**METRO EDITION** 

SHANNON, Ireland (AP) - An American Airlines Boeing 707, commandeered by a man identified as a Serbian nationalist bombmaker, flew today from New York to Shannon airport, where the hijacker gave himself up to police, authorities said.

It was more than 22 hours after the hijacking drama had begun on a New York-Chicago flight. The FBI said the hijacker, who arrived in Ireland with his lawyer, had been armed with dynamite.

A crew of three were also aboard, authorities in New York said. A duty office spokesman at Shannon airport said the hijacker walked

down the steps from the plane to waiting police in a remote part of the airfield, and there was no violence. Scores of Irish police including a special anti-terrorist unit, had sur-

rounded the plane after it landed at 2:47 p.m. local time - 9:47 a.m.

Two executives from American Airlines had also flown in from Lon-

In New York at about 4 a.m., the Serbian nationalist had switched from a smaller jetliner he had hijacked 16 hours earlier during a flight from New York to Chicago, the FBI said.

The hijacker, identified by the FBI as convicted bombmaker Nikola Kavaja, 45, of Paterson, N.J., boarded the second plane at John F. Kennedy International Airport after a return flight to New York. FBI agent Ed Sharp said descriptions of cylindrical objects Kavaja showed aboard the plane satisfied authorities that he was carrying dy-

But Sharp told reporters agents had no idea just how much dynamite the hijacker had, saying it could be just what he showed in his hand or dozens

of sticks in a satchel believed rigged with a detonator. "The explosives are genuine to the best of our knowledge," Sharp said.

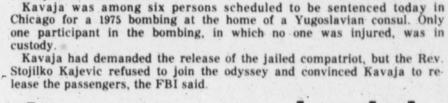

Related stories, photo on Page 11A

Agents could not explain how the explosives passed airport security in New York's LaGuardia Airport on Wednesday. There were reports Kavaja wanted to refuel at Shannon and then fly to

Johannesburg, South Africa, but a spokesman for air traffic control at the airport said "we haven't the slightest idea what he might want."

John Otto, the FBI agent in charge of negotiations in Chicago said bomb experts told him a device like the one Kavaja was believed to be carrying was sufficient to blow the plane to "smithereens."

An FBI sharpshooter armed with a high-powered rifle was hidden in the

head for Johannesburg, South Africa:

Chicago's O'Hare International Airport Wednesday.

A federal grand jury in Midland which almost a year ago heard testimony concerning the Jan. 22, 1978, death of Ector County Jail inmate Larry Lozano is scheduled to meet for the last time during its term Friday.

According to U.S. District Clerk Bobbye Pieper, the Friday meeting of the grand jury will be the final regularly scheduled session before the jury's term ends July 9.

The grand jurors have served for 18 months, she said, which is a normal It could not be confirmed this week

whether Friday's grand jury session will include consideration of the controversial Lozano case.

Mrs. Pieper said she did not know if that case would be discussed. A secretary in the office of the U.S. attorney at El Paso said U.S. Atty. Jamie Boyd of San Antonio was referring all calls concerning the Midland federal grand jury to the office of John Wilson, public information officer for the U.S. Department of Justice in Washington,

Wilson said he could not answer some of the questions asked him earlier this week, but said the Lozano case is "still being actively reviewed along with the latest report.

The latest report he referred to was the opinion of a fourth pathologist

concerning Lozano's death. That report, sought by the Justice Department, was submitted to the department early this month, Wilson

Asked when a decision on the Lozano case might be forthcoming, Wilson said, "I expect we'll have some kind of a decision before this grand jury expires.

Confirmation that the grand jury

session on Friday will include consideration of the Lozano case could not be obtained.

But the possibility remains the case could be on the agenda since it is the grand jury's final regularly scheduled meeting. However, a special meeting of the grand jury could be called prior to the July 9 expiration date of this term.

The grand jury initially heard testimony from numerous witnesses called in the Lozano case in the early part of July last year. No action was taken by the grand jury at that time, and the case has been under review by the Justice Department ever

Lozano, 22, died in Ector County Jail Jan. 22, 1978, and his death has

been the subject of controversy. Mexican-American groups in the state have pushed for action, claiming Lozano was beaten to death by deputies of the Ector County Sheriff's Department.

But Ector County officials have staunchly denied that charge and an inquest jury in April 1978 in Ector County agreed, ruling Lozano's death

to have been accidental. Although another grand jury canconsider evidence in the Lozano case, Boyd was unavailable this week to answer questions on how it would affect the case to have another grand jury consider it.

Following usual procedure, all testimony given by witnesses to one grand jury would have to be repeated for a new set of jurors. However, the transition possibly could be achieved through transcripts

Boyd was in Washington, D.C., earlier this month, and his trip raised speculation among West Texans that he was discussing the Lozano case with Justice Department officials.

After

The Housing Authority of the city of Midland has been slowed, but not stopped, by Gov. Bill Clements' veto last week of a housing bill which would have put a Single Family Mortgage Revenue Financing Program into action in Texas.

Midland's Housing Authority began pursuing the program in early 1979 and was awaiting approval of HB1733 before going ahead with its approach for home loans.

Harry Clark, chairman of the local housing authority, said Wednesday that housing authority members are "very disappointed this alternative is not available to us.'

The program is designed to provide money for home loans to middle-income families. The money would come through sale of revenue bonds by the Housing Authority.

Loans would be administered by local savings and loan associations to applicants who met certain criteria.

A BILL IN the House Ways and Means Committee in Congress is aimed at establishing limits on the applicants' income and amount of

mortgage on a house. Referring to preliminary guidelines of that bill, Clark said the top limit would allow for aid to a family with a \$25,000 income wanting to purchase a \$45,000 home.

ready had selected an underwriter the firm of Howard, Weil, LaBouisse and Friedrich's, which has a Midland The company is based in Louisiana and has worked with revenue pro-

police, Otto O. Lupardus, 86, 3500 Thomas St., lice Wednesday estimated damage at from

lost control of his vehicle in the association's \$10,000 to \$15,000. (Staff Photo by Bruce Par-

Under present law, local authorities already have the power to issue tax exempt revenue bonds, usually purchased by the federal government, for low income housing purposes, he added.

Because of this practice, "a ques tion exists as to whether they could, under present law, issue bonds for the purpose of acquiring mortgage loans," Clements said.

Historically, the housing author ities' activities have been generally confined to financing, constructing and operating low-income, multi-family housing projects, Clements said in connection with his veto action.

Midland's Housing Authority operates Hillcrest Manor on Scharbauer Drive, a low-income, high-rise housing development for elderly and handicapped persons.

CLEMENTS NOTED the bill was one of three passed by the state Legislature in the recent session, and one

deals with mortgages for low and

moderate income families. To sign all three bills would be a mistake, Clements said. "There would be a proliferation of

bonds on market, making it more difficult for local government entities to sell bonds for traditional purposes," he predicted. "In addition, Congress is proposing new rules that will drastically curtail the sale of these bonds. No one knows what these new rules will be.

"Of all the programs now in effect, the one that has had the most adverse effect on the neighborhoods of the county is the placement of low-income housing by housing authorities. They have in almost every instance resulted in the building and financing of 'tomorrow's slums.

Clements continued by noting recent court decisions have mandated that where federal funds are involved, low-income housing must now be located in all areas of the commu-

# Nicaraguan officer arrested for shooting newsman

MANAGUA, Nicaragua (AP) — Nicaragua's national guard says it arrested the corporal who shot and killed ABC correspondent Bill Stewart as he lay face down at a guard roadblock in Managua, a presidential press card in

President Anastasio Somoza's offensive to drive the Sandinista guer-

rillas from the slum barrios on the eastern side of the capital appeared to have bogged down as the drive went into its fourth day. Residents said guard patrols were taking heavy casualties, and reporters who visited the area saw several bullet-riddled military vehicles. Stewart was trying to get through a government roadblock to the fighting Wednesday when a soldier ordered him to lie on the ground, kicked him

once in the ribs and then killed him with a rifle shot to the head. Stewart's Nicaraguan interpreter, Juan Francisco Espinoza, also was killed, apparently by another soldier. Stewart's camera crew, watching from a van parked near the roadblock, filmed the slaying, and the film was broadcast Wednesday night by

all three U.S. networks. President Carter said the killing was "an act of barbarism that all civilized people condemn," and Somoza, expressing his "deep and sad condolences," said "the full weight of the law" would be brought to bear on those responsible. The 37-year-old correspondent, who covered the revolution in Iran in Feb.

ruary, had been in Nicaragua for 10 days, ABC said. He was the first foreign correspondent killed in the 24-day-old war between the Sandinista rebels fighting to overthrow the 42-year-old Somoza family dictatorship and Somoza's 13,000-man national guard.

