Congressman Garrett and the Park

Dr. Hubert Sade as chairman of the Jaycees committee on parks for Cisco, enclosed Tuesday a neat folder containing much information about Cisco, to Hon. Clyde Garrett, congressman from the 17th district, which includes Eastland county.

The Jaycees have much hopes of getting somewhere through the influence of Congressman Garrett, since he is known as a worker for constructive measures in his district.

And, Mr. Garrett is not without influence in Washington. On the contrary, he is one of the most important figures in congress, notwithstanding his short service. The man who could so outstandingly win the nomination in this district is a man to know, so feel the big boys in the House at Washington. And so, perhaps there is no man in either branch of congress that is pointed out more repeatedly than Clyde Garrett.

The record of Garrett in Eastland county is constructive. He is a hard worker and the junior chamber members feel that he will leave no stone unturned to aid their cause.

A CCC Camp and a park project for the canyon just north of Cisco is a laudable one. Nothing in the state is more worthy of improvement than is this wild, rugged piece of scenery that would lend itself so admirably to the playground already established at Lake Cisco. It would not be simply a Cisco, nor Eastland county project, but would be a playground for the whole of West Texas and the 17th congressional district—A piece of work of which our splendid congressman, Clyde Garrett, could well point to with commendable pride.

What's News Today!

Union president, Homer Martin tells his 100,000 men, gathered to know the outcome of the peace parley between Walter P. Chrysler and John L. Lewis, that Henry Ford had just as well get ready to do business with his workers. Meanwhile, Governor Murphy says he expects the sheriff to call troops to eject the strikers should the parley fail.

The stage is all set at Austin for the race betting repeal hearing Thursday night and the event is expected to draw a large crowd. The outcome is problematic, but both sides will have plenty of expert witnesses to testify as to the good and bad features of the present bill.

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER SEA Service Staff Correspondent WASHINGTON—President Roosevelt, Harry Hopkins and the Budget Bureau are about to grapple with the relief problem again, prior to recommending to Congress an appropriation of somewhere between one and two billion dollars for the next fiscal year. There is no assurance yet that the president can work out a permanent program for unemployment relief. Nevertheless, as Roosevelt once laughingly said, in reply to the question when he would balance the budget: "Hope springs eternal."

Meanwhile, the most encouraging news concerning reduction of WPA rolls and the expense of maintaining them is that for the first time in four years, the number of persons on WPA or federal relief rolls has remained practically the same throughout January and February. In 1933, 1934 and 1935 the curve rose sharply during those two months. There were 2,162,000 on WPA lists in the latter part of February, as compared with 2,188,000 in December. In February, 1936, the number was 3,039,000.

SOUTH URGES BOWL GAMES BE ABOLISHED

WASHINGTON, March 24 (AP)—The jigsaw puzzle of states is one piece closer to solution after more than 150 years of buckering over backyard boundaries. Vermont and New Hampshire have patched up their old dispute. S. Supreme Court but Virginia and the District of Columbia and Ohio and Michigan are still at odds on overlapping claims. Just when a new dispute will pop up to plague the geological survey of the Interior Department or the courts, the map-making bureau doesn't know, but in the past such difficulties have made many new maps necessary. Even now a corner of Kentucky is cut off from the rest of the state by the meandering Mississippi, the greatest single reason for new maps, because of Man River rolled over in its bed one night.

INDIA'S SNAKES TAKE TOLL

NEW DELHI, India (AP)—There were 13,000 cases of suicide in India during 1934, it is revealed in a report of the Public Health Commissioner which has just been published. Four million people died from snake bites, and at least 2,000,000 from tuberculosis. TO BE TAUGHT OWN ART GRAND FORKS, N. D. CHAPTER XXV

