All of the directors are urged to attend this meeting and assist in making these plans.

At an organization meeting held last Wednesday, Bob Norrell spoke to that audience on the history of Callahan County fairs. His remarks were woven around news of the first fair held here sixty years ago. He read the account of the fair and commented on other bits of news from an old copy of the Baird Star during fair week. His talk was interesting and inspiring and those present caught the fever of trying to make this year's fair one of the best ever held, providing contests and amusements to insure everyone in the county a good time and a profitable fair.

Rupert Jackson For Co. Judge

J. Rupert Jackson, Jr., authorizes The Baird Star to make public his announcement as a candidate for the office of County Judge. Jackson was born and reared here and is well acquainted with all the people of the county. He completed his education at the University of Texas law school, and during the short time he has been practicing law here he has shown rare ability as an attorney. His ambition is to render a service to the people of his home county, and he believes the best way in which to do this, is to become county judge so all Callahan county citizens can have the benefit of his legal training. His official statement follows:

To The People Of Callahan County:

In making this, my announcement for the office of County Judge, I realize that the Judge-ship, like all public offices, is one of responsibility and importance, and that it merits close examination by the voters of the qualifications of those aspiring to it. Realizing that fact, the following information about myself is submitted. I was born and raised in Baird, graduated from Baird High School, then attended The University of Texas, graduating with an A. B. degree. I taught school for one year and was then employed by General Motors Acceptance Corporation until entering military service in 1942. I served in the Armed Services for some 42 months, all but four months overseas, and received awards for participation in seven combat campaigns. Since returning from military service, I have earned my law degree from The University of Texas, and for the last year have been in the active practice of law in Baird.

It is with a belief that with my previous business experience, legal training and experience, that I can serve you as your County Judge in a manner that will benefit the county and its citizenship. I believe in the Democratic form of government, and further believe that to maintain democracy, the government must be made more efficient and more responsive to the needs and desires of the people. With that in mind, it will be my ambition to capably and efficiently carry out the duties and functions of a county judge, if I am elected.

I expect to see every voter in the county before the primary election. In the meantime, I earnestly solicit your consideration of my qualifications for the office of County Judge, your vote and your influence.

Rev. E. L. Yeats Is Methodist Pastor

Rev. E. L. Yeats

Rev. E. L. Yeats came to Baird from Seymour last weekend to become pastor of the First Methodist Church. He was with the First Methodist Church at Seymour for nearly four years. Rev. Yeats takes the place of Rev. David Binkley, who was assigned to the Methodist Church at Anson.

Rev. Yeats was reared at Winters. He attended Polytechnic College at Fort Worth. In his early ministry he was pastor of Clyde Circuit which includes Denton, Dudley, Oplin and Belle Plain. In 1932, while Dr. Griswold was the Methodist pastor here, Rev. Yeats held a revival meeting here, and acquaintances made here through the years show that he is no stranger among Baird people.

Among the churches he has served of recent date include Crowell, 3 years; Spur, 3 years; Memphis, 5 years; and Seymour 4 years. During the past year he received 70 members into the Seymour church, bringing the membership to 894, with an average Sunday School attendance of 214. This is the second largest Methodist Sunday School in the Stamford district.

Rev. and Mrs. Yeats have a daughter, Miss Helen Yeats, who is head of the foreign languages department at Midwestern University. She plans to remain in Wichita Falls for the summer, and will spend most of the time looking after the building of a new home near the university.

FORT GRIFFIN FANDANGLE PARADE TO BE BEST YET

The Fort Griffin Fandangle Parade is promised to be the best ever presented, according to J. H. Nail, Jr., Bill Henry Green, John H. Sedwick and Gaines Stover, Albany ranchers who were named as the committee by the Fort Griffin Fandangle Ass'n., Inc.

