VOL. 14 BAIRD, CALLAHAN COUNTY, TEXAS, FRIDAY, APRIL 26, 1901. NO. 21.

Just Received

My New Stock of Spring and Summer Dress Goods, it is a beautiful line, and is being praised highly by the ladies who have seen, examined and priced them. Come and look through our stock.

A Beautiful Line of Ladies Waists of the Latest Fashions, which are very nice. See them.

LADIES SKIRTS.
A nice line of Ladies Skirts of latest cuts and fashions and at reasonable prices.

LADIES UNDERWARE.
A nice line of ladies underware at reasonable prices of the latest makes and designs.

SHOES AND SLIPPERS.
We have a complete line of the latest styles and shapes of Ladies and Misses footwear, and invite you to call and price them.

DERBY CURTAINS.
In different shades, very nice and not expensive.
A nice line of Rugs, Matting, Window Shades, Etc. To see them is to admire them.

We shall make the lowest possible prices on these goods and need you to inspect them to be convinced. You will be treated right. Goods were bought for SPOT CASH, which means that they were bought right, and we will give all the benefit of same, and if you don't see things you wish call for them.

Yours to Please
H. SCHWARTZ.

Fancy Combs, Collars, Embroideries, Ribbons, Spikes for Belts, Ladies Ties, Fancy Notions, Etc.

ADMIRAL DOTS.
April 23.—There has been a few itms since our last which may be of interest to readers of other localities, so we come again.
The recent rains put the farmers in good spirits for a few days, but now it is as dry as ever, though some are planting corn and cotton.
The small grain is badly damaged on account of dry weather. The volunteer and fall oats are heading; but are so low they cannot be cut.
J. B. Smart and son, Jags, are out helping Tom Smart get up with his farm work.
S. Thresher has been staying close on account of a sprain. He can get about a little.
H. C. Dawkins sold all his millet seed to J. J. Sigler of Putnam, and put them on a car for shipment Friday and Saturday. From all accounts millet will take the place of wheat where the bugs are so destructive.
Mote Mitchell went down in the Cottonwood neighborhood on his new bike last Sunday.
Mr. C. Wells representing a Dallas firm dropped off a few days' loaf work to see his brother, L. N. Walls.
Mrs. Anderson spent the week with her daughter, Mrs. Dawkins, returning home Friday.

CROSS PLAINS NOTES.
April 20.—I will pen you a few lines from this part of the moral vineyard.
We have been blessed with a good rain; though it was followed by a cold and a big frost. But little damage was done. Corn was killed, but I think it will soon recover. I do not think the fruit is hurt.
Cross Plains is coming to the front. You can hear the sound of the hammer and saw every day.
J. M. Coffman has his big house filled with new goods. John T. Gilbert and Son have a big stock of goods and farming implements. Mr. Bond has a fine stock of groceries. Summers & Smith also have a nice line of groceries in their new building. Uncle John Wagner & Son have a first class drug store. Dr. Robertson has a nice lot of drugs. Dr. Cochran also has a nice line of drugs.
Tom Norky, the barber has built a nice dwelling.
We have two blacksmiths, Harlow Bros and Ed Barr will soon have their new store completed and a new stock of goods in line.
I think cotton planting will be the order of the day the next two weeks.

OUR HOME ADVERTISERS.
We ought to have the name of every business man in Baird in "our home advertisers" column. The way to get there is easy, but there is but one way—put a display ad in THE STAR—local readers don't count. The names of all business firms running a display ad in THE STAR will be placed in this column free of charge, and run only so long as they have a display ad in THE STAR. Changes will be made as new ads appear or old ones drop out. Space in this column is not for sale at any price. No display ad taken for less than \$1.00 per month.
The New York Post, a Republican paper, says:
When Buchanan asserted that only good men and true could oppose copperheads, Republicans replied by denouncing it most manfully. Indeed, the opposition of the party down to 1858, Republicanism represented the principle of opposition to the policy of expansion along such lines as Democrats had laid down years ago and as the McKinley administration has followed of late.
It appears from this that the parties have swapped sides on this issue.—Johnson Court Review.

SPECIAL EDITION.
We intend to issue a special edition of 5,000 copies of THE STAR in commemoration of the Ex-Confederate encampment at Cross Plains, July 4th and 5th. The special edition will contain a short history of Callahan county, 17 Camp Albert Sidney Johnston, officers, etc., also the edition will be illustrated, but on this line, the matter of advertising will depend on the amount of advertising we receive. The edition will contain valuable information on architecture, road making and so forth and so on. The edition without the illustrations will cost us about one hundred dollars cash, and we are going to issue it whether we receive one dollar's worth of advertising or not, unless some unforeseen obstacle arises to prevent us.
Advertising space in this issue one dollar per inch per column, except on first and 4th, (the latter is the editorial page) only two columns will be sold to advertisers on each of these two pages, and the price will be \$2.00 per inch. No ad on these two pages will be permitted except in the inside columns. No cutting into or crossing the other four columns. No ad received on these two pages at any price except on the conditions named. Locals 10 cents per line.

