HASKELL COUNTY, TEXAS, FRIDAY, OCTOBER 6th, 1922.

WHOLE NUMBER 1854.

PROGRESS BEING MADE ON ARRANGEMENTS FOR COUNTY FAIR OCTOBER 26-28

One of the special features of the county fair will be a beauty contest, held on by Reid's Drug Store, and held on their booth on both days. One constant is wanted from each community in the county. Votes will be given absolutely free, the only rule being that each one voting must come to the booth to cast their ballot. A nice prize will be given to the prettiest girl.

Mr. M. B. Lebo, who teaches agriculture in the High School, has been asked to assist in securing and arranging the agricultural display for the fair. We are fortunate to have Mr. Lebo's assistance.

A contract has been signed with an experienced rodeo man, who will give exhibits in roping, throwing and riding on both days of the fair. The manager has assured us a clean show, where principally home talent will be used.

Managers of the county fair are very anxious to have a response from the rural communities, especially as to agricultural products. We realize that crops are somewhat shorter than usual, but we still hope to have an attractive display. For information in this line, talk with Mr. R. H. Davis, who is chairman.

Mrs. R. W. Tyson is very much interested in securing a good exhibit of canned fruits and vegetables, preserves, jellies, etc., and we hope numerous entries will be made with her. Mrs. R. V. Robertson has charge of the Needlework so if you have a beautiful piece of any kind, don't fail to enter it with her. Those who are artists in baking, should see Mrs. J. A. Couch, who is chairman of that department. Blue ribbons will be given as prizes in each of these departments.

Mrs. Ed Robertson has been appointed chairman of the exhibits from the rural schools, with Mr. A. A. Heaphington, of Sagerton and Mr. J. N. Weaver of the Howard school, assistants.

We are very desirous of securing the cooperation of the following communities:

Ballew, Jud, Brushie, Vernon, McConnell, Midway, Lake Creek, Marcy, Irby, Cliff, Pleasant Valley, New M.L. Lone Star, Hutto, Post, Saylos, Plainview, Ward, Rockdale, Mitchell, Gaunt, Eriksdale, Idella, Center Point, Howard, Rose, Cook Springs, Flat Top, Foster, Tanner Point, Gilliam, Roberts, Dennis Chapel, Myers, Capron, Pleasant View, Tonk Creek, Douglas, Powell, Vontress, Ferris Ranch.

BAPTIST WORKERS MET AT UNION GROVE

The Haskell County Baptist Association Workers Conference had their first meeting last Monday with Union Grove Church.

The attendance was exceedingly good. The following pastors and preachers were present: C. A. Powell, McHenry Seal, I. N. Alvis, J. O. Heath, C. E. Dick, W. F. Lynch, L. S. Jenkins, H. E. Davis, R. S. Powell.

This was a "High" day. The program was unusually good and there was not a dull moment during the whole day. It was an all day meeting with dinner at the church—everything liked and nothing lacking, except the presence of those who were not there.

This kind of meeting is to be had every first Monday of the month in some church of the association during the year. The next meeting is to be at Center View, 11 miles southwest of Haskell.

The programs will be out within the next few days. This meeting arrangement has been made to take the place of the Fifth Sunday Meetings which we have been accustomed to having, and in this way 12 churches of the association had a meeting of this nature instead of only four churches; and it also lessens the burden of the churches in taking care of the meetings.

It was voted on motion by the clerk that the W. M. U. have from 2:00 to 3:00 at each of these meetings. Mrs. Redbell, the new president of the W. M. U. work, was present and had a good word for us.

It is not necessary to vote messengers to go to these meetings—just every worker who will go and be one. McHenry Seal, Clerk for the Association.

FREE BAND CONCERT TO BE GIVEN SUNDAY

The Haskell Band is rapidly improving along the lines of good music and instruments, the new bass drum and \$225 monster silver plated bass horn having arrived and will be used in concert Sunday.

Under the leadership of Prof. Lee Humphreys the band is progressing fine and will soon be one of the best bands in West Texas. They are going to make a two days tour for the Haskell County Fair the last of the month.

The band will furnish music for the County Fair free and will donate half the proceeds received for playing for the Rodeo people to the Haskell Parent-Teachers Association.

