EASTLAND COUNTY RENOUNCES BEER

VOTE IN BOXES HEARD FROM GIVE DRYS SMALL MAJORITY; NON-REPORTING THOUGHT DRY

Eastland county appears to be in the dry column by a majority that is unlikely to be overcome if past votes are any indication of what may be expected from boxes not heard from. Eleven boxes reported give a majority of 85 with a possible 405 votes remaining to be heard from last night at 9:00 p. m., all of which were in boxes heretofore in the dry columns, it was reported.

Cisco and Eastland go in the wet column by a majority of 82 votes each; Ranger wet by 120; Rising Star dry by 103; Carbon dry by 83; Gorman dry by 152; Olden wet by one vote; Desdemona dry by 40.

The total dry vote counted was 1330 against a total wet of 1,245, giving the dries a majority of 85.

The vote by boxes was as follows:

MOVIE GUILD CALLS STRIKE 2,500 TO QUIT

HOLLYWOOD, May 1(UP)—The movie's big name stars went to work today despite the strike of 2,500 members of three Craft unions at the studios.

The Actors Guild left it to the individual to decide whether he or she would pass the picket lines. Most of them decided to continue work.

Blug Crosby, an early arrival at the Paramount front gate, passed 50 pickets without trouble. Earlier truck loads of employees were brought through the picket lines.

Jack Benny, Irene Dunn, Martha Raye and Randolph Scott arrived shortly after Crosby.

Vernon Murdock, business manager of the make-up party, asserted the strike already had tied up the Paramount, MGM and PKO commissaries, where both stars and regular workers dined.

Company officials denied the cafes were closed.

Marlene Dietrich, Herbert Marshall and Melvyn Douglas passed the gates but found as other stars already had learned, that their trouble started when they reached their dressing rooms. There were no make-up artists at work, and the stars had to put on their powder and paints as best they could.

At the MGM, Culver City Studio it was reported that five companies were at work during the day.

Frank Lessing said today's demonstration was only a preview of the real strike slated to start Monday.

Lessing also said that 150 camera mechanics had joined in the walk-out and that if this movement spread as he expected, it would tie up all the cameras of screen-dom.

The estimated 3,000 members of the Federated Motion Picture Craft involved were said by Lessing to be associated with the American Federation of Labor.

QUIET MARKS MAY-DAY OVER ENTIRE WORLD

By United Press. Parades, mass meetings and addresses by public officials marked May Day demonstrations throughout the world Saturday.

The celebrations were orderly although officials had taken precautions against violence; no disorders were reported.

In New York, sponsors of a demonstration had predicted 200,000 left wing workers would participate in a parade. Far less than that number were on hand.

Adolf Hitler, again sounded his cry of "colonies for Germany" in an address to thousands of Nazis assembled in Berlin. He took the occasion to make remarks interpreted as an attack on the Catholic church.

Fascist states standing ready to start "a new world slaughter" menaced world peace. War Commissioner Voroshilov told units of the Red Army of Soviet Russia in Moscow.

The May Day bus strike in London was 100 per cent effective, and threatened to spread to the provinces and involved 145,000 workers.

A May Day procession of 80,000 led by government employees paraded through Mexico City, demanding that Mexicans unite to aid Loyalist Spain.

Several thousand laborers paraded quietly in Piedras Negras, Mexico.

CISCO HOMEMAKERS RECEIVE HONORS AT FORT WORTH RALLY

Vada Belle Tomlinson won second, and Nanella Bible placed third in the state Homemakers rally contests at Fort Worth Saturday, against class A schools such as Lubbock, Austin and San Antonio, a wire from Miss Martha Graves, Cisco teacher of the department, stated.

Miss Tomlinson contested in two subjects, food selection, and family relations. She placed in the latter subject. Miss Bible placed in family dietary.

Other contestants from Cisco were Madeline Ruppert, Paulette Ruppert, and Sue Witten. Miss Witten responded for her district to the address of welcome.

SWIMMING WILL OPEN AT LAKE CISCO TODAY

Lake Cisco opening of the swimming season is expected to attract a large crowd both today and from neighboring towns today, should the weather be favorable to swimming.

Each year the pool and surroundings are improved and precautions are made to keep swimmers away from pool and dressing rooms. No cleaner, nor purer bathing facilities are to be found in Texas, and certainly no better facilities for swimming enjoyment and recreation.

The cool park equipped with free water, wood tables, benches, lights, in addition to handy barbecue pits, make this an ideal place for family and group picnics. Schools have outings here almost daily during the pre-commencement season.

