

# Navy Ready To Arm Vessels "As Fast As They Hit Port"

## House Okay On Plan Seen By Friday Night

### Knox Lauds Move; 1,200 Ships To Get "Protection"

(By The Associated Press) WASHINGTON, Oct. 15.—Secretary Knox said today that the navy was ready to put guns and gun crews on merchant ships "as fast as the ships come to us" once Congress authorizes such action.

Knox spoke as the House rules committee granted parliamentary right of way to legislation lifting the neutrality act's ban against arming the ships. Earlier the foreign affairs committee approved the proposal.

**Affords Double Protection**—We're satisfied now we can get enough guns to arm the ships," Knox told a press conference. The navy secretary explained that while there were not enough guns immediately on hand to arm all ships at once, guns would be available as rapidly as ships could be brought into port to receive them.

He asserted that the arming of merchantmen was a highly effective method of protecting them against both aerial and submarine raiders.

Under the special rule granted for consideration of the measure, the debate will run throughout tomorrow's session and for one hour on Friday. Leaders said they expected the House would pass the measure well before nightfall of that day.

Chairman Bloom (D-NY) of the House foreign affairs committee estimated on the basis of naval testimony that there were about 1,200 ships altogether that would need arms and that it would take about three months to do the job.

**Opposition Hopes Dwindle**—Guns on American merchantmen, Knox explained, probably would be in charge of chief petty officers, the smaller guns having crews of about 10 men each, and the larger guns about 16 men each.

**Rep. Mundt of South Dakota**, a Republican member of the committee who is opposed to lifting the neutrality act's ban against arming cargo vessels, conceded there would be little or no opportunity to amend the measure on the floor. The only hope of the opposition, he said, lay in a motion to recommit to obtain longer committee hearings.

## Regulation Of Travel Bureaus Held Invalid

AUSTIN, Oct. 15 (AP)—An act of the legislature to require licensing and regulation of travel bureaus was held invalid today by the Texas court of criminal appeals.

The act is the third attempt of a Texas legislature to regulate travel bureaus. Previous acts of 1933 and 1935 also were held invalid by the same court.

## Auto Output Will Be Cut

(By The Associated Press) WASHINGTON, Oct. 15.—Leon Henderson, OPM civilian supply director, today ordered a reduction of "at least" 51 per cent in passenger automobile production in January, 1942, compared with the January, 1941, output.

The slash, together with others previously ordered to conserve defense materials, means an overall reduction of at least 36.3 per cent in passenger car production for the first six months of the model year which began Aug. 1.

**No Guarantee Given**—Henderson emphasized that the January quota, which permits a maximum output of 204,848 cars compared with 418,350 produced in January, 1941, could not be guaranteed to the industry since sufficient materials might not be available.

Difficulties in obtaining steel, especially strip steel, indicated that production actually would fall below the maximum set, he said.

## Weather Report

**Watch Your Driving and Walking**

322

**DEATHLESS DAYS IN LUBBOCK**

WEST TEXAS—Mostly cloudy to night and Thursday with rain in central and southeast portions; cooler in southeast portion, warmer in Panhandle Thursday.

EAST TEXAS—Occasional rain in east and south portions, cooler tonight; Thursday partly cloudy except cloudy with showers in southeast portion, shifting in southeast and extreme east portions. Moderate to fresh shifting winds on the coast.

"GALLOPING GHOST" MARRIES—Harold "Red" Grange, the University of Illinois' famous "galloping ghost" of the gridiron and pro-football star, is shown with his bride, the former Margaret Hazelberg of Sagola, Mich., an airlines hostess. They were married at Crown Point, Ind., and first met while Red was flying to Des Moines, Ia., on a business trip.

## South Plains Crops Battered By Heavy Rains And Hail; Damage Is Increased

Further damage to crops, but of an extent impossible to estimate at this time, was done by rain which fell in Lubbock and over a wide area during a considerable portion of last night and this morning.

Heaviest rains in this portion of the state were in the vicinity of Snyder and near Lamesa. Hail fell heavily in both areas and at Phuvanna, leveling much feed and damaging open cotton. Some of the hailstones were as big as eggs, reports said.

**Dirt Roads Blocked**—Precipitation in Snyder measured 3.75 inches, in Phuvanna 3.52, above 3 inches in the southern part of Seury county and 2.35 in Lamesa. Additional rain either was falling or threatening to fall in each of those places. Dirt roads

there and in many other areas were virtually impassable and Deep creek, near Snyder, was running bank full to noon, according to a telegram from Leo Gunn of Snyder.

Skies still were heavily clouded in Lubbock and area as noon approached and more rain seemed to threaten momentarily. A temperature which hovered just above the 40-degree mark gave the air a definite chill, although it still was higher than the 44-degree

minimum that has been registered here during the early fall.

The precipitation total in Lubbock from 6 o'clock Tuesday afternoon until 6 o'clock this afternoon, as measured at the state agricultural experiment station east of the city, was .63 of an inch.

It increased the total for 1941 thus far to 34.97 inches, adding further to the all-time record for precipitation established several weeks ago. The figure is 3.09 inches more than the 31.88 inches measured during the whole of 1945; which was an all-time record during the 31 years that such official records have been kept here.

The damage from the rain has been increased, agricultural authorities said.

## Bombers Join Plane Search

(By The United Press) EL PASO, Oct. 15.—More than a thousand United States and Mexican troops on horseback and in mechanized units toiled today over desolate mountain and desert areas, bombing planes joined the search for a missing army plane.

The big, long-range bombers came from the air field at Albuquerque and were assigned to cover hundreds of square miles of rugged desert of northern Mexico. In the rough Juarez mountains, men mounted troopers from Juarez.

**Mountains Searched**—Planes from the 120th observation squadron, to which the missing ship was attached, scanned the timbered mountains of New Mexico as far north as 100 miles from El Paso.

Fort Bliss army men in scout cars and on horseback were assigned to New Mexico desert land over which the missing plane was last seen.

**Spreads To Mexico**—The search spread to Mexico after Major William Cahill, commander of the Biggs field army airport from which the plane took off Monday, to low a sleeve target over an anti-aircraft range 50 miles north of here, said the pilot might have become lost and crashed somewhere across the Rio Grande.

## Slaton Man Is Hurt In Auto Collision

R. T. Williams of Slaton, an automobile salesman, was taken to Lubbock hospital early this afternoon for treatment of injuries received in a three-way automobile collision at Fifteenth street and Avenue G.

Hospital attendants said he sustained a fractured jaw and collar bone.

Poller Traffic Sgt. Lewis Kirtrell, who investigated, said that cars driven by Williams, B. L. Anderson of Ralls and Rodney Jay, 1924 Twenty-third street, figured in the crash. Williams' car turned over.

## Court Rules Man Will Have To Make The Best Of His Bargain

(By The United Press) DALLAS, Oct. 15.—S. B. Friedman bought a new car that shows signs on his car calling it a lemon. If he violates the temporary injunction it will cost him his \$500 bond.

Friedman bought a new car in 1938. He told Federal Judge William H. Atwell yesterday it had proved no bargain. He claimed "everything" was wrong with the car. The dealer said there was "nothing seriously wrong"

## Drenching Rain From North Texas To Gulf

More Moisture Is Forecast For Most Of State; Rise On Trinity Expected

(By The Associated Press) Crop damaging rains, ranging from showers to more than 6 inches, extended today from North Texas to the gulf.

Opening cotton was hard hit in the northwest. Grain sorghums also suffered.

**Rise Due On Trinity**—Residents of the Trinity river lowlands were warned to prepare for a rise within the next 48 hours.

Further moisture was forecast for most of the state.

Abilene reported heavy damage to cotton in that area where the crop was 90 per cent open and less than 50 per cent picked. Rain

fall at Abilene totaled 3.2 inches in 24 hours with the fall at Lake Abilene, 20 miles to the southwest, 6 to 7 inches. Stamford received 5.74 inches.

**Wichita Area Soaked**—Wichita Falls got 1.52 inches and more was falling.

The San Angelo area reported moisture ranging as high as 4 inches at Maryneal with most cities in central West Texas receiving from .75 to 2 inches.

**Other reports:** Plainview, .36; Tyler, .59; Sherman, 1.57; Gainesville, .90; McKinney, 1.26; Amarillo, .53; Dallas, .54.

## Scurry Show Will Be Held

(Special To The Journal) SNYDER, Oct. 15.—C. T. McLaughlin, prominent county exhibitor of fine-gaited horses and chairman of the Scurry County Products show, declared today that "everything is in readiness for the curtain to rise Thursday evening on the greatest exposition of its kind in county history."

An elaborate formal opening will be staged Thursday night at 8 o'clock, at the products show grounds to a three-day exposition that is expected to be witnessed by 10,000 attendants before the bell-rung Saturday night.

**Many Events Planned**—This year's products show boasts a total of 346 separate events, largest number of events yet announced for a county show. Since no admission charges are made for seeing the Thursday through Saturday exposition, Texas Extension Service officials describe it as a "model for other counties to follow through on."

Products show attendants will find plenty of amusement and entertainment. In addition to a (Turn to Page 6, Column 6, Please)

## Jackie Coogans Are Expectant Parents

SPOCKTON, Calif., Oct. 15.—Jackie Coogan confirmed today that he and his recent bride, Mrs. Florence Coogan, are expectant parents.

"I'm thrilled," said the former child film star, now a soldier with an army motor unit here. Mrs. Coogan is living nearby.

## Mother Of Lubbock Woman Dies Today

Mrs. C. P. Smith, 82, resident of Grapeland, Texas, more than 50 years, died in her home there at 10:45 o'clock this morning, according to a message to her daughter, Mrs. W. R. Campbell, 1814 Avenue M.

Mrs. Smith had been in failing health many months. Funeral services are to be conducted in Grapeland Thursday afternoon. She will be buried in the family cemetery beside her husband, who died 19 years ago.

Surviving are two other daughters, Mrs. Wade L. Spruill of Kermit and Mrs. Ida Walling of Dallas, and three sons, W. L. Smith of Grapeland, Tumor Smith of Near Lamesa and Hiram Smith of Slaton.

Mrs. Smith was a native of Alabama but spent most of her life in Texas. She resided in Lubbock a short time after her husband died, but soon moved back to Grapeland. (Turn to Page 6, Column 6, Please)

## Medical Meel Is Continued

Panhndale District Medical society this morning began meeting in sections for discussions that could be elected by those attending from the wide-brim area.

A section on surgery and one on the eye, ear, nose and throat went into session in separate quarters at 9 o'clock. At 2 o'clock this afternoon a section on gynecology and obstetrics will be convened.

**Speakers Listed**—Dr. Guy Owens of Amarillo and Dr. E. O. Nichols of Plainview were chairman and secretary, respectively, of the surgical section; Dr. T. Hutchinson of Lubbock and Dr. C. E. High of Pampa, chairman and secretary of the eye, ear, nose and throat section; Dr. E. W. Jones of Wellington and Dr. O. R. Goodall of Memphis will be chairman and secretary of the section on gynecology and obstetrics.

For the surgical section, Dr. I. M. Draper of Borger was prepared to read a paper on "Observations on the Treatment of Burns"; Dr. C. P. Spruill, M.D., of Kermit, Col. P. J. Spruill, M.D., of S. F. A. C. S., chief of surgical service at Station hospital, Camp Barkeley, Texas, and associated (Turn to Page 6, Column 3, Please)

## Congratulations To:

Mr. and Mrs. Elmer S. Stapp of 222 Avenue G on birth of a son weighing 7 1/2 pounds at 10:40 o'clock this morning in the residence. Stapp is a mechanic. The infant was named Douglas Dewayne.

## Merchants To Talk Yule Decorations

A meeting of interested merchants probably will be called within the next few days to discuss more elaborate Christmas decorations in downtown Lubbock, according to information given at the chamber of commerce this morning.

An investigation of types of decorations and costs now being made by the chamber officials said. As soon as the desired information is available, the meeting will be called.

Officials said, however, that it already is apparent that the decorations may be difficult — perhaps impossible — to secure because of the defense emergency. If so, the present decorations, consisting of strands of colored lights, may be the only ornamentation available for the approaching holiday season.

## Huge Spending Plan Outlined

(By The Associated Press) WASHINGTON, Oct. 15.—William S. Knudsen, director of the OPM, outlined to a Senate appropriations subcommittee today a defense production program calling for the expenditure of \$66,000,000 before the end of 1943.

Chairman Adams (D-Colo) said that Knudsen, testifying on the pending \$5,985,000 lend-lease appropriation, had told committee members that tremendous strides were being made in stepping up defense production, expected to reach a peak and level off late next year.

**Charts Are Shown**—Knudsen displayed charts covering production schedules for the \$50,000,000 he said had been made available thus far for all defense purposes, adding that the proposed new lend-lease funds would be superimposed on those schedules.

Adams said another witness, Secretary of Agriculture Wickard, told the committee there was no inconsistency in the proposed purchase of \$1,000,000,000 of food for Great Britain and statements credited to the British food minister that England's supplies were greater at the start of the third year of the war than they had been (Turn to Page 6, Column 1, Please)

## Captured Ship Crew Held Without Bail

BOSTON, Oct. 15 (AP)—The United States held without bail today the 20-man crew and a woman of the seized Norwegian fishing vessel Busko, described by naval authorities as a supply ship for a now "disposed of" Nazi German radio station in Greenland.

