PACIFIC CRISIS "IN BALANCE"

HELLO JOE! WHADAYA KNOW?—The guy who put his head in a lion's mouth had nothing whatever on Lucky, the "lucky" mouse, who daily strains his luck to the breaking point in St. Petersburg, Fla., by "nosing" around Lady, a champion mouzer who knocks off four or five mice every day according to her owner. Only explanation is that perhaps it's because Lucky is a field mouse.

British Gain Edge In Fierce Libyan Battle

German Troops Smashing On To Moscow

English Forces In Africa Push Axis Back In New Surge

By The Associated Press
Britain's desert armies appeared today to have gained a definite edge in the 11-day-old battle of North Africa as imperial-mechanized legions broadened the vital corridor to Tobruk — presumably wiping out Axis pockets of resistance — and surged on westward from the bloody Regeff fighting zone south of Tobruk.

Meanwhile, Russia's Red armies admitted a grave new threat to Moscow, with the Germans advancing northeast of Tula, 100 miles south of the capital, and registering new gains in the Volokolamsk sector, 65 miles northwest of Moscow.

Soviet dispatches acknowledged that German troops smashing into the center of Moscow's defense are from Moshaisk were only 36 miles from the U.S.S.R. capital.

This was the closest approach to Moscow from the west so far admitted by the Russians. On the north, the Vichy radio reported several days ago that the Nazis were within 16 miles of the capital.

In the south, the Russians said Nazi troops were attempting to encircle the key munitions center of Tula, 100 miles below Moscow, while heavy German artillery and trench mortars bombarded the town. A nearby village, identified only as "N," was said to have fallen to the invaders.

Libyan Battle Continues
The battle in North Africa continued to rage with unabated fury, marked by heavy losses on both sides. A British spokesman said nearly the entire Italian Bologna division—about 15,000 troops—had been wiped out. He said the junction between the main British armies and the Tobruk garrison had now "been completed."

A Cairo communique said British and New Zealand troops which yesterday "made direct contact" southeast of Tobruk were slowly beating the Germans and advancing.

"Compromise" With Japs In China Refused

America Views Far East Situation As Extremely Serious

WASHINGTON, Nov. 28.—The American government, it was learned today from the best available sources in Washington, has ruled out any possibility of a compromise with Japan on the Chinese issue and has raised a possibility that American merchant ships in the Pacific may be armed.

While it was reported on the highest authority that negotiations looking toward peace in the Pacific and Far East had not broken down, the United States viewed the present situation as extremely serious.

An official White House announcement concerning merchantmen said that these vessels sailing on Pacific routes "will not be armed under existing circumstances." And when President Roosevelt was asked at a press conference how long he thought those circumstances would prevail, he said he thought the question might better be asked in Tokyo.

He was asked also whether there was anything he might say on negotiations with Japan's envoys in this country and replied that he thought he had better not.

Yet he conceded that news on the negotiations had been based largely on dispatches from Tokyo and he declared that the reason for this was an American policy of "infinite patience."

It was learned on the best authority that the current situation in the Far East is regarded as serious because America desires that there be peace in the Pacific and is taking no steps that would alter prospects for peace.

New Concerns Evidenced
Reports of unabated Japanese military activity near the border of Thailand brought new concern to the capital.

Diplomatic representatives of the other friendly powers concerned—Britain, Australia, China and the Netherlands—took a similar line.

House Refuses To Put In Control On Wages

Modified Form Of Control Over Wages Is Voted Down, 192-53; Bill Being Revised

WASHINGTON, Nov. 28.—The House refused today to include a modified form of wage control in the administration's battered price-control bill after the leadership had made other major concessions aimed at recruiting badly-needed votes for the measure.

It rejected by a standing vote of 192 to 53 an amendment by Rep. Robertson (D-Ar.) which would forbid any agency or official of the government approving or recommending wage increases which the price control administrator deemed inflationary. The amendment had the approval of the American Farm Bureau federation, Robertson said.

Board To Have Charge
Earlier Chairman Steagall (D-Ala.) of the House banking committee announced that the administration would agree to have its proposed price controls administered by a board, rather than an individual.

He announced also the administration was willing to make some modification of two other major parts of the controversial legislation—a provision to license commodity dealers and one to empower the government to buy and sell any commodity in the open market in a plan to keep prices stable.

Seek Final Vote
Driving for a final vote on the control bill, administration lieutenants still sought to keep the licensing power in the bill, even though modified.

This hotly disputed proposal, which offered the day's first big test of strength, would provide for licensing producers of commodities on which price ceilings may be fixed. This would enable the price administrator to crack down on producers who disregarded the ceiling fixed.

Another Fight Seen
Another fight was in prospect over a clause empowering the government to buy and sell commodities.

(Turn to Page 8, Column 4, Please)

Hull To Study Vichy's Stand

WASHINGTON, Nov. 28.—Secretary of State Hull today began a sweeping reexamination of United States policy toward Vichy France.

Hull turned to this new problem as soon as he was freed of the time-consuming conversations on the Pacific which have been suspended pending Japan's decision on whether to pursue policies of peace or aggression in the Far East.

Again the diplomatic objective was to avoid the spread of war to new areas which might affect the peace and security of the western hemisphere or jeopardize its interests.

To Determine Attitude
The attitude of the United States toward the Vichy government will be determined, Hull has made clear, by its reaction to Nazi attempts "to take over by force or threat of force the sovereignty and control of the French empire."

The state department announced November 26 that the United States would "review" its policy.

(Turn to Page 8, Column 5, Please)

Marjorie Weaver

Marjorie Weaver

marriage license all made out, Weaver said. "He said he didn't want to waste any time."

That conversation took place via phone, when Miss Weaver was in Las Vegas, Nev., seeking a divorce, and the lieutenant was in the Philippines, wishing she wouldn't.

"A woman cannot divorce a navy man in service without his written permission," she said, "and he told me there'd be no permission coming, unless I promised not to re-marry before he got to see me. He even made me promise not to get engaged. So we talked and talked and had a very nice time and all of a sudden I realized we'd been on the phone for one hour and 45 minutes."

Defense Plant Seizures Are Given Nod

Senate And House Give Approval To Legislation

WASHINGTON, Nov. 28.—Senate and House committees gave their approval today to separate bills which would empower the government to take over a defense plant when strikes impede production.

The Senate Judiciary committee voted 12 to 2 to recommend the bill of Senator Connally to take over such plants and freeze the open or closed shop status in them.

Voluntary Arbitration Sought
This action "follows" only by means of a "labor" committee approval of legislation which, besides the seizure clause, would create machinery for voluntary arbitration of labor disputes.

Acting Chairman Ramspeck (D-Ore.) said it was a "middle-of-the-road bill" which "undertakes to settle disputes on a voluntary basis." If that should fail the government could take possession of the defense plant after a 60-day cooling-off period, he added.

Ramspeck said that the plant seizure section was similar to legislation proposed by Senator Connally (D-Tex.) and gave this explanation of it:

Plan Is Explained
"Whenever a labor dispute is not settled by collective bargaining, conciliation or mediation and the president finds that continuation of the dispute imperils the national defense, he may in his discretion take possession of the plant and operate it under provisions of the selective service act."

Ramspeck said the committee did not take up at its meeting today a provision in another bill giving the president power to invoke compulsory arbitration of defense labor disputes and carrying minor amendments.

MARJORIE WEAVER

U. S., Japan May Call 'Cooling Off' Period

Nipponese Press Shouts That Break With America Near; British Again Are Sourced

TOKYO, Nov. 28.—Informed sources suggested today that Japan and the United States might issue a joint or parallel statement declaring their intention to solve Pacific problems without war and call a "cooling off" period as a preliminary to attempted general settlement of the crisis.

This suggestion was made as the Japanese cabinet, with high military, naval and foreign office advisers, studied Secretary of State Cordell Hull's memorandum in preparation for sending instructions to Japanese negotiators at Washington.

Press Seen Break
The press took the line that the Washington negotiations are nearing rupture and displaying sensational accounts of alleged massing of British troops on the Malaya-Thailand border.

The informed sources said that they did not anticipate a general settlement between Japan and the United States would be possible or feasible now.

However, they said, a declaration of peaceful intentions followed by several months of non-belligerency in which each side made moves designed to ease tension might provide the basis for a more general understanding.

Would Obtain Clear Picture
They said that it would be impossible to carry out overnight the terms of any agreement which might be reached now, but that both sides during the Washington conversations have obtained a clear picture of what the other is willing to do under given circumstances.

Provided a "cooling off" period is attempted, these sources said it is believed that Japan will initiate a series of moves to promote the improvement of the Pacific situation. The United States, it was said, might then be expected to reciprocate.

In columns adjacent to those reporting the imminent breakdown of negotiations with the United States.

Five Persons Burn To Death

SHREVEPORT, La., Nov. 28.—Five persons, all members of an Omaha, Neb., family were burned to death, and two others were seriously injured in a fire in a downtown rooming house early today.

The dead are Melton Wedgewood, 17, Mrs. Dale Wedgewood, 23, Gary Dale Wedgewood, 18-months old, Virginia Wedgewood, 13 and Dale Wedgewood, 23.

Man Jumps To Safety
E. R. Wedgewood, 48, jumped to safety after being badly burned but his wife was trapped in the building. Her condition was undetermined. She suffered greatly from shock, a sanitarium attendant said.

The family was trapped in the building as the only means of exit, a stairway leading from the second story of the two-story rooming house, was ablaze. There was no fire escape on the structure.

Wedgewood and his son were employed on a construction job at Barkdale field, working on a day shift. Another son, working on the night shift was on duty when the blaze occurred.

Four members of the family were dead when brought from the building. Virginia Wedgewood died at the sanitarium about an hour after being brought from the building.

Our School Children Need Our Help! Go To The Polls And Cast Your Vote FOR The Bonds!

TOMORROW, Saturday, November 29, 1941, the qualified voters of the Lubbock Independent School District will have the opportunity of voting on the proposition of issuing \$350,000 in bonds of the school district.

Because of the added enrollment brought about by location 10 miles west of Lubbock of a U. S. Army air base, the federal government has agreed to give the Lubbock Independent School District the sum of \$121,600 to be spent in permanent school construction within the district. If the voters of the district will approve issuance of the \$350,000 in bonds, the physical plant of the school district can be brought up to efficient standards. If they do not approve issuance of the bonds, the Lubbock Independent School District simply cannot do the job it should do for the children residing within its jurisdiction.

Because of lack of sufficient classroom space and other facilities essential to a first class school system, children of the Lubbock Independent School District today are not getting the maximum of efficient instruction.

Unless a building program can be undertaken, the Lubbock Independent School District's facilities cannot be expanded to serve present needs—much less those of the immediate future.

LUBBOCK is a growing city. The territory adjacent to the City of Lubbock also is growing. Thus it is physically impossible for the Lubbock Independent School District to do the educational job it must and should do for the children under its administration without growing and expanding with the city and its immediate environs.

The tax rate of the Lubbock Independent School District currently is 95-cents per \$100 valuation.

If issuance of \$350,000 in bonds is approved at the polls, the rate will go up only 5 cents per \$100 valuation—NO MORE. For the school tax rate has a \$1 per \$100 valuation ceiling, set by law.

In short, if a citizen of the Lubbock Independent School District today has a school tax rendition of \$1,000, he is paying an annual tax of \$9.50. If the bonds are voted, he will pay only 50 cents per year more, or a total of \$10.

BELIEVING, unanimously, that expansion of the physical properties of the Lubbock Independent School District is necessary, and that it is their duty to recommend whatever steps may be essential to the operation of a first class, efficient school system for Lubbock and environs, the undersigned members of the Board of Trustees urge all eligible voters to go to the polls and vote "YES" on the proposition of issuing the bonds.

The school system MUST be kept up to the demands made upon it.

Four Killed In Highway Crash

BROWNWOOD, Nov. 28.—Four persons were killed and two others seriously injured when their car was crushed in an auto collision nine miles northeast of here early today.

The dead were: Charles R. Wilson, Stephenville, Richard C. Wenter, Stephenville, Miss W. C. Magnus, 60, Comanche; Homer Tappin, 27, Comanche; James E. Alexander, 22, Stephenville, and Miss Treva Magnus, 25, Comanche, were seriously injured. Two others suffered minor hurts.

Occurs At 2 A. M.
The accident occurred at 2 a. m. on state highway 67.

The Stephenville youths are members of company D, 142nd Infantry, Camp Bowie. Miss Magnus, a daughter of the dead woman, was a civilian employe of the camp. Tappin worked as a filling station operator at Comanche.

Investigating officers said the soldiers were en route to Camp Bowie after spending Thanksgiving holidays in Stephenville when they attempted to pass a truck on a hill and at the crest collided head-on with the car driven by Tappin.

Brownwood ambulances answered the call and brought the injured to hospitals here. Both cars were demolished.

Man Caught Shaving While Driving Car

DETROIT, Nov. 28.—It was a somewhat breathless tale that Patrolman John Milner and Archie Haman told when they booked John E. Jones, a Detroit music teacher, today for reckless driving.

"His car was going every way except straight up and down," Patrolman Milner told the desk sergeant.

And he had the rear view mirror turned down," chimed in Haman.

And — — — "He had plugged in an electric razor and was shaving himself," the officers chorused.

This Business Of Looking For A Husband Is 'Good Headache'

SAN ANTONIO, Nov. 28.—The business of looking for a husband which broke into the public print yesterday, is giving Mary Louise Thomas, 20, "a good headache but I'm serious about it," she reported today.

The young woman, twice divorced from the same man and the mother of a 2½-year-old daughter, said she had received 22 telephone calls "and the phone is still ringing off the wall," two special delivery proposals and four personal callers up to mid-morning today.

Miss Thomas, who appeared at the Evening News office Thursday to advertise for a husband, said she has been communicated with by three lieutenants in the Army, four privates, three corporals, one technical sergeant and one aviation cadet since a story of her intentions to wed was printed in the Evening News Thursday.

Miss Thomas repeated that she is looking for a young husband, interested in all sports, who is willing and able to support her and her daughter, Georgia. She said the husband must be willing to help her raise a family. She added that she wants at least four children.

Bonds Vote Set For Saturday

Qualified voters will go to the polls Saturday to determine whether Lubbock Independent School district will issue \$350,000 in bonds to supplement a \$121,600 federal grant for expansion of the city schools system here.

Polling place will be the city schools' business office, at 1007 Texas avenue, said A. C. Jackson, business manager of schools, who explained that the tax office itself will not function for that day.

Rolls Open At 8 A. M.
Hours for voting will be from 8 o'clock in the morning until 7 o'clock at night.

By statute, those qualified to cast votes are: "Any resident qualified property taxpayer in the district who owns property in the district and rendered the same for taxes."

Jackson said a poll tax receipt for 1940 (paid before Feb. 1 this year) was necessary.

Finland Officials Plan Cooperation

HELSINKI, Finland, Nov. 28.—President Risto Rytty, Field Marshal Baron Paul Gustaf Mannerheim and other high Finnish officials met today to discuss a system of cooperation between government and military authorities. It was officially announced.

Officers of the army general staff and air members of the government except Foreign Minister Rolf Johan Witting, who had not yet returned from Germany, attended the meeting.

Correspondents Taken Home

ROME, Nov. 28.—The Italian government announced tonight that two correspondents with the British forces in Libya, Geoffrey H. B. Anderson of the Associated Press, London, and Harold Denry, New York Times, have been taken prisoner.

Weather Report

WEST TEXAS: Mostly cloudy with intermittent light rains on South Plains area and southward and over Pecos valley and westward tonight and Saturday. Partly cloudy over Panhandle tonight.

