

Mr. Muleshoe ...

By J. M. Forbes

West Texas Gas Company last year installed 117 new gas meters within the city limits of Muleshoe, states our friend Mr. M. J. O'Connor, ye manager of the local office. It is just another indication of how fast the little town is growing.

Asked more than a year ago for a three year estimate, Mr. O'Connor talked to everybody he could find and guessed: 100 new meters in 1949; 150 in 1950; and 125 in 1951. Indications are that besides underestimating in 1949, he will be away under in 1950, because by Monday of this week he already had placed 35 new meters.

Probably two hundred houses hereabouts need to have gas service and don't have it now. These include the estimated 80 or more houses located in the Gatlin area on the north side of the Clovis highway beyond Wiedebush & Childers place and on the south side east of Muleshoe courts, and the estimated 22 houses in the colored section. The gas company has more than 700 meter connections at this time.

Which reminds this column that it won't be long before the ten-year census will begin in the city and county. Needless to say, we want to have everybody counted; we want the figures to sound without our seeming to brag. What is your guess as to the number in Bailey County and the number of persons living in Muleshoe?

The 1940 census gave: Muleshoe, 327, 1949 estimate, 3,200. Bailey County: 1940 count, 6,318. (I got those figures out of the Texas Almanac, which incidentally is on sale in The Journal office for \$1.00).

Statistics of Bailey County which you may not be familiar, printed in this year's Almanac: Land area, 832 square miles; population in 1920, 517; in 1940, there were only 10 foreign born persons living in our county.

The descriptive sketch on the county says: High plains county on the New Mexico line, mineral and farm economy, the latter having developed rapidly in recent years. Population native white stock, high level of income. Created from Bexar Territory 1876, organized 1917. Named for Peter James Bailey, killed in the Alamo.

Level to undulating prairie with scattered small lakes. Sand hill country on twelve-mile strip inside New Mexico border devoted to ranching, remainder tillable. One of highest counties in the state. At 3,800 to 4,000 Annual rainfall 18.45 in. Temp. avg. Jan. 37 degrees; July 78 degrees; mean annual 58. Prairie chickens, ducks, geese. Migratory waterfowl refuge of U. S. Wildlife Service on lakes in southern part of county.

Dark sandy loams, occasional strips lighter sandy. Abundant supply underground water. Grain sorghums, cotton, corn, alfalfa, wheat, barley, sweet corn, beans, tomatoes, onions, beets, Irish potatoes and other vegetables grown for market; 58,400 acres under irrigation from shallow wells in 1948; 30,000 acres could be added on the area's own water supply. Growing season 180 days.

Western portion devoted to large scale cattle raising; hogs, poultry and dairying developed in recent years.

Seen & Heard: Lloyd Quisenberry, northeast of Muleshoe; I have just about decided that that bus of mine is never failing are unfounded. Some of my neighbors have brought in "very strong" wells. And I am almost persuaded that an irrigation well is what I need on my farm.

Mrs. Blackburn was so proud of the drawings of a high school pupil for the annual that she brought them down to show them to this editor. Gene Tipps is the modest young artist. He has done all the drawings for the annual and we think his work is excellent in so young a boy and that it shows promise for his future. He took a proof we made from a cut of the architect's drawing of the new high school building, drew his own picture for the annual back page, and it looked pretty professional. We think Gene ought to dig in and work on this talent that he possesses to such a marked degree.

My friend told this one which he said was fit for this column: This man was told he could have one wish and it would be gratified. He wished for a copy of The New York Times printed one month from the date of his wish. It was quickly granted. The man saw that certain stocks were quoted 'way up, so bought quite a block at their then low price; he saw where the Giants defeated the Dodgers, called up several of his sports minded friends and made nice wagers—on a cinch. He was having a heck of a time 'till he got to the back page where his own name in a headline caught his attention. It was a story telling about his own funeral services.

Now report if you didn't get a chuckle out of that and I won't print no more from this source.

PMA Has Loaned Nearly \$6 Million On Bailey Crops Produced In 1949

Demonstration Of Farmall Tractor Set For Friday

A tractor demonstration is announced for tomorrow, Friday, February 17, by Johnson & Nix, Muleshoe International dealers. Fred Johnson, manager, said the demonstration will take place on the farm of Karl Lovelady, located 2 1/2 miles west of Muleshoe, on the first road turning to the left off the Clovis highway. The demonstration will go on all day, he said, with free coffee and doughnuts for those who attend.

SS Benefits Are Based On Wages

Retirement and family insurance benefits under the Social Security Act are based on the wages received and the time spent by each worker in covered employment, Joan G. Hutton, manager of the Lubbock Social Security Office, explained today. "A record of each earner's wages is kept from the reports which employers send in with social security taxes four times a year. Since the benefits which a worker or his dependents will get are based on his wage record, it is important that each worker's wages be correctly reported," Hutton said.

LEWIS HISTORIAN FFA CHAPTER AT SAM HOUSTON

HUNTSVILLE, Feb. 15—Raymond Lewis of Muleshoe is the newly elected historian of the campus division of the Sam Houston State chapter of Future Farmers of America.

BRYANTS IN NORTH CAROLINA

Mr. and Mrs. Don Bryant and baby have been visiting Mrs. Bryant's parents, Mr. and Mrs. Dooley Woodard, in Bryson City, N. C. since the last of January. While there, Mr. Bryant had to have an appendicitis operation. When he recovers completely they will return to Muleshoe.

Trainload Of Tractors Heads For Texas

A solid trainload of 46 cars of tractors recently attracted wide attention along its route from the Massey-Harris Implement Company at Racine, Wisconsin, to dealers in the Southwest. Texas Machinery Company of Muleshoe received a carload from the special train, shown here being switched to the Santa Fe at Kansas City for shipment to Muleshoe.

Big Irrigation, Soil School Held, 170 Farmers Attend

One hundred, seventy farmers attended the annual irrigation and soil building school held in Muleshoe at the courthouse Friday, County Agent J. K. Adams reports. A feature of the program was talks by local men on demonstrations conducted last year: G. T. Maltby on hybrid corn yields; George Stotts, on deep plowing; and James Case on tomato growing.

Services For Mrs. D. Carter Held Sunday

Mrs. Dora Stubblefield Carter, widow of the late W. A. Carter, died Friday, Feb. 10 in the Green Hospital. She had been in ill health for some time. Mrs. Carter was born March 15, 1886 at Sherwood, Tenn. On March 20, 1904 she was married to William Albert Carter who preceded her in death on July 24, 1932. To this union were born nine children. Two boys died in infancy.

Judge Bills Tells of Inside Menace Of Communism In Talk Before Lions

District Judge E. A. Bills, of Littlefield, told members of the Muleshoe Lions Club at their luncheon Wednesday that he is more worried about those who work from within to take away our freedoms than he is about those who live in foreign nations and are known to be intent upon this goal. He said at the outset of his talk he wished to talk about two things: 1. Efforts being made within our country to destroy our freedoms, and 2. Attempts being made by other organizations to destroy the functions of our courts.

Buffalo Band To Play Here

The Buffalo Band of West Texas State College, Canyon, Texas, is starting on their annual Winter Concert, Tuesday, February 28 here in Muleshoe. The concert is being presented in Muleshoe under the sponsorship of the High School Band. All proceeds from this concert will be added to the band treasury to help defer charges of two new brass horns which have recently been added to the organization.

Future Farmers Hold Leadership Contests Here

178 Future Farmers took part in the Littlefield District F. F. A. Leadership contests in Muleshoe at the Agriculture building Saturday, February 11. Contests in Chapter Conducting, Parliamentary Procedure, Farm Skills and other F. F. A. work were held. Schools represented were: Muleshoe, Littlefield, Sudan, Olton, Springlake, Spade, Threeway, Amherst, and Bula.

Services In Louisiana, Florida

Mr. and Mrs. Dick Willman and Mr. and Mrs. Glen Stevens have just returned from a two weeks vacation in the southeastern part of the United States. They reported a most enjoyable time in Shreveport, Tallahassee, and Birmingham, in New Orleans, they visited the St. Louis Cathedral which is the second largest in the world. In Panama City they spent a day deep-sea fishing.

RAINBOW MEETS TONIGHT

Assembly of Rainbow for Girls meets tonight (Thursday) in the Masonic hall for regular business, with Sondra Waggon, Worthy Advisor in charge.

G. T. Maltby's Hybrid Corn Yield Cited By A & M As State's Highest

COLLEGE STATION, Feb. 15—You don't have to leave Texas to see corn and grain sorghum that will produce well over 100 bushels per acre of wheat that will run from 50 to more than 90 bushels per acre. Such yields were produced by a number of Texas farmers in 1949.

Bills Announces For Election As District Judge

Judge E. A. Bills, of Littlefield, Lamb County, this week authorized The Journal to announce that he is a candidate for the office of District Judge, 64th Judicial District, which includes Bailey County. It is the first time for him to make the race since he is serving by appointment of the Governor. Judge Bills made the following statement to the people: THE VOTERS OF BAILEY COUNTY:

At this time I am serving you as District Judge of the 64th Judicial District, which includes Bailey County. The other counties in the District are Hale, Lamb, Farmer, Castro and Swisher. As you know, Judge C. D. Russell of Plainview resigned as district judge in December, and on the very generous endorsement of citizens of the district the Governor appointed me as district judge to serve out Judge Russell's unexpired term which continues for one year through 1950. I took over the office on January first and will serve through the year by virtue of my appointment.

I am now making my announcement as a candidate for nomination by the Democratic Party as District Judge for a full term. I have practiced law in Bailey County and the other counties of this district for more than 25 years, my experience consisting principally of the actual trial in the courthouse of law suits of most every nature in this and surrounding districts and in our appellate courts, and I am willing to leave it up to the people of the district who know me to judge my qualifications.

The duties of this office require most all my time holding court in the six counties of the district and for that reason it will be impossible for me to see you in person and solicit your vote. So, I take this method of presenting to you my candidacy and earnestly solicit your vote and influence for me as district judge of this district. I promise faithful, unprejudiced and impartial service.

Sincerely yours, E. A. BILLS

Individual cases of yields in excess of 90 bushels were reported from 20 counties and 41 other counties reported yields of 75 bushels or more per acre. Miller says these outstanding yields of corn show what can be done when good seed and cultural practices are used and with favorable weather conditions.

He says most of the high yields were made on land that had been enriched with fertilized and inoculated legumes. County wide corn production contests played a big part by stimulating more interest in higher yields. In Upshur County, 4-H boys and three adults produced more than 100 bushels per acre. Lee boy Bartlett, a 4-H boy, made 149 bushels to lead the list and the high adult demonstration was conducted by Roy Williford, 133 bushels per acre. These yields were made with hybrids on land that had been in lespedeza meadows for several years.

