

Mr. Muleshoe

Written especially for The Journal by a member of its staff

I can't figure whether it's Shenanigans, or just what it is. It's pressure of some kind, I figure.

Here's the deal. If we don't agree with the seniors to have them wash our windows, they likely will be soaped pretty badly Halloween night. If we do, and pay in advance on the contract, all will be well—the windows will be washed. They need it, regardless. And, somehow, I kind of got a hunch we better, adopt the latter policy as being the wisest course. Accordingly, it is so ordered. Let the terms of the contract as suggested be carried out in toto.

Have you had enough? Personally, this column has had enough of the Republicans' impertinent campaign slogan, "Have You Had Enough?"

I had enough of Republican management of the country under Mr. Hoover to last a lifetime. The slogan is too suggestive. It hints that the Democratic regime has been so bad that they don't even have to go into it, all that is understood, and all the argument they have to make is "Have you had enough?"

When a party of Muleshoe pleasant hunters, composed of Fred Johnson, Irvin St. Clair, Pat Bobo and Sam Fox reached the hunting grounds around Platte, S. D., Johnson was on familiar ground. He used to work the territory for International Harvester and lived in the neighborhood.

The company stayed with a farm family, and Fred said that one evening when he and one other ate more than a pound of that fresh country butter, Bobo of Chesterfield manners, was ashamed of them. But he said Pat didn't seem much ashamed the next morning when he ate six fresh hen eggs for breakfast.

Bits Holt and Robert Precure accompanied by two Oklahoma City men, hunted around Gregory, S. D., and succeeded in bagging their limit. Bits said, in his opinion, unless something can be done to cut the farmer and landowner in on some of the money that flows through the towns due to the influx of hunters, the best hunting days in South Dakota are over.

Both Johnson and Holt said they heard numerous farmers complain that hunters would ruthlessly cut barbed wire, enter their farms and with their cars knock down lots of feed and corn. Most anyone could see how that would soon tire a farmer out.

The people there are still mighty hospitable to the visiting hunters but one may notice a cooling off in process, they say, toward the whole deal.

F. A. A. Initiates 53 New Members

On Tuesday night, October 29, the Muleshoe Chapter, Future Farmers of America met at the high school gym and initiated 53 candidates in the degree of "Green Hands."

There were twenty-one old members and one guest present for the initiation. Following this a speech was given by Johnny Seid, local F. F. A. reporter, on his trip to the National F. F. A. Convention, held in Kansas City last week.

Afterwards the boys played games including two sack races, eraser races, etc. The group was served refreshments and the meeting adjourned.

MULESHOE — COUNTY SEAT OF BAILEY COUNTY, TEXAS

THURSDAY, OCTOBER 31, 1946

Three Constitutional Amendments Main Issue In Election November 5

Registered Gilt Program Started

Business men of Muleshoe will sponsor a registered gilt program for Bailey County.

At meetings last week of the Lions Club and of the Chamber of Commerce, F. W. Jones of the Vocational Agriculture department of high school explained the proposal to place 16 registered gills in the hands of boys on the farms of the county who will care for them.

Both organizations agreed to accept the 50 payment the boys owe through the registered dairy cattle program, and in turn to invest the money in registered pigs Jones said the gills will cost about \$25 each.

Individual business men present volunteered to be sponsors, purchasing a pig and turning it over to a club boy, who will repay sponsor by giving him a gilt out of the first litter farrowed.

Irvin St. Clair, local merchant who was instrumental in getting the pig program started has offered to buy a boar for the program.

With the initiation of this program, Bailey County takes another big step toward obtaining recognition as a registered stock country.

The registered dairy Heifer program has already prospered and is a source of great satisfaction to those who participated in it.

Johnson Grass Worries Visitor

Mrs. Laura B. S. Cox, of Excelsior Springs, Mo., here on business, was a guest of the Chamber of Commerce at its noon luncheon Friday, and when invited to address the group she devoted the entire time allowed her to a discussion of the Johnson Grass situation in Bailey County.

Mrs. Cox owns land in the county. Every time she returns she notes, she said, a rapid increase in the amount of Johnson Grass, particularly along our roads. She called attention to the steady encroachment of this pest, and said that all seed contamination has about ruined the side of sudan seed here and will gradually affect the sale of sorghum grain seed as well.

Glenn Rockey, presiding at the luncheon, assured Mrs. Cox and those present that the county already has done something about Johnson Grass. The county, he said, has purchased a sprayer and a quantity of chemicals, and they have already sprayed some patches.

Officials are now awaiting results of these preliminary experiments before beginning a county wide program of eradication, in cooperation with the land owners.

Littlefield and Sudan Undeclared

The Littlefield Wildcats and the Sudan Hornets, both seeded at the top of the District 5-A heap, appear sure bets to keep their skins unbroken this week end.

The Wildcats, after toppling three straight conference foes, 80 against the witless Abernathy Antelopes, while the Hornets rest from their gridiron labors.

In other 5-A battles, Levelland's Lobes go outside the conference to test the Andrews club, and Morton, without a win in three league starts, invade Otton for a scrap with the Mustangs, winners of one contest in four league skirmishes.

DISTRICT 5-A				
Friday's Results				
Levelland	18	Otton	7	
Springlake	19	Littlefield	66	
Abernathy	0	Muleshoe	13	
Morton	19	Sudan	40	

Season's Standings				
Team	W	L	T	Pct.
Littlefield	6	0	0	1.000
Levelland	5	2	0	.714
Otton	5	2	0	.714
Sudan	4	3	0	.571
Muleshoe	4	3	0	.571
Abernathy	3	4	0	.429
Morton	1	3	1	.250

District Standing				
Littlefield	3	0	1.000	
Sudan	3	0	1.000	
Levelland	2	1	.750	
Muleshoe	2	2	.500	
Otton	1	3	.250	
Abernathy	0	3	.000	
Morton	0	3	.000	

Friday's Schedule				
Levelland	at	Andrews		
Littlefield	at	Abernathy		
Morton	at	Otton		

New Office For West Texas Gas

West Texas Gas Co. offices have been moved to the Production Credit Corporation building on the west side of the square, according to announcement of Wayne Vardeman, local manager.

The Production Credit Corporation is on one side and the I. O. O. F. lodge building on the other side of the gas company's new quarters.

The company has maintained offices in the city hall.

Production Credit In New Home

Production Credit Association of Muleshoe is in its new home this week. The association building, 265 40 feet, located on the west side of the square, has just been completed.

One-half of the building has been rented to the West Texas Gas Company for its Muleshoe office.

The field representative, W. B. LeVaque, states the association is very proud of its new home, and invites stockholders as well as the general public to come and see the new office.

It is expertly arranged with a view to convenience of the office workers. There is a counter in front where business may be conducted and further back there is an executive office glassed in. The concrete floor has been covered with tile linoleum.