EAST TEXAS: Variable cloudiness tonight and Saturday; occasional light rain in southwest portion and nearer lower coast. Warmer in north portion tonight. Gentle to fresh northeast to southeast flow on coast.

Texas' Small Businesses Hope For Share Of Defense Money

OPM Train To Visit In State

(By The Associated Press) The men who run the state's thousands of small businesses will take a first-hand look at products needed for defense when the OPM's eight-car, red-white-and-blue special train tours Texas Dec. 1-5.

Then, perhaps, they will help make them.

Sent out by the OPM's contract distribution division, the train will enable defense officials from Washington to meet small manufacturers in an effort to help them convert their plants to essential production and avert priority unemployment.

Will Learn Details

Cities to be visited in Texas are El Paso, Dec. 1; San Antonio, Dec. 2; Houston, Dec. 4; and Dallas, Dec. 5.

The train will carry 16 army officers, eight navy officers, a maritime commission representative, eight OPM officials, and representatives of the treasury, the OPM information division, and railroads on which the special is routed.

From these officials Texas manufacturers will learn whether their plants are suited for defense production and how defense contracts may be obtained.

Personal contact between defense officials and small manufacturers on the defense special, the Office of Production Management hopes to spread out defense contracts and take advantage of a greater number of production facilities.

Shows Capitol's Interest

The defense special which will tour Texas is one of three eight-car trains making a five week tour of the nation to bring the defense program home to the small businessman. The specials will cover 79 cities before Dec. 19.

All businessmen, factory owners, processors and manufacturers interested in obtaining defense contracts have been invited to visit the train in one of the four Texas cities. Field offices of the contract distribution division are arranging schedules of interviews for manufacturers.

Supplementing a coordinated program in Texas to aid the small manufacturer, the sample train's tour is one of several recent manifestations of official concern over the plight of the small businessman.

Informed that about 10,000 small shops and 200,000 employees are affected, the Texas legislature at the recent special session created a special committee of the House to work with Gov. Coke Stevenson in procuring government contracts for small manufacturers.

Reg. Dewitt Kinard of Port Arthur was named chairman.

Asserting that only 60 per cent of Texas' potential manufacturing capacity is being utilized, Chairman Kinard vigorously attacked the practice of defense officials in building new defense plants in the east.

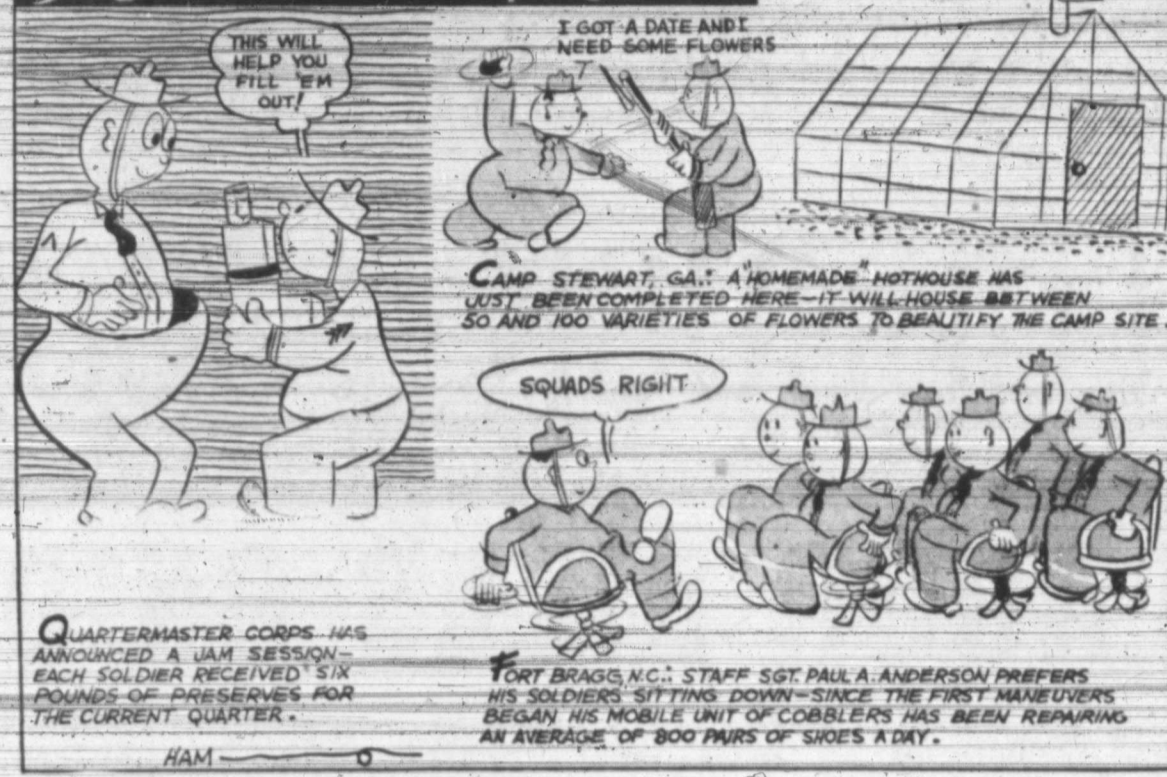

Small plants in Texas, he said, already have the equipment, facilities and trained workers to do the job.

New Program Inaugurated

The House committee inaugurated a program in cooperation with Governor Stevenson to induce major factories having enormous government contracts to subcontract to Texas small plants contracts for parts, fabrication and other manufacturing that will fit into the defense program, keep the 10,000 plants operating and at the same time afford some relief to the large industrial factories.

Addressing the recent meeting of the Texas State Manufacturers' association at Houston, Senator W. Lee D'aniel described as a "dangerous threat to our democratic way of life" the "policy now be-

The New Army Game

ing practiced of depriving small industries of raw materials."

The manufacturers' resolutions committee recommended that the proposal of Floyd B. Odium, director of the division of contract distribution of OPM, be adopted. Odium in that post is specifically charged with spreading defense contracts over the nation's small industries.

To relieve the acute condition of many small plants, Odium has asked that special financing arrangements be instituted for the small concerns to enable them to transform their plants into production for national defense, and

that a small percentage of the necessary materials be set aside for allocation to firms employing up to 20 employees or slightly more.

TORCH SONG

SIoux FALLS, S. D.—It was bound to happen. Firemen answered a call found the dining room furniture ablaze and the radio blaring: "I Don't Want to Set the World on Fire." They put out the fire, turned off the radio.

Mice are not particularly fond of cheese. They eat it only when nothing better is to be had.

Adult Classes Popular Here

Enrollment of 114 adults in four night classes at Senior High school was reported Thursday.

Members of the classes are regular in attendance and enthusiastic in their work according to Sam Leifeste, director of adult education. The four classes organized up to date are an advanced book-keeping course for insurance men, a class for carpenters and their apprentices in blue print reading, a class in "Conversational Spanish," and a class in show card lettering.

New Class Organized

Any group with as many as twelve interested applicants who can use the training in their work may organize a new class in any vacation. A class in waitress or restaurant training is now in the process of being organized. Of the promotion committee are Tom Pendergraft of the Lubbock hotel, Reno White of the Lubbock hotel, and Al Finnell of the Hilton hotel. People interested in this work should contact one of these men, Leifeste stated.

Of the classes already at work the carpenters' group has the largest enrollment with 68 members. The show card lettering class has 17; the Spanish, 116; and the insurance group, 13. The ages of the people range from 18 to 66; however the majority are from 20 to 40 years old.

Firms Well Represented

The business firms of Lubbock are well represented in these adult night classes. In the insurance group are H. C. Stovall and Gracie W. Bownds from the American United Life, E. A. Shepherd from the General American Life, Travis Key and Ted Vernon from the Jefferson Standard Life, J. A. Law-

rence from the American National, Roy L. Krebs from the State Reserve, E. E. Hambright from the Western Reserve Life, Kenneth D. Moore and Charley Moseley from the Great National Life, Howard B. Smith and B. H. Meskimen from the Paul Revere Life, and Neil Wright from the Southland Life.

Studying Spanish are Powell McWhirter, Southern Auto stores; Mack Colvard and Rosalie Hughes, Hanna-Pope; Sybil Roberts, Anderson and Marbut Law office; Miss Mary Nell Mav, school clerk; Lewis Hogan, Leitch No. 2; Lamoyr Truman, J. C. Penney company; Miss Ufa Alferm and Grace Gibson, Lubbock National; Mrs. J. Siniard, County Clerk's office; Mrs. J. C. Weaver, Fair Finance company; H. E. Ewing, Kenney Shoe store; and M. W. Grey, Loew Drug company.

Of the 68 carpenters and blue print readers the majority are from the Twin Engine Air Base. Others come from lumber companies and individual contractors. In the show card lettering class

Peace Or War Balanced Like A Feather In Pacific

Japs Cautious In New Crisis

BY DEWITT MACKENZIE
Journal War Analyst

The martial spirits of the old shotguns are stirring uneasily as Japan debates whether to accept Washington's sweeping terms or to pursue expansion at the risk of war, but the signs still read the same—that Nippon would like to avoid an armed clash with America and Britain if it could find some face-saving escape from its dilemma.

The Tokyo government appeared to be feeling its way cautiously through the crisis today, and foreign office spokesman Kishi discreetly avoided anything more than non-committal comment on the volcanic situation. In other words, whatever the Japanese might have in mind, they weren't prepared to throw Secretary Hull's verdict back into his face.

Spur To Nazi Efforts

I think we can say that war isn't inevitable. We shouldn't be smart in going further than that.

Certainly the Japanese government has peace balanced as precariously as a feather on its toes. As this column has pointed out before, much depends on whether the Japanese believe the Axis will win the war, and the position at the moment is such that a great Axis victory or defeat might determine Japan's course. That's one reason why Hitler is straining every nerve to capture Moscow, to save himself from the Allied offensive in Libya, and to force the French government at Vichy to become a partner against Britain.

Japs Watch Entire Picture

Nazi success in any one of these crucial situations might tempt Japan to risk the big break with the United States, and that would mean a fight with England as well. Undoubtedly the position of the European war is playing a large part in the anxious discussions of the Tokyo cabinet today.

Hitler's best prospect at this writing is against Moscow. Aged Marshal Petain, French chief of state, apparently is being stubborn about making all-out concessions to the fuhrer, and the Allies still retain the initiative in the battle of the desert.

The Muscovites warn us once more today, as they have been doing persistently, that the peril to Moscow is increasing. The blood of young Germans is staining the Russian snows in this vast assault, and the Bolshevik losses must be heavy as well, but the Nazis continue to extend the arms of the pincers they are trying to swing about the capital.

Beats Counter Attack

Things appear to be going better for the Reds in the far south on the Rostov front. This is more important from the strategic standpoint than is Moscow itself, for Rostov is the hinge on which the gate to the Caucasus swings. Here the Russians claim to have flung the invaders back, and this morning further heavy-Bolshevik counter-attacks are reported.

Intense fighting continues to mark the great battle of the Libyan sands. Both sides report successes, but both continue conservative in their claims for what is the biggest engagement of its kind ever fought.

The most constructive announcement comes from London where it is stated that the Allied position in Libya continues to improve as

SNOWMAN TIME IS HERE AGAIN—The season's first heavy snow brought out the artist in little Miss Sally Cunningham of Kansas City, Mo. Kneeling on the snow-covered ground, she wears a big smile as she yields to an impulse she couldn't resist—building a snowman.

Club Boys From Area Taking Chicago Trip

Five boys from Lubbock district of the state extension service who have made outstanding records in 4-H club work are to leave Amarillo late today for Chicago to attend the International Livestock exposition as guests of the Santa Fe railroad.

One among them is to be Bobby Cox of Plains, the first Yoakum county boy to win such a trip. Hurley B. Horn, Yoakum county farm agent, is to accompany him.

Nineteen Texas youths, in all, were given free trips by the railroad. From this district were Trevis Summers, Dimmitt, Castro county; James Vineyard, Kress, Swisher county; Nelson Foster, Farwell, Parmer county and L. D. Ballard, Plainview, Hale county. These are to leave Amarillo at 4:45 o'clock this afternoon.

Edwin Lynn Hall, Lamb county youth who won the state rural electrification contest, will also make the trip.

James W. Potts, College Station, assistant state club leader and

o-whole, analysis of the various developments tends to support this. The Allies appear to be getting ahead with the job.

The most significant report of the day came through the official British radio which stated that "not one ton of supplies has reached the hard-pressed German and Italian armies by sea" since the battle began. The British navy is said to have swept the waters of the Libyan coast clean.

As remarked in this column yesterday, the outcome of the desert campaign is likely to rest on supplies and reinforcements.

Navy Men Will Visit South Plains Towns

Three South Plains stops are planned next week for a navy recruiting "cruiser" now being taken on a tour of Texas, according to J. E. Calloway, navy recruiting officer here.

The "cruiser" will be in Plainview Tuesday, coming there in the morning from Borger. Wednesday will be in Brownfield, stopping briefly in Lubbock en route. Thursday the party will be in Lamesa and the following day in Midland.

E. R. Lokey, chief printer, is publicity man for the party. W. T. Walker, F. W. Payne, J. R. T. Barton and R. W. Finkler comprise the crew. Advertising and literature will be distributed and also motion pictures shown.

former Lubbock county club boy, will accompany the party.

At the time of the Livestock show the annual national 4-H congress will be held in Chicago. Dates of the show are Nov. 30-Dec. 6. The party will return to Texas, leaving Chicago Dec. 5.

INTOXICATING PASTIME

PERRY, N. Y., (AP)—"Just why do you have to get drunk every weekend?" asked the judge of a man who had been brought before him frequently for intoxication.

The defendant's reply was "It's my hobby."

A new \$2,200,000 company in Kwangsi province of China will engage in mining, agricultural, industrial and commercial enterprises.

Sixty Selectees To Take Examinations

Physical examinations are scheduled in the army recruiting office in the federal building here Saturday morning for 60 men due to be called into selective service next month, according to Major Joseph R. Peller, army recruiting officer.

Major O. W. English, medical reserve officer here, is head of the board. Capt. Clement C. Jayson of Fort Bliss, medical examiner there for the recruiting service and Major Everett W. Bright, induction officer, are expected Friday to assist in the handling of the group.

Lieut. Gustavus D. Funk, who has been an examiner for the Dallas recruiting district, is expected here. Lieut. Funk has been transferred to the Lubbock district to succeed Capt. E. Cotter Murray, who was sent several weeks ago to Fort Sam Houston.

Fifty of the men are to come from Lubbock county draft board No. 1 and ten from Swisher county.

Under a new selective service program, men who are about to be inducted into service, are given a regular army physical examination by an army board. Those passing will have from 20 to 25 days before actual induction, during which time they will be expected to close up business or personal affairs.

Those who do not pass the ex-

Look Well In Your Clothes But Remember It's Smart To Be Comfortable

Fitted Lines Give Fashion

BY HELEN FORRIST HALL
Associated Press Fashion Editor
You want to look well, of course, and the best way to start is to be sure that you feel well. This is the reason you can, because comfort is built into everything you'll be wearing—if you select carefully.

Fabrics—from foundation garments to gloves and shoes—now come in elasticized materials that give with your body. But only in the right places. A wise girl will see to it that her clothes first of all fit properly.

Beginning with her girdle, she'll insist that it give her proper support and the right lines whether she's sitting, standing or walking. The best test, of course, is whether it feels good.

When our wise shopper comes to try on new frocks, she'll look until she finds the one that fits her form like—well, like her elasticized gloves fit her trim hands. The new silhouette, whether form-fit-all-over or only in spots, is designed to turn the heads of your audience as you trip smartly down the aisle. This requires every line to be right and in the right place.