Six 4-H boys and one adult in Franklin County produced 100 bushels or more per acre. H. L. Bridges in Wood county reported a yield of 142 bushels per acre. BAILEY COUNTY HIGHEST

The highest corn yield in Texas comes from Bailey County, West Texas. A small test plot under irrigation was figured at 162 bushels per acre, grown by E. T. Matley. Miller says all of these outstanding yields were made with corn hybrids.

Grain sorghums were good too. In Swisher county, Weldon McClung, a 4-H boy, reported a yield of 130 bushels per acre. Schlub Brothers in Farmer County came up with 125 bushels; Bill Clutier in Deaf Smith county checked in with 107 bushels; Harold Shearheart, Castro County, 102 bushels and Deb Turner of Hale County made an even 100 bushels per acre. All of these yields were returned under irrigation. Four of these counties also reported corn yields of 100 bushels or more per acre and it too was produced under irrigation.

High Wheat Yield, Deaf Smith The highest wheat yield ever made in Texas, says Miller, came from Deaf Smith County. John Patzold checked in with 92.5 bushels per acre on a two acre irrigated plot. Jack Renfro and Cus Schlab in the same county reported yield of 60.5 and 52 bushels per acre respectively. E. M. Carter, Hale county with 60 bushels; Raymond Barth, Dallam County with 57; Jay Boston and the Hunter Brothers in Castro county with 56 and W. T. Miller of Bailey County with 55 bushels per acre were farmers who reported unusually good per acre yields on wheat. Miller says other wheat farmers made yields of 40 bushels or more per acre which is considered very good wheat in any state.

In conclusion, Miller says 1949 production records were outstanding, however new and improved varieties, better cultural methods management, the use of legumes and fertilizers and irrigation may see new high marks set almost annually.

Bailey Youths At Stock Show

Bailey County is to be represented at the San Antonio Fat Stock Show, February 16-23 by Robert Giles, 4-H club boy and father, R. C. Giles of Progress, who will show a pickup load of Poland China barrows. County Agent J. K. Adams, took Bill Stinson and Carl White to the show. Carl will show 2 Hampshire barrows and one Poland 4-H and Bill will show a Chester White and a Poland China barrow as FFA.

ATTEND LUZIERS MEETING

A district meeting of Luziers representatives was held in Clovis, N. M., with the following from Muleshoe in attendance: Mrs. E. E. Holland, Mrs. Omar Kelton, Mrs. Maxine Ragsdale, Viola Northcutt.

TEXAS NEW SCHOOL SYSTEM COSTS LITTLE MORE

Texas' rapidly growing public school system is costing only one-twelfth more of every tax PENNY than the total expended ten years ago.

The surprisingly small increase in apportionment of the total tax dollar in the decade started

ing with the 1939-40 school year is due to several factors, Charles H. Tennyson, Director of Public Relations of the Texas State Teachers Association, pointed out here today.

The total government cost for all purposes has increased tremendously in the decade, Tennyson noted, but said that the percentage of total government cost for public schools jumped only from 30.31 percent in 1939-40 to 30.43 percent for the present school year.

Public schools this year will cost an estimated total of \$155,213, 552 in revenue derived from state and federal funds. The total cost of all governmental services including education is estimated at \$510,000,000.

During 1939-40, which was the last normal year prior to World War II, Texas had 1,073,847 children attending school. This year there are, preliminary reports show, 1,181,103, an increase of 107,256 pupils.

"That huge added enrollment, plus better school facilities and more capable teachers, account for a great part of the added cost of operating our schools," Tennyson said. "In addition the dollar of today has a 1939 purchasing value of 59 cents."

"Texans indicated their desire for better schools when they approved the Gilmer-Aikin bills which re-organized our school system and set higher standards, but I am pleased that the increased cost takes so little more of the total tax dollar than it did ten years ago."

"The most important factors in this seem to be, our statistical re-

BABSON DISCUSSES

Selling

Babson Park, Fla., Feb. 10. The forecasts for 1950 recently issued by leading industrialists, economists and government officials all agree that 1950 will be a very competitive year.

WHY MORE COMPETITION?

Production has been greatly increased during the past ten years. Farmers are raising 225% more products. Manufacturers are making 45% more goods; there has been a large increase in the number of "service" jobs, from hair-dressers to dry cleaners, while advertising has increased about 65%. Yet, since 1940 our population has increased only 14%. Hence, 1950 will see far greater domestic competition.

Roger W. Babson

But in 1950, for the first time since 1940, the U. S. will face foreign competition. Among Christmas gifts received by me was a five-pound box of candy made in Paris and flown to this country by airplane! The only hope for Europe and World Peace is for us to buy more goods from abroad. This buying from abroad will need to increase in order to stave off World War III. This means more competition for U. S. manufacturers.

ADVANTAGES OF MERCHANDISING

The one industry which need not fear this competition is well organized merchandising, perhaps best represented by the top chain store organizations. These are always looking for the best goods for the least money, wherever they are made or raised. They do

ports disclose, first, that the number of pupils attending school and the number of teachers declined from 1939-40 to 1947-48. As a result, the total cost of public schools did not increase as rapidly as other government services.

"Secondly, the state has expanded services of other kinds to its citizens more rapidly than the public school program has been expanded.

"By 1948-49 the pupil attendance and the number of teachers had passed the pre-war level of 1939-40, yet the proportionate part of total government expense was not going to the schools. In fact, the position of the schools on the tax dollar scale declined from 30.31 percent to 27.49 percent.

"But to sum it up, Texas now has a vastly improved school system, which makes for better citizens and a more prosperous state, at a total increase in cost of only a little more than one mill, a twelfth part of every tax penny. That amounts to a twelfth part of the cost of the average cigarette."

not have money in farms, factories, banks or real estate investments. They are free lances with only one goal,—namely to best serve consumers.

The Selling Industry is not tied down to any one location; is not dependent upon any definite styles; and is not governed by bureaucratic regulations. Stores which do not pay can be quickly moved; while stores are so distributed through the U. S. that poor conditions in one locality, or industry, will not harm the group as a whole. With a turnover of five or more times a year, there need be no loss on inventories. Good merchants always are well hedged against inflation.

SELLING AS A PROFESSION

If I were a younger person today, a graduate of High School or College, I would become a salesman. Most of my successful business friends—whether in business for themselves or heads of large corporations with thousands of the Sales Department. Today, there are many engineers, accountants and personnel managers looking for jobs; but no successful salesmen are out of work. Moreover, men who can organize and operate a profitable selling force are in great demand.

It is not important what you sell, so long as it is something which honestly serves people. If you can get on your knees every morning and ask God to help you sell your products, you are sure to succeed. Selling opportunities exist in every honest industry, "from cradles to coffins". But after deciding what you are to sell, make sure that you know more about that product than anyone else on the salesforce. Visit the plants from which come the raw materials; work in the factories where your product is made; and visit the consumers who use it.

IMPORTANCE OF SELLING TO THE NATIONAL PROSPERITY

My family for 200 years has been in the fish business. As a statistician, I never understood why good fresh fish when landed from the boats should sell at only five cents a pound; while the same fish, when frozen, should retail months later for forty cents a pound. It seems unfair to the fisherman who are daily risking their lives to catch the fish; and unfair to housewives who buy the fish.

When coming to Florida, a half grapefruit was priced in the dining car at 35 cents. Yet, the day

WHAT THE NEW SYSTEM WOULD DO

There will be a much different Presidential campaign in the Southern States in 1952 from any that any living person has ever seen if it is held under the Gossett-Lodge amendment, which now seems altogether possible. That amendment, which the Senate voted last Wednesday to submit to the States, provides that hereafter the electoral votes of each State shall be divided among

after my arrival here I had to hire a man to pick up from the ground under my trees, equally good or better grapefruit and cart them away! Certainly, there is a great opportunity for Christian service for any young man who will help reduce this spread which applies to most everything we eat or wear.

the candidates on the basis of the percentage of the popular vote each receives within the State. It is customary to point out that if this system had been in effect in 1948, the 23 electoral votes of Texas, for example, would have been divided between Truman, Dewey, and Thurmond, and that instead of Truman receiving all 23 of them, he would have received 15, with Dewey getting 5 1/2, and Thurmond 2 1/2. But that's not half of it. If the proposed system had been in effect in 1948 there would have been a much different campaign in Texas. The Republicans and Democrats alike would have made an all-out effort to garner every possible vote they could obtain within the State. And when the campaign was over, the result in popular votes might have been much different from what it was.—Southern Weekly.

RAYMOND L. LEWIS IS ON SAM HOUSTON HONOR ROLL

HUNTSVILLE, Feb. 15.—Raymond L. Lewis of Muleshoe is included in the Sam Houston State fall honor roll just released by Registrar J. Cullen Sowers.

Lewis made 4 A's and 2 B's in the courses he took during the semester. Sowers said that a total of 149 students were placed on the list. The number represents the upper six percent of the fall enrollment. Of the 149, only 33 of the students made all A's. Forty-one of the students made all A's and one B.

I mean my stockholders, the folks who own Southwestern Public Service Company! Some of them are your neighbors . . . maybe they live right down the street . . . or sit across the aisle at church . . . or one of them might even be your best fishin' buddy!

What I mean is that your Public Service Company belongs to people right in your own community . . . all of them "just folks" like yourself . . . and no one of them owns more than 2% of the total stock! As a matter of fact, you may be one of them, too. It's a pretty good chance that some of your savings at the bank or in your life insurance policies have been re-invested in your Public Service Company.

So, you see, a great many people have an interest directly or indirectly in this company . . . that's the way free enterprise works . . . it's the American way!

SOUTHWESTERN PUBLIC SERVICE COMPANY

25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

It's the bigger

It's the "big car" of its field. Big car V-8 power . . . more "sitting room" than any other low-cost car . . . big-car strength of Ford's 13-way stronger "Life-guard" Body.

It's the better

Everything about the '50 Ford spells quality. The quiet, "sound-conditioned" interior . . . the low, level comfort of Ford's "Mid Ship" Ride . . . Ford's 35% easier-acting King-Size Brakes . . . the 50 new quality features.

It's the buy

Only Ford in its field offers you so much quality for so little money. Ford's "hushed" V-8 engine is the same kind of engine now used in America's costliest cars, yet it's yours for hundreds less than most "sixes."

Skeptical Farmers Now Believe In Artificial Insemination Program

Lubbock, Feb. 13—A farmer who thought artificial insemination programs were "a lot of dern nonsense" has become one of Texas Tech's most faithful supporters, now that he has four fine-looking calves, all bred artificially.

Since December of 1947 the Tech artificial insemination program has been offered to cattlemen and dairy farmers within a 28-mile radius of Lubbock. In that time, some 1,500 calves have been delivered through the program and technicians W. T. Hayden and H. D. Schwarz now give as many as 60 services a week.

Through the program cattle owners have all the advantages of owning a registered bull which would ordinarily cost from \$1,000 to \$5,000. The Tech program uses bulls like Meierkord Sir Travo Bobe or Carnation Lamar Creamery Governor, under a plan approved by the Purebred Dairy Cattle association.