Mrs. Erad Anderson is office assistant. The Production Credit Association has had offices the last several years in the Gilbreath building.

Jackets Beat Abernathy 13-0

Muleshoe's Yellow Jackets defeated Abernathy's Antelopes 13 to 0 here last Friday in the locals' fourth conference contest and placed themselves on a 500 percentage basis in the District 5-A race.

Muleshoe has an excellent chance to wind up in 3rd place, unless the local boys lose both of their remaining conference games with Morton and Levelland.

Bill Jim St. Clair busted through Abernathy's line, dodged the secondary and outraced Y. F. Soodgrass, Abernathy's star back, to the goal line in the second quarter for the Jackets' first touchdown. It was a thrilling foot race, with St. Clair gradually pulling away from his would be tackler.

Then, in the third quarter, Eugene Huff put on an equally dramatic performance. From about the Muleshoe 15 he miraculously appeared in the Abernathy secondary and tore out for the goal line. One Abernathy back was about to lay hands on the fleeing Huff when Fuston McCarty drove over and blocked him out neatly. Huff was unmoored on his 85-yard dash. The Jackets seemed on the verge of another marker when the game ended.

Wiley Moore and Arlo Farrell, both limping, played a good part of the game. Fans are looking forward to their being back in condition for the next encounter. The Jackets draw rest the coming week, then take on Levelland.

Billy Preston, Snodgrass, Warren Thomas and Skeet Smith made up a nice backfield combination for the Antelopes. Thomas was injured toward the end of the game when downed as he raced toward Muleshoe's goal line after intercepting a pass. Another Abernathy player tipped the ball and it fell into Thomas' hands. John Parker at right tackle for the Antelopes, was a tower of strength in their line.

Where U. N. General Assembly Is Meeting

Formerly the New York City Building at the 1929-1940 World's Fair, this Flushing Meadows hall has been redesigned and now is the meeting place of the U. N. General Assembly.

Hallowe'en Carnival At School Tonight

Three Way School will have their annual Hallowe'en Carnival Friday night, according to announcement of H. H. Himsley, superintendent, who said the school decided it was more convenient to have the frolic on this night rather than on Thursday night.

Everything that one usually associates with a carnival will be on tap at the Goddard school gym that night, he said, including bingo games and an auction of hard to get items such as nylon hose, sugar, shortening, etc.

Both high school and grade school will crown their queen at the carnival. No admission will be charged and the public is invited to attend.

Money raised through the carnival will be used to buy books and equipment for the school library.

Selection of the Queen of the Carnival was fiercely contested by the various classes who had nominated queen candidates.

The four high school classes each nominated a queen and the grade school concentrated on one queen candidate. Nominations and their escorts were listed as follows:

Seniors—Virginia Mae Nelson, and escort, Wiley Moore.
Juniors—Helen Warner and David Weyer.
Sophomores—Jo Ann Nichols and Joe Bob Hertley.
Freshmen—Margaret Sanders and Bobby Goss.

Grade School—Billie Fay Graves and Billie Ray Douglas.

The classes adopted various ways of raising money for votes for their queens and resorted to many types of advertising in their behalf.

Teachers Will Meet Tuesday

Muleshoe teachers will be hosts to teachers of Bailey County at the meeting in the high school here next Tuesday night of the Bailey County Teachers association, W. C. Cunningham, president, announced.

There will be a dinner preceding the program that will be of especial interest to all teachers.

E. H. Boulter, Lubbock, deputy state superintendent, will address the gathering on "Present Plans for Raising Teachers Salaries in Texas."

Dr. Doyle B. Jackson, head of the education department at Texas Tech will be another speaker. Mr. Cunningham said the Bailey County association now has secured 100 per cent of the teachers as members of the state association, and it is hoped 100 per cent attendance will be obtained for the meeting Tuesday, which begins at 8 o'clock.

Other officers of the Bailey County association include H. H. Himsley, superintendent at Three Way, vice president, and W. D. Kay, Bala superintendent, secretary.

During the week ending October 26, application for assistance on nine labors was received from E. B. Luce. Conservation (farm) plans were worked out with R. C. Griffiths, Frank Heathington, C. Hicks, and W. R. Young on their farms.

Topographic surveys were completed on the farms of R. A. Harris, Willie W. Williams, and O. C. Kirk. Approximately 25 miles of terraces were checked on the J. L. Howard land for height, width and cubic feet.

Elevated ditch lines were staked out on the G. T. Maltby farm.

States did not get to come. Johnny met several honored guests such as Mr. J. C. Wines, Mr. Harvey Firestone, president of the Firestone Rubber Co, the president of International Harvester and many others. Johnny met and talked with the national officers, the delegates from Havana on the J. L. Howard land for height, width and cubic feet.

Friday morning the delegation of Texas boys started home and got into Lubbock Saturday afternoon.

TO MEET FRIDAY NOON
The regular meeting of the Muleshoe Chamber of Commerce will be held at noon Friday.

County Officials For Texas Good Roads Amendment

AUSTIN, Oct. 29.—"Roads Build Texas - Let's Build Roads." This phrase became the slogan for the campaign in behalf of the Good Roads Constitutional Amendment this week as three former presidents of the Texas County Judges and Commissioners Association joined other leaders in urging Texas voters to support the amendment at the general election November 5.

Judge A. S. Ware of Bryan called for an end to the "biennial confusion and controversy raging over the distribution of road user tax moneys." The 1944 president, Judge D. Y. McDaniel of Waco urged that the efforts of "all agencies charged

with road construction be placed in position to give their full time to their job with assurance the present funds for road building will continue in the future."

Judge Merrit H. Gibson of Longview, 1941 president of the Association stressed the importance of guaranteeing a permanent policy of road financing for both state and county road administrators. He pointed out the Good Roads Amendment will afford this guarantee.

Miriam A. "Ma" Ferguson, twice governor of Texas, joined the growing list of prominent leaders urging adoption of the Good Roads amendment. "It is not right that many of our farms are isolated a great portion of the time when our farmers cannot get their produce to market," she declared. "The adoption of the Good Roads Amendment will guarantee funds for the construction of an outstanding road program for Texas," she declared.

are of the highest quality. You can't expect good meals from low grade frozen foods.

Here are some tips on preparing vegetables: No vegetable except corn on the cob, should be completely thawed before cooking. Use the least amount of water needed to cook vegetables uniformly. And don't overcook frozen vegetables. . . they require only one-half to two-thirds the cooking time of the corresponding fresh vegetables.

As for frozen meats, you may cook them while frozen or after they are thawed. Increase the cooking time of meat 15 to 20 minutes per pound, but you can cook completely thawed meat exactly as if it were fresh.