Robert Nail, director and producer of the show has developed models and plans for floats depicting scenes of Frontier Fort Griffin, with Nancy Moore, Frank Booker and John Walter Wood of the Fandangle staff, working out the details of the parade that will appear on Albany's Main Street at 5 p. m. on Friday June 23rd, preceding the second evening of the Fandangle.

Large floats carrying the historic scenes will be the only motor vehicles allowed, as the event is typed from Fort Griffin days of the latter 60's, when only horse, buggies and wagons were seen in that important pioneer settlement, being then the one important center between Fort Griffin and Santa Fe, New Mexico on the West and between San Antonio and Dodge City, Kansas on the North.

The Fandangle memorializes the history of old Fort Griffin, as a frontier settlement, an Army outpost and hodge podge of the frontier. Horace Greeley and the late Dr. Debert T. Hill surveyed the West Union Telegraph line into Fort Griffin and New York and Pittsburgh firms were there in the name of E. Frankel and F. B. York & Co.

Frontier Women is the theme of the 1950 Fandangle, the 8th presentation of the Robert Nail show, which is a community affair, non-profit.

BABSON DISCUSSES JOBS FOR JUNE GRADUATES

One and three-quarters million boys and girls will graduate from our schools and colleges this May and June. Their job outlook is bleak. Nearly half their number will graduate into unemployment!

There is already a pool of unemployment estimated roughly at 5,000,000. In addition, 500,000 college graduates will come onto the job market late this spring. Another 1,200,000 high school graduates will receive their diplomas by late June. Of these high school graduates, 240,000 will go on to college. About 200,000 of the girls will marry. The balance—760,000—will seek employment. School officials say that another 600,000 drop out of school and college each year for one reason or another. They, too, become job hunters.

There are six reasons for the gloomy outlook: (1) The wartime and post-war shortages have now been mostly filled. (2) Industries have been making careful efficiency studies to cut mounting labor costs. (3) Since most industries are no longer expanding, much hiring is on only a replacement basis. (4) Individuals are graduating from schools and colleges faster than jobs are becoming available. (5) Present workers are living longer and retaining their efficiency longer. (6) The low wages of skilled foreign labor are becoming a factor through increasing imports. Even in the best post-war years, fewer than a million new jobs a year have developed. Hence, many 1950 graduates—probably about 50% of them—will graduate into unemployment.

There is already an oversupply of accountants, clerks, chemists, engineers, journalists, lawyers, business administration majors, and personnel workers.

On the other hand, there are still good opportunities in merchandising, marketing, business research, architecture, insurance, banking, medicine, nursing, pharmacy, social work and school teaching. This latter field and salesmanship offer the best opportunities.

Big businesses, in their mad scramble to get college graduates when the supply was small, bid against one another for college talent. Jobs at fancy salaries

were then easy to get. But the college graduate was not always prepared to move as fast as some companies moved men. Others were forgotten and not moved as rapidly as promised. Impatience set in and the graduates became job-hoppers. Many businessmen began to feel that "young graduates are in too much of a hurry to become vice-presidents!" Consequently, many employers now prefer to hire unemployed experienced workers because they have had some economic sense knocked into their heads the hard way.

The implications for the 1950 job hunters are obvious: (1) He must first of all know himself, his abilities, his vocational interests, his character, and his personality traits. (2) He must have some general idea of how he can utilize his interests and abilities to the maximum and thereby develop into an efficient, highly productive worker for his employer. This means approaching his prospective employer with an attitude of "What can I do for you?", instead of "What can you do for me?" (3) He should expend the energy necessary before a job interview to learn something about a company, its products, and where he might best fit into the scheme of things.

Job seekers of 1950 who are too lazy to do these three things may find themselves graduating into unemployment. As one who employs many hundreds myself, I can tell you that on the other hand, there will always be good opportunities for trained men of character, energy and fighting qualities. I always employ all the "red-heads" I can find when they do not think too much of salary.

POPULAR CARS IN HEAVY DEMAND

Heavy demand for popular motorcars is likely to continue through this year and into 1951, in the opinion of Harry J. Klingler, general manager of Pontiac Motor Division.

