

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 11

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, OCTOBER 19, 1933

NUMBER 38

MULESHOE CITIZENS WOULD HAVE STATE POPULATE 1,000 ACRES IN BAILEY COUNTY THROUGH R. F. C.

Recognizing the fact there are thousands of people wanting to get out of the cities into the small towns and countryside, Texas is now making plans to accommodate some of these folks of urban ambitions.

August 26 the citizens of this state voted \$20,000,000 in bonds for relief purposes, the use of \$5,500,000 having been authorized recently by the Legislature in special session. It has been further proposed that in various sections of the state considerable sized tracts be purchased and then cut into small plots of 10 acres each, on which will be built a dwelling, chicken house, small barn, also the purchase of a cow, sow and some chickens, each plot being turned over to a family wanting to get out of the city with the privilege of paying for it over a reasonable term of years, the property itself standing good for the indebtedness against it.

Recently the federal government announced that 200 unemployed miners and their families would have homes built for them on a 1,100 acre tract acquired in Preston county, West Virginia. A factory is to be established to produce post office equipment for that department, other handicraft industries will also be inaugurated, gardens laid out, and such other measures will be taken as to lift these 200 families from relief and put them on a basis of independence. The project is to be financed to the extent of \$25,000,000, according to Secretary Ives.

Members of the American Legion at Dallas and other points in Texas have urged upon the State RFC committee the securing of large acreage tracts within the state to be cut into smaller tracts for colonization purposes. Areas in the vicinity of San Antonio, Houston and Austin have already been suggested. It is already known that Governor Ferguson and Lieutenant Governor Witt favor such a plan.

To date there has been no such suggestion of colonization for any area in this section of the state. It is a well recognized fact that the land in Bailey county is just as fertile as may be found anywhere in the state. climatic conditions are ideal for good crop production, it is a very healthy section and the water here is as pure as can be found elsewhere in the Lone Star state. Rainfall is sufficient for all ordinary crop productions, crop failures being rare exceptions. In addition to these favorable assets, there is also an inexhaustible supply of water for irrigation purposes to be found in the Blackwater valley, surrounding Muleshoe, where irrigation is now being carried on cheaper than anywhere else in the entire United States.

It is a known fact that there are several large ranch properties in this section and some of the owners are anxious to sell all or a part of such holdings. It is thought that perhaps arrangements could be made with one or more of these larger property owners, at a reasonable price, for a tract of land embodying 1,000 acres, lying adjacent to Muleshoe, which could in turn be cut into 100 ten acre tracts and turned over to the RFC for colonization purposes in accordance with the ideas of Governor Ferguson and other leaders of the movement.

Many citizens in Muleshoe have already expressed their favor of the plan. There is plenty of desirable land in this county awaiting the turning plow and improving hand of the settler. Such a plan successfully carried out would mean considerable relief to humanity, the population increase of the county, the adding of much other wealth and the consequent reduction of taxes per capita, because of it being spread out thinner among all property owners.

A committee of citizens has been named to investigate the merits of the plan in hopes that a reasonable solution may be worked out in the near future with state officials.

WHEAT REVIEW BOARD TO HAVE FARM MEMBERS

Farmers familiar with conditions in the wheat producing regions of the country will be among members of the county records and the contracts. The review board which will give final inspection to acreage-reduction contracts when the contracts are sent to Washington, it was announced today by the wheat section of the Agricultural Adjustment Administration.

George E. Farrell, associate chief of the wheat section, today announced that the board will be composed of county records and the contracts. The board will include farmers, statisticians, and extension service workers from the principal wheat states.

"With these men on the board, farmers may be certain that the records from their counties will receive sympathetic and informed consideration," Mr. Farrell said.

"The record of each county will be accepted as a unit; the county records will be considered in the order in which they are received," the wheat section head announced.

"After the county wheat production records are received, the individual farm allotments and contracts will be given the applications contracts and association records are forwarded to Washington, where the acceptance board will check the county totals of farmers who participate in the total acreage involved, and also the acreage not included in the wheat program. Another item which the board will check is the budget adopted by the county association. This is done to insure that expense to farmers in each county is held to a minimum.

"In addition to checking county totals, the board will review in detail a number of contracts selected at random from each county.

"As each county is accepted, it will be given a number, and adjustment payments under the program will be paid in the order in which the county records are approved. If for any reason a county report cannot be accepted, a member of the board who is from the area in which the county is located will be given an opportunity to present the case to the board.

"Rejected county reports will be returned to the county for correction when necessary. Such rejected reports will not receive a number until they are corrected in the county, sent back to Washington, and given final approval by the county acceptance organization."

GET NEW W. T. GAS MANAGER

Clinton Lackey, former manager for the West Texas Gas Co. at Levelland, has been transferred to this district, and will in the future have charge of that company's business at Littlefield, Amberst, Sudan and Muleshoe, residing at Littlefield.

Hot On the Trail

By Albert T. Reid

STATE R. F. C. COMMITTEE APPROVES BAILEY COUNTY'S NORTH AND SOUTH ROAD; FUNDS ARE NOT YET AVAILABLE

DISAGREEMENT BETWEEN R. F. C. COMMITTEE AND STATE HIGHWAY COMMISSION OVER HANDLING \$9,000,000 APPROPRIATION FOR RELIEF JOBS HOLDS UP PROJECT FOR WHILE.

The delegation that went to Austin the first of this week in behalf of the "North and South Highway" through Bailey county returned empty handed, however, the members brought back with them more definite prospects of securing this particular road in the near future than have been heretofore entertained.

Clearly the visit of the local delegation before the State Highway Commission was premature, as the controversy over dispensing the \$9,000,000 federal sum appropriated to Texas for relief purposes has not yet been definitely settled. According to Judge W. R. Ely, acting chairman of the Highway Commission, that Commission is to handle this sum; but according to statements from members of the State RFC committee such is not the case. Ely declared this particular appropriation would be expended on "hot jobs" in connection with the regular appropriation of \$24,000,000 for state highway purposes, but in counties of distressed conditions, RFC officials insist the nine million dollars is a separate appropriation and must be so handled.

It is a well known fact that for more than a month past the State Highway Commission and the State RFC Committee have been crossed-up in the handling of this special fund for distressed counties, and clearly the matter has not yet been untangled. Newspaper reports and representations made to members of the local delegation by state officials indicated the controversy had been settled and that the State Highway Commission looked with favor upon this particular highway project and same would be granted upon their presentation of the matter before the proper authorities.

The State Highway Commission took the position that all cardinal highway projects should first be finished before spending of any money on lateral roads was taken up, and frankly told the local committee that it was the plan of the Commission to go ahead with the improvements of State Highway No. 7 and U. S. Highway No. 70 running into Muleshoe until they were completely improved and pavement was laid on both arteries of travel. It was indicated that Unit 1 work on U. S. Highway No. 70 coming into Muleshoe would be let about December 1, and as soon as the contract of Unit 1 work on No. 7 was completed another contract for paving that road would be immediately let.

RFC Approves Road
The local committee presenting its claims, backed up by data and scheduled costs worked out by the resident engineer and county manager of

RFC, before the State RFC Committee at Austin, received an acceptance of the plan without a single change or modification, and the state RFC department is now ready to go ahead with this project as soon as arrangements can be made with which to buy required materials, the RFC being permitted to furnish money only for the labor part of the road.

The local committee learned that Col. Lawrence Westbrook, state chairman of the RFC Committee is now in Washington endeavoring to straighten out the difficulties between his department and the state RFC department is now ready to go ahead with this project as soon as arrangements can be made with which to buy required materials, the RFC being permitted to furnish money only for the labor part of the road.

Should the State Highway Commission be given charge of dispensing the \$9,000,000 fund Bailey county may still proceed with its plan under an appropriation out of the \$5,500,000 state relief fund voted last week by the Legislature, the law being signed last Tuesday afternoon by Governor Ferguson. This appropriation provides that five per cent of the funds appropriated for any state relief project may be used for material purchase, and with county collaboration, it is now believed a plan may be worked out whereby the road can be constructed as previously planned. However, there will probably be a delay of some two or three weeks in the matter owing to the fact that the Legislature saw fit to change the personnel of the State RFC Committee, and nothing can be done until the new committee is formulated and starts functioning.

