## WOODENFOOT

After the Indian basketball season I would refer our readers to the Grosebeck Journal and especially our parents. One reason we are not growing them any bigger is that we are not having them any bigger.

"Born to Mr. and Mrs. -----, a baby boy, on November 21, - weight 15 lbs., 8 1/2 oz.

"Born to Mr. and Mrs. -----, a baby boy on twins. The babies weighed 8 lbs., 9 oz. and 7 lbs., 7 1/2 oz."

The NEWS adds their congratulations. This is one way that we might grow a bigger football and basketball team !!!

**New Chief**

## CANCER SOCIETY MEETS

On Monday of this week a continuing effort was made to establish a Gaines County Unit of the American Cancer Society. The unit is rapidly developing under the directorship of a board of responsible and concerned citizens dedicated to the control and eradication of cancer.

The Board of Directors adopted as its long range objective their assistance in the elimination of cancer entirely as a disease of mankind. This objective will be accomplished through three phases of activity.

The primary activity of the local unit will be to encourage, foster, and conduct programs for the continuing education of the public concerning cancer, its symptoms and detection so as to further detection, diagnosis, treatment and prevention of cancer.

The second activity, as outlined by the Board, will be to encourage, foster, and conduct programs of service to cancer patients, and provide programs of education and research for the Medical profession.

Thirdly, the Unit will conduct a fund-raising campaign.

The Board of Directors stated that in order to accomplish the educational and service activities of the American Cancer Society, funds will be needed. They revealed that of funds given last year by Texans to the Society, each dollar was spent in the following ways: 31¢ for cancer research, 14¢ for professional education, fellowships, and services, 28¢ for public education, 13¢ for service to patients, 7¢ for development of program and administration, and 7¢ for campaign.

The main order of business at last Monday's meeting was the establishment of organizational committees. The campaign committee will have Mrs. Roscoe Treadway as the chairman with board members, Mrs. W. E. Cox, Roger Pool, and Mrs. Alton Freeman as co-ordinators. Publicity will be headed by Charles Ray with Mrs. D. C. Chesnut, Harold Jones, and George Cristy providing board assistance.

The Educational Committee Chairman has not been selected but, board members Jake Harrell, Mrs. Bill Oswalt, and Kyle Adams were appointed as co-ordinators. Also, the Chair of the Service Committee is vacant but, Mrs. R. L. Basham, Mrs. Fred Farrar, and Stan Basham will assist the person appointed.

The Medical Committee Chairman is Dr. H. D. Dow with board members Mrs. F. J. Koberg and Mrs. H. D. Dow as his assistants.

A special committee was created to contact and inform citizens of Seagraves and Loop as to the organization and purposed activities of the American Cancer Society. The Chairman of this committee is the Vice-President of the local unit, Mr. W. E. Cox. Board members Mr. and Mrs. M. L. Turner and Allison Gainey will supervise the activities with the other unit officers, Mrs. Harold Jones, Secretary; Mrs. Wayland McCullough, Treasurer; and Jim

## Production Credit

Lubbock Production Credit Association made up of Cochran, Crosby, Gaines, Garza, Hockley, Lubbock, Lynn, Terry and Yoakum Counties will have their annual meeting February 29, 1968 at Fair Park Coliseum in Lubbock, Texas. Registration will be at 9:00, business meeting at 10:00, and lunch at 12:00 noon with barbeque and all the trimmings.

Delton Mills from Loop was elected vice-chairman of the nominating committee. The term of W. H. Griffith, director from Seminole, will expire this year and will be up for re-election.

Attending from the Seminole office will be Dave Sooter, Vice-President; Lester Ericson, Assistant Vice-President; Jay Dycus, Field Representative; and Lillian Meadows, secretary.

Mr. Sooter encourages everyone of the 117 members of the local office to be present and participate in the business meeting and the voting.

Last year the Seminole Branch of Lubbock Production Credit Association loaned \$5,817,822. The average loan was \$49,725.

Someone said the 1968 motto was "NO MEET, NO MON."

