M'CARTY SEES OPPORTUNITY FOR SERVICE

BROWNWOOD, May 12 (U.P.)—Milburn McCarty of Eastland, was elected today as President of the West Texas Chamber of Commerce. Directors also elected H. S. Hilburn of Plainview as first vice-president, and E. K. Faucett of Del Rio as second vice-president, re-elected C. M. Francis of Stamford as general manager.

EASTLAND, May 12 (U.P.)—Milburn McCarty, Eastlandite, elevated from first vice president to the presidency of the West Texas Chamber of Commerce at the annual convention in Brownwood, is thoroughly sold on what is often described as the "largest regional organization in the world."

The medium-build attorney whose connections in civic work have been multiple, sees in the organization a unit through which West Texans may cooperate for the section's progress.

Describing the WTCC recently, McCarty stated: "The West Texas Chamber of Commerce offers a great opportunity to serve to anyone who is sincerely interested in the welfare, progress and prosperity of West Texas."

Eastland has known the new president of the WTCC since 1922 when he moved from San Angelo, where he had been a practicing attorney and Tom Green county attorney and district attorney of the 51st judicial district.

McCarty, who confines his practice to civil cases, has not sought public office since moving to Eastland except membership on the Eastland Independent School district.

Really Pressing Invitations

William Lecke (left), dressed as a colonial printer, Mayor S. Davis Wilson and Henry Butler Allen, secretary of the Franklin Institute, make sure that the old Benjamin Franklin printing press is in order for the ceremonies of striking off the invitations to Constitution Day celebrations at Philadelphia. Governors of the thirteen original states are to receive the invitations.

LIONS REPORT BAND MONEY NOW SECURED

The Lions band committee reported sufficient money has been raised and promised to pay expenses of the Lobo band to the national music contest at Oklahoma City at the noon luncheon today but still needed five more cars and a panel truck to transport the band and instruments. Various chairmen of committees made reports of their departments.

W. J. Leach, chairman of the band committee to provide funds and make arrangements for the band's trip to Oklahoma, made his report at the luncheon today saying that about \$200 would be ready for the fund, and this money which according to arrangements will be adequate for the entire trip expense, will be turned over to Principal Stamey.

It was emphasized that only 10 cars had been secured for the trip and five more and a pick-up truck would be needed. Those taking cars for band members are to get \$10.00 for the trip, which amount a little more than pays for the gas and oil, Mr. Leach said. He wants those who are going to take their cars and would like to furnish conveyance for others on this arrangement to see him at once.

Reservations for 65 have been wired ahead on a basis of \$1.50 for room for two nights, and \$4.00 for meals, during the time for each person.

Mr. and Mrs. Maddox will leave with the eight soloists Thursday since they play Friday, others in care of Mr. Stamey and sponsors, will leave early Friday morning. They play Saturday.

The committee for raising these funds were as follows:

W. J. Leach, chairman, A. G. Tuttle, R. E. Grantham, Charles Sander, E. L. Smith, R. C. Giles, S. H. Nance and Horace Condy. Each of these Lion members were heads of other committees who assisted in the drive for funds.

Lion Charley Sandier reported on Mother's Day letters written to mothers of Lions and Lionesses, and a very sweet letter was read from Mrs. C. O. Pass, mother of Lioness Martha Joe Pass.

4-H Boys to Raise Better Peanuts

Four of the 34 Eastland county 4-H Club Boys enrolled in the peanut club, will carry out a complete demonstration by fertilizing, inoculating seed, contouring rows. Two acres for each demonstration has been selected, and the land listed 50 pounds per acre of 11-48-0 fertilizer has been distributed in the lister furrows and then the land was rebudded, throwing the dirt back on the fertilizer. These demonstrators will plant two bushels of peanuts per acre, and all of the seed planted will either be hand selected or improved seed. Before planting the seed will be inoculated with nitrogen inoculate to try and increase yield of peanuts and hay per acre.