Jewelry?

Wireless telegraphy may yet solve the problem of communication with Mars. This thought is no more wonderful than Franklin's and Morse's discoveries in transmitting messages by electricity was to our forefathers.

Don't forget our immense line of wall paper—more wall paper than all other houses in town put together.—Powell & Powell. 20.

We have just received the nicest and largest selection of Watches ever brought to Baird. Prices from \$5 to \$25. Also Ladies and Gent's Watch Chains, silver and solid gold bracelets collar and cuff buttons, plain and set rings, and anything in the Jewelry line. We carry a full line of Drugs, Patent Medicines, Toilet Articles, Perfumery, etc. Please give us a call we will appreciate your trade no matter how small your purchase.

R. PHILLIPS.

PALACE DRUG STORE.
We carry a full line of
Drugs, Patent Medicines, Etc.
We also carry a nice line of
WALL PAPER
in all the Latest Designs.
Paints, Oils, Varnishes, Paint Brushes, Books, PERIODICALS, TOILET ARTICLES, ETC.
R. A. SPEER, Proprietor

At last accounts there were seven spouting oil wells at Beaumont, and by this time perhaps as many more. It is a fair bet to become the most famous oil district in the world.
Last Sunday was a week H. W. Vaughn and J. E. Mathoney drove down to the fountain at the foot of Market street to water their team. In some way the lines became entangled and the horse became unmanageable and Mr. Vaughn jumped out and broom one of his ankles and Mr. Mathoney was thrown out and had his back severely hurt. Both men are getting on crutches a result of the smash up.

CHURCH NOTICE.
We are requested to announce that communion and special services will be held at the Presbyterian church on Sunday, April 29, at 11 o'clock A. M. by Rev. J. M. Brooks.
Dr. Long will straighten crosses free for the next ten days. Office at St. James Hotel. 21-23.

We Have Moved!

To our New Brick Building just across the Street, where we will be pleased to have our friends to call and see our line of

Hardware, Vehicles, Stoves, IMPLEMENTS, WIRE, ETC.

A Select Line of Saddlery Goods.

We do all kinds of tinwork promptly and Guarantee our Work, isn't that fair. We have a car load of Wagons and Buggies on hand that we are selling at reasonable prices, come and see them.
(Ladies, come and see our line of Parlor Lamps, they are beauties and very cheap.)

WE HAVE THE FINEST LINE OF CUTLERY EVER BROUGHT TO BAIRD.
GET MY PRICES BEFORE BUY. Yours for Trade. Phone No. 5.

R. E. CUB HADLEY.

Worthy Name.
because it gives pleasure from the moment the eye first rests on them until they are retired on account of old age. Our line of Buggies, Surries, Road Wagons, are built of excellent material and finished throughout in a very pleasing manner. These vehicles are easy to pay for and easy to ride in.

Value Behind it.
and in it and all about it—that's our whole CARRIAGE case in a nut shell. Our pleasure vehicles and work wagons are as reliable and genuine as T. S. money, and it does not take any time to buy them. Whatever we sell is a price on wheels for the buyer and will run until you owe it to the community to buy something else.

Wring Off The Old. Put On The New.

The last demand or the old has been met and it is now being driven back by the balmy breath of Spring, to its hiding place in the far away north land. Winter is no more, Spring is here, the budding trees hint it, the bursting buds proclaim it, the merry birds carol it and our Great Store joins nature in her festivities.

Wring off the Dull Garments of Winter

Put on the Bright Habiliments of Spring.

KID GLOVES

Our kid glove department is fine. We have a large stock in all colors and sizes, worth from \$1.00 to \$1.50. Your choice for \$2. Why pay others twice as much

MILLINERY.

Mrs. Miller is at the head of the Millinery department and is a real artist in that line. While East she spared neither time nor money in making her selections, and for style, beauty and values she is ahead of any in Baird or the West. To prove what we say, just ask to see Mrs. Miller in the Millinery department and you will soon agree with us that we have seen one of the prettiest lines of Ladies' Hats, Bonnets, and Millinery ever before brought to this market. Orders taken and filled promptly; our prices are lowest.