Poultry that you plan to roast should be thawed thoroughly and cooked like fresh birds. Thaw poultry rapidly, keeping the birds covered to prevent drying, and then cook them immediately. It is not necessary to thaw broilers completely, but allow extra cooking time for them.

Frozen fruits can be cooked just as they come out of the locker; thawed just enough so that they will spread.

Mrs. Williamson emphasizes the need for serving cooked frozen foods immediately. They lose many desirable qualities . . . nutrients, color, flavor, aroma and texture, while they are being kept warm, waiting to be served.

Mrs. Buck Ragsdale's parents, Mr. and Mrs. R. C. Ross, and brother, Melvin Ross and wife, were visitors here Sunday from Floydada.

Fat Stock Show Dates Announced

LUBBOCK, Oct. 26.—The South Plains Junior Fat Stock Show will be held March 24-26, 1947, in Lubbock, Texas. Lubbock Chamber of commerce officials announced today.

Two new classes have been added this year, the Spotted Poland China class in the swine division, and the cross-bred lamb class in the sheep division. The latter classification has been defined as a mutton ram on fine wool ewe, lambed after September 15, 1946.

Another change has been made in the group of five pigs. These pigs no longer need to be of the same litter, but must be of the same breed.

Printed catalogues for the show will be mailed exhibitors early in January.

Entries will be accepted from the following counties: Curry, Roosevelt and Lea in New Mexico; Farmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale, Floyd, Motley, Cottle,

Cochran, Hockley, Lubbock, Crosby, Dickens, King, Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Dawson, Gaines, Borden and Scurry in Texas.

Progress 4-H Club

The 4-H Club met Tuesday, October 29 and elected officers as follows:

President, Dolores Locker; vice-president, Milda King; secretary, Sue Carr; reporter, Jo Ann Hill; song leader, Sandra Lumsdin; game leader, Wanell Redwise.

Mrs. Williamson gave us a brief sketch of our plan of work for the coming year. Our next meeting will be November 6.

IT FINALLY GOT HERE

F. W. Jones this week received a Treasury check for \$17.50, representing his terminal leave pay for that period of four months he served as a private, first class, while attending officer candidate school in the Marine Corps four years ago.

* was something he had not expected to happen, but he's glad it did.

Teachers Welfare Ass'n. Organized

To improve the morale of teachers, elevate their economic standing, insure professional stability, and place before the public facts and viewpoints that will lead to an intelligent appreciation of the teachers' contribution to the general welfare is the goal set by the Texas Teachers Welfare Association, which has made application for a charter under the laws of Texas, as a non-profit general welfare corporation, and has launched statewide membership and educational campaigns.

Immediate aim of this militant organization of teachers is to enlist the support of every teacher in the public schools of Texas, the 254 county superintendents, and the thousands of school trustees, to bring about an annual increase in the pay of teachers. Minimum pay

of \$2,400 a year for teachers with college degrees is to be sought.

To inform parents and school patrons of the sad plight into which the public school system of Texas has fallen as thousands of highly trained and experienced teachers desert the class rooms for better paying and more attractive jobs, the Texas Teachers Welfare Association is conducting a statewide campaign for members among the more than 44,000 public school teachers and County Superintendents. Its educational campaign to inform the public of the facts about public schools and the poorly paid teachers is being carried out at the same time.

The executive committee of the association, composed of M. D. Murphy, superintendent of schools, Mesquite, President; Dr. Joe P. Harris, Dallas County Public School Superintendent; Secretary-Treasurer, C. G. Dickey, Superintendent of Buckner Orphans Home Schools; R. L. Turner, Superintendent Schools, Carrollton, and W. E. Godwin, Principal of Rylie School, Rylie, is directing these campaigns.

The alarming condition now faced by the rural schools, with more than 17 per cent of teaching jobs in country schools unfilled and more than 12 per cent of all teaching jobs in the State vacant, is due entirely to inadequate pay for teachers, Dr. Harris, spokesman for the association, said. The pay of the average teacher in Texas is less than \$100 a month. The untrained day laborer earns more. Even lawn

WHAT'S NEW

In the
AUTOMOTIVE FIELD

By DAN GOLDENBERG
Auto Editor

Now that the war is over, the country's top flight engineers are back thinking of peace time helps to the many workers of the automotive field. Most of our problems and lack of new automobiles, a heavy work load is the lot of the automobile mechanic.

Among the newest aids is a creeper that not only embodies strength and comfort in a contoured all-steel bed but features adjustable lighting unit as an inherent part of the creeper. Thus two old bug-a-boos—body fatigue and eye strain no longer impair the efficiency of the overworked auto mechanic.

The new Hycoc electric creeper also includes such extras as an air foam rubber head rest for cushioned comfort and a detachable tool and parts tray which permits bench loading and unloading. It weighs slightly more than 18 pounds and rolls on four heavy duty ball bearing swivel casters.

mowing is more profitable than teaching.

"Texas must do something for its teachers immediately if the public school system is to be saved," Dr. Harris said.

A MESSAGE OF INTEREST to all who await delivery of new Chevrolets

We want you to know that everything possible is being done to speed deliveries to you; but production still lags far behind schedule—even though Chevrolet has built more cars and trucks than any other manufacturer from January through September 1946

WE REALIZE how eagerly you are awaiting delivery of the new Chevrolet you have ordered from us, and we want to pass on to you the latest information received from the Chevrolet Motor Division, even though that information isn't too encouraging at this time.

It is true that Chevrolet leads all other manufacturers in total production of passenger cars and trucks from January through September 1946, despite the fact that Chevrolet was out of production entirely during the first three months of this year. It is also true that Chevrolet has continued to maintain its lead in total production during the third quarter of 1946. And yet production is still running far below desired levels, with the result that Chevrolet's output of cars and trucks through September 1946 was only 38.7% of the number produced during the corresponding period of 1941.

This means it may take many months for the Chevrolet Motor Division to reach peak

production of new Chevrolets—even longer to fill the unprecedented demand for this product of BIG CAR QUALITY AT LOWEST COST—and, for the present at least, "there just aren't enough Chevrolets to go around," much as we wish there were.

However, we want you to know that new Chevrolets are leaving the plants in the largest numbers possible today. The Chevrolet Motor Division tells us it is doing everything it can, in the face of continued suppliers' strikes, material shortages and manpower problems, to step up shipments to us and to all dealers, in accordance with a predetermined distribution plan assuring each dealer of his fair allotment, based on 1941 passenger car sales. And we, in turn, are doing our best to deliver new Chevrolets to our customers as rapidly as they are received and in the fairest possible way. We are too appreciative of your loyalty and goodwill—too grateful for your patience and understanding—to do anything less than continue to serve you to the very best of our ability.

