## Reservations Are Being Accepted For "The King And I" Dinner Theatre

The upcoming production of "The King and I" spotlights a new face and an old favorite for CJC Theatregoers. Kimberly Camp and Scott Taylor portray young, ill-fated lovers onstage, and offstage perform numerous other tasks necessary to mounting a production of this size.

Kimberly Camp is a senior music education major at Sam Houston State University in Huntsville. Originally from Livingston, Texas, Kim has been involved in musical productions since 1982, where she first appeared in OKLAHOMA! Last summer she appeared in the Huntsville Entertainment and Art Program production of "The King and I" as Lady Thiang. In addition to her performance duties, this summer she has acted as vocal director for the chorus. Kim had her senior recital in Huntsville in 1988 featuring numerous classical pieces. Additionally, Kim toured Europe in 1986 and 1988 with the SHSU choir singing in such countries as Germany, England, Czechoslovakia and Austria. Kim plans on a career in vocal performance

and music education. Scott Taylor, a senior at Texas Tech University, will appear as Lan Tha in "The King and I." Originally from Artesia, New Mexico, Scott is majoring in music education specializing in voice and theatre education.

Scott has been on the stage since the third grade and has done at least one major musical every year since eighth grade. He has worked as a musical director as well as choreographer. He has choreographed many shows including "The Quilters" at CJC, "Hello, Dolly!," "Peter Pan," and "The Sound of Music." But Scott's heart still belongs on the stage. Some of his favorite roles include Hysterium in "A Funny Thing Happened on the Way to the Forum," Charlie in "Brigadoon," Rooster in "Annie," and Rolf in "The Sound of Music." After graduation next May, Scott plans to pursue an acting career in Dallas.

Reservations are now being taken for "The King and I" to be performed Aug. 5-14. There will be dinner, dessert only and show only performances. Call 442-2589.

## Texas Teenage Baseball State Tourney Begins Monday

The Texas Teenage Baseball State Senior Division Tournament starts Monday, August 1, at the Eastland Baseball Complex. Games will be at 12:00 noon, 3:00 p.m., 6:00 p.m. and 9:00 p.m. daily. Admission is \$2.00 for adults and \$1.00 for students. Passes for the entire tournament are available at a discount.

A meeting for anyone interested in helping is planned for 4:00 p.m. Saturday, July 20 at TU Electric, 1400 Breckenridge Highway.

Ralph Stevens is Tournament Director.

This tournament can mean a lot to the local economy if it becomes an annual event, and this is the second time running for it to be held in Eastland. So, especially if you are interested in baseball, help make this tournament a convincing success.

Twelve of the state's regional champions were scheduled to play here in the State Tournament, but one, Sulfur Springs, has cancelled out, reportedly due to a conflict with the football coach's plans. Either there will be a bye for the teams that are scheduled to play Sulfur Springs, or the state

office will select another team to play in their place. And it is late for another team to plan to come.

Sunday at 2 p.m., the team managers and coaches, or at least the ones who choose to, will meet at TU Electric's Service Center to draw for team slots in the Tournament bracket.

And from what we hear, most if not all of the teams are planning to stay in local motels for the week. And interest seems to be running high with the teams coming and their fans.

The eleven teams who say they are coming are: the Cameron Cardinals, the East Houston Astros, the Eastland Reds, the Comanche County Mustangs, Crockett, the Brownwood Vets, the Snyder Tigers, the Whitehouse American Legion team, the San Angelo Bobcats, the Haskell Indians, and the Bridgeport Rebels.

Concessions belong to the city, while ticket sales will provide umpires, pay tournament expenses, and if Eastland turns out for the games and there is a profit, could help provide some storage space under the bleachers for baseball gear.

**I'M DISABLED**  
By Carolyn J. Harvey  
I'm disabled,  
And you can't see,  
The Lord chose me,  
To work for Him,  
And to be for Him a gem.

He chose me,  
To carry my cross,  
And let the people know,  
He is my Boss.

I find ways  
To serve Him every day,  
And the prayers I pray,  
He answers them,  
All the way.

For all  
The joy and love you give,  
How else except for the  
Lord,  
Can I live?

**Leon's Shad Still Dying**  
Lake Leon has had its largest shad die off in years. And the bad part is that it is still going on. A number of anglers in our area are becoming quite concerned about this and have asked why. Each year lakes turn over, meaning just that oxygen depleted water surface forcing oxygen rich water down. A small number of fish are normally killed during this process. But the kill is not normally this large, or this restricted to species. On a recent outing at Leon we viewed only one other species of fish dead. And it was one single carp. I do feel the shad kill is related to the turn over.