Authorities maintained a close-lipped silence concerning the crew members, who listed themselves as Norwegians, and gave no hint of what the next move would be.

## Young Mother's Second Love Affair Is Ended In Tragedy

(By The United Press) FOR WORTH, Oct. 15.—The husband of Mrs. Laila Castello, 19, deserted her soon after the birth of her first baby.

But she fell in love again. This time it was 24-year-old Antonio Hernandez. Two weeks ago, Mrs. Castello said, Antonio proposed marriage and she readily accepted.

Then, last night, he drove up to her house and called her to the car.

"It's all off," he told her according to Mrs. Castello. "Do you mean you don't love me any more?" "Yes," said Antonio. "As her small baby cried in the house, Mrs. Castello took a pistol from her purse and shot Antonio to death.

Justice of the Peace Frank Hurley handed down an inquest verdict of murder. Mrs. Castello was free on \$2,500 bond.

## General Strike In Huge Steel Plant Feared

Union Threatening Walkouts To Gain New Wage Scales

(By The Associated Press) CIO steel workers today began an organizing drive which threatened to shut down the world's largest steel mill at Gary, Ind., while other units of the same union threatened to call strikes at all 27 plants of the American Can company unless a labor dispute at two Chicago plants is settled speedily.

The Steel Workers Organizing committee ordered pickets out at the Carnegie-Illinois Steel corporation's works at Gary, where 22,000 persons are employed.

**Negotiations Broken**—A union spokesman said the aim was to make the Gary works "100 per cent CIO" in a step toward the union shop. The plant has been busy with defense orders.

The threat of a strike through shutting American Can's operations allowed a breakdown in negotiations for new CIO contracts at two Chicago plants. The union has asked for elimination of a differential between wages paid in west coast plants and Chicago, also for a modified vacation plan and a union shop. Minimum wages in the Chicago plants were reported by the union to be 60 cents an hour for men and 51 cents for women, with the corresponding (Turn to Page 6, Column 4, Please)

## Mae West Planning To Ask A Divorce

SAN BERNARDINO, Calif., Oct. 15 (AP)—Mae West is going to ask a divorce from Frank Wallace, the actor whom she married in Milwaukee in 1911.

Wallace's suit demanding \$1,000 monthly separate maintenance from the actress has been transferred to Los Angeles county, Miss West's attorney, Kenneth Chantry, said she would file a cross-complaint to Wallace's action, asking for a divorce.

## Captured Ship Crew Held Without Bail

BOSTON, Oct. 15 (AP)—The United States held without bail today the 20-man crew and a woman of the seized Norwegian fishing vessel Busko, described by naval authorities as a supply ship for a now "disposed of" Nazi German radio station in Greenland.

Authorities maintained a close-lipped silence concerning the crew members, who listed themselves as Norwegians, and gave no hint of what the next move would be.

## Grandpa Warned Him About Modern Ideas

PORTLAND, Ore., Oct. 15 (AP)—Then, next night, folded in bed may be all right for city folks, but Warner Richmond thinks they're plumb dangerous.

He settled down for the night, away from his rural home, and one did just what grandpa always said they would — folded him right into the wall. He was treated for face and nose lacerations.

(By The United Press) FOR WORTH, Oct. 15.—The husband of Mrs. Laila Castello, 19, deserted her soon after the birth of her first baby.

But she fell in love again. This time it was 24-year-old Antonio Hernandez. Two weeks ago, Mrs. Castello said, Antonio proposed marriage and she readily accepted.

## The PLAINSMAN Says:

WASHINGTON — Lubbock's assistant chief of police, Bill Mabray, is now a full-fledged graduate of the National Police Academy.

Along with 36 other police officers from almost half the states of the Union, Officer Mabray Saturday completed an 11-week course, held under the direction of John Edgar Hoover and the famed Federal Bureau of Investigation — known less formally as the FBI. Thus, on the South Plains, he joins only Lubbock's police chief, Don Reeder, as a scientifically trained officer, schooled as only the FBI can school.

And, rightly, Mr. Mabray is very proud of the fact.

\*\*\* The Plainsman and the Little Woman arrived here just a few hours prior to the annual banquet of the National Police Academy, held in the highly ornate, gold and cream colored main ballroom of the Mayflower hotel. And it was our good fortune to be included among the more than 1,000 persons who attended the event heralding the completion of another successful police school.

In addition to the 36 officers completing the course, there were nearly 400 other officers — including representatives of all the states, Puerto Rico, Cuba and Canada — who had undergone "refresher" courses having in earlier years completed the main, 11-week curriculum.

The South Plains was represented by Congressman and Mrs. George H. Mahon, Mr. and Mrs. O. H. Hearne, of Seagraves, who had flown up to see assistant Chief Mabray get his sheepskin. And it was a very fine party indeed.

Not even John Edgar Hoover was permitted to make a speech — although he was kept busy all evening signing autographs. The floor show following the banquet was the finest The Plainsman had ever seen and the casual on-looker had he been advised of the nature of the event, would never have dreamed that the 800 or so young men present had dedicated their lives to the serious business of keeping the Peace.

The nation's top cops and their fellow celebrants — the headquarters agents of the FBI — unrestrainedly gave over their evening to fun and frolic. It was their big night — and they made the most of it.

\*\*\* WE crawled off a train from Baltimore shortly before 2 o'clock in the afternoon and be-

Then, last night, he drove up to her house and called her to the car.

## German Hordes Surge Nearer Reds' Capital

Soviets Admit New Menace; Invaders Make New Gains

(By The Associated Press) A fiercely-driven new menace to Moscow was acknowledged today by the Red army, which declared the Germans were swarming forward over their own heaped dead in a mighty attempt to turn the capital's Volga river defense flank near Kalinin, 95 miles northwest of Moscow.

Admitting that the Nazi masses of men and steel still surged forward, Red Star, organ of the Soviet army, said nevertheless that German paratroopers seeking a foothold behind the Russian lines had been wiped out and that Moscow's grim defenders had pinched off wedges thrust deep into their lines.

**Munitions Base Taken**—Some of the paratroopers were said to have been trapped behind the Kalinin line where armored units had smashed to the approaches of the city.

Directly west of Moscow, other German forces were reported in London to have rolled half way from Yazyzma toward the capital, and to the south the German press said the munitions-making town of Tula, 100 miles from Moscow, had fallen to the tightening Nazi semi-circle.

**Situation Critical**—Red Star declared the Red army's position the most critical of the war, and a high-ranking neutral observer in London commented: "Hitler for the first time in two years of war has thrown every available gun and tank into one attack, he has taken Moscow or destroy the Russian armies in the present drive—and he will may fail—Germany is finished until spring and might well have (Turn to Page 6, Column 5, Please)

## Civil Actions On In Courts

Two actions well-known in the Lubbock courts were being aired again today.

In the 32nd district court of Judge Daniel A. Blair was being developed a contest of the court's jurisdiction to appoint a receiver, something done in that court recently, and continue that receivership in the case of J. Lee Johnson, Jr. and others against Miss Christine DeVitt and others. All principals are stockholders of the large holdings of Mallet Land and Cattle Co., a corporation.

**Action Is Attacked**—Miss DeVitt attacks the receivership on the grounds none legally could have been created without a pleading that insolvency of the Mallet company was imminent.

In the 99th district court of Judge E. L. Pitts was the action of Mrs. Mabel Brophy against W. Brophy and Mrs. Florence Brophy, mother of W. Brophy.

Mrs. Mabel Brophy sued originally for divorce from W. Brophy and judgment to set aside several conveyances from W. Brophy to Mrs. Florence Brophy in interest of Mrs. Mabel Brophy's community property claims.

Early in August, Vaughn E. Wilson, Lubbock attorney, was appointed receiver of the property. (Turn to Page 6, Column 4, Please)

# Broad Trade Pact Between United States And Argentina Signed

## Two Nations Reach Accord

WASHINGTON, Oct. 15—Argentina and the United States entered a new phase of commercial collaboration today by virtue of a broad trade pact climaxing the "on-again-off-again" negotiations of 72 years.

The treaty was signed in Buenos Aires last night by United States Ambassador Norman Armour and Argentine Foreign Minister Ruiz Guinazu. It gave Argentina freer entry into the country of such staple products as canned corned beef, hides and wool. It assured the United States of continued "most favored nation" treatment in the shipment of automobiles, refrigerating machinery and radios without number to the rich agrarian republic to the south.

**Psychological Affect Noted**  
However, these advantages were considered by close observers of Latin American affairs to be minor in comparison to the psychological impact of the agreement.

The very fact that Argentina and the United States had at last reached a mutually satisfactory trade accord was seen as significant since for generations the two republics have stood at the opposite diplomatic poles when not actually at loggerheads. Argentina is a proud, well-organized republic, traditionally jealous of her influence in South America, and often critical of United States big business methods in the rest of Latin America. The United States frequently has sought Argentine collaboration, but until the present "good neighbor" era, has sought to impose her own terms.

**Criticisms**  
President Roosevelt called the treaty "a monument to the ways of peace" and Secretary of State Hull expressed profound satisfaction at its successful conclusion. But there was some criticism by those who contended the treaty would injure the farmers of the agricultural midwest and, in raising wheat, Senator Butler (R-Neb) declared that producers of beef, cattle, dairy products, wool and flaxseed were again to be "sacrificed under the time-worn excuse of a national emergency."