Seminole High School Choir students brought home four First Place Medals in the regional UIL solo contest held in Odessa Saturday. The medal winners receiving a superior rating were Nila Norton, singing "How Do I Love Thee"; Sharlotte Stephenson, singing "He's Gone Away"; Joe Coffman, singing "Give a Man a Horse He Can Ride"; and Marilyn Shook, singing "Daisies".

Six other students, Steve Young, Lilah Gainey, Betty Barrett, Craig Wall, Mary Jo Smith, and Tom Keyes all received an excellent rating in the contest.

The accompanists for the group were Janis McNaughton, Mollie Melone, and Lynda Shults. Karen Hausenfluke, the choir director, was their voice coach and sponsor.

These students have worked diligently for six weeks in preparing for the contest. The contest is not a contest of individual against individual but contestants are judged by a standard of musical excellence with ratings ranging from superior, excellent, good, and fair to poor. Seminole can be quite proud of the high ratings earned by its voice students.

TEXAS *Farm* BUREAU

Approximately eighty volunteer membership workers will meet in Lamesa Monday night, Feb. 26, for a Membership Kickoff Dinner that will launch New Member Drive Week in this area. A buffet dinner will be served at Forest Park Community Center at 7:00 P.M. with an inspirational program to follow.

Principal speaker for the event will be Craig Thomas, Assistant to the President of Texas Farm Bureau, Waco. C.H. CeVaney, Coahoma, State Director, District VI, and Edward M. Cumbie, Bronte, Area Field Representative, will also participate. Entertainment and local participation will be provided by the counties involved.

Texas currently has the fourth largest membership in the nation. "The fact that we gained almost 5,000 members in Texas last year indicates that farmers and ranchers continue to see the need for a strong organized voice in agriculture and express their confidence in Farm Bureau being able to serve the needs of agriculture by joining our organization," said DeVaney. "The goal for Texas now is to surpass Iowa, thus becoming third largest state Farm Bureau," he continued.

Among those in attendance will be Directors and their wives from Gaines county. "Our present membership in Gaines County this year is 517 members with a goal of 25 new members for 1968," stated Roy Cypert, Gaines county membership chairman. Any farmer or rancher who is not now a member is invited to join now to help formulate and strengthen the policies of the organization and become eligible for the services offered to members.

Among counties expected to participate are Dawson, Gaines, Scurry, Martin, Howard, and Mitchell.

### JUDGE MUSIC FESTIVAL

Karen Hausenfluke and Roy Hendricks served as judges for a Choir Festival held at First Baptist Church in Denver City on Monday evening. Groups from Baptist Churches in the G. A. Y. Baptist Association took part in the Festival.

### JR. HIGH TENNIS

In girls singles Cathy Cates defeated Glenda Miller 8-0, and Jan Worthington won over Linda Lloyd, 8-0.

In boys doubles Earl and Puga defeated Hillis and Krieg, 8-3; Montgomery and Dendy were beaten by Hillis and Hillis, 8-2.

In girls doubles Duncan and Cates of Seminole defeated Chadwick and Lloyd 8-1; Worthington and Brown defeated Lloyd and Miller, 8-2.

