HIGHWAY PATROL REPORT FOR MONTH OF JANUARY

The Texas Highway Patrol investigated one accident on rural highways in Briscoe County during the month of January, according to Sergeant W. E. Wells, Highway Patrol Supervisor of this area. These crashes resulted in two persons injured and an estimated property damage of \$550.00.

April 15 is the deadline to have your motor vehicle inspected. During the past five and one-half months approximately 2,000,000 or 35% of the approximately 5,750,000 registered vehicles in Texas have been inspected. This leaves some 3,750,000 vehicles to be inspected in approximately two months.

The Sergeant reminded car owners that under the new provisions of the law there will be additional inspection this year including: steering, wheels and rims, and front seat belts where the anchorages are part of the manufacturer's original equipment.

Motorists who wait until the last weeks of inspection period may find that they will need to install seat belts. With the last minute rush, there may not be enough seat belts kits to take care of the demand.

EMERGENCY FHA LOANS TO BRISCOE AND SWISHER FAMILIES TOTAL \$708,880.00

Emergency loans totaling \$708,880.00 have been made by the Tulia county office of the Farmers Home Administration since July 1, 1967, to help local farmers and ranchers recover from natural disasters, Donald Cruce, County Supervisor reported today.

Cruce said Swisher and Briscoe Counties was designated by Secretary of Agriculture Freeman as an area in which emergency loans could be made by the Farmers Home Administration to eligible farmers and ranchers because of the late freeze in 1967 and general drought conditions.

One hundred and ninety-three counties have been designated by Secretary Freeman as areas needing an emergency credit source. As of December 31, 1967, over 2,300 emergency loans for nearly \$14.25 million have been made in Texas.

The program provides a standby source of credit for farmers and ranchers who cannot obtain emergency credit elsewhere. Repayment schedules vary according to purposes for which funds were advanced.

SCOTT BOLTON IS HOME

Scott Bolton returned home from the hospital in Plainview on Saturday, Feb. 10, then went back on Friday of last week for a check-up, receiving a good report. The doctor reported that all signs of pneumonia had cleared up and he believed Mr. Bolton could get by without gall bladder surgery now.

From The County Agents' Desk

SEALING PONDS AND LAKES WITH BENTONITE

Some Texas subsoils allow rapid loss of water by seepage from ponds, lakes or reservoirs. Ponds and lakes on such soils often may be improved by use of bentonite to reduce seepage losses. Bentonite is a natural clay which has the characteristic of swelling 10 to 12 times its size when it becomes wet. When bentonite is applied in a layer over porous soil, or mixed with a porous soil, and then moistened with water, it forms an impermeable layer. Bentonite does not affect the water. In addition, it is easy to apply with ordinary farm equipment, or with hand tools.

You can apply bentonite directly to the soil in the bottom of the pond, or sprinkle it on the water surface and then allow it to settle to the bottom. Treatment usually is more effective if the bentonite is applied directly to the soil by the "blanket method" or the "mixed blanket method." The "sprinkle method" is recommended only when it is impractical to drain the water from the area to be treated.

The amount of bentonite required to effectively reduce seepage losses from a pond or lake varies from 1/2 to 2 pounds per square foot of soil surface. One-half pound of bentonite per square foot of soil usually is satisfactory when the bottom of the pond is fine sand or sandy loam and the maximum depth is less than 6 feet. With the same type of soil and a water depth of 6 to 20 feet, increase the rate to 1 pound per square foot. In general, coarse soils require more bentonite. Greater water depths increase the pressure on the bottom of the pond and require more bentonite.

Panthers Win Playoff

Panthers Ready For Bi-District

The Panthers now await the outcome of the District 9-B Tournament being held this weekend to determine next week's bi-district opponent.

Quail won the round robin schedule but Hedley pushed the Quails before losing so that district could be forced into a playoff game.

Coach Travis Gilliland said the bi-district game would probably be played Tuesday of next week the site and date will be worked out after the winner is decided in that race.

