FINE RAINS

Saturday and Sunday light rains fell at Baird and Monday morning the rain increased to a regular old time rain storm and flooded the streets. Creeks are all running and we have plenty of stock water and the finest season in the ground at this time of the year for several years. Grain had begun to need rain and many were uneasy lest our fine prospects for a good grain crop would come to naught, but the rain came just in time. The rain was general over the west.

Mrs. Almer Street died Sunday afternoon and the body was interred at Admiral Tuesday. Mrs. Street was a daughter of Mrs. Sanders, of Admiral, and has lived in Baird for a number of years and has many friends who are made sad by her death. Mrs. Street was born January 26, 1888 and was 31 years old. She leaves a husband and five children, the youngest a baby 10 days old, her mother, two sisters and a brother. We extend sincere sympathy to the bereaved ones in their sorrow.

BIG SPECIAL AT SIGAL THEATRE

When Victor Hugo finished *Les Miserables* in 1861, he said:—

"Dante made a hell with poetry. I have tried to make one with reality."

Les Miserables is admittedly the greatest and most melodramatic of all Victor Hugo's melodramas, and William Fox has pictured it with William Farnum playing the part of Jean Valjean. *Les Miserables* will be shown at the Sigal Theatre on Monday, March 31st.

ENTERTAINED

Mrs. C. M. Mills, assisted by Mrs. W. H. Smith and Mrs. Lonnie Ray entertained a few couples in honor of her son, Robert L. Cochran, who is home on a 20 days leave of absence. A two course dinner consisting of Turkey dressing, salad, tea, ice cream and cake was served to the following, Misses Ellen Bell, Pensie Work, Carmine Oliphant, Ada Raley, Opal McFarlane, Nina Griggs, Beulah McWhorter, Messrs James Ross, Dudley Foy, Bob Norrell, Ed Glover, McFarlane, Perdue and Cochran. Bob will leave about April 1st, for Baltimore, Md.

Miss Ruth Leonard underwent a serious operation at Highland Sanitarium, and her many friends and the friends of her parents will be most happy to hear that the operation was a success, and that her condition is highly satisfactory. A speedy recovery is hoped for this lovely young girl, who will be a High School graduate in June.

Her parents, Mr. and Mrs. B. N. Leonard and her grandmother, Mrs. Lones, of Baird, Texas, were with her at the sanitarium and their friends are rejoiced that their anxiety is relieved.—Shreveport, La., Journal.

OIL NEWS.

Not much change in the oil situation except the abstract business seem to be increasing.

Our special reporter was so busy he did not have time to get up the news, but we learn from County Clerk, Nordyke, that he had just recorded a drilling contract for a 45-00 foot test well on J. H. Cunningham place one mile north-west of Putnam. The drilling outfit left Birmingham yesterday. We understand that this is a big corporation and own a number of producing wells in various states. This indicates that men of large capital have faith in the Putnam field.

DID SMILE ON OCCASIONS

Indian Could Relax, but Only When He Felt He Had Earned the Right, as It Were.

Here is a story told at a dinner party by a Red Cross official who has just returned from France.

The grandson of Sitting Bull, the famous Indian chief, was an interesting convalescent in Base Hospital No. 46. He had enlisted in the early days of the war, had gone over the top and worked hard among the Germans before he was wounded.

Nurses and doctors caring for him tried in vain to get more than a grunt out of him in response to questions, while the other men in the ward called him "Gloomy Gus," because he never cracked a smile.

The Red Cross representative in the hospital becoming interested, tried his hand at "cheering up" the Indian. Gifts of cigarettes and chocolate were received, but without a change of expression.

"Don't you ever smile?" he demanded of the Indian one day, and for the first time Sitting Bull's grandson grinned.

"Sure," he replied. "When I kill a Boche!"

Why Spell It at All?

"Why not spell Germany with a small G hereafter," queries Superintendent Shields. "Surely she has earned the distinction."

"The old widespread, pot-bellied capital G is typical of German type of other years, but the small g, that resembles a whipped dog, with its down-hanging tail between its legs, is in keeping now." — Los Angeles Times.

HOOVER FACES TASK OF FEEDING STARVING NATIONS OF EUROPE

Backed by \$100,000,000 Voted by Congress He Is Directing America's Part in the Work—Trusted Aids Make Personal Inspections of Food Situation in Poland, Serbia and Austria—Difficult Problems to Solve.

By LLOYD ALLEN, Western Newspaper Union Staff Correspondent.

(Copyright, Western Newspaper Union.) Paris.—Backed by \$100,000,000 voted by congress, Herbert Hoover is here directing America's big part in feeding the famine-threatened nations of Europe.

But it is not the policy of Mr. Hoover's commission to give food away to the peoples now so sorely pressed with reconstruction problems. They must pay—at once, whenever possible. When they cannot pay, they are to be given credit, with security that will insure America against total loss.