You can't hide your below-the-table interest today. What with hemline interest, with shoes matching stockings or smartly contrasting them, feet and legs are going to show.

Shoes, whether of elasticized kidskin, suede, cloth or novelty material, fit slick as a ribbon. They grip the foot in gentle support and comfort.

Your simplest gloves and your fanciest will have form fit in that wonderful new cut that takes away from bulk yet gives grace and ease to your hands. Nearly every maker today offers seamless palms or backs.

Fit gives fashion over comfortable lines to moss green crepe.

News Briefs

On Honor Roll—Three Lubbock students have been placed on the honor roll for outstanding work during the first nine weeks of the school term at Abilene Christian college, according to information from college authorities. They are Martha June Sellen, daughter of Mr. and Mrs. J. M. Sellen; Lowell Padon, son of Mr. and Mrs. Walter Padon; and Paul Sneed, Jr., son of Mr. and Mrs. J. Sneed, Sr.

Child Slightly Improved—Four-year-old Charlie Rea seemed slightly stronger this morning, it was announced at Lubbock sanitarium, where he had received a blood transfusion Thursday, two days after being brought to Lubbock for an emergency appendectomy. The child is a son of Mr. and Mrs. Bryce Rea of Lexington, Va. C. A. McClintic, Midland rancher and grandfather of the child, returned to Midland this morning.

Attending Conference—Ed Strout, supervisor of recreational projects for Lubbock WPA district, and Miss Imogene Douglass, superintendent of the Lubbock project, are expected to return Sunday from a statewide recreational conference in San Antonio.

Fun Program Tonight—Reminder that the Community center at Sixth street and Avenue B is to be the scene of a special fun night program for all age groups tonight at 7:30 o'clock was given this morning by officials of the city-WPA recreation project which will sponsor it. Ernest Thaxton and Miss Maxine Dewardorf, of the junior recreation team of First Christian church, are to be in charge of the program.

Weather Report—Warmer weather this morning brought mist and a trace of rain, the state experiment station said in reporting the minimum temperature was 45 degrees, 11 higher than Thursday. Maximum Thursday was 67 degrees, three under that of Wednesday. Not enough rain had fallen up to 7 o'clock to record more than a trace, it was added.

Bar Will Meet—Lubbock County Bar association will meet Saturday noon in Lubbock hotel for a Luncheon and discussion. Ralph Brock, county attorney, is president.

Checks Received—Additional cotton parity checks received Thursday amounted to \$9,041.10 for 85 checks, said Walter V. Wells, administrator of the Agricultural Adjustment Administration. So far this fall, 2,902 checks amounting to \$342,699.49 have been received. These represent approximately 2,000 farms or four-fifths of the total in the county.

Sell Soy Beans—Another car of soy beans, grown at Sudan, was sold through the Lubbock Cotton Oil mill, George A. Simons, manager, said this morning. Harvesting of the crop has not been completed, he said, and several more cars are expected to be sold. Five cars already have been sold from the Sudan area crops.

Twin Sons Born—Mr. and Mrs. Milton M. Foreman of Sundown are parents of twin sons weighing 5 pounds, 1 ounce and 4 pounds, 11 ounces, born at 12:20 and 12:41 o'clock Thursday afternoon in St. Mary's hospital. The father is superintendent of transportation for Dunn Bros. truck lines.

Four Enlisted—District recruit clerk officials said four men were enlisted in Lubbock Thursday. Levi P. Cox and Wayne L. Kelce, for Biloxi, Miss. James W. Cates and Cecil H. Harmon for Jefferson Barracks, Mo. All will be in the air corps. It also was announced that James Boyd Cummings of Lubbock left Thursday night for Dallas to complete enlistment in the navy.

We The Women

BY RUTH MILLETT

A man whose work has taken him into nearly every state in the union and brought him into conversation with all kinds of people says that taking them—as they come, nine persons out of ten are conversational bodes.

He thinks it is a pity, too, since four or five out of those nine needn't be bored. They aren't dumb and their lives aren't so dull they don't have anything to talk about. They just don't know how to make what they have to say interesting to the other fellow.

The most common fault that makes a person a conversational bore, he says, is simply talking too much. No matter what a person has to say, if he keeps on saying it long enough, he'll wear out those who for politeness' sake, have to listen to him.

Next most common fault among bodes is not using any discrimination about what they talk about. Such persons will confide the most trivial details of their lives—what they like for breakfast, how they suffer from colds, etc.—in the naive belief that because they are fascinated by the smallest details of their existence, others will be, too.

This man thinks it is a shame for so many potentially interesting people to be bored—just because they don't take the trouble to

SPRUCE UP YOUR TALK

And then there are the people whose lives and whose opinions would be interesting if they would only cultivate the habit of finding some connecting link between their experiences and those of the person to whom they are talking—so that they bring out for him what he will understand and appreciate.

Christmas Decorations In City Expected To Be Completed Soon

Work of putting special Christmas decorations in place was started this morning under the supervision of John J. Graham, superintendent of the city light department.

Decorations of most of the street lights and posts on Broadway between Avenue G and Avenue I should be completed so that they can be seen tonight, he added.

Lights In Place
The decorations consist of ornamented shades to be fitted over the lamps and heavy spruce roping twined about the top half of each post.

Most of the strands of colored lights already have been strung across downtown streets and others will be put in place within a few days. Many of the downtown merchants also have begun the decorations of their store fronts, and the expectation is that the business district decorations of all kinds will be finished early next week.

A carload of Christmas trees ordered from British Columbia by Allen Bros. post of the American Legion is expected to arrive at any time, so that the trees will be available to the merchants who wish to place them in alleys in front of their places. Proceeds of the sales will go into the post's relief fund.

Most Signed Up
Members of the decorations committee of the chamber of commerce reported that very few downtown streets except Broadway have been signed for the special decorations. The cost of this feature is being prorated among Barracks, Mo. All will be in the air corps. It also was announced that James Boyd Cummings of Lubbock left Thursday night for Dallas to complete enlistment in the navy.

Young People At Breakfast

Young people of the First Baptist church met at the activities center Thursday morning at 8 o'clock for a Thanksgiving breakfast. Decorations included a horn of plenty as centerpiece and colored leaves of candy for favors.

Thirty-one young people attended. Miss Elizabeth Musick was toastmaster. Invocation was asked by Dr. C. E. Herford. Douglas Hardy presented a violin solo, accompanied by Miss Virginia Belle Gamble.

Accompanied by Miss Oletta Zeh, Miss Frances O'Connor presented a vocal solo. The closing prayer was given by Lattimore Swing.

Students participated in an informal expression of their thankfulness.

Couple Weds On Thursday

The marriage of Miss Vida Boone and Lawrence Wiley took place Thursday evening in the home of the officiating minister, Rev. Frank D. Graydon, 2208 Twentieth street.

Miss Lou Allie Boone, Ropesville, sister of the bride, was her attendant. The bride wore a navy ensemble with black accessories and a corsage of lilies.

Guests were Mrs. Earl Langley, Miss Dahlia Tanner and Dolph Pounds.

The couple will be at home in Lubbock. Mr. Wiley recently was released from the army under the 28 year law.

Truthseekers Class Tea And Book Review Given

First Baptist Truthseekers class attended a tea and heard Mrs. W. P. Clement review Perry's book "Hold Autumn in Your Hand" Wednesday afternoon in the activities center.

A horn of plenty was centerpiece for the refreshment table. Class members brought food as a Thanksgiving offering for the underprivileged.

About 25 guests attended.

Superintendent Speaks At Hunt P-TA Meeting

"Building Morale in a Democratic School" was the subject for a lecture Superintendent W. B. Irvin gave Thursday afternoon before the George M. Hunt Parent-Teacher association.

The meeting was held at 3:15 o'clock at the Central Baptist church. Mrs. R. J. Cheatham, president, presided at a short business meeting.

Reports Made
Mrs. Lindsey Thompson, chairman of the George M. Hunt Parent-Teacher study course, reported that 30 members had completed the course.

The report made by Mrs. Earl Nail, Red Cross chairman, that P-TA members had knitted 14 sweaters, three caps, seven skirts and 12 baby shirts.

About 50 members of the association were present.

Total Of 93 Soldiers Killed In Maneuvers

CAMDEN, S. C., Nov. 28 (AP)—Ninety-three soldiers have died in the Carolina war games since they began the first week in October.

Col. F. W. Wood, surgeon of the first army, said that 75 men had died in the ranks of the 200,000-man first army. Sixty-three of them were accidental and 12 were from natural causes.

Most of the accidental deaths were caused by motor vehicle mishaps.

FOR CLASS

Mrs. Joe Cooley, 1515 Twenty-seventh street, will be hostess to the Queen Esther class of Calvary Baptist church at 7:30 o'clock tonight in her home.

PERSONALS

Mr. and Mrs. J. E. Maissen and children have returned from Oklahoma where they visited with relatives and friends during the Thanksgiving holidays.

Mr. and Mrs. Cal Johnson and son, Bruce, of Oklahoma City are visiting her parents, Mr. and Mrs. E. I. Brown. They were accompanied by Mrs. Johnson's brother, Joe Brown.

CUTE LITTLE DOUGHNUTS
AND THEY STAY
CRISP IN MILK!

NO MORE COAXING needed now to get boys and girls to eat the nourishing, stand-by kind of breakfast they need. Children love this super-nourishing oat cereal that comes all ready to eat... in the novel, appetizing form of little toasted "doughnuts" that stay delightfully crisp in milk or cream. The blended flavor of CHEERIOATS is so different it would even be a surprise to Mother Nature herself! Corn and Tapioca added to the oats help to produce this utterly different, satisfying flavor. It's like no other flavor you've ever tasted before!

IMAGINE!
THE IMPORTANT
VITAMIN AND MINERAL
NUTRITIONAL VALUES
OF OATMEAL
WITHOUT COOKING!

NOW AT LAST it's possible to give your family important vitamins and minerals found in oatmeal... without standing over a hot stove. All you do is open up that gay yellow CHEERIOATS package... pour those tempting little toasted ringlets into a dish... and start eating.

For CHEERIOATS gives you full oatmeal amounts of:
Vitamin B₁ (Thiamin) essential for helping to turn carbohydrate food into energy... needed by children for normal growth and by everyone for normal functioning of the nervous system.
Vitamin G (Riboflavin), important in maintaining body weight and growth in children.
Iron, Phosphorus and Calcium... minerals needed to make red blood and strong bones and teeth.

TERRIFIC! AND THIS
OAT CEREAL REALLY
"STICKS TO YOUR
RIBS!"

TALK ABOUT NOURISHMENT!

CHEERIOATS provides all these most essential vitamins and mineral nutritional values of oatmeal... Vitamin B₁, Vitamin G, Calcium, Phosphorus and Iron. And CHEERIOATS supplies them all in full oatmeal proportions. For CHEERIOATS is 75% ground oatmeal... with 10% corn and 10% tapioca included, to help make it extra crisp... and to help produce that tempting, unique, utterly different "blended flavor." Here's the easy way... the delicious way... to help get the rich food-energy, and certain precious vitamins and minerals that every man, woman and child must have to enjoy robust health and vigor.

Hawaiian Department Of United States Army Is Placed On 'Alert'

Order Is Said To Be 'Routine'

(By The Associated Press)
HONOLULU, Nov. 28.—The Hawaiian department of the U. S. army was placed on "alert" today—equivalent to war footing—throughout the islands.

Officials refused to comment on the order except to say that it was part of "routine training." They would not speculate on its relationship to the Japanese-American Pacific crisis.

Soldiers Patrol Islands

Docks, terminals, bridges and highways were patrolled by armed soldiers and particularly heavy guards were placed around army and navy bases.

A similar "alert" order was issued last July shortly after Japanese credits were frozen by the United States government and island officials said that the army has been virtually on a war footing since then.

Theft Of Cars Being Probed

Investigation directed by the state highway patrol into two recovered automobiles that had been stolen from the law-enforcement front.

B. L. Woodell early today found a new automobile that had been stolen Thursday night from E. W. Chapman of Camp Comfort. The machine had been left by the thief in 1200-block Broadway.

Stolen In Amarillo
The other machine, a 1940 model car, had been stolen in Amarillo and abandoned southwest of Brownfield.

Woodell, it was announced, had identified eight stolen automobiles he had recovered since Sept. 12.

Billy Johnson and L. W. Wilhite, other highway patrolmen, Thursday afternoon arrested a 21-year-old man near a small town in county sheriff's department to face investigation into an alleged illegal sale of feed and a cow. Within two hours a deputy sheriff from Martin county had gone to Littlefield and accepted custody of the suspect.

Suspect Is Held
Patrolmen of the state office said they had been informed that Sheriff B. L. Parker of Tahoka had arrested a person for investigation into theft from the person and found him to be a suspect in a California car theft case. An automobile was being held by the sheriff, it was related.

Lubbock city police said a case of candy had been taken in a burglary of a garage on Avenue T between Eighth and Ninth streets, and that fender skirts had been stolen from new automobiles owned by Leo Shannon of Loveland, Colo., and G. L. Parker of 2625 Twenty-second street.

Farmers Are Urged To Sign Defense Pledges
Farmers this morning were urged by Walter Y. Wells, county administrator of the Agricultural Adjustment administration, to sign their 1942 farm defense plan sheets and also applications for payment of soil conservation practices.

"Up to Thursday night we lacked approximately 100 farm plan sheets of having all in the county signed," Wells said. "There were a few more soil conservation applications to be signed."
State office of the AAA had announced that all applications for soil conservation and all farm plan sheets must be signed by Dec. 1, Monday, Saturday night, Wells is to report the number signed to the state office, he said.

Successor To Major Rindlaub Is Named

Major Bruce D. Rindlaub is to be replaced as head professor of military science at Texas Tech. by a native of Huntsville, Col. Finch served in Cuba, Mexico, France and the Philippines. He formerly was commander at Fort Lawton, Seattle.

There is no basis for the "lion and lamb" theory regarding March weather, weather records over long periods show.

REBUILD THE FLAVOR AND APPEAL of Leftovers

Make genuine creations economically and efficiently with the new Comet Rice Cooker. This revolutionary new device is the only one that cooks rice in minutes, so you can have hot, fluffy rice in minutes.

Torrance Will Make Appeal

(By The Associated Press)
MONTERREY, Mexico, Nov. 28.—Defense attorneys will appeal Judge Jesus B. Santos' order that Arthur Torrance be held for further investigation on a "strong presumption of guilt" that the author and explorer murdered his elderly bride.

The appeal may be filed not later than Monday. The judge's order was issued yesterday.

Not A Final Decision
The presumption, Torrance was informed by the judge, did not constitute final decision on the state's charge that he beat the former Mrs. Ada Loveland of Kalamazoo, Mich., to death with a vacuum bottle.

Evidence that other women might be involved was one reason given by the judge for holding Torrance. The names of Miss Barbara Bowen, 28-year-old Honolulu society girl, and Miss Vera Bowyer of San Francisco have been injected into the trial.

Hurt Faulkners Are Paul In Car Crash

CLOVIS, N. M., Nov. 28 (Special)—Mr. and Mrs. Paul Faulkner of 3012 Twenty-first street in Lubbock were not injured dangerously, it was believed, in a crash just before Wednesday midnight near Farwell.

According to reports here, S. S. Shelton, 37, a carpenter en route to visit a sister in Grady, N. M., was driving toward Clovis when a piston in his automobile broke. He enlisted the aid of a passing motorist in turning the car around preparatory to towing it back to Lubbock.

