President Shifts Spending to Light Goods

TO SLOW DOWN COPPER-STEEL BOOM THREAT

WASHINGTON, April 2 (UP)—President Roosevelt today announced a basic shift in new deal recovery and relief spending in an effort to slow down a boom in heavy industries such as steel and copper, which he fears threatens the tenure of the nation's economic wellbeing.
Instead of spending huge sums on massive construction projects, Mr. Roosevelt said the emphasis now would be placed on expenditures in light "consumers goods" industries where the bulk of the money goes into wages.
The change of policy, Mr. Roosevelt made plain, means an end of the type of monumental work specially encouraged by the Public Works Administration.
The compelling reason for the change, said the president, is the fact that heavy industry activity has outstripped that of light industry. This phenomenon he declared, in the past has resulted in economic depression because in this situation prices rise faster than the income of consumers.

SEN. REDDITT SAYS NO NEED FOR MORE TAX

AUSTIN, April 2 (UP)—Senator John Redditt, Lufkin, chairman of the Finance Committee announced today there will be no need for additional taxes at this session.
He suggested that if the need developed, next Fall will be soon enough to levy them.
"If the 45th legislature continues its policy of economy," Redditt said, "making its regular appropriations cuts substantially the same as made by the 44th legis- lature with reasonable increases in salaries, and increased appropriation where necessary, there will be no further need of additional taxes at this session."

LONDON THINKS REBELS FACING FINAL DEFEAT

LONDON, April 2 (UP)—Belief is growing in London that the Spanish nationalists face ultimate defeat after a further prolonged struggle, unless they obtain fresh supplies of man power and war material from Italy and Germany.
The belief is based on a long view of the resources of the combatants.
The loyalists shifted the scene of heaviest fighting today to the Basque country in the north. The rebel siege at Madrid lessened temporarily, if not lifted.
The insurgents apparently withdrew forces long concentrated at Madrid to meet government troops on offensives. The loyalists are pressing on other fronts in the provinces, thus dividing the rebel armies in a series of scattered attacks north and south.

POLICE RESUME QUESTIONING TRIPLE SLAYER

NEW YORK, April 2 (UP)—Joseph Gedeon, refreshed by his first night's sleep since police began questioning him Wednesday concerning the triple murder in which his wife, daughter and their boarder were victims, was subjected today to a further ordeal under the glare of lights in a police lineup.
Police planned to hold him on a charge of possessing a gun without a license until they solve the Easter slaying.
During the questioning he exhibited emotion only once. That was when a detective asked him if he were married.
Gedeon bent his head a moment, sighed deeply and almost whispered: "Yes."
At no time did his questioners touch on the murder.
"Is this charge about the gun true?" his questioner asked.
"That is correct," Gedeon replied.

AUTOMOBILES, COAL MINES MAIN FACTORS

More than 500,000 workers waited in idleness today pending settlement of labor controversies.
Principal activities centered in the automobile and soft coal industries. More than 500,000 soft coal miners stood by in technical strikes, hopeful that settlement of contract negotiations between United Mine Workers and coal operators would be consummated.
The soft coal contract expired at midnight March 31st. Mines have been idle since that hour. Yesterday was a holiday in the coal field, but today's stoppage of work was directly caused by the failure to agree on a new contract. Contract negotiations said they had narrowed to a single point—a union demand for time and a half pay for overtime work.
New troubles in Detroit broke out in the hotel industry where a strike occurred at the huge Bulk-Cadillac hotel. Union officials attributed these strikes to delay in arbitrating a similar hotel dispute which occurred in March.
A major walkout of WPA workers developed in the San Francisco Bay area where Workers Alliance officials sought to organize a general strike of relief workers.
A sitdown strike was called by CIO leaders at the plant of the Hershey, Pennsylvania today. Approximately 300,000 persons are employed at the plant.

URGES STABILITY AND BETTER WORKER'S CONDITION

WASHINGTON, April 2 (UP)—President Roosevelt and two members of the cabinet urged the International Textile Conference today to strike for stability and better workers' conditions in the world's wide textile industry, upon which the welfare of more than 12,000,000 persons depend.
In a letter read to 200 delegates from 23 nations, assembled to study one of the world's basic industries, Mr. Roosevelt expressed confidence that "this open meeting of minds" will have a beneficial effect, on the "ultimate prosperity" of the textile industry.
