

## Hermleigh Gets Modern Produce House

### TEXAS

The gala occasion when the first spadeful of dirt was turned by Governor Dan Moody for the Carnation milk plant at Schulenburg is described in an illustrated article appearing in the May number of Texas Opportunities. This magazine, which published in the interests of State development by Texas Power and Light Company, is devoting this time largely to the dairy progress being made in Texas. A full page tells of the gathering of 15,000 Texas citizens in the little German community of Fayette County, of the arrival of the flying bull—The bovine Lindbergh, of the floats and band and speechmaking, of the nodding of Carnation on every side.

"Three counties," recites the story, "Fayette, Lavaca and Colorado, containing 25,000 milch cows, are expected to supply the bulk of milk used by the new plant at the outset. Crop diversification is already well entrenched in these counties and efforts are to be put forth to increase the number of milch animals and the production per cow. Fine Holstein and Jersey bulls are already arriving by the carload, and more are being ordered."

### JOHN WEMKENS OFFERS CITY AIR LANDING

The town's good friend, John Wemkens, was in the office here early this week and says that he has 35 acres of pretty ground just outside on the city limits which may be used as a temporary airport. This is a fine offer. The airport is a coming necessity.

When the town gets to purchase an airport, Wemken might lease or sell this plot.

### COTTON IS DOING NICELY

J. M. Robinson east of town has the earliest cotton in the community, perhaps. It is estimated he have cotton to gin late in August. Mr. Robinson and his sons have near 700 acres of cotton this year, a goodly lot of which is early.

Robinson is one of the leading cotton farmers of the country. We need more farmers like him. We do not need more cotton, but we need more enthusiastic and intensive farmers like Robinson.

Mr. O. C. Mauhl it is said has some early cotton and will begin harvest early in September. Mr. Mauhl is a fortunate farmer this year.

Grandmoter Leslie is, perhaps, the oldest person in the county.

### HOOPER INSTALLS NEW CREAMERY EQUIPMENT

"At last Hermleigh is to have a thoroughly modern produce house," says Mr. W. D. Hooper. He has just received and installed the latest and best small shop creamery equipment. It is set up and ready for business.

The poultry and dairy business is fastly becoming the leading industries of the country. Local markets will encourage the development, and prove themselves community benefactors. We shall have a market, and our are people ready to step forward.

We shall always a cotton country, but cotton growing needs to be supplimented by something more dependable--poultry, dairy.

### C. M. PERRY IS GOOD COMMUNITY EXAMPLE

All phases of the community's agricultural and domestic interests are well represented in the home and on the farm of our Mr. and Mrs. C. M. Perry. Mr. Perry has been on his farm here only two years, but it is easy to see that he is soon to have one of the leading farms in the country.

The Perry farm is now under terrace construction which within a short time will be perfected, the fields and pasture lands alike will be properly terraced.

Mr. Perry has an opportunity to perfect a water control which will begin a surface irrigation for a small acreage on his farm and which will increase in size as the water is better controlled.

Mr. Perry is also a dairy farmer.

Mrs. Perry is among the fine house wives of the community.

### SECOND LIKE CLOUD SEEN HERE IN 19 YEARS

When that curious rain-bow cloud came up from the southeast Friday afternoon the attention of our older settlers was especially attracted. It was recalled, with accuracy it was thought, that this was the second cloud of exact likeness which has ever been seen here. During the prolonged drouth of 1910 a cloud like this one came up from the same direction, breaking the drouth.

After 19 years have passed the second cloud of like nature has been seen in West Texas and another short drouth broken, it is hoped. Older settlers who sat here through pioneer days with nothing to do but watch the weather and wish for rain have data which may be worked out by science and become of accepted value to the public. Every scientific advancement grows out of some observation.

### C. KARNES TO DO FARM BUILDING

C. Karnes will begin work right away on the construction of a new house on one of his farms 5 miles north of town. S. W. Seay has the contract for the building.