Any other policy would mean the pauperization of Europe, and Hoover has no intention whatever of conducting a commission that would quickly put the millions of Roumania, Poland, and Serbia, to say nothing of the enemy nations, into a mighty bread line.

With this fundamental policy as the basis of conducting a gigantic relief commission, Mr. Hoover first of all needed money and authority to start the machinery. He had come to Europe with \$5,000,000 apportioned from President Wilson's contingent funds to finance such immediate relief work as was found, upon investigation, to be absolutely necessary for the salvation of Europe's new democracies, the Czecho-Slovaks, the Poles and Serbs, and also the Roumanians.

Congress Votes \$100,000,000. When Hoover had had a chance to look around, he discovered that \$5,000,000 was just about enough to finance food shipments for one of these nations. He did not single out one nation, however, but ordered cargoes aggregating \$15,000,000 rushed from the United States at once.

He trusted the American people to provide the capital needed. And when he got the first news of the final passage of the \$100,000,000 appropriation in congress, an expression of relief came into his face that had not been there for weeks.

With a small staff, Mr. Hoover has headquarters in the Hotel de Crillon, in Paris, which has been turned into a combination office building and hotel for members of the American commission to negotiate peace.

Some of Mr. Hoover's most trusted aides are making personal inspections of the food situation in Poland, Serbia, and Austria.

Dr. Alonzo Taylor's report from Vienna is very interesting. He found the output of coal and agricultural products in Austria-Hungary seriously reduced during 1917 as the result of the war, and still further lowered during 1918.

Austria-Hungary Badly Crippled. As a result of the war and the allied food blockade, the stocks of commodities of all kinds, especially textiles, have been dangerously depleted and on account of the short production of coal the railways of the Austro-Hungarian states are badly crippled.

ties of all kinds, especially textiles, have been dangerously depleted and on account of the short production of coal the railways of the Austro-Hungarian states are badly crippled. Having efficient railway transportation is an important factor in moving foods where they are most urgently needed. Anything for the Czechs must pass through what is left of Austria proper.

Austria-Hungary has been divided into five separate political areas. Taylor believes that this action has for the time being greatly reduced the resources of all this territory. Each state sets up barriers against the others. He found the food distribution and supply which formerly was a matter of exchange among the separate states almost at a standstill. One section will have coal, another some sugar, another some grain, but each unable to "carry on" because of lack of what the others have.

In such a situation, one state, inefficient, and with its financial system paralyzed, will have plenty of coal, but no food, while another having some food cannot distribute it because its railways have no coal.

All of which causes such general unemployment as to approach the danger point. In the essentially Austrian lands, there is a condition of apathy. No one seems to have hope. The people wait and in Vienna make an attempt at gaiety. Of industry there is none.

In Jugoslavia and in Czecho-Slovakia there is an entirely different psychology. These liberated people have faith in the future and are reaching out and struggling to build up prosperous nations, while the German-Austrian peoples drift along in an apathetic state, and the Hungarians live in a daze of proud resignation.

Galicia and eastern Hungary, that have been taken over by Roumania, have become voiceless. Doctor Taylor found the food shortage most serious in German Austria, where the people are on a very low daily ration with extremely short supplies in stock, or in sight.

In Czecho-Slovakia there was sufficient food to carry the nation through the worst of the winter, but a shortage before the new harvest was inevitable.

Austria-Hungary—with fatalistic attitude—seemed unable to start reconstruction; not knowing and scarcely caring what became of them. Political bitterness and financial paralysis completed the picture.

Out of this chaos, as director general of the supreme council of supply and relief, Hoover must find some method for distributing American foodstuffs.

Feed Him Before He Faints. For the new nations, the Czecho-Slovaks and the Poles and Jugoslavs, that have no money, the scheme for selling American foods on credit is simpler.

Should any emergency arise in these countries demanding the prompt distribution of food, it will be distributed on the principle of "feed him before he faints."

The communities or nations must pay. Where they have no money—and the new democracies have little or no money worth anything outside their own borders—the food commission will take over some commodity produced in the nation.

Some time must elapse before the Americans can trade with Austria even on the basis of getting money or its equivalent for every pound of American-bought food that is distributed, because Austria was one of the nations against which America declared war.

Until the blockade is lifted American interests cannot trade with the Austrians—unless perchance the situation develops to a point where red tape must be cut to save the lives that otherwise would be lost on account of the inroads of famine.

While the peace conference was building up a machine to settle problems arising from a war-torn Europe,

FAMOUS YANK FLYERS

Poland, one of the new democracies, was suffering from lack of foods that could only be supplied from America.

Saved From Starvation.

Hoover sent Dr. Vernon Kellogg to investigate the situation. Kellogg reported "Poland must have immediate assistance from the outside world (which meant America) if the poorer inhabitants of the large cities and the unemployed workmen and children in the industrial centers were saved from starvation."

Under normal conditions, Poland is self-supporting, as regards food, but four and a half years of war had brought the nation to desperate straits. German looters stripped all machines of copper and belting. Scores of machines were wantonly destroyed. Tons of stuff were carried away by the Germans.

