

# THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 11

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, JUNE 22, 1933

NUMBER 21

## JUDGE CLARK MULLICAN OF LUBBOCK TO BE PRINCIPAL SPEAKER HERE ON JULY 4th

The committee on arrangements for the Fourth of July celebration to be held in Muleshoe is rapidly whipping into shape a program that promises to be both entertaining and instructive, as well as remunerative in some respects.

Hon. Clark Mullican, judge of the Lubbock county district court, has been secured as the leading speaker for the day, and other speakers are also contemplated. The speaking will probably be held in the Moeller theatre building which is now undergoing repairs and improvement and will be ready for the national independence day celebration.

A big list of races, stunts of different kinds and numerous athletic events of a diversified kind is being prepared, all of which will have cash prize awards attached to the winning end.

There will be a parade of Boy Scouts, Cub Scouts and Girl Scouts—future citizens of America—marching under the national flag to the step of drum and life corps.

In the afternoon there will be a baseball game between Muleshoe and some other leading team of this section, negotiations for which have not yet been concluded. Several horse and mule races of different kinds are also slated for the afternoon.

At night there will be wrestling and boxing matches and a big pyrotechnical display of fireworks let loose in the sky under direction of the local

American Legion members.

Arrangements are being made to have plenty of ice water located at convenient points for the accommodation of the public. All business concerns in Muleshoe will be open throughout the entire day, many of them making special price offerings so people who desire may do their regular trading at that time and at a saving of money on special offerings.

The celebration is being widely advertised. Numerous citizens from surrounding towns and communities have already signified their desire and intention of coming to Muleshoe and taking part in the big affair and a big crowd is already assured for the occasion.

The usual Barter day features will also be in order. The regular Barter day being the day before July 4th and showed up for this month so that the patriotic feature may be emphasized. On the regular Barter grounds, just west of Main street, people may bring anything they have to sell, swap, trade or dispose in any other manner and there will be plenty of folks there ready to purchase. The services of free auctioneering will also be given, as per past custom. Because of the extra big crowd anticipated through the national celebration day, it is expected there will be exceptional opportunities for the disposal of all kinds of livestock, farm machinery, household goods, etc.

## Engineer Roberts To Prepare Information WTCC Organization

Engineer Harry N. Roberts, for several months past connected with the Texas State Highway Department and located at Muleshoe, having charge of plan preparations for State Highway No. 7 and U. S. Highway No. 70, as well as some other highways, has been chosen as one of the engineers to handle Rehabilitation projects under direction of West Texas Chamber of Commerce.

Mr. Roberts is listed on the roster of preferred civil engineers and has been assigned to the special duty of preparing plans, gathering data, etc., for municipal water supply and sanitation, also, municipal paving and other street improvement.

Mr. Roberts is now preparing required data for the municipalities of Muleshoe, Sudan, Amherst, Littlefield and Abernathy, and is also in correspondence with a number of other municipalities in this part of Texas and Eastern New Mexico looking toward inaugurating plans whereby such cities may also obtain participation in Federal relief funds.

## Cone Pays 71 Cents Bushel For The First Muleshoe Wheat Sold

M. T. Howard, residing in the Earth community, brought the first load of the 1933 wheat crop to Muleshoe market Thursday of last week, selling it to the S. E. Cone Grain Co.

The wheat was composed of large, plump berries all of good color and tested 61 pounds per bushel.

Howard received 71 cents per bushel for the load, being a premium of 10 cents per bushel above market price on that day.

This week wheat cutting is in full swing throughout this section, a large number of headers, binders and combines being in operation. The wheat crop of this section will not be nearly so large as heretofore, the acreage planted last year having been considerably reduced, and on account of dry weather during the winter and early spring months the yield had also been cut down materially.

## EARTH MAN DIES OF GUN SHOT

Andrew J. Fanning, who lived north of Earth, was found dead Saturday morning near his home. He had a shot gun with him which had been discharged into his body, causing instant death. He was buried in the Spring Lake cemetery Sunday afternoon, Rev. H. H. Allen, pastor of the Earth Methodist church, officiating. Surviving him are his wife and four sons. Two sons lived with him. They are O. B. and F. Fanning, R. A. and R. W. Fanning live in Oklahoma. There are also two step-sons, J. F. Reed and I. B. Reed.

## Muleshoe Wins Off Baileyboro In Hard Fought Game Sun.

A snappy, hard fought game of baseball was played last Sunday afternoon between the Muleshoe and Baileyboro teams at Baileyboro, the score ending 3 to 4 in favor of Muleshoe.

The teams were quite evenly matched and the playing was of the nip and tuck variety throughout. There were few errors on either side but plenty of skilled manipulation of the stick and leather spfers.

Baileyboro led out with the scoring when it brought a man in during the first inning. Muleshoe evened the tally in the fourth, Baileyboro coming to bat in the fourth also ran in second score. Muleshoe again played even in the sixth frame. In the seventh Baileyboro got another score, while Muleshoe answered two more to win in the eighth. Coly Graves, pitching for Muleshoe struck out 10 men.

Next Sunday afternoon the Muleshoe lads will cross bats with the Springlake team at Springlake, and Springlake will come here July 4th for a return game.

## ATTEND PLAINVIEW HIGHWAY MEETING TO PROMOTE NO. 7

Dr. A. R. Matthews, Attorney Cecil Tate, K. K. Smith and R. L. Brown attended a good roads booster meeting held at Plainview last Friday, during which delegates present as far east as Waurika, Oklahoma.

The meeting was held in the interest of promoting paving on U. S. Highway No. 70, which passes through Muleshoe. Most of this highway has been paved, and proponents of the road are anxious to have the gaps also filled with completed pavement west to the New Mexico line.

An organization was formed to press the matter with the State Highway Commission, naming Judge J. H. Hamill, of Farwell as president.

## LAMESA GETS 1934 MEETING OF PANHANDLE SING SONG

At the annual meeting of the Plains Panhandle Singing convention held at Lubbock last Saturday and Sunday Lamesa was chosen for the 1934 meeting. Odes L. Echols, Lubbock is president, and officers were re-elected for the coming year.

An audience estimated at 5,000 people attended the song sessions, and there were a number of well known quartets, trios and soloists present to take part in the big melody program. There were several from Muleshoe and other points in Bailey county who attended the convention.

The State Game Commission which has been permitting seining of carp from Teas streams has called a halt of that practice because seiners were also taking out too many fish of other kinds.

## The Worst Kind of Sabotage

By Albert T. Reid

## MULESHOE MASONS TO HAVE A PUBLIC OFFICER INSTALLATION AT HIGH SCHOOL, FRI. JUNE 30

Plans for a big public installation of recently elected officers of the Muleshoe Masonic Blue lodge, No. 1237, are being perfected this week, the service to be held Friday night, June 30 in the gymnasium of the local high school building. At that time an entirely new set of officers will take over the regime of the expiring officials who have so successfully conducted the mysterious secret affairs of this order during the past 12 months and with hopes of carrying the esoteric moral and humanitarian work of that well known and ancient order to still greater heights of success.

There are many people who do not know much about Masonry; they have little idea of its principals, tenets and actions. While not making any claims of a church or even a religious nature, yet it is an order that demands fundamental belief in Deity, the sacredness of the Bible and seeks to exert a large moral influence over its members and others with whom its initiates come in contact.

The program to be rendered on this occasion will be something different than has ever before been given in Muleshoe. On that night members of the local Masonic lodge and numerous visitors from surrounding neighbor lodges will be present to demonstrate in open visible manner some of the creeds and declarations of the order not commonly given heretofore in a public way.