The boys regional tournament will be held at Canyon on Friday and Saturday of next week.

Mr. and Mrs. R. J. Harmon, Robin, and Billie Sue Cheatham drove to Amarillo last Friday night to see the Harlem Globetrotters play basketball.

Mr. and Mrs. Dick Taylor drove to San Angelo on Thursday, February 8 to visit her sister and husband, Mr. and Mrs. W. A. Beard, and visited there until Monday of last week when they went to Anson to visit another sister and her husband, Mr. and Mrs. C. C. Moss. They visited there until Thursday of last week, then returned home.

Mr. and Mrs. Taylor drove up to Panhandle on Monday of this week to visit at the home of their daughter and her family, Mr. and Mrs. Dan Duncan and Dan Ray and to help Dan Ray celebrate his fifth birthday. The Taylors returned to Quitaque Tuesday and Dan Ray came with his grandparents to visit the rest of the week with them.

HONOR STUDENT

Benny Young, son of Mr. and Mrs. Joe Young of Tucson, Ariz. and grandson of Mr. and Mrs. Boone McCracken of Quitaque, has recently been selected to play in the Tucson All-City orchestra, which is composed of the best musicians from all of Tucson's high schools. Benny plays violin (second chair) in the Tucson High School string orchestra, under direction of Laurity Bjorlie. He is also a member of the Tucson Youth Symphony.

Benny is an honor student member of the Arizona State Music Association, having fulfilled the requirements each year and passed the examination given at the University of Arizona each spring. He has been taking piano lessons for nine years under Julia Hale Kimbell, and has made the honor student list each year. He has played in a number of concerts.

The Quitaque Panthers became champions of District 10-B Wednesday night at Plainview by taking a 79-55 win over the Flomot Longhorns. The Longhorns forced the playoff game by taking a 102-97 win over the Panthers in the final game of the district tournament at Matador last Saturday night. The Panthers had won the round-robin portion of the district schedule and a playoff game became necessary to determine the champion.

George Calvert, the Longhorn's outstanding point producer, pumped in 56 points in Saturday night's win over the Panthers. It was only the second time in the past seven seasons that Quitaque has lost a district contest. Turkey defeated Quitaque year before last. This is the eighth consecutive district title for the Panthers.

In Wednesday night's game the Longhorns contested the Panthers hotly the first half and trailed by only 6 points, 29-35 at half-time.

Although Flomot was never ahead they traded Quitaque shot for shot in the first quarter, trailing 14-16 at the end of the first quarter and tied the score at 16-16 and again at 18-18.

During the third quarter, however, the Panthers started to pull away from the Longhorns and were never headed again.

The Panthers presented a well balanced scoring attack with Lyn Payne, who played a very fine game, topping the Panthers' scoring with 20 points. Jimmy Pointer and Roland Hamilton each tallied 17 points, Pablo Leal made 11, Johnny Pointer notched 10 and David Brunson added 2.

For the Longhorns, George Calvert had a 38-point night, Roye Pigg was runnerup with 7 points, Alva Joe Calvert and Green scored 4 points each while Gourdon added 2 points.

The Tribune extends congratulations to Coach George Scott and his teams. Coach Scott has turned in an outstanding job in his first year at Flomot and has developed some fine young players.

George Calvert scored 178 points against the Panthers in four outings this year for a 44 1/2 point per game average, which tops anything fans here can remember.

HOME FROM HOSPITAL

Mrs. Bill Woods returned home from Methodist Hospital in Lubbock Thursday, where she underwent surgery last Friday. Her husband Bill and son-in-law, Weldon Griffin drove up in the ambulance and brought her home. She was tired, but glad to be home again.

Weather Delays Tourney One Day

Just before going to press it was learned that the girls' District 1-0B basketball tournament had been postponed for one day due to the bad weather.

The games that were scheduled for Thursday night will be played Friday night, and Friday night's schedule will be played Saturday night. The finals will be either on Monday or Tuesday night and will be announced later.