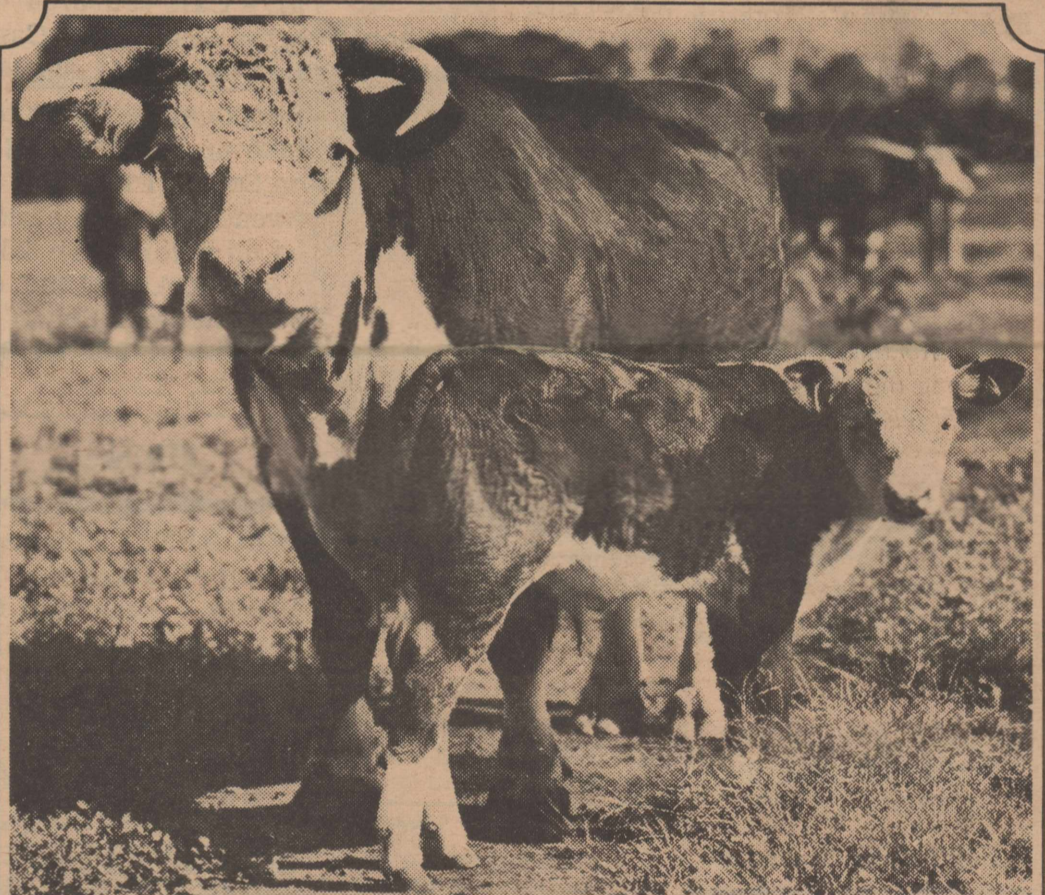

With so much moisture, as this picture shows, it is most difficult to repair the highways. To these problems add all the traffic and the job becomes increasingly harder.

"The largest room in the world is--room for improvement."

Jim Holden, Methodist Missionary, South America, gave an outstanding program to the student body of the Seminole Junior High and High School. He displayed and had for sale, Mexican and South American commercial items of art, paintings, and figures. Seminole students gave him a standing ovation. This is the 519th high school he had visited since 1940.

## CALVES WEANED 19 POUNDS HEAVIER WITH PURINA RANGE CHECKERS

In a test at the Purina Research Ranch, 41% cottonseed cake was matched against Purina 20% Range Checkers. The cows on Purina Range Checkers averaged calves 19 pounds heavier at weaning.

|  | 41% Cottonseed Cake | Purina 20% Range Checkers |
|--|---------------------|---------------------------|
| Pounds per cow per day                   | 2½ lbs.             | 2½ lbs.                   |
| Difference in weaning weight at 210 days |                     | +19                       |

With a \$30.00 calf market, those 19 lbs. would be worth \$5.70.

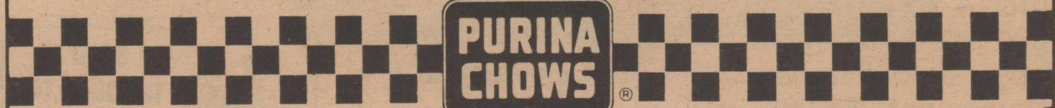

Purina Range Checkers provide protein your cows need, plus the other ingredients necessary for proper diet. If you're looking for extra cow condition, an early calf crop and heavy weaned calves, stop in at our sign of the Checkerboard.

## Jr. Study Club

The Seminole Junior Study Club met Thursday, February 15th at 4:00 p. m. Hostess was Mrs. Glynn Chandler, 1516 SW Ave. B, with Mrs. Kenneth Willis as co-hostess.