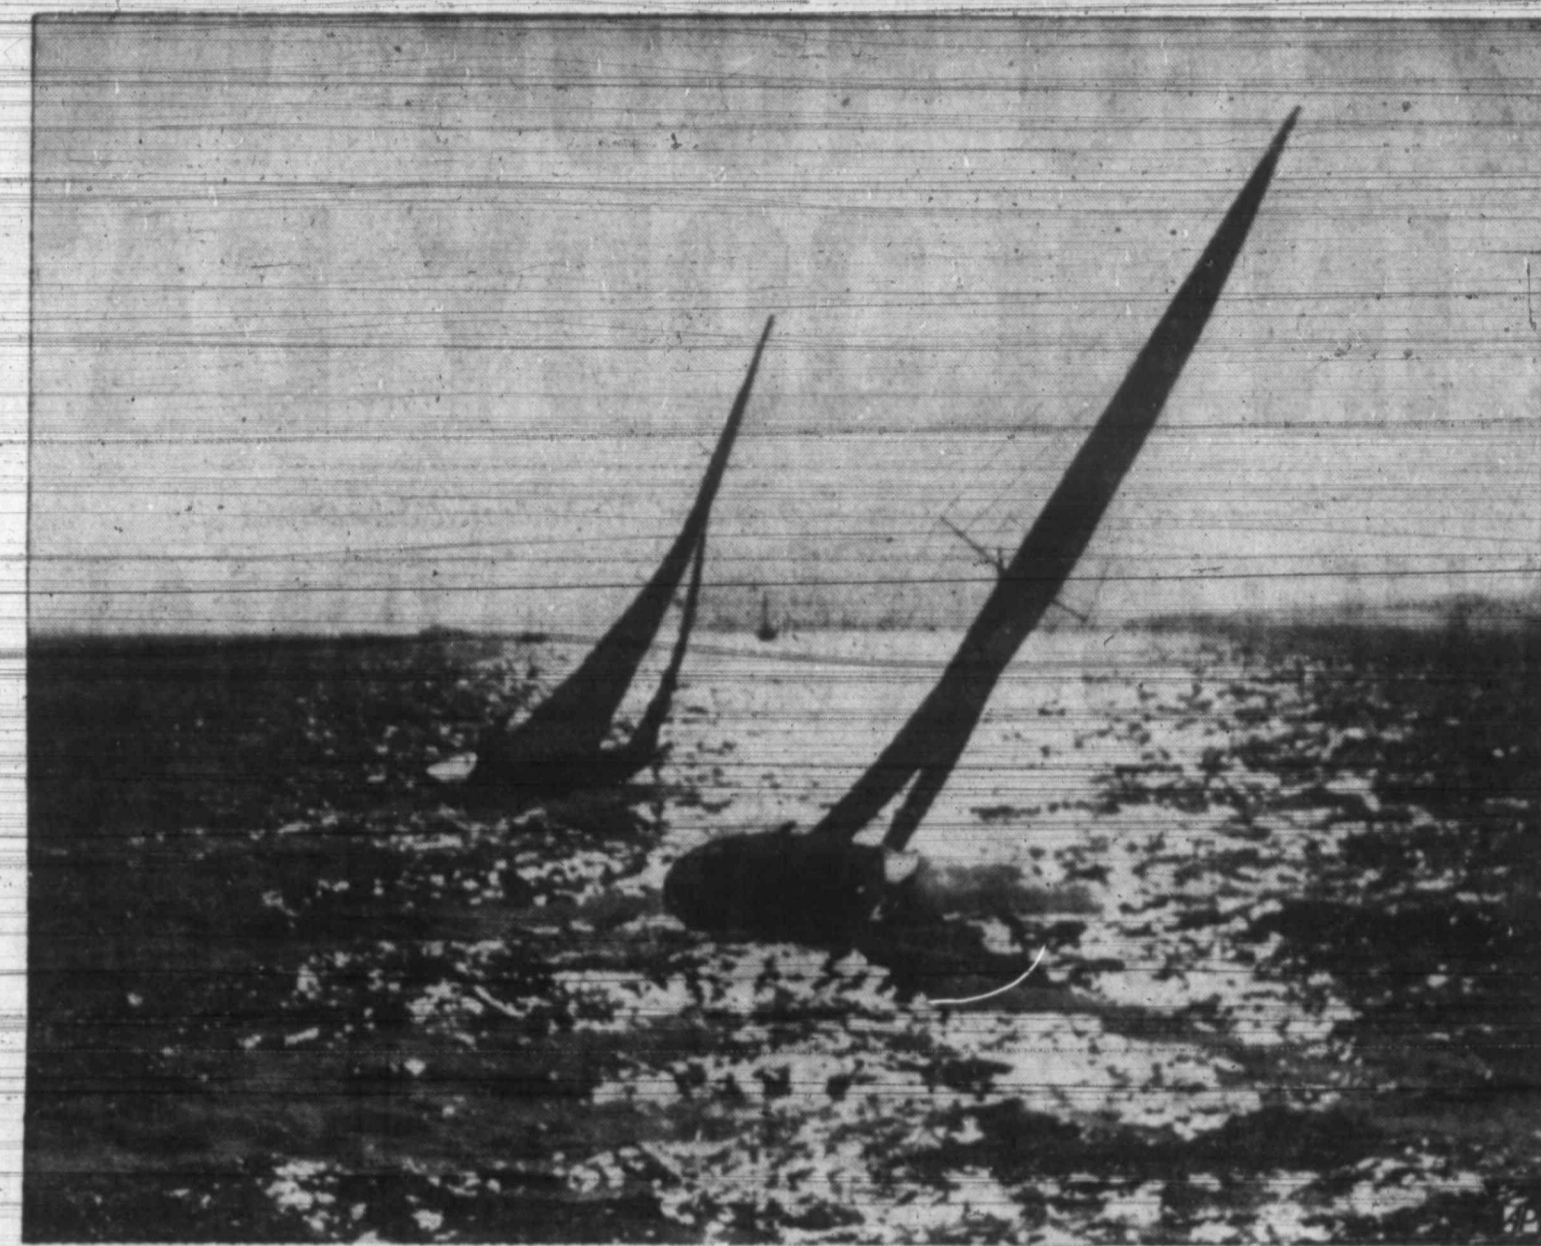

## Shipyard Expansion May Be Curtailed

HOUSTON, Oct. 15.—Expansion of the shipyard on the Houston ship channel may be curtailed if current labor disputes are not soon settled, Capt. W. A. Westervelt, president of the Houston Shipbuilding corporation, said today on his return from Washington.

Capt. Westervelt conferred with the United States Maritime commission and the OPM in Washington yesterday, he said. He added he did not know what action the government agencies might take.

A third picket line was established at the shipyard here today by Truck Drivers local No. 367, the 20th union which last week held a four-day strike at the \$3,000,000 San Jacinto ordnance depot project.

**WELL RECORDED**  
To keep track of the filling of each customer's order, approximately 100 separate printed forms are filled out by steel workers.

IN THE CRADLE OF A SUNSET—Shimmering waves cushion the roll of two "star" boats competing in the 18th annual International star boat championships off San Pedro, Cal. George Fleitz, sailing the "Wench," won week-old racing event.

## Blue Army Leading In Finance Drive

Despite the weather, 19 teams resumed the annual Lubbock Boy Scout financial drive this morning, according to Dr. W. B. Irvin, general chairman.

First reports from the three-day campaign at a coffee in Lubbock hotel Tuesday afternoon showed the "blue army" headed by C. H. (Brownie) Hamilton slightly ahead of the "red army" headed by Roy Furr.

**Another Report Today**  
Another "report coffee" in the Lubbock at 5 o'clock this afternoon is to be followed by a victory dinner there at 7 o'clock Thursday night.

Hamilton's army reported a total of 8044 points, or \$574, as compared with a total of 666 points, or \$529, reported by the "red army" of Roy Furr.

High team for the "blue army" for the first day was Watson Wilson's team and for the "red army" L. G. Harmon.

The \$1,103 collected the first day will be used for the purchase of the drive closes with a victory dinner Thursday night in Lubbock hotel.

The Swedish government has banned citizens from enlisting in any foreign military service except the Finnish.

## Official Court Records

**Marriage Licenses**  
E. A. Almon, 24, of Lubbock and Miss Virginia Allen, 20, of Tyler.

**Lubbock Courts**  
SOUTH DISTRICT  
E. L. Ellis, Judge Presiding  
Josephine Bowling against Bobbie Bowling, suit for divorce.

Dodge — A. F. Davidson, 2221 Seventh street, truck.

**CALLUSES**  
To relieve painful calluses, burning or tenderness on bottom of feet and remove calluses—get them this, soothing, cushioning pads.

**Dr. Scholl's Zino-pads**

## Progress For Wells Shown

The L. C. Harrison-Tobe Foster No. 1 E. L. Steck, wildcat oil test two miles northeast of Lubbock, is drilling below 3,000 feet in lime and anhydrite, according to reports Tuesday.

The well is being drilled "tight." No information as to formation markers is being released. However, it is understood to have encountered the Yates sand and the lime higher structurally than the discovery well of the county, Harrison and associates' No. 1 W. G. Nairn estate, three and one-quarter miles east by southeast. No. 1 Steck was 134 feet higher on the anhydrite than No. 1 Nairn.

In Crosby county, Callihan and Waggoner No. 1 Ed M. Wahlenmaier is temporarily shut down for orders at 2,335 feet in lime.

String of 5 1/2 inch casing has been cemented with 150 sacks at 4,789 feet in Ray A. Albaugh and Richmond Drilling company No. 1 J. J. Handley, wildcat in northwestern Dawson county. Total depth is 4,977 feet in lime which carried streaks of pay from 4,875 to bottom.

Likins & Hall, Midland, No. 1 Dr. E. H. Jones, northwestern Gaines county test scheduled to drill to 2,200 feet, has passed 3,850 feet in anhydrite.

In western Terry county, American Drilling corporation No. 1 W. T. Huffman is drilling below 2,200 feet in red rock. Top of the anhydrite is expected shortly.

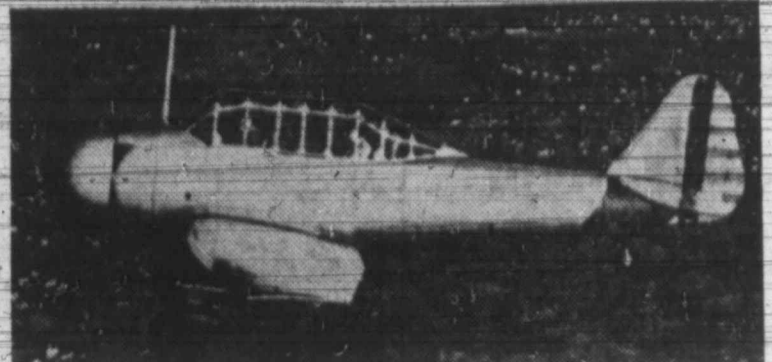

Derrick is up for Broderick & Calvert, Inc., Amon G. Carter and others No. 1 Hayward, central Bailey county wildcat nine miles southwest of Muleshoe, George P. Livermore, Inc., Lubbock, is contractor for the proposed 5,500-foot test.

In the Cochran county sector of the Slaughter field, Livermore No. 8 H. T. Boyd made 229.98 barrels of oil per day at 5,083 feet. Anderson-Pickard Oil corporation No. 1 flowed 437.40 barrels per day at 5,040 feet, and Magnolia Petroleum company No. 4 Mallet Land and Cattle company rated a daily flow of 1,415.48 barrels at 4,990 feet. All three wells were acidized.

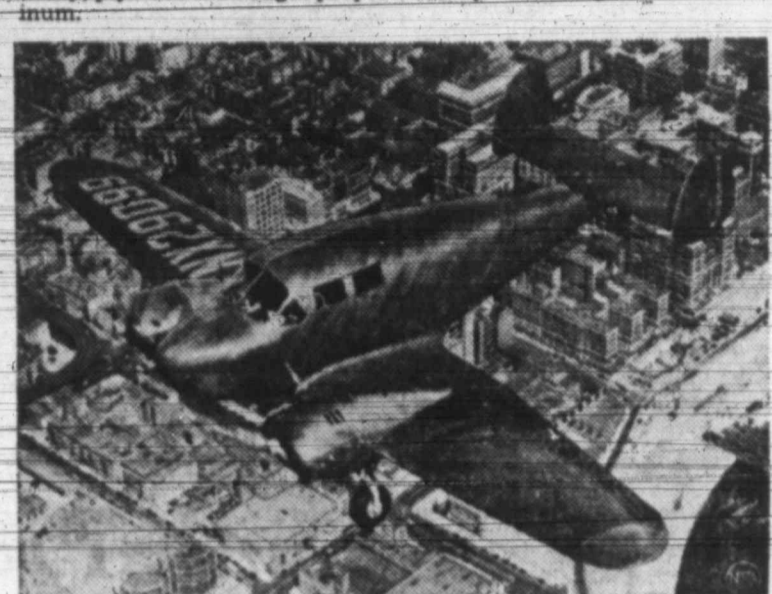

In the Hockley county part of the Slaughter, Texaco completed its No. 37 Slaughter for 1,545.60 barrels a day at 5,000 feet and its No. 3 Cattle Raisers-Neal unit for 1,007.40 a day at 5,012. Stanolind

The books contain lists of students, their Lubbock addresses and telephone numbers, their home towns, classification in college and church preferences. They also contain a list of faculty members, their addresses and telephone numbers and office hours, and also other employees. It also lists campus organizations and their presidents.

**NEURITIS**  
BELIEVE PAIN IN FEW MINUTES  
To relieve torturing pain of Rheumatism, Neuritis, Neuralgia, or Lumbago in a few minutes, get NEURITOL, the scientific formula, used by thousands. Dependable—no opiates, no work quickly. Must relieve cruel pain, or your satisfaction in few minutes or your money back. Don't suffer. Ask your druggist today for NEURITOL on this guarantee.

**SOMETHING NEW UNDER THE SUN**—These planes represent two recent and revolutionary advances in American aviation. Above: the first stainless steel military plane ever built, an Army trainer, soars over Bristol, Pa. Use of stainless steel eliminates riveting, resulting in speedier construction. Below: flying over New York, is a molded plastic plywood plane. Besides being cheap, plywood is stronger proportionately to its weight than aluminum.

Oil and Gas company No. 34-B shot, Humble No. 4-B Laura E. Blakemore, neither shot nor acidized, flowed 432.08 a day at 5,336 feet.

In the Seminoe pool of central Gaines, Harry W. Bass No. 6 Emma J. Austin flowed 626.48 barrels per day when completed at 5,210 feet after a 228-guart

## Acts 2 ways to help WOMEN!

"Just what I needed!" Every year many women say that after they've started using CARDUI! For they find it helps them in two important ways when they suffer from headaches, cramp-like pain, or some other form of periodic distress—due only to functional causes.

To help relieve functional periodic discomforts, start three days before "your time" and follow directions to stimulate appetite, improve digestion by increasing the flow of gastric juices, and help build strength. Probably the greatest benefit comes from using CARDUI both ways. Used for 61 years.

**Wonderful Relief for Itching and Burning of ECZEMA AND MANY SKIN IRRITATIONS**

Don't think you must endure these annoying symptoms of dry eczema, chafing or other skin disorders, externally caused. Apply soothing, medicated Resinol, and see how much it can help you. 45 years' use proves its efficiency.

For skin cleansing, use Resinol Soap—pure and gentle in action. Why not buy and try both today? For free sample, write to Resinol Co., Baltimore, Md.

**RESINOL OINTMENT AND SOAP**

**You can do it if you try!**

**BUICK BUILDS FOR DEFENSE**

Get equipment built: Log Seat & Whitney valve-in-head aircraft engines for defense use.

**POISED here as if for take-off is the gorgeous new creation which is the Buick SUPER for 1942.**

It is, as you see, entirely new and fresh in line and aspect—low and sweeping, clean of contour, solid as a combat car but graceful as a plane.

It is more than that, for here in durable metal is living proof that an old American tenet still holds true—you can do it if you try!

We had access to no materials in the building of this car that are not available to every other car builder.

But just put foot to treadle and let this big Buick valve-in-head straight-eight wing you up to a realization of what skill and ingenuity can contrive.

Drive it long and hard through a busy day—see not only how its tireless all-coil springs keep you rested, but how its frugal Compound Carburetion holds your gas mileage up where it belongs.

Push it, force it through the toughest going. It will take all you can give it and be ready for more, quicker than you can believe.

Why? Because the things that make some people say there could be no new 1942 models made Buick engineers resolve that if there were to be any new cars, they would be better ones.

So they bring you now the Buick SUPER, style leader of a line of no less than twenty-three sparkling new models.

These distinguished and serviceable cars are all ready for you to see at your Buick dealer's.

Drop in, look them over, and discover how wrong the fellow was who told you there wouldn't be anything new in the 1942 automobiles!

**No other car has ALL THIS FOR YOU IN 'FORTY-TWO**

# Violent Nazi Attack On Kalinin Increases Danger For Moscow

## New Gateway Being Sought

By DEWITT MACKENZIE  
Journal War Analyst

Moscow's very real danger has increased still further by the launching of a violent Nazi attack against the big industrial city of Kalinin, which lies only 95 miles northwest of the capital on the main Leningrad-Moscow railway where that line cuts the river Volga.