It looks good to see construction work begin. New buildings indicate new life. New life inspires new hope, and sets the world to moving. The example set by the rotation of the earth, sets pace for the ongoing of human society. Let the world roll on! Luck to you, Mr. Karnes.

### NOTICES

NOTICE! From date any and all live stock found staked or loose on school grounds will be taken up by city authorities.  
-School Board.

Notice! It is a violation of a city ordinance to stake or otherwise confine livestock on any street or alley in Hermleigh.

Please do not do it.  
Res., T. N. Mims,  
City Marshall

Little master Cecil Fargaon visited in the Herald office Wednesday.

### MARY NEAL SWAMPED; INADALE DEFEATED HERE

In a test game between two losing teams of the season played here Friday, Hermleigh and Inadale ran neck and neck up to the latter endings when Hermleighs bats got loose. The game which was fast for the first few innings was mainly featured when Buckner and Kerr hit three basers, and when Hill tripped rightfield with two men on bases. The fabric of an interesting game broke when Adams spanned the park limits running home.

Inadale has a fast team, but they landed here on the wrong time of the moon. This was Hermleigh's first game.

In a turn table game played here Saturday, Mary Neal was smoothly swamped, after the clouds of the afternoon had passed away. Werner and West, who were at their best, had fine support from the infield throughout. Few errors were made.

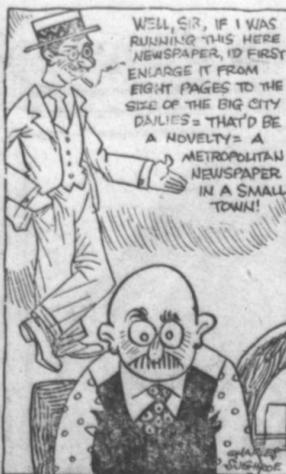

The game was closely fought up to the 6th. innings when in the 6th. and 8th. inning Hermleighs artillery got loose, scoring four in each ending respectively. Werner was quite close, not allowing more than one hit to the inning throughout.

The score was 12-2.

### HERMLEIGH BEEF CLUB

Largely composed of German membership, Hermleigh has a Beef Club which has been active here for nearly twenty years. About thirty hold membership in this club. One beef is butchered each Saturday, or at certain other intervals, and divided between club members. This looks practical and commonsense. By this means those holding membership in this club gets his fresh meat at the minimum cost.

### PRINT SHOP FABLES

The Volunteer Critic thinks he could run the Paper better than the Editor. He even knows what's wrong with the Government and the Universe. The Volunteer Critic is part of the Printing Bizness, like Pied Type and Lenky Ink Kegs.

### County Notes

July ninth will be a sad day for Johnson Grass in Scurry County as the Demonstration Truck of the Farm Bureau will stop at Hermleigh, Snyder, and Fluvanna. The truck will reach Hermleigh about 9:30 a. m. on July 9th. and will kill Johnson grass on the B. Y. Rea farm just north of Hermleigh on Highway No. 7 east side of the road. The next stop will be Snyder, and the demonstration will be held north of Snyder on the Airport. The demonstration on the Airport, will begin about 1:30 p. m. It is on highway No. 7, and the Clairmont Road. The next stop will be at Fluvanna, will be on the Caprock Road just north of Fluvanna, at the H. H. Haynes Farm. The Fluvanna demonstration will be held about 4:30 p. m. These meetings will be held, and the use of the chemicals explained and demonstrated, anyone can see and hear, then visit the places again in ten days or a month and see if they want to invest in a Johnson grass killer. It is always better to see, then go back and check up again, before buying, where you can. Don't forget the time or places.

4-H Club boys of Scurry County are to hold a camp at Wolfe Park, July 18th. and 19th. The boys are fortunate in getting such an ideal place for the camp. They can have their games, swims, judging contests, and eat and sleep in the Park and find plenty of shade. County Agent W. O. Logan is sending out two hundred and fifty letters to members of various clubs, and says that he expects one hundred and fifty to two hundred boys to be on hand.