Col. Aquiles Aranda Escobar, the guard's public information officer, said Stewart's killer would be brought before legal officers today. Officers and noncoms in the man's unit also would be questioned, he said. He took a copy of the camera crew's video tape for evidence.

At least a score of the more than 90 foreign reporters in Nicaragua said they would leave the embattled Central American nation today to protest the shooting. ABC and NBC said they are withdrawing their crews, and CBS

Related stories, photo on Page 3A

said it was leaving only one correspondent.

The U.S. Embassy said a U.S. Air Force plane would take Stewart's body to Panama, and ABC was sending a plane there to take it to the United States. Stewart is survived by his wife, Myrna, and his parents, who live in

The national guard announced Monday that it had launched a fullscale counterattack to drive the Sandinistas from their strongholds in

The rebels hold large parts of eastern Managua, plus extensive sectors in the southern city of Rivas, where they have said a column advancing from the Costa Rican border would establish a provisional government. They have also occupied all of Leon, the nation's second largest city, and

control most of Matagalpa, Esteli and other cities in the north and north-

Reporters returning from Leon said the last national guard snipers had been killed or captured Wednesday, but the guard was still shelling the city from a fort on the outskirts.

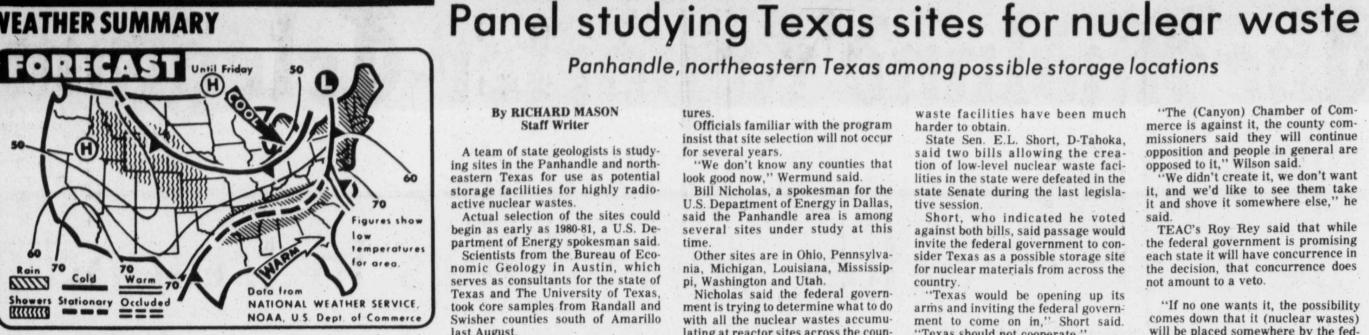

Government officials said earlier this week that no attempt would be made to recover Leon and other northern cities until the rebels were

cleared from Managua and the drive in the south had been crushed. The guard on Wednesday flew reporters to La Virgen, a military training camp about six miles south of Rivas, and then took them in a truck

convoy to a position about four miles north of the Costa Rican border. . Guardsmen there said Sandinista forces that crossed the border from bases in Costa Rica had been held within a few miles of the border in fierce fighting Tuesday.

The Organization of American States was holding a meeting of foreign ministers in Washington today to discuss the war, and Secretary of State Cyrus Vance was expected to call for a cease-fire and an OAS mediation effort to create a broad-based representative government for Nica-

The provisional junta announced last weekend by the Sandinistas rejected the inclusion of Somoza or any members of his Liberal Party in the future government, and one member of the junta said: "It's too late for any chance of conciliation."

The National Weather Service forecast until Friday calls for showers from the northern Rockies to the central Plains. A band of rain is forecast from Texas and Arkansas to New England. (AP

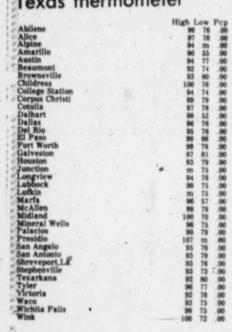

Today's satellite cloud picture, recorded at 3 a.m., shows clouds and thundershowers associated with a cold front stretching from Arkansas northeastward through the Ohio Valley to the eastern Great Lakes. Clouds also cover the upper Midwest around the storm center near Lake Superior. (AP Laserphoto)

Port Arthur to Port O'Connor: Southerly winds 15 to 20 knots through Friday except winds southeast 10 to 15 knots near shore tonight. Seas 1 to 6 feet. Winds and seashigher in and near isolated thundershowers.

## Global economic recession could result if oil prices continue to rise

WASHINGTON (AP) - An economic recession affecting countries throughout the world could result if oil prices continue to climb, says Treasury Secretary W. Michael Blumenthal:

For the first time, Blumenthal acknowledged Wednesday the possibility of a global recession with the continuing upward spiral in oil prices. But he said such a recession is not "a necessary or inevitable consequence" of the current oil situation.

"If we (industrial nations) can

work together, I think we can keep the situation under control," he said. While recent economic figures indi-

cate the American economy is slowing down, Blumenthal said it does not appear the brakes are being applied so fast as to lead to a serious down-

Earlier Wednesday, the Commerce Department reported that the nation's economy, as measured by the gross national product, increased at an annual rate of 0.8 percent in the first quarter of the year.

## Auto insurance penalties for traffic violations killed by Insurance Board

AUSTIN, Texas (AP) - The State Insurance Board has issued an order ending auto insurance penalties for drivers who are convicted of traffic

violations. The action followed up on a newly passed state law prohibiting the penalties for all drivers except those who obtain their insurance through the assigned risk pool or county mutual companies.

Most common violation for which penalties are added to insurance pre-

miums is speeding. "In the event an automobile policy has been renewed for an effective date beyond June 19, 1979, with a surcharge for these convictions, it will have to be adjusted to eliminate those increases," said Donald O'Brien, the board's director of automobile insurance.

Actual selection of the sites could begin as early as 1980-81, a U.S. Department of Energy spokesman said. Scientists from the Bureau of Economic Geology in Austin, which serves as consultants for the state of Texas and The University of Texas, took core samples from Randall and Swisher counties south of Amarillo

By RICHARD MASON

A team of state geologists is study-

ing sites in the Panhandle and north-

eastern Texas for use as potential

storage facilities for highly radio-

active nuclear wastes.

last August. What scientists are seeking is a layer of embedded salt 250 feet thick and a mile in diameter within 3,000 feet of the surface, Jerry Wermund, associate director for the bureau,

If the site is selected, spent fuel rods from commercial nuclear reactors would be stored underground in the salt.

Commercial wastes generally include by-products from the nuclear fuel cycle which, besides being highly radioactive, generate high tempera-

## Veto slows city plans for housing

(Continued from Page 1A)

nity, regardless of the desires of the local officials or the local zoning ordi-

"I FEEL THAT something needs to be done to provide for lower interest rate mortgages for our lower and moderate income families," Clem-

He signed the other two housing bills, one - SB296 - which establishes a state agency that can obtain federal housing grants similar to those established in 42 other states.

He also signed the City Housing Bill - HB1876 - which will allow cities to establish a non-profit corporation to issue bonds for low interest rate

"This bill allows local people, through their elected officials, to take care of the local problems around the state. It would insure that the state agency alone could not be used for political purposes by deciding where state money should flow to the exclusion of some city not in political favor with a particular administration," he said in explanation of his decision.

Those other two bills may provide Midland with a way to set up the loan program.

CLARK SAID SINCE one bill specifies local non-profit corporations may issue bonds, the Housing Authority will explore the possibility of the Midland Housing Association issuing the

MHA is a non-profit corporation established to look into Midland's housing problems. Don Hellinghausen, president of

MHA, said Wednesday he was unaware of the governor's veto but "the organization is interested in anything. Midland needs all help it can get."

Another possible avenue is a legal interpretation of a statute which already might allow the housing authority to sponsor a financing program.

