## BLANTON LEAVES FOR WASHINGTON

THOMAS L. BLANTON

Congressman Thomas L. Blanton Returned To Washington Tuesday to Continue Work Checking up "Increasing Bureaus."

Congressman Thomas L. Blanton of Abilene stated Saturday that he and his family would leave Tuesday for Washington, where he is to continue his summer work of checking up and investigating "our numerous and eternally increasing bureaus, commissions and independent establishments of government."

Each summer for the past six years, he has been engaged in this work and with the completion of three more bureaus his work will have been finished and he will be ready with his reports for the next session of Congress.

He will be absent until the appropriations committee is though, he stated Saturday.

Concerning this activity, he said: "We have ten departments of Government presided over by ten Members of the President's cabinet and in each of such departments there are numerous bureaus. For instance, there are 16 bureaus in the Department of the Interior; there are 22 bureaus in the Agricultural Department; there are 18 bureaus in the Treasury Department; and in addition to the numerous bureaus in the other seven departments, there are 73 Commissions and Independent Establishments of the United States Government."

Congressman Blanton in his check up and investigation of them, ascertains what becomes of the money that each receives from the Treasury annually, into whose pockets it goes, what benefits the people receive therefrom, whether such appropriations are duly authorized by law, and whether such bureau is of sufficient value to the people that it should be continued.

Then after gathering his detailed information, he is prepared, when the supply bill granting appropriations for that bureau is before the House for passage, to make proper points of order against all items of appropriation therein which are unauthorized by law. And every appropriation he knocks out of such bills is just so much saved in taxes for the people. And we have seen reliable evidence of the fact that by his points of order Congressman Blanton has been able to knock several hundred million of dollars out of appropriation bills.—Abilene Morning Times.

## Drilling With Rotary Machine Here Now

The first rotary drilling machine to be used in the oil fields here, is being rigged up by Shaw & Rathke on the Miller No. 8 five miles west of Cross Plains. Its progress will be watched with interest. The machine was shipped in several days ago and they expect to start drilling at once, it is understood. This field has never been considered as suitable for rotary drilling machines, but their use may prove to be more practical than some thought. Anyway, we live and learn and learn to live, and we shall see what we shall see.—Cross Plains Review.

## Second A. E. F. Off To France Again

Wm. S. Parks, who won the free trip to France, in the contest recently closed, and Claude Flores, will sail to day from Galveston, on the ship "Chicago" for France to attend the annual meeting of the American Legion, which will be held in Paris, beginning on September 19th and ending September 24th.

Claude Flores was among the very first Callahan County boys to enlist. He enlisted in the 12th Engineers at St. Louis, on March, 1917 and sailed for France a few weeks later, where his regiment was with the British Army most of the time, being transferred to the American Army only a few months before the war ended.

Mr. Parks belonged to the 111th Engineers of the 36th Division, he being from Oklahoma, which with the Texas troops made up the 36th Division. Ross Wagner, of Cross Plains, who won the free trip in the Legion Contest in that city, will also sail on the "Chicago". It is estimated that some thirty thousand world-war veterans will attend the Legion Convention. The boys will be gone about two months, as they plan to make some side trips to points of interest on the battle front.

Mr. Flores left Saturday for Cisco to spend the week end with his sister, Mrs. Henry Benham and family and he also expects to visit friends in Dallas a few days before sailing. Mr. Parks, wife and little daughter, Billie, left Monday for Tulsa, Okla., for a few days visit with Mr. Park's mother. Mrs. Parks and little daughter will visit relatives in Skiatook, Oklahoma, during Mr. Parks absence.

It is a wonderful trip and we wish the boys bon voyage.

Dr. and Mrs. J. M. Estes, Mrs. Grady Kinsolving, Miss Leola J. Seatrunk, Jesse L. Tomberlin, Miss Maggie E. Thorp, of Abilene, will sail on the "Chicago" and Mr. and Mrs. R. C. Winters, of Abilene, will sail September 8th on the ship "De Grasse" from New York.

## Second Annual Labor Day Shoot At Abilene

Abilene will hold its Second Annual Labor Day Shoot, Monday, September 5th. A free dinner will be served to shooters and their families. A number of interesting events have been arranged and a number of cash prizes will be given.

Abilene hopes to bring the State Shoot to that city in 1929.

## Polo Game At West Texas Fair

Many visitors to the West Texas Fair will have the opportunity this year for the first time witnessing a game of Polo. This sport has been an important one in England and other British controlled areas for many years and is now gaining widespread favor in America.

Two of the best polo clubs of the southwest, the Abilene Polo and Saddle Club and the Dallas Saddle and Bridle Club will furnish the outdoor attraction at the Fair grandstand on Friday, September 30.

In addition to the polo game, the spectators will be given extra features such as special riding exhibitions and an interesting horse show. The entire program will require about two hours and will start at 3 p. m.

In order to be in the tip-top shape for this match the Abilene club has secured First Lieutenant John A. Smith of San Antonio, one of the most versatile poloists in the United States Army, as instructor and coach and he will spend all the month of September with the local aggregation getting the individual players trimmed and trained for the Fair Week battle with the Dallas riders.

Smith was a member of the crack U. S. Army team which defeated the best polo players of the British army in a tournament held in London in 1925 and his work here is expected to be of wonderful help to the local club.