This will be the first 4-H Club Camp ever held in Scurry County and the boys seem to favor it as a means of getting together and working out a county wide plan of activities. It will give them a chance to know more about the Fair, trips offered, and programs with other clubs.

There are 82 boys growing crops, 75 growing pigs, 52 growing poultry, 24 growing baby beeves, 24 growing dairy heifers, and four growing lambs. This camp will be the boys first rest period, and will renew their energy, afford them plans for winter feeding, and otherwise set them out for bigger plans. While the camp is primarily for pleasure it will have a few business sessions. A Dairy Judging team will likely be picked to represent the County at A. & M. College during the Short Course.

Winners in hog calling events, pillow fights, etc., will be given an airplane ride or two, having been offered by Jimmie Smith, editor of the Times-Signal.

Of course, a committee is to do the work and furnish the money

THE HERMLEIGH HERALD  
R. S. NORMAN, EDITOR

Published every Thursday at  
Hermleigh, — Scurry County,  
Texas.

Subscription price \$1.50.

Entered at the postoffice in  
Hermleigh, Texas, as second  
class mail matter, according to  
Act of Congress, March 3, 1897.

The newspaper is the best  
medium of advertising known.  
When more people know of  
what you have for sale, your  
chances to sell are better. The  
Herald is a popular local week  
ly with a circulation of 500  
with list gradually growing.

### THE PUSH OF THE CROWD MAKES THE 'GO'

In addition to the need of a  
park and a good team, the ball  
boys claim that the presence of  
a noisy crowd of 'roosters' is es-  
sential to a winning ball team.  
It looks to us like that any a-  
mount of yelling and hollering  
would not be of any great value  
to a baseball player, but the  
'man at the bat' says that it  
helps. To say the least of it  
there is always a great bunch of  
enthusiasts in attendance when  
the home team plays a game.

Rooting, pushing, scotching,  
and boosting are the very source  
of power in connection with hu-  
man doings. When we rush for-  
ward as one body, enthusiastic,  
energetic, and hale we always  
come out winner. Some how  
this is what gets results. Where  
there is no pep, there is no life;  
where there is no life there is  
not activity; and where there is  
no activity there are no results.

Let us all get behind our ball  
team. Let us boost them. Let  
us make them win. Let us get  
behind the town and boost it.  
Our town needs an expression of  
enthusiasm the worst way. Let  
us all be boosters. A disgrunt-  
led person, a person with no vis-  
ion, a man with no ambition can  
never be a town builder.

K. P. Lofton and son were in  
town here Wednesday.

### WHY NON GET INTO THE THING AND HELP?

We have a number of untimely  
enthusiasts who set back and  
say: "I should like to see this  
town get up move out. I should  
like to see it grow."

It is well, indeed, that people  
should be anxious to 'see' their  
town or community build up, but  
say, did you know that towns  
and communities are not built up  
in that way? It takes getting  
into the thing with rolled up  
sleeves to get results.

A slow, stupid, negative atti-  
tude will never get anywhere.  
We have heard the expression,  
"go ahead; what you fellows do  
will be alright!" Say, Mr., why  
don't you get in and do some-  
thing yourself? Why not bend  
your energies? On what grounds  
are you excused? "Should you be  
carried to the skies on flowery  
beds of ease, While others 'fight'  
to put thing over, And sail thro  
bloody seas?"

Fellow-townsmen, let's snap  
out of this. "He that putteth  
his hands to the plough and  
turneth and looketh back, is not  
fit for the Kingdom of Herm-  
leigh." It is going to take a lot  
of 'getting in' and 'staying in'  
to win out over here!

