Tech 76, Texas 56

Lady Raiders claim Big 12 title

By Brent Dirks Staff Writer

While the arena may be changing for the Texas Tech Lady Raiders, winning Big 12 championships remains the same.

Spurred by 31 points and 13 rebounds from senior Angie Braziel, the Lady Raiders picked up their second-straight conference championship with a 76-56 win over arch rival Texas in the last regular season game at the sold-out Lubbock Municipal Coliseum Saturday night.

"I'm really proud of them," Tech coach Marsha Sharp said. "They deserve to be Big 12 champions. They fought off a lot of challenges and played in some pretty tough environments and hung on and found a way to win. I'm really proud that they were able to do that. I'm especially proud of our seniors. You always want to see them go out with a championship."

But Texas (16-10 overall, 10-6 Big 12) didn't give up without a fight against the No. 11 Lady Raiders (25-3 overall, 14-2 Big 12).

After Braziel scored the first bucket of the game, putting herself over the 1,000-point mark for her career at Tech, most of the first half belonged to the Lady Raiders.

With a strong man-defense and a monstrous effort on the boards, Tech went up by as many as 14 points in the first half. The Lady Raiders grabbed 50 rebounds in the game while besting Texas by 14 boards, both conference highs this season.

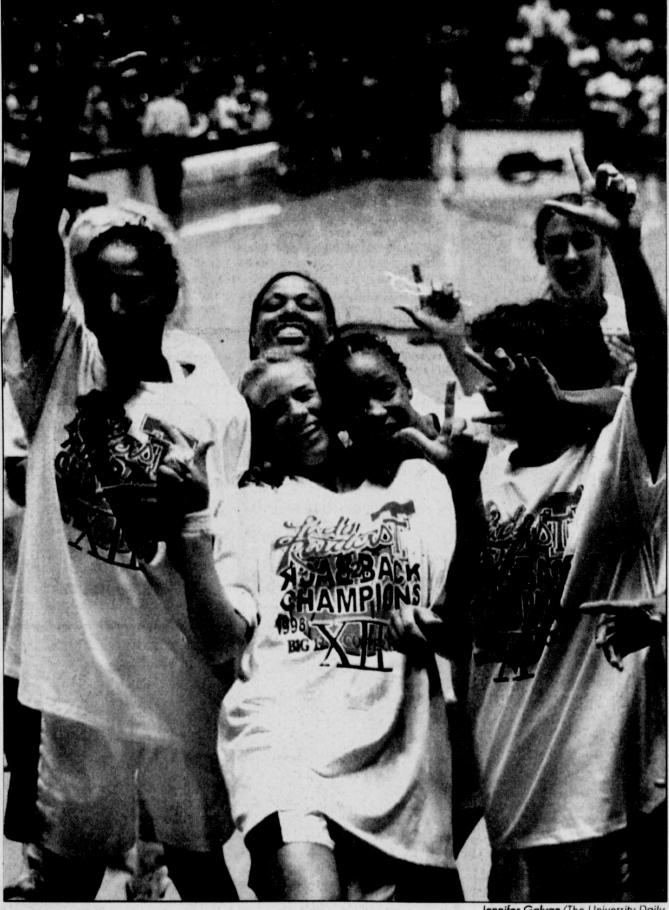

"The key to winning was rebounding," Tech guard Rene Hanebutt said. "We said before the game we wanted to get 50 rebounds, and we did. That was unbelievable. Our post players did an unbelievable job on the boards. I think that's where the difference in the game was from the game in Austin. We controlled boards on both ends of the court."

The Lady Raiders stormed out to a lead as big as 29-15 midway through the first half, but the Longhorns began to show some life.

A 10-3 run got Texas as close as 31-25 with 1:29 left in the half, but six points in the final minutes by junior forward Aleah Johnson helped take a 37-28 halftime lead.

Just like the first half, the start of

Lights out at 'the Bubble'

■ Lady Raiders

By Brent Dirks Staff Writer

While the current Texas Tech Lady Raider squad continued its winning tradition Saturday night, more than 60 former Tech players came back to the Lubbock Municipal Coliseum to relive their playing days and bid farewell to the 43-year-old facility.

"We did a lot of things to make sure that every single seat in here was full tonight," Tech coach Marsha Sharp said. "I thought it was a great atmosphere and a great evening for us. It was a great finish to a lot of memories in the Coliseum."

And along with the ex-Tech players coming back to the Coliseum for a farewell party, the fans got to experience the final regular season game in the arena.

Commemorative buttons were given to all the fans, while T-shirts and programs were available for fans.

One fan in particular, however, may remember the night more than others. Terry Duncan made a halfcourt shot during a break in the first half to pick up \$25,000 in a contest sponsored by radio station KLLL-FM. The fans also received another honor by getting the chance to vote for the members of the all-time Lady Raider squad. Votes were cast throughout the season, and the results were announced at halftime of Saturday's

Horizon set in Houston \$27.3 million added to campaign

By Ginger Pope Staff Writer

Texas Tech marked another milestone in the Horizon Campaign on Saturday with a check presentation for \$22.6 million and an additional \$4.7 million at a gala event in Houston.