Speaking before a Pontiac civic group, Mr. Klingler said he believed record-breaking new car sales were due to the following factors:

1. The continued existence of a substantial volume of unsatisfied demand resulting from war shortages.
2. Large replacements of the earliest post-war cars.
3. Nearly a third of the 34 million cars now in operation are ten years old or older and have "the aches and pains of old age."
4. Our population has grown 20% since 1936 and the number of people able to buy new cars has increased 35 percent compared with pre-war.
5. A great population shift from urban areas to the suburbs, expanding the need for cars and raising the percentage of two car families.

The market beyond mid 1951 will depend upon the "economic climate" this country is experiencing at that time, Mr. Klingler believes.

"Need of a car is one thing. Ability to purchase a new car is something else again," he said. "Right now need and ability are well balanced. If you could tell me what the economic climate will be next year I would be able to forecast with some degree of accuracy the condition of the automobile market."

HEALTH FACTS

It is a 50-50 bet that you have some sort of ringworm infection. Check to see. Chances are it will be in your scalp, hair, on your groin, or on your feet—either on the soles or between the toes. If you don't find it, you're lucky, because while it isn't serious, its itching and persistence is very annoying.

A fungus—the same one that causes food to mold—causes ringworm. It's one of the world's most common ailments, with authorities estimating that half of the world's population is affected. It is more common this time of year than any other.

Animals get it too. As a matter of fact, cats, dogs, rabbits, mice, and fowls are frequently the source of infection in man. A child plays with an infected dog, the dog's hair brushes the child, and the child stands an excellent chance of ringworm infection.

The scales which are formed can cause new infections on the body, so an infected person has to be careful to keep it from spreading. Advanced cases exude a clear, runny fluid—it "weeps", as doctors say, and the fluid can cause breaking out on whatever part of the body it touches. Children are especially vulnerable to scalp ringworm. Epidemics are usually started in schools or institutions.

Swimming pools, locker rooms, and gyms are potent sources of infection. Everyone has heard of "athlete's foot." It is nothing more than a type of ringworm. So is the so-called "barber's itch."

Preventive measures call for avoiding persons and animals known to be infected. Swimming pools, gyms, locker rooms, and the like can do their part toward ringworm control by boiling towels, swimming suits and their other public fixtures for 30 minutes. Foot baths are also worthwhile.

The best thing to do is to keep clean at all times. But if you

happen to get ringworm, or if you have it now, it will be better for all concerned if you report to your doctor immediately. He'll recommend medication designed to shorten the course and lessen the severity of the infection.

County Wide Cotton Meeting

Seventy-five cotton farmers attended the cotton production and insect control meeting at the Court House in Baird on June 1. The meeting was presided over by the County Agent, D. C. Cox. Conservationist with the Baird SCS, talked on how soil conservation and cotton production were related. Mr. Earl Robinson of the Cotton Classing office in Abilene explained the Smith-Doxey Free Cotton Classing and Market news service which is available to all Cotton producers.

B. B. McPherson, PMA Administrator for Callahan County, sent word to the farmers that as of now, no extra acreage allotment had been made available for those farmers who had grain crops hauled out recently.

Reese Miller was interviewed by the County Agent and told the farmers present of his good results that he got by dusting his cotton last year.

Highlight of the insect part of the program was a movie on Insects and spraying and spraying equipment. This movie was furnished by the Dallas Hill Implement Company of Abilene. Mr. Hill also had a two row yellow Devil Cotton Spraying rig in front of the courthouse for everybody to examine.

Buddy Brumbaugh arrived Monday of last week from Wichita, Kan. to visit relatives and friends here.

Our good friend, G. A. Gwin visited The Star editor Tuesday afternoon when he was in town from his home at Oplin.

MACK SENNETT FILMS KEEP ROLLING ALONG

Mack Sennett is one producer who couldn't retire even if he wanted to.