### THE CUNNING COLDEWILE

Hy. Coldewile of the German  
Community is a good truck far-  
mer, and is demonstrating that  
truck will grow in West Texas  
as good as any other place in the  
Lone Star State. He has a  
small patch of onions which will  
net him at the rate of \$80.00 per  
acre. He has also produced  
some of as fine cabbage as one  
might want to see. These are  
side lines with Coldewile, he is  
a cotton farmer proper it is  
understood.

Miss Lois Vernon spent last  
week in Big Springs, returning  
Saturday.

Messrs. Bill and Jack Caffey  
were in town horseback Monday.

### JACK POWERS CELEBRATES 5TH. BIRTHDAY

Mrs. W. H. Powers was hos-  
tess at a party Thursday after-  
noon June 27th, honoring her  
son Jack's 5th. birthday.

Refreshments of lemonade  
and cake were served to the fol-  
lowing—Ritta Jane Norman,  
Kenneth Rector, Max and Char-  
lotte Mobley, Wiley C., Willow  
Deen and El Ree McMillian, A.  
B. and Don Seae, Kathryu  
Long, Elizabeth Smith, F. A.  
Werner Jr., Lena, Edna Wells,  
Verlin and Albert Harkins, Ray  
Gravis Patterson, Pete and  
James Godley, Francis Farga-  
son, Chlorene Vernon.

Mesdames A. W. Mobley, F. A.  
Werner, Warren Fargason, Ray  
Patterson, K. B. Rector, Miss  
Chloedelle McMillian and the  
honoree.

Messrs. Fred and Louie Brock  
were seen on the streets here  
Monday.

### PRINT SHOP FABLES

# First Baptist Church

C. E. Leslie, Pastor.

They that trust in their wealth, and boast themselves of the multitude of their riches; none of them can by any means redeem his brother, or give to God a ransom for him.—Psalms 24:6.

Bank of Life is different in many ways from the banks conducted by men as business institutions. The deposits recorded in it are large or small in proportion to the assets of the depositor. The record is based on the principle enunciated by the Master when He spoke of the two mites dropped into the treasury by the poor widow.

The balance to the credit of millions of those whom the world calls "very poor" will be found "in that day" to be many times more than the balances of many of those whom the world calls "very rich."

It is bad enough to be without a balance in the banks conducting the world's business, but it is a thousand times worse to be "in the red" in the heavenly treasury when the great day of final settlement comes. How does your account stand?

It is quite likely, relatively speaking, that riches have kept thousands more out of heaven than has poverty. Indeed, often it is that an acutely impoverished condition has brought about an effort to gain the "true riches." Great possessions of whatsoever sort, whether money or genius, talent or opportunity, as surely augment the responsibility of their possessor as does the knowledge of right and wrong. It can not be sidestepped or evaded.

It is not so important how much one has, but how well he uses it. The possession of money is not a sin, but too great love of it is, because it has the effect of causing him who pos-

sesses it either put it to a wrong use or else not use it at all.

Knowing the powerful influence of great earthly possessions, the Apostle admonished those about him to "Set your affections on things above, and not on things on the earth?." And He who was master of economics as well as of all things else said, "Where your treasure is, there will your heart be also." So strong is this love of money, selfishness, in the minds of men that they continue as of old to betray "the Innocent Blood" for money. The difference is that Judas got a big price for his awful deed as compared with some nowadays who would sell Him for much less. And Judas became conscience stricken and committed suicide. Some men do murder for less than Judas received and do not commit suicide, and their deed is not only a crime against the victim, but against Him whom Judas betrayed. Indeed, there are those who in this way betray Him for as little as thirty cents, not "thirty pieces of silver," which were worth about fifteen dollars.

Now, as nearly two thousand years ago, men were clamoring for Barabbas and crucifying Jesus. And in many cases such action is induced by love of riches, or the privileges, immunities, advantages, authority, power, influence and luxuries which riches can give.

The direst poverty with God's blessing is richer than all material possessions without it.

The fifth Sunday meeting at Fluvanna was well attended and a profitable time was enjoyed.