Prior to this kill for around 1 1/2 months the depths of 8' to 20' were dead water. This was proved by trotlines who could not keep any bait alive at these depths. And this was over most of the lake at the same time. There were areas where this was not true, but they were few. During this time large schools of shad were huddled near the surface in an attempt to evade the oxygen dead water. When the final few feet of surface water became bad it appears the shad believed to be trapped due to the wide range in depth of the bad water. Thus killing thousands of our forage fish.

Shad is the number one food source for our black bass during this time of year. Hopefully the large kill will not be too hard felt on the bass and strippers since Leon did and I think still has an excellent pound per acre ration of available food supply.

Eastland Lake holds some fond memories for many of us and some excellent close at hand recreation for everyone. Excellent fishing, boating, swimming, quite walks and beautiful scenery. Once billed as the largest water source in the county, Eastland Lake is now being considered as an expendable item. Water in West Texas expendable? Well that's a first for me folks as I'm sure it is for a number of you. Eastland Lake is far too valuable a community for we the citizens not to allow its destruction. Not only because of its water supply, but it also acts as a silt trap for Lake Leon, a food deterrent during heavy rains, and of course as a close at hand recreation spot for all to enjoy. Let your voice be heard concerning the possible destruction of this valuable commodity "water" in our area.

August 4th the Eastland County Bass Club will be holding its monthly meeting. The location has not been announced. For more information contact Eddie Green. At present August 14th is the date for the E.C.B.C. in-club tournament, site to be drawn at the club meeting. The race for this years top six team members is still wide open and all members are urged to attend the remaining events. Also don't forget this year holds a classic for the top 16 finishers in total pounds.

The Brownwood Bass Club Open tournament this past weekend was deemed a winner; drawing over 150 entries. First place was taken by Herschell Duncan of the B.B.C., second Ben Villapando of the B.B.C. and third Bobby Maynard of the Ballinger and Eastland County Bass Clubs. I was unable to attend this event, but I understand the Eastland area was well represented, congratulations to the winners and all the anglers who were able to find a keeper.

Lake Victor Braumig has been one of Texas' most unusual reservoirs during the past decade, for several reasons.

It's murky waters support a remarkable biomass of fish, including introduced species such as red drum, hybrid striped bass and hybrid orangemouth corvina.

The 1,350-acre power plant lake on the southeast outskirts of San Antonio has had its problems, however, in production of largemouth bass. For reasons yet unknown, native largemouths and Florida-strain bass traditionally have had poor spawning success. But not this year.

Dick Tuebke, manager of the Texas Parks and Wildlife

**Department's Heart O' the Hills Research Station at Ingram said a recent cove rotenone survey turned up an amazing number of yearling bass that were produced by a national spawn. The lake had not been stocked with bass this year. "We collected 1,883 bass per acre in the two coves sampled," said Tuebke. "This was a 300 percent increase over 1987 and the highest density of bass since we starting the sampling in 1981."**

In addition to the young of the year bass, the crews picked up 21 largemouths in the 14-inch-plus category, including two measuring 20 inches and one 21 incher. Luebke said an amazing 74 pounds of bass per acre were found in the survey this year, and this is a vast improvement over the 10 pounds per acre in 1987.

## The Next Best Thing -

...to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then becomes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

## TRY OATS TO REDUCE CHOLESTEROL LEVEL:

It's long been known that the fiber in oats lowers blood cholesterol in people who have high levels, thus reducing their risk of developing heart disease. Now researchers have also found it lowers blood cholesterol of people who have what are considered normal levels.

Research scientists at Northwestern University

School of Medicine have found that just two ounces a day of either oatmeal or oat bran, which equals about two cups of hot cereal or two muffins, can lower cholesterol by almost 5 percent in a matter of weeks.

Before you start eating bowl upon bowl of oatmeal be aware of two factors. First, the oat products in the studies were found to be helpful only as a part of a moderate-fat, moderate-cholesterol diet. So don't count on oatmeal to combat the effects of a fatty diet.

Second, it hasn't been shown that just because two ounces of oats are effective in lowering cholesterol levels that more than two ounces will be even better. So don't go overboard on oats to the exclusion of other carbohydrates.