While the car was in the road the Faulkner car struck it, demolishing both machines. Mr. and Mrs. Faulkner were going to Clovis. At a Clovis hospital it was said the Faulkners suffered head lacerations and bruises of the chest. Mrs. Faulkner suffered five broken ribs. Shelton had bruises and cuts and Mrs. Shelton a bruised pelvis.

CHECKS FOR SANTA
BALTIMORE (AP)—It'll be Merry Christmas in Baltimore the week of Dec. 1 for 187,000 persons. That's the date local banks will distribute more than \$5,100,000 in Christmas savings checks.

Now the chief himself, Thomas J. Potter, has a broken left wrist. He slipped and fell as he alighted from his automobile.

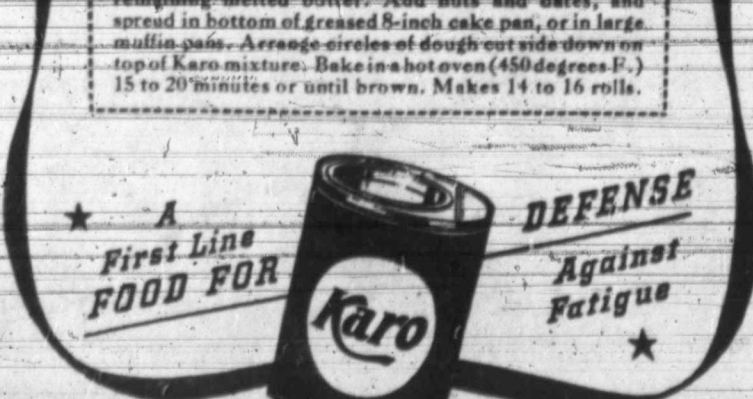

Shallowater Will Be Host To Singers

An aggregate of several thousand singers is expected for the annual meeting of the Lubbock County Singing convention in Shallowater Community clubhouse Saturday night and Sunday, according to announcement this morning by County Judge G. V. Pardue, convention president.

The Saturday night program will begin at 7:30 o'clock, and a feature will be the annual election of officers. A president, vice president and secretary-treasurer are to be named. The last two of those offices now are vacant, Judge Pardue said.

Sunday's program will continue from 10 a. m. until 4 p. m., with a noon-hour interruption for a basket dinner. Numerous visiting groups are to participate in the singing.

Judge Pardue extended an invitation to "everyone who enjoys good singing" to attend.

Did you ever make upside down rolls the KARO way?

For Sunday breakfast or supper, these delicious Karo Buns will make your family "sit up and take notice." They're so flavorful, so satisfying... and really easy to make. Just follow this recipe:

KARO ROLLS

2 cups sifted all-purpose flour 1/2 cup melted butter
3 tsp. baking powder 2 tbsp. granulated sugar
1/2 tsp. salt 1/2 cup Karo (blue label)
1/2 cup shortening 1/2 cup chopped nuts
1/2 cup milk 1/2 cup chopped dates

Sift flour with baking powder and salt. Cut in shortening. Add milk slowly, to form a soft dough. Roll out on a lightly floured board into a rectangle 8 x 2 inches about 1/4 inch thick. Brush with 2 tbsp. of the melted butter; sprinkle with sugar, then roll up as for jelly roll. Cut into pieces 1 inch wide. Mix Karo with the remaining melted butter. Add nuts and dates, and spread in bottom of greased 8-inch cake pan, or in large muffin pan. Arrange circles of dough outside down on top of Karo mixture. Bake in a hot oven (450 degrees F.) 15 to 20 minutes or until brown. Makes 14 to 16 rolls.

Give Courtesy For Christmas

(By The Associated Press)
CHICAGO, Nov. 28.—The National Safety Council today reported progress in the nationwide effort to dam the rising tide of accidents in the United States.

The increase has not been stopped, the council said, but a peak rise of 23 per cent in traffic deaths in August has been cut to a 13 per cent increase in September and 12 per cent in October.

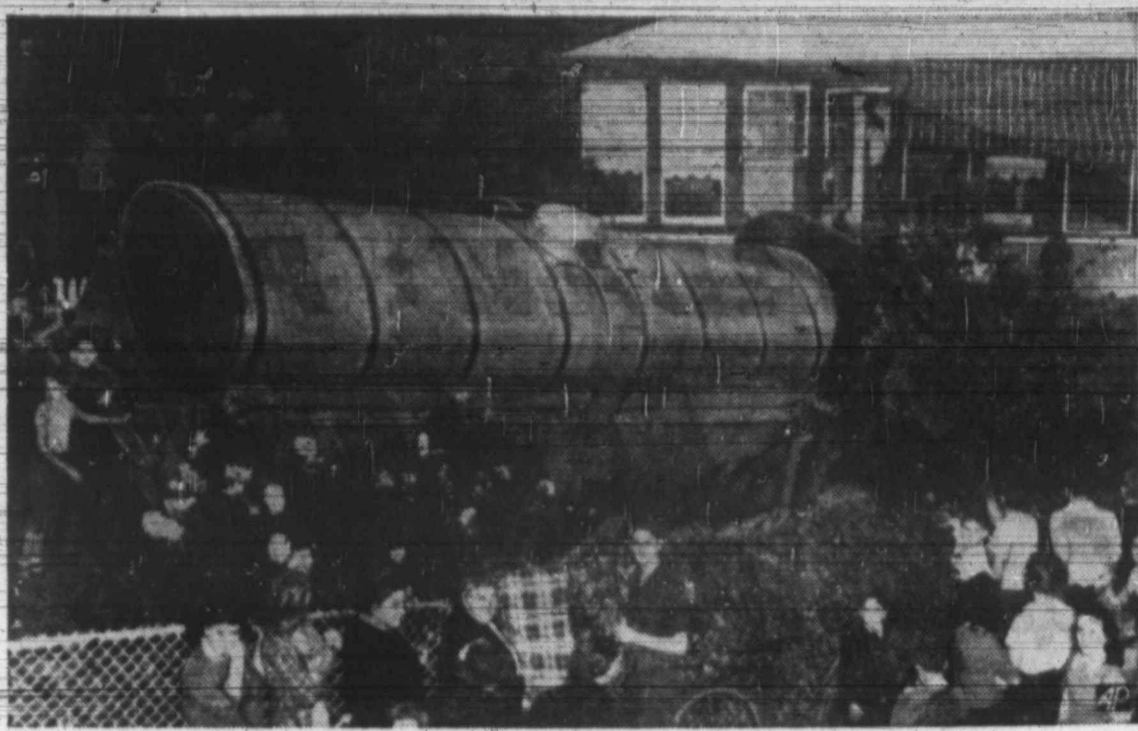

It was in August that President Roosevelt called upon the council to lead a defense emergency safety campaign to curb the growing menace. In an attempt to offset the usual rise in traffic deaths this year-end holiday season, the council and 130 cooperating organizations are undertaking a special Christmas safety drive with the theme, "Give courtesy for Christmas."

The October traffic toll was 4,050, approximately 400 greater than in October, 1940, but the 12 per cent rise was the smallest for any month this year. Traffic deaths for the first ten months of 1941 totaled 31,620, a 16 per cent rise over the 27,210 toll for the same 1940 period.

Travel in September, the latest month for which mileage figures are available, was 13 per cent greater than in September, 1940. This was identical to the fatality increase. For the first nine months of this year travel was up 12 per cent and the mileage death rate 4 per cent.

Cities of 10,000 or more population reported an average death increase of 4 per cent in October, compared with 6 per cent rise in September and 18 per cent in August.

For cities of all sizes a 6 per cent increase was recorded during the first ten months, compared with a rise in rural traffic deaths of 21 per cent over 1940.

RUNAWAY ON WHEELS—While Driver Earl Ackert of Staatsburg, N. Y., was breakfasting at Yonkers, N. Y., this milk truck and trailer ran down a grade, jumped a sidewalk and crashed so heavily into the home of Samuel Butterworth that the house had to be jacked up, to extricate the vehicle. Three persons were jolted out of bed by the impact and injured slightly.

Progress Reported In Drive To Stem Rising Tide Of Accidents In U. S.; Christmas Drive Is On

(By The Associated Press)
CHICAGO, Nov. 28.—The National Safety Council today reported progress in the nationwide effort to dam the rising tide of accidents in the United States.

The increase has not been stopped, the council said, but a peak rise of 23 per cent in traffic deaths in August has been cut to a 13 per cent increase in September and 12 per cent in October.

It was in August that President Roosevelt called upon the council to lead a defense emergency safety campaign to curb the growing menace. In an attempt to offset the usual rise in traffic deaths this year-end holiday season, the council and 130 cooperating organizations are undertaking a special Christmas safety drive with the theme, "Give courtesy for Christmas."

The October traffic toll was 4,050, approximately 400 greater than in October, 1940, but the 12 per cent rise was the smallest for any month this year. Traffic deaths for the first ten months of 1941 totaled 31,620, a 16 per cent rise over the 27,210 toll for the same 1940 period.

For cities of all sizes a 6 per cent increase was recorded during the first ten months, compared with a rise in rural traffic deaths of 21 per cent over 1940.

Recreation Committee Members Requested

Request that heads of organizations asked to name representatives on a general recreation committee, do so without delay was made at the chamber of commerce this morning.

The committee is to help work out the problem of arranging suitable recreation facilities for men to be stationed at the air base under construction west of the city.

Civic clubs, church groups and women's organizations have been asked to name representatives on the general committee and most of them have done so, chamber officials said. It is desired to complete the committee at once so that a meeting can be called early next week.

LONG WAY HOME

CHESTER, N. C., Nov. 28 (AP)—Sgt. Thomas Davis and Private James Simmons wish somebody would get directions straight. On maneuvers, they finally got back to their 106th quartermaster regiment base after traveling 175 miles to do it. The base was only six miles away from their starting point.

GOOD COFFEE AT LAST!

M-m-m, delicious! No wonder they call it whys of the morning... it's Schilling Coffee for me from now on.

Boy Scout Court Of Honor Set Tonight

A flint and steel fire making contest between members of troop 5, sponsored by the First Christian church, and No. 6, sponsored by the American Legion will feature the monthly Lubbock district Boy Scout court of honor in 99th district courtroom tonight at 7:30 o'clock, according to Rev. John A. Winslow, chairman.

Scouts scheduled for advancements follow:

Second class—LeRoy Boyd, Ed Wilson, Ben Wilson, Penrod Toles, Edwin Garner, Floyd Rector and Jimmie Garrett.

Merit badges—Sam Pat Birkman, Tommy Ingram, Fred Rogers, Joe Dean Payne, James Allen, Billy Adair, Douglas Ray, Brad Biggers, James Cagle, Dick Hardin, Charles Neffe, Leslie Morrisset, David Rowland, Weldon Adams, John Bill Wheeler, Willard Edgett, Billy Taylor, Bill Crawford, Howard Schmidt, DuWayne Jones, Turner Jacobs, Don Lyle, Ross Berry, Wayne Cobb, G. W. Taylor, Jerry Smyth, Don Landers, Willie York, Jr., Jimmy Witt, Bobby Lowrey, Wendell Harrisfield, James Hall, John Paul Craig, Sam Sensabaugh, Rex Zachary, Jerry LeMond, Bates Witt, Jim Pat Thurman, T. S. Cranford, Jr., Cicero Pendley and Joe Nelson.

First class—Marion Hobbs. Star—David Heister, Dick Hardin, Don Landers, and Wendell Melton.

Life—Jimmy Witt. Eagle Scouts silver-bronze Palm—John Joe Costolow.

KEEPS 'EM FIT—Dr. Anne Schley Dugan has job of keeping collegians and school children fit as national coordinator for schools and colleges in government's "Hale America" program. She is physical education director at Texas State College for Women.

BIRD SHOTS MAN—AVOCA, N. Y. (AP)—Fayette Van Wormer was struck in the eye with a shotgun pellet, although not in the line of fire. His best surmise as to what happened: the birds on the preserve are banded and one of the pellets struck the metal band and glanced off.

Rites Are Read For Local Men's Mother

Funeral services were conducted in Soper, Okla., this morning for Mrs. A. S. Wood, mother of W. C. and Ray E. Wood of Lubbock, who died at her home in Antlers, Okla., Thursday. The sons were at the bedside.

Mrs. Wood, 70, was a native of Indiana. She and her husband, who survives, celebrated their golden wedding anniversary three years ago. Besides the sons and husband, two daughters, 12 grandchildren and two great-grandchildren survive.

The oyster industry forms the United States' most valuable fishery from the standpoint of employment.

Services Planned By Rabbi Garsek Tonight

Regular services will be conducted in Congregation Shaareth Israel tonight at 8 o'clock by Rabbi Isador Garsek, who has recovered from major surgery.

Sermon subject will be "Dreamers of Realism." Sunday school will be at the regular time, 10 o'clock Sunday morning. Wednesday night at 8 o'clock a discussion group and class in Hebrew meets at the Garsek residence, 2610 Twenty-fifth street. Regular weekday classes in Hebrew will be resumed.

On his first South Polar trip, Admiral Byrd took two refrigerators to keep food from becoming too cold.

25,000 Expected For Texas Tech Clash With Wake Forest Saturday Afternoon

District 1-AA Eyes On Plainview

PAGE TEN—LUBBOCK, TEX. FRIDAY, NOVEMBER 26, 1941

Winding Up Another "Guessing" Campaign

Raiders Picked To Win By 7 Points

A substitute handicapper takes a shot at Saturday's football games, with a warning to the uninitiated that following these choices on the football cards is no way to get rich.

Except for a quartet of toss-ups, the selections below are generally in line with choices of the better known rating systems. Hoping to stay up with the 800 plus batting average maintained by the regular "guesser" for this paper, here are the picks:

To Win	To Lose	Place	Difference
Arizona	Kansas State	Tucson	7
Navajo	Army	Philadelphia	14
Clemson	Alabama Poly	Auburn	3
Boston College	Holy Cross	Boston	13
Pittsburgh	Carnegie Tech	Pittsburgh	19
Fordham	New York U.	New York	48
Georgia	Georgia Tech	Atlanta	8
Hardin-Simmons	Howard Payne	Abilene	10
Marquette	Iowa State	Milwaukee	20
Mississippi State	Mississippi	University, Miss.	3
Oklahoma	Nebraska	Lincoln	16

Vanderbilt	Southern Methodist	Ft. Worth	7
Texas Christian	Flagstaff	El Paso	19
Texas Mines	Louisiana State	New Orleans	7
Tulane	Richmond	Blacksburg	24
Virginia Tech	Wake Forest	Charlotte	2
Washington (St. Louis)	St. Louis	St. Louis	3
Michigan State	North Carolina State	Williamsburg	15
William and Mary	Nevada	Los Angeles	1
Loyola (Sunday)			

Texas Tech Still In Limelight For Bid To El Paso Sun Bowl

ALBUQUERQUE, N. M., Nov. 25.—On the theory that it's never too early to make big "bowl" medicine, sideline pickers are busy at their annual chore of making selections to the Sun Bowl at El Paso New Year's day.

With excellent host team prospects from the Border conference in Arizona university, Texas Tech and Hardin-Simmons, the Sun Bowl committee was sitting back and saying nothing with a satisfied air.

TCU Still Boosted

In the past two years, the Sun Bowl has sought to attract eastern teams to pit against the season's Border conference champions, the customary host eleven. Last year it was Western Reserve, the year before Catholic university of Washington.

Youngstown college of Youngstown, Ohio, has its supporters, and Western Reserve of Cleveland— which beat Arizona State of Tempe 26-13 Jan. 1 and has gone through this season with only one defeat—is understood to be amenable to another offer.

Western Michigan has also come through the rumor factory.

Strongest In Years

Others are Clemson, Virginia and William and Mary. Tulsa university was sounded out, but spilled the beans by saying publicly it wasn't interested this year.