Despite the opinion held by many people that polo is a game for the idle rich and wealthy, the contest that will be offered during the fair will be given for the very low admission price of fifty cents.

## Morgan Chevrolet Co. Sells Eleven Trucks In Month Of August

Mr. C. V. Morgan, manager of the Morgan Chevrolet Company tells a representative of The Star that he sold and delivered eleven Chevrolet Trucks during the month of August to the following persons:

George D. Collins, Dudley, one truck.

McClung Construction Company, one truck.

Dr. Looney, Oplin, one truck.

Schultz Bakery, Abilene, two paneled trucks.

Sullivan & Davis, Abilene, six one ton trucks.

This is good evidence that it pays to advertise, and sell what you advertise, and the Chevrolet people certainly believe in advertising. Look where you will—the newspapers, magazines, bill boards—and you see the Chevrolet advertised.

### W. K. BOATWRIGHT VISITS CARLSBAD CAVERAN

W. K. Boatwright returned a few days ago from a trip with a party of friends from the Eastern part of the state, to West Texas and New Mexico. They spent two days at Cloudercroft where the thermometer registered 38 at night. From there they went to Carlsbad, New Mexico, and with a large party, visited the wonderful Cavern, 33 miles southwest from Carlsbad.

Mr. Boatwright says that he did not intend to go into the caves, but he did, and beheld the most wonderful sights in all the world. Great caverns, hundreds of feet wide, and three hundred feet to the ceiling. This large room is called the "King's Palace" and with its glittering stalactites, revealed by the lights, was the most magnificent sight he ever beheld. Next to this they entered a smaller cavern, called the "Queen's Palace". The party carried their lunch and ate it in the "King's Palace". The trip through this underground wonder, required a day. There is not an insect or life of any kind in the caverns, except in a large upper cavern occupied by millions of bats, but the party did not enter this part, so far as known there is but one opening to this, one of the most wonderful works of nature in America.

The caverns were discovered by an old cowboy, who was present the day Mr. Boatwright and party visited the caverns. He thinks that there will be found other openings to the caverns, but diligent search so far has not revealed them. The caverns are on such a stupendous scale that other openings, if they exist, may be miles away from the only one known.

Mr. Boatwright says that the air in the deepest caverns appear to be fresh and is pleasant. This is one reason many believe that there must be other openings as the air could hardly remain fresh without more than one opening to such vast caverns.

Mr. Boatwright says that the bats in the upper cavern in the mountains come out by the millions about night, but he did not wait for this, said to be a remarkable sight. The guano from this bat cave is said to be a source of considerable revenue to the owners. The day Mr. Boatwright and party visited the caverns, over four hundred people from 16 states, registered at the caverns.

## R. E. Bounds Building New Blacksmith Shop

R. E. Bounds began the erection of a new building to be used as a blacksmith shop, on his lot just across the street north-east from his present location. The building will be 50x40 feet with a south front. It will be large and substantially built.

Mr. Bounds is an expert workman and has all modern machinery, electrically run, and when he gets moved into his new building, Baird will have one of the very best shops in this section. In addition to blacksmith work, Mr. Bounds does all kind of wood work, and we believe his shop is the only one in the county that one can get a horse shod.

## DRILLING ACTIVE NORTH OF BAIRD

With one completion, one drilling at a depth of 300 feet and two machines rigging up preparatory to drilling Gibson & Johnson, Abilene operators, plan to sink a total of 18 tests north of Baird in Callahan county as rapidly as the contractor's three machines can do the work, declared H. F. Gibson Friday night.

### ONE COMPLETION

The completed well is the No. 9-N Neuman, east 80 acres of the west 120 acres of NW1-4 survey No. 5, D. & D. A. lands on which was sunk beyond contract depth of 475 feet and is being plugged at 482 feet. The machine from the No. 9-N was moved to the No. 8-N Neuman location.

The plan to sink the 18 tests was made public several weeks ago by Gibson & Johnson and the locations for the wells are scattered over the Wylie, Snyder and Neuman ranches in northern Callahan county. The contract depths range from 475 feet to 1,100 feet. One new location on the I. N. Jackson ranch was not announced in the original 18 wells and with that new location on which a machine is drilling at around 300 feet, the most extensive single drilling program in Texas. The Jackson No. 1 is located in the southeast corner of the W1-2 of the S1-2 section 5, E. T. R. R. survey.

The other location on which preparations are being completed to drill immediately, is the Snyder No. 1S, 1100-foot test, 150 feet south of the north line and 150 feet west of east line of the NE1-4 of SW1-4 of section 138 BBB&CRR survey, Callahan county.

## Poultry Possibilities Of Texas Pointed Out

Texas has many advantages over the North, East and West, and should take her place in the poultry world, declared R. R. Walker, agriculture agent of the H. K. T. Railway, who returned Thursday from the World's Poultry Congress, Ottawa, Canada, and from a past-congress tour conducted by the United States Department of Agriculture over the East.

"Eggs from the Pacific Coast are in transit approximately ten days and many of the Pacific Coast eggs are produced from Texas feeds, Mr. Walker said. "The distance the Pacific eggs travel is approximately twice the distance from Texas points."

"It is time for Texas to produce and sell her own products on their merits, but it is unwise to attempt to enter any market with inferior quality."