Some of the demonstration plots will be stripped cropped with cane to prevent the soil from blowing away after the peanuts are harvested. These demonstrations will be in the following communities: Kokomo, Flatwood and Grandview.

MORE MONEY IS CREATED FOR JOBLESS

SAN ANTONIO, May 12 (U.P.)—Robert Smith, deputy director of the Works Progress Administration in Texas, said today that jobs for 1,483 workers will be created by spending \$131,324 on 23 new WPA projects.

Local agencies will spend \$91,012. Projects approved included: Eastland county, Cisco: School athletic stadium construction. Federal funds \$8,764—sponsor's fund \$4,914, workers employed, 85.

Charges System of Concealing Severity

WASHINGTON, May 12 (U.P.)—Director J. Edgar Hoover, of the Federal Bureau of Investigation, charged today that the administration of prison parole systems "in all too many of our states approaches a national scandal."

Hoover accused "interested persons" of concealing the "true severity of the situation."

ALLRED WON'T CHANGE PLANS ABOUT SESSION

AUSTIN, May 12 (U.P.)—Governor Allred today reiterated his threat of an immediate special session upon adjournment of the legislator's regular session of a final senate vote on horse race betting repeal is not taken.

"I have not thought of changing those plans," he said. Legislators worked for \$5 pay today. The 120 days for which they were paid \$10 a day expired Tuesday. General indication was that the session will continue until Friday of next week.

Plans were being made to get a new private carrier motor truck bill before the house. A former bill was vetoed. House members were almost unanimous for a bill of some sort. Some opposition exists in the senate.

The house today for the second time this session, refused to set a date for adjournment. However, the resolution setting Tuesday, May 18 as adjournment day was to be reconsidered this afternoon.

6,502,000-Year-Old Pine Trees Planted

LUFKIN, Texas, May 12 (U.P.)—A part of the federal government's national reforestation program, 6,502,000 year-old seedling pine trees have been planted in the Angelina forests.

The trees were planted on 8,000 acres of the forest by men working under direction of Civilian Conservation Corps officers. It was estimated that each man planted an average of 708 trees daily.

The trees planted here were grown in Alexandria, La.

SIX SOFT BALL TEAMS HAVE BEEN ORGANIZED FOR CISCO

W. E. Cooper, football coach, reports six soft ball teams organized for the city league and announces that play will begin the first of next week with a game scheduled for either Monday or Tuesday nights. Interest has been manifested in the entertainment which has been scheduled for games at the soft ball lighted field for each night during the week.

The Red Front Drug store, Leach Store, Nance Motor company, Jaycees, Smitty Huestis and Nick Miller have arranged for teams to play in this league, each team to play two games each week. A picked team is to be chosen from these teams to represent Cisco in inter-city games to be played two nights out of the week. Fifteen men will constitute this team and is to have a manager to manage games and have charge of other matters in the city schedules.

W. E. Cooper will have charge of the field, and he urges that all who would like to play in some team notify him or the managers of the various teams so that room may be made for them.

Louis Swift Dies In Chicago Hospital

CHICAGO, May 12 (U.P.)—Louis Swift, 75, former president and chairman of Swift & Co., meat packer, died in a Chicago hospital today after a long illness.

WESTMINSTER ABBEY, LONDON, May 12 (U.P.)—George VI, 40th sovereign of England since William the Conqueror, was crowned in Westminster Abbey today, monarch over 500,000,000 souls inhabiting one-fourth of the earth.

The coronation was carried out before 7,700 people in an eleven-century old ceremony of pageantry, splendor and riotous color. Royalty, the nobility, dignitaries of all lands, and chosen representatives of the English working classes viewed the ceremony.

At the moment when the venerable Archbishop of Canterbury appointed the king's palms, breast and head with hallowed oil, he became consecrated to God, King of Great Britain and Ireland, the British dominions beyond the seas and Emperor of India.

At 7:30 a. m. central standard time the archbishop placed the crown of St. Edward, glittering with priceless jewels, on the king's head and the assembly broke into a vast roar of "God Save the King."

