U.S.-Iranian crisis deepens worldwide

U.S. returning personnel from embassies in 10 nations

WASHINGTON (AP) — Dependents and "non-essential personnel" at 10 American embassies in the turbulent Islamic world are being given a chance to come home at government expense.

The State Department says the "voluntary drawdown" is not an evacuation, is only temporary, and that the embassies in all 10 countries will remain open.

The department also is advising private American citizens living in the affected countries of its decision, but will not pay for their tickets.

There was no estimate of how many people would return to the United States or how long they would stay.

The State Department refused to name the 10 countries, but officials said privately that Iraq, Syria, Lebanon and North Yemen were involved and that Turkey, Jordan and Egypt were not. In addition to those 10 countries, dependents and non-essential personnel have already been withdrawn from Afghanistan, Pakistan and Iran.

An official defined "non-essential personnel" as people "whose jobs we can do without for a little while in light of events." Dependents include the families of all embassy employees.

The move was prompted by unrest in the region since the Nov. 4 takeover of the U.S. Embassy in Tehran by Iranians who want the United States to return the deposed shah for trial.

The administration ruled out, meanwhile, any negotiations with Iran unless it was assured the talks would result in the immediate release of the 49 American hostages at the embassy.

"Any discussion has to be predicated on the release of the hostages," State Department spokesman Hodding Carter said Monday.

Carter also conceded there was no way the United States could prevent Iran from raising its grievances if the two sides met during a U.N. Security Council session.

Iran's principal complaint is that the United States has admitted the deposed shah. The administration defends as humanitarian its decision to allow him entry for cancer treatment in New York.

Relatives of some of the hostages met again Monday with David Newsom, undersecretary of state for political affairs, and, briefly, with Cyrus R. Vance, the secretary.

Carter described the meeting as "part of our continuing close communication with the families about the situation of the hostages and what is being done to gain their release.

Meanwhile, Agriculture Secretary Bob Bergland said Iran has virtually quit buying U.S. grain and is having difficulty finding food elsewhere because of its snarled financial situation.

Bergland said Iran's financial status has ebbed sharply as a result of the United States freezing Iranian assets in this country and announcements in Tehran that Iran will not pay its foreign debts.

"My guess is that until the whole matter is straightened out ... the Iranians are going to have an increasingly difficult time getting grain from anybody because of the matter of paying for it," he said.

Meanwhile, other Agriculture Department officials said they are uncertain whether Iran's old debts for food it got years ago under the U.S. Food for Peace program will be honored.

U.N. debate to get started despite Khomeini's rejection

UNITED NATIONS (AP) - Diplomats readied for a U.N. Security Council debate this afternoon on the U.S.-Iranian crisis, but Ayatollah Ruhollah Khomeini rejected any Council decision beforehand as "dictated" by the **United States**

Secretary-General Kurt Waldheim had raised the possibility the Iranians might free their 49 American hostages in exchange for an international inquiry into their charges against the shah.

But Khomeini, in a statement broadcast today by state-run Iranian radio, said an investigation of the shah must be conducted inside Iran. He also said the hostages at the U.S. Embassy in Tehran must be investigated as "spies," but he did not make clear whether he had decided to go ahead with such a

The Iranian leader again denounced what he said was U.S. pressure to have the Council deal only with the hostage holding, and not with Shah Mohammad Reza Pahlavi's alleged wrongdoings.

The students holding the Tehran embassy said today they had rigged mines throughout the compound, apparently fearful of a U.S. military attack. The Iranian armed forces stepped in air, ground and sea activities.

In Washington, President Carter discussed the crisis at a breakfast meeting with members of Congress, and afterward Sen. Bennett Johnston, D-La., said there are things Carter will not do - such as return the shah to Iran - to free the hostages.

"The president made it clear that the honor (of the United States) comes before the lives of the hostages," Johnston told reporters. Rep. John Brademas, D-Ind., said all the participants at the meeting

believed that a "restrained position" is still necessary, and there was "some apprehension" that holding congressional hearings into the regime of the ousted shah would "play into the hands of the Ayatollah Khomeini.

Rep. George Hansen, R-Idaho, on a self-appointed mediation mission in Tehran, has proposed such hearings. In an interview today with ABC-TV, Hansen suggested that Henry A. Kissinger and Chase Manhattan Bank head David Rockefeller be substituted for the embassy hostages.

Kissinger and Rockefeller reportedly helped arrange for the shah's entry into the United States, where he is undergoing cancer treatment at a New York

The United States wants the Security Council to adopt a resolution calling for release of the hostages. But Waldheim told ABC's Barbara Walters he had the impression Iran and the United States also would agree to an international inquiry into the Khomeini regime's allegations against the shah in exchange for the release of the hostages.

Khomeini and his supporters charge that the deposed monarch was responsible for the death of 60,000 Iranian opposed to him during his 37-year reign and that he and his family looted the country of billions.

The Venezuelan government said Iran's acting foreign minister, Abolhassan Bani Sadr, and Iranian Oil Minister Ali Akhbar Moinfar told Venezuela's energy minister, Humberto Canderon Berti, in a meeting in Tehran Monday the crisis could be resolved by trying the shah before an "international jury" made up of one representative each from a Western country, a non-aligned nation and Iran, and eventually a member of the International Court of Justice.

Senator says Carter will retaliate against Iran

WASHINGTON (AP) — President Carter will take some sort of retaliatory action against Iran once the American hostages are released from the U.S. embassy in Tehran, a U.S. senator said today.

"All of us feel he will do something else," Sen. Bennett Johnston, D-La., said after a breakfast meeting with the president. "There are a whole range of options - not necessarily involving military action."

Johnston also said Carter considers the honor of the United States more important than the hostages and is not prepared to "do anything" to secure their release.

"The president made it clear that the honor comes before the lives of the hostages," Johnston told reporters.

He said that Carter does not believe "the slate is wiped clean" by simply releasing the hostages.

He quoted Carter as saying his first concern is the honor of the nation. Johnston said the president meant that there were certain things he would not do to secure the release of the hostages, such as extradite the shah. "There are conditions this country will not pay."

Lucius Bunton confirmed as district court judge

By BILL MODISETT Staff Writer

Lucius Bunton, a 54-year-old Odessa attorney, was confirmed by the U.S. Senate Monday as judge of Midland's U.S. District Court.

With that confirmation, Bunton became the first "resident" judge of Midland's federal court. In the past, judges from El Paso or San Antonio have been assigned to handle the Midland district. There has never been a federal judge based in Midland serving this district.

Bunton had been nominated for the judgeship by Sen. Bentsen.

The swearing-in ceremony for Bunton has been scheduled for 2 p.m. Dec. 7 in the District Courtroom on the third floor of the U.S. District Court building here.

Bunton assumes the position left vacant when former U.S. District Judge John H. Wood Jr. was assassinated in May outside his San Antonio apartment.

A native of Del Rio, Bunton has been engaged in private law practice in Odessa for 20 years. He also served as district attorney of the 83rd Judicial District in Marfa for six years.

Bunton on Monday declined to put a label on himself as a judge, saying, "As a judge, you should never have labels like conservative, liberal or moderate. A judge has to decide each and every case - either criminal or civil - on the law applicable to that case.'

A Democrat, Bunton was graduated from high school in Marfa in May 1942. He served in the U.S. Army for three years. Bunton and his wife, Mary Jane, have two children and reside at 1513 Ridgecrest in Odessa.