The District 10-B girls' tournament starts tonight (Thursday) at 7 o'clock at Matador when Matador and Flomot tangle in the first game. The second game matches Lakeview and Turkey and is scheduled to begin at 8:20. Quitaque and Estelline do not play in the first round of action. Quitaque will play the Flomot-Matador winner on Friday night at 7 o'clock and Estelline will meet the Turkey-Lakeview winner at 8:20 Friday night. Friday night's winners will play at 8:20 Saturday night for the district championship. If the Pantherettes win the tournament they are champions. If anyone else wins the tournament, there must be a playoff game.

Friday night losers will play at 7 o'clock Saturday for consolation honors.

Mr. and Mrs. S. T. Bogan were in Plainview Friday for medical attention. They visited Mrs. J. N. Hamilton at Heritage Home while in Plainview.

Mrs. Ed Tomchek of Garden City, Kansas, and her mother, Mrs. Bill Wedge of Turkey, were Quitaque visitors Tuesday morning. Mrs. Tomchek stopped at The Tribune to say hello.

The Rev. and Mrs. Lemy Pike and daughter of Amarillo visited at the Assembly of God Church Sunday. The Rev. Pike preached for the congregation, being here in view of a call as pastor. They were dinner guests of Mr. and Mrs. B. E. Myers and Carol, and spent the afternoon and were supper guests of Mr. and Mrs. Odie Reagan and family.

Mr. and Mrs. Warren Orr and her father, Dan Elliff, of Tulia, visited Mr. and Mrs. J. W. Harvey Friday night of last week. Mr. Elliff is Mrs. Harvey's uncle and he is 94 years of age. Mrs. Orr is Mrs. Harvey's cousin.

Pantherettes Swat Estelline Tues. For Round-Robin Title

Quitaque's Fighting Pantherettes took their second win of the season over the Estelline Bearettes in the Plainview High School gym Tuesday night, beating the Bearettes in another cliffhanger, 46-43.

The win earned the Pantherettes the winner of the round-robin portion of the schedule and putting the defending champion Quitaque crew in the favorites position to repeat as champions of district 10-B. The Pantherettes still must win the district tournament which begins tonight at Matador. However by winning Tuesday night the Pantherettes must now lose twice before being eliminated from the race.

Although the score was close the Pantherettes demonstrated to most fans that they clearly have the better all-around team.

The game was almost a carbon copy of other recent Quitaque-Estelline battles: the Pantherettes started well, bolting into a 5-0 lead in the first couple of minutes of the game only to go cold from the firing line and wound up the first period trailing 8-16. In the second quarter, however, the Pantherette guards axed the Bearettes by holding them to 3 points while Quitaque scored 15 points to lead 23-19 at half-time. Cherri Rapp scored one point, coming with less than 20 seconds left to play.

Each team tallied 10 points in the third period and the Pantherettes held on to their 4-point lead.

Estelline rallied a bit in the final quarter and went ahead 40-39, this lead lasting only a few seconds. There was 5:12 left to play in the fourth period when the Bearettes

went ahead, but Quitaque moved the basketball down court, went ahead and stayed ahead the remainder of the game.

Tuesday night's game was a real victory for the Quitaque guards, Jo Beth Myers, Billie Cheatham and Lynette Taylor. Those three very fine basketball players went the route and played a tremendous game. Although Cherri Rapp scored 27 points, she was well covered all the way and was almost completely boxed away from under the goals for rebounds. The announcer who taped the game for replay on Wednesday, in describing the game at one time said, the rebound was taken by Quitaque... of course."

The Pantherette forwards performed well, also, although they were not hitting real good. In the

three games the Pantherettes have played against Estelline this year the forwards have not been hitting up to par in a single contest.

The scoring was well balanced in Tuesday night's game. Sherry Stark was tops with 17 points, Carol Myers was next with 16 and Jackie Cheatham, still bothered by having to wear her nose guard, still managed to score 13 points.