"Babe" is the sire of 28 daughters which produced an average of 501 pounds of fat in 309 days on two-thirds milking schedule. "Governor" is the son of Gover-

nor of Conation, and his ten nearest dams averaged 27,457 pounds of milk in one lactation period, almost a world's record.

With sires like these two around, it's not surprising that South Plains farmers quickly accepted the artificial insemination program. From the offices located on the Tech campus the technicians make service calls three days each week for \$6 per call. Special calls on a particular sire cost \$25, but most farmers prefer the regular schedule which, incidentally, is guaranteed under ordinary conditions.

Hayden and Schwarz collect semen on Tuesday, Thursday and Saturdays for use on the regular Monday-Wednesday-Friday runs. It is kept at temperatures ranging from zero to less than 40 degrees, and must be used within three days after the collection period. The service is offered only to owners of Holstein, Jersey, Guernsey, Ayrshire and Brown Swiss cows. All studs are registered and if the dam is registered a certificate is furnished for the owner.

Agriculture Dean W. L. Stangel and Dr. J. J. Willingham, head of Tech's dairy manufactures depart-

ment, agree that in increased use of the program stems from a South Plains milk shortage. An estimated \$750,000 annual importation of raw milk from the mid-west since 1941 has induced many farmers to resume dairy production, they said.

"There is a conscious effort to build the dairy herds back to the levels we had around 1940-41," Dean Stangel said.

Hayden and Schwarz have plenty of stories about herd owners who were skeptical when the service was first introduced. Some believed they might get a calf that would fit in with a carnival side-show, but not a good milk producer.

"It's been proved that the conception rate with artificial insemination is slightly higher than the natural means," Hayden and Schwarz agreed.

In the 25 months the service has been offered the two technicians have travelled 22,500 miles making service runs. They are well known throughout the region now, and don't need to convince the farmers any more.

"They're really sold on it," Hayden concluded.

The other, after a long, thoughtful pause, halted the discussion with, "I haven't got a set either."

So called "closet dramas" are those designed to be read, but not acted.

Threeway WMS In All Day Meeting

Threeway W. M. S. had an all day meeting February 6th, at the Church with Mrs. Humphrey, Mission Study chairman in charge.

Mrs. Brinker brought the devotional, Gen. 4:9-11, followed by the song "Wherever He Leads I'll Go", Mrs. Adolph Wittner led in prayer.

The last chapters of the mission book "Japan's New Day" were studied and Mrs. Humphrey gave an oral test and encouraged each to pray for our missionaries every day.

The president, Mrs. M. D. Gaddy called a brief business meeting. Mrs. Edwin Meutzler was elected as secretary.

Eight members were present. All members are urged and anyone interested in W. M. S. work, to come each Monday. The meetings are held at the Church unless otherwise announced. The meetings are from 3-4.

The meeting adjourned with a prayer by Mrs. Gaddy.

Two commuters were discussing the merits of television. One, in a firm and decisive tone, remarked that the new medium was a "time waster" and in the experimental stage.

Q. What is the name of this cut of meat?

A. Pork cushion style shoulder roast.

Q. Where does it come from and how is it identified?

A. It is the boned arm section of a fresh picnic shoulder. The shoulder is sewed or skewered where the bone is removed and one side left open for stuffing.

Q. How is it prepared?

A. By roasting. The shoulder is filled with a bread, fruit or vegetable stuffing, skewered or sewed, then placed fat side up on a rack in an open roasting pan. Water is not needed and basting is not necessary. The stuffed shoulder is roasted in a 350° F. oven until well done, allowing 35 to 40 minutes per pound roasting time.

THE MULESHOE JOURNAL, Thursday, February 16, 1950

Y. L. Church To Meet, Head Home

While the Y. L. Church building is being remodeled Church and Sunday school will be held in the

home of D. E. Head.

Asked to write an essay on water, little Tommy, after chewing his pen handle for a long time, wrote: "Water is a colorless wet liquid that turns dark when you wash in it."

PIGGLY WIGGLY SUPER MARKETS

THE LAW AND YOU

by Robt. (Bob) Kirk
County Attorney
Lamb County, Texas

Do you know that some one can acquire title to your property without you ever giving them a deed?

Under the Texas statutes, if a man goes upon the land of another, and if he holds it peacefully, and adversely for a period of ten years, he may then go into the Courts and have the Courts to declare that he is the owner of the same.

The statutes say that "adverse possession" is an actual and visible appropriation of the land, commenced and continued under a claim of right inconsistent with and hostile to the claim of another. "Peaceable possession" is such as is continuous and not interrupted by an adverse suit to recover the estate.

If your land is some distance away from you, you should go to it occasionally, and inquire among the neighbors, and learn if anyone, other than those you have authorized to use it, are using it, and if they are making any adverse claims to it.

For information on your property...

NEW FACES AT OFFICE OF THE JOURNAL

Carlton Newell, of Clovis, has signed on as linotype operator at The Journal. Carlton was raised up in print shops owned by his dad, Clyde Newell, and recently has been a linotype operator for The Clovis Chronicle.

A part time reporter is Glenda Stevens, daughter of Mr. and Mrs. Elmo Stevens, who recently moved back to Muleshoe from Red Bluff, Calif. Glenda will help cover the school beat and hunt personal news items for the paper after school hours. She's a senior this year and sort of has the idea she will make a journalist one of these days.

AWTREY VISITOR

Mrs. Eula Bryant visited last week in the home of her daughter and husband, Mr. and Mrs. W. H. Awtrey Sr.

Local situation, see your local attorney.

Girlstown Will Benefit In Concert

DALLAS, (Spl.)—Girlstown, U. S. A. will benefit from an extra concert to be played by the Dallas Symphony Orchestra, March 27, 1950, 8:15 p. m. at the State Fair Auditorium, Dallas, under the direction of Mr. Walter Hendt. The Cuban pianist, Jorge Bolet, who received favorable notices from the critics when he appeared in Dallas earlier in the season, will play a return engagement, as guest soloist.

The Zeta chapter of Delta Rho Delta, national sorority of business women, is sponsoring this gala concert for the benefit of the building program for Girlstown, U.S.A. located at Whiteface, Texas, a new project offering a home for girls from broken homes, or girls without a home. Now there are 10 girls in Girlstown, with facilities being completed at the present time for 64 girls. The building plan covers a 10 year period in which time the founder, Miss Amelia Anthony, hopes to have room for 500 girls.

GILES NOW TAXPAYER

Porter Giles, paper salesman who has called on merchants of this county for nearly a quarter of a century, is now a landowner and taxpayer of this county. Last week he bought a quarter section farm lying about 1 1/2 miles from Maple, in the south part of this county.

POLLYANA CLUB MET

By Mrs. Austin Jones
Food value of cereals, was the program when the West Camp Pollyanna club met Wednesday, February 8th, in the home of Mrs. Guy Austin.

The meeting was called to order by the president, Mrs. Woodrow Couch, and roll call was answered with "a cereal product recipe my family enjoys."

Mrs. Johnnie Williams, the recreation chairman led the recreation. One new member Mrs. Earl Mitchell was added to the roll. The club is always happy to have new members and visitors. A delicious refreshment plate was served by the hostess to Mesdames Frank Akin, Johnnie Williams, Bert Williams, Elmer Hargrove, Willie Williams, Pershing Busbice, Parten Austin, Austin Jones, Seaborn Busbice, Woodrow Couch and Earl Mitchell.

The next meeting will be with Mrs. Parten Austin, February 22. Congratulations to Mr. and Mrs. Bob Byrd, on the birth of a son David Gene, Sunday February 5 at Clovis.

Mrs. Anna Elkins, of Wichita, Kansas, sister of Mrs. Nathan Harding who has been visiting in the Harding home the past two weeks, returned home Wednesday. Mr. and Mrs. Harding took her to Amarillo, from there she was to finish the trip by train.

Mr. and Mrs. Elmer Hargrove, Don Williams, and Dwight Sheriff returned from a skiing trip to Santa Fe, N. M. Tuesday. They reported a wonderful time and snow three feet deep.

Roy Sheriff and Johnnie Williams visited relatives and tended to business in Hollis, Okla., last weekend.

Rev. Earl Mitchell is attending school at Eastern New Mexico University this semester.

Mr. and Mrs. Woodrow Couch, Mr. and Mrs. Austin Jones, and Mr. and Mrs. Pershing Busbice and children spent Sunday in the Seaborn Busbice home.

We welcome into the community, Mr. and Mrs. Ernest Brock, who have moved on the farm the Olan Duttons recently moved from.

Congratulations to Mr. and Mrs. Albert Ramm and Mr. and Mrs. Jess Stancel who have new homes under construction.

Mrs. Olan Dutton and Danny visited friends in this community Tuesday.

Mrs. L. E. Bratcher Hosts Progress HD Club, Feb. 7th

The Progress Home Demonstration Club met February 7th, in the home of Mrs. L. E. Bratcher, with thirteen members present.

Announcement was made for a demonstration on leather tooling to be given at the next regular meeting, February 21, in the home of Mrs. Albert Davis.

Committees for the year were named, with Mrs. George Stotts and Mrs. M. E. Little as food demonstrators.

The club committee on the March of Dimes drive reported success on the turning in of \$140.

Mrs. L. E. Bratcher was elected vice-president.

Mrs. O. C. Thomson, assisted by

Mrs. J. W. Thomson gave an interesting demonstration on "growing shrubs and trees from cuttings". Cuttings from various shrubs were distributed to the members present.

CONGRATULATIONS

Mr. and Mrs. Jack Beddingfield on the birth of a daughter, Kerry Gene, born February 8 at Lubbock.

Attend Appreciation Day

WHAT PRICE ECONOMY

There is no question but that, "price is important. But price alone is a poor gauge with which to measure value in either auto service or equipment. Many unwary motorists have found, to their sorrow, that a cheap price does not make a bargain. Used as a bait with which to snare the unwary motorist, many so-called "buys" turn out to be foolish extravagances.

True economy, as we see it, consists of quality (in service and merchandise) sold at a fair and honest price and backed by a guarantee that assures satisfaction. That is our unvarying policy, a policy that provides true economy for motorists and permanent patronage for us.

GET A... Ford TRACTOR

- POWER ● EASY HANDLING
- ECONOMY ● LOW SERVICE COST
- LONG LIFE ● HIGH RESALE VALUE

Power—Talk about power... ask for a demonstration on your own farm—see how the Ford Tractor handles a 12' or 14' two-bottom plow.

Economy—Plenty of performance on the hard jobs, yet the Ford Tractor doesn't pack around expensive excess built-in weight on light jobs.

Long Life—The Ford Tractor is built to high Ford precision standards—an important assurance of long life.

Easy Handling—You'll never know how easy to handle a tractor can be until you operate the Ford Tractor. We are anxious for you to demonstrate this feature to yourself.

Low Service Cost—Our parts prices are reasonable. What's more, the Ford Tractor is easy to maintain and repair. Specially trained mechanics save labor time.

