Saloon Stops Popping Tops

The nightly crowd at the Blue Grill was a heavy-drinking bunch, but those who visit the old barroom now are trying to swear off the hard stuff. Sunday's West Texas Life tells the story of a retired bar owner who's helping others fight alcoholism.

COMING SUNDAY

The Court's Future

Lucius Bunton, the new resident judge of Midland's U.S. District Court, talks about what he expects for the court in the future. Staff Writer Bill Modisett tells the story in Sunday's Reporter-Telegram.

Nuclear Waste Disposal

While activists worry about the disposal of radioactive wastes from proposed nuclear power plants, the problems already are being handled here. Sunday's Reporter-Telegram looks at the handling of radioactive wastes in the Permian Basin.

Vol. 50, No. 261, Daily 15¢, Sunday 35¢

FRIDAY, NOVEMBER 30, 1979 **40 PAGES, 4 SECTIONS**

Santa Claus will start his Christmas parade at drews Highway, go southeast along Wall Street, the interesection of Whitney Drive and Andrews Highway. The entourage will continue down An-

turn up Main Street and end at Ohio Street.

Santa Claus is coming!

Childrens' favorite to head parade

Santa Claus will be making his official appearance in Midland Saturday during the ninth annual Christmas Parade to kick off the Christmas shopping season.

Joe Golding, parade chairman, said the parade will begin at 10 a.m. and start from the intersection of Whitney Drive and Andrews Highway. It will proceed southeast along Andrews Highway to Wall Street, then move east on Wall to Main Street. The parade will end at the corner of Main and Ohio streets.

About 50 floats, bands and marching units will participate in the parade. The floats will be competing for \$1,500

General theme is "Christmas Carols - Old and New." Entries in the parade are:

Boy Scout Color Guard, State Rep. Tom Craddick, Midland High School band, Church of God float, East Side Lions Club, Midland Schools Food Service float, Big Brothers-Big Sisters, Midland County Farmers' Union float, Midland YMCA-Indian Guides float, Antioch Baptist Church float, Edison Freshman High School band.

Also, Acceens float, Suez Tin Lizzie patrol, Sweet Adelines float, Negro Business and Professional Women's Club, Lambda Epsilon Chi float, Altrusa Club, Goddard Junior High School band, Oaklawn Park Baptist School float, West Texas Antique Autos, Vocational Office Education float, Midland College Baptist Student Union, St. Ann's Catholic Church float, Cub Scouts Pack 96, Lee Freshman High School band.

Other participants are Camp Fire Girls float, First Assembly of God float, Cub Scout Den No. 5, Midland Senior Citizens, Boy Scout Troop No. 19 float, Odessa scooter patrol, Midland Cosmetology float, San Jacinto Junior High band, recreation baton twirlers, Permian Basin Parliamentarians, Greater Ideal Baptist Church float, Tall City Road Riders.

Also, Alamo Junior High School band, Permian Basin Girl Scouts float, Midland West Rotary Club, Midland College Student Senate float, Meals on Wheels float, Lee High School band, Melanie Phillips horses, horse-drawn wagon, Mark Brackens horse and the Tall City Youth

Mexico says it won't let the shah return

MEXICO CITY (AP) - Mexico turned its back on the shah and jarred his U.S. hosts, declaring it will not renew the deposed monarch's tourist visa because his presence "would be contrary to the best interests of the country." There was speculation the shah might seek sanctuary in Egypt or the Caribbean.

Egyptian President Anwar Sadat said he ordered his ambassador in Washington to to reiterate his invitation for the shah to come to Egypt. Sadat's spokesman announced the move and said Sadat's presidential plane is ready for takeoff at "any moment" to pick up the shah and fly

There was no indication whether the shah would take up Sadat's

In Washington, the State Department said Mexico's announcement Thursday night would not change the Carter administration's position on the shah's stay in the United States.

"We have said all along that it is up to him to make his decisions about travel, both as to time and destination," said spokesman Walter Ram

Asked if the Mexican decision had come as a surprise, one U.S. official, who insisted on remaining anonymous, replied: "Yes, you're damn

Mexican Foreign Minister Jorge Castaneda announced his government's decision in a statement read to reporters. Saying the situation in-

volving the shah "had changed radi-cally," Castaneda said it would make. "no sense for him to return to Mexi-...co." The foreign minister refused to answer questions.

That word came one day after doctors treating Shah Mohammad Reza Pahlavi at a New York City hospital for cancer and gallstones told their patient he was free to travel. There

Related stories, Page 6A

had been reports the shah planned to return to his rented complex in the Mexican tourist resort of Cuernavaca within 10 days.

There was no immediate word from the shah or his spokesmen on where the deposed monarch would seek refuge now that Mexico had barred its doors to him. There was speculation he might return to Egypt or the Caribbean, where he stopped temporarily after going into exile last January. South Africa also was mentioned as possible destination.

The New York Daily News, quoting sources, in today's editions said the shah had arranged "a couple of options for himself." The paper said the shah might seek "at least temporary refuge in the Caribbean."

After leaving Iran at the height of Ayatollah Ruhollah Khomeini's Moslem revolution last January, the shah and his wife, Empress Farah Diba, stopped briefly in Egypt, Morocco and the Bahamas before moving to the Cuernavaca estate, 50 miles south of Mexico City.

After the shah went to New York for treatment last month, Iranian militants seized the U.S. Embassy in Tehran and they continue to hold at least 50 Americans hostage to back their demand that the shah be returned to Iran for trial. The militants have threatened to speed up the trial of their hostages on spy charges if the United States lets the shah leave for any country but Iran.

Sadat, a long-time friend of the shah, has repeatedly urged him to return. But a U.S. official, covmenting on Sadat's offer, said the Carter administration was not certain Egypt ought to be given the additional problems that might arise from harboring the exiled monarch. Sadat himself has become an outcast in the Arab world for signing a peace treaty with

The six-month tourist visa Mexico gave the shah last summer expires on Dec. 9. But the Mexican Foreign Ministry had said earlier it was valid for only one entry and exit and the shah would have to reapply if he planned to

In denying him sanctuary, Castaneda noted that "the world is facing a real crisis, described by U.N. Secretary-General Kurt Waldheim as a threat to international peace and se-

-Iran crisis at-a-glance

By The Associated Press

Fifty Americans were still hostage at the U.S. Embassy in Tehran today as Iran and the United States continued a cold war over the demand that the U.S. return the deposed shah for trial. Here are today's developments:

In Mexico

Mexico turned its back on Shah Mohammah Reza Pahlava, declaring it will not renew the former monarch's tourist visa because his presence "would be contrary to the best interests of the country." The shah had been expected to go to Mexico, possibly by the weekend, after completing medical care in New York.

In Washington The government apparently was caught by surprise by Mexico's decision, but Carter administration officials said it would not change the government's position on the monarch's stay in the United States. "We have said all along that it is up to him to make his decisions about travel, both as to time and destination," said a State Department official.

President Anwar Sadat ordered his ambassador to Washington to reiterate to the shah his offer of refuge in Egypt and said his presidential plane is ready to take off at "any moment" to fly the shah to Cairo, a presidential spokesman said.

In New York The shah, whose arrival at New York Hospital-Cornell Medical Center triggered the embassy takeover on Nov. 4, remained hospitalized.

There was speculation the shah would go to the Caribbean, where he stayed briefly after he left Iran last February.

Hospital employees said they were eager for his departure, saying it

would mean an end to security checks and fear of bombings.

Hundreds of thousands of Iranians, marking the holiest day of their Shiite Moslem calendar, massed at Tehran University in preparation for a march to the U.S. Embassy where militants are holding the American

Revolutionary leader Ayatollah Ruhollah Khomeini called on Iran's Shiite Moslem majority to use the Ashura holy day, a time of ritual mass mourning for the founder of the Moslem sect, to vent their fury against the United States.

Elsewhere in America

An Associated Press-NBC News poll said Americans are outraged that fellow citizens are held hostage in Iran and fear the crisis could lead to war. Nevertheless, the public would support military action if the hostages were harmed or put on trial.

Four out of five Americans said they are personally angry about the taking of Americans as hostages in Iran. And more than seven out of 10 said President Carter is doing all he can to get the hostages freed.

In the Netherlands

The Carter administration filed suit with the World Court in The Hague Thursday in an effort to free the hostages. The suit argues that Iran has violated international treaties and conventions and must free the Ameri-

At the United Nations

Diplomats and U.N. officials were reluctant to forecast the outcome of a U.N. Security Council meeting on the U.S.-Iranian crisis until they know who — if anyone — will represent Iran.

A decision was expected today on whether Iran's religious rulers would

permit acting foreign minister, Sadegh Ghotbzadeh, to participate in the session scheduled for Saturday evening. Theoretically, the council could order the release of the hostages held in the embassy in Tehran since Nov. 4.

Christmas Differences resolved by officials of Midland home finance group

By LANA CUNNINGHAM Staff Writer

Differences over allocations of \$35 million in bond money for a low interest home loan program have been ironed out and threat of a lawsuit dropped, Harry Clark told the news media Thursday night. Clark, chairman of the Midland Housing Finance Corporation, in a

Related story, Page 2A

quickly-called late night news conference, said the differences were rectified during an afternoon session with four of the six participants.

The other two - West Central Investment Corp. and First Savings & Loan Association - were contacted by telephone and agreed to the changes, said Clark.

Investors Inc., and Mortgage & Trust will be getting more money while Citizens Savings & Loan Association and Jackie Johnson Mortage

Co. are getting less than what had been allocated in September, Clark

The Single Family Mortgage Revenue Financing Program will give low interest loans to low and moderate income families. Maximum limit on The sudden change in allocations came after Bill Oglesby, president of

Investors Inc., charged the corporation had played favorites when determining each participant's amount and was violating terms of a sales If the program continued as set out, Oglesby charged he would file a lawsuit. This action would have shelved the program since bonds can't be sold

if litigation is pending against the program, an underwriter had said. Before the Thursday session, allocations had been: Citizens Savings, \$10 million; First Savings & Loan Association, \$2.5 million; Investors

Inc., \$5 million; Jackie Johnson Mortgage Co., \$7,087,500; Mortgage & Trust, Inc., \$2.5 million; and West Central Investment Corp., \$2,5 mil-

After reallocation, the new amounts are: Citizens Savings, \$8 million; First Savings, \$2.5 million; Investors Inc., \$6,293,750; Jackie Johnson, \$6,-293,750; Mortgage & Trust, \$4 million; and West Central, \$2.5 million. Clark explained the corporation "felt it (the charges) was serious

enough to make some adjustments" in allocations.

He attributed success of the meeting with participants to Don Harvey, a Realtor, and Clyde Brown, a builder. 'They (Harvey and Brown) took an interest in it (the program) and

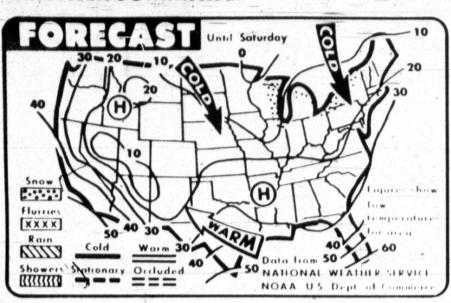

worked to get them (participants) together to discuss the matter," Clark He admitted the primary reason for the meeting was "to avoid a possible lawsuit. That would have had a disastrous effect upon the program."

