FORTY-EIGHTH YEAR

BAIRD, CALLAHAN COUNTY, TEXAS, FRIDAY, JANUARY 4, 1935

NUMBER 4

NEW FORD ON DISPLAY AT WOOTEN MOTOR CO.

Wooten Motor Company are showing the new 1935 V-8 Ford Car, the new car being placed in their show room Saturday, following the first showing of Ford's newest creation in cars in Texas, Thursday, when O. A. Wooten, manager and Garland Bennett attended the preview in Dallas.

Most striking feature of the new car is body lines which are distinctively modern and a definite departure from any previous Ford design.

The new car also embodies a combination of major engineering developments aimed at increased riding comfort, which has been called the "center-poise" ride. Numerous improvements in chassis design to provide, increased ease of control also are included. Two important improvements have been made in the Ford V-8 engine. In addition, Ford has developed a new type of body, the touring sedan.

Safety glass is standard equipment not only in windshields, but also in all doors and windows in all body types.

Three Year's Work

The new car marks the present culmination of development begun by Ford three years ago at the time of the announcement of the V-8 engine. In the three years intervening, Ford has been engaged in the development of a combination of engineering improvements aimed at providing a degree of riding comfort and ease of control comparable with the performance of the engine itself.

The engineering advances in engine and chassis are comparable in importance. Principal among these is the new "ride" effected by the new spring suspension system, proper car weight balance and passenger weight distribution and the location of the passenger close to the center of the car, so that they ride between the wheels.

To accomplish this, the front spring, which has been lengthened, is located more than four inches in front of the front axle and the engine is moved forward more than eight inches so that its weight rests over the front axle. Front and rear springs have been made more flexible. Added chassis room available as a result of the front end improvements permits redistribution of the passenger weight.

Ride Between Axles

Key to the changes made in outward design is found in the relocation of the front spring and engine. This has permitted moving the body forward so that passengers ride between the axles, and the development of rear quarter panel treatment along flowing lines. The car is approximately eight inches longer from bumper to bumper.

Bodies are materially wider. Slanting vertical louvers with horizontal stainless steel bending are combined to form an attractive hoodside adornment. The radiator ornament is fixed in position, the radiator filling cap being under the hood.

Wheels are smaller, tires larger. Interiors are roomier, with wider seats front and rear. Span of the front seats has been increased up to 5 1/2 inches providing room without crowding for three persons, in bodies with full-width seats. The driver's seat in all closed cars is adjustable.

Engine improvements included: Addition of a new system of directed-flow crankcase ventilation, with exhausts water vapor and gases from the crankcase and valve chamber.

Use of aircraft type copper-lead floating connecting rod bearings similar to those used in high-speed racing car and airplane engines.

A new cast alloy iron camshaft. Additional major chassis improvements include:

Newly designed, internal expanding mechanical type brakes, intended to give more effective braking control. A new clutch of simplified design, requiring less pedal pressure at starting and gear-changing speeds and with much softer action.

New, stronger, more rigid frame, heavier front and rear radius rods, wider rear wheel tread and a strengthened rear axle.

Mr. Wooten informs us that he has

Helen Dean Dawkins-Ferguson Died In Fort Worth

1008 E. Richmond, Fort Worth, Texas, Jan. 1, 1935. Editor, Baird Star, Baird, Texas.

I want to take this opportunity to express appreciation for the many letters and other expressions of sympathy from the many friends in Baird, at the death of Helen Dean, only daughter of Mrs. Daisy Dawkins and Monroe Dawkins, long-time residents of Baird. She was a grand-daughter of Mrs. R. C. Dawkins of Admiral Helen Dean was born June 23, 1916, was graduated from the Central High School in Fort Worth in June 1933. She was married to Woodrow Ferguson July 14, 1933 and passed to her Heavenly reward Dec. 16, 1934, after an illness of several months.

At the time of her death she and her husband were making their home with her mother at 1711 Washington Ave.

A host of friends and relatives come from all parts of the state to pay their last tribute of respect to Helen Dean and to comfort the bereaved mother.

Sincerely,
Evelyn D. Smith,
(Mrs. Dawkins' Niece).

THE METHODIST CHURCH

We had a good day last Sunday. The Presiding Elder, Dr. R. A. Stewart brought a helpful spiritual message on "Desisive Battles". The thing that we find helpful in our church service let's pass them on to others. It might help them in two ways: It might bring them inspiration and encouragement and it might induce them to come to church.

Let no Christian forget to think and talk and pray about the Revival which begins at our church, Sunday, January 13th. We invite the fullest cooperation and assistance from all Christians of what ever church.

We expect to see Methodist folks and we invite others to attend the services next Sunday, Sunday school and preaching morning and evening. Let's worship and serve the Lord as we ought.

P. E. YARBOROUGH

EASTERN STAR MEETING

Callahan Chapter No. 242, O. E. S. will meet in regular session Tuesday night, January 8th at 7:30. All members urged to be present. Visiting members cordially invited to attend.

Mrs. Ora McGee, W. M., Myrtle Boydston, Sec.

PREBYTERIAN LADIES WILL ENTERTAIN, JAN. 19TH

On Saturday afternoon, Jan. 19th the Presbyterian Ladies will hold an entertainment at the chamber of commerce building, beginning at 3 p. m.

An admission of 5 cents will be charged. There will be sixty boxes to be sold for 10 cents a piece. These boxes will contain such prizes as a Lone Star, Quilt Top, An Angel Food Cake, etc. Free refreshments will be served to all who attend the entertainment. The public is cordially invited.

BIDS WANTED FOR COUNTY DEPOSITORIES

Notice is hereby given that the Commissioner's Court of Callahan County, Texas, will receive bids for depositories, to-wit:

For County Funds, and also for School Funds to date on Monday, Feb. 11, 1935, on which date the said court will select depositories for said Funds for the ensuing year.

J. H. CARPENTER,
County Judge, Callahan County, Texas. 4-4t.

SCHOOL RE-OPENED MONDAY

Pupils in Baird Public Schools resumed their studies Monday after a weeks vacation for the Christmas holidays.

Orders for six new cars which he expects to deliver within the next few days.

E. E. (Sorty) Cooke of Clyde has been added to the list of salesmen with Wooten Motor Company. Other salesmen in the county are, Lynn Williams Putnam; and Raymond Lee in the Admiral section.

COUNTY OFFICIALS TAKE UP DUTIES

Callahan County's new officials, which include four new County Commissioners, a new County Assessor and Collector of Taxes; a new District Clerk, took up their official duties Tuesday, January 1, 1935.

The following is the personal of Callahan officials for the next two years:

J. H. Carpenter, County Judge
F. E. Mitchell, County Attorney
S. E. Settle, County Clerk
Mrs. Will McCoy, County Treasurer
R. L. Edwards, Sheriff
Vernon R. King, Assessor-Collector
B. C. Chrisman, County Supt.
Mrs. Will Rylee, District Clerk
B. O. Brame, Com. Pre No. 1
Grover E. Clare, (Oplin, Com. Pre. No. 2
Peto King, (Putnam), Com. Pre. No. 3
B. H. Freeland, (Cottonwood), Com. Pre. No. 4

The first regular meeting of the new Commissioners Court will be held on Monday, February 11, 1935.

Wheat Chairmen To Meet

The Callahan Wheat Association officers are called to meet with the County Agent, Ross B. Jenkins, Monday, January 7th to elect the allotment committee and to draw up the budget for the coming year and plan the coming year's activities.

The association is composed of 84 members and contracted with the government to take out of production some 800 acres this past year. The County Agent received some \$3,782 this past month for the Association and will receive yet another \$10,000 for the 1935 rental.

Members who will be expected to be in attendance Monday are: A. E. Young, president; N. M. George, secretary-treasurer; J. B. Mashburn, George P. Eubanks, S. S. Harville, N. A. Estes, R. W. Williams and Norrell L. Long. Meeting called at 10 o'clock sharp.

Baird Bears Start Track-Field Drills

Wednesday afternoon thirty-four boys met with Coach Claude Daniel to line up for some track or field event for the coming interscholastic meet to be held sometime in March at Baird.

Twenty-five seniors and nine juniors boys met with the coach to receive instructions and points on the various events. Those present were as follows:

Seniors: J. T. Blankenship, John Baggard, Bernie Bryant, Horace Cook, J. R. Coats, M. W. Ashton, Lynn Bryant, Sikes Smedley, Pearce Flores, Bill Ashton, Lelo Jackson, Mit Elliott, Randall Jackson, Donald Cooper, Dale Haynie, Harold Alexander, M. L. Hughes, Warren Hooker, Doyle Chrisman, Bland Bounds, Mays Fowler, Jackie Street, Willie Oscar McWhorter and Bill Barrett.

Juniors: W. H. Berry, Bernard Munson, Norman George, Robert Motley, Tommie West, Carl Gillet, Robert Settle, Carl Hnnsey, Jr., Robert Austin.

These boys really expect to make a good showing at all the track and field meets this year.

Mrs. R. V. Hart has returned to her home in Big Spring after spending the holidays with relatives here and at Cross Plains.

Bing Crosby and Kitty Carlisle as they appear in "Here Is My Heart." Showing Wednesday and Thursday at the Plaza Theatre.

Baird Boys and Girls Return To College

Baird boys and girls who came home to spend the holidays, have returned to college and universities to resume their studies.

Miss Ruth Boren, Judson Atchison and Junior Jackson, to State University, Austin.

Mary Louise Fetterly to North Texas Teachers College, Denton.

