

# THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 11

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, OCTOBER 5, 1933

NUMBER 36

## \$2,562.87 AMOUNT TAXES PAID IN CO. FOR SEPT.

There was a total of \$2,562.87 in state county and school taxes paid in Bailey county during the month of September, according to records in the office of Jim Cook, county tax collector. Of this sum \$967.09 was paid for state and county taxes, while the sum of school taxes paid was \$1,595.78, being for the respective districts as follows: Liberty \$8.08; Longview \$37.18; Watson \$1.30; Wilson \$15.85; Goodland \$53.10; Fairview \$178.45; Baileyboro, \$189.56; Circleback \$89.96; Progress \$92.49; West Camp \$197.25. The total delinquent taxes due in Bailey county up to September 1 was \$193,113.00. There has been about 50 per cent of state and county taxes for the year 1932 paid to date, and about 60 per cent of the past year's school taxes paid, the per cent varying with the different districts. Beginning with the first of October there was added a penalty of two per cent on all state and county taxes, this percentage running until December 31, when it jumps to three per cent until March 31, after which it goes to four per cent until June 30, from that time on carrying the regular penalty and interest until paid or the property is sold for taxes.

### BASKET BALL ORGANIZED

Muleshoe High school is getting ready for the season's basketball playing, practice and elimination try-outs for the team being made last Tuesday with 30 girls appearing for the preliminary work-out. It is anticipated by Coaches W. C. Morgan and Miss Evelyn Boone that a good team will be developed. Several of the girls have plenty of weight while others have skill and experience sufficient to make the local team one worthy of the respect of the most avowed antagonists. Plans are now being laid for a schedule of games with other schools to be started in about two weeks.

### Com. Court Wants Damage To Court House Lawn Stopped

That considerable damage is being done to the county court house lawn in Muleshoe, is the statement of Judge J. E. Adams this week, and the court is anxious for it to be stopped. Commenting further upon the depredations he says: "Alex Paul, who is custodian of the Bailey County courthouse and county house lawn, reports to the Commissioners court that his efforts in trying to keep a decent courthouse yard for the past two or three months have been largely in vain. The children of the town and other communities are destroying the flowers and shrubbery, breaching limbs of trees, digging holes in the lawn and damaging the property in other ways. These children are of various ages, between the ages of six and eighteen. "The court realizes the fact that the property belongs to all the people of Bailey county. They also realize that there has been considerable amount of money spent in trying to keep the property in repairs and in beautifying the grounds. The court also believes that the people of the town and county are interested to such an extent that they do not want this property destroyed or damaged. Therefore the children are asked to discontinue the practice of playing on the courthouse lawn. The co-operation of the parents in seeing that their children do not continue playing on the courthouse lawn is respectfully asked."

### QUARTERLY CONFERENCE

Rev. Lloyd H. Jones, pastor, announces that the Fourth quarterly conference, Muleshoe circuit, embracing the churches of Fairview, Longview, Progress and Wilson will be held at Longview, Sunday, October 15, beginning at 4:00 p. m. All members of these various organizations are urged to attend. Rev. Jones will preach at Fairview next Sunday, October 8th.

### BAILEY TO GET GOV'T PORK

That Bailey county will participate in the reception end of the Federal government hog campaign is the information received Tuesday by Pat R. Bobo, in charge of RFC work for the county. The information was to the effect that this county would receive 1460 pounds of cured pork for distribution to the needy this winter. The shipment will be included in a carload lot sent to Memphis, this state, and Mr. Bobo will send a truck there to haul the Bailey county allotment here.

### OPEN STORE IN FRIONA

Irvin St. Clair, proprietor of the local variety store, will next week open a variety store in Friona, it being located in the Rushing building. He is now in the market buying a complete new stock for the new store. The store will be in charge of W. L. Stett, of Stamford. Let Texas folks live for Texas.

### Gov. Ferguson Gives List of Suggestions For Legislative Act

More than one-half the time of the special session of Texas Legislature has already passed and very little legal enactment has been done by that body. Much time has been spent in controversy and investigation of various items, practically all being of major importance. During this week definite action is anticipated by both the House and Senate on several measures of vital import to the state. Governor Ferguson has submitted several suggestions to the legislative body, asking the favorable action thereon. Some of these measures are as follows: Passage of a law that would make kid napping for ransom, extortion or robbery a capital offense. The addition of at least six more state rangers to the present force, occasioned by the crime wave increase. To regulate loan brokers and increase the license fee. Levy an occupation tax on producers of natural gas for light and fuel. Prohibit inquiry into the religion or religious affiliation of persons applying for position in the public school system. Define common carrier pipe lines engaged in transportation of natural gas. Safeguard consumers of natural gas against excess charges. Appropriate funds for an audit of all books and accounts of oil companies to determine bonus and rentals due on public school lands. Additional appropriation for insurance commission to provide for audit of books of insurance companies in other states. Additional appropriation for livestock sanitary commission to complete tick eradication. Investigate wages of women and minors. Permit motion picture theaters to show pictures of prize fights. Appropriate \$25,000 for publication of eight proposed amendments to the constitution. Amend the salary commissioners general salary.

### The State Highway Office Here Is In Charge Of Stanley

Resident Engineer F. C. Stanley, of Lubbock, for the State Highway department, and his assistants, Cecil Pray, Lubbock and Gordon Thompson, Ballinger, arrived in Muleshoe last Monday afternoon and again opened the division office here in the courthouse. This crew of engineers will have charge of the paving of State Highway No. 7 in Bailey and Palmer counties to begin in the near future. The contract for same has been let to Hannah & Hall, contractors from Waco. The construction covers 11.4 miles in Bailey county and 10.7 miles in Palmer county. Work order for same has been issued out of the Austin office and work is expected to begin about October 10.

### QUARTERLY CONFERENCE

Rev. Lloyd H. Jones, pastor, announces that the Fourth quarterly conference, Muleshoe circuit, embracing the churches of Fairview, Longview, Progress and Wilson will be held at Longview, Sunday, October 15, beginning at 4:00 p. m. All members of these various organizations are urged to attend. Rev. Jones will preach at Fairview next Sunday, October 8th.

### BUY SERVICE STATION

Thursday last week J. B. Burkhead closed a deal with Garland McCoy for his service station business on State Highway No. 7, taking charge immediately. The station will be operated by his son, Jim Burkhead, who will continue to give prompt, courteous service to the patrons. It will, in the future, be known as "Jim's Service Station."

### CO. SCHOOL BOARD MEET

A meeting of the County School Board was held here Tuesday afternoon for approving bonds of truck drivers in various school districts. Several were duly approved, but it was found some drivers did not yet have their contracts properly signed.

### EXTENSION ON WHEAT LOANS

Owen Sherrill, manager of the regional credit production loan office, was advised Saturday that an extension has been granted on applications for wheat loans from Sept. 30 to Oct. 31. He said the loans could be made only on acreage which had been planted to wheat for the past four years.

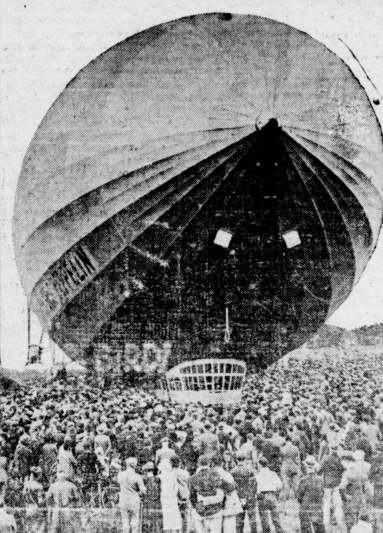

The Graf Zeppelin, famous German airship, with Dr. Hugo Eckener, in command of the dirigible that will soon pay a visit to the United States.