In all Poland, with its 4,000,000 people, the danger of starvation was a daily menace from December, when the peace conference started, until food from America arrived.

Take Security.

It is with such nations as Poland that Hoover has to deal. There was only one way to obtain some kind of compensation for American foods distributed. This "one way" entailed considerable risk when one thought in terms of millions of dollars. But millions—in the old war game were mere pawns in the gigantic enterprise of war.

And in the first reconstruction days they had to be viewed from the same standpoint. The one just method, according to the Hoover policy, was to take some kind of security from the nations benefited by American supplies.

Roumania had oil fields which formed a basis of credit, if the world (America) sent food in time. The world needed oil, and Roumania needed food.

In Warsaw there was another kind of security; the woolen mills, which in peace times were among the finest in the world. Factories could not reopen, however, until the employees were fed. The population was weakened from hunger. "Feed the people; they in turn will feed the securities," was the Hoover policy. The first need has been met by a gift ship from America, but it is only a drop in the bucket.

They are telling a good joke on Will Upshaw. He was up the other day, and was the interesting center of several groups of members who had heard of the "Prohibition Cyclone" of Georgia.

While talking in the lobby to one of these groups of forthcoming associates, Congressman Garrett of Houston, Tex., passed, after salutations. "Did you ever hear Garrett speak?" asked Upshaw of the members of his group.

"Yes," they all chimed in. "The most masterly address, the most beautiful, soul-stirring address I ever heard in all my life of association with great orators, fell from the lips of that great Texan and statesman one night at Dallas," said Upshaw.

"On what subject was Garrett speaking?" queried one of the party, rather interested. "He was introducing me," replied Upshaw solemnly.—Atlanta Constitution.

"It's the last straw!" she exclaimed bitterly. She tapped on the floor with her right toe, always, with her, a sign of repressed passion.

"The last straw!" she repeated. He shuffled his feet in embarrassment. "I'm going!" she cried. "I would not stay here another second, even for a moment."

And she swept out, and there was nothing left for him to do but follow. "I didn't know it was the last straw, or I wouldn't have taken it," he apologized miserably.

And she, who had never sipped a lemonade without a straw in her life, and never intended to, sniffed scornfully, without replying, and refrained from inviting him in when they reached her house.

Not Us.
An old man, rich in this world's goods, who had accumulated ninety-six years of age to his credit, went to a fortune teller to see what the future held for him.

"Sir," said the soothsayer, as she grasped his palm and looked into its wrinkled mysteries. "I predict for you a long life." Then she added as he in his exuberance of joy handed her a yellowback of large denomination. "With plenty of money." Now who would gainsay that each had received the worth of the old man's money?

HUNGARIAN ACTION DISCUSSED IN PARIS

PROBLEM IS WHETHER TO LEAD REDS OR DECLARE WAR ON THEM.

SEEK TO SHIFT THE BLAME

All Are Agreed for the Moment That Something Should Be Done to Relieve Menace.

Paris.—Efforts have been made by the supreme war council to lock the Hungarian stable door after the anarchists had stolen the horse. Quite solemnly methods of cure were debated, although heretofore measures of prevention had been ignored.

With Hungary irrevocably lost and Roumania almost certain to go, with the Ukraine and other Russian borderlands awakening, and thinly concealed symptoms of anarchism appearing in countries so much nearer Paris, the conference has again to plan to discuss methods of preparing a program whereby the subject could be referred to a subcommittee to suggest steps leading to the consideration of action at some unnamed time.

It may be as President Wilson thinks that the Hungarian menace is a blessing in disguise in that it will speed up peace making. Others are in the view, but say the speeding process should show first on the league of nations. All are for the moment agreed that something should be done and that something may eventuate from the two main lines of action that are being analyzed.

The first is the outright recognition of anarchism combined with efforts to control and direct it, converting to general use such virtues as the movement may contain and eradicating its evils.

The second is to assume that the anarchists have committed an act of war in leaguizing themselves with the entente's enemy (Hungary), and that a declaration of war is therefore justifiable.

Which of the two courses will be followed nobody can say, but the odds just now favor the former.

SUNDAY SCHOOL LESSON

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)

LESSON FOR MARCH 30

REVIEW.

GOD'S HAND IN A NATION'S LIFE

SELECTION FOR READING—John 24: 14-23.
GOLDEN TEXT—Righteousness exalteth a nation; but sin is a reproach to any people.—Proverbs 14:34.

PRIMARY TOPIC—How God led his people (Psalms 77:20).
JUNIOR TOPIC—Recognizing God's leading.
INTERMEDIATE TOPIC—Evidences of God's guidance.

Since Israel was a theocratic nation, perhaps the best method of review will be to trace God's hand in that nation's life. Israel was led, fed, clothed and disciplined by God.