Miss Polly Rumph, A and M. College, Arlington.

Misses Helen Settle and Mary Jo Hart, Abilene Christian College.

Mr. and Mrs. Harold Haley, State University, Austin.

Thaxton McGowen and Weldon Varner, Baylor, Dallas.

Reaves and Miss Beatrice Hickman Daniel Baker College, Brownwood.

MEETING OF METHODIST MEN

On next Wednesday evening, Jan. 9th at 7:15 o'clock we have our regular monthly Men's Meeting. Every Methodist Man—or any who attend the Methodist Church, is urged to be present. About 40 men were present at our meeting a month ago. All whom I have heard speak of it, enjoyed it.

This Men's Meeting affords us a fine occasion for fellowship and the consideration of those questions of religious concern in the community. Let every man be on hand.

P. E. YARBROUGH.

CEDAR BLUFF CLUB MEETS

The Cedar Bluff Community Club met at the home of Mrs. Walter Williams Wednesday afternoon, Jan. 2.

We are very glad to state that we had our Demonstration Agent with us. Miss Moore made an interesting talk on our club work for the coming year.

The club will meet at Mrs. Lloyd Gary Wednesday afternoon, Jan. 16. We want every member to be present at this time and visitors are always welcome.

Reporter.

Pneumonia Fatal To Fay Snyder

Fay Snyder, 31, prominent young ranchman of this section, died in the Harris hospital, Fort Worth, at 11:20 a. m. today, following a short illness.

Mr. Snyder was taken ill with appendicitis at the Snyder ranch near Moran Saturday followed by pneumonia. He was carried to Fort Worth Sunday his condition being grave at that time.

Fay Snyder is a son of Mr. and Mrs. C. B. Snyder, of Moran and a brother of C. B. Snyder, Jr. of Baird, who were at his bedside during his brief illness.

Burial will probably be made in Ross cemetery, Baird, but at this writing no funeral arrangements have been made.

NEW CHEVROLET CARS COMING

Chevrolet's two new lines of cars for 1935 will be on display next week in the salesroom of the Ray Motor Company. The announcement was made today.

"Embodying graceful new lines, as well as mechanical refinements resulting in sparkling performance, and economy of a high order, the new Master Series promises to be a sensational in the low-priced field". The Special Series will provide big car performance, comfort, and driving ease at a price which will place it within the reach of millions.

"With these two great lines for 1935, Chevrolet is assured of breaking even the fine records established by last year's car. They will offer an all-round value untouched in the low-priced field."

Cary C. Hinds former resident of Baird who is spending a few weeks in Big Spring underwent an operation for appendicitis in a hospital in that city Saturday night. A letter to his sister, Mrs. Joe McGowen Wednesday stated that his condition was favorable

Couple Celebrate Golden Wedding Anniversary

Mr. and Mrs. A. L. McIntosh, long time residents of the Denton community, south of Clyde celebrated their fiftieth wedding anniversary on January 1st at their home there.

Many friends gathered to congratulate Mr. and Mrs. McIntosh who had as their guests, all twelve of their children, Mrs. E. J. Barton, Mrs. Ray Clemmer, Clyde; Mrs. Sam Smith, Joe McIntosh; Preston McIntosh, Homer (Blonde) McIntosh, Baird; Mrs. Dora Phillips, Arizona; Mrs. Ben Allen Annie Mae, Estelle, Estes and Jessie McIntosh, Denton community.

Mr. and Mrs. McIntosh were married in Nevada, Texas, January 1, 1885. An unusual event of the day what that Mr. Lan McIntosh of Putnam, Mr. Tom McIntosh of Clyde, brothers of Mr. McIntosh and Mr. Ed Bourland of Eula, a brother of Mrs. McIntosh were present at the wedding and also helped celebrate the occasion Tuesday.

The McIntosh family settled near Clyde in 1902 and have lived in Callahan County since that time. Besides the twelve children, seventeen of the eighteen grand-children were present along with many other friends of the family.

Our Golden Wedding Day Little did I think fifty years hence Darling the first day that we met, little did I think fifty years hence I'd have you yet.

I loved you truly, but yet there were fears; That it might not last so many years. But after all our trials and tribulations together; We still have that same tender love for each other.

I've had hardships and disappointments that were truly hard to bear. Some times it seemed that life was hardly fair.

But always knowing that your love for me was true, It has made life worth living all these long years thru.

That love has carried me thru this life and made me a true mother and loving wife.

Now we've raised our family and they in turn have families too. So I guess our work here on earth is nearly thru.

We have lived our three score years and ten, Stuck to each other thru thick and thin.

God bless you for every kindness that you have shown to me; For every act of love and tender sympathy.

For all the joys you've scattered along life's dreary way. Have really truly mattered for more than I can say.

I hope you are happier because I've passed your way, And that you still love me as of yore on this, Our Golden Wedding Day

By Mrs. Lucye Byrd Bonneaux.

BIRTHS
Born to Mr. and Mrs. C. K. Meadows, of Baird, in the West Texas Hospital, December 31, 1934, a son.

Born to Mr. and Mrs. D. A. Hamrick, of Oplin, December 31, 1934, a girl.

Born to Mr. and Mrs. Ray Hickman of Slaton, in the Griggs hospital on December 28, 1934, an 8 1/2 pound girl, who has been named Patricia Ann

MRS. E. C. FULTON HONORED ON BIRTHDAY
The Presbyterian Sisters honored Mrs. E. C. Fulton with a dinner party Monday night, Dec. 31st at the home of Mrs. Lee Estes. The occasion was Mrs. Fulton's birthday and was a most pleasant surprise for her.

Fourteen members of the order and members of their families were present. Mrs. Fulton was presented with lovely gifts.

Baird Fire Department Elects Officers
At their regular meeting, January 2 the Baird Volunteer Fire Department elected and installed the following officers for the ensuing year:

J. C. Asbury, Chief
Gilbert Hinds, 1st Asst Chief
Erwin R. Pruitt, 2nd Asst Chief
R. L. Elliott, Sec-Treas
C. D. Jones, Foreman, Co. No. 1
Irvin Corn, Foreman, Co. No. 2
Horace Elliott, Guard.

WOODMEN CLUB MEETS
The Sunshine Club of the Woodmen Circle met with Mrs. Lee Estes on Jan. 2nd. The afternoon was spent playing "42". Mrs. Bud Walker and Mrs. Fred Estes joined the club.

Delicious refreshments were served to the following: Miss Jeffie Lambert Mrs. O. E. Eastham, Mrs. W. B. Bow-lus, Miss Edith Bow-lus, Miss Susie Walker, Mrs. Arthur Johnson, Mrs. W. J. Cook, Mrs. L. L. Ford, Miss Mary Walker, Mrs. A. T. Vestal, Mrs. Alex McWhorter, Mrs. Bud Walker, Mrs. Fred Estes, Mrs. John Asbury and Mrs. Frances Myers, Mrs. Chas. Gorden of Cisco visited the club.

Bargain Rates Are Extended
Bargain Rates on The Baird Star are extended to the last day of January, 1935. We are also making the same bargain rates clubbing rate for the month on The Star and Abilene Morning News and the same Clubbing rate on The Star and Star Telegram, until January 10, 1935.

The Comptroller issued a call of condition as of December 31, 1934. The First National Bank of Baird statement on the above date shows a net assets of some Eleven Thousand Dollars and an increase of some \$1,000 in Total Deposits.

CO. FARM CENSUS ENUMERATORS BEGIN WORK

Farm census enumerators for Callahan county begun their work Wednesday, January 2nd. The enumerators are: H. S. Johnson, Oplin; John Berry, Clyde; Harry Sandlin, Putnam; George Clifton, Cross Plains. All having had experience in farming.

Callahan County enumerators are working under direction of Ernest E. Wood of Eastland, supervisor for District No. 8, of Texas. Plans call for completion of the survey during the month of January.

Samples of the farm schedule in the census have already been distributed to many farmers in the county. Among questions to be answered are farm tenure, population, acreage, total value of the farm, acreage and yield of principal field crops and vegetables, number of trees and yield of principal fruits and nuts, number and value of each class of livestock and poultry and eggs.

Coming at the end of a "depression" period which has caused basic upheavals in the vast agricultural industry, the census is regarded by agriculture department officials as "one of the most important agricultural canvasses in the nation's history."

JUNIOR WEDNESDAY CLUB ELECTS NEW OFFICERS

The Junior Wednesday Club met January 2, 1935 in the home of Mrs. L. L. Blackburn with Mrs. Clark Edwards as hostess. The following program was given:

Roll Call, Current Events

Types of Suggestion, Erma Dell Mitchell

Nature of Suggestibility, Mrs. Darby

Limitations of Suggestion, Mrs. Mayes

Leader, Miss Ivison

After the program a business meeting was held and the following officers elected for the years of 1935-1936

President, Erma Dell Mitchell

1st Vice-President, Burma Warren

2nd Vice-President, Mrs. Wilbur Brian

Recording Secretary, Jewel Grimes

Corres. Sec., Juanita Johnson

Treasurer, Mrs. Jack Ashlock

Critic, Mrs. Roberta Mayes

Reporter, Leota Alexander

Librarian, Beatrice Green

Chairman of Program Committee, Mrs. W. O. Wylie, Jr.

EPISCOPAL SERVICES

Rev. Willis P. Gerhart will preach at Holy Communion Services at the Chapel of the Lord's Prayer Sunday afternoon at 3:30 o'clock. All cordially invited to attend the service.