### E. R. HART SUGGESTS RAISING OF FLAX IN WEST TEXAS AS ONE WAY OF FIGHTING DEPRESSION IN U. S.

That flax might be profitably grown in West Texas, is the suggestion of E. R. Hart, local business man, who has been making some investigations regarding this particular crop, its growth consumption and market value, and who believes that many of the acres now being retired from various crops and other acres on which have been raised crops congesting markets may be used for this product of which there is not enough grown to supply the home nation demand. Commenting upon the growing of flax, Mr. Hart said: "The average consumption of Flax Seed in the United States over a period of 25 years has been 33,000,000 bushels annually. The average domestic yield has been 17,176,000 bushels. The average amount of imports 15,892,000 bushels; the average yield per acre of our domestic crops has been 7.6 bushels per acre, and the average price \$2.14 per bushel. "The State of Kansas, from 1924 to 1931, produced an average of 261,000 bushels of flax, the average yield per acre being 6.4 bushels; the average price received by the farmer, \$1.89 per bushel. "There is no reason why Kansas especially the west half, and the western part of Oklahoma, should not produce several million bushels of flax annually. About April 1st, whenever the soil is in good condition for seeding, there is little speculation as to whether a crop can be raised. Flax requires very little moisture, and the flax crop can be harvested ten weeks after planting. Flax is the only cereal crop where we consume more than we produce. "The domestic crop for the United States, in 1933, is only 7,000,000 bushels and estimating by the law of averages, it will be necessary for us to import approximately 26,000,000 bushels of flax during the next twelve months. The world supply of flax seed for 1933 is only about 60% of normal, and high prices can be expected. "The farmer might raise this question, 'Where can I find a market for my flax?' The Archer-Daniels-Midland Company of Minneapolis, Minnesota, who are the largest crushers of flax seed in the world own and operate a plant at Fredonia, Kansas, and the Fredonia plant is always a splendid market for what flax is raised within the boundaries of this, or nearby states."

### Muleshoe Wins In Football Game At Amherst Last Fri.

The Muleshoe Yellowjackets, High school football team, journeyed to Amherst Friday last week for the first game of this season with the High school team there, and stung them in the time of 6-0. It was a hard fought game through out, both teams being quite evenly matched, and making eight or nine first downs each. However, the field was soft, the dust bad and the game was slow in spots though no fault of the players nor coaches on either side, who were up on their toes every minute of the playing. Members of the Muleshoe team show ed up well in this their first game. There was perhaps no real outstanding player, but there was good continuity of action and fine team work manifest as result of the temporary training given by Coach Stevens. Play Morton Here Friday afternoon of this week the Muleshoe lads will meet the High school squad from Morton here, playing on the field north of the depot, and another desperate pigskin tussle is anticipated. It will be Morton's first appearance here, and the local team is preparing to give them a reception they won't soon forget. The team will be in excellent condition for the diamond tussle, according to Coach Stevens, and a big crowd of local fans is anticipated will be present. Local sport adherents should make a special effort to attend this game. Admission will be 25c for adults and a dime for youngsters. Women of Lynn county have received orders for more than 100 hooked rugs from a Dallas dry goods concern.

The Graf Zeppelin, famous German airship, with Dr. Hugo Eckener, in command of the dirigible that will soon pay a visit to the United States.

### Wilson Of Tulia Opens A Grocery Store In Muleshoe

Homer Henington this week completed the closing out of his grocery by selling the remainder of the stock to A. M. Wilson, of Tulia who, this week is adding considerable new stock to complete the assortment, and will open a grocery store in the Stone building formerly occupied by Mr. Henington with his drygoods stock. Henington has moved his dry goods into his own building formerly occupied by the grocery store recently sold, and will, in the future operate the dry goods store exclusively. Wilson, who is putting in the new grocery store here, also has grocery stores at Tulia, Happy and Dimmitt. Vesta Hill, formerly in the employ of Mr. Henington, will have charge of the Wilson grocery store.

### Wilson Of Tulia Opens A Grocery Store In Muleshoe

Homer Henington this week completed the closing out of his grocery by selling the remainder of the stock to A. M. Wilson, of Tulia who, this week is adding considerable new stock to complete the assortment, and will open a grocery store in the Stone building formerly occupied by Mr. Henington with his drygoods stock. Henington has moved his dry goods into his own building formerly occupied by the grocery store recently sold, and will, in the future operate the dry goods store exclusively. Wilson, who is putting in the new grocery store here, also has grocery stores at Tulia, Happy and Dimmitt. Vesta Hill, formerly in the employ of Mr. Henington, will have charge of the Wilson grocery store.

### Eastern Star Meeting

The Order of the Eastern Star, No. 792 met Tuesday night in the Masonic hall, voting on acceptance of several new members and discussing plans for attending Grand Chapter to be held at Amarillo, October 24 to 26. Several plan taking advantage of the close proximity of the meeting place to attend. Another meeting is scheduled to be held October 16, at which time two or more members will be initiated.

### SHIP OUT WILD MATERIAL

Representatives of the Magnolia Petroleum Co., production department, from Pampa, were here Tuesday and Wednesday shipping out casing and other material used in the wild cat oil well drilled some months ago in the Lazduvia community, and which turned out to be a "duster."

## TRADES DAY A BIG EVENT IN TOWN MONDAY

Trades day at Muleshoe last Monday went off in great style. There was a good crowd present, apparently everybody enjoying themselves, some not only socially but financially as well. Trading and buying on the vacant lots was quite active for a while, everything brought for swap or sale being disposed of and their were calls of several other items not represented on the auctioneer's list. Among the things sold were binders, radios, chickens, trailers, household goods of different kinds and horses. The rolling-pin contest for women was one of the features of the day, there being 17 entrants. Mrs. J. W. Barber, living north of town, won first prize, slinging the womanly missile a distance of 107 feet and nine inches, while Mrs. Owen Broyles was second, throwing the weapon a distance of 99 feet. During the afternoon merchandise buying was quite brisk for several hours. Many of the farmers attending who had recently received their cotton acreage were more than 500 people on the government put their money to good use in spending some of it for bargains and special price offerings of merchandise by various merchants. Practically all lines of business report good patronage during the day, some of them declaring they enjoyed better business than they had the Saturday previous, and in a few instances all special offerings were entirely gobbled up by buyers. At night there was a big street dance music being furnished by a good orchestra. Several present have estimated there were more than 500 people on the streets during the evening hours, and more than 100 couples were counted on the pavement enjoying the torchlight serenades. The crowd present was reported entirely orderly and everything went off in decorous manner, participants enjoying an evening of wholesomeness.

## Transfers Of Real Estate In Bailey Co. For September

Real estate transfers in Bailey county during the month of September were as follows: Sept. 4—C. J. Roach and wife to A. J. Hicks, lot 15, blk. 8, original townsite of Muleshoe. Sept. 5—H. L. Reid and wife to W. R. Wilson, N. W. 1/4, sec. 24, blk. Y, Johnson subdivision No. 1. Sept. 1—Maple Wilson et al to Thurlie Eubanks, N. E. 1/4, sec. 51, blk. B, Blum & Blum survey. Sept. 6—A. J. Hicks and T. W. Newsome to B. F. Pierce, labor 22, league 211, Deaf Smith school land. Sept. 13—W. B. and T. W. Newsome to Chas. Atchison, labor 17, league 211, Deaf Smith school land. Sept. 14—State of Texas to Young county, part of unsurveyed league 163, embracing 1,769.93 acres. Sept. 21—A. J. Hicks and wife to E. R. Hart, 15 blk. 5 original town of Muleshoe. F. B. Hudson and wife to W. P. Davis, E. 1/2 of labor 25, league 112, Crosby county school land. Sept. 22—W. P. Davis and wife to Petroleum Land Holding Co. ( mineral deed) 85.55 acres out of E. 1/2 labor 25, league 112, Crosby county school land. Sept. 25—Maple Wilson et al to Frank Perry et al, N. W. of N. E. 1/4 of S. E. 1/4 of N. E. 1/4 sec. 15, league 142, Hansford county school land. Sept. 26—Jim Cook sheriff, I. C. Ennels, N. E. 1/4, sec. 19, league 107, Fisher county school land. Sept. 26—E. K. Warren & Son to State of Texas (right-of-way deed) a strip of land 10 feet wide and 150 feet long out of N. W. 1/4, blk. Y, Johnson subdivision No. 2.