This is an ideal situation when all the forwards score the same for the opponents cannot load up on one player, as is the case of Estelline. In addition to Cherri Rapp's 27 points, Burke made 14 and Ann Rapp, who played forward briefly, scored 2 points.

The game was played before a large crowd of fans from all over the area.

ONE-THIRD OF BRISCOE FARMERS SIGNED UP IN FARM PROGRAM IN FIRST TWO WEEKS OF PERIOD

The second week of sign up has passed with approximately one-third of the farms signing intentions to participate in the Feed Grain, Cotton, and What programs in 1968.

Approximately 85% of the farms signed up so far are diverting the maximum under the cotton and feed grain programs (50% diversion on feed grain and 35% diversion on cotton).

The local economy of Briscoe County has received a substantial shot in the arm this past two weeks with approximately \$170,000.00 in checks written and mailed to county farmers. The feed grain

payments have equaled \$130,000.00 and the cotton payments have amounted to \$40,000.00. These payments were authorized and made possible by the third year of a four year program. Legislation is currently being studied for a possible extension of the present program. Outlook at this time is unfavorable for an extension because of the lack of rural votes in the House of Representatives. Secretary Freeman stated on February 8, in Nebraska at a meeting, that of the 49 votes cast in favor of the 1965 farm bill that allowed passage in the House that 47 were not in Congress this year. This is an alarming bit of news, isn't it?

MEDICARE NOTES

Many of the provisions of the amended social security law give added protection to the young worker and his family, Travis C. Briggs, manager of the Amarillo office said today.

The old law required that the disabled have at least 5 out of the last 10 years in work covered by social security before coming disabled to be eligible for disability payments. For some young workers, this was impossible as they became disabled at an early age. Now, if a worker becomes disabled before age 24, he only needs one and a half years work out of three years before disability began.

If a worker becomes disabled before age 31, he now only needs work credits for half the time between age 21 and the time he became disabled, with a minimum requirement of one and a half years.

If the worker who becomes disabled is married and has minor children, his wife and children receive payments each month he is entitled.

Payments to dependents of young workers who die have been increased substantially. For example, if a young man should die who has averaged \$4200 a year in work covered by social security, leaving a widow with two or more minor children, monthly payments to the family would be \$280.80. In ten years, the amount paid the family would be more than \$33 thousand.

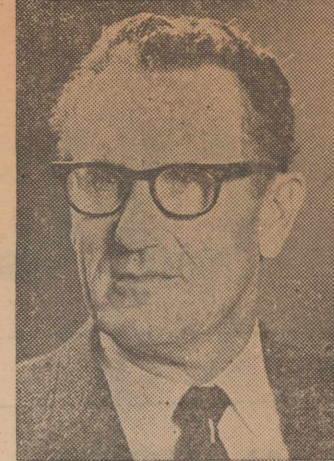

If a young man 27 or younger now pays social security on the new maximum taxable of \$7800 yearly each year until his death in 1970 or later leaving a widow with two or more children, social security payments to his family would be the maximum payable, \$34.40 monthly, or over \$52,000 in 10 years.

Payments to a young widow with entitled children in her care continue until the children are age 18. If the children continue in school and do not marry, their payments continue until they reach age 22. The widow in this example case would again be eligible at age 60 for monthly payments of \$356 for the remainder of her life if she did not remarry.

A State "Representative" Is Exactly That . . . His Business Is To "Represent" His District!

MARION BRUCE

A New Face for the 75th District Seat in the Texas Legislature (Armsstrong, Briscoe, Carson, Collingsworth, Donley and Randall Counties)

In 1965, Incumbent J. M. Simpson voted AGAINST HJR 79—a plan to lift excessive taxation off farmers and ranchers who live too close to towns and cities—or get caught within the extended "corporate limits."

But the fair-minded people of Texas reversed Simpson's decision. In November, 1966, they voted that so long as land is being used for agricultural purposes—even though it is in the sphere of a city—it should be assessed for taxes as farmland.

How many thousands of Texans would still be on the land if they had not been forced to leave because farm prices will not support city taxation?