The name selected by the members of the band Wednesday night was "The Haskell Booster Band." This name is very appropriate as the Band intends to give Haskell County the biggest boosting it ever had in its history. The public is cordially invited to the Band Concert to be held on the courthouse lawn Sunday afternoon at 5 o'clock October 8th.

The following program will be given:

1. Siren March.
2. Waltz—Dearest.
3. Poppy Land Idyl.
4. The Flying Wedge.
5. Whispering Leaves.
6. The Red Rover.
7. Serenade—Summer Nights.

Misses Anna Mae Webb, Ruby Gore and Messrs. E. McCarty and E. Clark of Knox City visited friends in Haskell Sunday.

WITHOUT JURISDICTION IN ELECTION CONTEST

District Judge W. R. Chapman called the case of the primary election contest for the office of County Judge at 10 o'clock Thursday morning, October 5th, which was appealed from the decision of the Democratic County Executive Committee, on September 14th. In the Second Primary Election R. E. Lee received a majority of 25 votes over Judge Jas. P. Kinnard for the office of County Judge. Judge Kinnard filed his contest with the Executive Committee, and the committee found two small boxes in the county, Cottonwood and Bunker Hill, where the presiding officer had failed to write their name across the back of the ballot, and those two boxes were thrown out, giving Judge Kinnard a majority of 8 votes. Mr. Lee appealed to the District Court, and after a careful consideration Judge Chapman held that he was without jurisdiction to hear a primary election contest in vacation, and refused to hear the same. Mr. Lee made application for an injunction with a mandatory order requiring the Chairman of the Committee and County Clerk to place his name on the General Election ticket. Judge Chapman withheld his order on the injunction pending a decision of the Court of Civil Appeals at Fort Worth on the same question carried up from Cook County, which he stated would likely be returned Saturday or Monday.

Judge Kinnard was represented by Murchison & Davis, Ratliff & Ratliff, and H. R. Jones, all of Haskell. R. E. Lee was represented by Stinson, Coombs & Brooks of Abilene and Smith & Grissom of Haskell.

SUNDAY SCHOOL ORGANIZED AT MIDWAY SUNDAY

For quite a while the people of our community have felt the need of a Sunday School, so on last Sunday quite a little crowd gathered at the schoolhouse for that purpose. Mr. Fields, our superintendent of school for the coming term, sounded the keynote when he said to have a good rural school, it was necessary to have a Sunday School. Mr. Fields was elected Superintendent, and Miss Gladys Lawson secretary and treasurer. A collection was then taken up to buy literature. Union Literature being decided on. Next Sunday at 3 o'clock we will meet to organize classes. Let every parent in the community come and bring the children. We can boast of the largest and best rural school in the county, and now let's get busy and have the best Sunday School. We were glad to have Miss Earnest, our Primary Teacher, with us, and also her friend, Miss Jones.

Everyone seems anxious to get the cotton out for school to begin, especially the children. With our splendid corps of teachers, we are looking forward to another year of good school work.

CHRISTIAN ENDEAVOR WILL HOLD SEMI-ANNUAL MEETING FRIDAY, SATURDAY, SUNDAY

The Christian Endeavor will hold their District meeting here Friday, Saturday and Sunday of this week. This is probably one of the largest conventions that Haskell has had the pleasure of entertaining for some time. The District is composed of 15 counties, with Haskell county on the north, Taylor county on the south, Mitchell county on the west and Eastland county on the east. It is expected by the local Endeavor that there will be something like 100 delegates here from the different counties. Arrangements have been made to take care of the visitors in the homes of the city.

The state is divided into several districts, this being known as the Abilene district.

The Presbyterian and Christian Churches have always held their conventions as a union meeting, using the same state and national officers as well as the same field secretaries and pay their dues to the same treasurer.

Members of both churches will be represented at the meeting here and several prominent ministers, from both denominations, will have places on the program.

The largest Christian Endeavor Society in the world is said to be located in South Africa, having a membership of more than 1000 members.

Everyone is invited to attend all the meetings. The program will be opened Friday evening at the First Christian Church. A complete program of the meetings will be found on another page.

