

SERVICES TODAY FOR
JERRY LIVINGSTON

Funeral services for Miss Jerry Livingston, 33, of Euless, Texas will be today at 2:00 p.m. in the the First Baptist Church. Rev. H. T. Christian of San Saba will officiate, assisted by Rev. Gene Hawkins, pastor, and Rev. Dale Pruitt of Odessa. Burial will be in Resthaven Memorial Park at Midland under the direction of Seminole Memorial Funeral Home.

Miss Livingston was born in Midland, having moved to Seminole as a very young child. After graduating from high school, she worked at Piggly Wiggly for two years. From 1957 to 1965, she worked in the Gaines County Tax office at which time she started to school at North Texas State University, Denton, having received her degree in three years. She taught in Arkansas for two years and at the time of her death she was teaching in the Irving Public Schools.

Survivors are her father, J. D. Livingston of Midland; her mother, Mrs. Laura E. Livingston, Seminole; a sister, Mrs. Lois Pfannenstiel of Las Vegas, Nev.; two brothers, Dr. R. L. Livingston, Comfort and Don Livingston of Dell Valley, Texas and her maternal grandparents, Mr. and Mrs. Clyde C. King of Midland.

Pallbearers will be Ed Welch, Jean Pate, A. L. Payne, Sammie Webb, Curtis Allphin and Sid Johnson.

Honorary pallbearers will be Frank Wolfe, Chester Browne, Tom Burnett, K. T. Hoffman, Joe Adkins and Charles Goodall.

And I'll tell you he was proud of it. Ace Reid of Kerrville, Texas, just had to show us his new two-holer. "Why, it was brand spanking new" he went on to say. "Old So & So made it for me, brought it over and installed it. Don't it look real?" he said. "Feel along the edges, it's even got chewing gum stuck on it. And those spots - it even looks real, don't it?"

You could see along the edges where someone had smoked a cigarette and laid it down and it had burned back a ways. Also there was a ring about the right size where someone had set down a Coke or a beer can. He said someone stole his Monkey Wards catalog.

It looked near honest to real as it set there in his office on top of two coal skuttles. And believe it or not, it was honed out just in the right places.

TROUBLED SKIES

Bobby Tipping, on the left, and Jim Vanderbilt raise the flag at the first home game against Lamesa last Friday night. The clouds in the background came on to cover Wigwam Stadium and add another disappointment to a partisan crowd.

Two Lions Club members, Jimmy Pierson, on the left, and Dale Butler, presenting the new queen of the Noonday Lions Club, Leta King, daughter of Mr. and Mrs. Beryl King.

HOMECOMING FRIDAY

SCHOOL FOR MENTALLY RETARDED

The Tri-Cities Satellite School for mentally retarded youngsters will open in Seminole November 2, according to Mrs. Tommy Montandon, chairman of the temporary supervisory board. Open to residents of the Seminole, Seagraves, and Denver City area, it will be for pre-school educable mentally retarded pupils, or trainable mentally retarded pupils of all ages.

Operated under the supervision of the Texas State Department of Mental Health and Mental Retardation, the school will offer special training and evaluation for mentally retarded children. Emphasis will be placed on self-help training and emotional adjustment with a goal of helping these children find their place in and be a contributing part of society.

The salary of the teacher will be paid by the Department of Mental Health and Mental Retardation. There will be no charge to the pupils as money for other expenses will be raised through contributions and special projects.

Day-to-day oversight of the school will be in the hands of a supervisory board chosen from residents of the Tri-Cities region.

Classes are scheduled to run from 9:00 a.m. until 12:00 noon each Monday through Friday all twelve months of the year.

Mrs. Montandon said that applications are now being accepted for admittance to the school. Parents may contact Mrs. Montandon, Post Office Box 443, Seminole, or Mrs. Fred Koberg, 601 S. W. 14th Street, telephone number 758-3709, in Seminole relative to enrolling children. Application should be made immediately as class enrollment will be limited to eight pupils.

Applications are also being accepted for a teacher for the class. Salary will be approximately \$300 per month with the primary qualification being an interest in working with handicapped youngsters. A mature lady who has raised children is preferred, however. No previous experience is necessary as training will be furnished by the Lubbock State School staff.

Persons interested in this position should contact Mrs. Montandon or Mrs. Koberg before October 1, as interviews and screening procedure will commence on that date.