Officials taking part will be in full Masonic regalia, wearing the particular robes, jewels and signs of their respective offices, armed with their respective working tools emblematic of that craft's duties and functions, and much of the ceremony heretofore held strictly private and performed only on the checkbook of King

Solomon's pavement, as represented within the secret confines of their lodge hall, will be given in open and public manner.

The program will not only be specially interesting to many citizens of this and surrounding communities who know little, if anything, of the merits and functions of this order, but it will also be of a highly educational and entertaining nature. The ritualistic and installation work will be interspersed with various vocal and instrumental numbers adding much to the interest and enterprise of the evening.

Prof. W. A. Jackson, head of the Department of Government, Texas Technological college, Lubbock has been engaged and promised to be present to deliver an inspirational address on the "Fundamental Principles of Masonry, Its History, both Past and Present and Its Successful Operation Throughout All Ages." Prof. Jackson, himself a staunch Mason of the elementary and also the higher degrees, has the reputation of being a very fluent, convincing and forceful speaker, his address alone being well worth the time of anyone to hear.

Invitations are this week being sent out to all neighboring Blue lodges of this area inviting them to sit in royal conclave with local Masons and to take part in the auspicious and regal ceremonies of that night.

There is no admission charge of any kind, everyone attending coming as guests of the Muleshoe Masonic lodge, and as a mark of their further courtesy and appreciation, following the installation ceremony, address and program generally, refreshments will be served all those present. The program as tentatively arranged will be as follows:

Masonic Installation Program  
Glen Rockey at piano  
Invocation — Rev. E. C. Raster, Methodist Church  
Welcome Address — Arnold Morris, Retiring Master of Muleshoe Lodge  
Vocal Solo — Miss Ruth Mitchell  
Installation of Judge J. E. Adams as — Worshipful Master  
Vocal Duet, — Mrs. Pat Bobo and Miss Ruth Bearden  
Installation of W. B. Wagon as Senior Warden; Harold Weyer, as Junior Warden; J. S. Glascock, Treasurer; R. J. Klump, as Secretary; Good Harden as Chaplain; W. E. Renfrow, as Senior Deacon; John Benson, as Junior Deacon; D. W. Winn and Curtis Taylor as Stewards; and W. T. Black, as Tyler.  
Female Quartette, — Mrs. Pat Bobo, Misses Reva, Mae Williams  
Mrs. Ruth Bearden and Ruth Mitchell  
Charge to the Worshipful Master — Jess Mitchell  
Vocal Solo — Miss Reva Mae Williams  
Address: "Fundamental Principles of Masonry, Its History, both Past and Present, and Its Successful Operation Throughout All Ages"  
Prof. Wm. A. Jackson, Texas Technological College, Lubbock  
Closing Talk by Worshipful Master — Judge J. E. Adams  
Benediction — Rev. C. A. Joiner, Pastor Baptist Church  
Refreshments

(Installing Officer, Jess Mitchell, Marshal, H. H. Carlyle)

## Kiwianis In Favor Of More And Better West Texas Hi-ways

The principal feature of the Kiwanis club meeting last Friday was discussion of more good roads in West Texas. J. C. Watson, secretary of the South Plains Good Roads association, was present and spoke at length on the subject, urging more memberships in that association.

He declared that it was the measure put forth at the Lubbock meeting of this association last April which was largely responsible for the appropriation of \$25,000,000 which Texas was to receive for further highway work, and that West Texas was entitled to its pro rata share of that fund, but would have to make a fight for it if obtained.

Lieutenant Governor M. J. Cole, of Amarillo, was the guest of honor of the meeting and spoke of the progress of Kiwanis all over the country. He complimented the Muleshoe organization on its accomplishments during the past year and predicted even greater things to be done by the local club. Governor Cole was accompanied here by his wife and two children.

J. E. Adridge suggested that application be made for funds with which to further improve the municipal park and suggested that now was a good time to inaugurate a fair movement, perhaps getting Federal funds with which to erect buildings for such at this time.

There was a big attendance at the meeting and numerous subjects of importance discussed, following an enjoyable feed served by the management of the Onyx cafe.

## RECEIVE STATE PER CAPITA CHECK OF \$88 FOR COUNTY

A check totaling \$88.00 was received last week at the Muleshoe State Bank, representing another payment of the state per capita school funds due districts in Bailey county. It was all quickly paid out to teachers whose salaries were in arrears and their vouchers had been left with County Superintendent J. E. Adams for clearance as soon as the state check was received.

This last check received makes a total of \$9.00 state money paid to date, \$6.00 still being due of the \$16.00 appropriated for this year.

## COTTON GRADING AT TECH

Lubbock, Texas, June 20.—A cotton grading course will be given at Texas Technological college beginning July 10 and lasting four weeks. The work will be in the textile building under the direction of the textile department. The fee will be \$15.

## CITY APPLIES FOR \$6,800 AID WATERWORKS

At a special meeting of the Muleshoe City Commission held Friday morning it was authorized that application should be made through the state organization to the Federal government, under the National Recovery and Rehabilitation Act, for funds with which to increase the municipal water accommodations. The data on this project, engineering work and other detail matter had been previously prepared by Engineer Harry N. Roberts, and the application was sent out that afternoon to Stamford, being handled through the West Texas Chamber of Commerce.

The application calls for an expenditure of approximately \$6,800.00 to enlarge the present water supply, including another well now being drilled by A. B. Hays, casing and pump for same. It also calls for the construction of a 150,000 gallon retaining tank and settling basin with two booster pumps installed therein to put water into the elevated tower on the standpipe. Also, this plan includes some other improvements in the water system, all of which will look forward not only to greater efficiency in the water supply, but toward a further reduction in fire insurance rates.

The application eventually goes to Governor D. C. for review and approval. Officials at the national capitol are very anxious for proposed projects to be promptly submitted so that relief action may also quickly follow. It is stated there is every reason to believe this application will be granted and it is understood, that about 30 per cent of the amount of funds applied for will be in the form of a grant that will not have to be repaid. A maximum of 40 years may be obtained for the balance, if it is the desire of the City to so order.

## More Streets And Other Projects Get R F C Improvements

"So long as REPAIRING is available improvement work will be continued in Bailey county," according to R. L. Brown, chairman of the local relief committee.

This week two more cross streets in Muleshoe have been surveyed by Engineer Harry Rogers and Monday morning a crew of men were put to work on the streets south of the Mission barber shop digging out to the required grade, after which it will be filled in with caliche rock. The cross street just north of the Muleshoe hotel will be the next to receive attention.

Last week Brown and his committee fellow workers had from 15 to 25 boys at work over the principal part of town adjoining and including vacant lots in the business section, cutting down weeds, hauling, piling and burning trash of all kinds, making a wonderful improvement in appearance.

During the past week there has also been considerable work done on the Muleshoe community cemetery located about four miles northwest of town. The driveways into the cemetery have all been repaired and given coats of caliche rock, weeds have been cut from the grounds, while the windmill tower, the sexton's house and the entry gates have all been given coats of paint greatly improving the appearance of that property. Vern Snyder was in charge of this work.

At West Camp, in western part of Bailey county, C. E. Dodson and Prof. Boone have charge of cemetery and school grounds improvement there, and are reported to be making considerable betterment changes.

## ENOCHS 8; AMHERST 3

Pitcher Moore, tossing six-hit baseball, the Enochs nine defeated their Amherst rivals, 8 to 3, in a South Plains League game played at Enochs last Sunday.