A new sales agreement is being sent to the participants to sign. Clark added. This would nullify the previous agreement which Oglesby had men-

The underwriters will follow the original schedule of trying to deliver the bond money to Midland between Dec. 11-20. Despite obstacles encountered in trying to set up the low interest loan program, Clark said he still feels the program will benefit a lot of people.

"It can mean a savings of \$100 a month on the house payment and \$1,500 to \$2,000 in a down payment," he explained. MHFC has been told by the underwriting firm of Howard, Weil, La-Bouisse and Friedrichs, Inc., it expects the interest rate to be 91/4 to 91/4 percent. Current interest rates at lending institutions hover at 11 to 111/4

WEATHER SUMMARY

Warm weather is expected Friday until Saturday morning for southern California, southern Arizona and central and southern Florida. Cold weather is forecast for almost all of the nation. Snow flurries are expected for the Great Lakes and St. Lawrence Valley. (AP Laserphoto)

Lawyer investigating Jordan acknowledges delicate job

NEW YORK (AP) - Investigating criminal allegations against the man who runs the White House for the president of the United States is a delicate job, the lawyer appointed to look into charges that Hamilton Jordan used cocaine acknowledges.

But New York attorney Arthur H. Christy, 56, who built a reputation as a tough prosecutor of major underworld crime figures during the 1950s, says he's still honored to have the

"I really am very honored to have this appointment to do a very delicate investigation," he said Thursday after a special three-judge court named him the special prosecutor to investigate allegations against the White House chief of staff.

He pledged a "very thorough, complete and certainly very impartial investigation ... as expeditiously as possible in fairness to Mr. Jordan." Christy was sworn in Thursday by

Senior Federal Appeals Judge J. Edward Lumbard. Jordan has denied allegations that he ever used the illegal drug, and will not step down as Carter's top assis-

17-year-old Odessan killed

ODESSA - A 17-year-old Odessan was killed about 8:45 p.m. Thursday 1.5 miles west of Odessa when his car struck a cattle guard post and overturned.

Ronald Glen Phillips was pronounced dead at the scene of the accident, at the intersection of 22nd Street and Polaris Street, by Peace

Justice Jimmy Harris. According to Department of Public Safety trooper Gary Albus who investigated, Phillips was eastbound on 22nd Street when he came to the intersection. His vehicle then struck a cattle guard post and rolled over one tant during the investigation. The Justice Department said there was no reason for him to do so.

President Carter expressed his "complete confidence" in Jordan shortly after the special prosecutor was named.

Attorney General Benjamin R. Civiletti, in calling for the special prosecutor, said a preliminary FBI investigation turned up no cause for further investigation into three of the allegations that Jordan used cocaine.

As for a claim that Jordan used cocaine at the New York discotheque Studio 54, Civiletti said the FBI had turned up no evidence to warrant prosecution.

However, the attorney general said he was unable to say that the matter "is so unsubstantiated that no further investigation ... is warranted.'

Civiletti recommended that the investigation be limited to the Studio 54 case, but the court said Christy should probe, "any other related or relevant allegation" of drug law violation.

Studio 54 owners Steve Rubell and Ian Schrager have charged Jordan used cocaine at the discotheque in 1978. They said they would testify about Jordan in return for immunity from prosecution in a tax evasion charge they face.

Civiletti, in his petition to the court last week, expressed doubt that the witnesses who allege Jordan used cocaine can be trusted.

He said a special prosecutor would be able to carry the investigation farther because — unlike the attorney general — a special prosecutor could grant immunity, subpoena witnesses or plea-bargain to elicit testimony.

Jordan said he was disappointed that limits on Civiletti's powers under the Ethics in Government Act had forced the attorney general to seek a

special prosecutor. The Ethics Act took effect last year in response to Watergate and related

Pope adds another first to the list

ISTANBUL, Turkey (AP) — Pope John Paul II took one more step toward unification of the Roman Catholic and Eastern Orthodox Churches today by becoming the first pontiff in nine centuries to attend a full Orthodox service.

Although the pope did not join in celebrating Mass, he hummed through the liturgy in a low voice and made the sign of the cross from right to left in the Orthodox manner; and not from left to right as Roman Catholics usually do.

The pope wore a white robe and a red mantle topped with a gold-embroidered red sash, and was greeted by Patriarch Demetrius I at the St. George Orthodox Church for their second meeting in two days.

The patriarch wore a black robe and carried an iron staff topped with two iron serpents as he led the pope into the church for the feast of St. Andrew -the patron of the Orthodox

The pope apparently was unaware of the bombing of nine bank branches in Istanbul shortly after midnight by a Moslem extremist group protesting his visit to this predominantly Moslem nation.

Police said the blasts caused damage but no injuries. The banks were atleast six miles from the residence of the Vatican envoy, where the pope was staying.

The pope told Istanbul's small Catholic community Thursday night at his first public Mass of his threeday Turkish visit that he would take part in the celebration of the feast of St. Andrew, "but we will not be able to concelebrate. That is the most painful sign of the misfortune introduced in the only church of Christ through division.

The Roman Catholic Church and the Eastern Orthodox Churches split in the Great Schism of 1054, after a long-seething conflict over the authority of the pope. Pope Leo IX and Patriarch Michael Cerularius of Constantinople, the name for Istanbul until 1930, each excommunicated the other. Since then, no pope has ever attended an Orthodox Mass or Eucha-

Rapprochement between the two churches began when Pope Paul VI and Patriarch Athenagoras embraced at a historic meeting in Jerusalem in 1964. Three years later, the two churches lifted their mutual excommunications and exchanged

Now, following in the footsteps of Pope Paul VI, John Paul II prepared the ground for a 60-member joint theological commission to overcome some of the difficulties still separating the two churches.

Besides papal primacy and different attitudes on the priestly celibacy and divorce - the Orthodox grant divorce on grounds of adultery and allow married men to be ordained the 13 Eastern churches are sometimes fiercely independent.

Warmer weather on way Saturday

Midlanders who awoke today to a record low temperature for the date can look forward to slightly warmer temperatures Saturday, the weatherman said.

Mostly fair and not as cold through Saturday is the forecast from the National Weather Service Office at Midland Regional Airport today.

High Saturday should be only in the mid-50s and the overnight low is expected to be in the mid-20s.

While that's not exactly warm, the predictions beat the temperatures measured Thursday when the high was only 48 degrees. The overnight low, set at 7 a.m. today, set a record for the date at 18 degrees.

Previous record low for today was a not-much-warmer 22 degrees set in 1957. The record high for Thursday is 78 degrees set in 1975.

Rain still is not a part of the forecast, so November likely will end showing only a trace of moisture for the entire 30 day Annual rainfall total so far is 13.25 nches.

Pickup-bus wreck hurts 1-year-old

A 1-year-old Midland girl was treated and released from Midland Memorial Hospital Thursday afternoon for injuries she received in a pickupschool bus collision.

According to Department of Public Safety trooper Woody Jackson, Shannon Gene Madrid received minor facial injuries about 4: 30 p.m. Thursday when the pickup driven by her mother, Susan Madrid, 19, of Midland, was involved in a collision with a school bus driven by Eunice Roach of Mid-

The accident occurred at the intersection of County Road 1194 and Coun-

Home reported as burglarized

A Midland man told police Thursday that his home was burglarized and items valued at \$142 were taken.

Brian Rankin, 609 W. Cowden Ave., said items taken from his home included three 36-inch blue cloth pillows and assorted change.

Method of entry and exit from Rankin's residence was not immediately determined, according to police.

Responding to a warm welcome Thursday is Col. Wilson Speir and his wife Ann Marie. Speir and his wife were honored at a reception at the regional Texas Department of Public Safety headquarters. Speir, the director of the DPS since 1968, will retire at the end of this year. (Staff Photo by Bruce

Reception recalls early years for Wilson Speir

By MIKE SLATON Staff Writer

Texàs Rangers and the highway patrol made up the entire 500-member Department of Public Safety that November day in 1941 when Col. Wilson E. "Pat" Speir joined the Department of Public Safety. Today, 4,450 people fill the patrol cars and offices of the DPS

At the end of this year and after 38 years with the DPS, Speir, 62, the director of the DPS since 1968, will

Speir, who once was assigned to the Midland DPS regional office, was honored at a reception Thursday afternoon here. He was commander of the DPS's 49-county Region IV from 1957 to 1962. That region, which is headquartered in Midland, covers Eastland westward to El Paso and Midland southward to Del Rio.

Speir, the fourth director since the DPS was founded in 1935, will be succeeded by James B. Adams, former assistant director of the Federal Bureau of Investigation and now head of the governor's Criminal Justice Council. Speir followed Homer Garrison Jr., who was the DPS director from 1938 until his death 30 years

Both Texas and the DPS have grown a great deal since Speir joined the department. And that growth is one of the greatest challenges the future holds for the DPS, Speir said. Noting that about 1,000 motorists

per day are added to Texas roads, the director emphasized "adequate spending" to support the DPS in its efforts to keep up with the daily influx of vehicles. The DPS must "maintain growth commensurate with the growth of Texas.

Closely tied to the question of finance, is the ability of the DPS to "recruit, train and retain high quality personnel," Speir said.

"We (DPS) are still recruiting high quality people, but they are increasingly difficult to recruit because of competition with private industry."

Another challenge faced by the DPS is its alliance with the criminal justice system, said Speir. "We must secure (between people in law enforcement agencies and the

greater degree of support and cooperation," he explained. The DPS has gone through a number of changes trying to keep up with a growing Texas over the years, said Speir. Tremendous changes have

rest of the criminal justice system) a

taken place in Texas traffic since 1941, when Speir joined the force. "There are four times the number of vehicles today" than 38 years ago, and with the proliferating cars came a comparable growth in the maze that is the highway system.

Communication in the department has expanded over the years to a network of 32 commmunication centers throughout Texas, he said. A building program instrumented

in Speir's service as director of the DPS has earmarked \$1 of every drivers' license fee for department buildings

One result of such budgeting has been the expansion of DPS laboratory facilities. A goal of his, said Speir, has been "to get a crime lab within two hours of every law enforcement officer in the state.

That goal has nearly been reached

with 12 laboratories in operation and a 13th planned for Amarillo, he said. The scope of the DPS has been another area of growth in the department. The highway patrol and the Texas Rangers made up the DPS forces in early years. Today the department is involved in such areas as driver's licenses, motor vehicle inspection, narcotics investigation,

cle theft, he said. With all the challenges and corresponding developments to the challenges Speir has seen since he joined the DPS, the director still looks to the individual trooper for the future of the

criminal intelligence and motor vehi-

"The greatest asset (of the DPS) is the quality of its people; it's what I take the most pride in. I feel very good about the department," Speir

Lawyers arguing trespass case

CLAREMORE, Okla. (AP) - Reporters should not be subject to trespassing citations in some cases even if a story takes them onto private property, attorneys are arguing in a state court trial here. Testimony was scheduled to re-

sume today in the trial of nine reporters charged with trespassing on Public Service Co. of Oklahoma proper-The reporters were handed \$25 tickets after they accompanied 339 anti-

nuclear protesters in a June 2 march on the site of the proposed Black Fox nuclear plant 30 miles east of Tulsa. A mass trial for the protesters ended in a hung jury and charges

were later dismissed. The reporters opted for a separate trial.