KEEP YOUR PRESENT CAR RUNNING

Meanwhile, the most important car of all to you is the car you are driving now. May we suggest that you keep it in top running condition until you secure delivery of your new Chevrolet, by bringing it to us for skilled service now and at regular intervals. Remember—cold weather is hardest on old cars. Please see us for a complete check-up today. . . . And, again, thank you!

Veterans' News

A veteran who does not designate beneficiaries exposes his dependents to the risk of unnecessary delay. Pray pointed out.

Veterans Favor Land Amendment

AUSTIN, Oct. 28.—Veteran organizations of Texas were in the midst of a full scale drive today to assure a good vote in the solo election on the Veterans' Constitutional Land Amendment which was inadvertently set two days after the General Election.

An extensive newspaper and radio campaign, statewide in scope, rolled along with increasing momentum. The American Legion, Veterans of Foreign Wars, the fighting 36th Division and other ex-servicemen's groups were pitching in to get out a substantial tide of ballots for the election which follows two days in the wake on the General Election of Tuesday, November 5.

RIPENING WEATHER HALTS BUNDLING OPERATIONS

Fear of frost had started nearly

every farmer who had unripened feed to running the bundle binder to operating as early as Sunday, October 20.

Sunshiny weather toward the end of last week had halted their operations in many cases because growers began to feel that a killing frost might affect all delay in coming until much of the feed could mature and much more could be made from ripened grain. Bailey County farmers still will have lots of fine bundles for sale.

Mrs. Roy Dyer and Howard Cox were in Plainview Tuesday. Mrs. Dyer visited her parents, Mr. and Mrs. H. C. Miller. Mr. Cox was on business.

Study Club Met In Gardner Home

The Muleshoe Study Club held its regular meeting Thursday evening, October 24, at 8:00 o'clock in the home of Mrs. A. J. Gardner, with Miss Elizabeth Bailey as hostess. Mrs. Lela Barron was a guest. Lois Lenau was chairman of the program and read an inspiring paper on "Prejudices," followed by two interesting talks: "Four Men of God," by Jane Beavers and "One Way To Peace," by Elizabeth Gardner.

After roll call and a short business session the meeting was adjourned to meet Nov. 7 in the home of Mrs. Pat Bobo.

Delicious refreshments were served to the following members: Elizabeth Gardner, Inez Bobo, Jane Beavers, Geraldine Green, Elizabeth Harden, Mary Frances Holt, Lois Lenau, Ida Ruth Holt, Blanche Henderson, Mickey Lewis, Jewel Pool, Maxine Ragsdale, Lela Barron, guest, and the hostess, Elizabeth Bailey.

Emanuel, Brock Rites Read

Dorothy L. Emanuel of Littlefield and Ernest H. Brock of Portales were married in the First Baptist Church in Clovis at 9:00 p. m., October 23, 1948. The double ring ceremony was used.

Attendants were Jack Lane of Portales, Cleo Walker, Mr. and Mrs. Joe Bates Jennings and Mr. and Mrs. Raymond Green of Muleshoe.

The bride wore a dressmaker suit of green wool gabardine with white accessories. Her corsage was white roses and gardenias.

The bride is a graduate of Texas Tech and the groom attended Muleshoe, Y. L. and Lubidity schools before volunteering for Armed Service where he spent 5 years, until given a medical discharge. Both Mr. and Mrs. Brock are formerly of Muleshoe.

After a brief honeymoon the couple will be at home in Portales where the groom and Mr. Lane own and operate the New Drive In Cafe on the Clovis highway out of Portales.

W. O. W. Lodge Met October 23

The Muleshoe W. O. W. lodge met October 23, at the high school gym for a special session.

The presiding officers were as follows: Consul Commander Troy Houston of Littlefield; Post Consul Commander Andy Chitwood, Clovis; Adjutant: Lieutenant: State Manager: George W. Sims of Abilene; Banker: L. D. Standford of Littlefield; Board: Nathan Theoford, field representative, Littlefield; and Watchman: G. C. Worley, Clovis.

Four candidates were initiated. Interesting talks were made by Troy Houston, W. D. Chapman, Andy Chitwood, J. C. Robinson, Jerry Jewell, Tye Young, and Mr. Hine. Forty-two attended the meeting.

The Woodmen expressed thanks to school authorities for use of the gym.

42 Party Given In Glasscock Home

A 42 party was given in the home of Mrs. Woodie Glasscock Friday night, October 23.

Several games were played by those attending and refreshments of coca cola, cake and coffee were served to the following:

Messrs. and Mesdames Kenneth Briscoe, Dee Brown, Jackie Brown, Red Glasscock, Clarence Mason, all of Muleshoe, Don Burns, Lariat, and Les Burns, Clovis, and the host and hostess.

METHODIST AND BAPTIST YOUNG PEOPLE ENJOY TREASURE HUNT

The young people of the First Methodist Church were entertained by the young people of the First Baptist Church, with a treasure hunt.

The young people assembled at the church and then started on the hunt. There were several different localities where the treasure could be hidden and Herbert Griffiths' group were the lucky finders. They returned to the church and refreshments were served to thirty-one. Sponsors of the Baptists were Miss Elizabeth Bailey, Mrs. Lela Barron, Mrs. Eddie Lane, and Mr. A. J. Owens. Mr. and Mrs. Fred Johnson and Mrs. Cecil Davis were sponsors for the Methodist young people.

Cpt. J. M. Bowen To Be Discharged

Cpt. J. M. Bowen has arrived home on terminal leave awaiting discharge after serving 19 months in the U. S. Army. He recently has been stationed Tokyo.

Cpt. Bowen is the son of Mr. and Mrs. J. W. Bowen of Muleshoe.

Miss Taylor One Of Tech Beauties

Miss Jerry Taylor, daughter of Mr. and Mrs. Lull Taylor of Muleshoe, has been selected as one of the sixteen beauties to be featured in this year's edition of "La Ventana", Texas Technological College yearbook, according to announcement from Lubbock.

Miss Taylor is a representative of Las Chaparritas, Tech social club. She is a Senior in the college, and is majoring in business economics.

Eight of the sixteen will be featured in full page pictures and the remaining eight will have a half page in the book. These selections will be made by the judge to be named later.

The sixteen were picked by a group of judges, among whom was James A. Dean, athletic coach at Muleshoe high school.

News Briefs

Jane Bates, a former Muleshoe girl, was honored by being elected secretary of the Tech College chapter Future Teachers of America at its organization last week. She is a daughter of Mr. and Mrs. David Bates, who now live at Brownfield.

L. J. Sanders, Jr., who is attending Texas Tech, was home this week and visiting with his parents, Mr. and Mrs. L. J. Sanders, Sr., of the Baileyboro community.

Mr. and Mrs. Murrell Brown and daughter were in Amarillo over the week end visiting her parents, Mr. and Mrs. J. F. Wharton and friends.