PLACES FIRST IN SOLO AND DUET NUMBERS

The Cisco Lobo band members won their trip to the Oklahoma City National Music Tournament, to be sponsored by the Lions club, by winning first place in Class B division which is the highest rating possible, it was stated in a telephone conversation with Lubbock last night.

The band placed first in the Class B division as a band; John James Haynie won first place in cornet solo; Ralph McCanlies took first in saxophone, while Clarence Tablman and Harry Gray took first in cornet duet.

The Cisco Lions club proposed to Bandmaster Robt L. Maddox some two weeks ago that they would sponsor a trip for the band in a special train to the national music tournament at Oklahoma City if they won honors permitting them to attend. The band accepted the challenge and have been on their toes working day and night since that time.

The band, some 50 strong, accompanied by a number of parents of the band members left Cisco Friday. Their contest took place Saturday with the result that the Lobo band will be due to ride to the national tournament in a special that should give Cisco plenty of honor and publicity.

A committee has already been appointed by the Lions club to make the necessary arrangements for the special.

King Lobo and Court Chosen by Cisco High

"King Lobo" has been chosen but his identity is supposed to be a deep dark secret until the night of his coronation, to be announced soon. He will at that time choose and crown his queen to reign with him over the high school kingdom until some other high favorite supplants him in the choice by his fellow subjects who may crown another at next year's festivities.

However, six favorites have been chosen to be his attendants at the coronation, ceremonies which are supposed to be very elaborate as to setting and dignity.

These are named as follows: Handsomest boy, Mack McGowen; prettiest girl, Mary Francis Stansbury; junior; wittiest boy, Luther Ponsler; senior; cleverest girl, Julia Jane Moore; freshman; best all-round boy, Joe Slicker; senior; best all-round girl, Alice Louise Slicker; freshman.

SHELL STORM OVER MADRID

WEST WARD IS VOTED SUCCESS IN SCHOOL HIT

One of the sweetest programs yet given by the schools was that of the West Ward aggregation at the high school auditorium, Friday night, "King Calendar," with months of the year. Pupils and teachers deserve special commendation for their excellent showing.

From the advent of March with its whistling wind and pretty sun, on through April's Easter carol and April showers, into May with the old fashioned flower garden, the scene led in constant changes, in pleasing diversion. June's roses, July's patriotic drill, August vacation days, led into September with school equipment again. Interesting days of October, November's Thanksgiving and Christmas carols, were climaxed by January's snowballs and February's important birthday list and valentine.

The development showed much talent for the children and a world of work for the teachers. A big crowd and a happy event ended West Ward's contribution to the pre-graduation exercises.

Some 225 pupils took part in the play. Ticket sales already counted total \$98.25 which will easily reach the \$100.00 mark is announced.

'My Home Town' Contest Decided Mon.

Tryout in the contest for representing Cisco in the "My Home Town" contest at the West Texas Chamber of Commerce contests at Brownwood May 10, 11 and 12, is to be decided at chapel Monday morning at the high school, it has been announced.

Otis Lomax and Cecil Edwards, Cisco's contenders, will lock horns for the ordeal and judges, the personnel not announced, will decide the winner.

Ciscoans Attend Stephenson Rites

Richard Bearman, Frank Bond and the entire drilling staff of the Bearman town site well attended the funeral of Contractor Stephenson at Strawn Saturday afternoon at 4 p. m.

The havoc and ruthlessness of war drives the terror and brutality home as citizens of Madrid flee the charge of high explosive which spreads death in Gran Via, Madrid's Broadway. Pitiful, panic-stricken figures flee from the menace of steel fragments through clouds of acrid smoke. Those in center were badly wounded by this shell exploding of the height of the most ferocious bombardment the rebels have yet inflicted on Spain's capital. The picture was made from an ambulance.

ALL-SCHOOLS TO ENTERTAIN MONDAY NIGHT

The community schools day Monday, May 3, in which all schools will participate a program number as a kind of cross-section of the system, will be held at the high school auditorium at 8 o'clock. No admission charges will be made, it is announced.

However school interest is now pointing to the visitation day, May 7, at which time all schools and their work will be open to visitors who are invited to visit the schools during the morning hours and see the system at their daily tasks.

At noon, a basket lunch will be spread at the football park and a program follows in the afternoon.

Hon. Wm. McCraw, attorney general of Texas, will be the principal feature of the program. Mr. McCraw being considered one of the most outstanding speakers in the state.

A football game will follow later in the afternoon.

Other dates of graduation events are: Senior play, May 14; Junior-Senior banquet, May 21; Ex-students banquet, May 27; Baccalaureate Sermon, May 30.

