# 257 believed dead in crash

AUCKLAND, New Zealand (AP) - An Air New Zealand DC-10 carrying 257 persons, including 12 Americans, on a sightseeing flight to Antarctica crashed into a volcano on the edge of the icy continent today, authorities reported. All aboard were believed killed.

U.S. Navy search planes spotted the wreckage on the slopes of smoldering Mount Erebus, near the U.S. research station at McMurdo Sound, Antarctica, some 2,000 miles south of New Zealand.

"It looks as though it burned. No survivors have been sighted. They ... are expecting a complete fatality," said Petty Officer Mike Hatcher of the U.S. Navy Support Group Headquarters in Christchurch, New Zealand, The airline said the 237 passengers aboard the DC-10 included 46 foreigners

- 12 Americans, 24 Japanese, 7 Australians, 2 Britons and a Canadian. The rest were New Zealanders. They paid \$359 for what was supposed to be an 11-hour flight from Auckland to the coast of Antarctica and back The crews of Navy helicopters sent from McMurdo reported they were unable to land at the crash site because of violent updrafts of wind around the

12,400-foot volcano, the New Zealand Search and Rescue Center said. The Navy said the plane crashed about 2,500 feet up the slopes of the active volcano, which is in the center of Ross Island, where the McMurdo base also is situated. The island is just off the Antarctica coast, and the volcano is within

sight of the McMurdo base. 'The wreckage was on the back side of the mountain," Hatcher said. "It was spread over an area of about 200 yards."

The Air New Zealand sightseeing planes regularly fly close to the volcano on their non-stop round trips to Antarctica from Auckland.

The cause of the crash could not be determined immediately. The McDonnell Douglas DC-10 has been plagued by structural problems, including one that caused the crash of an American Airlines flight in Chicago last May that took

Air New Zealand said it understood the jetliner had/completed its sightseeing run and was on its way back north to New Zealand when radio contact with the

plane was lost at 2 p.m. (8 p.m. EST Tuevdu) was then still Antarctica, about 30 or 40 miles from McMurdo.

The loss of radio contact was blamed on sunspot activity and did not cause immediate concern. But at 8 p.m. the airline announced the plane was an hour overdue for a refueling stop at Christchurch, on New Zealand's South Island.

The airline announced at 10 p.m. (4 a.m. EST) that the plane was lost. It said its fuel would have been used up half an hour before.

The U.S. base at McMurdo Sound took charge of the search for the missing plane, as five aircraft: two C-130 Hercules, a C-141r anTcopters. The Navy said one of the planes sighted the wreckage at 1 a.m. Thursday (7 a.m.

There is almost perpetual daylight on Antarctica at this time of the year. The Starlifter had flown Sen. Harry F. Byrd Jr. of Virginia from Christ-

church to McMurdo Sound for a flight Thursday over the South Pole commemorating the first flight over the pole 50 years ago by his famous polar explorer uncle, Adm. Richard E. Byrd. Air New Zealand said it had never lost a passenger before.

The airline operates the antarctic sightseeing flights during the Southern Hemisphere's summer, and this was the fourth this season. The planes fly from New Zealand to McMurdo Sound, cruise at low level over that area, fly at relatively low level for 45 minutes north along the Victoria Land coast and then head out across the water for the return to New Zealand.

An official said the flights had been operating for three summers without any previous mishap.

Among the crew was a well-known New Zealand mountaineer, Peter Mulgrew, who gave the passengers a commentary on the antarctic sights. He was an associate of Sir Edmund Hillary, one of the first two men to climb to the top of Mount Everest.

# U.N. debate on Iran delayed

UNITED NATIONS (AP) - The Security Council delayed the start of its debate on the U.S.-Iranian crisis until Saturday night, waiting for the arrival of Iran's acting foreign minister from Tehran.

The 15-nation council launched its public consideration of the crisis with a 16-minute session Tuesday afternoon at which it heard brief speeches by Secretary-General Kurt Waldheim and Council President Sergio Palacios de Vizzio of Bolivia. Then it adjourned until 9 p.m. EST Satur-

Waldheim called on the United States and Iran "to avoid any action which could inflame" the situation further. Palacios de Vizzio urged Iran to release the 49 Americans held hostage in the U.S. Embassy in Tehran, renewing an appeal he made on behalf of the council on Nov. 9.

Iran's U.N. Mission said Acting Foreign Minister Abolhassan Bani Sadr would be in New York for the start of the debate Saturday night. But Ayatollah Ruhollah Khomeini, the leader of Iran's revolutionary regime, rejected in advance any council resolution "dictated" by the United

Khomeini in a statement broadcast Tuesday also appeared to reject the only proposal for council action that has surfaced so far, a package deal in which the Iranians would free the American hostages and end the occupation of the U.S. Embassy in exchange for creation by the council of

an international commission to investigate his charges that Shah Mohammad Reza Pahlavi was responsible for the death of "nearly 100,000 martyrs" and with his family and other associates plundered the Iranian

The ayatollah lumped together the charges against the shah and his charge that the American hostages

dent Carter scheduled a news conference tonight and told a group of Democrats at a meeting in Washington Tuesday: "I will protect the honor of our country and will not under any circumstances yield to blackmail."

Iran's chief U.N. representative. Jamal Shemirani, told the council debate on the crisis would not be "opportune and productive" until

The former shah could travel in a few days, and President Carter hopes to rally public opinion to convince Iran of America's solidarity. These and other related stories, Page 2A.

the spies must be carried out only in He added that the hostages must be put on trial within the "spy den," his term for the embassy.

Iran had sought to delay the council meeting until next week while the United States demanded an earlier public session to call again for the release of the hostages. The United States also wanted to speak at the meeting, but after the council president made his new appeal U.S. Ambassador Donald F. McHenry told a news conference: "We came out just where we wanted to."

State Department officials in Washington said the U.S. government was willing to wait through the end of this week for U.N. action and the time had not come for a showdown. But Presi-

were spies, saying any "investigation after the Shiite Moslem days of mourning Thursday and Friday for the founder of the sect, the Prophet Mohammed's grandson Hossein, who was assassinated in the seventh cen-

> Most Iranian Moslems are Shiites. and the holy days, known as Tasua and Ashura, are the occasion for fervent religious demonstrations in Iran. Last year hundreds of thousands marched through Tehran and other cities each day to protest the shah's

As the holy days approached, rumors swept Tehran that the United States was planning an attack to free the hostages and that American agents would incite the demonstrating crowds to break in to the embassy so that a rescue could be attempted during the confusion.

The militant students holding the embassy since Nov. 4 announced that they had mines planted throughout the compound and would explode them if any attempt was made to break in. The commanders of Khomeini's revolutionary guards and the regular armed forces said their men were "ready to defend Iran with the last drop of their blood.'

Meanwhile, a Canadian radiologist removed a gallstone from the bile duct of the shah at the New York hospital where he has been a patient since Oct. 22. His doctors said he would have to remain under observation for several days to determine if there were complications. The doctors indicated earlier that if there were none, he could go to Mexico. where he was living in exile until he came to New York.

A spokesman for the shah said he hoped to return to Mexico as soon as the doctors would let him go. He also suffers from lymph cancer and was given radiation treatment for a malignant neck tumor, but that was completed last week.

The Ayatollah Khomeini summoned leaders of ruling Revolutionary Council amid reports he was undecided whether to send Iran's acting foreign minister to the emergency United Nation Security Council session Saturday.

Khomeini, from his headquarters the holy city of Qom south of here, has rejected in advance any possible conclusion of the emergency session

# Part of Cuthbert may be one-way

By LANA CUNNINGHAM Staff Writer

Residents pleading for their safety along a busy thoroughfare apparently won their case Tuesday as the Midland City Council voted to go one-way on a section of West Cuthbert Avenue despite protests from nearby busin-

Approved on first reading during a regular session in City Hall Council Chambers was an ordinance making Cuthbert Avenue one-way going west from Ward to Garfield Street. Complaints about the two-way traf-

fic included too much speeding, cars passing and hitting other vehicles and no room to park cars on the narrow Mrs. Jim Schroeder, 2600 W. Cuthbert Ave., remarked a car traveling

at a high rate of speed hit the front of her house about 12: 30 a.m. in September and "damaged it considerably." Joe Nuessle dropped his title of city attorney to become a citizen for a few

minutes to plead with the council to 'do something now about the situa-He explained that cars had run into two bedrooms of his house which

faces Cuthbert, once with his daughter in bed asleep. Another time he had just left a bedroom when a car ran into the house. And his wife recently was involved in an accident on Cuthbert as a result of one car trying to pass another, he added.