PERSONAL AND OTHERWISE FROM THE RULE REVIEW

There has been more cotton ginned this season up to this date than there has ever been ginned this early in this section before, according to old timers. There has been over 3,000 bales ginned so far, and the cotton is continuing to pour into town. The gins are working early and late to take care of the cotton.

WOMEN URGED TO EXHIBIT NEEDLEWORK AT COUNTY FAIR

The ladies who have charge of the Needle Work Department of the Haskell County Fair are eager for every woman in the county to have some of her handiwork on exhibition. We want our display of textile exhibits to be one of the most elaborate ever gotten together in a Fair. We would like to have articles made by the elderly ladies as well as by the younger ones. The children, too, should be interested in this booth and should contribute whatever they may have to exhibit. We especially urge our rural friends to cooperate with us—also those living in neighboring towns in the county.

Plain sewing, fancy sewing, embroidery, tatting, crocheting, knitting—in fact, anything in the sewing line will be exhibited. The greater variety of needlework we can secure, the more attractive our booth will be.

Those desiring any information in regard to exhibits please phone any member of the committee.

5307 BALES COTTON GINNED IN THIS CITY

The four local gins report 5307 bales of cotton ginned up until 9 o'clock Thursday morning, and cotton continues to come in at the rate of about 200 bales per day.

The following is the report of each gin:

Farmers Gin Company	1656
F. T. Sanders	1387
Electric Gin Company	1290
Duncan Gin Company	974

Public Weigher Jess Edwards reports the weighing of 5370 bales at the local cotton yard. Mr. Edwards estimates there will be something like 7,500 bales weighed at the local yard, or about a thousand bales more than was received last year.

TAX PAYING SEASON OPENED MONDAY

The tax paying season opened Monday morning and Collector Chas. M. Conner states that he has already received several hundred dollars for the 1922 tax and he is in a position to receive and receipt all property owners who want to pay at this time.

Several poll tax receipts have already been issued, Mr. and Mrs. T. E. Robbins of O'Brien receiving Number 1 and 2 this year, according to Mr. Conner.

The tax paying season remains in effect until the last day of January and as is usually the case no rush in the payment of taxes is anticipated until after the first of the year.

As has been the rule heretofore, property tax payers can pay poll taxes without paying the property tax but this rule does not work reversed. It is an iron bound rule that when property tax is paid that the poll tax must be paid.

As was the case last year, two poll taxes are charged against each married man who pays a property tax and both of these must be paid. The rule that a husband can pay his wife's poll tax or vice versa is still in effect.

Mr. and Mrs. John Lackey, who live two miles south of town were in the city Wednesday morning with their twin babies, a boy and a girl, Louis Ray and Lois Fay. They are lively youngsters and weigh 10 and 12 pounds. They were the center of attraction in all the stores they visited.

SCHOOL NOTES

We greatly appreciate the splendid audience that witnessed the first program of the school lyceum last Friday night at the high school auditorium. All seemed to have thoroughly enjoyed every number on the program.

This fine crowd indicated that the Haskell people are thoroughly behind the schools and the policies of the schools. The teachers that drilled and prepared the children greatly appreciate this fine support. It is an inspiration for them to prepare these monthly programs. It is also a mark of appreciation for the grown-ups that were on the program. This program demonstrated the fact that Haskell has first class talent in music, declamations, readings and artistic dramatics.

These programs will be wonderful avenues for the development of our children. Their music, their declamations, recitations, their artistic aspirations through these programs will be given an opportunity for social expression. It is folly for us to spend thousands of dollars in educating our children along these lines unless an opportunity is given our children to use this instruction in a public and social way. These school lyceum numbers afford this valuable opportunity. Then again, they serve to bring the people of a community together in a community and center manner. They help to create a better community interest. They help the people to see the great value of our schools as a socialized agency. They help the students to center their affections on the schools.

The next lyceum number will be given the last Friday in this month. We promise the people even a better program than the first one and it was hard to beat.

We are not satisfied with the quality of work being done by some of the students. In the North Ward school out of an enrollment of 208 children 87 children failed in one or more subjects. This is 20 per cent of the pupils. Failing, which per cent of failures is twice as large as should fail in a good system of schools.