The local committee realizes that while authorization of this particular project was not received, yet decided progress has been made in that direction. One-half of the trip to Austin, the necessary arrangements were made when the plan, compilation of data, etc., were accepted by the RFC committee and the labor on the road, amounting to about \$78,000 was duly authorized. Clearly, if the controversy over the administration of the \$9,000,000 relief fund had been settled, the other half of the authorization would also have been obtained. As the matter now stands it is one of patient waiting until the processes of governmental red tape have been gone through with and decision made as to the handling of both state and federal funds involved in this particular project before the plan is fully authorized and actual construction may be started.

Y-Jackets Beat Olton Friday In A 9-0 Score

Muleshoe High School Yellowjacket football team won their third game of the season last Friday afternoon when it defeated the Olton High school squad 9 to 0, being Muleshoe's third straight winning this year and in which none of its opponents made a single score.

The game Friday was a hard fought one throughout its entirety. Notwithstanding the Olton men outweighed the locals an average of eight or 10 pounds each, the Yellowjackets made up in skill what they were lacking in bulk.

In the playing Muleshoe lost her first chance of scoring during the first half when a penalty of 15 yards was annexed. Most of the playing during the last two quarters was on Olton's ground much of it hovering around the visitor's 20 yard line. Muleshoe made 14 first downs to only two of their opponents.

Muleshoe's scoring was all done during the fourth quarter when they started a line drive through Olton's rock wall toward the goal, making it and then kicking the extra point. Previously 2 points had been made off the visitors on a safety punt.

Next Friday Muleshoe goes to Morton for a return game, having beat that team here two weeks ago in a score of 32-0.

No more games will be played on the home diamond until November 11, Armistice day when the game will be sponsored by the local American Legion. There was a good attendance of football fans at the game last Friday for which the lads are very grateful.

50 PER CENT WHEAT FARMERS SIGN GOVERNMENT CONTRACTS

Following the dead line for signing applications for government wheat contracts which closed October 15, indications now are that from 40 to 50 per cent of Texas wheat growers have co-operated in the domestic allotment plan, and that from 60 to 80 per cent of the total Texas wheat acreage will be represented in the contracts. Growers of Bailey county have signed up for about 50 per cent, according to J. B. Waide, Jr., local county farm agent.

Of 4,005 farmers applying for contracts 80 per cent lived in 10 counties of the Panhandle area.

BUYS IN BEAUTY SHOP

Mrs. Susie Fry this week purchased an interest in the Lucille Beauty shop, Miss Lucille Elmore, proprietress, and the name of the shop was changed to that of Luxur Beauty Shop.

Both women being experienced beauticians will operate in that parlor in the future, it being located in Dameron's drug store.

NEIL ROCKEY ELECTED TO HEAD KIWANIS

Neil Rockey, prominent local business man, was chosen last Friday to head the Kiwanis club as its president for the coming year, with Dr. A. E. Lewis, vice-president and Al Isaacs secretary. These were the names submitted by the nominating committee and unanimously accepted by the membership. There were 22 present, dinner being enjoyed at the business secretary's dining-room, and an excellent meal served.

Cecil Tate, the efficient retiring president, immediately turned over the reins to Mr. Rockey who continued to direct the business session.

The matter of sending delegates to Austin Monday was discussed and Dr. A. E. Lewis and Irvin St. Clair chosen to raise funds among the business men for the trip, nearly \$60.00 being later reported as received. The trip was made by County Judge J. E. Adams and Editor Jess Mitchell who hope to be able to secure a good concession from the State Highway Commission relative to improving the North and South highway through Bailey county. The plan has already been approved by the RFC committee at Austin. The committee obtained approximately \$78,000 from the RFC committee at Austin last Tuesday. Another story in this issue carries more complete details of the trip.

The matter of obtaining a tract of land to be cut into small acreage plots for settlement was discussed and R. L. Brown, J. E. Adams, T. C. Gupton, Curtis Taylor and Jess Mitchell each created a committee to investigate the matter and report back to the club.

PARENT-TEACHERS ASSOCIATION MEETING WILL BE MONDAY NITE

Next Monday evening at the High school auditorium will be the regular meeting of the Parent-Teachers association and a program will be rendered, as follows:

Reading, Barbara Fae Morris.
Piano solo, Florence Stone.
Quartet, Twilla Farrel, Eva Harper, Mary Holt, Eunice Conner.
Piano Solo, Mary Sue Osborn.
Drill on Parliamentary rules, Pat R. Bobo.

Following rendition of the program there will be a social hour to be enjoyed by those present.

All members and patrons of the school, as well as citizens generally, are urged to attend.

Geologist Studies Prevailing Winds Of The Southwest

Lubbock, Texas, Oct. 16.—That the present prevailing wind from the southwest in West Texas has been blowing from this same direction for some fifty million years may be some consolation to people living in this area. According to T. Patton, head of the geology department at Texas Technological college, the foregoing statement is true, as brought out in a paper covering experimental investigation of the extensive ripple-marked sand surfaces in the Merkel dolomite area of West Texas.

A study of the ripple-market surfaces, Dr. Patton's report reveals, shows that the ripples fall into two main groups, one caused by the present prevailing wind from the southwest, and the other a monsoon wind from the northeast to the southwest, which was probably a 4,000 mile wind millions of years ago. This is explained by the fact that to the south and west of the Permian epicontinental sea lay the great land mass of Llanoria, which extended close to or within the boundaries of the present tropics. It is conceivable, according to Dr. Patton, that during part of the year the great land mass might have become so highly heated that the monsoon winds issued by this heating would overcome the prevailing planetary winds and the monsoon winds would blow toward Llanoria.

THE BODY FOUND AT FRIONA THOUGHT FROM ARTESIA, N. M.

The body of a man found in a pasture near Friona by a sheepherder last Sunday is believed to be that of Leslie Simpson, of Artesia, N. M. D. O. and Roy Simpson, of Goldswain, Texas, who have viewed the body have reasons to believe it is that of their brother, who has been missing for some time. Tentative identification was established by dental work.

The two brothers have sent to Artesia for Mrs. Simpson to meet them at Clovis, in an attempt to establish identification.

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor.

I. F. MITCHELL, Bus. Mgr.

SUBSCRIPTION RATES
Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher. In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A THOUGHT FOR THE WEEK

If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness.—John, 1:11.
Let guilty men remember their black deeds do lean on crutches made of slender reeds.—John Webster.

MATTER vs MOTION

Religionists and scientists part so often come into conflict over beliefs of the former and proofs of the latter when no conflict is intended, the scientist merely trying to prove what he believes by religious tests, while the religionist accepts by faith. We don't know of any avowed scientists around Muleshoe, but there are plenty of religionists, some quite rational in their beliefs but plenty of those whose religion is based on skepticism, superstition, ultra-fundamentalism inherited from their forebears and failure to cogitate their own gray matter in logically determining many things which are well within the realm of their own think tank.

For instance, a famous group of scientists who have been studying the effects of radium emanations, have come to the conclusion that all matter is the reproduct of mere motion. (Of course, it must be understood that every scientific deduction is based on a hypothesis that remains to be proven, but in this particular instance it appears the proof of theory, experiment and observation have largely determined the a priori basis of proof.) They have actually found that rays given off under certain conditions become transformed into elemental substances.

This sounds, at first glance, like confirmation of the belief of certain schools of metaphysics who deny the existence of matter, though there is a real difference, but it does throw some new light on the way in which our Universe came into being, while not yet helping very much in the efforts to discover how the primal motion started or what urge set it to going.

We know those folks living right here in Texas who, apparently have had the same idea, although they did not express it in scientific terms. Most of us know men—and women, too—who seem to think if they keep moving fast enough something will come of their efforts, no matter whether that moving

be in a given direction or not. The world certainly contains more, sometimes we think entirely too many, people who imagine that running around rapidly in circles is a sign of being busy. They are trying to produce matter out of motion, but we have never seen any important material results from their aimless activity.

We often think there are not enough people in these days of stress who are not content to pursue one single objective and stick to that, no matter how slow their apparent progress. In the long run the ones who come out on top are not the busy-bodies and loud talkers who think they are entitled to look after everybody's affairs, but their own and who move so rapidly from one line of conversation to another, and from that place to that, that nobody can keep track of them.

Years ago in times of war there was the old blunderbuss type of cannon which shot out a wad of heterogeneous slugs of various kinds in an effort to hit a mass of objects more or less effectively; but the old blunderbuss has now been superseded by the modern high power cannon shooting just one projectile. The idea is not to hit so many things, but when you hit one thing do a good job of it. Concentration is always more effective than scatteration. More and more we come to realize that the ancients who wrote down many of the proverbs still familiar today drew them from long human experience and common sense. After all, we can't help but be reminded of the old story of the hare and the tortoise.

