THAT PUBLIC MEETING next Thursday night, which will be somewhat reminiscent of the old-time town hall meetings, is an important one. In the broadest sense, it could have long-term effect on everyone in the Baird area.

The area has been checked by experts and found to be qualified for further help by the Sears-Roebuck Foundation's Community Medical Assistance Program.

But this assistance is available only to those communities which are willing and able to help themselves. The medical-economic survey made by the foundation shows this area to be able -- which brings up the question of willingness.

For that reason, we feel it is vital for every citizen of the area to be present at the meeting to get all the facts. Then, we can make up our minds intelligently.

CLYDE HIGH SCHOOL has become the third member of District 10-A which will be operating under new coaching leadership next fall. Coaches at Albany and Cross Plains have already resigned.

Now Clyde coach Jon Tate has resigned to become full-time junior high principal, and assistant coach Ed Ammons has been promoted to the top job. With new coaching on so many fronts, there should be considerable change in tactics and techniques over the district come next fall.

WITH THEIR WINNING of the district track and field championship last Thursday, Baird High athletes wound up one of the most successful seasons ever for the school.

To refresh your memory, Baird won the district title in football, girls basketball, and track and field. Added in was a district championship in golf by Bobby Black, and a district crown for the junior boys tennis doubles team.

You can bet other members of District 10-A will be aiming extra hard to knock off Baird next season.

KEEP IN MIND that community Easter sunrise service which is scheduled for 6:30 a. m. this Sunday in Baird's First Baptist Church.

Granted, the hour is a bit early, especially for a Sunday morning, but on the other hand, what better day is there to make a little extra effort to attend a worship service?

NEW WEEK is a busy one in birthdays in Baird. Among those celebrating will be:

Billie Jo Cason, April 18; Bobby Jack Sims, Dianne Petty and Pearl Brown, April 19; Billy Seelig, H. A. Warren Jr., Butch Smith and Jay Conley, April 20; Irene Campbell, April 21; Beverly Cason, April 22; and Mrs. Terrell Williams, April 23.

City Cleanup Drive Scheduled May 3-8

May 3-8 has been proclaimed cleanup week in Baird, with residents asked to make a special effort to clean up around their homes and places of business.

To assist with the cleanup, city trash crews will make extra pickups without charge. The extra trash should be stacked or piled at the regular collection spot.

Such items as tree limbs should be cut so they can be handled by one person.

Town Hall Meeting Set Here April 22

A town hall meeting to discuss problems of providing additional modern medical services and facilities for the Baird area has been called for 6:45 p. m. Thursday, April 22.

The meeting, which is open to the public, will be held in the school cafeteria.

Attending to lead the discussion will be a representative of the Sears-Roebuck Foundation's Community Medical Assistance Plan. The foundation, a non-profit organization, has

been working with the American Medical Assn. since 1958 in helping communities help themselves toward securing new medical services.

The foundation has offered its technical assistance -- without charge -- to Baird for securing an office-clinic and a physician.

Because of the meeting, services for that night at Baird's First Baptist Church has been reset for 8 p. m. to allow persons to attend the discussion, and revival services.

A recent medical-economic survey conducted by the Sears-Roebuck Foundation shows that, according to standards which have been successful in other communities, Baird is qualified for further participation.

The survey showed that last year Baird area residents traveled some 287,136 miles to visit out-of-town doctors and spent \$81,365 for office calls, medicine and gasoline while going out of town for medical service.

In addition, the survey showed Baird area residents spent more than \$67,000 on clothing, groceries and other merchandise while in another town to see a physician.

Of people in the Baird area who visited a doctor's office during the past year, more than 47 per cent went to Clyde and 25 per cent went to Abilene.

UNION USUALS AND UNUSUALS

BY VEDA YARBROUGH

Hi neighbor! Yes, we need rain. Tried to rain last week but only sprinkled today. Has been cool and pleasant today. Visiting me today was Mr. and Mrs. Ardis Yarbrough from Sierra Vista, Ariz. Was good to see them. We went to Baird to visit Onie Abernathy, Dick and Annie Yarbrough and D. A. Yarbrough. Ardis and wife have been visiting in Pasadena, Texas Louisiana and Alabama. They are visiting in Cross Plains with her mother, Mrs. Mcroy and a sister and family.