"The attorney general's (Mark White) opinion is that the existing statute is sufficient and we didn't need this clarifying bill," Clark said. 'What is needed now is a test case on this statute." The Houston and El Paso housing

state in this financing program, but Clark said he didn't know if either would serve as the test case.

authorities are the most active in the

The program in Midland, according to Clark, "is not completely dead.

## **Temperature** hits 100 for first time

If it seemed warm Wednesday, that's because it was. The mercury rose to a toasty 100 degrees in the Tall City for the first time this year, according to the weatherman.

The temperature didn't cool off much overnight either. The low was 70 degrees, one of the warmest nights Midland has experienced this year.

Relief doesn't appear to be near and it may be that the Permian Basin is beginning a string of 100-degree days. The National Weather Service at Midland Regional Airport is predicting the mercury will drop into the low 70s tonight, but it should hit the 100 mark again on Friday.

The past is no better than the present when it comes to hot temperatures. The record high for Wednesday is 109 degrees set in 1951. If time could be turned back to 1973. though, a little relief might be found at night. The overnight low that year for June 21 is a record-setting 53

The future is probably filled with hot days and nights also. After all, summer doesn't officially begin until 6: 56 p.m. today

Local weather watchers reported "hot" temperatures in area towns early today.

No relief was in sight in Texas today from the hot, humid weather as forecasts called for more of the

Officials familiar with the program

Panhandle, northeastern Texas among possible storage locations

insist that site selection will not occur for several years. "We don't know any counties that

look good now," Wermund said. Bill Nicholas, a spokesman for the U.S. Department of Energy in Dallas, said the Panhandle area is among several sites under study at this

Other sites are in Ohio, Pennsylvania, Michigan, Louisiana, Mississippi, Washington and Utah.

Nicholas said the federal government is trying to determine what to do with all the nuclear wastes accumulating at reactor sites across the coun-

Among alternatives is a recommendation to President Jimmy Carter that nuclear wastes be stored in the region in which they are created.

Texas has four nuclear reactors currently under construction with the first scheduled to go on line in 1981, said Roy Rey, an energy fund administrator with the Texas Energy Advisory Council in Austin.

While the state of Texas officially supports the development of nuclear energy, endorsements for nuclear

waste facilities have been much harder to obtain.

State Sen. E.L. Short, D-Tahoka, said two bills allowing the creation of low-level nuclear waste facilities in the state were defeated in the state Senate during the last legislative session.

Short, who indicated he voted against both bills, said passage would invite the federal government to consider Texas as a possible storage site for nuclear materials from across the

"Texas would be opening up its arms and inviting the federal government to come on in," Short said.

"Texas should not cooperate." Opposition, too, has developed in Randall County.

Carroll Wilson, associate publisher for the "Canyon News," said Randall County commissioners authorized the Randall County District Attorney to file an injunction against the Bureau of Economic Geology last August when the company sought to obtain a core sample within the coun-

District Judge George Dowlen denied the injunction, Wilson said, but opposition has not cooled off.

"The (Canyon) Chamber of Commerce is against it, the county commissioners said they will continue

opposition and people in general are opposed to it," Wilson said. 'We didn't create it, we don't want it, and we'd like to see them take

TEAC's Roy Rey said that while the federal government is promising each state it will have concurrence in the decision, that concurrence does not amount to a veto.

it and shove it somewhere else," he

"If no one wants it, the possibility comes down that it (nuclear wastes) will be placed somewhere by the federal government," he said.

"The major concerns of our policy are that the state be able to express concurrence and that the state have a say in the process of

selection," he noted. Wilson'said there was "no doubt" that the government was going ahead with plans to determine the waste

"It's a political issue, but we want to make them so damned uncomfortable and the politics so hot that they'll leave us alone," Wilson said.

# Hospital board draws criticism from its own board of trustees

By SUSAN TOTH Staff Writer

Midland County Hospital District directors took it on the chin again Wednesday, this time from their own board of trustees.

Members of the board of directors were criticized recently by the family of a doctor seeking to set up practice in Midland for the handling of his application for hospital privileges.

After meeting with the doctor's family, the directors were criticized for holding what apparently was an illegal meeting under the state open meetings act.

Wednesday they were taken to task again by members of the board of trustees because, it was asserted. they should have referred the whole matter to the trustees rather than trying to handle it themselves.

Trustees approved Dr. Dan Stuckey's application for privileges as requested by the medical staff, but noted that the directors, who met with Stuckey's parents after a letter to the editor appeared in The Midland Reporter-Telegram, should have handed the matter over to the trustees, who are charged with the day-to-day

administration of the hospital. "I think the only reason we are questioning this matter now is, because this is the first time we have had a report, and we don't know what has already been promised or said to Dr. Stuckey," trustee Rosalind Redfern Glenn said.

Trustee Martin Allday added "this is a good spot for us to get our house in order and accept our responsibility' to handle matters of this type.

Board of Directors President Ed Magruder, sitting quietly through another session of criticism on the situation, agreed. If a similar matter arises again, he promised, it will be referred to the trustees.

"And you can count on that," Magruder said.

Stuckey's application for hospital privileges was tangled in several administrative snags and an apparent conflict in the by-laws of the hospital, trustees were told. Because he could not be given the type of privileges he requested, Stuckey decided to take his practice elsewhere.

But since the application had come

with a favorable recommendation from the medical staff, it was approved by the trustees as a matter of

In other business, trustees were told the hospital is facing a cash flow problem, and that, based on recent figures, the facility's operating loss will be some \$132,000 more than origi-

nally budgeted. The loss is the result of several interlocking factors, Grimland said, primarily because the patient load is

lower than anticipated. To solve the problem, finance committee chairman John Grimland suggested the depreciation fund not be paid for the last four months of the fiscal year. That would add some \$120,000 to the

cash on hand for operating budgets. he said. The other \$12,000 can be made up in other economies, he suggested, because of the lower than anticipated patient loads.

The depreciation fund, which the hospital has paid at some \$40,000 per month, already has accumulated about'\$150,000, Grimland said, which should be enough to cover any equipment to be bought before the fiscal year ends Sept. 30.

## Multiple shooting incidents continue in truckers protest

By The Associated Press

Snipers opened fire on trucks in eight states today during a spreading protest by independent truck drivers that is clogging the nation's food and fuel supply lines. "We've had so many incidents dur-

ing the night it's impossible to follow them all," said Massachusetts state trooper Dennis Remkus at the Grafton barracks.

. There were no reports of serious injuries.

Dairy farmers dumped their milk and farmers watched their fruit and vegetables spoiling as truckers in several more states heeded another call for a shutdown at midnight. President Carter was considering

whether to lift an order assuring farmers all the diesel fuel they need to free additional supplies for the protesting truck operators. The violence, which already has led

to one death and numerous injuries over the past several weeks, also saw more trucks shot today in Rhode Island, Connecticut, Pennsylvania, South Carolina, Kentucky, Minnesota and Utah. Massachusetts state police said

there were numerous reports of shots fired at trucks traveling Route 146 in Uxbridge and Sutton and others hit by rocks along Route 20 in Auburn. In Kentucky, two trucks were shot

up and a third was set afire on Interstate 75 in Whitley County.

As an all-out blockade of six Connecticut truck stops began following the midnight deadline for a shutdown, the windshields of two trucks blocking pumps at one station were shattered by rifle fire.

After a sniper in Rhode Island fired bullets at a Getty Oil tanker carrying 10,000 gallons of gasoline, the company Wednesday night installed bulletproof windows on the trucks and offered to provide armed guards for the

## Accused hijacker involved in other acts of terrorism

By F.N. D'ALESSIO

CHIGAGO (AP) - Nikola Kavaja, accused in the hijacking of a New York-to-Chicago flight in an attempt to free a fellow Serbian nationalist, is no stranger to political terror and violence. For him, the roots of that terror extend to 1943, during his child-

In the credo of anti-communist Serbs, that was the year of betrayal. The World War II Allies decided to throw their support behind Josip Broz Tito's pro-communist.Partisans rather than the royalist Chetniks of Col. Draga Mihailovich.

Allied leaders believed at the time that too many of Mihailovich's men secretly were pro-German, and that Tito's forces were the ones actively fighting the Nazis.

The subsequent takeover of the Yugoslav government by Tito doomed Mihailovich to death before a firing squad in 1946. It also led to long years of imprisonment or exile for many of

his followers. Wednesday's hijacker was from a family which followed Mihailovich. Kavaja spent a total of 19 years as a prisoner in Yugoslavia and bears scars on his face from a leap to freedom from a moving prison train. At the time of his escape, Kavaja had been serving a sentence for the murder of a Yugoslav border guard.