NOT STARVING

A goodly number of us in and around Muleshoe are getting rather tired of hearing orators talk over the radio, and reading stuff written by agitators in various publications, in which they talk glibly and insistently about the "starving millions" of America.

This talk is all the bunk so far as Bailey county is concerned. There are no millions starving anywhere in the good old U. S., so far as we have seen or heard any evidence on the subject, and we are quite sure there is no one actually starving in this or any of the adjoining counties in West Texas. No doubt there are plenty of folks who

are living on very short rations, who do not get all the nourishing food they would like to have and would feel much better mentally as well as physically if they could have a larger and wider menu. We agree there are lots of people who are exceptionally short of cash and many are being fed and clothed at public expense. Just how many of those might be starving if there were not some outside aid rendered we cannot say, though we strongly suspect that a great many of them would manage to get along somehow if there were no such help available.

But the fact is that they are not starving. Maybe that is merely because we won't let them starve; but we take it as a reflection upon the commonsense, the public spirit and the charity of the people of this nation to talk such tommyrot as "starving millions in the midst of plenty," as we heard one fulminator over the radio put it the other night.

The plain fact seems to us to be that there is too strong a tendency on the part of most people to believe the worst; too many people who take a keen delight in magnifying every tale of woe. Then there is always the fringe of the discontented who are only too happy to find someone to blame, declaring that our government has broken down and our civilization has proved itself a failure. Some of that talk is insinuated by communists who is just another word for the scheme of declaring public affairs over to the lazy and incompetent. Some of it is just a deliberate attempt to stir the emotions of the simple-minded who enjoy turning on the tears.

Whatever its origin, we resent it. Hard times or no hard times, the United States is better off today than any other nation in the world, and we are neither starving nor letting anyone else starve if we find out their need.

NO TIME TO FRET

Muleshoe people who say times are hard should get acquainted with Geo. McKee, who lives near Anderson, S. C. A newspaper man interviewed Geo. and here's what he said: "I've heard you should make the 'hard times' advocate hunt his hole:

I was born eight miles from a railroad, five miles from a schoolhouse, nine miles from a church, 200 yards from a wash hole and 15 feet from a cornfield. We owned two kerosene lamps, neither of which had a chimney. Our house wasn't heated, but two of our rooms had lots in them. We had a glass window in our company room. Our nicest piece of furniture was a home-made rocking chair. Our bed was a cot, and a tight-rope variety. The trundle bed took care of all the youngsters under five years of age, and it stayed full all the time. We went to school two or three months in the year, but not in a bus. We attended church once a month, but not in a car; we used a two-mule wagon. We dressed up on Sunday, but not in silks or satins. We neither wrote letters nor received any. We raised our own lye hominy, distilling our own lye from our own ash-hoppers. We drank sassafras tea and never had a yearning for coffee.

We sopped our own molasses; we ate our own meat; we considered rice a delicacy for only preachers to eat; we knew about store-bought clothes, but never expected to be able to wear any; we got a stick of candy and three raisins for Christmas and were happy; we loved Ma and Pa, and were never hungry, enjoyed going naked, didn't want much and expected nothing. And that's why our so-called 'hard times' ain't so hard on me and a lot of others who were brought up the same way."

RETURN OF THE BIKE

Bicycles are not as common around Muleshoe as they used to be. That is why it will surprise the average citizen to learn that 50,000 of them were made and sold in a single month during the past summer and that dealers say the bicycle is now more popular than it has been for 25 years.

All over America boys and girls, and in many cases men and women are taking to the bicycle as a delightful means of exercise and sensible method of transportation. It has become a fad among the younger men and women of our larger towns and cities; it is considered a fashionable once again to own and ride a bicycle.

Smoke is pouring out of the chimneys of the bicycle factories once more, and while this means more money in circulation and more work for many who have long been idle, there is still a more profitable side to it. It means better health for those Americans who go in for this valuable type of outdoor exercise.

INTEREST BROADENS

The interest shown in national affairs by people all over the country is not mysterious. Almost everything since Roosevelt became president seems in some way to be linked with Washington where new regulations and new laws are being administered in an effort to guide the nation back to better days.

The Journal used to try to be a purely local newspaper, leaving the most of state and national news for publication by the dailies; but now we find the demand for national news is nearly as great as that of a local nature.

A few years ago most people were happy to lay little attention to events beyond their county seat, at most, the state capitol, and it had to be an exceptionally interesting bit of national or international to catch and hold the average reader's eye. But that time has now passed. The radio has broadened our horizon of interest and given many farm homes new interests in the matter of news as well as amusements and the automobile has widened the limits of travel so that the boundaries of 50 years ago are nothing like those of today. The progress of the country has demanded a change in published news events.

SNAP SHOTS

The old ex-Kaiser was some prophet when he said back in 1915 that if America entered the World war she would have to pay for it.

One of the first essentials to cleaning up graft in this country is to find somebody who is innocent of it themselves.

Controlled inflation will be fine; just inflate until the farmer sells his crops and then deflate when he is ready to buy something.

If we do have rioting this winter let us hope that Cuba doesn't land troops to quiet us.

Some of those who lost their shirts in the stock market are now back taking chances on their pants.

Just when business seems to be waking up in this country, along comes this "sleeping sickness" epidemic.

A land of equality is one where you have to obey a law if you are too poor to test it out in the higher courts.

Mussolini's frown is perfectly understandable. You would look that way, too, if you had to kiss as many whiskers as he does.

Jaunty Journalettes

Modern Muleshoe parents may have faults, but they don't make kids change underwear to fit the calendar regardless of weather.

Another thing the average Muleshoe girl doesn't figure on is that when she marries a husband she may be losing him as a friend.

One can never be sure of the size of a Muleshoe man's house how many of his wife's relatives are living in it.

Muleshoe people who talk most about the size of the hat, are generally those who expect to lay down the law and give the orders.

Some scientists have found that the average man's arm is just 30 inches long, while the average circumference of a girl's waist is also 30 inches. We opine that several young men of Muleshoe discovered that some time ago. At any rate it's a strange coincidence.

It is easy to understand why some Muleshoe women should be man haters after one has seen the kind of men they married.

It really doesn't make a Muleshoe man hateful to quit smoking. He's just that way so his wife will urge him to start again.

Nobody in Muleshoe nor anywhere else really lives 100 years. They just live about 50 years and then stick around.

A free people are those so high up they don't notice the public and those so low down the public doesn't notice them. Thank heavens we haven't found any of that kind in Muleshoe.

Several Muleshoe men are going to be getting their winter suits out of the closets pretty soon only to discover that the summer of 1933 has been a very happy one for the moths.

Pavement Pickups

"Don't worry," says Jess Osborne, "all bank assets will be liquid again just as soon as Wall street puts the water back into them."

Jess Bartley says another advantage in buying a cheap car is that you always have enough left to buy a louder horn.

Muleshoe doesn't boast of much foreign population yet Richard Rackey says he knows several people here who can't speak a word of English. Then he explained that they were all babies and not expected to talk.

Elvin Smith says now that the days are beginning to get a little frosty around the edges we are not likely to hear very much more from the Muleshoe nudist colony for the remainder of the year.

Col. George Harris, Muleshoe's multi-millionaire, declares unless kidnapers adopt the quick turn-over and small profit plan he's not going to start any worrying.

Interesting information: Ray Griffith's elevator phone number is 32, but there is no period between the numerals. R. L. Brown's phone number is 13, and his stenographer was born on the 13th day of the month. Selah!

Ye editor had a laughter who a short time ago brought home a beautiful Persian kitten. Now she insists on feeding it condensed milk so it won't grow much.

Rev. Raney was accused recently by one of his amen corner members of preaching too short a sermon. "Why," he declared, "I had hardly got to sleep before he was through and some one was waking me up."

Speaking about the NRA, Good Hardin says his wife has always been "good" especially since he married her; but now he's thinking of changing her given name to Nira, because she cooperates with him 100 per cent.

A woman came into Pat Bobo's office the other day and said, "I want something to quiet my nerves." "Yes," replied Mr. Bobo, "but I don't happen to be a doctor; I'm a lawyer." "Yes, I know," said the woman, "I want a divorce."

Miss Boone, home ec. teacher in High school, recently discovered a new way to tell when an old rooster is done. Giving her class the benefit of the information, she said: "Just put an ordinary brick in the same pot where the rooster is cooking. When a fork can be stuck through the brick with ease, the rooster is done."