The Arizona Wildcats appeared almost certain to be the unanimous choice of Border conference schools on the basis of an undebated conference schedule of five games.

Larson To End Stay As Navy Grid Coach

ANNAPOLIS, Md., Nov. 25.—Navy's game with Army in Philadelphia tomorrow marks the end of the three-year term of Major Emory E. Swede Larson as head football coach.

The announcement of Rear Admiral Russell Wilson, superintendent of the naval academy, occasioned no surprise as it was understood Larson's tenure as coach would terminate after three years.

Rear Admiral Wilson said he had been notified by marine corps headquarters that Larson will be detached in December from current duty as commanding officer of the marine detachment stationed here.

No successor to Larson has been picked but it may be one of the present backfield coaches.

Committee To Name Tillist

Amarillo To Play On Bulldog Field

PLAINVIEW, Nov. 25.—The football championship of District 1-AA will be decided in this city Saturday night by a meeting of the executive committee of the district.

Until yesterday there was a chance that the session would not be necessary, but Pampa's Harvesters clinched a share of the championship by defeating Borger, 46-6. Lubbock already had secured a tie, and yesterday's game left Lubbock and Pampa tied in the final conference standings.

Must Be Named Saturday

Amarillo can join those two schools in a three-way tie by defeating Plainview Saturday afternoon.

The meeting of the group will be called to order in the Hilton hotel here immediately after the game by Supt. W. A. McIntosh of Borger, chairman. Other members of the committee include the school superintendents at Amarillo, Lubbock, Plainview and Pampa.

Under the rules of the Inter-scholastic league, an eligible champion must be certified to the state office not later than midnight Saturday.

Pampa Explodes In Second

Borger held the Pampans scoreless for one period in the game Thursday afternoon at Pampa, but the Harvesters broke loose for four scores in the second period and finished out the string with reserves in the battle.

Waters, Arthur, Dunham, Hollis and Meador were the Pampa scorers, with Waters counting the first two touchdowns and the others adding one apiece.

Borger scored its touchdown just as the final gun sounded. The Bulldogs thus ended their season without a conference victory, and with a final record of three victories, four defeats and two ties.

It was the final regularly scheduled game for Pampa, too. The Harvesters have won three and lost one in conference play, winning eight and losing two for the season's total.

Middleweight Crown Will Be Cleared Up

NEW YORK, Nov. 25.—(AP)—Proms that even boxing commissions, given enough time, can add one and one get two, Georgie Abrams and Tony Zale tangled tonight in Madison Square Garden to clear up the middleweight mess that's been stewing for 11 years.

The sailor-boy from Washington and the steel worker from Gary, Ind., tossed their shots over the 15-round derby route. The winner, at long last, will be recognized as the sole world middleweight boss.

This will bring back a situation the like of which bash boulevard hasn't seen since Mickey Walker, unable to get his hair mussed in middleweight competition, gave up the title to take a shot at Max Baer and other assorted heavyweights.

The faithful are so pleased at the prospect of coming down off the merry-go-round that Promoter Mike Jacobs expects some 14,000 or 15,000 to turn up for the party. This would mean a gross gate of more than \$30,000.

Because Abrams is a "cuties" type of operator, he's a 5 to 7 betting favorite to out-gallop the rough-and-tumble mid-westerner mauler.

WHITEHILL RELEASED
CLEVELAND, Nov. 25.—Earl Whitehill, coach of the Cleveland Indians, was released today by Vice President Roger Peckinpaugh. Whitehill is a former big league pitcher who had seen service with Detroit, Washington and Cleveland.

Peckinpaugh also said that Dutch Zillung who acted as coach last season would be returned to scouting duties.

When East Suffolk, England, advertised for domestic scientist mistresses to teach cooking there was no response, but when it let it be known that they were wanted to teach sailors how to cook applications rolled in.

Schoolboy Roundup—All But Three Champions In Race Selected

By TOM W. MILLER
United Press Sports Writer

The final pieces were falling into place today and the annual schoolboy football race was nearly a completed picture of district champions.

All but three district titles had been determined, and the full slate of 16 winners will be filled probably by tomorrow night.

In two districts, the championship will be settled in a stove-warmed room with school committee men talking football and voting instead of on a mud-chilled field with youths playing it.

The District 1 and District 3 races ended in deadlocks.

Lubbock's Westerners and Pampa's Harvesters are now tied in District 1 with the likely possibility that Amarillo's Sandies will join the two Panhandle powers Saturday afternoon when the deciding titliss, now delayed after last week's 18-12 upset loss to the Harvesters, meet Plainview in Plainview.

A committee meeting immediately after the game will decide the champion.

In District 3 a dead heat between Odessa and Sweetwater is the result with the Bronco the likely choice to go into the finals.

In the Rio Grande valley Corpus Christi plays Edinburg tonight for the District 16 title with the unbeaten but once-tied Buccaneers heavily favored to repeat as champions.

Other Champions Named

These are the 13 titliss already victorious:

Dist. 2—Wichita Falls; 4—Ysleta; 5—Paris; 6—Highland Park; 7—Fort Worth Riverside; 8—Dallas Sunset; 9—Breckenridge; 10—Temple; 11—Tyler; 12—Nacogdoches; 13—Houston Lamar; 14—Goose Creek; 15—Austin.

Among the champions are four unbeaten and untied teams—Goose Creek, Paris, Sunset and Temple. Among them also are four repeating winners—Wichita Falls, Paris, Sunset and Temple.

1 flag and Corpus Christi wins its first district title in the six of last year's winners' back in the December playoffs this season.

Sweetwater Beasts San Angelo

Samar polished off Milby, the last obstacle in the way to its Houston championship, in an impressive manner, winning 35 to 0.

Breckenridge eased through a 13-0 victory over Cisco to take District 9 honors.

Sweetwater took advantage of Thanksgiving to beat San Angelo by one touchdown, 6 to 0, and go into the title with Odessa, District 3. Each lost one game, Sweetwater to Odessa, and Odessa to Lamesa, a team Sweetwater defeated.

SUGAR BOWL KEEPING QUIET ON SELECTIONS

NEW ORLEANS, Nov. 25.—(AP)—Speculation on the Sugar bowl teams shifted away from the South coast conference today while officials kept quiet on their behind-the-scenes maneuvering.

As rumors flew, none with confirmation, Duke was the center of much talk to meet Missouri, Duquesne or Fordham. Matching Duke and Missouri would mark the first appearance by either a Southern conference on Big Six eleven in the Sugar bowl.

Duquesne supporters argued that a battle between the two "Dukes" would bring together two top undefeated and untied teams.

The loss by Texas A. and M. to Texas deflated Aggie rooters and caused many to believe that the Southwest conference might be ruled out.

Techsans Plan Final Workout

Atlanta Scene Of Today's "Warmup"

(Special To The Journal)
ATLANTA, Ga., Nov. 25.—Georgia Tech's football field here this afternoon will be the scene of the last workout of the season for Texas Tech's Red Raiders, barring a possible Sun Bowl bid.

The Lubbock team will spend a half-day here, polishing up their game for the season's finale with Wake Forest at Charlotte, N. C., Saturday afternoon.

Arrive Saturday Morning

Coaches Dell Morgan and Bert Huffman won't take their players to Charlotte until Saturday morning.

The Raiders drilled at Sreport Thursday afternoon, working without pads in 66-degree weather. Most of the drill was devoted to offensive maneuvers.

No casualties were noted, although several boys were being treated for light colds. Don Austin had a black eye, result of a brush in scrimmage at home early this week. Most seriously afflicted by colds were End Harold Crossen and Center Ed Irons.

25,000 Are Expected

More than 25,000 fans are expected to see Saturday's game. It's "Wake Forest day" in North Carolina, celebrating the school's anniversary. It's also the only college game in the state Saturday, and barring bad weather will draw fans from the whole area.

Though the Deacons have been beaten four times and tied once this season, they're recognized as a tougher ball club than their record indicates. The teams that defeated them were Duke, one of the four major unbeaten clubs in the country; Boston College, Clemson and Marshall. The tie was 8-6 with South Carolina.

Deacons Seek Revings

Wake Forest will be seeking to even the score after a defeat last season when the Techsans trimmed them in Lubbock, 12-7. Many of the 1940 Deacons are still around, and they'll be wanting particularly to close the season on a happy note.

The fans are going for the game in a big way, even though the homelings haven't been so successful this year. Main reason is they want to see the team that won from Wake Forest in one of its good years last season.

Austin College Downs Trinity U., 20 To 13

SHERMAN, Nov. 25.—(AP)—The Austin college Kangaroos scored a touchdown in each of the first three periods Thursday to win, 20 to 13, over Trinity university for the first time since 1937. It was the season closer for both teams.

Elliott Floyd, Dallas senior, scored two touchdowns and place-kicked two extra points to lead the Austin scoring. T. Bailey, end, caught a pass from Kenneth Kuykendall for 23 yards and the first touchdown as Austin drove 70 yards in 12 plays. Floyd scored on three punts.

Workers in knitting mills of Scotland are so scarce that mill owners have asked the government not to call for military duty any more of their employees.

Brownfield Wins Again

SWC May Hog Post-Season Limelight—Texas Aggies "Definitely Will Play In Bowl Tussle;" Texas Also Back In Bowl Spotlight

BY HAROLD V. RATLIFF
Associated Press Sports Writer

COLLEGE STATION, Nov. 25.—Coach Homer Norton of the Texas Aggies stated emphatically today that his team would play in a bowl game Jan. 1 despite its loss to the University of Texas.

And he indicated more than one bowl might be seeking his Aggies.

Navy-Army Till Tops Program

(By The Associated Press)
NEW YORK, Nov. 25.—The fading football season is facing its last big day with the problem of producing opponents for most of the bowl contests and settling several family feuds.

Yesterday's second edition of the Thanksgiving holiday furnished one major scrap in which once-mighty Texas returned to form and kicked Texas A. and M. right out of the ranks of the unbeaten and untied by the score of 23-0.

Arkansas Scores Upset

Another Southwest entry, fall-end Arkansas, kept its season from being a total flop by whipping Tulsa, champion of the Missouri Valley 3-6. It snapped a seven-game winning streak for the Oklahomaans and a four-game losing streak for Arkansas.

Fullback Jack Fabian scored all the touchdowns for Oklahoma A. and M., which trounced Wichita (Kas.) university, 33-13. Elsewhere in the Southwest, Arkansas teachers nosed Arkansas Tech, 6-0. McCurry blanked Oklahoma City university, 7-0, and Opachita stopped Henderson State by the same score.

Louisiana Tech crushed Centerville, 39-7, and Chattanooga whipped Mercer, 40-14. Tennessee Tech shut out the Middle Tennessee Teachers, 6-0. Florida A. and M. scored a 27-0 victory over Xavier of New Orleans. Morris Brown dumped Clark, 32-0, and Lemoine triumphed over Arkansas State, 7-0.

Most Seek Bowl Bids

Tomorrow's headlines is that annual classic at Philadelphia between a talented Navy team that will be playing its last game for Coach Swede Larson and a scrappy Army eleven that will be completing its first season under Coach Earl Blaik.

Fordham, which looked like a cinch for a New Year's day engagement until the Pitt haymaker gave the Rams their one black eye, will make a last effort to attract attention in a tilt with New York U.

The Southeastern conference title will be at stake in a struggle between Mississippi and Mississippi State, with both looking forward to a holiday trip. Vanderbilt takes on Tennessee. Tulane and Louisiana State collide.

TCU Meets SMU

Georgia seeks to sharpen its bowl-bid chances against Georgia Tech. Clemson tackles Auburn. Citadel meets Sewanee and Virginia Tech faces Richmond.

On the Pacific coast, the search continues for a conference champ and western representative in the Rose Bowl. Stanford meets California and Oregon tackles Oregon State. Washington ties into Southern Cal.

Southwest conference games will find Baylor battling Rice and Southern Methodist meeting Texas Christian with nothing more to be gained than the exercise.

The Oklahoma and Nebraska argue over second place in the Big Six, while Iowa closes the season.

Cubs To Meet Merkel Next

Brownfield Scene Of Bi-District Tilt

(Special To The Journal)
BROWNFIELD, Nov. 25.—Brownfield's Cubs, owning their fourth district championship in five seasons, will try for their first bi-district title here next Friday afternoon in a game with the Merkel-Badgers, District 6-A titliss.

Brownfield won the 9-A crown Thursday afternoon at Littlefield with a crushing 34-6 victory that marked the tenth consecutive triumph for the Cubs and the tenth consecutive game in which they have scored at least 20 points.

After the game, Supt. Emmitt Smith of Brownfield and Supt. Conner Robinson of Merkel got together and made arrangements for the bi-district clash. Brownfield won the coin toss, bringing the game here.

Each of the two teams is unbeaten, and each boasts an outstanding victory record.

Deverle Lewis and Jiggs Tankersley teamed up and pushed past the Littlefield team Thursday exactly as they had ganged up on nine other opponents this year. Lewis ran 41 yards for a touchdown the first time he carried the ball, and a couple of minutes later Tankersley scored on a 19-yard dash around end.

Phillips Wins Title

After that it was just a matter of kicking off the minutes and the touchdowns until it was over. Littlefield, with Quarterback Robert "Babe" Hammonds in fine passing and kicking form, stayed in the game well enough to keep the more than 2,000 fans interested, but never put on a real sustained threat.

Lewis scored a couple more touchdowns, running for two and 36 yards, and Tankersley scored on a 49-yard passing gain from Billy Greenfield. Harold Dalton kicked the first four points, and missed the fifth, and that was Brownfield's scoring.

Littlefield's lonesome touchdown came in the second, a couple of passes from Hammonds to End Hugo Beyer pushing it over.

One other Class A game was played in West Texas, with Phillips-Bicknaves marching to the regional finals by swamping Hereford district 1-A titliss, 34-7. Phillips, District 2 winner, will be favored to take its second straight regional crown by defeating the winner of next Friday's McLean-Floydada game at McLean.

Who tipped the line, harried the ends, ran back punts, quick kicked and did about everything else a great football player should do.

Devaux Moser, Cadet candidate for All American honors, re-injured his ankle early in the game. He was held to three of the Aggie's five net yards gained from rushing.

Surrender Of Gondar Gives British Forces All Of East Africa

Troops Free To Fight In Libya

(By The United Press)
LONDON, Nov. 28 — British quarters said today that the Italian surrender of Gondar would release thousands of British and Indian troops and the south African air force for the Libyan campaign.

The British regarded the fall of Gondar as representing the final re-conquest of Ethiopia, a region of 330,000 square miles, and military experts said that if ever the British were forced to withdraw from Egypt, they could fall back on the Red sea coast of the Anglo-Egyptian Sudan without danger of attack from the rear.

FROM GREENLAND'S ICY MOUNTAINS—A U. S. Navy patrol plane dunes over desolate snow-covered mountains of Greenland, keeping a weather eye cocked over Uncle Sam's new outpost just in case "tourists" arrive.

Took Ethiopia In 1936
 Italy took Ethiopia after a brief campaign which began on Oct. 2, 1935, and ended, except for reactionary operations, with the occupation of Addis Ababa on May 9, 1936. A few days before Emperor Haile Selassie fled to demand "justice for Ethiopia" before the League of Nations and to enter exile in Britain.

Italy spent vast sums in the development of Ethiopia which, with Italian Somaliland and Eritrea, Italy's oldest East African colony, formed the "Italian empire." Shortly after Italy entered the war in May of 1940 Italian troops ousted British Somaliland.

Began Year Ago
 A year ago the British began a campaign which drove the Italians from Italian Somaliland, British Somaliland, Eritrea and all of Ethiopia, except for the Gondar area, where Italian troops elected to continue a desperate resistance which has now ended.