The program for the afternoon was presented in two parts. The first part, "Causes and Results of Poverty", was presented by Mrs. Wayne George. For the next part Mrs. Shafter Bailey led a group participation program on "The Great Population Explosion".

Mrs. George began her remarks with a reminder that when the first immigrants came to America it was a land of plenty and a place like none other in opportunities. But over the years, as man progresses, we find that machines are taking on more and more work formerly done by man. However, life still goes on, and man still has his family and family responsibilities. People flock to our larger cities armed only with skills left over from jobs that no longer exist. Lack of formal education can be disastrous in the cities. Many people can't use what little information they receive, because they can't read enough to follow them. Thus begins the vicious circle of dependency on welfare. Children raised in a home supported by welfare have no incentive to work when they could make only a little more by doing so than their father makes by sitting home watching television. These children usually do not get sufficient education to inspire them to go on to better jobs. They are often without proper clothing to attend school, and so fall behind, get discouraged and quit.

Also contributing heavily to the problems of poverty is the overpopulation, as Mrs. Bailey pointed out. She said that the population of the United States would increase by 22% by 1985 at our present rate of growth. Like poverty, the problem of overpopulation is worldwide. Mrs. Bailey said that in Central Africa 50% of the children being born now will die before school age for lack of protein. In the United States, though we do not have this kind of actual famine, the increase of population is leading to extreme congestion, air pollution, and social ills such as crime and violence. The inhibitions of old cultures and outdated religious and economic doctrines have retarded the development of wise priorities for world-wide population planning. Except for nuclear war, the greatest challenge facing mankind is the prevention of overpopulation of the world.

During the social preceding the program cookies, coffee, and colas were served to Mmes. Shafter Bailey, Kenneth Bass, Hilbern Briscoe, Glynn Chandler, Paul Dondit, Marcus Crow, Kent Denson, Eugene Dew, Wayne George, Gene Hawkins, Herbert Hicks, Don Hughes, Mike Jenkins, Charles Mickelson, Sammy Robertson, and Kenneth Willis.

### Letter to the Editor

Editor  
Seminole News  
Seminole, Texas

Dear Sir:

I have read with interest your story regarding the problems you have had with your appliances. The problems regarding the parts and repair that is.

You must have gone out of town and purchased an off brand product of some kind or you failed to call a specialist in the field of appliance repair.

We have been in the business of appliance repair in Gaines County now since 1922. Of course we only repair the products we sell, but there is a reason for this also. Our people are factory trained and we use factory guaranteed parts. The only way you can get factory parts and service is to represent the factory. The manufacturers spend quite a lot of money each year holding schools which our people attend and we spend a good deal of money each year stocking our shops with factory service manuals and required special tools.

In our organization we have two appliance servicemen with several years of experience in refrigeration both household and commercial as well as washer, dryer, dishwashers and range repair. We have two factory trained electronic specialists.

If you have two or more appliances not working at any given time you have obviously purchased inferior appliances. Next time you need service call on us, when we want to run an ad we call upon you. Of course, if you do not happen to own one of our appliances then you cannot take advantage of our factory trained servicemen and factory parts so I guess we will have to haul out the old crying towel again.

All in good fun, I enjoy your paper and as ever best regards to you and your fine staff.

Yours truly,  
Bill Hearne  
Sales Manager  
O. H. Hearne & Son

Editors note: We recommend always name brands and buying from dealers who service their products.

## LLANO ESTACADO ART ASSOCIATION

Mrs. W. H. Seeker (Betty) was guest artist Saturday February 17 at the regular meeting of Llano Estacado Porcelain Art Club. Betty is a "hobby" artist who thoroughly enjoys her painting, and uses it for her fun time. She is a registered nurse at Lea General Hospital in Hobbs, New Mexico; and has a husband and four growing sons who take care of a large portion of her time. Like most china decorators, Mrs. Seeker is eager to share her knowledge and love for this art. She hopes that in so doing, others will become more interested in this productive hobby.

