Verbal Vignettes

Hereinafter are capsule comments the Free Press feels it propitious to present concerning people, events, and situations currently topical, and therefore deserving of our views as we evaluate the news.

Measuring the Heights . . . From the Grassroots

When your editor was eight years young, his parents purchased for him and his sister a set of books called "Little Journeys Into The Homes of The Great," by Elbert Hubbard.

At the time, we were more impressed with the appearance of our name on the frontispiece personalizing the gift, the number of the volumes, and the craftsmanship of the leather covers, than what was contained between them.

As the years went on, we peeked among the covers of the works of Elbert Hubbard a little more each year. Even for our tender years, we recall he seemed to write like from the heart—like he meant it—about people.

Maybe, too, we liked Elbert Hubbard because he wrote like our Daddy, or vice versa. Our Daddy was a whiz, too. He produced the punchiest prose, and was a poet personified.

By and by, one statement by Elbert Hubbard emerged to indelibly etch itself into our mental marble. To us, it remains his exemplary epitaph. He said: "Little minds are interested in the extraordinary; great minds in the commonplace."

It is our feeling that as long as this newspaper draws a bead, in its evaluation of news, on the importance of the commonplace, we can score a direct hit on the stars.

The editorials of the Haskell Free Press are an effort to achieve informed and balanced thinking on issues which affect the public—the commonplace, if you will. They are designed to stimulate thought and express an opinion based on facts, as free of prejudices as is humanly possible. They are fashioned to fairly include the interests of all in the community served by this newspaper, to reflect patriotism, and an uplifting Christian tone.

Newspapers are businesses, to be sure, but they are not run solely to make money. Traditionally, and the Haskell Free Press is no exception, they are a public trust, dedicated to public service, and to printing the truth.

We think we have in our hands here the tools and the raw resources for building for ourselves and for others a mansion of the mind in which all of us may live in harmony.

The responsibility for the building we foresee was brought forcibly to our mind's eye this week in a letter from a friend, many times tried, and always found true. To us he achieved the stature of an Elbert Hubbard when he wrote:

"To me you are fulfilling one of the greatest callings of man—molding and influencing your fellow man at the grass roots level; and that, my friend, is wherein has resided the true greatness of this country."

All of which is by way of setting up an anvil with which our hope is to forge a format for the future here in Haskell.

A man named Thomas Fuller once said, "When the heart is afire, some sparks will fly out of the mouth." That's how we'll ignite our forge—with sparks kindled from the heart.

How we fare with the forging of our format, the building of our mansion, our constituents, the dwellers in the commonplace, probably will tell us.

You measure your mind's heights by the shade it casts, it has been said.

Oakescripts A Pencil Pusher's Potpourri

By PORTER

Alonzo Pate, bless his fact-finding heart, who will live long in the hearts of all of us, truly was a generalissimo of genealogy. That he was is brought home most tangibly to Pencil Pusher every day that he endeavors to occupy the editorial chair of so renowned a reporter as Reputable and Reliable Lon. We know we are going to make mistakes on Haskell County genealogy, especially trying to count cadence after Lon. We already have. A feller gained a daughter and lost a sister by our reportorial account, and the feller was nice enough to say it was "an account of I didn't spell it out to you. I knew Lon'd straighten it out if I was wrong."

By your leave, and with your indulgence, we'll keep cramm'nin', and some day, perhaps, we may be able to throw a bridge across the yawnin' chasm which the loss of Lon has created. And, if we keep trying and you keep helping, maybe we can learn to walk across that bridge with a surer step.

We like to feel we have an "imption" of Lon's discernment, a spark of his desire to delve, which we hope will stand us in good stead as time goes on. On our first sorties into the musty, brittle files of the Free Press, and in gleanings our first report of Haskell County History last week, we were intrigued to find that two names in that very first 1913 newspaper sorta reached out and grabbed the Pencil Pusher, new as he is around here.

I always have contended that there's nothing more soothing to the personal ego than runnin' across something or someone in print, about which or about whom, you have even a vague connection or familiarity.