The new mod "wet look" now is available in wallcoverings. If you have admired this shimmering, glossy look in women's clothing and accessories — boots, purses, shoes, outerwear and dresses — you might enjoy it on your walls as well.

Imagine bursts of bold blooms in psychedelic colors shimmering on your kitchen or laundry room wall. No need for meal time or washday blues and don't worry about splatters and stains. The "wet look" is completely scrubbable and extremely durable.

The new wallcoverings by United/DeSoto are printed in a variety of contemporary and traditional designs — all with a shining heavy coat of vinyl over their face to achieve the desired glossy effect.

The "wet look" has been gathering steam for many years as the new vinyl fabrics were perfected. For instance, Barbara Streisand startled her fans by having her kitchen walls covered with red patent leather.

As the vinyls became more plentiful, varied and cheaper, the Carnaby Street designers picked up the fad and made vinyl the thing for the mod set.

But you need not be a Beatle fan to enjoy the "wet look" on your walls. This new way of treating wallcovering will add sparkle to your home... even turn on the entire family. The new Fabricale and Feminique collections by United/DeSoto have a large selection of "wet look" patterns from which to choose. Both wallcoverings are scrubbable and strippable. Feminique also is prepaste. Patterns from these collections represent a fashion investment for your home offering years of beautiful surroundings. And since these wallcoverings are strippable, you'll find redecorating quick and easy when that time comes.

FORTY MULE DEER COMPLETES PANHANDLE STOCKING PROGRAM

SAN ANGELO — Forty mule deer from the Reynolds Ranch in Jeff Davis County have been trapped by the Texas Parks and Wildlife Department and transplanted to the Panhandle to complete the project begun in 1963 in Floyd, Briscoe, and Motley Counties.

The species has been bolstered each year by further releases in

the same counties plus releases in Roberts and Ochiltree Counties. A respectable herd has grown from the total of more than 350 transplants.

Department biologists say survival has been generally good, but in 1966 sixteen mule deer died during freezing weather shortly after the release was made.

JEHOVAH'S WITNESSES CANCEL ALL MEETINGS FOR THIS WEEK

Meetings for the Quitaque congregation of Jehovah's Witnesses have been cancelled this week according to Von Tiffin, presiding minister for the group, who made the announcement Sunday.

In discussing plans for local members this week, Tiffin said that seven families who regularly

attend 5 meetings a week in Quitaque are making special arrangements to spend the weekend in Vernon where they will be delegates to a 3-day convention in the Wilbarger Auditorium beginning Friday, February 23, at 6:45 p. m. More than 450 are expected representing some 15 different congregations and Tiffin compared the gathering to a large family reunion with young and old sharing in a series of talks and dramatizations having to do with Biblical subjects developed around the convention theme, "Strengthening One Another to Remain in the Faith."

"Conventions are happy occasions," Tiffin told the group, "since they afford the opportunity for all of Jehovah's Witnesses in the area to meet together again in Christian fellowship. Also to be strengthened spiritually by upbuilding discussions on selected Scriptural subjects which will further aid everyone in attendance in the practical use of Bible knowledge in these troublesome times."

Different vital topics of current needs will be featured with the assembly highlight to be reached Sunday afternoon at 3 p. m. when the main speaker, A. A. Catanzaro, from New York will give a 1-hour lecture on the subject "Why Does God Permit Wickedness?" An ordination ceremony of new ministers will be held Saturday afternoon with newly dedicated Witnesses symbolizing their dedication by being immersed under water.

LILY DAY CHAIRMAN — Dallas Cowboy defensive tackle Bob Lilly, 1968 Chairman of the Texas Football Boys' Lily Day for Crippled Children is shown above with Danny Shipp of Dallas, who represents the 11,390 children and 6,232 adults provided treatment and services by the Texas Easter Seal Society. Small plastic Easter Lilies will be offered for donations across Texas by high school football players during April. Funds collected will go to provide services for additional physically handicapped children and adults.