The total goal for the Houston area, which has more than 6,000 Tech alumni, is to raise \$40 million. This goal is more than half way met

after the announcement Saturday. The gala event included a barbecue appreciation dinner for Tech alumni and supporters and then proceeded to the Houston Rodeo and Livestock Show, said Michael Sommermeyer, assistant director of Tech News and Infor-

"It was Texas Tech night there at the rodeo," Sommermeyer said.

Scholarships are given away each year at the Houston Rodeo and Livestock Show for college students, and Tech students always receive a lot, he

The Houston gala event was underwritten by Coastal Blanc, El Paso Energy Corporation, Hellmuth Obata & Kassabaum Inc. and Stewart Title Company. Proceeds from ticket sales will go to Tech's Rodeo Scholarship

The gala event kicked off a public fund-raising effort in the Houston area for the Horizon Campaign. Similar events have been given in Lubbock, Dallas and San Antonio. Other regional areas Tech is focusing the capital campaign on are Tyler and Austin, Sommermeyer said.

The next big focus will return to the Tech campus as capital campaign workers will ask Tech faculty and staff to participate with donations, he said.

"We're not singling anyone out, but if they can give just \$5 or \$10 that will help," Sommermeyer said.

Thursday at a Minority Faculty Staff Association luncheon, Tech Chancellor John Montford said he would like for the campaign to be finished by August.

...let's finish this by August, because I want to start another capital campaign," Montford said.

The donations announced Saturday bring the total of the Horizon Campaign to \$250 million.

Students came together Friday to participate in the second annual Texas Tech Dance Marathon, a fund raiser to help benefit the Children's Miracle Network.

The Dance Marathon began at 7 p.m. Friday and lasted until 7 p.m. Saturday. The 24-hour event involved students from several organizations across campus.

A majority of the money raised came from student-dancer registration fees, which were \$75 a person.

The goal of the fund raiser was to raise \$35,000.

Hollie McLauchlin, the marketing chairwoman for Dance Marathon, announced later that night that they had met their goal and raised much more.

"We raised \$38,399.07,"

The rest of the money raised came

spoke to the dancers about what it means to be a Miracle Family, and cards from children were read. Dancers also participated in a carnival for the children.

One of the major activities was the "morale dance." This dance was repeated about once an hour to raise the dancers' spirits.

Stacy Art, a junior restaurant, hotel and institutional management major from Ailen, said the dance slowly taught to them a little bit at a

time during the first eight hours of the Dance Marathon. McLauchlin said about \$3,000

"They taught it to us until about 3 (a.m.), and by then we knew it," Allen said. "It gives us a pick-me-up."

Chasity Choyce, a sophomore prephysical major from Kaufman, was exhausted from the event, but said she was glad to have been involved

"It was a worthy cause," Choyce said. "It may have been suicidal, but it was for a worthy cause."

Choyce said the purpose of the event was to convey the message of "for us, we just feel like crap for 24-

hours. For them, it's a year or more." Associate Dean of Students Bernie Schulz said he was really excited about the success of the event.

"I'm really proud of the students," Schulz said. "They passed my expec-

Schulz encourages chapters of both Greek and non-Greek organizations to become involved with Dance Marathon.

Aides TAP into Tech teaching program

By Melody Ragland

For many career professionals going back to school is not an option, but for a select group, the Teaching Assistants Program is allowing them to pursue a dream. Texas Tech's College of Education began the research for TAP in 1996.

The program allows teacher aides to go back to school to receive their degree and teaching certificate in elementary education.

Karen Jacobsen, coordinator of Diversity Programs, said there was a need for identifying teaching assistants that would be good teachers.

"They're not compensated very

well," Jacobsen said. "They are there for teachers. In a lot of ways they are doing many of the same things.

She said many of the aides never attended college or had very few hours. The aides became students in January 1997. The students are required to take 133 hours.

Jacobsen said the students can take classes at places other than Tech, except for their block or professional

The program has about 65 students enrolled and there is a waiting list of 40. Twenty students are now taking junior and senior level courses. This group will be the first to graduate in December 2000.

"It's a great program," Jacobsen

nation. They are very driven." Leona Lambright, a senior el-

ementary education major f r o m Levelland, said she is thankful for Tech and the program. She said she learned she had more endurance

not have been able to come back to

Jacobsen said the program was started by Elaine Jarchow.

Jarchow is the dean of the college and is away on a one-year leave. She is helping to establish the first

women's college in Saudi Arabia. "It had been her dream to start a program like this," Jacobsen said.

Sandra Thomas, a sophomore elementary education major from Slaton, said her children have been her motivation.

Thomas has an associate degree in child development from South Plains College, but said the program was the push she needed to return to

Farr said her going back to college was an adjustment to her family, but her husband has been very support-

Thomas said her biggest challenge was getting back into the mode of studying. She said having the experience from her job will make teaching

"It's given me that insight to have a class of my own," Thomas said. "It's taken away the fear of being able to control a class.

Thomas said she was sad she was the only one from her school district that took advantage of the program.

"If nothing else, you're never too old to learn something different or change your dream," Thomas said.

Engineering competition brings high school students to campus

By Greg Okuhara

High schools from West Texas and the Permian Basin competed in the annual Texas Engineering Challenge Friday afternoon in the University

The challenge, presented by the Texas Tech chapter of the Texas Society of Professional Engineers, is an annual event.