Lesson I. God's hand is clearly discernible in the experiences of Israel in Egypt. Israel was to be the religious teacher of the world, therefore the nation must sojourn in Egypt, the most advanced in learning of any nation at that time. In order that Moses the great lawgiver might be equipped with the best possible education God used Pharaoh to oppress the people. This oppression served a threefold purpose: (1) It served the testimony to the Egyptian nation that the living God was the God of Israel. The more they oppressed them, the more they multiplied. (2) It served a beneficent purpose in bringing the nation into its own. It required the crucible of suffering to bring humanity into its own. (3) It made the nation willing to leave Egypt and go to Canaan, the promised land. Had not the hand of oppression been upon them they would have chosen to remain in Goshen.

Lesson II. When Israel was ready to go to Canaan God had a leader ready for the difficult task. His parentage, education at his mother's knee and at Pharaoh's court, and communication with God in the desert of Midian had equipped him for this work.

Lesson III. Though enslaved by a powerful nation, God undertook freedom for Israel, and by ten telling strokes—the plagues—he tore the shackles from their hands and set them free. The Passover is a memorial of that blessed deliverance.

Lesson IV. God opened the Red sea and made a path of safety for Israel to cross, but overwhelmed Pharaoh and his hosts in the sea.

Lesson V. Israel bitterly complained when they faced the wilderness without food. God sent them manna and quails. The manna did not fail them until they came into Canaan.

Lesson VI. God sent Jethro to give needed counsel to Moses. The strength of Moses was about to break. God took one outside of the commonwealth of Israel and through him communicated the wisdom which Moses needed to save him from collapse through overwork.

Lesson VII. At Sinai Israel is organized into a nation, and the ten commandments are given as their constitution. In this constitution is clearly set forth man's duty to God and his obligation to his fellow men.

Lesson VIII. God's hand is seen in his burning anger against the nation for turning away from him to worship the golden calf. He is a jealous God; he will not tolerate a rival.

Lesson IX. Through unbelief the spies are sent to search out Canaan. When they were urged to take possession of the land according to God's promise they rebelled. Because of this failure God caused them to wander in the wilderness for 38 years.

Lesson X. When God's disciplinary measures had run their course the people were back again upon the borders of Canaan. Joshua was chosen by God to lead the people, as Moses' time to depart had come.

Lesson XI. In the cities of refuge God provided that revenge should not take the place of justice.

Lesson XII. Before Joshua's death God through him set forth the conditions upon which the nation's welfare could be maintained, namely, whole hearted obedience to God and separation from their wicked neighbors.

A Prayer.

Our Father, we bless thee that thou hast not failed to be asked but knowing our need, hast permitted us, in thy great mercy, to make our requests known unto thee, as well as our adoration and joy in thee, so we pray thee for the things that are requisite and necessary. Thou knowest what things we have need of before we ask thee, but thou hast hidden us ask thee because thou delightest in our consciousness of dependence upon thee, and wouldst have us feel our needs that we may be led to receive their supply. Through Jesus Christ, our Lord, Amen.

Sphere of His Holiness.

If this sphere of his mercy and wrath, tenderness and severity, is so beautiful, what shall be the splendor of the sphere of his holiness? What the glory of the presence chamber, judged by the excellence of this distant boundary lodge?

Going to Church.

We cannot take advantage of the church without going to church, any more than we could take advantage of a week-day school, without going to classes each day.

Calomel Loses You a Day's Work! Take Dodson's Liver Tone Instead

Read my guarantee! If bilious, constipated or headache you need not take nasty, sickening, dangerous calomel to get straightened up.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle doesn't cost very much, but if it fails to give easy relief in every case of liver sluggishness and constipation, you have only

to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Adv.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the musky mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—Adv.

GOOD-BYE BACKACHE, KIDNEY AND BLADDER TROUBLES

For centuries all over the world GOLD MEDAL Haarlem Oil has afforded relief in thousands upon thousands of cases of lame back, lumbago, sciatica, rheumatism, gallstones, gravel and all other affections of the kidneys, liver, stomach, bladder and allied organs. It acts quickly. It does the work. It cleanses your kidneys and purifies the blood. It makes a new man, a new woman, of you. It frequently wards off attacks of the dread and fatal diseases of the kidneys. It often completely cures the distressing diseases of the organs of the body allied with the bladder and kidneys. Bloody or cloudy urine, sediment, or "brickdust" indicate an unhealthy condition.

Do not delay a minute if your back aches or you are sore across the loins or have difficulty when urinating. Go to your druggist at once and get a

box of imported GOLD MEDAL Haarlem Oil Capsules. They are pleasant and easy to take. Each capsule contains about one dose of five drops. Take them just like you would any pill. Take a small swallow of water if you want to. They dissolve in the stomach, and the kidneys soak up the oil like a sponge does water. They thoroughly cleanse and wash out the bladder and kidneys and throw off the inflammation which is the cause of the trouble. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gallstones, gravel, "brickdust," etc. They are an effective remedy for all diseases of the bladder, kidney, liver, stomach and allied organs. Your druggist will cheerfully refund your money if you are not satisfied after a few days' use. Accept only the pure, original GOLD MEDAL Haarlem Oil to your druggist at once and get a

W. E. GILLILAND, Editor and Proprietor.

Two of the Kaiser's sons are suing for divorce.