Housing 'critical,' Rotarians are told

By BILL MODISETT Staff Writer

Calling the housing situation in Midland "critical," Harry Clark, chairman of Midland Housing Finance Corporation, Thursday told Rotarians housing and jobs are essential for the city's continued growth.

The Single Family Mortgage Revenue Financing Program being established in Midland, Clark said, would make \$35 million in bonds available for use by lending institutions in financing home purchases at a lower interest rate.

Noting that the proposal has encountered a lot of "problems," Clark said those bonds are important to families wanting to obtain home loans here.

Noting that Midland's major resource (oil) is a "depletable resource," Clark said the city must be able to offer new residents jobs and housing to lure them here when the resource is depleted. Clark said he agrees with the City

Council's decision Tuesday to not apply for federal Community Development funds this year because of a housing subsidy clause. But Clark added, "It is impossible to have housing for low-income people without subsidy."

Pointing to the success of Hillcres

Manor, which he said is the city's major public housing attempt, Clark said, "Public housing in Midland has 'had several abortive attempts.'

Hillcrest Manor has experienced 100 percent occupancy since it opened, he said, and has a waiting

Col. Wilson Speir, who retires Dec. 31 as director of the Texas Department of Public Safety, and his wife, Ann Marie, were special guests at the Rotary luncheon. Speir formerly was regional commander of the DPS in Midland and is'a former member of Midland Rotary Club.

Zeppo Marx dies

PALM SPRINGS, Calif. (AP) -Zeppo Marx — the last of the Marx Brothers and straight man to his three zany brothers, Groucho, Harpo and Chico - died early today at Eisenhower Medical Center, the hospi-

tal said. He was 78. Nursing supervisor Pat Garrett said Marx died after a long illness, but declined to specify what it was. She said he was hospitalized Nov. 25. Zeppo was the best looking, and in

the movies he always got the girl. But Zeppo didn't fit in with the zaniness of the others and left the group after the release of their fifth

film, "Duck Soup," in 1933. He had handled the comedy team's business matters and played romantic relief in the earliest and probably best Marx films: "The Cocoanuts, "Animal Crackers," "Monkey Business," "Horse Feathers" and "Duck

Another brother, Gummo, left the act before Zeppo.
Zeppo was born Herbert Marx in

New York City in 1901.

The family of comedians made audiences laugh time after time with their totally irreverent attempts at dismantling the establishment.

They were contemptuous of authority at a time when most young people behaved, and their nihilistic humor influenced later comedy writing.

After "The Cocoanuts" was released in 1929, many would-be comedians began imitating Groucho's crouching, loping walk; parted their hair in the middle; wore wire-rimmed glasses and square mustaches, and wiggled a cigar.

Groucho and Gummo died in 1977, Chico in 1961 and Harpo in 1964.

Zeppo married Marion Benda in 1927 and had a son, Timothy. But that marriage ended in divorce and he wed Barbara Blakely in 1959. His second marriage also ended in divorce. He lived in Palm Springs.

Memorial services will be held Sunday at the Temple Isaiah in Palm Springs, said publicist Lee Solters.

Estrada made the announcement personally Thursday night, after earlier denying reports that he had taken out a marriage license in Las Vegas, Nev., on Sunday.

The marriage announcement was confirmed by Bill Barron, a spokesman for MGM, which produces the hit

NBC-TV series. "I wanted to be left alone, I wanted a private home life," Estrada said in a telephone interview Thursday night. "But the information leaked out. So then I thought I would deny it. But my phone was still ringing off the wall so I figured I'd better go pub-

Estrada said he and 39-year-old Joyce Miller of Beverly Hills flew to Las Vegas Sunday, were married by a federal judge and then flew back to have lunch at Art's Deli in Studio

He used lunch at Art's Deli as an alibi in the denial he released earlier in the day

In that statement, Estrada said: "Some clerk thinks she saw me at the marriage license bureau. Well, a least a dozen people really saw me sitting in a Studio City deli at the time I was supposed to be in Las Vegas.

"I'm explaining this because the big flap about Las Vegas and a marriage license was such a ridiculous hoax I honestly didn't think it deserved a denial.

"Now, this is an official statement, a categorical denial. I just wonder how many of the people who have been ringing my phones off the hook will bother to print this."

The story had first been leaked to the press by a clerk in the Las Vegas marriage license bureau. Clerk Alberta Yanke said she was "reasonably sure" that the Henry E. Estrada she issued the license to was the dashing 30-year-old star of "CHiPS."

"I quickly got fed up with not being able to walk down the street with my wife," Estrada said. "And I was really fed up with the phone ringing all the time. I hope this settles it.

Estrada said he met Miss Miller two months ago while he was recuperating in Hawaii from a motorcycle accident. He says she intends "to devote herself to making me a

Three Mile Island clean-up could last 3 or 4 years

WASHINGTON (AP) — The Nuclear Regulatory Commission says it could be at least three or four years before the Three Mile Island nuclear power plant is completely cleaned

The staff of the NRC on Thursday described a series of possible timetables for cleaning up the central Pennsylvania reactor that was damaged in a March accident.

The utility that operates the plant has not submitted a final cleanup plan to the NRC. But it had believed the process could be finished by the end of 1982, the staff assessment said.

The NRC's assessment, however, found the cleanup would take until until mid-1983 to August 1984.

Richard Vollmer, who heads the NRC's Three Mile Island support team, said "many unknowns," including the extent of damage to the fuel in the reactor core, could extend the timetable beyond mid-1984.

Metropolitan Edison Co., the plant's operator, wanted to gradually vent radioactive gas from the sealed containment building into the atmosphere this month as part of the cleanup operation.

But Vollmer said the staff was awaiting an environmental assessment before acting on the utility's

request.
The air sealed inside the containment building contains radioactive Krypton-85, the staff said. The NRC and the utility say the public would be exposed to radiation doses well below federal limits if the gas were released over several months.

In related developments Thurs-

-The Pennsylvania Public Utility Commission hired a New York consulting firm to look into the management decisions and actions concerning the reactor's construction, maintenance and operation.

To be audited are the plant's owners: Metropolitan Edison of Reading, Pa.; Pennsylvania Electric Co. of Johnstown, Pa.; and General Public Utilities Corp. of Parsippany,

-Shipments of low-level radioactive waste from the damaged plant were resumed to the Hanford, Wash... disposal site, which was closed last month after shipments from other sources were found leaking.

Two trucks were carrying the waste through Ohio, Indiana, Illinois, Iowa, Nebraska, Wyoming, Utah, Montana and Idaho en route to Washington, plant officials said.

No need to ask— It tolls for them

SAN ANTONIO (AP) - A local church Wednesday began tolling its bells 49 times daily for each of the 49 Americans held captive in Iran. The pastor said the practice will continue until the hostages are released by militant Iranian students.

"We're going to be praying for the whole world to be pulled back from the brink of disaster," said Rev. Dan E. Solomon, pastor of the Travis Park United Methodist Church. "The whole world is being held hostage right now by the events in Iran."

The bells will toll at noon each day,

Solomon said.

The pastor said other churches in San Antonio had expressed interest in joining the practice.

Poll shows U.S. fears war, would support it

NEW YORK (AP) - Americans, outraged that fellow citizens are held hostage in Iran, fear the crisis could lead to war, an Associated Press-NBC News poll says. Nevertheless, the public would support military action if the hostages were harmed or put on trial.

The poll, taken Tuesday and Wednesday, found extraordinarily strong public feelings tempered by the awareness of the grave dangers posed by the crisis. Here are some of the survey's major points: -Four out of five Americans said they are personally angry about the

taking of Americans as hostages in Iran. -The public is frankly fearful of war. The number of Americans who

say war is "very likely" has tripled since last year.

Nevertheless, the poll found that, if the hostages are harmed or put

on trial, Americans decisively favor a U.S. military strike against

-On the other hand, if the hostages are released unharmed, the public overwhelmingly opposes any U.S. military retaliation against the Mos-

-By almost three to one, the public agrees that the U.S. government should not return the deposed Shah to Iran in return for the hostages. -And more than seven out of 10 say President Carter is doing all he can

The 50 Americans have been held hostage by Iranian militants for 27 days in the U.S. Embassy in Tehran. The militants have threatened to kill the hostages if the U.S. attempts to rescue them by force. They have also threatened to put the hostages on trial for espionage.

The seizure of the embassy and the Americans there, coupled with the threats against the hostages, have made a deep impression on Americans. Ninety-eight percent of the public said they had heard or read of the hostage situation — a very high level of public awareness.

Seventy-nine percent of those who said they knew about the crisis were "personally angered" by the taking of hostages. Sixteen percent said they were not angry. Three percent of the 1,381 adults interviewed across the country by telephone were not sure.

Talk of U.S. military action against Iran left Americans worried but de-

Thirty-two percent of those interviewed said they thought a war involving the United States was "very likely" within the next three

One year ago, only 10 percent of the public foresaw a war. Thirty-nine percent think war is somewhat likely and 26 percent said

war is not likely. Three percent were not sure. Despite this worry about war, two-thirds of those who have heard about the Iranian crisis said they would support a U.S. military attack against

Iran if the hostages were tried or even put on trial. Thursday, the militants warned that the departure of the shah from New York City, where he is undergoing treatment for cancer and other ailments, could accelerate the scheduling of "spy trials" for the U.S.

Twenty-one percent said they would not support a military strike even if the hostages are harmed or put on trial and 13 percent were not

On the other hand, if the hostages are released unharmed, Americans are not in a vengeful mood.

Only 14 percent would back a retaliatory U.S. attack on Iran if the hostages are let go. Seventy-nine percent would oppose such revenge and 7 percent of those who had heard of the crisis were not sure.

The Iranian militants have said that extradition of the shah to Iran for alleged crimes during his reign is the key to release of the hostages. President Carter has firmly rejected such an exchange as contrary to the basic principles of America.

The public largely agrees with Carter.

U.S. to call on the World Court for help in freeing 50 hostages

WASHINGTON (AP) — The Carter administration, following through on its promise to exhaust all peaceful avenues, has turned to the World Court for help in freeing the 50 American hostages held in the U.S. Embassy in Tehran.

The administration on Thursday filed an urgent suit with the seldomused court in The Hague, asking it to issue a judgment that Iran has violated international treaties and conventions and must free the hostages.

State Department spokesman Hodding Carter conceded that the Iranians could ignore the court's verdict as they have ignored other international statements condemning their action.

But other State Department officials, asking not to be named, said a ruling favorable to the United States could be useful even if it did not directly persuade Iran to free the

International law provides that a plaintiff can ask the U.N. Security Council for sanctions against a party that refuses to abide by a World Court

The United States is already preparing to ask the Security Council for a resolution, without sanctions, against Iran. If Iran ignores both the World Court and the Security Council, the case for sanctions could be all the stronger, the officials said.