The Serbian Orthodox priest who Kavaja allegedly sought to free through the hijacking, the Rev. Stojilko Kajevic, was a former Yugoslav prisoner. The two of them, plus four other Serbs of similar political leaning, were arrested last November in connection with alleged bombing and assassination plots.

They were said to be members of an anti-communist terrorist group called SOPO, after the Serbo-Croatian words for Freedom for the Serbian

Reports at the time indicated that their alleged plots may have been hatched in retaliation for the June 1977 murder of the editor of "Liberty," an anti-communist Serbian newspaper in Chicago. The editor, Dragisa Kasikovic, 44, was beaten and stabbed to death in the office of the Serbian National Defense Council, along with Ivanka Milosevich, 9, the daughter of his fiancee.

# Hijacking greeted with 'calm'

By MARC WILSON

CHICAGO (AP) - The objects looked like shampoo bottles, but some passengers on the hijacked Boeing 727 knew they might be explosives.

Yet, travelers aboard American Airlines Flight 293 said they remained calm and the crew professional while a stocky, middle-aged hijacker sat in the first class compartment of the plane, smoking cigarettes and handling the cylinders.

Jan Miller, 28, of Yukon, Okla., said the hijacker "...had two objects in his hands about 9 to 12 inches long. They looked like plastic shampoo bottles.'

The FBI said later the "bottles" were probably sticks of dynamite, from among several the hijacker was believed carrying in a satchel with a detonator.

The jet carrying 136 persons was hijacked over Michigan during a flight from New York to Chicago at midday Wednesday. It landed at O'Hare International Airport, where its Serbian nationalist hijacker failed to secure the release of a jailed compatriot. Hours later, the plane returned to New York, where the hijacker commandeered a larger Boeing 707 and continued toward Ireland

early today. Miller, the flight's other passengers and five flight attendants were allowed to walk off the Boeing 727 Wednesday evening, five hours after it landed in Chicago.

Authorites said the hijacker was a convicted bomber, Nikola Kavaja, who seeks independence from Yugoslavia for his Serbian homeland.

ma students on the flight who were returning from Europe, insisted that he saw two hijackers - an older man in the first class compartment and a younger man in the cockpit holding a bottle-like canister.

Later, authorities said they were convinced there was only one hijack-

Another passenger, Jill Swanson, of Schaumburg, Ill., traveling with her 4-year-old son, Joshua, said passengers were "joking and playing cards" throughout the ordeal. "They were just waiting it out," she said.

Mrs. Swanson said the hijacker told passengers that he didn't want to hurt anyone and that he had three daughters of his own.

Janet Blake, 16, of Yukon, Okla., said all she heard the hijacker say was, "I'm serious.

"He just sat up in the first class and they (other passengers) told me all he did was smoke cigarettes. Everybody on the plane was calm. The crew was excellent," she said.

Kenneth Kremer, of San Antonio, Texas, said "American (crew members) took over and did a fantastic He said he and other passengers in

the first class compartment knew the plane was being hijacked while it was still in the air. However, Miller, a coach passen-

ger, said he learned of the hijacking only after the plane touched down. When we first landed," Miller said, "we were told over a loud

speaker there was trouble with gate arrangements. About an hour later, he said, "they Miller, among more than 30 Oklaho- made an announcement over the PA

(public address) that they were negotiating for control of the plane.

'Then," he said, "a flight attendant came through telling people quietly that hijackers had taken the plane and were trying to negotiate for the

The priest, a Serbian nationalist

convicted in a bombing attack along with the accused hijacker, refused to join Kavaja. But the FBI said the priest may have convinced Kavaja to release of a priest held in a Chicago release the passengers as hostages.

## DEATHS

## R.C. Maxson

R.C. Maxson, 78, 1700 Community Lane, died Tuesday in a Midland hospital.

Services will be at 2 p.m. Friday in the First United Methodist Church with Dr. Charles Lutrick, pastor, officiating, assisted by the Rev. J.B. Stewart. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Maxson was born Nov. 1, Edna, Kan. He lived until 1944 in Coffeyville, Kan., where he was in the real estate and oil business. He moved to Midland in 1949 from San Diego, Calif. He was married to Iva Noyes June 10, 1950.

The Maxson Co. was established in 1955 and dealt with real estate and mortgage banking. Maxson retired a year ago due to ill health.

He was president of the Midland Board of Realtors in 1958. He was a member of the First United Methodist Church and the Downtown Lions Club. He was listed in Who's Who in

Survivors include his wife; two sons, Embree W. Maxson of Charlotte, N.C., and Gordon H. Maxson of Los Angeles, Calif.; two stepsons, Jack Noyes of Arlington and Billy Noyes of Wichita Falls; three sisters, Amber Metcalf and Carolyn James, both of Coffeyville, Kan., and Ester Hine of Altamont, Kan., nine grandchildren and four great-grandchil-

The family has requested that memorials be directed to the First United Methodist Church or the Downtown Lions Club.

Pallbearers will be Bert Hotchkiss, George Doyle, W.G. Ray, Oliver Ja-cobson, John McFarlane and John C. Burleson of Clyde.

## Friend H. Talbott

BIG SPRING — Services for Friend H. Talbott, 82, of Big Spring will be at 10 a.m. Saturday in First Presbyteri-an Church with burial in Mount Olive Memorial Park directed by Nalley-Pickle Funeral Home He died Wednesday in a Big Spring

hospital after a lengthy illness. He was born July 8, 1896, in Hebron,

Neb. He was married to Clara Mae Soldan Aug. 19, 1919, in Wagoner. Okla. They moved to Big Spring in 1937. Mrs. Talbott died June 5.

Talbott was in the custom home and cabinet business more than 40 years in Big Spring, a business he was active in until his death.

He also was inspector for First Federal Savings and Loan in Big Spring for many years. He was past president of Big Spring Rotary Club and a Presbyterian.

Survivors include a son, William "Bill" Talbott of Big Spring; a daughter, Ann McDaniel of Houston; a sister, Marie Baker of Denver, Colo., seven grandchildren and 11 great-

## **Ernest Wortham**

CHICAGO, Ill. - Ernest Wortham, 57, of Chicago and formerly of Midland, died Wednesday in a Chicago hospital following a brief illness.

Services will be at 7:30 p.m. Monday in the St. Paul Church of God in Christ in Chicago. Burial will be in a Chicago cemetery at 10 a.m. Tues-day, directed by Golden Gate Funeral

Wortham was born Jan. 8, 1922, in Roxton, Texas, and lived in Midland in the early 1940s. He was a florist in Chicago.

Survivors include his wife, Gary; two daughters, Margaret Ann and Linda, both of Chicago; six sisters, Mrs. Vallie (I.T.) Smith, Ola Mae Wallace and Geraldine Stanford, all of Midland, and Eleanor Herrington, Ermagene Henderson and Margaret Smith, all of Chicago; three brothers, Herman Wortham of Midland, Theodore Wortham of Los Angeles, Calif., and Burnett Wortham of Denver, Colo.; several grandchildren and many relatives, including an uncle, Doc Rollison of Midland.

## Annie McShan

BRADY - Services for Annie G. McShan, 71, of Brady, sister of Mrs. C.E. Deck of Midland, were to be at 3: 30 p.m. today in Wilkerson's Funeral Home with burial in East Sweden

Mrs. McShan died Wednesday in a Brady hospital after a lengthy ill-

She was born March 31, 1908, in Lohn and was a lifelong resident of McCulloch County. She was married to Curtis H. McShan, who preceded her in death. She was a nurse's aide and a saleswoman. She was a member of the First Baptist Church.

Other survivors include a son, a daughter, two sisters, six grandchildren and three great-grandchildren.

## Mack Brown

KERMIT - Services for Mack Brown, 49, of Eunice, N.M., father of three Hobbs, N.M., residents, will be at 1 p.m. Saturday in the First Baptist Church in Gilman City, Mo. Burial will be in the Masonic Cemetery in Jamesport, Mo.

Cooper Funeral Home in Kermit handled local arrangements. Brown died Tuesday in a Jal, N.M.,

hospital following a lengthy illness. He was born Aug. 4, 1929, in Gilman City and was married to Velma June Fewell in Rock Island, Ill., on March

Brown moved to Eunice four years ago from Udall, Kan. He was a

Survivors include his wife; five sons, including Johnny Brown and Michael Brown, both of Hobbs, N.M.; five daughters, including Sandra Brown of Hobbs, N.M., three brothers, a sister and two grandchildren.