Mrs. Cox, primary teacher, addressing her primary grade pupils the other day said: "Now children if you will all be quiet I'll tell you a fairy story about

the prince who killed the dragon and rescued a beautiful princess." "Oh, that's too old-fashioned," quickly replied one of her apt pupils. "Tell us a story about an NRA official who killed a profiteer and rescued a consumer."

MULESHOE COFFEE SHOP

TRY ONE OF OUR PLATE LUNCHES
We serve all kinds of Sandwiches, Short Orders, and our Coffee is the best.
We also carry a fine line of Candles, Cigars and Tobaccos.
You are always welcome.

YOUR ELECTRIC SERVANT

Selling Tomorrow's Cars Today

We have repeatedly made this statement, and the trend of sales is showing us correct. We are more convinced when we stop to think that seven of the best features of much more expensive cars are incorporated into the new Ford V-8.

Do you know of any other car that you can drive for 50,000 or 60,000 miles, then replace your motor, ignition and carburetor for approximately \$55.00?

The inbuilt quality of the new Ford makes this possible.

MOTOR CO.

Have You Had Your Car Checked For Colder Weather?

CITATION BY PUBLICATION THE STATE OF TEXAS.
To the Sheriff or any Constable of Bailey County, Texas:
YOU ARE HEREBY COMMANDED to summon John A. Perryman, and the heirs and legal representatives of the said John A. Perryman, by name and addresses are unknown, Ruby Perryman and Johnnie Louise Perryman, a minor by name, to appear in the Court of the District Court of Bailey County, Texas, to be held at the Court House thereof, in Muleshoe, Texas, on the Third Monday, November 6, A. D. 1933, the same being the 29th day of November, A. D. 1933, then and there to answer a petition filed in said Court on the 28th day of September, A. D. 1933, in a suit, numbered on the docket of said Court as No. 564, wherein Maple Wilson and Ethel Wilson, Plaintiff, and her husband, B. O. Sanford, are Plaintiffs, and John A. Perryman and his heirs and legal representatives of the said John A. Perryman, whose names and addresses are unknown, Ruby Perryman, Johnnie Louise Perryman, a minor, A. F. Reichard and L. F. Reichard, are Defendants, who petition alleging that on the 1st day of January, 1931, the plaintiffs were in possession of and seized and possessed in fee simple the Southwest one-fourth (S. W. 1/4) of Section Twenty-three (23), Carter Subdivision of Hansford County School lands in Bailey County, Texas, 140 acres of land, and the name of the defendant entered unlawfully entered and possessed of them of such premises, and withhold from them the possession thereof. That the reasonable annual value of said premises is the sum of \$400.00 per year. That the plaintiffs are the common source of title and the defendants claim to hold under them, but that the defendants' title is void. Wherefore, plaintiffs pray for process upon all the defendants, and that upon hearing they have judgment for possession, for their damages as well as their title, that they be placed in possession of such premises, and for such other relief as may be proper.

For Second Count, the plaintiffs set forth that the names and addresses of the parties and the capacities thereof are stated in the opening paragraph of this petition. That on December 1, 1929, the plaintiffs conveyed to John A. Perryman, then a single man, but who died in 1929, and the parties thereof, Ruby Perryman, and a minor, Johnnie Louise Perryman, surviving him as his sole and only heirs at law without an administration on his estate, the Southwest one-fourth (S. W. 1/4) of Section Twenty-three (23), Carter Subdivision Hansford County School lands, Bailey County, Texas, and the vendor's lien for three notes, each in the sum of \$133.33 at six per cent annual interest from the date of issue, to Maple Wilson and Ethel Wilson Sanford, at Lubbock, Texas. Such notes were due on or before five, ten and fifteen years respectively from their dates, and each of the notes contained a provision that a failure to pay any note or installment of interest thereon would at the holder's election mature such notes, and further provide for ten per cent on the unpaid principal and interest, attorney's fees if sued upon, or placed with an attorney for collection. The plaintiffs are the legal owners and holders of said notes; that no part of the principal has been paid; that all interest has been paid to December 1, 1929, and interest accruing thereafter in the sum of \$219.97, but no further sum. That the note due December 1, 1930 has not been paid; that the note, though same is past due and because of the past due maturity of said principal note and of interest accruing since December 1, 1929, plaintiffs have elected to make a note and have placed same with an attorney for collection, agreeing to pay him ten per cent on the principal and interest as his fees, which are reasonable.

That defendants Reichard and Jordan are tenants of their co-defendants, paying one-third of all crops except cotton, and one-fourth of the cotton for their right of use. That unless restrained, such tenants will pay to their co-defendants the rents.

That plaintiffs have elected to rescind the aforementioned contract under the claim of superior title and assume possession of the property, and that the defendants refuse to give them possession and withhold the same from them.

Wherefore, as above, the plaintiffs pray for service upon all the defendants; that they be held liable for their debt, damages and cost, that same be declared void from December 1, 1929 and all times since; that the premises be sold to satisfy said judgment; that the order of sale have the force and effect of a writ of possession, and for such relief as may be proper as they may be entitled to.

Herein Filed Not, and give before said Court, at its aforesaid next regular

Enochs Echoes

The light rain coming during the weekend did not interfere very much with harvesting.

Randal Weathers returned home last week from a visit with friends at H. H. Reynolds' nice time.

Ed Callaway and daughters, Myrtle and Jean spent the weekend with friends and relatives at Crosbyton and Rails.

Mr. and Mrs. Lee Pice and family of the Fairview community, were visitors in the O. S. Taylor home the past weekend.

Shorty McCall's home has been finished and they have moved into it.

Mrs. Roy Holsen and Mrs. J. D. Black gave Mr. and Mrs. E. N. (Shorty) McCall a shower Sunday afternoon. There was a nice crowd present and they received many nice and useful gifts.—Reporter.

CARD OF THANKS

We take this opportunity of expressing our grateful appreciation and sincere thanks to all the friends and acquaintances for their kindly ministrations, words of comfort and for the beautiful floral offerings on the occasion of the loss of our beloved wife, mother and daughter.

Allen McReynolds
Zoe and Robert McReynolds
Mrs. B. W. McReynolds

LUMBER RETAIL CODE ON

The first retail code of NRA going into force and affecting Muleshoe directly was that of retail lumbermen which became a law last Friday, President Roosevelt having signed it nearly two weeks ago.

The code sets forth methods of operation and dealing with the public, being formulated by representatives of that particular line of business.

Patronize home industries.

In this term, this writ with your return theron, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of this Court, at office in Muleshoe, Texas, this 28th day of September, A. D. 1933.

J. B. BURKHEAD, Clerk, District Court, Bailey County.

October 5, 12, 19, 26, 1933.

SHERIFF'S SALE

THE STATE OF TEXAS.
County of Bailey, Texas: I HEREBY GIVE That by virtue of a certain Order of Sale issued in the Honorable District Court of Motley County, on the 28th day of February, 1933, by Mrs. Minnie Smith, Sheriff of Motley County, Texas, for the sum of Seventeen Thousand Nine Hundred Thirty and 17/100 (\$17,930.17) Dollars and costs of suit, under a Judgment in favor of Mrs. Minnie Smith, County Treasurer of Motley County, Texas, in a certain cause in said County, No. 559 and styled Mrs. Minnie Smith, County Treasurer, Motley County, Texas vs. O. T. Oliver, J. E. Brannen and J. A. Hucklebee, placed in my hands for service, I Jim Cook as Sheriff of Bailey County, Texas, did, on the 2nd day of October, 1933, levy on certain Real Estate, situated in Bailey County, Texas, described as follows, to-wit:

Block 13, Lots No. Two, Three, Six, Seven, Eight, Twelve, Thirteen, Nineteen, Twenty-two, and Eleven in League No. 178 of the Motley County School Lands as shown by the plat of said land and the subdivisions thereof on record in the Deed records of Bailey County, Texas, and levied upon as the property of O. T. Oliver, J. E. Brannen and J. A. Hucklebee and that on the first Tuesday in November, 1933, the same being the 7th day of said month, at the Court House door of Bailey County, in the Town of Muleshoe, Texas, between the hours of 10 a. m. and 4 p. m. by virtue of said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of O. T. Oliver, J. E. Brannen and J. A. Hucklebee.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County, Texas.

Witness my hand, this 2nd day of October, 1933.