Commenting on the difference in types of poultry in the West, North and East, Mr. Walker said the methods in the North and East were more applicable to Texas than the methods practiced on the Pacific Coast. He said many lessons are to be learned from the Canadian poultryman, inasmuch as their poultry raising is now conducted on an intensive scale but small, with quality and high producing ability of hens.—Dallas News.

**Shyster Lawyer Had  
Overlooked a Point**

When Musa Ben Adhem was poor, as he was crossing a plain one day, he came to the house of the widow Zaldah, who was poor also. Musa knocked and told the widow of his hunger, and she gave him two hard-boiled eggs, all the food she had.  
In after years, when Musa Ben Adhem had grown rich, Abdullah, the shyster lawyer, persuaded the widow to sue him, not for her two eggs alone, but for the two chickens which they would have become, together with all the chickens' eggs and offspring, a vast sum equal to the whole of Musa Ben Adhem's fortune.  
"Where is the defendant in this case? Why isn't he present?" the judge demanded sternly.  
Then the brilliant young corporation lawyer, Haroun, rose and said in his suave voice:  
"I represent the defendant, your honor. I have sent him out into the country to sow baked potatoes."  
"To sow baked potatoes?"  
"Yes, your honor."  
"Why, he must be mad. You must be mad. The pair of you are mad."  
"No, your honor, we are very wise," said Haroun in a suaver voice than ever. "for surely, if boiled eggs can be hatched, baked potatoes can be grown."  
The judge laughed heartily. Then he delivered judgment against Abdullah, the shyster lawyer, with heavy costs.

**Porridge That Makes  
for Domestic Felicity**

When a husband begins staying out late at night and cultivating his crop of wild oats, the women of the native tribes in central Africa provide him with a bit of food considered certain to bring him back to the paths of domesticity and proper conduct. The food must be served without his knowledge, but, once it has entered his system, the woman expects him to be a model husband for all the years ahead, says the Adventure Magazine.  
The food is a porridge thickened with meal made from the flesh of dried lizards. The wife, taking the lizard, kills it, dries the body in the sun, pounds it to a fine powder with stones, then pours into his porridge the dose the misconduct of her husband appears to require.  
She is supposed to serve it to him when he comes in from hard labor, is tired and hungry, liable to take the food and devour it without asking questions. The dried lizard powder porridge is the antidote for divorce court troubles, and is said to work well among the people there.

In the argument before the Board of Water Engineers at Austin, Monday, on Brownwood's application for a permit to build a dam on Pecan Bayou for irrigation and municipal purpose. The cloven foot of the utterly selfish interest, of a few people to control all the water of the Colorado river, and its tributaries, to the exclusion and injury of thousands of people on this river above Austin, was fully revealed to the people of Texas. If the Board of Water Engineers decides against the people of Brown county, which seems unthinkable, but if they do we are going to see some of the liveliest times in political circles in Texas from now on that we have seen for years. If the owners of 70,000 acres of irrigated lands at the mouth of the Colorado river and a syndicate Power Company organized for purely speculative purposes, can control all the water of one river by law, then this can be done on any other river in Texas.

The charge by these selfish interests is made in the public press that the Abilene Mass meeting was purely a political gesture promoted by Congressman Blanton and state Senator Woodward of Coleman. This is not true, but is an effort of West Texas to prevent a few people monopolizing all the water of the Colorado River to the injury of a hundred times more people than benefited by this slick scheme.

Jay Alexander, one of the promoters of the syndicate Power Company organized for speculative purposes solely as the Abilene meeting disclosed, is quoted as saying a month ago that Brownwood should not have a drop of water. This shows the utter selfishness of the interest that now claims the entire water flow of one of the main rivers of Texas.

Alexander and his associates by their acts show that they secured these water rights for purely speculative purposes, because they were negotiating with the Insull people of Chicago to sell their rights secured so easily and so cheap. News comes that the Insull people have withdrawn their offer to buy the Alexander interests. We hope this is true not that we want to injure any interest but to prevent a few injuring the many.

No one in this section wants to prevent the rice growers, Power Company or any one else utilizing all the waters that they can secure from the Colorado, provided they cease objecting to the development of the upper reaches of the river for irrigation and water power. The Insull people have large interests in West Texas and they are too shrewd to antagonize the people of Texas on a proposition that would injure more people than it would benefit.

If the laws do not give all the people from the mouth to the head of every river in Texas an equal showing for irrigating and power purposes then such laws are a fraud, and contrary to every principle of right and justice and should be changed or repealed, and at once.

If the Board of Water Engineers decides against the application of Brown County, people then a special session of the Legislature should be called at once to amend the law to prevent a few selfish interests gobbling up the water rights of every river in Texas. Fair play and equal rights is all that the people of West Texas ask of the Board of Water Engineers. It is not necessary to cancel the permits already given, un-

less these permits exclude the right of the people above Austin to impound waters of the Colorado River, for irrigation or any other purpose.

Let the rice growers and the syndicate Power Company use all the water they can secure, but let others have the same right. One of the greatest things for all the people living on the Colorado river and its tributaries would be a system of great reservoirs all along the river 20 to 30 miles apart, or where ever a suitable site for a reservoir could be found, such a system in time would increase the natural flow of the river and the few rice growers, five hundred miles south of us would have more water than they have now. Selfish interest certainly ought not to be allowed to control the waters of Texas rivers.