They added that the United States

does not give up any unilateral right to act against Iran because of the court suit, although spokesman Carter repeated President Carter's contention that the administration intends to exhaust its peaceful options.

Department officials estimated that it could take a week to 10 days to assemble the 15 World Court justices and obtain an interim order for the release of the hostages.

They said it would not matter whether Iran chooses to participate. In the treaties and conventions that protect diplomats and have been signed by the two countries, the Iranian government has agreed to accept the court's jurisdiction over disputes, the officials said.

One of the United States' leading international law experts, John Norton Moore, also said it would be impossible for Iran to evade the world court's jurisdiction because of its ratification of two treaties on the sanctity of diplomatic missions. "To have these covenants violated

strikes at the very heart of the ability of nations to conduct relations," said Moore, a professor at the University of Virginia and an adviser to the American Bar Association. A court verdict favorable to the

United States would increase the moral pressure on Iran, he said. "I think the most important thing would be a clear and authoritative

international voice indicating the violation of international law and the outrageousness of the conduct on the part of Iran," he said

There was no immediate reaction to the suit by the Ayatollah Ruhollah Khomeini, Iran's revolutionary leader. But Iran's new foreign minister, Sadegh Ghotbzadeh, told interviewers for the Public Broadcasting Service that international institutions in general were "under the thumb" of the United States, echoing Khomeini's earlier statements about the United Nations.

Ghotbzadeh said Iran's Revolutionary Council has not yet decided if it will send a high-level delegation to the Security Council for the session scheduled to begin Saturday night.

In a related development, the State Department raised its estimate of the number of hostages held from 49 to

Department officials said the 50th hostage was Jerry Plotnick, a businessman from Sherman Oaks, Calif., who was in the embassy when it was seized.

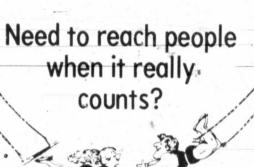

Some officials said the department only recently verified Plotnick's presence in the embassy. Others said the department had miscounted the number of hostages and not corrected the record until filing the World Court

Bombs explode

near embassy

BANGKOK, Thailand (AP) - Four "explosive devices" went off in the fish pond of the U.S. Embassy here today but caused no damage or injuries, a U.S. Embassy spokesman said.

The spokesman noted that some American embassies around the world were closed as a precaution today, a Moslem religious holiday.

Senator hopes to fill coliseum for rally on Iranian crisis

A California state senator said he hoped to fill the Los Angeles Coliseum for a rally in support of the American position on the Iranian crisis as flags separate rallies.

State Sen. Paul Carpenter, a Santa Ana Democrat, said Thursday that he would speak at the Monday night rally in support of 50 Americans held hostage since a Nov. 4 takeover of the U.S. embassy in Tehran. Carpenter said he expects the 100,

000-seat coliseum to be filled, and that he hoped to offset the \$65,000 rental with a \$1 admission fee. He said the rally would feature celebrity enter-

"There's a tremendous anger in this country," he said. "And I think it would be healthy, perhaps, to have a controlled opportunity for expression of some of that anger in a positive -

rather than negative - sense or Some of that anger was vented at

flag-burnings Thursday. Two persons were arrested after a scuffle erupted when a small group of

pro-Iranian demonstrators set fire to an American flag in Atlanta. Police spokeswoman Phyllis George said the two, one an Iranian national, were charged with misuse of the flag, creating a public distur-

bance, reckless conduct and unlawful

In Meadville, Pa., high school students burned an Iranian flag outside the Crawford County courthouse to show support for President Carter's handling of the crisis.

For too long the kids of this country have been labeled as anti-American. We're just here to try to change that attitude," said student leader Douglas Lang.

He died Wednesday at his home. Walker was born April 4, 1914, in Lindon. He was married March 28, 1938, to Odessa Vaugh in Greenville. He had lived in Crane for 30 years and worked for the maintenance department of Crane County. He was a member of Mount Zion Baptist Church.

Survivors include his wife; two sons, Freddie Walker of Crane and David Louis Walker of Garland; a sister, Mary Peoples of Linden; two brothers, Johnny Walker of Queen City and Truitt Walker of Midland; 10 grandchildren and five great-grand-

Gail Day

Gail Day, 56, of rural Midland County died Wednesday morning in a Midland hospital following an extended

Services are pending at Boxwell Brothers Funeral Home in Amarillo. Local arrangements were handled by Newnie W. Ellis Funeral Home.

Mrs. Day was born Jan, 15, 1923, in Ladora, Iowa. She came to Midland in 1976 from Amarillo, where she had lived 23 years. She was a Methodist.

Survivors include her husband, Pat R. Day; three sons, Ronald P. Day of Amarillo, Gary Day of Haughton, La., and Gregg A. Day of Midland; a brother, Pete Primley of Ladora; two sisters, Mrs. Harley York of Ladora and Mrs. Vic Hess of Clinton, Iowa; and four grandchildren

R.W. Thompson

BIG SPRING - Graveside services for R.W. "Stormy" Thompson, 73, of Big Spring, retired vice president of Cosden Oil and Chemical Co., were to be at 11 a.m. today in Trinity Memorial Park

Memorial services were to be at 2 p.m. today in the First United Methodist Church. Services were to be directed by Nally-Pickle Funeral Home of Big Spring He died Wednesday in a Dallas

Thompson was born Dec. 21, 1905, in

McLean, grew up in Vega and was married to Nancy Jo Haynes on Feb. 16, 1941, in Big Spring. He began his career with Cosden in

1936 as assistant manager of the bulk plant. He retired in 1970. Thompson was president of the Cos-

den Credit Union and was treasurer of the First United Methodist Church.

recognized for 50 years of service by the State Bar of Texas and was presented the Paul Harris Fellow Award by the Rotary Foundation.

Survivors include his wife; a daugh ter, Mrs. Don (Carolyn) Johnson of Odessa; a son, Joe R. Thompson of Santa Fe, N.M.; his mother, Maggie Thompson of Hereford; three brothers, Raymond L. Thompson of Vega, Gordon Thompson of Lubbock and R.M. Thompson of Iowa Park; and three grandchildren.

Richard Raney

DENTON - Services for Richard Raney, 34, of Denton, formerly of Midland, were to be at 1 p.m. today in Immanuel Baptist Church in Fort Worth with burial in a Cleburne ceme-

He died Wednesday in a Dallas hospital following a lengthy illness. Raney, the son of Talmadge Raney, lived in Midland until 1966 when he moved to Fort Worth. He was graduated from Lee High School in Midland. While the family resided in Midland, Talmadge Raney was a parking meter supervisor for the city.

Survivors include his mother, a sister, a son and a daughter.

Virginia Romo

Virginia Romo, 72, of Gary, Ind., formerly of Midland, died Tuesday in a Merrillville, Ind., hospital following an illness.

Services were to be at 4 p.m. today in Our Lady of Guadalupe Catholic Church with Father Charles Hassenauer oficiating. Burial was to be in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Mrs. Romo was born July 1, 1907, in Saltillo, Mexico. She came to Midland in 1970 from Gary. She moved back to Gary in August of this year. She was a

Survivors include a son, Joe Romo of Gary; two brothers, Pedro Castillo and Estaban Castillo, both of Midland; a sister, Maria Aguilar of Laredo; and three grandchildren.

Bessie Rose

RANGER - Services for Bessie M. Rose, 87, of Ranger, mother of Odell Rose of Odessa and sister of Ralph Hise of Big Spring and Leo Hise of Odessa, were to be at 2:30 p.m. today in the Mesquite and Rusk Streets Church of Christ here. Burial was to be in Colony Cemetery, directed by Killingsworth Funeral Home.

Mrs. Rose died Wednesday in a Ranger hospital.

She was born Nov. 18, 1892, in Spring Valley, Ark., and was married to James Claude Rose on Dec. 24, 1911. He died in 1967. Other survivors include five sons,

three brothers, a sister, 16 grandchil-

Court martial hearing scheduled for Garwood

CAMP LEJEUNE, N.C. (AP) - AMarine Corps hearing will convene next week to determine whether Pfc. Robert Garwood should be courtmartialed for alleged desertion and collaboration with the enemy in Viet-

Brig. Gen. David B. Barker signed an order Thursday calling for an Article 32 hearing - equivalent to a civilian grand jury proceeding. The hearing, based on a military investigation begun when Garwood returned to the United States from Vietnam earlier this year, is to begin Tuesday at

Camp Lejeune. If court-martialed and convicted of either charge, the 33-year-old Marine, who spent 131/2 years in Vietnam, could be sentenced to death.

Barker, who could have dismissed charges against Garwood, named a military judge, Maj. T.B. Hamilton Jr., to preside at the hearing. Hamilton will recommend to Barker whether a court-martial should be held.

Capt. John Schmidt, spokesman at

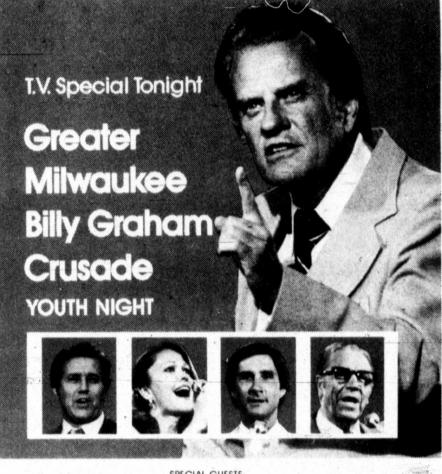

Camp Lejeune where Garwood is stationed, said the hearing would be open to the public unless Hamilton orders it

Garwood's civilian attorney, Dermot Foley of New York, said he was not surprised by the Marine Corps' decision to proceed with the case, saying it was a "knee-jerk retaliation" to a petition Foley filed Tuesday

asking that the charges be dropped. "Bobby's first sin was to survive. and his second was to file that petition," Foley said.

In addition to allegations of desertion and collaboration, the hearing will concern charges against Garwood of soliciting American forces to lay down their weapons and of miscon-

duct as a war prisoner. Garwood has been at Camp Lejeune, working as a mail clerk, since last May. He has denied the allegations against him, contending he was captured in 1965 and held as a prisoner until last March.

Last gurgling bubbles mark end to Tellico Dam battle

LENOIR CITY, Tenn. (AP) - The 43-year battle over the Tellico Dam ended with the Little Tennessee River gurgling a few last bubbles as floodgates dropped to turn it into a 16,000-acre

"I'm glad to see it filled finally," retired Tennessee Valley Authority Chairman Aubrey Wagner said while watching a crane lower the last two gates into place Thursday. "It's potentially the best hydro project TVA ever built."

In 1936, Wagner, then a young engineer tresh out of college, helped conceive plans for the dam. Three decades later, as head of the seven-state federal agency born out of Franklin Roosevelt's New Deal, he convinced Congress to take the \$130 million project off the shelf.

The last gate of six seven-ton gates fell into place at 11:23 a.m, ending a fight in which TVA at one time or another beat back attacks of farmers, trout fishermen and conservationists in addition to Cherokee Indians and the 3-inch snail darter.

The Cherokee, whose burial grounds are being covered by the lake, reacted with bitterness.