In addition to the salaried teacher, volunteer aides are also needed. Aides will work in assisting and encouraging students rather than teaching. Persons willing to serve as aides should contact Mrs. Montandon or Mrs. Koberg. It will not be necessary for an aide to be able to devote full time, but the services of people who are able and willing to work even as much as three or four hours each week are needed.

Mrs. Montandon stressed that the Satellite school was in no way a part of the public school program, but was rather a program for handicapped children not eligible for public schools.

Seminole High School will celebrate its annual homecoming Friday, September 25. The day's festivities will begin at 1:15 p.m. with a reception for exes in the foyer of the high school gym. Student Council members will serve refreshments.

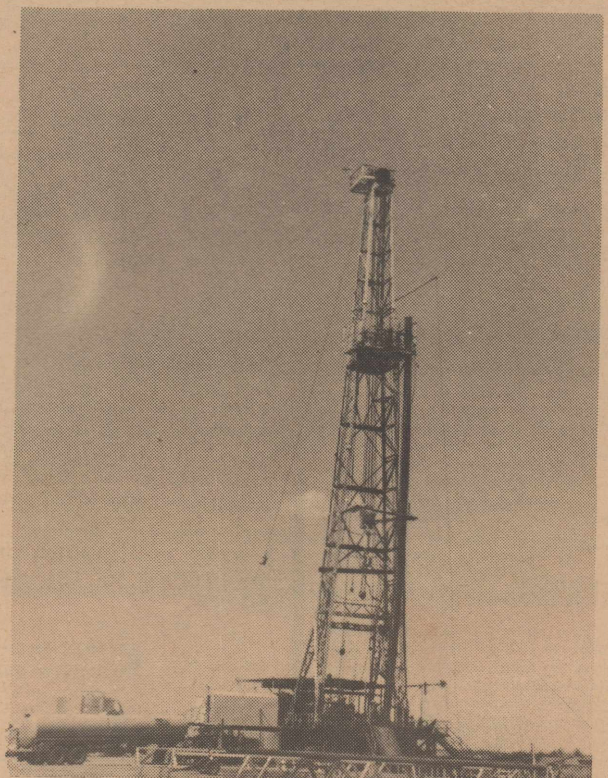

To be crowned football queen this year is senior Linda Aryain. She will be attended by senior Teri Bates, junior Cosette Nolen, sophomore Penny Harber and freshman Kelly Jameson. The theme for homecoming is Camelot.

Jim Davis, local business man representing the class of 1961, will deliver the principal address. Exes from the greatest distance, as well as the oldest ex, will be presented with a box of candy by Student Body President Lynn Dove.

Coronation ceremonies will begin at 2:05. The student newspaper—The War Whoop—is putting out a special homecoming edition featuring the first trophy awarded Seminole High School. This trophy was earned by a girls' basketball team in 1933.

Coronation ceremonies will be followed by a pep rally. The day's activities will conclude with the 8:00 p.m. game at Wigwam Stadium. Opposition will be provided by the Lovington Wildcats.

Half-time activities will open with the theme from "Camelot," followed by a Dixieland combo featuring Jackie Allen and Clifford Floyd on trumpets and Donnie Allen and Bob Ford on trombones. Twirlers will perform a fire baton routine to "More" by Joel Leach. Half-time will conclude with a rendition of "America the Beautiful".

This is the oil well that Seagraves residents are so happy about on the Dave Anderson farm, just east of Five Point Gin on the Seagraves Highway. Ard Drilling Co., Rig #3, drilled the well in the Seagraves Independent School District. It was reported that the well made 88 barrels per hour - 1/4 inch choke.

Farm hand

In the above photo Jimmy Markham is shown drilling a small grain cover crop on his farm north of Seminole, Texas. The practice of cover cropping has become very popular in the Gaines- Andrews Soil and Water Conservation District for it not only furnishes grazing for livestock but it also stabilizes the soil against erosion.

Much is heard today about pollution. In this part of the country dust is a major problem and is a contributing factor to air pollution. Wind blown-soil from farmland once polluted the air on a large scale. Clouds of dust blew from land that had been mismanaged and over-used, darkening the skies over Washington, New York, and other eastern cities. Air pollution of this magnitude has been eliminated by conservation programs. Permanent cover, cover cropping, wind stripcropping, and better management of crop residues are keeping the landowners' soil at home and out of the air.

