

## SWEET N' SOUR

By A. Dill

February, unless she has a last minute change of heart, wins our award for the best behavior of any winter month we remember. Warm days and cool nights, however, must be confusing to growing things. Fruit trees think its spring and blush for having over-slept. We poor mortals scan the horizon with our weather eye and hope a late freeze won't play havoc with our blossoming world.

Roberta and Hubert Ross and children took advantage of the bright weather for a hurried week end trip to Marshall to visit the Malcolm Ross family.

Our very best wishes to Corinne Barringer, who is recovering from surgery in an Abilene hospital. Some get-well cards from her many, many friends here on the home front would help right about now and you can reach the dear lady by addressing your letters to Cox Memorial Hospital, Abilene.

Hospitalized due to injuries in an automobile accident are Mrs. Janie Patterson, Mrs. Zema Hawk and Mrs. Maner, and we hope all of them a speedy recovery.

Black's Food Store is undergoing extensive remodeling, inside as well as out. The finished building will place the store in Super-Market category - modern, convenient and beautiful. Only thing left unchanged will be the friendliness of the service. Plans are to keep the store open during remodeling, but a celebration will probably be planned for the completion of the work.

Hometown is receiving a face-lifting all up and down Market Street - the building directly adjacent to the Baird Star is under reconstruction now.

Mrs. Hamrick and the Home-making girls are happy this week over the addition of a beautiful oil painting for the living-dining area, presented to the department by Karen Gay Jones. The picture was painted by the young student in craft class.

Winter isn't all leafless trees and dry grass - Japonica bushes are beginning to bloom. Mrs. W. J. Cook has one of the town's prettiest in her yard, and the ones at Mrs. John Hughes' home are lovely too. If you know of one we should see, please give us a tip, for the grace and beauty of the Japonica are well worth special trips to see.

Another winter flower that gives the heart a lift is the yellow Jasmine - "Jasmine stars on a green, green bough," stirred the minds of poets and they never cease to be a delight to winter weary world - Elizabeth Alexander has some pretty ones.

The Neophyte Club is planning their annual showing of spring styles soon - Tuesday night, in the high school auditorium. These young women an excellent organization and is one of the most civic-minded groups that have ever served their community.

February birthdays still brighten the calendar - Feb. 17th was Cora Sue Kelly's big day and it was also Don Cook's (Dallas); the 18th was Mrs. L. G. Kerby's birthday, and also Linda Bryan's. Ada Black celebrated loud and strong on the 19th, and that was also Loy Ray Walker's day. Joyce Howard became a full-fledged teen-ager on the 20th, with a 13th birthday. Gilbert Hinds celebrated the 21st, and on the 22nd David McIntosh shared with George Washington. Special birthday wishes to Leota Mitchell Bradford, who celebrates the 27th, and thanks to Nina Jones of Clyde for the tip. Mrs. J. W. Evans birthday will be the 24th, and this is also the special day of that special person, Vida Hill. Oma Lou McWhorter is still another who keeps the 24th. Susan Young has a birthday the 27th and she'll be 13 and join the teenagers that day. Mrs. Clyde H. Latimer celebrates a birthday on the 27th, and did we tell you Melba Shelton had one the 17th?

Of course, you know and I know it won't be spring until the 21st of March - all that vertical equinox red tape has to be gone through - but come Thursday and every calendar in our

## Ranchers Give \$7,639.55 to Fund

Some 200 Callahan County cattlemen and those interested in the cattle industry, have contributed \$7,639.55 to the Screw-worm eradication program, which was started recently in Texas.

The program got underway on February 14th with the release of thousands of sterile flies in Hayes County. Texas livestock owners have raised a total of \$1,400,000 to date, and are attempting to raise, by contributions to the program, a total of \$3,000,000.

Callahan County stockmen are working toward a \$10,000 figure and hope to reach that quota soon. It was pointed out that with the cooperation of everyone in the industry, Callahan County and Texas could begin enjoying screwworm free operation.