Some of these students are failing because their parents do not take the trouble to see that their children do the necessary studying at home. From the fourth grade on the pupil is not going to do very much in school unless they do a certain amount of home study. Fourth grade children should study at least 1-1/2 hours at home. Fifth, Sixth and Seventh grade children at least two hours at home. These children have only a few study periods at school and they will absolutely fail in their work unless they do the above amount of home studying every school night.

If your children are running around the streets, or going to the picture show or socials on school nights they will fail in their schoolwork.

If the child succeeds in his school work we must have the complete cooperation of the home along this line.

If you have children in the high school, if they make their work, they must do at least 2-1/2 hours of home study every night.

We have always believed in, and maintained, a high standard of scholarship for its pupils is not doing its duty toward the tax payers of the community. To promote a pupil of average brains from grade to grade when he is poorly prepared is to send him out into the world to fail and to be inefficient. A teacher that will permit a pupil to remain in a grade in which he is not prepared to do his work is an untrue teacher. This kind of a policy discourages the best kind of work on the part of the good pupil and it encourages idleness and loafing on the part of the

lazy pupil. It has always been our policy, when we have found pupils that the teachers say cannot or will not do the work of the grade they are in to demote these pupils to a lower grade where they can do the work. We are going to do this in the Haskell schools. It makes no difference to us whose child it is; if this child will not do the work for the sake of the child and the school it will have to go back. We have always run our schools as a cold-blooded business proposition and absolutely in the interest of the children. No one has a pull with us. They are all treated alike.

So we earnestly crave and seek the earnest cooperation of every parent along this line. Remember if your child is sent back it is absolutely in the interest of your children. You should severely condemn any teacher or any school that keeps a child in any grade in which he is not prepared to do the work. This kind of a policy means that your child is being prepared to fall out in the world. The world will not stand for inefficient and poorly prepared men and women. The world places a premium on thoroughness. There is a big demand for young people that know something well and can do a certain kind of work well.

There were 111 cases of tardiness in these schools the past month. This was about 90 too many cases of tardiness. This kind of a record is a bad reflection on our schools and on the pupils. One of the cardinal principles of success is the habit of always being prompt. It has been my experience in the many years of school work that ordinarily, although not in every case, a pupil that comes to school late cannot be depended on in a pinch. So, for the success in the future of your children please see that they are never tardy. Get up in time for them to get their breakfast and do their chores around the home in time to get to school in plenty of time. Keep your clock set at least five minutes ahead of the court house clock, the time the school-go by, and get them to school ten minutes before time for school to take up. In fact, high school pupils will be permitted to enter the building at 8:10 when they can study until 8:30, the time for high school work to start. The pupils in the grades can go to their rooms at 8:30, where they may study until 9 a. m., the time their school work begins.

However, with reference to tardies, the schools had thirty less cases than the corresponding month the year before. If necessary we will have to use some drastic methods to cut these cases of tardiness to 25 or 30 cases per month. The high school alone had thirty-six cases of tardies. It may be necessary for a teacher to keep a child in 40 minutes each day for a week for each case of tardiness in order to break the habit up. If the home will try their best to cooperate with the schools along this line, this will not be necessary. Of course we believe in reason and common sense in dealing

The First Presbyterian Church
"To know Christ and to make Him known"

What is the Holy Spirit? The Holy Ghost? The Comforter? Does the Bible teach that the Holy Ghost is a person or merely an influence or power? We say that the Holy Spirit is a person in the same full sense as that term is applied to God, the Father, and to Jesus Christ, the Son. "Come let us reason together" on this subject next Sunday morning at 11 o'clock.

Our Christian Endeavor is doing excellent work; and it is under excellent leadership. Come and enjoy the work

with us. Our society has signed up 100 per cent on personal cash registrations of 50¢ each as delegates to the District Convention which is now in session in our city. That is an example of the fine spirit of our Society in doing all of its work.

We extend a special invitation to all visiting delegates to worship with us Sunday morning. And the general public is again reminded that the latch-string always hangs on the outside.

The Missionary Society

The Woman's Missionary Society of the First Christian Church met Monday October 2nd with Mrs. J. B. Post as hostess, and Mrs. H. S. Post as director of the lesson, "Heralds of the Cross in Northern Europe." Mrs. Post in a very forceful and impressive way gave the significance of the Lord's Prayer. If this prayer should be prayed earnestly and with understanding by Christian people the whole world could be brought to Jesus.