Spending the weekend with Mark and Ollie Burnam were James and Gayle Isenhower of Paducah. Several from out this way attended the funeral for Willie Kennedy Friday afternoon in Putnam. Willie died Thursday in Fort Worth of a heart attack. She was reared in Putnam and taught school. She was also the postmaster at one time. Our deepest sympathy goes to the family. We were sorry to hear of the death of Bill Kelly in Tahoka.

Bill passed away in his sleep with a heart attack. We have known Bill some 56 years. We are sorry we couldn't attend the funeral in Tahoka Tuesday. We are sorry Ray Wilbanks is still sick. We hope he soon will be able to be out and around. Saturday is homecoming day for Putnam school. Sunday is Easter Sunday. You kiddos have a good time hunting Easter eggs. Burette and Johnny Mae Ramsey had Sunday dinner with me. I looked for Fay and Emmett Wood but they didn't come. Mrs. May Eubank and Mrs. Chub Lowe visited a while Sunday with Mr. and Mrs. Marvin Eubank.

We were glad to see Mr. Marvin at church Sunday. We enjoyed their grandson, Marvin Lee Williams who sang for our three-day meeting the past weekend. He is doing a great work and is a very good singer. D. A. and Dick Yarbrough of Baird came by for a few minutes this morning. D. A. was on his way to Cisco to see his doctor.

Mr. and Mrs. Leonard Alvey visited Monday night with Burette and Johnny Mae Ramsey. Think they played some 42, but don't think they had a winner. They tied so they will have to play again soon to break the tie.

Guess I better get to work, so be good and go to church Sunday. I hope to see you next week.

Economic Opportunity Loans Aid Farm Families to Raise Income

L. J. Cappelman, state director of the Farmers Home Administration, has announced that 247 loans to individual families have been made in Texas under the provision of the Economic Opportunities Act of 1964, which is one of the weapons of the United States Department of Agriculture being used in President Johnson's War on Poverty Program.

Loans were made to individual farmers and rural residents in most sections of Texas. A farm family is a family who is operating a farm they own or lease, and is producing at least a portion of their subsistence from crops or livestock. A rural resident is classified as one living in a town of not more than 2,500 population.

Economic Opportunities Loans to farmers may be made to improve their farming operations; to buy more land, livestock, machinery and equipment; construct needed farm buildings; and to pay annual operating expenses for feed, seed and fertilizer.

Loans may also be obtained by farm and rural families to finance rural-based, but non-agricultural enterprises. Funds may be used to purchase land, construct buildings, buy and install equipment and pay normal operating expenses of a variety of non-agricultural enterprises such as a farm machinery repair shop; TV and radio repair shop; ladders, spraying equipment and tools to be used by painters and carpenters; blacksmith shop; septic tank and sewage disposal system servicing; custom grass setting and land preparation; saw and lawn mower sharpening shop; post and wood cutting equipment; portable sheep and goat shearing equipment; and other items.

A representative of FHA is in the Callahan County courthouse each Monday morning and Coleman County State Bank each Friday morning.

Economic Opportunity Loans are designed to help low-income rural families raise their income level. Rural families who need a small amount of capital to improve their incomes may borrow up to \$2,500 for 15 years at 4-1/8 per cent interest. These loans are secured by a promissory note by the borrower and a loan agreement scheduled in accordance with his ability to repay.

Families and single individuals with incomes which are too low to cover basic needs, and who, with the assistance of the Farmers Home Administration county supervisor, are successful in developing a plan of operation which will provide a reasonable prospect of increasing their earnings through a small amount of credit from a farming operation or other non-agricultural enterprise, and who are unable to obtain adequate credit at reasonable terms elsewhere, are eligible to receive the loans.

Cappelman said Economic Opportunity Loans may be made to finance processing, marketing, purchasing and service type cooperatives which directly benefit low-income families living in rural areas. These loans may be scheduled for repayment over periods up to 30 years at an interest rate of 4-1/8 per cent. The cooperative must pledge as security for the loan a property lien and pledge of revenue.

Additional information concerning this program may be obtained from county Farmers Home Administration personnel.

Star-spangled way to make your money grow

Plant some of your cash in U. S. Savings Bonds and start your own private money tree. It won't mushroom overnight like a beanstalk. But once the seed is planted, it'll keep on growing at a steady pace. You'll cultivate interest at a guaranteed rate—3 3/4% when grown to maturity—so your tree won't have any pesky ups and downs to stunt its growth. The tax bug won't worry you, either. Savings Bonds aren't subject to state or local income taxes, and the federal tax can be deferred until you cash your Bonds. The best thing about this money tree is the star-spangled fruit it bears. While your tree is growing, it's helping your country grow, too, and helping to make your own

future more secure. If U. S. Savings Bonds sound good to you, plant now. The growing season is year-round.