## Loy Green Marsh

SNYDER — Loy Green Marsh, 72, father of J.D. Marsh of Ozona, died Wednesday in a Snyder hospital. Services will be at 2 p.m. Friday in

the Bell-Seale Funeral Home chapel with the Rev. Vernon Parnell, pastor of the Morningside Baptist Church, officiating. Burial will be in Hillside Memorial Gardens.

Marsh was born Feb. 2, 1907, in Bosque County. He had lived in Snyder since 1952. He was married to Maybelle Jenkins March 8, 1929. She died March 19, 1979.

Other survivors include four daughters, a son, a sister, three brothers and 13 grandchildren.

## William Everett

BIG SPRING - William J. Everett, 84, of Big Spring died Wednesday in a Big Spring hospital after a lengthy

Services are pending at Nalley-Pickle Funeral Home.

Everett was born Dec. 2, 1894, in Mitchell County. He was raised in Colorado City and lived in the Colorado City-Big Spring area until 20 years ago. He since had lived in Oklahoma and California, returning to Big Spring about six weeks ago. He was a retired rancher and farmer. He served in the Army during World Wars I and II. He was a Baptist.

Survivors include a son, William L. Everett of Midwest City, Okla.; three daughters, Lenora Grace Wood of Gault, Calif., Mary Womack of Coa-homa and Ina Nell Stocks of Big Spring, 10 grandchildren and 12 great-grandchildren.

## Eleanor Yeager

OZONA - Services for Eleanor reager, 72, of Ozona were Tuesday in Wilkins Chapel in Goldthwaite with burial in Pecan Wells Cemetery She died Sunday in an Ozona nurs-

She was born Sept. 11, 1906, in Comanche County. She was married to Thomas Yeager in 1928. He preceded her in death

Survivors include a son, Donald Yeager of Ozona; two daughters, Flossie Daugherty of Leander and Bobby Voelker of Holtville, Calif., 17 grandchildren and a great-grand-

## Carl H. Mangum

PLAINVIEW - Services for Carl H. Mangum Sr., 82, of Plainview, brother of Dealva Spear of Andrews, will be at 11 a.m. Friday in the First Baptist Church here with Dr. Carlos McLeod, pastor, officiating.

Burial will be in Plainview Memorial Park directed by Lemons Funeral

Mangum died Wednesday in a Plainview hospital after a short ill-

He was born in Moody and moved to Borden County as a child. He was married to Margie Campbell Dec. 25, 1918, in Brownfield.

He served with the U.S. Army Motor Transport Corps during World War I. In 1919, the couple moved to Olton, where he worked as an auto mechanic. He moved in 1920 to Plainview, where he lived for 59 years. He worked for several automobile dealerships until he opened his business, the Carl Mangum Motor Co., in

He retired in 1970, but was consulted for mechanical advice, particular-

Mangum was a member of the Plainview First Baptist Church, where he was a deacon for 29 years, taught Sunday School for 35 years and sang in the choir for 47 years.

He served as president of the Senior view High School Band Parents Association, past commander of the Plainview American Legion Post and Woodsmen of the World and an officer

worth of plane tickets bought and resold since 1975.

Officials said the case was the largest ever involving airline credit cards. The indictments capped a twoyear investigation by the New York City police, detectives of the Port Authority of New York and New Jersey, and the U.S. Postal Service.

## Senators Long, Dole tout own welfare plan

WASHINGTON (AP) - The chairman of the Senate Finance Committee and its ranking Republican say their plan to revise the welfare system should give states more autonomy and cost less than one proposed by President Carter.

Sens. Russell Long, D-La., and Robert Dole, R-Kan., the chairman and the ranking Republican on the Finance Committee, outlined on Wednesday an approach that deviated sharply from the administration proposal.

The plans are so fundamentally different that Long wouldn't predict when some type of changes in the system might be made.

"It's a little late in this session to be sure we could pass it this year if we had determined opposition," he said of his proposal.

It would cost \$1.4 billion more than the \$30 billion now being spent on welfare. The administration's ideas carry a projected cost of \$5.7 billion more than current spending levels.

The Long-Dole plan is based on the principle of making federal block grants available to the states to run their own programs.

The senators contend this would eliminate much of the red-tape and bureaucracy that characterizes the present system and give the states, which should have a good idea of what's needed for their residents, a chance to run things. But the Carter administration is

convinced that a national minimum benefit level is needed as well as a series of eligibility standards that would be applicable in all states.

Long, who has opposed steadfastly a national minimum for years, contends that his suggestion would "reverse the trend toward complete federalization of welfare.'

Specifically, the Long-Dole bill would replace the practice of supplying federal matching money for state expenses for Aid to Families with Dependent Children with one of block grants. Periodic adjustments would be made for changes in population, inflation and very high joblessness.

Some \$1 billion would be distributed to the states as fiscal relief based on population. Seventeen states with the lowest average per capita income would receive \$400 million to raise their basic AFDC benefit.

If, as sponsors expect, savings occurred from a reduction of fraud and error, better administration and placement of welfare recipients in jobs, then states would be allowed to keep the savings to reduce their own costs or improve benefit levels.

They would have discretion to require work as a condition of benefits.

## Greek, Roman coins fetch \$761,915 total

LONDON (AP) - A collection of 245 Greek and Roman coins belonging to Patrick A. Doheny of Beverly Hills, Calif., was auctioned at Sotheby's for a total of \$761,915.

The most expensive item in the sale Wednesday was a gold coin bearing the head of Diadumenian Caesar, who was appointed in A.D. 217 and was executed 14 months later. The Bank Leu of Zurich paid \$54,600 for it.

## Trainer suspended

BOSTON (AP) — Officials at Suffolk Downs have suspended a trainer indefinitely in connection with reports that horses the trainer handled were drugged with the power-

ful stimulant Sublimaze. Trainer Donna DeLucia was suspended Wednesday, according to stewards Thomas Beedem, David Hicks and Gerald Sullivan, who represent the Massachusetts State Racing Com-

mission. Three more trainers face a hearing Friday in connection with similar charges. The three were identified as Lynn Scace, Carlos Hernandez and Gerald Souto.

In May, another trainer, Jose Martinez, was suspended when a urinalysis showed traces of Sublimaze in a horse he trained. The mount, Native Bend, finished second in a Suffolk Downs race on Nov. 22.

Sublimaze, or fentanyl, is a low-dosage painkiller which is difficult to detect, according to Bruce Aspeslagh, the state's chief racing chemist.

## Wimbledon featuring top field

EASTBOURNE, England (AP) -The world's top women tennis players are in complete agreement. The 1979 Wimbledon women's singles will be one of the most open in the 102-year history of the tournament.

'There are a number of players who could win the title," said defending champion Martina Navratilova. "I can think of five or six who could actually win it, and a lot more players who could beat me if I am not playing on top of my game. "Chris Evert Lloyd, Tracy Austin,

Billie Jean King, Evonne (Goolagong) Cawley and Virginia Wade are all capable of winning - and there are a lot of fine young players coming "It is getting tougher every year,

and with the number of youngsters

playing in the States and Czechoslo-

vakia, it is going to get even-Former imbledon champion Chris ·Evert Lloyd, who is playing in a \$100,000 tuneup tournament here this week along with all the top players except Cawley, agreed with Navrati-

lova's assessment. "Last year all I had to worry bout really was Martina," Evert Lloyd said. "Now there are eight or 10 players capable of major upsets. I think there are five women who have a chance of the title, but I can only think of three men capable of winning the men's singles - Bjorn Borg, John McEnroe and Jimmy Connors."

King, who was forced to retire from the Eastbourne tournament with a pulled muscle in her right leg, said There are more players who could win the tournament than ever before. Throughout the women's game there is greater depth than there has ever

King, seeded seventh for Wimbledon although she has played only two tournaments in 12 months, added, "I think my seeding is outrageous. Wendy Turnbull, Sue Barker and a couple of others should have been seeded above me. They have been going out and winning tournaments, and that is what counts.