## CHANGE COLLECTION DATES

John S. Andrews, government field supervisor, advises that in the future he will be in Muleshoe on Monday and Tuesday mornings only for the purpose of collecting government crop loans. It is also reported that beginning with this week government cotton reduction checks will be started out to farmers obtaining loans from the government, heretofore only those not having such loans had received checks.

## AMHERST VOTES DRY ON BEER

Amherst, the third town in Lamb county, to vote on the local option sale of 32 beer registered dry in a vote of 51 to 49 last Saturday. It is stated there will be no contest of the election. Littlefield and Sudan, in that county had previously voted wet.

### \$7,733,420 IS STATE DEFICIT

The State Treasurer's Department today reported the deficit in the general revenue fund totaled \$7,733,420.34. The department issued a call for general revenue warrants up to and including No. 166279. Charley Lockhart, State Treasurer, said the call aggregated \$483,869.95 and took in about three-fourths of the May warrants. No new call was issued for Confederate pension warrants. The department is paying up to and including the July, 1932, issue regardless of whether or not they have been discounted and is purchasing up to and including the May, 1933, issue provided they have not been discounted. Lockhart said.

### Bailey Co. Placed Sixth At Tri-State Fair At Amarillo

Without any effort at all in placing for premium winning, Bailey county won sixth place last week at the Tri-State fair held at Amarillo, in agriculture exhibits shown. All exhibits accepted and placed were given a flat premium of \$25.00, and R. L. Brown, who gathered and placed the Bailey county exhibit, had no thought other than having the farm products of this county represented at the fair. He was indeed surprised when notified he had not only been awarded the \$25.00 but had also placed sixth in the showing. Brown declared that by taking a little more time in choosing specimens he is confident he could have won first or second place. First place was awarded to Oskaloosa county and second place to Holdham county.

### SEND TINFOIL TO MASONIC HOME FOR CRIPPLES, DALLAS

Last Saturday R. L. Brown took a consignment of 75 pounds of tinfoil gathered by school children and others and brought to the Journal office, to Khiva Shrine Temple, Amarillo, where it will be later sent to the Masonic home for crippled children at Dallas. Owing to the low price now offered for tinfoil of various grades consignments received at Amarillo are now being sent on to the Dallas home. There is now more than 3,000 pounds being held at Khiva temple. Masons everywhere very much appreciate the thoughtfulness of people in saving their otherwise useless tinfoil wrappers, as the money obtained from it is used in alleviating the suffering of unfortunate little ones at the home.

### MORE THAN \$50,000,000 FARM CHECKS ARE NOW MAILED

The Farm Administration announced Saturday payments to cotton growers who plowed up their crops in the emergency reduction campaign had reached \$50,198,279. The number of checks sent out to date this year was 463,822. The Farm Administration said approximately \$4,000,000 was being distributed daily and this rate was expected to be maintained or increased until the farmers had been paid approximately \$111,000,000.

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

Published every Thursday at Muleshoe, Texas. Advertising rates given upon application. Telephone No. 54.

Subscribers who change their address, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount reflected by him for such advertisement.

Advertisements that do not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, if matters not by whom nor for what purpose, if the object to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount reflected by him for such advertisement.

A THOUGHT FOR THE WEEK

Take up a hind in the way he should go; and when he is old, he will not depart from it.—Proverbs, 22:1.

Childhood shows the man, as the morning shows the day.—Milton

A HOBO PARABLE

Times may be getting better; Muleshoe citizens generally agree that they are. But there isn't any noticeable reduction in the number of hoboes and "panhandlers" making their way about the country.

None of them appear to have quit their wanderings and gone back to work. That other sections are similarly afflicted with the hobo and that they are sized up about the same way in other sections, we offer as proof this descriptive paragraph written by the editor of a weekly paper at Archbold, O., and which describes the modern hobo to a "T."

"Consider thou the hobo, for he toils not neither does he spin, yet the millionaire hath no such privileges. The hobo concerneth himself not with taxes, neither real estate nor income. He worryeth himself not lest his payments pass, or doth he lose sleep because of bills overdue. The persistent bond salesman pestereth him not, neither does the government intimidate him. He knoweth no code, nor does he comply with any other man's ethics. Verily his roof is the heavens and his floor is the earth. No man telleth him whether he shall go nor whence he shall come. There are none to tell him when to shave, nor where to park his rubbers. None to fix and tinker nor to make him come back in the house and change his trousers. Nobody calleth after him to caution him about his overcoat. Truly the hobo lives his life out with no fear of robbers. Cold draughts from open windows cause him no worry, and of sanitary accessories he has no need. Verily, verily, I say unto you, blessed be him that hath not, for from him naught can be obtained."

"WALK ON GRASS"

In different places they do things differently. In some places conservation

supersedes utilization, while in others the idea is reversed. In the State of Oregon "Walk on the Grass" signs are common in public places, but in Texas most of these signs read, "Keep off the Grass." There's one of that kind on the court house lawn in Muleshoe, and there has been considerable criticism among some citizens of the county because of it.

Bailey county has a lawn of grass, flowers and shade of which it is rightly proud. It is such as very few counties throughout the state can boast. It's a delightful thing to view, and strangers visiting here seldom fail to recognize and express their praise for it.

However, in this prairie country where good grass and shade is really scarce there are several who have expressed their opinion to the effect that folks should be permitted to enjoy sitting on the grass and under the shade. They say, "we are the ones who are paying for it with our taxes and we should be privileged to enjoy its benefits in a reasonable manner."

While this is true, yet it's another case of where the people cannot have their cake and eat it. Perhaps too rigid restrictions against keeping off the grass is unwise, yet this beauty spot would soon be entirely destroyed if it was not guarded and cared for in a careful manner.

MAKING FARM PAY

Making a farm pay does not always depend upon the farm alone; the farmer is frequently as important a factor in the success. Poorly a farmer has moved onto a poor piece of land, messed around with it for a year or two and then disgustedly gave it up to move somewhere else to try his hand—and continued to be a failure.

There have been other farmers who went onto relatively poor soil, started putting on manure, and within a very faint crops, planting legumes and putting on manure, and within a very few years time had the richest land in that given section.

The farmer who is continuously on the move, shifting from one place to another, blaming everything and everybody else but himself is inevitably doomed to continued failure, and has no one to blame for it but himself.

Farming now days, requires as much intelligent activity as does any other kind of business, it is a matter of

brain as much as brawn. The farmer, like any other industrialist, must learn to make his head save his neck. Unfortunately there are many who seem unable to do this. Hence, it is no wonder some mules fall because of not having the right kind of men to drive them.

PAVING TAXES

Taxes are never a popular subject, and this is particularly true in times like the present when the tax burden remains up near 1929 levels, even tho' other expenses have declined. Nevertheless the fact remains that for most of us there is no better way of showing patriotism or love of country than by paying our taxes. Without taxes there can be no government, and without government the country itself can not exist.

During the last four years tax-paying has become decidedly harder. Many have had their incomes cut off entirely; others have found their tax bills out of proportion to their reduced incomes on funds on hand. To adapt himself to the new condition every division of government has cut expenses, but new charges have been necessary to carry on the tremendous volume of relief work, and there is little doubt which the public itself will not let government economize.