Iranian naval officials and press inspect one of the Iranian fleet's Italian-built destroyers Monday as the Western press were invited aboard Iranian warships for the first time. The officials said all Iranian forces are in a state of readiness to meet any attempt by the U.S. to resuce hostages being held in the U.S. Embassy in Tehran. (AP Laserphoto)

But Khomeini's statements today seemed to rule out such a plan.

'Any council or court under the direct influence of the United States, and which has its verdict dictated and which welcomes the conviction of our oppressed nation, is unacceptable to our people," Khomeini declared. He said any "investigation into the case of the deposed shah and the spies

(the embassy hostages) must be carried out only in Iran, because the evidence of their crimes exists in Iran and cannot be transferred abroad."

Upton County landowners file suit

They want out of water district

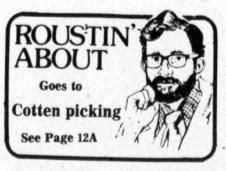

By ED TODD Staff Writer

RANKIN - More than 200 farmers, ranchers and other landowners objecting to inclusion in the Upton County Water District filed suit in 112th State District Court here Monday in an effort to get out of the district. They contend the district was created by an unconstitutional and illegal bill in the Texas Legislature.

Earlier, the landowners, represented as a group in the Upton County Landowners Association, had petitioned the five-member water district for removal from the taxing district. That request was denied.

The protesting landowners, mostly rural residents, contend that they would derive no benefit from the district, which would tax them in order to ensure potable water for the Upton County towns of Rankin (population 1,100) and McCamey (population 2,-600). About 900 folks live in the rural areas of Upton County.

"It's really a shame we have to go

to court to get our elected officials to listen to us," lamented Midkiff farmer Linda Dusek, president of the landowners association that filed the suit.

The plaintiffs' petition is to be ruled on by District Judge Troy Williams of Ozona

The petition asks the court:

-To declare House Bill 2180 of the

65th Texas Legislature "invalid and unconstitutional" for failing to "specify" purposes of the district. -To declare the bill invalid and unconstitutional if its sole purpose is "to supply water to only those residents of...the towns of Rankin and McCamey.'

the plaintiffs contend that levying blanket taxes in the 1,312-square-mile county to benefit townspeople would "deprive the plaintiffs of their equal

Four top Texas officials declare support of Carter

port.

AUSTIN (AP) — Four top sta-tewide officials today declared their support for President Carter and said they expect thousands of Texans to . attend a Dec. 8 fundraising rally for the president.

Lt. Gov. Bill Hobby, Land Commissioner Bob Armstrong, State Treasurer Warren G. Harding and House Speaker Bill Clayton held a joint news conference to announce their support for the president's re-election.

Allison cancer center verdict expected here by Dec. 13

Midland Memorial Hospital officials should hear the result of their eight-hour presentation on the proposed Allison Permian Basin Cancer Therapy Center by Dec. 13.

Eight Midland hospital officials made the presentation Monday to a hearing officer of the Texas Health Facilities Commission.

The hearing officer, John Darrouzet, said he would make his recommendation on the \$3.3 million proposal about three days before the Dec. 13 open hearing of the THFC where a final ruling is expected.

Plans call for the Allison Center to be built next to Midland Memorial Hospital - to be a Class II cancer treatment facility, with several sophisticated treatment capabilities.

The proposal was given a favorable recommendation by the local Health Systems Agency, and all opposition to the plan was withdrawn before it was sent to Austin.

"We take into account what the local HSA says," Darrouzet noted. "But we review each case on an individual basis."

rights and protection under both the Texas and Federal constitutions.' -To enjoin the water district from

further planning effort.

-To remove their land from the taxing district.

The petition claims that to retain the plaintiffs' land within the taxing district would be "arbitary and unnecessary to conserve the public welfare" and would "impair or destroy the value of the property sought to be excluded" from the district.

The petition was drawn up by Paul Phy, a Dallas attorney specializing in water law, and Roy B. Johnson, a Fort Worth trial lawyer.

Dallas attorney Pete Tart and Upton County Judge John Menefee of McCamey represent the water district.

President of the water board is Dale

mally announces his candidacy.

Kluthe of McCamey. Others on the board are Billy Rankin, E.F. "Bud"

Cummings and Bud Poage, all of Rankin, and Dwayne Duncan of McCamey. Officers of the landowners association are Linda Dusek, president, Mid-

kiff farmer; Frank Evridge of Benedum, vice president, Benedum farm-er; Mike Ratliff of Rankin, farmer and rancher; Belva Pyeatt, secretary-treasurer, Midkiff farmer and rancher; Joyce Robinson Smith, member, Midland rancher and farmer; Odis Holiman, Midkiff rancher, and Uvonne Morgan, Rankin farmer.

The water district maintains that underground water supplying Rankin and McCamey is approaching nondrinkable quality, and additional underground water sources must be developed.

THE MIDLAND REPORTER-TELEGRAM, TUES., NOV. 27, 1979

Carter signs fuel bill legislation

WASHINGTON (AP) - President Carter today signed legislation providing \$1.35 billion to help several million poor Americans pay their fuel bills this winter.

The program offers widely differing benefits from state to state. More than half the money will be distributed by state governors under plans yet to be approved.

We will expedite the distribution of these funds," Carter said as he signed the measure at the White House. Some checks will go out in early January, officials said.

Connecticut Gov. Ella Grasso, whom Carter invited to speak at the ceremony, praised the new program by saying it "turns a season of concern into a winter of new hope.

The new program, called the "Low **Income Energy Assistance Pro**gram," will generally give more money to states that have colder winters.

The highest benefits, \$250 per person, would go to recipients of Supplemental Security Income payments the aged, blind and disabled - in New Hampshire, Iowa, Wyoming, Utah, South Dakota, North Dakota, Montana, Minnesota, Idaho, Connecticut and Alaska. The lowest payment, \$34 per person, goes to SSI recipients in Hawaii.

When Carter announced details of his plan in September, he told a convention of retired people: "This financial help will be for everyone in our country who is most needy. I know you'll appreciate that.'

Among the states receiving aboveaverage aid will be frigid New Hampshire, where the president faces the first primary of the election year. Carter's original proposal would

have paid an average of \$100 per person or \$200 per family to an estimated 7 million people with income at or slightly above the poverty line. For a family of four, the ceiling for aid would have been \$9,000 a year.

But Congress gave governors wide discretion in how the money is to be doled out, making it difficult to predict who will be eligible or how much an "average" recipient will receive. Combined with \$250 million ap-

proved earlier, the measure provides

a package of \$1.6 billion to be distributed this winter by federal and state governments

About \$400 million is earmarked for most recipients of federal Supplemental Security Income, which goes to aged, blind and disabled people.

The federal government plans to mail checks directly to SSI recipients in early January. The checks will vary widely by region from \$34 to \$250 per person. There are 3.9 million SSI recipients, but those whose public housing rent is paid by Medicaid will not be eligible for the aid on the assumption that their fuel costs are covered already.

States will get a total of about \$800 million to to set up their own programs. Governors will have wide discretion in how they use the money. But if they fail to set up a program, the federal government will mail checks directly to welfare recipients. Governors may choose to make a uniform payment to welfare or food

stamp recipients, to use their allotment for emergency cases only, or to devise plans that give poor people a line of credit with their fuel supplier.

It could be two months or more before state programs get money into the hands of those who are eligible. States have up to 30 days to submit their plan for approval; the federal government may take 15 days to consider it; and 10 more days are allowed for final revisions. After that, state governments will need more time to print and mail checks.

The bill also includes \$150 million for state-run "energy crisis assistance" programs, bringing to \$400 million the total approved so far this year for such programs.