However, this was the first time the event was given at Tech.

The competition involved building an aluminum can-crushing device. Each team had to follow guidelines involving safety, a uniform power supply and a technical demonstration. Judges for the event were engineers from companies in Lubbock, Abilene, and Odessa, as well as from Tech.

The students were judged on the number of cans crushed in three minutes, safety, quality of the machine and their presentation.

Bill Lawson, faculty advisor for the student chapter of TSPE, also served as chairman of the event.

Lawson said he was impressed with the high school students' creativity and hard work they put into their machines.

'Each team demonstrated a high degree of creativity, ingenuity and

structing their device.

They all had different approaches. They were all unique, and I was very impressed with their ability to solve problems,'

Lawson said. The winning

team was from Midland High School. A miniature golf business in Midland donated a pitching machine to the team. The students used the wheels from the pitching machine to squash

Lawson said the event also will help in recruitment for the College of Engineering. Each member of the winning team was offered a \$1,000 scholarship to study engineering at

The original offer was \$500, but William Marcy, dean of the College of Engineering, decided to offer more.

'We designed it to be an event to not only provide high school students with a forum to compete, but also to introduce them to Texas Tech University and our commitment to welcoming quality high school students to our engineering program," Lawson said.

Dave Karr, a senior construction

I was impressed with the variations the teams came up with." Dave Karr

TSPE president

engineering major from Austin and president of the Tech chapter of TSPE, said he was fascinated with the teams' imagination.

He also was pleased with how the event went.

"I was impressed with the variations the teams came up with," Karr said. "It (the competition) was small, but it was good for us because we're a brand new organization. And, we're just trying to get everything settled."

TSPE hopes to expand the event next year to include more schools.

"We did some great things here, and I think the teams had a good experience. I hope they tell their friends and neighboring schools," Karr said. "It's good exposure for Texas Tech and a neat thing for the engineering profession. Being a graduating senior and seeing these guys come up here with these machines is kind of daunt

International Week ends with a full belly

Food Festival brings cultural awareness to campus

By Laura Hensley Staff Writer

scoop of fried rice, a helping of sauerkraut, a couple of egg rolls and a heaping gyro is only a sampling of foods that overflowed many plates at the International Food Festival Sunday.

"This is a good change of pace," said Brian Holmes in between bites of his gyro. This senior landscape architecture major from Jourdanton comes to the festival each year and looks forward to eating the cultural foods.

In its 21st year, the festival stayed with the tradition of offering up a variety of cuisines from around the world to hungry festival goers. The food festival capped off International Week in the University Center Ballroom with entertainment including music, dancing and food from many different cultures.

Throughout the festival, two stages showcased demonstrations of Karate, belly dancing, Mexican dancing, Indian dance and Native Amerifor the food.

"I put my defenses down when I come here," Holmes said.

Deciding between the spicy, sweet or tangy tastes of the different cultures, people hunted for their favorite foods.

"You have to be willing to try something different when you come here," said Karen Cowden, a senior cell and molecular biology major from Albuquerque, N.M.

Fifteen booths sponsored by different student organizations offered a variety of foods from countries such as India, Indonesia, Germany and Turkey. The food was prepared by in-

can dance. But, many people came ternational students as well as students from the United States.

"People started showing up to cook about eight this morning," said Angie Dunlap, UC programs activities specialist.

Dunlap estimated that about 1,000 people dined at the festival Sunday. Tokens were purchased in order to buy the food at the booths, and proceeds from the festival will go toward each student organization's operating fund.

"It's a good way to bring different cultures together and to show off what we are all about, " said Dani Rizal, a graduate student from Indo-

Role-playing game popular on campus

By Gretchen Verry

A pack of vampires invaded the University Center Saturday, as Texas Tech's Legion West sponsored a "A Matter of Politics and Other Such Niceties.'

The event, run by Lubbock After Dark, features a monthly, vampire live-action, role-playing game where Tech students and members of the Lubbock community are invited to assume a role in the game.

Head storyteller Monica Coleman establishes a story line every month, and players assume their roles in the tale. Coleman said she runs off the rules published by White Wolf Gaming but writes the story line from

President of Legion West David Scott, a senior English literature major from Coahoma, said the same game has run since July of last year, but students can begin playing at any

"A character can be established

The emphasis here is

really on personal

action."

before game. It's a 15 to 20 minute affair, Scott said.

Coleman said the game is basically like a standard tablegame

where the random element that determines the character fate is a game of rock, paper, scissors, instead of a roll of the dice.

Participants are given various powers and assume the role of vampires living in a society that must remain hidden from the outside world,

"The emphasis here is really on personal action," Scott said. "There is a much bigger emphasis on role playing instead of mechanics."

Scott said he has seen enthusiasm on the part of Tech students for the monthly game.

"Every time she (Coleman) runs a game, we always see a large crowd," Scott said. "Everyone has their characters, and we rarely see anyone killed off."