Such was my feeling when in the January 25, 1913, Free Press loomed the names of W. L. Robertson and James A. Hankerson. If I'm not badly mistaken, the former was the engineer "Mr. Wiley," a pillar of the City National Bank of Wichita Falls, a Rotarian of long standing, a civic wheel-horse many years in the City That Faith Built. The latter, then a court reporter, became a fine lawyer, if my memory serves me, lived in Wichita Falls, moved to Tyler during the East Texas oil boom. I went to school several years with his brilliant son.

Lake Lon before me, I revel in tie-ins such as this initial experience. And, to make the tie more binding, how about this, which, we submit, shall be filed in our

SMALL WORLD DEPARTMENT: Ralph Ater, of Amarillo, pluperfect public relations man for the Santa Fe Railroad, whose high school senior son is a budding Horace Greeley (also is reportedly "that-away" about MY daughter!) writes: "Many years ago my Grandfather Cherry was 'the country doctor at Haskell and my mother was a young girl there when my father, who lived at nearby Sagerton and worked for the old Orient Railroad, was courting her. Mother and Dad were married at Haskell and moved to Sagerton, but in a very short time moved further west with the

railroad. The Cherry estate still owns a farm near Haskell, so you see I have some personal ties with the place."
Ralph Ater, whose mother was a Cherry, is a prince of a guy. And the public relations and journalistic roots are deep on both sides. Ralph married winsome Jean Merriam. Her father for many years has been an executive and motivating force in the growth and development of a great newspaper, the Dallas Times Herald. Ralph's cousin, Bill Cherry, former editor of the Canyon News, is the new city editor of the Amarillo Daily News.

As will happen in the most select circles, the printing of the church ougdat at an Alice, Texas, church was a guffaw producer. One item came out, "Sins and Publicity, \$178.20." The "sins" should have read "sighs." But, come to think of it, the category seems proper. Your sins do usually get publicity, you know. Find you out, too.

Did you see the squib about the lady downstate who, wanting to make her hubby a little extra presentable for company, laced his "bawth" with "some good smellin' stuff." When the ol' boy got in the tub, he jumpin' out, burnin' to beat the band. The sweet smellin' stuff was meat tenderizer. I've heard of more subtle ways to "soften up" a mate.

And did you notice in Haskell County History last week that "Mr. William Neinast was in the city last week on business?" The same Mr. William Neinast observed his Golden Wedding this week. That "business trip" 50 years ago was to get a marriage license, I betcha. Probably the most important business he ever transacted.

See where there's a "compact" horse now. His name's Galiceno. Sounds like Volvo or Corvette. He's making his debut at the Ft. Worth stock show. Wonder how many miles he gets to the bale.

I have a sister in Denver in whom I am well pleased. Being the age at which life begins, (you know, the year after which Jack Benny isn't) Ann has put on a pound or two here and there. She hasn't gained any. It's just regrouped. Not long ago, when I complimented her on a new red dress, she replied, "Thanks. Just \$12.98. All wool. (Pause) And a yard wide!"

Courthouse Confab in Peregrynatin' Premises: Fellow from Al Hinds' Lions Lair: "Too bad Bob King made an old man out of you so soon." Pencil Pusher: "How?" Lion Tamer: "Well, he sponsored you in Rotary, didn't he?"

Oakescript: There ain't no featherbedding on the Jetty Clare Railroad. The timetable is complete, too. Runs plumb around the clock. No deadheads on the Free Press masthead either. Whew!

CARD OF THANKS
We wish to express our sincere thanks and appreciation for every act of kindness shown us in the loss of our Brother. We are especially grateful for the prayers, comforting words and beautiful flowers. Your kindness was indeed appreciated and will always be cherished in our memory. The Relatives of Robert Hayes. 5p

Nationwide Consumer Testing Institute Report:

PLYMOUTH BEATS FORD AND CHEVROLET IN 8 OUT OF 10 OFFICIAL TESTS

Plymouth once again proves all-around superiority against its competition. Handling, safety, performance, economy—all of these were measured in the second meeting of Ford, Chevrolet and Plymouth early in December at the Riverside, Cal., test course. In a "Showdown" asked for by Plymouth, a 1963 Plymouth Fury V-8 whipped a comparably equipped Chevrolet Impala V-8 and Ford Galaxie "500" V-8 in eight out of ten official tests.