"I cannot find words strong enough to convey my contempt for the lack of honor to be found among TVA and federal officials," John A. Crowe, principal chief of Cherokee's Eastern Band, said Thursday. TVA said it will rebury

the Indian remains, which have been stored for two years at the University of Tennessee, at a site above the highwater mark.

Robert Stivers, the tribe's attorney, said the Cherokee still intend to press a federal suit to have the lake turned back into a river on the claim that their religious freedom has been vio-

lated. Zyg Plater, a Wayne State University law professor who halted the dam for three years with the snail darter, a rare 3-inch fish found in the river in 1973, said TVA acted in "obscene

haste.' "In later years, many people are going to look back at this moment with great personal shame,' Plater said Thursday night. "No one will be able to look back at it with pride.'

Congress exempted Tellico from the wildlife laws protecting the snail darter last summer. President Carter in September "reluctantly" ordered the dam's completion "notwithstanding

any other law." By midnight Thursday, the water behind the dam 25 miles southwest of Knoxville had risen 81/4 feet. TVA officials said it should rise an-

Wreckage offers mute testimony to disaster

EDITOR'S NOTE: Paul Cavanagh, a New Zealand journalist, was among a team of officials and crash investigators who reached the site of the Air New Zealand DC-10 which crashed into an Antarctic volcano Wednesday, killing all 257 persons aboard. Here is his pool dispatch.

By PAUL CAVANAGH

MOUNT EREBUS, Antarctica (AP) Smoke from Antarctica's only active volcano meanders slowly skyward. A few hundred yards away, one of the few recognizable pieces of wreckage from an Air New Zealand DC-10 offers mute testimony to one of aviation history's worst disasters.

This is the scene on the slopes of 12,400-foot Mount Erebus, where the jetliner crashed and exploded Wednesday on a sightseeing trip, killing all 257 persons aboard, including 21 Americans.

Rescue workers, mountaineers and Air New Zealand officials today began the task of recovering and identifying bodies and establishing the cause of the crash.

So searing was the heat of the explosion that surrounding snow has been glazed solid. At the time of the crash, it was estimated the aircraft had used up only a third of its fuel.

PART OF THE aircraft's tail, a couple of wheels, a fuselage section containing only four or five windows, part of a wing and an intact hot food container are the only substantial pieces among the blackened remains of the giant air-

on the steep snow-swept northern slopes of the mountain, a vertical black stripe marks clearly the spot where the DC-10 came to a fiery

Early estimates are that only between 50 and 70 bodies will be recoverable. The fiery blast was so intense that some bodies have been located hundreds of yards away from the main wreck-

Some of these have clothing intact - an indication that death came from the blast of the explosion rather than from the fire itself.

A team from New Zealand's Scott Base, 25 miles away, has set up a 20-man camp at the crash site. A key to the cause of the crash will be the recovery of the plane"s "black box" flight recorder.

THE AREA has been roped, and dangerous crevasses marked. The northern slope of Erebus is pockmarked with cre-

Theories abound as to how the aircraft met its

One suggestion being put forward by crash investigators was that nearby Mount Terra Nova might have been mistaken for Mount Erebus in the low cloud ceiling reported at the time of the crash.

According to this theory, the pilot might have turned after Mount Terra Nova, thinking it was Mount Erebus . and plunged into the side of Mount Erebus.

At Scott Base, however, a stronger theory was that the aircraft, in its approach to Ross Island from the north, simply

Midkiff & Cuthbert

At the 2,000-foot mark plowed straight into the slopes of Mount Erebus on its descent for a low run over Scott Base and McMurdo Sound, where the United States has a scientific base.

ACCORDING to Scott Base personnel, the three previous DC-10 sightseeing flights to the Scott Base area this season, all came in at varying heights.

The first was not seen from the ground because of low clouds, the second flew past so high that a telephoto lens was required to capture it on film, while the third swept much lower over the New Zealand and American basies.

The fourth flight never got as far as Scott Base. It was due at 1:30 p.m. Wednesday and the alert was raised shortly after 2 p.m. when the aircraft had not been sighted and when radio calls to the plane, which had been acknowledged on its approach to Floss Island, went unanswered.

Odessa, Texas 332-9928

'Physical agony' forced Patty to join SLA, defector says

(AP) - Kidnapped newspaper heiress Patricia Hearst Shaw was forced to join the Symbionese Liberation Army because of the "unbelievable mental strain and physical agony" she experienced at the hands of her abductors, a defector from the rebel band said, the San Francisco Chronicle reported in its Thursday editions.

The 1974 abduction and "indoctrination" were outlined by former SLA member Robyn Sue Steiner in a copyrighted

Ms. Steiner, who said she did not participate in the kidnapping, told the Chronicle she fled from the SLA before the abduction, and that her life was threatened by SLA chieftain Donald "Cinque" DeFreeze and other group members.

Patricia Hearst was released from a federal prison Feb. 1 after President Carter commuted her sentence for the robbery of a bank while with her captors.

After her release from prison, she married policeman Bernard Shaw, who had been a bodyguard after she was taken into custody by authorities.

Ms. Steiner said she learned details of the then-Ms. Hearst's treatment from SLA member Nancy Ling Perry in a telephone conversation after the kidnapping.

"I've so much compassion for Patty, who was subjected to unbelievable mental strain and physical agony. I was a terrorist voluntarily; she wasn't and it may have ruined her life," Ms. Steiner said.

"There will always be people who will sneer and say she deserved all she got. No young girl deserves what the SLA Steiner said in an interview in England where she currently lives under an assumed name.

"Patty did join the SLA after they 'indoctrinated' her, but so would any young girl with any sense, simply to avoid repetitions of their brutal treatment," Ms. Steiner said in the re-

Ms. Steiner said that although she was among the original members of the SLA band, she broke

Feminists 'honor' Clements

AUSTIN (AP) - Local feminists have taken their "Not Quite Annual **Barefoot** and Pregnant Award" out of the attic, dusted it off and presented it to Gov. Bill Clem-

The Austin chapter of the National Organization for Women (NOW) announced the award at a news conference Wednesday.

Clements had this comeback: 'You can see I'm not

barefoot and obviously I'm not pregnant."

Vicky Worsham, coordinator of the NOW chapter, said Clements earned the award by: - Firing the staff of

the Texas Commission on the Status of Women without hiring replace-

metts.
"The commission exists legaly but it. doesn't have a staff," Ms. Worsham said.

- Vetoing \$230,000 appropriated to the Texas Rehabilitation Commission for services to "displaced homemakers" women re-entering the job market upon divorce

or widowhood. Clements said there was plenty of money in various other state and federal programs to provide the necessary job training for such

More field work reported in Basin

BTA Oil Producers of Midland announced plans to drill the No. 1-7907 JV-S King as a three-quarters mile south stepout to the Prudence (Atoka gas) field of King County, 14 miles northeast of Guthrie.

The 6,200-foot test is 660 feet from north and west lines of section 12, block A-697, D.N. Robinson survey.

GARZA TRY

Petroleum Exploration & Development Funds of Midland spotted No. 1 Peel one location west and slightly north of the only well in the Three Way (Glorieta) field of Garza County, now shut in.

Location is 2,173 feet from north and 467 feet from east lines of section 1307, BS&F survey, five miles west of

Contract depth is 4,000 feet.

SUTTON PROJECT

Anderson Petroleum Inc. of Ozona will drill No. 2-131 Ida Cauthorn five miles south of Canyon gas production in the Sutton County portion of the Sawyer (Canyon) field and one mile southeast of Shurley Ranch (Canyon gas) production, 17 miles south of Sonora in Sutton County

Scheduled to 8,000 feet, location is 1,054 feet from north and 1,196 feet from west lines of section 131, block C, HE&WT survey. Ground elevation is 2,131 feet.

LEA OILER

Conoco Oil Co. announced completion of the No. 7-A Hawk in an undesignated (Drinkard) area of Lea County, four miles east of Oil Cen-

Operator reported a 24-hour pumping potential of 19 barrels of 37-gravity oil and 29 barrels of water, through

perforations from 6,612 to 6,828 feet. The producing zone was acidized with 200 gallons and fractured with

46,000 gallons. Gas-liquid ratio is 2,-Total depth is 6,880 feet, with 5.5-

inch casing set at 6,858 feet. Location is 990 feet from north and 1,980 feet from west lines of section

EDDY FINALS WELLS

Anadarko Production Co. of Houston filed potential test on No. 1-AB State Communitized in the Turkey Track, North (Morrow gas) field of Eddy County, 11 miles southwest of Loco Hills.

On 24-hour potential test it flowed 1,436,000 cubic feet of gas, through a 1/4-inch choke and perforations between 10,962 and 10,994 feet. Gas-oil ratio is 359,000-1.

Drilled to 11,300 feet, the project has 4.5-inch casing set at 11,278 feet. Location is 1,980 feet from north and 660 feet from east lines of section

William N. Beach of Midland completed No. 1-35 New Mexico State as a Red Lake, East (Queen-Grayburg) producer, 10 miles northwest of Loco

The well finaled to flow 31 barrels of 34.5-gravity oil and 16 barrels of water, through an 8/64-inch choke and perforations from 1,560 to 1,585 feet.

The producing zone was acidized with 300 gallons and fractured with 20,000 gallons. Total depth is 1,650 feet, where 4.5-

inch casing is set. Location is 660 feet from north and east lines of section 35-16s-28e

CHAVES OILERS

tion 34-7s-31e.

Moranco Oil Co. of Hobbs, N.M., finaled No. 1-34 Western Reserves-Federal in the Tom Tom (San Andres) field of Chaves County, 17 miles east of Elkins.

Operator reported a pumping potential of 84 barrels of oil, gravity unreported, and 10 barrels of water, through perforations from 3,922 to 3,961 feet, after an acid treatment of 2,500 gallons.

Total depth is 4,130 feet, with 4.5inch casing at 4,128 feet. Location spots 330 feet from north and 1,650 feet from west lines of sec-

Adams Exploration of Midland completed the No. 1 Dyan-Federal as a Tomahawk (San Andre.) producer, 18 miles southeast of Kenna.

On 24-hour test, it made 7 barrels of 26.9-gravity oil, and 14 barrels of water, through perforations from 4,-232 to 4,326.5 feet.

The producing zone was acidized with 8,000 gallons, gas-liquid ratio is 1,576-1

Total depth is 4,400 feet and 4.5-inch casing is set at 4,390 feet. Location is 990 feet from north and 320 feet from east lines of section'5-8s-32e.

WINKLER, WARD

MGF Oil Corp. of Midland filed application to drill the No. 1-43-E University, one-half mile south and slightly east of production in the Winkler County portion of the War-

Location for the 5,300-foot test is 660 feet from south and east lines of section 43, block 21, University Land survey, 10.8 miles northwest of

The same firm completed the No. 2-30 University in the Ward County portion of the War-Wink (Delaware gas) field, three-eighths mile southeast of production, 10 miles northwest of Pvote.

Operator reported a calculated absolute open flow potential of 6,200,000 cubic feet of gas per day, through perforations from 5,114 to 5,117 feet. The producing zone was acidized

with 100 gallons. Total depth is 5,250 feet and 5.5-inch casing is set at 5,249 feet. Ground

elevation is 2,727 feet. 'Location spots 660 feet from south and west lines of section 30, block 17, University Land survey.