All members of the Baird Chamber of Commerce, and all citizens of Baird, were urged today by Chamber of Commerce President Randall C. Jackson, and ticket chairman Raymond Young, to secure tickets for, and to attend the annual Chamber of Commerce banquet to be held Friday night (tonight) at the school cafeteria at 7 p. m. They stressed the importance of a large turnout from the community to greet the out-of-town guests and the speaker, Hal Woodward.

## Plans Complete For Banquet

The officers of Baird Chamber of Commerce for 1962 remained virtually the same as they were in 1961, it was reported following the annual membership meeting held at the American Legion Hall Monday night.

Randall Jackson, president, who was re-elected for his second term, presided at the meeting. Other officers and directors named were: Raymond Young, vice president and James Eubanks, secretary-treasurer. Mr. Young replaces Curtis Sutphen, who had previously resigned. All incumbent directors were re-elected. They are Raymond Young, S. L. McElroy, Charles Reeves and James Eubanks. Charles Walker was elected to the directorship to fill a post created by the changing of the charter to allow 13 members on the board.

President Jackson called on various committee chairmen and members for reports. A report by Secretary-Treasurer Eubanks showed that the chamber had operated in the black during the first 14 months of its existence. The report was based on an audit of the books by Jon Hardwick.

James Paul Shanks gave a report on the annual banquet of the Chamber of Commerce scheduled for Friday night. Shanks is chairman of the banquet committee. He reported that all plans had been completed. His report showed that Arthur's Cafeteria of Abilene had been given the contract for serving the affair, and that Mr. and Mrs. Bob Tiffany of Abilene would present the program. Hal Woodward of Coleman, a member of the Texas Highway Commission, will be the principal speaker. Raymond Young, chairman of the ticket committee, reported that sales were lagging, and urged all members to attempt to sell the tickets given them.

President Jackson gave a report on the program and accomplishments for 1961. He reported that at least four of the objectives for 1961 were accomplished by the C of C and Baird citizens. Accomplished during the preceding year were: the securing of a Doctor to serve the community, the securing of approval for a new farm to market road, better publicity for the community, and the securing of approval for the public housing units to be built west of the schools. Charles Walker, housing authority director, gave a report on the project. He stated that construction would probably begin in some 60 days.

E. Elton Ables, recently named manager of the C of C, gave a report on projects for civic betterment proposed by members of various civic groups in a recent survey by the body. The projects, listed in the status of urgency, were as follows: the obtaining and promoting of suitable housing site for construction of new homes; a year-round clean-up campaign, with special emphasis on Spring and Fall campaigns; the curbing, guttering and paving of additional streets and the construction of more sidewalks; the securing of new business and industry for Baird; the securing of approval for the construction of a new Farm to Market road from Baird to certain designated areas; the elimination of dilapidated houses and buildings; a campaign to encourage the remodeling of store fronts in the downtown area; the securing of public health department approval of the water supply; the addition of more mercury vapor street lights; the promotion of additional recreational facilities and the building of a show barn in which to hold stock shows.

Bob Norrell, president of the First National Bank, commended the Chamber of Commerce for the work accomplished during 1961, and said that prospects for the community were bright.

 TEXAS PRESS ASSOCIATION

AUSTIN — Texas newsmen quizzed seven candidates for governor at a session of Sigma Delta Chi, professional journalism society, and fanned early-season campaign sparks.

Gov. Price Daniel took the center position, weathering attacks from nearly all the other candidates, both democratic and republican. All candidates took part except John Connally and Edwin Walker.

A little fire even developed between the three republican candidates. Harry Diehl of Houston said Jack Cox of Breckenridge was "not a Republican -- just a conservative candidate."

But two days later, Diehl withdrew from the race, leaving Roy Whittenburg as the only republican opponent for Cox.