Painting of Wild roses was Mrs. Seeker's demonstration. She said that few artists paint them as they really grow. The petals join the center stem actually, rather than a center face. Stamens which come from the center pod give the effect of a yellow center. In a design of more than one flower, one flower must be the primadonna, while others are shaded for depth or blended into the background. Wild roses are prettier if not overcrowded; and when designing a piece of china, at least as much room should be left for atmosphere and shadows as has been used for flowers and leaves.

Mrs. Seeker will show slides of world famous artist's work and national conventions she has attended at a later time for the Seminole Club.

Mrs. Doyle Hankins and Mrs. Dean Smith were hostesses for the meeting and covered dish luncheon. Door prizes, donated by the hostesses were won by Mrs. Ray Russell and Mrs. Charles Gay. A slate of officers recommended by the nominating committee was elected. Mrs. Charles Gay, President pro-tem since the resignation of Mrs. Singleton, was elected president. Mrs. A. Ray Russell - First Vice-President; Mrs. Doyle Hankins, Second Vice-President; Mrs. Jimmy Markham, Recording Secretary; Mrs. Chester Roberson, Corresponding Secretary; Mrs. Dean Smith, Treasurer; Mrs. O. B. Smith, Historian; and Mrs. Charles Cope, auditor.

Mrs. Henry Jones (Barbara) will be our guest artist in March. Barbara Jones is one of the foremost china painting artists in the United States, and we are very fortunate to have her for our regular meeting and to teach two days in Seminole. Due to her schedule, she could only be here at mid-week, so the March meeting will be at 4:00 p.m. Wednesday, March 6, Seminole State Bank Meeting Room so those who work at business and professions can attend. A covered dish supper is planned by hostesses Cope and Gay during the meeting.

Last year at Texas Porcelain Art Club Convention in Lubbock, Seminole's club was the baby of the state, and organized less than one year. We won second place for our history-scrap book in competition with 24 other clubs. This year we are trying for first place. Seminole's news media have been very cooperative in helping us, for these books are judged on clippings 15%, pictures 20%, Activities 5%, neatness 10%, and art and originality 40%. These will be judged at state convention at Tyler, April 4-7.

With the whistle sounding 58 times in the course of the game with Fort Stockton, there was little time to play basketball.

The Indians were beaten at the free throw line. The Panthers hit on 76% of 35 fouls while the Indians hit a cool 52% of 23 fouls. Seminole lost by six, 50-56. The Indians hit only 35% of their field goal attempts. High scorer for the Indians was Larry Cottrell with 14 and Anderson with 11. The score was tied up at the end of the first quarter 11-11. At the intermission Fort Stockton had gained 7 points 24-31. The third quarter ended 37-42, with the final score 50-56.

The Seminole Indians Tuesday night came on strong and tied it up at the end of regulation 62-62 after falling behind 8 points, 44-52 at the end of the third quarter. The Indians lost by 2 in overtime 68-70 against the Monahans Loboes. It was the season final. Cottrell and Anderson led the Warriors with 17 and 16 points. Wall and Spencer followed with 13 and 12.

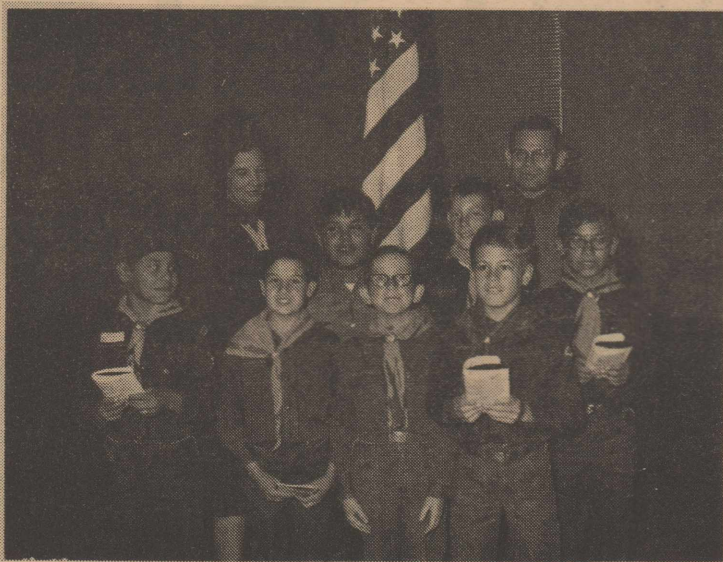

It was a game that could have gone either way. It's been a long season.