JIM COOK, Sheriff Bailey County, Texas.
October 5, 12, 19, 1933.

CONDITIONS FOR TEXAS CROPS GOOD

The Oct. 1 crop report of the United States Department of Agriculture, released Thursday last week, stated conditions for growing and maturing crops in Texas during September were generally favorable. Cotton was reported in better condition than ever before for this time of year.

The report stated prospects on Oct. 1 were "for better yields of cotton, rice, grain sorghums, peanuts, tame hay, sweet potatoes, pears, grapes and pecans than were indicated on Sept. 1."

Corn and broom crop prospects are unchanged from a month ago. The report stated, "Range conditions improved during the month, and in most areas ranges are in fair shape. However, additional rainfall is needed in some sections, especially on the Edwards plateau."

"A cotton crop of 4,190,000 bales (500 pounds gross weight) is forecast for Texas from data furnished by crop cropers. The condition on Oct. 1, 1933, was reported at 70 per cent of normal, compared with 59 per cent a year ago and 55 per cent the 10-year average (1922-1931). The condition this year is the highest Oct. 1 condition on record and the estimated yield is the highest since 1914, when 183 pounds per acre were produced (the yield this year was estimated at 178 pounds per acre). Apparently higher yields will be realized in practically all sections of the State than were realized last year."

"The condition of the Texas corn crop is reported at 81 per cent of normal on Oct. 1 compared with 73 per cent a year ago and 67 per cent the 10-year average (1921-1930). A condition of 51 per cent indicated a yield of 11 bushels per acre and a total production of 75,512,000 bushels. This compares with 102,726,000 bushels produced last year and 78,426,000 the five-year (1926-1930) average."

President Roosevelt Acknowledges Suit From Tech Makers

Lubbock, Texas, Oct. 16.—President Bradford Knapp and the two boys who were the material from which suits were made for the President and Vice-President of the United States have received a personal letter of thanks from President Franklin D. Roosevelt. The President says in his letter to the head of Texas Technological College that he is delighted to have the suit and "am really touched by the kind thought of yourself and the two students and all concerned in its making."

The President says further, "After seeing the suit I can well understand and indeed I share your pride in what these boys have accomplished. I am sending them a personal word of appreciation." The boys who scored, carried, and wore the wool were Leonard Curtin of Electric and Malcolm Martin of Lorenzo, both members of Tech's football squad.

Progress News

There was a good crowd for church and Sunday school, Sunday, Rev. Lloyd Jones delivered a very interesting sermon.

There was a large crowd attended singing Sunday afternoon. There is singing at the school house each first and third Sunday. Everyone is invited to attend.

The Willing Workers' club met with Mrs. Homer Mardis last Thursday afternoon. There were five members and four visitors present. Two new members joined. The afternoon was spent quilting a quilt for Mrs. Mardis. They will meet with Mrs. Luther Hoy the fourth Thursday.

Fay Lewis of Snyder, is here on an extended visit with friends and relatives.

Mr. and Mrs. E. D. Chittwood and son, Dew, and daughter, Grace, Rev. Brewton, Frank Tysl, Mr. and Mrs. Luther Hoy and sons, James and Floyd, and daughter, Volena, and Fay Lewis attended church at West Camp, Sunday night.

There were church and league services Sunday night.

The Jesko community presented a play at Progress, Saturday night. The play was "Beads on a String." There was a good crowd attended and all reported enjoying the play.

James Hoy and Frank Tysl attended a B. X. B. U. association meet at Levelland, Sunday.

Mr. and Mrs. N. T. Ford and son J. C. and Mr. Gillenwater motored to Bronkfield, Sunday.

A birthday dinner was given Sunday at the home of Mr. and Mrs. Billingsley in honor of their daughter, Lucille, and several of the relatives whose birthdays are in October. The guests were Mr. and Mrs. Sam Billingsley, Mr. and Mrs. Robert Rundell, and children, Merrell and Louise, Mr. and Mrs. Owen Jones, Miss Ieta Mose of Oklahoma Lane, Lovell Primm and Miss Julia Rundell, of Oklahoma Lane.

Boston's Temperature
Boston is much warmer than inland points only a few miles away. Chestnut Hill and Cambridge are among the nearby localities where the temperatures are lower. This difference in temperature is attributed to Boston's proximity to the sea.

SURPRISE BIRTHDAY DINNER

The I. W. Harden home was the setting for a surprise birthday dinner, last Sunday for I. W. Harden, Dan Carles and Whitson West.

Immediately following church services, cars began to move toward the Harden home, where friends were spreading a long table with delicious food prepared by them for the honorees. Three lovely birthday cakes were placed in the center of the beautifully laden table.

Rev. E. C. Raney spoke words of appreciation for the occasion and invoked the blessing of the Heavenly Father on those present, who were: Mr. and Mrs. Whitson West, Mr. and Mrs. Bert West and four children, Mr. and Mrs. Dan Carles, Mr. and Mrs. C. C. Mardis, Rev. and Mrs. E. C. Raney and daughter, Ethel Claire, Mr. and Mrs. J. C. Weaver, Mrs. J. F. Wallace, Mr. and Mrs. Dudley Buzard, Mrs. Charlie Buzard, Ray Buzard, Buzz Butts, Roy Jr., Carl Jr., and Norma Elrod, Mrs. W. H. Kistler, L. V. Churchill, Sr. Mrs. A. J. DeBord, Mrs. Davis and daughter, Mr. and Mrs. Jack Lawler and daughter, Mr. and Mrs. Claude Ferrell and five children, Mary Holt, Mr. and Mrs. Leonard West, Mr. and Mrs. Geo. Nelson and three daughters, Mrs. Delma McCarty and two sons, Mr. and Mrs. Cecil McLaury and daughter, Mr. and Mrs. Baker and daughter, Mr. and Mrs. Good Harden, Mr. and Mrs. I. W. Harden and two daughters, Miss Beth Mardis.

GIRL SCOUTS REORGANIZE

The Muleshoe Girl Scouts met Tuesday afternoon in the auditorium of the High School building in their first session since the summer vacation.

The troop reorganized with two lieutenant, Mrs. J. C. Weaver and Mrs.

Fay Elrod, in charge. The girls were divided into two sections, according to age.

Plans were made to meet each week in patrols under the leadership of their respective lieutenant and then in a general meeting once each month with the captain, Mrs. Odessa Harden.

This monthly meeting will be given over to socials, special business and the taking of tests.

Summing It Up
There is no formula in life; you will have to make a new equation for every human being that comes along.

MEDICAL ADVICE

If you want to
... keep the bowel action regular and comfortable
... make constipated spells as rare as colds
... avoid danger of bowel strain
—use a liquid laxative

Can constipation be overcome? "Yes!" say medical men. "Yes!" declare thousands who have followed their advice and know.

You are not apt to cure your constipation with salts, pills and tablets, or any habit-forming cathartic. But you can overcome this condition just by gentle regulation with a suitable liquid laxative.

Why Hospitals use a liquid laxative
The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Will not irritate kidneys.

The right liquid laxative will bring a perfect movement, with no discomfort at the time, or afterward.

The wrong cathartic may keep you constipated as long as you keep on using it!

In buying any laxative, read the label. If it contains a doubtful drug, don't take it. If you don't know what is in it, don't chance it. The contents of Dr. Caldwell's Syrup Pepsin is stated plainly on the label: fresh herbs, pure pepsin, active senna.

Its very taste tells you syrup pepsin is wholesome. A delightful taste and delightful action. Safe for expectant mothers, and children. Drug-stores have it, ready for use, in big bottles.

And they provide SAFE relief—for Genuine BAYER ASPIRIN

GENUINE BAYER ASPIRIN DOES NOT HARM THE HEART

The FAMILY DOCTOR

By JOHN JOSEPH GAINES, M. D.

A VERBAL STROLL

Studious men and women are continually learning things. Years ago, it was believed that foreign bones like grape-seeds, or very fine particles of bone—anything that might be swallowed—would somehow work into the victim's appendix and raise merry—well, a serious mess. But we were wrong; I've seen many appendices re-

moved, never saw a grape seed or piece of chicken bone taken out of one in my life. They probably don't get into the appendix. So, in the season of luscious grapes, I'm gully of eating them, seeds included—but no skins. It makes a genuine pleasure of eating grapes when you don't have to segregate the seeds.