For forty years The Star has advocated impounding the flood waters in the streams of West Texas, but if the contention of the selfish interest are allowed to control all the waters of the Colorado river then not one could build a dam across Pecan Bayou that heads in this county. No, not if the dam was within 100 yards of the head. This shows how far reaching is the claim of the selfish interest seeking by law to control all the waters of the Colorado River.

A BUSY SUMMER

While many of our people and

some of our preachers over the land were away from their work taking a much needed vacation, the pastor of the Baptist Church of Baird, was very busy, engaged holding Revival Meetings. Since the meeting here with the church, Pastor Mayes has preached through six meetings and has done the singing through these six meetings and one other, making seven in all and in connection with two of the meetings he conducted a singing school.

In the meetings there were some fifty conversions and as many additions to the churches. Now that is not as large a number as many would even be able to report in just one meeting. Brother Mayes says: well all I can say is, that I told them how and if they would not believe in Jesus and be saved, I had no way of making them do so. I feel that I have done my part in the meetings and perhaps the good Lord can take care of his part of it even better than I.

I think every where I have been in a meeting this summer, I have been able to leave the community in a better shape than I found it.

BAPTIST PASTOR HOME

The pastor of the Baptist Church will be in his pulpit at both hours next Sunday, and he is very anxious to meet every body there, and especially the members of the Baptist Church.

It seems a long time since we worshiped together, so let us all make our arrangements to be right there and stay through Sunday School and preaching. Do not let anything keep you away, if you can possibly prevent it. I will look for you.

My morning sermon will be about the World's Most Wonderful Court ship. Now you come and hear about it. At night I will preach a sermon on Love that you should hear.

Now if you want to see me as much as I do you, and if you are as much interested in the work of the Kingdom, and the Salvation of the Lost Souls of men, as I am, you will be right in your places. I believe you are, and so I will look for you. Come let us get acquainted again.  
Sincerely,  
Joe R. Mayes.

The marriage of Mr. Leroy T. Patton of Lubbock and Miss Bertha Eubank of Baird, Texas, took place at 12:30 p. m. Saturday, August 20 at the home of the bride's parents, Mr. and Mrs. J. B. Eubank. Flower song was played softly during the ceremony.

The bride wore a frock of white crepe and lace. Her veil of tulle was arranged in cup shape being held in place with a triple band of orange blossoms. She carried a shower bouquet of white rose buds and lilies. Following the ceremony a noon breakfast was served to the friends and relatives of the bride and groom.

RESOLUTION OF RESPECT

To the Officers and Members of Holley Grove No. 570, W. C.

Whereas, it has been the will of our Almighty Father to call to that home on high, our dearly beloved Grove Clerk, Sov. Cora L. Estes, who departed this life on Sunday, August 7th. Sov. A Tribute To Workers

Labor Day  
Monday, September 5

The America in which we live is the creation of workers. All the dreams that have gone into the making of the nation would have been useless except for the keen brains and skillful hands of millions upon millions of working men and women—people who, in city and country alike, have labored faithfully and courageously at their countless appointed tasks.

This bank, on Labor Day, is proud to join in paying tribute to all those who work. And we value highly the privilege and the opportunity which we have as a bank of co-operating with workers in many lines to the end that they may accomplish more for themselves as a result of their labor.

Perfect Comfort --  
for the woman driver

### An Adjustable Steering Column to Suit Your Convenience

Buick for 1928 is extremely thoughtful of feminine comfort. One indication of this consideration is Buick's new steering column, which may be adjusted to the most comfortable position for women, as well as men.

And in addition, Buick for 1928 has a new steering wheel—slender to fit feminine fingers—yet deep and solid to provide the firm grip men demand.

Buick for 1928 pleases women because it is easier to drive—because it is more comfortable to ride in—and because it is the acknowledged style-leader among motor cars. That's why you see so many Buicks at fashionable gatherings and on the smartest boulevards.

**SOLOMON'S WISE CHOICE**

LESSON TEXT—1 Kings 3:4-12.  
GOLDEN TEXT—Happy is the man  
who findeth wisdom and the man that  
getteth understanding.

PRIMARY TOPIC—Solomon's Wise  
Choice.  
JUNIOR TOPIC—A Young Man's  
Wise Choice.

INTERMEDIATE AND SENIOR TOP-  
IC—Choosing Things Worth While.  
YOUNG PEOPLE AND ADULT TOP-  
IC—The Best Things in Life.

Following the death of David, Solo-  
mon was anointed king (1 Kings  
1:5-40). David had failed to show the  
people who should be king after him  
(v. 20). Though an old man, he is  
stirred into action by the combined ap-  
peals of Bathsheba and Nathan. He  
immediately sent for the faithful three  
—Zadok, Nathan and Benish and com-  
manded them to anoint Solomon king

**I. God's Gracious Offer** (vv. 4, 5).  
Solomon made a lavish sacrifice to  
the Lord. The magnitude of the offer-  
ing shows that he had strong impulses  
toward God and that he was unwilling  
to hold anything back from God. Fol-  
lowing the sacrifice, the Lord made  
to him this gracious offer. This offer  
was not on the basis that the Lord  
cared for the number of animals, but  
the attitude of the man's heart toward  
him. "Ask what I shall give thee,"  
placed very wide possibilities before  
the king. God, as it were, signed  
blank checks and turned them over to  
Solomon to fill in any amount that  
his heart desired. This was not a  
reckless act on the part of God, for  
He foreknew what was in Solomon's  
heart to ask. This offer to Solomon  
is no exceptional one, for opportu-  
nities equally limitless are placed be-  
fore us. God is saying to every one  
of His children, "Ask and it shall be  
given you." The matter with its limi-  
tations is placed before us in John  
15:7. "If ye abide in Me and My  
words abide in you, ye shall ask what  
ye will, and it shall be done unto you."  
These unlimited offers are open to  
those who abide in Christ and let His  
words abide in them.