Caffey, Fitts, Hicks, Inman, and Fitts are desperately looking for a boy that can stuff the ball and not use a sawhorse. Any Indian fan would appreciate a lead to pick up 12-15 boys from the twelfth grade down that can do this.

## History's Warning

One of the most widely read books of all time is "The Decline and Fall of the Roman Empire." Written in 1788 by Edward Gibbon it sets forth five basic reasons why that great civilization withered and died. These were:

- The undermining of the dignity and sanctity of the home, which is the basis for human society.
- Higher and higher taxes; the spending of public money for free bread and circuses for the populace.
- The mad craze for pleasure; sports becoming every year more exciting, more brutal, more immoral.
- The building of great armaments when the real enemy was within — the decay of individual responsibility.
- The decay of religion; faith fading into mere form, losing touch with life, losing power to guide the people.

The oft-heard warning that "history repeats itself" has an ominous meaning in the light of the above.

The average age of the world's great civilizations has been 200 years. These nations progressed through this sequence:

- From Bondage to Spiritual Faith
- From Spiritual Faith to Great Courage
- From Courage to Liberty
- From Liberty to Abundance
- From Abundance to Selfishness
- From Selfishness to Complacency
- From Complacency to Apathy
- From Apathy to Dependence
- From Dependence back again to Bondage

In a few years the U. S. will be 200 years old. This cycle is not inevitable — it depends on you. — Indiana General (Telephone) News

GORDON CHRISTOPHER

Gordon Christopher, son of Mr. and Mrs. W. G. Christopher is shown aboard the U.S.S. Yorktown. He was just up from the fireroom and had been on watch all night when the picture was made.

I dedicate the following article to my son, Gordon, and to all other boys that are in service across the land.

Mrs. W.G. Christopher

### "EMPTY ROOM"

Can anything be more desolate, I wonder; or tug harder at the heart-strings than a boy's silent and empty room? Empty now because a loved son is half a world away fighting in a war, loyal to his country...

One opens up an old chest and sees his things stored there---that motley hoard he'd treasured from early boyhood and wouldn't let you throw away, or that you wanted to keep for him: the arrowheads; a little petrified shell; drawings of comicbook characters, sailboats, and fishing scenes; newspaper photos of football and baseball heroes; grammar school report cards; engineer's drawing tools; and U.S. Navy pamphlets...

The whole mute history of a boy packed away in an old chest.

With countless other mothers across the land, I pray: "God, watch and keep, and bless, him--- and bring him safe home again."

Mr. and Mrs. Goodwin, Timmy and David of Amarillo spent the week-end with her parents, Mr. and Mrs. R. O. McClellan.

He's the kind of nut that's hard-headed about solving a problem before there is a problem. That's the story in a nutshell. Install gas air conditioning now. You'll like the way it makes big cooling jobs seem small. Next summer you'll be the cool one while others are cracking under the heat.

## LETTERS to EDITOR

To the Editor:

I want to thank you individually and collectively for your fine cooperation in our voter registration drive. Undoubtedly the newspaper publicity given to registration requirements and procedures was a major factor in bringing about the tremendous increase in registrations this year.

Our office has received many comments from county tax assessor-collectors praising the newspapers for the assistance they rendered and especially for their publication of the application form, which benefited both the voters and the assessor-collectors. Your contribution to the registration drive has been appreciated not only by myself but by assessor-collectors and voters as well.