Grape-seeds are absolutely impregnable. Grape-seeds are comparatively large and smooth. I doubt if they irritate the intestine for this reason. It's not the case with blackberry and raspberry seeds—they are so small and, I verily believe are jagged! If you have artificial teeth below—and a lower dental plate—and attempt to eat a dish of nice raspberries—or a piece of good juicy, blackberry pie, then you will get my meaning. The agony of a dozen raspberry seeds under your "lower plate" cannot be camouflaged by the rules of table etiquette.

If those berry seeds do the same thing to the colon that they do to the gums—then they are unfit to go through the human digestive tract—hence I taboo them, especially in colons past middle age, or in cases of colitis—no seeds, skins, or dense fibers.

People used to think a cherry seed could enter the human appendix! Or a fish-bone! Or if the baby swallowed a shirt button!

I am glad to admit that grape seeds are not very harmful, if you love nice, fresh grapes. Leave out the skins, however.

CIRCLEBACK HAS H. D. CLUB

In lieu of the fact that Bailey county has no demonstration agent, and Mrs. J. C. Boyd, residing just across the line in Lamb county has for some time been interested in this particular work, she has, in response to the ladies of the Circleback community who are also interested, organized a home demonstration club in that community. The new club meets each first Thursday and third Friday of the month in the schoolhouse there, the next meeting to be October 20. Miss Ruby Mashburn, home demonstration agent of Lamb county, who has done considerable work with the women of this county, will supervise the activities of the new club, herself frequently attending.

Hedgehog's Pests in England Hedgehogs, which destroy cock roaches and beetles, are popular as pets in England.

TO CROWN HIGH SCHOOL QUEEN AT THE HALLOWEEN CARNIVAL

Members of the high school classes are planning for a big carnival attraction to be held Halloween night at the High school building.

Booths of all kinds will be erected and covered with a variety of mysterious attractions. A program of literary nature is being prepared and will be given by members of the Grammar grades.

Each High school class has chosen its most lovely specimen of pluckiness, sponsoring her as candidate for queenly honors. Much friendly rivalry is already being shown in the contest as to who will be crowned queen. Candidates for her queenship are Twilla Farrell, for the seniors; Mary Holt, for the juniors; Malda Chandler, for the sophomores, and Bernice Arnold for the freshmen.

All children attending will be costumed.

METHODIST CHURCH

Sunday school, 9:30 a. m. The Primary department has been separated from the other departments for the devotional and we ask that the parents get the children there in time to enter them into the opening of the services. This is done to get a devotional program for the children that will be in the life of the child in the way of the Bible reading, and stories.

The pastor will preach at 11:00 a. m. on "God the Source of Our National Life."

The leagues and evening services will be at the church set for them and we solicit the attendance of all the people. We may have a service on the names, numbers and the cause of so many different denominations Sunday night. We shall have good singing at all the services.

Tea women meet each Monday afternoon. The prayer meeting is Wednesday night. We plan soon to begin a study of the book of Genesis as a basis for the mid-week meeting. The choir meets this week at Mrs. Fred Reynolds' home, and there will have a social time with wafers and refreshments.

Next Saturday we plan to meet at the church at 8:00 a. m., and go out to Mr. Whiting West's place to pick cotton. Bring your lunch, cotton sack and we will see that you get your transportation and water. We will have two bales ready to pick at the time and the girls here will give it free of cost. The church needs all this for a study and hope that a good number will respond to help get this out. One Senior girl said she would challenge the church to pick 400 pounds that day. How many will call her hand?

We wish that it were possible for us to furnish you sacks but that would be rather expensive for the church. Get you some feed sacks and sew them together for this will not last but one or two days and to buy a sack would be too expensive for that short time.—E. C. RANEY, Pastor.

Baileysboro News

A large crowd attended the box supper here Saturday night. The sum of \$68.00 was received, which will go toward paying for a new light building. J. H. Freudinger and sons, Woodroe Jess and B. D. returned from near Fort Worth Saturday.

The Baileysboro High school girls were defeated in a basket ball game with the Baileysboro "outsiders" Wednesday night. The high school boys defeated the Sudan (Circleback) high school in a practice game.

The farmers are very busy gathering their crops, trying to get their food out before old Jack Frost comes.

Posy Burrell made a business trip to Littlefield last week.

Mrs. J. S. Fears and daughters, Nellie Mae and Virginia made a business trip to Littlefield Friday.

W. B. Wallis made a business trip to Littlefield Saturday.

Stegall News

R. R. Klutts has been gone to Littlefield, N. M., for the past six weeks. He is working on the bean harvest.

The farmers in this community have planted lots of wheat this year. They are very anxious for a rain to start it growing.

The pupils of Stegall school met Friday, October 13, for organizing a book club. The purpose of the club is to make the pupils more acquainted with literature. The officers are: elected were: Scott Williams, president; L. H. Holt, vice-president; Geneva Fowler, secretary; Mildred Phlips, treasurer.

The subject of the meeting was the book "The Day After Tomorrow" by Henry W. Longfellow's biography.

Mr. Phlips of Wellington, is visiting his son, Charlie Phlips, this week. He is the only one of his name in this community.

Misses Lennie Holt, Elsie Holt, Mrs. Lorna Holt, and Mrs. Paul Holt, are attending the county fair at Littlefield, N. M., this week.

At a call meeting of the O. E. S. held last Monday night in the Masonic hall, Mesdames Mary Hart and Mary Adams were duly initiated. There was a good attendance present.

The following members of the Young Men's Club, who were members went down into the American Legion hall where refreshments of fruit cake and coffee were served.

At a call meeting of the O. E. S. held last Monday night in the Masonic hall, Mesdames Mary Hart and Mary Adams were duly initiated. There was a good attendance present.

Lazbuddy News

(Too late for last week)

Mrs. Mina Noble, mother of Mrs. P. M. Jennings and Mrs. Paul Pittman, has returned to her home in Lorenzo, Walter Jennings, who is returning from Portales, N. M., where he has been under the care of a doctor.

Mr. Cheyne, of Canyon, is visiting his daughter, Mrs. Flaude Gailman. Mrs. Cecil Simms has been under the care of her mother and father, Mr. and Mrs. A. W. Jones, sister and husband, Mr. and Mrs. Emmett Burford, and Cecil Simms.

E. Ernest Merriott has returned from the C. C. camp located at Farmersville. He has his honorable discharge and will be at home permanently.

Mrs. E. P. DeLoach of Snyder, has been visiting in the homes of her daughter, Mrs. F. M. Wagon and granddaughter, Mrs. H. T. Brawley.

Miss Dorothy DeLoach, of Sudan, is visiting relatives, Mrs. H. T. Brawley and Mrs. F. M. Wagon.

The Lazbuddy High school has organized a staff to edit a school paper. The paper is to be written at the school and will be ready next week.

The Sunday school class of Mrs. P. M. Jennings enjoyed a picnic Saturday last week at Fort Sumner, New Mexico.

Miss Virginia Arnold, teacher of English in the Lubbock High school spent the weekend with Mrs. W. B. Wagon.

Mrs. Mattie Dyck is the guest of relatives in Lubbock.

Mrs. W. S. Menefee family have recently completed the addition to their home. It is a very spacious and modern. It is one of the pretty places in the community.

People are very busy harvesting the Sudan and feed crops. Cotton picking is beginning. The crops in this community are very good.

Mrs. Roy White very charmingly entertained the Lazbuddy Study club Thursday afternoon in her beautiful home. The rooms were attractive with fall flowers. During the business hour which was presided over by the president, Mrs. B. Whitt, Mrs. Leon Julian resigned as reporter and Mrs. Robert Bledsoe was elected to take her place. The lives and works of O'Henry and Mark Twain furnished an interesting study for the afternoon. Mrs. Gordon F. Beck gave a very interesting talk on the subject, Mrs. N. N. Allen furnished delightful music.

Saturday evening a large crowd of friends called at the lovely new home of Mrs. Alma Steinbock to remind her that she had a birthday. Mrs. Steinbock has recently completed a beautiful modern seven room home on the place of her home that was burned the past summer. Losing all the contents. Many beautiful gifts were received by the honor guest. During the evening the guests enjoyed a bridge and forty-two. Again Sunday about 50 people came to shower Mrs. Steinbock.

Angling a covered dish. Among the out of county guests were Mrs. Oscar Lang and daughter, Kathryn, of Friona, and Mrs. Moeller, of Muleshoe. It was a pleasure for the many friends of Mrs. Steinbock, who has done so much for the community to remember her on this occasion.—Reporter.