This means that the Germans are attempting to hammer open this gateway through the important bulwark which the great river affords the capital. The fall of Kalinin would create a grave position for the defenses.

**Trap Draws Tighter**  
At the same time the Germans claim to have captured Tula, 100 miles south of Moscow. Thus the attacking Nazi crescent before the beleaguered metropolis continues to draw tighter.

The Reds are defending their ground stubbornly. Meanwhile the much publicized weather finally is giving them some relief. Berlin itself today admits that bad weather and the mud developed from the snow and sleet are impeding operations and from now on will be the greatest enemy of the Nazi soldiers.

The fighting is furious, and reports indicate that the loss of life is terrible. I can't get out of my mind the Berlin story that in one sector the Nazi troops drove over the bodies of Red soldiers who fell as they advanced in lines 15 feet deep against the invaders.

**Bravery Deeply Moving**  
The steadfast bravery that Muscovite sacrifice is deeply moving. The Germans themselves must get a thrill from such devotion and discipline, for it is the sort of thing their own soldiers do so well.

And then inevitably comes the thought of what a pity it is that arguments between nations have to be settled by the slaughter of such men who, because of their young strength and courage and devotion could do so much toward making their world a better place for grand folk of their sort to live in. However, I'm forgetting that I'm a war analyst and not a preacher.

**Japan Is Worrying**  
To get back to earth, the Far East remains a likely spot to watch. The Japanese appear to be continuing to worry for fear they are missing a grand opportunity to attack Russia while Hitler's pressure against the Reds is so great. However, anxiety over what Uncle Sam might do keeps showing itself and may be the chief deterrent to a move by Japan against Siberia.

The Tokyo newspaper Chugai Shogyo pleads for new efforts to prevent a clash between the United States and Japan. The paper then naively discloses what really is in its heart by saying that the United States needn't be greatly affected if the European war is extended to the Far East, but that "Japan will face great pain." That would seem to be a plea for us to keep hands off in events. Nippon should decide that this is the appointed hour for an attack on Russia.

Caliber of the U.S. Army's coast artillery guns ranges from three to 16 inches.

**NEW 1942 HUDSON MAKES BOW**—This new 1942 Hudson Super-Six commemorates the 25th anniversary of the introduction of the first Hudson Super-Six, one of the most famous cars of its day. The new car are on display at the Southwest Sales Co., Fourteenth and Avenue J. Spotting in the new Hudson models is a wholly new development in driving ease known as the Hudson Drive-Master, longer, lower body-lines, new safety advances, mechanical refinements in operating economy and long life and new upholstery fabrics of greater beauty and durability. The car is known as the 25th anniversary model and represents a quarter-century of engineering development.

## Quartermasters And Signalmen Also Vital To Navy's Success

(By NEA Service)

WASHINGTON, Oct. 15. — A rowboat that arrives at the right place at the right time is of more use to the U. S. navy in battle than the biggest battleship that gets to the wrong place or to the right spot at the wrong time.

In the final analysis the whole navy is designed to be used as a single fighting machine. Each of its complex units—ships, planes, officers and men—is merely a cog that must mesh perfectly with other cogs.

If, therefore, your next letter from Joe, who has just joined the navy, informs you that he's working to get a rating as a quartermaster or a signalman, don't fret because he isn't a gunner. His job will be helping his ship get to the right place at the right time.

**Duties Are Multiple**  
The quartermaster in the navy is a very different thing from quartermaster in the army. The latter deals with food, clothing and transportation of soldiers. In the navy, the quartermasters work under the commissioned navigating officer of the ship, caring for navigating instruments and assembling data to aid navigation.

The men who wear the quartermaster's wheel on their sleeve and the gold anchor insignia of a chief petty officer pinned to the front of their visored cap have shown in practice and in theory (through written examinations) their knowledge of and ability to use all the highly complicated navigating instruments aboard ship. He has cared for logs, clocks, barometers, compasses and steering gear. He can take sounding, control signal apparatus from the bridge, knows

## Employees Of Store Guests At Dinner

Approximately 60 employees of Sears, Roebuck & Co., were guests at a dinner in Lubbock hotel Tuesday night.

The blue team, with R. L. McClure as captain, was winner over the reds, captained by Gerald Thrush.

Top prize went to Herbert Hodges. Second money went to Mrs. Kay Murray and third to Nat Mullins. There were 25 other winners and 15 employees remain in competition for a share of \$6,000 in national prizes.

W. C. O'Mara, manager, was master of ceremonies at the dinner. The anniversary observance ended Sept. 28.

Employees also discussed plans for the annual Southern Industrialization program, which opens Thursday and features Southern star sights to determine position, how to use tide and current tables.

## Higher Crude Prices Urged

(By The Associated Press)

TULSA, Oct. 15.—The clamor for higher crude petroleum prices which subsided in August as the government sought to freeze prices at the current level, is growing in volume again.

A major purchaser, the Phillips Petroleum company of Bartlesville, Okla., added its voice to the hue and cry this week with a proposal to Price Administrator Leon Henderson that prices be boosted 25 cents a barrel immediately.

**Seek Fair Solution**  
The reply from Henderson was a disclosure that the OPACS has begun an investigation of the price situation and plans to consult with producers "in an endeavor to reach a fair solution."

At the price administrator's request, the Bartlesville firm, which buys 25,000,000 barrels of crude oil annually in Oklahoma, Kansas and Texas, agreed to defer action on its proposal.

Frank Phillips, chairman of the board, reiterated in a memorandum to Henderson the contention often advanced in the oil industry that rising labor and material costs and higher taxes had made it unprofitable to search for new petroleum reserves.

**Might Return Tankers**  
The industry was interested, meanwhile, by a report that Great Britain's improved position on the Atlantic might enable her to turn back part of the oil tankers borrowed from the United States.

Transfer of the vessels which had been hauling oil from gulf ports to the Atlantic seaboard, resulted in the purported gasoline shortage in the east.

Prices, priorities and other pressing problems of the industry will be discussed during the coming week at meetings of the Independent Petroleum Association of America in Tulsa and the Interstate Oil Compact commission in Fort Worth.

In the field, the Oil and Gas made merchandise. Purpose is to promote the use of Southern-made goods.

**A HORSE ON THE GERMANS**—The mechanized Germans who found the famed Polish cavalry such a soft touch are running into a horse of a different color in Russia. The Soviets claim the Red horsemen are getting in telling blows against the invader. New picture shows Russian cavalry thundering to the attack, according to Moscow caption.

Journal reported that completions in Louisiana, Ohio and Illinois dropped off sharply during the month. The total was 627, compared with the most noticeable decline with 715 in the previous week.

**BRUCE CANYON VISITORS**  
Bryce Canyon National Park, in Utah, had 103,362 visitors in 1940, compared to 101,500 in 1939. The 1940 visitors used 21,949 private automobiles on their journey through the park.

The average speed at America's first automobile race Nov. 28, 1895, was 7 1/2 miles an hour.

## Pull the Trigger on Lazy Bowels, with Ease for Stomach, too

When constipation brings on acid indigestion, stomach upset, bloating, dizzy spells, gas, coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative-Senna to pull the trigger on those lazy bowels combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many Doctors have given pepin preparations in their prescriptions to make medicine more agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative-Senna combined with Syrup Pepsin. See how wonderfully the Laxative-Senna wakes up lazy nerves and muscles in your intestines to bring welcome relief from constipation. And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even finicky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative-Senna at your druggist today. Try one laxative combined with Syrup Pepsin for ease to your stomach, too.

# France Sam's Army Receiving Real War Test In Carolina Maneuvers

## Soldiers Given Fairer Chance

BY THOMAS M. JOHNSON  
NEA Service Military Writer

The first honest-to-goodness test of how the United States army would stand up in a real battle is under way. The great field maneuvers from October 6 to November 30 in the Carolinas will answer the country's question: "How're they doing?"

This test is so alone because the "Battle of the Carolinas" will cap the climax of the whole summer's mimic war. It is also true because, although the just-completed "Battle of Louisiana" showed more men in action than will the Carolina phase, the conditions on the southern battlefield were abnormal in the extreme.

**Weather Hampers Plans**

Rains and hurricanes so augmented the already extensive mud-component in western Louisiana that wheels, trucks and human feet were largely rutted in roads which became in reality causeways flanked by swamps. Daily news dispatches have not made clear how from a military viewpoint, that complicated yet over-simplified the whole business. Every second lieutenant knows that defense of a causeway is the easiest of all operations.

Nor did mud and hurricanes give tanks and the air force normal opportunities to learn to work together, which was a major goal of the whole affair. Ditto anti-air and anti-tank defenses. Thus such episodes as the wiping out of famous Lieut. Gen. Ben Lear's considerable force by horse-drawn cavalry who raided its gasoline supply, and navy dive-bombers who blasted it, while interesting, were hardly true to life. This clash of the Second and Third armies was not a fair test of the army's preparedness.

Yet the maneuvers brought together 340,000 officers and men, who learned a lot and, as general George C. Marshall said, "helped the army on its way to becoming a powerful machine with all its parts in close co-operation. That was the main object — to teach teamwork among infantry, artillery, aviation, tanks."

**The Army's "Report Card"**

As indicated here by official reports and opinions, here is how the report card reads today:

**Good—**

Equipment is increasing but we are short of ammunition tanks, anti-tank guns, radio sets. Equipment was well kept up, despite the mud. One armored division traveled seven million "tank miles" last only two tanks.

The Air Force is headed for "world's best," gives more planes and training. Quality of the present planes and airmen is fine, though youngsters especially need to learn cooperation with ground troops, which is much below the German standard.

Noncoms and men in general are the world's cleverest, not only in handling equipment but in handling themselves. Physically robust, they eat up long marches.

The activity of the maneuvers is improving morale, which is probably "over the hump" of officers' sav. But by 1918 standards, the discipline still is sometimes sloppy.

**Bad—**

Bad, compared with the men, are the officers. Perhaps 20 per cent should be fired—some generals, but especially younger men commanding smaller units. Many don't know the ABC of battle—how to feed out an enemy, protect their own troops, communicate. Many think the way to show initiative is to go it alone instead of working with their neighbors, especially in gathering and forwarding information about the enemy. The officer situation will improve with experience gained—plus an expected "purge" and the infusion of new blood now working up from the ranks.

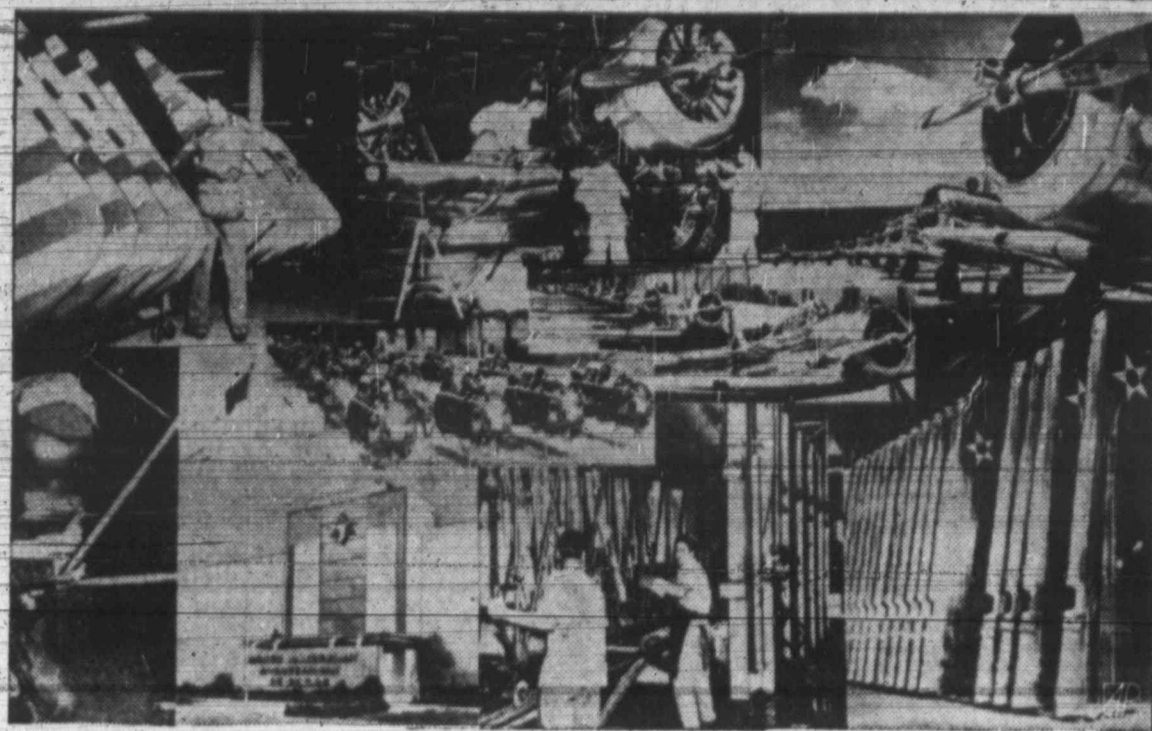

Troops was not always too well regulated, but that condition, too, is improving. The armored force probably needs more flexible organization. As for the anti-tank defense: much more experience is needed to teach this new section to shoot. More anti-aircraft defense is needed, particularly for airfields.