WOODMEN CLUB MEETS
The Sunshine Club of the Woodmen Circle met with Mrs. Lee Estes on Jan. 2nd. The afternoon was spent playing "42". Mrs. Bud Walker and Mrs. Fred Estes joined the club.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

(By REV. F. B. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago, Institute of Western Newswoman Union)

Lesson for January 6

PETER'S CONVERSION AND CALL

LESSON TEXT—John 1:35-42; Mark 1:14-18.
GOLDEN TEXT—And Jesus said unto them, Come ye after me, and I will make you to become fishers of men.—Mark 1:17.
PRIMARY TOPIC—Why Peter Went With Jesus.
JUNIOR TOPIC—Peter Enrolls in Jesus' School.
INTERMEDIATE AND SENIOR TOPIC—Accepting a Great Leader.
YOUNG PEOPLE AND ADULT TOPIC—Ways of Winning Men to Christ.

For the next three months the lessons center around the apostle Peter. The aim of the lesson committee was to acquaint the members of the Sunday school with the life and writings of Peter.

I. The Conversion of Peter (John 1:35-42).

1. John pointing his disciples to Jesus (vv. 29-34). Through the testimony of John the Baptist his disciples were brought to Jesus.

2. Two of John's disciples follow Jesus (vv. 35-37). As a result of the Baptist's testimony, two of his disciples left him and followed Jesus. One of these disciples was Andrew (v. 40), and presumably the other was John. When the Baptist pointed out Jesus as the Lamb of God, the long-expected Messiah, these disciples sought further acquaintance with Jesus. When they looked upon Jesus, they were induced to follow him.

3. The two disciples abiding with Jesus (vv. 38, 39).

a. Jesus' question (v. 38). When Jesus saw the disciples following, he kindly inquired as to their business.

b. The disciples' reply (v. 39). They answered his question by inquiring as to his dwelling place. Their reply showed their desire to go apart privately where they could open their hearts unto him. He invited them to his place of abode, where they enjoyed sweet fellowship with their Master.

4. Andrew bringing Peter to Jesus (vv. 40-42). The very genius of Christianity is self-propagation. The usual method is to begin with those nearest us, home folks and relatives, and pass out to ever-widening circles. The disciples who enjoyed fellowship with Jesus went at once to tell others of the priceless treasure they had found. This is always true of the real disciple. Andrew bringing his brother Peter is a beautiful example of brotherly affection, expressing itself in bringing him to Christ. When Andrew had witnessed to Peter about Christ he brought him to Jesus where he could enjoy personal intercourse. This was a great piece of work for Andrew, for Peter became one of the pillars of the church.

II. The Call of Peter (Mark 1:14-18).

1. Jesus preaching in Galilee (vv. 14, 15). The growing opposition to Jesus moved him to change from Judaea to Galilee. He accepted the fate of John the Baptist as foreshadowing his own death. Observe—

a. What he preached (v. 14). The Gospel of the Kingdom of God, which meant the good news of the near approach of the rule of God as predicted by the prophets.

b. How he preached it (v. 15).

(1) The time is fulfilled and the Kingdom of God is at hand. This meant that the time had now come for the appearance of the Messiah and the establishment of his Kingdom.

(2) Repent. This meant that the people should turn around, change their minds and attitude toward Christ, and accept him as their king.

(3) Believe the Gospel. Then, as now, men needed to believe the Gospel of Christ.

2. Jesus called Peter and Andrew to become fishers of men (vv. 16-18). Jesus called this pair of brothers for service in his kingdom. It is to be noted that these men had previously been called to be disciples of Christ (John 1:36-42). They are now called to service. Jesus first calls men to him for salvation; those who accept that call have an additional call to service. Note—

a. From what they were called (v. 16). They were called from positions of definite service; they were fishers.

b. To what they were called (v. 17). To be fishers of men. They no doubt had been successful fishers. The qualities which made them good fishermen, namely patience, bravery to face the storm and darkness of the night, and perseverance which led them to trail all night, though no fish were caught, would make them good fishers of men.

c. Their obedience (v. 18). Straightway they forsook their nets and followed him. Obedience meant sacrifice, painful separation, the giving up of all business interests, and the leaving of their father behind.

Short Cut to Happiness

If anyone would tell you the shortest, surest way to all happiness and all perfection, he must tell you to make it a rule to yourself to thank and praise God for everything that happens to you.

Prayer

Perhaps we do not think enough what an effective service prayer is, especially intercessory prayer. We do not believe as we should how it might help those we so vain would serve.

Many Ways of Winning Sought-For Popularity

A girl is popular for some one of many reasons, or by a combination of them. For example, a girl who is good at sports will find herself popular with those of similar tastes. She must be expert in some field. It may be tennis, golf, water sports, sailing a boat, skiing, etc., and she should be above the average in some of the other sports. It is worth while for a girl who enjoys out-of-door exercise to practice and perfect herself in her favorite sports so that she will be sought as a partner for games or a companion in sports. Her very ability at winning gives her prestige which makes her agreeably noticeable. If to this ability she adds a pleasant manner and is a good sport in losing, when she does, as every one must at times, she has gone a long way on the road to popularity.

Some girls are popular in their set because they have an accomplishment which makes them an addition to any gathering. Playing a musical instrument, singing, impersonating, being able to interest a group in an account of some event or in telling stories amusingly, in short, being a good raconteur—any of these things, when done in a way above the average, lends a certain enviable distinction to the person, and supplies them with popularity. It is assumed that there is also a polish of manner which gives a gracious and agreeable personality, without which few can expect to become favorites or be popular, whatever their field.

Being a good dancer is one of the drawing room accomplishments which makes a girl sought as a partner, and cut in for when already dancing. A help to this popularity is to have a happy expression. The one with whom the girl is dancing may get only brief glimpses of this, but those watching get full view and are apt to make mental note of expression. Another drawing room accomplishment is playing a good game of cards plus taking a beating without arguments. To haggle over cards played, to criticize your partner's leads or the way he failed to follow yours, is fatal to popularity.

Girls who are unpopular are apt to think harshly or even speak disparagingly of those who are popular. It is distressing to find one's self in the background, but one is wise to analyze the situation and find out

why one loses out, before being too downcast or derogatory. Learn to be good at something which makes for attraction. To be good looking isn't everything. To be made up too much is no help. To have a winning expression is a great aid. To be a good listener is another. This does not mean merely being silent and letting the other person talk. It means listening so that whatever comments you do make are to the point, revealing an understanding of the conversation. Try to make yourself popular in some field and in some way. If you do this with sincerity and not superficially you are in a fair way to win success.

© Bell Syndicate.—WNU Service.

Congenial Isolation

An Englishman and an American traveled in the same compartment on one of the Liverpool expresses. The former spoke not a word to his companion, who was the only other occupant of the compartment, and it was only when the train was crossing Rulicorn bridge that the American said: "Excuse me, sir, but your tie is riding up over the back of your collar."

"Well, what if it is?" was the curt reply. "Your coat pocket has been on fire this last five minutes, and I haven't bothered you."—Montreal Star.

Underslung Liners

Underslung ocean liners are predicted as the next advance in shipbuilding, the lowered center of gravity, thus obtained, being advantageous in stabilizing fast ships when turns are made.

Entomologists Tell Us Things About Mosquito

Fishermen have long known when fish bite best. Now the periods when mosquitoes bite best, or worst, have been revealed by entomologists of the United States Department of Agriculture.

There are mosquitoes that bite only at night, others that bite only during the day, some bite best at sunrise and some best at sundown. There is one grain of comfort for the mosquito-ridden citizen. Only the female mosquito bites. The male feeds on nectar and similar substances.

Here are some mosquito "schedules":

The "rain barrel" or common mosquito bites only at night and can find her victims no matter how dark it is. When flying it makes that irritating singing noise which is familiar to every one.

The yellow fever mosquito usually bites close to the ground or attacks from behind, and often crawls under clothing to bite. It bites only in the daytime and is busiest early in the morning and late in the afternoon. It flies quietly. It will bite indoors all day.

The fresh-water marsh mosquito known under the scientific name *Mansonia*, a severe biter, is busiest just at dusk. It spends the day in the grass and will bite during the day if disturbed.

Malarial mosquitoes will bite all night long and sometimes, too, in the daytime, especially on dark days.

Reasons for Winking

Pretty Young Lady (to gentleman sitting close to her at a party)—Will you please stop winking at me?

Gentleman—I beg your pardon, Miss. Your beauty dazzles my eyes, so I winked as though I were looking at the sun.