The subject to be discussed at the church here Sunday at 11:00 will be "The Judgement." Every body invited to come.

Mr. Herbert Brock, son Louie, Miss Opal Gleastine and Mr. and Mrs. A. W. Mobley went to Snyder Monday to see and hear the talking picture at the Palace theatre.

Miss Chloedelle McMillan is spending the week in Ft. Worth and Dallas.

Ginner Kasper, than whom the Herald family has no better friend, stopped his car in front of the Herald "Home Beautiful" last Friday morning and delivered a nice basket of vegetables which were grown in the home garden. Thanks Mr. Kasper.

Little Sallie Layman has a doll which is 50 years old.

Rev. and Mrs. Hudson have just returned from an enjoyable visit with daughters in Jones and other counties. They report a good time.

## Bill Der Says

The running expense keeps father out of breath.

ARE YOU THINKING OF PAINTING YOUR PROPERTY?

Paint will beautify, protect and increase the value of your property. But you must apply a PAINT that will make your buildings sparkle with newness and rich harmony at the same time not allow rain, hail, sun or snow to penetrate.

Sherwin-Williams Paint is 100 per cent pure is reliable and dependable.

# PURE GOSPEL SERMONS

Elder J. C. Foster of Mount Pleasant, Texas, who has been with the church here for the past two years, will begin his 3rd. revival here Saturday night July the 6th. Services each evening at 8:30 p. m. and 10:00 a. m.

Special Song Services under the the leadership of Prof. Geo. Maddox will lend grace to each service. Mr. Maddox comes to us highly recommended, and we are expecting big things.

Every one is invited to attend.

# UNDER AUSPICES OF The Church of Christ

## MASONS ELECT OFFICIALS

Hermleigh Lodge No. 987, A. F. and A. M. elects - W. E. Louder, W. M.; T. J. Hodnett, S. W.; C. H. Grace, J. W.; W. C. Rea, Treas.; J. C. Rea, Sec.; Will Caffey, Tiler; E. E. Kerr, S. D.; Loren McMillan, J. D.; F. A. Werner, S. S.; Lon W. Hamil, J. S.; H. T. Gleastine, Chap.

## BIG SULPHUR

Every one seems to be rejoicing over the rain that fell here Tuesday. It is sure nice on the weeds as well as cotton.

Mrs. Bulah Watson spent Saturday night and Sunday in Snyder with her brother and wife, Mr. and Mrs. Avery Whitehead.

Mr. and Mrs. Karie Henly of Snyder spent Saturday night and Sunday with the former's brother and wife, Mr. and Mrs. E. F. Henly.

The party at Mr. and Mrs. J. E. Bowlins Saturday night was well attended and a nice time was reported.

Misses Fay, Foy, Lois and Lorita Allen were shopping in Snyder Saturday.

Miss Irene Crumly spent Sunday night with Mrs. Bethel Merritt.

Mrs. Emma Leggett of Coahoma and Mrs. George Wemken called on Mrs. Emmitt Bowlin Saturday afternoon.

Mrs. Jack Mahoney and children visited her aunt, Mrs. Jim Shattles near Inadale Sunday.

Quite a number of neighbors and friends gathered at Mr. and Mrs. Jim Wright's Saturday to help them eat ice cream.

The singing at Mr. Jess Allen's Sunday night was well attended.

Mr. and Mrs. J. E. Bowlin and children and Mr. Jack Mahoney were guests in the Geo. Wemken home Sunday.

Mr. and Mrs. William Bullard called on the latter's parents, Mr. and Mrs. R. H. Dacus Sunday.

## CENTRAL BAPTIST CHURCH

The B. Y. P. U. met Sunday night at the Central Baptist church with the intention of reorganization.

A very interesting program was rendered, after which came the business session. The following officers were chosen for the next quarters work, which we are in hopes will be more interesting than the past.