**II. Solomon's Wise Choice** (vv. 6-9).  
The Lord's gracious offer brought  
the king face to face with the res-  
ponsibility of making a choice. There  
was no middle course open to him.  
God deals with all His children in  
such a way that a choice must be  
made by them. Solomon was keenly  
aware of the difficulty and responsi-  
bility of his position. David was a  
great king. For a young man to take  
up the work of an illustrious father  
and push it to completion is a most  
difficult task. Comparatively few ever  
succeed. Besides this, he had to deal  
with the disturbing elements which  
had been set in motion by the usurper,  
Adonijah. Being made to shoulder so  
great a responsibility so suddenly,  
brought him to keenly feel his insuf-  
ficiency. In his reply to God he plead-  
ed that his being king was not of his  
own choice but an act of God's loving  
kindness. He argued that, since God  
had made him king, He was bound to  
qualify him to fill the place. All who  
have been called of God to fill posi-  
tions of honor and trust can surely  
exercise that same boldness of faith.  
When called to positions of honor and  
trust we should humbly present our-  
selves before God for help. To feel  
ourselves unworthy and unfit for great  
and responsible work and to cast our-  
selves upon God for help is not cow-  
ardice, but a good sign that we shall  
not fail at the critical moment. Solo-  
mon's object in asking for wisdom was  
not for display but for the good of  
others.

**III. God's Untinted Gift** (vv.  
10-15).  
Solomon's speech pleased the Lord.  
God gave him more than he asked.  
Because he put wisdom first, God saw  
that he could be trusted with material  
good also. Christ saw the same thing  
when He said, "Seek ye first the king-  
dom of God, and His righteousness; and  
all these things shall be added unto  
you" (Matt. 6:33). He who puts  
God and spiritual things first in time  
and importance can be trusted with  
temporal things. That which God  
promised him above what he asked  
was riches, honor and length of days.  
All who feel the lack of wisdom can  
go to God with confidence (Jas. 1:5).  
God blessed Solomon with a singularly  
comprehensive mind (1 Kings  
4:29-34). He was a botanist, zoologist,  
architect, poet and moral philosopher.

**Christian Life**

"The perfection of the Christian  
life is to lose sight of oneself com-  
pletely and to make everything of  
Christ."

**No Man His Own Master**

No man is his own master; he is  
either governed by Christ or governed  
by Satan.—Echoes.

**God Is Faithful**

God is faithful, and He can never  
allow anyone to be empty in His  
blessed presence.—Echoes.

Humility is to make a right esti-  
mate of one's self.—Spurgeon.

Lesson for September 11

**SOLOMON DEDICATES THE  
TEMPLE**

LESSON TEXT—1 Kings, chapter 8.  
GOLDEN TEXT—I was glad when  
they said unto me, let us go into the  
house of the Lord.

PRIMARY TOPIC—Worshipping in  
God's House.  
JUNIOR TOPIC—A Young Man's  
Love for God's House.

INTERMEDIATE AND SENIOR TOP-  
IC—Love for God's House.  
YOUNG PEOPLE AND ADULT TOP-  
IC—The Value of God's House to a  
Community.

The first task of Solomon after his  
coronation was the building of the  
temple, a privilege which was denied to  
his father, David. In his prepara-  
tion for this task he secured wood  
from King Hiram of Tyre, stones for  
the foundations from the Phoenicians,  
skilled workmen also from King  
Hiram. It was located on Mount  
Moriah (II Chron. 3:1). The suitableness  
of this place was due to the fact  
that the Lord had appeared here to  
Abraham. Its dimensions were 90  
feet long, 30 feet wide, and 45 feet  
high. It contained the brazen altar,  
the laver, the golden candlesticks and  
cherubim. The dedication of the tem-  
ple was arranged to take place at an  
auspicious time. The dedicatory serv-  
ices consisted of:

**I. Bringing Up the Ark** (vv. 1-11).

The ark of the covenant was typical  
of Jesus Christ. God dwells among  
men through Jesus Christ (John 1:14).  
The ark was God's holy dwelling place.  
This, therefore, must be brought up  
first and placed in the temple. For  
the manifestation of the divine pres-  
ence was the real dedication. When  
the house of God was to be dedicated  
the king arranged for a representative  
gathering of the people, consisting of  
the elders, princes and heads of the  
tribes. There were many great men  
present, but only the priests, God's  
appointed ministers, moved the ark.  
The fatal experience of Uzzah in  
David's time was doubtless clear in  
their minds. Solomon profited by the  
blunder of his father. Connected with  
this service was a very great sacrifice,  
one in keeping with the occasion. The  
ark with the two tablets of stone un-  
der the mercy seat shows God mani-  
festing Himself to His people on the  
ground of a law perfectly kept and  
since atoned for by the shedding of  
blood. At the completion of the sacri-  
fice, the temple was filled with the  
glory of the Lord.