Don't trade your liberty bonds for oil stock or any other kind of stock, no matter how alluring the promises of large dividends.

In making the world safe for democracy it is a question if we have not made it unsafe for everything else—in Europe.

The Hobby Organs are all silent about the increased expenses to the tax payers of the state government. Why?

Germany insists that the allies have gone beyond President Wilson's 14 points in demands on Germany. As Germany never accepted the 14 points she has no kick coming.

Some of the proposed new nations of Europe have an idea that self-determination means get all the other fellow has, by armed force if necessary.

Delay is dangerous for success of the League of Nations. It will be impossible to induce America to endorse the plan if our troops have to begin fighting before the League is formed to prevent the half baked nations of the Balkans from destroying each other.

Branding the Kaiser as the arch criminal of the age will amount to nothing unless he is imprisoned.

Why should the arch criminal of the world go free when men are imprisoned during the war for "talking" against various governments?

Bolshevism has high ideals, so said, but their actions belie their claims. Murder, riots, robbery and starvation has enveloped Russia like a dark cloud of despair. Here we see so called "rule of the people" turned into a huge mockery and Russia into a shambles. The French Revolution was mild in comparison yet these hair-brained anarchist boast of "liberating" the world. God save the world from such "liberty" as the Russians offer.

Dr. Von Kuleman former Chancellor of the German Empire is quoted as saying only a few days ago that if all goes well with Germany that the Germans should be in Paris by 1925. Yes "if," but that is a big word for Germany just now. The allies will see to it that Germany will not be able to disturb the peace of Europe for years to come. If Kuleman did use the language charged he is either a braggart or a fool, perhaps both. Such talk will only make the allies harder on Germany.

The Legislature has voted to submit a seventy-five million dollar bond issue to build good roads in Texas. That is a move in the right direction and we hope the amendment will carry. For thirty-one years through THE BAIRD STAR we have advocated good roads in season and out of season, and while we oppose increased taxation, as a rule, we favor the proposition because good roads are worth more to the people than they cost.

One of President Wilson's 14 points is liable to create trouble in a way not anticipated. That one about the "self-determination of

of people" as to their destiny. Under that clause Ireland is demanding absolute independence from Great Britain; and under that clause the German population of old Austria are demanding annexation to Germany. No one, not even President Wilson anticipated that some of the 14 points would shoot backwards as well as forward. To carry out one of the 14 points would free Ireland, Egypt, India, the French possessions in Africa and Asia, the Philippine Islands, Hawaii and the dickens knows how much more trouble. The late Col. Roosevelt was severely criticized because of his fierce criticism of President Wilson's 14 points. He said some of them were only high sounding platitudes and that some of them were downright mischievous. When we begin to form a peace treaty that it is hoped will bring peace to a warring world we begin to see that some of Wilson's 14 points won't work as expected. Every selfish nation, even Germany is appealing to Wilson to stand by his 14 points and give them what they want.

Buy a home. A man who owns a farm is not bothered about strikes, lockouts and industrial troubles in the cities.

The outlook for considerable disturbance in getting back to a pre-war basis. It is a fine time to buy a farm and raise one's own hog and hominy.

As Europe seems to understand it, Uncle Sam is anxious to play "big brother" to all the little nations in Europe, Asia and Africa. We are afraid they will have a sad awakening to the fact that while Uncle Sam is very generous, yet he is nobody's fool, but a very practical business man, with all.

Somehow the impression got abroad while President Wilson was at home that no amendment to the constitution of the League of Nations would be allowed, but they are considering amendments now it seems. If other nations really want the United States to join the league several amendments must be made to the first draft of the constitution.

It seems like the Texas Legislature has never redistricted the state into senatorial districts since the last census as required by law. The result is some of the West Texas districts, so it is claimed, have two or three times as many people as some East Texas districts. You see this kind of a raw deal gives East Texas more voting strength in the senate than they are entitled to and West Texas less.

We hope to live to see the time when every quarter section of land, in every county in Texas, west of the Brazos river, has at least one large reservoir to store the storm water, and in addition to that every stream in the county should be dammed to store up the storm water for irrigation. If all this was done we believe drouths would be unknown in West Texas. At any rate plenty of large tanks would give our people plenty of water for all domestic purposes and for the stock something we did not have during the late drouth.

The State Of Texas: To all persons interested in the Estate of Mrs. D. C. Weeks, Deceased, George Weeks and Henry Weeks, have filed in the County Court of Callahan County, Texas, an application for the probate of the last will and testament of Mrs. D. C. Weeks, Deceased, filed with said Application and for Letters Testamentary of the Estate of said Mrs. D. C. Weeks, Deceased, which will be heard at the next term of said Court, commencing on the First Monday in June. A. D. 1919, the same being the 2nd day of June, A. D. 1919, at the Court House thereof in Baird, Texas, at which time all persons interested in said estate may appear and contest said application should they desire to do so.