While many property owners around Muleshoe find themselves less able to pay this time than in any former period, others, who have returned to their jobs, find that they can again contribute something in return for the protection and privileges government affords them. The truth is everyone receives more for what he pays in taxes than for any other outlay. It is well to remember this. If you can possibly pay your taxes do so, for your help is needed, and it will cost you less to pay now than later. If you have several tax bills and can not pay all of them, pay what you can. Do not wait to others to carry your taxes do so, for your help is needed, and it will cost you less to pay now than later. If you have several tax bills and can not pay all of them, pay what you can. Do not wait to others to carry your taxes do so, for your help is needed, and it will cost you less to pay now than later. If you have several tax bills and can not pay all of them, pay what you can. Do not wait to others to carry your taxes do so, for your help is needed, and it will cost you less to pay now than later.

STATE HIGHWAY NO. 7

The letting of contract for grading and drainage structures on State Highway No. 7 from the west Lubbock county line to the eastern New Mexico state line marks the beginning of a culmination long sought for by the citizens of Lamb, Bailey and Farmer counties, as well as those in the northeast of Hockley county through which this highway traverses about seven miles.

There is already much work done over this state artery, and with this improving and the final paving, which will doubtless soon follow, this travel will be considerably increased, while the benefits accruing to local travelers will be much.

One immediate favorable feature of this contract letting is the fact that practically all the labor is to be done by local people in the territory through which the highway passes. The contract provides for this, and that such labor shall be obtained through local employment agencies. The prices to be paid are 45 cents per hour for skilled labor and 35 cents per hour for unskilled labor. The grade will be of caliche much unskilled labor will be employed, which in turn, will mean considerable financial relief for those counties thru which the construction is being made.

WEEDS ARE FLOWERS

How many Muleshoe people realize that weeds are merely misplaced flowers in many cases?

According to the dictionary, a weed is "any plant growing to the injury of a crop or desired vegetation; a plant that is not wanted." This being so, any flower, no matter how pretty it might be, is a weed if it is growing in a lettuce bed or a row of beans. As a matter of fact, all plants are classified differently in different parts of the world.

Many of the flowers in this country are weeds in other countries. A wild rose certainly is a flower, but it is a weed and a scourge to a Dakota farmer. Fields of ordinary blue thistles are pretty, but they are certain ruin to grain or grass. Even the wild carrot has a lovely white blossom, but it is a curse in some of the hay fields farther north and east. The "soap weed" has a beautiful blossom, and we have seen it, highly prized in numerous yards farther east, as are also many other wild plants of the southwest which we try to root up and destroy, but elsewhere they are nurtured and admired.

There are some weeds though, that are surely classed correctly, however, and certainly could not be flowers anywhere.

THE DOLE

The Journal heartily agrees with Senator Clegg in requesting the idea of a dole for the needy, as expressed by him in the Legislature a few days ago.

There are plenty of people who are going to the assistance and they should have it; but we don't believe

in the dole idea. Any form of gratuitous charity has had form and encourages many to obtain further charity. For there are always some folks on the relief lists, and Muleshoe is not excepted in this matter, who are not all deserving. Finally, there are still others who prefer to have food and clothing given to them rather than work for it.

Right here in Muleshoe, local RFC officials say there is one rule which when given work to do shift through it as lazily as possible with no idea at all of attempting to give anything like value received. They should be cut off the work and direct aid entirely.

AN OLD RULE WORKS

Farmers around Muleshoe are now planting. This year, it is indicated, it is working as well as ever with respect to crops. Bad weather held back spring plowing and sowing, and many fields partly or wholly plowed, were not in shape for planting. This forced reduction in acreage plus a long period of drought.

The government's latest crop report shows to what extent unfavorable weather has operated to make the off rule work. Prices of most products are higher because yields are shorter, and more of the stuff grown on the farm will have to be used upon it as food for herds, flocks, poultry and pork "on the hoof."

In some regions production will be the lowest in many years, and others will have a complete failure. So the old rule of supply and demand works out.

"DAD"

He may wear last year's straw hat, his finger-nails may need manicuring, his pants may bag at the knees; his face may show signs of second-day's growth, but don't you call him "the old man." He's your father. For years he has been rushing around to get things together. Never once has he failed to do the right thing by you. He thinks you are the greatest boy on earth, but none, even though you plaster your hair back, wear loud clothes, smoke cigarettes and fall to bring home a woman. He is the man who won the love and life partnership of the greatest woman on earth, your mother. He is "some man" and not "the old man." If you win as good a wife as he did and if you turn out to be half as good a man, the chances are you'll have to go to some.

Pavement Pickups

Steady work. At reasonable pay. Will cure your ills. Says NRA.

A well known Muleshoe father was having a serious but friendly talk with his elder son one day last week. In the course of the conversation, he said to the young man: "Son, I never kissed a girl in my life until I met your mother. Will you be able to say the same thing to your son?" "Sure dad," replied the lad, "but I don't think I'll be able to keep as straight a face as you do when I say it."

Cliff Davis, who is quite a French student, says it comes in handy now days for everyone to understand some foreign language, otherwise they can't understand some of the dirty words in the average magazine one buys at a drug store now.

Mrs. Carles says the old folks used to sit in the kitchen because daughter had a beau; now they sit in the living room because she has the car.

J. C. Weaver insists he can't understand how it is that Germany gets so many rulers she isn't to blame for.

"I wish our bank would get on its feet and stop sending our checks back to us marked "No Funds," remarked a Muleshoe wife the other day. We don't dare call her name for fear she would snatch us bald headed. Friend husband says he just smiled at her statement.

John Benson was asked the other day what he would think if he found ten bucks in his pants. "I'd think I had on somebody else's pants," John quickly replied.

Spencer Beaver's teacher told him the other day she was real pleased to be able to give him 90 on a history test. "Well," replied Spencer, "why don't you make yourself completely happy and just make it 100."

An incident of the night ago should be convincing that the brand of bootleg sold around here is rather powerful: A fellow went to the Palace theatre one night last week. He had

been drinking, and after while feeling the call for another drink stepped outside to take it. When he started back in, Mr. Moeller refused him admittance. The fellow didn't know until Moeller explained to him that 24 hours had passed since he stepped out and that this was another night and another show going on.

Since a moratorium has been called in government work all over Texas, Pat Boto, local RFC wizard, has discovered there are some folks who actually prefer money to loans, because it speaks louder.

A recent report says there are now more autos than bathtubs, and R. G. Spence arises to remark that "there are more people in them too."

Historians declare the savage desert tribes of Africa pay no taxes, and Cecil Tate declares that makes it a greater mystery why they are so savage.

So far we haven't heard of a single person in Muleshoe who wouldn't be glad to join the "Buy Now" campaign of NRA if they could do the buying on credit.

As most Muleshoe citizens see it, putting a blue eagle in the window to keep the wolf from the door is much nicer than carrying a rabbit's foot.

If this cause and effect idea is right, why does the same orderly life cause

Location Change

The public is advised that we have changed the location of our insurance office from the Burrows store building to the building formerly occupied by us at the rear of the Western Drug store.

THIRTEEN KIDNAPERS ARE GIVEN STIFF SENTENCES BY THE COURTS SATURDAY ON JURY CONVICTIONS

Thirteen kidnapers, members of the Mid-West's two most vicious outlaw gangs, were convicted in federal and state verdicts calling for long prison terms last Saturday.

Seven members of the Harvey Bailey gang, who kidnaped Charles F. Urschel, millionaire oil man for \$200,000 ransom, were found guilty in federal court at Oklahoma City, under the so-called "Lindbergh Law."

All six of the kidnapers who snatched the aged August Luer, Illinois banker, from his Alton home, were convicted at Edwardsville, Ill., and sentenced to imprisonment ranging from five years to life.

In the Luer case, Mrs. Lillian Chessen, writer of the ransom notes, R. E. Norvell, gambler, and Percy M. Fitzgerald, ex-convict, were sent to prison for life.

Mike Musiala, farmer who owned the hideaway where Luer was taken, was sentenced to 20 years. Charles Chessen and C. N. Gitcho were given five year sentences.