The roll call was unusually interesting. Twelve members responded with "Echoes from Everywhere."

Mesdames C. D. Grissom, Cummins and Mauldin gave interesting talks on different phases of the work in Northern Europe.

The Hidden Answers were asked by Mrs. W. W. Fields, and the responses were evidence that the members had been reading their World Call.

The hostess served delicious food punch and sandwiches.

with every school question. We know that sometimes a case of tardiness is unavoidable. Last week a fine high school girl was tardy for the first time in her life because her time piece was not with that of the schools. But if we will keep our clocks five minutes ahead of the court house clock we can avoid this danger.

We have learned that sometimes some of our children go home with their friends and spend the night. This is a bad practice, for there is not much studying done on these nights and their school work will suffer.

Curtain Club Program

A splendid program was given the Bear Cats last Wednesday by the Curtain Club. With the cooperation of the outsiders that we are getting we are able to render some of the best program that have ever been given in either one of the societies.

Following is the program given:

Song—"Spanish Cavalier"—by Clubs.
Colonial Literature—Gertrude Freeland. This was a very interesting talk especially for those who are taking the 10th English course. Gertrude is a charter member of the Curtain Club and is still a great booster and faithful worker of this society.

Piano Solo—Mrs. M. H. Brasner. Mrs. Brasner is very accomplished on the piano and her music was enjoyed by all.

Reading—John Arend.

Vocal Solo—Miss Judith Taylor. Miss Taylor is the voice teacher in the public schools this year and we think that she is the best that has ever been here in the history of the Haskell schools. We hope to have Miss Taylor on our programs again in the near future.

Reading—Earnest Sanders.

Address—Rev. S. L. Culwell. Rev. Culwell talked on the subject "Touching All the Bases" which was a very interesting subject. We want to thank Rev. Culwell for this splendid address and hope he will give another before the year is over.

Critic Report—Miss Chambers.

After the social meeting we adjourned to our meeting room for the purpose of discussing a party and a school orchestra. A committee was appointed to decide when and where we should entertain

the Bear Cats and the orchestra was discussed. The following social committee was appointed: Miss Chambers, Miss Kyrene Simmons, John Rike and John L. McCollum.

School Lyceum Course

The first Lyceum Course of the year was held Friday night and was a pleasure as well as a good entertainment to all those who attended it. The auditorium was crowded almost to its capacity with an appreciative crowd. The program was enjoyed by all which was shown by the hearty encores given all participants on the program.

These programs are a great help to all those who participate in them as well as a good way for the school to make money. The school board does not have a cent with which to buy the things that are needed by the school. This is a splendid way to make this money that is needed to defray a few local expenses that are always coming before the superintendent and the faculty. The faculty was very well pleased with the crowd that was out for this splendid entertainment and it shows that the people are backing the schools and have the proper feeling toward the school children. These School Lyceums will be given once each month and those who missed the first one should not miss any more because they are well worth the money and time spent attending them.

All of the parts were well brought up and given in the best way possible and those in charge of it wish to thank those on the program and those who assisted them for the splendid work they did. The two drills given under the direction of Misses Castles, Crider and Barkley were splendid and everyone appreciated them. The vocal solos rendered by Misses Ela Stanley, Lucile Taylor and Judith Taylor were also a splendid number and we hope to have these young ladies on the programs for the coming months. The piano solos, readings and declamations also were splendid.

One would be surprised at some of the splendid talent that is in the High School students. The purpose of these entertainments is to develop our own local talent and to provide wholesome entertainment for the parents and patrons of the schools.

The admission price is so small that everyone should come. One of these programs will be held each month so let's everyone be out for them and show the school and the children that we are behind them and ready to back any movement that they start.

Haskell Loses to Stamford

The Haskell boys went down in defeat to the Stamford bunch last Friday to the tune of 20-0. The Haskell boys played good football and the game was full of good pep all the way through. Besides a little "punk" refereeing the Haskell and Stamford team played a clean game throughout. Although Haskell lost this game they will continue throughout the season and fight hard to win the rest of them. If the fans will not fall down on their support because this game was lost we think that we can go right on with the season and win the majority of the games. Next Friday the boys journey to Abilene and the Friday after that we bring Cisco here for the last football game played on our own grounds.