Scott said even if a character is killed off, the person can simply as-

LETTERS TO THE EDITOR

SGA Week kicks off events

To the editor: Starting today, the Student Government Association will be handing out free hot dogs and soft drinks to students and faculty interested in meeting current student senators. It will be outside at the northwest corner of the University Center. Senators are available to answer questions concerning the student government and their upcoming campaigns

On Tuesday, watch for the Student Senate inside the UC conducting surveys. Questions asked will concern the use of the SGA web site and current SGA involvement and offers a chance to express your opinion. This is an opportunity to familiarize you with the SGA, prior to elec-

Wednesday is election day. All students are encouraged to take the opportunity to vote for new SGA executive officers and student senators. A brief explanation of the offices are as follows:

• The SGA president serves as the liaison between the students and the faculty and also serves as the voice of

 The external vice president is the public relations link between the city of Lubbock and Texas Tech. This includes setting up the Citibus routes and community service events, including the Bring-a-Child-to-the-Game event in the fall.

• The internal vice president is the president of the Student Senate and oversees the chairpersons of each senate committee.

 Senatorial duties include creating legislation, which deals with the concerns and issues students express. Senators also serve on committees such as the budget and finance committee that allocates money to the student organizations.

The SGA exists to serve and represent the students of Texas Tech and encourages all students to take advan-

tage of the activities this week to become more acquainted with their senators and the SGA.

> Becca Wright senator-at-large

Problems with drugs, alcohol, sex easily avoided

To the editor: I am writing this letter in response to the letter in Wednesday's edition by Matt Dozier. While the problems of drugs and sex you addressed are true, they are quite easily avoided. I am not accusing you of any of the following actions, but anyone out there who commits these acts should consider these words. No one forces you to do drugs, drink alcohol or have sex.

I have never used any illegal drugs, and I do not plan to. I have only drank about a 12-pack of beer in my lifetime and one shot of hard liquor. Over the past few years, I have seen drugs destroy my brother's life. He does the "minor" drugs of marijuana, acid and alcohol. One of his former friends slipped him about half a nickel of crack in a lit pipe that was filled the rest of the way with marijuana. My brother had a bad experience and learned not to trust that person. He would not have had to worry about that person or the experience if he was not a drug

My wife and I both chose to not have sex until we got married. We found that this was a good decision as it gave us both something very special and intimate to share with each other for the rest of our lives.

We do not have to worry about any sexually transmitted diseases because we will only have sex with each

In conclusion, here are my findings on life. 1.) Don't

do drugs. Then, you don't have to worry about what may or may not be in the substance. 2.) If you don't have sex with anyone you are not married to, then you do not have to worry about what any of their previous partners may have had. Following these simple rules may make your life much easier. I pray that it does.

> **Charles Smith** junior chemical engineering

Senior getting shorted at graduation ceremonies

To the editor: I must give Texas Tech a pat on the back. You do put on a good show, luring innocent freshmen in on University Day, promising an understanding of students' needs. You are setting a great example in your treatment of the class of '99. I have observed is money-hungry, unorganized actions by the administration. With your lack of consideration toward us and your focus on the superficial appearance of this university, do you think this class is going to give you any more of our money once we become alumni? Everyone is saying for the seniors to speak up. I am attending a meeting with Provost James Brink, but I also am making this a statewide issue. I know my previous employers at KTVT-TV in Dallas and KRLD radio in Arlington are anxious to see how you handle this situation. I only hope you handle this wisely, the way any Tier I university would. Then again, actions like this are why we are a Tier III.

> Shana Minter senior broadcast journalism

Election apathy can be changed

t's that special week that rolls around every year -SGA elections. Fresh-faced candidates will be dress-Ling up and saying anything to get your vote.

But will the polished speeches convince you to wade through the crowd of people stuffing fliers in your face and go to the nearest polling place a fill out that Scantron

on Wednesday? Sadly, probably not.

At Texas Tech, the percentage of students who vote usually lands in the mid-teens. No one seems to think pulling out that No. 2 pencil is important.

Why vote anyway, right? They're all just Greeks. The SGA doesn't have any influence. It's just a resume builder for them.

Wrong. Taking the five minutes to vote is more important than you

SGA officers and senators represent the students of Texas Tech everywhere. They lobby for Tech in the state legislature and attend conferences around the country. As for local appearances, they speak to administra-

tors about any concerns they overhear from students. What's upset you lately? Financial aid mishaps? Parking crisis? Graduation tickets?

SGA officers are the people the administration turns to when it wants

Domestic violence

the board . . ."

is happening across

Dream Drive to provide shelter

By Jennifer Daughtrey Contributing Writer

he smell of fresh paint and shiny tile just isn't enough to open the doors of new apartment units built to aid victims of domestic violence in Lubbock.

The walls are standing, but the rooms are empty.

Women's Protective Services of Lubbock is having a Dream Drive for the community to help in providing items to furnish their new shelter.

The shelter is a part of the many offered by the community-based program whose mission is to reduce and prevent incidents of family violence in Lubbock and its surrounding counties.

Domestic violence is the most common crime affecting today's society, and most incidents are never reported, said Jennifer Halcomb, community education coordinator at

"Domestic violence is happening across the board, no matter what age, race or economic level," Halcomb

The shelter is not only for women and children.

Space also is made available for

The staff already has made the move to the new facility, but residents won't start packing boxes until the homes are complete.

"We are going to hold the Dream Drive until we collect everything we need," Halcomb said.

"We still have a long way to go." This is the first new facility that has been built specifically for WPS since its inception 21 years ago.