For information on cropping systems that will help improve the soil and reduce erosion contact the Soil Conservation Service.

WOODENFOOTE

Continued from page 1

It was a neat gift, I guess. Ace seemed to think it was. And he struggled on. "I even got my preacher in trouble," he said. The bishop called him in and I tell you I hated it. You see, I'm Episcopalian and I've had a good deal going with my preacher a long time. He's a fine fellow. Last Sunday I even passed communion three times because the wine was so good.

But my preacher had to go see the bishop in San Antonio and I kinda hate it that I told the story on TV. You see, we've been working this deal for some time. I attend church on Sunday morning and he tends bar on Sunday evening. Ar "I kinda hate to see him 'cause I don't know whether he's gonna be on the job Sunday evening or not.

"Hey, Woods," he said, "you didn't keep on sending me the News." "Well, did you send in your money?" "Naw," he said. "Well, send in your money. I pay you for your junk (Cowpoke), it won't hurt you to pay me for mine." "Okay," he says, "but that's not as bad as a newspaper down at _____ and over at _____; they can't even pay their payments on their papers to me and what burns me up, they've cancelled my subscriptions."

He jerked his desk drawer open and whipped out a warm check (and he must know newspaper-people pretty good- thank goodness, it wasn't from West Texas.)

"Them chaps you're looking at was bought by my father years and years ago from a Negro for \$1.00. You can still see the sheep dip and dried blood on 'em. Yeah, there's four conchos short (silver buttons with the ties through them) and I'm looking for some to match them. That's a \$1500.00 saddle they're hanging on.

"You see, I made a personal appearance at a request and the old boy said he'd pay me. I flew up there and when I started to leave he said he was a little short of money. So I told him that was all right. In a couple or three weeks he showed up out at the ranch and said he was kinda short and brought me this saddle. (It's a pretty good saddle, too.) He stayed for a week, ate my groceries, drank my drinks and when he started to leave I said 'Come back' - you know, kinda how we say it. And next week he was back with his wife and they stayed a month.

"Well, with the room, the board, the airplane trips and a little loan I felt like the saddle only cost me about \$1500.00."

And there he sat at the desk. He looked like a big cowboy, talking about the two-holer. He had on a big hat, long side-burns, Western shirt and tennis shoes on his feet. (Well, they were soft shoes and I'll bet if he put in about twelve hours in one day in that saddle on about three different horses, he couldn't even sit down in that soft chair at his desk.)

"Yeah," he said, "come on down; my business is expanding. Last time you was here I was in the popcorn business and that's profitable. This time I'm gonna

Well, if you're down Kerrville way, stop by the Inn of the Hills or the Hill of the Inns, whichever it is. Drive around on the east side. If there's a Cadillac there that says ACE on it, he's in the inn. But, when you sit down on that welcome seat, the two-holer, please remember it ain't real. You'll be welcome and I doubt that this version of the story will ever be told twice the same way.

Brandon Bowen, a freshman at Texas Tech, and the son of Mr. and Mrs. Newell Bowen was home over the weekend.

The Statesmen Quartet and Hovie Lister, to appear at the Seagraves High School Auditorium on Tuesday, September 29, 1970 at 8 p. m., is synonymous with gospel music, but it didn't just happen that way. From 1948 when the idea of The Statesmen was born to the mind of Hovie Lister until now, it has been years of hard work and many hundreds of thousand miles traveled to first reach the plateau of Number One and to retain that position. The Statesmen are a breed all to themselves; many times copied, but never duplicated. In sound, style and presentation, they are the pacesetters in every phase of gospel music. Gospel Music is not new. It is the heritage of our land through hymns and songs of Thanksgiving at Plymouth Rock to the spirituals born in the fields of plantations and the rhythmic beat of the hand-clapping revival type songs. Many great musicians and singers have contributed to the growth of gospel music; however, none with such fervor and electrifying sensationism as that of The Statesmen.

Admission is \$2.00 for adults and \$1.00 for children under 12. The public is invited to attend.

Bubonic Plague

DURING THE PAST THREE OR FOUR WEEKS OFFICIALS HAVE BEEN AWARE THAT RABBITS, RATS, FIELD MICE, PRAIRIE DOGS AND COYOTES HAVE BEEN DYING IN THE CEDAR LAKE AREA AND SOUTH. IT IS THOUGHT AT THIS TIME THAT THEY ARE DYING FROM THE BUBONIC PLAGUE.