The crisis assistance money goes to states for grants in emergency cases, including people who would otherwise be without heat because they can't pay for fuel.

The aid package is part of a larger measure appropriating \$12.5 billion for the Department of Interior, the Forest Service and miscellaneous other programs.

Included is \$2.2 billion to aid development of synthetic fuels programs

under existing laws and \$171 million for oil and gas exploration on federal lands

The measure also sets up the framework for a \$19 billion "trust fund" for synthetic fuel development, but this fund requires congressional approval of authorizing legislation and additional appropriations before it becomes fully effective.

Agronomist Dr. Kenneth Lindsey, left, and horticulturist Dr. Michael Kilby judge entries Monday in the third annual Midland County Pecan Show at Dellwood Mall. Winning entries were to be exhibited today in the mall, and visitors were welcome to sample the shelled fruit of Midland County pecan growers. (Staff Photo by **Brian Hendershot**)

At least four persons killed

ELIZABETHTOWN, N.Y. (AP) -At least three cars were swept into a swollen Adirondack Mountain stream when a road collapsed during a driving rainstorm. Authorities said today they had recovered four bodies and some persons still were missing.

One of the bodies pulled from a tributary of the Bouquet River, about 20 miles east of Lake Placid, was tentatively identified as Kevin Doyle, a local teen-ager.

Among the missing following the Monday night accident was Dr. Thomas Tannenberger of Westport, a member of the U.S. bobsled team-that competed at the world championships in St. Moritz in 1977.

State police said two other U.S. bobsledders also were injured, but escaped the raging waters.

The branch of the Bouquet, known locally as Elizabethtown Creek, washed out about 200 feet of Route 9N about two miles west of this Essex County village about 7 p.m., authorities said. Witnesses said the roadway rollapsed and went crashing into the West Texas: Fair and cold Thursday through Satur-day. Highs 40s north to 50s south. Lows teens extreme north to 30s south.

Thursday Through Saturday

North Texas: Mostly fair. Continued cooling trend Thursday. A little warmer Friday through Saturday. Highest temperatures Thursday in the mld and upper 46s...warming to the low and mld 30s on Saturday. Lowest temperatures Thursday in the upper teens northwest and near 30 southeast... warming Saturday to range from the mld 20s northwest to the mld 30s southeast

as flood waters collapse road

stream about 25 feet below the road. "We've got people still missing."

said Trooper T.J. McDougall. Police were called by a passerby who observed one car plunge into the river.

Trooper Robert Pooler said it was not until several hours later that authorities realized at least two other vehicles were also in the water, their drivers and possible passengers unaccounted for.

Troopers said Tannenberger was on his way to Lake Placid, site of the 1980 Winter Olympics, with fellow sledders Tim Marvin, 30, and Peter Frisbee, 32, both of Elizabethtown.

Marvin and Frisbee both escaped from the river and were treated at local hospitals for bruises and other minor injuries.

Pooler said it was believed that Doyle and Westport teenager, Steven Daniels, were passengers in a car driven by a local automobile dealer, Lewis Huttig. Huttig, described as in his 50s, and Daniels were still missing this morning.

Cold front expected to push Basin temperatures to mid-20s tonight

It's time to check the antifreeze and the thermostats because cold is the watchword for Wednesday's forecast

The cold front that breezed through Midland about 8 a.m. today is expected to push temperatures into the mid-20s tonight, according to the National Weather Service office at Midland **Regional Airport.**

High Wednesday is expected to be only in the mid-50s.

Today's gusty winds should die down to 10-15 mph by tonight, the weatherman said.

Monday's high, for contrast, was a

near-record 81 degrees. Record high for the date was set at 83 degrees in 1961. The overnight low was measured at 44 degrees, not even approaching the record low for the date of 16 degrees set in 1938.

While the temperatures should be nippy Wednesday, the skies are expected to be sunny, so the monthly rainfall accumulation will remain at a mere trace and the annual total at 13.25 inches.

The front had spread its icy fingers all over the Permian Basin this morning, with most area town reporting clear, cold weather early today.

Mary Mendoza Hernandez Mary Hernandez

Mary Mendoza Hernandez, 28, 4606 W. Illinois Ave., died Sunday in an Odessa hospital.

Services were to be at 8 p.m. today in Thomas Funeral Home chapel. Services will be at 10 a.m. Wednesday in Emmanuel Baptist Church. Burial will be in Fairview Cemetery.

She was born Sept. 15, 1951, in Big Spring. She was a graduate of Midland High School and Midland College. She was a member of Emmanuel Baptist Church.

Survivors include her parents, Mr. and Mrs. Frank H. Mendoza of Midland; six brothers, Albert Mendoza and Robert Mendoza, both of Midland, Frank H. Mendoza Jr. of El Paso, David Mendoza of Los Angeles, Calif., Raymond Mendoza of West-Virginia and Richard Mendoza of Odessa; and four sisters, Elvira Hammond of Owego, N.Y., Luisa Navaretta of Bell Garden, Calif., Benegna Ramos of Midland and Christina Heredia of Odessa.

R.E. Howell

Services for R.E. "Dixie" Howell, 71, 3514 Thomas St., were to be at 2 p.m. today in the First Presbyterian Church with Dr. Robert Boynton Smith, pastor, officiating. Burial was to be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home. The Shrine Patrol was to conduct Masonic services.

Howell died Sunday at his residence.

He was born July 15, 1908, in El Paso and was reared there. He went to work in Tulsa, Okla., for John Mabee Oil Co. He worked there 14 years, then moved to Midland in 1948 where he worked with Ralph Lowe Oil Co., now known as Maralo, Inc.

Howell was a member of the First Presbyterian Church, Midland Masonic Lodge No. 623, El Paso Scottish Rite Bodies, Suez Temple of San Angelo AAONMS, Midland Scottish Rite Association, Midland Shrine Club AAONMS, the Suez Foot Patrol and past president and current historian of the Midland Shrine Club.

Survivors include his wife, Jewell; a stepson, John Culver of Midland; a stepdaughter, Nell Parks of Odessa; a brother, Lewis Howell of Visalia, Calif.; a half-sister, Dixie Matthies of Redondo Beach, Calif.; and three grandchildren.

Manilla Hunter

Manilla Hunter, 80, of Midland died Sunday in a Midland nursing home. Graveside rites were to be at 4 p.m. today in Resthaven Memorial Park

inere, ner nusband was a U.S. Border Patrolman until 1953, when the couple returned to Midland. Hunter was a deputy sheriff under Sheriff Ed Darnell. Her husband died on April 9, 1975.

Mrs. Hunter was a member of the First Christian Church.

FAA critics claim computer radar 'chaotic'

By DAVID ESPO

WASHINGTON (AP) - For two days earlier this month, flight controllers at the Federal Aviation Administration's traffic control center in New York were without their computerized radar system.

At the FAA center in Cleveland, the computer failed for at least one minute on 143 occasions between May and October.

In Atlanta, there were 46 similar failures during the week of Aug. 26. In Indianapolis, there were 24 failures in August, 27 in September and 68 in

In all such cases, critics of the FAA told Congress Monday, the chances of a disastrous mid-air collision increased as controllers turned to older, non-computerized backup radar systems.

"To date, our controllers have salvaged these tenuous situations," said John Leyden of the Professional Air Traffic Controllers Organization. "However, we must recognize that in such a chaotic environment, the probability of error is greatly increased," he told the House Ways and Means subcommittee on oversight.

While not denying outage statistics cited by critics, Deputy FAA Administrator Quentin S.C. Taylor told the subcommittee this country's air traffic control system is the best in the world, and noted that many computer failures last less than 60 seconds.