## RECIPE FOR THE WEEK:

Summertime is ice cream time. For a delicious dessert, let me share with you a recipe for Ice Cream Pie that Vergie Hale, of Cisco and a member of the Pleasant Hill E.H. Club, shared with me years ago.

## ICE CREAM PIE

- 4 egg whites, stiffly beaten
- 1 cup sugar
- 1/2 cup, chopped nuts
- 1/2 cup graham cracker crumbs
- 1/2 gallon softened ice cream strawberries

Add sugar to stiffly beaten egg whites, then add pecans and graham cracker crumbs. Spread this mixture in a baking pan and bake 30 minutes at 350 degrees. Cool. Spread with 1/2 gallon softened ice cream. Top with fresh or drained frozen strawberries. Put into freezer until time to serve. Delicious!

# Poem

**The Master's Touch**  
How blessed are the stars on high  
To send to us their holy light  
As if an artist had passed our way  
To put his works on display.

The Master's touch is the real thing  
Something a forger cannot claim  
He paints the sunset at the end of day  
And sends His blessing along our way.

He paints the sunrise on the morning tide  
And hear the seagulls on

their flight  
The blessing we have of another day  
And He promises to walk with us along the way.

The joy each of us is given  
To be counted among the living  
So stop and smell the roses along the way  
And count each blessing we received today.

**TEXAS AND THE LEGISLATURE**

by SENATOR BOB GLASGOW

**Workers' Compensation at the Crossroads**

"If it ain't broke, don't fix it!" It's a phrase we hear often in Austin, and one I've had occasion to use myself. The sentiment is sound, but is it applicable to the Texas workers' compensation system?

Workers' compensation is a complex and often misunderstood subject. The idea came to America from England and continental Europe in the early years of this century. Those were years when the largely unregulated factory system killed and maimed newly urbanized workers in record numbers. The common law remedies for occupational accidents were slow, litigious, costly and very uncertain. The cost of injury and death, in all but the most exceptional cases, fell on the accident victim, his or her family, charitable organizations and society at large.

Workers' compensation laws sought to remedy the situation in an historic compromise: employers agree to bear the costs of occupational injuries without regard to fault, and in return workers agree to limit the employers' liability to amounts specified by law. The system was thus a form of no-fault insurance designed to protect the injured worker from destitution and to protect society's support systems from the ravenous costs of job injuries. It is a major social program, pre-dating Social Security and other Depression era programs by some 20 years.

Workers' compensation programs are state programs, run under state laws and administered at the state level. When both the private and public sectors are considered, Texas employers will spend nearly three billion dollars on workers' compensation in 1988, and half a million Texas workers will receive workers' compensation benefits.

Are employers getting what they pay for? Are injured workers getting what they deserve? I submit that the answer to both questions is "No." Let's review the evidence. Except for a tiny number who fall under a special provision of the law, a worker who is permanently and totally disabled by a Texas job injury may receive a maximum of \$231 per week for a maximum of 40

weeks. This amounts to \$92,631 in compensation for a lifetime of lost wages. The money is in addition to medical benefits which by law are permanent, but which in practice are routinely reduced to periods ranging from a few months to a few years.

In over 40 states, the permanently and totally disabled worker can receive higher weekly benefits. In over 45 states that worker may receive benefits longer than 401 weeks (in most states for life.) And in virtually every other state the maximum benefits provided are greater than in Texas.

The permanently, but not totally disabled Texan fares little better. His or her maximum benefit of \$69,300 is lower than at least 35 states. The Texan temporarily idled by an injury which is not permanently disabling is due \$231 per week (40 states are higher) after 7 days of lost time (29 states start benefits faster.) The comparisons, incidentally, are compiled from State Workers' Compensation Laws, published by the U.S. Department of Labor. Check it out. Convince yourself as I did.

The monetary benefits provided disabled Texans are poor. If this fact were not cruel enough, Texas is one of only three states which allow employers legally to provide no workers' compensation coverage and no workers' compensation benefits.

Are Texas businesses getting a free ride at the workers' expense? Again the answer is "No." General Motors has told our Committee that workers' compensation costs per employee at the Arlington assembly plant are the highest of the company's 12

assembly plants. They are more than double the cost in 10 of those plants.

The Howmet Corporation of Wichita Falls tells us that costs in the Texas castings division are as high as the combined costs in similar divisions in four other states, and this despite the fact that the Texas facility is the newest, best maintained, and has the fewest employees and most aggressive safety programs.