R.C. BARRON IS WITH THE PUBLIC HEALTH DEPARTMENT IN SEMINOLE SAID, "IT IS CONFIRMED THAT THERE ARE MANY DEAD ANIMALS IN THE CEDAR LAKE AREA, EVIDENTLY DEAD FROM THE PLAGUE." HE WARNED HUNTERS TO ESPECIALLY KEEP THEIR DOGS OUT OF THE AREA ALSO TO USE SULPHUR ON LOWER CLOTHING AND BOOTS IF WORKING IN THAT PART OF THE COUNTY.

THE DREAD DISEASE IS CARRIED BY FLEAS ABOUT TWICE THE SIZE OF A REGULAR DOG FLEA. BUBONIC PLAGUE IN MAN USUALLY RESULTS FROM THE BITE OF A FLEA ALTHOUGH THE DISEASE MAY BE CONTRACTED BY THE DIRECT CONTACT OR THE BITE OF AN INFECTED RODENT. THE FLEA BECOMES INFECTED AFTER IT FEEDS ON THE BLOOD OF AN EFFECTED ANIMAL.

THE NEW MEXICO DEPARTMENT OF PUBLIC HEALTH REPORTED TWO CASES OF PLAGUE IN AIR FORCE PERSONNEL WHO HAD HUNTED RABBITS TOGETHER IN AN AREA NEAR ROSWELL, NEW MEXICO AND 30 MILES NORTH OF THIS COMMUNITY ON FEBRUARY 19 AND 20, 1960. THE FIRST CASE DEVELOPED SYMPTOMS ON FEBRUARY 23. THE ILLNESS WAS QUITE SEVERE. THE SECOND CASE DEVELOPED SYMPTOMS ON FEBRUARY 25 AND WAS MUCH Milder. IN 1961 TWO DEATHS WERE REPORTED -- A SAWMILL WORKER AT COWLES, NEW MEXICO AND A HARVARD GEOLOGY PROFESSOR WHO HAD BEEN DOING FIELD WORK IN THE PECOS, NEW MEXICO AREA AND DIED IN MASSACHUSETTS. A THIRD CASE WITH RECOVERY FOLLOWING TREATMENT, WAS REPORTED DURING AUGUST 1961 IN A POWER COMPANY LINEMAN WORKING IN THE PECOS, NEW MEXICO AREA. IN DECEMBER 1963, AN INDIAN SHEEPHERDER FROM HOUCK, ARIZONA DIED OF PLAGUE AFTER ADMISSION TO THE INDIAN HEALTH HOSPITAL IN GALLUP, NEW MEXICO.

SINCE 1900-1964 THERE HAVE BEEN 951 CASES REPORTED IN THE U.S. OF THESE 723 DIED.

D. W. FOLMAR, THE GAINES COUNTY RAT AND RODENT EXTERMINATOR SAID THAT HE HAD BEEN WORKING WITH THE PROGRAM FOR 27 YEARS AND HAD SENT IN 55 RECENT CAUGHT DISEASE CARRYING FLEAS TO A DENVER LAB. HE FELT LIKE HE WOULD HAVE CONFIRMATION WITHIN A FEW DAYS. "YES, HE SAID, I TAKE SHOTS EACH YEAR SO I WILL NOT TAKE THE DISEASE."

SEMINOLE RESIDENTS ARE ASKED TO TAKE PARTICULAR CARE TO KEEP DOGS AND OTHER PETS UP SO THEY WILL NOT COME IN CONTACT WITH OTHER ANIMALS TRANSFERRING THE FLEAS TO THEM.

Summer came to an abrupt end yesterday with the cold front moving in. We were all glad to see the cool weather at the office as the air conditioner went on the blink last week so we should have a 'red hot' paper this week. I hope the weather isn't too bad for our homecoming 'VICTORY' Friday night.

THANKS to JO'S again for the PIE and COFFEE. Thank goodness BESSIE returned home! Only kidding, MARIE, you're a goo-oo-ood girl.

DARYL and VIRGINIA BURKES came by the office for a short visit yesterday. The Burks are now living in Artesia.

MRS. HATTIE PATTERSON working in her yard, digging flower beds last Friday.

ALLEAN NORRIS had an emergency appendectomy last week in the local hospital.