Nationwide Consumer Testing Institute bought the cars, hired the drivers, supplied the officials, made and enforced the rules. The chart at right leaves no question about the results. Plymouth excelled in all-around performance and economy. Add in Plymouth's good looks and 5-year/50,000-mile warranty*. See your dealer. Plymouth's on the move.

Sherry Gayle Kyle, Of Rule, Becomes Bride Of Danny Arthur

Sherry Gayle Kyle of Rule became the bride of Danny Reid Arthur of Levelland on Friday afternoon, Jan. 23, in the Rule First Baptist Church in a candlelight ceremony read at half past four o'clock by the Rev. Rodney C. Dowdy.

Wedding music for the double ring rites was presented by Mrs. Ed Cloud, organist; and Mrs. Kenneth Lankford of Knox City, soloist.

The bride is the daughter of Mr. and Mrs. J. C. Kyle of Rule. Mr. and Mrs. R. D. Arthur, of Levelland, are the parents of the bridegroom.

Given in marriage by her father, the bride wore a formal length gown of delustered satin designed with scoop neckline and long petal-pointed sleeves. The bodice was fitted, and the soft-pleated skirt extended to form a train.

The bride's veil of illusion

fell to fingertip length from a satin cabbage rose. She carried a white orchid atop a white Bible. Her jewelry was a strand of pearls.

Attending the bride as her Maid of Honor was Mary Whorton of Rule and Austin. Her dress was red delustered satin designed with a scoop neckline and a three-tiered bouffant skirt. She wore a circlet headdress of red tulle, fastened to a red rose, with matching red shoes. Her bouquet was long-stemmed white carnations.

Candlelighters were Jana Kyle, sister of the bride, and Lane Arthur of Levelland, brother of the bridegroom. Miss Kyle's dress was identical to Miss Whorton's. Mike Bailey and James Norman of Rule were ushers.

The bridegroom's father served as best man.

The reception, following the ceremony, was in the Banquet Hall of the church. In the houseparty were Misses A. D. May, B. J. Matysiak, E. B. Whorton, Ed Cloud, and K. D. Lankford.

Mrs. J. E. Geer registered wedding guests.

For traveling to Lubbock, where the couple will reside, the couple chose a winter white silk suit with gold accessories.

The bride is a graduate of Rule High School, and is a junior at Hardin-Simmons University. The bridegroom is a graduate of Breckenridge High School, and is a junior in Texas Technological College. Both plan to attend Texas Tech next semester.

'Tall' Topics Theme Of Magazine Club's Recent Program

"Tall" Topics featured a recent program of the Magazine Club in the Community Room of the Haskell National Bank with Mrs. C. J. Robinson, president, in charge.

It was the annual business meeting, and officers and committee chairmen also presented reports.

At the last club meeting, according to Mrs. Wallace Cox, Sr. reporter, Mrs. Hassen read a letter from Miss Laurice Hlass, formerly of Dallas, about her social work in Rabat, Morocco.

Thirty members of the Progressive Study Club of Haskell were presented "keys to individuality" in sewing projects and flower arranging in topical discussions by two speakers and elected officers for the 1963-64 activity year at a recent meeting in the Community Room of the Haskell National Bank.

Mrs. Helen Sammons was chosen president of the club for 1963-64. Her term of office begins in May when she will succeed Mrs. Arlos Weaver. A collect for club women was led by Mrs. Kenneth Lane prior to the presentation of the program by Mrs. Virgil Cobb. Mrs. Cobb identified individuality as the quality which distinguishes one person from another.

Two means by which a homemaker may achieve individuality, through sewing and flower arranging, were discussed by Miss Barbara McAnelly, Haskell County home demonstration agent, and Mrs. Ed Hester, respectively. Miss McAnelly showed slides to illustrate her points, and Mrs. Hester provided intriguing supplementary information about vase collecting.

The necessity of knowing first aid was cited by Boy Scouts of Troop 28, Frank Dutton, Dale Tucker, Terry Sanders, Ronnie Alexander, and Danny Stewart. Alton Sanders, Scout Master of Troop 28 spoke on the plans for a first aid course to be taught at the community center in March. He urged every one present to alert the people in Weinert community to the value of administering first aid. Guests were the Scouts, Mr. Sanders, and members of the Weinert Matrons Club, Mrs. Fred Monke, Mrs. P. F. Weinert, and Mrs. Bill King. The Lions Club was represented by M. R. Boykin.