**II. Solomon's Address to the People**  
(vv. 12-21).

He points out to the people that God  
had chosen David to be king, yet for  
certain reasons He would not allow  
him to build the temple, promising  
that his son should do the work. Now  
that the work was done, the temple  
was built and the ark of the covenant  
was in its place, they could be as-  
sured that God had raised him up in  
the room of his father.

**III. Solomon's Dedicatory Prayer**  
(vv. 22-53).

The ark having now been placed in  
the most holy place, and the address  
to the people being ended, the king  
pours out his soul to God in prayer.  
In this prayer Solomon gratefully ac-  
knowledges God's goodness in the  
past, giving glory to Him, and pleads  
that His promise to his father be ver-  
ified (vv. 22-26); he prays that God's  
eyes might be continually open toward  
the temple which He had now taken  
possession of (vv. 27-33); so that (1)  
in case of contention between parties  
He would judge between them (vv. 31,  
32); (2) in case of being smitten by  
the enemy, even though they had  
sinned, upon confession of the same,  
God would forgive and restore (vv.  
33, 34); (3) in case of famine as chastise-  
ment for sin, upon confession and  
prayer before the temple, God would  
forgive and send rain (vv. 35, 36); (4)  
in case of pestilence and sickness,  
if they pray to God toward the tem-  
ple, God should hear and forgive (vv.  
37-40); (5) in case of the coming of  
the foreigner who comes at the news  
of God's greatness, and prays toward  
Jerusalem, his prayers should be  
heard (vv. 41-43); (6) in case of go-  
ing out to battle, their cause should  
be maintained (vv. 44, 45); (7) in  
case of being in captivity because of  
sin, God should hear their prayers  
and restore (vv. 46-53).

**IV. Solomon Blesses the People** (vv.  
54-61).

On the strength of the covenant  
promises, he invokes His presence al-  
ways with them to keep them faithful,  
and exhorts the people to have their  
hearts perfect before God, walking in  
His commandments and statutes.

**V. Solomon and the People Offer  
Sacrifices of Thanksgiving** (vv. 62-66).

**Ideals Like Stars**

Ideals are like stars; you will not  
succeed in reaching them with your  
hands; but, like the seafaring man on  
the desert of waters, you choose them  
as your guides, and, following them,  
you reach your destiny.—Exchange.

**Charming Human Beings**

It is always good to know, if only  
in passing, charming human beings.  
It refreshes one like flowers and  
woods and clear brooks.—George  
Eliot.

Tea Time Tasties

By CAROLINE B. KING,  
Culinary Expert and Lecturer on Domestic Science

**EVERY**

hostess is ambitious  
to have her tea table  
popular one. The beau-  
tiful between the large affairs of  
the day and dinner may be such  
a cozy, intimate, jolly one, if every  
thing pertaining to it is just right.  
Pretty appointments, chatty guests,  
unusual and dainty things to eat,  
spell success, whether the tea be an  
informal studio affair or something  
more elaborate.

Savory bites are always popular  
at tea time. The tasty morsels de-  
scribed here are all different and  
tempting enough to make fascinat-  
ing additions to the tea table. They  
may be served with tea, coffee or  
cocoa, or with a fruit punch, as  
preferred.

**Swiss Fattines:**

Make a flaky pastry as for pies.  
Roll thin and spread with grated  
Switzerland cheese, fold and roll  
again. Then cut in small rounds.  
Cut half the rounds in rings, using  
a smaller cutter, and place those on  
the cheese circles, pressing them  
together lightly. Brush with milk

**Clerk Becomes**

**Acting Head of Bank**

Raleigh, N. C.—Advancement to office in a small-town bank was accorded Miss Bertha Hellen by its president because she was a woman.

Being an ambitious clerk she immediately resigned. Today she is assistant and acting cashier of one of the largest banks in North Carolina. She was recently elected the state's leading business woman.

Bank officials, she says, are generally not in favor of pushing their woman employees into executive positions. For this reason women have to work harder than men to succeed. Because they possess "tact," personality, honesty, loyalty and care for details, all important banking "requirements," she believes the day of woman bankers is dawning.

**Crippled Boy Raises**

**Prize Chicken Flock**

Raleigh, N. C.—Being a cripple has not prevented Clifford Slpe, Catawba county farm lad, from raising a prize flock of chickens.

Clifford, who is thirteen years old, makes his rounds about the farm in a wagon, the motive power of which is furnished by a billy goat. Last year he made a net profit of \$100 from a flock of Dark Brahmas. Clifford and the goat also attend school regularly.

**Effects of Hurricane**

A West Indian hurricane means days of anxiety to the inhabitants of the southern coast cities. The government gets reports of the approaching storms long before they reach the American coast. When the storm strikes it may demolish sea walls, tear down telegraph and telephone wires, and destroy buildings and ships at anchor in the harbors. Galveston, Charleston and other cities have paid dearly in the past for their unpreparedness.

In a single season a hundred vessels, large and small, have been wrecked, a thousand buildings seriously damaged, scores of lives lost and hundreds of miles of sea walls, docks and telegraph wires destroyed.

**Building Note**

A colored cook came home after midnight from a revival meeting shouting at the top of her voice. Her employer, letting her in, said:

"Aunt Mandy, this is all foolishness. Religion shouldn't be so noisy. Tell that preacher of yours to give a sermon on the building of King Solomon's temple, which arose without even the sound of a hammer. And remember that real religion is quiet and peaceful."