Mr. and Mrs. Art Stone were in Clovis Friday on business.

Sandra Wagoner, who has been under treatment in the West Texas Polio Center at Plainview, was brought home for the week end by her parents, Mr. and Mrs. Vance Wagoner. She greatly enjoyed being at home and seeing her little friends again. Her progress under the treatment has been encouraging, it is reported.

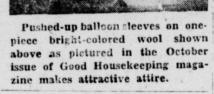

Guthrie Allen, Sudan druggist, formerly of Muleshoe, was among those from Sudan in attendance at the Muleshoe-Abernathy game Friday.

Mr. and Mrs. Charles Lenau returned Friday from a trip to points in Oklahoma and Arkansas where they visited relatives and friends.

Victor Walden of Dalhart and Miss Jo Stevenson of Dumas visited in the home of Mr. and Mrs. Chester Anderson over the week end.

Mrs. Alvin Farrell is here for an extended stay in the home of Mr. and Mrs. C. R. Farrell. Mrs. Farrell has been making her home in Boston, Mass., while her husband is in the navy.

Pushed-up balloon leaves an open piece bright-colored wool shown above as pictured in the October issue of Good Housekeeping magazine makes attractive attire.

Hallow'een Party Goody

Jolly spook parties to keep young hobgoblins amused and out of mischief are the trend for Hallow'een this year. Whether at home or community party fun, friends and refreshments are the time honored traditions of this favorite autumn holiday. Plan to have a lively program of games including apple bobbing, dice, and contests and a scavenger hunt.

Remember to have refreshments galore but they need not be elaborate. A perfect combination are tasty donuts with a colorful fruit cup made of grapefruit sections, banana slices and canned or quick-frozen black cherries. This Hallow'een favorite bakery goods are more precious than ever because they have been shared during scarcities. Serve up this delicious dessert in shining sherbet glasses and watch your party guests enjoy themselves.

Rainbow Girls Worthy Adviser

Miss Jayne Dameron, above, was elected worthy adviser of the Muleshoe chapter, Rainbow Girls, recently installed at formal ceremonies. Muleshoe Chapter, Order of the Eastern Star, sponsored the new organization. Miss Dameron is a daughter of Mr. and Mrs. Joe Dameron.

Mr. and Mrs. Quentin Aday left October 24, after a three weeks' studies at ENMC at Portales, after visit with his parents, Mr. and J. A. Aday. Quentin will receive his discharge from the Navy in November. After a short visit with Mrs. Aday's parents in Wister, Okla., they will go to McAlester, Okla., where he has prospects of getting a Civil Service Job.

Mr. and Mrs. J. H. Sain of Gould, Okla., arrived Sunday for a visit in the home of their daughter, Mrs. George Provenance and family.

Mr. and Mrs. O. G. York are in Chickasha, Okla., after receiving a telephone call that Mr. York's father passed away Tuesday evening.

Mr. and Mrs. J. A. Hudson are here from Eugene, Oregon, visiting in the home of Mr. and Mrs. J. M. Wilson. Mrs. Hudson, Mrs. Wilson's sister.

Mr. and Mrs. G. M. Vardeman of Bangs, has been here visiting with the family of her son, Wayne Vardeman.

Mrs. J. D. Vaughn and Mrs. Goldie Roberts were in Lubbock Tuesday on business.

Claude Garth returned home October 23, after over a year of active duty in the Philippines. Claude is the son of Mr. and Mrs. J. G. Garth of Baileyboro.

READ THE WANT ADS

USED FAT IS VITAL CROP

177 MILLION POUNDS OF FATS SALVAGED BY HOUSEHOLDS IN 1945 WAS EQUAL TO 15,000 ACRES PLANTED TO SOY BEANS OR 80,000 ACRES PLANTED TO PEANUTS

1000 50 MILES OF PIPE WITH 50 MILES OF SOY BEANS

The 177,000,000 pounds of used fats salvaged by households in 1945 approximately equaled the oil yield of 1,150,000 acres planted to soy beans which would stretch in a mile wide path from Albuquerque, New Mexico to New York City, OR. They equaled the yield of 850,000 acres planted to peanuts which would flow in a mile wide river from Detroit to Albuquerque. For many months to come household savings will continue to be an important source of domestic supply of fats and oils as the acres farmers plant to soy beans and peanuts. The government is urging all households to take an active part in this industrial effort that returns to them the soap and other household necessities they so urgently need.

SANTA PAYS EARLY VISIT

While American industry in many fronts still is struggling with problems in the path of complete reconstruction, the No. 1 hero of childish minds—Santa Claus—has completed his task and the first showing of his handiwork, a full line of pre-war toys, will open November 6 at the Firestone Store in Muleshoe.

For the first time since Pearl Harbor, the shelves and display areas in the Firestone Store will be completely stocked with such oldtime favorites as electric trains, cook stoves, model building sets, airplane gas motors, bicycles, tricycles, wagons, skates and other wheel toys that for the past several years have

been war casualties. It is no accident that Santa Claus made Firestone Stores and Dealer Stores his headquarters for this first real peacetime Christmas. Firestone started planning for this Christmas immediately after V-J Day. End of the war came too late to permit a real pre-war Christmas in 1945, and even this year, while stocks are complete, there may not be enough of some particular toys to go around. That is why the Firestone Toyline, from coast to coast and from the Lakes to the Gulf, are having their formal openings on November 6—to permit early selections and sufficient time for arrangements to be made for delivery of long-wanted toys well in advance of Christmas. Boys and girls all over the U. S. are making early dates with their moms and dads to place their order with Santa Claus through the Firestone Store on November 6 for Christmas delivery of toys they have been denied by the war years. Mrs. Neil Rockey, manager of

Firestone Division of the Muleshoe Motor Company, has placed an advertisement in this paper illustrating a few of the many things that the store has stocked for Christmas.

Mrs. Woody Lambert and daughter were in Turkey last week visiting with relatives.

Mr. and Mrs. Lonnie Wilhite and Mrs. J. E. Wilhite were shopping in Clovis Monday.

Mrs. Roy Holland has returned home after having undergone an operation at a Clovis hospital.

Verna Raye Snyder has returned to her studies at Draughon's Business College at Lubbock after a week end at home. Claudine Trapp, who is also attending D. B. C., will be unable to return because of an appendicitis operation last Thursday evening. Claudine hopes to return by Thanksgiving.

DISINFECTING OF MATTRESSES

COLLEGE STATION, Oct. 29.—"Disinfection of Mattresses," a bulletin of the Texas Engineering Experiment Station describing methods of sterilizing mattresses, has been distributed to the county offices of the Texas A. and M. College Extension Service. Information on the subject to use of the bulletin may be obtained through local Extension Agents.