Joe Slicker is president of the senior class, which numbers about 70; Gordon Sherman heads the Junior class, numbering 85.

A principal speaker will be chosen for the graduation exercises, June 1, other numbers will be of the self-activity type such as marked the program last year. Luther Ponsler is to write the class prophesy and Jo Tipton the class will. The Baccalaureate Sermon will be at the high school auditorium in the evening of May 30 at 8 p. m., with both professional and recreational music numbers. Joe Slicker, president of the senior class, will appoint program committeemen to work out details.

About Our Friends

By STEP A. LONG

MR. A. C. Bradley, principal of the school in West Ward, will please you as much as his friend in line with Mrs. Irene Hall, a good director-general, and your friend in line with Mrs. Krauskopf and her violin orchestra and others who have contributed to make the West Ward play Friday night such a success, and let the people of Cisco know you a hearty hand for your untiring efforts in "King Calendar" as a sweet play, lovely costumes, drills, cartoons and pretty scenery on the stage. Some fine little chaps, dancing, singing and speech-making. There are several little chaps we would especially like to mention on the head and give commendation for their excellent work. All of them extremely well and having personal contact with that kind of work, we deeply appreciate the crowning of special effort in that line.

CHILDREN get experiences and educational value out of such things that will remain through life. Your hat is off to you for lovely performance. Fine behavior, well planned and executed. We trust our library fund was properly handled.

COACH W. E. Cooper reports only one injury for spring football. Hoaming... this is remarkable since most injuries come to untrained players. It is rare that a boy is seriously injured when well trained and conditioned. It is the soft boy who does not know how to protect himself that gets the injuries, says football coaches. A little feather in the cap of Cooper who has been diligent in coaching and very careful in handling the boys. A good team is in prospect for 1937, reports say.

EX-STUDENTS BANQUET HELD HERE MAY 27

Ex-students and teachers who have been in the Cisco public school system for several years are discussing plans for a banquet to be given in Cisco on May 27. This banquet, it is hoped, will become an annual affair and one of the highlights of the commencement week for the public schools.

There are many benefits to be derived from such a gathering, said Mr. Chick. It affords an opportunity for the renewing of acquaintances and the making of new friendships. To get together and talk over old days brings back many memories. It brings the ex-students into closer contact with the public school life and makes them feel that they are still a vital part of it, even though they no longer attend its classes.

Teachers, the home town, and the entire school family like to rejoice with native sons and daughters who have brought fame and glory to themselves and their Alma Mater. Also, they want to sympathize with and encourage those who have met with reverses and disappointments. This is one way of keeping alive the "Old Lobo Spirit" and for building in the school traditions that will live through the years to come.

The place for the banquet and other details have not been completed, but announcement will be made in a few days. Cards will be mailed soon to the 'Exes' and a prompt response will be appreciated. Keep the date in mind and make your plans to attend.

Playing with TNT

Recently a man was sentenced to a year in the penitentiary in connection with the death of his sweetheart, who he declared committed suicide when he informed her that he had decided to return to his wife.

The extreme lightness of the sentence indicates that the jury was punishing the culprit for being more bonehead than murderer.

The foregoing tragedy is just one of the results of the love liberty being talked about so much these days; and advocated by certain sociologists and psychiatrists.

Folks who sit down and figure out theoretically that there is no reason why one should not love one's loves if one wants to, fail to distinguish between what might seem to be the case and what is the case, and invariably overlook the sticks of dynamite planted in such a path and which always are likely to go off.

You can hardly pick up a newspaper without seeing where some angle of incontinence has caused some tragedy. An infatuated man or woman kills the sweetheart's husband or wife. A poor man tangles up with a rich woman and his wife sues her for damages.

Man is much further advanced than he was back in ancient times when polygamy and promiscuity were the rule rather than the exception. Man in those days could do things without hurt to himself which today would harm him seriously.

The higher up one is the more it hurts one to fall. The low-down person may not be much injured by a tumble because he has not far to drop. The hen has no moral code and does not suffer for lack of it.

Repressions may have their penalties as experts declare. Nevertheless the right sort of repression is better than the wrong sort of expression.

Eastland County Oil Operations Resume

EASTLAND, May 1.—Operators on the Hoffmann & Page No. 1 J. S. Dodd, subdivision 11 of the Brownson subdivision, William Van Norman survey, five miles south of Ranger and southeast of Eastland, today were preparing to complete the test as a gas in the Ranger sand, 3,108-3,128 feet.

