frontier areas, which include IRION COUNTY Estoril No. 1 Simpson-Brooks, td 7,827 feet, swabbing dry, went in hole with tubing and packer, set packer at 4,774 feet, spotted acid across perfora-tions from 7,849 to 7,878 feet, acidized with 1,000 gallons acid, formation broke at 1300 psi, made two swab runs, recovered load water and acid, now the Atlantic offshore and Alaska.

Bolleter joined Tenneco in 1955 as a geologist and was promoted to district exploration superintendent in 1959

He left eh company briefly in 1964 but returned the following year as Hytech Energy No. 2-8 Murphy, to 6,550 feet, shut in. Resources Inversement no. 2-80 Cox, preparing spud. Surg. 1d 6,406 feet, waiting on cement after set 1½-inch casing at 6,405 feet. Union Texas Oll Co. No. 5-56 Farm-er, drilling 790 feet. Union Texas Oll Co. No. 5-57 Farm-er, td 7,256 feet, preparing to test, through perforations from 6,968 to 7. 006 feet. regional geologist for International Projects. In 1968, he became regional geologist for Explration FResearch and in 1970, chief geologist for Expsloration Opderations.d

He was assigned to Frontier Projects as manager in 1972.

He earned a B.S., degree in Archetecture and Geology from the University of Houston in 1952.

THE MIDLAND REPORTER-TELEGRAM, TUES., AUG. 8, 1978

DEAR ABBY Mom, househusband considered oddballs

By ABIGAIL VAN BUREN

DEAR ABBY: My wife and I have been married for 10 years and have two children, 6 and 8.

My wife works outside the home, and I am in charge of the household duties. It has worked out very well for us, but our children's friends think we are a weird family and they tease our kids, and therein lies our problem.

We have explained to our kids that we are a normal family except that Mother works and Dad takes care of the house. They understand it, but their friends don't, and they keep ridiculing our kids mercilessly. We have even asked the parents to explain the situation to their children, but it seems that the parents themselves have a prejudice against us and consider us oddballs.

Any suggestions?-HOUSE-HUSBAND

DEAR HOUSEHUSBAND: If others aren't able to understand your lifestyle, that's THEIR problem. Don't worry about your children. They'll survive. In time, when they see how well your arrangement has worked out, they'll become impervious to the taunting. Never apologize for being "different."

DEAR ABBY: Ralph and I are both 23 and we've been happily married for 18 months.

My problem is my father-in-law. He's a golf nut, and he keeps inviting my husband to go on these fabulous golfing vacations with him. They are always held at fancy resorts, and Ralph (who is also a golf nut) finds these trips hard to pass up. I'm glad he and his father have such good rapport, but I hate being left alone for long weekends every few months.

Please don't suggest that I go somewhere with a girlfriend, or do something with my mother-in-law, because I'd rather not.

Ralph and I are usually very open and frank with each other, but I can't bring myself to tell him how unhappy I am when he takes off on those golfing vacations. Am I being selfish?-GOLF WIDOW

GEAR WIDOW: No. After only 18 months of marriage, you're still honeymooners. Tell Ralph AND his father that their frequent golfing vacations are handicapping your marriage. And drive your point home now before those golfing vacations become a habit!

DEAR ABBY: I think your response to RED in REDWOOD-CITY was 18th century. (Red said every man she met made a pass at her, and she was sick of it. Then you put the blame on her, saying she must be sending out signals. And you topped it off with, "No man in his right mind would make a pass at a statue.")

Abby, why should women have to go around like statues? You should have told Red not to feel guilty about being attractive-or even flirting a little.

So how about some helpful advice for a change, instead of trying to turn women into cold, unresponsive

statues? - - ANIMATED IN L.A. DEAR ANIMATED: I am NOT trying to turn women into cold, unresponsive statues. But I certainly would not advise a woman to "flirt a little" unless she was ready, willing and able to deal with the men who rise to the bait.

It's more 18th century to tease a guy into making a pass, and then to act insulted when he does.

AT WIT'S END

They're getting younger

By CARROLL RIGHTER (Wed., Aug. 9)

GENERAL TENDENCIES: This is not the time to take chances or to borrow or lend money and risk your assets in any way. At the same time, see that you do carry through with promises you have made or finish some long-standing work.

ARIES (Mar. 21 to Apr. 19) Don't interfere in any argument between a family or a partner and it will soon blow over. Berating one you love could cause a severance of connections, so bide your time and get true facts.