"The momentum of my 700 comedies is still rolling at a surprising pace," he said. "I've recently finished assembling much of my funniest footage into a full-length feature titled "Down Memory Lane" at the Eagle Lion studios. Eagle Lion feels—and I share that feeling—that the public will be interested in the early comedies of Bing Crosby, W. C. Fields, Gloria Swanson and many of the others." "Down Memory Lane" is to be at the Plaza Theatre on Tuesday.

Frequently some studio wants to buy one of my stories for re-making," Sennett continued. "In one week I had offers from Universal and MGM for "Molly-O" which originally starred Mabel Normand. Universal wanted it for Ann Blyth and Metro for June Allyson.

"Paramount is also making the story of my life into a film. I don't know who my "Larry Parks" will be yet but the studio is constantly asking for background material and wanting to re-view my films.

"Down Memory Lane" is a pet project which I've been thinking about for years. I included two of the comedies Bing Crosby made for me in his earliest days in Hollywood, W. C. Fields' "The

Dentist" which I rate the funniest sketch Fields ever made and "The Singing Boxer" starring Donald Novis who was the Sinatra of the Twenties. And, of course, the Keystone Cops and the Bathing Beauties are on hand.

"Among my other favorites who will be seen in "Down Memory Lane," are Charlie Murray, James Finlayson, Mack Swain, Ben Turpin, and the Turk. Wally Verbeke, Dorothy Granger, Babe Kanarek and the incomparable Mabel Normand.

"I hope audiences will have half as much fun watching "Down Memory Lane" as I had making it."

Mr. and Mrs. W. A. Fetterly visited in Crane and Midland over the weekend with their children, Mr. and Mrs. J. M. Anderson and son, Jimmy and Mr. and Mrs. W. A. Fetterly, Jr. Mr. Anderson is doing just fine but is still in a cast and will be for several more weeks. He received a back injury while working. The Fetterly's reported heavy rains and also hail in Midland.

Mr. and Mrs. Woodfin Ray of San Antonio visited Mrs. W. J. Ray and other relatives here the past weekend. Their daughters, Betty Sue and Donna Lou, who visited their grandmother, Mrs. W. J. Ray last week, returned home with them.

The installing officers were: Mrs. Olive White, installing officer; Elizabeth Fetterly, installing Secretary; Fay Alexander, installing chaplain; Vada Bennett, installing marshal and Nellie Mills, installing organist.

These officers were installed for the new year: Opal Pool - Worthy Matron; Clifton Hord - Worthy Patron; Doris Easterling - A. Matron; J. B. Easterling - A. D. Boydston - Sentinel.

IS BAIRD A BETTER TOWN

In last week's Baird Star appeared two pictures showing Baird's main street as it was 45 years ago and as it is seen today. In the heading the question was asked: Is Baird a Better Town Today Than It Was 45 Years Ago? Many comments have been made since the article with the pictures was published. Most people agree that Baird is a more pleasant place in which to live and modern living has brought new revenues into the business channels of the town, such as electrical appliances, automobiles, modern methods of merchandising food, clothing and other commodities.

The census figures gave Baird just 15 more people than were counted ten years ago. In the face of this figure, the city of Baird has 588 water meters now and in 1940 there were only 471. There are 309 sewer connections in the city, and the Municipal Light Plant has 425 electric customers.

If Baird is a better town today than ever before, it is so because the people have made it this way. A small town populated by thrifty, progressive people, is far better than a big town full of loafers and knockers. By the continuous efforts of civic-minded people Baird will keep on growing in quality and in quantity.

FATHER'S DAY RESCUED DAD FROM OBSCURITY

Sunday, June 18, is Father's Day. For 24 hours, he'll be allowed to enjoy the illusion that he's still the Grand Nabob of the family.

Affectionate Father's Day greeting cards will proclaim domestic fealty. Mom and the kids probably will slip Dad a neon necktie, too, and new slippers for his bunions.