West Texas areas gain field producers, projects

Gas Lift Sales & Service Inc., of Midland announced plans to re-enter the former Cities Service Co. No. 1-D Priest, a 9.920-foot dry hole in Pecos County and cleanout to 7,400 feet for tests as a wildcat.

The project, seven miles southwest of Bakersfield, is 1,980 feet from north and west lines of section 98, block 194, GC&SF survey. It is one location south of Canyon lime gas production in the Priest field and two and threeeighths miles southwest of the Zimmerman (Strawn) pool.

VAL VERDE TRY

Highland Resources of Houston will dig No. 1 Jarrett Ranch, as a 15,500foot wildcat in Val Verde County, 7.5 miles southwest of Juno.

It is 10 miles southeast of the Morrison, Southeast (Ellenburger) field and 660 feet from north and 2,560 feet from west lines of Mason County School Land survey No. 4, abstract

CROCKETT WILDCATS

Monsanto Co., operating from Midland, spotted loation for a 10,300-foot gas wildcat in Crockett County, 22 miles southwest of Ozona.

It is No. 1 Cox, 4.25 miles southeast of the Perner Ranch (Simpson and Devonian gas) pool and 660 feet from the most southerly north line and 4,000 feet from the most southerly west line of section 29.5, block 1, I&GN survey. Elevation is 2,514 feet.

The site also is 4.5 miles east of an extension area to Devonian gas producton in the Ingham multipay pool. It also is 1.25 miles east of an 11,676foot failure.

Ocean Minerals, Inc., of Midland No. 4-24-29 University is a shallow gas wildcat 22 miles west of Ozona in

Crockett County. The project, scheduled on a 1,700foot contract, is 2,173 feet from north and east lines of section 24, block 29, University Lands survey. Elevation is

The location is 5/8 mile northeast of dual Devonian and Canyon gas production in the Ingham pool and one and seven-eighths miles northeast of an undesignated Queen gas disco-

CROCKETT OPENERS

Dameron Petroleum Corp. of Midland announced potential tests on a pair of Clearfork discoveries in the American multipay gas area of Crockett County, 32 miles southwest

The No. 2-11-A W. P. Hoover was finaled for a daily flowing potential of 275 barrels of 40.5-gravity oil, no water, through a 14/64-inch choke and perforations from 3,921 to 3,939 feet. The gas-oil ratio is 154-1. The pay was

acidized with 2,200 gallons. Total depth is 3,978 feet and 5.5-inch pipe is set on bottom. Plugged back depth is 3.966 feet.

The lower Clear Fork was topped at 3,814 feet on kelly bushing elevation of 2,452 feet.

Location is 894 feet from north and 786 feet from west lines of section 11. block NN, GC&SF survey.

Dameron No. 1-3 Laura Hoover Estate, three and three eighths miles northeast of No. 2-11-A W. P. Hoover, finaled for a daily flow of 190 barrels of 39.2-gravity oil, no water, through a 12/64-inch choke and perforations from 4,173 to 4,182 feet. The gas-oil ratio is 459-1 and the pay was acidized

with 1,000 gallons. The lower Clear Fork was topped at 3.927 feet on kelly bushing elevation of 2,102 feet.

The total depth is 4,332 feet, 4.5-inch pipe is set at 4,295 feet and plugged back depth is 4,270 feet.

Wellsite is 3,144 feet from north and 554 feet from east lines of section 3, block NNN, Vance Vickory survey.

This discovery is separated from No. 2-11-A by a 15,003-foot dry hole and is 7/8 mile southwest of dual Clear Fork and Strawn gas production in the American field.

Carter delays choice

WASHINGTON (AP) - President Carter told Congress Thursday he is delaying for 60 days his selection of a pipeline route to transport Alaska crude oil from the west coast eastward to inland states.

In a letter to the speaker of the House and the president of the Senate, Carter said he needed more time to get "additional information on unresolved issues." The letter did not explain further:

The administration has been considering several proposals for west-to-east oil pipelines, on a timetable set by Congress in the Public Utility Regulatory Policies Act of 1978, requiring cabinet recommendations and a presidential choice.

James R. Schlesinger, then secretary of energy, recommended approval of the Northern Tier Pipeline Project last Aug. 22, and Interior Secretary Cecil Andrus sent this recommendation forward to Carter, adding his own support, on Oct.

Carter had been expected to reach a decision in November. Carter's letter said he wanted additional time to give "thorough consideration" to the pipe-

Oil-state senators ready to accept tax boost—'if'

By JIM LUTHER

WASHINGTON (AP) - Oil-state senators appear willing to accept a \$22.5 billion boost in the "windfallprofits" tax if they can win assurance no other increase will be approved.

Some senators who are sponsoring other amendments that would add an additional \$60 billion or so to the tax have indicated support for the bar-

But no agreement is in hand yet and, as a result, Senate action on the bill is being blocked for the third

Following a day of closed-door negotiations Thursday, Senate Democratic Leader Robert C. Byrd took the tax bill off this morning's agenda to allow time for more bargaining. He said he is optimistic the stalemate can be broken later in the day.

At the heart of the impasse is an amendment by Sens. John Chafee, R-R.I., and Bill Bradley, D-N.J., that would increase from 60 percent to 75 percent the "windfall" tax rate on 'new" oil - that from fields discovered since 1973. Such new oil, which is owned mainly by the major oil companies, represents 60 percent of current U.S. production.

The Senate refused earlier in the week to kill the amendment, and the 58-39 vote indicated it was likely to pass. But Sen. Robert Dole, R-Kan.,

and other oil-state members began talking against the proposal and blocked a vote on it.

After a round of negotiations, Dole said Thursday that he and his allies might give in and take the Chafee-Bradley amendment if they could be assured other proposals for toughening the tax would be dropped.

Chafee agreed but said he could speak for no other senator on his

Byrd was pressing hardest for an

end to the stalemate, but he said the Senate would deserve the scorn of Americans if it failed to toughen the 'windfall-profits" tax. "I've never been one...to use the oil

companies as a whipping boy...but this institution has a duty to raise the revenues in this bill," Byrd said. "The American people expect the Senate to do that.

If the Senate failed, it would become the target of justifiable criticism, Byrd added.

The Carter administration also is urging that the tax be increased and is supporting three pending amendments that would add an estimated \$60 billion to the 11-year total.

Those amendments would impose a 20 percent tax on various types of oil that the Senate Finance Committee

voted to exempt, subject oil owned by the states to the tax and make a part of the tax permanent.

It is those three amendments Dole and his allies want to see junked before they agree to accept the \$22.5 billion increase sponsored by Chafee and Bradley.

Pressure to approve the Chafee-Bradley amendment increased after the Senate voted earlier in the week to cut the tax to help independent operators. Independents are not associated with major oil companies but drill about 90 percent of the nation's ex-

ploratory wells. That action cut \$10 billion from the tax, and the Chafee-Bradley plan was offered as a way to recoup that loss and increase the tax even further without hurting the independents.

The "windfall" tax being considered by the Senate would take an estimated \$129 billion from the oil industry from 1980 through 1990. The Chafee-Bradley proposal would increase that to about \$151 billion.

In contrast, the House-passed bill, which President Carter favors, would cost the industry \$277 billion.

Despite its commonly accepted name, the tax would not apply to profits, but to a portion of oil price increases above current levels.

Stock market gains

NEW YORK (AP) - The stock market managed a small gain Thursday despite a late sell-off that followed new threats from the Iranian students holding American hostages in Tehran.

The students said they would hasten the trial of the Americans on espionage charges if the deposed shah left the United States for Mexico, as has been ru-

The late selling tarnished a moderately strong showing by the stock market, which analysts said was encouraged by President Carter's show of strength at a Wednesday night press conference on Iran. The Dow Jones average of

30 industrial issues was up more than 4 points through much of the day, but finished with a 1.28-point increase at 831.74. It was, however, the Dow's best closing level since Oct. 12.

Advancing issues outnumbered declines on the new York Styock Exchange by a 4-3 margin, and trading on the Big Board was a moderate 33.55 million shares.

The NYSE's composite index of its listed common stocks gained .03 to 61.03. As has been the pattern in

recent days, trading action was dominated by companies with internal news developments.

Ligget Group reported a big jump in earnings and rose 35% to 42. Macke Co. also reported higher earnings and rose % to 834.

Analysts' enthusiasm about the financial outlook for domestic oil-producing and oil-servicé companies continued to drive many of those issues up. Pogo Producing gained 1/8 to 191/4, Ashland Oil rose 1 to 401/2 and Sedco gained 11/8 to 48.

Precious metals stocks were strong as gold and silver prices rose.

Standard & Poor's index of 400 industrial issues rose .09 to 119.39. The S&P 500-stock composite index gained .04 to 106.81.

On the American Stock Exchange, the market value index went up .51 to 227.57. counter composite index rose .38 to 127.52.

Livestock

AMARILLO, Texas (AP) - Texas Pan roundup. Confirmed: 300.

Trade at a near standstill throughout the Panhandle area Thursday. Limited sales of slaughter steers and heifers steady but not enough sold to test trends. Feedlots reported very limited interest and inquiry from buying sources. Sales on 200 slaughter steer and 100 heifers. The weekly volume now stands at 22,000. Note: All live cattle prices based on net weights fob the feedlot after 4 percent shrink.

Slaughter steers: pen good and mostly choice, 70-80 percent choice, 2-3 1100 lb 68.00.

Slaughter heifers: pen good and mostly Slaughter heifers: pen good and mostly

Slaughter heifers: pen good and mostly choice 2-3 975 Lb 66.00.

Real estate money to go into offices

NEW YORK (AP) — The big real estate investment money in 1980 will be going into well-situated, well-designed office buildings whose rents are relatively low and whose leases are ready to expire.

That's the assessment of John R. White, whose views are sought by major domestic fivestors, by foreign pension funds, and by blue chip corporations thinking of relocating, redesigning or expanding. The market for office space is tight, and rents are

rising. Since 1977 some buildings have added 75 percent to their gross income, and more increases are likely. Thus the desirability of expiring leases. In addition, White observes, indexing is gradually being worked into leases, assuring some landlords that tenants will share in the added operating ex-

penses, including those resulting from higher fuel

White, whose firm is capable of handling all

"Owners have to cope more effectively with ongoing inflation," said White, president and chief executive officer of Landaeur Associates, an international firm that advises on all aspects of real estate.

aspects of site choice, design, contracting and the like, but which purposely avoids taking a brokerage roll, is bullish on real estate. For 1980, he is telling clients that investments in

central city hotels in major metropolitan areas will be "outstanding." He senses a growing respect for the patina of the past, which often is gracefully displayed by older hotels. More important, they stand to benefit from

international tourism, conventions and commercial Lest his advice be misunderstood, he stresses 'major metropolitan areas," which he defines as cities involved in world business, known throughout

the world, and possessing important cultural attrac-"A return to the central city area by the commercial traveller is evident," White observes. "And increased international tourism has brought added

revenue to the urban hotels.' The elegant hotels built in the 1910s and 1920s, he believes, have reattracted customers once lost to newer structures because they have been refurbished, offer larger rooms and a more gracious

Next on White's list, dropped from first place to third, is the shopping center. "Still an excellent investment," he says, but not quite what it used to be because of increased competition for renters.