The bulletin is the result of research done at the Texas Engineering Experiment Station with a view toward developing cheap and easy methods of disinfecting bedding. The work was done in cooperation with the State Department of Health, which has long been interested in finding the best methods of complying with laws that require mattresses offered for sale to be

disinfected. Treatment of mattresses by both chemical and heating methods are described in the bulletin. The heating method proves effective when the mattress is subjected to moist air heated at 275 degrees Fahrenheit. A pleasing feature of the heat disinfection is the light, fluffy condition of the mattress following the treatment. Results of chemical treatments showed that a formalin vapor treatment is probably the best chemical method of sterilizing bedding, since it gives excellent results and doesn't offer as difficult a problem of getting rid of after-odors as did other chemical methods.

Detailed methods, equipment and material needed are described full in the publication which is now in the County Extension offices.

NATIONAL 4-H ACHIEVEMENT WEEK

COLLEGE STATION—Plans are now being completed in counties over

Texas to observe National 4-H Achievement Week, Nov. 2-10. Over 100,000 4-H Club boys and girls will be recognized for the work they have done during the past year in 4-H clubs.

At the beginning of 1946, 4-H Club enrollment in Texas included 101,396 members. A glance at some of the figures showing how much these boys and girls accomplished gives an idea of what 4-H Club Work means in Texas.

Club girls canned over a million and a half quarts of food, served 1,152,000 meals, made more than 150,000 garments and redecorated 7,440 bedrooms—and these are just a few of their accomplishments. Club boys raised over 40,000 acres of field crops, 750,000 chickens, 50,000 head livestock, sold \$2,600,000 pounds of beef and pork, and collected a million and a half pounds of scrap metal. Rural youth who are not club members are being urged during the national recognition week to look at the opportunities offered them in 4-H Club work and give consideration to becoming an active 4H Club member.

SOME REMEDIES FOR DIFFICULT CHURNING

COLLEGE STATION—Numerous letters from farm wives to the Texas A. and M. College Extension Service have contained inquiries as to why they're having trouble "getting the butter to come."

Gladys Martin, acting assistant state home demonstration agent says that failure to obtain butter after a prolonged churning period may be traced to several causes. One main cause of the trouble is that the cow is too far advanced in the period of lactation, and this can be partially remedied by adding to the churning some cream from a cow that is early in the fresh period. Cow feed that produces hard fat is another cause of the trouble. Such feeds are cotton seed meal and timothy hay. More silage and other "juicy" feeds will help to overcome the condition.

Churning conditions can also result in failure to obtain butter, says Miss Martin. The cream may be too thin, too rich, too sweet or the churning temperature too low. If cream contains over 30 per cent butter fat, it is probably too rich for satisfactory churning. It is also sometimes necessary to raise the churning temperature to 65 or 70 degrees to get butter. The churn shouldn't be too full, either, says Miss Martin. It is hard to get enough concussion to make butter in a churn that is over one-third full.

Sterilizing all utensils and generally producing the milk and cream

under sanitary conditions is another measure that prevents the rosy fermentation of the cream that causes difficult churning.

A GOOD AMENDMENT

If it's good for private business, then it's good for public business. That is a safe and sane yardstick by which to measure legislation in governmental affairs.

Measured by that guide there is one proposed amendment to the Texas Constitution, to be voted on November 5, that merits the fullest support of the electorate. It is the proposal to provide a retirement plan for public employees of the State and County governments.

Private business men foundry Public employees were overlooked in the National Social Security

Act and they have no retirement plan now—although firemen, policemen, school teachers and others do.

HAS GOOD MARTIN MILO

Clayton Wells of the Circle Back community, said he has a pretty fair crop of Martin milo that is maturing rapidly. He has been hoping for a frost or light freeze to put an end to growth and cause the grain to mature more rapidly. Unlike many farmers, he has not started to bundle the maize, feeling that

there is not much danger of the stalks falling at the first killing frost.

Messrs. Guy, Bill and Pat Elliott were home this week end visiting with their family. They are all working in Odessa.

From where I sit... by Joe Marsh

Friendship—Three Thousand Miles Apart

Ever play chess? It's a great game! One of the strongest friendships I know of started with a game of chess—between Dad Hoskins, in our town, and a man named Dalton Barnes, in England.

They've never seen each other, never met. But for the past eight years they've been playing chess by mail together—Dad puzzling over Dalton's latest letter, who he sends a chart of his next move to England.

Dad always thinks best with a mellow glass of beer beside his

chessboard. And the Englishman writes him that he does the same. "You know, it's almost as if we shared a glass of beer together, too!" says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often those little things like a game of chess or a glass of beer—that can make for tolerance and understanding... between people of all nations... between neighbors here at home!

Joe Marsh

Santa Fe

...that's the System!

One shipper tells another: the way to get better on-time delivery of freight shipments to and from the West and Southwest is to ship Santa Fe.

Here are some of the reasons Santa Fe keeps freight service "on the advertised" (which is railroad language for "on-time performance"):

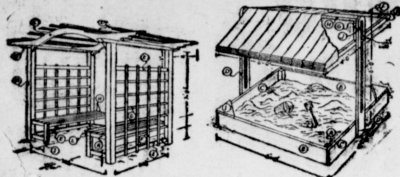

- ... world's largest fleet of freight diesel locomotives.
- ... more miles of double track than any other western road.
- ... more miles of Centralized Traffic Control, which enables freight trains to meet and pass non-stop.
- ... world's largest private telephone system, to keep shipments moving more swiftly.
- ... increased yard capacity, and improvements along the line, such as curve straightening, new bridges, longer sidings.

It all adds up to getting what you want where and when you want it, when you ship Santa Fe.

Ship Santa Fe all the way

For freight and passenger information see your local Santa Fe Agent

Home Craftsman Books High On Government Best Seller List

The greatest production country in the world today, the United States, is still a nation of home craftsmen. This is proved, according to officials of the Government Printing office in Washington, D. C., by the constant popularity of a 30-cent set of pamphlets entitled the "You Can Make It" series.

Prepared a few years ago by the National Committee of Wood Utilization, this set of three booklets has been a best seller in all seasons of the year. The publications contain illustrated instructions on how to make useful articles for the home, the garden and the camp as well as playthings for children, using only a few simple tools, discarded wooden boxes, and odd pieces of lumber. Each book in the set tells how to finish the wooden articles to make them attractive as well as useful. Practically all the items are accompanied by detailed drawings.

There are also drawings of the various tools and small pieces of hardware to be used in the construction.

"These books are so easy to understand, that's what makes them so popular," a Printing Office official said.