Besides providing a shelter and transitional housing for victims of domestic abuse, the non-profit agency also offers a 24-hour crisis hotline, individual and group counseling, legal advocacy and parenting

The new shelter includes 24

quadraplexes for residents to prepare them to return to the real world on

"I hope people will feel pampered and equipped in the new buildings," Halcomb said

"I think it will help revive spirits and build self-confidence."

Victims tended to avoid staying in the old shelter because of cramped living spaces and deteriorating facilities,

Halcomb said. The new shelter offers individual cottages, which will be able to serve a greater capacity of

WPS also is working on a child therapeutic center to offer support to children who have grown up in violent homes.

Lubbock's new shelter and children's program is gaining national attention for its innovation, Halcomb said.

Jennifer Halcomb

Donations to the Dream Drive will fund simple household items from dish sponges to night-lights.

> Halcomb said the next few weeks are crucial and any donation, no matter how small, will benefit the shelter.

Texas Tech's organizations are encouraged to adopt the drive as a Women's Protective Services community service project. There is a

drop-off location for the drive in the University Center Activities Of-

Donations can be delivered to the WPS office at 3223 S. Loop 289, suite 320 in Pyramid Plaza.

Actor's portrayal of president realistic

By Sebastian Kitchen

heodore Roosevelt inspired the teddy bear and was responsible for the Panama Canal.

As one of this country's most popular presidents, Roosevelt inspired generations of Americans. John Davidson went to great lengths to research Roosevelt to play the character in "Bully."

The actor did whatever it took to look and sound like Roosevelt.

The one-man play made a three-day stop in Lubbock over the

weekend. The accurate portrayal featured about two hours of Davidson by himself on stage, but many times he did not seem alone.

His interaction with characters

REVIEW

that were not there seemed quite

His performance was great with periods of humor and other scenes that were sad

At times, especially in the beginning of the show, Davidson was hard to understand.

Other than that, Davidson commanded the crowd's attention. He spoke with a high voice,

which Roosevelt was documented

Davidson shaved his hairline further back because the former president had a large forehead.

"Bully's" two acts separated the man's life into two periods — his life before 1912 and his life after.

Much of "Bully" was Roosevelt's flashbacks to when he was younger tics, to his father.

Roosevelt is trying to decide whether to run for election of another term as president.

Not wanting to be an elder statesman or to just sit around growing old, he decides to fight for the nomination.

portrayal of Davidson's Roosevelt brings ups and downs.

After the story takes the crowd through many good times and triumphs, the ending comes to a sad, screeching halt.

After his performance, Davidson talked to the audience in the foyer and apologized for the sad ending.

great times in his life but he also

Davidson said Roosevelt was the most popular man in America during his time.

Davidson brought Roosevelt to life for two hours and brought out his true qualities.

great inner strength. People seemed to love the integrity and power Roosevelt possessed, which

The actor did whatever it took to look and sound like Roosevelt.

He said Roosevelt had many had melancholy times.

He was honest and possessed

is now something Americans miss to look up to in a political hero.

'Eight Millimeter,' 'Payback' top box office with violence

LOS ANGELES (AP) — Violence beat romance at the box office over the weekend, with the grim pornography drama "Eight Millimeter" and the action-packed "Payback" topping "Message in a Bottle" and "The Other Sister," according to Sunday estimates.

"Eight Millimeter," with Nicolas Cage as a private eye investigating a possible murder captured on film, debuted at No. 1 with \$14.3

The Other Sister," with Juliette Lewis and Giovanni Ribisi in a love story about two mentally challenged people, opened in third place, with \$6.7 million.

The Mel Gibson shoot-'em-up "Payback" had \$6.9 million for sec-

The Kevin Costner romance "Message in a Bottle" was fourth with \$6.4 million and "My Favorite Martian" was fifth with \$5.2

"200 Cigarettes," the story of young people heading to an early 1980s New Year's Eve party in New York, opened weakly, landing at 10th with \$3.2 million.

"Just the Ticket," a romantic comedy starring Andy Garcia and Andie MacDowell debuted with just \$266,500 on 82 screens.

"October Sky," fell from fourth place to sixth with \$5 million, followed by the best-picture Oscar nominee "Shakespeare in Love" in seventh with \$4.4 million.

Rounding out the top 10 were "Blast from the Past" in eighth with \$3.7 million and the high-school comedy "She's All That" in ninth with \$3.6 million.

Another teen-oriented film, "Jawbreaker," tumbled more than 50 percent in its second week, collecting just \$750,000 for a low \$936 per-screen average.

The United States Marine Corps Officer Programs has guaranteed ground, law and flight contracts available. Lunch Program is open to all qualified **Specials** men and women (freshmengraduate).

These are not ROTC programs. All training is conducted during the summer, and there are no classes or uniforms required while at school.

There is no obligation. If, after the summer training you should decide that the Marine Corps is not for you, you may cancel your enrollment at any time.

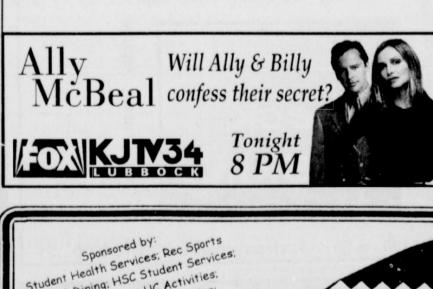

College credit and financial aid available.