In the Urschel case, those convicted were: Bailey, notorious western gunman, Albert L. Bates, R. G. (Boss) Shannon, Mrs. Shannon, her son, Armon Shannon, Clifford Skelly and Barney Berman. Three St. Paul, Minn., men, accused of handling the ransom money, were acquitted.

Government prosecutors announced, after conviction of the seven Urschel kidnapers, that George (Machine Gun) Kelly would be returned last Saturday to Oklahoma City from Memphis, for trial. He has been identified as one of the Urschel snatchers.

A federal jury at Oklahoma City, struck with swift finality last Saturday in convicting seven of ten persons for the Charles F. Urschel kidnaping, which occurred a little more than two months ago.

Those found guilty of the \$200,000 abduction plot were Harvey Bailey, southwestern desperado and prison breaker; Albert Bates, Denver gangster; and three members of the R. G. Shannon family on whose Paradise, Texas farm the wealthy Oklahoma City oil man was held captive for nine days, and Barney Berman and Clifford Skelly, both of Minneapolis. Shannon, his wife and son, Armon, were the accused farmers.

Federal Judge Edgar S. Vaughn will pass sentence next Saturday. The convictions were brought under the new "Lindbergh Law," passed by Congress last year, and leave the sentences to the judge. The maximum sentence possible is life imprisonment. The three freed were Sam Kronick, Sam Kozberg, and Isadore Blumenfeld of Minneapolis and St. Paul.

District Attorney Herbert K. Hyde had requested a directed verdict of acquittal for Kronick and Kozberg in his final argument. The verdict came at 10 o'clock just five minutes after formal opening of court.

R. B. Cobbs, of El Reno, Okla., foreman, said the verdict was reached after less than an hour and a half of actual deliberation, and that the jury held the report overnight only because of fear the court might feel there had not been sufficient deliberation for a case of such importance.

Judge Vaughn held the court in session for a few minutes while attorneys for Bailey, the Shannons and the two from Minnesota who were convicted announced that they would have motions for new trials. The judge granted three days for this formality.

George (Machine Gun) Kelly was taken by airplane from Memphis, Tenn., to Oklahoma City last Monday, being accompanied by his wife. Charges of armed robbery, which carries the maximum penalty of death, have been placed against him.

Tech College Asks For A Government Loan Of \$650,000.00

Lubbock, Texas, Oct. 3.—Texas Technological College has applied to the Public Works Administration for a loan of \$650,000 for the purpose of building two dormitories, one for boys and one for girls, each to house 300 students. The main front of the dormitories is to be 210 feet long with an L running back 152 feet from one end, and four stories high. The dormitories will front toward the extension of Broadway into the campus, the boys' unit being located in the area north of the Broadway extension and the girls' dormitory south, near the home management house and home economics building. Each dormitory is estimated to cost \$325,000, fully equipped with dining room, kitchen supply room, cold storage, a spacious lounge or parlor, matron's and supervisor's rooms, and other accessories. Both structures will be entirely fireproof, modern in construction and design, and the architecture will be in keeping with that of the other buildings now on the campus.

Under the provisions of the Public Works Administration, the institution will receive an outright donation of 30 per cent of labor and materials and will be compelled to return to the government 70 per cent of the cost of labor and materials and all other costs over a period of 30 years. A careful figuring of the costs shows that in reasonably modest payments the institution can pay for these structures within the time named. The construction and design, and the architecture will be in keeping with that of the other buildings now on the campus.

Baileyboro News

The Baileyboro Busy Bees had their final meeting of the season, Wednesday, September 27. We are indeed sorry to close the meetings, but are looking forward to the club day's next spring. The club has reached a total of 50 members, and have quilted 40 quilts. During the past three years of the club approximately 114 quilts have been quilted.

The Baileyboro boys and girls basketball team defeated the Okfuskee boys and girls in the first games of the season, played here Friday night. A large crowd enjoyed the games.

The Seven Day Advent meeting is going on here now. Comor is doing the preaching. He is giving some very interesting sermons. Every one is invited to attend.

Mrs. W. B. Charles, postmistress, of Muleshoe, and Mrs. Mardis, of Muleshoe visited Mrs. G. L. Blackshear last Sunday.

Remember! Next Sunday the County Singing convention meets here. Everyone come and bring your singers. A large crowd has been attending Sunday school and B. Y. P. U. We invite everyone to come and take a part with us.

We are having singing every Wednesday night. Everyone come and help us sing. A hard hail damaged a good many crops near Baileyboro, Saturday evening.

The Baileyboro school has been doing fine work the past two weeks. The students are taking much interest in making this an interesting and profitable year.

Mr. and Mrs. Bill Freudiger and little daughter, Bettye Jean, returned to their home last week. He will work at the gun this fall.

Miss Pauline Garth entertained the little folks with a birthday party Saturday evening, it being Pauline's sixth birthday.—Reporter.

SHERIFF'S SALE THE STATE OF TEXAS, County of Bailey.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Motley County, on the 28th day of February, 1933, by Mr. Minnie Smith, County Treasurer of Motley County, Texas, of said Motley County, Texas, for sum of Seventy-seven Thousand Nine Hundred Thirty and 17/100 (\$17,938 7/10) Dollars and costs of suit, under a Judgment, in favor of Mrs. Minnie Smith, County Treasurer of Motley County, Texas, vs. G. T. Oliver, J. E. Brannen and J. A. Huckabee, placed in my hands for service, I, Jim Cook as Sheriff of Bailey County, Texas, did on the 2nd day of October, 1933, levy on certain Real Estate, situated in Bailey County, Texas, described as follows, to-wit:

Subdivisions Nos. Two, Three, Six, Seven, Eight, Twelve, Thirteen, Nineteen, Twenty-two, and Eleven in League No. 178 of the Motley County School Lands as shown by the plat of said land and the subdivisions thereof of record in the Deed records of Bailey County, Texas, and levied upon as the property of G. T. Oliver, J. E. Brannen and J. A. Huckabee and that on the first Tuesday in November, 1933, the same being the 7th day of said month, at the Court House door of Bailey County, in the Town of Muleshoe, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said G. T. Oliver, J. E. Brannen and J. A. Huckabee.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County.

Witness my hand, this 2nd day of October, 1933. JIM COOK, Sheriff Bailey County, Texas, October 5, 12, 19, 1933. And there is the one who was so dumb she thought a racketeer was a tennis player.

PRESIDENT FEDERAL LAND BANK AT HOUSTON EXPLAINS METHODS USED IN APPRAISING LAND FOR LOANS WANTED

Houston, October 3.—The basis on which appraisals are made in connection with applications for loans from the Federal Land Bank and the Land Bank Commissioner was outlined today by A. C. Williams, president of the Federal Land Bank of Houston. The statement was made, Mr. Williams said, because many persons have evidenced a lack of understanding of the appraisals made of farm properties offered as security for loans.

It was explained by Mr. Williams that the basis of appraisal is the normal value of the land for agricultural purposes and its earning power for such purposes is a principal factor. Average prices of farm commodities during the five year period from August 1909 to July 1914 are now being used as a principal guide in determining the earning power and normal value of farms, allowance being made, of course, for changes in taxes and other costs and 1 net economic position of commodities produced.

"Loans by the Federal Land Bank and the Land Bank Commissioner ordinarily are made for periods of from around ten to thirty-six years," Mr. Williams said. "In order to arrive at an estimate of the earning power of a farm, over a period of years, many things must be considered by the appraiser. He must determine the number of acres of good crop land, the number in pasture, and the number in orchard, timber, or waste; the character and condition of the soil; water supply; average rainfall; drainage; susceptibility to erosion; the carrying capacity of the pasture land; the prevalence of insect pests and plant diseases; the condition; if the roads; and accessibility to markets. He must estimate production costs and the amount and kind of livestock that can be carried on the farm and the portable income from that source.