Manager G. P. Howell's team was clicking, the infield supported Pitcher Moore in fine fashion to let in no more than one run in any inning.

The Enochs batsmen jumped on Dietsen, D. Harmon and Lumpkin for fourteen hits, and scored four runs in the seventh to overcome a lead. They added three in the eighth to cinch the game. Amherst's rally in the ninth resulted in one run.

Monte Craig hit a homer for Amherst. The victory gave Enochs a tie with Leveland, who lost to Morton in the standings.

What Bailey County MAKES—MAKES Bailey County. By our Making Good in Bailey County we Make Bailey County Good for all of Texas and the entire Nation!

# THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor. L. F. MITCHELL, Bus. Mgr.

**SUBSCRIPTION RATES**  
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.  
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.  
Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.  
Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

### A THOUGHT FOR THE WEEK

But he forsook the counsel which the old men gave him, and took counsel with the young men that were brought up with him, and stood before him.—Chronicles 10:8.

He who was taught only by himself had a fool for a master.—Ben Jonson.

### BEATING THE GAME

Figures gathered by the farm bureaus of the country show in an interesting way that the housewives of the nation have done much toward keeping the wheels turning while economic conditions have been anything but pleasing. Last year there was more canning and preserving done than in any one year in the country's history. But for that there would have been far more suffering and, perhaps, actual cases of starvation.

There are plenty of indications around Muleshoe that in so far as this section is concerned the record of last season is going to be maintained. Already thrifty housewives have started on their program of canning early fruits and vegetables as they procure them and they are going to keep up this work right on through the growing season. Today it is berries that are finding their way into the glasses and cans saved from year to year for this purpose. A little later on it will be vegetables, and still later on they'll be canning fruit. By easy stages the housewife piles up a generous supply of canned goods without over-exercising herself by trying to do it all in one operation.

Long years have shown the wisdom of home canning and preserving. If it

had not been sensible and economical, people would have quit it years ago. That it is the thing to do was demonstrated last season when all canning records were broken. To the housewives of America must go the credit for doing as much, if not more, than any other class to allay actual suffering and to prevent starvation. It's about time to give three cheers for the thrifty and sensible housewives of this country.

### CATCH-PENNY SCHEMES

The postal department is now called upon to investigate more catch-penny schemes than ever before. Evidently the crop of "suckers" is growing heavier, or else more grafters are using the mails to defraud.

Among the chief offenders are the "chain scheme" promoters. For years attempts have been made to stop this form of fraud, but it continues to exist. In recent months quite a few of these chain-letter propositions have been received by people getting mail through the Muleshoe postoffice. How many have "bit," no one knows, of course. But it is safe to assume that this section has contributed its full share toward lining the pockets of the promoters.

The safest way to escape being fleeced by these catch-penny grafters is to remember before you start reading their "miraculous" offers that it still is impossible to get something for nothing. Also remember that there is a string of some sure tied to every offer they make, for they are not in business for their health.

The government is weeding them out by the hundreds, and yet they slip in and reap small fortunes and move on

before they can all be detected and punished. The best place for the "chain" offer and the enticing "free" offers is in the waste basket. But if you haven't a waste basket handy, stick them in the stove unread. You'll save time and money by doing so.

### GOOD OLD DAYS

The time probably will never come when it will be impossible for some people around Muleshoe to cease talking about "the good old days." It has long been a common thing to hear them wish for the return of these so-called "good old days," and yet there would be a loud wailing and gnashing of teeth if they were forced to return to former ways of living.

In the "good old days" there were no telephones, autos, radio, talking machines, electric lights, gasoline engines or tractors. They had few newspapers, and what little reading they did was by dim candle light or flickering kerosene lamps. They had no parcels post or rural free delivery to keep them in touch with the outside world, and if a member of the family got hurt or was taken suddenly ill it was hours before a doctor could reach them over almost impassable roads.

A whole page could be used in listing the advantages of these days over the "good old days." And yet you'll still hear people actually sighing for a return of those "good old days." It's a funny world.

### PRICE OF CARELESSNESS

Accidents will happen, there's no disputing that. But a vast majority of those reported in and around Muleshoe would not have happened if proper care had been used.

A recent survey made in the state of Ohio serves to prove this, and to show just how they happen. It was found that there are six chief causes of accidents, and of the cases investigated, the results were listed this way: Handling objects, 1,765; machinery, 1,423; falls of persons, 1,064; hand tools, 1,014; stepping upon or striking against objects, 870; motor vehicles, 588.

Machinery, falls, loose handling, poorly judged steps and distances—all of which can be summed up in the single word carelessness—were the greatest causes of injury and death.

When people learn that carelessness has its price, which all who practice it will be called upon some day to pay, it will be a safer and better world. The pace of life is too brisk or impatient, and he who violates the rules of care must suffer.

A large number of convicts are now receiving pardons at the hands of

Texas' governor. In reading newspaper reports it appears that convicts from nearly every county in the state, except Bailey county, is receiving consideration. Of course, there may not be any convicts from Bailey county in the state pen.

Folks who last winter were complaining about their high gas bills now have the opportunity of fussing about their ice and electric bills for refrigeration purposes. It's an old saying, "every dog has his day."

Now the dolorous weather prophets of this section are completely muddled. It rained Monday afternoon and how surprised they were. Sad indeed their lugubrious prophecies were all smashed to pieces by Jupiter Pluvius.

### Jaunty Journalettes

Our idea of a prudent man is the Muleshoe citizen who never sees one of these feminine vampires without thinking of a buzz-saw at the same time.

We've been observing for some time past that this depression is actually a boon to professional loafers around Muleshoe because it gives them an air tight alibi for not working.

It is reported that in some Muleshoe homes the depression has become so bad that some husbands are actually turning through their own pockets and going through their own pockets again.

A Muleshoe husband remarked the other day that he had plenty of car trouble, but that most of it came from the rear seat.

If the recently passed farm bills do bring a cure we doubt very much if there will be any of the farmers around Muleshoe who can tell which ingredient of the concoction did it.

What with canned music everywhere, we seldom find a Muleshoe girl who now can play very much of anything except an automobile horn.

Most Muleshoe husbands are like eggs: if you keep them in hot water long enough they are likely to become hard-boiled.

### Pavement Pickups

Blacksmith T. B. Fry says one can do more than strike while the iron is hot; they can make the iron hot by striking.

Blonde sunbathers blisters easier than brunettes, so Dr. Matthews philosophizes that blisters as well as misters prefer blondes.

One great fault with modern colleges, insists Ty Young, is that they turn out too many white collar boys and not enough baseball pitchers.

"I've never quite been able to understand," says Herman Sterling, "just why when a young man discovers he

can grow a mustache he never wants one."

Dr. Lewis, local dentist, while treating a patient the other day, casually asked if he used tooth paste. "No," was the reply, "ain't any of my teeth loose."

Judge Gee says he don't mind having his memory taxed, but this repeated taxing of his shriveled pocket-book is becoming exasperating.

Postmaster Mrs. Carles is authority for the statement that women became independent along about the time they quit wearing dresses they couldn't button in the back without a husband's help.

A boarder at the Onyx cafe the other day said he saw Cecil McLauri treating his wife the way he wouldn't treat a dog. "Great Scott! What was he doing to her?" was the inquiry. "Kissing her," replied the boarder.

Scout Master Bill Garrett who has recently been doing considerable historical research in behalf of the Boy Scouts, has discovered that golf has spread to some parts of Africa. He read of a tribe of African men who beat the ground with sticks as a sign of anger.