Don Yarborough and Marshall Formby attacked the Daniel administration as "tired" and "lacking vigor." Daniel came back with a recital of his five-year accomplishments in education, industrialism and other fields.

Will Wilson's approach was that Daniel's entry collapsed the Connally bandwagon by splitting Vice Pres. Lydon Johnson's organization, and that the only way to get an uncontrolled candidate was to elect Wilson.

Candidates got in more punches in answering tough questions posed by nine newsmen. All of Daniel's opponents made the Governor's unprecedented four-term try a central issue.

In the course of questions, Daniel came out for a two-term limit, but with four year terms for governor instead of the present two.

FRIENDLESS INSECT — A big-hatted crowd of ranchers gathered at an Austin hotel to get more facts on the stockman's dream -- the elimination of the screwworm.

There was no one there to defend the insect.

Ranchers learned from Floridians how that state was swept free of this costly scourge by a dramatic program. Florida ranchers covered the state with sterile male screwworm flies thus wasting the female flies' single mating period. First airplane distribution of flies in South Texas started the day of the Austin meeting.

Texas stockmen are raising \$3,000,000 by voluntary contributions to match an equal amount of Federal money put up by the U. S. Department of Agriculture. The screwworms cost Southwestern ranchers an estimated \$40,000,000 a year in losses.

LIVESTOCK RAISERS GET HELPERS — A committee of five legislators held its first meeting after hearing plans of the Southwest Animal Health Research Foundation.

Speaker James A. Turman appointed Representatives Ray Bartram of New Braunfels, Steve Burgess of Nacogdoches, Stanley Boysen of Yoakum, Glenn Kothmann of San Antonio and Gus Mutscher of Brenham to assist the SWAHRF in planning its attack on the screw worm fly.

HORSE OF ANOTHER COLOR — Stamford oilman Keith Wheatley seemed to get off the track in his campaign for Railroad Commissioner when he told Austin pressmen that Texans

should be able to cast a vote on the return of horse racing to the state.

Wheatley said he is neither for nor against racing, but believes "tax profits from horse racing could do much to aid the old people and the children of Texas."

Gubernatorial candidates are interested in regulating another kind of race. They think limitations should be set on the number of times a governor can run for re-election.

Marshall Formby based his objections to the present lack of limits on the fact that most state projects are operated by commissions whose members are appointed by the governor on a rotating basis. Formby figures that by the end of a second term a two-time governor has made every state commission appointment and it's time for him to take a rest.

John Connally seconded the charge of commission domination, and said that by the end of a third term, every one of the more than 800 commissioners have been appointed by a three-time governor. He promised that he would ask the Legislature to limit a governor's tenure to two terms if he's elected.

MIGRANT STUDY SET UP — State Board of Education appointed R. P. Ward of Edinburg to head a study on education of children of migrant parents, after Commissioner J. W. Edgar called this "one of the critical problems facing the Texas public school system."

Ward, former president of Pan American College, will develop a guide for teaching these children, who form a large percentage of the enrollment in the Rio Grande Valley schools.

TEACHERS' TIME TABULATED — State Board of Examiners for Teacher Education and the Texas Education Agency sent out about 80,000 questionnaires, asking how Texas educators spend their time on curricular, co-curricular and extra-curricular activities.

So far, more than 20,000 answers are in. Agency researchers are anxious for the other replies. They want to feed them to computing machines. Purpose is to get an analysis to help Texas Legislative Council prepare a full report on teacher certification and the status of education in Texas.

Other facets of a report to be presented to the 58th Legislature in January will include the public view of education; a history of teacher education and certification in Texas; personal characteristics and social and economic data of teachers, a look at the current class of education majors and an analysis of their college course work.

When the "portrait of a Texas teacher" is completed, educators think it will represent the most comprehensive study of public education ever undertaken in this state.

A teachers' pay survey revealed that the West Texas towns of Crane and Kermit pay the highest salaries to new teachers -- \$4,900 a year and that practically all districts with 2,500 or more students pay more than the \$4,014 legal minimum.