A New York based garment manufacturer, seeking to locate a facility which would provide 300 jobs, found applicable workers' compensation manual rates in Texas to be \$8.11 per \$100 of payroll. The highest rate among the 31 other states examined was \$4.43. The lowest was .90 cents. A small employer has told the Committee his premium is \$20,000 per year, while the claims paid from that premium have been less than \$1,000 for each of the past several years.

We have heard similar testimony from such corporations as Kohler, Coca-Cola, Krogers, Proctor and Gamble, Justin Industries, American Airlines, Pillsbury, and numerous other large and small employers. The Grant Thornton accounting consultants estimate Texas costs to be the tenth highest among the 48 states. Studies by academics seem to confirm this conclusion.

I believe the judgement is in: the Texas workers' compensation system is broke. It serves neither workers nor employers as it should and must. It needs fixing.

The Joint Select Committee has undertaken a broad-based study of the system to isolate the sore spots and

devise solutions. The study is still underway and solutions will undoubtedly emerge only slowly as we learn and deliberate. I believe, however, that a couple of things are clear.

First, Band-Aids will not suffice to cure the ills of Texas workers' compensation. The system, designed in 1917, has seen great improvements over the years, but now it must be examined with an unencumbered eye and revamped to meet the needs of Texas and Texans in the 1990's and beyond.

Second, the examination must be all encompassing. Neither the problems nor the solutions lie in one area or with one group. We must begin with safety in the workplace and systematically review the insurance system, medical services and costs, the Industrial Accident Board, the system of adjudication and all other facets.

The future of many Texans, and perhaps of Texas itself, is in the balance.

## EASTLAND

More than one hundred of the top livestock show beef and heifers will be on display at the Eastland County Fairgrounds this Saturday and Sunday. A major event in the state, this Second Annual Prospect Steer Show is being sponsored by the Eastland County Livestock Raisers Association, and it is Texas Club Calf Association sanctioned. Exhibitors will be competing for awards and prize money, and all breeds of beef cattle are expected to be represented. The results of the competition may help the exhibiting FFA students to make decisions about entering their animals in livestock shows around the state.

Twelve championship baseball teams, each a winner in their part of Texas, will compete in the State Teenage Baseball Tournament in Eastland Aug. 1-6. Beginning on Monday and continuing through Friday there will be games at 12 noon, 3 p.m., 6 p.m. and 9 p.m. each day at the Baseball Park. On Saturday the third place game will be held at 10 a.m., followed by the Championship game at 6 p.m. If a 23rd game is necessary, it will be at 8:30 p.m. Saturday. Passes for the entire tournament will also be available.

The "best Saturday night in town" is to be found this weekend at the 5th Saturday Jamboree at the Majestic, beginning at 7:30 p.m.

A cast of about fifty men, women and children practiced for the county historical play, The First County Wedding, last Sunday afternoon at the Majestic. The next practice will be this Sunday afternoon at 2 p.m. at the Majestic Theatre in Eastland. About four more actors are needed to complete the cast, and some equipment. If you happen to have an axe-grinding wheel, a wooden barrel, or some tow sacks you would be willing to loan for sets, they can be used. The play will be presented on Saturday and Sunday, Aug. 20 and 21 at the Majestic.

## RISING STAR

Rising Star will hold a Junior Jackpot Rodeo at the Roping Club Arena on Highway 36 East beginning at 8 p.m. each night. Revival services will be held at the First Baptist Church beginning Sunday

morning, July 31 and continuing through Aug. 5. Bobby Roe will be the Evangelist. Music will be provided by Pat Walker, Teresa Lawrence, the FBC Choir, and Dale Jackson. The Monday through Friday evening services will be at 7:30 p.m., and there will be noon services each weekday in the Activity Building.

## RANGER

Ranger Fire Chief Darrell Fox, and Ranger Volunteer Firefighters Adam Lopez and Bill Jernigan are attending Texas A&M University Firefighting School this week. A number of Ranger businesses have contributed to this trip, and the City of Ranger is covering motel expense. This continuing education by the Firemen is expected to assist them in their duties around the area.

**Nutrition Program**

It seems that we are in an "age" when everyone wants to reduce their weight. At the Senior Center we are very conscious of the preparation of food so that you may control your weight. Reducing fat is a good way to do this; however, recent studies show that limiting fat intake may help prevent heart disease and certain types of cancer. Several tips to reduce dietary fat includes: choose lean meats; order entrees broiled, baked, or

steamed instead of fried; switch to low calorie salad dressings, skim or low fat milk, and eat frozen yogurt instead of ice cream.