**Boasts Advantage**

That's where we are, sixteen months after France's fall shocked the country into building an army unparalleled in peacetime.

Today that army shows almost identical the same strengths and weaknesses it showed 23 years ago in October, 1918. Then it was able to turn the tide of the greatest battle Americans ever fought, the Meuse-Arzonne, ending World War I. The First army, A. E. F., did it, with, as chief of staff, the same Lieut. Gen. Hugh A. Drum who today commands the First army. U. S. Army that enters the climax of our greatest "sham battle."

Its chosen battlefield in the Carolinas affords advantages

**TEXAS AVIATION PLANT IN OPERATION**—These pictures indicate the progress which North American Aviation, Inc., of Texas has made in one year. The plant is located on a site near Dallas, where 12 months ago crops were growing. Top (left to right)—Tail structures stacked on the assembly floor; check of landing gear; completed advanced trainers on test ramp. Center—the ever-expanding lines of fuselages and completed ships on the assembly floor. Bottom—a welder at work; the front of the administration building; a rack loaded with parts going into the heat treat oven; a rack of completed wings.

## Tech Students Anxiously Watch For Mailman Checks, Food Or Just Plain News From The Old Home Town—They Want 'Em In A Hurry

By KARA HUNSUCKER

"Well, why wasn't that letter sent to the dorm?"

This question has been asked dozens of times daily by students eager for a check or by homesick freshmen anxious for news from home. Mrs. Willie D. Watson, postmistress at the Texas Tech station, has been almost distracted straightening out a stream of mail addressed merely to the college, with no dormitory designation.

**Things Brighter Now**

"But things are looking brighter now," Mrs. Watson declared. "Only a few letters are received incorrectly addressed, and since dorm lists are now available, we can quickly look up students' addresses."

The Tech station caters to some 4,000 students, most of whom purchase all stamps and send packages from the postoffice. This is incidental to the large volume of faculty correspondence that streams through the office.

**Big Problem Saturdays**

"Our biggest problem at present," stated Mrs. Watson, "is packages arriving on the 11:30 mail Saturday morning and containing perishable food. The office closes at noon, and we cannot possibly send notice slips to the dormitories in time to enable students to call for their packages. This occurs only when packages are insured, as others are sent directly to the dorms."

"However, those girls will usually eat anything from home even if it is a little stale, according to Mrs. Elizabeth Young, social director of Women's Dormitory No. 2," she continued.

**200 Daily Is Average**

An average of 200 letters is handled daily by the Tech station, with that number doubled on Monday mornings when the largest volume of mail occurs.

"From \$50 to \$75 in stamps are sold weekly," said Mrs. Watson, "and we keep a \$300 cash allowance rolling. Money orders for more than \$10 must be cashed at the city postoffice."

Over 700 insured packages and 124 registered letters have been received by students since the opening of school.

**Sunday Specials Arrive**

Dormitory co-eds are usually awakened on Sunday morning by "emergency buzzes," denoting special delivery letters. These let-

ters are sent directly to the dorms and are not handled by the Tech station.

"During the first several weeks of school, freshmen girls received by far the most mail," declared Mrs. Young. "But the upperclassmen have just about caught up with them by now."

**IT'S STILL MISSISSIPPI**

Name of the Mississippi river has been spelled four different ways since its discovery. Its Indian spelling was Meche-sebe; Laval changed it to Michispe; Labatte changed it to Misisipi; and Marquette gave it its present spelling.

Army chemists work on a 24-hour basis at quartermaster headquarters throughout the country, examining the quality and purity of all food shipments for soldiers.

# Mercantile Capital Of Midwest Engulfed In Wave Of Prosperity

## Banks Relieved "Boom" Note

**BY BOYD LEWIS**  
United Press Staff Writer  
CHICAGO, Oct. 15.—Here in the mercantile capital of the midwest payrolls are up, unemployment is down, department store sales are soaring and money in circulation has ballooned.

Out over the industrial suburbs the sky is black with the smoke of booming industries. A 30-mile strip along the base of Lake Michigan which produces much of the nation's steel is aglow by night and an impressive scene of human toil by day.

**Furs Selling Fast**  
In Chicago's loop district masses of shoppers are choking State street again.

"Everybody must be going to wear an imitation fox this winter," says Mildred Snow, clerk in fur store. "I've sold so many I don't think there's a woman left without one."

Alma Nathan, who sells suits and dresses in a department store, says: "I've never had a better month in commissions. Every woman who comes in here buys. She doesn't just take up all your time looking things over."

**"Mass" Purchases Made**  
"I've never sold so many dresses in 15 years," Esther Rose reports, in another department store. "I go home every night at 11 o'clock and my feet hurt something awful."

Martha Scott is selling gloves for \$6 a pair. They are American made from French skins. Last month they were \$5 a pair. "Some of these women are buying several pairs," Miss Scott says. "They time wear them out and buy another pair. Now they're scared about prices going higher."

**Figures Are Announced**  
The State street council is keeping track of this trend with figures and charts. Here's what the picture looks like statistically:

Eight department stores show a 30 per cent increase in dollar volume for September 1941 against September last year.

The same eight stores show a 14 per cent increase in unit sales. (There's a good measurement of the increase.)

Increases are noted principally in so-called "high class" merchandise, home furnishings, clothing. These eight stores increased their help 12 per cent.

Five women's wear stores showed a 37 per cent increase in dollar sales on a 20 per cent up in unit sales. They increased their working staffs 15 per cent.

**Taxes Have Affect**  
Four men's wear stores sold 28 per cent more units at a 31 per cent dollar increase. Their labor was increased 10 per cent.

The widest spread between dollar and unit increases was shown in jewelry. State street jewelers got 66 per cent more money for 21 per cent more units.

Mercantile authorities said some, during September was attributable to buying to escape the luxury tax effective Oct. 1. The impetus has carried right on into October.

**Banks Reflect Prosperity**  
The federal reserve bank has two good measures of prosperity. They show that in the Seventh Federal Reserve district money in checking and savings banks is up more than \$600,000,000 and money in circulation has soared to an all-time high. The 7th district includes Illinois, Indiana and parts of Michigan and Wisconsin.

The Association of Commerce notes 30 per cent increase in Chicago employment and a 40 per cent increase in payrolls. Building contracts in Cook county are almost double last year this time but government priorities may put a crimp in that program.

Telephones, electricity, consumption and use of surface transportation are sharply up. Livestock slaughtered follows the soaring trend.

**Looking To Future**  
The United Charities reports a 50 per cent decrease in unemployment and the Illinois emergency relief commission says its load is far lighter despite a law reducing from three years to six months the period of residence of persons eligible for public assistance.

A spokesman for the State street council said thousands of buyers evidently were pouring increased earnings into staple goods for use later when prices have followed their expected upward trend. There is one notable exception—

## A Leader among Laxatives

BLACK-DRAUGHT is a name you will want to remember next time you are lousy, uncomfortable—all for the need of a laxative. Not only because it is a best-seller among laxatives in the Southwest, but because of the reasons back of that!

For one thing, because BLACK-DRAUGHT is a mild, stimulating, easy-to-take, usually gentle and thorough acting when the simple directions are followed. Then, too, it is made from purely vegetable ingredients. One of these is a tonic-laxative which helps to tone lazy intestinal muscles. You get 25 to 40 doses for 25c. So, get genuine BLACK-DRAUGHT. ## Britain's Royal Family In Peaceful Respite From War Duties

Queen Elizabeth, left, watches with interest as Princess Elizabeth carefully counts stitches in her knitting.

"See what nice work your sister does," the King might be saying as he shows Princess Elizabeth's knitting to Margaret Rose.

Although King George and Queen Elizabeth of Great Britain frequently are photographed inspecting troops, munitions factories and performing other wartime duties, photographs of their home life are rare. The intimate glimpses of the royal family presented here were taken recently when the semi-official British Council filmed "Royal Road," a motion picture short in whose making King George personally assisted.

War seems far away as Princess Elizabeth, right, and Margaret Rose help their pet dogs across a stream.

## Architects And Engineers For Housing Project Are Approved

Contracts for architects and engineers for the \$15,000,000 Lubbock improved housing project have been approved by the U. S. Housing authority, according to report Tuesday by H. C. Pender, chairman of the local authority.

**Work Is Allotted**  
The architectural work will be directed by an association of three Lubbock firms: Haynes and Strange, Walker and Atcheson and John B. Roberts.

The civil engineering will be performed by Harry N. Roberts, Lubbock civil and consulting engineer.

Pender said percentages allotted to each firm would not be disclosed at present, minor details and re-appointment of certain structural designing remaining to be decided.

The announcement indicated progress has been continuing rapidly, though quietly on the federally-financed project designed to create improved housing facilities for lower-income groups and thus result in removal of slum districts.

**Three Sites Considered**  
Architects are working in the face of rising prices, on three possible sites for the project, all in the northern part of the city. They are directing their efforts toward economy and utility in land purchase, Pender expressed hope that the size of the plot can be reduced from an original estimate without loss of desirability of the dwellings.

When the site and plot plans have been approved, Pender said, the following steps must be taken:

1. The architects will start to work on tentative plans which will include general plans, listings of materials and dimensions.

2. Estimates of costs will be made and approved.

**To Provide 130 Units**  
3. Detailed plans will be drafted, specifications written and charts prepared. These will provide for 130 dwelling units of women's clothes.

"Men will wear the same style pants for years," this observer commented, "but a woman would perish if she had to wear last year's dress or bonnet."

Next step will be selection of an engineer and start of plans for the plant, it was said.

## Soybeans Shipped From Plains Area

A carload of soybeans, described as the first in that quantity to leave the South Plains, has been shipped from Lubbock to the Glidden company in Chicago, according to J. B. McCauley, the producer.

The car contained 90,000 pounds of a yellow edible bean, known as the Marcoupen, of a high quality, McCauley said. The crop came from approximately 200 acres, of which McCauley and his sons planted 120 acres and others brought the total to 200 acres. Production averaged 500 pounds per acre.

"Oil test for the beans was 19 per cent," said McCauley. "Soy beans are used for oil and for meal. Also, they are used by the big automobile manufacturers and others in plastics to replace metals used in the national defense program. We have about 12,000 pounds left."

The deal was handled through Lubbock Cotton Oil mill, who arranged with a Dallas firm for the securing of a market. It was explained that the oil mill is interested in securing development of the crop as an additional source of revenue for farmers of the area and that in the event production was sufficient, the mill would change over some of its machinery to press out the oil for the market, and also process the meal.

The producer, who with his sons operate irrigation farms north of Texas Technological college, said the beans were produced under dry land farming conditions and that they were not irrigated. He added that rainfall this year was more than sufficient and that irrigation was not needed.

McCauley and his sons diversify crops extensively, producing other crops than cotton and grain sorghums, as ensilage in the U. S. naval reserve. Capt. AWA D. Bernhard, station commander, will make the presentation.

## BOMBER FLIES HIGH

This voracious creature called variously Alexis Smith and Blond Bomber is higher in Hollywood's stratosphere than a Flying Fortress after meeting sweet success in her first starring pictures.

## Corpus Air Station Ahead Of Schedule

WASHINGTON, Oct. 15. (AP)—The navy announced today that the first class of aviation cadets to complete its work at the Corpus Christi, Tex., air station would be graduated Nov. 1, nine months ahead of the graduation date predicted when construction of the station was started June 28, 1940.

Forty-eight members of the class which began training seven months ago will receive diplomas, gold navy wings and commissions.

## Labor Statistician Opposes Wage Limit

WASHINGTON, Oct. 15. (AP)—Isador Lubin, commissioner of labor statistics, said today that "price increases made since August 1939 were enough to cover very substantial wage increases in the future as well as those already made."

Testifying before the House banking committee in its study of a price control bill, Lubin opposed any wage controls and contended that "fixing prices will automatically fix part of the wage structure. It will put a ceiling on certain wages."

The net labor cost has risen 1.2 per cent since 1936, Lubin testified, while net price increases in wholesale products average 20 per cent for all commodities, 30 per cent for raw materials and 11.2 per cent for durable goods.

Lubin said that any legislation fixing price ceilings should "make it possible for labor to get some of the increased prices that have gone to the manufacturer and never gone to labor."

**Assessors Told Much Property Not Taxed**  
AUSTIN, Oct. 15. (AP)—Assessment for tax purposes of all tangible property now escaping taxation would wipe out the state general fund's \$30,000,000 deficit, Kenneth Smith of Dallas told the first Texas Assessors institute here today.

The Dallas appraiser asserted one-third of all personal tangible property now goes unassessed in Texas.

A general discussion of assessing practices in Texas and elsewhere brought from Dan S. Moore of Baton Rouge, secretary of the Louisiana Tax commission, criticism of over-zealous assessors.

Moore asserted common sense and good judgement were the prime factors in good assessing.

Oct. 16—Flydada at Flydada.  
Nov. 1—Flydada at Flydada.  
Nov. 11—Flydada at Flydada.  
Nov. 20—Flydada at Flydada.

### Southwest Has A New Leader

**Steers Favored To Smother Arkansas**  
By TOM W. MILLER  
United Press Sports Writer  
DALLAS, Oct. 15.—With Texas' speed and precision personified by Jack Crain and Pete Layden, a pair of backs who have moved across the cattle country's football consciousness like a cyclone out of the Panhandle.