You make your own selection as to material, etc and our artist will do the rest. Every day from now on will be OPENING DAY with us and will continue through the entire season. If you fail to see us, and get our prices you are the loser. Mrs. Miller, Miss Teepie, Mrs. Shelton, Miss Emmons and Miss Holland are always on duty and anxious to please. Mrs. Miller at the head of this able corps of assistants can not fail to please you.

Notions.

Our Notion Department we have many bargains in laces, appliques and all other trimmings for dress goods. The latest designs for fine silk and wool. Our embroideries are so cheap that many ladies are carrying off armfuls. See this line of Notions.

Remember we are the only ones who carry the high class trimmings. Great value has been accomplished by many as carrying a stock equal to Sanger Bros.

NO TROUBLE TO SHOW GOODS AT T. E. POWELL'S STORE.

Hosery.

We have over 10,000 pairs of hose to fit the finest infant or the largest grown person, all shades and colors. In all grades from 6c up. We carry the finest quality children red hose. Buy ladies' hose for 10c at Powell's that will cost you 15c elsewhere.

Dress Goods!

This Department was never so full and complete as it is to-day in rare bargains of high art goods and fine textures. We have more silk and satins and high class wool goods than all Baird put together and twice over. If you want a fine dress do not send to Dallas, St. Louis or New York for you can buy it cheaper at T. E. Powell's. All I ask to convince you is to come and see.

It is sufficient to say W B Corsets, and you know the rest. There is no competition because W B leads them all for shape, style and fit. It is the only corset on the market with straight front, erect, stonily, or slender figure or any other kind, also girdles. These are the style to fit your figure. Ease and comfort guaranteed if you get to measure.

In my Wash Goods Department there never was such handsome designs, fine textures and to prices. We have Dimities, Organ dies, of all the new designs and shades, a handsome line of Foulards, Mousselines, Peau de Soie. All those goods are sold all over the state for twice the price that you can buy it at my store, so if you want a handsome dress for 50c on the \$100, cheaper than you can buy it anywhere else you have got to go to Powell's to get it. In this as well as all other departments I am unable to put in print the many designs and colorings and many rare bargains we have. You will have to come and see to be convinced. No trouble to show goods.

Furnishing Goods.

Our furnishing goods are arriving daily, everything we have is all new this year's goods. There never was a prettier line of Men's Neglige Shirts, the pen cannot describe the beauty, the fit, the cheapness. I will have to ask you to call and see to convince you. See to \$1.25 others charge you 25 per cent more for the very same goods.

Neckwear.

The greatest line ever carried in Baird. We invite you to call. No trouble to show goods.

Underwear.

My underwear is just as fine as any other department in the house, full and complete.

CLOTHING.

While in New York I bought the cheapest line of clothing for the money ever brought to Baird. Remember we recognize any competition, not even Montgomery and Sears Roebuck & Co. In fact it is just like finding money to find my prices. Handsome all wool worsted suits for \$7.00, \$8.00, \$9.00 and \$10.00. Each suit is worth \$14.00 more than I ask. Why pay others 20 per cent more for clothing than you can buy it for at Powell's. If you are going to give money away give it to the church and if you are going to buy buy it at the right place and that is Powell's. See my clothing, both men and boys, before you buy, for I guarantee to save you money.

SHOES.

I have ten thousand dollars worth of shoes and boots in the celebrated brands of HAMILTON BROWN. T. E. POWELL'S OWN MAKE. BROWN SHOE CO. Every pair guaranteed. This line is more complete than any in West Texas, not a piece of shoddy or paste board in a shoe in my house. If you want good goods go to Powell's and ask for his guaranteed shoes. Our oxfords and strap sandals are the prettiest line ever shown in the city and that are 25 per cent cheaper than last year. Children's and Misses red oxfords and strap sandals, the only complete line in the city.

Now in Conclusion will say that you will find an honorable upright set of clerks at my store who are always willing and anxious to show you goods. All we ask is an opportunity. Please call early and get first choice for we are having an immense trade, as it seems that every man, woman and child in Callahan County is trading with us, and if you do not you will be an exception. THE ONLY ONE PRICE HOUSE IN BAIRD. Yours to Please,

T. E. POWELL, Baird, Texas.

Eye, Ear, Nose, Throat.

Give him a call. If you can be cured or benefited you will be told so, if not you will be told so and be out no money. We will treat your eyes for glaucoma free, and if you have any eye that can be benefited we will treat it free. 21

RESOLUTIONS.

Whereas it has pleased God to remove from our midst our sister, Mrs. Silena Green, we, as a committee appointed by the Shiloh Baptist church to prepare a memorial for publication submit the following:

Silena Orr was born in Alabama, July 26, 1827. Professed religion in 1874. Joined the Baptist church in 1885. Was married to J. D. Green in 1881 and removed to Texas in November 1891, where they made their home till their deaths which occurred about seven months apart.