GOP PRIMARIES UNDER FIRE — State democratic committeeman Walter Sterling opened another argument in the inter-party battle when he accused republicans of dodging their responsibility by not holding a primary in every precinct in the state.

Sterling and the State Democratic Executive Committee questioned the legality of a republican primary nominee who has not been voted on by every republican. Executive Director Clyde Johnson said, "The republicans should not be able to avoid legal and financial responsibility in these primary elections."

Republicans counter-charged that democrats failed to hold primaries in 24 counties during the 1960 special election. But Johnson promised the party will "follow the law as usual" and hold primaries in all 254 counties this May.

The average of annual wages covered by social security in 1960 was \$2,850.

### Lone Star Sets High Construction Budget

Lone Star Gas Company and wholly-owned subsidiaries—Lone Star Producing Co., and Lone Star Gathering Company—have announced an all-time high initial construction budget of \$35,431,000 for 1962.

The 1962 budget figure exceeds the companies' 1961 construction expenditures by approximately \$5,500,000, according to L. T. Potter, Lone Star president. The three companies are headquartered in Dallas.

Mr. Potter stated that \$13,685,000 will be invested to maintain and strengthen natural gas distribution facilities in and around the 467 communities, towns and cities Lone Star serves in Texas and Oklahoma.

The expenditure covers customer service lines, meters and regulators, extensions, fortifications and replacement of distribution mains; warehouse and office building construction and remodeling and numerous other customer service facilities.

Presently Lone Star is serving 890,286 residential, commercial and industrial customers and the company expects to add about 22,600 new customers in 1962. The current customer count reflects 878,538 natural gas and 11,748 liquefied petroleum gas customers.

The Lone Star Producing Co. has budgeted \$9,320,000 for drill-

ing and deepening of oil and gas wells, new leases, seismographic service and other exploration costs, Mr. Potter said. Such activity is scheduled to take place in East Texas, Oklahoma, West Texas, West Central Texas, South Texas and Mississippi.

The Transmission division will apply \$9,441,000 toward extensions and replacements of transmission and gathering lines, underground gas storage expansion and development, and additions to gasoline plants, compressor stations and dehydration plants. Lone Star Gathering Company proposes to construct 24.4 miles of 14-inch transmission pipelines and 65.39 miles of gathering pipelines of various sizes in DeWitt and Victoria counties in South Texas. The initial system will gather gas from producers in DeWitt county and deliver it to the United Pipe Line Company's system in Victoria county. Cost of the project is set at \$2,985,000.

On February 5th, the Gathering Company filed application with the Federal Power Commission in Washington for authority to install the 24.4-mile transmission line to deliver the gas to United. Lone Star plans to start construction of the line immediately upon FPC approval.

The savings are BIG. You save now with the lowest prices of any leading make.\* Save on gas with Ford's modern engines, Six and V-8. Save on oil—go 4,000 miles between changes. Save on tires with Ford's I-beam suspension that keeps front tires tracking true.

## Clyde Advances To Regional

Clyde's Bulldogs rolled along sluggishly for the first quarter at Brownwood Tuesday night, but began hitting on all cylinders shortly thereafter and out-distanced Copperas Cove, 46-38 in a bi-district tilt.

Clyde, District 10, champion for the last three years, thus advanced to the regional tournament for the first time and ran its season record to 6-2.

Getting balanced scoring with four of its five starters hitting in double figures, Clyde never trailed after assuming the lead for the first time just before intermission.

Von McClure led the Clyde cagers with 12 points, but he had ample help from J. B. Hicks and Tom Cook, both with 11, and Johnny McCluskey with 10.

Copperas Cove got 12 points from sophomore John Doyle and 11 from freshman Lewis DeWald, but the champions of District 9-A could not match the more balanced Clyde quint.