To a Customer's Credit

JACK—WE SCRIMPED AND SAVED TO BUY THIS STORE... AND NOW YOUR BAD TEMPER IS DRIVING CUSTOMERS AWAY!
AW, TELL HER THAT LONG FACE OF HERS IS WHAT'S DRIVING THE CUSTOMERS AWAY!
HOW ARE WE EVER GOING TO GET THE MONEY TO MEET THE LAST TWO PAYMENTS ON OUR LOAN?
TELL HER IF SHE'LL WAIT ON THAT CUSTOMER THAT JUST CAME IN, INSTEAD OF BAWLING YOU OUT, IT MIGHT HELP!
JACK'S GOT ME SO WORRIED... HE HAS HEADACHES AND INDIGESTION... AND CAN'T SLEEP WELL!
MY JIM USED TO HAVE THOSE TROUBLES, BUT HE HAD COFFEE-NERVES!
HEY—I DON'T LIKE THE WAY THIS CONVERSATION'S GOING!
JIM'S DOCTOR TOLD HIM TO CUT OUT COFFEE AND SWITCH TO POSTUM... AND THE CHANGE WORKED WONDERS IN HIM!
CURSES! JIM'S WIFE KNOWS THAT POSTUM ALWAYS DRIVES ME AWAY!
GOODNESS! THAT'S AN IDEA... I'LL SEE THAT HE STARTS ON POSTUM TONIGHT! JACK DOES DRINK A LOT OF COFFEE!
LATER
I'M COMING OVER TO PAY OFF THAT LOAN TODAY, MR. GARVEY. BUSINESS HAS BEEN GREAT!
MY, BUT JACK HAS CHANGED. I'D RATHER HAVE HIM WAIT ON ME NOW THAN ANY ONE IN TOWN!
I'LL TELL YOU A SECRET—SINCE HE SWITCHED TO POSTUM HE'S FELT LIKE A NEW MAN!
"ISN'T IT amazing how coffee can affect a man like Jack?"
"Why, no... the caffeine in coffee affects lots of grown-ups just as it does all children. It can give 'em indigestion, upset their nerves and keep 'em awake."
If you suspect that coffee disagrees with you... try Postum for 30 days. Postum contains no caffeine. It is simply whole wheat and bran, roasted and slightly sweetened. Easy to make, and costs less than 1/2 cent a cup. It's a delicious drink, too... and may prove of real value in helping your system throw off the ill effects of caffeine. A product of General Foods.
FREE—Let us send you your first week's supply of POSTUM... Free! Simply mail the coupon.

Blanton Renews Fight On D. C. Fund

Makes Attack on Increased Appropriations for City's Relief Purposes

The Evening Star, Washington, D. C.

Extending a Christmas greeting card to the press, Representative Thomas L. Blanton of Texas, attached to it statistics on relief expenditure here and a reiteration of his opposition to any increase in the Federal lump-sum contribution to the upkeep of the District.

In expressing his opposition to the \$1,000,000 increase in the emergency relief appropriation requested by the Commissioners, Blanton, who is ranking Democratic member of the House District Appropriations Subcommittee declared the "money dole should stop" While furnishing all possible jobs and food to the deserving needy, he said a dole "destroying initiative, self-reliance, energy, thrift and self-respect and creates lazy, shiftless mendicants" Presenting His Side

The House Subcommittee has completed its hearings on the District supply bill and Blanton said in his Christmas greetings that he was presenting facts to offset what he characterized as "city propaganda."

When the hearings are made public, he said, they will show that the Commissioners admit the following: "That most of the paved streets, bridges, schools, playgrounds, parks water system, hospitals, courts, jail, asylums for defectives and other projects were acquired and constructed when the United States paid half of their cost."

"That during the last 20 years the United States has spent over \$200,000,000 in Washington on its permanent buildings—a great city asset— attracting large crowds here daily, visitors spending \$50,000,000 in Washington in 1934.

"That \$13,000,000 has been spent here on relief in 1934, there being one of every seven persons and one of every four Negroes on relief, many refusing jobs, families receiving from \$14 to \$30 a month.

"That the tax rate is still \$1.50 per \$100 on real and personal property and one-half of 1 per cent on intangibles, with hundreds of millions in locked boxes never taxed; all libraries and \$1,000 worth of furniture are exempt from taxes to each family.

Taxes Lowered "To aid citizens the assessed values have been lowered \$50,000.00 this year and \$80,000,000 last year. gasoline tax is 2 cents; auto license tags cost \$1 for all cars. driver's permits, \$1; no income tax, no inheritance tax, no monthly sewer charge.

"All trees and their care free; trash ashes and garbage removed free, cost of water \$7 per family; all school books, supplies and clinics free. "Commissioners testified that people here are least taxed and have more valuable privileges than any other city in the United States."

SINGER SEWING MACHINES I am still selling Singer Sewing Machines. Will take in your old machine on a new one. Special attention given to all repair work, or sewing machines. Prices reasonable.

Farm, Livestock and Poultry Hints

(By Ross B. Jenkins, County Agent)

Certificate Payment Advance Word was received from Washington this week that the pool has not been closed, but that an advancement of \$10 per bale is to be made soon, the remainder to be sent as soon as all the demand for certificates has been satisfied and the money returned to the National Pool. Notice will be mailed to each producer when the money is here.

APPRECIATION

The WEST TEXAS UTILITIES COMPANY is duly appreciative for the patronage and co-operation received from its customers and friends the past year.

Our aim has been to render a superior service at constantly reduced rates. In expression of our gratefulness for the patronage received, we have continued our policy of rate reductions. Our customers are now able to enjoy a dependable electric service at rates below the state's average.

Our hope of reward is in YOUR INCREASED USE of service. Your continued increase in patronage and your co-operative influence in obtaining full information so as to understand your power company's problems will combine our efforts in the future development of West Texas and reduced cost of electric service.

We feel that we have established a foundation by our past experiences and achievements for a greater public service. As we close out the year of 1934 and make our plans for service in the future, we pledge our entire organization—to the 160 towns and communities we serve—in a continued improvement of our service.

West Texas Utilities Company

Dee Rutherford, Oplin underwent an emergency appendix operation Sunday.

E. S. Sloan was able to return to his home in Clyde Sunday following an appendix operation some two weeks ago.

Sam Lawton of Oklahoma was a patient the past week suffering from painful lacerations and bruises suffered in a car wreck.

B. T. U. NOTES

The B T U met in regular session in the basement of the church at 6:15 Sunday evening.

The meeting was opened by song and prayer. Ruth Ray, the president presiding, Brother J. V. Brannon gave a short talk and then the election of officers for the new year followed. The following officers were elected:

Ruth Ray, President (re-elected)
Edith Lewis, Vice-President reelected
Delores Rylee Sec-Treas.
Ludie Jo Mayes, Reporter
Delores Rylee, Pianist and Boling Motley, choicister, Buckie Coats and Cora Mae Mayes were elected group captains.

The meeting closed with prayer by Brother Brannon. We meet every Sunday evening at the Baptist church. We have a good program and a good time. We want every young person to meet with us. Remember the hour 6:15.

WITH BAIRD BAPTIST

Sunday was one of our best days good morning service and a fine gathering from over the county for the afternoon service. Our District Missionary brother J. D. Brannon gave a fine talk and the Associational B. T. U. was organized with Mr. Willard Gaskin of Putnam presiding. Miss Ruth Kember of Cross Plains, first vice president, Robert Borden of Eula second vice president, Miss Annie Evelyn Hollis of Clyde, secretary-treasurer, Bro. Lee Pool of Potosi choir leader and Ellen Louise Nunnally of Baird pianist.

The next meeting will be held with the Putnam church the First Sunday afternoon in February at 2:30 o'clock. We will meet at Baird each Fifth Sunday afternoon.

In the meeting here last Sunday we had nine of our churches represented with 100 or more present.

Our Sunday night service was fine. Brother Brandon preached and Arnold Thompson was saved and joined the church, we were all happy indeed. We want our Missionary to come to see us again. We like him and are for

him good and strong.
I am beginning my tenth year next Sunday with The Baird Church as pastor and I am urging every member and all others who can to come to be there on all the services, it is our regular time for the Lord's Supper, so we will observe that at the close of the 11:00 o'clock service. On invitation I am going out to Hart church and preach next Sunday afternoon at 3:00 o'clock. I will start out by tenth year and the new year, by doing a bit of Missionary Work. Come in friends and help.

JOE R. MAYES

Smallest Park Claimed by Town in California

Visalia, Calif.—Visalia challenges the world to prove it has a smaller city park than Visalia's.

The park at St. John, N. B., measuring 20 feet by 6, which claimed the "world's smallest" honors, is much bigger and cannot honestly claim the title, Visalians contended.

The town's "Lone Oak" park, situated at the west entrance to the city, is but 10 by 10 feet, they pointed out.

The park, containing a huge oak tree, is squarely in the middle of the main highway.

Woman Chimney Sweep More Efficient Than Men

London.—The only woman chimney sweep here is proud of her profession. She is Mrs. Kate Nelson, middle-aged, neatly dressed and more efficient than

many male competitors. Her husband used to be a chimney sweep, and when he became ill she carried on the family trade.

Rhode Island Rock Can Be Rung Like a Bell

East Greenwich, R. I.—A local oddity is Drum Rock, a big boulder which cannot be overturned. When it is moved it produces a deep, bell-like tone. Indians, according to tradition used Drum Rock to call councils and spread alarms.

Trade Pigs for Fashion Tips in the South Seas

Philadelphia.—The value of new fashion designs and new tribal songs is measured in terms of pigs and other foodstuffs by the natives of the South seas, according to Dr. Margaret Mead, who recently returned from a 22-month research among primitive tribes.

With her husband, Dr. R. F. Fortune, of Columbia university, Doctor Mead traveled extensively among the primitive mountain dwellers in New Guinea, a mandate of Australia, formerly known as Kaiser Wilhelm's Land.

The inland tribes, Doctor Mead said, surrender their food supplies in return for latest fashion ideas and songs. Communication between the tribes, however, is irregular, she said, and so slowly does a fashion travel for it to cover the 20 miles from the sea to the mountains.

Doctor Mead is assistant curator of ethnology of the American Museum of Natural History.

Kangaroo Population in Australia Is Decreasing

Salt Lake City.—The kangaroo business in Australia is not what it used to be, F. White, New South Wales, here on a visit said. Ordinary people seldom see the animals. The kangaroo is one of many useless animals in Australia, White said. They may be used only for zoos and occasionally for hides, but are seen only in the interior regions.