"Lawd, honey," answered Aunt Mandy, "us folks ain't almin' to build no temple yit. We is jes' blastin' now!"—Capper's Weekly.

**Thunderstorm's Beginning**

The thunderstorm is owing to the rapid vertical convection of air containing a large amount of water vapor. The lower air must, therefore, be rather warm, say 70 degrees Fahrenheit or over, else it would not carry the requisite amount of water vapor, and the temperature must decrease rather rapidly with increase of height, else there would be but little or no convection. In the summer time the humidity in Oregon and Washington is rather low. Hence thunderstorms generally are improbable. In the winter time, when most of the rains come, the surface commonly is too cool to set up vigorous vertical convection. Hence thunderstorms are not likely. Thunderstorms are not frequent in Oregon and Washington any time of the year.

**Anglo-Scotch Idioms**

The way in which Scottish and English idioms differ are legion, and anyone attempting to make an exhaustive list would probably find the proverbial three score and ten a span too short for the task. Sir James Wilson, who has been making a study of the dialects of central Scotland, cites as examples: Whereas an Englishman "oversleeps himself," invites a friend "to tea" and asks: "What will you take?" a Scot "sleeps in," invites you "to your tea" and hospitably inquires: "What are ye for?"

## NEWS REVIEW OF CURRENT EVENTS

### Sacco and Vanzetti Execution Marked by Many Riots by Radicals.

By EDWARD W. PICKARD

EVERY means of saving their lives having failed, Sacco and Vanzetti, the Massachusetts anarchists convicted of murder, were executed in the state prison at Charlestown, Madros, the Portuguese murderer, went to his death in the electric chair at the same time. Thus, so far as the agencies of justice are concerned, ends this seven-year incident that has caused such a rumour in America and throughout the world. But the radicals and sentimentalists who assert that the execution was a judicial murder propose to keep the case alive indefinitely. They announce plans for raising a fund to create a memorial to the two men and to endow Mrs. Sacco and her children, and an organization that will undertake to establish the innocence of the "victims" and to expose the alleged conspiracy that sent them to their death. The bodies of the men were cremated, and the ashes of Vanzetti, it is planned, will be exhibited in various European cities.

Immediately before and after the execution there were violent demonstrations in many cities here and abroad, though those in the United States were efficiently handled by the police. The radicals in Paris were especially active, staging several riots in which they fought the police and troops, barricaded streets and looted shops. Scores were injured and the property damage was large. The mob besieged the American embassy but it was adequately guarded. Leaders of the French Reds loudly proclaimed that the meeting of the American Legion in Paris would be ruined, but these threats are in the main disregarded. Other riots, carefully prepared in advance, were put on in London, Leipzig, Amsterdam, Lisbon, Warsaw, Brussels, and Geneva. In Johannesburg, South Africa, an American flag was burned on the steps of the town hall. Peaceful demonstrations were made in Berlin and Sydney.

It is probable that a vast majority of Americans, convinced that justice, long delayed, was done in the Sacco-Vanzetti case, are tired of reading about it.

PAUL R. REDFERN started in the plane "Port of Brunswick" from Brunswick, Ga., for a nonstop flight to Rio De Janeiro, Brazil. If he makes the 4,000-mile trip successfully, he will have established a new record for nonstop flights.

HOPE of finding the five lost trans-Pacific aviators and their two would-be rescuers, Captain Erwin and A. H. Eichwaldt, who went out in the plane Dallas Spirit to aid in the search, was virtually abandoned, though the vessel of the navy may keep up the hunt for some time yet. The sea between San Francisco and Hawaii was scoured for any sign of the missing flyers but no trace was found. During the week there was a report that a flare had been seen on the slopes of Mauna Kea and it was considered possible that either the plane carrying Pedlar, Knope and Miss Doran or that carrying Frost and Scott had swung south of its course and crashed on the mountain. Therefore, searching parties were started out, but at this writing no word of their success has come. As for Erwin and Eichwaldt, their location at the time they sent their SOS as they went into a tailspin is known approximately, and boats that were hurried there found not even an oil spot.

PRESIDENT AND MRS. COOLIDGE spent the week in the Yellowstone National park, viewing its many wonders and thoroughly enjoying themselves despite the swarms of tourists that made the trip too much of a public event to suit the Chief Executive. Both Mr. and Mrs. Coolidge tried the

trout fishing on Lake Yellowstone, and both were eminently successful in hooking the speckled beauties.

SECRETARY OF COMMERCE HOOVER, returning to Washington, declined to comment on his reported Presidential candidacy. On his behalf it was stated that he was giving thought only to the duties of his office. His friends denied that he had authorized anyone to form an organization to campaign for delegates to the Republican national convention. It was specifically denied that W. Ward Smith, former secretary to Nathan L. Miller, former governor of New York and now counsel for the United States Steel corporation, was authorized to do anything in Mr. Hoover's behalf. Mr. Smith and Mr. Miller were both active in promoting a boom for Mr. Hoover for President at the time of the 1920 Republican convention.

Vice President Dawes, in a letter to Douglas T. Atkinson of Cincinnati, judge advocate of the Young America Union, secret nonsectarian political organization, relating to the possibility that he might run for President, said: "I am not a candidate for the nomination."

Minneapolis has notified the Republican national committee that it is a contender for the 1928 convention, and that it has a fine new auditorium and ample hotel accommodations. Whether or not Minneapolis is ready to make a financial guarantee was not indicated. San Francisco thus far is the only city which has come forward with the necessary \$250,000 guarantee.