In the Duffer horizon, 3,370-3,440 feet, the well was shot with 100 quarts without response, according to K. F. Page of the company.

Gas tested originally from the Ranger sand was 6,000,000 feet, but according to Page, has diminished to approximately 3,000,000 feet.

L. L. Welborn field application with the Railroad commission to immediately plug his No. 2 W. U. Fox, southeast of Eastland, dry at total depth of 1,419 feet in leagues 3 and 4, McLenan county school land, block 4. The No. 1 W. U. Fox, drilled recently by Thompson and Price, was completed as a 3,000,000-foot gas well.

Anderson-Drewery No. 1 Kate Crist, section 36, Lavaca county school land, block NW 1/4, 14 miles southwest of Cisco, had resumed drilling at 1,530 feet after finishing a fishing job for a broken bit.

The No. 1 J. A. Bearman et al No. 1 Poe, the Cisco townsite well, was drilling ahead after setting 8 3/4-inch casing at over 2,100 feet.

States Oil Corporation No. 8 G. T. Parrack, SW 1/4, section 7, H&C Ry company survey, block 4, seven miles north of Eastland, was drilling past 1,000 feet.

Applications to drill two wells in Brown county, seven miles southeast of Rising Star, were filed by the Kewanee Oil & Gas company.

The first, No. 29 Roy Hickman, section 801, J. McGloin survey, will be started about May 5 as a 1,300-foot test. It is 400 feet east of the No. 28 Hickman.

The company plans to start immediately on its No. 30 Hickman after completion of the No. 29 well. The No. 30 Hickman will be 330 feet north of the No. 28 operation.

H. H. Schwartz No. 1 Hearn, section 8, block 2, H&C Ry company survey, three and one-half miles northeast of Carbon, dry at total depth of 1,609 feet, will be plugged. It is in Eastland county.

AMERICAN DRIVERS TO ATTACK INDIANAPOLIS SPEEDWAY RECORD IN RACE-TESTED IMPORTED GAS

By JOHN L. CUTLER
United Press Staff Correspondent

INDIANAPOLIS, Ind. (UPI)—The thrill of international competition returns to Indianapolis Motor Speedway May 31 in the 25th revival of the 500-mile Memorial Day automobile race.

Three cars introduced to American competition at the first running of the Vanderbilt cup road race on Long Island last fall are being re-built for the event.

Foreign cars virtually have disappeared from the Indianapolis race in recent years. Foreign drivers likewise have faded from the scene and Americans are slated to pilot the imported cars entered this year.

Rex Mays, Los Angeles, for the last two years holder of the "pole" position awarded the fastest qualifier, is nominated to drive an Alfa Romeo, brought over by the winning Italian team for the Vanderbilt event.

Another Alfa Romeo, driven by Raymond Sommer of France in the road race, was acquired by Joe Thorne, wealthy New York and Arizona sportsman.

Texan To Drive Maserati

Babe Stapp, popular Texan and veteran of the Indianapolis competition, has been designated to pilot a Maserati which Philippe Etancelin of France handled in the Vanderbilt race. It is owned by Bob Topping, New York sportsman.

The most radical designed car in the Silver Anniversary of the Indianapolis race undoubtedly will be presented in the ultra-streamlined creation prepared by Lee Oddie, old-time racing car and AAA technical board official.

Borrowing liberally from aircraft design, it has a cockpit in front and engine in the rear. Wheels

with knee action, are mounted on the body, eliminating frame and axles. Oldfield is building the car for Thorne at a cost of between \$10,000 and \$15,000.

Thorne obtained a drivers license from the American Automobile Association contest board last year any many choose to drive the new car himself. It will be powered with a 16-cylinder Marmion motor.

In addition to the Alfa Romeo Thorne's racing stable includes five other cars which may be entered in the 500-mile event. Drivers are to be nominated later.

Women Given Club Building At Exposition

DALLAS, May 1.— Women of Texas and the Southwest whose events at the Greater Texas and Pan-American Exposition, June 12 to October 31, will contribute much toward entertainment features, have an official Pan American Hostess House especially designated for their use.

The building was turned over to women of the state by L. B. Denning, president of the Lone Star Gas company.

Miss Edith Briggs will be executive secretary. An auditorium provides seats for 250, with a piano and organ, and ten smaller rooms will be headquarters for various women's organizations. The hostess house is air-cooled and equipped with a lounge and reception room.

An artist's series will be given in the Hall of State each Saturday and Sunday, sponsored by the Texas Federation of Music clubs, and featuring widely known musical personalities of Texas and the Southwest.