\$16 to Sit Down; Rising Costs \$2.29

Dallas.—Director of Trade Extension Henry W. Stanley sat down. It cost the chamber of commerce \$16. He got up and it cost Wholesale Manager Elvie Anderson \$2.29.

Stanley, who makes the scale pointer whiz past the 200-pound mark as if it were not there, sat down on Anderson's plate glass table top.

It broke several different ways. He jumped up, hit an ink well with his hand and splashed waterproof ink all over Anderson's white shirt.

Your own druggist is authorized to cheerfully refund your money on the spot if you are not relieved by Creomulsion.

News Review of Current Events the World Over

Representative Tinkham's Scathing Attack on Secretary Perkins—Senator Lewis Warns Against Any More Disarmament Treaties.

By EDWARD W. PICKARD

© by Western Newspaper Union.

GEORGE H. TINKHAM, the bearded and sharp-tongued representative from Massachusetts, has revived the controversy over the League of Nations when he introduced a resolution in the House of Representatives today.

Nations with an assertion that the United States is being slipped into the league through the back door. He says the joint resolution adopted in the last few days of the Seventy-third congress, making the United States a member of the international labor organization was the first of a contemplated series of moves designed to put the United States openly into the league, contrary to the wishes of the people and of congress, and Secretary of Labor Frances Perkins was the special object of his attack. Using such harsh words as "fraud" and "intrigue," Mr. Tinkham accused Secretary Perkins of employing "contemptible trickery" in advocating the adoption of the resolution.

Mr. Tinkham quoted the labor secretary as saying that the international labor organization, "is not even now an integral part of the League of Nations, and membership in the organization does not imply affiliation with the league." He continued:

"This statement is the grossest perversion of the truth. It is squarely contrary to the facts—facts established by an inflexible record, the treaty of Versailles. The statement contained in the letter of the secretary of labor was intended to deceive. The secretary knew that the congress of the United States was opposed to entry into the League of Nations and would not vote for entry knowingly. Entry was therefore made surreptitiously and fraudulently."

"Article 302 of the treaty of Versailles states:

"The international labor office shall be established at the seat of the League of Nations as part of the organization of the league."

"This audacious intrigue to have the United States enter the League of Nations by way of one of the organs of the league is to be followed by an attempt to have the United States enter another of its organs, the Permanent Court of International Justice of the League of Nations, this subsequently to be followed by a proposal of full membership in the League of Nations. Thus, the independence of the United States will be destroyed, the will of the American people thwarted, and the United States inevitably involved in the next European conflict."

SENATOR JAMES HAMILTON LEWIS of Illinois, chairman of the senate committee on foreign relations and a veteran in international conferences, has set forth a view concerning disarmament or reduction of armaments that will meet with the approval of many of his fellow citizens, though they are sharply at variance with those of the administration. He evidently is glad the Washington naval pact is dying, owing to the action of Japan, and he says that in future the United States must, for its own sake, remain aloof from all such agreements, because they are almost certain to embroil us in war.

Addressing the National Forum in Washington, Senator Lewis declared the recent naval conversations in London succeeded only in designing a "chart of death to men, destruction to nations," and he warned against the renewal of the Washington treaty.

"Plain it must be," Senator Lewis pointed out, "that should we enter the deal, and it is disobeyed by any of its parties, the United States must be called on by the nations involved to lead ourselves to enforce the compact. This means war upon the United States by the nations we threaten to force to obedience, or war from the nations we refuse to aid in the enforcement."

"To the United States nothing but evil and danger awaits our entrance into any international contract with foreign nations preparing for war on each other."

America wants no war and wants armaments only for self-defense, the senator said, and America does not recognize the right of any international conference to tell her what arms she needs for that purpose.

"On this right of our own self-defense America stands sovereign in her guarded isolation," he informed other states. "We deny the privilege of any nation to dictate to the United States the quantity or quality of protection our nation shall adopt."

War can come to the United States only through her foreign entanglements, Senator Lewis explained, and because of the present warlike attitude

of the world, America must stand isolated.

SPEAKING of war, it is interesting to learn that the senate mission to the Philippines has discovered that those islands "possess the most important source of war material under the American flag." Senator Tydings of Maryland sent the word from Manila that there are in Zambales province deposits of chromite so large that they have attracted the attention of other nations. John W. Haussermann, dean of the islands' gold mining industry, told the senators these deposits may soon take their place as one of the most important ore bodies in the world, and he added significantly that chromium is the one war material which the United States does not have in ample quantities within its borders. These deposits in the Philippines were discovered after the Tydings-McDuffie independence act was drafted. It is easy to see that this news will be of immense interest to Japan, which, in its plans for territorial expansion, is ever on the lookout for war material sources.

POPE PIUS XI is not optimistic concerning world peace. In his Christmas eve address, delivered according to custom to the cardinals resident in Rome, the Holy Father said that "the clamor of war spreads ever farther," and he urged the world to pray and work for peace. "We see a constant increase in warlike arms," the pope continued.

"This is a distracting element in which the spirit seems to have no part. We are on the eve of a day when the heavens resound with the hymns of angels calling for peace on earth. Never has the chant had more reason for being than today."

King George, in a radio address to all parts of the British empire, was a little more cheerful. He adjured his "peoples beyond the seas" to remember that they all belonged to one great family.

"My desire and hope is that the same spirit of brotherhood may become ever stronger in its hold and wider in its range," the king said. "The world is still restless and troubled. The clouds are lifting, but we have still our own anxieties to meet. I am convinced that if we meet them in the spirit of one family we shall overcome them, for then private and party interests will be controlled by care for the whole community."

He made a special effort to reach the restless multitudes in India, whose fate now is in the hands of parliament, by assuring them of his "constant care of them."

President Roosevelt's brief Christmas talk was addressed especially to the citizens of America, calling for "courage and unity" for greater happiness and the improvement of human welfare.

PROSECUTION and defense attorneys completed their preparations for the trial of Bruno Hauptmann on the charge of murdering the Lindbergh baby, and the little town of Flemington, N. J., was a busy place. The names of 48 veniremen were drawn for examination as jurors, and the sensation over the mailing of a satire on the Lindbergh case to 150 prospective jurors died down. C. Lloyd Fisher, defense counsel, said he would not ask for a new panel.

Betty Gow, the nurse who put the Lindbergh baby to bed the night he was kidnaped and killed, arrived from Scotland on the liner Aquitania and went at once to the Morrow home in Englewood, N. J., to await her call as one of the state's star witnesses. She declined to talk to reporters, but posed for cameramen. There was a report that Miss Gow might remain in this country and take up her former job in the Lindbergh household. She had acted as nurse for Jon, second son born to the Lindberghs, until she returned to her home in Scotland several months ago.

Hauptmann seemed calm as the time for his ordeal approached, and he ate a hearty Christmas dinner. Mrs. Hauptmann, who moved from the Bronx to Flemington to be near her husband, made a radio appeal "to the people of the country to wait until they hear every side of the story before they condemn him."

She reiterated her belief that Hauptmann had nothing to do with the kidnaping of Charles A. Lindbergh, Jr. She repeated her story that Hauptmann had waited for her at a Bronx bakery where she worked the night of the kidnaping and that he had taken her home.

As for the ransom money found in the Hauptmann home and garage, she insisted on the truth of her husband's story that he got the money from Isidor Fish, who is dead. Mrs. Hauptmann told parts of her story amid sobs.

BRISBANE THIS WEEK

A Pretty Good Christmas Germs Travel High We Are Coughing Better Prairie Dogs, Catacombs

It was a satisfactory Christmas, the best since the depression began. The nation at least knows that the depression is here and that attending to it, instead of talking about things "just around the corner," is the program.

The government knows that money was made to be spent in emergencies and that helping the people is cheaper than revolution. The government is spending and helping.

Colonel Lindbergh proves, after transatlantic flights, that bacteria can travel across the ocean by air. The winds of the north Atlantic carry microscopic germs of life through the upper air. Disease germs might travel, thus, across either ocean.

That interests anybody planning to make war more interesting by adding disease germs to poison gas and high explosives.

Scientists already believed that, since life cannot be created on the earth, except supernaturally, life began on this planet probably with germs that had traveled millions, perhaps billions, of miles through space at absolute zero. They started life on the earth when it had sufficiently cooled off, and may have been brought in the wake of flying meteors.

Heat destroys microscopic life, cold does not.

Cheerful optimists, telling you that conditions are getting better, remind you of Meyer Hecht's benevolent friend who told each tuberculosis patient, "You are coughing better this morning."

We all are "coughing" a little better. It has been the best, most freely spending Christmas season since the depression began. Merchants testify to that. The season of grand opera opened in New York with every seat sold and a demand for seats nonexistent.

Mr. Hull, able secretary of state, wants freer trade with foreign countries. Those that shut their markets to the outside world are like "animals which burrow in the ground," says Mr. Hull. That might be true, without proving that protection is unwise.

Animals burrowing in the ground—prairie dogs, etc.—would regret it if they came to the surface and sat around inviting coyotes to eat them. Early Christians burrowing in the catacombs were better off than they would have been on the surface, thrown to the lions.

It is better for this country to burrow under protection than be thrown to the lions of free competition of labor and manufacturing.

Occasionally you hear what Mr. Field called "a sour note" in the hopeful chorus of "Happy Days Are Here Again." Senator Dickson of Iowa—Republican, of course—says NRA plans have collapsed. He finds that "monopoly" is being encouraged, private initiative is being depressed, and the small business man driven to the wall—"The rich are becoming richer and the poor poorer."