The losers started off like champions, with Doyle hitting two long jump shots in the first minute of play to spark Copperas Cove to a fast 4-0 edge. In all, Doyle canned 8 points in the first period as the Cove quint moved to a 15-11 lead entering the second period.

Clyde closed the gap in the second stanza on some hot shooting by McClure and McCleskey, finally gaining a tie for the first time at 17-17 on a lay-up by Cook with 50 seconds left in the half.

Clyde played for one last shot before the buzzer and the strategy payed off as McCluskey hit from the head of the circle with .02 showing on the clock to make it 19-17 at intermission.

McClure, McCleskey and Cook all hit fielders in the first four minutes of the third stanza as the Bulldogs took a 26-19 lead. Copperas Cove rallied momentarily to within two points at 37-35 with 2:37 left.

But the losers were forced to foul in an effort to get the ball and Clyde, displaying uncanny accuracy at the free throw line on one-on-one situations, spun out to their eight point margin.

**TOTALS:**  
Clyde - McClure 12; Hicks, 11; Cook, 11; McCluskey, 10; Scott, 2; Kniffen 0.  
Copperas Cove - Doyle, 12; Lewis DeWald, 11; Kielman, 7; Leon DeWald, 4; Millsap, 1; Lightman, 1; Esch, 2.

### About Your Health . . .

Following two decades of fairly steady decline - except for brief periods - diphtheria has shown a slight increase in the past two years.

In 1961, there were 209 cases of diphtheria in Texas compared to 239 cases in 1960 and only 163 in 1959. The same trend is followed in the death column of the disease.

Prior to 1960 there had been a steady decline in the number of fatalities in Texas attributable to diphtheria -- in 1959 there were only seven.

However, the figure jumped to 20 deaths in 1960. The latest figures available for the first 9 months of 1961 indicate that there were 15 deaths through the end of September.

Two sad facts highlight these cases. First - most death occur among children under nine years of age. Second - most cases, and almost all deaths, of diphtheria could be prevented by early immunization with diphtheria toxoid.

Texas outbreaks during the past two years have been characterized by the fact that the families involved had not been properly immunized or had received no protection whatsoever.

Diphtheria used to claim a high toll of victims years ago, and a higher percentage died.

After diphtheria immunization became fairly common, the incidence of the disease dropped off to the low figure in 1959.

Physicians generally inoculate infants with a combined vaccine composed of diphtheria and tetanus toxoids and pertussis vaccine ensuring protection against all three diseases.

Transmission is made by person to person contact with a patient or carrier or with articles soiled with discharges of such persons. The diphtheria organism is contained in discharges and secretions from mucous surfaces of the nose, pharynx and nasopharynx.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-riding Mono-Plate rear springs, for example) that

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-Smooth Chevrolet. Makes paying more pointless.

## Be Alert for Cold Tissue Damage

The United States is in the midst of an unusually severe winter, with sub-freezing temperatures all over the nation, even in southern Florida and the Rio Grande Valley of Texas. Many states and regions have undergone their severest cold weather in many years, with a consequent sharp increase in more or less severe injuries from intense cold.

Be alert for beginning cold injury before tissue damage becomes severe, cautions Today's Health. A badly affected part, such as the ears or toes, may become aggravatingly sensitive to cold. Early symptoms of frost bite may be mild; soon the nerve endings that give warnings do not function.

Once affected the body part should be warmed quickly. Immersion in lukewarm — not hot — water, or a warm wet towel will help. Hot water bottles should be wrapped, not placed directly against the skin. Lacking heated water, use warm blankets. Do not rub the affected part. Give a hot liquid, such as coffee. Usually it is best not to open

Heard the word?  
We were third in sales in '61. Third!

It's nice to be loved.

Like we've said: "When people like a car they show it." All you have to do is put together a car that's sharper looking, smoother running and a bigger value. That's why Pontiac and Tempest stormed into third place. Why don't you see your Pontiac dealer (a very happy man these days) and go with a winner?