Starting salaries range from \$28-\$30k.

Captain Springer will be on campus If you think you're up to the challenge, call (505)248-5284 for appointment, or stop by and ee him in the Student Union.

Program seeks to add arts to schoolwork

DALLAS (AP)-Where there is dance, there can be science. In drawing, geometry. In music, his-

Just about any fine art can be - and should be - incorporated into a school curriculum, according to the philosophy behind ArtsPartners, a citywide program launched Thursday.

ArtsPartners brings together arts and business groups, the city of Dallas and the Dallas school district to find ways teachers can bring the fine arts to their students on a regular basis, organizers said.

"The arts are not for the gifted few," said Derek Gordon, vice president for education at the John F. Kennedy Center for the Performing Arts in Washington, D.C.

Gordon was one of the speakers at a daylong seminar at the Santuario de Guadalupe to promote the fine arts and ArtsPartners.

The seminar, which attracted nearly 250 people, most of them educators, included demonstrations of how to integrate the arts into other disciplines.

Take the Skeleton Rap, as performed by dancer Lori Darley. She taught a group of teachers how to learn bones by moving to a rap beat - a skill they can take to their classrooms.

"Cranium crunch, yes and no! Clavicle conga, on the go!"

In another exercise, some participants stood to form the outline of a human heart and lungs, while others danced around as air molecules to demonstrate how oxygen, carbon dioxide and blood flow works.

"Children love this. ... It makes the science content not intimidating" while teaching them the fundamentals of dance, said Darley, who often visits classrooms.

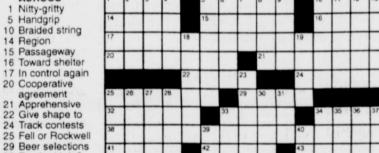

ArtsPartners wants this type of education available to every child, said Ginger Sager, president of the youth outreach group Young Audiences of Greater Dallas, an organizer of ArtsPartners and the seminar.

ArtsPartners hopes to work with the education arms of arts organizations to help train teachers, get more artistic performers to schools, get students out to more performances and find grants and other funding, Sager said. Studies show that students who learn about fine arts as youngsters do better academically and score higher on standardized tests, Gordon said. But more important, they develop creativity and imagination and help youngsters learn how to communicate with one another -- skills they'll need in the 21st century, Gordon said.

"The arts are a bridge to cultural understanding," he said.

Pat Porter, executive director of the Dallas Business Committee for the Arts, said corporations realize that they need workers who are imaginative, creative thinkers, and many are beginning to give money for arts education.

music, dance, poetry and prose by Texas Tech students in honor of Women's History Month in March.

Mary Campbell, project leader and a senior from Denver hopes people leave the presentation with

women who have done extraordinary things to change the definition of women's roles in society.

"I also hope that the audience will have fun and that they are aware that this is not just a lecture," Campbell said.

"This is a unique, interdisciplinary program, one that has never been attempted at Tech, but one that is very much needed."

The presentation will include about 12 to 15 amateur-student performers. Their direction will be headed in part by Tiffany Howard, Jim Bush, Linda Donahue and Rick Tuman of the Tech Theater Department. Howard will be directing the project.

Bush said that it is a "wonderful" idea to be putting on a presentation "that has energy that reflects

production of the program may contact Mary Campbell at 866-4937 or Erica Martinez.

Other Women's History Month events will be later in the month. On March 24, UCP will sponsor a discussion on titled "Women's Changing Roles in Society" at noon in the UC Senate Room. Participants may bring a lunch and be a part of this important and exciting discussion.

Students, staff and faculty may learn a little more about women in history by browsing the women's history display March 25-26 in the UC Courtyard. The exhibit will feature various significant women in history and include fun facts about each.

All Women's History Month events are free and open to all.

For more information about any Women's History Month program, contact UC Programs at 742-

Event relieves stress

On Wednesday, Texas Tech students, faculty and staff will have the opportunity to walk the path of the Labyrinth. The Labyrinth will be in the UC Ballroom from 10 a.m. to 2 p.m. and everyone is welcome to stop by for this calming and insightful experience. Walking the Labyrinth can be used as a great stress reliever for anyone who is worried about midterm exams.

Labyrinths have long been used as a form of meditation. The Labyrinth is an ancient symbol that relates to wholeness. It combines the imagery of the circle and the spiral into a meandering but purpose-

A Labyrinth is an archetype with which we can have a direct experience. It is a metaphor for life's journey to the center of your deepest self and back out into the world with a broadened understanding of who we are. It is a symbol that creates a sacred space and place that takes us out of our ego to "that which is within."

A Labyrinth is not a maze because it only has one

path. The path leads you on a circuitous path to the center and out again. There is no right way to walk a labyrinth. You only have to enter and follow the path. However, your walk can encompass a variety of attitudes such as joy, sadness, thoughtfulness or by just using it as a walking meditation.

There also will be a workshop from 12:15-12:45 p.m. in the Llano Estacado Room (Green Room) on the first floor of the UC. This will give people the opportunity to learn about the history and various meanings of the Labyrinth.

For more information on this event contact 742-3621.