That will be news for some of the rich—they had not heard it. You may hear many of them say now, "If I can get together and keep enough to take care of my family, that is all I ask," and they mean it.

Projects thus far proposed by congressmen and executives in Washington would cost Uncle Sam, in addition to money already spent, \$30,000,000,000, and would double the national debt. If the money were wisely created, wisely spent, the country would be better off, with many employed in useful work. But if it is found necessary to inflate with interest-bearing bonds, instead of simply printing the money and later retiring it as bonds would be retired, the \$30,000,000,000 would cost the country \$60,000,000,000.

It is really necessary to force on taxpayers that extra load of \$30,000,000,000 for interest, when interest bonds are just so much "inflation money," in no respect different from greenbacks?

According to dispatches from Nanking, China's killing methods make the efforts of Stalin or Hitler seem feeble. Gen. Kiang Kai-Shek gives proof in Kiangsi province. Six million people have been driven from their homes and 1,000,000 killed in cold blood by "Red Communist" troops.

The killing championship is now with China, naturally one of the most peaceful countries on earth.

Mr. Irene du Pont, munitions manufacturer, who knows about war, since he produces "the goods," tells the munitions committee "the only way to wage a war is to have an absolute monarch at the head of the government"; also "we shall have a h—l of a time in case of war."

No question about the last statement.

Mr. Baruch, entering wholeheartedly into the President's campaign to prevent profits for munitions makers in wartime, wisely urges preparation, says the country should buy and store thousands of tons of tin for use in the event of war. "I think we ought to buy tin just as we would invest in a battleship, and keep it in storage."

Washington Digest

National Topics Interpreted by William Bruckart

Washington.—Time after time since President Roosevelt entered the White House, many observers have insisted that he had reached a crossroads and

that on those occasions he necessarily had to choose between the right and the left. They contended with considerable justification that he either had to be conservative or radical. But somehow the President arranged to follow both roads at once. At least that conclusion has been reached by those who classify themselves as liberals.

Now, observers are saying again that the President has reached the crossroads and must choose between the right and the left. With the convening of congress there has come forward the usual number—perhaps I should say more than the usual number—of proposals for radical or conservative legislation as the case may be. There are dozens, almost hundreds, of bills advocating nostrums and crackpot ideas which cannot possibly do more than take up time and keep the government printing office busy at the expense of the taxpayers in printing the bills themselves. There are in all of this mess as well many pieces of worthwhile legislation as well as the proposals bearing earmarks of drafting under White House guidance.

In addition there are close to six dozen presidential appointments upon which the senate must act. Some of these names are of individuals of known radical tendencies. Some others are recognized as equally conservative. It will be the senate's job to pass upon these nominations which, some observers insist, represent perhaps the widest variation in economic views that has ever been sent to the Capitol for confirmation of appointment.

As a corollary for this confused state, there are the growing differences of opinion, based on presidential policy proposals, as to whether the government should attempt to provide relief through work as Mr. Roosevelt desires or should turn to a plain, unadulterated dole. There is the demand from the White House for legislation putting the federal government further into competition with business by expansion of publicly owned power facilities and the question of liquidating or continuing to expand such programs as that of loans to home owners and extension of NRA.

Summed up, it would appear, superficially at least, that Mr. Roosevelt is definitely at the crossroads. I am told by legislative leaders, however, that the administration program thus far advanced again does not commit Mr. Roosevelt definitely to follow either the radical or conservative pathways. They point out that there is an unusual admixture of two schools of economic thought represented in legislation bearing presidential approval and their thought seemed to be that Mr. Roosevelt will avoid being forced into either camp at this time.

It has been most interesting to observe the fluctuation of temperature among the various New Dealers. Prior to the last election they were very low in spirit. Many of them were saying, in private at least, that Mr. Roosevelt was getting out of hand as far as they were concerned and was turning certainly toward the conservative school of thought. At the same time among conservative members of the administration and in congress and to a considerable extent among business leaders, there was a growing feeling that they had witnessed the phenomena of having their own ears pinned back just when they thought they were on the upgrade.

Following this change of trends, along comes the mass of White House legislation, some of which pleases the New Dealers and some of which pleases the conservatives. Each finds fault with that portion of the program that is reasonably satisfactory to the other. This contrariety of opinion extends into the ranks of members of the house and senate. Consequently, the question to which the observers are now seeking an answer is whether Majority Leader Robinson in the senate and the Democratic wheel-horses in the house are going to be able to keep their tremendous numbers in line. Thus far, there has been no word from the majority leaders either in the house or the senate indicating any doubt on their part that the administration whip will fail to drive recalcitrant members into the proper alleys. Unbiased observers are taking the position, however, that time alone will tell. And it may be added with some emphasis that if the wild horses break loose from the hitching post once, the current session of congress may provide much more action than results.

Present plans of the Republican leadership, if there are enough Republicans left to make their presence felt, indicate that the Democratic commanders need not expect any help from that quarter in pulling hot chestnuts out of the fire. For example, I understand that the soldiers' bonus question will be used by the Republicans as a sort of prod with which to disturb the majority party. It seems definite that the house and senate will pass legislation

for immediate payment of the bonus. It may not be a program for full payment of the sum that is not due until 1945, but the pressure is so strong that some action will be forthcoming.

If Mr. Roosevelt sticks to his guns and vetoes any bonus legislation excepting that proposing to care for the destitute ex-soldiers, sailors and marines, there is enough strength in congress to pass the legislation over his veto. The soldiers' lobby is strong; of that there can be no doubt. The members will be thinking of their political future, not Mr. Roosevelt's, when the question is put before them. Then is when the Republican minority could be of distinct help to the administration but, apparently, that is just the thing the Republican minority is not going to do.

The administration is now examining various avenues of a possible compromise on the bonus payments and it is through this course that a hope exists on the part of administration leaders to avoid the showdown mentioned above. Knowing that it cannot count on the Republican minority for any help to carry through its plans, the administration may make some concessions to the bonus advocates. These most certainly will be made unless a count of noses by the leadership shows a little later that the supporters of a full bonus payment can be whipped—and right now that is generally considered by observers as being impossible.

Here again the views of radicals and conservatives clash. There will be some radicals supporting the bonus payment in order to force the President into a position where he must inflate the currency further. That group thinks inflation of the currency will boost prices and provide the necessary hypodermic injection to get us out of the depression. Opposed to these are a considerable number of house and senate members who fear inflation and its results like they fear the poison fangs of a rattlesnake. So, when the bonus question is joined as an issue it seems to me we will see an interesting exposition of how politics makes strange bedfellows.

President Roosevelt is about to open up the federal treasury for loans to provide cities with light and power plants. He has announced definitely that he favors this procedure and, therefore, in effect has invited cities to join the march on Washington for more federal loans.

The newest development in the administration program of loaning money here and there seems to have resulted in repercussions of a more important nature than objections voiced to other types of federal loans. Here in Washington considerable discussion has developed as to the wisdom of this policy and this has been followed by speculation as to the ultimate end of a program of this kind. Opinion throughout the country apparently has not been definitely crystallized yet but from all indications it appears we are due to hear much debate on the newest New Deal idea.

Objectors to the program of providing loans to cities for construction of municipal light and power plants insist that Mr. Roosevelt has taken the longest step toward state socialism thus far to be made a part of his New Deal. They contend that Mr. Roosevelt has gone beyond his recovery program and has embarked upon a plan representing part and parcel of his scheme for public ownership of all industries impressed with a public interest through service of a monopolistic character.

Opponents also argue that the President is placing privately owned industries under a severe handicap by forcing them to compete with what should be private industry but what actually is their own government.

In some quarters also I hear expressions of a fear that if any substantial number of cities borrow federal money to build their own light and power plants, the federal government will have expanded to that extent its domination over those cities. Through loans to banks, to agriculture and to many other lines, federal influence daily is being exerted upon the private life of the country until, some observers declare, states, counties and municipalities are gradually sinking into oblivion insofar as their own self-government is concerned.

On the other hand, such advocates of public ownership as Senator Norris of Nebraska, are elated over Mr. Roosevelt's decision to proceed along public ownership lines. Senator Norris believes Mr. Roosevelt has authority now under public works and recovery act provisions to promote publicly owned light and power plants about any place he pleases. The Nebraska senator, it will be remembered, was the spearhead of the movement that resulted in creation of the Tennessee Valley authority and the program for development of electrical energy from the Muscle Shoals dams in the Tennessee river. Already, privately owned light and power companies in many sections contiguous to the Tennessee river plant have been virtually forced to sell their properties to the TVA.

Buttons emphasize every smart detail of this unusual dress with such slender lines. See the way they follow the surplice from the right shoulder, close it at the side, and strut half the way up the forearm of the sleeve. Tiny vertical tucks are used to mold the waistline at the back, giving extra ease to the bodice. Then, too, stitched seaming down the front of the skirt seems to take away inches from the hips. The irregular neckline is softened by a most becoming scarf. This design would be charming in black satin with a scarf of the queerly named, but very lovely, dirty pink color, or metal cloth.

Pattern 9176 may be ordered only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 requires 3 3/4 yards 29 inch fabric and 1/2 yard contrasting.

Complete, diagrammed sew chart included.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to Sewing Circle Pattern Department, 232 West Eighth Street, New York, N. Y.

Smiles

SHE KNEW

Scribbler—Ah! A check for \$100 from Drilbler's! And I don't know what it is for!

Wife—Oh, that's for my new gown and bonnet, dear! I've been praying for it a week!

Copy-Cat

"I hear that Mrs. Highbride is much disappointed in her husband."