A continuous festival is to be staged in the amphitheater each Wednesday at twilight by club women of Texas. Mexican market scenes, flower vendors, strolling ballad singers and native music and dancing will be presented by 200 costumed characters in colorful panorama.

The first fiesta will be June 16, sponsored by the Texas Federation of Music clubs with Dallas and San Antonio districts as the chief participants.

The eight districts of the state music federation, along with various other women's groups, will be asked to furnish entertainers for fiestas to follow.

Desert Widens in Southern Africa

CAPE TOWN (UPI)—A wilderness is in the making in South Africa where already 92,000 acres of valuable land have been swallowed up by drift and the dunes are spreading year by year.

That is disclosed in a report by D. P. Keet, Director of Forestry in the South African government. Keet says that more than \$3,250,000 would be needed to reclaim the land now under drift sands.

The south-western portion of Cape Province is the worst affected. In the Bredasdorp district more than 30,000 acres have been swallowed up, and it is feared that it will lose 300 rich acres yearly.

"The condition of the Bredasdorp coast is desperate," Keet declared, "and unless reclamation is taken in hand, much of it will be turned into a wilderness."

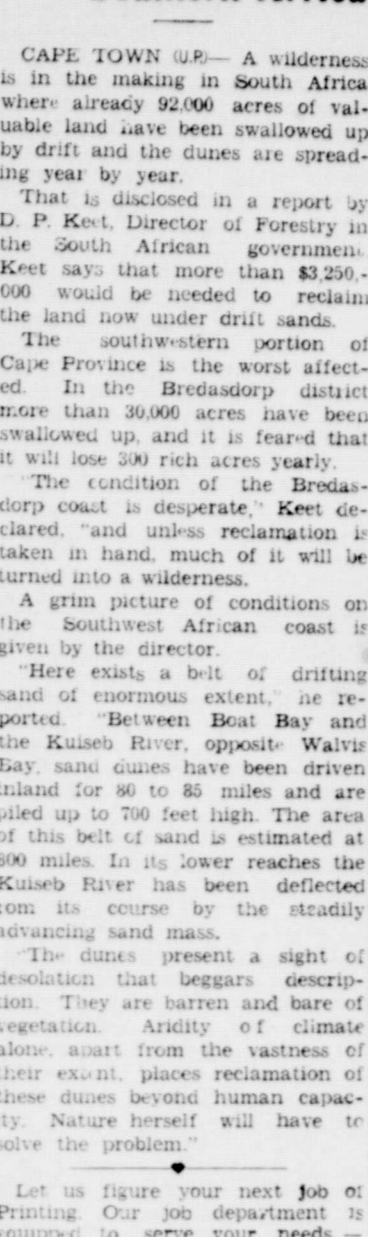

A grim picture of conditions on the South West African coast is given by the director.

"Here exists a belt of drifting sand of enormous extent," he reported. "Between Boat Bay and the Kuiseb River, opposite Walvis Bay, sand dunes have been driven inland for 80 to 85 miles and are piled up to 700 feet high. The area of this belt of sand is estimated at 800 miles. In its lower reaches the Kuiseb River has been deflected from its course by the steadily advancing sand mass.

"The dunes present a sight of desolation that beggars description. They are barren and bare of vegetation. Aridity of climate alone, apart from the vastness of their expanse, places reclamation of these dunes beyond human capacity. Nature herself will have to solve the problem."

Cummins, one of the first arrivals at the track this year, exhibited the speed obtainable with standard gasoline during a recent test run when he turned one lap at 123 1/2 miles an hour. The best previous single-lap speed for two-man cars was 122 1/2 miles an hour set by Kelly Pettilo during qualifying trials in 1934.

Entry lists for the race close May 1. Qualifying trials will begin about two weeks before the race. To qualify, a car must make 10 laps of the two and one-half mile brick oval at an average speed of at least 105 miles an hour.

The 33 fastest qualifiers will be permitted to start the race.

Beard Marathon at Lakes Exposition

CLEVELAND (UPI)— Followers of David, the Cleveland "beavermen," will compete in a beard marathon on May 29, opening day of the Great Lakes Exposition.

Modern Freedom

... FOR MODERN WOMEN

Sanitary Protection without Pads Napkins or Belts

FOR today's woman . . . busy, modern, throwing off ancient shackles . . . B-ettes were created. Here is a method that ends the discomfort, the inconvenience and the embarrassment that heretofore has been an unavoidable part of this feminine problem. With B-ettes there is no consciousness of wearing a sanitary protection at all. They are completely invisible in use . . . deodorant . . . and, though they safely and efficiently perform the purpose of ordinary napkins, B-ettes are so tiny that a day's supply can be carried unobtrusively in a handbag. Never before have women known such comfort . . . such convenience . . . such daintiness . . . in a sanitary protection.