Gondar had a garrison of about 15,000 Italian and native troops commanded by Gen. Guglielmo Nasi. The city has been beleaguered for more than six months. The British imperial forces hit at the Gondar defenses, little by little, but relied mainly on starving the garrison. One by one the outer bastions were taken and aerial bombs and artillery were used to soften up the remainder.

For a time the British permitted Ethiopian couriers to carry mail between the Italians in Gondar and their families in British-occupied Eritrea. But this month the mail route was cut and the Gondar Italians, isolated even from their families and friends by mail, suffered severely from lowered morale.

Control All East Africa
 Gondar first came under heavy pressure on Sept. 27 of this year when the "big rains" in Ethiopia ceased. In just two months, accordingly, the campaign to bring about its fall was completed.

The operations which gave the British control of all of Italian East Africa was conducted by Lieut. Gen. Sir Alan Gordon Cunningham, now commanding the British drive into Libya.

Educational Meeting Dates Will Be Set

Schedule of educational meetings to be held in all communities in Lubbock county to acquaint farmers with the coming cotton marketing quota election on Dec. 13, will be set by the county Agricultural Adjustment Administration committee during its meeting today.

This was the announcement this morning of Walter Y. Wells, administrator and secretary of the committee. The meetings will be held probably next week and the week following.

Also the committee is to discuss plans for community elections to name committee members for 1942. The county has six communities, Slaton, Idalou, Monroe, Shallowater, Wolforth and Woodrow.

C. E. Litley of Slaton is chairman of the county committee, with two other members, John R. Murrell, Shallowater, and James Steele, Woodrow. There are two alternates, who are to act in the event other members are not able to do so.

County committee members are selected by delegates from each community, named at the time the community committees are chosen. Date of this election, is Dec. 20.

Smoke Screen Given Wide Use In Games

MEMPHIS, Tenn., Nov. 28 (AP)—The old boxing adage, "you can't hit 'em if you can't see 'em" also applies to modern warfare, so the army in its training program is emphasizing the use of smoke to cover and protect troops.

Since smoke is one weapon that can be used as realistically in maneuvers as in actual combat, it is being employed extensively in war games, according to Col. Adalano Gibson, chemical warfare officer of the second army.

"Due to the greatly increased firepower of weapons," Col. Gibson declared, "smoke to lessen the effectiveness of this firepower has become an important weapon on the battlefield."

He added that the use of smoke as a screen for river crossings, to interfere with tank operations, and to reduce effectiveness of machine gun and small arms fire constitute an important part in modern warfare.

"During the maneuvers," he said, "smoke pots were placed in sectors where artillery batteries theoretically were firing smoke shells."

Known as the "world's most dangerous snakes," King cobras are among the easiest of all snakes to tame.

SANTA CLAUS CANDY CASTLE
 THE STORY OF SANTA CLAUS
 WAY BACK IN THE MIDDLE OF THE 19th CENTURY SANTA CLAUS TOWN WAS PLATTED IN SANTA FE, BUT INDIANA ALREADY HAD A POST OFFICE SO NAMED CHRISTMAS. THE SANTA CLAUS RING TRAIL THE SAY WITH REINDER AND SLEIGH STOPPED NAMED IT SANTA CLAUS. THE ONLY SANTA CLAUS TOWN IN THE WORLD.

"Candy Castle" welcomes visitors to Santa Claus.

Santa Claus--Sleepy Indiana Community 10 Months A Year--Is Enjoying Seasonal Boom

BY DALE BURGESS
 Associated Press Staff Writer
 SANTA CLAUS, Ind., Nov. 28.—Christmas comes early to this quiet village in the hills of southern Indiana, a community of 50 souls virtually forgotten by the rest of the world 10 months a year.

The holiday season has arrived already. Nearly a quarter of the population soon will be hard at work in the post office. Then the cancelling machine will whirl night and day, printing the distinctive cancellation mark of Santa Claus, Ind., on nearly a million pieces of mail.

Unable To Capitalize
 Despite the seasonal fame of this village, efforts of business interests to capitalize on its name—the community's major commodity—have been unsuccessful. There is a "candy castle" where souvenirs are sold; at one edge of town there is a small "toy town park" where a promoter erected a big stone statue of Santa Claus on a knoll.

Candy, toy and gift factories planned to locate here but efforts of two of them bogged down in long and still continuing legal battles over leases and trade names. So the village sleeps happily on.

Others Sell Stamps
 Not even the post office has been able to increase its cash business enough to rise from a third to a second class station. Postmaster Oscar I. Phillips and his Santa's little helpers get all the work but he explains, "The other postoffices sell the stamps. Most of the letters and packages come in here, already stamped."

But Postmaster Phillips, who handles the office most of the year with only his daughter, Odessa, 27, to help him, isn't bitter about the fate of his third class office. When the rush begins—he gets heavy about Dec. 7, he calls in Bessie Fogle, Walt Van Winkle and a dozen others. Although his postoffice doesn't sell the stamps, the rush permits him to give part-time work to many of the community's residents.

Originally Named Santa Fe
 It's all really a mistake, or at least a compromise, that Santa Claus bears the name that made it famous. It was named Santa Fe when the post office was originally established in 1856. But then another and an earlier Santa Fe, Ind., was discovered and the new name was a fortunate compromise. First, this was the county of Abraham Lincoln's boyhood meant nothing then. And the grave of Nancy Hank's Lincoln, west of Santa Claus, was just the resting place of another young pioneer woman. An elaborate memorial building is rising there now but in 1856 no one expected much from the wooded hills and rocky little farms of the new village.

Things Humming Now

Things are humming now but on Christmas Eve, Santa Claus

MR. SANTA CLAUS HIMSELF Postmaster Oscar I. Phillips

will resume its quiet sleep. When the last cheerful greetings have gone out, and the weary mail clerks turn out the lights and trudge home through the snow, the old buildings seem to sag again in weariness and the bare locust trees that surround the town wave lonely greetings in the wind.

Before that happens this year, a half-million Christmas greetings from one corporation alone will have whirled through the cancelling machine and at least as

"All-Out" War Games Provide Showdown Test For American Forces

Teamwork Is Army's Goal

BY THOMAS M. JOHNSON
NEA Service Military Writer
AT ARMY MANEUVERS IN THE CAROLINAS, Nov. 28.—This country's greatest peacetime maneuvers have now become its most warlike. Neither setups nor gameplans are planned for final "battles" now beginning amid Carolina sand, clay and pine. The climax nears in our effort to do in two years what took Hitler seven.

The Battle of the Carolinas has great interest for the whole country. The lessons learned by the 300,000 troops here engaged will be applied everywhere, as witness observers are present from every region and service. They can see readily that, thus far, these have been the most successful of the summer's coast-to-coast series of war games.

Officers and men have profited by good weather and ground here to gain in wisdom and stature, greatly aided by an increasing, but not yet sufficient, proportion of new weapons, especially airplanes.

Air Authority Defined—There are now enough planes here to begin what the army expects will be a demonstration that it has solved the vital, vexing problem of air-ground co-operation, and that the answer is that the airplane is not a juggernaut, but a weapon.

The burden of proof is on two new units, the Air Support Command. One is attached to Lieutenant General Hugh A. Drum's First Army, the second to Major General O. W. Griswold's opposing IV Corps. Their planes—several hundred of many types—will take the air to help the ground troops after each of those generals has conferred with his special air advisor. But the general, not the airman, will "have the final say" as to WHAT they shall do. As to HOW they shall do it, the airman decides.

Seeking Teamwork—The army believes its testing, culminating here, will show this is the way to get the teamwork in which the Germans excel, with their co-ordinated air-ground forces, and in which Britain's co-operating, but independent, R.A.F. has fallen short.

But the Air Support Commands will be very flexible and can be used on independent missions—if, and when the single army commander, taking counsel with his airman advisor, agrees.

The army hopes also it has solved another big problem—making the foot soldier realize what airplanes can and cannot do for him and to him.

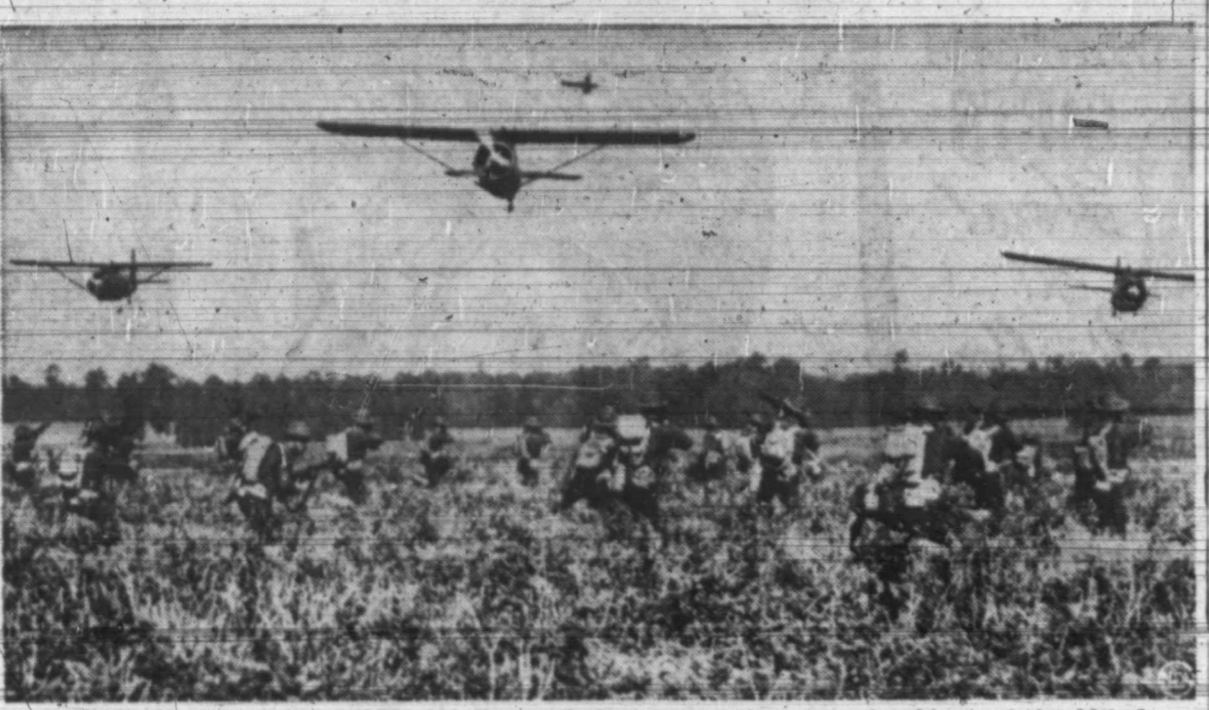

While congressmen, generals, admirals, inventors, civilian airmen, columnists and other "experts" view John W. Dougherty remains blissfully unconscious of all this fuss about air power. He refuses to look up when a plane passes overhead. He knows it won't hurt him.

Need The "Real Thing"—Even he can be taught to camouflage his bivouac, to not hang out white undershirts or wear conspicuous paths, but he just cannot imagine what bombing might do. He's got to see the bombs burst. Showers of lamp-like may take their place, but only the real thing can make the army realize what it's all about.

Another arm with difficulties it hopes to straighten out here is the cavalry. Some of its nine regiments have been aggressively riding the armored force's gas and oil supplies, demonstrating that not gas, but grass, will take horses to places where tanks cannot go. Even so, the cavalry will permanently go to grass if some military men have their way. They think the horse has become a dodo. Which fact the chief of cavalry, Major John K. Herr well knows. He has observers here spurring the horsemen to make up for the fact that mostly they are undertrained National Guardsmen.

Shakedown To Follow—Army regulars now appreciate the guard more than in 1917.

General Marshall and most experienced generals believe in the "one army" concept that worked in World War I, pitting regulars,

Machine-guns chattering (with blanks), "enemy" planes swoop low over doughboys of the 13th Infantry during maneuvers near Columbia, S. C. The foot soldier is learning "what airplanes can and cannot do for him and to him."

guard and reserves into one pot. Today the grim earnestness of many officers, of all sorts, comes not only from patriotism but from knowledge that they are fighting for their jobs. Heads that prove wooden or swollen will roll, not in the Battle of the Carolinas, but after it ends. This belief is well founded and so widespread that General Marshall recently sent his four army commanders a disclaimer of reports that the axe was being sharpened for them, too.

However, after these maneuvers the army seems destined for a shakedown, followed soon as possible by a shaking up. Soon bullet and shell will come in quantities sufficient for the real thing that hitherto has been a conspicuous lack of training. That will improve marksmanship and morale; soldiers will learn more of the feel and sound of war.

Two Items Serious Ones—In fact, save for that, many units in the army today are as ready as were many A. E. F. units that went into action and won. But—two buts:

1. The Germans they beat were inferior to today's Reichswehr in equipment and morale.
2. At that, the A. E. F. paid too big a price for victory in men killed and maimed and sickened.

How will the army shape up when the Battle of the Carolinas is over? Probably about like this:

Good enough for defensive fighting in prepared positions (on the American soil): 75 per cent.

Good enough to fight in island outposts: 50 per cent.

Good enough to fight in expeditionary forces, east or west: 25 per cent.

Unlike Twins—NEW YORK (AP)—Identical twins are not identical, says the psychologist, Dr. J. S. List. He reports that the School of Social Research studied more than 100 pairs of twins in five years and found no set alike in personality or mentality.

While a British heavy bomber was under a heavy barrage as it passed over the Ruhr, the pigeon carried to fly messages should the crew be in distress, laid an egg.

Parents Are Told To Let Children Stutter—STATE COLLEGE, Pa., Nov. 28 (AP)—The most practical way to handle a child who stutters is to let him stutter, a Pennsylvania State college instructor in clinical speech advises.

Eugene T. McDonald said the best thing to do if your child stutters, is not to call attention to the defect, let him speak slowly and never ask him to repeat.

"As soon as a child becomes aware of the fact that his parents are concerned about his stuttering, he attempts to control it and his fear brings on more stuttering," McDonald said.

He added that no single cure-all for stuttering has been discovered. Improvement may be effected, he declared, by distracting attention, suggestion, reading syllable by syllable or making the patient conscious of the movement necessary to produce sounds.

Cause of stuttering, McDonald said, is unknown. It is a defect common to 1 per cent of the population and research has demonstrated it is more frequent in families in which twins are prevalent.

10,000 Girls Drafted For Panama Is Wish—PORT ARTHUR, Nov. 28 (AP)—If Congress would just draft 10,000 girls and send them down to Panama to help entertain soldiers, the Canal Zone would be a great place.

That's the view of Pvt. Howard C. Willis, expressed in a letter home from Camp Paraiso, Willis wrote.

"There is very little entertainment for the soldiers here outside of the camp. There are several thousand troops here on the Isthmus and only a few girls.

"We have been thinking of having someone write to their congressman and persuade him to introduce a bill drafting about 10,000 girls for service in Panama."

Less than one per cent of Brazil's exports now go to Germany and Italy.

No Political Lobby Needed For Youth In America, Is Claim

BY GERRY DICK
Written For NEA Service
WASHINGTON, Nov. 28.—Smiling, blue-eyed Louise Morley, 22-year-old daughter of Christopher Morley, is a very serious minded young lady but she doesn't take herself too seriously. For one thing, the man who wrote "Where the Blue Begins" and "Thunder on the Left" won't let her.

In Washington, as a member of the National Advisory Committee of the National Youth Administration, she tells of the ribbing her father gave her when someone phoned about preliminary arrangements for the conference, and he picked up the phone and announced "Washington calling."