Herein Fail Not, But have you before said Court on said First day of the next term hereof, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at my office in Baird, Texas, this 25th day of March A. D. 1919.

Forest Windham, of Tecumseh, spent last Friday in Baird. Forest and his family have recently returned from California where they have been making their home for the past few years.

Mrs. J. H. Walker, of Balmorhea and daughters, Catherine and Billie Bess, arrived Monday night on a visit to her parents, Mr. and Mrs. W. E. Gilliland. This is Mrs. Walker's first visit to the old home in more than a year.

William Loyd Phelps Lampson, Professor English Literature of Yale University, was so impressed by the William Fox picturization of Les Miserables, with William Farnum playing the part of the immortal Jean Valjean, which will be shown at the Sigal Theatre for the week beginning March 31st, that he wrote a letter of commendation to Mr. Fox.

"I was deeply affected by Les Miserables," wrote Professor Phelps. "The artistic and spiritual values of the great novel are both preserved to a remarkable degree in the adaptation; and the acting is excellent. I wish everyone in America could see this picture."

Discussing the production, Prof. Phelps said the educational value of such pictures as Les Miserables would not be over estimated.

Why Colds are Dangerous.

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphteria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take. For sale by all druggists.

TORTURED TEXAS WOMAN WRITES

Standing On Her Feet Torture to This Lady. Had to Ride Everywhere She Went, Until Cardui Brought Relief.

McKinney, Texas.—Mrs. A. B. Stovall, of this place, writes: "Some time ago I was in a critical condition. We only lived two squares from town, yet I wasn't able to walk the two squares.

I had to ride everywhere I went and suffered at that, but not so much as when I tried to walk. Standing on my feet was torture.

My greatest suffering was in my right side. It was so sore and I felt if I stepped down or jarred myself the least bit I could not stand it,—so just walked mostly tiptoe. This kept up until I was just about discouraged and decided I had best try something else.

Someone told me of Cardui, and where it had benefited cases similar to mine. I felt at least it would not hurt to give it a trial.

After my first bottle I felt better—there was less pain and soreness in my side.

After my third bottle of Cardui I was well and have been ever since." Cardui may be just what you need.

BARN IS FARMER'S BEST INVESTMENT

Modern Building Increases Production, Lessens Labor.

IDEAL STRUCTURE IS SHOWN

Plans Provide for Combination Dairy and Horse Stable—Brings All the Live Stock Under One Roof.

By WILLIAM A. RADFORD.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building work on the farm, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose three-cent stamp for reply.

"Better barns mean better and more productive cows." That is the axiom of the successful business farmer. Cows are valuable. More valuable than they have been in the history of the dairy industry in America. As profit producers they stand at the head of the live stock division of the farming industry.

When the owner of a dairy herd demonstrates to himself that a warm, well ventilated stable causes greater milk production at the time of the

by 98 feet. The main aisle is 30 feet by 36 feet. At the rear of the cow barn are two silos, 14 feet in diameter.

Accommodates 38 Cows.

The cow stable is designed to accommodate 34 animals in single stalls, and four others in pens. The cows are faced out, a feed alley, five feet wide, being between the wall and the line of stanchions. The litter alley runs through the center of the building and is eight feet four inches wide, forming a driveway through the barn. The advantage of this arrangement is that a team can be driven in one door, pass between the stalls, and go out at the other end of the building. At the rear of the cow barn are two feed rooms, connected with the silos. There also is a toilet room here.

The horse barn will accommodate ten animals, eight in stalls and two in box stalls. The farm office is at one side of the entrance and the harness room on the other.

While only the general scheme of equipment for this building is shown, the plans contemplate the use of many specialties that make for efficiency in doing the work required. The doors are equipped with storm-tight, easy rolling hangers; drinking water is piped to individual drinking cups at each stall, providing clean, fresh water at all times of the day or night; feed and litter carriers on overhead tracks make the distribution of food and the removal of manure easy. In the hay loft, a carrier is provided.

Careful provision has been made for ventilation, one of the most important features of the modern dairy and horse barn. There are air pumps or cupola ventilators on the roof, three large ones on the ridge of the main section of the barn and a fourth on

year when milk brings the highest price, he wonders why he did not build such a barn before. And when, with the modern barn equipment, he realizes that a great part of the unpleasant work about the barn can be performed easily and with less effort, he is as keen for modern conveniences in the barn as he is to have them in the house.

A comfortable cow is the best revenue producer. A cow that is cold, that is allowed to go thirsty until given times in the day does not produce the quantity of milk she is capable of giving. In a cold barn, that is poorly ventilated, a cow must consume greater quantities of food to keep herself warm. In a tight stable a greater portion of this food is converted into milk. Running water in the barn, where the cow can take a drink whenever she wants one, also means greater milk production. "Put the water into the milk, only do it before instead of after milking" is the advice of the successful dairyman.