OCTANE CONTENT IN 68 GAS

JUMPS SALES, SAY'S BEAVERS Recent announcement of the Phillips Petroleum Company that the anti-knock rating of its Phillips '68' gasoline has been raised to 70 octane has brought a deluge of inquiries regarding octane number and its significance, according to Clay Beavers, manager of the local Phillips sales station.

Nearly everyone knows that octane number is a measurement of the anti-knock quality of motor fuel; that the higher the octane number the greater the anti-knock characteristic of the gasoline. In other words, a gasoline of 70 octane, which is top rating in the regular price class, will not knock on hills or during sharp acceleration, while a gasoline of 65 octane or less will according to Clay Beavers.

"And if you think the public isn't responsive to an increase in anti-knock quality, you should see the way Phillips '68' sales have jumped since we went out with our 70 octane gasoline," Beavers said.

A GOOD BEACON

"Many '68' buyers as though they were blindfolded—"I'll try this," or "I think this will do." These have only the vaguest idea of what they want as they spend large slices of the family budget in buying the advertised number quality of motor fuel; that the higher the octane number the greater the anti-knock characteristic of the gasoline. In other words, a gasoline of 70 octane, which is top rating in the regular price class, will not knock on hills or during sharp acceleration, while a gasoline of 65 octane or less will according to Clay Beavers.

These have only the vaguest idea of what they want as they spend large slices of the family budget in buying the advertised number quality of motor fuel; that the higher the octane number the greater the anti-knock characteristic of the gasoline. In other words, a gasoline of 70 octane, which is top rating in the regular price class, will not knock on hills or during sharp acceleration, while a gasoline of 65 octane or less will according to Clay Beavers.

"And if you think the public isn't responsive to an increase in anti-knock quality, you should see the way Phillips '68' sales have jumped since we went out with our 70 octane gasoline," Beavers said.

"Many '68' buyers as though they were blindfolded—"I'll try this," or "I think this will do." These have only the vaguest idea of what they want as they spend large slices of the family budget in buying the advertised number quality of motor fuel; that the higher the octane number the greater the anti-knock characteristic of the gasoline. In other words, a gasoline of 70 octane, which is top rating in the regular price class, will not knock on hills or during sharp acceleration, while a gasoline of 65 octane or less will according to Clay Beavers.

"And if you think the public isn't responsive to an increase in anti-knock quality, you should see the way Phillips '68' sales have jumped since we went out with our 70 octane gasoline," Beavers said.

SUDAN SEED CROP HURT BY DROUGHT HARVESTING LATE; PRICE RANGE IS BETTER; CARRY-OVER IS SMALLER

Sudan grass seed this year is problematical, according to reports issued last week by the U. S. Department of Agriculture at Washington, which further declares if killing frosts do not occur earlier than usual, the production may exceed considerably the unusually small crop of last year. Because of the sharp advance in prices late last spring, growers planted a much larger acreage than last year, but because of drought, together with hot weather, much of the crop was slow in getting started.

Stands were more uneven than usual but were helped considerably by rains which fell in August. Heavy winds did much damage in some localities. The average yield of growers who reported was indicated to be about 400 pounds per acre.

Prices offered to growers on September 26 were two or three times as much as at a corresponding time last year. In principal districts mostly about \$2 per 100 pounds for country-run, and \$2.50 for cleaned seed, as basis clean seed, were being offered, recleaned seed last year bringing from 65c to \$1.50.

The carry-over of Sudan seed is very small in sharp contrast with what appeared to be a burdensome large carry-over last year.

Production in Texas was indicated to be larger than last year mostly because of the increased acreage. Yields reported range from 100 to 550 pounds per acre. However, the increased acreage has been largely offset by effects of severe drought. Growers are being offered mostly from \$2 to \$3 per 100 lb., compared with 60c to 70c on September 26 last year, 65c to 75c two years ago, and \$5 to \$6 three years ago.

THE COTTON LOAN PLAN

No definite instructions have yet been received in Bailey county for handling the federal 10 cent loan to cotton farmers, according to W. B. Waide, Jr., county farm agent, though information and instructions are anticipated any day.

Mr. Waide has, however, learned that cotton to be available for government loans will have to go through the cotton compress at Littlefield where the authorized weights will be obtained and receipts given. As soon as the Cotton Co-operative agent at Littlefield receives his instructions they will be passed on to Mr. Waide.

VOTA VITA S. S. CLASS

The Rally Day goal for the Vota Vita Sunday school of Baptist church, was 20. Our expectations were fully met for we had 28 in attendance. Our membership is 17. We had three new members and eight visitors. We invite the young married couples to come and be with us each Sunday morning at 9:45.—Reporter.

HOLDS REGULAR SERVICES

Rev Lloyd H. Jones, pastor, Muleshoe circuit, Methodist church, will hold his regular appointment at Wilson next Sunday, preaching both morning and evening.

ARRANGING FOR DETOURS

Assistant Division Engineer Geo. L. Carver and Division Foreman D. L. Butts were in Muleshoe last Friday. They had been making a trip through the country from Roundup, on the west line of Lubbock county to Farwell marking out detour roads for traffic while State Highway No. 7 is under process of construction.

"The traveling public is going to be considerably inconvenienced for a while," said Butts, "but it's going to be much better in the long run."

HAVE BUYERS!

I have several customers with from \$1,000 to \$2,000 cash looking for land in Bailey county.

List your property with me if for sale. I can get you a buyer in a short time.

GOVERNMENT OFFICIALS WOULD STIMULATE BENEFITS OF N. R. A. PLAN BY A CAMPAIGN OF BUYING

As a part of the national recovery plan, General Johnson has placed squarely before business men the opportunity for stimulation of business volume which lies in resumption of normal utilization of two forces upon which business and industry rely in normal times. These forces, says the NRA chief in a letter sent to leading manufacturers and dealers are, first, intrinsic value of merchandise offered to the public and, second, advertising so as to acquaint the public with the value and desirability of the merchandise offered. By properly utilizing these two forces, General Johnson suggests, it is possible to overcome the "well defined tendency on the part of a great many people to do without things even in those cases here they have the money to pay for them." This tendency, it is suggested, is responsible for much of the lag in business over and above the inability of the public to buy. In other words, increased willingness to buy is as much needed as increased ability to buy.

General Johnson reminds business men that improvement in fundamental business factors during the past several months has removed whatever reasonable base there might have been for the excess of caution displayed by that part of the buying public which possesses the ability to buy. Factory employment is up 34 per cent, industrial production up 71 per cent, farm prices up 33 per cent, and business failures down 47 per cent, as compared with last year. Payrolls have increased 40 per cent, carloadings have gained 23 per cent, automobile factory sales are up 33 per cent, and steel ingot production is up 245 per cent since last year.

General News Over Texas and Adjoining States For The Week

Work is to start immediately on the \$2,600,000 Red Bluff dam near Pecos.

The State fair at Dallas opened last week with a boom, more than 100,000 people attending the first day.

Of the \$13,000,000 federal relief appropriation, \$1,000,000 has been allocated to the Plains area will receive \$8,200,000.

Construction improvement on State Highway No. 9 is scheduled to begin in Swisher county this week.

Dr E F Jarrell, Tyler, of the Texas Livestock Sanitary commission, under charges of "selling jobs," has resigned.

Attorney Carl A. Hatch, of Clovis, N.M., has been appointed U.S. senator from that state by Gov. Hockinball.

The Texas Legislature last week passed a kidnapping law which provides the death penalty as punishment.

Texas farmers participating in the cotton acreage reduction will receive a total of \$43,000,000, 44 per cent of which has been paid.

The Schmidt Canning Co., during the rush season for tomato canning paid growers an average of \$1,000 per week.

Postmaster General James A. Farley and his party left Washington, D. C. last Tuesday for his visit with Vice-President John N. Garner at Uvalde.

Amarillo police department now has its own short wave broadcasting station and police cars are equipped with radios.

Partner County Commissioners have decided to open the route for State Highway No. 36 which will be improved in the near future.

The season for hunting ducks in the Panhandle area will open November 1. Thousands of ducks are now covering the surface of lakes in this section.

At the 82nd grand encampment held last week of Odd Fellows at Gonzales, Jahn A. Kee, of Fort Worth was elected grand patron and George Weiler, of Cleburne, as grand high priest.

The federal government last week made an appropriation of \$2,970,000 to Texas to relieve unemployment and suffering as result of drought conditions.