Watts prophets hit Hub City

Saturday brings to Tech a special poetry program Saturday's service participants must sign up in mixed with Jazz accompaniment allowing the auadvance as there is limited space available. To sign dience to form a better understanding of the African-American experience.

The Watts Prophets, sometimes referred to as the forefathers of rap music, are a vital link to an historically significant era in our history. Representing a community, which at times commands the attention of all Americans, the Watts Prophets bring to the stage the same drive that created their birth, but with the added perspective of time that brings a depth of wisdom.

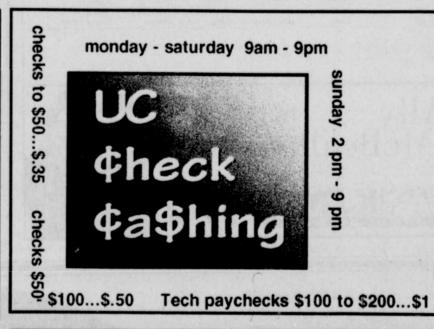

Emerging from Watts, Calif., their earliest work was an expression of their rage against powerlessness. Racism, poverty and violence were their everyday reality, and thus provided the thematic foundation for what became an extremely unique style.

The Watts Prophets will be performing at 8 p.m. on Saturday in the UC Allen Theatre. For tickets and more information call 742-3610.

Red Raiders sweep Jayhawks

Tech utilizes power, timely pitching

By Jason Bernstein Sports Editor

Behind two complete, gamepitching performances and another double-digit run scoring afternoon, the Texas Tech baseball team swept Kansas at Dan Law Field in its conference season-opening series.

In Sunday's series finale, Tech got the scoring started in the first inning behind a two-run home run from Jon Weber. The longball was his sixth of the season. The Red Raiders added three runs in the second inning and four more in the fourth to take a 9-1 lead.

Tech coach Larry Hays said the series sweep is a confidence-builder as the Red Raiders head into the bulk of its conference season.

"It helps to win those first three games," Hays said. "It also helps from the standpoint of just winning at home. We've got to try to take care of ourselves at home, and that takes a little bit of the pressure off on the road.'

Tech (13-4 overall, 3-0 Big 12) starting pitcher Brad Ralston (3-0) tossed five innings of five-hit baseball while allowing three earned runs. He struck out two batters in each of the first three innings on his way to a seven strikeout performance.

The Red Raiders pushed four more runs across the plate in the eighth inning behind RBI doubles from Bard and pitch hitter Chaz Eiguren. Jason Huth also recorded an RBI in his only at bat.

Left fielder Ryan Ruiz, who went 2-for-2 Sunday with an RBI and three

runs scored, said Tech is happy with build confidence," he said. "We hope the sweep but still has some things it can do to improve itself next time

"We have some things we need to work on," Ruiz said. "Our defense

WP-Call 2. PB-Wedd T - 2:38, A-4,307

With the improvements, however, Ruiz said Tech has plenty of confidence and momentum with the three-game sweep now behind them.

"Any time you sweep a team, you

to come out here Tuesday and take it to New Mexico. We just want to keep on building on what we're accomplishing.'

Center fielder Marco Cunningham scored three times Sunday for Tech while also adding three hits and an RBI. He went 6-for-15 in the series, with seven runs scored and said he is pleased to see where the Red Raiders stand as a team through their first 17 games.

"I like where we're at," he said. "It's something to grow on. It's important for us to get these wins, but I don't think everybody is pleased as a team. We're somewhat pleased, but we can play better. We can play much more solid and Kansas, they played hard, but they're not a big team that we have to worry about winning the conference. If we just keep playing hard, I think everything will go well

In Friday's series opener, pitcher Shane Wright (4-0) started the Red Raider baseball weekend with a dominating performance.

He tossed his second consecutive complete game while striking out a career-high 12 batters en route to the 8-1 Red Raider victory. He yielded five hits and one earned run while walking only one Kansas batter.

Offensively, catcher Josh Bard used a 3-for-5 performance with three RBIs to spark the Tech bats. He connected on his first home run of the season to extend the Red Raider lead. Tech would never relinquish the lead as Bard, along with Brennan Burns and Jon Weber all had multiRBI games for Tech.

"All-in-all, we did pretty well this weekend," Hays said. "We pitched well most of the time. Offensively, we never had a really big inning, which concerns you a little bit. But, we were kind of consistent. Defensively, we did a good job most of the time.'

In Saturday's contest, Kevin Tracey hurled a complete game shutout for Tech as the Red Raiders used another offensive onslaught from Bard and company to help them to an 11-0 win.

Bard and shortstop Lance Woodcock each drove in three runs in the game to stake the Red Raiders to a big lead for Tracey (3-1).

The Tech pitcher became the first Red Raider to toss a shutout this season as he only gave up four hits while striking out six.

"We're a little inconsistent as a whole, but we had some good pitching performances this weekend," Hays said. "If we can pitch this well all the time, we've got a chance."

Lady Raiders repeat as champs

Senior

Senior

finale.

Champs from page 1

the second half paid off well for Tech. Braziel scored nine points in the first five minutes of the second stanza, and the Lady Raiders took a 48-31 lead with 14:47 left in the game.

"The best part of the game is the first five and last five minutes of each half, and I think we did a really good job of coming out, playing hard and just staying focus and doing what we do best," Braziel said.