"Although earning power is given the greatest weight, other factors are of course considered in determining the value of a farm for loan purposes. These include anything that affects the salability of the farm, such as the location, the size and type of farm, community and development, and the distance to markets, schools, and churches. The amount and condition of the farm improvements is likewise important. The improvements on a farm may be inadequate or the farm may be top-heavy with improvements with the result that the cost of up-keep may reduce the net income over a period of years. Sale prices are considered, but distress sales during bad years and high sales prices during boom

years do not fix normal agricultural values. Since the repayment of the loan ordinarily will extend over a long period of years and the money must come from the earning of the farm, emphasis is placed upon the normal earning power of the farm for agricultural purposes.

"The standing of the applicant, the amount of his equity in the farm, and his ability as a farmer are also considered in making an appraisal. Many creditors are recognizing that where deserving farmer-borrowers owe more against their property than can be repaid from the earnings of the land, it is to their advantage to make some concessions so that these farmers may now obtain loans from the Federal Land Bank and the Commissioner and have an opportunity to save their farm homes.

Weight of Gasoline The bureau of standards says that ordinary gasoline weighs about 6.22 pounds avoirdupois per gallon.

SUBSISTENCE CROPS NOT FOR SALE MAY BE PLANTED ON COTTON AND WHEAT LANDS SAYS GOVERNMENT

College Station. — "Subsistence" crops may be planted on cotton and wheat land retired by signers of Government contracts, but "commercial" crops are forbidden. This is the intention of the contract regulations by O. B. Martin, director of the Texas A. and M. College Extension Service.

As "subsistence" crops he classifies those used as food by the family or fed to livestock to be consumed by the family; and those that enable the soil to subsist by enriching it or by saving it from destruction by erosion.

"By following this simple classification," Mr. Martin comments, "anybody can determine for himself what he may or may not plant on retired acres in most cases. Farmers must bear in mind that in signing contracts with the Government they have leased the land and have no right to use the land in any way unless given express permission to do so by the Government. Because so many farmers need more land to produce the family food requirements the Administration has permitted contract signers to use retired acres for this purpose. It is a privilege that should not be abused. The Government also permits any use of the land that tends to build it up or save it."

Be proud of your home town.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reason?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it. And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. Standard N. Y. A.

A HOT RECORD

Just think of that car that was driven in Death Valley at 133 degrees—the world's hottest spot. No water, even without the radiator and 1,000 miles in low gear—and all without punishment to the car, because they were using Mobil Oil and Mobil Gas.

Be wise as Lindbergh, Byrd, Wiley Post and Kingsford were. Choose the best, then you choose Magnolia's Mobil Gas and Mobil Oil. It must be good, as it is the pride of the—

Weekly Lay Sermon INFLUENCE

BY ZEP

The grave is not nearly so important as the cradle. The former is only a gully which a step across leads to another life, but the latter holds within it an eternity just born and never to cease.

Spasmodic education, paroxysmal discipline, spasms of fidelity, amount to nothing but continuous, consistent precept and example is all-powerful in moulding character. So great are the temptations of young men to dissipation and of young women to social follies, that unceasing influences of enabling tendencies are paramount to the launching of a successful career upon the stormy sea of life.

Even in middle life and old age a conjunction of good influences are necessary. The jails and penitentiaries of the world stand today as silent testimonies of the broken cordon of influence which have been so variegated in the lives of unfortunate inmates. "A chain is no stronger than its weakest link"; that is why so many men, distinguished for numberless virtues, collapse and do down—pressing the weakest link in the otherwise strong chain away.

Many years ago a bridge was built across the River Seine in France. The day for opening the bridge for traffic came, and under the leadership of the builder, a great procession started across. Unknown to the builder there was a weak bolt in the center span. Under the mighty weight of the procession it gave way, letting the bridge collapse and precipitating the multitude into the roaring waters below. So the bridge of character may be composed of mighty virtues, strong enough to hold up tons of temptation, but an untested bolt may mean the blasting of an earthly career and the destruction of a human life. Throughout all ages what multitudes have gone down forever because the bridge of character was lacking a strong connecting bolt!

"He had but one fault," you say. Ah, but on that one fault hangs the tale of tragedy. It may be avarice, a burning thirst for intoxicants, an inordinate fondness for dress, a quick temper, but the accomplishing of a happy and successful life depends upon the strengthening of that one weak link in the chain of character.

Keeping company with those better than ourselves is highly important. The evil minded should put themselves among those of pure ideals. The stingy should associate with the charitable, the morose with the congenial, those inclined to gossip, among people having perfect control of their tongues, and people cast under the dark cloud of despondency need the sunlight of happy lives.

Evil is contagious, but good is also catching. People go to the mountains for physical health, and a journey away from the miasmic lowlands of pernicious influence to the altitudes of high moral association is equally valuable.

A man can not be held responsible for his genealogy, his birthplace, his features, his stature, his family relations; but he can largely control the associates he chooses and the moral influences to which he submits himself. Association of extremes is conducive to

common means. Black and white make grey. You cannot handle coal without getting a step across into the mud. The commingling of a pure life with one impure may prove beneficial to the one of ignoble character; but the untimely association of such will also lessen the integrity and undermine the sterling traits of the noble.

A musician cannot afford to dwell among discord. An artist would be unwise to look upon pictures of poor style. A writer cannot afford to peruse literature of an inferior quality. An architect cannot choose to walk through disproportioned structures. Neither can a good person afford to associate with people of an inferior life. Character is the masterpiece of destiny. The results of influence are eternal; therefore, in moulding your life choose on lythe best and the best will come back to you and dwell forever.

CITATION BY PUBLICATION THE STATE OF TEXAS.

To the Sheriff or any Constable of Bailey County, Texas: YOU ARE HEREBY COMMANDED to summon John A. Perryman, and the heirs and legal representatives of the said John A. Perryman, whose names and addresses are unknown, Ruby Perryman, Ethel Wilson Sanford, and Ethel Wilson Sanford, and her husband, E. O. Sanford, as well as Mattie, and John A. Perryman and the heirs and legal representatives of the said John Perryman whose names and addresses are unknown, Ruby Perryman, Johnnie Louise Perryman, a minor, A. F. Reichard and E. Jordan, are Defendants, and said petition filed in said Court on the 28th day of January, 1931, the plaintiffs were in possession of and seized and possessed in 1929, certain land, to-wit: Section 23, (S. W. 1-4) of Section Twenty-Three (23) Carter Subdivision Hansford County School lands, Bailey County, Texas, 160 acres of land, and that on the 28th day of January, 1931, the defendants lawfully entered upon and dispossessed them of such premises, and withhold from them the possession thereof. That the reasonable annual rental value of said premises is the sum of \$400.00 per year.

That the plaintiffs are the common owners of title and the defendants claim to hold them. But defendants' title is void. Wherefore, the plaintiffs pray that they be restored to their title, and that upon hearing they have judgment for possession, for their damages as well as costs, and that they be placed in possession of such premises, and for such other relief as may be proper.

For Second Count, the plaintiffs set forth that the names and addresses of a part of the defendants therein are stated in the opening paragraph of this petition. That on December 7, 1929, the plaintiff conveyed to John A. Perryman, then a single man, but who died in the year 1932, leaving his widow, Ruby Perryman, and a minor, Johnny Louise Perryman, surviving him as his sole and only heirs at law without an administration on his estate, the Southeast one-fourth (S. W. 1) of Section Twenty-Three (23) Carter Subdivision Hansford County School lands, Bailey County, Texas, receiving the vendor's lien for three notes, each in the sum of \$1333.33 at six per cent annual interest from date, payable to Maple Wilson and Ethel Wilson Sanford at Muleshoe, Texas, such notes were due on or before five, ten and fifteen years respectively from their dates, and each note and the conveyance provided that a failure to pay any note on installment of interest thereon would at the holder's election mature such notes, and further provided for ten per cent on the unpaid principal and interest as attorney's fees if sued upon, or placed with an attorney for collection. The plaintiffs are the legal owners and holders of said notes; that no part of the principal has been paid; that all interest has been paid to December 1, 1930, and interest accruing thereafter in the sum of \$219.97, but no further sum. That the note due December 1, 1930 has not been paid in any part, though same is past due and because of the past due maturity of said principal and interest the plaintiffs have elected to sue on the unpaid principal and interest as attorney's fees if sued upon, or placed with an attorney for collection, agreeing to pay him ten per cent on the principal and interest as his fees, which are reasonable.