"Dreadfully. She understood he was a home-loving man and now he wants to tag along with her everywhere she goes."—Louisville Courier-Journal.

His Dream Girl

"It's tough to be goofy. There's only been one girl who ever really cared for me."

"Who was she?"

"The nurse I had when I was sick."

Taking Medicine

"Where have you been for the last four years?"

"At college, taking medicine."

"And did you finally get well?"

Get Perfect Quilt With This Design

By GRANDMOTHER CLARK

The quilting on a patchwork quilt may make or ruin the entire work. If the design and work is not done neatly, Beauty in the design is necessary, but the needlework and evenness of the stitches bring out the design, and if done right the result will be perfect and always admired.

Package No. 33B shown above contains seven actual size patterns, perforated on bond paper, also blue powder for stamping and full instructions just how to do it.

Pattern D 12-10 inch Spider Web is suitable for the center of the Wedding Ring Quilt. The outer lines may be omitted if a smaller size is wanted. D 11 is a 4 inch Butterfly Motif suitable for corners. D 10 is a 1 1/2 inch Tulip Border. D 13-5 inch Feather Circle. C 7 a 2 1/2 inch Floral border and corner. C 8-7 1/2 inch Feather Circle. C 9-6 1/2 by 8 inch Pineapple motif. These patterns can be used singly or in combination, and can be used many times.

Address—Home Craft Company—Department D—Nineteenth and St. Louis Ave., St. Louis, Mo.

Enclose a stamped addressed envelope when writing for any information.

CREOMULSION advertisement with image of a bottle and text: 'Your own droggist is authorized to cheerfully refund your money on the spot if you are not relieved by Creomulsion. COUGHS'

'Why Be Unpopular?' New scientific discovery makes superfluous flesh disappear like magic. No drugs, no dieting. Full particulars 25c cash. Pch. Research Institute, P. O. Box 5913, Pittsburgh, 16, Pa.

PIMPLY SKIN advertisement: 'from clogged, irritated pores, can be relieved, improved, and healing aided with Resinol'

'INSIDE INFORMATION' advertisement for Garfield Tea: 'For indigestion or constipation. CLEANSE INTERNALLY the tea-cup way. Garfield Tea acts promptly, pleasantly, MILDLY. Not a cure-all, but certainly effective in relieving constipation. At drug-stores—25c and 10c. FREE SAMPLE Write to: Garfield Tea Co., Dept. 12, Brooklyn, N. Y.'

HELP KIDNEYS advertisement: 'If your kidneys function badly and you have a lame, aching back, with attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains... use Doan's Pills. Doan's are especially for poorly functioning kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor! DOAN'S PILLS'

BACKACHE, NERVOUS advertisement: 'Mrs. Sallie Cadlin of Iowa Park, Texas, says: "I was down and out, had pains across the small of my back, my feet and hands were swollen, I was very nervous and slept and ate poorly. A few bottles of Dr. Pierce's Favorite Prescription soon relieved me of all my pains and aches. It was the best I ever had. I enjoyed perfect health." New size, tablets 50c, liquid \$1.00. Large size, tabs. or liquid, \$1.35. "We Do Our Own." WNU-L 1-35'

When Worlds Collide

By EDWIN BALMER and PHILIP WYLIE

Copyright by Edwin Balmer & Philip Wylie WNU Service

CHAPTER IV—Continued

"Glad to see you, Tony. We're going ahead with our plans. I suppose you knew I had been counting on you." "For what?" Tony asked brusquely. "For one of my crew. You've got the health and the mind and the nerve, I think. It's going to take more courage, in the end, than staying here on the world. For we will all leave—we will shoot ourselves up into the sky while the world still seems safe. We leave, of course, before the end; and the end of the world will never be really believed till it comes. So I need men of your steadiness and quality. Can I count on you?"

Tony looked him over. "You can count on me, Mr. Hendron." "Good. . . . I can guess that Eve has acquainted you with some features of the discipline of the League. I will tell you, in proper time, of others; nothing will be asked of you which will not be actually reasonable and necessary. But now I should advise you to learn something useful. Investment experience and skill in trading will scarcely be an asset on Bronson Beta, whereas knowledge of agriculture and proficiency in manual arts and elementary mechanics may be invaluable. You have time to learn the simple, primary processes by which life is maintained. You will have, I might say, approximately two years to prepare before affairs here become so acute with the approach of the planets on their first passage."

No record could picture a thousandth part of the changes that came in those two years. No single aspect of human enterprise was left undisturbed.

It was now more than a year before the first serious physical manifestations were expected; so a statement that Hendron signed merely read:

"It is still impossible to forecast the entire effect of the approach of the Bronson bodies. Unquestionably they will disturb us greatly. We may anticipate, as a minimum, the following phenomena: tides which will destroy or render uninhabitable all coastal cities and all inland cities within five hundred or more feet of sea level. We have no terrestrial precedent for such tides. The existing sixty-foot rise and fall in the Bay of Fundy will certainly be trifling in comparison. The tides we anticipate will be perhaps several hundreds of feet high, and will sweep overland with a violence difficult to anticipate."

"The second manifestation, which will be simultaneous, will consist of volcanic activity and earthquakes of unpredictable extent and violence."

"The Bronson bodies, if they pass on a parabola, will approach the earth twice. If, however, their course becomes modified into an ellipse, the earth will meet them again in its journey around the sun. Direct collision with one or another of the bodies, or grazing collision due to mutual attraction when in proximity, cannot be regarded as impossible. The succession of tides and earthquakes caused by gravity and resultant stresses may instantly, or in due time, render the surface of this globe wholly uninhabitable; but we cannot say that there is no hope."

"Certain steps must be taken. All coastal cities in all parts of the world must be evacuated. Populaces must be moved to high, non-volcanic regions. Provision for feeding, clothing and domiciling migrated people must be made."

"There remains considerable doubt concerning the origin and nature of the Bronson bodies. Efforts are being made to determine their composition, but determinations are difficult, as they are non-luminous."

"The scientists of the world are in agreement that the course outlined above is the only logical one to pursue. Since the first approach of the Bronson bodies may be expected to take place with effect upon the tides and seaboard on and about the end of next summer, general migration should begin at once."

On the morning succeeding the spread of this statement, Tony stood in the vast, populous waiting-room of the Grand Central station. Yesterday there had been issued marching orders for fifteen hundred millions of human beings. If they did not know that it was to be the end of the world, at least they were told that it was the end of the world as it had been.

He listened to fragments of the conversations in progress in his vicinity:

"I tell you, Henry, it's silly, that's all. If anybody expects me to give up my apartment and pack up my duds and move off one Hundred and Eighty-first street just because a few gray-headed school-teachers happen to think there's a comet coming, then they're crazy. . . ."

"It's the end, that's what it is; and I for one am glad to see it. When the sea starts to rise and the earth starts to split open, I'm going to stand there and laugh. I'm going to say: 'Now what's the good of the firm relief? Now who's going to collect my income tax? Now what does it matter whether we have prohibition or not? Good-by, world.' That's what I'm going to say. 'Good-by! Good-bye!' I hope it wipes the whole d—n thing as clean as a billiard ball. . . ."

"Don't hold my hand so tight, Daddy. You hurt me. . . ."

"It's ridiculous. They've been fighting about their fool figures for generations. They can't even tell whether it's going to rain or not tomorrow. How in the h— can they say this is going to happen? Give a scientist one idea, and

a lot of trick figures, and he goes hay-wire, that's all. . . ."

"I drew it all out and bought gold. I got two revolvers. I filled the house with canned goods. I said: 'Here you are, Sarah. You've been telling me all your life how well you can run things. Take the money. Take the house. Take these two guns. I'm leaving. If we've only got a couple of months left, I'm going to see to it that I have a little gun anyway.' That's what I said to her! and, by G—d, here I am. . . ."

Tony shook his head. He rode through a long dark tunnel and then out to the station at One Hundred and Twenty-fifth street. The train moved past the final outposts into a verdant landscape with the river on one side—the Hudson, in which tides soon would rise to sweep high and far over the Palisades. Tony glanced back, once, toward the teeming city. The first flood would not top the tallest towers etched there; the pinacles of man's triumphs would, for a while, rise above the tides; but all the rest? Tony turned away and looked out at the river, trying not to think of it.

Settled in a chair, Tony glanced around the comfortable furnishings of the student's room and then gazed at the student himself. A lanky youth with red hair, good-humored blue eyes and a sprinkling of freckles that carried into his attained maturity more than a memory of the childhood he had so recently left.

"Yes," Tony repeated. "I'm from Cole Hendron. The dean told me about your academic work. Professor Gates showed me the thesis on Light which you turned in for your Ph. D. He said it was the finest thing he had had from the graduate school since he'd held the chair of Physics."

Dull red came in the young man's face. "Nothing much. I just happened to have an idea. Probably never get another in my life."

Tony smiled. "I understand you were struck in the varsity crew two years ago. That's the year you were rowing everybody out of the water, isn't it?"

"There weren't any good crews that year. We just happened to have the least bad ones."

Tony looked at the youth's hands, nervously clenching and unclenching. They were powerful hands, which nevertheless seemed to possess the capacity for minute adjustment. Tony smiled. "No need of being so modest, old fellow. It's just as I said. Cole Hendron in New York is getting together a bunch of people for some work he wants done during the next few months. It's work of a very private nature. I can't tell you what. I can't even assure you that he will accept you, but I'm touring around in the attempt to send him some likely people. You understand that I'm not offering you a job in the sense jobs have been offered in the past. I don't know that any salary is attached to it at all. You will be supplied with a place to live, and provided with food, if you accept."