### Southwest Conference

The Southwest conference seems strong throughout but the first three weeks of campaigning have indicated that unless something happens quickly Dana Bible's Longhorns will dominate the section and land a choice bowl plum as well.

### Bible Plan Perfected

This Texas team represents the third phase of football in the Southwest since it came into its own with the emergence of SMU and TCU as national grid powers. Those teams reached the heights with a zazzle-dazzle and when they faced Texas A. & M. moved in with rawbon power featuring John Kimbrough.

### Speed Plus Precision

The basis of the Bible formula is speed, burning speed executed with the precision that only an all-senior team can master.

### More Hot Tests

Of the six other Southwest teams, four are undefeated and untied while a fifth, Southern Methodist, showed promise even in losing to Forham.

### Texas plays its first conference game

The weakest member of the circuit on the basis of early games. The Longhorns seem destined to stay around their average of 36 points for each of their first three games. Another conference game is Texas A. & M. vs. Texas Christian, which will bite into the unbeaten ranks.

### Rice, surprise winner over Tulane

Rice, surprise winner over Tulane, plays another Southeastern conference member, Louisiana State, while Baylor moves north to battle Villanova—SMU plays Auburn in Birmingham.

### Undefeated And Unscored-On Record— St. Mary's Eleven Must Draw \$25,000 Or Forget Football

(By The Associated Press)  
SAN ANTONIO, Oct. 15.—Analogous to the heroine striving to keep the mortgage from sweeping away her old pappy's all, the footballers of St. Mary's are figuratively ready to die for their college.

### Texans Making Pro Headlines

Former Tech Stars Also In Limelight  
BY HAROLD V. RATLIFF  
Associated Press Sports Writer  
DALLAS, Oct. 15.—Put all Texans playing professional football together and you'd have not only a whole-of-a-team but almost one-third of the combined roster of the National League.

### Has Bowl Elevens

This is a fair cry from a decade ago when Texas got its first player on the All-America team and felt flattered. Before that the East-West, Midwest and Far West looked patronizingly on the Lone Star state when football was mentioned.

### Set New Records

With the rise of football in Texas colleges, came this state's ascendancy in pro ranks where such stars as Sammy Dague, Dave O'Brien and Don Looney left a trail of broken records in their wake.

### Up From Schoolboy Fame

Baugh, who holds the pro league passing record with 111 completions for 1,397 yards and the punting mark with 51 yards average on 38 kicks; played with Temple and Sweetwater High schools.

### List Is Revealed

Here is the list of Texas college stars signed with National professional league teams at present: Cleveland Browns—Gus Edwards, night, Hardin-Simmons back; Riley Matheson, Texas Mines guard; Gordon Wilson, Texas Mines guard.

### Green Bay Packers—Ernest Pannell, Texas A. and M. tackle.

Detroit Lions—Rafe Nabors, Texas Tech center, signed but not on the Lions roster; Robert Turner, Texas Tech center; Charles Price, Texas A. and M. back.

### Brooklyn Dodgers—Bill Brown, Texas Tech back; Russ Cotton, Texas Mines back; Thurman Tugboat Jones, Abilene Christian college back; Dave Parker, Hardin-Simmons end.

### Washington Redskins—Kl Al-drich, Texas Christian center; Sam Baugh, Texas Christian back; Dick Todd, Texas A. and M. back.

Chicago Bears—William Hughes, Texas center; Clyde (Buildog) Turner, Hardin-Simmons center; Pittsburgh Steelers—Jay Arnold, Texas back; Joseph Coomer, Austin college tackle; Maurice Harper, Austin college center; Don Looney, Texas Christian end; John Sanders, Southern Methodist guard;

### Rice, surprise winner over Tulane

Rice, surprise winner over Tulane, plays another Southeastern conference member, Louisiana State, while Baylor moves north to battle Villanova—SMU plays Auburn in Birmingham.

INTRODUCING THE WESTERNERS—A couple of backs, a veteran and newcomer, are presented herewith. The veteran is Max Walthall, left, who has already won two letters and was a regular last season. He's the quarterback, weighs 155 pounds, excels in blocking and pass throwing, backs the line on defense. Douglas McCurry, right, is the newcomer, but his name is not unfamiliar to local fans. Big brother Lonnie played for Lubbock High and Texas-Tech, captained the Red Raiders in 1940. Both Lonnie and Douglas are known as Primo.

### This Afternoon's Sports Parade

### New Day Looms For Boxing As "Retreat" Banned; Cochrane Steps Out, Zivic In For Bout

BY HARRY FERGUSON  
United Press Sports Editor  
NEW YORK, Oct. 15.—The worst social crisis since Gene Tunney first broadened the letter "A" has developed overnight in cauliflower canyon. People are cutting each other dead. At high tea time, the automat is buzz-buzz with gossip. Eyebrows are up near the hair-line. It's definitely a job for the protocol division of the state department.

### It started yesterday when Mr. Red Cochrane, welterweight cham- pion of the world, sent an R. S. V. P. to Promoter Mike Jacobs, re- tiring his inability to be a party to the best-bustling soiree sched- uled for Madison Square Garden on Oct. 31.

Mr. Cochrane is miffed because his manager, Moulton Gilzenberg of the Newark, N. J., firm, is persona non grata with the New York State Boxing Com- mission. That means that M. Gilzenberg would not be able to be in Mr. Cochrane's corner to stanch the blood and give counsel when the gladiator goes battle with a dark-skinned bundle of dynamite named Pav Robinson.

### Zivic Is Delighted

Promoter Jacobs, upon receiving the R. S. V. P., summoned his social secretary and instructed that an invitation be dispatched to Mr. Fritz Zivic of the Pittsburgh Zivics Mr. Zivic, according to his first footman, will be delighted to trade blows with the dynamite.

### All this is preliminary to the reason for the feud between M. Gilzenberg and the boxing com- mission. The monsieur, not with- out his adherents. Two other prominent box vivants of cauliflow- er alley also are persona non grata with the commission, and for the same reason. They are Ray Arcel, who trains Lou Nova, and his flight (if I may use the word) with Joe Louis and Ray Carlen, the foremost Nova's manager.

It seems the two Rays counseled Nova to stay away from Louis during the early rounds, to box, faint and otherwise indulge in pugilistic subterfuge. M. Gilzenberg gave the same advice to Mr. Cochrane just before a recent en- gagement with Lew Jenkins, the commission, upon hearing the tid- ings, suspended Arcel, Carlen and the monsieur.

### The boxing commission is made up of a general (John Phelan), a colonel (Walker West), and some- what (William Brown), but none of these former soldiers believes in the tactical maneuver of retreat. It was pointed out to them that retreat is a general delivery, moved backward on occasion and

### Berg In Feature Of Texas Women's Open

FORT WORTH, Oct. 15 (AP)—Patty Berg of Minneapolis faced Betty Jane Mims of Dallas and Helen Dettweiler of Washington went up against Mrs. Lee Christop- her of San Antonio in today's top matches in the Texas Women's Open golf tournament.

### Norton Warns Frogs To Be Severe Test

COLLEGE STATION, Oct. 15 (AP)—Coach Homer Norton was speaking: "TCU has a fine line. It has allowed only 114 yards net from rushing in three games, and it has opened the way for Frog backs to go 450 yards.

# Match Play In Tourney Opens

Match play in the Lubbock Country club women's championship golf tournament begins this morning, with 15 players competing in two regular flights.

Mrs. Charles Akey won the medal yesterday with a score of 88.

Only fifteen players qualified for the eighteen-hole flights, lacking one of filling out two flights of eight, and only two qualified for the nine-hole bracket.

Officials announced that "beginners" or others wishing to compete in the nine-hole division would be allowed to qualify today, and start matches tomorrow. Matches in the regular flights were scheduled to begin today, but may be postponed on account of last night's heavy rain.

Mrs. Cliff Widener had a chance to beat Mrs. Akey's medal score, shooting a 42 on the front nine to lead Mrs. Akey's score by two strokes. But she faltered on the back nine, coming in with a 52 for a total of 94.

Mrs. Akey, who put together two 44's, is to play Mrs. W. F. Helwig in the first round; Mrs. Guy L. McAfee meets Mrs. Olan Key; Mrs. Widener plays Mrs. M. M. Brown and Mrs. J. H. Stiles meets Mrs. C. E. Deap to round out the championship flight.

In the second flight, Mrs. J. E. George meets Mrs. T. E. Patterson; Mrs. Gene Fowler plays Mrs. W. L. Morris; Mrs. Bill Freeman meets Mrs. Tom Duggan; and Mrs. W. F. Eisenberg draws a first round bye.

Mrs. C. I. Wall and Mrs. C. C. Caldwell qualified in the nine-hole division. Mrs. Caldwell is not entered in the tournament on account of illness.

Regular ladies day is to be observed today, with Mrs. C. E. Dean acting as hostess at luncheon, at the clubhouse.

Mrs. Cliff Deen, the defending champion, is not entered in the tournament on account of illness.

# Texas Pro Stars

(Continued From Sports Page)

Don Williams, Texas guard; Chicago Cardinals—John Clement, Southern Methodist back; William Davis, Texas Tech tackle; William Dewell, Southern Methodist end; John Hall, Texas Christian back; Ray Mahoney, Southern Methodist guard; John Higgins, Trinity guard; Fred Shook, Texas Christian center.

Philadelphia Eagles — Foster Watkins, West Texas State Teachers back.

New York Giants—William Edwards, Baylor tackle; Clinton McClain, Southern Methodist back; Marion Pugh, Texas A. and M. back; Jack Simmons, Baylor end.

The University of Arkansas has six in the big show—Maurice Britt and Howard Hickey, ends; Mill Simington, and Wilfred Thorpe, guards; Kay Eakin, back; and Kenneth Lunday, center.

# St. Mary's Eleven

(Continued From Sports Page)

receipts and guarantees.

A flock of stars who had not made the scholastic grade at their colleges came to St. Mary's and Russell also obtained a dozen or so ex-school-boy players from San Antonio. Then a few lads wandered in on the tide of publicity the Rattlers received last year.

Who knows what will be an elaborate double-decker, but introduced by SIMMS. And to spare expenses they use those old uniforms of red, white and blue.

# Morton High Seeking Coach; Gray Resigns

MORTON, Oct. 15 (Special)—Morton High school is seeking a football coach to succeed George Gray, resigned.

Gray will leave next week for Champaign, Illinois, where he will be a civilian instructor in mathematics in the army flying school there.

His successor at Morton has not yet been named.

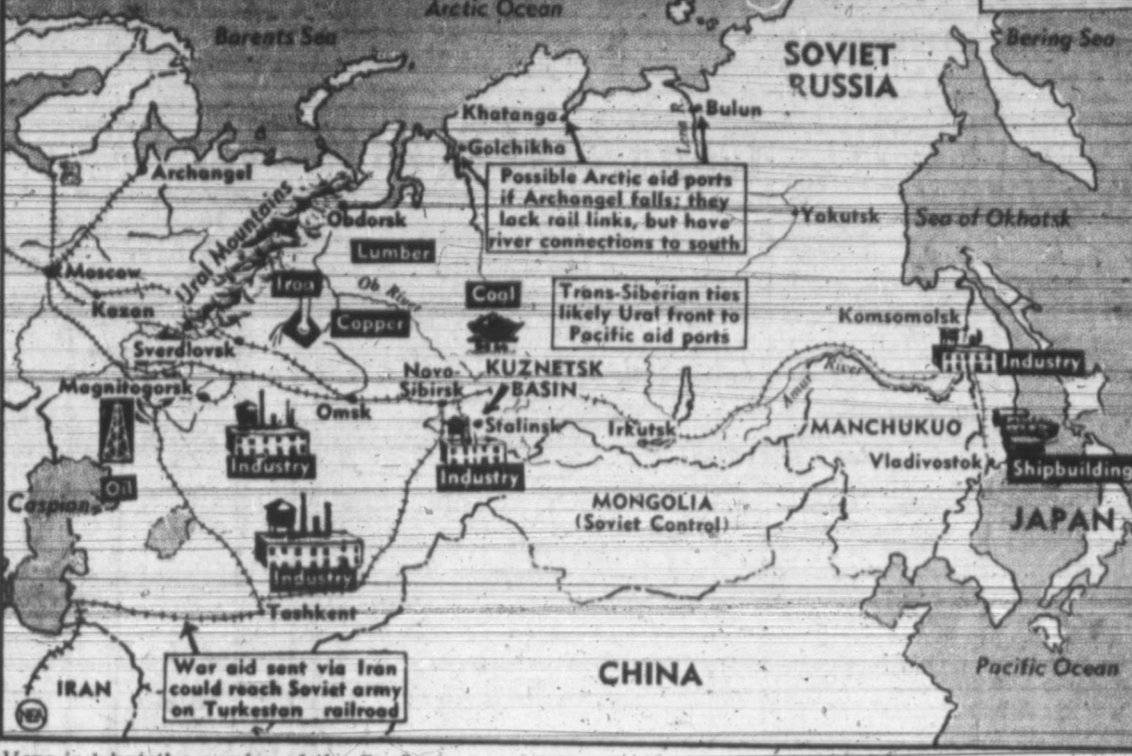

Gray turned out an outstanding basketball team last year, when the Indians went to the finals of the district tournament before losing to Lubbock. The cage team lost only four games the entire year, and won more than 25.