Plan to have your luncheon at the Senior Center. Call 442-1557 in Cisco or 629-1382 in Eastland on Monday, Wednesday or Friday.

Cisco programs for the week were: birthdays and anniversaries for the month were honored; dinner music by La Rue Broussard, Mildred Johnston, Ima

## WORD OF GOD

### Old Testament (Prophecy)

Thus saith God the Lord, he that created the heavens, and stretched them out; he that spread forth the earth, and that which cometh out of it; he that giveth breath unto the people upon it, and spirit to them that walk therein:

I the Lord have called thee in righteousness, and will hold thine hand, and will keep thee, and give thee for a covenant of the people, for a light of the Gentiles;

To open the blind eyes, to bring out the prisoners from the prison, and them that sit in darkness out of the prison house.

Isaiah 42:5-7

## Tarleton State University

### Expanded Graduate Program

The fall schedule at Tarleton State University will feature an expanded graduate program. The Texas Higher Education Coordinating Board approved Friday the addition of a Master of Arts and a Master of Science degree at the University.

Dean of Graduate Studies, Dr. Ron Bradberry, announced Monday that the two new degree programs, each with emphasis in three areas, will be added to University's curriculum. The Master of Arts degree offers options in History, Government and English while the Master of Science degree has options in Biology, Mathematics and Agriculture.

"These degree plans have an emphasis on research," said Dr. Bradberry, "and each requires 36 hours including a thesis."

A majority of the previous graduate programs at the University were developed with an emphasis toward education. In fact the Master of Business Administration was the only program previously offered by Tarleton that was a non-teaching degree. Other programs already existing included the Master of Education (with five options), Master of Arts Teaching (three options), and Master of Science Teaching (four options).

"The addition of the MS

and MA programs broadens our offerings in graduate studies and allows us to serve not only students interested in teaching and applications but those who have an interest in the areas of discipline and research," said Bradberry.

Although the new degree programs were given the official "okay" on Friday, many months of preparation have gone into designing the curriculum. Increases in library holdings and in science laboratories and equipment plus selection of qualified instructors from among the TSU faculty contributed to the program's acceptance.

"The addition of these programs is a natural part of our maturing as a University," said Dr. Robert C. Fain, Vice-President for Academic Affairs. "In previous years our graduate program has concentrated on teaching and now we are moving toward research. There was a genuine need for these types of programs in this area and we are glad to have the opportunity to serve the community by offering the curriculum they desire."

University administrators expect the expanded degree programs to attract a broader market of students. Students may begin enrolling in the degree programs with registration for the fall semester.

Annie Mae Donaway has returned home after a trip to Dallas to her daughters Mrs. George Ramsay. She had her eyes checked while there.

Mrs. Wilma Stovall and Bobbie Donaway from Odessa spent some time here last week. They visited with their Mother, Mrs. Nettie Speagle who is in the Baird Nursing Home and other relatives.

Mr. and Mrs. Archie Wirt from Waurika, Okla., visited with his sister Edith Muzny last week. He also visited his sister Daisy Hunt at the Nursing Home in Baird. Mrs. Edith Muzny has been visiting her daughter Delores Krinke in Dallas this week.

The Baptist church in Putnam will be having a revival next week, July 31, thru August 5th at 7:30 p.m. with Evangelist Jim Andrews.

R.D. Weeks had by-pass heart surgery on Monday and at this report we hear he is doing as well as can be expected.

The Baird Little League that Terry Johnson, helps coach, had a bake sale at the Hitch-in-Post on Saturday and made about \$100.00. Brad Johnson plays in this League. They played at Breckenridge playing Snyder and lost by one point Monday night. Terry Johnson did not attend this game. He has not missed a game in four years. Maybe that's why they lost!

**SHOULD MY WIFE HAVE A WILL, TOO?**

If your wife owns property, solely or jointly, or if she is heir to an estate, she should have a will of her own. This applies in quite a few other cases, too.

Husband and wife may be double victims of a fatal accident. The husband may have designated his wife as major beneficiary in his will. Without the wife's having a will of her own, distribution of her share of the estate will not have been provided for. Her share may be subject to state laws, tying it up for long periods right when it may be needed.