That defendants Reichard and Jordan are tenants of their codefendants, paying one-third of all crops except cotton, and one-fourth of the cotton for their right of use. That unless restrained, such tenants will pay to their codefendants the rents.

That the plaintiffs elected to rescind the aforementioned conditions under the claim of superior title and assume possession of the property, and that the defendants refuse to give them possession and withhold the same from them. Wherefore, as above, the plaintiffs pray for service upon all the defendants; that they have their judgment for their debt, damages and cost, that same be declared a lien as of December 1, 1929 and all times since; that the premises be sold to satisfy said judgment; that the order of sale have the force and effect of a writ of possession, and that the legal and equitable as they may be entitled.

Herein Full No. and have you before said Court at its next regular session, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court, at Muleshoe, Muleshoe, Texas, this 28th day of September, A. D. 1933.

J. E. BURKHEAD, Clerk, District Court, Bailey County.

October 5, 12, 19, 26, 1933.

Enochs Echoes

Everybody is busy canning this season, even to the men folks. Lester Blackstone says it's a bigger job than he thought for, since he's been canning beef this past week.

Mr. and Mrs. Wick Bingham and Mr. and Mrs. Glanton from Hale Center were in the community looking around for future locations last Monday. They visited in the home of Mr. and Mrs. Ed Calloway Monday night. Mr. and Mrs. Edward Aubrey are visiting in Oklahoma this week.

Pauline Dunlap, who has been home visiting the past summer, has returned to Canyon to finish school there. We wish Polly all kinds of good luck and success.

Miss Jewell Teal was bitten on the arm by a dog of Pat Woolley's Saturday. We hope that it won't be serious. Fred McQuary has opened the new filling station on the southeast corner of our town. We hope Fred makes a lot of money.

Randal Weathers is visiting friends in Abilene this week. Mr. and Mrs. Sigmon took three of their children to a Lubbock sanitarium Friday to have their tonsils removed. They are getting along very nicely.

We received a very nice rain Saturday night, which will keep people from picking cotton for a few days. Mr. and Mrs. Sigman and Mrs. T. E. Calloway motored to Lubbock to attend the Lubbock fair, Monday.—Reporter.

Progress News

Sunday School was very well attended. There wasn't as large a crowd as usual because of the weather. Church was well attended.

The Willing Worker's club met with Mrs. Otto last Thursday. They will meet with Mrs. Homer Mardis the second Thursday in this month. The afternoon was spent quilting for Mrs. Otto. There was quite a number attended and everyone reported an enjoyable time. Refreshments of cocoa and cake was served.

Deola Winner, of Lazbuddy, spent the weekend with Volena Hoy. Mr. and Mrs. Jess Murrah and family, Mrs. F. K. Willitt and family, Mrs. Luther Hoy and sons, James and Floyd, and Frank Tyl were shopping in Clovis, N. M., Saturday. Quite a number of the Progress folks attended singing at Oklahoma Lane Sunday night singing at Oklahoma Lane Sunday night. There were good services during the meeting and good crowds. There were seven new additions to the church.

Rev. Lovett, of Farrell, Rev. Bruton of Oton, and Rev. Eaves, of Lazbuddy took dinner in the W. L. Swanson home Sunday.

Rev. and Mrs. C. A. Joiner, of Muleshoe attended church at Progress last Thursday night.—Reporter.

Hail the Good Old Pipe "Good tobacco, smoked in a pipe, and hard work are responsible for my longevity," explained a South Carolina woman on her one hundredth birthday.

In Fair Weave

Miss Dorothy Wahl, an dancer at Ernie Young's World's Fair Revue, in Old Manhattan Gardens at a Century of Progress, who is receiving the admiration of throngs who nightly view her artistic performance.

Rev. Lloyd H. Jones, pastor of the Muleshoe circuit, announces he will preach at Progress the fifth Sunday of this month, it being an extra service for that community. He will also preach there on his regular date of the third Sunday.

**OPPORTUNITY:**

THE GREAT SOUTH PLAINS beckons you, offering unlimited opportunities to permanent home-seekers.

There is not any better time than the present to give serious thought to your future.

Farm in a section of the country which does not fail you . . . a land in which good crops are virtually assured . . . where exceptionally fertile land is priced right.

INVESTIGATE! Write today or call at our office for complete information.

**R. L. BROWN**

"THE LAND MAN" Muleshoe, Texas

**A NEW VARIETY OF SUDAN**

A new variety of sudan grass has appeared in this section during the present year, known as "Sweet Sudan." It is perhaps a cross with sorghum, as it grows to a greater height, has a somewhat larger stalk, is juicy, but in other respects resembles sudan grass. Live stock is said to relish it as a hay whereas sudan grass seems to be fitted more for green pasture than for hay.

J. L. Hilton, who lives two miles south of town, has several acres in the new sudan, and stalks have been found as tall as twelve feet. The heads if anything, bear less seed than the established variety. Should it be found to cure into a fine hay, it will prove of great value on the Plains.—News, Levelland.

**Renew Your Health By Purification**

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health. Calotabs purify the blood by activating the liver, kidneys, stomach and bowels. In 10 etc. and 35 etc. packages. All dealers. (Adv.)

**Roosevelt Gets A Suit Made At Tech By The Students**

President Roosevelt last week was the recipient of a suit of clothes from the Texas Technological College of Lubbock. The suit was made from wool grown on sheep raised by the agricultural department of the college on its 2,000-acre campus farm, where the cotton used also was grown. The wool used in the textile engineering department of the college—the wool being scoured, carded, spun and woven by the students with college equipment. The material was machine-woven on college equipment. However, the college, which is fostering home manufacture of textiles in Texas, has designed and constructed a number of hand looms suitable for communal or individual farm use for weaving similar cloth.

President Roosevelt expressed great interest in how the suit was produced, and that the college students were doing that kind of work. He said that he would take the suit to Hyde Park with and expected to wear it there.

The suit was presented by Amos G. Carter for the college.

Carter was the first chairman of the Texas Tech board of directors. He was accompanied by L. W. Robert, Assistant Secretary of the Treasury, and former chairman of Georgia Tech. Robert was consulting engineer for the State of Texas when this college was planned, and he supervised the installation of the textile school.

The school, now in its ninth year, has nearly 4,000 students, and graduates of its textile engineering department hold responsible positions in textile plants all over the Nation.

Located in one of the largest sheep and cotton growing sections of the United States, the college has demonstrated that it is practicable to finish its raw products at the source of production.

**METHODIST MISSIONARY ZONE MEETING HELD AT AMHERST**

A zone meeting of the Methodist missionary societies, Plainview district, was held at Amherst last week, being an all day session, and attended by Rev. and Mrs. E. C. Raney, Mrs. J. C. Weaver, Mrs. Fred Reynolds, Mrs. S. C. Beavers and Mrs. Claude Farrell as local delegates.

Muleshoe delegates had charge of the morning program. Mrs. Beavers leading in the devotion, at which the subject, "Prayer Is the Key to Heaven and to Our Hearts," was discussed.

Mrs. W. W. Gillette, Littlefield, president for the zone conducted the business of the session, being assisted by Mrs. Gates, wife of the Methodist pastor there.

Mrs. Fred Reynolds gave a poem in song, composed by Mrs. C. B. Beavers, who accompanied her on the piano, following which both ladies gave a vocal duet.