High Resale Value—When you trade in a Ford Tractor you get a "premium" price. It's a popular tractor, built in the popular two-plow size.

NOTICE TO BIDDERS

Sealed proposals addressed to THE CITY COMMISSION, CITY OF MULESHOE, TEXAS, for furnishing all materials, equipment, labor and supervision necessary for construction of a swimming pool, complete with equipment in accordance with plans, specifications and contract documents, will be received until 7:30 p. m., February 28, 1953. Bids will be publicly opened and read aloud at 7:30 p. m. on the 28th day of February, 1953, in the office of the City Secretary. Any bids received after the closing time will be returned unopened.

2. The contractor shall identify his bid on the outside of the envelope by writing the words "Construction of Swimming Pool Complete with Equipment for the City of Muleshoe."

3. Plans and specifications may be examined without charge in the City Hall and may be procured from the Paddock Engineering Company of Texas, 3727 Atwell St., Dallas, Texas, upon deposit of Twenty-five Dollars (\$25.00) as a guaranty of the safe return of the plans and specifications. The full amount of this deposit will be returned to each bidder immediately upon the return of the plans and specifications in good condition. No refund on contract documents and plans returned later than five (5) days after the bids are opened will be obligatory.

4. A cashier's check, payable to the order of the City Commission of the City of Muleshoe, Texas, or a Bidder's Bond executed by a surety corporation authorized to do business in the State in the amount not less than five percent (5%) of the total bid, must accompany each bid as a guarantee that, if awarded the contract, the bidder will promptly enter into a contract and execute a bond on the forms provided, as outlined in the specifications and contract documents.

5. In case of ambiguity or lack of clearness in stating prices in the proposal, the City Commission reserves the right to adopt the most

Compliance With Cotton Program Is Required

Although growers of peanuts and tobacco, two of the three products of the farm on which marketing quotas have been established for 1950, may avoid prescribed penalties, invoked for overplanting, simply by not marketing, in that year, the excess over the marketing quotas, the same does not hold true, in the case of cotton, the other product on which marketing quotas have been established.

Compliance by farmers with acreage allotments is strictly on a voluntary basis on the part of the farmers, but with marketing controls it is a different matter, is the substance of an explanatory report issued by the Department of Agriculture.

Bluntly, if a farmer does not comply with acreage allotment he may not receive government price supports.

How Allotments Work

This means that if the farmer grows more than the acreage allotted to him he has to sell the crop on the open market. The price there may be less than the level at which the government has agreed to support the crop.

Farmers who voluntarily cut acreages to the government allotment level are eligible to receive support aid in addition to the market price if the market price

advantageous construction thereof.

6. The City Commission of the City of Muleshoe, Texas, reserves the right to reject any or all bids and to waive any formalities.

THE CITY COMMISSION OF THE CITY OF MULESHOE, TEXAS.
By WILL HARPER,
Mayor.

falls below certain levels. Farmers, however, must comply with marketing quotas that have been established for three 1950 crops. These are cotton, peanuts, and tobacco.

The difference between an acreage allotment and a marketing quota is this:

Cotton May Be Held
Farmers are penalized if they do not comply with marketing quotas. This is a penalty of so much per pound or so much per bushel in excess of the quota. But in the case of cotton the penalty may be avoided if the farmer withholds from market the part of the crop in excess of his quota.

For 1950 acreage allotments have been proclaimed for corn, wheat, rice, potatoes, cotton, peanuts and tobacco.

of this responsibility, however, must be a joint affair shared by all the people.

The State Health Officer is the administrative and executive head of the Department. The field activities are organized in 18 different divisions. A division director with specific training and experience in one of the specialized fields of public health as well as in general public health measures directs the activities of each division.

The many problems faced today by every American community and by each school, farm, business and industry are: how to prevent and control illness, malnutrition, and epidemics; how to make the community in which one lives as free as possible from hazards to health.

The world of disease is not divided; it is a common world. Tuberculosis in the United States is not different from tuberculosis in any other country. In terms of human needs, the world is truly one world. Public health and medicine have a tremendous part to play. They possess one of the important keys that unlock the door to future world progress.

No public health program anywhere can be completely successful, however, unless it has the confidence and support of the people who benefit by it. Full support cannot be expected unless the people understand the purposes and objectives of the program.

Your health department is interested in preventing disease and it never interferes with your rela-

Health Program Needs Public Aid

AUSTIN, Feb. 13.—If public health is to contribute to health and happiness in 1950, the people of the State need to gain a new knowledge of its significance and to convince their leaders of the importance of the support of the people, said Dr. Geo. W. Cox, State Health Officer.

The State Department of Health is the state agency responsible by law for the health of all the people in Texas. The working out

Drivers License Procedure Changed

AUSTIN, Feb. 15.—After years of study aimed toward better serving the motorists of this State, Texas has pioneered in improving the style and the procedure of issuance of drivers licenses, according to Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety.

Under direct supervision of A. F. Temple, Chief of the Department's Drivers License Division, the new license has been adopted, after extensive study, for greater ease of processing and with a view toward making the renewal of licenses less effort on the part of the motorists. Texas, so far as is known, is the first State to adopt the technique of notifying drivers when their licenses are about to expire.

Effective this week, the License Division will begin issuing the new style Operator, Commercial and Chauffeur permits to all applicants. Licenses now in effect will remain valid and will be replaced by the new form upon the next renewal by present holder.

Complete handling of the new licenses will be effected by machines and the license itself will be mailed out in the form of a post card which is so arranged to permit separation to allow for proper fitting into billfolds or card cases.

One of the more important features of the new procedure will be a recorded renewal copy of the original license which will be mailed to operators about a month prior to the expiration date of their license advising them that it is about to expire. This is expected to be a real benefit to the thousands of Texas drivers who habitually allow their licenses to expire because of neglect in checking the expiration date. The new license will also carry the actual date of expiration rather than the

date of issuance as previously used. Holders of the old type license which has been in use for several years will not be required to execute a form when seeking renewal. All that is necessary is to tear off the renewal stub, make any corrections as to address, etc., on same, and mail it in along with a money order in the proper amount.

Cost and validation periods of the licenses will remain the same: fifty cents for Operators License for two years; one dollar for Commercial License for one year; and three dollars for Chauffeur's License for one year.

50,000 Miles - No Wear!

1. Driven Twice Around the World! For 50,000 killing miles, six brand-new cars raced over the hot desert along the Mexican border . . . testing the wear-fighting qualities of amazing Conoco Super Motor Oil. At the end of 50,000 miles of continuous driving, engines showed no wear of any consequence . . . in fact, average of less than one one-thousandth of an inch on cylinders & crankshafts. Startling proof—factory finishing marks were visible on piston rings!

2. New-Car Mileage for 5 Years! This putting road test—equal to 5 years' normal mileage—proved, as nothing else could, that Conoco Super Motor Oil, with proper crankcase drains and regular care, can keep your new car! Gasoline mileage for the last 5,000 miles of the test was good as for the first 5,000 miles . . . actually there was average difference for the fleet of only 4/100 of a mile per gallon!

3. New-Car Power! Quicker Starts! Yes—the extra protection of Conoco Super Motor Oil keeps that factory flash . . . that showroom smoothness . . . year after year after year! Conoco Super Motor Oil's exclusive ability to OIL-PLATE metal surfaces makes your engine last longer, perform better, use less gasoline and oil! Conoco Super Motor Oil virtually stops wear before it starts . . . keeps your engine new and clean. Conoco Super Motor Oil has proved itself to be the great new modern wear-fighter!

Patricia Butts Party Honoree

Mrs. Buford Butts entertained with a birthday party in honor of the 5th birthday of her daughter Patricia Ruth, January 31 from 4:30 to 6.

Ice cream and birthday cake were served to Jimmy Case, Don Gardner, Davy Jean Anderson, Roxanna Hart, Susane Goss, Gary Don Middlebrook, Vick Spivey, Dixon Ray, Charles King, and Kenneth Splawn.

Marilyn Green, Gary Barbour, Edwin Ray Cox, Billy Stan and Jerry Gilbreath, Pam and Lenau, and Gaylon, Glenn Terry and Glenna Margaret Ezell of Portales.

Senior Valentine Dinner Is Given

The senior class held its annual Valentine dinner last Saturday night, February 14 in the Muleshoe high school lunchroom. This party was attended by approximately forty members of the senior class under the sponsorship of Miss Margie Moore and Don Jackson.

The room was rearranged with small tables for four circling the dance floor in the center. On the back wall there was a huge heart made with red and white crepe paper. The scheme of Valentine's day was followed even further with valentine napkins, candy heart favors, and red roses on each table. On the center table was a small heart made of white satin with tiny red rose buds outlining it, adding the touch of red. Large red candles burned on each side.

The party began with a chicken dinner with all the trimmings which was served by the class room mothers, Mrs. M. F. Green, Mrs. Roy Bryant, Mrs. Leon Julian, Mrs. Horace Blackburn, Mrs. O. C. Kirk, Mrs. C. W. Grandy and Mrs. L. J. Sanders.

After dinner the seniors divided into groups and either danced or played games for several hours.

Half Century Club Honored Edwards Home

Mrs. Horace Edwards assisted by Mesdames F. B. Pierson, and David Anderson, entertained the Half Century club in her home Thursday Feb. 9th. The occasion was in honor of Mrs. I. W. Haney and other club members whose birthdays are in February.

Mrs. Haney received the guests and registered them. Corsages were presented by Mrs. Edwards to the seven honored members of the club.

A valentine program, games and music furnished the afternoon's entertainment.

Refreshments were served from the lace covered table centered with a large birthday cake, surrounded by pink net and ribbon bows, and flanked by pink tapers in crystal candelabra.

The twenty seven members and guests attending were: Mesdames Frances Dotson, Gussie Mardis, Lucy Layne, Barbara Burkhead, Walter Witte, Maude Jones, Pearl Moore, Beulah Carles, Lula Kistler, Mattie Hall, C. R. Farrell, H. C. Holt, Birdie Paul, J. D. Witherspoon, I. P. Willman, Stevens, Ellen Spence, Sallie Harden, Snow Davis, Laura Gilbreath, Mattie Duke, Rosa Stidham, Daisy Engram, Elizabeth Gardner, and Jean Jenkins.

Mrs. Calvert Host Watson HD Club

The Watson HD Club met Feb. 8, in the home of Mrs. C. P. Calvert.

The meeting was called to order by the president Mrs. Chester Petree. A bulletin on "propagation of trees and shrubs" and leaflets on "growing dewberries," "shrubs and trees from cuttings" and "grape work in northwest Texas" was given to those in-

Mrs. Jim Cox Host To Guild

Wesleyan Service Guild met in the home of Mrs. Jim Cox, Monday night Feb. 13, with Mrs. Curtis Spivey, president, in charge of the business.

It was decided to have a Negro, Minister sometime in the near future. Announcement will be made at the next meeting regarding it.

Each member was asked to give a scripture for the devotional and Mrs. T. G. Craft led in prayer.