Two of the most promising youngsters in the game, 16-year-old Americans Tracy Austin and Bettina Bunge, both reached the quarterfinals of the Eastbourne tournament Wednesday. Bunge defeated fellow American

Rayni Fox 7-6, 3-6, 8-6 and Austin beat Kathy Jordan 6-3, 6-3. The rest of the quarterfinals lineup included Navratilova against Turnbull, Bunge versus Wade, and Evert Lloyd against Kerry Reid.

## Phillies, Reds dominate votes

NEW YORK (AP) - The Phillies and Reds continued to dominate fan voting for the 1979 National League All-Star team, with Philadelphia's Mike Schmidt leading all vote-getters

by more than 100,000 ballots. The star third baseman has collected 930,691 votes, almost 340,000 more than Ron Cey of the Dodgers, according to statistics released today by Commissioner Bowie Kuhn. Pete Rose, playing first base for the first time in his career, leads at that position and is second in the league overall, with 822,371 selections. Rose is ahead of Los Angeles' Steve Garvey

by 132,000 votes. The other leaders in the infield are Davey Lopes of the Dodgers, who has a 48,000-vote lead over Cincinnati's Joe Morgan at second base, and Reds shortstop Dave Concepcion, with a slim 2,000-vote margin over Larry

Bowa of the Phillies. The outfield is led by sluggers George Foster of Cincinnati, Greg Luzinski of Philadelphia and Dave Parker of Pittsburgh. Foster has 701,-455 votes, Luzinski has 659,115 and Parker has 658,795. That trio is well ahead of Dave Kingman of the Cubs, who is fourth with 448,939.

# Holmes heavy favorite to whip Mike Weaver

By ED SCHUYLER JR.

Steve Henderson, left of the New York Mets and

teammate John Stearns argue with umpire on

called third strike that ended Houston-New York

game in the Astrodome Wednesday night. Natural-

**AP Sports Writer** Mike Weaver doesn't like to be called "Hercules." He knows the wise guys smile and snicker when they say

... not to his face. One of the jokes is that after Friday night they can call him "Achilles." Larry Holmes will quickly find his weak point, which is considerably higher than his heel

"Hercules is a myth. I'm not," said Weaver, who is blessed with a marvelous physique and mediocre record, the dream all fighters hold ... and feelings. Even guys who fight with that question best when he said:

their fists can get their feelings hurt "I-don't feel good that I'm considered a tuneup," he said. "They'll be

surprised. "Surprise" would not be adequate enough to describe a victory by Mike Weaver over Larry Holmes, the champion of the World Boxing Council's sphere of influence and the best heavyweight in all the world at this point in time. Holmes aready is. signed to defend against Earnie Shavers Sept. 14 in a fight that will be televised by ABC from Giants Sta-

dium at East Rutherford, N.J. But network television wouldn't buy Friday's fight at Madison Square Garden. Mike Weaver, the network bigwigs say, is not a worthy chal-

"TV people, what do they know?" sniffed Weaver, sitting in the dining room at a Catskill Hotel, dressed in a sweat suit. He did not arouse curiosity among the other diners.

What does TV know about boxing?" he continued. "Most boxing experts ... they've never had a glove. 'Mike Weaver (rated No. 8 by the

WBC) is the No.1 contender available," said promoter Don King, renting the Garden for \$150,000 and also showing the fight on a closed-circuit

But King, admitting he could take a financial bath, is not standing with Holmes-Weaver alone. He also is presenting a really attractive fight a 10-round welterweight bout between from Phildelphia last

Roberto Duran and Carlos Palomi-"I'm game to fight anybody in the change for pitcher world," said the 29-year-old Holmes, Rawly Eastwick.

who has been hurt by the shadow of Muhammad Ali and also by the fact that the heavyweight title is split. This split is keeping Holmes away from John Tate, Leon Spinks and Gerrie Coetzee because they are tied to promoter Bob Arum and are busy fighting to determine who will succeed Muhammad Ali as World Boxing Association champ when he retires. So "anybody" for Holmes this time will be Mike Weaver.

Why not? Perhaps Holmes, who is fighting for a percentage of the gate, answered "This man is a man and works hard at his line. You work at a job and you work to better yourself. Fighters are

the same way. Weaver, a former factory worker in Los Angles, will work Friday night for \$50,000, not a big purse for some fighters but a Fort Knox for the guy

who turned pro for \$85 in 1972. Weaver, one of 15 children, admittedly didn't pay his dues early in is career, and says that his why his prorecord is only 20-8.

Our workhorse answer. THE SAVIN 780.

Savin copiers are built to do different jobs. But they aren't

Our liquid toner, for instance, is a liquid asset in all our machines. The result: cleaner copies, and a less beat up Another common feature is our uncommonly short 12" paper path. That makes for fewer jams.

that different inside.

And on all Savin copiers we offer an unprecedented 8-year Buyer Protection Plan. With all this Savin superiority in mind, it should come as

no surprise that we're currently placing more plain paper copiers than Xerox and IBM combined. Thanks to our 4 answers, we've become the copying company that's beyond question.

## Stock market gains

NEW YORK (AP) - The stock market edged upward today, struggling to break out of its recent sluggish trend.

The Dow Jones average of 30 industrials, unchanged in Tuesday's activity, was up .78 at 840.18 as of 2 p.m. today.

Gainers held a 5-4 lead over losers in the mid-afternoon tally of New York Stock Exchange-listed issues.

Analysts said the news background was largely negative, marked by energy worries, weakness in the dollar and uncertainty about where the economy is head-

Sterling Drug dropped % to 171/2 in active trading after falling 1% Tuesday, when the company said some patients had shown side reactions to its heart drug Inocor in clinical testing. Among actively traded en-

ergy issues, Charter Co. was up 2% at 34%; Tesoro Petro-leum added % to 17%, and Exxon rose % to 51%. Collins & Aikman dropped

% to 9%. The company noted 'some recent softness" in its The NYSE's composite

index gained .09 to 57.67. On the American Stock Exchange, the market value Volume on the Big Board

index rose .55 to 196.39. totaled 23.28 million shares with two hours to go.

ANSWER TO PREVIOUS PUZZLE

## **BUSINESS MIRROR**

## Consumer polls reveal growing recession mood

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) - Recession, officially, is measured by the numbers. When output of goods and services declines for two successive quarters, say the keepers of the numbers, we have a recession. Even before we tumble into the economic pits we

use the numbers to guide us. Like a pilot flying on instruments, we seek guidance from the dials of production, jobs, sales, credit and the like.

This is fine for economists, and obviously necessary too, but for the mass of people a recession

has come to mean not so much a numerical measurement as a mood, an attitude, a perception of Ask almost anyone, for example, if the past four

years have been been economically good years or poor and they likely will choose the latter answer. And yet, the economy has been expanding rather than receding. "So what," they are likely to say, "my buying power hasn't expanded." And, were it their style to

do so, they could illustrate their case with the same numbers used to show that times are good. They could show that in the 12 months through

March, straight-time wages rose 7.8 percent, but prices jumped 10.2 percent, resulting in a net loss of buying power. "Isn't that recession?" they ask. They know that passbook savings earn less than 6 percent interest, and U.S. Savings Bonds no more

than 6.5 percent if held a minimum of five years, while the inflation rate is 13.9 percent. A net loss,

They know that inflation has shrunk their life insurance values, that they can't afford college for their children, that the house they aspired to is beyond their reach, and that they've had to re-

Retrenchment isn't expansion, they say. They know, because expansion has been the American tradition, part of our ethos, enscribed in history books. People were brought up on it: Everyone has the chance to do better. They know now that it isn't

necessarily so. The mood of personal recession is measured by consumer polls. During the past four years, officially one of the longest continuous economic expansions in our history, consumer moods soured.

Throughout the period the growing sense of foreboding, of worry, of anger, of personal recession has been monitored as clearly as those other numbers claim to measure the continued strength of the economy

Which attitude is real: The official one, that the economy has been strong and expanding, or the mood, based mainly on personal experience, that tells us the economy has been getting sicker all the

Each has it's use, but they cannot be interchanged. But inevitably they are. The official statistics, valuable to professionals, are too often offered to the public as evidence of their misperceptions.

If anything, that use can only make ordinary individuals more cynical. Who knows the condition of family finances better than the head of a family? Who knows better how that family interprets its

And so we continue the dichotomy. Officially, the expansion continues — in that the nation's overall output of goods and services continues to grow.

But ask the next person you meet to assess his personal finances and he will tell you bluntly and simply, and quite accurately too, that the padding in his wallet has been shrinking for many months.