Babies Begin to Think at 3 Months

MINNEAPOLIS (AP)—Babies begin to "think" at the age of three months, according to a report of a study made by Dr. Donald B. Lindsay of Brush Foundation and Western Reserve University, Cleveland.

Using a standardized procedure, Dr. Lindsay recorded the "brain waves" of 54 adults (40 men, 14 women) ranging in age from 18 to 64, along with similar records for 100 children varying from one month to 14 years of age.

"Infants," the physician reported, "really begin to think" at the age of three months.

The doctor also discovered through his research that women think faster than men, "as a general rule."

'Whites' Win Over 'Yellows' 19 to 0

The "Whites" beat the "Yellows" in Friday's game by a score of 19-0. Without a doubt the "Whites" were given the odds to the decisive victory they won. They profused a strong co-ordination to push over several touchdowns.

Three of the boys coming out for Spring practice had their first big test finding out their own individual appearances in a ball game. Some realize that they could play football of course this is speaking of the boys who have just taken up football in the last year or two. When the Coach begins to build that line this fall, he'll be looking for several of these husky lads.

The "Whites" were held scoreless in the first period, although they launched a ground drive that took the ball to the 15 yard line, when one of the backs fumbled. The "Yellows" staved a tight defense during the first period.

In the second period Odell Harrison threw a 30 yard pass to Marcell Harrison, who took it to the 5 yard line. On the following play, C. Harrison line plunged over the center for the first touchdown.

The next touchdown came when Yancy, hard driving halfback, smashed over left tackle. The third touchdown came in the fourth period when C. Harrison from the 20 yard line, smashed over center, reversed to the left and ran to five yard line. On the next play, O. Harrison plunged over center for the third touchdown.

Thus it was Curtis Yancy and Odell Harrison, who were instrumental in carrying the "Whites" banner to victory behind good interference. Eward backed up that line on the left side in a staunch manner.

It can be said there is power in that Lobo backfield if it's used right. Some backs can really breeze along whenever given a hole and others can really smash that line. Now that backfield can really go if given the proper support. Individually it has its weakness but as a unit, it is forcing all round ball carrying department. With excellent blocking aiding the ball carriers yardage in large quantities should be gained this fall.

This line is versatile and heavy. Wade, 200 pound and C. Harrison, 175 pound, youngsters are stated to hold the tackle positions the 191, W. A. Wall, 170, and Latch 135 pounds, respectively, are to have the inside track for the two guard positions. Come, Harrington, and others, are going to see that they are given tough competition.

The "Yellows" inhabited a passing attack in the final period with

Tipton on the throwing end. Steyer made a 25 yard gallop on a pass received from the short zone.

Yarborough is a real offense threat on ground gaining. Once this lad's interference got him around right end he gave a good broken field running exhibition. Yarborough threw the passes when the Yellows were forced to the air.

The work of W. A. Wall was outstanding in the "Whites" defense. He broke through when the Whites were in the pinch to destroy the ball toters for losses time and time again.

Family Talent in Music is Noted

PHILADELPHIA (AP)—Proficiency with the bass drum is the least inherited of the musical talents, according to a survey of the Philadelphia Orchestra, now on its second transcontinental tour.

A person has about one chance in 75 of growing up to beat the bass drum in big league orchestras if his father was an expert drummer. But if his parents played the violin, cello, viola or even the double bass, the chances soar to three to one.

Go To West Coast

Statistics compiled by the orchestra, now heading for the West Coast after a 10-day trip through the South and Southwest, reveal that nearly one-third of its 104 musicians were born of parents who played one of the several stringed instruments.

However, if a father or mother confined music to choir singing or foot-tapping, the child's chances aren't absolutely nil. Lois Putilitz, one of the few woman violinists in major symphony orchestras

had no music background.

Miss Putilitz's parents loved music but were not musicians. Other members of the orchestra, almost to a man, were reared in an atmosphere of musical appreciation however, and are the sons or grandsons of famous musicians.

The orchestra, accompanied by conductor Eugene Ormandy and co-conductor Jose Iturbi, began its tour with a 8-foot, \$21,229.65 railroad ticket on April 19, and opened in Atlanta, Ga., the next day. The tour through the South and Southwest ended April 29 at El Paso, Texas.

Swing Through Northwest

The schedule then was for Los Angeles, followed by appearances on May 2, 3, 4, and 5 in San Francisco to end the California section of the tour.