Texas once again had an answer, but guard Edwina Brown was not leading the charge.

Tech was able to contain Brown, who burned the Lady Raiders for 23 points in a 74-70 loss in early February. With strong man-defense from point guard Melinda Schmucker, Brown scored only six points and was responsible for nine of the 16 Longhorn turnovers.

"Schmucker's defense was something that was really important, and it's not going to show up on any stat sheet for her," Sharp said.

Tech's Sharp, Braziel garner more honors

The Texas Tech Lady Raiders now have a few more honors to go with their second-straight Big 12 title.

Tech post Angie Braziel was named Big 12 Player of the Year, and Marsha Sharp was named coach of the year in a vote of conference coaches announced Sunday.

Senior guard Rene Hanebutt was named to the conference second team while forward Keitha Dickerson recieved an honorable mention for her play

Braziel leads the Big 12 with 21 points and two blocks per game this season while starting

every game for the Lady Raiders this season (25-3 overall, 14-2 Big 12).

Sharp picked up her secondstraight coach of the year honor in the Big 12.

She has a 401-128 all-time record and has led the Lady Raiders to seven conference championships in her 16-plus vears at Tech

The Lady Raiders will continue their march to the NCAA Tournament this week at the Big 12 Tournament in Kansas City,

Tech is the No. 1 seed and will start tournament play Wednesday after a first-round bye.

Coliseum a place for many Red Raider memories

Red Raiders from page 1

and he is proud to say that he played in the Coliseum.

"When you look back at all of the great players that have played in the Coliseum, I just think that it's neat to have something in common with those guys," Owens said. "It's been the home to Tech basketball for 40-plus vears, and I think that it's a big part of Texas Tech. I think that there is a select few guys in the world that can say that they played in the Coliseum, so I think that it is a pretty big deal."

Lance Hughes played basketball for Tech from 1992-95 and is fourth on the all-time scoring list at Tech with 1,762 points.

Tech went 37-13 in the Coliseum in Hughes' career, and he said the Coliseum was a tough place for opponents to visit in his career.

"It was a great home court advantage the years I played," Hughes said. "My freshman year, we weren't expected to do a whole lot. After, I guess, my sophomore year is when we got Jason Sasser, and Lenny Holly came in. And after that, we started bringing in some really good players. The fans packed it in here and got as many as they could, and it was loud. It was a big home court advantage. It's sort of sad to see it go."

Dub Malaise played for Tech from 1964-66 and was a threetime All-Southwest Conference selection and was SWC Player of the Year his junior year.

Malaise said he was sad to see Tech's basketball era at the Coliseum come to an end.

"It's a little bit sad," Malaise said. "This facility has been so good to so many people. There has been so many great games played here, and a lot of great players have played here. When I played back in the early 60's, it was probably the premier place in the southwest. It's a little bit behind the times now, and it's time to move on. But, it's still kind of sad. It's still a great facility."

Bubba Jennings' career at Tech spanned from 1981-85, and he is fifth on the all-time Tech scoring list with 1,727 points.

Jennings said the fans in the Coliseum made playing there a special experience.

"I think it was really exciting to play here in the Coliseum," Jennings said. "The fans always really got into the game. When we came out onto the court, the fans were just already into the game before it even started. That's what was really exciting about it."

Director of Athletics Gerald Myers played in Tech's first game in the Coliseum and coached the Red Raiders for 20 years from

Myers said that the Coliseum has helped to build the tradition of basketball at Tech.

"It's been a great place to play," Myers said. "It's been a great home court advantage. Texas Tech's got a great basketball tradition, and the Coliseum has been a big part of that."

With the last game in the Coliseum behind it, Tech basketball will start a new era next season as it begins play in the United Spirit Arena.

"How long do I have to lie here and hold her before I can get up and go home...

...Is thirty seconds enough?"

Just because they say it's safe doesn't mean sex can't be dangerous emotionally. While you're saying "I love you," your partner may be thinking "I love it." (headline quoted from the movie "When Harry Met Sally")

Real love. Don't settle for anything less.

Tech falls victim to Oklahoma State

STILLWATER, Okla. (Special)— The Texas Tech men's basketball team (13-16 overall, 5-11 Big 12) ended its regular season Saturday with a 93-67 loss to Oklahoma State.

The Cowboys (19-9 overall, 10-6 Big 12) swept the regular season series with Tech for the second year in

Oklahoma State streaked out to a 28-15 lead in the first 11:00 of the ball game and took a 30-15 lead on a slam-dunk by Glendon Alexander

with 9:00 left in the first half. Oklahoma State kept the Red Raiders at a distance throughout the first half and took a 46-29 lead by

Oklahoma State shot 70 percent

from three-point range in the first half going 7-of-10 from three-point land. The Cowboys had a 60 percent

shooting percentage from the floor in the first half, while Tech managed to shoot 40 percent from the floor in the

Oklahoma State outrebounded Tech by 15 on the day.

The second half was more of the same for Tech as the Cowboys extended their lead to 20 points at 73-53 at the 7:34 mark in the game.

Tech could not manage to cut the Oklahoma State lead to single digits in the second half as it dropped its second game in a row heading into the Big 12 Conference Tournament.