Good Buildings Reduce Waste. The work under the old conditions was not pleasant, especially that in the barn. But when there is a con-

crete floor, with gutters into which the dirt can be washed; when there are carriers that take the food to the mangers and the manure out; and water at each stall, so that none has to be carried, or the animals driven to an outdoor water trough, which in the winter was usually frozen, there is none of the arduous labor taking care of the livestock that there was in the past.

A modern dairy and horse barn is one of the best paying investments the farmer can make. It will bring large returns in both money and satisfaction. It will lighten the work of caring for the live stock and cut the labor cost on the farm.

Leaving out all considerations of heeding the government's call to "Build a Building" in order to provide employment for the returned soldiers, building a barn that will provide a clean, convenient and sanitary home for the live stock is the farmer's best investment.

SOMETHING TO EAT.

The attractiveness of food largely depends upon its appearance. When it satisfies the eye it must further satisfy the palate to make food worth while.

Chicken Consomme.—Disjoint a well dressed fowl and cut in pieces four pounds of veal from the forequarter. Put in a kettle with one onion, two stalks of celery, eight slices of carrot, one teaspoonful of pepper-corns, one-half bay leaf, four cloves, two sprigs of thyme and two sprigs of parsley. Cook slowly four hours, removing the fowl as soon as tender. Add salt, strain, cook and clear.

Coffee Frappe.—Beat the white of one egg slightly, add one-half cupful of cold water and boil one minute; mix with half a cupful of ground coffee, turn into scalding coffee pot with four cupfuls of boiling water and boil one minute; let stand on the back range ten minutes, strain, add one cupful of sugar, cool and freeze. Serve in sherbet cups with whipped cream, sweetened and flavored.

Corn Toast.—Cook one-fourth of a tablespoonful of finely chopped onion and one-half tablespoonful of butter, two minutes, stirring constantly. Add one cupful of canned corn, one pint of heavy cream, one-half teaspoonful of salt and one-fourth teaspoonful of paprika. Bring to the boiling point and let simmer for five minutes. Serve poured over buttered toast and garnish with toast points.

Walnut Decadence.—Work a ten-cent cream cheese until smooth, add one-fourth of a cupful of olives, stoned and chopped, one-half teaspoonful salt and a few dashes of paprika. Shape in balls, roll in sifted crumbs, flatten and decorate with halves of walnuts opposite each other on each piece. Arrange on plates covered with a lace doily.

Coconut Custard.—Beat five eggs slightly, add one-half cupful of sugar and one-fourth teaspoonful of salt; pour on slowly four cupfuls of milk and strain. Add one-half cupful of shredded coconut and turn into a mold set in hot water. Bake in a slow oven until firm.

That best portion of a good man's life, His little nameless unremembered acts of kindness and of love. —Wordsworth.

SIMPLE INEXPENSIVE DISHES.

The chief business of the house mother is to see that her family is well nourished and happy.

A most tasty salad may often be prepared with but a few small bits of fruit. Cut up one banana, add a diced apple, a handful of dates or raisins and a few sections of orange or grape fruit and serve with

Huntington Dressing.—Beat two eggs very light and add gradually, beating constantly, three tablespoons of melted butter, three tablespoons of lemon juice and one-half teaspoonful of salt. Cook over hot water, stirring constantly until the mixture thickens. Cool, add one cup of heavy cream beaten stiff, one-fourth of a cup of powdered sugar, one-half teaspoonful of celery salt, one-half teaspoonful of vanilla, a few drops of onion juice and a dash of paprika.

Cream Cheese With Jelly.—Cream cheese may be used for this, but cottage cheese is even better. Season cottage cheese with cream, make into small balls, flatten in the center and fill with bright red jelly. Serve as a salad with crackers or as a dessert with coffee.

Carlton Salad.—Separate French endive, wash and drain, then chill. Cut cold cooked beets in quarter-inch slices and slice in rings or fancy shapes. Arrange on crisp lettuce leaves, putting the endive in the best rings. Serve with French dressing to which has been added three tablespoonsful of chopped walnut meats.

Oats Bread.—Add two cupfuls of boiling water to one cupful of rolled oats and let stand one hour; add one-half cup of molasses, one-half tablespoonful of salt, one-half yeast cake dissolved in one-half cup of lukewarm water and four and three-fourths cupfuls of flour; let rise, beat thoroughly, turn into buttered bread pans, let rise again and bake.

Chocolate Bread Pudding.—Add one cupful of soft bread crumbs, one and one-half squares of grated chocolate, one cupful of sugar and one-half cupful of cold milk. Cook twelve minutes in a double boiler. Beat the yolks of three eggs, add one-half cupful of milk, two tablespoonsful of butter and a dash of salt. Stir into the hot mixture and cook until thick. Turn into a pudding dish and bake twenty minutes. Cool, cover with a meringue and bake eight minutes.