An attorney for Handy Hut at 2703 W. Cuthbert Ave. contended the oneway traffic would cause business to decline. Those sentiments were echoed by Greg Baker, representing Stadium Sports Center, 2040 W. Cuth-

Giffert Alstrin with Western State Bank, 1030 Andrews Highway, suggested the one-way street would become more of a race track than it already is?

Martha Gould of 2303 W. Cuthbert Ave., who favored the one-way plan, remarked to the lawyers that "some of us is going to have to be displeased.

Councilman Tom Sloan and Mayor Ernest Angelo Jr. agreed on a proposal to lower the speed limit on that section of Cuthbert to 20 mph, install six-inch buttons in the street to warn people of the lowered speed limit and have that section patroled carefully by police.

But the other members of the council preferred the one-way street idea, basing their opinion upon the projections given by city staff that the 7,000 cars per day would be cut to 3,500.

In other action, the council approved three bus loading zones for MidTran, a public transportation system slated to begin early next year. These zones will be on the corner of Loraine Street at Wall, across the intersection on Wall Avenue and on the north side of Texas Street at Big Spring Street.

Purchase of eight fare boxes for the seven buses was approved. The extra fare box will be utilized in case one goes bad, the council was told.

Relocating two light poles at Cubs Stadium and installing 144 box seats received the council's unanimous approval. Bill Rigney Jr., representing the Midland Cubs, said the light poles are obstructing view and taking up space where more box seats could be placed.

The Cubs sold 825 box seats last year, reaching the "saturation point," Rigney said. Agreement with the city says that the Cubs will split ticket sale revenues of all box seats sold past the 825 figure, with the money going to the city for moving the lights.

In light of recent council meetings which have found the council mem-(See PART, Page 4A)

# Taxpayer revolt hurting poor hardest, study says

SANTA MONICA, Calif. (AP) - The recent rash of tax-slashing laws is a sign of a taxpayer revolt that has been brewing for years - and that already has cut the proportion of local and state spending in the gross national product. a Rand Corp. report says.

The report also suggested that the tax-cut movement may — as its opponents have contended - hit the poor and disadvantaged hardest, and may increase the loss of "home rule."

Anthony H. Pascal, head of the group that prepared the report, said Tuesday that while the national anti-government spending mood was put into the limelight by measures like California's Proposition 13, "these tax limitation laws are just voter verification of something that had been going on for some

The report, part of a \$180,000 study sponsored by the Ford Foundation, noted that of the 25 states with fiscal limitation laws, 16 have adopted them since 1975. The California measure, passed in a landslide vote last year, cut property taxes 57 percent statewide.

"There is accumulating evidence that the growth period in local government is coming to an end, or at least peaking," the report said. Aside from passing tax and spending limitation laws, the report added, voters are also increasingly reluctant to approve bond issues or elect

free-spending officials. While federal, state and local government spending is still on the rise, researchers at the Rand research center found the rate of increase has slowed from an annual average of 11 percent between 1969 and 1975 to 9.4 percent between 1975 and 1979.

In the last four years, the report added, the percentage of the GNP made up of state and local government spending has fallen for the first time in 30 City won't apply for federal funds

Staff Writer

Midland essentially lost another \$1 million in Community Development funds Tuesday when the City Council voted 3 to 3 on a motion to apply for the aid.

Without a majority vote, the issue failed. For the fourth consecutive year, a

requirement by the Department of Housing and Urban Development that the application include a Section 8 rental subsidy plan in the CD application proved to be the source of irritation for the council. In arguing against the measure, Mayor Ernest Angelo Jr. labeled those government strings "blackmail."

This is the third year in a row the council has not even submitted an application. The last time it did apply, in 1976, the council refused to add the rental subsidy program and HUD rejected the application.

The amount of funds allocated for Midland this year was \$1,067,000, according to Richard Hennessy, director of planning and community development for the city.

Before hearing comments from the public concerning the application, Angelo said the council had hoped that with Patricia Harris moving from the head position of HUD to the Department of Health, Education and Welfare, the Section 8 requirement would change.

But, after checking with Texas' congressional delegation, Angelo said he was told that not only is Congress going to retain the idea, but it might be stricter in the future concerning rental assistance.

Betty Sheeler, who is working as director of Midland County's Section 8 program, said she has seen a lack of "enough rental housing that is safe, decent and close to a moderate price. There are lots of people who will never be able to own a house and are spending one-half to three-fourths of their income for housing that is meager.

Mrs. Sheeler explained that although the county rental subsidy program began Nov. 2 - less than a month ago - she feels it is a workable program. 'There are not as many flaws in it

as I was told there would be," she commented. "I feel it (Section 8) can work in Midland because of the size of the city. It's not like a Chicago or Dallas. And it's (the program) not that difficult to administer well.' Don Hellinghausen with the Mid-

land Housing Association pointed out there is "an enormous problem in the rental area here. We can't find a local solution for it.' Conceding to the government red

tape involved, Hellinghausen added, "We're irate at the bureaucrats too. But the need (for housing) is great among people not able to help themselves.

Pointing out the increased amount of industry locating in Midland, Mary Hinkle, director of Casa de Amigos, said it also means more people need housing. And not every one of these are engineers or professional people.

"There's a need for maintenance workers, janitors, babysitters," she

"People come to Casa because they are looking for a place to live. They already have a job. Some people live in their cars or in a motel for a couple of weeks, pick up their paychecks. and leave Midland. They say it (Midland) is a crazy town. There are jobs here but no place for people to live."

Angelo said the council realizes there is a need for housing, "but the hangup is the rental subsidy program is not in the best interest of Mid-

He contended rental subsidy isn't fair because some people who need (See CITY COUNCIL, Page (A)

# Carter hopes news conference will convince Iran of solidarity

WASHINGTON (AP) - President Carter, appealing to America's sense of honor, hopes to rally public opinion and to convince Iran of American solidarity during tonight's primetime news conference.

At the news conference, scheduled for 9 p.m. EST, Carter is expected to insist anew that the United States will not yield to "blackmail" by militants still holding 49 Americans hostage at the U.S. Embassy in Tehran.

Carter said Tuesday that the honor of America is at stake in the embassy been threatened at gunpoint and forced to make statements in which they did not believe.

Speaking to a group of Democrats working for his re-election, he said, "This is a reprehensible thing, a disgrace to every person who believes in civilization and decency. "I will protect the honor of our

country and will not under any circumstances yield to blackmail," Carter said.

White House and State Department officials are saying meanwhile that they want to keep the 24-day-old Iranian crisis on "hold" until the U.N. Security Council meets again Satur-

The administration fears Iranian leaders believe they can "win some battle for American public opinion and that the American people will end up supporting their demands" for a trial of the deposed shah, said a White House official, who asked not to be quoted by name.

The official said Carter hoped to dispel that impression at his news conference.

The president chose his most stately setting, the East Room of the White largest possible audience. Ordinarily, Carter holds news conferences in the afternoon in an auditorium of the Executive Office Building.

U.S. officials said Tuesday it is possible some useful discussions could take place this weekend if Iran's foreign minister, Abolhassan Bani Sadr, shows up for the U.N. debate on the embassy siege.

"If we see him walk through the door in New York, it will be more hopeful than if we do not see him walk through the door," State Department

spokesman Hodding Carter said. He said if Bani Sadr's presence has the "side effect of allowing some kind of contact between leading representatives of that government and ours, that might be useful under certain conditions.