Mrs. Chas. Adams - Pres.  
Verdell Gleastine - V-pres.  
Thurman Leech - Choister.  
Valine Leech - Pianist.  
Faye Adams - Sec. - Treas.  
Paul Bevans - Bible quiz leader.  
Clarice Harkins and Kate Davis - Group captains.  
Edward Stevenson - Personal worker.

With these new officers we are planning to go further on with our work.

Our new quarter B. Y. P. U. books have not yet come, however we plan to study next Sunday the 'Standard of Excellence' which will help to build up our B. Y. P. U. to an A-1 standard system.

Come next Sunday night at 7:45 prepared to give advice on our needed subject.

## Locals

Misses Sallie Ray, Verda Coston and Arlie McMillan left Tuesday morning for Carlsbad N. M. to go through the Cavern. They will spend the 4th at Alpine Texas.

Dr. W. H. Ward who returned the early part of the week from Mineral Wells where Mrs. Ward is resting for a few weeks, attended the picnic at Rotan today.

Messrs. Benard Gleastine, Joseph Groves, Thurman Leech and Jeff Groves made a trip to the Carlsbad Cavern this week. They claim the 'half has not been told,' concerning the sights in the monstrous cavern.

A nice rain reaching the proportions of of near three inches in places fell here Monday evening. Every body is feeling good. The prospects are good.

L. M. Lewis has sold the Pennant Oil Station, and has accepted a position in a Tahoka bank, and is moving there this week. Mr. Lewis left last Sunday, but returned today for Mrs. Lewis. They will make their near future home there.

Joe Smith is the new proprietor at the Pennant Oil Station.

Mmes. Green of Portales, N. M. and Durham of Clairemont, Texas and the respective families, are visiting in the J. H. Lynde home this week. Miss Barabra Green will extend her visit over a few weeks.

Miss Olivia Caffey, who will graduate as a nurse in Lubbock Sanitarium, is home for a two weeks visit.

Mrs. C. H. Callis of Snyder spent the week-end with Mmes. Warren and Luther Fargason here.

Mr. T. B. Bevan is also among those who have early cotton. His field is beginning to show blooms right along, he said here Monday.

Our friend E. F. Henly, from what can be seen from the road, will be among the early ones to the cotton patch this year. Henly also has some pretty dairy cows in his pasture, as are seen from the road.

## LEAGUE PROGRAM

Subject - Where Does Christ Come in - In Citizenship?"

Scripture - Romans 13:1-7; Matt. 23:1-3.

Leader - F. A. Werner.

Prayer -

Song -

Responsive Reading (Psalm 117)

1. What Jesus and the New Testament Writers Had to Say about Citizenship - Ruth Clift.

2. Christ in Citizenship - Obedience to Law - Opal Gleastine.

3. Interest in Public affairs - Beatrice Paul.

4. Participation in Politics - Vance Clift.

5. Patriotism - Vira Barfoot.  
Prayer: That Christ may come in - in Citizenship - Rev. Hudson.

Song -

Benediction.

## Ecuador Indian Girls

## Now Working in Mills

Indian girls in Ecuador are forsaking the bobbins, hand spindles and crude looms of their Indian ancestors and are leaving their crude mountain homes to work behind modern spinning and weaving machines in the textile mills being constructed in their country. Indeed, the influx of Indian boys and girls at the mills is creating a shortage of domestic help. However, it marks a new economic opportunity for these young people. In the mills they can earn an equivalent of 30 cents a day, American, as against practically no wages when employed as domestics. The youthful workers are said to be industrious and to have a certain aptitude for the work. Still their efficiency is only about one-fourth that of textile workers in American and English mills. For this reason only the coarser fabrics are produced. It is not expected that the textile mills in Ecuador will ever weave such fine fabrics as are manufactured in the United States or England.