At 7:52, the queen's platinum jeweled crown was placed on the head of the former Scottish commoner by the archbishop.

There was a moment of awkwardness in crowning the king. The archbishop turned the crown in his hands, hesitating and puzzled to find the front. When he got it on it was askew, setting rakishly on the left side of the king's head.

Outside, the royal salute of 103 guns boomed, and hundreds of thousands who packed the streets echoed "God Save the King."

They had stood in line for hours, some for two days, to witness the magnificent procession. They stretched in an unbroken mass on the six-mile route along which the king, queen and other dignitaries rode in state back to Buckingham Palace, accompanied by a great military display.

Hundreds of thousands of people stayed up all night, massed in the principal streets. With stiffened limbs, they held places along the route of the principal procession to and from Westminster Abbey.

It was a cold, foggy morning, but nobody minded it. Fifty senior officers of Scotland Yard made a three-hour search of Westminster Abbey as a special precaution.

Cisco Civics Class Sees Court Action

Principal O. L. Stamey is in Eastland today with his civics class to get a practical idea of court procedure through hearing a case tried in court.

The class has studied court procedure and trial of cases but this knowledge is only theoretical as compared to the laboratory work of seeing the actualities, say educators of any subject teaching. There are 63 enrolled in the class.

Today's Taxogram

If Mr. Average Citizen could look behind the price tag and see the hidden taxes concealed there he would find—

On his grocery bill of \$40 to \$50 a month, he pays \$86.40 a year in taxes.

If he pays \$30 a month rent, at least \$0 of that is taxes.

If he smokes a package of cigarettes a day, the tax amounts to \$29.20 a year.

Furthermore, Mrs. Average Citizen pays \$2.88 a year tax on picture shows, \$3.84 on lights, \$3.00 on gas, \$3 on life insurance, \$21.00 on clothes, and \$5.31 on soft drinks.

NATION HEADS CONTRASTED IN LIVES TODAY

FORT WORTH, May 12 (UP)—Heads of the two great English speaking nations had contrasting lives today.

England, dressed in royal splendor, hailed George VI as king. Franklin D. Roosevelt, President of the United States, enjoyed the life of a country squire.

There was no hub-dub about the ranch house of Elliott Roosevelt, the president's son. The chief executive was guarded from public view and spent the day quietly with his son's family.

Mr. Roosevelt will end his vacation at 6 p. m. when his special train heads back to Washington.

King George later appeared on the balcony of Buckingham Palace with his queen and received an almost incredible demonstration of loyalty from his subjects.

The thousands around the palace raised a roar of cheering. A driving rain made no difference to those who waited below, some of them for 24 hours.

The new king and queen were joined on the balcony by the queen mother, Queen Mary, the Princess Elizabeth, 11-year-old heir to the throne, and her little sister Margaret Rose.

DUKE LISTENS IN ON CEREMONIES

MONTS, France, May 12 (UP)—Lounging in a bathrobe in Castle Cande's ancient kitchen, which had been converted into an American style bar, the Duke of Windsor, listened today to the ceremonies in which his brother was elevated to the throne that could have been his.

Mrs. Wallis Warfield, whose love meant more than an empire to him, was with the duke at the radio beside a big fireplace.

She was excited, but a spokesman said the duke seemed "profoundly happy" that he had "no regrets" over the choice he had made.

While rain lashed the windows, they lounged in the cozy kitchen, listening to the ceremony from start to finish.

As a faithful subject, the duke sent a congratulatory telegram to his brother. The castle's staff refuse to reveal its reading.

Health Officer Gives Warnings

Geo. W. Cox, state health officer, gives the following advice to those contemplating vacations and summer outings:

"As the summer season approaches a word of warning is timely to prospective campers. Boy Scouts, Girl Scouts, summer vacationists, fishermen, and others who enjoy getting out in the open, relative to the possible dangers that may be encountered from the standpoint of contracting infection under the changed environment. This is especially true of diseases that may be transmitted through food and water supplies.