DURING Japanese naval maneuvers off the port of Malakka the cruiser Jintzo collided with and sank the destroyer Warabi in the night. Ninety men and petty officers and 12 officers of the destroyer's company were drowned. About the same time the cruiser Naka collided with the destroyer Ashi, cutting through her afterpart, which resulted in the loss of 27 other men. The Naka was not seriously damaged and proceeded to port after temporary repairs, but the Ashi was towed in.

This was the second disaster in the Japanese navy in August. On the first day of the month 38 men were killed and 47 wounded when a mine exploded on the deck of the minelayer Tokiwa. The explosion occurred while the vessel was engaged in maneuvers off Kishu Island.

ACCORDING to the Washington Post, the State department has learned from trustworthy sources that Great Britain and Japan came to a mutually satisfactory secret understanding regarding future naval supremacy when it finally became apparent the United States would not accept the British program at the recent Geneva conference. The gist of the secret understanding has not been divulged, the newspaper adds, declaring that it is doubtful if much definite information on its contents is available to the officials of the American government.

MAYOR "JIMMY" WALKER of New York, touring European countries, was something of a joke in Great Britain, but when he reached Germany there were complications. These developed from the refusal of the hotel where he was stopping in Berlin to fly the German republic flag alongside the American flag when a banquet was given him, as he had requested. The owners and managers of all the big hotels had promised the American club that they would show the flag of the German republic and then reneged because they feared their established clientele, made up largely of monarchists, would object. The city administration immediately declared that all officials must boycott those hotels, and republicans throughout the country took up the issue.

CHARLIE CHAPLIN'S divorce case is ended, so far as the film comedian is concerned. After the long months of bickering and recrimination, an agreement was reached and Mrs. Chaplin was granted a divorce decree and the custody of the children. The grounds were "mental cruelty," and Chaplin put on no defense, though four of his attorneys addressed the

court in his behalf, for the apparent purpose of winning public sympathy. Chaplin agreed to pay to his wife \$625,000, and to establish a trust fund of \$200,000 for the children, the principal to go to them when the youngest is thirty-five years old. W. L. Gilbert and Herman Spitzel, receivers, who handled the property of Chaplin and defendant movie corporations during the divorce negotiations presented a bill for services to the court and were awarded \$45,000. Counsel for both Chaplins protested and Lita's lawyers obtained a 15-day stay on the order for payment of fees.

REUNIFICATION of the Hankow and Nanking factions of the Chinese Nationalists was announced by the bureau of foreign affairs in Shanghai in a statement which said: "While the details have not been worked out, the unification of the two factions is now a certainty." It was also announced that T. V. Soong, considered one of the best financiers in China, probably would be finance minister of the Nationalist government. That gentleman told the press it was likely the Nationalist tariff autonomy would be modified in order not to disrupt business but that the principle would not be surrendered. The Nationalists are retrenching on military expenses and concentrating their troops south of the Yangtze, and presumably will leave the northern campaign in the hands of Gen. Feng Yu-hsiang.

MEXICO has a hard time handling her bandits. Just after Gen. Manuel Reyes, leader of the gang that kidnaped and murdered Jacob Rosenthal, American millionaire, had been executed, another band of several hundred men attacked a train between Guadalajara and Mazatlan and fired more than 40 shots into the cars because the engineer refused to stop. Miss Florence M. Anderson of Los Angeles, a school teacher, was wounded and died a few days later. J. Winsor Ives, American vice consul at Mazatlan, made vigorous demands upon the Mexican government for the capture and punishment of the bandits.

Reports reached Nogales, Ariz., of a Yaqui rebel concentration in the Sierra De Bacatetes mountains of Sonora and of three towns in southern Jalisco, Mexico, being captured by revolutionary bands. The Yaquis were reported to have committed depredations within sight of El Palme, railroad division point. Buenos Aires, Mazatlan and Concepcion were occupied by the rebels in Jalisco.

CARDINAL RIEG Y CASANOVA, archbishop of Toledo and primate of Spain, died in Toledo after a lingering illness. The cardinal, one of the greatest prelates of the Catholic church, attended the Eucharistic congress in Chicago last year and made many friends in America. He liked the United States, and lauded its youth.

Murray Roe, son of E. P. Roe, the once-popular novelist, and himself a famous engineer and a social figure in New York, was found dead in Central park, New York. Years ago, after his wife divorced him, Roe went to South America, where he lost both his health and a fortune of about \$1,000,000. Since his return in 1913 he had been employed in a theater.

Other deaths worthy of mention were those of Mrs. Fannie Bloomfield Zelsler of Chicago, one of the most noted pianists in the world, and of Zaghul Pasha, former premier of Egypt and leader of the Egyptian Nationalists.

IN MISSISSIPPI'S second primary for the Democratic gubernatorial election incomplete returns indicated that Theodore G. Bilbo had defeated Murphee by something like 10,000 votes. Of course the nomination is equivalent to election. "I am the happiest man in the state of Mississippi," Mr. Bilbo said. "In all my experience in politics this is the greatest victory I have ever won because of the great odds against me."

INFORMATION has been received by Acting Secretary of the Navy Robinson that American marines in Nicaragua, acting with the constabulary, killed two more bandits in an engagement near Jicaro.