A dandy dudeish dressed sort of stranger came into the Western drug store the other day and asked, "Do you have any phenylstiohyanate?" "You mean mustard oil," replied Druggist Lenau. "Sure," said the stranger, "I never can think of that name."

John Benson, president of the Muleshoe Scandinavian triumvirate, has resigned his high collared position, changed his nationality to that of a Laplander, and it is reported will import a troop of "huskies" and Eskimo sleds here to assist in hauling dirt out of streets now being calched.

A young bride of not many months duration came into Damron's drug store the other day, and timidly approaching the proprietor said: "That baby tonic you have been advertising in the Muleshoe Journal, does it really make babies bigger and stronger?"

"Why, of course," said Joe. "We really sell lots of it and have never had a single complaint." "Well, I'll take a bottle," said the bride after a moment's reflection, and then went out. In about five minutes she came back. She got the druggist into a corner and whispered into his ear: "I forgot to ask about that baby tonic while ago," she said under her breath. "Who takes it—me or my husband?"

### SNAP SHOTS

A manufacturer says we're going to wake up some morning and wonder where the depression has gone. Well, we won't summon any bloodhounds to try to bring it back.

The world was created in seven days, according to the Good book. But there were no small fry in those days to mess up the job with amendments.

The government has so much power now that it can prevent almost everything except crime.

Hitler insists that everybody in Germany must perform physical labor, which makes it tough on the politicians. Let's import Hitler into the United States for a while. Wow! what a fuss he'd raise here.

We sometimes wonder the reformers

Miss Sybil Stumph of Jacksonville, Fla., was voted Queen of Basket-balls for 1933 at the A.A.U. national tourney at Wichita, Kan. . . . 300 girls competed.

haven't tried to restore prosperity by giving the depression abolshed by law.

A real conservative father now days in Texas is one who tells his young son that if he will be good he may some day grow up to become vice-president of the U. S., just like Johnny Garner did.

Maybe the reason some fellows get arrested for bigamy is that they just keep on taking wives in the hope of getting a good one some day.

Every day Dorothy Dix is telling the public how to pick husbands, and we're telling Dorothy the way to keep him is not to pick 'AT' him.

Another cause of crime frequently overlooked is darned meanness.

Faith may move a mountain, but never a ton of ashes from the cellar.

## New Gulf-lube motor oil lasts 28½% more miles per quart!

TO MAKE THIS TEST, WE BORROWED 6 CARS—both new and old. Leading 25c oils were tested against Gulf-lube in each car. Gulf-lube stood up 28½% longer before a quart of oil had to be added!

Beats competing oils to a standstill in Speedway "burn up" test

FOR 4 days, 12 hours a day, 6 borrowed cars tested 4 of America's leading 25c oils . . .

And, with every step of the test supervised by the Contest Board of the Ameri-

can Automobile Association, here was the result—a result that amazed even the hard-boiled officials . . .

Gulf-lube beat every oil in every car! It averaged 28½% more miles per quart than the average of its competitors.

Switch to the "high mileage" motor oil. You'll say "give me a quart of oil" less often! And you'll get a better oil—the finest motor oil 25c ever bought! Get Gulf-lube at any Gulf station

© 1933, GULF REFINING CO., PITTSBURGH, PA.

## GULF LUBE THE "HIGH-MILEAGE" MOTOR OIL

# PROGRESS!

The greatest display at the Century of Progress exhibition at Chicago is the wonderful progress and adaptation in the uses of electricity in the home, factory, business house and in life generally.

No other product of human ingenuity has contributed so much to lighten the labor of the human family, and at the same time make life more comfortable than that of electricity. Without it many of the most marvelous inventions of the age would have never been made.

Its greatest uses today in our section is in lighting the home, furnishing the power for household necessities, and in making available unlimited resources of power for industrial use.

## Texas Utilities Co.

YOUR ELECTRIC SERVANT

# Phillips 66 higher anti-knock

**NOW!** Beginning today Phillips offers motorists even greater value than before! • Extra anti-knock value is now added to every gallon of high-test Phillips 66—at no increase in price. For your protection, the new high test and higher anti-knock Phillips 66 is colored **ORANGE**. • Remember, Phillips does not merely say "high test." Phillips proves it by printing the actual gravity in plain figures. For example, Phillips 66 gravity this month ranges from **62.1° to 67.9°**. • One trial tankful will tell you more than a dozen pages full of words. Compare the cost and performance. Your own motor quickly proves the improvement in power, mileage, and anti-knock—when you **Phill-up with Phillips 66.**

**"HIGHEST TEST" AND "anti-knock" at the price of ordinary gasoline**

Also Phillips 66 Ethyl at the regular price of Ethyl Gasoline

A gasoline of U.S. Motor grade at a competitive price

**NEW LOW OIL PRICES**  
This new and finer motor oil is guaranteed 100% pure paraffin base. Minus wax, water and carbon. It does more, lasts longer, and the price has just been reduced 5¢ a quart.

## General News Over Texas and Adjoining States For The Week

A. & M. college reports the Texas turkey crop will be very short this year.

The first bale of cotton raised and sold in Texas this year brought \$130 at Houston.

The broomcorn acreage planted in Hockley county is being considerably increased this year.

Three hundred thousand pounds of wool sold in Rowell last Saturday, bringing from 17 to 24 cents per pound.

Summer students of Tech college, Lubbock, will make their annual visit to Carlsbad, N. M., caverns July 1.

An American Legion post has been organized in Texico, N. M., by Edwin C. Hobbs, district commander in New Mexico.

Texas now has nine cement plants turning out \$7,985,000 worth of products last year.

The Panhandle field constitutes one of the world's most prolific sources of arcon black.

Armour Co. have purchased the cheese factory at Goldthwaite and will enlarge its capacity.

There were 19 Texas young men to finish the course at United States Military academy, West Point, this year.

A new high price paid for mohair was established at San Angelo last week when a large quantity of it sold at from 35 to 40 cents a pound.

There have been 11,042 people to visit the Panhandle museum at Canyon since opening of the building and display two months ago.

Methodists at Levelland held their first services in their new, recently constructed church building, last Sunday.

The City of Levelland has made application to the Federal Rehabilitation fund for money with which to build a county hospital and erect a city auditorium.

There are now 38 plants in Texas manufacturing women's clothing, more than five million dollars worth being made last year.

Governor Miriam A. Ferguson last week vetoed a bill to tighten the confederate pension law and lower the amounts paid to veterans and widows of certain classifications.

Curry county, N. M., of which Clovis is the county seat, has operated on 22 per cent less budget expenses during the past month than the same month of last year.

Amid a shower of bullets the safe belonging to the Citizens bank at Lament, Okla., was taken with \$5,000 in it by robbers Saturday night of last week.

Dr. J. D. Sauter, president of Simmons university, Abilene, is reported in a serious condition following a major operation at Dallas hospital.

There were a total of 151 new corporations chartered in Texas during May, a 25 per cent increase over the month previous. There were also 95 out of state concerns chartered, 10 more than during April.

The vault in the Valencia county treasurer's office, Los Lunas, N. M., was robbed Wednesday night of last week of \$9,367.00 cash. Finger prints have been obtained and officials out looking for the robbers.

R. J. (Bob) Murray, formerly of Lubbock, and for many years associated with the Santa Fe system, has resigned his positions as director and general manager of the Texas Co-operative association and will, in the future, devote his time to private interests in and around the Hub city.

The townships of Bledsoe and Lehman of the Cochran County Commissioners' court, and valuation of Santa Fe property in that county reduced from \$9,090 to \$4,009 per mile. Lehman was once a strong contender against Mor-ton for county seat location.