This year's football team, although it has won only a single game, has done much better than expected. Handicapped by a shortage of capable material, the Indians have nevertheless played fairly close games with four opponents of the strong District 5-A.

# APOSTOLI WINS TKO

WASHINGTON, Oct. 15 (AP)—Fred Apostoli, whose smashing fists won him recognition as world middleweight champion a few years back, climbed another rung on the comeback ladder last night with an impressive six-round technical knockout over El Brookman of Washington in a scheduled 10-round bout.

# EAST OF THE URALS

Here is what the armies of the Soviet have to fight with and for if Moscow and even all of European Russia falls to Germany. In the vast Siberian expanses east of the Ural Mountains—a natural defense barrier—are the minerals, resources, and industries necessary for carrying on a long war.

# Brief Bits Of News

**Has Minor Injury**—Charles Jordan, 24, was considered satisfactory in condition this morning in West Texas hospital, where he is receiving treatment for a minor back injury suffered in a freak accident early Tuesday afternoon at Sundown. Jordan, who lives at 1509-A Fourteenth street and is employed by Coca-Cola Bottling company, was unloading cases of beverages when he slipped from the truck and fell onto two empty cases lying near the truck. After he fell he was caught by the bumper of a passing pickup truck and dragged several feet. A Rix ambulance brought him to the hospital. He had no fractures.

**Daughter Is Born**—Mr. and Mrs. T. M. Lawson, 2413 Thirteenth street, are parents of a daughter, weighing 9 pounds, 9 ounces, born at 2 o'clock Tuesday afternoon in West Texas hospital.

**Housing Meet Tonight**—Render that directors of Lubbock Homes, Inc. are to meet tonight at 7:30 o'clock in the chamber of commerce to open bids on the construction of 40 rent houses for officers to be stationed at the army air school under construction near here. This meeting this morning by Harry B. Lewis, assistant secretary of the corporation.

**Market Directories Ready**—Directories for the semi-annual wholesale market sponsored by Western Wholesale Market association of the chamber of commerce, to be held in Lubbock hotel Saturday through Monday, were delivered this morning.

**Get Your Copies**—Ed D. Allen, county clerk, said he had received his copies of a digest of game, fish and oyster laws of the Game, Fish and Oyster commission and that hunters and fishermen may call for them.

**Set Up Shoot Trophy**—Don Reeder, chief of police, Capt. W. W. Legge of the state highway patrol and Capt. Maney Gault of the rangers, all of Lubbock, were appointed a committee Tuesday in spur to draw up rules and regulations for a competitive pistol shoot among authorities belonging to West Texas Law Enforcement association. The officials will meet every two months. B. L. Parker of Tahoka is president. Reports were made to indicate that the more than 60 officials present were having less trouble with rowdies and that police short wave radio was aiding them in their problems. Reeder invited officials to telephone their descriptions of wanted persons to KGZW, the short wave station of Lubbock police. South Plains officials have short-wave receivers.

**Birth Reported**—Friends here have learned of birth of a daughter to Mr. and Mrs. Henry Burkhalter of Austin Sunday. The infant was named Sara Virginia. Burkhalter formerly lived here.

**Supplies Not Received**—Application forms for renewal of Texas drivers' licenses numbered up to 450,000 have not been received at the district headquarters of the Texas Highway patrol here. According to information from Austin, they are being mailed to different points as fast as they can be received. Plans for renewal of licenses will be made upon receipt of supplies here, it was announced this morning.

**Police Investigate Minor Complaints**

Pele Bynum of 1611 Twenty-first street told police early today a tire, wheel and bumper jack aggregating an estimate \$29.50 had been stolen from his home at Seventh street and Avenue K.

Loss of a man's 21-jewel wrist watch in Mackenzie state park was reported by A. D. Weier of 1712 Avenue J.

Mrs. T. C. Ingram of 2621 Twenty-fifth street said her son Tommie had lost a suede jacket at the First Presbyterian church.

Police recovered two stolen bicycles.

A 17-year-old man and a 15-year-old girl eloped from Morton and were believed coming to Lubbock. Sheriff Tom Standefer of Cochran county informed police, who were asked to watch for the couple.

A Lubbock man said his 15-year-old boy had left home. He is 5 feet 5 inches tall and was wearing blue pants, gray shirt, black shoes and blue coat when last reported seen.

**NEW PELICAN MANAGER**

NEW ORLEANS, Oct. 15 (AP)—Business Manager Charles Hurth of the New Orleans Southern association club announced today that Fred M. "Pat" Ankenman, Jr., Pelican second baseman for the past two years, had been appointed team manager for the 1942 season. He succeeds Ray Blades, former St. Louis Cardinal pilot who became a coach for the Cincinnati Reds after guiding New Orleans to fourth place in the Southern association this year.

**To Take Examination**—Examination for a commission as an ensign in the naval reserve is to be taken in Dallas today by Roy Bass, Lubbock attorney, who left here Tuesday night. From Dallas

# FSA Meeting Set Thursday

Members of the state advisory committee of Farm Security administration are to hold a two-day conference here in Hilton hotel Thursday and Friday with regional and state leaders from Amarillo attending, it was announced this morning by Earl Wise and M. C. Wilson, district supervisors.

Members of the committee are: L. L. Jones, Garden City; D. L. Adcock, Lamesa; John L. McCarty, Amarillo; John Pratt, Colby; M. A. Pellers, Twity; James H. Crabtree, Beaver, Okla.; James P. Mann, Lakeview.

Others attending will be: Wilson, Cowden, regional director; Jesse B. Gilmer, assistant director; Henry Wilkinson, Texas director; Robert Jelinek, regional engineer; Homer R. Robbins, chief of tenant purchase division. Several other regional and district officials may also attend.

Discussion of regional and state problems will be held.

# Engineering Article Written

Carl L. Svensen of Lubbock is author of an article defining engineering and engineering education, carried in a recent issue of "The American Engineer," official organ of the National Society of Professional Engineers. Svensen is a student at the Texas state engineering school.

# Rain Interrupts Harvest

Fifty thousand pounds of blackeye peas has been harvested by W. O. Fortenberry of Monroe, but recent rains has discouraged possibilities of further harvest of the crop and of his pinto beans, he said.

# Juvenile Sentenced

A 16-year-old Lubbock youth who was arrested Tuesday on a forgery complaint was committed to a Gatesville reform institution until he reaches his 21st birthday, Judge G. V. Pardue of county court said late Tuesday.

# Damages Denied

Damages asked by Lewis G. Alford of Claude Keeton were denied Tuesday in a judgment signed by Judge E. L. Pitts of 99th district court. Alford had alleged injuries suffered when employed by Keeton.

# Engineering Society Meets

Four hundred students attended the first meeting of the semester of Texas Technological college Engineering society Tuesday night.

H. E. Godeke, head professor of the mechanical engineering department, led singing; members of the board of directors were introduced, and Dean O. V. Adams spoke. A slide rule, emblematic of outstanding work, was presented to Hugh A. Braley, petroleum engineering student from Delwin, Texas. Mack Atcheson of Lubbock is society president.

# Degree Work Given

Knights of Pythias lodge Tuesday night conferred the rank of acquire upon Bill Curry, W. W. Wadsworth, Charles McLeod, James Nix and Cecil Turner. The lodge entertainment committee announced a treasure hunt for Thursday night, beginning at 7:30 o'clock.

# Named To Committee

George S. Berry, Lubbock attorney, has been named to the legislative committee of the American Legion, department of Texas, the Associated Press announced Tuesday night from Austin.

# Condition Satisfactory

Condition of Troy Davidson, son of Mr. and Mrs. M. N. Davidson of west of Lubbock, was considered satisfactory this morning in Lubbock sanitarium following surgery Tuesday. He is a freshman student at Texas Technological college and was student manager of the Lubbock Westerners football team last season.

# Troops Resume Journey

Journalists in Fort Sill, Oklahoma, were resuming their journey by 45 members of Company I of the 23rd quartermaster's regiment who spent Tuesday night in the vacant CCC buildings at the fairgrounds following their arrival from Fort Bliss. They are traveling aboard 19 army transport trucks. Lieut. J. W. Miller is their commanding officer.

# To Take Examination

Examination for a commission as an ensign in the naval reserve is to be taken in Dallas today by Roy Bass, Lubbock attorney, who left here Tuesday night. From Dallas

Clara Beth Woodall, Miss America of 1941, posing in a swimsuit.

# Tech Judgers After Honors

Dairy products and livestock judging teams have left Texas Technological college to compete in judging contests.

The dairy judging teams, accompanied by Mart G. Pederson, coach, left Tuesday. The four students making the trip, one of whom will be alternate, are Millard Githman of Hughes Springs, Joe McGregor of Lubbock, Roy Moffett of Camp Springs and Peyton Tucker of Tahoka.

**To Be In Canada**

The contest, in which approximately 20 teams of the United States and Canada will take part, will be held Monday in Toronto, Can. In connection with the International Dairy Industries exposition, in the 25th annual competition last year, Texas Tech's team ranked ninth.

The team will visit the National Dairy show at Memphis, Tenn., en route to Canada.

The livestock judging team planned to leave at noon today, accompanied by Ray C. Mowery, team coach, to compete in the American Royal Livestock show judging contests at Kansas City Saturday.

**Members Of Team**

Members of the team are: Haynes Baumgardner of Wellington, William Griffin of Eola, Ollie and Warren Limer of Wolfroth, J. T. Rodgers of Lubbock, J. P. Shupe, Jr., of Tulsa and Johnnie Starkey of Muleshoe. Five of the group will judge, two being alternates.

The party will stop at Stillwater, Okla., to do practice judging at Oklahoma A. & M. college. Arrival in Kansas is scheduled for Friday in Chicago.

Mowery and the students will return to the campus a week from today. The trip will be made by automobile.

Eire has restricted the amount of personal clothing a traveler leaving the country may take with him.

# WAKE UP YOUR LIVER BILE

Without Colomel—And You'll Jump Out of Bed in the Morning Rarin' to Go.

The liver should pour 2 pints of bile into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just soak in the bowels. Then gas builds up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those good, old Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "B-Y-A-H!" Effective in making bile flow freely. Ask for Carter's Little Liver Pills. 10¢ and 25¢.

(Continued From Page One)

fore we knew it we had been whisked to the Washington zoo to view - of all things - the "unveiling" of a Texas Longhorn steer.

It all happened this way. Some time ago, the curator of the Washington zoo decided that in keeping with his desire to present a true animal picture of the world to his thousands of daily visitors he should have a Longhorn steer. New York's Central Park zoo had one. Why not Washington, he reasoned. So he turned, in his dilemma, to Texas Congressman Wright Patman, of Texarkana.

Mr. Patman turned to Amon Carter, potent Fort Worth publisher, who, in turn, turned to Joe Montague, of the Texas and Southwestern Cattlemen's association. Mr. Montague came through and today a Texas Longhorn steer with a horn spread of eight feet and one inch - is more or less contentedly munching his cake in the big zoo on the outskirts of the nation's capital.

Texas here wouldn't think of missing an opportunity to get together, so the presentation and acceptance of the big steer - named "Gatedo," which is Spanish for "Cattle," - was arranged as a gala affair. Leaders of most of the capital's big Texas names - plus a lot of its visiting firemen from Texas - were on hand for the event, whooping, hollering and singing such ditties as "The Eyes of Texas," "Home on the Range," "The Last Roundup," and "Git Along, Little Dogie, Git Along." The latter song, especially, would have been much more impressive had not the song leader, a locally celebrated vocalist, insisted upon pronouncing it "doggie."

But, anyhow, it was a lot of fun.

ABOUT the only big name Texan in Washington who was missing from the "steer unveiling" was Senator Tom Connally, who was closeted at the time in the White House with President Roosevelt in a conference on proposed changes in the Neutrality act.

Moore-tall Jesse Holman Jones, of Houston, who doubles in brass as Secretary of Commerce and RFC boss and who is one of the most powerful men in the nation, was there having fun. So was Texas' new junior senator, the Hon. Wilbert Lee O'Daniel, who not long ago in a public speech had Sam Houston fighting and dying in the Alamo.

Secret Voyage

BY JOSEPH L. CHADWICK (Copyright, 1941, For The Journal)

YESTERDAY, Mary Larsen tells Jim she is no longer interested in the Sonora, but she refuses to believe her. The next morning Curly Bates and Jim try to get in the first mate's cabin of the Sonora but fail. The Cuban shoemaker is sighted just before dawn, and Jim, sensing trouble, decides to go down in a rubber suit at night and then leave, before morning. Before he descends Blacksheep tries to talk to Jim, but Curly pushes him away. When Jim gets into the cabin, he finds several wooden cases filled with gold bars. He calls to Curly on the phone to lower a line, but the phone is dead. No air is being pumped down to him.

A MILLION IN GOLD CHAPTER XII Jim's head reeled. A curious numbness stole through the whole of his strong body. He could feel the water, though, seeping in through his rubber suit because of the falling air pressure. He wondered in a vague way, if he'd suffocate or drown first.

He tried to call Curly on the phone, but his voice was only a thick weak sound and the buzzing in the earphones told him nobody was listening. His tongue was a thick wad in his mouth, his eyes had weights on them, and his nose began to bleed. His lungs felt caving in.