TAURUS (Apr. 20 to May 20) Find a better system for handling your affairs and you can be more prosperous and happy in the future. Stop living under some tension that is easily removed.

GEMINI (May 21 to June 21) You can have a good time now without having to spend too much money. Pay more attnetion to a family tie who feels neglected. MOON CHILDREN (June 22 to July 21) Try to please kin and not

ask for so many favors at this time. Alleviate built-up tensions. Show you are a person of intellect and wisdom.

LEO (July 22 to Aug. 21) Be extra careful in motion of any kind, especially driving. Keep your poise even though an emergency arises that you have not counted on.

VIRGO (Aug. 22 to Sept. 22) Try to cut down on expenses and build a reserve. Don't commit yourself now to anything that you will later regret

LIBRA (Sept. 23 to Oct. 22) Go after personal gains and get right results. Forget that social invitation for the time being. Stick to business and be ahead of the game.

SCORPIO (Oct. 23 to Nov. 21) Get the most important tasks done early. Wait for a better day to have that serious conversation with mate, loved one.

SAGITTARIUS (Nov. 22 to Dec. 21) Try to help a friend in need. Don't be so forceful with others in gaining a goal.

CAPRICORN (Dec. 22 to Jan 20) Take time to take care of civic. business or personal affairs. Don't annoy a community bigwig. A good evening for dancing. AQUARIUS (Jan. 21 to Feb. 19) Study any new interest well and

know exactly what you are doing. You can have a better un derstanding wiht others, also.

PISCES (Feb. 20 to Mar. 20) You can get ahead faster if you are precise in all that work you have to do and handle responsibilities well. Be patient with mate, loved one who may be out of sorts.

"If you can't get your of you," I said. "For even own a sweatband) size, get the next one and starters. I'll have three aces you in tennis. Mathews inducted into Hall of Fame

COOPERSTOWN, N.Y. (AP) -Being elected to the Baseball Hall of Fame made Eddie Mathews nervous, nostalgic and, most of all, grateful. "Baseball has been so good to me.

It's given me everything I've got," said the newest inductee into the game's most elite group. "I've tried to give it all I had.

'If I'd been this nervous when I played, I wouldn't be here. I'm getting more nervous by the minute," he added in his thank-you speech.

Mathews, the greatest slugging third baseman of all time, was inducted into the Hall Monday along with Veterans' Committee choices Larry MePhail and Addie Joss. Mathews retired in 1968 after a record-setting care with the Boston-Milwau-kee-Atlanta Braves, Houston Astros and Detroit Tigers. He holds the major league mark for career homers by a third baseman (481) and National League records for most games played at the position (2,154), most homers in a season by a third baseman (47 in 1953) and most consecutive seasons with 30 or more homers (nine, 1953-61).

"I'm proud of all these things but I remember best the homer I hit in the 1957 World Series to beat the Yankees," said Mathews of his fourthgame blast for the only Braves championship team he played with. In his final playing season, Mathews was

with the Tigers team that won the World Series.

"This is my greatest honor," he said. "It will take a week to 10 days for it to sink in. I don't know if there are words to explain it.

"I'm just a small part of a wonderful game that is a tremendous part of American today.'

THE GAME GOT to be that way in part thanks to McPhail, the innovative executive who, according to Commissioner Bowie Kuhn, "revitalized every team he touched and brought enormous excitement to them."

McPhail, who left baseball in 1947 after turning the Cincinnati Reds. **Brooklyn Dodgers and New York** Yankees into moneymakers, was responsible for night games, Old Timers Day, a pension plan for ballplayers and office personnel, regular airplane travel by major league teams and expanded broadcasting of their games.

"My father was most proud of building pennant winners in Brooklyn and New York, especially Brooklyn," said Lee McPhail, president of the American League, who accepted the honor along with his brother Bill, a broadcasting executive. "When the Dodgers clinched the pennant in Boston in 1940, my father was so proud that he went to 125th St. to meet their train, which was going to Grand Central Station where hundreds of fans

were waiting. But Leo Durocher, who he'd brought in to manage the Dodgers, convinced the conductor to

skip 125th St. and head right in. " Of course when Dad saw Leo he threatened to fire him. "HE WAS AGRESSIVE, flamboy-

ant, garrulous and loud, but also a promotional genius and visionary. He loved baseball and anything he tried to do was for the good of baseball." Joss was called the "best pitcher in

the first quarter-century of the American League" by baseball histo-rian Fred Leid, quite a compliment since Joss was a contemporary of Cy Young and Walter Johnson. He died of spinal mennengitis two days before the 1911 season opener after a phenomenal nine-year career. JOSS HURLED a perfect game,

nother no-hitter, seven one-hitters and had a 1.88 career ERA for Cleveland. The Veterans' Committee waived the 10 years in the majors rule to induct Joss, who was represented by Dr. William Schwartz, a relative.