He'll have two blissful weeks to enjoy them — before the first-of-the-month bills arrive.

Anyhow, Dad's prestige today is higher than it was in 1907, when Mother's Day was founded. "Poor father has been left out in the cold," mourned Jane Addams, famous social worker.

Mrs. John Bruce Dodd of Spokane, Washington, proposed Father's Day in 1909. She was one of six brothers and sisters raised by their father, William Smart, a Civil War veteran, after their mother died.

The Spokane Ministers Association sponsored the first city-wide Father's Day in 1910. President Coolidge recommended its nationwide observance in 1924.

Looking over history, Dad might conclude he's lucky to rate even one special day a year.

Back in Ancient Greece, an annual festival honored Zeus, father of the gods. His sacred statues were crowned with new laurel wreaths. But Zeus was also patron of human fathers. So dutiful sons ante-d up the traditional gift for Dad — a cluster of ripe grapes.

Pharaoh Rameses II was Egypt's champion father — 103 sons and 59 daughters. They battled so savagely over the throne that no succeeding Pharaoh dared have a large family.

In Roman days, fathers could punish disobedient wives or children with death. But so many youngsters ran away from home that the Numira, or family gods, had to be invoked.

Julius Caesar wrote that discipline was stricter among the tribes of Gaul. They considered it disgrace for a son in his teens even to appear publicly in his father's presence.

Champion Father of all time was Emperor Mulai Ismail of Morocco, who died in 1727 at the age of 81, leaving 548 sons and 340 daughters. He had 300 wives and 700 concubines. The Bible records that King Solomon had 700 wives and 300 concubines, but doesn't say how many youngsters called him the equivalent of "Hiya, Pop, y'old rag mop!"

Only man to ever have 1,000 wives, apparently, was Rama V, or King Chulalong Korn of Siam. When he died in 1910, he left 134 sons and 236 daughters — so many budding princes and princesses that the confused nation has been rocked by civil war ever since.

In our present day, Dad's authority hits bottom in West Africa. There, when a son wants permission to marry, he asks his mother's eldest brother.

American Dad needn't feel too superior. Last year employees of the weekly magazine National Guardian negotiated for a one-week "paternity leave" to play nursemaid to new mothers returning home from hospitals.

But whether Dad rules his young'uns with a ruler stick, or bribes 'em with ice cream cones, he's the most loveable guy around the family homestead. And the appreciative Father's Day cards he gets this year will tell him so!

George Fred and Gene Walls returned Sunday from a four day vacation trip to Carlisbad, N. M. and the Davis Mountains. They visited the McDonald Observatory.

Dr. and Mrs. C. S. Cockrell and daughter, Joan of Snyder were Baird visitors Thursday of last week. They were enroute to their home from Dallas, where Joan had been attending Miss Hockaday's school.

McCOY - BERNHARDT WED IN HOUSTON

Miss Kay McCoy became the bride of Ray Bernhardt at 7:30 p. m. April 3rd in Houston. Rev. Wm. Wright read the double ring ceremony in a garden setting where a reception followed, attended by the immediate families and close friends of the couple.

The bride is the daughter of Mrs. Will McCoy of Baird. The groom is the son of Mr. and Mrs. Bernhardt of San Antonio.

Mrs. Chas. A. Rachug, sister of the bride, was matron of honor and Chas. A. Rachug was best man. Given in marriage by her brother, Bill McCoy of Ft. Worth, the bride wore an informal gown of pale green organdy with matching accessories. After a wedding trip the couple will reside at 324 1/2 Lakeview Drive, Waco, Texas.

4-H Club Boys Attend District Camp

Three Callahan County 4-H Club boys attended the District 7 4-H Club encampment at Buchanan Dam on June 5, 6, and 7th. Boys who attended were Jack McKee, Eula; Floyd Wood, Baird; and Hulon Crawford of the Oplin club. Some 100 boys attended the camp along with local 4-H club leaders and county agents from 18 West Texas counties.