'Recently there have been blanket charges made that system interruptions cause a hazard to aviation safety. It is the exception when such interruptions cause any significant threat to safety," he said.

"While it is understandable that interruptions might raise concern about safety, the reality is that the system, itself, as well as air traific procedures, is designed to accommodate interruptions without creating safety problems."

The FAA maintains 20 Route Air Traffic Control Centers to keep track of aircraft flying between airports in the continental United States.

Leyden and other critics told the subcommittee the computers that run the radar systems are outdated, poorly maintained and prone to frequent breakdown.

With respect to maintenance, a spokesman for experts who repair the system said, "Required procedures once necessary three times a day are now relaxed to once a day, those previously required daily are now required on an average of twice a week, those required weekly are now monthly, and so on.

Moreover, said Howard E. Johannssen, the replacement system the FAA hopes to install in the mid-1980s will be technologically obsolete before it goes into operation.

Rep. Sam Gibbons, D-Fla., the subcommittee chairman, charged the FAA was guilty of negligence for not moving more rapidly to upgrade the system.

"To have the resources available, the monetary resources, yet not call on them, amounts to culpable negligence," he said.

Gibbons said the federal Airport and Airways Trust Fund has a surplus of more than \$3 billion, yet the Carter administration refuses to seek appropriations large enough to upgrade the air traffic control system. As with any federal expenditures, the appropriation of money from the trust fund must be approved by Congress.

Officials can't predict duration of tanker fire

GALVESTON, Texas (AP) - Coast Guard officials say fire aboard the burning tanker Burmah Agate is steadily diminishing but there is no way to predict how much longer the crippled ship will burn.

Until the fire is out, pollution fighters are unable to surround the 772-foot vessel with booms to contain the oil that has been seeping out of the ship since Nov. 1 Capt. Robert Ingraham, head of the

The Burmah Agate and another Liberian freighter, Mimosa, collided shortly before dawn near the entrance to the Galveston Ship Channel. The bodies of 17 crewmen have been recovered and another 15 still are missing.

The Burmah Agate has experienced extreme heat since the collision but Ingraham said naval architects believe it still has a lot of strength even though it has buckled at the point of impact, about mid-ship.

THE MIDLAND REPORTER-TELEGRAM, TUES., NOV. 27, 1979

Despite threat, administration felt U.S. must admit shah

By GEORGE GEDDA

WASHINGTON (AP) — The Carter administration felt it had no alternative but to admit Mohammed Reza Pahlavi to the United States last month for medical treatment once it became convinced he was seriously ill.

Previously, the administration had gone to some lengths to discourage the deposed Shah of Iran from taking up exile in the United States because of fear that admitting him might cause trouble for Americans in Iran.

Barely a week after his admission to the United States became known, militants in Iran stormed the U.S. Embassy in Tehran and took 62 Americans hostage. Forty-nine of them remain captive.

The decision to grant Pahlavi a visa for medical treatment was approved by President Carter on the recommendation of Secretary of State Cyrus R. Vance.

The administration acted after receiving assurances from then-Prime Minister Mehdi Bazargan and then-Foreign Minister Ibrahim Yazdi that Iranian security forces would protect American diplomats in the event of protests.

Pahlavi, accompanied by his family, his aides and two dogs, flew from his Mexican exile to New York on the night of Oct. 22. He checked into three-room, \$300-a-day suite at New York Hospital-Cornell Medical Center.

The administration has stated repeatedly since then that Pahlavi would leave the United States once his medical treatment is concluded

U.S. officials, who asked not to be identified, said there was no agonizing debate within the administration over whether Pahlavi should be granted a visa. One official said reasons of compassion overrode all other considerations.

The day after Pahlavi arrived in New York, the Bazargan government offered additional explicit assurances to the administration that American diplomats would be protected, one official said.

Inevitably, some have argued that the crisis could have been avoided if the administration had had the foresight not to admit Pahlavi in the first place.

reviewed Kean's analysis and decided that Pahlavi's

What the administration did not count on was the weakness of the Bazargan government.

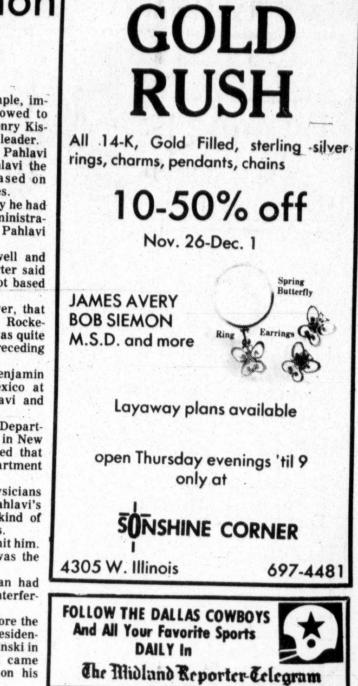

repeatedly threatened to resign because of interference from the Moslem clergy.

His position was further weakened just before the seizure of the hostages when he met with presidential national security adviser Zbigniew Brzezinski in Algiers. Following that meeting, Bazargan came under increasing pressure to make good on his threat to resign.

Former diplomat George Ball, for example, implied Sunday that the administration bowed to pressure by Pahlavi's long-time friend, Henry Kissinger, in its decision to admit the deposed leader. Kissinger made clear in the months after Pahlavi was ousted that he favored allowing Pahlavi the right to settle in the United States based on his 37 years of support for American policies. But Kissinger, disputing Ball, said Monday he had not discussed Pahlavi's status with any administration officials for a full three months before Pahlavi finally was granted a visa. White House press secretary Jody Powell and State Department spokesman Hodding Carter said Monday the administration decision was not based on pressure from any outside source. Kissinger has told acquaintances, however, that Chase Manhattan Bank chairman David Rockefeller, another personal friend of Pahlavi, was quite active in Pahlavi's behalf during the week preceding the administration decision. According to confidential sources, Dr. Benjamin Kean of New York Hospital went to Mexico at Rockefeller's suggestion to examine Pahlavi and determined he was suffering from cancer. Kean reported his findings to the State Department and recommended Pahlavi be treated in New York, according to the sources. They added that Rockefeller was furious when some department officials questioned Kean's advice. White House officials said government physicians

Answer Line

By Franchelle Moore

As concerned parents of our community, we would like to have a meeting with the board of directors of the Park Center Y and board of directors of the Central Y to inform them of the discrimination being practiced in our children's sports activities in the Park Center area.

Can you furnish us with a list of the directors of both the Central and Park Center Y's? - C.M.

ANSWER: The directors of the Central YMCA are J. Durwood Owen, executive director; Joe M. Ellis Jr., associate general director and Central Branch executive; Pat W. Owens, associate Central executive and senior physical director, and David D. Graunke, Metro sports and Central community director.

Directors of the Park Center YMCA are Nick Sanchez, executive, and **James Sanders**

I would like to know when and where I can register to vote. We have just moved to Midland. - A.J.

ANSWER: You can register anytime, but you have to register 30 days prior to an election in which you plan to vote Changes of address must be report-

ed 30 days prior to the election. You may register at the Tax Asses-

sor's office in the Midland County Courthouse. The office is open from 8 a.m. to 5 p.m. Monday through Fridav

Janeice Builta is the voter registrar

If I want to check on the safety of a

particular product, how do I go about it? - F.S.

> ANSWER: Contact the Consumer Product Safety Commission, Washington, D.C., 20207

The commission has a toll-free number for the 48 contiguous states. It is 1-800 638-8326.