Also receiving awards were Mel Allen and Red Barber, the first recipients of the Ford C. Frick Award for broadcasting excellence and sports-writers Edgar Munzel and the late Gordon Cobbledick, each getting the J.G. Taylor Spink Award for distin-guished service as a baseball writer.

Allen may have given the sport a "new motto," as Kuhn claimed, when e "Voice of the Yankees" spoke of

his own studies in law. "Like Commissioner Kuhn, I got my LLB degree in law," said Allen. "It wasn't until now that I realized that the LLB stood for something other than in law. It stands for 'Long Live Baseball."

In the Hall of Fame exhibition game, the New York Mets and Detroit Tigers played a 4-4 tie. The game was halted after six innings because of

Gold Sox top El Paso, 5-4

Do Cowboys have too much talent?

Is it possible for a professional football team to have too much talent?

The 1978 Dallas Cowboys appear loaded again to say the least, not only with veterans off last year's Super Bowl championship team, but lots of superb rookies to boot. In viewing Saturday's 41-24

the best chance of playing this season is Dennis Thurman, cornerback from USC. With the retirement of Mel Renfro, Dallas needs more depth at that position and coming off his performance against the 49ers, the former Trojan stands a good chance. He took away a couple of TD opportunities from wide victory over the San Francisco receiver Gene Washington, 10-49ers in person in Texas Stayear veteran and displayed great speed. He only stands 5dium, several newcomers stood foot-11 and weighs 170 pounds, out, but their performances may but is a tough and quick-reacting football player. Joining Renfro on the retirement list was Ralph Neely, but Coach Tom Landry has done some switching this year and if Rayfield Wright, All-Pro tackle two years ago for the Pokes, recovers from knee surgery, Dallas will be in good shape at offensive tackle. DALLAS HAS TWO great run-

37-yard run on a draw play Saturday night. There isn't much chance of Christensen beating out the likes of Billy Joe Dupree or Jay Saldi, but he could give Dallas added depth at both positions

THE WIDE RECEIVER slots are set with Drew Pearson, Golden Richards, Butch Johnson and Tony Hill. So is the quarterback position with Roger Staubauch, the premier signal-caller in the NFL. I suppose it must be a great feeling to have that much talent and those that don't make the squad could make great trade bait for other NFL teams. I still wouldn't like to have to make the decisions on who stays and who goes.

back out to Thousand Oaks, Calif. to continue two-a-day drills Monday in preparation for their next exhibition game with the Denver Broncos in Denver Saturday afternoon. Kickoff is set for 2 p.m. in the mile-high city

on.kicking

THOUSAND OAKS, Calif. (AP) -The Cowboys beat the 49ers 41-24 in Saturday's pre-season opener, but Dallas Coach Tom Landry isn't satisfied with his team's kicking performance.

The Cowboys resumed twice-daily workouts here Monday, with special emphasis placed on kicking units.

"I think our kicking game is behind what it ought to be at this point and I think we need to stress it a great deal," said Landry. He indicated rookie free agent Jay Sherrill would handle the field goal and extra point placements against the Denver Broncos Saturday, while the team's other kicking candidate, Ove Johannson, would do the kicking off.

The Cowboys are seeking a replacement for holdout kicker Efren Herrera, their regular the last two years, who still has not reported to training camp.

The Cowboys waived two free agent rookies Monday - safety Mike Kramer of Alabama and running back Barrett Paige of Central State. **Rookie guard Tom Randall of Iowa** State came down with tonsilitis and has been confined to his room. Doctors say they will have a decision on his condition in a couple days.

Also missing workouts in pads Monday were veterans Larry Cole with a twisted knee; Harvey Martin, bruised hip; Tom Rafferty, strained calf; Randy Hughes, irritated foot; Bill Gregory, knee irritation; Scott Laidlaw, strained ankle; Jim Eidson, jammed neck; Larry Brinson, strained groin; and Jay Saldi, still recovering from dehydration which he suffered in the 49ers game.

Running back Charles Young worked out in pads for first time Sunday after recovering from a knee injury.