He declared that then and there he disclaimed any further responsibilities and would expect her to assume them henceforth for the whole family.

At Bryn Mawr Miss Morley majored in politics, was especially keen about her courses in International Law and Public Administration. She didn't know then just how she would use her textbook knowledge of public affairs, but she felt that young people like herself could help make the world a better place to live in if they knew the rules by which their elders play the game.

She spent her junior year, the year before the war, in Switzerland at the Graduate School in International Studies.

Social Service Work—At Bryn Mawr she belonged to community service committees of college girls who worked in settlement houses, summer camps for slum children and the Hudson Shore Labor School for women factory workers.

Since college, Miss Morley has been Conference Secretary of the International Student Service. Chief function of the organization is educating students for democracy, but interesting them first in their own communities. Since she finds it easier to get students to listen on Saturdays and Sundays when they have no classes, Miss

Louise Morley, 22, declares: "The young people I know are not discouraged."

Morley has a seven-day-week job. She first became aware of the other half of the world when she

attended public school in New York. She had gone to private school before that, but the family decided all the children should have a year or so in public school. "When it came time for me to go back to private school, I would not leave," she says. "Public school was too interesting, and I had found out what great good luck I had. I had a room to myself to study at home, an intellectual heritage, all the books—I could read, the chance to meet interesting people. And my schoolmates, many of them, had no decent clothes, no money for lunches or carfare. You owe something to the world when you happen to have such good fortune as mine."

NYA Officials Listen—Miss Morley is one of four young people asked to sit in with NYA officials to give their opinions on what can be done by youth and for youth in the defense effort and the post-war period.

She says: "The young people I know are not discouraged by the world situation. They have a lot more common sense than older people think they have. They want to participate in their national life and their community life and they will if they are given a chance."

In her New York office Miss Morley has a map dotted with thumb tacks wherever defense projects have been located. It is part of her job to interest campus citizens in nearby colleges in the opportunities offered them for study and community service by lack of recreation and decent housing in these defense centers.

"We don't need an organized youth pressure group in this country," she thinks. "We only need to make young people who have the advantages of a college education realize they are the natural leaders of the coming generation, and that their citizenship begins in their own neighborhoods."

Occasionally Miss Morley contributes a piece to the International Student Service magazines. "But," she says, "the editor almost always rewrites my stuff. I can't write worth a cent. But I can talk."

Confident and well informed as

Miss Morley is, she thinks a sense of humor is the most important thing in the world. And she doesn't think she knows all the answers.

HOYT'S COMPOUND A MIRACLE WORKER SAYS LUBBOCK LADY

83-Year Old Mrs. Paden Says Hoyt's Relieved Indigestion Gas Pains, Bloating, Sour Stomach and Constipation.

Mrs. F. P. Paden, 1622 Fifth Street, Lubbock, Texas, says: "I have been bothered with indigestion, gas pains, bloating, sour stomach and weakened kidneys."

"My stomach was awfully upset. Nothing I ate gave me strength. I had sharp pains in my back and limbs. I was nervous, run-down."

"Hoyt's Compound has been a miracle worker for me! All my troubles have been relieved. My food digests, my bowels are regular and I sleep all night. I breathe easily and feel years younger than I actually am."

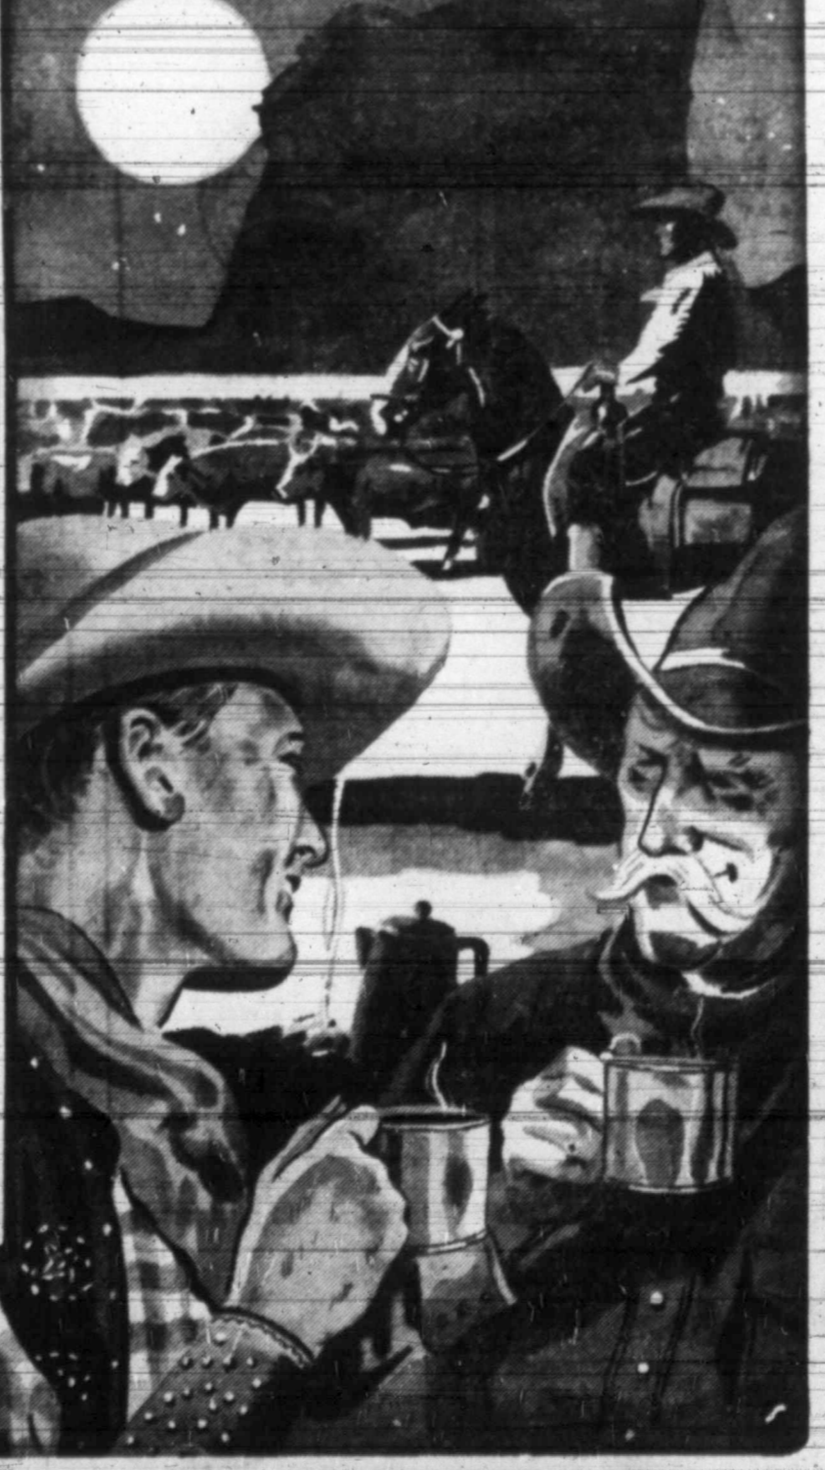

Hoyt's Compound is recommended and sold by the Mark Halsey Drug Store and by all leading druggists in this area. Adv.

SPEAKING OF BRANDS . . .

In song and story . . . in legend and lore, well known brands have been interwoven in the tradition of the Southwest. And in foods and related products there are brands that are symbolic in the tradition of good living in the Southwest. When it comes to coffee the brand that smacks of the tang of the outdoors with a richer, mellow aroma and robust flavor is **Admiration!** Switch to Admiration and climb another notch in good living.

The richest flavor in coffee!

KIRK'S Oceans of Lather Instantly in Any Water! **IVORY FLAKES OR IVORY SNOW**

That Girl on Broadway says a lot of people who believe in love at first sight can't see any too well. Somebody sent in a clipping containing the following verse. The Plainsman liked it, believes readers will, too. HATS OFF TO 'EM! Youth laughs at us old timers. And maybe youth has cause. For when your hair gets white and thin You don't expect applause; Perhaps we're not so handsome, Perhaps we're not so spry, But when youth gets as old as us, Then youth won't wonder why. For we have fought the battles, And we have led the van, And made this life an easier road For many a younger man; And he will do tomorrow A lot of things that pay Because old timers thought them out And tried them yesterday. We know the world is changing. The ways of trade are new, Men put new labels on their goods. New roofs on houses, too, But still the old foundation That some old timer laid Remains the cornerstone of all The progress men have made. 'I like blondes, because they catch on so easily,' remarked a business executive the other day. Yeah, that's right — but, on the other hand, they're sometimes awful slow about letting go! 'If you're middle-aged and worrying about it, you're silly. You won't be middle-aged long! That Man on Avenue Q says he doubts if the world could be in a bigger mess if it were being run by efficiency experts. The Dept. of Next Nominations: Intimate friends of Tech Professor C. M. Stantley call him "Cash," a shortening of his first name, "Cassius." Logically, therefore, the new son and heir at the Stanley home, also named "Cassius," is dubbed "Small Change." Not bad, not bad. IT BEGINS to commence to look like maybe Congress before long will place on the President's desk some sort of legislation at throbbing throats which hamper or contribute to hampering the nation's drive for national defense. To tell the unvarnished truth about it, such legislation would have been passed long ago if "the boys on the Hill"—meaning the majority of the House and the Senate — had had their way about it. But every time someone hopped up in the Congress and mentioned the need of legal control of a handful of powerful labor bosses, the "word" was passed from the White House that no such legislation was either wanted, or needed. Everyone knows that's a fact—that is, everyone who has made any effort to find out. The Plainsman has been told that on every hand by members of the Congress, not only from Texas but also from other states, upon three visits to Washington within the past year. Any honest congressman will tell anybody that if he is asked the point-blank question: But it took a personal and political falling-out between the President and his one-time pal, John L. Lewis, to turn the tide. A nation outraged by strike after strike in defense industries had made its voice heard — and felt — in Congress, but not at 1600 Pennsylvania avenue. It took Lewis, himself, to make the President give Congress a little rein by figuratively thumbing his nose at the Chief Executive who, in 1936, accepted from Lewis and Lewis' union a \$500,000 political fund to spend as he chose on his second re-election campaign. WHAT EVER else he may or may not be, Franklin Roosevelt is not a man to be crossed without striking back. As long as the labor bosses paid homage to him, the President played political ball with them. He permitted strike after strike to paralyze the defense drive while insisting that the nation faced an extraordinary emergency. But when he first asked — and then pleaded with — John L. Lewis to turn his miners back to their jobs and Lewis impudently gave him the Bronx cheer, the President let the boys on "the Hill" know that they could make faces. But bear in mind that Congress didn't force the issue. The organized American public, howling with rage from every corner of the land, didn't force the issue. John L. Lewis forced the issue when he cut the President's ego to the quick by refusing to comply

For The Love Of Pam

BY VIVIAN GREY (Copyright, 1941, For The Journal) CHAPTER 32 LENORE HAPPY Adele had been looking at Bart intently. There had been something almost too gay about him as he talked of money. He wasn't speaking of it with the regret and heaviness of men who had lost it. Lenore, however, had her mind on other things. She said: "Oh, Father, do you mean you really won't object if I fall in love with someone who hasn't a family tree to hang anything on? Do you mean it really? You've always been so fussy about such things, for Granny's sake if nothing else." "Of course I mean it. Where did you ever get such silly ideas of your dad? My concern has ever been only for your good. And Granny likes people who do things. That comes next to her religion, bless her heart." "Darling, Oh, my darling father! Lenore's giddy beauty lightened and warmed into something lovelier than her parents had seen in a long time. "Bring the boy around, Lenore," she suggested. "I'd like to see him." Lenore nodded. She said: "It's Vin Baroli, darlings. Oh, can I bring Vin to dinner tonight?" Stormy Hour Jerry hurried through dinner. There were things he had to attend to. He had been going through emotional tortures, but he had finally beaten them all. He had decided he would make the victory complete that night. When Pam saw Jerry at her door, her eyes grew cold, though her heart trembled. It was going to be difficult to steel herself against Jerry. With all his faults and weaknesses he was still the man she loved. Pam didn't wait for Jerry to speak. "Jerry Winthrop," she said, "you can turn right around and get off the piazza as fast as you got on it! And don't ever come with the Rooseveltian demands. The fact that Lewis, himself, forced the issue is important. Remember, if you're going to hell, more about it further down the line. While Mr. Roosevelt, himself, has said little, his position as labor as a whole is still dominant. The President can still claim — and probably in all truthfulness — that he still is, all for labor; that he didn't break with labor but, instead, broke with John L. Lewis. There's a difference between the two—a big difference, politically. NEXT year every member of the House of Representatives and over one-third of all the senators must run for election. The men who make up the Congress can make or break Franklin Roosevelt or any other President, and Mr. Roosevelt will want to do everything possible to assure election of a majority who will support him and his policies. In some states and congressional districts, organized labor's organized vote is essential to the election of any candidate. In other states and congressional districts, it is a very important factor, although it may not be the dominant one. So in 1942, President Roosevelt wants to be able to control the labor vote as he has controlled it, lock, stock and barrel, for almost 10 years. And he doubts he will be able to control it in 1942. PROVIDED he can convince the rank and file of labor that he is for it while being against the patron saint of the CIO, John L. Lewis. Recently the favorite indoor—and outdoor—sport of Americans has been asking each other why the President hasn't personally cracked down on the labor dictators with the same unerring courage he has cracked down on everyone else who has failed to toe his mark. A lot of people, without thinking, have considered the President's lethargy as something deeply mysterious. As a matter of fact, there's been nothing mysterious about it at any time—or all along. The President hasn't cracked down simply as a matter of political expediency. And it is well known that no craftier, cannier, orabler politician than Franklin Roosevelt has ever sat in the rambling mansion at 1600 Pennsylvania avenue, or in a back-room Tammany tepee on New York's Lower East Side. AS WELL as anyone—and better than most—President Roosevelt knows that labor's vote is delivered in a package. He knows that in 1942, and again in 1944 — if indeed, we still have elections in this country — labor's vote will gather in the back rooms and decide to whom their support will be ordered. And with this knowledge, the President is going to be in a position to command that vote again — if it is at all possible. Don't kid yourself about that,

Hold Everything!

"Hello—Snopp's Magazine? Say, what's the idea of stealing our article on 'Crime Doesn't Pay'?"

Today's Journal Editorial . . .