That was something of a shift in the U.S. position, which had previously ruled out any negotiations unless Iran agreed to release the hostages uncon-

ditionally Iran's leaders initially demanded that the president return the shah for trial on charges of murder and plundering the national treasury. Bani Sadr has said subsequently it would "improve the climate" if the United States would agree in advance to allow some sort of international tribunal hear the revolutionaries' charges against the deposed ruler.

But while the administration seemed to be moving quietly toward private talks with Bani Sadr, the president himself appeared to be escalating the war of words between himself

Even before his afternoon comments about American honor, Carter had told Democratic congressional leaders at a breakfast meeting that the release of the hostages by Iran will not "wipe the slate clean" be-

tween the two nations. That remark sent Carter's chief spokesman, Jody Powell, scurrying to deny that the remark meant Carter intends some sort of punishing action against Iran whether or not the hostages are eventually released un-

Sen. Bennett Johnston, D-La., attended the breakfast with the president and told reporters later: "He did not suggest what further action might be taken, but I think all of us feel, including the president, that he will do something else after the hostages are released ... There are a whole range of options - not necessarily involving military action.

### Iran Briefs 7

#### U.S. warned

NORFOLK, Va. (AP) - The last U.S. ambassador in Iran says the State Department was warned last winter that admission of the deposed shah to the United States likely would result in seizure of the embassy in Tehran and the taking of hos-

Career diplomat William H. Sullivan, 57, removed from his post in Tehran in April, said Tuesday he sent the message "probably sometime in Febru-

Sullivan, now president of the American Academy, a social science study group affiliated with Columbia University, made the remark during two interviews before appearing at a

#### Shah doing well

NEW YORK (AP) - The former Shah of Iran was doing well after the removal of a last gallstone and could have his doctors' blessing to travel in the next few days, doctors and officials at New York Hospital-Cornell Medical Center say.

The shah underwent a special non-surgical procedure Monday night to remove the gallstone, which was the last medical obstacle to his departure from the United States.

But his doctors said Tuesday they wanted to keep him under observation for several days to make sure he doesn't get an infection and to be certain no further stones appear

#### Grain loading halted

#### By The Associated Press

The loud, passionate street protests against Iran appear to have yielded to a stronger, more subtle vigil for the Americans held captive in the U.S. Embassy in Tehran.

Dock workers in Galveston said Tuesday that all loading of grain on ships destined for Iran has been stopped in an apparent food boycott.

### Anti-Iranian feeling running higher than the 'legal limit'

By The Associated Press

The burning of the Stars and Stripes - a common sight these days at the U.S. Embassy in Tehran - highlighted a pro-Iranian demonstration in Michigan while the government warned that anti-Iranian feeling was running higher than the legal limit.

The flag was burned outside the Selfridge Air National Guard Base near Mount Clemens by 25 demonstrators. On the base, meanwhile, five men clambered into the office of the commanding colonel and demanded he call Washington and read a statement that said, "Return the shah to face the wrath of the Iranian peo-

Col. Raymond Even said, however, that he was unable to make the call because the protestors had cut his telephone lines and that he and his aide were freed when they said it was

The five were taken into custody for questioning by the FBI.

Protesters' spokesman Rene Lichtman said the burning of the American flag would be one of many. "Flagburning will be increasing as the American people learn what's going on in Iran," he said.

In Washington, Rep. Douglas Applegate, D-Ohio, introduced a bill in the House to deport any alien "who in any way desecrates or defiles the American flag."

Flag-burning can now bring a year in jail and a \$1,000 fine.

Iranian flags have been burned at several American demonstrations decrying the situation in Iran, where followers of Ayatollah Ruhollah Khomeini are holding 49 American hos-

tages in the U.S. Embassy. The Iranians say they will release the hostages only if the deposed Shah of Iran, Mohammed Reza Pahlavi, is extradited to Iran from his New York

### Civiletti advocates restraint towards Iranians in U.S.

General Benjamin R. Civiletti is urging Americans not to vent their frustration over the U.S. Embassy seizure on Iranians living in this country, and warns that the Justice Department can "do no less" than prevent and remedy illegal discrimination.

While Civiletti acknowledged Americans' "justifiable anger" over the stalemate in Tehran, he advocated restraint in a statement issued

Citing news reports that some Iraexpelled from universities and denied public accommodations, Civiletti warned, "This conduct is not prop-

Anti-discrimination laws "forbid treating people differently in such areas as employment, public education, housing, credit and public accommodations like restaurants and hotels," he said, reminding Americans that those laws protect non-citizens as well as citizens.

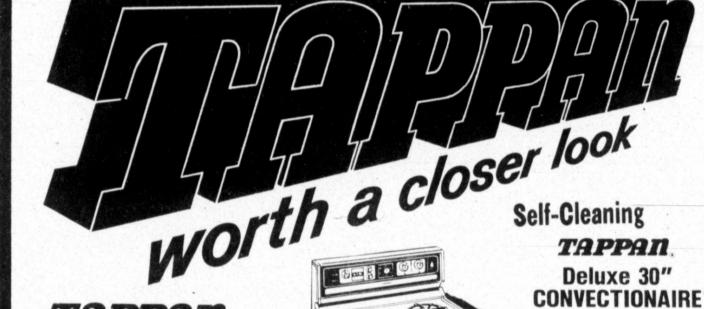

"It is the role of the Justice Department to go to court, when necessary, to prevent and to remedy illegal discrimination. In the current situation,

we must do no less," Civiletti said. Those wishing to express their concern about the situation in Tehran should send letters and telegrams to the Iranian mission at the United Nations, he said.

#### Crisis boosts enlistments

HARTFORD. Conn. (AP) — A Marine Corps hostage crisis has boosted Novermber enlistments in Connecticut and western Massachusetts by more than 50 percent over last year.

But Army, Navy and Air Force recruting officials in Connecticut said they have not noticed any increase in inquiries about enlisting.

# Bill granting 'tax relief' to Patriots criticized

By ROBERT PARRY

WASHINGTON (AP) - A member of the House Ways and Means Committee says a bill to grant tax relief to the owner of the New England Patriots football team amounts to "a \$3 million gift.'

Rep. Fortney Stark, D-Calif., criticized the bill Tuesday after it was approved 6-3 by the Ways and Means

#### Cold snap to continue

The current-cold snap should continue at least through Thursday, according to the weatherman.

Clear and cold is the forecast from the National Weather Service office at Midland Regional Airport. The high Thursday is expected to be in the upper 40s, with the low tonight dipping to the mid-20s.

Today's northeast winds should become light and variable by tonight. Tuesday's high was a chilly 59 degrees, well below the record for the date of 85 degrees set in 1945. The overnight low of 26 was a full 10 degrees above the record low of 16 set

Rain was left out of the forecast again, leaving the rainfall total for November at a trace and the 1979

total at 13.25 inches. A fast moving cold front moved into the Gulf of Mexico early today, bringing with it a surge of cold Arctic air

covering most of Texas. Some light snow flurries were reported during the night in northwest sections of the Texas Panhandle and most of the state had clear skies and

cold temperatures. Highs were to range from around 40 in the Panhandle to the middle 70s in far South Texas. Most of the state was to have highs in the 50s.

subcommittee on select revenue. The bill now goes to the full committee.

The bill would benefit Patriots' owner William H. Sullivan by altering the effective date of a 1976 tax revision that was designed to close a "loophole" in the depreciation laws affecting professional sport fran-

The proposed change would permit Sullivan to use the old tax rules to reduce his taxes for 1980, 1981 and 1982 by a total of \$3 million.

Supporters of the bill claim Sullivan was unfairly hurt by the 1976 tax revision because he had committed himself to buy out the team's two other owners in 1975 when the old law was in effect. However, Sullivan fell under the new law because the deal was not completed until 1977.

The bill would exempt from the revision a principal stockholder of a sports franchise who on Dec. 31, 1975, was committed to purchasing more than 50 percent of a team's stock and who completed the purchase by March 1, 1977.

Sullivan is the only owner of a professional sports franchise who would qualify for the tax relief.

"I have the feeling that it's a \$3 million gift to the owner of the New England Patriots," Stark said in a telephone interview.