Another reason for "a slight cooling of interest" is the prospect of further gasoline shortages. And a third: "The incredibly high prices now being paid in expectation of future rent-increases.' Another-1980 favorite is the light industry ware-house in a planned industrial park atomosphere.

That park atmosphere is important, White believes, for the environmental stability it offers. He advises clients that "it will be wise to avoid

free-standing light industrials unless well tenanted with favorable lease terms.' One reason for such wariness is that the appearance of such sites can deteriorate because the investor lacks control of the surrounding environment. He believes image-conscious companies pre-

Rental apartment houses? White hasn't forgotten them, but for several years, in his words, they became the "perennial non-favorite" of investors, one reason being sharp increases in operating

He now believes the apartment house is improving as an investment, in part because of a declining inventory of rental units. Many houses were converted to condominiums in recent years. And so, he

"Apartment house investment can be favorably considered either for development in undersupplied areas or in the purchase of existing apartments for the investment return and possible capital gain.'

Living standard could rise in 1980s

WASHINGTON (AP) - Congress' top economic adviser today predicted that people can enjoy a 'substantially higher" standard of living in the 1980s if workers improve their productivity and the nation comes to grips with inflation. Alice Rivlin, director of the Congressional Budget

Office, cautioned that in the short run, things will get worse before they get better. But she told a conference on aging, "We expect the

recession of 1979-1980 will be relatively mild and that growth will resume by mid-1980."

Ms. Rivlin said a was unlikely that inflation, now running at more than 13 percent, could be brought

below 10 percent next year. However, she added, "the prospects for the rest of the decade look pretty good if we make a serious and substantial effort to improve productivity and make the economy less vulnerable to inflation and outside shocks" like the price increases ordered by the Organization of Petroleum Exporting Coun-

Ms. Rivlin predicted the economy would perk up after the slow growth of the 1970s and achieve "a reasonable growth rate" in the coming decade. If that rate averages 3.4 percent, as some optimistic projections have indicated, "there will be substantially higher 'living standards for all Americans,'

Some Carter administration officials have said people will have to lower their standard of living to beat inflation and cope with higher prices of oil and Ms. Rivlin cautioned that one problem for social

planners dealing with the elderly is that higher standards of living in the 1980s and 90s may create unrealistic expectations for the turn of the century, when the post World War II baby boom reaches retirement age. The rising standard "may not be sustainable" by

the year 2010, she told the conference on aging sponsored by National Journal magazine. Ms, Rivlin explained that one reason for optimism in the 1980s is that there will be fewer young, inexperienced workers and women flooding into the market-

"It will be a more mature and experienced labor force and that should be a plus for productivity," she

Also, the nation may be over its most costly adjustments to new environmental and safety regulations and changes, and she said changes in the tax system are likely that will encourage savings and discourage inflationary spending.

"With some luck and a major effort, it seemed likely ... we can have a prosperous decade," Ms. Rivlin said.

MC pulls another massacre; Ranger upsets Wranglers

By RICHARD VINCENT Sports Writer

Although nothing but pride was on the line, you couldn't have told it by the way the teams battled during Thursday night's action in the Chaparral Classic at the Chaparral Cen-

The highlight of the tripleheader that kicked off the three-day event was Midland College's 97-63 massacre of helpless Laredo Junior College, a triumph that extended the Chaps victory streak to eight games.

In the other first-night action, St. Philip's slipped past the McMurry College junior varsity, 79-67, and in the thriller of the evening, Ranger Junior College trimmed Odessa College 60-59 on a last-second tip-in by Arzo Winn.

COMPETITION continues tonight with three games on the docket. Odessa and St. Philip's hook-up at 5:30 p.m. while MC and Ranger tangle at 7:30 and Howard College and Laredo meet at 9: 30.

Freshman Charles Johnson, the string-bean post from Midland High, paved the way for MC with a 17-point effort and was ably assisted by burly Kevin Willingham with 15 and stylish guard Tim Shelby with 14.

Also contributing to the mayhem were reserves Virgil Slay, who fa-shioned 12 markers, and Raleigh Freeman, who notched 10.

Freeman a strong 6-foot-5 fresh-

face spread into an uncharacteristic ear-to-ear

game," said guard Larry Little, another Super Bowl

holdover. "We all stuck together through the bad

Shula was quick to reveal: "Bob will be my starter

"I'd rather play against Strock than Griese any

times, and we stick together in the good times."

We were all glad to see Bob have such a good

man from Dallas, was voracious on the boards, claiming 10 misfires while Johnson nabbed nine and Willingham

Peppery guard Jeff Ray had yet another fine passing performance, doling out seven assists while Robert Tate had five.

ONCE MORE, taking advantage of a scratching and clawing defense, the Chaps used numerous Laredo turnovers to streak to a 14-3 bulge over the smaller and obviously less-talented Palominos.

Then, boosted by a pair of Johnson tip-ins, seven points from Willingham and two fielders by Slay, the hosts stretched their advantage to 29-3 with 12: 30 in the first half.

Laredo snapped a four-minute scoring drought with Vic Rangel's hoop at 12:20 and then mounted their best charge of the contest, rattling-off eight unanswered points, six of which came from Robert Haynes.

But that only moved the Palominos to within 20 points. And before the Laredo bunch could figure out what was going on, the Chaps were flying again, as Slay fu-

eled a 10-point salvo with three buck-The halftime score was 52-33, but the fun was really just starting. A 16-point blitz by MC helped to put the visitors out of their misery as the

Chaps moved out 68-33 early in the

FINALLY, able to get past the Chap full-court pressure with some regularity, the Palominos - 1-5 with the loss — sandwiched 14 points around Willingham's bucket to close the score to 70-47 with 9:02 remaining.

The last nine minutes of the game, however, belonged to MC as the Chaps — using mostly substitutes outscored the Palominos 27-16.

The Chaparrals played without the services of sophomore Kenneth "Big Time" Young, who sat-out for what apparently was a training infraction. For St. Philip's, big George Ward netted 18 points while flashy guard Donnie Simmons pocketed 17 as the

Tigers increased their record to 3-2. Mike Jones added 12 and Herbie Jackson meshed 10 for the winners. McMurry was led by 6-foot-2 jump-

ing jack Ronald Brown, who despite being dwarfed by the larger Tigers, scored 18 and did a fine job on the Following a shabby first half that

saw the Tigers stake a 31-23 bulge, each team caught fire in the second session, although the Indians were never able to take the lead. An eight-point tear by 6-foot-8, 220-

pound sophomore Ward seemed to get the Tigers really rolling and later in the second half, Simmons, who resembles "Magic" Johnson not only in looks but passing ability, contributed seven of a nine-point spurt that edged St. Philip's to a 62-46 cushion.

DOWN THE stretch, Bruce O'Neal, Jackson, Ward and Sam Wauls collaborated for 13 points as the Tigers weren't really threatened.

The obvious hero for Ranger in their revenge win over OC was Winn, a 6-foot-8, 240-pound behemoth freshman from Dallas.

the game, but his tip-in with no time remaining after two teammates each missed shots was enough to help the Rangers improve their record to

Most of the damage, though, was done by Rodney Parker, a 6-foot-2 sophomore from Houston, who had 17 points. John Redish, a 6-foot sopho-more from Brooklyn, N. Y. added 14.

For the Wranglers, who dropped to 5-3 with the setback, hustling sophomore John Savoie had 15 while pintsized sophomore guard Kelly Kitehens accumulated 12.

Frankly, Ranger appeared quite anemic in the first half and went into the clubhouse at intermission trailing Something, however, got into them

at halftime because they came out with new-found intensity, especially THINGS NEARLY got out of hand

in the final three minutes of the contest, as each team had chances to win only to fritter them away.

Odessa grabbed a 59-57 lead on Danny Ray Wright's driving lay-up at 2:14. The Wranglers regained possession of the ball and spread things out, hoping to whittle down the

But the Rangers forced a turnover. Redish came up with the ball, but in his haste to reach the basket, lost it out of bounds with 38 ticks to go. Fate, however, was on the Rangers'

Eric Wilcox, a 6-foot-3 freshman guard from Jamaica, N. Y., pilfered the ball from one of the Wranglers, but was fouled with 18 seconds left by Odessa's Craig Ehlo.

At the line with two shots, Wilcox missed the front end but dropped the second one in to make it 59-58. On the ensuing possession, Wright,

the former play-making and scoring wizard from Odessa High, was fouled and faced a one-and-one with 11 seconds to play. He missed the first one, Ranger

copped the rebound and called time out with 10 seconds on the clock. Two bad shots later, Winn swiped a paw at the loose ball and knocked it

into the sphere of the hoop, where it fell through as time expired. MIDLAND COLLEGE (97)

Rebels take on Coronado

Coach Paul Stueckler's Midland Lee Rebels will play their only two basketball games of the season tonight and Saturday in the Lee Gymnasi-

The Rebels take on the Lubbock Coronado Mustangs in a tripleheader today and then entertain Abernathy Saturday night in a pair of games.

The Rebels play the Mustangs in sophomore, junior varsity and varsity contests tonight with the sophomore tilt starting at 4:15 p.m. Coronado has a 1-1 record including a 97-92 overtime victory over Odessa

Permian and a loss to Abilene High while Lee sports a 3-2 record after winning two of three games in the Tall City Tournament over the weekend in the Chaparral Center on the Midland College campus. Stueckler's Rebs lost to El Paso Austin in the opening round and then beat Amarillo High in overtime in the consolation semifinals and San

Antonio Jefferson in the consolation finals. The other victory was over Stanton last week and the Rebels also lost to Lubbock Monterey in their season opener. Saturday night, the Rebs play Abernathy in JV and varsity contests and then

travel to Snyder on Tuesday for a doubleheader with the Tigers.

Indiana honors Slyker despite 13-game scoring drought

rules vary on this matter.

By TED BATTLES Sports Editor

Midland's John Slyker, Jr., is in Evansville, Ind., for the posthumous induction of his father, John Slyker, Sr., into the Indiana Fcctball Hall of

In 13 seasons at Evansville College, Slyker compiled a 27-45-6 record, which doesn't sound like Hall-of-Fame fodder. What got him there was the fact that in 1936 through 1938 his teams not only suffered through a 13-game losing streak, but didn't score a point.

No. it's not a joke. It's just that the folks in Indiana evaluate more than just the won-lost records recognizing careers.

If it were just a case of won-lost records, Slyker would qualify for the Ohio State Hall of Fame. He not only was an all-Big 10 end on Ohio State's Rose Bowl team against California in 1920 but, as a coach, he produced awesome powerhouse high school teams in Cleveland before moving on

At North Cleveland Heights High in Cleveland his teams won the Greater Cleveland championship twice, amassing 23-straight victories in which only seven points were scored against Heights, and those came on

THEN, CAME the call from Evansville, where he coached from 1930 through 1942, and the discovery that there was another side to the coin. It was a side, which, strangely enough, would bring him-more fame and recognition than all the victories and successes that went before.

