## D. ANDERSON SLUGGED BY TRANSIENT

### SUSPECT HELD IN JAIL FOR INVESTIGATION

A. D. Anderson, president of the A-G Motor company, of Cisco, was in bed this morning but able to go to the hospital for a looking-over after he had been slugged, possibly drugged, and robbed by a soldier, or man dressed in uniform of a military school, whom he had picked up and fed near Arlington, returning from a business trip to Dallas.

Anderson is Hazy  
Mr. Anderson is rather hazy about events until the man had attempted to finish killing him and dump him cut near Strawn after rambling for several hours, when retiring from the blow on the head with a rock which was dropped in the car. Mr. Anderson starting the car and sliding under the wheel dashed away leaving the would-be robber and murderer far behind.

In a telephone conversation with Sheriff Don Bond of Palo Pinto, Mr. Bond stated that they had arrested a soldier with a furlough from Fort Bliss, El Paso, named Adkinson, who admitted riding with Mr. Anderson and identified the suit case found in Mr. Anderson's car as his own but claimed another man was in the car. But the sheriff says he is certain that the soldier was the culprit and Police Chief Perdue will go to Palo Pinto to identify him and get his confession, perhaps.

Another soldier was picked up at Baird and brought to Cisco this morning but Mr. Anderson immediately said he was not the man—that he would know the young man anywhere he saw him. Said he was a nice-looking young chap whom he thought was a student at the Arlington Military school and was glad to give him a lift.

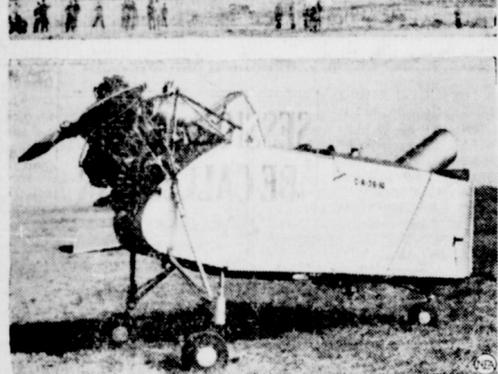

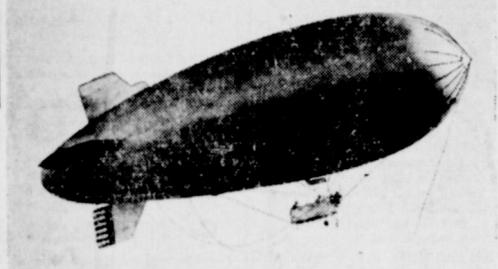

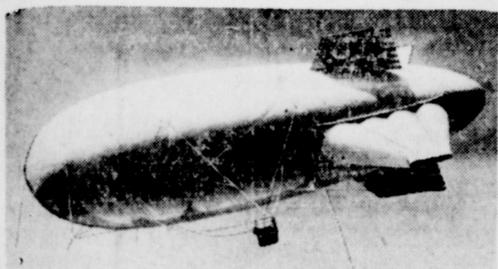

Mr. Anderson says he picked up the young man, who was about 19, six feet tall, weighing about 125 pounds, wearing a cap but with a hat strapped to his suit case, all left in Mr. Anderson's car, and turned over to officers at Strawn, where Mr. Anderson had his wounds dressed after escaping from the assailant.

In Fort Worth, they stopped at a "pig stand" and ate a sandwich, arrived in Weatherford about dark drank a cola-cola, which he remembers was poured into a glass because the bottle and was a little rough at the mouth. The young chap paid for the gas, saying that Mr. Anderson could repay him at Cisco. Then Anderson complained of being sleepy and the young fellow said he was a good driver and would be glad to take the wheel, which he did. Anderson remembers no more until the man hit him with a rock.

## 300 Japanese Are Massacred In Tungchow

### Army's 'Sausage' Sprouts Wings

The only one of its type in the world, the balloon in the middle photo, developed by the U. S. Army, is expected to become a very mobile unit of the artillery's "seeing-eye" department. When in use as an observation bag with the familiar basket, the ship appears, top, as the old-type "sausage balloon" used frequently during the war to guide artillery fire. However, when operated in this fashion, the bag is flown from a cable manned by a ground crew, and remains stationary or drifts with the wind. The motorized car in the bottom photo is the innovation. Substituted for the familiar basket the car becomes a power gondola, equipped with metal rudder, giving the balloon a high degree of mobility and a speed as high as 54 miles an hour in still air. The experiments were carried out at Fort Sill, Okla.