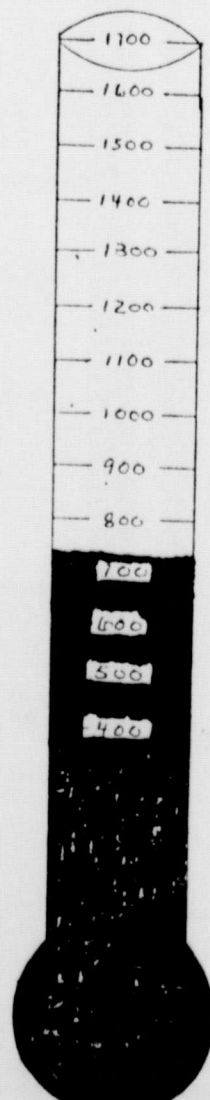

If the wife is a business partner in a family business, it is to the firm's advantage to have its business continuity assured by her having a will.

After the man has made his will, he should discuss with his lawyer a separate will for the wife. Above all, be sure to consult your attorney. We've seen bad situations arise because no wills were made or because they were drawn up by amateurs.

Host families are being sought for high school students from Sweden, Norway, Denmark, Finland, Holland, Belgium, Austria, Switzerland, West Germany, Spain, France, Italy, Ecuador, Australia and Japan for the school year 1988/89. The program is sponsored by the American Intercultural Student Exchange (AISE).

The students, age 15 through 17, will arrive in the United States in late August 1988, attend a local high school, and return to their home countries in early July 1989. The students are all fluent in English and have been screened by their local school representatives in their home country. They have spending money and medical insurance.

If you are interested in hosting one of these teenagers, contact the state coordinator at this toll free number, 1-800-SIBLING.

Members of First United Methodist Church will hold their Fifth Sunday Dinner immediately following worship service Sunday.

We owe a young lady an apology. In writing about the Little League All Stars recently, we wrote "boys" in our stories. There was a girl chosen for the team, also. Stacey Alvarado had an outstanding season and was named to the All Star Team. Stacey, please accept our apology. She is the daughter of Susan Alvarado.

The Noah Project, a center for victims of domestic violence and trauma, now has a 24-hour crisis line toll free number, 1-800-444-3551. The Noah Project serves an 18-county area in West Central Texas, including Eastland County. Services offered by the Noah Project

include 24-hour emergency shelter, 24-hour crisis line, counseling services, medical assistance, emergency transportation, legal advocacy, referral to community service agencies, outreach services to non-resident clients, community education, and volunteer recruitment and training.

For every act of violence there is a victim. According to Noah, battering of women is the most under-reported crime in America. Three to four million American women are battered each year. Some 95 percent of all spouse abuse cases are women who are hurt by men. A battering incident is rarely an isolated event. Battering tends to increase and become more violent over time. Many batterers learned violent behavior growing up in an abusive family.

The Noah Project has centers in Abilene, Brownwood, Snyder and Haskell.

### Cisco Scouts Attend Cub Scouts

#### Day Camp In Eastland Last Week

Eastland's Park Hill has been occupied by 122 Cub Scouts and 47 adult leaders and instructors as it is the location for the Comanche Trail Council Cub Scout Day Camp.

For three days, Thursday, Friday and Saturday, the boys have been involved with swimming, games, crafts, archery and air gun marksmanship, and nature studies, under the guidance of instructors.

Saturday evening after a hamburger cookout, the Cub Scouts will entertain their

parents and sponsors with a program and skits.

Eight counties with dens ranging from Cisco to Stephenville and from Breckenridge to San Saba make up the Comanche Trail Council.

A camp nurse is on duty at the Day Camp, which is directed by Rowland Honeycutt.

Park Hill has provided a good location for the camp, and Mr. Honeycutt praised the co-operation and support received from the City of Eastland, which allowed the park to be roped off for the young Scouts, and from local businesses, which supplied several of the camp's needs.

#### Holds Meeting

The Cisco Rotary Club held a club assembly at its regular meeting Thursday noon at the White Elephant Restaurant. Otto Urban, president, presided with 82 per cent attendance.

Rotarians discussed the fire damage at Traditions where the club had been meeting. The club's American flag, Rotary banner, Rotary bell and gavel, mahogany podium and song books were damaged in the fire. The club will attempt to have the club's banner cleaned. However, if it cannot be restored, a new one will be purchased.

The club's district governor, Joe Orr of Fort Worth, will be at the meeting Thursday, August 4. All members are urged to attend and enjoy the fellowship.