Mrs. Fred Johnson, chairman of Study, presented Rev. Craft who gave the introduction of the new study "Women of the Scriptures". Rev. Craft in his able manner made the discussion very interesting.

Delicious refreshments were served to Rev. Craft and Edwin Ray Cox visitors and the following members, Mesdames Curtis Spivey, Buford Butts, James Case, Harold Weyer, T. G. Craft, Jim Burkhead, Fred Johnson, Delma McCarty, Miss Elizabeth Harden.

The next meeting will be Feb. 27 in the home of Mrs. T. G. Craft.

Progress W. S. C. S. Met At Church

Progress W. S. C. S. met Mon. Feb. 13 at the church with 12 members, 8 children and 1 visitor present. A letter was read from the Japan College in answer to a package sent from the society.

Our society will observe "World Day of Prayer" Feb. 24. Everyone welcome.

Mrs. Adams led our devotional on "Opening the Book of Books", and Mrs. John Thomson discussed our lesson on "Women of the Scriptures". Then presented a quiz on the women found in the Bible, which proved to be most interesting.

Those present were Mesdames O. C. Thomson, Hill, Actkinson, J. Thomson, Westbrook, E. A. Gross, Gray, Davis, Adams, J. J. Gross, Jones, Wedel and visitor Mrs. Tom Smith.

World Day Of Prayer Program To Be Feb. 24

A welcome to all is extended for the WORLD DAY OF PRAYER program to be held at the First Methodist Church, Friday, February 24, at 2:30.

Theme for the program is "Faith for our Times" and the topics are to be given by members of various churches of Muleshoe.

All denominations are welcome and urged to be present.

Russell-Tyler Nuptials Read

Mr. David M. Russell of Farwell and Mrs. Ellen Tyler of Muleshoe were married last Friday, February 10 in Santa Rosa, New Mexico. They spent their honeymoon in Albuquerque last week.

Mr. Russell is an employee of the Henderson Grain Co., in Farwell and Mrs. Russell is the dietician at the Muleshoe high school lunch room.

Mr. and Mrs. Russell plan to make their home in Muleshoe.

Mrs. Geo. Fine was the lucky winner of the hostess gift.

Every lady has a special invitation to come and join our club. The next meeting is with Mrs. Kenneth Campbell, Feb. 22 at 2:30.

Refreshments were served by the hostess to Mesdames Geo. Fine, Jim Henderson, S. D. Key, and Chester Petree.

THE JOURNAL Wants your news. Write, come by, or phone 54.

Society News

THE MULESHOE JOURNAL, Thursday, February 16, 1950

Miss Ellen Goodson And Mr. Connie Gupton Married In Saturday Ceremony

Miss Ellen Goodson and Mr. Connie Gupton were married at 6 p. m. Saturday, Feb. 11, in the First Methodist Church, Muleshoe, with Rev. T. G. Craft officiating.

Mrs. Gupton is the daughter of Mr. and Mrs. W. T. Goodson of Childress. She is the niece of Mrs. E. R. Hart and for the past five years has made her home with her grandmother, Mrs. M. A. Goodson, while being employed at the Muleshoe State Bank. She is a member of Epsilon Sigma Alpha Sorority.

Mr. Gupton, the son of Mr. and Mrs. C. D. Gupton, returned to Muleshoe last fall after receiving his B. A. degree from the University of Redlands in California. He previously had attended John Tarleton College, Texas A&M, and during the war, served with the Air Corps in the European theatre.

The double ring ceremony was performed before an altar lit by tall candelabra and backed with lemon leaves and clusters of picardy gladiolus florets tied with bows of white bridal satin. Altar vases held bouquets of picardy gladioluses.

The candles were lit by Miss Marilyn Gupton, sister of the groom.

The bride entered on the arm of her brother, Marion Goodson of Canyon, and wore a navy wool crepe suit, white felt hat with rosettes and shoulder tip veiling. Her corsage was of gardenias and stephanotis tied with white velvet ribbon.

Mrs. Marion Goodson, matron of honor, wore a royal blue suit, pink accessories and a gardenia corsage.

W. W. "Pinkie" Barbour was best man.

Miss Jane Scott played a piano prelude including "Because", "Indian Love Call", "Deep Purple", and "At Dawning". The traditional marches were used.

Out of town guests here for the ceremony were Mr. and Mrs. C. M. Privitt, Dallas, sister of the bride; Mrs. W. T. Goodson and daughters Patsy and Lena Charlene of Childress; Mr. and Mrs. Morgan Goodson and children of Amarillo; and Mr. and Mrs. G. Goodson, Canyon; Mrs. Eula Wiggins, aunt of the groom, Gaylon Wiggins and son Paul all of Clovis.

After a short honeymoon in New Mexico the couple will make their home in Muleshoe where Mr. Gupton is employed by the REA.

Birthday Party Honors D. Cobb

David Cobb of Lubbock, celebrated his second birthday with a party Friday afternoon at the home of his grandmother, Mrs. Lud Taylor.

Home movies were shown after all the guests arrived.

Following the opening of the many lovely gifts, the candles were lit on the blue birthday cake and "Happy Birthday" was sung by the group.

Cake and ice cream were served by David's mother, Mrs. Cleveland Cobb of Lubbock to Randy Beaty, Gary Edwards, Jimmy and Robert Case, Don Gardner, Bob Jennings, Davy Jean Anderson, Billy Jean Dorsey, Billie Donna and Glenna Gail Guinn, Eugenia Ruth and Ellen Louise English.

Also present were Mrs. Jack King, Mrs. Allen Guinn, Mrs. O. W. English, Mrs. Horace Edwards, and Mrs. E. Z. Beaty.

Home movies were taken of the group by Mrs. Taylor.

Mrs. Aylesworth HD Club Hostess

Muleshoe H. D. Club met in the home of Mrs. D. R. Aylesworth Feb. 9.

Birthday of club members will be celebrated each month during the year. The February birthdays of Mesdames Marris, Carner, and Wimberley will be celebrated Feb. 24 in the Marris' home.

Mrs. Caldwell, the club past president, presented with a gift from the club.

Mrs. Jac Stallings discussed "Amounts and Kinds of Cereals Needed."

Mrs. John Mock discussed "Preparation and Serving a Breakfast."

Mrs. E. E. Marris' subject was "Dry Cereal."

Refreshments were served to Mesdames C. E. Briscoe, Wyle Bowers, S. C. Caldwell, A. W. Copley, Roy Carner, C. E. Day Mack Hale, Byron Efoat, J. T. Boydston, E. E. Marris, Jack Stallings, J. T. Shofner, H. M. Shofner, Marvin Wimberley, John Mock, C. D. Julian, and three visitors, Mesdames C. E. Moore, Bob Day and Lee.

The club will meet in the home of Mrs. C. D. Julian Feb. 23.

grey linen cloth, was centered with a three-tiered wedding cake, topped with miniature bride and groom and surrounded by greenery. On each side, white candles burned. Mrs. J. E. McKillip presided at the table.

Mrs. McKillip graduated from Farwell High School and at the time of her marriage was employed by the local telephone company.

Mr. McKillip is a graduate of Muleshoe High School and is employed by the Greyhound Bus Depot in Amarillo.

About fifty people attended the wedding.

After a short honeymoon trip to points of interest in Texas, the couple will make their home in Amarillo.

Evans, McKillip Exchange Vows

Miss Athealee Evans, daughter of Mr. and Mrs. Carl Evans, became the bride of Talmage McKillip Sunday morning, February 12, in a double ring ceremony at the home of Mr. and Mrs. L. T. McKillip. The vows were read at 9:00 a. m. by Rev. Ebb Randol, pastor of the Church of Christ, before a candlelighted altar, decorated with white carnations and greenery.

The bride wore a blue taffeta dress with white accessories. The bride's bouquet was of gardenias entwined with net on a white Bible with satin streamers. To carry out the tradition of something old and borrowed she wore a pin worn by her mother at her own wedding. Her dress was something new and blue.

The groom was attired in a tan business suit.

The couple was attended by Mr. and Mrs. Morris McKillip. Mrs. McKillip wore a black pin stripe suit with black accessories. Her corsage was of white carnations.

Ivera Blackwell, niece of the bride, and Nona Faye Mason, niece of the groom, lighted the candles. They wore corsages of white carnations.

A reception followed the ceremony. The table, covered with a

Smith, Griffiths Host Winsome SS

The Winsome Sunday School Class met for its monthly business and social meeting Feb. 13 at 7:30 in the home of Mrs. John Smith with Mrs. Clifton Griffiths as co-hostess.

Mrs. Barrow gave an inspirational devotional from the 13th chapter of Matthew.

Mrs. Billy Jo Garner had charge of the social hour after the business session.

Refreshments were served to Mesdames W. W. Surratt, Eugene English, Rufus Gilbreath, Hoyt Morgan, A. W. Blaine, R. R. Holton, Alton Epting, F. W. Jones, Irvin St. Clair, John Watson, Lela Barron, Jerry Kirk, Horace McAdams, Paul Lambert, Vernal King, E. J. Garner, C. C. Renfro, Ed White, and one visitor Mrs. Babe Barbour.

Study Club To Clovis

Muleshoe Study Club members journeyed to Clovis last Thursday night to enjoy Mexican food at El Monterey.

Members attending were Mesdames Pat E. Bobo, Milton Forbes, John Watson, Henry Williamson, Buck Wood, Marion Harris, Harold King, Julian Lenau, A. E. Lewis, Lee R. Pool, Buck Ragsdale, Homer Sanders Jr., Vance Wagon and two guests Mesdames T. G. Craft and Howard Elliott.

The next meeting will be February 23 in the home of Mrs. John Watson with Mrs. Williamson as co-hostess. The program will be on "Industry in the South" with Mrs. Lee Pool and Mrs. Buck Woods in charge. Roll call will be answered on "Unusual Industries."

Shower Honors Mrs. L. S. Barron

Mrs. L. S. Barron was honored at a "pink and blue" shower, bride luncheon at the home of Mrs. Jack Lenderson, Wednesday February 8. Other hostesses were Mesdames Houston Hart, Harold King, Woodie Lambert, Ed White, Eit Evans and Roy Bryant.

The delicious luncheon course and bridge was enjoyed by Mesdames Hoyt Morgan, Durwood Green, Rufus Gilbreath, "Red" Johnson, Milton Forbes, C. A. Barnett, N. H. Greer, Roy Dyer, Clifton Griffiths, "Chief" Jones, Ray Keeling, Bob King, John Smith, Marion Harris, Otto Workman, Morris Childers, Miss Kay Lenderson also was a guest.

Many sent gifts who were unable to attend.

Recital Given Friday Feb. 10

Last Friday night, Feb. 10, Fellowship Hall was the scene of Mrs. Mabel Bristow's expression class' recital.

The welcome was given by Max King, Judy Lambert, Doris Ann Gilbreath, and Dudley Bristow.