Stark said Sullivan apparently was counting on "powerful friends" in the Massachusetts congressional delegation to make up for bad tax advice he received four years ago.

The bill, introduced by Rep. James M. Shannon, D-Mass., has the support of the Carter administration, which deemed the proposed tax relief "equi-

Supporters note that the House Ways and Means Committee did not begin considering the 1976 tax revision until late October 1975, after Sullivan was committed to buy full ownership of the National Football League team.

# Fraser says **UAW** has done share

HIGHLAND PARK, Mich. (AP) -While two members of the Senate called for Chrysler Corp. wage freezes, a defiant United Auto Workers President Douglas A. Fraser said the union has delivered its share of help for the teetering automaker.

Fraser, after signing the union's precedent-setting contract with Chrysler on Tuesday, said only the imminent collapse of the No. 3 automaker would prompt a reopening of the three-year pact.

The union chief, visibly upset over what he sees as foot-dragging on the part of senators considering federal aid for Chrysler, said union members are "getting awfully weary about people calling on the workers to make more sacrifices...from people who have done nothing.

He called on the Senate Banking Committee to approve a \$1.5 billion Chrysler loan guarantee plan and said "bankers should be coming forward with loans and loan guarantees.

"With each conversation, with each statement, we're making it more and more difficult for Chrysler Corp. to survive," Fraser said. "The more we agonize the more difficult it gets to sell cars. These delays are so damaging. We're losing sales and jobs every

day."
At the committee hearings in Washington, Sens. Paul Tsongas, D-Mass., and Richard Lugar, R-Ind., said they would submit legislation requiring wage freezes for UAW members and management.

"There is going to have to be a dip in the UAW contract, no matter how distasteful that may be," Tsongas said. "There will have to be a severe change in that sweetheart agreement.'

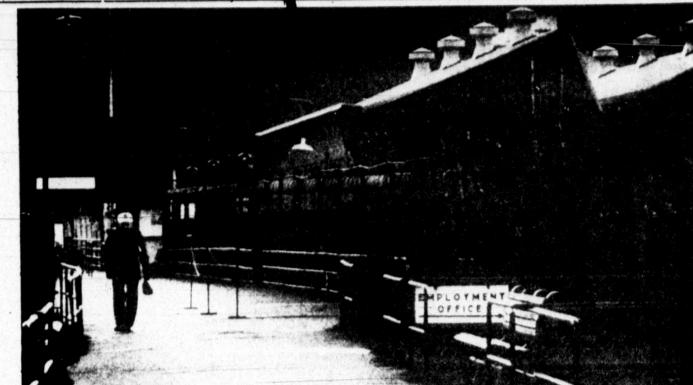

Fraser said "the senator just doesn't understand the agreement," and said Chrysler Chairman Lee Iacocca has not asked the union for additional concessions.

The union estimates the contract will cost Chrysler workers \$200 million in wages compared to agreements reached with Ford Motor Co. and General Motors Corp. and \$403 million in total concessions, including Chrysler's deferral of payments into the union's pension fund.

Fraser said the UAW, while standing firm on the contract, would be willing to increase the pension deferrals.

The contract delays wage parity with Ford and GM workers until the final year of the contract, when Chrysler production workers will reach an average hourly wage of \$9.20. It also postpones cost-of-living allowances won at the other two carmakers, and delays new paid days

land City Council.

A worker leaves the American Bridge plant of U.S. Steel, Ambridge, Pa., Tuesday. Some 13,000 U.S. Steel workers at 16 plants in eight states will lose their jobs as a result of the company's plans to close facilities for "economic reasons." (AP Laser-

# U.S. Steel announces cutbacks affecting workers in eight states

YOUNGSTOWN, Ohio (AP) - U.S. Steel said it was cold hard economics, but the news of another mill shutdown was a blow to the heart of beleaguered Youngstown.

"We feel clobbered" said Bob Vasquez, union leader of the 3,500 workers who will lose their jobs when the company's Ohio and McDonald Works here are phased out.

In all, 13,000 U.S. Steel employees in 16 plants in eight states will be thrown out of work as part of the cutback announced Tuesday.

But the cutback may be hardest on Youngstown, which was devastated two years ago when Youngstown Sheet & Tube closed its plant here and 4,000 workers were suddenly on the street.

Community groups tried unsucessfully to take over that plant and save the jobs. The economic ripple reached almost every business in the Mahoning Valley. Social workers said the town might never recover.

The day of the Youngstown announcement in September 1977 became known as "Black Monday." Now there's a "Black Tuesday" to go

In the other steel towns affected, there was bitterness. Bill Morris, mayor of Waukegan, Ill., said, "We think U.S. Steel milked our communi-

ty and then ran.

Mayor Frank Logue of New Haven. Conn., said, "I'm really disappointed and angry that U.S. Steel did not respond to four different attempts we made to see if they would sit down with state and local officials to work

out their problems. In Pittsburgh, company chairman David Roderick said, "The operations being terminated at this time have become noncompetitive for a variety of reasons, including operating cost, unfairly priced imports or excessive environmental spending require-

The Environmental Protection Agency in Washington insisted that anti-pollution requirements were not

The company said the closings will result in an earnings loss that will wipe out the \$300 million it has profited this year.

U.S. Sen. John Glenn, D-Ohio, said in Washington that the White House has agreed to convene a meeting of Youngstown community leaders and 'high-level government personnel' to examine ways to help the community absorb the latest shock.

Vasquez, president of Local 1330 of the United Steel Workers, said he felt 'like we've been treated dirty. We'd been led to believe that as long as we were making a profit we'd keep run-

about people," said Vasquez. "We worked harder, faster, smarter, saved them money, worked short crews and did just about anything they wanted.

However, Fritz Foote, a U.S. Steel spokesman in Cleveland, said the Youngstown facilities, which primarily make special section and flat rolled steel, are no longer profitable.

Vasquez said supervisors of the Ohio Works summoned the union to a meeting Tuesday afternoon and told members that when existing orders are exhausted, sometime in 1980, the plant would be closed and aban-Mayor J. Phillip Richley said the

closings emphasize "what we have, been saying for months. Diversification is the only way for the valley to go; we cannot rely on basic steel as our base any more.

In the Youngstown suburb of McDonald, Mayor Thomas Leskovac said the closing would be a "drastic blow," since 72 percent of that suburb's revenue derived from the U.S. Steel mill. Besides the steel operations in

Youngstown, Waukegan and New Haven, U.S. Steel said it would shut plants in Torrance, Calif.; Fairfield, Ala.; Pittsburg, Calif.; Ambridge, Pa.; Pittsburgh; Universal, Pa.; Buffington, Ind.; Northampton, Pa.; Chicago; Camden, N.J.; McKees Rocks, "It's criminal, they just don't care Pa.; Joliet, Ill.; and Fairfield, Ala.

### Federal financial assistance for U.S. Steel not foreseen

WASHINGTON (AP) - The federal government is not likely to step in with financial assistance or to urge U.S. Steel Corp. to change its mind about closing 16 facilities around the nation, a Commerce Department official said today

The official, who asked not to be named, said the Carter administration was concerned about the steel giant's decision to lay off some 13,000 workers in plant closings in eight states on economic grounds.

But, the official said, "the plants are diffused in a large number of locations. And these (shutdowns) would be normal operating adjust-

announced as a total." be among the hardest-hit areas be-

ments if not collected together and

He said Youngstown, Ohio, would cause the loss of U.S. Steel's Ohio and McDonald Works follows by only two years the closing of the Youngstown Sheet & Tube plant. The earlier closing cost 4,000 jobs, and the U.S. Steel shutdown will mean the loss of another 3,500 jobs, union officials say.

The administration has urged Congress to approve a \$1.5 billion loan guarantee program for the financially troubled Chrysler Corp., the nation's 10th largest corporation. At least 130,000 Chrysler jobs hang in the balance.