The sudden and severe illness and death of Brother Green was still fresh in the hearts of his brethren and friend and his only son when they were called on to mourn the loss of a faithful and devoted companion.

At the time of his death she said she would soon follow him, and when she sickness seemed to feel that the time for their reunion was at hand.

The sympathy and interest of the church and entire community are expressed and extended to their only child. May he live to honor their memory.

Com. Mrs. M. J. Eckhart, Mrs. Etta Hood, Mrs. Roberta Harbin.

L. M. (Mike) Wyatt and Mr. Ed. Dabney, of Thorp Springs are in town Mike W. is an old Callahan county boy and has many friends in Baird and county. They are traveling in the interest of a life insurance company.

IMPROVING NATIONAL PARK.

Plans Under Way For An Extensive Improvement of the Yellowstone National Park.

Within a short time work will begin upon an extensive improvement of the Yellowstone National Park. The work of improving that part of the Missouri river which passes through the Lakota and eastern Montana. The system of roadways will when completed include 200 miles, of which 102 miles already are completed. The Yellowstone National Park is the largest and the chief natural objects of interest. The system includes the lake, river, and forest, which are grouped through all the more important centers of interest; the approaches, by which each reaches the Yellowstone boundaries of the park, and are to give access to the objects of interest.

The total mileage of the belt line, including some crossroads, will be about 250 miles. The approach to the boundaries of the park will be four in number, one from each border. The Yellowstone National Park is a reserve. There will also be a number of side roads, amounting in all to about 45 miles. The roads to be built will give a good grade, 18 feet wide, with a clearing through timber of 30 feet. The roads will not be macadamized for some years. Stone and iron will be used in the construction of all the bridges.

TRUSTS IN BRITISH ISLES.

Alfred Harmsworth Sends an Expert to Study the Question.

Robert Donald, an English journalist and student of sociology, arrived in New York recently on the steamer Deutschland. He will spend six months in the United States as special correspondent of Alfred Harmsworth's London paper, The Daily Mail.

He will devote his entire time to studying the trust question in the United States, the industrial betterment League of Scotland, and the United States reform, says the New York Times. In his work he will be assisted by the League of Social Reformers, which Dr. Josiah Strong is president and Dr. William H. Tolman is secretary.

Mr. Donald's labors in London in this field have extended over a period of 14 years. He was manager in 1880 and gave six months' study to the trust question and political conditions. He contributed daily to The Daily Mail and will embody the results of his analysis of social conditions in an extensive book, "History of the Working Classes," on which he is now at work.

A Popular Book's Big Sale.

The sale of "Old Hires" is to be sustained in a way that has not been appreciated by any of the late successes since the New York Times. The other week 2,000 copies were in Chicago alone.

FUTURE OF TEXAS OIL.

Enormous Possibilities Predicted For the New Industry.

TO REVOLUTIONIZE FUEL QUESTION.

Former Governor Hugo of Texas, Believes in Oil From Beaumont. Fields Will Displace Coal—Several Thousand Barrels Shipped to England Last Year.

The oil of the rich Texas Governor J. S. Hoop, who has spent considerable time at Beaumont, near Austin, is being put to the new oilfield, that the discovery of oil in such beautiful quantities there will revolutionize the fuel question of the whole world, says the St. Louis Globe-Democrat. He says that the manufacturers of this country and Europe have not yet come to a sense of realization of what the wonderful oil discovery and development of the Beaumont field means to them. Many of the accounts published throughout the country of the flows of the wells "rought in" in the Beaumont field have been looked upon as gross exaggerations and fakes by the French, while as a matter of fact they have been true. The published statement that a test of the flow of the Louisiana wells, which produced an output of over 70,000 barrels of oil per day of 24 hours was obtained as a matter of fact, and that since then it has shown no decrease in the well flowing flow.

It is not only that now confronts the oil producers of the new district is what should they do with it. It has not been fully ascertained by the Standard Oil company that the present demand for fuel oil in this country is fully assumed by the output of one well in the Beaumont district. But the Beaumont producers say that the demand will be increased, and they are already hard at work on the new wells, which will be the every of the first well, known as the Lucas number. Its owners, Messrs. Galloway and Hoop, are sending a representative to the cities of the United States and to foreign countries over 100,000 barrels of oil per day, and the Beaumont fields have been made with a view of creating a market for the product.