While at the camp the boys took part in fishing, swimming, 22 rifle firing, baseball and other games. A trip was made through the power plant at the base of Buchanan Dam and the boys also made an inspection trip of the dam. Another trip was made through the Longhorn Caverns, which is located near Buchanan Dam.
The boys also enjoyed a wonderful demonstration on trapping and wildlife, given by Dick Callendar of the A & M College Extension Service. Movies were shown both nights while at the camp.

Active and outstanding 4-H club boys are selected each year to attend this camp.

Club Boys to Attend 4-H Club Round-Up

Seven Callahan County 4-H club boys will attend the state 4-H Club Round-Up at College Station on June 11 through the 14. Three boys, Thurmond Atchley, Hubert Donaway and Tom Ames will represent District 7 in the State Junior livestock judging contest on June 12. They will judge twelve classes of livestock including beef cattle, swine, sheep and horses.

Four boys from Clyde will judge in the State Junior Dairy Cattle Judging contest. These boys are Norman Bales, Jimmy Hicks, Keelon Hays and Robert Hays. They will judge eight classes of dairy cows and heifers.

Each of these teams will be competing against 27 other teams from other extension districts over the state.

O'CONNOR HITS COMEDY HEIGHTS IN "FRANCIS"

Donald O'Connor, after seven years of song-and-dance type movies, tackled a film in which he hasn't one song or dance number and in addition has an animal to steal scenes from him, in Universal-International's "Francis," opening Sunday at the Rio Theatre.

Few if any screen comedians ever have dared such an undertaking, but young O'Connor had no fears, nor had his studio bosses. They felt that Donald is good enough as a comic to stand without such preps as music and rhythm and to hold his own even in situations where a scene stealing animal imperils him.

The animal in the case of "Francis" is a mule, and a clever one, and in addition to playing the title role in the picture the beast has the biggest part ever attempted by an animal in a movie.

Donald, who has been in show business since his cradle days, believes he has learned enough about the ins and outs of acting to steal a few scenes from the mule, despite the fact that animals are notorious as pilferers of scenes. The young star's performance in "Francis" justifies his belief.

"Francis" is Donald's thirteenth picture at Universal-International, where he became a star in the leading role in "Mister Big." This picture was followed by a succession of important films including "This Is the Life," "Top Man," "Chip Off the Old Block," "The Merry Monahans," "Bowery to Broadway" and "Patrick the Great."

The star's career was interrupted when he was inducted into the Air Force in 1944. He served two years.

On the day he entered the service Donald married his 17-year-old sweetheart, Gwen Carter. They have a daughter, Donna, born August 10, 1946. Don wants to keep on acting until he can become a film director.

CALLAHAN WATER FLOODING PLANNED
Woodley Petroleum Company of Houston, has applied to the Railroad Commission for permission to install a waterflooding operation in the Hickman-Flores pool, six miles south of Baird in Callahan County.

Some of the preliminary work has been done, and the flood should be in operation within a few weeks after approval is given by the commission.

Operator plans to use the conventional five-spot injection pattern, with an open flood system.
Approximately 700 acres are due to be included in the flood. Some 90 wells are still on production, with the oil being taken from the Moutray sand in the vicinity of 730 to 750 feet.
The wells were drilled in 1925, 1926 and 1927 by Woodley and

Moutray Oil Company. The Hickman-Flores pool and the Hatchett area two miles to the northeast, have produced in the neighborhood of 3,000,000 barrels of oil.
If the flood in the Hickman-Flores pool is successful Woodley plans to flood the Hatchett area.

"YOUNG MAN WITH HORN" SOON ON LOCAL SCREEN

With the rapidly-rising Kirk Douglas in the title role, Warner Bros.' long-awaited film version of the recent best-seller novel, "Young Man With a Horn," comes into the Plaza Theatre on Sunday and Monday.