The rest of the itinerary included Salt Lake City, May 6; Denver, May 7; Kansas City, May 8; Des Moines, May 9; Minneapolis, May 10; Milwaukee, May 11; Ann Arbor, Mich., May 12 to 15; Toledo, O., May 16; Toronto, Can., May 17; Montreal, May 18; Northampton, Mass., May 18; White Plains, N. Y., May 19 to 22, and return to Philadelphia, May 23.

Cottons Celebrate Golden Anniversary

Mr. and Mrs. Bennett Cotton of Cisco, who live on the lake road, celebrated their 50th wedding anniversary Saturday. Mr. Cotton has been in ill health for the past few years, but Mrs. Cotton is hale and hearty, actively engaged in the management of their small truck farm and chicken ranch. Both have been residents of Eastland county for many years, having reared a large family of boys and girls here.

London Pupils To See Coronation

LONDON (AP)—About one school child in 10 will see the Coronation procession in the official children's section, on Victoria Embankment.

The King asked especially that children should be the first to greet him when he leaves Westminster Abbey. They will 40,000 of them, massed for a quarter-mile on either side of the embankment.

But there are more than 500,000 children in London's schools, not counting the many private schools. How the favored children are to be selected is one of the school authorities' initial problems.

To begin with, children under 11 will be ruled out, halving the number. It is probable that schools then will be informed of the quota for each child by ballot or other means.

The millions of children living outside of London will fare worse. Some 8,000 from towns near London and representatives of youth organizations, will have standing space reserved on Constitution Hill.

All other children will be luckless, unless their parents are able to buy seats along the procession route.

School authorities took 70,000 London children to see King George and Queen Mary in their Jubilee procession, but space then was more easily obtained.

Special stands will be erected for the children on the embankment but they will not be covered. Chosen, therefore, will be asked bring raincoats in case of a shower. A similar request at the Jubilee celebration disclosed that many children had no raincoats. A collection of old coats was made from more fortunate children. About 500 of these coats are still on hand and will be lent on May 12.

The children will have a long wait in the stands, as they must be in their seats by 7 a. m.

The BOBOLINK'S SONG

TRANSLATED INTO "WORDS", READS:

"OH GEEZELER, GEEZELER, GILPIPTY, ONKLEL, OZELER, OO."

THE WITCH-HAZEL BEARS BOTH ITS FLOWERS AND FRUIT IN AUTUMN.

IN THE FROZEN AREAS OF GRANTLAND, FACING THE POLAR SEA, SCIENTISTS HAVE DISCOVERED SEVENTY-FIVE KINDS OF PLANTS, FIVE SPECIES OF BUTTERFLIES, AND TWO SPECIES OF BUMBLEBEE.

AVERAGE SUMMER TEMPERATURE THERE IS 34° ABOVE; AVERAGE WINTER TEMP, 36° BELOW!

WILLIAM CULLEN BRYANT'S interpretation of the bobolink's song, "Bobolink, bobolink; spink, spank, spink," does not do justice to the bubbling, liquid notes of the bird, but it has brought the bobolink into the lives of millions of children, and made "Robert" a real personage.

SOLONS HOPE TO FINISH WORK THIS SESSION

AUSTIN, May 1 (UP)—A program to finish work of the Texas legislature without a special session was sought this week-end by a few senate and house members who remained in Austin.

Belief grew that the senate will vote directly on repeal of the race track law without which Governor Allred has threatened to reconvene the legislature immediately. His veto of the joint rule limiting the time a house bill can be considered by the senate may prevent a filibuster.

Quick passage of three of the five major appropriation bills by the senate Friday afternoon indicated that the members have determined to finish their work.

Tax raises, it was indicated, will wait until next Fall if other work is completed.

Conferees on the West Texas-East Texas insane asylum bill abandoned efforts to reach an agreement this week and recessed until Monday.

A senate committee hearing was set for Monday on the liquor control bill passed by the house.

Submission of a constitutional amendment to extend precinct county and district terms of office to four years was set for senate committee hearings Monday also.

Submission of a constitutional amendment for a popular vote on equal old age assistance for all over 65 to be financed by a two per cent retail sales tax was still before the senate, after being tabled six times.

The amendment for a state advertising appropriation awaited another attempt to pass the house.

'Old Folks' Program On Next Thursday

The program of appreciation given by the American Legion and Ladies Auxiliary at the high school auditorium Thursday, for grandmothers and grandfathers is a unique idea and a good one. It is conceded. An organ will be used and old songs of long ago will be sung. Other features will help the program.