I would like a recipe for Petit Fours. Do you have one? - Mrs. R.

ANSWER: Here is one which appeared in a Midland Woman's Club 1960 publication, "International Tasting Tea Cookbook.'

Cream together one cup shortening, three cups sugar and six egg yolks. Sift together three cups cake flour, one-third teaspoon salt and one-third teaspoon soda.

Other ingredients: two teaspoons lemon flavoring and one cup buttermilk.

Add dry ingredients to creamed mixture, alternately wuth buttermilk. Add lemon flavoring. Beat egg whites stiffly and fold in mixture.

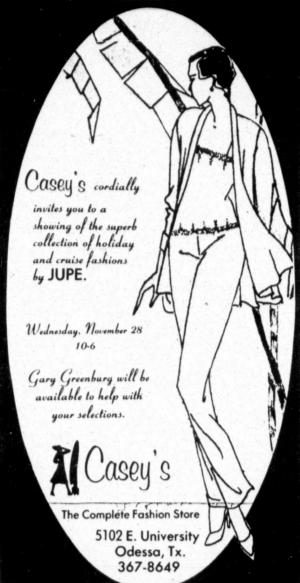

Bake in 9x13 pan and cut in small squares. Ice Petit Fours with favorite icing.

The favorite icing for the Petit Fours as given by the contributor of the recipe, Mrs. N. J. Rabensburg Jr.,

One and one-half cups sugar, onehalf cup butter, four whole eggs and juice of three lemons.

Beat eggs well and add sugar, butter and lemon juice.

Cook in double boiler until thick

Monterey tops MHS girls, 74-55

The Midland High girls basketball team ran into another Lubbock Monterey road block Monday, losing to the Plainsmen, 74-55, at the Chaparral Center.

Midland High is now 3-2 on the year, both losses coming to the Lubbock crew.

Monterey held a meager 33-31 lead at the half, but spurted to a 24-8 advantage in the third period to blow the game open. Midland High's Margaret Christian led all scorers, however, with 21 points and LaShell Schrock had 11. Four Monterey players were in double digits with Kay Ragus leading the way with 17 points.

In the junior varsity contest, Midland High avenged an earlier loss to Monterey with a 39-38 victory as Tanya Burton hit for nine and Denette Parker for eight points.

MHS will face Canyon at 5:15 p.m. Friday in the first round of the Amarillo tournament. Monterey is also in that tournament along with Midland Lee.

In a sophomore contest Monday, Midland Lee defeated Odessa Ector, 55-36, as Suzanne McGaha hit for 15 points and Laurel Belknap scored 11. Lee also won the junior varsity outing with a 56-43 win over Ector as Maudie Akins scored 12 and Lurdez Duran hit for 10. Both Lee units are now 2-0 on the year.

The Midland Junior Tennis Association will hold a tournament for both boys and girls, ages 15 and under, beginning at 9 a.m. Saturday at the Lee High courts.

All entries, however, must be turned in by Wednesday by calling Yvonne Garton (683-1529) or Celeste Faskin (682-1088).

The tournament is free and is made possible by the Midland Mixed Doubles Benefit, which is sponsored by the Midland National Bank.

McKay was asked what he said to his players when he went inside. "About what I said to the fella outside." ...

For the Miami Dolphins, 1979 has been a frustrating season of wasted opportunities. Despite an unsettled quarterback situation and battered offensive line, the Dolphins are determined not to let New England Patriots' latest bit of largesse slip away. The NFL teams play here Thursday night in a game that probably will decide the AFC East title. Both are 8-5.

Miami Coach Don Shula hasn't decided whether he'll start Don Strock, splendid in Sunday's victory at Baltimore before being sidelined by a blow to the head, or veteran Bob Griese, coming through as a reserve for the first time in his career. Griese, in a slump most of the season, said after the game he thinks Strock should get the Thursday.

winning team (except 7-6 Chicago, which had a losing record at the time) and have played their worst in their most important games - New England, Houston, Oakland and Cleveland. Their offense has sputtered and they've been beset by injuries. But the inconsistency of the Patriots, a team that probably makes the transi-

NFL report

tion from the sublime to ridiculous quicker than any NFL club, has kept the Dolphins alive. 🖌

"We've had a miserable season, but justice is about to prevail," veteran tackle Bob Kuechenberg said. "It's ironic we're in the position we're in with all the disappointments we've had, now it all boils down to Thursday night (when the Patriots play at the Orange Bowl). We haven't won a big game all year. We're due. I'm not being negative. I'm just stating facts.

We have to rise to the occasion, New England has let us back in the ballgame one time too many, we won't lose again.'

Theories abound for New England's latest upset loss. New England's 16-13 overtime loss to an old nemesis, Buffalo altered the Patriots from a playoff favorite in the AFC East to an apparent underdog, based on past performance. If New England had beaten Buffalo, the Patriots could have wrapped up their second straight division title. The Patriots finish the season in New York against the Jets and at home against Minnesota. Miami plays the Lions in Detroit and then the Jets in the Orange Bowl.

As for the blow applied by the surging Bills, Patriots Coach Ron Erhardt said: "We let it get away from us." Some critics now are saying the Patriots under Erhardt - like teams molded by former Coach Chuck Fairbanks - simply lack the spark needed to play well with consistency

Akers labels UT defensive effort best he's seen

SCRATCHPAD

Texas Coach Fred Akers, an assistant coach when the Longhorns compiled a 30-game winning streak, said Monday the Texas defense against Baylor was the best he has "ever been around," after the Steers held Baylor to 87 yards in total offense. Akers said the entire first-team defense and three subs - tackles Kenneth Sims and Steve Massey and end Tim Campbell - had outstanding games. Texas coaches selected tackle Bill Acker, who tied middle linebacker Doug Shankle for the most tackles with 11, as most vaulable defensive player. Johnny "Lam" Jones, who caught eight passes for 198 yards and Texas' only touchdown, was named the most valuable offensive player over freshman quarterback Rick McIvor, who passed for 270 yards, breaking a 30-year-old school record ...

Idaho State officials planned a morning news conference today amid reports that BYU assistant coach Dave Kragthorep was considering whether to become the new head football coach after the weekend resingation of Leo Hake, followning 16 straight losses and a 5-27 record at ISU

An NBC-TV report by sportscaster Bryant Gumble that Atlanta Falcons Coach Leeman Bennett "is reportedly on the way out," was labeled "completely untrue" by Eddie LeBaron, general manager of the NFL club... The College of William and Mary, deciding "it's time for a change," fired Jim Root as its head football coach Monday

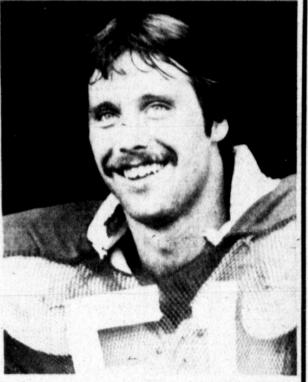

The San Diego Padres signed left-handed pitcher John Curtis, a 10-year veteran of the major league baseball and their third pick in the Nov. 2 re-entry draft to a five year contract for an estimated \$1.5 million. In his career Curtis, who was used both as a starter and a reliever, has a record of 67 victories and 72 losses with an earned-run average of 3.90...

Relief pitcher Skip Lockwood passed a physical exam, the Boston Red Sox said, and the free agent will officially sign with the American League team on today ...