Doctors said Gregory will continue to work out once a day. They said Rafferty was held out Monday as a precautionary step.

SAN ANTONIO - For a while there San Antonio pitcher Bill Swiacki must have wondered just what he would have to do to pick up a win Monday night.

Swiacki fired a two-hitter at the Midland Cubs here but the Dodgers trailed 1-0 until the eighth inning when they suddenly strung together four consecutive singles for a pair of runs and a 2-1 Texas League victory.

It was only the third loss in the last 13 games for the Cubs, who remain the frontrunners in the Texas League West, 2 1/2 games in front of the Dodgers.

With two out in the San Antonio eighth, Ron Roenicke and Kelly Snider touched Midland starter Herman Segelke for a pair of singles. That was all for Segelke, who gave up six hits in his 7 2/3 innings of work. Bob Clark came on for the Cubs, but his appearance was short-lived as Mike Scoscia delivered a run-scoring single to knot the score at 1-1.

Midland manager Jim Saul then went to the builpen for Mike Allen, but Allen's luck was no better as Alex Taveras singled home Snider for the

game-winning run. The Cubs caught Scoscia in a rundown on the play to end the inning.

The Cubs' lone marker came in the sixth with a little help from Dodger second baseman Jack Perconte. Keith Seibert reached base on an error by Perconte, went to second on Steve Macko's sacrifice and moved down to third on the second Perconte miscue of the inning, this time on Kevin Drury's ground ball. Seibert

scored on Eric Grandy's 4-3 grounder. Swaicki, a rookie from Amherst,

struck out seven batters in picking up his third win of the season and tying the series at two games apiece.

The series winds up with a 7:30 contest tonight with Lee Smith (8-8) taking the mound for Midland. Wednesday the Cubs will be home for a 10-game homestand with Amarillo and El Paso.

tackle from Milton College, impressed with his 61-yard interception and run for a TD against the 49ers. The 6-3, 238-pounder, runs the 40-yard dash in 4.6 and hopes to make it either as a down lineman or offensive center, backing up eight-year vet John Fitzgerald.

Another rookie who could play with just about anybody else in the league is Houston University standout Alois Blackwell, a 5-10, 195-pound running back who has

By The Associated Press Barry Evans doubled home the winning run in the eighth inning Monday night as the Amarillo Gold Sox took a 5-4 Texas League baseball vic-tory over the El Paso Diablos.

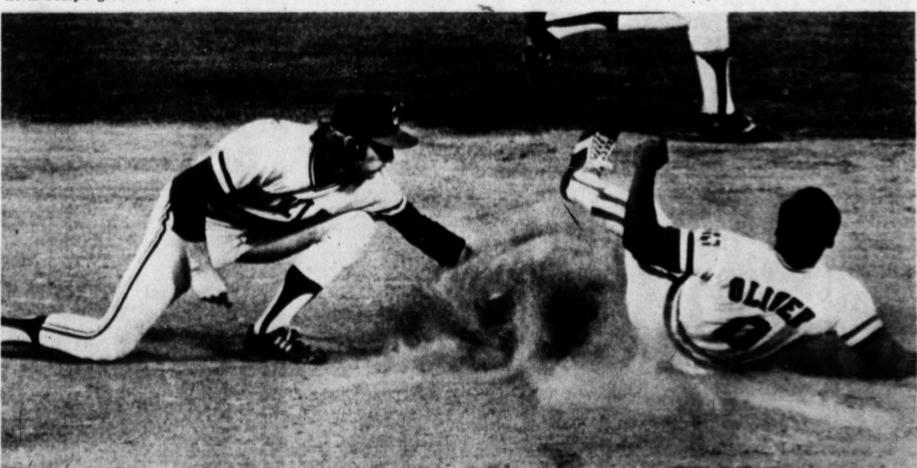

In other Texas League action, Jackson trounced Tulsa, 12-1, San An-tonio edged Midland, 2-1, and Arkan-

sas beat Shreveport, 5-1. Evans went four-for-five at the plate and had another double for the Gold Sox. Gary Lucas was the win-ning pitcher. El Paso's Charlie Phillips, who entered the game as a relief pitcher, was tagged for the loss. Kevin Chapman had four of Jack-son's 17 hits as the Mets trounced

Tulsa, 12-1. Jackson scored three runs in the third and added seven in the sixths, including two on a triple by Keno Perry. Jeff Reardon boosted his Texas League pitching victory to 14-3, giving up only five hits before giving way 40 a relief pitcher in the eighth inning. Ed Lynch, now 1-1, was the, losing Drillers pitcher.