Seniors Entertained

The Seniors were royally entertained last Saturday night at the Library by the members of the Junior Class. When the guests first arrived they were entertained by Progressive Forty-Two. After this several games were played to amuse the guests and work their brains. This was followed by the first promenade of the students. Two promenades took place during the evening and on the last the crowd was led around the square by Mr. and Mrs. Lebo, where the Juniors and Seniors let everyone know that they were in town. On returning to the library more games were played and puzzles worked upon. After this came the best part of the program—refreshments—which consisted of ice cream and cake. The favors were miniature diplomas tied in the senior class colors. It was now time for parting and the Seniors left, declaring the Juniors royal entertainers and also of their intention to likewise entertain the Juniors in the near future.

Haskell Plays Abilene Friday

The local grid warriors journey from home for the first time when they go to Abilene Friday for one of the most grueling games of the season. Although the boys were defeated here last Friday they are still living in high hopes and are fighting their hardest to win the rest of the games that are to be played this year. If the High School gang defeats the rest of their opponents they will get to play Stamford again as Stamford is not in the same district. So the boys' highest ambition is to win the rest of the games of this season and to get another chance at the Stamford bunch played on neutral ground with a referee that is not interested in either side. Friday following the Abilene game we bring to Haskell the Cisco team and all reports that we can hear is that Cisco has one of the strongest teams they have had in years. If this is so the boys will have to work to beat them but they still have the backing of the high school body and some of the business men. On that day there will also be a Rodeo held at the ball park which is expected to be one of the best that has been here for some time. With this added attraction we ought to have one of the largest crowds out to witness the game that has ever been in the ball park. Let's don't discourage the boys by not being out for this game as it is the last one to be played on the local field this year and they will need the proper backing to win from the fast Cisco team.

A Correction

Since last week's edition we have learned of a mistake that was published

concerning the new high school curtain. It was published that this curtain was bought by the school board. The curtain was bought by some of the most progressive business men of Haskell. It was paid for by the advertising that was on the curtain and the high school as a whole wishes to thank all those men who advertised on this curtain and helped to secure for the high school this beautiful curtain. Below is a list of those business houses that advertised on the curtain:

- Merchant's Cafe and Bakery.
- S. P. Kuenstler's Garage.
- Reid's Drug Store.
- Oates Drug Store.
- R. V. Robertson Co.
- W. W. Fields & Co.

Lights, Numbers and Mufflers

In the efforts of the City and County officials to call our attention to the many violations of the law in regard to our car numbers being laid aside and not used, our lights out of commission and our mufflers wide open, we note that considerable improvement has been made.

Many do not know that you can be called in by any constable and Justice of the Peace of the state and either fined or considerable embarrassed because one number is left off your car. Or, because one of our three lights is not burning. Or, because our muffler is run wide open. It is just as easy to carry two numbers as one on our car. It is just as easy to run three lights as two and it much more pleasant and peaceable to run our car with the muffler closed. While we say that it is easy to do these things yet we say it is much cheaper than to take a chance by not doing so and get called in to give reasons why you should not kick in about \$15 or \$20 because of ignorance or neglect.

The open mufflers, however, are still raising lots of fuss and many gatherings over town are being disturbed by them. We believe that many run with mufflers open because that they do not know that a law is being violated as we are sure if their attention was called to it they would be glad to make things

as quiet as they could. This law, we think, is a good one. It is easily observed and we should do so. We will try and print the statutes on this point in the next issue.

SHALL WE WORK?

In 1907 the City Council passed an ordinance to the effect that all male inhabitants between the ages of 21 and 45 should be subject to a street duty of five days service each year. In the event the service was not rendered a substitute could be furnished or the amount of \$1.00 per day paid for the time not worked.

Since that time a big majority of the men subject to the duty have responded but a small number have for various reasons have either evaded, refused or otherwise failed to purchase up the standard of Haskell citizenship.