For one thing, Slyker discovered there were no such things as scholar-

ships at Evansville and many of his players weren't just walkons, they were kids who never even played football before. Not only that, but there was a depression going on to further complicate matters.

Son John recalls, "He was so short of players, he converted his waterboy into a football player. The only way he could scrimmage was to line up the right side of the line against the left side of the line. There just weren't enough players for a full scale scrimmage.'

AS THE 0's multiplied, Slyker's Aces began to achieve notoriety beyond the area peopled by the Wabashes, Rose Polys, Butlers, Hanovers, Franklins and Indiana States of Hoosier football circles.

It was in 1938 as the point-win drought reached its zenith that We The People, a national radio program, got curious and invited Slyker As Slyker recalled at the time, "After losing the opener to Rose Poly,

14-0, I began to wonder how we were going to complete our schedule. I had only four boys available for backfield duty, and the chap in the chief ball carrying position had never played football before." After a 21-0 loss to Union College, Slyker felt more assured, "Union was

a good small college football team. But I knew we could finish the season, because three freshmen, who had enrolled after the opening game, showed promise." Another loss, 19-0 to Wabash, prompted more optimism, "I was encouraged because our mistakes, due to a lack of experience, played a

Even a 51-0 sandbagging at the hands of Butler failed to dampen his optimism. "We were completely outclassed by a powerful team, but the fact that we held them scoreless the first quarter and had the ball on the one-yard-line, failing to score because of a poor selection of plays, brought some satisfaction to me."

However, it was against DePauw, that Slyker really saw daylight. The loss was 13-0, "but we muffed two fine scoring opportunities, fumbling the ball once on the one-yard-line. Our center (they played both ways in those days) intercepted a pass and fell when he hit loose dirt with a clear field in front of him."

The next week Evansville camped out in Indiana State territory all afternoon, but a punt return resulted in a 6-0 defeat. After that injuries began to take their toll.

AT OHIO State, Slyker lettered in baseball and basketball as well as football and at Evansville College, he also coached the basketball

"He had more success in basketball," relates the younger Slyker. "He and Ed Diddle (famed Eastern Kentucky coach) were fierce rivals

and dad was one of the early pioneers of the fast-break offense. "However, I really don't remember those days. He died when I was young. My best memory is caddying for him when he won the city golf

championship, but that was in the 1940s after he gave up coaching after 20 years and became a lawyer. "He obviously wasn't selected for the Hall for his football record, but rather for the impact he had on his students," most of whom were highly successful after college.

An unusual story, and it's nice to know that recognition and lasting fame isn't reserved exclusively for the Alabamas, Oklahomas, Texas', USCs, Ohio States, Pittsburgh Steelers and Dallas Cowboys of the football world.

Tark helps spark Miami

East lead on the line, the Miami Dolphins didn't lack incentive going into their showdown with New England: But after their victory, they credited ABC-TV analyst Fran Tarkenton with giving them extra motivation.

The longtime Minnesota Vikings star arrived here Wednesday and immediately did as the Miamians were doing - criticized Dolphins quarterback Bob Griese.

In an interview published in Thursday morning's Miami Herald, Tarkenton agreed that the slumping Griese was over the hill.

"When good quarterbacks have a flat year in their thirties, it's for one of two reassons. Either their skills have dimin-

ished so much it's time to hang it up, or they have a disabling injury. I don't know of any such injury Griese has now," Tarkenton said.

Tarkenton, who retired last year at age 39, added, "Griese is 34, right? People get old at different times ..

Tarkenton went on to say the Dolphins have "simply fantastic" wide receivers, "excellent" running backs and "one of the best" offensive lines. "So the buck stops with the quarterback," he said.
"I almost choked on my lunch

when I read waht Tarkenton said," Dolphins safety Tim Foley said. "I' read that and said, 'Foot.' What he said was completely uncalled-for."

Guard Larry Little said, "The

great Fran Tarkenton said some things we didn't appreciate. We were talking about it today, and we didn't like it."

Little noted that Griese, who came off the bench to spark Thursday night's 39-24 victory over the Patriots, won two Super Bowls as Dolphin quarterback. Tarkenton got the Vikings into four Super Bowls, but didn't win

"He must think people don't remember he's the one who never won the big game. I don't think he should be passing judgment on anyone else," Little

Griese had read Tarkenton's remarks, but he smiled and said, "I don't really think I need to make any comment on

Anyone want a manger?

NEW YORK (AP) - Removed from limbo by Commissioner Bowie Kuhn's decision not to fine or suspend him, Billy Martin emerges today as a manager in waiting, available for a franchise that might need some instant zing.

"I think the availability of Billy Martin will be too much to pass up,' said Martin's attorney, Judge Ed Sapir. "No clubs have talked to him because they were waiting for the

fired from his job with the Yankees. Kuhn, however, wrote the following letter to Martin:

'You assured me at our meeting, however, that in the future, and notwithstanding possible provocation, you will take every measure to insure that this type of brawling, which places baseball and you personally in such an unfavorable light, will not happen again. Because I believe your intent to be sincere, and taking into consideration that you have been relieved of your duties as Yankee manager, I am taking no action against you other than to warn you that any repetition of this type of behavior on your part will result in my exercising stern diciplinary action against you, and I assure you I will not hesitate to

A YANKEES spokesman said the team was pleased that Martin was not penalized further, but reacted negatively to Sapir's statement that Kuhn; s action vindicated Martin

"The commissioner's release clearly sets forth two stipulations that weighed very heavily in his decision to do nothing further," the spokesman said. "No.1, the action taken by the Yankees in relieving Billy of his duties, and No.2, that the commissioner believes Billy to be sincere this time. However, the commissioner warns, 'that any repetition of this type of behavior on your part will result on my exercising stern disciplinary action against you ..

In another action, Kuhn turned over \$251 to St. Mary's Indian Mission, notifying the charity that the sum represented a contribution from Montreal Expos pitcher Bill Lee

KUHN HAD fined Lee \$250 last April after the pitcher had spoken about using marijuana. Lee remitted the \$250 plus \$1 extra to the commissioner's office, saying he wanted it turned over to the Eskimo mission, his favorite charity.

Later, Lee filed a grievance over the fine and was joined in that action by the New Jersey chapter of the American Civil Liberties Union. A hearing on the grievance had been scheduled for today but Steve Nagler, executive director of the New Jersey ACLU, said Kuhn's action "moots the grievance.

"It's no longer a fine," said Nagler. "It's a charitable contribution."

That was the phrase Kuhn used in his letter to Lee, notifying the pitcher of the action. The commissioner added that "official records of this incident will indicate the issuance of a 'warning notice' to you on the basis of your admitted use of marijuana. In my opinion, no further disciplinary action and-or fine is justified in this case as it is clear that you do not advertise nor advise the use of this

Bryant, Barfield squabble

farmboy Bear Bryant has injected agriculture into his No. 1 Alabama football team's annual shootout with No. 14 Auburn Saturday and Auburn doesn't like it.

If the 10-0 Crimson Tide defeats Auburn, Bryant will take his team to the Sugar Bowl Jan. 1 as the Southeastern Conference champion. If not, Georgia goes to New Orleans and Alabama will make its 21st consecutive postseason appearance in the Fiesta Bowl against Pittsburgh.

But before the Fiesta Bowl possibility arose, Bryant commented that if the Auburn Tigers defeat Alabama, he "might have to go back to plow-At Auburn, Coach Doug Barfield

responded: "They've always looked down their noses at us. That's the atmosphere they've created. They feel like they are a little better than we are. Reacting to that, Bryant said

"There probably is that tendency. If Doug is using that, he doesn't need it. He is a fine coach. He has a fine staff and he has fine players. I don't think coaches win.

Neverthless, added Bryant, if Auburn loses, "some of them will know something about plowing. Plowing's not too bad. There's a lot of old folks plowing. There's more plowing than coaching.

Prior to the 1972 Auburn-Alabama game, Bryant referred to Auburn as a "cow college" and the Tigers blocked two punts en route to a 17-16 victory, Auburn's last over Alabama in the intrastate battle.

Plows and cows aside, the game pits the nation's No. 1 defense -Alabama has allowed only 40 points and has shut out five teams - against the best 1-2 running punch in the country, Auburn's James Brooks and

"We think we've got a heck of a chance," said Barfield, whose Tigers are three-touchdown underdogs. "We're not interested in being second

best in the state, I'll tell you that.' No one knows that better than Bryant, who calls Auburn "the best

Metzger's career hazy after losing four fingers

HOUSTON (AP) — There is better than a 50-50 chance that Roger Metzger, the San Francisco Giants shortstop who severed the tips of four fingers on his right hand in a home accident, could still swing a bat and grip a baseball, doctors said.

But they refused to speculate on how the injury would affect Metzger's bseball career, John Potter, a family friend from Indianapolis, Ind., said Thursday.

Potter said Metzger was using a power saw to build a storage cabinet in the garage of his off-season home in Brenham, Texas, about 60 miles northwest of Houston, when the saw hit a knot in the wood.

Rutledge suit dismissed

PHOENIX, Ariz. (AP) — Citing a lack of authority to resolve the issue, a federal judge has dismissed former Arizona State punter Kevin Rutledge's \$1.1 million lawsuit against the university and ex-Sun Devil Coach Frank Kush.

U.S. District Court Judge William Copple refused Thursday to accept jurisdiction in the case, but the suit also has been filed in Maricopa County Superior Court and it remains pending there.

Rutledge's suit, filed in September, names as defendants his former coach, Athletic Director Fred Miller and the school administration.

Now attending the University of Nevada at Las Vegas, the kicker claims Kush punched him after a

eventually forced him to quit the team. Kush, who denies the accusation, was suspended Oct. 13 for allegedly asking his assistant coaches to lie about the Rutledge incident.

bad punt during ASU's 1978 loss to Washington, and

Copple said Kush was a state employee when the punching incident allegedly took place. The judge said the dispute belongs in the state courts. The judge cited a lack of evidence in dismissing the suit that Kush and his staff conspired to force Rutledge off the team by rescinding his four-year scholar-

Rutledge's attorney, Robert Hing, had attempted to keep the suit at the federal level to increase his chances of collecting the damagés in the event state insurance policies aid not cover what the lawyer said

Earl Campbell," Rutigliano said. "What the Oilers like to do is line up and let Campbell run at (left tackle) Leon Gray, which is going to put plenty of pressure on the right side of

Cleveland's front four has been in a state of flux because of injuries, but Lyle Alzado will be the right tackle and Jack Gregory the right end most of the time against the Oilers.

"What we've got to do is make Campbell run into a funnel, so to speak, into the apex of a triangle, and not let him get outside the perimeter of our defense," Rutigliano added. "If he does get out there, he's gone.

"He's going to get his yardage, but we've got to make him run the ball 40 times to get his 100 yards. We've just got to keep him from bouncing outside. Most of his big plays come in short-yardage situations.

"The Oilers try to get him outside where the defensive backs have to make the tackles. He runs over a lot of people. An extra linebacker should help us," he added, referring to Cleveland's recently installed 3-4 defense.