I didn't get AROUND TOWN very much this week as we are short handed at the office. Those of you who are happy that I missed seeing you, just look out for me because I'll be seeing you next week AROUND TOWN.

SEMINOLE INDIANS

The Freshmen in the huddle, talking things over and trying to figure out what to do against Brownfield.

Larry Jackson, #44, makes a move against Brownfield in last Thursday's ballgame.

Seminole B's made a ballgame of it through to the 3rd quarter but lost to the Brownfield B-team, 26-0. The score was 7-0 in favor of Brownfield at the half. In the 3rd quarter Brownfield scored twice to push their advantage to 20-0 and scored another touchdown in the 4th quarter, to win by a 4th touchdown margin. Final score: Brownfield 26, Seminole 0.

SEMINOLE 16 BROWNFIELD 20

The Seminole Freshmen scored first against Brownfield last Thursday in Seminole, but couldn't hold on in the 2nd quarter as Brownfield scored 2 touchdowns and went to the dressing room ahead by 4. Paul Adkinson scored the touchdown for Seminole. In the 4th quarter the 9th graders came to life again when a Jordan to Wrenn pass covered 35 yards on 4th down. Adkinson carried it in from 7 yards out and the Freshmen converted 2 points, to make the score read 16 for Seminole and 20 for Brownfield.

An on-side kick failed but the Freshmen got the ball again. With 2 minutes remaining in the ballgame Brownfield had 2 pass interferences called on them. Then a Freshman from Seminole missed a pass that would have claimed victory but the slippery ball got away from them and the final score remained 20 for Brownfield and 16 for Seminole.

8TH GRADE 16-0

The 8th grade Warriors continued their winning ways and knocked off the 8th grade from Brownfield 16-0 last Thursday evening in Brownfield. The Warriors had a tough time in the see-saw battle as neither team scored in the first 3 quarters of play. With 6 minutes remaining in the last quarter, Frank Gutierrez, halfback, scampered 60 yards and was finally thrown out on the 8 yard line. He had another try at it and made it to the 4. Quarterback Mark Stone went to the 2 foot line and then strongman Mike Nelson at fullback pushed it in for the first score of the

ballgame. Gutierrez tried for 2 and made it 8-0 for the Warriors.

With time running out Brownfield got caught on a fake kick on their own 30 yard line and they pushed over the 2nd touchdown of the ballgame, adding 2 extra points. Final score 16-0 in favor of the Warriors.

Leland Sheets again was the big man on the tackle but this week was tied in unassisted tackles by Mark Nichols with 5, Anthony Hemphill with 5 and Marty Ivy with 5. Behind them was Mark Nelson with 4. It was a closer ballgame than the score indicated with the 8th grade coming away from Brownfield with their second straight victory.