The St. Paul's Lutheran congregation held its annual meeting on January 13, and at this meeting the congregation elected A. C. Knippling as its chairman for a three-year period. He replaces Herbert Rinn, whose term expired this year. Carl Lunn was elected as Stewardship Chairman, replacing Fred Kupatt.

The congregation voted to build a new parsonage on the west side of the church on five lots donated by Mr. and Mrs. August Balzer. The parsonage is to be frame and brick veneer, three bedrooms, and 1555 square feet of living area. The old parsonage will be used as an educational building. The building program itself was made necessary by the growth of the Sunday School during the past three years. The congregation has grown from 180 baptized members in 1959 to 233 at the end of 1962. The confirmed membership also grew from 134 in 1959 to 177 at the end of 1962.

No tenants lived in the five-room structure, but the north side of it was full of hay, which "made things pretty hot for awhile," Sheriff Garrett said.

A fire truck and crew from the Haskell Volunteer Fire Department made a run to the scene, but the place "already had fallen in" by the time the firemen and equipment arrived, the Sheriff said.

LETTERS... To The Editor

Mr. Porter L. Oakes Dear Sir: I, Leila Nisbett, am an "old timer" of Haskell and Haskell County, graduated from the Haskell High School 1901, my diploma hangs on my wall.

The reading of The Haskell Free Press is the joy of my life so much so that on the day of its arrival I stand sometimes one hour at my P. O. box waiting for it.

Retrospection is the great factor in the mind of everyone of my age, hence the heart thrills come from the columns of the Free Press, entitled "History of Haskell County."

My heart yielded to the absence of these columns during the Christmas season but now it is so hard to wait and wait for the return of the columns "History of Haskell County."

Don't break the hearts of your elders, 1962 I was a subscriber to your "Community Fund."

May the 1963 bring the very best for The Haskell Free Press.

A sincere subscriber, Leila Nisbett 4066 Wildwood Road, Dallas 9, Texas

Editor's Note: We wanted to pass on to Free Press readers this most expressive message from a fine "old timer." We know other old-timers share this feeling with Leila Nisbett. We regret the absence of "History of Haskell County" during the transition made following the tremendous void created by the passing of the greatly beloved Lon Pate. This column was returned to the Free Press last week, and, we assure everyone, it is here to stay.

McDonald, Anderson & Cherry Attorneys and Counselors, Suite 711 Oil & Gas Building, Wichita Falls, Texas

Mr. Porter Oakes, Haskell, Texas

Dear Friend: I thank you for your column about me in the Free Press. Howard (Mr. Rhea Howard, publisher of the Wichita Falls Times and Record News) spotted it and called me over to the Times and suggested I had a libel suit, but I reminded him that the truth is a defense in such a case.

You have located in a splendid town and a good country. I am sure the West Texas spirit there will cause them to take you in as one of their own in which event I predict you will become a leader in all that is good and best in that section. I wish you success and happiness in the year just dawn- ing in all of which Gene joins me.

Sincerely, /s/ C. C. McDonald (Editor's Note: Our cup runneth over, and we shall exert our utmost to justify the prediction of this good and great man.)

Quarterly Report Of Court Should Read 'December 31'

In the last edition of the Free Press was the quarterly financial report of the Haskell County Commissioners' Court.

Although throughout the report, ample mention is made of the fact that the report is for the quarter ending December 31, 1962, the heading states "for the Quarter Ending March 31, 1962."

The heading is in error and should have stated "Quarter Ending, December 31, 1962."

The Free Press is happy to make this correction.

Fieldan Motel

largest, Best Field Motels

Menard Field, owner and Haskell's new Fieldan Motel, has the desire, he's "drilling right next chain operators, as in the oil patch. Motels in the last four progress report of d, the last finer equipped than the me. Motels, representing outlay in excess of and totaling 44 units built in Floydada, and now Haskell, built the 11-unit, Floydada Fieldan first, 15-unit Fieldan, a 15-200 setup which they built a year ago and the Haskell a \$135,000, 18-unit operated by Menard Field, a native Haskell, born here in 1906, a commodious new total here faces a future with productive this community.