## Drive seeks funds to blast causeway

By KEN HERMAN

SOUTH PADRE ISLAND, Texas (AP) - It took three years and three million 1950s dollars to link this strip of sand with the mainland of South Texas. The concrete Queen Isabella Causeway marked

the arrival of South Padre Island as a tourist resort. Until its completion in 1954, sun-seekers had to take a boat or the "Sandcrab Taxi" (a half-track vehicle) across the Laguna Madre. Now, Arnold Samuelson, a pleasant, gray-haired,

transplanted Yankee, wants to blow up part of the And he's asking his friends to donate \$107,000 for / the demolition project.

"The old causeway is a Chinese wall. It's a navigation hazard," said Samuelson, chairman of the Cameron County Recreation and Tourism Advisory Council. The 15,272-foot Queen Isabella was replaced in 1974

by the Queen Isabella II - a \$12 million engineering

marvel. The new causeway rises to an impressive 83 feet above the bay waters. That's high enough to let most pleasure craft sail under the crossing and up the bay. The old causeway - a few hundred yards to the south - is much lower and still locks much seaborn traffic. The larger pleasure boats must make

a five-mile out-of-the-way trek around an island in the bay to bypass the old causeway. "That's why we want to put a cut in the old causeway," Samuelson said. "It's been talked, talked, talked. We finally want some action."

Talk of removing the old causeway began on the February 1971 day when the U.S. Coast Guard granted a permit for construction of the new causeway. That permit required that the old causeway be removed within 90 days of the opening of the new

But in May 1974, the permit was amended and the old causeway remained. The two ends have been used as fishing piers since then. And the larger boats have been making the five-mile voyage around Long Island to an old swing bridge in order to sail The "cut the causeway" project has had its ups

and downs. Samuelson said it's been endorsed by many local authorities - but no one has come up with the money.

An application for state funds was turned down "It's just a matter of the money now," he said.

'It's just a start to put our money where our mouth

The start came at a recent "bust the bridge bash" at a local nightspot. Samuelson hopes that sailors tired of making Long Island detour and local businessmen with an eye on more business will donate to the project.

Samuelson said the 60-foot causeway cut could be accomplished by some strategically placed dynamite to loosen up the old concrete. Large pieces taken from the crossing would be hauled away.

"As it is now, it's a real hazard. If there's a suden storm all the boats are jammed up waiting to get through that swing bridge," he said.

# Texon completes flowing opener

A flowing Strawn reef discovery has been completed in Glasscock County, 3.5 miles east and slightly south of Garden City.

The discovery, Texon Petroleum Corp. of Dallas No. 1-1 Underwood (formerly John Hill of Dallas No. 1 Underwood) was completed for a daily potential of 260 barrels of oil, no water, through an 18/64-inch choke and perforations from 9,296 to 9,318

Gravity of the oil was not reported. The gas-oil ratio is 1,384-1.

Operator acidized the pay with 12,-000 gallons. Flowing tubing pressure on the potential test was 840 pounds. The sample top of the Strawn reef is at 9,296 feet on ground elevation of

2.611 feet. Hill drilled the project to 9,694 feet and plugged it in 1978. Texon re-entered the hole, cleaned out to 9.531 feet

and set 4.5-inch casing at that point. The discovery is one and seveneighths miles west of the Garden City (Strawn) pool and 660 feet from south and west lines of section 10, block 33, T-3-S, T&P survey.

#### MITCHELL WILDCAT

UV Industries, Inc., of Salt Lake City, Utah, spotted location for a 7,-500-foot wildcat in Mitchell County, eight miles northwest of Silver.

The test, No. 1 Ellwood Estate, is 660 feet from northeast and 1,980 feet from northwest lines of section 7, block 15, SPRR survey, abstract 305.

It is two and one-eighth miles west of the Dixon (Odom lime) pool and two miles northwest of the Jameson (Strawn) field.

### WARD DISCOVERY

Amoco Production Co. No. 6-ER University (formerly No. 1-FG University), a re-entry project in Ward County, nine miles northwest of Pyote, has been complted as a Cherry Canyon oil discovery.

The well, a former Wolcamp gas producer, was completed from the Cherry Canyon for a daily pumping potential of 7 barrels of oil and 283 barrels of water, through perforations from 6,149 to 6,158 feet after ,500 gallons of acid and 20,000 gallons of fracture solution.

The well flowed at the rate of 12,000 cubic feet of gas per day during the

The gravity of the oil is 38.8 de-

Total depth is 20,457 feet and the plugged back depth is 7,700 feet. Llocation is 990 feet from north and west lines of section 18, block 18, University Lands survey.

## GARZA EXPLORER

Oklahoma Oil Co., operating from Dallas, announced loation for a 9,400foot wildcat in Garza County, 13 miles southwest of Post.

It is No. 1 J. B. Slaughter, 660 feet from south and 1,988.5 feet from east lines of section 18, block 30, T-7-N, W. L. Henry survey.

The site is 1/2 mile northwest of a 9,100-foot dry hole and two and oneeighth miles swest of the Coulter (Spraberry oil) pool.

Union Oil Co. of California No. 2 Pipeline Deep Unit-Federal has been completed in the Quail Ridge, North (Morrow gas) pool of Lea County, N.M., 33 miles west of Hobbs.

Operator reported a calculated absolute open flow potential of 6,080,000 cubic feet of gas per day, through perforations from 13,388 to 13,402 feet,

Total depth is 13,501 feet and 5.5inch casing is set on bottom. Wellsite is 760 feet from north and 2,050 feet from east lines of section

ANDREWS OILER Hanley Co. of Midland No. 1-5-12-A University (formerly No. 1-C Uni-

veristy) has been completed from the Dean sand in Andrews County, 18 miles northeast of Andrews.

Although it is five miles north of the Hutex (Dean oil) pool, the well has been assigned to that field. It is seven-eighths miles northeast of Florwill (Strawn oil) production.

Hanley reported a daily pumping potential of 15 barrels of 41.2-gravity oil and two barrels of water, with a gas-oil ratio of 267-1.

The completion was through two sets of perforations - from 9,637 to 9,711 feet and from 9,435 to 9,562 feet. The lower set was acidized with 3,500 gallons and the upper set with 500 gallons.

Total depth is 11,481 feet and 4.5inch casing is set at 11,411 feet. The plugged back depth is 9,773 feet. A re-entry project, it originally was

drilled by Greathouse, Pierce & Davis as the No. 1-C University and plugged in May 1964. Location is 1,980 feet from south

and 2,203 feet from west lines of section 12, block 5, University Lands

#### TOM GREEN REOPENER

Energy Reserves Group, Inc., of Midland No. 3-A J. W. Johnson has been completed as a Canyon sand well to reopen oil production in that zone in the Christoval (5,100) field of Tom Green County.

The operator reported a daily flow of 40 barrels of 35-gravity oil and 54 barrels of water, through an open choke and perforations from 4,648 to 4,669 feet, from 4,740 to 4,752 feet and from 4,762 to 4,766 feet. The pay was fractured with 30,000 gallons.

A re-entry project, it originally was completed to open the field's 5,100foot Strawn pay.

Total depth is 6,28 feet and plugged back depth is 5,000 feet. The Canyon sand was topped at 4,648 feet on kelly busining elevation

of 2,162 feet. Other tops include the Saddle Creek at 2,996 feet, and the Palo Pinto at

4,507 feet. Location is six miles northeast of Christoval, 5/8 mile southwest of the original Canyon sand discovery, and 660 feet from northeast and southeast lines of A. D. Neill survey No. 176-

## MIDLAND RE-ENTRY

Wood & Locker, Inc., of Midland announced plans to re-enter a Phillips Petroleum Co. dry hole in Midland County and cleanout for tests of the Spraberry at 8,650 feet.

Originally drilled in the Germania field and abandoned in 1960, the dproject is No. 1 Keeter, 1,980 feet from south and east lines of section 32, block 36, T-2-S, T&P survey and 18 miles east of Midland.

## IRION PROJECT

Tucker Drilling Co., Inc., of San Angelo No. 2 Ida Nutt is to be dug as an east offset to Tucker No. 1 Ida Nutt, recently completed Divide sand well in the multipay Lucky-Mag field of Irion County.

The new test, scheduled on a 6,650foot contract, is 2.5 miles north of Mertzon and 1,000 feet from the sourtheast and 700 feet from the southwest lines of O. Gerstenberg survey No. 923.