### ALL FOREIGN CONCESSIONS ARE GUARDED

TOKYO, July 31, (Saturday) (U.P.)—Nich-Nichi reported from Peiping today that 300 Japanese refugees in the city of Tungchow had been massacred.

The paper said the chief of the East Hopei Peace Preservation Bureau had revolted against his own government in an effort to overthrow the Japanese-sponsored regime in Eastern Hopei.

The Nich-Nichi consisted of people from Peiping and local residents of Tungchow.

Japanese artillery and airplanes, meanwhile, exacted bloody vengeance from Chinese troops in the hills west of Peiping from a terrific Japanese airplane bombardment smoldering in Tientsin.

Foreigners at Tientsin spent an anxious night watching the flames from fires in the crowded Chinese city. Troops of Italy, France, Japan and Great Britain guarded the boundaries of the foreign concessions.

Food prices soared and meat was \$1 a pound, compared with 24 cents yesterday. Authorities reports from Nanking, the national capital, said that the vanguard of government troops had arrived in the war zone southwest of Peiping, but they arrived, communications indicated, to find that the northern troops had broken.

WASHINGTON, July 30 (U.P.)—President Roosevelt described the Chinese Japanese hostilities today as very disturbing, and said he intended to remain near the White House during the week end if needed.

The president said he might board the presidential yacht for a week end cruise, but would instruct the cabinet to remain near that he might return to the White House within 2 or 3 hours.

A statement issued by Senator Key Pittman, chairman of the Foreign Affairs committee, emphasized the United States' determination to stand clear of far eastern hostilities.

AUSTIN, July 30 (U.P.)—The September special session of the Texas legislature might be asked to consider economy measures for the state government, Governor Allred hinted today.

Miss Mollie O'Rear then sketched the life of Mary Slessor sent as a missionary to Africa by the Presbyterian church of Scotland in 1876. The 3rd personality was Miss Laura Haygood, Methodist missionary from Georgia, to China where she went in 1884 and remained until her death in 1900. The sketch was given by Mrs. W. C. ### Hack Driver Quits After 41 Years

JACKSONVILLE, Ill. (U.P.)—Seventy-one-year old Charles Darymple, oldest Jacksonville taxicab driver, has retired after 41 years in the business.

### Suspect Held—

(CONTINUED FROM PAGE ONE) standing on the right side of the car. Anderson murmured, "My God you ought not to do that," and slumped over. The man dropped the rock in the car evidently thinking he had finished him and started around to the wheel-side of the car. The blow evidently revived Anderson and he felt for the key being blinded by blood, flashed it on and dashed away with the man yelling for him to stop. Anderson arrived at Metcalf Gap and washed his wounds to stop blood and telephoned home and officers describing the young man. He was informed here that he was headed away from Cisco and so turned around and drove back to Strawn where he left the suit case and had his wounds attended by a physician. A man named Henry was secured to come home with him. He went to the hospital this morning to have his three head wounds looked over to see if there was any serious concussions.

### Farmers Approve Game Reserve Plan

COLLEGE STATION, July 29 — That Texas farmers and ranchmen approve the game management demonstration plan offered by the Extension Service of Texas A. and M. College is evident from the enrollment of 1,597,600 acres in 36 counties, according to R. E. Callender game management specialist. The plan which has been in operation less than a year, calls for demonstrations featuring deer, wild turkey, antelope, beaver, prairie chicken, quail, fish and other forms of wild life. Farmers and ranchmen who enter the game management program organize into associations and set aside their land as game reserve demonstrations.

## A "bargain" is sometimes a bargain --

A good many people look on August as their lucky month —and we don't mean those who spend it lying on the sand and taking in salt air.

We mean those people who have formed the habit of buying things when other people aren't... porch rugs and luggage and towels and lamps and all sorts of things, for use now and for use next season.

Of course they have learned that "bargains" are not always bargains. They know how to recognize quality and styles and worth, how to find the strong points and how to avoid weaknesses. And much of their knowledge has come from the advertisements in this newspaper.

All of us follow advertising, but some people study it so thoroughly that they know exactly what they want and where to get it. They are the ones who find the real bargains. Their money buys more things and better things—in August and all through the year.