THE FASHIONABLE FIELDAN, A LUXURY LAYOUT—

Newest and brightest star in Haskell's business crown, is the new Fieldan Motel, formally opening Friday with an all-day Open House at which everyone

will be warmly welcomed. Inspection of the new 18-unit Fieldan's fastidious facilities is strongly invited by Adron Field, son of the owner and builder, Menard Field. The younger Field, a native of Haskell, will operate the Fieldan,

located on Haskell's main stem, Highway 277, a block off the Courthouse Square. This imposing new Fieldan Motel, newest and largest of the three erected by Menard Field in the last four years, was built at a cost of approximately \$135,000.

Motel Operator, Adron Field, Is Haskell Native

Exercising "squatter sovereignty" as operators of the new Fieldan Motel here will be Mr. and Mrs. Adron Field, son and daughter-in-law of Menard Field. Haskell Motel operator in the '20's whose expanding enterprises are earning him the brand-name of tycoon.

Adron Field was born in 1922 and lived here until he was six years old when his parents moved to Floyd County. He graduated from Floydada High School in 1940, was in the service three years, and married a Floydada girl.

Jean and Adron Field have two children, Ricky, 14, and Beverly, 11, who with their parents will occupy the comfortable 3-bedroom quarters for the operators at the front of the Fieldan.

Adron, 40, was in the insurance business on his own in Floydada before joining his father's expanding motel operations.

The younger Fields anticipate eagerly the opportunity to renew old acquaintances and make new ones at the open house to be held all day Friday at the Fieldan and look forward to pleasurable years ahead as solid citizens of Haskell.

"The winds and the waves are always on the side of the ablest navigator."

Fieldan Motel Open To Traveling Public

Several months of meticulous drawing board planning and subsequent construction will be culminated with the formal opening Friday of Haskell's imposing new \$135,000, 18-unit Fieldan Motel, strategically set on the city's main stem on South Avenue E, which also is the Wichita Falls-Abilene highway, and a block away from the Courthouse Square. Open house will be the order of the day at the Fieldan all day Friday.

The beautifully facilitated Fieldan, planned and built by Menard Field, a former Haskell resident, who first came here in 1906, will be operated by his son and daughter-in-law, Mr. and Mrs. Adron Field, who will occupy with their two children, the spacious three-bedroom apartment on the premises.

Field, who said when he started the project here, "anything worthwhile will pay off in Haskell," already has tangible evidence of the anticipated long-range popularity of his new motel. Bookings already have been made well through next Spring.

The newest Fieldan, largest of the three built by Field since

1959, has 18 units, three larger than the most recent one erected at Crosbyton and costing \$35,000 more than the Crosbyton Fieldan.

These 18 units provide an ample supply of both single and double rooms, and all are equipped with television and telephones.

Adron Field says, "Don't forget that kingsize beds are one of our trademarks." These extra large beds are a foot longer and six inches wider than regular beds. Some double rooms have both regular and kingsize beds.

The motel's roof extends out over the macadamized asphaltic drive in front of each unit to give extra shelter to cars. Conditioning units are the reliable sources of warmth in winter and comfort in summer. These electrically operated temperature control pumps are completely automatic.

To attract weary travelers to the Fieldan is a huge neon sign at the corner on which the motel is located. Constructed by the B&B Sign Company, of

Lubbock, this landmark cost approximately \$2,000.

All rooms are most tastefully furnished in soothing colors, and the draperies were furnished by the Hefley Drapery Company of Crosbyton. The carpets were furnished and laid by the Winkins Carpet Company, Lubbock.

Mr. Field was his own contractor and builder, subcontracting a portion of the work. Bath rooms have ceiling heaters. Each has a shower-tub combination with a circulating pump assuring hot water instantly at the tap.

Completing this combination is a utility containing washer and Here, towels and wash will be handled to assure finer results. Other lin is sent out.

Haskellians will not miss the opportunity themselves what the dan is like. Open h Friday will be hel purpose, and a wa awaits all comers, declares.