Zing into spring! in a new Chevrolet

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.
Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.
Chevle. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.
Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

WASHINGTON — Unless events prevent, this column will attempt a series of comments on historical research on the meaning of Law. To do so will require several issues, with what is hoped to be some continuity. Trends of our time suggest the subject.

In 1850 a Frenchman, Bastiat, an economist, writer and statesman of the French Assembly, wrote a treatise on what law "should justly be." He was seemingly inspired by his witnessing the political turbulence following the French Revolution. Evidently an unrest in the Country's society had reached its height from about 1848 to the time of his work.

The writings of Bastiat has deep significance in that troubled period of France. At that point in history socialist and communist reforms were sweeping the country. The political and social upheavals were not always defined in these terms, any more than they are in our America today, but conditions are similar.

"The Law Perverted." So, Bastiat begins with severe indictment. He said that "The law itself is guilty of the evils it is supposed to punish." And then in order to define the proper role of law, he returned to its origin.

Life, liberty and property do not exist just because men have made laws. Indeed those possessions preceded man-made law and are superior to it. They are grants from God. The endowment from our Creator that envelops all others individually (life) may be sustained, if through exercise of man's facilities to natural resources (liberty) he is able to convert those resources to useable products (property). A man would perish if his access to life, liberty or property were denied him. All three are necessary requirements of life and the preservation of any one is completely dependent upon the other two.

Therefore, if man is to live, he must protect his three basic rights, even with force against the elements or the depredations of other men.

Since an individual may use force to protect his life, liberty and property, he may choose with other individuals to form a common force (Law) to protect the three rights of all participants constantly. But the authority of that common force can be no greater than the individual authority for which it

acts as a substitute. This is to say no individual is empowered to invade the rights of others and hence, the Law contrived by several banding together under agreement can not do so either.

Protection of individual rights, defined as Justice, is achieved when the Law sticks to its authorized role. Stated another way, the sole purpose of the Law is to prevent injustice -- to prevent the invasion of individual rights to life, liberty and property.

As an example, Bastiat defined two kinds of plunder -- illegal plunder as those crimes defined in penal codes such as theft, arson, murder and so forth, for which the Law was formed to punish. He said there is also legal plunder which the Law may even promote. How is legal plunder to be identified? Well, Bastiat answers this question quite simply. "See if the Law takes from some person what belong to them and gives it to other persons to whom it does not belong. See if the Law benefits one citizen at the expense of another by doing what the citizen himself can not do without committing a crime." The writer again says quite simply that if this is the case, then abolish the Law without delay.

Regarding legal plunder, then it seems there are but three choices before us: (1) the few plunder the many; (2) everybody plunders everybody; (3) nobody plunders anybody.

Only in the conditions of no plundering, whether criminally or legally, can justice, peace, or

Guar Marketing Program Planned; County Screwworm Fund Lagging

By PAT GARNER
County Agricultural Agent

An educational meeting on the growing and marketing of guar is scheduled Monday, April 19, at 7:30 P. M. in the vocational agriculture building at Cross Plains.

R. J. Mears, agronomist with the Texas Agricultural Extension Service, and a company representative from General Mills will be on the program.

Guar is summer legume used both as a soil conditioner and as a cash crop.

Guar is an excellent source of mannogalactan gum, which has

a wide variety of uses in food, paper, textile, pharmaceutical and cosmetic products.

Anyone interested in planting guar will receive some excellent information at this meeting.

Callahan County is still short of its goal of \$4,000 for screwworm eradication. Livestock producers are reminded that if the state does not meet its quota of \$300,000, the federal government will not spend the funds it has appropriated.

If the money is not supplied, the eradication program will be placed in serious trouble. The barrier zone of sterile fly drops cannot be maintained and we will have screwworm cases to doctor this summer and fall.

The quota of 10 cents per animal unit (cow, horse, 5 goats, sheep or hogs) is mighty small when you think about the time lost, the labor required, the weight lost, and the money spent finding and doctoring just one case of screwworms.

At the present time, this county has only slightly over \$1,600 of its share of \$4,000.