## Newspaper Fills A Most Important Place In Affairs Of Life

Noticing that the Frigidaire company this season is to spend the major portion of their advertising appropriation for newspaper advertising and none whatever with the radio outfits it brings to mind a few thoughts of many minds that have been printed about the newspaper.

When the people get tax-conscious, they turn to the newspapers.

When they want to know every 24 hours just exactly what the national political situation is, they turn to the newspapers.

When they want to watch daily the turn in the tide of the stock market, or the rise and fall in the price of eggs, they turn to the newspapers.

When they want to be economical in household expenses, they turn to the advertising columns of the newspapers.

When they want to be truly informed on the actual daily fluctuations in the price of anything that they may have occasion to buy, they turn to the newspapers.

When they have an urge to satisfy their craving as to the truth or falsity of a certain piece of gossip, however large or small in importance, they turn to the newspapers for the truth.

When they want to know who came into the world today, who got married, who ran away from his wife and five children, who came to the old home town to live and who died, they turn to the newspapers.

When they want to know what is going on in the great world outside, socially, politically, or in the general run of news, they turn to the newspapers.

When they want their fill of social news, sports news, spot news, features, women, telegraph news, continued stories, or what not, they turn to the newspapers.

When they want honest expression on the controversial subjects of the hour, and a chance to give expression themselves to their own ideas, they turn to the newspapers.

The American newspaper was never so important, nor so interesting, to the average person as it is today. It is being given a more thorough reading today than ever before.—Tucumcari, N. M. News.

## Law Retorsing 2c Postage Goes Into Effect On July 1

An order resending the two-cent local rate on first class postage on July 1 was signed last Monday by Postmaster General Farley.

The reduction from the present three-cent rate is being made under a recently enacted law and Farley hopes the volume of business will be increased to a point where work will be provided for thousands of postal employees who otherwise might be furloughed without pay.

On July 1, postage on letters and other first class matter, except postal cards, and private matter or post cards, mailed for local delivery at post offices having city, village or rural carrier service, will be at the rate of two cents for each ounce, or fraction thereof. The rate on letters mailed to other cities or villages, remains at three cents. The rate for cards remains at one cent.

Michigan Has Oldest  
Michigan state college, dedicated May 13, 1857, is the oldest agricultural college in the United States.

### METHODIST CHURCH

Sunday school 9 a. m., with a devotional program for benefit of the mission work of the church. The laymen will have charge of the services at 11:00 a. m. There is an interesting program being worked out and the men will have something to say that will be worthy of the attendance of the entire church membership.

The leagues meet at 8:00 in the evening. There will be reports and talks on the Assembly and then there will be reports to give on the meeting at Sudan which meets next Saturday afternoon at five o'clock and runs through the afternoon Sunday. We trust that there will be a good number of the leaguers attend this Sudan meeting. The people there will furnish the entertainment and it is near enough that almost any one who will care to go may be able to attend.

These district and zone meetings, as well as the conference meetings, are the power generators for the life of the organization work. No one ever attends these with out getting new zeal in his life and then passing it on to others. We trust the parents will make the sacrifice as far as is needed to permit their children to attend this meeting.

The pastor appeals to the church for a rallying of the church upon the attendance to all the services. If those who are here and well will attend this will make up for any reduction in attendance of those who are away and sick.

The mid-week meeting at the church on Wednesday seeks to help you in your daily life and living. Come

The choir has been out of tune for some weeks and we seek a good attendance here this Thursday night. The church will be cool, and you may rest while you sing.

Some other improvements are being made at the parsonage this week and some of the people are asking about another church clean up. This we hope to have as soon as the strain of the season slacks a little. A number of our people have some hard work to save their homes, pay their debts, feed and clothe their families, and now is the season for their labors to do most in this way. —E. C. RANEY, Pastor.

### GILBREATH SURPRISE PARTY

A surprise party was given Monday night at the home of G. A. Nelson, Francis Gilbreath being the honoree.

Games of rook and 42 were enjoyed until a late hour after which refreshments of cake and strawberry ice cream were served.

Those attending were: Twila and Alvin Farrell, Mary Hoyt, Syble Coker, Troy, Arnold, Frank and Theo Actkinson, Heburn Gilbreath, Crystal Kennedy, Woodrow Gaede, Melzine Rockey, Cecil Spence, Mr. and Mrs. N. E. Trostle, Hazel and Betty Nelson, Mr. and Mrs. G. A. Nelson, Mr. and Mrs. A. C. Gaede, and the honoree, Frances Gilbreath.

Buy it in Muleshoe.

### CARE WILL SAVE YOUR CAR

SO PLEASE DO NOT NEGLECT IT!

Hot weather is now here and many motors are going to be damaged by overheating.

To insure normal operating temperature of your motor, have the cooling system flushed out to remove any sediment that may have collected in the radiator and cylinder block, install new hose connections as the old ones may be chafed inside retarding the water circulation.

Be sure the water pump and fan are doing their work properly, also, be sure the ignition is properly timed. All this is very important for proper operation of your motor.

Drive into the Clinic and let us help you keep your motor running

# POULTRY FACTS

## POULTRY BUSINESS HARD TO COUNT ON

### Producers Should Not Grow Too Optimistic.

By H. H. A.L.P. Poultry Extension Specialist, College of Agriculture, University of Illinois—WNU Service.

Just as some poultrymen were too pessimistic a year ago, some of them may be too optimistic now. Prospective flock owners should not get over-enthusiastic on the basis of profitable egg prices during the last months of 1932.

Poultry and eggs bring in more than 11 per cent of the millions in Illinois cash farm income, which explains why good egg prices should be hailed with optimism. However, there is little reason why flock owners as a group should adopt a general expansion program. Unhappily, for some an increase in size of flock, buildings and equipment would be justifiable. However, any marked increase in the poultry business depends largely upon the availability of a good market, other farm activities, the experience of the operator and the relative importance of poultry to other farm enterprises within the area.

Probably the best plan for most people during the year would be to follow a normal procedure and do the best possible. The "in and out" seldom made money. What poultry prices will do during the coming year is problematical.

Any wild optimism at this time would be as foolish as the loose thinking and foolish pessimism of a year ago. At that time egg prices in February, March, April, May and June caused many people to become unwisely discouraged. They decided to quit their interest in poultry and drift along. Consequently, when egg prices reached the profitable level, only those flock owners who had maintained their interest were prepared to take advantage of the situation.

## Blood-Tested and Culled Flocks for Best Chicks

The most important question before the poultryman is where and what kind of baby chicks to buy, says C. F. Parrish, poultry extension specialist at North Carolina State college. "I am convinced, however, that the safe plan for the poultryman is to get his new chicks from hatcheries where the eggs used come from blood-tested and culled supply flocks."

Mr. Parrish says his reason for making this recommendation comes from certain tests which have been made. Reports on 79,000 chicks produced by hatcheries where the eggs were produced by blood-tested birds show 3,151 chicks died from all causes during the first four weeks of life. This is a mortality of 6.4 per cent.

Reports on 7,058 chicks produced from birds that had not been blood-tested show that 2,875 died from all causes during the first four weeks of life. This is a mortality of 39.1 per cent.

## Keeping the Male Birds

Farm management experts and agricultural economists have commonly insisted that a well established agricultural practice is usually to sell. We like to agree with them, but are at a loss to know the advantage of keeping the male birds in the flock after the regular hatching season is over. And yet this is done on a majority of corn belt farms where male birds are carried through into spring.