\$25.00 SAVINGS BOND WILL GO TO LUCKY REGISTRANT

Friday will be Open House all day at Haskell's new \$135,000 18-unit Fieldan Motel, and a \$25.00 savings bond will go to some lucky open house visitor who signs the guest book in the office on that day.

The fortunate person who attends the Fieldan Motel open house activities will learn at 6 p. m. Friday of his good luck when a drawing will take place of the names appearing on the registry.

Menard Field, owner and builder, of the new fashionable

Fieldan, said almost 400 people signed the book when his new motel was opened in Crosbyton a year ago this month.

Many more than that are expected to drop by the Haskell Fieldan (sounds like Dallas Hilton, doesn't it.) it's uptown, all right!) as it opens its doors and heart to the public Friday. "We hope the whole town will turn out," declared Adron Field, son of the owner, a Haskell native, who will operate Haskell's newest business establishment catering to the traveling public.

BEST WISHES

to the

Fieldan Motel

Menard Field is to be congratulated upon the completion and opening of Fieldan Motel.

At Kennedy Lumber Company are quite proud of having furnished some of the building materials for this completely modern motel.

Fieldan Motel is an addition to the community which residents of Haskell may well be proud.

Motel Mogul Menard Field Feels Like 'A Pigeon Come Home to Roost'

When Menard Field formally opens his fetchingly facilitated new Fieldan Motel here Friday, it'll provide him with a feeling akin to that of the proverbial "pigeon come home to roost."

Field's first taste of the motel business was that of a pioneer in this endeavor when he leased "the new luxury tourist court," Camp Kennedy, right here in Haskell 39 years ago, in 1924. Tourist courts were a brand new thing at that time.

"My brother-in-law and I helped build the Camp Kennedy courts," Field recalls. He operated them until selling out in the late twenties, moving to Floyd County.

The motel owner said the early experience in Haskell whetted his appetite for motel ownership. Since that time, he has had many a savory meal provided by this initial taste. Field owns a \$70,000, 11-unit motel in Floydada, he constructed in 1959, and a \$100,000 15-unit layout in Crosbyton, which opened this time last year. Haskell's \$135,000 18-unit Fieldan is the biggest and best, of the bunch.

Born at Temple in Bell County, Nov. 9, 1897, Field is the son of M. O. and Drucilla McElroy Field. This family moved to Haskell 56 years ago in 1906, and Menard attended school here "in a one-room schoolhouse where they had three or four grades within the four walls," he recalls.

The late Alonzo Pate, much beloved editor of the Haskell Free Press for more than half his lifetime, was a schoolmate of Fieldan's whose memory the motel owner reveres. "He was one of the finest fellows I have ever known," said Field. Mr. Field married Pearl

Johnston of Ada, Oklahoma, at Ft. Worth on May 15, 1917. They have two daughters and one son, Adron, who, with his wife, have become new citizens of Haskell and will operate the new Fieldan Motel.

When Mr. and Mrs. Field moved to Floydada, he was employed in the marketing division of the then newly organized Phillips Company. He left them 16 years later and started farming in the latter part of the Roosevelt administration.

For the past 11 years he and Mrs. Field have been designing, constructing, and selling residences in Floydada. They owned property there which they intended for years to develop for a motel, but "folks laughed us out of it for three years," Field says.

Having trouble with financing the enterprise, they sold some ranch property in Nebraska and used this for capital to build the Floydada motel in 1959.

"It's been a tremendous success, both at Floydada and Crosbyton, this motel business," Field declared. "I am convinced that the small town motel is not as bad an investment as loan companies picture it. Trouble is, they want to apply the yardstick on return in big city operating expenses."

A member of the loan committee of the Federal Land Bank, Field is experienced in trying to assess the financial future of ventures.

Mr. and Mrs. Field roughed out the designs for the Floydada and Crosbyton motels. Their grandson, architect Billy Staniforth III, made the detailed drawings. From them, their motels have been built.

Field is a member of the City Park Church of Christ in Floydada. He reports fishing as his hobby and has over \$4,000 worth of hunting and fishing licenses bought over a 30-year period to prove it!

Although his son and daughter-in-law will exercise the squatters sovereignty in the new Fieldan here, the head of the clan can be counted on as a frequent visitor to Haskell in the future to drop a little tourist money into the town coffers.