But the government is likely to remain neutral in the case of U.S. Steel, the nation's 15th largest manufacturer, the official said. Even in Youngstown, he said, "it's a marginal operation and it's very questionable whether it would be sound econom-

#### OSHA recommends possible criminal prosecution in death of steelworker

BALTIMORE (AP) - Federal safety officials have recommended possible criminal prosecution of Bethlehem Steel Corp. managers in the gassing death of a steelworker early this year. The federal Occupational Safety

and Health Administration issued the recommendation following a special investigation of a state study of a January carbon monoxide leak that killed a worker at Bethlehem's plant on Sparrows Point. OSHA reported finding evidence in-

dicating the company had committed a "willful" violation of safety standards that led to the accident.

"There is no question in my mind that it (circumstances surrounding the plant leak) was criminally willful," said Bart Chadwick, director of OSHA's Baltimore area office. A spokesman for Bethlehem, who

did not receive a copy of the report, said there would be no comment at this time. OSHA was called in by a local steelworkers' union after the Maryland

Occupational Safety and Health agency declined to cite the company following its investigation of the inci-

The federal agency decided on the basis of interviews with workers, scrutiny of company records and consultations with engineering experts that Bethlehem knew of carbon monoxide problems and could have done

something to prevent gas accidents. OSHA said that since a six-month statute of limitations had run out, the state agency could not cite the company directly for the fatality. But OSHA told the state it "may still wish to consider whether a criminal action is appropriate...since an argument can be made that a fatality was coupled with a willful violation.'

Chadwick said OSHA would expect the state agency to initiate the recommended action, which would entail sending the case to the state's attorney's office "for possible criminal prosecution against the management or supervisors responsible.'

Earl R. Barley, 52, died when a seal at the plant blew, allowing poisonous gas to escape from a pipe. Six oher workers were poisoned by the colorless, odorless gas as they tried to resuscitate Barley, who they thought had suffered a heart attack. They recovered.

He said in the eight months since who returned to the United States in he was charged, the Marines had March after 131/2 years in Vietnam taken "not a single further procedursays he may not be well enough, al step" to move the case toward physically or mentally, to defend dismissal or a trial.

Without his consent, he said, the Marines extended his enlistment and "I have absolutely no doubt that the charges are the products of enormous personal hostility.

Garwood presses military court

for dismissal of Vietnam charges

The Marine Corps had no comment on Garwood's petition, saying the case still is under investigation.

Garwood also submitted a deposition that in Vietnam he suffered malaria, tuberculosis, cardiac arrest, liver disease and a blood infection normally restricted to birds. He said his medical records also indicate he is carrying bomb fragments in his

The 33-year-old Garwood of

Greensburg, Ind., has been stationed at Camp Lejeune, N.C., since his return. He was released March 22.

He said in a deposition that after his capture on Sept 28, 1965, he was forced to live in a totally foreign environment; English became a weak, second language; and he had to relearn such fundamental things as tying shoelaces and shaking hands.

He said on his return to the United States, he was the target of irresponsible public attacks.

"A member of Congress publicly called for my conviction and jailing, although I had not yet even been tried," Garwood said.

"The media published as established fact the claim that I had voluntarily stayed in Vietnam ... the initial public response showed enormous hostility," he contended.

### El Paso hijacker to be sent to Missouri for evaluation

WED.- THURS.- FRI.- SAT. ONLY

EL PASO, Texas (AP) - A young man charged with hijacking a jetliner and holding some of its passengers and crew hostage for almost four hours, while demanding to be taken to Iran, is being sent to Missouri for psychiatric evaluation.

U.S. District Judge William S. Sessions on Tuesday ordered Gerald James "Skipper" Hill Jr. transferred to the Medical Center for Federal Prisoners at Springfield, Mo.

Hill, 18, was arrested Saturday after American Airlines flight 395, from San Antonio to Los Angeles, was commandeered while it was on the ground during a scheduled stop at El

FBI agents said they overpowered

the hijacker and released the 19 male passengers and seven crew members who were held hostage for nearly four hours. The 45 women and children on board the plane were released earlier. There were no injuries.

FBI agents said Hill told the pilot he wanted to go to Iran. Hill was described by a friend as "a patriotic kind of guy" upset over the hostage situation in Iran.

A federal complaint charged Hill with interfering with the flight crew by assaulting, intimidating and threatening them with a large hunting

The complaint also said Hill threatened to blow up the plane with dynamite. No dynamite was found.

Green, the Midland County agricultural agent. Sioux pecans produced by Dr. John Foster won the No. 1 spot in the show's shelling division, and natives produced by Thelbert Hanson were judged the top nut in the native division. (Staff Photo)

# Clements asks formation of refugee task force

AUSTIN, Texas (AP) - Gov. Bill Clements wants a special task force to identify problems of Indochinese refugees and determine what the state can do to solve them.

He asked Jerome Chapman, commissioner of the State Department of Human Resources, on Tuesday to form the task force, which he expects to include state agency representatives and private citizens.

"I am determined that the state do all within its statutory responsibilities - but also under its moral responsibilities as well - to assure that the cultural conflict inherent in such resettlement be minimized, and also that the resident population in resettlement areas not have to undergo serious economic dislocation or hardship," Clements told Chapman in a letter.

"We must continue to fulfill our nation's moral obligations to those who have fled oppression seeking freedom. At the same time, we must seek to preserve the economic livelihood of our own citizens who may be affected by resettlement.

"These goals are important, and I am convinced they are not mutually

Two Vietnamese refugees recently were acquitted of murder in the shooting death of a Seadrift fisherman. The killing climaxed a long period of discord between longtime Seadrift residents and Vietnamese who settled in

### Tower favors bill limiting purchase of needles, syringes

WASHINGTON (AP) - Sen. John Tower introduced a bill Tuesday that would prohibit the purchase of hypodermic needles and syringes without a prescription.

The Texas Republican said his proposal would curb heroin abuse.

"I do not contend that making hypodermic needles and syringes prescription items will stop drug abuse," Tower said. "But the incidental user, the first-time user, and the young person driven by curiosity rather than addiction, for the present at least, will be deterred if they have no means for using the drugs.

He said at least 10 states now regulate the sale of hypodermics and sy-

Diabetics and others who legitimately need needles would not be hampered by the restriction, Tower

"I would expect most physicians, who are acutely aware of the ravages wrought by drug abuse, would cooperate willingly by providing refillable or continuing prescriptions to ensure the items are available to their patients,"

Tower also wrote to the commissioner of the Food and Drug Administration, suggesting that he could use administrative authority to restrict the sale of hypodermic needles and-

#### Professor sentenced

ODESSA - A former Odessa College professor was sentenced to three 20-year prison terms Tuesday and ordered to pay a \$15,000 fine after he pleaded guilty to two counts of possession of LSD and one count of delivery of LSD.

Charles Edward Baxley, 28, of Odessa was sentenced by 161st District Court Judge R.L. McKim. The three 20year sentences are to run concurrently

Baxley, a former professor of music at Odessa College, had been charged with possessing LSD April 18 and Feb. 15, 1978, and delivery of the illegal drug March 28, 1978.

The case was prosecuted by Ector County District Attorney John

Baxley was represented by attorney Bill Alex-

#### Execution postponed

# Backyard' pecans earn honors

By ED TODD Staff Writer

Mohawk and Sioux varieties of pecans and a native nut won grand champion plaques and blue ribbons in their respective divisions in the third annual Midland County Pecan Show that concluded Tuesday in Dell-

A batch of "backyard" Mohawk pecans produced by C.A. Gray was judged No. 1 pecan in the in-shell division. Reserve champion in-shell pecan was a Wichita variety shown by Bill Barrett.

Grand champion shelling pecan was a Sioux produced by Dr. John Foster. Reserve champion shelling nut was a Western Schley produced by Kay Henson.

Thelbert Hanson showed the grand champion native pecan, and Kasy Arnold produced the reserve champion native.

SHOW ENTRIES totaled 170 batches and represented more than 20 varieties and classes of pecans. The 1978 show attracted 147 entries, and the 1977 show drew 82 competing batches of nuts.