Professional baseball may cut down on the number of locally televised games if Congress does not curb the sports broadcasting authority of cable television, Baseball Commissioner Bowie Kuhn said. Testifying before a House judiciary subcommittee considering copyright legislation, Kuhn said present federal law and regulations permit "uncontrolled importation of distant signal sports telecasts" by cable television systems. "The sports interests cannnot live with the effects" of this, he told the subcommittee on courts, civil liberties and the administration of justice. For baseball, at least, the only alternative may be to change its established telecasting practices by reducing the number of games available over local television stations, this is a result which we earnestly desire to avoid."...

Jim Ritcher was upset when North Carolina State football Coach Bo Rein moved him from defense to offense his first day of practice.

But the move paid off for the 6-foot-3, 243pound senior from Hinckley, Ohio. He was named Saturday as the winner of the Outland Trophy. "I didn't want to play center," he said after winning the award, given annually to the nation's best interior lineman. "I told the coach, 'I'm a defensive player. I don't know how to play offense.' ...

Undesired move pays off for Outland Trophy winner, Jim Richter.

Nevada-Reno, 8-3, has been selected to play in the 1979 NCAA Division I-AA football championship, joining Murray State, 9-1-1, and Lehigh, 9-2, in the championship play. The fourth team, which will play Reno at a site to be determined, will be selected Dec. 2. Semi-final play begins Dec. 8 ...

Angry McKay surveys carnage of kicking game With the anger and frustration of

Coach Chuck Noll said emotioncharged hometown fans probably gave Pittsburgh the critical edge in the Steelers' 33-30 overtime victory over Cleveland Sunday. "The crowd probably provided the game's turning point, it was a defensive cheer that did it. It was when they got very loud and came on strong. It was a big factor.'

Noll praised the performance of his offensive team and said quarterback Terry Bradshaw "did a good job of getting the ball to the right person." Bradshaw rolled up a career-high 364 yards passing as the team gained 606 yards. the most under Noll. The coach said Bahr "had an excellent day. Matt's kicking is the thing that made the difference." Besides the gamewinning field goal, Bahr booted a 21-yard field goal with 24 seconds left in regulation play to send the game into overtime. Noll said he remains opposed to overtime because of the stress on weary players who already play a full schedule ...

regret what I said. If you think I The Dolphins have yet to defeat a losing behind him, a subdued Coach wasn't teed off, you're wrong."

John McKay sat down for what he called a bitter experience - watching the game films. His Tampa Bay Buccaneers could have been the NFC Central champs, instead, the favored

go on Sunday, the NFC Central title is theirs. with a combined 23-15 Even if they don't defeat the Bears, though, they've got a better over-TAMPA BAY is the all schedule, a combined closest to a division title. 13-26 opposition to the

The Bucs could have won theirs on Sunday by de-In the NFC West, the feating Minnesota, but a Rams host Minnesota 23-22 loss prevented and visit Atlanta before them from doing so. If hosting the Saints for a they beat visiting Chica-17-22 opposition record while New Orleans, facing Oakland and San Diego before visiting Los Angeles, has a tough 24-15 opposition mark.

> By far the most scram-16 opponents.

Philadelphia, which bled situation is in the NFC East. Dallas, once hosts Detroit and Dallas considered the confer- and closes out the reguence's strongest Super lar season in Houston, Bowl candidate, is now has a 20-19 strength-ofthe outsider in its own schedule slate. Washington, one game behind division. The Cowboys, with the visiting New Philly, plays at home York Giants, a trip to against Green Bay and Philadelphia and a visit Cincinnati before visiting Dallas. The Redby the Redskins on tap, skins' foes are a composhave a schedule with 23ite 15-24.

THE CONTINENTAL SHORTCUT.

FOUR WAYS CONTINENTAL CUTS THE TIME TO NEW YORK.

The Proud Bird with the Golden Tail

CONTINENTAL AIRLINES

Continental has found the fastest way into New York. With service to Newark Airport. Newark's fifteen minutes less flying time than if you head into JFK. It's also in a different traffic pattern. You'll avoid those stackups that happen so often over JFK.

You save time on the ground, too. Newark serves about 15,000,000 fewer passengers a year than JFK. So you still have a good chance of getting your baggage in a reasonable amount of time, without the frustrating delays.

Because Newark is modern and well laid out, NEWARK AIRPORT people are able to come and < THE WINNY go without the 17 Sal huge jams you get at most International airports. You can get through the terminal without the shoving, crowding and delays that cut into your time.

You can get into Manhattan about 45 minutes faster from Newark than from JFK. That's according to the Official Airline Guide,

not us. So you spend far less time caught in time-consuming traffic. Finally, Continental saves wear and tear on your soul. We've grown up giving warm, friendly service. We take the extra steps that make flying something more than an airborne bus ride. Call your travel agent, company travel department, or Continental at 563-2100.

Stock market gains NEW YORK (AP) - The first re-

duction in the prime rate by a major bank since August sent the stock market soaring Monday in its best performance since the Federal Reserve severely tightened credit early last month.

The Dow Jones industrial average rocketed 16.98 points to 828.75, its biggest one-day gain since Sept. 20 and its best closing level since Oct. 18. At one point during the day the widely watched average showed a gain of more than 17 points.

There were six advances for every decline on the New York Stock Exchange, and the exchange's commonstock index tacked on 1.25 at 60.91. Volume on the Big Board was heavy at 47.94 million shares.

Blue-chip issues were among the day's biggest winners. Point-or-more gainers among the 30 Dow Jones industrial issues included IBM, up 21/2 to $64\frac{1}{2}$; Eastman Kodak, up $1\frac{7}{8}$ to $50\frac{1}{2}$; General Motors, up $1\frac{1}{4}$ to $52\frac{1}{2}$; Allied Chemical, up 1 to 48; Alcoa, up 1¾ to 51¾; American Can, up 1 to 35; Minnesota Mining & Manufacturing, up 1 to 50%; Merck, up 2½ to 73%; Procter & Gamble, up 1½ to 71%; Union Carbide, up 1 3/8 to 401/4; United Technologies, up 2 to 39; and Texaco, up 1 to 31.

The Standard & Poor's index of 400 industrial issues rose 2.33 to 119.65, while the S&P 500-stock composite index was up 2.13 to 106.80. On the American Stock Exchange, the market-value index went up 4.27 to 227.41. The NASDAQ over-thecounter index rose 2.10 to 141.95.

Texans help kill substitute

WASHINGTON (AP) - Both U.S. Sen Lloyd Bentsen, D-Tex., and U.S. Sen. John Tower, R-Tex. voted yes Monday when the Senate voted to table, or kill, an attempt to substitute the House-passed "windfall-profits" tax for the version recommended by he Senate Finance Committee. A "yes" vote generally would indi-

cate support for the lighter Finance Committee tax; a "no" vote would show support for the tougher House

Carter asking Congress for aid for Nicaragua

October oil prices rose more slowly

WASHINGTON (AP) — <u>Gasoline</u> and fuel oil price increases slowed substantially in October, but overall consumer prices still climbed 1percent over the previous month, the government reported today.

The advance in the cost of living last month was led by a sharp jump in housing costs, including higher mortgage interest rates, home prices and rents, according to the Labor Department.

Food prices, which had been level through the summer, rose 0.7 percent in October, just under the 0.9 percent increase of September.

The October increase marked the 10th consecutive month in which the Consumer Price Index has risen about 1 percent.

Patrick Jackman, a Labor Department economist, termed it "the same abysmal level we've had, more or less, since the start of the year."

He cautioned that although energy price increases have slowed down, "I wouldn't forecast that this would be the situation in the coming months. ... I don't think anyone expects stability in those prices in the next year or so.