Sincerely yours,  
John L. Hill  
Secretary of State

Casper, the cat, likes Seminole. In fact, he likes Seminole so well that he just walked back from Lubbock. The C. V. Singletons moved to Lubbock the week of Thanksgiving last year. Of course, they took Casper with them but Casper had different ideas and after a week of city living--he LEFT! Last Wednesday, Valentines Day, Casper returned and looked up his son, Kitty Mine. Mrs. Harry N. Stone thought she saw the visitor and called Roger Pool. The Singletons were in Seminole last Thursday and were told that Casper might be in town. They looked, but to no avail.

Friday morning Casper came back to Mrs. Stones house in time for breakfast with Kitty Mine. Mrs. Stone called Roger again and he in turn contacted the Singletons in Lubbock. Casper, in his own box, left Seminole via ambulance for Brownfield--where Mrs. Singleton met them and took Casper back to Lubbock.

Casper didn't hitch a ride to Seminole. His sore, swollen paws, and dirty matted fur made that fact evident. The story reminded us of the saying that "A dog is true to his master, but a cat is true to his home."

Steve Haley hit 28 points in a losing effort against Monahans Tuesday night 68-72. Seminole was out-scored 3 points in the first quarter but came back to tie it up 38-38 at the half and 51-51 at the end of the third period. C. J. Danley led with 15; McDonald had 9. The B's hit 34% for the evening.

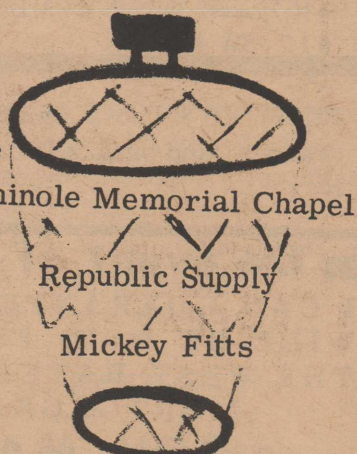

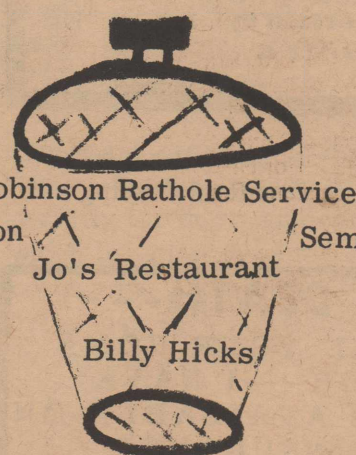

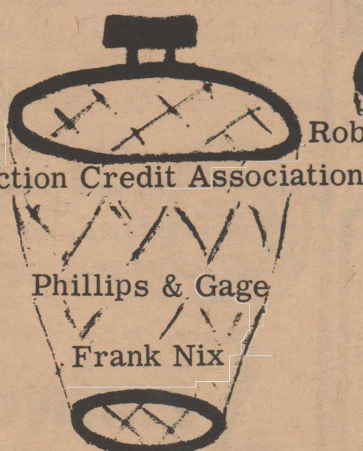

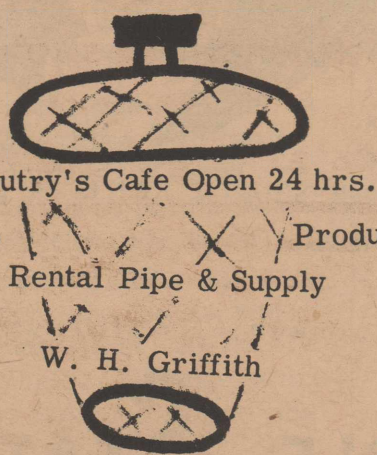

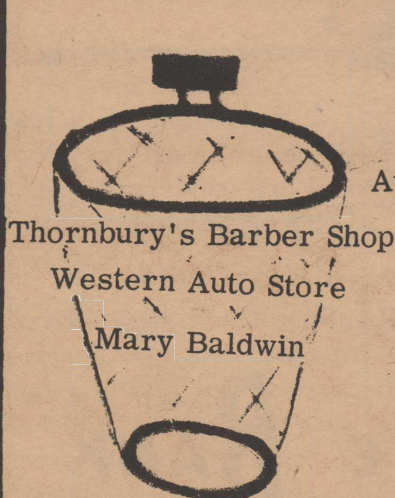

Another unsung hero, No. 3, Ronnie Sommers.