FURLOUGHS MAKE FINE GIFTS Beyond question, the Christmas gift that is sure to make more people happier than any other has been announced. It was the announcement from the War department that arrangements will be made to grant Christmas furloughs to between 700,000 and 800,000 soldiers. This will insure more real happiness in more American homes than anything else possible to imagine. Of course, it is going to be happiness touched with a bit of sadness. No one will know where the boys may be when another Christmas comes around. But it is a fortunate trait of human nature that present happiness obscures thoughts of possible future unhappiness. But those bridges are made to cross when, and if, they are reached. Obviously, the Army and the nation are going to share in the reward for this act of thoughtfulness announced so well in advance. We can think of nothing that might do more to strengthen morale in the Army, the home and the nation. It was a few evenings later that a large and very elaborate party, gotten up on short notice, was given at the country club. Jerry asked Pam to go. It was a party of such elaborateness as Pam had never seen before. "But who's giving all this grandness?" Pam asked of Freda as they met in the powder room. Leo was Freda's escort. "Why, the Winthrops. Didn't you know, my pet? They're bringing some more of the good old Winthrop money." "Don't talk to me, Jerry," Pam said furiously. "I don't want to hear anything you might say." "All right, dear. I've been all wrong up to a few weeks ago when you showed me the light. Since then I've tried to show you that I mean right. I've been right. I can't help it that a girl who finally decides she wants the security of marriage comes down here and—well—Pam knew why he was stammering. "Come down here and wants to marry you. I know, Jerry," she added with less anger. "Your complete lack of conceit has helped in your undoing. Of course, girls want you. You're handsome and you've had money and the sure way you make friends makes you seem like easy prey for them." "I'm easy prey for only one girl now, darling," he said tenderly. "Pam," he asked earnestly, "think over the past few weeks. I won't give you up. I won't do you hear, my island flower? Do you?" Pam was thoughtful for a moment. Then she said earnestly: "I know you've been trying, Jerry. I know it. And you've more than tried. You've accomplished your purpose." Anger had gone from her. No use pretending anger when love filled her heart. "Pam, darling! He kissed the finger that was encircled by his grandmother's ring. Surprise Pam awoke the next morning to find May gone. She left a brief note. "I can't take it. You're the first person who's ever beaten me." "I wonder if she had money to start out on," Pam said, slightly worried about the girl, since her own life had adjusted so happily again. She wondered if she had been too harsh with May. But Melita, serving her breakfast, smiled quietly. "Kind always have money," Melita said wisely. "They use so much of other people's, their own is always there, bambi. She's one never to worry about. Smart about taking care of self first." Pam's life had slipped back to the old pleasant routine again. It was nice. Even Melita and Juan were happy about her again. Today's Thought O Lord our Lord, how excellent is thy name in all the earth! Psalms 6:9. From, then, great God, we spring, to thee we tend,—path, motive, guide, original, and end—Samuel Johnson.

Walter Winchell

ON BROADWAY (Copyright 1941, for The Journal) McCLELLAND Barclay (who learned how during his Naval Reserve hitch in Hawaii) came with chinticks at Copacabana . . . Shapely Lillian Lane, of the Claude Thornhill crew, adjusting her garter in front of the RKO Bldg at twilight—the signal for four parked cabbies to give out with "the 5 o'clock whistle" . . . Gladys Glad (Mrs. M. Hill) gazed a long while when she was Ziegfeld's loveliest . . . William Knudsen puffing furiously on his huge seegar . . . W. Somerset Maugham and his dght (Mrs. Vincent Paravicini) who looks more fragile than most of the women he writes about in books—lunching at the Colony. Sallies in Our Alley: It happened in Club 13 where a notorious gal-about-town was plenty puffed and making a pest of herself. While Gave Dixon was trying to sing her pretty tunes the intruder started screaming an accompaniment . . . "How would you like it," sarcastically shouted Frankie Hyers at her, "if I came over to—where you're turned off all the red lights?" . . . A reporter interviewing Ray Noble remarked: "I can understand why a girl vocalist should be pretty, but why must she have pretty legs? After all, every girl singer wears a long gown . . ." "I know," replied Noble, "but suppose she falls off the bandstand?" . . . Dr. John J. Posner says any similarity between a square deal and what Kurusu has up his sleeve will be purely Occidental. MIDTOWN Vignette: The other middle-of-the- night, a Canadian soldier went into Hamburger Heaven and wolfed about five hamburger sandwiches, so hungry was he. As he went to the cashier's desk, he was told: "Oh, I couldn't think of taking money from you. You're doing something to make it a better world, and all I can do is wish I could. Sorry, no money from a soldier when he never has any in the neighborhood. Please come here and eat all you want!" . . . The Canadian said he'd like it lots more if he could pay his way . . . "I have the money!" he said, displaying a wad . . . "Sorry," said the cashier, "wouldn't that five dollars Canadian in one of the wealthiest men in the world? His name is Duncan McMartin. Has about 40 million smackers. Little Miracles—About-Town: The left-over slabs of butter on cafeteria tables. Most people in Europe don't even have enough crumbs . . . Children hurrying to school carrying their books—not gas-masks. . . Street-corner officers getting police protection, while they rap the President and Gov. . . In other parts of the globe you get shot for shooting off your mouth. . . Mail and passenger planes roaring through the skies—not flying bombers. . . Lovers juggling dreams and sipping hot chocolate with whipped cream on top—things money and even political power can't buy in most of the world today . . . Newsstands containing papers and mags with five kinds of opinion. . . A Newsweek audience hissing and applauding without fear. . . Libraries with any kind of book you want. Churches where people worship in peace . . . And the nightly miracle of the of Broadway lights—more illumination in ten blocks than in Paris, London, Moscow, Rome and Berlin. NEW YORK Novelle: The other night at the Greenwich Village Inn, Nat Karson, the scenic designer, and producer A. Bloomingdale were pro and con on Topic A: "There's one love I'll never forget," Karson sighed. "I had hoped to marry the girl, but she was killed in a car crash out on the coast. You remember her, Al? Her name was Dorothy Dell." "At the next table a girl, who couldn't help overhearing them, exploded into tears and shook her sob. "Later, she turned and begged Karson's pardon for making such a scene. "Was Dorothy a friend of yours?" asked Karson. "Yes," sobbed Miss Brewster of the Brewster Twins, and the man at the wheel that night who was killed with her—was the fellow I was going to marry."

Who's Chasing Who?

Showdown Looming Between New Dealers And Business Dollar-A-Year Men Are To Face Quiz Program

BY PETER EDSON (Washington Correspondent) WASHINGTON, Nov. 28—Any government employer of any importance who ever worked for a firm which now has contracts to furnish more than a million dollars worth of defense materials is going to have his record and his connection looked into by Senate for Harry S. Truman's special committee investigating national defense. Public hearings on this subject, if any, will not be held until after the first of the year. It will take that long for the committee counsel, Hugh A. Fulton and Charles Patrick Clark, and their investigators to go over all the data from the defense agencies and prepare the case. But letters have already gone out to all government departments and defense agencies, asking them to submit revised lists of all their consultants, lawyers, accountants and assorted experts, together with their past and present corporate connections and their government pay. There may be an inclination to conclude that this investigation presages a showdown between the New Dealers and the special fee men who are grouped under the broad classification of dollar-a-year boys. Men from big business have come in by the score and departed by the dozen. The number was nearly 300 once, but a recent register listed 86 dollar-a-year men and 34 more who worked for nothing. If these dollar-a-year men were inclined to feel sore at being "investigated" again, pack up their bags and go home for good, they might be justified. Before one of these experts from business can be appointed, he is investigated by the FBI to make sure he has no criminal record—and then by the Treasury to make certain he and his firm are on the up-and-up as far as income and corporation tax records are concerned. HELP WANTED THE question naturally arises as to where the government can get men with the "know-how" if it doesn't pick them from private business, as Bernard Baruch has recommended it must. The New Deal answer is that the wrong kind of experts have been hired. Instead of getting engineers and general superintendents, like Knudsen, there have been too many chairmen of the board and directors—financial men, not production men. Hugh Fulton of the Truman committee staff insists, however, that this is in no sense a probe "get" anybody. The Truman committee has functioned as an auditing committee, making a study of the defense progress, preparing a critical historical record of how the defense program was carried out. With the conduct of the preparedness program under the closest scrutiny, the committee feels that it has a duty to look in- jerques . . . The Stork Club has barred the town's biggest spender and tipper—J. Man-

Grid for crossword puzzle with numbers 1-62.

to every phase of the defense effort. In the case of the dollar-a-year advisers, this means a study of "the sub-conscious background with which they approach the problem of national defense," as Fulton puts it. In other words, would the natural conservatism of a good businessman make him reluctant to see the country expand its productive capacity, realizing that after the defense effort ended there would be surplus productive capacity of the same kind the country went through in the late, unlamented depression? And would this reflect unfavorably on the speed with which all-out defense progressed? QUESTION ON SALARIES THE question of the defense advisers' connections with business has come up in the Truman committee's public hearings only once. That was when Arthur H. Bunker, who since June has been chief of the aluminum and magnesium section of the materials branch of OPM, testified before the committee in September. Bunker was formerly vice president of the Lehman corporation of New York, which is an investment trust affiliate of Lehman Brothers, a banking firm. It was brought out that Lehman corporation owned stock in the Aluminum Company of America, and that Bunker's salary of \$60,000 a year was still paid by the Lehman corporation. The matter was dropped there, but that's what the committee evidently means by "sub-conscious background." Another case would be that of Ralph K. Davies, now deputy petroleum coordinator on a government salary, but before that, vice president of the Standard Oil Company of California. And there are others. INITIAL NEWS WPA runs a nursery school for the children of officers and enlisted men at Jefferson Barracks, Mo. . . . CIO now has state councils in 33 states. . . . PEA, Public Buildings administration, has hired an interior decorator to see that defense housing is done up in good taste. . . . OPC, Office of Petroleum coordination, has its program for tripling aviation gasoline production stepped up to 20 new plants. . . . NRB is on the pan from unions for permitting strikebreakers to vote in labor board elections. . . . IBM, Bureau of Mines, reports hard coal production this year will reach 56 million tons, highest since 1934. . . . BR, Bureau of Reclamation, has 28 power plants on 17 reclamation projects with nearly a million kilowatts capacity, and is doubling this capacity by the end of 1943. . . . DC, Department of Commerce, reports curtailment of fancy Christmas packing as a defense economy.

Enjoy Comfortable Steam Heat in your Stores or Offices

Modernize Your Heating with CLOW Gasteam RADIATORS

Each Radiator is a low-cost steam heating plant in itself. The long, narrow shape fits under windows or along walls out of the way and warms cold air entering room, preventing cold floor drafts. They heat by natural circulation and there are no hot air streams to blow on customers or employees. Gasteam Radiators are the safest and most durable units available. They are simple in design and easy to operate—made of cast iron—and have no moving parts to wear out or become noisy.

For Your Name Investigate Clow Gasteam Radiators for your domestic heating. They furnish steam heat at low cost and give your family the best kind of heat obtainable.

See your Gasteam Representative today and get an estimate.

Odd But Science

Germ Springs Few Tricks On Heredity

BY HOWARD BLAKESLEE AP Science Editor

MINNEAPOLIS, Nov. 28—A germ which seems to be able to change heredity has been found in soil experiments at the University of Minnesota.

The germ lives in the soil. When the wheat crop disease known as foot-rot appears, this germ goes to work on the disease.

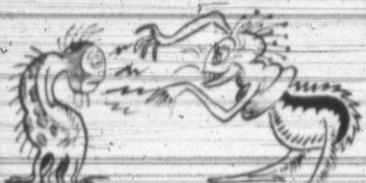

The result is to change the disease so that its organisms which transmit the wheat malady, change their hereditary characteristics.

The disease loses some of its virulence as a result of this change. The discovery is described in Phytopathology, the plant disease specialists' journal, by J. J. Christensen and F. R. Davies of the University.

The influence on heredity appears to come from a chemical which the soil bug produces. This chemical has not been isolated. It passes through the finest filters. Heat does not destroy it, nor does acid. But alkali decomposes it.

The Minnesota scientists said it seems reasonable to assume that under certain conditions, the association of these germs with the organism causing foot-rot, would explain observed changes in the damage done to wheat.

This germ which is a specialist in changing heredity is a common soil germ and so far as known is harmless.

The seven-pound pigmy-hippopotamus found by native women in a Liberian stream has been named "Skippy" because he enjoys water frolics in a wash basin.

A FARM THAT PAYS DIVIDENDS EVERY YEAR

Being forced to retire on account of his advanced age, the owner is offering to sell one of the highest producing farms that we know of.

320 acres, all in cultivation and under fruit. This is a very rich section, and alfalfa land. Location is in the heart of the shallow water district of the South Plains, close to town, school, and paved highway. This is a farm not affected by drought, it has no lean years, will yield a nice revenue every year and can be bought for \$30.00 per acre. About one hour's drive from Lubbock.

LEGAL NOTICE

THE STATE OF TEXAS

To Wilma Baker, a feme sole, Wilma Baker Oliver and husband J. P. Oliver, and the unknown heirs and legal representatives of each of said defendants, if they or either of them be deceased.

You are hereby commanded to appear before the Honorable 99th District Court of Lubbock County, Texas, on and before the 10th day of December, 1941, at 10 o'clock a. m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, to answer and defend in this citation, same being the 22nd day of December, A. D. 1941, filed in and to answer Plaintiff's Petition filed in said Court on the 5th day of Nov. A. D. 1941, in this cause, numbered 874, on the docket of said court and signed by Plaintiff, Plaintiff, to Wilma Baker, a feme sole, Wilma Baker Oliver and husband, J. P. Oliver, and the unknown heirs and legal representatives of each of said defendants, if they or either of them be deceased, Defendant.

A brief statement of the nature of this suit is as follows: To-wit: That on or about the 1st day of Nov., 1941, Plaintiff was lawfully seized and possessed of the following described land and premises situated in Lubbock County, Texas, to-wit: Being all of Lot No. 2, in Block 68 in the McCrumen's Second addition to the City of Lubbock, holding and claiming the same in fee simple; that on the day and year last aforesaid, defendants unlawfully entered upon said land and premises and ejected the plaintiff therefrom and now withhold from him the possession thereof; to his damages in the sum of \$1300.00.

Wherefore, premises considered, Plaintiff prays that the defendant be cited to appear for title and possession of the above described property, for his damage and costs of suit for such other and further relief as may be justly demanded. Which he may be entitled and will ever pray as more fully shown by Plaintiff's petition on file in this suit.

The officer executing this process shall personally deliver a copy of this citation to and make due return as the law directs.

Witness my hand and seal of said Court, at office in Lubbock, Texas, this 6th day of Nov., A. D. 1941.

The Plainsman Gets Some Mail

EDITOR'S NOTE: Editors of this newspaper are pleased to receive letters on all subjects. However, no letter of more than 500 words will be considered for publication, and all letters submitted are held subject to the right of the editor to publish or not publish as he may deem proper. The editor shall be the sole judge of whether or not letters may be published and cannot engage in correspondence concerning them.

TEACHER DISAGREES

Dear Plainsman: In your column of November 24, you made the statement that you did not believe the state legislature had any more business guaranteeing a wage minimum for teachers than it had guaranteeing a wage minimum for bricklayers, painters, editors, lawyers, etc. In this I believe you are wrong.

The above mentioned workers are not considered as state employees, but, for several purposes, teachers are. The educational system in Texas is more or less controlled by the State Board of Education. There is a State Superintendent of Public Instruction. There is a state apportionment of \$22.50 per capita between the ages of six and 18. The state furnishes free text-books to the students of Texas' public schools. The state supplies state-aid to many of our rural schools. The state provides an equalization fund for the education of those in school districts of poor financial conditions. The state provides funds to transport students to school, an sure you know of many other ways the state takes an interest in our public school system. Therefore, why shouldn't the state have more business fixing teacher's salaries than salaries of other workers mentioned above?

Sincerely yours,
Gordon M. Deering, teacher,
Lubbock Junior High School.

(Dear Mr. Deering: Thanks for your letter. I know I am hopelessly out-fashioned in this era of paternalistic government, pressure groups, etc., but never-the-less I cannot help but cling to the theory that too much dictation by the government to the people is bad. I realize that everything you say about the connection between the state and the school system is basically true. However, school teachers are not employed by the State Superintendent of Education, or by the legislature. Instead, they are employed by their individual school districts, hence it seems to me that agreements should be made between the district and the employe, rather than between the state and the employe. You and I doubtless differ in opinion because you are on different sides of the fence. The very powerful teachers organization can doubtless exert more influence on the legislature than it can on the various school districts in the state, hence the drive to set teaching salaries by law. I don't believe the state of Texas has any business telling the taxpayers of any school district how much they shall spend for teachers, chalk,

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Each day, most people pass about 3 pints of urine.

If 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. This waste matter starts nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. If you are a busy person with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

PICTURE FRAMES