## CROCKETT CHANGE

GH&SA survey.

Adelante Petroleum Co. of Midland has amended its No. 1-73 Hudspeth from a discovery to the fifth Camyon gas well in the Hudspeth (Canyon and Strawn gas) pool of Crockett County. It is one and seven-eighths miles southwest of other Canyon gas pro-

duction and 27 miles south of Ozona. The well was finaled June 8 for a calculated absolute open flow potential of 1,275,000 cubic feet of gas per

day, through perforations from 4,161 to 4,316 feet. Location is 1,320 feet from north and east lines of section 73, block O,

## Carter dedicates solar units at White House

WASHINGTON (AP) - President Carter, trying out one of the stranger settings for a speech, is unveiling his solar energy proposals on the White House roof while also marking the operation of a new water heater powered by the sun.

But even before the president could pay hommage to the sun today in the combined water-heater-dedication solar-energy-address, a critic complained that the president's proposals were insufficient.

Advance word indicated Carter would propose setting a goal of using solar power to meet 20 percent of the country's energy needs by the year

Other elements of the Carter plan reported by Richard Munson, coordinator of the Solar Lobby, a private group backing solar energy development - include endorsing a Solar Energy Development Bank to finance solar power development and an increase in federal spending for solar

Munson said Carter rejected a proposal to challenge the nation to aim for a 30 percent dependence on solar power by the end of the century.

There would be no comment on the criticism, a White House spokesman said, before the president spoke.

Solar power now accounts for 6 percent of the nation's energy needs and would be expected to supply 13 percent by the end of the century without the president's program.

Munson also said Carter had chosen to increase fiscal 1981 spending for solar energy \$100 million more than what the Budget Office recommended, but \$350 million less than an Energy Department proposal.

Carter's solar energy budget for fiscal 1980, which begins Oct. 1, calls for spending \$646 million. 'Most opinion polls would show

people want to use solar energy and are willing to spend more for it," Munson said in an interview.

He also said the president was not providing enough incentive to push the nation to meet the 20 percent

The Solar Energy Development Bank proposal is contained in a bill that, after languishing for two years in Congress, is making its way through subcommittees.

## Solar goal reported

WASHINGTON (AP) - President Carter wants to spend \$2.5 billion for solar power by 1985 in hopes the United States can lessen the impact of dwindling oil supplies by obtaining one-fifth of its energy from the sun by the turn of the century.

But various solar proponents - while calling the plan a significant first step - criticized its scope Wednesday as too modest and its linkage to a controversial windfall profits tax on crude oil as too risky and unfair.

Meanwhile, the House Science and Technology Committee scheduled a hearing today on Carter's proposals.

The Carter plan, subject to congressional authorization,

-A solar development bank providing \$100 million a year in interest subsidies to owners and contractors of residential and commercial buildings using solar technology.

-A 20 percent tax credit for new homes constructed to rely heavily on the sun, through such designs as heavy use of windows on the southern exposure. The credits, expected to cost the treasury about \$1.3 billion through 1985, would be limited to \$10,000 per building.

-Increased investment tax credits to encourage solar power in industry and agriculture. This would cost about \$350 million.

Carter also proposes a 15 percent tax credit to residents who purchase and install airtight woodburning stoves and an exemption for gasoline-alcohol fuel mixtures from the current 4 cent per gallon federal gasoline excise tax.

In addition, the president recommends significantly increasing fiscal 1980 spending for solar demonstation projects and research into wind power, biomass conversion, ocean thermal technology and photovoltaics which convert the sun's rays ino electricity.

Sen. Gary Hart, D-Colo., praised the solar plan as a "step in the right direction," but termed "entirely wrong" its linkage to the security fund.

He said the energy fund could be defeated in Congress or become a "porkbarrel" fund for the pet energy projects of individual legislators.

## Crockett test site moved

Odessa Natural Corp. of Odessa has replaced its No. 2-4 Odessa and others in Crockett County with No. 2-X-4 Odessa and others.

The project, scheduled as a 1/2 mile east outpost to the Ingham (Devonian gas) field, was junked at an unreported depth and the location moved 150 feet to the east.

The site now is 990 feet from south and 4,350 feet from east lines of secton 4, block FFF, GC&SF survey.

It is contracted to 8,800 feet. The ground elevation is 2,642 feet. The location is 24 miles west of

# Mixed success greets odd-even ration start

By PETER MACKLER **Associated Press Writer** 

Defiance, fuel thefts and mixed success greeted the first full-scale "oddeven" gasoline rationing in the East, where fights erupted at pumps, a gun was pulled and a service station owner was run over.

New Jersey, Maryland, northern Virginia and the District of Columbia began selling fuel by the numbers today. Florida's Dade County - the Miami area — was starting voluntary rationing. Polk County, in the center of the state, was trying it at mid-

The screams of angry motorists were heard, and federal officials refused to relax fuel economy standards for passenger cars of the 1980s and planned new efforts to develop synthetic fuel to replace imported oil.

President Carter was reviewing ways to help service station owners, who say they need to boost profits and thus prices -- by as much as 4 cents a gallon. The administration also agreed to review its planned cutbacks on the Amtrak passenger rail system.

Blocks-long lines were reported Wednesday at some gas stations in Connecticut and the New York City area - where gas was up to \$1.39 a gallon - despite their first day of rationing.

"It's still a miserable situation," said Frank Hardy, manager of a Mobil station in midtown Manhattan. "After a day or two, if everyone follows the rules, it'll be OK."

But some people reported their waiting time at pumps cut by as much as 75 percent and officials said it would be a week before the distribution plan fully took hold. Scuffles were reported at some

pumps and one motorist in Port

Washington, N.Y., was arrested for running over a station owner who had closed up for the day, breaking the In Norwich, Conn., a man pulled a gun when told he couldn't buy gas because his license plate ended in an

odd number and it was an even-numbered day. The man left without firing any shots. Some gas station operators, who face \$1,000 fines in both states plus up

to a year in jail in Connecticut for non-compliance, balked at going along with the rationing rules. At Jim's Auto Center in Newington, Conn., owner James Canonico openly flouted the regulations and dared offi-

cials to come after him. "If I have to go to court I will. It's against my constitutional rights." Canonico said. "I think it's ridiculous. If I have to sell the business to pay the fines and I have to go to jail, I'll do

Officials in both states said they were being flooded with requests for exemptions granted to emergency and other selected vehicles. In New York, where doctors are among those eligible, officials said they were going to be very stingy with the exemp-

"Show me a doctor who makes house calls and we'll give him an exemption," said state Energy Com-

missioner James LaRocca. But other motorists were trying other things to beat the system.

Seven teen-agers in Hempstead, N.Y., were arrested for siphoning gas from two cars. In Washington, Rep. Pat Schroeder, D-Colo., and her husband found gas from their two cars siphoned.

"Later we talked with a nearby policeman about buying a locking gas cap but he advised against it," Mrs. Schroeder said. "He said people would just punch a hole in the tank and drain it."

Many Connecticut drivers were seeking their gas in neighboring Rhode Island, which like Delaware has passed up rationing for now in favor of minimum purchase requirements to stop people from "topping off" nearly full tanks.

Rhode Island Gov. J. Joseph Garrahy said if the situation continues, he would have to impose odd-even rationing on Connecticut cars.

In Washington, Transportation Secretary cited the fuel crisis and long gas lines in denying requests by General Motors and Ford Motor Co. for relxation of fuel economy standards on passenger cars for the model years

House Speaker Thomas P. O'Neill announced he has scheduled a voe for next Tuesday on a bill providing \$2 billion in subsidies for synthetic Sen. Henry Jackson, D-Wash., pre-

dicted Senate action by the end of July on a major bill to fund synthetic fuel plants, require increased use of

gasohol and speedy approval of other energy projects.

The announcement that the White House was reviewing proposals to alleviate the cost squeeze on service station owners came as many owners around the country were threatening

to shut down in protest. Seven states and the District of Columbia have now adopted rationing, more than a month and a half since California began the plan. Texas is slated to begin rationing in its three most populous counties Monday and Alabama officials are also

considering the move. In other gas news, Massachusetts officials were expected to announce a program of minimum gas purchases, and in New York State, officials approved half-gallon pricing. Many service station owners complained they couldn't charge fair prices for their gas because their pumps only calculated prices of up to 99.9 cents a