Information on making things for outside the home such as a trellis, arches lawn seats, dog house, bird houses, etc., and for inside the house such as racks, chests, bookcases, cabinets, camp furniture, etc. is to be found within the pages of the You Can Make It series. Here is also useful information on wood selection, plywood, glues, glue joints, and other woodworking details. Orders should be addressed to the Superintendent of Documents, Government Printing Office, Washington, D. C. The 30 cents should be enclosed with the order (no stamps, please). All proceeds go to the Government.

Y. L. News

The butane heating system has been installed in the Methodist parsonage.

The fourth quarterly conference meets at Y. L. Sunday, Nov. 3. Rev. Hinds will preach in the morning with basket lunch at noon and business session in afternoon.

Rev. and Mrs. J. P. Cole visited her mother, Mrs. Moore, of Kress, Friday night.

Charley Barnett, Clarence Weeks, and Francis Gaede returned last week from a deer hunt.

Hoyt Cole has gone to St. Louis, Mo., where he will work for some time.

The carnival last Friday night was enjoyed by everyone and we wish to thank the following firms for their contributions: Royce's Cafe, Ray Griffiths Elevator, Edwards Gin, McCormick's, Bulloch's Grocery, Western, Drug, Jennings Food Store, Bill's Cafe, Burrow's Grocery, English Grocery, Cash Way Gro. & Market, Blair Laundry, Kelton Beauty Shop, Gilbreath Feed Store, Washhoe Hatchery and Firestone Store.

Mr. and Mrs. Eugene Black spent

the past week end with her sister, Mrs. Orval Evans, of O'Donnell, Arlene and Carl Richardson were Sunday dinner guests in the home of Mr. and Mrs. D. B. Head and family.

Attend Annual OES Grand Chapter Meet

Mrs. Irvin St. Clair and Mrs. Howard Elliott of Muleshoe last week attended the annual meeting of the Texas Grand Chapter, OES, held at Houston. They were accompanied on the trip by Mrs. Addie Hewett and Mrs. Lenora Rumback of Littlefield.

Mrs. St. Clair, worthy matron of the local chapter and delegate to the meeting, said she had never seen a more elaborate grand chapter program. Mrs. Elliott is conductress of the chapter here.

Among plains people honored by election to state and district offices were: Pat Boone, Littlefield,

grand associate patron; Frank Phillips Canyon, grand worthy patron; Mrs. Pauline Baker, Amarillo, deputy grand worthy matron, district 2; Mrs. Frank Phillips, Canyon, deputy grand, district 2, section 3; Mrs. Pat Boone, electet to Benevolence board.

St. Clair Variety Has New Fixtures

New fixtures are being placed this week in the St. Clair Variety Store, which occupies a room in the St. Clair building 50x86 feet.

Mr. and Mrs. St. Clair are very proud of the modern, beautiful fixtures. Shelves, tables and counters are finished in oak color. Separation of the St. Clair Variety Store and the St. Clair Department Store has recently been completed by a partition the length of the front part occupied by the stores. Large rooms in the rear have been reserved for store rooms and office.

Soapless Soaps Ease Household Chores

AN INCREASING number of farm women are using soapless soaps or wetting agents to help them in a variety of household tasks, an article in nationally circulated Capper's Farmer points out.

These wetting agents usually come in very granular form and are proving superior to ordinary soaps because they actually do double duty—soften water and cleanse—the magazine declares. Formulation of scum by soap in hard water is a characteristic common to all soaps, but not to wetting agents.

The substance in these synthetic detergents combines minerals in hard water to make salts dissolve, instead of making the curd-like substance or scum which is an insoluble salt, the article explains.

Giving better contact between the washing solution and surface to be cleaned, these wetting agents get a material or surface wetter and do it quickly. Near neutral in reaction, instead of alkaline, the wetting agents are most effective for cleansing milk utensils and separators.

Soapless soaps cut separator cleaning time.

Among numerous uses in which these wetting agents are being employed, says the magazine read by 1,300,000 farm families, are: dishwashing, fabric-washing, including woollens, blankets and sweaters, window-washing, family car washing, washing fabrics on furniture, washing milk buckets and separators.

Home Water Treatment

Added window brightness obtained with wetting agents.

A phosphate compound, Micromet, and a feeder to add the compound in right amounts to water will prevent scale and control corrosion in a household water system, writes the Rural Home editor of nationally-circulated Capper's Farmer. It also helps prevent "rusty water" caused by iron. The feeder device is installed in a vertical position on cold water intake line of water heater. After the initial charge of one pound of Micromet, only one fourth pound needs to be poured into feeder each month, says the magazine read by 1,300,000 farm families.

A FASTER, BETTER SERVICE

News Briefs

Mrs. Henry Slaton visited here Tuesday with Mr. and Mrs. E. E. Dyer and family.

Lynda Beth McCormick, daughter of Mr. and Mrs. L. F. McCormick, was admitted to the Amherst hospital last Tuesday and her condition is much improved.

Mr. and Mrs. Marvin Wimberly and family attended Sunday School and church in Portales Sunday, and visited with her family, H. T. Brock, son, Horace J., and Mr. and Mrs. Ernest Brock, all formerly of Muleshoe.

Mrs. Bill Kistler and daughter, Mrs. J. D. Thomas, of Farwell, returned home Tuesday from Pomona, Calif. While there they attended the wedding of Mrs. Kistler's grandson, Bill Kistler. They visited in the

home of Mr. and Mrs. Merle-Kistler at Pomona and Mrs. Kistler visited two brothers and a sister in Long Beach.

Mr. and Mrs. R. T. Tibbets and Mr. and Mrs. Tommy Sullivan and son spent Sunday in Amarillo with Mr. and Mrs. A. J. Roberts and son. Mrs. Roberts and baby returned with them for a visit.

J. J. Tipps and son, Jack, of Lubbock visited in the J. J. DeShazo home Sunday.

Pvt. Doyle Trapp is serving with the Army on Guam. Doyle's wife, the former Miss Maxine Eubanks, is living with her parents, Mr. and Mrs. Neil Eubanks, in Marysville, Kansas.

Mr. and Mrs. L. S. Barron and son spent the week end in Lamesa with her parents, Mr. and Mrs. A. J. Carr.

FIXING UP the HOME By Diane Greeter

Hot Water is an Easy Luxury
ONE feature that the modern homemaker will certainly not ignore in planning a new home or remodeling an older one is abundant hot water. The value of hot water in protecting health, furthering comfort, and shortening hours of household work is well

understood by home economists. The easy and obvious means of supplying the home with abundant hot water is an automatic gas water heater which will deliver water at desired temperatures and in desired quantities at the turn of a faucet. Modern methods of fuel distribution make this indispensable household tool available all over the country. In the cities, utility gas provides the perfect fuel for water heating because of its cleanliness, speed, and economy both in cost and in space required for the heating unit. In the suburban or country or farm home, liquefied petroleum gas—"bottled" or "tank" gas—give the same service and are supplied by dealers whose delivery systems blanket the nation, leaving no home more than one mile from a scheduled route. It should always be remembered in selecting a heater, that need for hot water varies with the seasons, the number in the family, and other factors. A heater with capacity exceeding the greatest expected demand is a wise choice. It will insure uninterrupted satisfaction.