The Beaumont oil is being shipped to New York City, Philadelphia, and even to Pittsburgh. Over 30,000 barrels have been shipped to the manufacturers in Manchester, England, and Liverpool, where the new fuel will be used in the great iron works. It is claimed that it large orders will be forthcoming. The American Refining company, which has secured a right to Beaumont to make a full and complete investigation into the oil of the oil as a fuel. This representation was so well pleased with the results of the investigation that he had 2,000 barrels shipped to Cuba, where it will be burned in the largest refineries of the trust, located in Havana. If this is done, the oil will be used in all the refineries of the American Sugar Trust, which will take some time to develop the market for the output of the Beaumont field, but the oil operators here in Texas are certain to regard coal as a fuel in almost every part of the United States. The assertion is also made that the Beaumont oil will be delivered to the manufacturers in Pittsburgh in the very early part of the next year, or earlier than is now being paid for by these manufacturers. Tests have been made by the Beaumont oil and a half barrels of oil of the Beaumont oil are equal to one ton of Pittsburgh coal. At present prices the oil will be sold for 10 cents per barrel. As the oilfields are situated on the coast, where it can be loaded into the coast, where it is comparative light. Already a number of the large manufacturers of Texas have been secured by the Beaumont oil at a great saving in cost as compared with coal.

ANTIMARRIAGE SOCIETY.

Strange Purpose of a Widow's Protective League.

There is a "widow's protective league" at South St. Louis with a rather odd purpose, the prevention of marriages. The fact that the members have all been widows in matrimony is the lead one to infer that they had found the dual existence an unpleasant one, but such is not the case, for they testify—and those who know them well bear them out—that their former partners in life were capable. The purpose of the league is to promote good fellowship among widows and to form a mutual benefit insurance company. It is really the only trust and long remedy endorsed by physicians. One cent bottle will cure or prove its value. Sold by dealers in all civilized countries. April 12

We have the latest line of perfume, toilet articles, cold cream, etc., in the city of Haid.—J. H. Terrell, 20

A Ragging, Roaring Flood.

Washed down a telegraph line which carries the calls of London, Iowa had in repair. "Standing waist deep in icy water," he writes gave me a terrible cold, but I am now all right. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live. Then I got a bottle of King's New Discovery and was wholly cured by six bottles." Positively guaranteed for coughs, colds and all throat and chest troubles. Powell & Powell, Price 50c and \$1.00. Ap

SPOUTING OIL EXHIBITION.

Other Wells Outspiced by the Beaumont Well Near Beaumont, Tex.

The exhibition of a spouting oil well which was scheduled for the month of February at Beaumont, Tex., came off without accident, and fully 10,000 people witnessed the magnificent well which struck over the top of the 92 foot derrick.

Excitement was sprung at the oil field which was not on the programme, says the St. Louis Globe-Democrat. The well was struck at a depth of five minutes the valve was closed, and the crowd started for the city, but a rumor spread that the Beaumont well was about to break loose, and thousands of people went to the well, where they were met by the Beaumont well.

THE HOLY LAND RAILROAD.

The Innovation of Modern Progress From Jaffa to Jerusalem.

It is an act not so much as the introduction of a railway to the Holy Land, but the introduction of a railway to the Holy Land, with the sound of whistle and rushing train among the old and quiet hills of Judaea.

Prof. Merrill has been for five years of the eight of ancient Babylon and has made many important discoveries while deciphering papyrus and other treasures of forgotten lore. He is on his way to New York, where he will deliver a series of lectures in Columbia college and Eastern theological institutions.

Three months ago he was in Jerusalem on a subject that would be exceptionally interesting to the Western mind, he discussed the pros and cons of the Jaffa and Jerusalem railway now in process of construction.

Professor Merrill has more of the appearance of an industrious, well-to-do man of affairs than of a foreigner who has spent the best years of his life delving amid the ruins of prehistoric cities and brushing away the mounds of the forgotten.

His hair is iron gray and his figure tall and athletic. He is endowed with a remarkable memory, and is far apart, and when he is talking apart, he is in search of the very ends of time. Ten years ago, he said, a railway was projected to connect a Biblical city on the Mediterranean sea, to Jerusalem, but for some reason or other was abandoned.

Eight years afterwards the project was resumed, and now the Jaffa and Jerusalem railway is nearing completion. When asked if such a modern innovation did not excite wonder in the eyes of the natives, he said:

of the old Roman road from Jerusalem to Caesarea; it passes close to Mizpah, the home of the great prophet Samson; it passes through the great battle-field of Beth Horon, and crosses the army of the five kings; it goes down the mountains by the pass of Beth Horon, where the Tenth Legion was cut to pieces, the battle of the plain of Esdraelon, with the sound of whistle and rushing train among the old and quiet hills of Judaea.

The first road in 1860 was projected by Charles F. Zimpfe, an American of German birth. He spent a year in Constantinople trying to obtain a concession to build the road, and it was the road by which Paul went and prisoner with an escort of Roman infantry.