The picture tells the story of a jazz trumpeter who rises to the peak of his profession only to topple when riches and a beautiful girl nearly prove his undoing.

Lauren Bacall plays the sultry woman in his life while Doris Day, as a band vocalist, is the other woman. Hoagy Carmichael, famed most perhaps as tunesmith for the now-classic "Stardust," plays a featured role as does Juano Hernandez, Puerto Rican star from Broadway, who recently scored an impressive acting triumph as the negro in "Intruder in the Dust."

Jazz and movie fans alike are in for both a musical and dramatic experience, for the film contains a number of hit tunes sung by Doris Day and interpreted by famed musicians representing the bands of Harry James, the Dorseys, Duke Ellington, Charlie Barnett, Stan Kenton, Vaughn Monroe, Phil Harris and Spade Cooley.

Among the songs Miss Day sings in the film are: "I May Be Wrong," "The Very Thought of You" and "With A Song in My Heart."

The film, which depicts the graphic behind-the-scenes lives of the popular music world, was directed by Michael Curtiz, one of the leading megaphones in Hollywood today.

Carl Foreman, who scripted "Champion," the last film in which Kirk Douglas made such a large stride toward the top, also wrote the dialogue for "Young Man With a Horn."

Mrs. M. J. Adams of Winters visited her daughter, Mrs. J. M. Harris, and her granddaughter, Mrs. H. E. Vines, and family last week.

SHOOTING DATES ARRANGED BY COMMISSION

AUSTIN — Helping arrange shooting dates so that migratory waterfowl hunters in the sprawling state of Texas may get a fair break this fall has been undertaken by the Game, Fish and Oyster Commission. In the matter of when to shoot ducks and geese, what time of day to begin and quit and the daily bag and possession limit total, the Commission functions merely in an advisory capacity. This is because the final decision is made by the United States Fish and Wildlife Service.

The Commission, through action at its recent meeting at Pampa, already has asked the Federal authorities to cut Texas into two zones to that the season in the Pandle and extreme West Texas might run concurrent with the surrounding areas of Oklahoma and New Mexico, thus providing for an earlier shooting season than the state at large. Later open season dates are preferable in the more southerly sections of Texas since the waterfowl reach those areas later.

For the main part of the

state, the Commission has suggested that the split season plan of last fall be replaced by a straight shooting period beginning November 10. In 1949, Texas duck and goose gunners hunted from November 4 to November 21 and then from December 21 to January 7.

Bag limits also would be changed to provide for eight birds a day or the same number in possession. Game Department field men have observed some tendency by hunters to kill more than the bag limit when the daily limit is only four birds leaving the less desirable species to waste where they fall. Thus, waste would be eliminated through a higher daily limit since the proposed possession limit would be unchanged. Similar problems involve the suggested zoning plan to accommodate the Panhandle sportsmen. Texas, although as large as two or three ordinary states, has never been zoned for waterfowl hunting. Perhaps one reason is that, with the season in the northern extremity of the state opened two or three weeks earlier than that in the state at large, hunters from the southern areas would move in to

share in the earlier season, and the hunters in the northern areas would legally travel southward to enjoy a prolonged gunning period within their own state. The Commission may recommend and suggest but the final decision is up to the Federal authorities.

Bridle Bit Uncovered By Street Grader At Clyde; Believed To Have Been Used Long Ago

By Hamilton Wright

An ancient burro bridle bit plowed up by a grader is in the possession of the Rev. Garlie C. Williams, Clyde pastor of the Shep and Bradshaw Methodist Churches. It is an ornate affair and believed to have been employed in a burro train during the days when Spanish dons sought the fabulous wealth reputed in present New Mexico. It comprises a double salivator. The shanks are studded with silver and brass. The curb rein went under the chin. The curb is of steel and hand scrolled. It still bears the initial "V" which is believed to have been the trademark of the maker.