"I'm enthusiastic about it," said David Harris, president of the Midland County Pecan Growers Association. "We had just a super show -The show was co-sponsored by the pecan association and the Midland

County Extension Service. "It was an excellent show," said R. B. Henderson, one of the show's boosters and a member of the association.

Morris Davis was show chairman. Judging the show were Dr. Kenneth Lindsey, an agronomist with the Texas Agricultural Extension Service district office in Fort Stockton, and Dr. Michael Kilby, a TAES horticulturist in El Paso.

"THE QUALITY WAS outstanding this year," said Kilby, who has judged the previous Midland County shows and other pecan shows statewide. "The quality was improved this year, and most (pecans) were

better in quality than in other areas."

Kilby and Lindsey weighed, cracked, shelled, scrutinized and evaluated 10 pecans from each 40-pecan batch. First-place pecans in each class and variety will be entered in the regional show in San Angelo Dec. 11-12. Champion and reserve champion pecans in each variety will be in the running for plaques and ribbons in the 1980 state show.

Rather than tasting the kernel, judges look, feel, touch and sometimes cut into the nut. "There's too much personal preference" in taste to permit taste-testing to be a step in the judging process, Kilby said. Charles W. Green, the Midland County agricultural agent, was pleased with

the turnout and quality of the show. "No," he said, "there's no question about it. We've got the biggest and best (show) ever" in the 21-county TAES District VI between Big Spring and El Paso. "Looks like we've got some good, quality entries. We've got the biggest (show) of them all this year, according to Mike (Kilby),'

GREEN ESTIMATED that between 25,000 and 30,000 pecan trees in commercial orchards of 50-plus trees are in the county. An additional 4,000 to 5,000 trees are in individuals' and families' backyards in the city and

"There's no telling how many single trees there are," commented Travis Harney, assistant county agent.

Winners and runners-up by varieties and classes were: -Burkett: 1. Frank Shepard; 2. C.A. Gray; 3. W.D. Howard.

named in congressional race PIERRE, S.D. (AP) — Democrat Tom Daschle has been declared the winner of the nation's closest 1978 congressional race - more than a year after South Dakota voters cast their ballots.

The South Dakota Supreme Court ruled Tuesday that Daschle, seated in the U.S. House in January, did indeed defeat Republican Leo Thorsness by

Daschle originally was certified winner of the election with a 14-vote margin. Recounts and challenges stretched that margin to 105 votes before the state's high court, at Thorsness' request, took the case.

The justices examined each of the 1,084 disputed ballots. After two recounts, the vote totals examined by the justices gave Daschle a 64,651-64,-546 lead.

The high court, terming its decision "landmark," ruled that states have the right to decide election questions. Attorneys for Daschle had argued that only Congress can make the final decision on who will be seated.

Thorsness, who moved to California to take a job as political fundraiser for Litton Industries, said he was not surprised by the outcome. The former Vietnam prisoner of war had never conceded defeat to Daschle.

"I'm not really jumping up and down, but it's not an unexpected outcome," he said.

For Daschle, the ruling was cause for celebation. Daschle said he and his wife, Laurie, would break open a bottle of champagne saved since election eve last November

"We both waited so long for this," he said.

# Troops pilfer aid, mine rice fields, refugees say

NONG SAMET, Thailand (AP) -Cambodian refugees, part of a current mass exodus from their homeland, claim that Vietnamese troops are pilfering international food aid, mining rice fields to prevent harvesting by Cambodians and providing only starvation-level rations in the countryside.

The refugees, who reached this border area after mid-November, said they had received virtually none of the foreign aid that has been sent into Cambodia over the past two months. Almost all said they believed Vietnam, which invaded in January to set up a pro-Hanoi government, was trying to exterminate the Cambodian

Their accounts could not be independently verified. Access to Cambodia by Westerners is extremely limited. But a French Parliament delegation which was permitted to travel across Cambodia said on its return to Paris Tuesday that international food aid "seemed to us to be deliberately diverted away from its objectives....We fear that the elimination of the Khmer (Cambodian) people is

continuing.' However, Nicolas Sommer, a spokesman in Thailand for the International Red Cross, one of the distributors of food aid to Cambodia, said: "We have no indication that there has been a wholesale diversion of international aid." But he and a spokesman for another aid distributer, the United Nations Children's Fund, noted that with fewer than 15 Red Cross and U.N. officials in Cambodia it was impossible to make detailed checks of

food distribution. Although the refugees interviewed by The Associated Press came from Cambodian provinces as far apart as Kompong Cham and Prey Veng in the east bordering Vietnam to Battambang on the northwestern frontier with Thailand, their stories were sim-

They claimed that:

-Rice fields in many areas have been sown with mines and some farmers have been shot by Vietnamese soldiers for entering the fields. The Cambodians were told rice would be harvested by proper authorities to insure future stocks and seeds.

-There was wholesale diversion of food and other international aid earmarked for the civilian population to the estimated 200,000 Vietnamese troops in Cambodia or to Vietnam itself. Soldiers sometimes came at night to confiscate distributions made during the day. Foreign-donated food was available in the markets of some provincial towns but had to be exchanged for gold, meat or produce.

—Cambodians in the countryside and towns were generally given red corn rather than rice as rations, which the refugees said were far smaller than the meager ones handed regime of Premier Pol Pot. The refugees said that only in Phnom Penh, Cambodia's capital, were rations adequate and these were distributed to officials of the new Vietnamesebacked Communist regime of President Heng Samrin.

Red Cross and U.N. officials have said in the past that the lack of transportation has made aid distribution difficult in the countryside.

(State Department officials in Washington said reports of a widespread diversion of relief supplies have come so far from a few refugees and therefore have to be regarded as inconclusive. One State Department official said the department had received reports of the mining of rice fields "bwt we cannot confirm that they are accurate." Another War

ington official said, however, "Anything you are hearing from the refugees coming out is pretty accurate.")

"The Vietnamese want to kill us all by taking away our rice," said Suon Saroen, a farmer from Kompong

One Western analyst here, who said he has spoken to a number of recent escapees, commented: "Whether it's a policy of genocide or because they are having a hard time trying to control the Cambodians, it sounds like the Vietnamese are trying to elimi nate them.

When the Vietnamese invaded Cambodia and set up a new government last January, most refugees expressed gratitude that the four-year reign of terror by Pol Pot had ended.

# Russian navy doubles operations in Far East, while U.S. spreads ships

WASHINGTON (AP) - The Russian navy has doubled its operations in the Far East this year while the U.S. Navy has spread its available ships to cover crisis missions in the Indian Ocean-Arabian Sea area.

This was highlighted in a new intelligence analysis of growing Soviet naval activity in the Far East coinciding with diversion of U.S. aircraft carrier strength from East Asian waters into the xindian Ocean following the taking of hostages in the American embassy in Tehran.

The United States has sent two powerful carrier task forces totalling 14 ships from the western Pacific and South China Sea into the Indian

This has left the U.S. Navy temporarily without any aircraft carriers in the entire western Pacific region. The carrier Coral Sea is expected to arrive from the U.S. West Coast to fill that gap, at least partially.

In a related matter, a U.S. official who asked not to be named said Tues-

day that the Soviet Union is sending jet fighters and other arms to North Yemen, adding a new element of concern in a region already troubled by the holding of American hostages in

Earlier this year, the United States speeded up delivery of anti-tank and anti-aircraft weapons to North Yemen after fighting broke out with South Yemen.

Then last week, North Yemen said it would not permit its territory to be used for any operation against Iran.

"We have expressed our concern to North Yemen," a U.S. official told The Associated Press. "We don't want them to be under any illusion they can play both ends against the

Japan and other nations in the Pacific area have registered alarm at the growth of Soviet naval power in the Pacific in recent years, underscored last June by the appearance of the first Soviet aircraft carrier, the 40,000-ton Minsk, to be based in the

According to intelligence analysts, Soviet naval operations in the Far East have doubled this year to about 600 ship days. This is a measurement not of the number of ships but of the time that vessels are operating at

The analysts said the increased tempo of Russian naval operations is traceable to a considerable extent to Soviet support of Vietnam and Hanoi's confrontation with China and

In the view of American specialists, who asked not to be named, the two most significant changes in Soviet Pacific Fleet operations this year have been the beginning of Russian naval warplane deployments to Vietnam and flights into the South China

Sea, a strategic stretch of ocean. Another major change finds Russian naval units using ports along the Vietnamese coast so frequently U.S. analysts believe Russia now has a major foothold there.