The case of Paul Mitchell, convicted and given a death sentence in the Lubbock county district court for the killing of Robert Tharp, has been upheld by the Court of Criminal Appeals.

Building breweries, since Texas voted for beer, has become one of the biggest industries of the state, seven now being in the process of construction.

Nineteen new factories representing an investment of more than \$1,000,000 have been established in San Antonio this year to date. They will employ nearly 1,000 people.

The special session of Texas legislature closed last Friday. Not much was accomplished other than handing an appropriation for the recently voted \$20,000,000 state bonds.

With the return of better economic conditions, citizens of Happy are now planning the organization of a municipal band at that place. It is reported

year. Lacking even the possibilities of improvement inherent in the national recovery program, it still would be evident that recovery had begun.

In past recoveries the lag of buying by the public has continued low prices and low wages, thereby slowing up the recovery. Intelligent and determined effort by manufacturers and dealers might shorten this period of vacillation and distress which represents the first stage of recovery. A well-planned sales effort involves, first, the provision of attractive goods and, second, widespread and intensive measures for bringing the goods to the attention of the public—in other words, advertising.

The fact is most apparent, as General Johnson suggests, that profitable business awaits the makers of goods who intelligently and forcefully go about the job of waking up the American market. Income of various classes of the population has declined far less than have prices. This inevitably points to the fact that the American people can buy a great deal more than they are actually buying. When the potentially favorable factor, from the manufacturer's standpoint, is added the further factor of obsolescence, which has grown greater with the passage of each month of curtailed buying, it must be obvious that the means of increasing his business volume are within the reach of every manufacturer and dealer.

The American public has begun to think of replacing its worn out and outmoded possessions. It is susceptible to a sales effort which involves the fundamentals outlined by General Johnson—value of goods and advertising.—Ft. Worth Star-Telegram

there is considerable musical talent there and several who have had previous experience will join.

Glen A. Lindsey, former agent of the Department of Agriculture from Washington, has been appointed farm agent for Floyd county, effective November 1.

Several cases of emphysema (sleeping sickness) are reported among horses of Elgin county. Government having sent several veterinarians there to combat spread of the disease.

The Texas Senate last week passed a bill appropriating \$200,000 for a state centennial in 1936. It is not thought the House will concur as there is considerable public opinion against such at this time.

Following the big storm in the Rio Grande Valley more than 300 men were given employment picking up grapes and other fruits blown from trees and taking it to extracting and canning factories where it was put in cans.

New Mexico will get a considerable sum of money as result of a recent ruling of the U. S. Supreme court, which held that the state has the right to reserve minerals from sale of state lands. The case involved \$31,855 held in suspense since April 30, 1931. Of this total \$125,923 will go to the common schools of that state, \$191,150 to the deaf and blind institute and \$26,653 to the state penitentiary.

The season for hunting ducks in this part of Texas will open November 1 and close December 31, the daily bag limit being reduced from 15 to 12, of which number not more than eight of any one, or eight in the aggregate, may be canvasbacks, redheads, scaups, teal, hovers or gadwalls. Possession limits are reduced from 30 to 24 on ducks, and on the excepted species above named from 20 to 16.

The department is greatly concerned over the present status of migratory waterfowl and has adopted these measures to reduce still further the numbers of birds killed annually in this country.

Long-continued drought on the principal breeding areas in the Prairie Provinces of Canada and in the Northwestern United States, together with overshooting had reduced the supply of wild fowl in 1931 to the lowest point that these birds had ever reached. Conditions on the breeding grounds early in the spring of 1933 were much more favorable, but since the first of June they have been only a little better than in 1931, and the Biological Survey considers it possible that when the wild fowl arrive this fall their numbers may prove to be no greater than two years ago. In this event further restrictions may be necessary. The department urges sportsmen to cooperate with the federal and state game conservation authorities during the present emergency. It should be realized that an adequate breeding stock must be saved if the sport of wild-fowling is to continue.

Duck Season Opens November 1, Limit Has Been Reduced

The season for hunting ducks in this part of Texas will open November 1 and close December 31, the daily bag limit being reduced from 15 to 12, of which number not more than eight of any one, or eight in the aggregate, may be canvasbacks, redheads, scaups, teal, hovers or gadwalls. With the return of better economic conditions, citizens of Happy are now planning the organization of a municipal band at that place. It is reported

ROBBERIES ARE FREQUENT

During the past week or ten days practically every daily and weekly newspaper has carried items of robbery wherein either business concerns or residences have been entered by thieves and property of a more or less considerable amount has been taken.

At this time of the year depredations of this kind are generally on the increase, and because of present stringent economic conditions, it is anticipated by many that there will be more robberies this fall and winter than common.

With the influx of harvesters and cotton pickers, while most of these people are of average morals and good character, yet there are always some of disreputable type and some of these new comers to Muleshoe and vicinity are already under suspicion and being closely watched by officers.

Citizens generally are warned to keep close guard of their property seeing that nothing of value is left out loose as a temptation and that all doors and windows are carefully locked at night.

CHECK vs. CASH

If a check is lost, mislaid or stolen, its payment can be promptly stopped at the bank on which it has been drawn. Whereas, if currency goes astray, or falls into improper hands, there is no such method in this country of "stopping payment."

This is one of the most patent arguments in favor of a checking account and is so obvious we should hesitate to mention it were it not for the fact the obvious is frequently lost sight of.

COURT REPORTER'S SALARY SET BY DISTRICT JUDGE

The salary of the court reporter for the 64th Judicial District has been set by Judge Charles Clements at \$2,500 for the year beginning Sept. 1. "The salary was reduced \$200 in keeping with demand of the times," Judge Clements said. The 43rd Legislature passed a law requiring the salary to be set by the county judge at a rate of annual pay from \$2,400 to \$2,700. The pay is prorated among the five counties of the district, proportionate to the time that court is in session in each.—Plainview News.

ST. CLAIR OPENED A VARIETY STORE AT FRIONA LAST MON.

The St. Clair Variety Store opened here for business Monday morning with a large stock of new merchandise in the building formerly occupied by the E. V. Rushing variety store.

The new store is in charge of Mr. and Mrs. W. L. Stell, both of whom are of that kindly and cordial disposition so calculated to win and hold friends among those with whom they associate, and our people will find it a pleasure to meet and deal with them.—Friona Star.

ATTENTION R. L. BROWN NEW KIND OF OKRA GROWN

Dock Grubrough, of the Crosbyton community, has a new kind of Okra, new to this country, that has the appearance of a gourd or long squash. Mr. Grubrough was showing one down town that was about 12 inches long and eight inches around at the largest part. It had a hooked neck.

In preparing for eating, said the grower, the outer skin should be peeled off and the inside tried in grease. However, some folks are so fond of this particular kind of vegetable they would probably eat it skin and all.

THE KELLEYS ARE GIVEN LIFE

The notorious George Machine Gun Kelly and his wife Katharine, were sentenced to life imprisonment Thursday afternoon of last week at Oklahoma City for their part in the \$200,000 kidnaping case of Charles F. Urschel, wealthy Oklahoma City oil man. The jury was out only an hour and it took but one ballot to bring conviction.

Kelly has been sent to the federal prison at Atlanta, Georgia, while his wife will go to a federal prison for women in West Virginia.

EDWARDS HELD ON CHARGE

The home of Lee Edwards, residing about five miles north of Muleshoe, was raided Saturday afternoon by members of the Sheriff's department and about a pint of liquor was obtained. It was stated, however, that a large quantity of liquor had been spilled out on the floor before the officers succeeded in making entrance to the house.

Edwards was taken into custody at the same time and a charge of possessing liquor for the purpose of sale will be lodged against him, according to County Attorney Tate.

BIG CROWD HERE SATURDAY

The big crowd of people that thronged the streets and pressed their way into various stores here last Saturday compelled folks generally to think that the period of economic depression was a thing of the past.

The carnival playing here was not entirely responsible for all of it either, as business men in all departments of commerce report excellent patronage.

BUTTER COMES UNDER NRA

Butter was last week selected by President Roosevelt as the next major farm product to come under the NRA activities, and it was decided to put a tax of one cent per pound on butter.

In connection with the butter code there will soon be formulated another one wherein "boarders" or non-profit producing milk cows will be largely taken out of production.

Government statistics indicate there are now 100,000,000 pounds more of butter in storage than there was a year ago when the supply then was 45,000,000 pounds more than the average in storage during the past five years.

Chewing gum was invented so that the henpecked husbands would have some way of exercising their jaws.