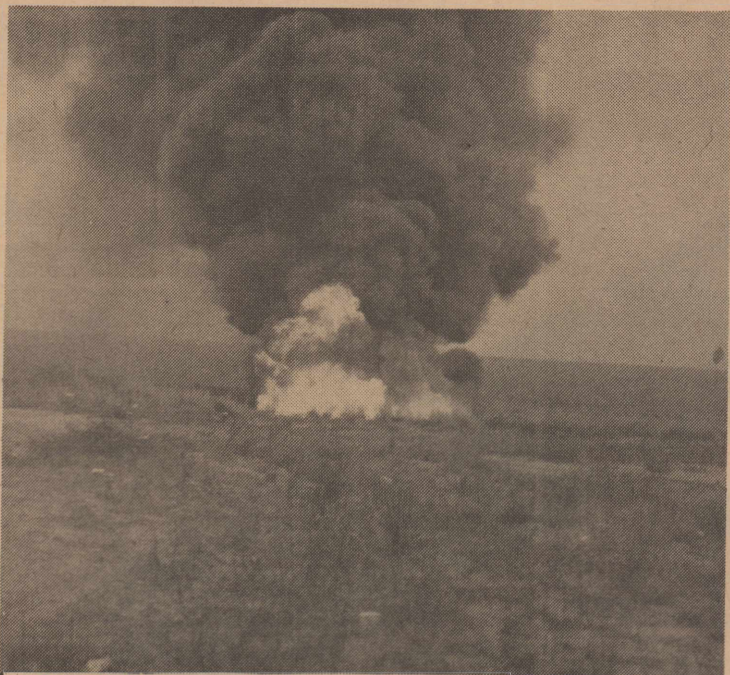

## FRESHMEN

The Freshman lost their ballgame by 2 points to Seagraves 52 to 54. Sims lead the 9th with 19. Hearne, Bennett, and Gonzales had 10-9-8 in that order, with Pendleton 4 and Holbrook 2. It was a good game all the way.

Oil field fires always cause a stir. Such was the case on a recent Monday morning when the Seminole Volunteer Fire Department was called just outside the city limits on the Hobbs Highway. The burning is simply the paraffin being scraped off the pipes that gradually load when oil travels through. No damage done.

Dear Senator or Congressman:

My former doctor has told me some things which have caused me to write you.

He says that you are now telling him how to take care of people in the hospital. He says that 20% of all people who die in the hospital will have to be cut up in an autopsy whether there is any need or not, or the hospital can't get paid. He told me that you are in the process of getting ready to tell them what drugs to use and that if they are cheap enough that you don't care who manufactures them, not even if it is a stolen American patent manufactured in a foreign country.

He said that in the hospital, you are telling them what type of help to have and how to keep their books. In February you are going to tell the hospital how much to pay their employees and that if I get sick, I may not get to stay in the hospital as long as he thinks I should because you already know how long I am going to need to stay for each kind of disease.

I was told that I will probably be forced to share my room with someone I don't like, even if I don't want to, and that the only way I can keep from it is to have a private room.

My doctor hasn't been able to see me like he used to lately, because it seems he is always working on records or meeting with committees which you make him do to stay on the hospital staff or get paid for what he does for me.

He said lots of other things but from the above, anybody can see that you know a lot more about sick folks than he ever did or you wouldn't know what to make him do or know how he should be taking care of sick people. I want you to send me some of your approved medicine just as soon as it is ready. Please send me your phone number so that if I get real sick I can call you.

Very truly yours,  
 John Doe

P.S. I would like your night phone number, too. I am sure glad you are going to take care of me so Doc can keep all those records and, besides, I've been worried about Doc's eyes getting bad lately from reading so many directions from Washington and the Welfare Office.

(Thanks to Mr. Ed Rodgers for bringing the above article to the office. It appeared in the Gorman Progress, Eastland Co., Editor)