The program was as follows: Things a Girl Can Do, Pamela Lenau; Washing, Dixon Ray; Mothers Brush, Roxanna Hart; Papa's Going Fishing, Marilyn Green; The Elephant's Luggage, Pattie Kloepper; Dolly Has The Flu, Marilyn Green and Dixon Ray; The Play, Theresa Thomas; Spots, Doris Ann Gilbreath; The Meanest Boy, Dudley Bristow; Ink, Judy Kay Lambert; Dina Mae, Sharon West; Sent Home, Wayne Bristow; The Goodbye was given by Marilyn Green, Pamela Lenau, Roxanna Hart and Pattie Kloepper.

Muleshoe WSCS Met Bayless Home

Muleshoe WSCS met in the home of Mrs. Roy Bayless, February 14, with 10 members present.

"Opening the Book of Books" was the subject of the devotional given by Mrs. Bayless.

Mrs. Finley Pierson had charge of the study "The World Must Learn to Read", it concerned the

simplified method of teaching where one teaches the other to read. Closing prayer was given by Mrs. Bayless.

The reports were given on the World of Prayer Day Program.

Delegates to the Lubbock School in July and August on "Conference School of Missions" were elected, they are Mrs. O. N. Jennings and Mrs. Pierson.

Several members attended the District meeting at Bovina today, Feb. 16.

The next meeting will be with Mrs. G. O. Jennings.

Safety Was Their No. 1 Crop

An all-expense round trip to Chicago for the 28th annual National 4-H Club Congress in Chicago and a \$300 scholarship. These were the rewards for each of these seven national winners in the 4-H Club Farm Safety Program sponsored for the fifth year by General Motors. Left to right: Paul Garrett, vice president in charge of public relations of General Motors; June Dyer, of Mohawk, Tenn.; Wesley Ward Manning, of Greenville, No. Carolina; Nysa Colvin, of Provo, Utah; Helen Baker, of Swifton, Arkansas; Wesley E. Crawford, of Flowerree, Montana; Norma Gustafson, of North Branch, Minn., and Donald L. Wachter, of Keymar, Maryland.

High School Annual Sent To Printers

The Muleshoe high school 1950 annual was sent to the printers, Monday, February 13 after many weeks of hard work on the part of Mary Jo White, editor; Mrs. Horace Blackburn, advisor and the

many other students who helped in getting this year's annual out. The art work was under the direction of Gene Tipps. The theme for this year's annual is "Transition—Twenty five Years of Progress." Old pictures and drawings will be used throughout. A new feature this year will be the Hall of Fame. From each department in the school there has been chosen an outstanding boy and girl who will be featured in this Hall of Fame. This person will be chosen by the instructor in each department. Mrs. Blackburn announced that the annual should be received by April 17 for distribution to the students.

Blackburn, Goss To Canyon Meet

It was recently announced that R. E. Bryant and Margaret Sanders who were elected Mr. and Miss Personality at Muleshoe high school will not now be able to attend the festival in Canyon, February 24, honoring those persons in the Texas high schools who have proven themselves outstanding in personality. This mix-up came when Margaret Sanders will be playing in a basketball tournament in Lubbock at the same time. The stu-

There's something about

a New Paint Job!

There is a lot of satisfaction in having equipment that looks good. But, more important, paint is the best protection against rust and corrosion. We use live steam and a special solvent to remove rust, grease and old paint. Then we refinish with special farm equipment paint that perfectly matches the original Allis-Chalmers color.

The low cost will surprise you. Ask us to quote on your tractor, All-Crop harvester, and other major machines.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

BUICK STYLE IS HERE AGAIN!

NO question now as to who has the balance on automobile styling! Then look how wonderfully they are topped off in the upperstructure—with wide, curving, one-piece windshields, and with smart, Buick-originated wrap-around back windows! price from just above the lowest brackets to the fine-car field. Come in to see your Buick dealer—and start traveling in the smartest styling of the times.

Take a look at almost any blockful of new cars—and you will see once more the sweep and dip of tapering fenders that Buick pioneered—and that the whole country went for with a joyous whoop and holler. Yes, Buick style is here again. The sleek, swift-lined style that has put Buick right in the fashion forefront of postwar America. They're a little smoother now, of course, rounded a bit—and are molded right into the body. And they flow sweetly into rear-fender forms that look for all the world like a jet plane's power plant. And you can have it in a hoise of many sleek and comy models, ranging in

Western Day At MHS, March 10

It was recently announced by Teddy Lawler, student council president that Muleshoe high school will hold its first all Western Day on March 10. He explained further that on this day everyone will be expected to wear western duds and that those who don't will be thrown in the stockade and fined by the sheriff and deputies appointed by a committee elected for this occasion.

Climaxing this day of the old west will be a school dance in the gymnasium that night.

CARBURETION SCHOOL IS HELD AT FRY & COX BROS.

A carburetion school was conducted here this week in the shop of Fry & Cox Bros. with a large number of tractor and truck owners in attendance. Fry & Cox Bros. offered the use of their shop after no other suitable place was found.

J. E. Whitehead and Cy Patton, of the Cowie Electric, Amarillo, were here to conduct the school, held each evening Monday through Thursday.

Rabbits can run faster up hill than down hill because the hind legs are longer than the forelegs.

BAKER UNDERGOES OPERATION

Leo Baker, of Muleshoe, underwent an operation at Del Rio last week after becoming ill while he and his father-in-law, C. L. "Happy" Dyer, were in Mexico on business. Mr. Dyer, himself was in the same hospital for a time because of illness. Mrs. Baker and her brother, Bud Dyer, left Sunday for Del Rio to be with them.

LOCAL MEN AT HARDWARE AND IMPLEMENT CONVENTION

Local men who attended the annual convention of the Tri-State Hardware & Implement Dealers association, held in Amarillo Monday and Tuesday included Jack Lenderson, Houston Hart, George Mayo, Jim Cox, Randy Johnson, and "Red" Johnson.

HERE FROM OKLAHOMA

Mrs. Mable Ryan of Mountain Park, Okla., is visiting here in the home of her father, J. W. Ellis, and sister, Mrs. Maude Jones.

HALF CENTURY CLUB WILL MEET FEB. 23

The Half Century Club will meet with Mrs. Mattie Duke, February 23 in the home of Mrs. Happy Wagnon. All members are asked to be present.

TO AMARILLO

Miss Elizabeth Harden spent the weekend in Amarillo visiting her sister Mrs. W. H. Bethany.

Lissom Lookout

Cynosure of the sun decks is this spar-slim bathing ensemble by Tina Lezer. The short, figure-hugging sweater matches the halter top of white wool and navy blue ripples. An elasticized yoke knit keeps the brief pants snug. The suit is shown in the January resort issue of Town & Country.

BAPTIST BUILDING FUND WAS INCREASED SUNDAY.

A sum totaling more than \$6,000 was contributed by the congregation in cash and pledges when the First Baptist Church held their building fund day Sunday. This brings to more than \$50,000 the amount so far contributed by individuals toward building the new structure, which it is estimated will cost more than \$70,000. Construction has been slowed in recent days by the failure of steel to arrive when scheduled.

FATHER IS ILL

Tye Young returned to Muleshoe Tuesday after being with his father W. Young, Arlington who is very ill. Mr. and Mrs. Young are to return to Arlington Thursday.

MULESHOE VISITOR

Weldon McCarty was home visiting his wife and new daughter for a few days last week. Weldon is attending Texas A&M at College Station.

CEMETERY ASSOCIATION

The Bailey Co. Cemetery Association is asking that all members pay their dues. There is a deficit in the funds at this time and money is needed.

RETURN FROM VISIT

Mr. and Mrs. R. E. Bob Harrington returned Monday night from visiting relatives and friends in Colorado and Kansas.

HOME FOR WEEKEND

Miss Nell DeShazo who is teaching in Carlsbad, was home for the weekend to visit her parents, Mr. and Mrs. J. J. DeShazo and friends.

VISITED PARENTS

Miss Margaret Ann Johnson and her house guest Miss Maye Dell Smith of Portales, were visitors here over the weekend with Miss Johnson's parents Mr. and Mrs. George Johnson.

VISITED IN ABILENE

Reese Wilttering and Bobbie Precure spent the weekend in Abilene with friends.

FLIES TO DALLAS

Stanley Fox, son of Mr. and Mrs. Sam Fox, flew from Lubbock to Dallas Saturday to visit an aunt and her family, Mrs. Harold Jacobs. This was Stanley's first trip in one of the big planes. Mr. and Mrs. Fox were to go after him this week.

FLY TO THE VALLEY

Harold and Bob King were to fly today to the Rio Grande Valley where they were to visit fertilizer plants and see fertilizer demonstrations. They boarded a plane belonging to a large company at Amarillo for the trip down and back.

VISITED IN CUBA

Mr. and Mrs. Irvin St. Clair and Mr. and Mrs. H. M. Gable returned home Monday, from a trip through the south and Cuba. The group attended the Fat Stock Show in Fort Worth, from there they went to New Orleans, Belen, Englewood, Mobile, Ala., Silver Springs, and Miami, Florida. They went by boat over to Havana, Cuba, and returned by plane to Miami.

Junior Play Cast For Friday Night

The Junior Play, "Aunt Samantha Rules The Roost", will be presented tomorrow night, February 17 in the high school gymnasium. Curtain time is 8:00 p. m. All are urged to attend and to be there on time because the play is a laugh time no one will want to miss.

Starting in this comedy will be Cora Stinson as Aunt Samantha who is an old maid and is determined that her two daughters Sophie and Cerina, played by Barbara Barnett and Mary Joyce Atchinson are not to get married. Adding to the plot, Sophie wants to get married and can't and Cerina is fast becoming an old maid herself. Polly, the maid, played by Joy Jones solves everything temporarily with love powders. This causes a mix-up and before the play ends everybody loves everybody. You'll understand when you see the play tomorrow night.

Others on the cast are Kenneth Hix, Frank Cox, Teddy Harrison, Bill Aylesworth, Jimmy Thomas, Ann Johnson, and Jean Johnson.

The tickets are now on sale and are 75 cents for reserve seats, 50 cents for regular admission and 25 cents for all grammar school students.

Junior class sponsor is Coach Bailey.

CARD OF THANKS

We wish to thank all our friends, the doctors and nurses for their kindness and the flowers, during my recent illness.

ATTEND CONVENTION

Mr. and Mrs. Houston Hart attended the Hardware Convention held in Amarillo, Monday and Tuesday of this week.

WEDDING PLANS ANNOUNCED

A series of pre-bridal parties are being given in Lubbock for Miss Ethel Claire Raney, who is to marry Robert Bruce Burleson, Jr., on the evening of February 22 at the First Methodist Church in Lubbock.

Miss Raney is the daughter of Rev. and Mrs. E. C. Raney, a former Methodist pastor in Muleshoe for three years.

MAJOR SURGERY

Mrs. W. M. Harmon, Muleshoe, entered Amherst Hospital Monday, for major surgery.