Mrs. Weaver spoke on "Making the Auxiliary a Spiritual Force," emphasizing the fact that the first duty of the Church is the saving of souls; that one function of the missionary auxiliary is to assist in this direction and to do so much study of the Bible and deliberation in prayer is essential. At the conclusion of her talk there was a round table discussion of the subject participated in with much zeal.

Rev. Raney then delivered a sermon on "The Ten Virgins," which was interesting and inspiring.

Lunch was served at the noon hour in the basement cafeteria style, each woman present having brought a covered dish of some food. In the afternoon ladies from Sudan had charge of the program and a business session was held. Most of the former officers were reelected, Mrs. Raney being chosen vice-president.

**METHODIST CHURCH**

Sunday school at 9:45 a. m. This is to be our promotion day as there were not enough there last Sunday to have the day and make a success of it. All the plans are ready and we expect all the school here early next Sunday so that we may have ample time to do this right.

The sermon by the pastor will be in keeping with the other services of the day and in line with the revival at the Baptist church. We have a special message for the church and we hope to have the church there.

The leagues will have their meetings at 7:00 in the evening, unless they decide to meet with their corresponding groups at the Baptist church.

There will be no evening services, due to the meeting at the Baptist church, and all week night services shall be omitted. However, the ladies may meet in their meeting in the day time.

The choir will not meet, but after the meeting as far as possible, we hope for a full attendance for a special program.

The Presiding Elder has set October 15, as the night for the Fourth quarterly conference and if the Baptist meeting continues and we cannot get the Elder's date changed we shall be required to meet at home that night. We did not know of this meeting when this date was set. Remember, our conference and the close of the year is Nov. 10th.—E. C. RANEY, Pastor

Regulation Mail Box Needed The Post Office department says that it is necessary to have a mail box approved by the department for the receiving of mail. It is not permissible to use a home-made mail box.

**General News Over Texas and Adjoining States For The Week**

Colorado is planning a new death house, and will, in the future kill its criminals with gas.

The cotton gin at Hurlwood, near Lubbock burned last week, entailing a loss estimated at \$25,000. It will be rebuilt by next year.

Governor A. W. Hockenhull, who last week succeeded Governor Arthur Seligman, a victim of heart disease, is the 122nd chief executive of New Mexico since the days of Spanish Conquistador in 1598. There were 90 governors under Spanish regime, 16 under U. S. military and civic rule, 34 under territorial rule, and nine since it has been admitted into the Union.

**LEGION HAS GOOD PROGRAM AND FEED ON MEMBERSHIP DRIVE**

Members of the American Legion and its auxiliary accompanied by members of their families at the regular meeting held Tuesday night had a delightful feed and program starting off the membership drive for the coming year. There was a good attendance of both Legionnaires and Auxiliary members.

The ladies furnished the program, consisting principally of music where-in "Chunky" Morris and his orchestra rendered several instrumental numbers, after which there was community singing of several of the old war-time songs.

Following the program, there was a pleasant social hour, during which time the men served sandwiches and coffee.

Steps were also taken toward the organization of a "Sons of American Legion" auxiliary of the children of the legionnaires.

Gilbert Wollard and W. B. McAdams are captains of the two contending forces in obtaining members for the coming year, and the initiation barrage indicates the competition scrap is going to be as brisk and exciting as some of the skirmishes across the pond during the World War in which they served.

WESTERN DRUG COMPANY

● State Representative Coe Howard, accompanied by his wife, was here Wednesday from Portales, N. M., on business.

● Mr. and Mrs. Dalon Kirk and daughter, Martha Delon, of Spearman, were the weekend guests of her sister, Mrs. L. D. Tipton, of Progress, and her niece, Mrs. Earl Hicks, of this city.

● Mrs. C. J. Roach and children, Jean and Treva, formerly of this city, but now living in Sudan, spent the weekend in the home of her daughter, Mrs. Bill Collins.

● New pupils are constantly being enrolled in the Muleshoe schools, there now being 156 in High school, also several in the grades, all of which are now doing good work.

● Bill Wingfield, local jeweler, spent Saturday night and Sunday at Littlefield, the guest of his father, J. I. Wingfield, who accompanied him home Sunday.

● Three citizens from Bailey county will be accepted in enrollment to the Citizens Conservation camp, according to Pat R. Bobo. All applications for these places must be made not later than October 10, he said.

● J. W. Hunter, of Dallas, was here Wednesday prospecting. He was a former Bailey county land owner, but having sold is wanting to buy some more of this good "dirt." He says it surely looks good to him.

● H. H. Carlyle returned Sunday evening from Lubbock, where he has been at the bedside of his wife who underwent a major operation last week. He reports that Mrs. Carlyle is convalescing nicely.

● Mr. and Mrs. Arnold Morris and family and Mrs. Alex Paul were in Lubbock, Sunday afternoon visiting Mrs. H. H. Carlyle, who is in a hospital there recovering from a major operation.

● Miss Lydia Hoyt, 67 years of age, sister of Mrs. Minnie O. Aldridge, sustained a broken thigh late Monday evening, when she slipped and fell. The accident happened at the Sam Lawrence home in Muleshoe, where Mrs. Hoyt was visiting. She was immediately taken to Lubbock for treatment.

● Mrs. M. J. Wagner, of the Aldridge home, was here for the past two years.—Tribune, Farwell.

● Mr. and Mrs. C. R. Stevens, Damon Danner, Harry McCarthy, Wayne Wallace, Graham Cahndier and Fred Jenkins were among those from Muleshoe who attended the S. M. U. and Tech football game in Lubbock, Friday night.

● Judge and Mrs. J. F. Vaughan spent the weekend visiting with Mr. and Mrs. C. H. Vaughan at St. Vrain, N. M., returning via Texico, where they enjoyed a reunion of four generations of the male sex of the family, viz: Judge Vaughan, N. W. Vaughan, Wesley Vaughan and Wesley Vaughan, Jr. pictures being taken of the four generations.

**MRS. WAGNON HONORED**

A miscellaneous shower and farewell party was given Thursday afternoon of last week by Mrs. Julian Lenau, honoring Mrs. Vance Wagon who will leave soon to join her husband at Tahoka.

Three tables of bridge were at play during the afternoon, grape punch being served at intervals, and before the guests departed there were refreshments of caramel-nut cups topped with whipped cream and more nuts. A delightful afternoon was enjoyed.

Those attending were Mesdames J. E. Aldridge, D. K. Smith, Fannie Towery, Roy Cobb, Jim Pace, Jack Hooker, of Vernon, Misses Mozelle Alsop-Retta Mae Arnold, Reva Mae Williams, Mildred Davis, the honoree, Mrs. Vance Wagon and the hostess, Mrs. Julian Lenau.

**THE HOUSEWIVES WANT NRA CODE OF THEIR OWN**

Whether it's one of the effects of the revival meeting, the first session of Parent-Teacher's association, some local bridge club convocation, or a product of some unnamed and unknown source, it appears that since the NRA has omitted a code for housewives there are a group of them in Muleshoe who are proposing and insisting upon one of their own, at least such is the veiled insinuation in an unsigned note received this week by the Journal. Some of the proposed items submitted are as follows:

Every housewife shall be taken out to dinner at least once a week. Friend husband or some other member of the family shall dry the supper dishes.

Every housewife is entitled to a minimum of at least two movies weekly. Husbands shall help children with at least half of their home work, and donate the benefit of their own previous schooling and business experience in assisting said children in getting their lessons when school is going on.

Every housewife is entitled to 10 per cent of family pay check for personal expenditures, such as for clothing, cosmetics, etc.

Every housewife (except where sickness or other emergency exists) is entitled to sleep late at least two mornings weekly.

Every housewife is entitled to extra help for house cleaning and husbands shall put up stoves and beat carpets.

Famous "Ape Man" Was a Woman  
The famous "ape man" of Java was really a woman, Dr. Ales Hrdlicka reported from a study of the brain cavity.