The lowered quality of the eggs, the feed eaten by the birds, the usual decline in their value between May or June and late fall, the trouble they cause bothering the growing stock if they can get in with them, are some of the reasons why people should sell roosters as soon as the regular hatching season is over. "Saw the rooster" campaigns have been held and much writing has been done each year, urging the adoption of an early sale program. But it has not been adopted very widely. There must be a reason. Why is it, asks a writer in Wallace's Farmer.

## Poultry Notes

Blackhead disease, a turkey illness, is blamed for the dying out of the hatchery.

Cod-liver oil fed to hens improves the hatchability of the eggs about 10 to 25 per cent; milk, 5 to 15 per cent; and green feed, 5 to 10 per cent.

A bill was introduced in the Ohio legislature authorizing county officials to collect \$5 for every stray chicken found on the highways.

On a ship which recently arrived at Plymouth, England, were 10,000,000 Australian eggs.

There were 499,457,000 chickens on farms in the United States, according to an estimate of January 1, 1930, by the Department of Agriculture.

"Laying batteries," tiers of individual metal coops in which hens are permanently caged, are being offered poultrymen. Eggs are delivered from the cages automatically as soon as they are laid.

# Schedule For Wheat Acreage And Cotton Land Payments By Federal Government Are Given The Public

## WHEAT PLAN

Official announcement was made the first of this week by Secretary of Agriculture Wallace, Washington, D. C., that a maximum processing tax of about 30 cents per bushel would be levied on wheat this year, beginning probably about July 1 and holding on until about August 1.

It was stated that payment of such benefits will be made from a processor's tax collection from the millers beginning shortly after July 1, and the distribution of cash payments among the wheat growers will start about September 15. Farmers will be required to sign an agreement to reduce their acreage next year a maximum of 20 per cent, the exact amount to be fixed late in the summer after the outcome of the international conference of the surplus wheat producing countries is determined. The signing of contract by the farmers will begin between July 1 and August 15. Those who have already marketed their grain and later sign the agreement to reduce acreage will receive the same benefit as all others. The administration will be through voluntary county committees.

Wheat growers who suffered a crop failure this year will receive their share of the cash benefits based on average production for the last three years. The distribution of the funds among the states and counties will be on a five year average production. The cash benefits will be based on wheat used in human domestic consumption, which is about five-eighths of the total crop, or for the last three years slightly less than 483 million bushels.

For the time being no attempt will be made to form marketing agreements among the processors to sustain prices. The program for wheat is based entirely on control of production and the payment of cash benefits to those who agree to reduce acreage.

The present parity price level for wheat is about 80 cents a bushel, and the market price now received on the farm is about 60 cents. Should the market price rise to parity, then an adjustment of the cash benefits may be made; the same is true if the market price should drop, or the purchasing power of the wheat dollar should decline. Secretary Wallace, however, expects to maintain the benefit payments unchanged as long as possible.

While payments to the wheat farmers on domestic consumption will be made for three years under the announced plan, the farmer will be required to sign an agreement merely to reduce acreage for the 1934 and 1935 crops.

During a telephone conversation between Tom Davis, local grain dealer, and Harry Kearns, of Amarillo, Wednesday, Kearns quoted the following wire which he had just received from Frank A. This, Chief of Wheat Processing: "Administration plans not definitely completed. Tax and effective date likely be announced next few days. However, benefit payments will be made to farmers signing acreage reduction agreement regardless of when their grain sold."

## WILSON MISSIONARY MEET

Members of the Wilson community Methodist Missionary society met last Monday with Mrs. Mead, opening the session with a song and then a prayer led by Mrs. Tyson. Mrs. Mead leading in Scripture reading of Hebrews second chapter. Dismissal was by Mrs. Blaylock.

The afternoon was spent in quilt piecing, there being 16 present including seven visitors. Next meeting will be with Mrs. Perdue, June 28.—Reporter.

## COTTON PLAN

Secretary Wallace has called for the destruction of 10,000,000 acres of growing cotton in a long-lived experiment to curb production and reduce the potential surplus of the South's big money crop.

The secretary announced that maximum processing tax—about 4.1 cents a pound on the basis of present price relationships—would be levied beginning Aug. 1 to finance the program under which growers will be asked to plow up portions of their crop in return for rental benefit payments and the right to obtain options on government owned cotton.

A campaign will be started in the South next Monday when growers will be asked to sign contracts to rent 1500 lands at \$6 an acre up, depending on the average past yields and estimated production of the land this year.

The farmer can either offer to take an outright cash payment for plow up portions of his crop or can take a smaller rental and obtain in addition an option on about 2,400,000 acres in an amount equal to the estimated output of the land he retires from production.

The full schedule of payments worked out by Secretary Wallace for cotton acreage reduction under the two alternative plans which will be made available to growers follows:

Schedule of payments with options on Government cotton at 6 cents a pound.

Yield per Acre	Benefit Payment in Pounds.	Per Acre With Option
100-124	\$ 6	\$ 7
125-149	8	9
150-174	10	11
175-224	12	13
225-274	14	15
175 and over	17	18

In all of these cases the amount of cotton which the grower will be entitled to obtain an option will be equal to the yield of the land he retires from production.

The yield of his land will be determined on the basis of past production of the land and the appearance of his crop this year and its general condition. The plan providing for cash benefits and plow up options calls for these payments:

Yield Per Acre	Without Option	Payment Per Acre With Option
100-124	\$ 7	\$ 9
125-149	9	11
150-174	11	13
175-224	13	15
225-274	15	17
175 and over	18	20

The offers by growers will be worked out in co-operation with county committees to be established in every State. The county agricultural agent will be a member or agent.

When the growers sign a voluntary agreement it will constitute an irrevocable offer for a limited specified period during which the Secretary may accept or reject it. After the offers have been acted upon by Wallace and his aids a formal notice will be issued to those whose signed agreements have been accepted. It then will be the duty of each to take out of production the acreage covered by destroying it. Replanting of the land to crops which would be moved off the farm will not be permitted but feed for livestock may be produced.

## PORTALES vs. LARIAT

The Portales, N. M., State Line League ball club played the Lariat at Sunday afternoon, returning home that evening with the long end of a 4 to 2 score and their undefeated record for this year still unblemished.

Harp, Portales hurler, allowed five hits and Jones, who hurried for Lariat, held the Portales team to six.

## FINISH LAYING WATER PIPES

The work of finishing laying water line in Santa Fe Municipal park was completed the first of this week, there now being about 1,700 feet of pipe laid in the park for irrigation and other water purposes.

Eighteen hydrants have been located on the water line to accommodate the approximately 1,000 trees planted and now growing nicely on the park grounds, also a variety of spots of flowers and shrubbery planted. Two lengths of 50 foot hoses have been supplied, reaching any of the growing vegetation, the city supplying the necessary water for the growth.

# MECHANICAL EFFICIENCY INSURES MENTAL SATISFACTION

No auto or truck owner can be happy over the performance of a car that is all the time hesitating, stuttering, sputtering and balking.

Such uncalled for and unappreciated action can all be taken out and at very little cost. Our skilled mechanics will gladly investigate the cause of any auto trouble at no cost and remedy it cheaply and efficiently.

## A SWEET RUNNING CAR MEANS A HAPPY DRIVER.

## KENTUCKY BURLY TOBACCO

"Direct From Grower To You" Old Kentucky Burley Tobacco is the cream of the finest crops Kentucky's bountiful soil can produce—ripe, rich, leaves, smooth and mellow, with that rare old-fashioned flavor and fragrance that only proper "aging" can produce. We bank on it you have never tasted or smoked a finer flavored, more satisfying tobacco in all your life.