The country with its modern civilization owes much to those who have pioneered the country and fought to make the wilderness what it is today, these organizations say. It is only befitting and a proper appreciation of their worth and value to Cisco communities that this be recognized in some fitting way.

All the aged, the older the better they say, are cordially invited to be present at that time. Measures will be taken to furnish conveyance for those who have no means of getting it is announced.

Mrs. Charles D. Robert, of the Ladies Auxiliary, is arranging the program with the assistance of others. The first suggestion, she says, was made by Supp. R. N. Cluck.

New Reduction in Long Distance Rates

DALLAS, May 1 (UP)—The Southwestern Bell Telephone Company announced today another voluntary reduction in long-distance rates which W. H. Prehn, general manager, said would mean an annual saving of \$460,000 to telephone users in the southwest.

The new toll rates will be effective June 1st.

This reduction, the ninth since 1926, will apply only to those interstate calls beyond 42 miles, Prehn said.

Explosion Results Is \$6,900 Damage

BLACKWELL, May 1 (UP)—All frame buildings on the main streets of this west Texas town burned today after an oil stove exploded in a restaurant.

Three of the buildings which burned housed five businesses, including a structure used by several lodges.

Blackwell has no fire fighting equipment, but Sweetwater, 27 miles northward, sent an auxiliary pump which served to prevent further spread of the flames. Damage was estimated at \$6,900.

ROUGH WATERS HINDER PLANS TO SIGN BILL

GALVESTON, May 1 (UP)—Rough waters from the Gulf of Mexico caused abandonment today of plans to send the newly passed neutrality measure by seaplane to President Roosevelt aboard the destroyer Maifelt.

Instead, an automobile carried the document to Port Aransas to be taken by boat to the president.

Martin McIntyre, Mr. Roosevelt's first secretary, was hard put to devise the quickest means of reaching his chief to obtain his signature on the new law before the present measure expired at midnight.

Mr. Roosevelt was to leave the Moffett and board the USS Potomac today.

The president arrived off Aransas Pass at 1:30 p. m. He began fishing immediately.

"Will spend the night inside Jet-ties," he radioed. "Fog lifted; lovely afternoon."

A sudden gulf squall made it inadvisable for a seaplane from Galveston detailed to carry mail to the president to attempt a landing alongside the Potomac. Reports among fishermen here said that "tarpon are running all along the coast."

They predicted the president would have success in snagging the big game fish.

The neutrality bill giving Mr. Roosevelt wide power to keep America out of foreign war entanglements arrived from Washington, shortly after McIntyre reached Galveston from New Orleans with the White House party.

The two seaplanes sent here from Pensacola, Fla., to keep Mr. Roosevelt in close contact with Washington, were damaged slightly Saturday when one of them bumped against the other. Both soon were repaired, however.

Religious Zealot Ends 53-Day Fast

STOOPING OAK, Tenn., May 1 (UP)—Jackson Whitlow mountaineer religious zealot, ended his 53 day fast today with the sudden declaration that "the Lord has spoken," commanding him to eat.

"He told me to take beef tea and some squirrel broth," Whitlow said to his wife in a weak voice. "My mission has ended."

Tommy Whitlow, aged father of the faster, went into the woods and shot a squirrel for the broth.

PLANES BOMB BALBAO; CAUSE HEAVY LOSSES

BILBOA, May 1 (UP)—Insurgent airplanes bombed Bilboa late Saturday causing heavy losses. Shortly after the loyalist Basque troops began a counter offensive on the northern front.

LOYALIST WARSHIPS HURRY TO DEFENSE

HENDAYE, France, May 1 (UP)—Loyalist warships steamed to the defense of Bilboa today and bombarded rebel ports along the bay of Biscay.

The broad sides were part of an offensive started earlier by the Basque land forces. Loyalists reported

the capture of two small towns.

REBELS CONTINUE BOMBING MADRID

MADRID, May 1 (UP)—A continuous barrage of rebel shells crashed into the heart of Madrid today, although the Gran Via apparently was the main target. Shells fell throughout the city.

ENGLAND, FRANCE AID EVACUATION

PARIS, May 1 (UP)—Great Britain and France speeded preparations today for immediate evacuation of refugees from Bilbao.

An estimated 300,000 non-combatants are in Bilbao in danger of death. Thirty thousand was said as the figure for the first load, though it was doubted that enough ships could be obtained to remove all.

While plans were not complete it appeared that the first contingents would be removed in French ships, under the protection of British warships.

The ships will be loaded with women, children and old men.