## Sees City of 11,000,000

By 1950 London will be a city of 11,000,000, according to Lord Ashfield in his report to the directors of the Underground railway of the world's metropolis. The population today is 7,500,000. Twenty years ago the average person used the underground 158 times a year, but today each person uses it 460 times a year, according to Lord Ashfield's study. The transportation lines in London, including the busses and tramways, carry 3,500,000,000 passengers annually. Lord Ashfield was at one time general manager of the Detroit electric railways.

## Joke on Pawnbroker

The experience of buying his own suit of clothes from a burglar who ransacked his home earlier in the evening came to a Sacramento (Cal.) pawnbroker. The burglar walked into the pawnshop, laid the suit on the counter and offered it for sale. After telling what a rotten suit it was, the pawnbroker offered \$3 for the suit, not recognizing it for his own. The bid was accepted.

## New Giant Telescope

The world's greatest telescope, which is at the Mount Wilson observatory, is soon to be outclassed by an instrument now being built for the Frye observatory at Seattle, Wash. The new telescope is expected to reveal 400,000,000 stars, while the Mount Wilson telescope, which has a small reflector makes 320,000,000 heavenly bodies visible.

## Air Around Venus

Of the surface of Venus we know very little because it is surrounded by an opaque atmosphere screen that our eyes cannot penetrate to any extent, says Nature Magazine. But the fact that it has a dense atmosphere, and also that heat radiations from its night side have been detected, would imply that it has abundance of air.

## One Remedy

"What would you suggest for a rich uncle, who is very feeble and walks with difficulty?"

"How about a few banana peels?" - Judge.

## Flints for Razors

Maori barbers in New Zealand demonstrated their skill at an ancient shaving custom for a motion-picture film recently, says Popular Mechanics Magazine. For a razor, two sharp pieces of flint were used, while the "customer" plainly registered the fact that the operation was more of an ordeal than a pleasure. The practice of shaving with flints is said to have had its origin in the Stone age, more than 20,000 years ago, and was popular, even if painful, for many centuries and among various peoples. In the British museum are specimens of flints with which the Romans shaved in the Classical age.

## YUOR OWN HOME BANK

We want the banking business of all good and loyal citizens of Hermleigh and surrounding trade territory.

Our bank has been your friend for year. Our aim is to serve you. You can help us by keeping your banking business at home.

## First State Bank

Hermleigh,

Texas

**7 Improvements**

- 1 New turnable supply can.
- 2 Improved regulating cover.
- 3 Completely enclosed gears.
- 4 Wonderful floating bowl.
- 5 Easier starting on 1 turning.
- 6 New oil window.
- 7 Beautiful gold and black finish.

**De Laval Golden Series**

THESE "Golden Series" De Laval Separators are without doubt the finest cream separators ever made—the crowning achievement in 51 years of separator manufacture and leadership.

Following are the improved features:

(1) **Turnable Supply Can.** A novel feature every separator user will appreciate. Permits bowl and covers to be removed or put in place without lifting the supply can from its position.

(2) **Regulating Cover.** A new type of regulating cover and float affords a flow of milk from the supply can in a smooth, even stream, without spattering.

(3) **Enclosed Gears.** All gears on the "Golden Series" are completely enclosed and protected for maximum durability.

(4) **Floating Bowl.** The finest separator bowl ever made. Self-balancing, runs smoothly without vibration, with the least power, skims cleaner, delivers a smooth, rich cream, and is easy to take apart and wash.

(5) **Easier Turning.** The "Golden Series" machines are easier to start and turn, requiring the least power or effort to operate for the work they do than any others.

(6) **Oil Window.** Shows at a glance the amount and condition of the oil and if the separator is being properly oiled.

(7) **Golden Color.** These new 1929 machines are finished in beautiful gold and black colors, which are pleasing, durable and practical.

The best way to appreciate the "Golden Series" is to see and try one. Also see the new De Laval "Utility" Series—a quality separator for the lower price field. We now have them on display and will welcome an opportunity of giving you a demonstration.