It is the decision of the present council that all of us should pay this tax or else none of us pay it and the former course has been decided upon. Some of these cases were brought up in the Mayor's court last week and other complaints have been filed for the present week. We believe that the procedure of the Council is entirely proper and justifiable. They have been patient and the time has run over considerably in order that this course might be avoided but it seems that it was necessary.

We believe that every citizen should strive to make a good citizen in whatever way that an opportunity will present. With all means available and with all efforts that we are able to put forth we are not satisfied with the condition that we are often finding in our streets. We think that the big per cent of the entire town will support the Council in their efforts along this line.

A big sale is in progress this week at Hancock & Company, conducted by the Deakin Sales Company of Dallas. A large crowd attended the opening and a score of clerks have been kept busy waiting on the customers since the opening hour. This makes two big sales now in progress in Haskell. J. E. Grissom & Company have had their big

sale running for about ten days and the people have been taking advantage of the reduced prices that are being offered. If you have not purchased your fall and winter supply of clothing and shoes, come to Haskell where your dollar will do its full duty.

The new Goodyear Cross-Rib Tread Cord

A Real Cord Tire for Small Cars at a Popular Price

The new Goodyear Cross-Rib Tread Cord in the 30 x 3 1/2 inch clincher type is a tire that the small car owner will warmly welcome.

It gives him, at a price lower than the net price he is asked to pay for many "long discount" tires, every advantage of quality cord tire performance, for it is a quality tire through and through.

It is made of high-grade long-staple cotton; it embodies the reliable Goodyear quality of materials; its clean-cut tread engages the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

The tough tread stock in this tire is carried down the sidewalls clear to the bead, making it rut-proof to an extraordinary degree.

In every particular it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation. Despite its high quality, and the expertness of its construction, it sells at a price as low or lower than that of tires which lack its important features.

The 30 x 3 1/2 inch Cross-Rib Cord clincher **\$12.50**

This price includes manufacturer's sales tax. Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks.

Pure Mebane Cotton Seed

No better cotton seed was ever brought to Haskell than the cotton that is being raised on the Pure Mebane Breeding Association farms in Haskell County. The seed are absolutely pure and is being ginned on modern gin stands in order to avoid the possibility of mixing with off varieties. The wagons from the Association will all be painted gray as a precaution and for the purpose of distinguishing the cotton and cotton seed from the ordinary variety.

The fields have all been gone over by experts and the seed stalks pulled out, to insure the purity of these seeds. The farmers who are raising this cotton are more satisfied with the yield as it is standing the drouth better than the ordinary varieties.

If you are interested in a better cotton for Haskell County, see Mr. P. M. Ross of the Mebane Cotton Breeding Association of Haskell and Lockhart, Texas, while he is here.

**"Well!
Strong!"**

Mrs. Anna Clover, of R. F. D. 5, Winfield, Kans., says: "I began to suffer some months ago with womanly troubles, and I was afraid I was going to get in bed. Each month I suffered with my head, back and sides—a weak, aching, nervous feeling. I began to try medicines as I knew I was getting worse. I did not seem to find the right remedy until someone told me of

CARDUI

The Woman's Tonic

I used two bottles before I could see any great change, but after that it was remarkable how much better I got. I am now well and strong. I can recommend Cardui, for it certainly benefited me."

If you have been experimenting on yourself with all kinds of different remedies, better get back to good, old, reliable Cardui, the medicine for women, about which you have always heard, which has helped many thousands of others, and which should help you, too. Ask your neighbor about it; she has probably used it.

WESTCLOX

Late to bed and early to rise

Most of us put off going to bed just as we'd like to put off getting up in the morning. We go to bed when we get ready. If we are having a good time, minutes and half hours slip by unnoticed, but getting up time is a settled fact. No matter how good the bed feels, or how much we'd like to roll over for just one more nap, we know that there's a set time for us to be up. A clock that broke up a party to ring us to bed would have our friends that the rings us up. But down in our hearts a lot of respect for the Westclox that lets us sleep soundly, fully, trustingly through the night, confident it will ring on time. Westclox realize their responsibility to you. And the mark Westclox on the face of the clock or watch is your guarantee of reasonably priced dependability.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or expel the worms, and the child will be in perfect health. Pleasant to take. 5c per bottle.