"No Jennifer! I've told you once, I've told you 50 times that you're to stop remembering you are Jennifer Brett. You're Louise Goldsby. The man is NOT wrong. You are taking the blame for it. You've got to have every tiny gesture exactly the way I have it." Jennifer waited docilely. "If you do not shade the part precisely as I do, you'll be out. Now take it again. And lower your head; don't fling it up. Go on." Daphne was unutterably weary. She had been rehearsing all day. Daphne had come home to rehearse Jennifer—a new Jennifer. She was a subdued, grateful Jennifer only too glad to try to remember all the things that Larry had said to her about Daphne and to relate them, bringing them out like jewels for Daphne to treasure. "He was so sure that your job meant more to you than anything else. Why did you let him?" Even then Daphne couldn't tell Jennifer why she had done it. The money was there and she was free. Free to marry Larry if he still wanted her. "If he still wanted her. Could she believe what Jennifer had told her?" "Daphne, look! Jennifer squatted on the floor tailor-fashion. "You must admit I'm doing a good job of rehearsing."

THE BOUNDARY

of the Supreme Court, despite New Jersey's claim that the center of the stream was the line. Now wharves built by residents of New Jersey are in Delaware. Ownership of islands in streams separating Georgia and South Carolina was decided in the courts. Arkansas won five square miles of land from Mississippi when river troubles made it necessary to re-survey the boundary. Case Colorado and New Mexico quarreled over their boundaries, and the Supreme Court had to decide the dividing line between Michigan and Wisconsin in Rock Island Passage, Green Bay and Lake Michigan. But the biggest quarrel was not interstate in character, nor was it caused by wandering rivers. Back in 1850 enthusiastic Americans were shouting "54-40 or fight" in support of the United States' claim to a large strip of western land north of the present boundary at the 49th parallel. A compromise with Canada put an end to such trouble. The boundary between New Jersey and Delaware is the north bank of the Delaware River, by decision of the erratic Mississippi was between Arkansas and Tennessee when the former lost five square miles of land to the latter about 20 miles above Memphis. But the same switch in course put 23 square miles of Tennessee on the Arkansas side of the river. While some of the changes have required new maps in school geography books, most of them have been so small as to be of concern only to road and bridge builders, and at the most to tax collectors and law-enforcement officers. Texas has had a history of particularly vigorous defense of its boundaries, having engaged in litigation over its eastern boundary, its western boundary and the short stretch along the Rio Grande River separating it from New Mexico. When the lawyers went to court over the Red River-Oklahoma dispute they carried a roll of maps a yard long and 10 inches thick. The boundary between New Jersey and Delaware is the north bank of the Delaware River, by decision

DEATH CHEATED BY BOY, THREE TIMES INJURED

WHITEHALL, Wis., March 23 (AP)—Three times Benedit Kamp, stout-hearted lad of 10, has cheated death. Recently, Benedit has recovered from injuries received in an automobile accident. Four and a half inches of his skull bone had been torn away and physicians were doubtful if he could survive. Four intricate operations were necessary before a silver plate could be inserted over the exposed area of the brain. While recovering, Benedit played his accordion and kept up his spirits. Eight years ago the boy fell through a hay chute in a barn while tramping along in the loft. He landed upon a cow's back, and one of the animal's horns punctured his throat. Physicians again were

The governor subjects himself to
the same rules that he asks others
to observe. He did not shrink when
an enterprising cameraman took
candid shots at the mansion last
week while they awaited the birth
of Sam Houston Allred, the govern-
or's third son.
Sam Houston Allred was official-
ly registered the day after his ar-
rival. A birth certificate was filled
out in duplicate and the original
copy sent to the State Department
of Health. Prompt filing of the birth
certificate was an example set up
for others in Texas to follow. Such
records are useful in establishing
identity, the right of inheritance,
school age, the privilege of voting,

national amendment to authorize the advertising expenditure revealed to many that Texas once spent money for that purpose. The state constitution of 1876 prohibited the advertising appropriation because of its misuse during the "carpet-bagger" days after the Civil War.
Sen. Grady Woodruff of Decatur recognized the power of advertising although he opposed the amendment.
"Advertising copy," said Woodruff, "has made a bunch of cigarette-smoking women. Without going into the desirability of women smoking, the advertising that has flooded the country has brought about this condition."
Mohamed Amine Yousef, envoy extraordinary and minister plenipotentiary from Egypt to the United States, also had a word about tourists in Texas. Although he was unaware that the state Senate was arguing that matter upstairs, Yousef mentioned it when he stopped to see Governor Allred, enroute to the Pacific coast.
Said the Egyptian: "Your skyscrapers in America, I am sure, would be more amazing to Egyptians than are our pyramids to American tourists. We are planning to encourage a tourist movement from Egypt to the United States so some of our people may see what you are accomplishing here. I have been impressed tremendously by state industry. I have been impressed by the fact that young men are guiding the destiny of your nation. Your Governor Allred is a young man, a most brilliant and energetic one."
The first group of portraits of noted Texas judges has been placed on display in the room where the Texas Supreme Court sits. The paintings include all members of