Leon Durham's two-run homer in the sixth provided the offensive power, but it took some ninth inning pitching heroics for the Arkansas Travelers to take a 5-1 victory over

Shreveport. Travelers pitcher Len Strelitz had a shutout going into the ninth, but the Captains managed to score a single run. Then, with the bases loaded and two out, relief pitcher John Littlefield came in to strike out pinch hitter Tony Pena with only three pitches to pre-serve the Arkansas victory. Jim Smith was the losing Shreveport pitcher.

California's Nolan Ryan blows bubble.

THE MIDLAND REPORTER-TELEGRAM, TUES., AUG. 8, 1978

Nolan Ryan is frustrated pitcher

ANAHEIM, Calif. (AP) - Nolan Ryan, who has a 5-10 record and a 4.15 earned run average, admits this has been his most frustrating season, but he hasn't given up the year as a lost cause.

And, as he puts it, "Although I'm disappointed with the year I'm having, I'm content to be playing for the California Angels."

Ryan, who came to the Angels from the New York Mets prior to the 1972 season, won 112 games in his six seasons for California prior to the current campaign. In addition, he firmly established himself as one of the outstanding strikeout artists of all time and one of the greatest pitchers ever at holding a lead in the late innings

BUT SO far, 1978 has been forgettable, to say the least, except perhaps for the beard that he began growing some three weeks ago.

"It's been one thing after another," said the fireballing right-hander Mon-day night. "I pitched real well the first month but we didn't score any runs. Then I didn't throw well for a month. And then I injured my leg.

"But I feel fine now. I've thrown well since the All-Star break with one exception and my main goal right now is to help this club win the American League West title."

Ryan, the eighth leading strikeout pitcher in baseball history although only 31 years old, had different thoughts less than two months ago. "I told Mr. Bavasi (General Manager Buzzie Bavasi) that if they felt like they could help their ballclub by

trading me to Texas, I'd approve the deal," said Ryan. "I've thought about playing closer to home for quite a while, my family has a home in Texas and we spend the winters there.

"I was frustrated at the time over the way I was throwing and the way things were going," he continued. "The only places I(would like to play

are here or somewhere in Texas."

RYAN, WHO is scheduled to make his next start Sunday against the Minnesota Twins, has 2,590 lifetime strikeouts, Only two pitchers have totaled more than 3,000 strikeouts -Walter Johnson, with 3,508, and Bob Gibson, with 3,117.

Ryan not only holds the major league single-season record with 383 strikeouts in 1973, but with 367, 341, 329 and 327 strikeouts in four other seasons, he has five of the eight highest one-year totals ever. He has fanned 10 batters in a game a record 112 times overall, far ahead of runnerup Sandy Koufax's total of 97.

His ability to hold a lead in the late innings is staggering. During his career, he has entered the eighth inning with a lead on 95 occasions. His record is 90-2 with three no-decisions and he has finished 78 of those 95 games.

AND HE has pitched four no-hitters.

"I don't put a whole lot of value on statistics until I get close to them," he said. "I would like to get 3,000 strikeouts, pitch my fifth no-hitter and win 20 games again, but right now, I'm just thinking about the rest of this year."

The frustrations he's experienced this season would have weighed much heavier on his mind, he said, had they occurred earlier in his career.

'While I would imagine overall it has been my most frustrating year, the older you get the better prepared you are to handle situations like this," he said. "It would have been a lot different, I'm sure, five years ago."

As far as his valuable right arm is concerned, he said, "It feels pretty good. It doesn't feel like it did eight or 10 years ago, there's a certain amount of wear and tear on it, but I feel like if I don't sustain an injury I should be able to pitch three or four more years,

(Continued on 3-C)

Graham Smith wins four gold medals

EDMONTON, Alberta (AP) - Graham Smith laid his head wearily on the soft shoulder of a woman official and closed his eyes for a brief moment.

The 20-year-old Canadian swimming star was just letting everyone know how much winning four Commonwealth Games gold medals in four days can take out of a person.

Smith, who swims during the school year for the University of California, splashed to victory Monday in the 200-meter individual medley, then came back in the night session to slip past England's Duncan Goodhew in the last 25 meters for a gold medal in the 200-meter breaststroke.

The wide-shouldered Smith had a right to be tired after calling on his diminishing reserves to become only the fourth male swimmer to win four gold medals in a single games. The others were Australians Murray Rose (1962), Peter Reynolds (1966) and Mike Wenden (1970).