If you don't want to have screwworms this summer and fall, drop by one of the three banks in the county and leave your contribution. Remember it is tax deductible.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Biggest job of the 59th Legislature -- writing the \$3,500,000,000 biennial budget for state government -- was being quietly wrapped up in conference committee this week.

Conferees were playing a game of "beat-the-clock" to wind up before Easter holidays.

If they fail to make it, such important issues as teachers' pay raises and balancing tax measures would be postponed until dangerously late in the session.

Both Lt. Gov. Preston Smith and House Speaker Ben Barnes urged committee chairmen to turn on the speed.

Rep. Bill Heatly of Paducah, chairman of the House group, doubted the task could be completed by April 15, previous deadline set by Barnes. But Heatly said 15 solid hours of work would do the trick -- if conferees can find the time between busy floor sessions.

Completing the 59th legislative meeting by the end-of-May cutoff time may depend on whether the conferees find that 15 hours for showdown decisions on vital money matters.

REDISTRICTING NOW OR

NEVER— Sub-committee chairmen of the House redistricting committee huddled this week to compare notes on how legislative and congressional districts should be carved up under court order.

Senate already has passed two versions of a plan to increase its membership from 31 to 39 to help the work along.

Indications are that the House plans to give big counties the minimum representation allowable. This to make the painful task of reapportionment as easy as possible on rural areas which must yield representation any way you look at it.

State lawmakers are hopeful congress soon will pass a bill authorizing a 15 per cent variation above and below the mathematical average population per district. Speaker Barnes, on advice of Texas congressmen, predicts U. S. Supreme Court would yield that far in its one-man-one-vote edict.

YOUTH CORPS PROJECT APPROVED — First federal grant for a Neighborhood Youth Corps project in Texas has approval.

Governor Connally announced clearance of all state preliminaries to grant of \$135,570 from aries to grant of \$135,570 from Corpus Christi Independent School District. Program will enable 675 youths from low-income families to stay in school. They will be employed on part-time basis at \$1.00 an hour -- or 83 cents, considering required hours of counseling and vocational guidance.

Wage is an exception from regulation requiring federal minimum wage to be paid on corps projects. Such exceptions, can be made on presentation of "convincing evidence."

COLLEGE LOANS APPROVED — State-financed college loan plan has final legislative authorization for submission to Texas voters.

If statewide election carries, an \$85,000,000 bond program will be established, enabling students from junior college to graduate and medical school level to borrow needed funds to complete their higher education.

Rep. George Hinson of Mineola, author of the proposed constitutional amendment, estimates up to \$32,000,000 will be borrowed in next two years.

MENTAL FACILITIES REVAMPED — A bill calling for massive reshuffling of all state facilities and programs for mental health and retardation has been signed into law.

Legislation brings services under new Texas Department of Mental Health and Mental Retardation. It anticipates gradual shift in next decade from institutional care in state mental hospitals and special schools to "community care" in or near homes of patients.

Governor already has signed bill to place tuberculosis control and eradication facilities in the State Health Department. These two bills in effect abolish the present Board for Texas State Hospitals and Special Schools which has administered mental hospitals, special schools and tuberculosis hospitals.

WACO A&M UNIT ASKED — Governor Connally called on the Legislature to authorize establishment of a vocational-technical training institute at Waco's Connally Air Force Base,

to be administered by Texas A&M University. Base is scheduled for deactivation in 1966.

Bills to carry out Connally's request promptly were introduced by Rep. David Haines of Bryan and Sens. Murray Watson of Mart and Bill Moore of Bryan.

Governor asked appropriation of \$1,100,000 to prepare base for first classes in September, 1966.

APPOINTMENTS ANNOUNCED — Carlos Cadena, a law professor and former city attorney of San Antonio, was named associate justice of the South Texas 4th Court of Civil Appeals by Governor Connally.

Governor named Jimmie L. Mormon of Mesquite and reappointed Walter E. Wilkins of Corpus Christi as trustees of the Texas Municipal Retirement System.

Robert Pasek and James Bozka of Hallettsville were reappointed to board of directors of Lavaca County Flood Control District No. 3; and Donald C. Webb of Port Arthur was picked as a member of the pilot commissioners for the Sabine Bar, Pass and Tributaries.

Dr. Everett D. Wilson of Huntsville was appointed and Dr. Paul C. Witt of Abilene was reappointed to State Board of Examiners in Basic Sciences for six-year terms.