Retirement Plan Getting Approval

AUSTIN, Oct. 28.—Voters of Texas are expected to register support on November 5 of the Constitutional Amendment which will provide a retirement plan for employees of State and County Governments.

This amendment is one of three to be voted on at the general election on the first Tuesday in November. The other amendments are known as the John Tarleton Building Appropriation and the Good Roads Amendment.

Passage of the retirement amendment is expected to save taxpayers money by increasing the efficiency of government personnel, cutting down waste, and by reducing the heavy turnover of labor among the older employees.

Sponsors of the bill in the legislature explained that the nation's best business men had found that a retirement plan pays high dividends, and they pointed out, if it is good for private enterprise it is good for government enterprise.

Rep. George Parkhouse, sponsor of the act, pointed out that war veterans would benefit too.

War veterans who never held a state job before likely will seek

them after their discharge. More of these can be added to the state payrolls if the older employees are removed from the active lists as soon as they reach retirement age.

MR. AND MRS. JERRY KIRK HERE FOR VISIT

Mr. and Mrs. Jerry Kirk, former Muleshie high school teachers, are here for about a three weeks' visit with friends and her parents, Mr. and Mrs. C. R. Mayhugh of Needmore. Mr. Kirk was coach of both girls' and boys' basketball teams last year. They are now teaching in Dill City, Oklahoma, where Mr. Kirk is coaching their teams. The Dill City school is now turned out for cotton picking, and after their three week visit Mr. and Mrs. Kirk will return and resume their teaching.

LEE CANFIELD, FORMER RESIDENT HERE, DIES

Lee Canfield, 73, a former resident of Bailey County, died last Wednesday at Courtland, Ohio. He was an uncle of Ray and Dudley Buzard.

Mr. Canfield used to spend a part of each year here, and was well acquainted with the county. He left here last Spring to return to Courtland.

Uncle Sam Says

There is something about Niagara Falls which symbolizes a strong, happy future. If we had been here a year ago, all our thoughts would have been about backing our fighting men. Americans bought as many war bonds as possible to help win the war. Today, your Government is still selling United States Savings Bonds. To you and every Jane bride and bridegroom I say with all my heart: Now Back Your Future.

MILES OF BENEFITS FOR YOU!

A PIONEER IN BUILDING AHEAD FOR THE FUTURE

Every mile of new transmission line that goes up in your area brings you added benefits.

If you already have electric power in your home, you'll find that new industries are bringing more prosperity to your area. You'll find your stores and shops better lighted.

If one of the many new lines in our 12 million dollar expansion program brings electricity to you we won't have to tell you of its advantages, you'll soon be singing its praises yourself.

In our 22nd year, we're a pioneer in building ahead for the future. We're bringing electric power, man's greatest servant, to more and more people at a lower cost than ever before.

Hospital News -

Mrs. Joe Sinnacher underwent an appendectomy operation last week. She has been discharged.

Claudine Trapp, daughter of Mrs. J. M. Wilson, underwent an appendectomy last week. She will be discharged soon.

Theron Dalton, son of J. C. Dalton, was in the hospital for medical care.

Joyce Arendale, daughter of Verge Arendale, of Enochs, was in the hospital under observation.

Mrs. W. B. Thomas is in the hospital for a few days for medical care.

Uncle Sam Says

All of us are familiar with quizzes about this and that. Let's take this question: What is the strongest economic family asset in America? Millions of you could win the jackpot prize for the correct answer. U. S. Savings Bonds, of course. Ownership of U. S. Savings Bonds is now part and parcel of our American way of life because Americans know that Savings Bonds help to build a better, firmer future. Americans know that they yield a good profit at no risk at all to the principal.

U. S. Treasury Department

Practical Gifts Best Suited for New Baby

YOUNG mothers receiving gifts for their new babies, pick for those that are practical, according to Catherine Tidemanson in an article in nationally circulated Capper's Farmer.

"Too often gifts are chosen because they are clever and cute," she writes in the magazine read by 1,350,000 farm families.

"Mothers appreciate gifts of shirts, nighties and suits of clothing in 1- to 3-year-old size that the child can grow into. Also useful are simple, durable toys that can be boiled. Sterilizers and bottle warmers and blankets are especially practical.

"In the furniture line for babies, one of the popular new pieces is a high chair which can be converted into a small playpen.

"Homemade gifts for the new baby add a special touch. Even if you're a beginning knitter, tiny in-

fant clothing will be easy to make." Among other gift suggestions for the baby which mothers have found practical, she adds, are rubber pants, sleepers, sweaters for the child to grow into. Custard cups for heating food, funnels, glass cups or pint measuring cups marked in ounces, juice squeezers, small strainers and tongs will help mother in the kitchen.

Toys may not be useful at first, but the child soon will be old enough to appreciate them. Teething rings, beads, waterproof soft balls, wooden cymbals and rattles are nice gifts. When buying toys, the writer admonishes, take care there are no sharp corners or removable parts that could cause injury to the child.

The time of the year the child is born should always be considered in selecting the most appropriate gifts, the writer concludes.

Uncle Sam Says

Nothing tells the story of our country's strength better than the sights of children at school. Multiply the scene you will witness this month by thousands. Backing up the dreams and hopes of millions of youngsters and their parents for a sound future must be reality. United States Savings Bonds are formidable chunks of reality. A few dollars saved regularly every pay day and invested in U. S. Savings Bonds have the power to provide education, business opportunity, travel, better housing, health, or any other vital asset you want for your children.

U. S. Treasury Department

Mrs. M. A. Jarvis was in the hospital last week under observation.

Teach. Sgt. J. E. McKillip, son of Mr. and Mrs. L. T. McKillip, of Muleshoe, arrived home Saturday on

a 40-day terminal leave.

McKillip served thirteen months overseas with the Quartermaster Corps as a chief clerk, on Okinawa and Ie Shima. He is entitled to wear the Good Conduct Medal, World War II Victory Ribbon, Asiatic-Pacific Ribbon, Japanese Occupation Ribbon, and two overseas bars.

Prior to entrance into the service, Sgt. McKillip attended Muleshoe high school and graduated

with the class of '43. He also attended Eastern New Mexico College for two years and plans to return to school there in January as he will receive his honorable discharge December 4, at Ft. Sam Houston.

Muleshoe junior boys' football team defeated Littlefield's junior boys on the local field Thursday morning, 25 to 0. It was the first regular game for the younger boys.