The tall youth grinned. "I suppose you know that offering a chance to associate with Cole Hendron, to a man like me, is just like offering the job of secretary to St. Peter, to a bishop."

"M-m-m. By the way, why did you stay here at the university when most of the graduate students have left?"

"No particular reason. I didn't have anything better to do. The university is on high ground, so it didn't seem sensible to move for that reason, and I thought I might as well go on with my work."

"I see," Tony replied. His companion hesitated to say what was obviously on his mind, but finally broke the short silence. "Look here, Mr.—Mr.—"

"Drake, Tony Drake." "Mr. Drake. I can't understand why on earth Hendron would want me. If he's planning to take a group of people to some safe spot in order to preserve scientific knowledge during the next year, he can find hundreds of people, thousands of people, that have more knowledge to save, and a better memory to save it in, than I have."

Tony looked at the good-humored blue eyes and liked the young man. He felt instinctively that here was one person whom Cole Hendron and the committee would surely accept. The name of the man before him, he recalled, was Jack Taylor—his record for a man of twenty-five was startling. He grinned at the youth's speculation. "You're a physicist, Taylor. If you were in Cole Hendron's shoes, and were trying to take a group of people to a place of safety, just where, under the circumstances we anticipate, would you take them?"

The other man was thoughtful for an instant. "That's just what worried me. I can't think of any place on earth that would offer a refuge essentially satisfactory."

"Exactly. No place on earth." Tony emphasized the last two words.

Jack Taylor frowned quickly, and suddenly the freckles on his face stood out because his color had departed.

"God Almighty! You don't mean to suggest—"

Tony lifted his hand and dropped it. "I'm offering you a letter that will give you an interview with Cole Hendron. Do you want to go and see him?"

For a minute Taylor did not answer. Then he said disjunctively: "Marvelous! My G—d—Hendron's just the man—the only man! To think that anybody would come around to give me a shot at such a thing!" Tears suddenly filled his eyes, and he stood up and walked in two mighty strides to the window.

Tony slapped his back. "See you in New York. Better get going right away. So long, old man."

Deeply moved, proud that any race, any civilization should produce human beings of the temper and fineness of young Taylor, Tony walked out onto the university campus and hurried to keep an appointment with an obscure but talented professor of chemistry whose investigations of colloids had placed his name on the long list furnished to Tony by Hendron and his associates.

Tony, having applied himself for months to acquisition of the primitive proficiencies in growing things and in the manual arts, had found himself appointed by Cole Hendron as his personnel officer. Tony possessed, decidedly, a knack with people; and so Hendron was sending him about to recruit young men for the extraordinary duties of the crew of the Space Ship.

Her father had asked Eve to sug-

gest, provisionally, the women who must go along; and Tony had met some whom Eve had selected.

Strange to think of them standing with you—and with a few other men out of all our world's creation—on the soil of an empty planet! What would they be to each other there?

Stranger still, to gaze at night into the sky, and see a spot of light beside a brighter orb and realize that you might become a visitor to that spot in the sky!

Tony returned, three weeks later, to New York city, where Hendron now spent most of his time. He had workshops and laboratories started in several places, but the advantage of conveniences in New York was so great that he had decided not to abandon his work there until later.

Upon his arrival in the city, late on a July afternoon, Tony went at once to see Hendron and Eve. He had business with Hendron—none with Eve; he merely longed to see her and be with her, more than he dared display. Not much change was observable in the city. The station was a sea of people, as it had been on the day of his departure. The streets were more than normally crowded, and his taxicab made slow progress.

There were three policemen in the front offices of the laboratories, and he was admitted only after a wait. Eve came into the reception room first, and shook hands with him coolly. That is, outwardly it was coolly; but inwardly, Tony felt sure, she was trembling, even as he was.

"Oh, Tony," she said, her voice almost giving way. "I'm so glad to have you back! I've read all your acknowledgements of them," said Tony hoarsely. It was all that had passed between them. Reports and acknowledgements, in lieu of love letters!

"Father will be right out. We've been working steadily ever since you

—a new Eve who was a little different from the old Eve. She wore a green evening dress.

"Hello, Tony." In her eyes was the same wonderment, the same surprise and unbelief that he felt. Hendron appeared immediately after his daughter. "Drake! Evening, old man. Well, this is odd. Here we stand, just as we did in the old days, eh?"

The dining-room doors were opened. They sat down. Leighton served consommé, and Tony picked up his silver spoon with a dreamy feeling of unreality which psychologists have noted and only badly explained.

Hendron brought him to his senses. "Tell us the news, Tony. We've been living down at the laboratory ever since you left. This is Eve's and my first night off. Eating there, sleeping there. We have dormitories now on the floor above. What's going on in the world? You know, we even had newspapers now. They're too much of a distraction, and Dodson has instructions to keep track of the news but not to give us any, unless it will have an effect on our work."

Tony began to talk. He took what opportunity their questions gave, to eat.

"It hasn't made as much difference as you'd think. The government at Washington is now less concerned with the fact that the populace should be moved away from the coast than it is with immediate problems. If you really have not read about them, I can give you some idea. There was a general strike in Chicago two weeks ago that tied up everything. No electric light and no water; nothing for a day. There was a terrific riot in Birmingham. The police forces in half a dozen cities walked out. The state governments weren't able to cope with the situation. In some cases it was just that the people decided not to work any more, and in others it was pure mob uproar. The federal government stepped in everywhere. They took over blanket control of the utilities, saw to it that trains were kept running, power houses going, and so on. Nominally workers are jailed for dereliction, but actually I think they have found it necessary to execute them. Trouble began when I was in Boston but in three days all the major functions of housing, food and transportation were working fairly well.

TO BE CONTINUED.

The Succession of Tides and Earthquakes Caused by Gravity and Resultant Stresses May Instantly or in Due Time Render the Surface of This Globe Wholly Uninhabitable.

gest, provisionally, the women who must go along; and Tony had met some whom Eve had selected.

TOWNS HAVE MANY AUTOS

It has been found that it is in small towns of 1,000 to 5,000 people that the largest number of cars is owned in proportion to the population. The percentage is least in towns of 50,000 to 100,000.

Week's Supply of Postum Free

Read the offer made by the Postum Company in another part of this paper. They will send a full week's supply of health giving Postum free to anyone who writes for it.—Adv.

Greatness Recipe

To be personally great is to forget all personal greatness.

Dr. Pierce's Pleasant Pellets are the original liver pills put up 60 years ago. They regulate liver and bowels.—Adv.

Little Girl's Face Inflamed by Psoriasis advertisement: 'Healed by Cuticura'

"My little girl's face was so inflamed that her eyes were swollen almost shut. The trouble was diagnosed as psoriasis. She scratched night and day and was not able to obtain rest. The scratching aggravated the trouble and each finger tip was red and swollen with infection. She became so emaciated that she was very pathetic looking. "After three months' suffering I recalled the Cuticura treatment used by my mother. I bought a cake of Cuticura Soap and a box of Cuticura Ointment and used them according to directions. The first treatment brought relief and she is now healed." (Signed) Mrs. Marie I. Johnson, 4730 Ames Ave., Omaha, Neb., March 14, 1934. Soap 25c. Ointment 25c and 50c. Talcum 25c. Sold Everywhere. One sample each free. Address: "Cuticura Laboratories, Dept. R, Malden, Mass."—Adv.

COUGHS Don't let them get a strangle hold. Fight them quickly. Creomulsion combines layers in one. Powerful but harmless. Pleasant to take. No narcotics. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion. (adv.)

HELP KIDNEYS IF your kidneys function badly and you have a lame, aching back, with attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains... use Doan's Pills. Doan's are especially for poorly functioning kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor! DOAN'S PILLS

WEAK AND SKINNY MEN, WOMEN AND CHILDREN Saved by new Vitamins of Cod Liver Oil in tasteless tablets. Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell. McCoy's Cod Liver Oil Tablets, they're called! "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10 1/2 lbs. in just one month. A girl of thirteen after the same disease, gained 5 lbs. the first week and 2 lbs. each week after. A young mother who could not rest or sleep after baby came got all her health back and gained 10 lbs. in less than a month. You simply must try McCoy's at once. Remember if you don't gain at least 5 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets—approved by Good Housekeeping Institute. Refuse all substitutes—insist on the original McCoy's—there are none better.

Chevrolet Announces Two New Lines for 1935. The Coupe model typifies the beauty and style of Chevrolet's New Master De Luxe series for 1935. Improved performance and exceptional economy also characterize these cars. Right: Front view of New Master De Luxe Coupe, showing roominess and graceful lines. Below: The Sedan model in the New Standard series, which, powered by the time-proven Master engine, combines brilliant performance with its smartness and style. Fleet, graceful lines also mark the New Master De Luxe Sport Sedan. Ample luggage space is provided by the built-in trunk, and a luggage compartment behind the rear seat cushion. Another attractive model in the New Standard series is the Coupe pictured here. Numerous body and chassis refinements in conjunction with the Master engine, unite to make these cars outstanding values in the lowest-priced field. Typical of Chevrolet's two new lines of cars are the models illustrated here. The Master De Luxe series reveals strong emphasis on beauty and style. Mechanically, the Master De Luxe series and the New Standard series have much in common, including the Master engine, in which numerous refinements have been made to enhance performance, durability and economy. As these pictures reveal, the New Master De Luxe departs distinctly from previous Chevrolets in the striking advance which has been made in body design and trim.