Mrs. Lynn Foster, left, pins son Bill Foster of Troop 333 with his Eagle scout badge as Clyde Chynoweth, scoutmaster, and Lynn Foster look on during a ceremony Monday night at Midland Lutheran Church, sponsor of the troop. (Staff Photo)

#### Missile alarm system fixed to prevent more false alarms WASHINGTON (AP) Military Command Cen-firmed" almost immedi-

- The Pentagon says its experts believe they have fixed the U.S. missile alarm system to prevent false alerts like the one that recently sent 10 U.S. and Canadian jet interceptors scrambling to meet a nonexistent bomber attack.

President Carter and Congress were advised Tuesday of the corrections. Officials declined to elaborate on changes made in the system. Defense Secretary

Harold Brown ordered the investigation that led to those corrections after an apparent computer malfunction was blamed for the false Nov. 9 alarm of a Soviet missile attack.

Officials said at the time that a test tape simulating such an attack was fed into a computer at North American Air Defense Command headquarters in Colorado Springs, Colo.

Due to an apparent mechanical malfunction, the tape was transmitted to other military commands and federal agencies, the Pentagon

The error was corrected within six minutes and word of the alert did not reach the president or Brown, according to the Pentagon.

In an updated account, Pentagon officials said senior government leaders were not notified because within about a minute of the alert, NORAD had advised the National

ter in the Pentagon that ately, they said. "it was evidently a false

The next five minutes were spent doublechecking and correcting

Sources, who asked not

to be named, indicated NORAD was able to determine the alarm was false because only one of the mistake, officials many indicators registered the signal. Other sources said quick The president and the checks of information defense secretary would from warning satellites have been informed if and other delicate detecthe malfunction had not tion systems also showed been "absolutely con- up negative.

#### Just Shake it and Let it Fall Into Place. The Precision Haircut.

Because your head is unique, the way your hair grows is equally unique. Really quite different from

Precision haircutting is a technique for cutting the hair in harmony with the way it grows. Your hair eventually grows out but it doesn't lose its shape with a precision haircut. Consequently your haircut will look as good after five days as it does after five minutes. And because the hair falls naturally into place you won't have to keep fussing with it. Usually a shake of the head does it.

At Command Performance we shampoo, precision-cut and blow dry your hair for fourteen dollars, whether you're a gal or a guy. And no appointments are ever necessary.

We also offer permanent waves, coloring, frosting and conditioning. But we really shine with precision And so will you.

#### **BUSINESS MIRROR**

# Future dimmed by uncertainties

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) - Those who foresee in the 1980s a rediscovery of old economic values, such as the importance of profits and the necessity of the work ethic, aren't getting much encouragement

There are many such optimists in business and investment life, and some are risking reputations that took years to develop. They reason that the chaos and uncertainty of the 1970s just cannot con-

Having tried other methods, Americans will return to what works. They will save, thus providing capital for expansion; they will reduce their demands on the marketplace, and prices will tend to stabilize.

Or so it is hoped. Business hates uncertainty, because it adds to existing risks, and so the hope is that with stability the entire economic community will be able to lay out plans and work toward them. This will not result in a boom, they say; in fact,

some look forward to a rather sluggish rate of

growth as just the antidote to all the ups and downs of

the 1970s. Boom leads to bust; it cannot be tolerat-Instead, these seers say, America will be satisfied with straightening itself out. We will put our finances in order. The federal government will cease to grow;

the budget finally will be balanced. That theme, or something akin, is found in a segment of long-range forecasts now circulated by, among others, an economic consulting firm, several insurers and one of the biggest-investment ad-

Wishes, however, do not command events, and the hoped-for pattern isn't emerging from the loom. As

the new decade nears, all the threads are grey and the pattern is one of question and exclamation Inflation vies with recession as the No. 1 economic

problem. Personal income falls. Interest rates are at all-time highs. Productivity has almost ceased to improve. Oil is scarce. Profit is a dirty word. Illustrating the fragility of all forecasts - and

estimates of the future are a basic requirement of any industry - is the realization that hardly one of them can be guaranteed for more than a month The predicament of domestic automakers offers a distressing example of that weakness. Just a few

months ago General Motors and some other automotive people were saying the year 1979 would be one of the best. Now they are offering rebates, while profits plunge and red ink spills. Perhaps the most common short-range forecast now is that which calls for a mild recession in 1980. accompanied by an interest rate decline of two or

three percentage points and some moderation of But even that forecast, barely disseminated, is already subject to major revisions because of uncertainty about oil prices, uncertainty about the Mi-

deast and uncertainty in general. Uncertainty is the arch enemy of planning. And as the 1980s begin, it is the pervasive evil that upsets all forecsts, short-range and long

#### Livestock auction report

The Southwestern Livestock Auction Co. ran through 765 head of cattle Tuesday in a market that was steady to \$2 higher on all feeder cattle. Packer cows and bulls were steady, and bred cows and cow-and-calf pairs were steady.

Steers weighing 600 to 700 pounds were auctioned for \$77.50 to \$83.50 per hundredweight; 500 to 600 pounds, \$81 to \$86.50; 400 to 500 pounds, \$84.50 to \$88; 300 to 400 pounds, \$92.50 to \$98.50; under 300 pounds, \$94.50 to \$107 per hundredweight.

Heifers weighing 600 to 700 pounds were sold for \$68.50 to \$72.50 per hundredweight; 500 to 600 pounds, \$72.50 to \$75; 400 to 500 pounds, \$74.50 to \$78.50; 300 to 400 pounds, \$76.50 to \$80; under 300 pounds, \$77.50 to \$90 per hundredweight. Cows utility went for \$47.50 to \$54 per hundred-

weight

Canners and cutters sold for \$44.50 to \$48 per hundredweight. Bulls yield Grades 1 and 2 were auctioned for \$65 to \$68.50 per hundredweight.

Bred cows sold for \$500 to \$600 per head. Cow-and-calf pairs went for \$575 to \$795 per pair.

# Lobbying blitz earns independents exemption

By ROBERT PARRY

WASHINGTON (AP) - Independent oil producers won a \$10 billion exemption from the 'windfall-profits" tax by luring some of the Senate's leading liberals into the same fold with traditional oil industry sup-

On a 53-41 vote Tuesday, the Senate defied President Carter and decided to free from the tax the first 1,000 barrels of oil pumped daily by the nation's 12,000 independent operators. The exemption would reduce the tax's revenue by \$10 billion by

The vote followed an intensive lobbying campaign that saw about 100 independent oil men coming to Washington to buttonhole at least 75 of the Senate's 100 members, a representative of the group said.

C. John Miller, president of the Independent Petroleum Association of America, said the lobbying blitz helped win over some liberal and moderate Democrats who might otherwise have been expected to vote against the exemption.

'The facts are starting to come through to some members of Congress who had favored a massive tax," said Miller, an independent oil producer from

The operators argued that by leaving more money in the hands of independent producers, the United States could increase its oil production by 300,000 barrels a day by 1987.

The producers also tried to meet with senators from their home states in an effort to defuse the image of operators as

Sen. David Pryor of Arkansas was one moderate successfully wooed by independents from his state. "They're not the (oil industry) guys we see on TV," he said. "They're the guys out there actually trying to find

Other moderate and liberal Democrats who voted for the exemption were Sens. George McGovern of South Dakota, Dale Bumpers of Arkansas, Birch Bayh of Indiana, Donald Riegle of Michigan, Gary Hart of Colorado, Frank Church of Idaho and Walter Huddleston of

Asked the reason for the senators' votes, most of their spokesmen cited the expectation of increased oil production and the need to help smaller producers in an industry dominated by

Robin Carpenter, McGovern's spokeswoman, said the senator's vote was influenced by a recent congressional study showing that a lesser "windfall" tax would lead to higher produc-

Hart's spokeswoman, Kathy Bushkin, said her boss favored the exemption because it would help the small producers and thus boost competition within the oil industry.