"Work progressed rather slowly on the road. I asked the chief engineer if the laborers ever had a holiday. He smiled and said that it is not about three days after each day pay for them to recover, but as a rule the company could count on four days work in a week."

"Between Jaffa and Jerusalem there are five stations: Ludd, the Lod of the Hebrews; Lydda of Roman and Christian times; Ramleh, the station where the Moslem and crusading conquerors scanned the horizon for an approaching enemy; El Beir, a watering place; Bittar in the valley of Ajalon, and below Bet Nabu, where Richard 'Lion-Heart' camped in the country of Samson."

Professor Merrill said that he had been surprised to find so many of his American surroundings. It seemed very odd to hear Jerusalem, Nineveh, Babylon and historic cities mentioned in the same breath with the roar of the omnibuses, electric car and carriage, but not more odd than to see a connoisseur have a carriage in hand with a dog in a tight place. A neighbor called on him one day and said to borrow his dog, which was under the same roof as Ismail's house, but in the rear. The neighbor said:

"I have your dog, my boy." Ismail protested that his neighbor's dog was not a donkey's dog. Then the neighbor, who was supposed to be joking, said that he had a dog which was twice as big as Ismail's, and the neighbor said: "Oh, I have your donkey, Ismail. Alah help me, I can now borrow him." Then Ismail said:

"That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

Harold Honor of the Rockies. High up on the Laramie range there is a little station called Sherman—a little station which was built on the Union Pacific Railway. Near by is a gigantic prairie of some 60 feet high, and the square of the station which was set up by the railway as a monument to Oakes Ames and Oliver Ames.

In the latter edition there arrived at Sherman a stately person of indeterminate age who put up at the western for almost not far from the monument. Obviously, he was proceeding to develop the fact that the squatter had what lawyers call a "case."

The stranger, it seems, had located on a section of land which did not belong to the Union Pacific—the same section on which the monument had by an inadvertence been placed. He knew very well that he was acting in violation of the law, and that the railway had to pay \$5,000 for the stranger's tract in order to make his title good.

The monument, by the way, is distinguished only 100 yards from the station, and it is a favorite trick of experienced persons to induce grown travelers to attempt a run to the station and back during the two minutes of the train's wait. In some cases they are killed, and in some cases they are bleeding at the nose, the air being so rarefied at that elevation of 8,500 feet that such such exercise—Saturday Evening Post.

Making It Rather Personal. This is credited as one of General Lew Wallace's Turkish tales. There is an episode in the story in which a Turk named Ismail Hasan. He was endowed with oriental wit and was a very clever fellow. He had a tight place. A neighbor called on him one day and said to borrow his dog, which was under the same roof as Ismail's house, but in the rear. The neighbor said:

"I have your dog, my boy." Ismail protested that his neighbor's dog was not a donkey's dog. Then the neighbor, who was supposed to be joking, said that he had a dog which was twice as big as Ismail's, and the neighbor said: "Oh, I have your donkey, Ismail. Alah help me, I can now borrow him." Then Ismail said:

"That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

The Fate Morgana. The fate Morgana is a singular electrical phenomenon akin to the mirage. It is a very rare phenomenon, and is not met frequently and in greatest perfection at the strait of Messina, between Sicily and Italy, many conditions must coincide, however, that even there it is of comparatively rare occurrence. To allow of its production the sun must be at an angle of 45 degrees with the water, both sky and sea being equally calm. The observer must be sufficiently strong to cause the water in the center to rise higher than the surface of the sea. The observer must be on the heights of Calabria, looking toward Sicily, and he must be at a distance of about 100 miles from the strait. The observer must be at a distance of about 100 miles from the strait. The observer must be at a distance of about 100 miles from the strait.

The original of the singular saying, "A skeleton in the closet," which is found in almost every language of Europe, is found in one of those curious collections of stories which the monks of the Middle Ages, possessed by an unknown hand about the middle of the tenth century, there is a story which was evidently a perfectly happy invention of the author of the collection who had been in the castle in the north of France, and his husband went outwardly on the most loving terms. Not a care could be taken to cast a shadow upon the wife's honor.

After hearing the story of her afflicted friend the noble lady took her by the hand and led her to a secret chamber adjoining her bedroom, there opened the door of a closet and exposed a skeleton. "Behold, my friend," she said, "so one is happy. Every day I am forced by my husband to kiss this ghastly dead body, which is that of a gentleman who was my husband's rival and whom I would have married had not my husband been so wise."

A Simple, Bashful Maid. "I have a very sweet girl," said Mr. Snowball to his sweetheart, who had been courted for several years. "Why?" "Because I was reading today and came across a line which said, 'Marriage is the sweetest name that woman ever bore.'"