Tennis was purely an amateur sport until 1926.

Hard wood makes better coals for a campfire than soft wood.

Embezzlers have been found to have the highest intelligence of any class of criminals.

Radiant Heating Use Valuable to Farmers

Its Advantages Outweigh Initial Expensive Costs

Radiant heating, one of the newest developments in construction of farm buildings, has many advantages which outweigh its high initial cost, according to a publication dealing with building methods, materials and techniques.

As an example of a successful radiant heating system, the publication describes the installation of

This double queen turkey house, measuring 60 by 220 feet, has radiant heating to maintain a temperature between 50 and 70 degrees in winter. The house holds about 3,500 breeder hens, or 20,000 poults.

such a system in a turkey house on the farm of W. E. Wright in Mitchell county, Iowa.

This house, a double queen measuring 60 by 220 feet, is heated by hot water which circulates through copper tubing imbedded in concrete floor slabs.

The radiant heated floor is divided into quarters, enabling the temperature of each zone to be regulated independently. The temperature usually is kept between 50 and 70 degrees in the winter. About 3,500 breeder hens, or 20,000 poults can be housed in the building and can be cared for by three men.

Water for the system is heated by an oil burner in a room on the south side of the structure. Supplementary unit heaters are used when required during extremely cold weather.

The story of the radiant heating system used in the turkey house described was carried in the American Builder magazine.

Making Most of Rain

Whether your farm loses two or 20 tons of topsoil per acre yearly due to erosion, depends on how you handle the water that falls on sloping fields.

Making rain work for instead of against you, is largely a matter of good soil management. Agronomists have found that soils high in organic matter soak up more water quickly and store it for growing crops.

Water "walks" instead of runs off well-managed land that has the benefit of soil-building rotations, deep-rooted legumes, plenty of fertilizer and conservation tillage methods. Water makes a quick getaway on naked, overcropped land that has been mined of its organic matter and plant nutrients.

Tractor Wheels Need Regular Servicing

The front wheels of farm tractors work under dusty conditions and unless they are serviced and adjusted regularly they will need repairs.

Replacement of front wheel bearings will cost approximately \$37 per bearing, and there are four of them in the front wheels, says S. L. Vogel, assistant farm engineer of the North Dakota agricultural extension service.

Two methods of lubricating front wheel bearings are used on modern tractors, Vogel said. One is the hand packed method. The wheels should be removed at least once a year, cleaned, and bearings repacked with wheel bearing grease.

Feedlot Meat Tonnage Increased During Year

More meat tonnage produced in feedlots this fall and winter as a result of a generally favorable feeding ratio will provide consumers with a more adequate meat supply in the months ahead, according to H. M. Conway, livestock market analyst.

A near-record 1949 corn crop, added to the heavy carry-over from 1948, plus a generally plentiful supply of roughage helped supplies.

Debaters Travel To Waco Tournament

The debate teams at Muleshoe high school will enter their first debate tournament this Thursday, Friday and Saturday at Waco.

Twelve members from the debate class will attend. The debaters will include Howard Tate, Charles Taylor, Bill Thomas, Mary Jo White, Billie Margaret Collins, Willa Akin and Joy Snyder.

There are several additional members going to Waco to enter other divisions in speech making. Ronald Johnson and Marilyn Gup-ton will try in the poetry reading. Joe Frank Cummings and Joyce Blackburn will also be in the dramatic interpretation group.

Up to the present time, the debate teams have spoken publicly before an audience only once. This was at a special assembly last Friday, February 10.

This group of students will travel to Waco in cars and will be accompanied by Mrs. Horace Blackburn, debate sponsor and Don Jackson.

FOUNDATIONS FOR OUR FAITH

By REV. T. G. CRAFT

II.

BELIEFS IN THE IMMORTALITY OF THE SOUL

Continuation of the article prepared for publication in this paper by Rev. Craft. Additional installments will follow.

Most people in all the world believe in an existence after death. The belief in the immortality of the soul is a cardinal doctrine in all the great religions of the world. The fact that a belief in the eternal existence of the soul is universal among all races and religions gives evidence to some guiding principle innate in the human races as a basis for such a conception of mirality. Until recently such beliefs are accepted as a matter of intuition and faith. Religion has not given any scientific and rational foundation for such beliefs. It has just taught this doctrine and as truth that did not need any proof. But the inquiring minds of the realists have demanded tangible and rational proofs of such a doctrine. Thus far, religion had no such proofs. Now we are approaching the doctrine with a scientific proof that the soul is immortal.

Our scientists rather than our religionists have given us an insight into the nature of energy-matter, which has opened a door for the religionists to enter, and there make their own discoveries through the media of science and scientific knowledge.

In recent years the leading scientists of the world have pooled their knowledge and their labors and have broken down the atom - Uranium atoms and have held this particular energy in mass in a container. The splitting

of the atom is a miracle of modern science. Now we know that the atom contains a neutron, and that inside the neutron are electrons, and protons. Inside of the electrons and protons are other particles of energy known as the MESON. The meson is the invisible and smallest unit of energy now known to science. The power of the atom is ultimately found in the meson. The meson has not been seen and cannot be seen with the greatest microscope. How do we know that such an unit of energy exists in the neutron? The scientists know because of the behaviour of the atom, and of the nature of energy. This question is left for the scientists to answer. The point of this reference is to show that the meson is the smallest unit of energy now known, and its power and reality has been proven in the explosion of the atomic bomb as in the case of Hiroshima.

What does this atomic energy have to do with the soul. In the first place it is mentioned as the ultimate unit of energy and in the second place it has never been seen by a human eye or a microscope; yet it is the real existence of the atom of matter. No man has seen a soul or a spirit, but this is not evidence that a soul does not exist. No man has seen gravitation or a magnetic field, but there are certain evidences that confirm the existence of both. We accept the law of gravitation as a reality and the power of gravitation as a mighty force; yet no man boasts about having seen either. No man has seen God walking about like men; so some men conclude there is no God. God is a spirit - the Spirit and the source of all energy and all creation, if we believe in the

law of cause and effect. We have to believe in God to give meaning to the Universe and even to give order and harmony to the universe and our own minds. Now can we believe in a soul which we have not seen?

Ultimate Reality, or God is not visible to the eyes of man or glasses, neither is any other power. The Souls of men are not visible or tangible, but it is the soul or mind of man that thinks and feels, and wills. It is the soul or mind that directs our courses in life and controls our conduct. It must exist, or man could never be conscious of his powers which we call mental and spiritual. To deny that man is a soul is to deny that man is a rational thinking, feeling being.

But what is the nature of this something we call soul or mind? We know its nature by means of its behaviour. We know it is not a response to outside stimuli, because it acts without a mechanical stimulus. It can change a normal mechanical physical response to another sort of response. The ancient Greek Spartan soldier would conceal a fox under his toga and let the fox eat out his vitals without showing an emotion of pain. What makes a man die for his children, or sacrifice himself for some altruistic end? Is it a mechanical response to mechanical stimulus, or is a response to some moral and ethical stimulus, which makes one suffer and die for a noble cause. What is this to do with a reality of a soul? It is to show that the soul and mind are realities apart from the physical organism and functions with or without outside

stimuli. Now we may consider how God grows a soul or brings forth a soul into existence. On this earth, God grows souls from the tiny germ cells of human reproduction. These germ cells are life cells. God has ordained that the soul has its origin in the union of two germ cells; one from the female and one from the male. When these cells unite, a gamete is formed. The union of two such cells is a marriage indeed. It is a perfect union, and normally functions in a complete and harmonious order toward predetermined ends. The final end is to bring forth a normal human being. Dr. Painter, now president of the University of Texas, some twenty five years ago discovered that the female and male germ cell had in each, forty eight chromosomes. In each chromosome were genes whose functions were biological and psychological trait determiners. When these two germ cells were about to unite, the chromosomes split lengthwise into halves. Then each half united with its like opposite half and in the union formed whole chromosomes. So in the offspring, it was composed of half of the likeness of the mother and ancestry, and half of the likeness of father and his ancestry.

But the life cell also had within it some of the traits and powers of all the parents who had lived before. There are dominant and recessive powers in the germ cell which determined the nature of the new life now in the process of development. Inside the germ cell are many chromosomes and genes both of which are indeed microscopic in size. No human eye ever saw even a germ cell without the aid of a microscope, but it is no argument against the existence of the germ cell and its more minute powers in the genes. So what was one time a microscopic human being in time became an adult weighing perhaps two hundred pounds. From the tiny seed the mighty man grew.

FROM LITTLEFIELD

Mr. and Mrs. Pat Patterson, Littlefield visited in the Paul Gardner home last Thursday night.

THE MULESHOE JOURNAL, Thursday, February 16, 1950

CHRISTIAN SCIENCE SERVICES

"Mind" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 19.

The Golden Text is: "The Lord is exalted; for he dwelleth on high; he hath filled Zion with judgement and righteousness. And wisdom and knowledge shall be the stability of thy times, and strength of salvation" (Isaiah 33: 5,6).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord of hosts hath sworn, saying, Surely as I have thought, so shall it come to pass; and as I have purposed, so shall it stand" (Isaiah 14:24).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to Scriptures" by Mary Baker Eddy: "There can be but one Mind,

UNCLE DIES

Mrs. Clyde Holt received word last Thursday of the death of her uncle L. F. Wade, of Jayton, Texas. Mr. Wade before his retirement a year ago had been editor and publisher of the Jayton Chronicle for 25 years.

VISITED RIBBLES

Mr. and Mrs. Earl Jeeter and Mr. and Mrs. Roy Howard visited Sunday with Minister and Mrs. S. A. Ribble at Coahoma, and attended church there. Mr. Ribble formerly was minister of the Muleshoe Church of Christ and is now pastor at Coahoma. It's as dry at Coahoma as it is here and dry all along the way, the Muleshoe folks report.

because there is but one God; and if mortals claimed no other Mind and accepted no other, sin would be unknown" (page 469).

1950's TRUCK "BUY" WORD

GMC TRUCKS

The GMC "Triple Checked" used truck emblem is your guide to a better buy.

The word is spreading—and fast—that light-medium GMCs for 1950 are the best buys in the whole light-medium field! There are plenty of reasons why these new GMCs offer even better performance and greater economy than the quick-stepping, money-saving GMCs of the past. They're easier riding, easier driving... improved to provide more comfort for the driver, more profit

for the owner on every score. Last, but far from least, they are products of the General Motors division that's the world's largest exclusive producer of commercial vehicles — that has, in addition to its own ultra-modern facilities, full access to the unparalleled GM research and proving operations that continually work to make "more and better things for more people."

Muleshoe Girls To Enter District Basketball Tourney At Lubbock

Muleshoe girls basketball team will represent Bailey County in the district tournament at Lubbock, beginning Tuesday, February 21. They have drawn Shallowater as an opponent and the game will begin at 8:15 p. m. Coach Hedges announced tournament arrangements today after a hurried trip to Lubbock.