## SPECIAL OFFER! FIVE POUNDS SMOKING TOBACCO

RICH, RIPE, OLD-FASHIONED LEAF Our Old Kentucky Burley is no more like manufactured tobacco than dry is like nickel—guaranteed free from chemicals and all other adulterations that conceal imperfections, delude the sense of taste and undermine the health.

We use the same method our grandfathers used in preparing tobacco for their own use—every trace of harshness leaves it—nothing to "bite" your tongue or parch your taste. Thousands of tobacco lovers the world over swear by its inimitable smoking and chewing qualities.

REDUCE YOUR TOBACCO BILL 1/2 cent from the grower, this eliminates the eighteen cents a pound Revenue Tax—all manufacturers' and middlemen's profit, thereby effecting a saving to you of 50% or more. No fancy packages, no decorations, just quality and lots of it. MONEY SAVING PRICE

SMOKING 5 lbs. Send us One Dollar Cash for P. O. or EX-CHEWING \$1.00 Press Money

Order (no personal checks) and we will promptly ship you a five pound package of "Burly Tobacco."

Five pounds of Old Kentucky Burley will make 49 large packages of smoking or 59 twists of chewing.

35c Send 35 cents in silver and we will ship Post-Paid—one pound of Burley Tobacco as a trial offer.

A trial will convince you. We have thousands of requests daily for "Samples"—our margin of profit is so small we cannot comply with these requests. We do not ship C. O. D. orders, so do so would require a large staff of clerks. Orders must be in English language.

## INDEPENDENT TOBACCO GROWERS ASSOCIATION

McClure Bldg., Frankfort, Ky.

**FARM HOLIDAY MEETING TO BE AT AMARILLO, AUG. 3-4**  
At a meeting held in Lubbock last Saturday it was decided another meeting of the Texas Farm Holiday association would be held in Amarillo

August 3 and 4. Robert LaFollette of Albuquerque, N. M., was the principal speaker on the program.  
There are now approximately 2,000 members of this organization in the Panhandle-Plains area, of which 1,200 are in Hale county.

**Progress News**

Sunday school was very well attended. There was a large crowd for church. Rev. Hill filled his regular appointment with his text from Philippians 3:13-14. He delivered a very interesting sermon.

Singing was very well attended Sunday afternoon. There were several visitors from Oklahoma Lane. We were proud to have them with us and welcome them back again. We have singing every first and third Sundays. Everyone is invited to attend.

A party was given at the home of Mr. and Mrs. O. K. Wilhite, Saturday night. At a late hour the boys and men departed reporting a nice time, leaving the women and girls to have a slumber party. There was a large crowd and everyone reported a splendid time.

Mr. and Mrs. Jim Killough and family, Mr. and Mrs. L. R. Hogan and family, Mr. and Mrs. Tom Smith and family, M. B. Green, Mr. and Mrs. J. T. Fuller, Mr. and Mrs. Luther Hoy, two of the Murrah children and Leona Lockhart spent Sunday afternoon with Mr. and Mrs. W. L. Swanson and son, A. L.

Mrs. John Gaede and Mrs. Kimbrough and son, Carlos, of Y L visited in the N. T. Ford, home Sunday.

Deslie and Lonnie Wilhite returned home Saturday after a week's visit with their brother, C. W. Wilhite of West Camp.

Mr. and Mrs. C. W. Wilhite, of West Camp, visited Mr. Wilhite's parents, Mr. and Mrs. F. K. Wilhite and family, Saturday.  
There was church and league Sunday night. Rev. Hill delivered a very interesting sermon. There is league every Sunday night at 8:30 p. m. Everyone is invited to attend.

**Y L News Items**

A large crowd attended the Father and Son day celebration at Y. L. Sunday. There was plenty of dinner for all and every one enjoyed the program.

Prof. Joe H. Owens is visiting friends and relatives in various parts of East Texas. He expects to be gone for three weeks. He is accompanied by his family and Mrs. Owen's mother and grandmother.

The new mission books for the Y. L. Missionary society have arrived. The new study class will be organized next week.

Dr. Moore, of Muleshoe, attended the Father and Son day celebration at Y. L. Sunday.

At a meeting of a committee from the churches last week Crockett Brewton was employed to take care of the school building during the summer months.

Paper for the Methodist parsonage has been bought by the Missionary society and will be put on three rooms this week. At the last meeting of the society a committee was appointed to purchase varnish for the floors.

Merriel Elizabeth Daniels infant daughter of Mr. and Mrs. N. S. Daniels of Y L was buried in Muleshoe cemetery last week. We extend sincere sympathy to this grief stricken home.

Mr. and Mrs. Bryant and Mr. and Mrs. Farres, of Littlefield, were visiting in the Y. L. community, Sunday.

The Third Quarterly conference for the Earth and Y. L. charge will be held at Y. L. July 2nd. Rev. W. L. Tittle, presiding elder, will preach at the evening hour and hold conference immediately after the preaching service.

The young people of Y L made plans Sunday night to attend the League union meeting at Sudan next Sunday.—Reporter.

**Goodland News**

Bride is Honored  
Miss Lyndell Gaddy honored Mrs. Robert Saunders, formerly Miss Katherine Hanover with a miscellaneous shower Friday afternoon from 4:30 until 6 o'clock. The ladies present registered in the Bride's book, giving a favorite recipe for the bride to try out. Later the bride, looking lovely in a blue crepe dress, came with her mother and some ladies from the Wilson community. The presents were brought in to Mrs. Saunders in a little wagon and two of the ladies present carried the rest in their arms. There were many beautiful gifts. Later, ice tea and cake were served.

**Girls Club Meet**

The Girl's club met last Wednesday at Mrs. Cook's. A new secretary, Lyndell Gaddy, had been elected to take Mrs. Bob Saunders place. At this meeting it was agreed each member should pay \$5 a month dues to the club excepting where there were more than two in family and then it should be only 10c for the entire family. This is for the purpose of ordering literature etc., that will be needed in the club. A 30-cp pillow of silk scraps was made for Mrs. Ponder. Two new members, Mrs. Burrus and married daughter, Mrs. Andy Jacobs, joined that day. After a two hour session the club adjourned agreeing to meet the following Wednesday at Mrs. Creamer's. Miss Anabel Creamer is now visiting at Leila Lake with her sister.

Mr. and Mrs. Jud Gaddy spent the weekend in Earth visiting friends. Mrs. Clara Mounts' mother, Mrs. Harvel of Hale Center, is now visiting her daughter at G.

Mrs. Ponder had a baby last week. Mrs. Cass Stegall is still in Lubbock with her baby daughter, LaTon

who has had her jaw lanced due to an abscess. It is expected that they will return this week.

Mr. and Mrs. Powell Lancaster are the proud parents of a baby girl, "Baby Beth," born June 10.  
Mr. and Mrs. Horace O'Neal visited relatives at Dora, N. M., Sunday. Miss Lyndell Gaddy was a Lubbock visitor, Saturday.

**Baileysboro News**

**Baileysboro Busy Bees**  
The Baileysboro Busy Bees met Wednesday, June 14. We now have 77 members. The club has already quilted six quilts. At the last meeting Mrs. W. B. Wallis, Mrs. C. B. Wallis, and Mrs. H. G. Harvey brought quilts. Next week Mrs. J. S. Fears, Mrs. Ruthie Blackshear and Mrs. G. Blackshear will bring quilts.