FLOOD CLEARS WEED — When flood gates broke at Corpus Christi, near Mathis, thousands of acre feet were lost and the lake level dropped drastically. However, not everything was damaging, says a Parks and Wildlife Department biologist.

Dropped level left high and dry thousands of hyacinths, which the department has been trying to eradicate for years. A nuisance to fishermen, the plants had been almost impossible to control.

MEXICAN GOVERNOR VISITS — Gov. Praxedis Balboa of the neighboring Mexican state of Tamaulipas (which borders on Texas from about Laredo to Brownsville) got a big reception on his visit to the capitol last week.

He and Governor Connally said they will ask federal officials to begin working on development of standard laws and regulations for Lake Falcon and the lake to be impounded by Amistad Dam upstream from Del Rio.

By having standard regulations, fishermen and sportsmen from either nation can use the facilities of the lake without worrying about violating the law when they inadvertently cross into waters of the other country.

Balboa said that, thanks to the cooperation from Texas and the U. S. government, the screw-worm has been virtually eradicated in his state. He said the pest has been done away with in a zone 90 miles from the border, is being finished in the next 90 miles and the work is progressing satisfactorily in a third 90-mile zone.

"65" INSURANCE REOPENED — Governor Connally has declared April as Texas 65 Month in recognition of the third open enrollment of Texas 65 Health Insurance Association, scheduled for April 15-30.

During these two weeks, all Texans 65 years old and over again are eligible to enroll in the health insurance program, regardless of age or health condition. Three plans are available

ranging from premiums of \$9 to \$19 monthly.

AG OPINIONS — Atty. Gen. Waggoner Carr has held that the Commissioners Court of Sherman County may recognize the existence of a vacancy in the office of County Attorney and may appoint someone to fill the office.

District Attorney William Hunter of the 69th Judicial District has requested the opinion as a result of balloting in November's general election.

In that election, the incumbent County Attorney was defeated by a write-in candidate. However, the write-in candidate had not yet taken his bar examination. He was admitted to the bar prior to January 1, 1965. Subsequently the District Court ruled that no eligible candidate had received a majority or plurality of the votes cast. But court did not rule on whether a vacancy existed as of January 1st.

Carr also has held constitutional a bill to make it unlawful for anyone to sell liquor to any person under 21. Bill deletes the word "knowingly" from present law.

SHORT SNORTS — House criminal jurisprudence committee sent the bill to wipe out capital punishment to sub-committee after members raised the question whether a five-year moratorium should be declared on electrocutions . . . House military affairs committee approved resolution by Rep. Will Smith of Beaumont, urging Pentagon to allow Texas to retain at least one of its Army Reserve components in event of merger of National Guard and Reserves . . . Senate approved a bill stiffening barber schooling requirements and placing a 12-cent ceiling on haircuts by students in training . . . Senate passed proposed constitutional amendment doubling (to 10 cents) the state property tax earmarked

for college buildings . . . Senate constitutional amendment committee again approved proposal to ban legal discrimination based on sex . . . House passed to the Senate a bill by Rep. Dick Cory of Victoria which would permit the state to join in federal research and development efforts for commercial fisheries, with Parks and Wildlife Department designated as the state agency responsible for the program . . . Governor Connally signed into law a bill by Sen.

Andy Rogers of Childers to provide a federal-state program for the eradication of swine diseases . . . Attorney General Carr has announced appointment of William S. Lott, Georgetown, to State Land Board, replacing Wilson Fox of Taylor . . . Texas Highway Department plans to construct a tourist bureau with an all-weather overcrossing on Interstate 40, now under construction, east of Amarillo in Potter County . . .

How to find happiness as a mother-in-law

No reason to be sensitive about being a mother-in-law. There are a lot of happy ones these days.

Like the ones who start the bride and groom out saving—with a gift of U. S. Savings Bonds.

This provides them with the wherewithal for those little emergencies that always seem to crop up with young couples. Or helps them meet the down payment on their first home. A gift of Bonds will tell them you're happy to help. If it's a bit late for a wedding

gift, Bonds make a good way to celebrate grandmotherhood, too. Bonds will grow right along with the new baby. And he'll get back \$4 for every \$3 you invest if the Bonds are held to maturity.

Millions of Americans help themselves—and others—with U.S. Savings Bonds. And every dollar they invest helps their country spread the freedom word a little farther.

Any way you look at it, U. S. Savings Bonds make a dandy nest egg. And a very happy mother-in-law.