The local girls won the county championship by edging out the Three-Way high school team in a very exciting game here Wednesday night.

At the quarter Three-Way led 7 and 6; at the half Muleshoe had passed the visitors and the score stood 22 and 16. During the third period they went ahead still further, 40 to 23. Then came the exciting final period, for while

the local girls made 9 points, their opponents rang up 24, leaving the final score 49 to 47. The decision was not known until the last and the spectators were all on their feet during the final tense moments.

Kay Malone led the Muleshoe team in scoring by accounting for 22 points and Dolores Locker was right behind with 19 to her credit. For the visitors Mary Tyson led with a neat 20 point total.

Line-ups were: For Muleshoe—Kay Malone, Wanda Kimbrough, Dolores Locker, Marg Sanders, forwards; Leatrice Martin, Billy F. Graves, Jo Addine, Wagnon, Emily Jarrigan and Donna Kimbrough guards.

On the Three-Way squad were Sowder, Tyson, Reeves, Mary Tyson, Brinker, Gunter, Oldham, Gibson, and Brasher.

Old Grads Tie '50 Jackets, 51 to 51

Old grads of Muleshoe high school and members of the current Yellowjackets basketball squad played to a draw 51 to 51, in a special, regular period game played in the gym here Monday afternoon. Most of the old grads were members of the 1948 squad but Joe Cummings had to play center for them. He's a 1950 model.

For the oldsters the line up was: Billy Don Barbour and Jack DeShazo, forwards; Don Mickey Sanders and Bobby Kimbrough, guards; Joe Cummings, center; Gene Harvey and Johnny Seid, utility.

The Yellowjackets lined up as follows: Bill Gaede and Benny Ray Douglas, forwards; Ed Nickels, center; Lee Kimbrough and John D. Whipple, guards; Gerald Byrd, Charles Roark, and Jim Gaede, utility.

Nickels and Douglass paced the Yellowjackets in the scoring while Barbour was high point player for the old boys.

Girls Team Wins Over Three Way

Wednesday night some of the local and Three-Way fans gathered in the local gym to see the girls play the most thrilling game of the season! Muleshoe girls played an outstanding game and defeated Three-Way 41-40 in a very important conference game.

At the half the Three-Way girls had a two point lead the score being 26-24. The Muleshoe girls lead most of the game although Three-Way seldom got behind over 2 points.

Kay Malone racked up 26 points to really put the girls over!

The girls will meet Three-Way again this Wednesday night to determine the County Champs. Game time is 7:30. Please attend and back your local girls team!

Friday night the girls went over to Bula and defeated them 41-35.

The game was pretty good but was never really close.

This game put Muleshoe and Three-Way in a tie.

Kay Malone hit 21 points and this naturally made her high-point.

MULESHOE JOURNAL SPORTS

THE MULESHOE JOURNAL, Thursday, February 16, 1950

Muleshoe Swamps Three Way 74-47

Last Wednesday night the Muleshoe A team ran over the Three-Way team to the tune of a score of 74-47. The Three-Way team had a lead in at the end of the first quarter but it didn't set well with the Muleshoe boys.

They got their dander up and by the end of the game the score looked like it had been a walk away.

Ed Nickels and Lee Kimbrough tied for high point man—each bringing down a score of 24 points.

CARD OF THANKS

We wish to express our appreciation and sincere thanks to our friends for their many deeds of kindness and sympathy shown us during the illness and death of our dear mother, Mrs. Dora Carter, Mr. and Mrs. Buster Gipson and Children.

Mrs. Flossie Flatt and Children.

AFTER-DARK COTTON

This smooth sophisticated chooses royal blue cotton velveteen by Merrimack and combines it with shimmering metal-stripped Lumina cotton to make a striking date ensemble. The snug little velveteen jacket is added for less formal evenings or day wear, according to National Cotton Council fashionists.

NEW STERILIZER

CHICAGO—A new method to speed sterilization of infant formula in one simple and safe operation formerly used only in hospitals is the latest innovation designed to help ease a mother's daily chore in the kitchen.

Using the principle of low pressure cooking, Ekco Products company here has developed a double duty unit called the Ekconomic infant formula sterilizer. It also can be used as a regular pressure cooker. Known as terminal sterilization, the new technique enables a mother to prepare a 24-hour feeding supply for her baby in 10 minutes. Ordinarily, this task takes from one to one and a half hours.

M. J. Prucha, professor of dairy bacteriology at the University of Illinois, worked with the company during the development of the new unit. He says the pressure cooker method of sterilization has been tested and proved under the most severe bacteriological conditions.

Amherst Ceremony Unites Patsy Clement And Mr. R. L. Payne

—From County Wide News—
In a home wedding at 500 East 12th street, Friday, Feb. 10, at 9 a. m. Miss Patsy Clement became the bride of Robert L. Payne in a double ring ceremony read by Elmer Crabtree, pastor of the Methodist church at Amherst.

Parents of the couple are Mr. and Mrs. H. E. Clement, and Mr. and Mrs. M. L. Payne, of Amherst. An archway of greenery served

as background for the ceremony. The bride's father gave her in marriage. She wore a navy blue wool gabardine bolero suit, which was designed with silver beading and satin trim. Her white half-hat was trimmed with pearls and white meline and featured a pom-pom of ribbon on one side with satin streamers.

She carried a white orchid with satin streamers on a white Bible.

Bridesmaid
Betty Lee Clement, sister of the bride, served as maid of honor. She wore a navy gabardine tailored suit with pink accessories. Her pink hat was similar to the bride's and she carried an assorted bouquet of flowers.

The groom's father served as best man.

A reception was held at the home following the ceremony. The table was covered with a lace cloth and the centerpiece was an arrangement of pastel snapdragons. The wedding cake was served by Mrs. Cecil Grimes, the groom's sister, and Miss Elsie Kloiber poured the coffee.

Trip To New Mexico
For a trip to New Mexico, the bride wore her wedding suit with chartreuse accessories.

A 1946 graduate of Amherst high school the bride attended Texas State College for Women at Denton for two years, where she majored in Business Administration. She was employed by the Amherst bank for about 18 months and has been employed by the Littlefield First National Bank since September.

Payne graduated from Amherst high school in 1944, spent two years in the army and is now employed at the local Higginbot-

Q. What is the name of this cut of meat?
A. Pork tenderloin.

Q. Where does it come from and how is it identified?
A. It comes from the pork loin. It is a long, tapering round muscle weighing from 1/2 to 3/4 pound. It may be purchased whole or cut into approximately two inch slices and flattened. In this manner it is called Frenched.

Q. How is it prepared?
A. A whole tenderloin is roasted. It is placed on a rack in an open roasting pan. No water is added and the pan is left uncovered. The tenderloin is allowed to cook in a 350° F. oven for one hour. Two tenderloins may be fastened out and placed one on top of the other with a dressing in-between, then roasted in the above manner. Frenched tenderloin is cooked by basting. The meat is browned on both sides in a small amount of added fat. Two or three tablespoons of water is added, the pan covered, and the meat allowed to cook slowly for 35 to 40 minutes or until well done.

ham, Bartlett Lumber company. The couple are now making their home at 55 East 6th street.

Wedding Guests
Wedding guests from out of town included: Mr. and Mrs. Lee Payne, Mr. and Mrs. Cecil Grimes and daughter, Susan, and Mrs. Elmer Crabtree, all of Amherst; Mrs. Harry Bennett, Lubbock; Mrs. Lois Walker and daughter, and C. L. Clement, both of Amarillo; Mr. and Mrs. Henry Benson, Mr. and Mrs. Paul Corbett, all of Bedford; and Mr. and Mrs. N. H. Greer and family of Muleshoe.

Mr. and Mrs. Clements lived in Muleshoe several years and Mrs. Payne attended school here.

Mrs. Payne is a niece of Mr. Greer.

LAWYER WOULD BE THERE

Illustrating his point that lawyers would go to extremes to help a client, Judge Bills told this yarn:

Two old codgers got in a lawsuit in justice court and the loser said: "I'll law you to the county court." "OK," said the winner, "I'll be there." "I'll law you to the district court." "OK, I'll be there." "I'll law you to the supreme court." "OK, I'll be there." "I'll law you clean to hell." "OK, my lawyer will be there."

Travel-Tempos
By DEAN ADAMS—ANS Features

EUROPEAN TRAVEL is no longer a luxury for just the lucra laden class since lower priced accommodations have been made available by both air-line and steamship companies. Some 400,000 Americans are expected to visit Europe this year. Pan American World Airways, American Overseas Airlines and other major lines are offering a 15-day round trip from New York to London for just \$385 (thru March)—a considerable reduction from even the previous off-season round-trip rate of \$466.70. This plus as much as 70% reductions on European railroads and the advantageous rate of exchange makes a two week European vacation comparable to any major trip on this continent.

ONE REASON FOR THE MOVEMENT to Europe is the fact that 1950 is Holy Year and numerous 10-day pilgrimages are scheduled to Rome thru the Felix Roma non-profit organizations. Special all expense trips are arranged for \$698 from N. Y. to Italy in the hope of enabling the persons with lower incomes to make the trip.

REGARDLESS of the mass movement, the European Travel Commission surveys show ample space available on both air-lines and steamships. Reservations thru March and again in the fall are more plentiful -- the summer months being fairly well booked.

DOWN SOUTH AMERICA WAY, the colorful Lima Peru Fair, stays open until April 15th, and enables tourists to see Peruvian handicraft, weaving and metal works without traveling to remote villages. Its program includes Spanish, French and Italian theatrical performances, art exhibits and concerts, ice ballets, variety shows, and football and basketball tournaments.

THE WEST INDIES, rich in romance and history, have rapidly become a favorite of vacationists

... and the Islands are extending a welcome hand. The Trinidad and Tobago Tourist Bureau on King's Warf at Port of Spain is typical of the reception. They greet the ships and see that tourists get the most out of their visits.

THE HAVEN pictures is Sans Souci Bay, Trinidad where the temperature is mild the year-round and the trade winds act as a natural cooling system.

LUXURY CRUISES and Luxury type freighters are available from many major U. S. ports to the West Indies. For example, Furness White Lines have recently re-established their Caribbean service interrupted by the war. The Fort Amherst sails from New York every three weeks for a 18-day cruise to such exotic islands as St. Thomas and St. Croix in the Virgin Islands, Trinidad, Grenada, Barbados, Martinique and Antigua. Cruise liners of Moore McCormack's Good Neighbor Fleet leave N. Y. every other week and stops at Port of Spain on both north and southbound voyages ... and round trip is just \$475. Air-hops to other islands may be made inexpensively.

WE'RE DELIVERING BABY CHICKS NOW!

They're Bred Right to Lay Right

Better Order Early!

Hurry and place your order so your chicks will be ready when you want them. Ask folks who bought our chicks last year—they're BRED RIGHT to LAY RIGHT. Come in or phone your chick order today.

YOUR STORE WITH THE CHECKERBOARD SIGN