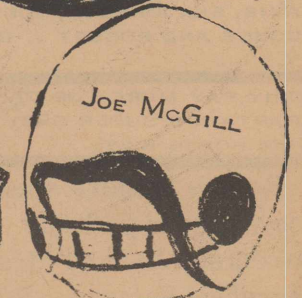

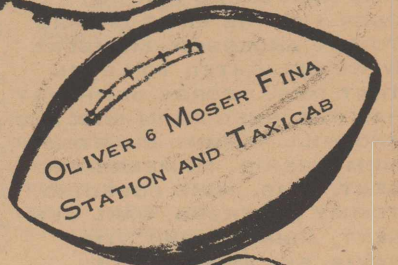

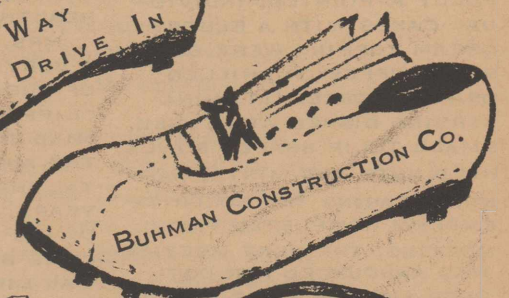

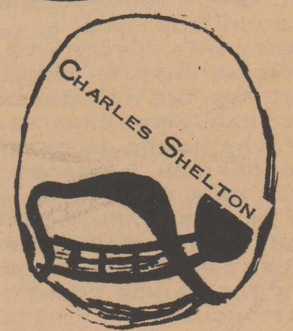

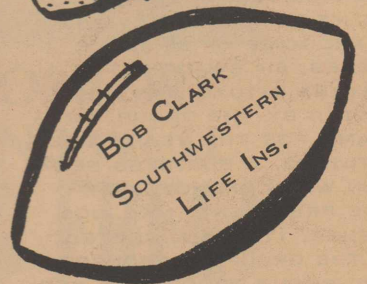

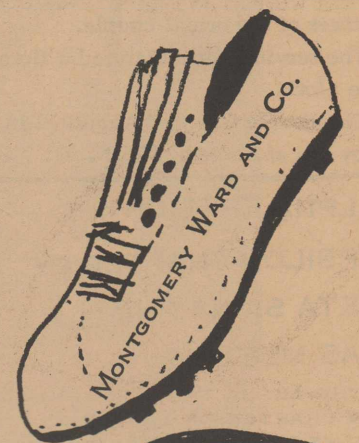

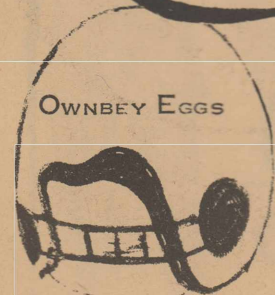

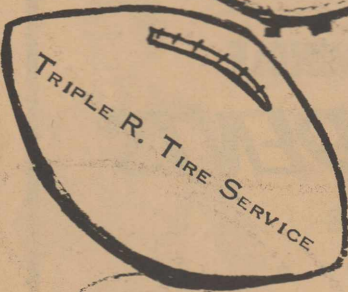

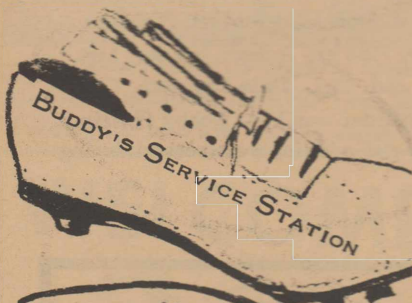

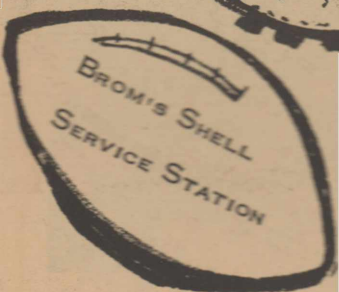

The Seventh grade (the all black uniforms) played hard last Thursday in Brownfield but were beaten 36-0 by the Brownfield Seventh.

SEMINOLE 0 BROWNFIELD 36

The 7th grade Warriors took it on the chin at the hands of the Brownfield 7th. The little lads from Warrior land could never cross the goal line and lost by the same score as the previous week, 0-36.

One of the officials added insult to injury when he told Coach Meyers, midway in the last quarter, "It looks like there's 20 minutes and 20 seconds left on the clock." Brownfield scored in each of the first 3 quarters and added 2 touchdowns in the final and 4th.

Wayne Stokes, volunteer fireman, is shown accepting a check from Dayton Elam, president of Gaines County Farm Bureau. Charlie Benson, Fire Chief for the Seminole Volunteer Fire Department, is holding a certificate of Participation that was awarded to Stokes for attending the Annual Texas Firemens Training School held at Texas A and M University July 19-24, sponsored by the Texas Farm Bureau Insurance Companies. The presentations were made Tuesday morning at the Gaines County Farm Bureau office. Gaines County Farm Bureau Insurance pays the Volunteer Fire Department \$75.00 for each country fire that they have to make if the claims is theirs.

THE STUFF SUCCESS IS MADE OF...

THE EIGHT PERSONALITY TRAITS OF A SUCCESSFUL EXECUTIVE

1. DRIVE FOR ACHIEVEMENT—THE NEED TO ACCOMPLISH.
2. DISSATISFACTION WITH MEDIOCRITY—HIGH STANDARD OF PERFORMANCE.
3. DECISIVENESS—ABILITY TO GRASP A BROAD PROBLEM, WEIGH SEVERAL ALTERNATIVE AND THEN COME TO A DECISION.
4. CONFIDENCE—ENOUGH FAITH IN HIMSELF TO ACT INDEPENDENTLY, TAKE A CALCULATED RISK, AN UNPOPULAR STAND.
5. SENSE OF PERSONAL RESPONSIBILITY—WILLINGNESS TO ACCEPT THE BURDEN OF DECISION-MAKING.
6. DISCIPLINE—CAN ACCEPT AUTHORITY WITHOUT RESENTMENT, CAN DISCIPLINE HIMSELF TO PLOW THROUGH A JOB, NO MATTER HOW TEDIOUS, AND COMPLETE IT AT A SPECIFIED TIME.
7. ORGANIZATIONAL ABILITY—CAN BRING ORDER OUT OF CHAOS BY RELATING SEEMINGLY ISOLATED FACTS OR EVENTS.
8. ABILITY TO HANDLE PEOPLE—INSPIRE THEIR RESPECT AND ENLIST THEIR COOPERATION.