"Typhoid fever is a disease of which the amount of which is greatest, as a rule, where there is the least sanitation. It is unnecessary and preventable disease. It is spread from person to person by water, milk, fingers, flies and food. Every case is contracted by taking into the mouth some substance contaminated with typhoid organisms, and these occur only in nature in the bowel and bladder discharges of persons sick with typhoid or from carriers, persons who have had typhoid and who after recovery still harbor the germs in their systems.

"Persons planning a vacation or trip where sanitation may not be rigidly enforced or where food handlers are not regularly examined should protect themselves against this disease by being vaccinated. Three inoculations with typhoid vaccine, a week apart, are necessary to secure protection against this disease and the immunity established is good for two years. The purity of water or milk cannot be judged by looking at it. Play safe and have your doctor protect you."

 trier. He has been a school trustee seven years.

The attorney is a former member of the State Democratic Executive committee. In 1932 he was the presidential elector from the 17th Congressional district and a member of the campaign committee in this district.

Although he was elected first vice president of the WTCC last year at Amarillo, his connection with the organization began before that. He has been a local director in the body five years and a district director two years. Serving as president of the Eastland Chamber of Commerce, he was a director five years.

Other directorships include a position on the Eastland National bank. Reared at Granger in Williamson county, McCarty was graduated from Baylor University in Waco, took academic post-graduate work at the University of Texas and also received his law degree at that institution.

He is the father of two children, Milburn McCarty, Jr., a member of

the editorial staff of the New York magazine published in New York City, and Mrs. Dan Latimer of Paris. Mrs. McCarty died last year.

Coleman was winner of first place in the band contest which was a feature of Tuesday afternoon convention on entertainment. San Angelo was awarded second place and third place went to the Howard Payne College band. Selection of the winners was made during the parade in which sixteen bands took part and which was witnessed by more than 15,000 spectators.

District Directors

District directors of the West Texas Chamber of Commerce were named Monday at the meeting of directors held following the directors' luncheon.

Those elected include: C. A. Studder, Canadian; H. S. Hiburn, Plainview; R. H. Nichols, Vernon; Amos G. Carter, Fort Worth; Tate, May, Hamlin; B. Reagan, Big Spring; H. Y. Overstreet, Texico, N. Mex.; J. E. Casner, Alpine; Dr. L. H. Webb, Kerrville; and Dean J. Thomas Davis, Stephenville.

About 150 West Texas newspaper men and women and Chamber of Commerce secretaries and presidents were honored at a luncheon in First Methodist church at noon Tuesday. Principal speaker was George W. Cottingham, editor of the Houston Chronicle. Frank Preston Johnson, publicist-newspaperman, also spoke. Rufus Higgs, editor of the Stephenville Empire-Tribune, was toastmaster.

Two important group conferences were held Tuesday afternoon, one on Soil Conservation and the other on Oil Development. Dr. Bradford Knapp, president of Texas Technological College, Lubbock, is chairman of the first, and J. S. Birdwell, Wichita Falls oil operator, is chairman of the latter. Louis P. Merrill, Fort Worth, regional conservator of the Soil Conservation Service; R. E. Dickson, superintendent of the Texas Experiment Station at Spur, and Senator E. M. Davis of Brownwood were speakers on the soil conference program. C. V. Terrell, chairman of the Texas Railroad Commission, and Judge J. C. Hunter, Abilene oil operator, were speakers on the oil conference program.

The WTCC voted today to hold its 153rd convention in Wichita Falls. Wichita Falls received 1,500 of 1,700 votes poll-d. Abilene received the rest.

Ben Dean of Breckenridge won the "My Home Town" speaking contest and Sue Jean Lynch of El Paso was second.

Boa Constrictor Yens For Travel

RUSTON, La., May 12 (UP)—A 30-inch baby boa constrictor, with a yen for travel, came to a bad end here.

The Nicaragua-born reptile embarked on a tour of the Western Hemisphere by attaching himself to a stalk of bananas. When the banana plantation harvested its crop "Snaky" went with the banana stalk. He was stored away on a fruit boat, shipped to New Orleans

and then taken to Ruston aboard a produce truck.