This, then, was what the end was like. 247 feet down. It was all pain and horror, then blackness like this...

There was something solid under him when he came to. He opened aching eyes and found himself in his cabin, lying on his bunk, with someone sitting silently beside him. He turned his head toward the man.

It was the man of the careful voice and careless manner. He grinned, a friendly sort of grin, without malice. "Have a drink, Mallory baby, and you'll be all right."

A bottle was held to Jim's lips. The liquor burned his throat. He lay awhile, then said hoarsely, "So we meet again, Halloran?"

"Right. And under different circumstances. This time, old man, I do the talking. My crew has yours covered with guns that will shoot. We had to knock out that black boy and the bald guy and lock them in the fo'c'stle. The others didn't want trouble. You're a sneaky guy, Mallory, going after a million in gold - unearned. Did you underestimate me?"

"Not that," Jim said. He sat up, even though his head spun. "I knew you were tough and smart. You see, I didn't know about the gold."

Hold Everything!

"Hey, Mom - how about being patriotic and paying the defense tax on a movie ticket for me?"

Today's Journal Editorial

INVESTIGATION OF THE REA? Someone of identity, not clearly disclosed is reported to be attempting to stir up a Congressional investigation of the Rural Electric Administration.

Perhaps those behind the movement have been wise in not permitting themselves to be revealed too clearly. They might discover they have stirred up a hornet's nest costly to them.

It is not to be supposed that the REA has been perfect in its operations. Possibly there have been abuses and faults - even more of them, perhaps, than allowance should be made for when considered that the REA is something new.

But, so far as the South Plains are concerned, it is a fact which cannot possibly be questioned that there are thousands of farm homes with the pleasures and benefits and comforts of electric power today which would not have them without the REA.

It is not to be supposed that the REA has been perfect in its operations. Possibly there have been abuses and faults - even more of them, perhaps, than allowance should be made for when considered that the REA is something new.

Today's Thought Can a man take fire in his bosom, and his clothes not be burned? - Proverbs 6:27. Fire is the best of servants; but what a master! - Carlyle.

Walter Winchell

ON BROADWAY (Copyright, 1941, for The Journal)

NOTES of a New Yorker: It could only happen in the movies, eh? Well it happened over at a New York afternoon paper, where the city desk was supposed to assign a photographer to cover the war maneuvers in South Carolina.

The Navy is very active these days. Ensign Hall is conveying lovely Mary Jane French, the Conover model. Robert Taylor, the star, will fly his own plane E a s t from the Hollywoods.

JOHN Murray Anderson's place in California closed over the week-end. Didn't last a month, which is tough for Anderson, who always stages such beautiful shows. It may tour as a unit.

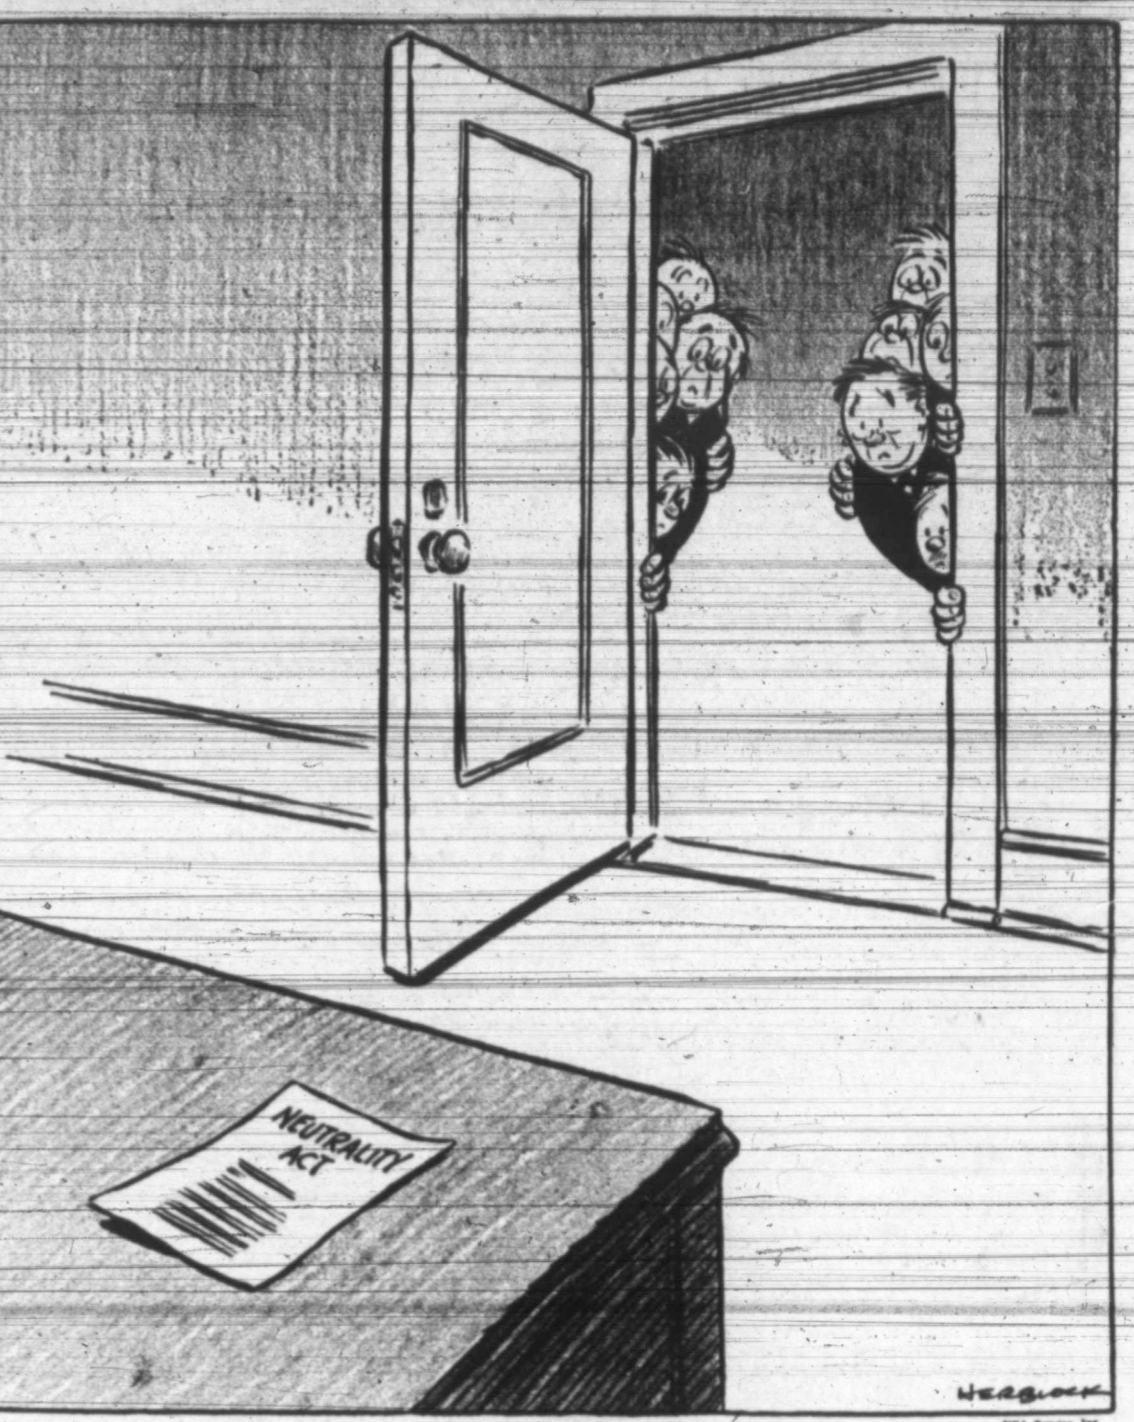

The Andrews Sisters will get \$5,000 per week when they come to the Paramount Theatre October 15th.

THE gal whose lips are used in those lipstick ads is Connie Ford. Statements tell you that in the attempted Nazi invasion of Sept. 13, 1940 - sixty thousand dead - she was swayed up on the Kent coast.

Swankiest audience this season greeted Gilbert Miller's "Anne of England" at the St. James.

REMEMBER Katherine Emery? She was the lovely one in "Children of the Night." Well, she's now emoting "Sundays on the Shadow." The Nat'l Defense crisis may do away with a public enemy the gov't hasn't been able to smother.

Congress Looks It Over

Size Of Government's Staff Scars Some People OGR - Ogre Of The Information Services

WASHINGTON, Oct. 15 - All discussions of whether or not the United States government and the Roosevelt administration in particular is engaged in propaganda - press agency and kindred unethical evils usually begin by someone pointing at the Office of Government Reports and saying, "See!"

Lowell Mellett, director of OGR, recently committed to writing his own opinion on that topic, which he has been telling everyone who would listen, ever since the matter was mentioned.

It is the mere size of the Office of Government Reports which scares a good many people. Its Washington staff numbers 328 people with a payroll of \$627,486.

OGR has grown from nothing to this size in seven years and whether OGR is propaganda or not, its growth is characteristic of the way the whole public relations program of the government has mushroomed beyond anything imagined in boom times before the depression.

Down section of crossword puzzle with words like Sewing, Implement, Promote, Disarrange, etc.

defense program has changed that. One of the jobs OGR has given itself is to take all the press releases of all the other government agencies and boil them down into a daily information digest.

Defense, and so on.

**Movie, Radio Go-Between**

FROM the above half-dozen paragraphs it can be seen that OGR is now definitely in the hand-out business, though not on the wholesale proportions of some of the independent departments and bureaus. But OGR's work is not limited to the press.

It has radio and moving picture departments, and is the official contact office for the radio chains, the independent stations, the news-reels and Hollywood producers.

"It may be that we propagate the doctrine of democracy by the simple process of making available to the people all possible information concerning the workings of their government," writes Director Mellett in the Atlantic Monthly. "If that is what is meant by propaganda, let's hope we are guilty."

### Band Day Set For Saturday

Invitations have been accepted by 13 bands made up of about 650 individuals to participate in the annual high school band day program at Texas Technological college Saturday, according to D. O. Wiley, director of Tech bands.

Others are expected to attend. Those who have accepted are Lovington, N. M., Andrews, Post, Lamesa, Crane, Seminole, Crosbyton, Slaton, Lubbock Senior High, Lubbock Junior High, Knox City, Hale Center, and Sudan bands.

Plans are being made for a downtown parade at 4 o'clock Saturday afternoon, Wiley announced. The parade probably will form at Avenue Q and Broadway, go down Broadway to Texas avenue or Avenue G, across to Main and back to Avenue Q. Between 800 and 900 musicians are expected to take part in the program, said Director Wiley. The bands have been invited to report to the field at 7 o'clock and time will be available for marching or stunts of several bands between about 7:10 o'clock and time for the field to be cleared for football players in the Texas Tech-Centenary game scheduled Saturday night.

Between halves of the game the bands will present a mass demonstration on the field.

#### HE KNEW

Just 10 minutes before he died, the first president of the United States calmly felt his own pulse to indicate he knew the end was near, according to the writings of Tobias Lear, secretary to George Washington.

William Upcott has been called the King of the Autograph collectors because in the 18th century he had 32,000 letters illustrated by 3,000 portraits valued at 10,000 pounds.

POINT-BLANK FIRE AT RUSSIAN TANK—Official German picture of front-line warfare shows, according to Berlin caption, a German anti-tank gun crew firing point-blank at a Russian tank.

### Newspaper Rights Are Studied By Court

WASHINGTON, Oct. 15. (AP)—For the second time within 12 months the supreme court took a stand today on the controversy between the Los Angeles Times and the California courts over a newspaper's right to comment on a court action after a jury had reached a verdict.

The case was argued first in October 1940 without a decision, and the justices announced on the last day of the spring term that they would hear re-argument this fall.

At issue are editorials praising a jury verdict against 22 sit-down strikers, another asserting that a trial judge would make a "serious mistake" if he granted probation applications of two men convicted of assaults on non-union workers, and a third discussing political bossism after a conviction of a woman politician in an attempted bribery case.

### Marine Enlistments Being Accepted Here

Prospective recruits for the United States marine corps will be interviewed here today and tomorrow by Sgts. Robert R. Sedgewick and Manuel Harless from the Oklahoma City recruiting station. They will receive applications in the basement of the post-office building.

From here the "leathernecks" will go to Littlefield Friday and Saturday, where they may be contacted at the postoffice building. Two enlistments are offered in the marines, one for a regular four-year cruise and the other a reserve enlistment for the "duration of the national emergency."

Men from 17 to 30 years of age, moral and physically fit and with a grammar school education are eligible. Men selected for service will be sent to Oklahoma City, expenses paid, to complete their enlistment papers and from there will be sent to San Diego, Calif., where they will undergo seven weeks of intensive training following which they will be eligible for duty. They will have their choice of several different assignments, if qualified.

### GAME ASSIGNED INVENTION

Basketball was invented by assignment. In 1891, a Y. M. C. A. instructor assigned his pupils the task of making up a new indoor game. James Naismith worked out the idea of basketball.

Clipping that arsenic substances used by a mine at Guadalupe Victoria, Mexico, had killed their livestock and ruined their crops, peasants have appealed to the government to compel the mine owners to make good their losses.

a chance to complete their educations at full pay and maintains 17 vocational schools for specialized work.