In a related report, the department said retail gasoline prices averaged slightly more than \$1 per gallon in October. "This price reflected a small monthly change of only 0.8 cents compared to the August and September increases of 3.7 cents and 3.1 cents, respectively," the report said.

Fuel oil prices averaged 85.6 cents a gallon last month, up 0.8 cents from September, for the smallest monthly increase in fuel oil prices this year.

Inflation also is taking its toll on workers' income, the department said. Average weekly earnings, adjusted for inflation, declined 1.1 percent in October and were 5.2 percent lower than in October 1978.

Jackman said that if price increases continue in the next two months at the same rate they did the first 10 months this year, the nation will end the year with a 13.1 percent inflation rate, the worst since price controls were removed after World War II.

The Consumer Price Index in October stood at 225.4. This means goods and services that cost \$100 in 1967 sold for \$225.40 last month.

The October index was 12.2 percent higher than 12 months earlier. By contrast, the index stood at 211.5 in April. The index rose 1.1 percent in May, 1 percent in June and July, 1.1 percent in August and September and 1 percent in October.

The Labor Department gave these breakdowns:

-The cost of housing rose 1.5 percent in October, the ninth consecutive month of large increases. Mortgage costs were up 1.1 percent; home prices up 1.9 percent and rents up 1.3 percent.

-Medical care rose 1 percent, the largest increase since January.

-Clothing costs were up 0.2 percent, reflecting fall sale prices. -Grocery store prices rose 0.7 percent in October versus 1.1 percent in September. Prices for meats, including beef and pork, poultry, fish and eggs were up. The cost of restaurant meals rose 0.9 percent compared with 0.6 percent in the previous month.

The Carter administration had hoped to hold inflation below last year's 9 percent increase. But in July, it admitted prices would rise at least 10.6 percent this year.

In recent weeks, administration officials have been even more pessimistic. One presidential adviser, who asked not to be identified, said, "I hate to admit it, but 13 percent or more is more than likely.

A 13 percent inflation rate would be the nation's worst since prices rose 18.2 percent in 1946, when wartime controls were lifted.

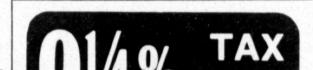

Oil prices have been — and continue to be — the biggest threat to U.S. efforts to lower inflation, the economists said.

The Organization of Petroleum Exporting Countries raised prices for crude oil 60 percent this year, and consumers have seen gasoline and home heating oil costs skyrocket. In addition, the prices of other goods have gone up because it costs more to transport them

OPEC members could raise prices again at their Dec. 17 meeting in Caracas, Venezuela. Reports indicate an increase of about 10 percent is being considered.

It is not yet known what impact President Carter's decision earlier this month to halt oil imports from Iran will have on prices. The action, taken to remove oil as an issue in bargaining for the release of 49 Americans held hostage in Tehran, could reduce U.S. oil imports by 700,000 barrels a day and drive prices higher.

WASHINGTON (AP) — President Carter's administration is reported to be asking Congress for \$75 million in aid to Nicaragua, plus money for Caribbean nations in response to Soviet troops in Cuba. The request, being spelled out to the

House Foreign Affairs Committee today, totals \$105 million but is so vague that Nicaragua is the only country specified so far, congressional sources said.

The sources, who asked not to be identified, said it includes up to \$95 million in new and old funds for Nicaragua and other Central American countries and \$5 million to \$10 million for the Caribbean islands.

The request for aid to Nicaragua is sure to be opposed by some members of Congress who contend the Sandinista rebels who took over Nicaragua's government are Marxists. But Deputy Secretary of State War-

ren Christopher has told Congress its rejection of aid for Nicaragua could encourage a takeover by Marxist, pro-Cuba members of the Sandinistas.

"Without adequate support for reconstruction, the Nicaraguan government might resort to authoritarian measures," Christopher told the House Appropriations Committee in September.

At that time, President Carter promised Nicaraguan officials U.S. assistance in reconstructing their country but did not set a figure, press secretary Jody Powell said.

"The president expressed the intent on the part of this administration to be helpful in reconstruction efforts and said that a friendly relationship can be built on common interests in defending human rights and pluralist democracy and social justice,' Powell said.

The aid for the Caribbean islands was among the steps Carter announced Oct. 2 in response to the Soviet brigade stationed in Cuba. The congressional sources said the

\$5 million to \$10 million requested for the Caribbean is for military credit sales and military training.

The aid was promised by Carter at the same time he announced creation of a U.S.-Caribbean military task force and steps to assure that no Soviet troops in Cuba could be used to attack the United States.

Clements reviews play

Oil-state senators go for more cuts

By JIM LUTHER

WASHINGTON (AP) - Oil-state senators, savoring a first-round victory over backers of President Carter's "windfall-profits" tax, want to trim an additional \$10 billion from the scaled-down version approved by the Senate Finance Committee.

> Sen. Lloyd Bentsen, D-Texas, urged the Senate to exclude from the tax the first 1,000 barrels of crude oil pumped each day by independent operators.

Offshore success reported

TULSA, Okla. - China has reported further exploration success onshore and offshore in its widening search for more petroleum reserves, Oil & Gas Journal reports in its Nov. 26 issue

Size of the new discoveries is still unknown. But location of the strikes outside of China's main northeastern oil producing region enhances their potential importance.

The latest oil strikes coincide with disclosure of more data on Chinese oil and gas production, the weekly business magazine reports. Much of the recent information has been gleaned from on-the-spot visits by western observers and by interviews with Peking officials.

What's most apparent is that China's petroleum exploration is in a state of dynamic growth that should continue through the 1980s, barring political turmoil.

China says it has found about 1,400 oil-bearing structures.

Even so, it seems unlikely that the vigorous exploration campaign currently underway can provide hefty production gans until the mid-1980s.

This year's economic plan calls for only a 1.9 percent increase in crude output over 1978, when flow was 2.1 million barrels a day, the Journal says. That contrasts sharply with the 11.1 percent jump registered last year and the eight to 15 percent hikes achieved during 1975-77.

Probably the most significant new Chinese exploration successes from the western standpoint have been in or bordering the South China Sea near and Hong

That would exempt about 15 percent of the nation's production and benefit all but the largest oil companies.

The Senate refused to kill the Bentsen amendment Monday in a preliminary 52-32 vote and scheduled a yesor-no vote on it today.

The Bentsen proposal would reduce the estimated take from the tax over the next 11 years from the \$138 billion expected under the Senate committee version to about \$128 billion.

On a 50-32 vote Monday, the Senate defeated an attempt by Sen. Dale Bumpers, D-Ark., to junk the Senate Finance Committee bill in favor of the \$277 billion version approved by the House and endorsed by President Carter.

Bumpers' substitute would have set aside \$138 billion of the tax revenue over the next decade for reducing Soccl curity taxes and for helping Americans pay rising energy costs The Finance Committee version designates more than \$60 billion for energy assistance and opens the way for a one-year Social Security tax freeze in 1981

Thirty-two of the Senate's 42 Republicans joined 18 Democrats - including 10 from big energy-producing states - to defeat the Bumpers proposal. Five Republicans and 27 Democrats opposed it.

Bumpers said the real question is whether the American people should have a bigger share of the estimated \$1 trillion that will flow to oil producers over the next decade as a result of Carter's decision to phase out price controls on U.S. crude oil. Decontrol will mean increased revenues for producers and higher prices for consumers.

Sen. Robert Dole, R-Kan., supporting the committee bill, cited estimates that ending price controls with no "windfall" tax at all would increase U.S. production by about 4 million barrels a day by the late 1990s. Passing the House bill would cut that increase to 2 million, Dole said, while the Finance Committee version would mean an increase of 3 million barrels daily

Bentsen said his plan to exempt the first 1,000 barrels of oil produced each day by an independent is necessary to give those operators the incentive. they need to increase exploration and drilling.