SEASONABLE DISHES.

A nice way to use left-over chicken is to serve it on your table as

Chicken Hollandaise.—Cook two tablespoonsful of butter and one teaspoonful of finely chopped onion five minutes, add two tablespoonsful of cornstarch and add gradually one cupful of chicken stock. Bring to the boiling point and add one teaspoonful of lemon juice, one-half-teaspoonful of salt, one-fourth teaspoonful of paprika, and one and one-third cupfuls of cold cooked chicken; when well heated add the yolk of one egg slightly beaten, and cook one minute.

Bread and Butter Pudding.—Cut stale loaf in half-inch slices and spread each slice generously with butter and arrange in a pudding dish, buttered side down. Beat three eggs slightly, add one-half cupful of sugar, one-fourth teaspoonful of salt and one quart of milk; strain, and pour over the bread; let stand 30 minutes. Bake one hour in a slow oven, covering the first half hour of baking. Serve with hard sauce.

Hominy, Southern Style.—Mix one cupful of boiling water with a teaspoonful of salt and add gradually while stirring constantly three-fourths cupful of fine hominy. Bring to boiling point and let boil two minutes. Then cook in double boiler until water is absorbed. Add one cupful of milk, stirring thoroughly, and cook one hour. Remove from the heat and add one-fourth cupful of butter, one spoonful of sugar, one egg slightly beaten and one cupful of milk. Turn into a buttered dish and bake in a slow oven one hour.

Caraway Seed Cookies.—Cream one cupful of shortening and add gradually one cupful of sugar. Add one egg, beaten well, and continue beating; then add one-fourth of a teaspoonful of soda dissolved in two tablespoonsful of milk, a half teaspoonful salt, two cupfuls of flour and one tablespoonful of caraway seeds. Toss on a floured board and roll out very thin. Bake in a moderate oven.

Fried Spanish Onions.—Remove the skins from four Spanish onions, cut in thin slices and put in an omelet pan with one and one-half tablespoonsful of butter. Cook until brown, occasionally shaking the pan, or stirring them with a fork. Sprinkle with salt just before taking up.

Let us never forget that an act of goodness is of itself an act of happiness. No reward coming after the event can compare with the sweet reward that went with it.—Maurice Maeterlinck.

HELPFUL SUGGESTIONS.

To fry oysters de luxe they should be drained and dried on a towel, then dipped in beaten egg and rolled in cracker crumbs and dropped into hot fat as usual, but left in the fat only long enough for a pale brown color to develop, when they are removed and drained on a piece of brown paper. When all the oysters are cooked, begin all over again and cook them until brown. They will puff up to twice their normal size.

To conserve the table linen: In these days of high prices it behooves every housewife to look carefully after her linen.

Small service cloths or top cloths are a wonderful saving in laundry and wear of linen. When a soiled spot appears near the plate cover with a small cloth, repeat until the cloth is soiled; then cover with a top cloth, one that just covers the top of the table. In this way a table cloth does not need such frequent laundering and the small cloths are not hard to launder. The frequent folding of table linen in the same creases will cause worn places in the folds. When the cloth begins to break, cut off a portion of it to change the wear and then fold in a different manner.

If linen when being made needs to be trimmed, save all the pieces to use as raveled threads for darning. A thin spot on a cloth may be darned without leaving a noticeable place, while a patch is seen at once, unless very neatly done.

A broken zinc on the washboard a rough projection in the washing-chine may ruin nice table linen. Linen which is turning yellow be bleached by soaking in a boy sour buttermilk. Even the cot cloths should be laundered enough to keep them from becoming yellow.

... Hoover,

head of the European Relief Admin-
istration, have cabled that an immedi-
ate supply of every kind of cloth-
ing is absolutely vital to the health
and life of millions of men, women
and children.

Clothing must be supplied to the
suffering peoples in Northern France,
Belgium, Italy, Roumania, Serbia,
Greece, Montenegro, Palestine,
Albania, Czecho Slovakia and Pol-
and. To meet this need the
millions of members of the Red
Cross will be asked to assist by a
donation of old clothing that will
prove a veritable Godsend to those

who have borne the brunt of the
war. The collection will be made
at a time when practically the whole
country is discarding winter cloth-
ing, much of which would never
again be donned by owners. Thus
at a minimum of sacrifice, the
American people will be able to show
their brotherhood to those who
suffer. At least Ten Thousand
Tons of Clothing are Needed. The
drive to obtain this will be con-
ducted by Red Cross Chapters
throughout the country. An im-
portant feature of the present
collection is the fact that the cloth-

ing will be forwarded to Europe
where it will be sorted and repaired
by the people for whose benefit it
has been collected, thus giving to
the women of these countries em-
ployment as well as the needed
clothing. Within a short time full
instructions for conducting the cam-
paign will be sent to Chapters.