the court before Reconstruction Days and include such notables as Thomas J. Rusk and Gran Roberts. Rusk when Chief Justice, wrote the court's first opinion. Roberts is remembered kindly for a remark he made while serving as governor before becoming a member of the court. Governor Rusk was told if he pursued a course, which he considered was mandatory under the law, the state "would go to hell."
"Er," replied Rusk. "If Texas goes to hell while I am governor, she will have to go there according to the law."
The paintings are being donated by Texas lawyers, under a plan directed by Judge C. C. Speer of Austin.

Church Stones Set by Pastor
SPRINGFIELD, O., March 24 (U.P.)—The Rev. Elmer Conlin, pastor of the Pilgrim Church, works extra shifts to make good the promise to his congregation that it will have a new church Easter Sunday.
Mr. Conlin, who "just picked up masonry," began work on the church Sept. 1, 1936. The basement is completed and work is going forward rapidly on the main structure.
He has been able to obtain most of the stone free, a large part of it coming from torn-down structures in various parts of the city.
The front of the church will be made of vari-colored stones which the pastor and his helper, George Bryan of Nelsonville, O., plan to collect in fields near Carlisle, O., 14 miles northwest of here. They estimated 80 tons will be needed.
Services now are held in the basement. When the church is completed it will be used as a Sunday school.
The congregation numbers 120.

**STUDEBAKER
DICTATOR**
America's greatest
6-cylinder car!

A FEW CENTS
A DAY MORE
THAN A LOWEST
PRICED
CAR!

THE big, beautifully styled 1937 Studebaker Dictator six is taking them all on every last one of the nine other 6-cylinder cars—even going above its price class . . . and showing them all up.
Down close to the lowest in price, its Fram oil cleaner and gas-saving automatic overdrive enable it to equal and often beat lowest priced cars in operating economy.
It's the world's first six to offer the automatic hill holder plus feather-touch hydraulic brakes . . . the world's only six with doors that close lightly, tightly and silently. But see it . . . drive it today. Studebaker's C. I. T. Budget Plan offers low time payments.

**WHAT YOU SHOULD
KNOW ABOUT
FACE PIMPLES**
These disfiguring little spots often result from a slight, temporary disturbance, or merely from incorrect cleansing, or sometimes they are more persistent due to deeper internal causes.
While properly treating the underlying cause, you can relieve the itchy, burning soreness and help your skin by using an ointment that will keep the medication in contact with the pimply spots. Apply it every night and leave it on all night. It does a world of good.
For more than 40 years people have used Resinol Ointment to fill this need. It soothes the irritation and aids healing. It also treats the oil pores where many surface pimples start. Washing first with Resinol Soap quickens the pleasing results.
Buy a jar of Resinol Ointment and cake of Resinol Soap from any drugist. For free sample write Resinol, Dept. 10, Baltimore, Md.

BYE-BYE TO OIL WORRIES
CHANGE TO OIL-PLATING

All the other "serious stuff" is out, if you take just one thing seriously about your engine oil . . . In selecting it—for a '37 model or anything else—be guided by things you really know for yourself.
You know that a plating on metal cannot come off like any mere liquid. Thus Oil-Plating, formed in your engine by Conoco Germ Processed oil, cannot come off the working parts like any mere film of oil. Though the patented Germ Process puts abnormal strength into the so-called movable oil film, it goes much farther and gives you exclusive Oil-Plating.
With this firmly fastened layer of lubricant always maintained on cylinders, bearings and other parts, it stands to reason that friction never finds them naked. They remain all covered constantly with slippery Oil-Plating, as though they were built with it on. It's on, every time you start the engine, because Oil-Plating can't run down "between times." And it's on throughout your hardest run, because Oil-Plating isn't liable to the usual "squeeze-out, scrape-off and burn-up." None of those worries any more, as you change to Conoco Germ Processed oil—and Oil-Plating economics. Continental Oil Co.