The snake was discovered enjoying a snooze by R. C. Lyons, groceryman. Lyons promptly whacked the boa into pieces with a butcher knife.

Identification of "Snaky" was not established immediately. Dr. John R. Fowler, head of the zoology department at Louisiana Technological College, first expressed the opinion that the snake was a "bush-master," one of the most poisonous of all snakes.

Closer examination revealed the snake to be a young boa constrictor. Dr. Fowler said that the snake probably had been with the stalk of bananas since it was cut on the plantation. Refrigeration under which the bananas were placed to prevent ripening too quickly, apparently had caused the snake to go into "hibernation" from which he awoke only after having hung in the higher temperature of the grocery store.

BEARMANS ARE HOME AFTER 12-DAY CRUISE

Tuesday marked the end of a 12-day cruise of the Caribbean sea by Mr. and Mrs. J. A. Bearman who report a most enjoyable trip. The couple left New Orleans on scheduled time, Wednesday, April 28 and arrived in Havana the following Friday, April 30. The day was spent in that city and every interesting sight possible was viewed, said Mrs. Bearman. Leaving Saturday morning they arrived in Panama May 4, where they were met by their friends, Major and Mrs. Cassidy and a grand day and evening was spent at which time they viewed the ships as they cruised through Gatun Locks at the city of Colon. The party departed very early the following morning for the third stop, Puerto Cebazos, Nicaragua, where they spent one day on shore. At this place of interest the most interesting sights were the natives, which were black negroes and an Indian-like tribe. The party was entertained at the clubhouse.

The fourth stop was Clebs, Honduras, where one day was spent. The party boarded a train and journeyed about 30 miles into the interior which was a mass of dense jungle. Here they transferred to a barge and traveled up the Selado River on either side of which there were coconut groves and all kinds of wild life including the native monkeys. Luncheon was served on the barge, after which they returned down the river stopping at more civilized places, where members of the party enjoyed swimming and other recreation. Arriving in New Orleans Monday, May 11, Mr. and Mrs. Bearman departed for home.

County by-laws were read, as is the custom and Rising Star asked for and was granted permission to entertain the Council at the first Fall meeting.

County Council PTA Meets in Pioneer

The Eastland County Council Parent-Teacher's Association met Saturday in Pioneer at the school auditorium with the president, Mrs. L. C. Lash in charge.

A feature of the afternoon's program was numbers from the Pioneer Rhythm Band. During the business discussion, yearly reports were heard from the local units followed by a report from the student loan fund committee. It was announced Eastland County Council placed first in district reports and Morton Valley won first place in local reports.

County by-laws were read, as is the custom and Rising Star asked for and was granted permission to entertain the Council at the first Fall meeting.

Guest visitors for the afternoon were: first district president, Mrs. S. E. Jacobs; past president, Mrs. Reynolds and secretary, Mrs. Bishop, all of Ranger. Other councils represented were: Ranger, Rising Star, Morton Valley, Pioneer and Cisco.

More Mileage to you— BREAD & BUTTER TO ME

My station is all on its own. My living got to come mostly from just you people right here. I want your steady trade, so to build a real growing business. As there's where it helps me a lot, I can tell you, to be selling Conoco Germ Processed oil. You see it makes customers and keeps them for me. It's patented—the only oil that can Oil-Plate your engine. Meaning that a definite part of this oil always fastens direct to every working part, forming a real Plating of oil, which can't run down. Other oils will "dry off" every time you park, but Oil-Plating can't. You'll never make any hard, grinding starts. And that ends the worst wear all. Or when you're hitting it up all day you won't find this real Oil-Plating rubbing right off, like just some plain little drops of oil. Oil-Plating's not thinning out either, nor burning right up. Which gives you mighty solid reasons why Oil-Plating means more mileage from your engine and your Conoco Germ Processed oil. Besides making customers, I get a kick out of changing you to an oil I can believe in myself, right to the limit.