"I was really tired on the third lap (of the four-lap race) and I know Duncan is a very strong finisher as well. But I just went after it," Smith said.

Smith planned to get plenty of rest today before continuing his assault on the games' record book Wednesday in his final two events - the 100 breaststroke and 400 medley relay.

Getting very nearly as much attention Monday as Smith were track and field stars Don Quarrie, Henry Rono and Daley Thompson.

Quarrie, a 27-year-old Jamaican, captured his

seconds slower than his world record of 8:05.4. But many in the crowd were expected back today to watch the masterful Kenyan run a heat in the 5,000 meters, another event in which he owns the world standard.

Disappointed as the crowd was in Rono's somewhat dull performance in wind-buffeted Commonwealth Stadium, it watched excitedly as Thompson, a relatively unheralded 20-year-old Englishman, exploded through the first five events of the decath-

The muscular youngster may well fall short of American Bruce Jenner's world decathlon record in the final five events today - because they include his weakest events, the javelin and discus - but he stunned the crowd and the rest of the competitors by accumulating 4,550 points in the 100-meter dash, the long jump, the shot put, the high jump and the 400-meter run.

That surpassed the previous all-time best of 4,499 points for the first five events, set in the 1968 Olympics at Mexico City by American Bill Toomey. Jenner's record of 8,618'was set in the 1976 Olympics at Montreal

England's women picked up three gold medals Monday, while Canada got one in track and field competition.

Sonia Lannaman won the 100-meter dash, Donna Hartley the 400 and Paula Fudge the 3,000 for England, while Romanian defector Carmen Ionesco set a Games discus record for the Canadians. Richard Mitchell of Australia won the men's 400, while Berwyn Price of Wales grabbed the gold in the 110-meter hurdles. Back in the swimming pool, Australia moved closer to Canada's leading total of nine gold medals by picking up three more.

WEST

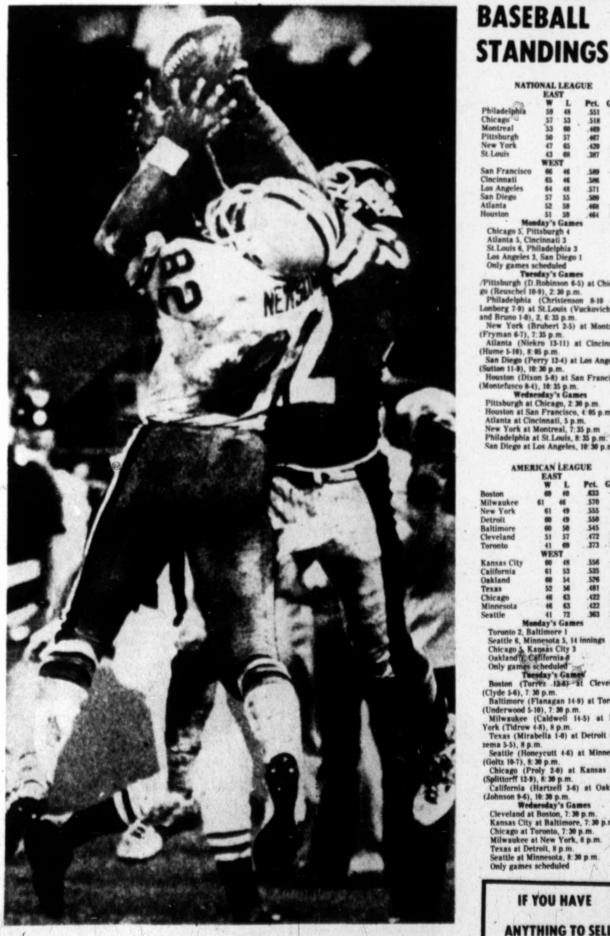

WEST

Kansas City

third games' 100-meter sprint title in nine years nipping Scotland's Allan Wells and Hasely Crawford of Trinidad-Tobago with a games' record of 10.03 seconds.

Rono, the Kenyan wonder who holds four world distance-running records, won easily in Monday's 3,000-meter steeplechase, but disappointed the stadium crowd of about 35,000 by running more than 21

OZZIE NEWSOME, left, of the Cleveland Browns and New York Giants' Ray Rhodes, right, battle for a third period pass intended for Newsome. They both failed, however, and the pass fell incomplete. The Giants won the NFL exhibition, 21-7 Monday night in Cleveland. (AP Laserphoto).