"That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

"I believe so." "But I have also heard my father say that he had never seen a sweeter name than Mary."

"Why?" said the lover as he tenderly pressed his sweetheart's hand. "That is poetically expressed. I've heard my father say to my mother, whose name is Mary. It is from some old Arab proverb."

Contracte of Eggs. From the remotest ages the egg has been looked upon as the symbol of creation, or new birth, according to the Persians, the world was hatched from an egg at that season of the year which is called the spring, and the world was hatched from an egg at that season of the year which is called the spring, and the world was hatched from an egg at that season of the year which is called the spring.

A curious custom in medieval churches is that of placing a roasted chicken in a gale of salt at Easter, took its rise from the Easter egg, which was thrown from one to the other of the choristers in the nave of the church while an anthem was being sung. As a roasted egg meant a roasted chicken, the more durable material was substituted.

BAIRD HIGH SCHOOL.

The closing exercises of the Baird High School, were rendered according to a tasty and well arranged program to a large and appreciative audience. Music by the orchestra was followed by Rev. J. F. Leak wishing Divine blessing upon the occasion; then a well selected piece was sung as a chorus by a number of the young misses, pupils in the high school who acquitted themselves well, showing care in their drilling. General James then made the address of the evening saying for his theme, "Education and its evolution," and in his happy manner and delivery, held the close attention of all while he inspired the young to aspire to higher and nobler efforts and not to stop when the apparent goal was reached, but to press on, then in the evolution of things all efforts and attainments were illimitable. The orchestra again regaled the audience with a musical treat, when for a quartette on the program was then substituted a solo by Mrs. Irigoin, which was rendered with such sweetness and grace that she brought down the applause of the house. The two graduates of the high school, Hallie Powell and Bessie Fay, being billed for orations were next upon the program, Miss Hallie having for her subject, "It might have been," a quotation from Whittier, and Miss Bessie's "Hannahs encouraging words to his soldiers," "Beyond the Alps lie Italy," the subjects of each were handled far beyond the expectations of their auditors, who showed by their close attention their earnest and pleasure at their oratorical display. Both subjects showed that they had been well studied, and that depth of thought and close application had been devoted to them, and were lauded by the young ladies with ease and grace. The orchestra again regaled the audience with music, when Jack and Jill's musical hit of the evening, was then sung by four of Baird's most cultured voices, Mrs. James, Mrs. Gray and Misses Simmons and Browning. Mr. F. S. Bell then presented the diploma in one of his humorous and catchy speeches, which added much to the pleasure of the evening. More music by the orchestra and then the benediction by the Rev. Mr. Brooks closed the exercises for the evening. Now that the event has passed into the local history of the Baird high school your scribble strikes home a retrospective of what good were those exercises? Were they simply to pass a few happy hours or kill some idle time?

wording of the diploma suggests an answer. "This certifies that the party named has completed the course of study as prescribed for the high school and by their intellectual attainments and correct deportment is entitled to this diploma." Common branches, algebra, plane and solid geometry, higher arithmetic, book-keeping, physics, botany, physical geography, rhetoric, civil government, mental and moral science, general history, literature, Latin reader, Caesar and Virgil. Such a course of study to be honored by completion shows many a weary hour of close application by the student and the patient forbearance by the teacher. Then were those exercises simply to gratify the vanity of the graduates and teacher showing what they had accomplished? Not by any means, where there were two graduates there remains more than two hundred more to graduate. The purpose of the whole thing was to stimulate those coming on to apply themselves and do likewise in the language of the subjects of these young graduates both to warn them by those sad words, "It might have been" and to cheer them with the hope that "Beyond the Alps lie Italy." The writer hopes that these exercises will happen every year, and that by the continued property of the school every year will add new graduates to the roll of honor, and that we may not have as long intervals as in the past. The writer also take this opportunity to state that the confusion caused by the improper seating of the audience was not the fault of the school management, but of the management of the Athletics Hall, under whose auspices the entertainment was given, there to provide everything for the comfort of the audience and take all proceeds of the entertainment. Clinging with the best wishes for the prosperity of the school faculty and pupils, I remain.

A PATRON.

NEEDRO CABIN BLOWN UP.

Last Monday night the slumbers of the people of Baird were disturbed by an explosion that echoed and re-echoed among the adjacent hills. The next morning it was learned that a negro cabin down on first street opposite the round house occupied by "Dr." Will Simms was blown up. The doctor and his wife were blown out of their seats into a retrospective of what good were those exercises? Were they simply to pass a few happy hours or kill some idle time?

\$12. VS \$8.