- Independents - producers who don't engage in retail sales and don't refine more than 50,000 barrels a day - drill 90 percent of U.S. oil and gas wells and make 54 percent of the discoveries.

Sen. Abraham A. Ribicoff, D-Conn., contesting the amendment, said it is time for the oil industry and its defenders to "stop trying to squeeze every last dollar of profit" out of Americans and to share in the bur

OPEC chairman says 1980 prices to climb only slightly

By R. GREGORY NOKES

KUWAIT (AP) - Heavy security precautions were evident as Treasury Secretary G. William Miller today made his third and final stop on a Middle East tour aimed at maintaining high oil production and heading off a major price increase.

Similar precautions were taken during Miller's earlier stops in Saudi Arabia and Abu Dhabi. Diplomatic sources said recent events in Iran and Saudi Arabia have led to a general increase in tension in Arab nations. Miller has met with some success

> . ENERGY OIL & GAS

on his mission despite those tensions, however. On Monday, Oil Minister Mana Saeed Oteiba of Abu Dhabi said his country will work for price restraint and keep production levels high.

Oteiba, who is outgoing chairman of the Organization of Petroleum Exporting Countries, predicted OPEC will raise prices for 1980 only slightly at its Dec. 17 meeting at Caracas, Venezuela.

And he predicted most other cartel

STERLING COUNTY Hanson Corp. wildcat, re-entry, No. 2 Alvie Cole, 1,978 feet from north and 660 feet from east lines of section 135, block 6, H&TC survey, 14 miles southeast of Sterling members would maintain high pro-duction levels. "I believe OPEC will be responsible in this situation," he said.

Miller told reporters before he left Abu Dhabi that Oteiba's statements show his country is continuing to make "a contribution to more orderly markets and pricing" of oil, and indicate the influence of OPEC hardliners on prices may be receding.

Oteiba said he assured Miller that Abu Dhabi will continue producing as much oil as it can - about 1.4 million barrels a day. But he said a reduction of about 80,000 barrels a day will be necessary because of problems in a major oil field.

Abu Dhabi provides about 4 percent of American oil imports.

Miller was not as successful in winning a commitment from Saudi Arabia to maintain its current high production level of 9.5 million barrels a day. Saudi officials said they had no immediate plans to reduce production, but had made no long-term decisions

The Saudis provide 24 percent of U.S. oil imports.

In Kuwait, Miller faces a slightly more difficult challenge. The Kuwaitis already are on record as favoring a cutback in production from their current level of 2.2 million barrels a day.

It is thought they want to trim output by about 200,000 barrels a day, but a diplomatic source said today the Kuwaitis have not committed themselves to a specific date for a reduction. That might allow them some leeway to grant Miller's request if they are convinced it is in their interest to do so, said the source, who asked not to be identified.

"They are listening type of folks," the source said. "They like dialogue, but they also are very independent in their decisions."

Miller said officials in both Saudi Arabia and Abu Dhabi are concerned that a steady increase in oil prices could bring on a worldwide recess-

Both nations have complained, however, that they are losing millions of dollars in potential revenue each day by keeping their prices below the official OPEC ceiling of \$23.50 a barrel. Other OPEC members - including Nigeria, Iraq, Libya, Algeria and Iran — have exceeded the ceiling.

Miller was to make a brief stop in London before returning to Washington on Thursday.

Discovery, explorers reported in WT areas

Wilson Brothers Leasing Co. of Midland has completed a Queen sand gas discovery in Pecos County, 12 miles west of Iraan.

The strike, No. 1-20 Wilson R' ch, was finaled for a calculated absolute open flow potential of 2,250,000 cubic feet of gas per day, natural.

Completion was from open hole at 1.598 feet, where 5.5-inch casing is set, and total depth of 1,621 feet.

The Yates was topped at 1,090 feet, the Seven Rivers at 1,218 feet and the Queen at 1,440 feet. Ground elevation is 2,705-1.

The well is 217 feet from south and 1,235 feet from west lines of section 20, block Z, TCRR survey and in the Willie B. (San Andres gas) area. It is 1/2 mile southeast of production in that field.

STERLING COUNTY

UPTON COUNTY

Combines with earlier strikes in Po Hai (Gulf of Chili) to the North, the latest discoveries confirm that China's coastal shelves have excellent petroleum potential.

China has provided few details on its Hainan area exploration, according to the Journal. One reason is the politically sensitive nature of Gulf of Tonkin sectors off Hainan's western and southwestern coasts, which also are claimed by Viet Nam.

Chinese Petroleum Minister Song Zhenming told an American Gas Association delegation that oil has been found south of Hainan Island in a well drilled to 2,000 meters (6,562 feet) in 70 meters (230 feet) of water. He also disclosed that wildcats on the Luichow Peninsula directly north of Hainan have vielded 500-600 barrels a day of oil.

Reports of Chinese oil discoveries in the Hainan area have been numerous but vague during recent years, the Journal says.

Sen. Henry Jackson, D.-Wash., said he had been told during a trip to China last August that light, low-sulfur crude was found near the island.

China has its own mobile drilling rigs operating in the Hainan area. A dozen U.S. firms are participating in geophysical surveys either off Hainan or northeast along China's South China Sea coast as far as the Formosa Strait.

A second area of South China Sea drilling activity is in the Zhujiang (Pearl) River Estuary near Hong Kong. Prospecting has been under way in the district since 1975, with rigs visible from Hong Kong, the Journal reports.

The official weekly Peking Review in late October reported that "a highyield Zhujiang Estuary well gushed light, low-sulfur oil from a depth of more than 2,000 meters."

The Zinhua news agency said that five other wildcats had been drilled in the Zhujiang Estuary basin during the past two years. Two of these holes found oil in unspecified quantities.

The Zhujiang basin on the South China Sea shelf off Guangdong (Kwangtung) Province has an area of 150,000 square kilometers (57,900 square miles), according to Peking Review. It said, "Successful drilling of the latest Zhujiang Estuary well indicates there are rich oil deposits in the South China Sea."

dens caused by soaring oil prices. "If you squeeze too hard," Ribicoff added, the fight will be carried into the 1980 elections, pitting "the Ameri-

can people against the oil industry. Sen. Daniel Patrick Moynihan, D-N.Y., said Bentsen's amendment would produce no more oil since it would apply to oil that has already been discovered. "People are making money on it already and they will make more tomorrow," he said.

But Bentsen said the exemption, by encouraging investors to take the risk necessary for increased exploration, would increase production by a total of 1 billion barrels in the 1980s. Domestic production now totals about 31 billion barrels a year.

"The choice is simple and the logic is compelling," Bentsen said. "The independent producer will either use his revenue to pay the windfall-profits tax or he will use it to search for oil and gas in America."

The tax, which has no direct relation to profits, would take away a portion of future price increases as prices go above current levels.

Basin areas get wildcats

Texaco Inc. announced plans to re-enter a well in the Block 5 (Devomian) field of Andrews County and plug back to 11,900 feet for tests as a wildcat.

The project, No. 1-AB State of Texas, is 1,980 feet from south and 660 feet from west lines of section 22, block 5, University Lands survey and 15 miles northeast of Andrews. The old total depth is 12,667 feet.

It is 3/8 mile southwest of depleted Ellenburger production and two and five-eighths miles southwest of dual Devonian and Mississipian production in the Magutex field.