THINK ABOUT IT... In 1900, every American family spent 40% of its disposable income on food. Today, the average family spends only 17% of its disposable income on food.

In the past 20 years, average farm prices have gone down 9%. Hourly earnings of manufacturing workers have gone up 127%. Corporate dividends have gone up 251%.

Today, it requires only 1 hour and 30 minutes of work to purchase those same items - plus built-in maid service of frozen orange juice, frozen ready-to-cook potatoes, and other conveniences of packaging. The remaining hours of work can be used to buy color TV's, boats, swimming pools, air conditioning, dishwashers, weekend cabins, and three-week vacations.

Sometimes folks just won't leave you alone and let you get your rest. This was the case with little Amy Rene Woodard, daughter of Byron Ray and Janet Woodard of Odessa, recently when her family wanted her picture made.

On August 23, 1630 Mass. passed America's first labor law; min wage of 1 shilling/ day.

Sometimes it's very easy if you know what questions to ask. For example:

The shoemaker's wife was very sick and he called the doctor. "Please, doctor, save her," cried the husband. "I'll pay anything, even if I have to sell everything I own." "But what if I can't cure her?" said the doctor. "I'll pay you whether you cure her or kill her."

A week later the woman died. The doctor sent the shoemaker a big bill. The poor man suggested that they go to the preacher to discuss the fee. The preacher asked the doctor, "What was your agreement with this man?" "He agreed to pay me for treating his wife," said the doctor, "whether I killed her or cured her." "And did you cure her?" "No." "Did you kill her?" "Certainly not." "Then, said the preacher (Joe Harber), "Under what contract are you claiming your fee?"

Seminole EDITORIAL

My father-in-law Ross A. Smith (deceased) was some sort of philosopher in his own right. He used to say "Walter, don't ever tell anybody that you've got the biggest house, the biggest watermelon, the longest snake or the smartest child. Somebody will always come by that can outdo it."

I like that story my aunt tells about the old judge who was so proud of his hometown lake. In discussing his home lake he told my aunt how far it was around the water edge and she told him about Amistad. He in turn told her how deep his lake was and she told him how deep Amistad was. And then she asked him how much capacity his lake held and he immediately shot back "You tell me how much your lake holds first."

One of my lifetime ambitions was to go through the RCA Building in New York City because it was so tall. Finally I got to go through it and a year or two later through the Empire State Building, 1250 ft. It's always been nice to tell people I've been on top of the tallest building in the world. Now I'm in trouble again. The new World Trade Center Building in New York is to outstrip the Empire State Building by 100 feet and recently announced is a Sears Tower to be put up in Chicago, 1450 feet high. The building will have 4½ million sq. ft. in it. It will house over 16,000 employees, 7,000 of them being Sears. The U.S. News and World Report says that it will be served by 102 high-speed elevator cabs, including 14 double-deck units - plus 16 escalators. An observation level is planned for the 103rd floor - 1,350 feet up.

And you think this is tall. Well, don't give up yet. None of these buildings even approaches the tallest skyscraper ever designed. Famed architect Frank Lloyd Wright in 1956 exhibited drawings for a mile-high structure for Chicago. The Wright building would have had 528 stories and would have been equipped with atomic-powered elevators for use by the 130,000 tenants it was planned to accommodate.

As my father-in-law used to say - just don't tell people you've got the tallest building in the world. That works overtime on some folks and they'll start dreaming. I recall his carrying in a sunflower to the bank in Ballinger that was 12 feet 8 inches tall (they'd offered a reward for the tallest one) and they met him at the door and said "Don't bring it in unless it's over 13 feet."

Mr. and Mrs. Tom Eaton have returned from their vacation in North Arkansas, around Horse Shoe Bend, Texarkana, Bridge Port and Snyder,

Texas. They visited their son and family in Snyder and brought their little granddaughter, Laura Eaton, home with them for a visit.