The Rev. Williams has shown the bridle bit to several persons, but none seems to identify it with anything they knew personally or read about in history. Some suggest that it was used on a little burro used during the days of the Spanish Conquistadors.

In search for silver in the area northwest of Texas, many Spanish caravans in the 16th and 17th century passed through this area. In fact, rumor that much silver had been buried somewhere in the neighborhood of Clyde where a regular caravan pass ran north and south, led to much digging in past years.

The Clyde street grader unearthed the relic from the sand in front of his home in northwest Clyde. The minister has removed the rust.

Just 'Round About

As we walked up and down the street June was bustin' out all over. Like the 'ol boy told about his girls whose name was June. The weather is unusually cool for this month. Baird folks are almost always trying to keep cool, air conditioners are going and the wafer supply is dwindling. The fine rains have kept the wells in the water field in supply, and it is hoped that there will be enough water in the ground up there to last through

the summer without the necessity of hauling high priced water from Abilene. Mrs. L. Blackburn said she remembers some of the old people talking years ago about a heavy frost killing corn in this county on June 10th about 1877 or 1878. With the mercury lingering in the 50s during the past week, we can understand how easy crops could be hurt by frost. We went in to see C. S. McClellan, and he was showing a beautiful new Catalina super de luxe sport coupe, which is just about tops in the Pontiac line. We learned also that Baird Motor Company has just been made a dealer for GMC trucks. When we came back to the Star office, V. F. Jones introduced us to his son, Clifford Jones, who is now assistant cashier of the First National Bank at Weslaco. He and Mrs. Jones were here to visit his parents for a week. We enjoyed talking to the Jones. Clifford used to be a banker here before he went to the valley. Quite a stir up at the courthouse. The grand jury in session, court going on. On top of all this, the census report giving Callahan county less than 10,000 population makes mandatory the merging of the tax assessor-collector's office with the sheriff's department. The attorney general will give his ruling on this matter, and we will know when the sheriff will assume the duties of both offices.

John Berry was over from Clyde telling some very interesting tales about the depression. We were glad to see Jewel Ellis in from the northeast section of the county. Pokey Bonner was here from Cross Plains meeting friends. A reckless driver thought he could evade the highway police by abandoning his car, then reporting it stolen at Abilene. He paid a fine of \$168. Steps are going forward to enforce prohibition of center parking on Market Street in Baird. With real helpfulness on the part of motorists, this should be done easily and to the advantage of all. Ducking in at the Plaza Theatre we not only saw a good picture, but were reminded that June 18th is Father's Day. And that's an idea — why not take Dad to the picture show and show him off on his big day.

Mr. and Mrs. Walter Bellamy and children, Pat, Mike, Beth, of Roswell, N. M.; Mrs. Vic Scarpelli and children, Jon and Vee-Vee, also Miss Anita Ivy, all of Abilene, spent the weekend with Judge and Mrs. F. E. Mitchell.

Mrs. O. E. Patterson, Jr., of Marshall, brought her daughter, Melissa, to Baird Tuesday to spend six weeks with her aunt, Mrs. M. C. McGowen and Dr. McGowen.

NIECE OF MRS. MCGOWEN PARTY HONOREE

Mrs. M. C. McGowen honored her niece, Miss Paddy Lankford of Abilene with a luncheon and Canasta party at her home Monday. The luncheon table was laid with a white linen cloth and centered with an arrangement of pink roses. Larkspur and roses decorated the entertaining rooms. Present were Misses Lankford, Carrie Lawlis, Patsy Cutbirth, Mary Ewing, Norma Bryan, Dolores Williams, Bobbie Saunderson, Paula Powers, Sharon Hughes, all of Abilene, and Miss Dolores Hunter of Baird.

Cook of Midway, and attended the funeral of their sister-in-law, Mrs. Pete Cook in Abilene. Mr. and Mrs. E. B. Holland of Lubbock also attended the funeral of Mrs. Cook.