Montgomery Ward would charge you \$12 for this suit, our price only \$8. Come and see it.

T. E. POWELL.

room was more desirable than his company. Be that as it may the doctor concluded to shake the dust of the town from his feet and he departed Tuesday night in quest of a town where his presence and professional services will be more appreciated than in Baird.

Who blew up the doctor? It is not known, some account for the explosion on the theory that a stick of dynamite may possibly have become embedded in the soil when the T. & P. road was built and that the extreme heat the past few days caused the fuse to ignite and explode the cartridge. This theory may not be correct but in the absence of any facts known about the affair probably as satisfactory as any other. Two facts are known: the doctor and his horse were blown up and the doctor has emigrated though he said he would stay at all hazards. Probably it is better for all concerned that the doctor reconsidered the matter and decided to move.

Dr. Harley A. Long, specialist, treats all acute or chronic diseases of the eye, ear nose and throat. St. James Hotel.

HUBBARD HAPPENINGS.

Apr. 24.—Since I have noticed none of Hubbard Happenings in THE STAR I will write you a few.

Mr. Lee Snyder is making preparations to leave our neighborhood about the first of May. We regret to see him leave, and one of our neighboring young ladies especially.

Mr. Forrest Hamilton is improving we are pleased to say. He spent the evening at Mr. C. C. Corbett's last Sunday.

Mr. J. P. Jones, of Arlington, is in our neighborhood on business this week.

School will begin at Hubbard Creek school house on the 26th of this month. Miss Fannie Stevens of Moran, is the teacher.

Mr. Lee Snyder was awarded about 150 head of cattle last Tuesday.

When you want a good meal go to the St. James.

Callahan county needs better roads. In wet weather many places in some of our best roads become almost impassable, and in dry weather the sand beds make traveling difficult in some parts of the county. If we could maintain these mud holes and sand beds, and grade the other parts of the roads so as to drain off the water from the roads and prevent bog holes from forming in the road travel on the roads would become a pleasure in place of a nuisance as is the case now. Callahan county has many miles of fine natural road bed that need little if any work but the bog holes in the black land in dry weather and the sand beds in dry weather that are numerous in different parts of the county makes hauling any commodity a dangerous and serious question. Spooner or later Callahan county will have to tackle the road question in earnest and the sooner the better. The county is already spending a considerable amount on roads, but the amount for this purpose is just enough to make temporary repairs in most instances have to be repeated every year. In this way a large amount of money is wasted. If we had twice or even three times as much money put on roads as now spent, more improvements of a permanent character could be made in a few years, the bog holes and our sand beds would be eliminated in the public roads and it would not cost any more than to keep the roads in repair than now, but it will require lots of money to first make good roads. Older counties in the black land belt and in the sandy lands of east Texas have been forced to make something better than the common old time wagon road. They are grading and macadamizing their roads, and they find that it pays. Good roads increases the value of all farms in their vicinity and increases the value of the property as well because of the money that is saved.

Mrs. Arnold has returned from El Paso.

Capt. and Mrs. W. Jones came in from the ranch Wednesday.

Mr. and Mrs. Tom Windham, of Tucumseh, came in Wednesday to do some trading.

The play "Down by the Sea" at the College last Friday night was attended by a large crowd.

Miss Lola Brock, of Clyde, was the guest of Miss Myrnie Estes the latter part of last week.

Capt. W. C. Powell and Harry Meyer has the command of the entire Baird Volunteer Fire department for a donation of \$5.00 each toward paying for the new hook and ladder truck which the boys have ordered. Several donations like these would enable the department to pay the freight direct on the arrival of the truck without having to borrow.

R. G. Anderson from Abilene was in the city Wednesday in the interest of the Sunset Oil Co., of Abilene, Texas. This is a home company, owned and operated by home people, and its prosperity is near one of the last great gushers to come, and will probably be a good investment. See ad in this issue.

There are several cases of pneumonia reported among the children in town. Two of Mose Franklin's children recently recovered from an attack of this disease. Dr. Fraser's youngest child was dangerously ill for several days; also two of W. F. Wilson's children and Charles Boswell's little girl. At last accounts all them were believed to be out of danger.

MEDICAL EXAMINERS.

The Board of Medical Examiners for the 42d Judicial District will meet at Cisco on May 31, 1901.

Bob Warren and Joe Estes were held up one night last week near the railroad and relieved of all their valuables. The highwayman did not get a great amount of booty, but he got all the boys had and George Gould could not lose any more. An arrest has been made. Robbery, where two arms is used is now a capital offense in this state, so it can be seen that it is rather a ticklish business to follow the occupation of Bandit and Dick Turpin in Texas.