Homer Simpson and Raymond Patton must be the champion frog men in Gaines County. Sixty-eight frogs and two little fish. Frog legs are undoubtedly one of the eating delicacies coming out of the water. Various tales circulate as to the legs jumping out of the frying pan but Homer and Raymond will testify "It's not so." Bobby Davis said "Some of the legs are larger than drumsticks, better than chicken and as good as tame rabbit." If you've never eaten frog legs in gumbo, roasted over the fire, chicken fried, or fixed like fish, you've missed a treat.

We really enjoy the paper and look forward to it each week. We usually receive it on Friday and wish the mail would get here sooner.

Very truly,
Mrs. John Fitzpatrick

That is interference, too. Note the Lamesa defender hitting the Indian receiver, #41, before the ball reaches its intended target. The official is reaching for his flag in last Friday night's action.

The Seminole Indians played Lamesa real tough until the last quarter last Friday night and lost in the rain by a score of 25-0. The smaller Indians were sucked up by the Lamesa Tornados when they were over-powered by a much larger team.

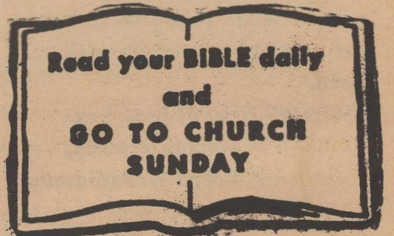

With 7½ minutes to go in the 2nd quarter, Lamesa finally was able to put points on the scoreboard. The extra point failed and the teams left for the halftime with the score 6-0 in favor of Lamesa.

The rain continued to fall and likewise the spirits of wet fans as the balanced team from Lamesa scored again with 4 minutes remaining in the 3rd quarter. The point after was good. The Golden Tornados came right back with 15 seconds to go in the same quarter and scored again, upping the advantage to 19-0.

Lamesa scored their final TD in the 4th quarter. The point failed. Final score Lamesa 25, Seminole 0. Rick Partain was the big man on defense for the Indians when he had 3 unassisted tackles, plus 15 assists, being in on 18 tackles for the night. He was followed by Everett Haller with 12 and Terry Ivy with 11.

Water builds and is necessary to maintain a country. The great cry of cities far and near is no water and not enough fresh water. Any plan to furnish water to cities and farming communities of Texas will be expensive. The portion of the map that's shown gives proposed routes for main channels and existing lakes and proposed lakes by bringing flood waters from the lower Mississippi and bringing it up across Northern Texas through Cypress Creek and the Sabine River to the Lubbock area, south to the South Plains, then on west to El Paso and west to New Mexico. No doubt the project would be years in building but think of the great potential wealth that would be gained in new reservoirs, new farming communities and the body of waters always lying to the north that could release waters to the Houston area, the San Angelo area, the Snyder area and on and on. Southern California, without the great canals feeding it from the mountain area, would still be a desolate uninhabited desert. Certainly the plan as presented by the Texas Water Development Board is a dream that would take many years to fulfill, but remember that Solomon made fruitful an arid land with a series of flumes and canals. This may not be the best plan, but it is a plan that will sustain a generation that will follow. I would like to think that my generation has not mined all of the oil, the gas and the water. Rather, I would like to believe that we left them with a source of fresh water that does not taste like the water in Odessa today and the taste of water in San Angelo. (It's sad when people passing through our town fill up jugs of water to take home to make coffee with.)

LOOP NEWS

BY EDITH ARMSTRONG

Loop Longhorns raced past Whitharral Panthers 34-0 on the Longhorn Field last Friday.

In the first quarter action sophomore quarterback Danny Yocom completed a 33 yard toss to fellow sophomore Monty Ancinec with 7:13 left in the period. The extra point attempt failed. Eddie Aldridge went across the two yards for the next touchdown with only seconds remaining. Yocom sneaked across for the extra points.

Aldridge scampered 20 yards for the third TD for the Longhorns but failed on extra points. The 142 pound sophomore Aldridge proved to be the man of the night as he again scored on a seven yard run. Yocom passed to Mike Boggan for the extra points.

After no scoring in the 3rd quarter, Aldridge ran seven yards for the final tally after defensive guards Wayne Freeman and Dennis Aldridge blocked the Whitharral punt.