**Australia May Send
25,000 to Coronation**

SYDNEY, March 24 (U.P.)—Twenty-five thousand people, including 10,000 from New South Wales alone, will visit London for the coronation from Australia, it is estimated. Some of them have started.
The army of Australian tourists will travel by all routes, via the Suez Canal, the Cape, Panama, Java and Singapore, Canada and the United States. Air liners are booked up until May.
It is expected that the 25,000 Australians will spend something like an average of \$2,000 each before leaving Australia. They will spend a total of more than \$25,000,000. They will spend another \$15,000,000 abroad and fares and other traveling expenses will cost another \$16,750,000—a grand total of nearly \$60,000,000.

"NECKING" NOT "PETTING"

STANFORD UNIVERSITY, Cal.—"Necking" and "petting" involve technical differences. A questionnaire to Stanford co-eds revealed that neckers outnumber non-neckers by 81 to 7, and that non-petters outnumber petters 63 to 24. Men students voted 88 to 43 that Stanford co-eds do permit petting. A vote of 43 yes and 46 no showed the percentage of co-eds who kiss on their first date.

Easter Styles Gay in Colors

MIAMI, Fla., March 24 (AP)—Arbiters of fashion, who have had headquarters here for the winter, see in the Easter displays of feminine finery a spring and summer season cast in glowing colors and punctuated by amusing highlights.
Along the hibiscus-bordered Biscayne Boulevard are seen fashions that will appear soon in the North. Two color suits, white lace linings for jackets or dark sheer ensembles, bread basket hats filled with fruits or vegetables, illusion sandals that put wings on the feet and white lingerie evening gowns reminiscent of Kate Greenaway are a few of the important highlights being disclosed in anticipation of Easter festivities.

Ugliest Collegian

Joe Frederick, Texas Christian University senior claims to be "The ugliest collegian in Texas." The above photographs demonstrate clearly that he is not without some claim to the distinction.

BRITAIN LAUDED FOR IMPROVING FARM STANDARD

VANCOUVER, B. C., March 23 (AP)—The British farmer is better off than Canadian and United States farmers, Dean D. M. Clement, director of the faculty at the University of British Columbia, declared on his return from the World Agricultural Conference in Scotland.
Under Walter Elliot, British minister of agriculture, farming in the Old Country prospers, and it is felt that agriculture is invited to its fair a return as industry," he said. "England gives first consideration to her home farmers, then to Empire production. Imports of most foreign farm products are 'controlled under quotas.'
Dean Clement said the English farmer is often a practical scientist, and follows with interest developments and information regarding scientific farming.

Authorities Stop Mussolini Stories

LONDON, March 24 (AP)—Such dangerous tension has arisen in Italian-British relations that authorities sought today to restrain British newspapers and news agencies from publishing information likely to incite further the anger of Premier Benito Mussolini.

First Methodist—

Central and minute facts; fellowship with God brings a sense of values and meaning to life. This is a very important area the laboratory does not touch.
There are those who base their lives in the realm of facts and they do what they do in order to get what they want. Their real center of life is self and their whole life becomes narrow, constricted, cold, hard and fruitless. Their source of authority is self.

Income Taxes Fall Short of Estimates

WASHINGTON, March 24 (AP)—Administration fiscal officials said today that March income tax collections had fallen short of estimates—a shortage expected to increase the 1937 fiscal deficit by at least \$150,000,000 and threaten President Roosevelt's projected "technical balance" of the 1938 budget.

Hens Wear Eyeglasses

EAST PITTSBURGH, Pa. (AP)—Mrs. Blanche Blodgett's hens are wearing steel spectacles. She clamped the glasses on the hens to stop them from pecking each other to death. The glasses allow a clear view up or down but not straight ahead. They are held in place by a cotton pin that fits painlessly through a hole in the bird's neck.