Senators who opposed the amendment saw the issue dif-

"This amendment is a giveaway," fumed Sen. Howard Metzenbaum, D-Ohio, "It is our way of saying that the oil lobby is the strongest force in this nation - stronger than the Congress, stronger than the presi-

In an interview, Miller vowed

that the independents would continue their fight to weaken the "windfall" tax when it goes to a House-Senate conference committee to reconcile the Senate's bill with the tougher House

"We're going to push it every hour of every day," said Mill-

Miller noted that the independents, who drill 90 percent of U.S. exploratory wells, reinvest 105 percent of their gross income in oil development. He said that pattern would continue if the exemption won final congressional approval

The president proposed the "windfall" tax to reclaim part of the additional revenue that will go to oil companies as a result of his decision to decontrol the price of domestic crude

# West Texas areas gain sites for wildcat explorers; Phillips reopens Colby gas field in Winkler County

Wildcat operations have been announced in several West Texas counties, and and a gas field has been

reopened in Winkler County. RK Petroleum Corp. of Midland spotted location for a 12,900-foot wildcat in Terry County, five miles south-

The prospector is No. 1 Carter-State, 467 feet from south and east lines of section 122, block D-11, D&SE survey. Ground elevation is 3,395

The drillsite is 1/2 mile north of a 12,895-foot failure and one location west and slightly north of the Coroco, Southeast (Siluro-Devonian) pool.

**COTTLE PROSPECTOR** 

Jack F. Grimm of Abilene No. 1 D. L. Smith will be dug as a 7,000-foot wildcat four miles southeast of Cee Vee in Cottle County and two miles south and slightly west of a 7,922-foot

Location is 467 feet from south and 1,960 feet from west lines of section 2, MEP&P survey.

It is one and one-eighth miles southwest of production in the Cee Vee (Canyon) field which produces at 4,-

GLASSCOCK TESTER

Hanover Management Co. of Dallas will drill the No. 1 Winnie P. Cooper as an 8,400-foot wildcat in Glasscock County, one location southeast of a depleted producer and one and threeeighths miles north and slightly west of production in the Blalock (Wolfcamp oil) field.

Location is nine miles west of Garden City, 1,980 feet from north and west lines of section 35, block 35, T&P

# Soviet Parliament approves reduced economic targets

MOSCOW (AP) - The Soviet Parliament met today to approve reduced economic targets for next year after President Leonid Brezhnev reported that Parliament, or Supreme Soviet, calls for industrial this year's grain harvest — the worst since 1975 — is 48 million tons short of the goal and oil output is off 10 million tons.

Because of the low harvest, Western specialists expect the Soviet government may buy all 25 million tons of corn and wheat the U.S. Department of Agriculture will allow to be sold to the Soviet Union in the 1979-80 fiscal year.

#### U.S.S.R. to lower military spending

MOSCOW (AP) - The Soviet Union announced today that its military spending in 1980 would total 17.1 billion rubles, 100 million rubles less than this year's defense budget.

Soviet Finance Minister Vasily F. Garbuzov told a Soviet parliamentary session that the decrease about six-tenths of one percent - was "proof of the good will of the Soviet Union to significantly reduce international tension and embark upon true de-

At the current official exchange rate, the 17.1 billion ruble military budget for next year would

equal \$26.2 billion. It amounts to 6 percent of the total 1980 Soviet budget of 284.6 billion rubles, or \$435.4 billion.

Western specialists say that published Soviet figures on defense spending are deceptively low because many military costs are hidden in other budget appropriations. In addition, it is not known how much individual pieces of military equipment actually cost the Kremlin in ruble terms.

According to the U.S. Arms Control and Disarmament Agency, in 1977 actual Soviet military outlays were estimated at about \$140 billion, calculated on the basis of what the Soviet Union's equipment and personnel would cost in the United States

Donald Burton, chief of the CIA's military economic division, said this month that over the past nine years the Soviet Union has outspent the United States by \$300 billion in overall defense

activities. The U.S. defense budget for fiscal year 1980; which began on Oct. 1, calls for outlays of \$122.7 billion. This is a 9.6 percent increase over 1979, including rises for inflation.

In 1981, Pentagon spending is expected to rise to about \$140-145 billion.

#### Chinese crack down on Democracy Wall

PEKING (AP) - Chinese parliamentarians have cracked down on the so-called Democracy Wall, demanding "resolute measures" to deal with Peking's bulletin board of free expression.

Criticism of the 200-yard-long stone and plaster wall, often used by Chinese dissidents to air their views, came during a meeting Tuesday of the Standing Committee of the National People's Congress, China's Parliament.

The meeting was chaired by Communist Party Vice Chairman Xu Deheng, considered to be the nation's leading legal expert. The criticism received front page play in Peking's major newspapers, indicating the attacks had the approval of govern-

The severity of the criticism suggested that the days of the Democracy Wall as a forum for the democratic-minded, the rebellious and the eccentric may be numbered.

The scaled-down economic plan, which is expected to be routinely approved by the 1,500 members of the output to rise by 4.5 percent in 1980 over this year's

The growth target for this year had been 5.7 percent over 1978. But Soviet economists have estimated the growth actually achieved at about 4.2

Nikolai Baibakov, chief of the state economic planning organization, presented to parliament members a series of production targets for 1980, many of them lower than those envisaged in late 1975 when the Soviet Union announced its 1976-80 econom-

BAIBAKOV said oil production is targeted at 606 million tons for next year, against an original goal of 620-640 million tons for 1980. Steel production is planned for 150 million tons, compared to 160-170 million tons originally planned.

Baibakov said production in 1979 fell short of targets in steel, coal, oil, mineral fertilizers, synthetic chemicals, paper, non-ferrous metals and some consumer goods and food products.

Brezhnev confirmed earlier predictions of a poor harvest in a speech Tuesday to a closed session of the Communist Party's 250-member central commit-

The 72-year-old president blamed "bottlenecks and shortcomings" for the economic troubles. But Western analysts blamed the grain shortfall on record cold winter in 1978-79, particularly in Western Siberia, Kazakhstan and northeast of the Ural Mountains; wet weather during the harvest and shortages of storage and drying facilities.

TASS, THE OFFICIAL Soviet news agency, said Brezhnev told the committee 1979 was "perhaps the most difficult year" of the 1976-80 five-year planning

"The assignments for 1980-are lower in a number of aspects than those for the five-year plan," said Brezhnev

He stressed some good news, including construction of more than 1 billion square feet of new housing in the past four years and an increase of more than 13 per cent-in per capita income in the same period. But bad news predominated.

Brezhnev said the 1979 grain harvest totaled 178 million metric tons, 48 million below the target of 226 million. Oil output reached 585 million tons; the goal was 595 million. Last year's harvest was a record 237.2 million tons, while oil output was 572 million

ELECTRIC POWER production was 1.245 billion kilowatt hours, 20 million kilowatt hours short of the target. Production of natural gas did better; at 400 billion cubic meters, it was 4 billion cubic meters

Brezhnev called for more "initiative at the grassroots level." But he continued to maintain the basic principle that "a socialist economy is inconceivable without strengthening the principle of centralism."

The nation's top economic official, Premier Alexei N. Kosygin, has been out of public sight since Oct. 17 and rzportedly is ill. His chief deputy, Nikolai A. Tikhonov, a 74-year-old economic planner, was elevated Tuesday to full membership in the Communist Party's ruling Politburo, presumably to help im-

prove economic management. Western analysts speculated that the move put Tikhonov in line for the premiership. But a ser Soviet official discouraged speculation that the change would be made during the current Supreme Soviet meeting.

Tikhonov's promotion brought the Politburo back up to 14 members. The party central committee named Mikhail S. Gorbachev, the 48-year-old party secretary for agriculture, to replace Tikhonov as one of nine candidate Politburo members