Mr. and Mrs. Charlie Durham and children, of Levelland, spent Saturday and Sunday in the G. L. Blackshear home.  
Mr. and Mrs. Jack Woods have had relatives from Ford county visiting them the past week. Mr. Wood's mother is to spend the summer with them.

Woodroe Freudinger and C. L. Durham left last week for Roswell, N. M., to look for work.  
Jess Freudinger went to Vernon last week to visit his sister.

Mrs. Frank Stephens entertained a group of little folks with a birthday party Thursday.

Lowell Thomas, who went to California last week to visit his sister, has been operated on for appendicitis. The Baileysboro baseball boys defeated the Longview boys in a game Sunday with a score of 16-4.

Mr. Burrell of Shamrock, visited his son, Posy Burrell, and daughter, Mrs. Ethel Hildebrand, last week.

Mr. and Mrs. Lawrence Durham and children, of Longview, spent Sunday in the Rice home.  
Mr. and Mrs. W. Q. Channey and son Edgar, Mr. and Mrs. Dee Clements and son Oland, spent Sunday with Mr. and Mrs. Rayford Stimmel.—Reporter.

**Longview News**

The Friendship club met Wednesday with 17 members present. The members quilted one quilt for Mrs. Stevens. We had two new members to join, Mrs. Callogg and daughter, Jimmie Lee. All are invited to the club each Wednesday afternoon at one o'clock. Refreshments were served by Mrs. Stevens.

Truman Huff, from Borger, visited his parents, in the Longview community the ninth and twelfth of this month.

Neivan Layne is visiting in Sudan this week with her uncle.

Mr. and Mrs. Pat Barnett and little son, Kelly Joe, visited Mr. and Mrs. J. M. Bell, of Baileysboro, Monday.

Lee Pool visited his folks here Sunday.  
Mr. and Mrs. Herman, of Sudan, visited Mr. and Mrs. Frank Robinson, Sunday.

Clyde Gallagher has gone to look for work.

A large crowd enjoyed the dance at Mrs. W. E. Guest's Saturday night. The Longview Sunday school is in a contest between the reds and blues. The one that gets beat will serve refreshments to the other side.

Miss Mozelle Barnett spent the week with Mr. and Mrs. Joe Essery. N. C. Moore played ball with Enoch again Sunday.

Babe Cooper and Pat Barnett spent the afternoon at Enoch's, Sunday. There were a few of the Longview people enjoyed the ball game at Baileysboro, Sunday afternoon.—Reporter.

(Too late for last week)  
The Friendship club met Wednesday with 18 present and two quilts were quilted for Mrs. Shaffer and Mrs. Barnett. Refreshments were served after the quilting.

Mrs. W. R. Young is visiting relatives at Shallowater.  
A large crowd enjoyed the party at Mr. and Mrs. Neal Warren's Saturday night.

Baileysboro boys played the Black boys from Longview Sunday. Baileysboro was the winner.  
Essie Williams and Pauline Russell, from Lake Arthur, N. M. are visiting Mr. and Mrs. W. R. Carter.

A large number of friends enjoyed the birthday dinner Sunday given in honor of Mrs. W. E. Guest at her home.  
Mr. and Mrs. Willis Brewer are visiting in Wellington this week.

Wesley Long and G. W. West were in Sudan, Tuesday.

A large crowd attended the dance at Mr. and Mrs. Joe Essery's Saturday night.  
Lee and Harvey Pool have returned to their home in Lubbock.

N. C. Moore played ball with Enoch again Sunday. They beat Slaton 16 to 2.  
Virgil Webb, Raze Renfrow and D. Warner attended lodge at Muleshoe, Tuesday night.—Reporter.

**GASOLINE PRICES HIGHER**

Effective last Saturday gasoline retail prices advanced 1 1/2 cents or 13 1/2 cents.  
One cent of the raise came from the refinery, while the one-half cent was added Federal tax, making a total of 1 1/2 cents per gallon sold by auto users in Texas.

**\$25 FINE FOR DESTROYING VEGETATION OF OTHER FOLKS**

A law has been passed by the recent Texas legislature and signed by the governor making it a fineable offense of \$25.00 for anyone guilty of staking out cows in any manner whereby they may destroy the property of others.  
The law also applies to folks who willfully destroy, pluck or otherwise injure flowers, shrubbery, trees, etc., on the property of another without their consent.  
R. L. Brown, chairman of the Mun-

icipal Park Improvement says there has recently been considerable damage done to trees in Park, and the first peak at such is going to feel the brunt of this law.  
The improvement in cars is progressing at a faster rate than the driving.

**YOU WANT—**

Light Foods for Summer eating—and you want to pay as light a price for them as you can. We can satisfy you both as to Food and Price.  
For several years we have been selling Groceries on the "Five and let live" plan—and folks like it. So will you. Come see us!

**WE ARE OLD-FASHION...**

We are old-fashioned enough to believe that good feelings and good health go hand in hand and that they are both best promoted by good foods.

**"THE STAFF OF LIFE"**

Wholesome, staple Groceries form the basis of healthful living, obviate the doctor's visit, are incompatible with drug store remedies and make a long delay of the undertaker's final visit.

"Eat, Drink and Be Happy for tomorrow you may die," is an old time slogan long ago disproven, for when you partake of wholesome, appetizing foods you are surely lengthening your days of delight and postponing for innumerable years the one advent which no one desires to entertain.

The druggist may tell you he is "in business for your health," but we are in business for not only your health, but your happiness also.

- DANNER AND ALSUP FROM HERE IN PEACE ARMY AT GAINSVILLE Mrs. G. C. Danner in receipt of a copy of the Daily Register, published at Gainsville, which contains a long write-up of the Civilian Conservation Corps camp of more than 200 peace time soldiers located there, among them being her son, Curtis Danner, also Herschel Alsop, both enlisting from Muleshoe. The lads speak very high of camp conditions, accommodations, the good food supplied them and excellent treatment from officers in charge, and all seem to be well satisfied with their enlistment and location. They will be largely engaged in land erosion work, ditching and terracing farm lands, building rock barriers across ditches on cultivated land, construction of earthen tanks and other soil conservation measures. SCOUTS GET MERIT BADGES At the regular meeting of the Boy Scouts held last Thursday night in the Legion hall applications were made for 33 merit badges which were duly granted and issued. The lads were honored with attendance of Mrs. J. C. Weaver organizer and several of the girl members. Alvin Chitwood completed his tenderfoot test and Justin Danner passed his Star Scout test. C. F. Moeller was present and gave the boys a very interesting and much appreciated talk. The meeting was dismissed by repeating the Scout oath, led by Charles Alsop. BUYS CREAM STATION Garland McCoy grocer and service station man located on State Highway No. 7, last Saturday purchased the cream station business of the Farmers Produce concern, which he will in the future operate in connection with his other lines of business. Wise men do not call other people boobies. Nobody wants to hear the truth.

- YOUNG FOLKS S. S. CLASS MEET At a meeting of the young folks Sunday school class, Baptist church, held last week officers were elected as follows: R. B. McHorse, president; Christine Dennis, vice-president; Jim Alsop, assistant secretary. "Ready" was the name selected for the class. After the business session, members present adjourned to the home of Mrs. Ray Griffiths for a social time and refreshments. Henry Ford Dearborn, Mich. June 19, 1933 A COMPANY THIRTY YEARS OLD Last Friday the Ford Motor Company completed 30 years of automobile making. It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years. Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars. Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions. Of course, there is one thing we cannot share—everyone must get it for himself—and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car. But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead. Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear. That is the outlook for this young thirty-year old Company of ours. Henry Ford