Rev. LeMond Is One of Leaders in Bible Seminar

Reverend C. R. LeMond, pastor of the First Methodist Church of Haskell, was one of the instructors in a recently completed seminar on the Book of Romans held at the First Methodist Church of Hamlin.

The Haskell minister gave one of the devotions at the seminar, a portion of which was in the form of a Pastor's Retreat overnight at the Hamlin church. During this retreat, the pastors of the Stamford district of the Methodist Church, prepared themselves to present the Book of Romans, either by study or by sermon, to their congregations.

Methodist churches throughout the world are this year observing the 225th anniversary of the Aldersgate experience of John Wesley.

Rev. LeMond is a member of the Northwest Texas Conference Board of Missions, the district committee on ministerial qualifications, and the district board on location and building.

Congratulations TO THE Fieldan Motel

Mr. Menard Field has spared no expense to make the Fieldan Motel into one of the most modern and comfortable motels in this area.

We are proud to have had a part in furnishing some of the furniture for Haskell's newest business.

Trinity Lutheran Visited By Top Dist. Churchman

Trinity Lutheran Church of Haskell was the place of visitation over the weekend by Dr. Vernon A. Mohr, of Austin, Southern District President of the American Lutheran Church. J. F. Schaefer, pastor of Trinity Lutheran, said the distinguished Lutheran came to Haskell to evaluate the work

of the congregation here. "Among many facts he pointed out," Pastor Schaefer declared, "was one of deep concern to him and all Christians."

Dr. Mohr told Haskell Lutherans, "Church leaders simply do not know the Bible well enough. They think they can lead the church in the way of God, yet they don't take time themselves to find out what that way is."

Meeting with the Council and the officers of each organization in the church here, Dr. Mohr stressed the need for more Bible study on the part of individuals. He also pointed out how the congregation could be of more service to the community.

"Having Dr. Mohr here was an inspiration to the whole congregation," said Pastor Schaefer.

Association Requests That Dues Be Taken for New Year

The Haskell Association has 700 families, but only 500 are paying dues. Association spokesman said, some dues payments are in arrears. An urgent request has been made for patrons to take out the endowment.

Amplifying his statement, the Association official declared: "We ask you to make a visit to the Cemetery and take note of the clean appearance that you will find. When Springtime comes, this cannot continue as the paying members we have are not able to contribute enough to care for 2,000 lots that are in use."

"We urge you to take out the endowment at once so as to get an even start with the year we are just entering. When the endowment reaches \$100,000, one half of the Cemetery can be kept in order the year around. But we must get another \$100,000 or double the amount we almost have, so that full coverage can be given to this work. We feel that you would like to do your part, so please do so."

"In the event you cannot take out the endowment, please pay your dues this month so that our records can be made for the year."

Texan Jack Spikes Featured Speaker At Rule Banquet

Jack Spikes, Dallas Texan fullback, will be guest speaker on February 8 when the Rule Booster Club honors the Rule Football District 7-B football runners-up in the Rule school cafeteria, according to word received here.

Spikes, a graduate of Snyder High School and TCU, was selected the most valuable player in the Texans' 1962 American Football League playoff victory over Houston.

Bob Bailey, Booster Club president, has announced the time for the banquet as 7:00 p. m. Tickets are on sale and may be obtained from members of the Rule Booster Club.

Watch That Trash Fire, Is HFD Plea After Close Calls

A trash barrel fire, six of which have necessitated runs by Haskell Volunteer Firemen in as many days, jumped its traces here last Wednesday afternoon, raced across the yards of three homes, setting two garages ablaze and damaging a pickup truck in one of them, HFD Supervisor Floyd Lusk reported.

Five homes on a city block in Haskell were endangered for a time until firefighters brought the spreading grass fire under control after an hour's battle.

The blaze started in an alley barrel at the rear of the home of Raymond Couch, 1401 North Ave. H, and spread quickly across a vacant lot to nearby garages behind the Lura Mayfield and S. S. Dishong homes at 1405 and 1407. Burning fence posts kept the blaze alive. A pickup truck parked in one of the garages had to be pushed out of the burning building, and was damaged in the amount of about \$200, Lusk said.

With the rubbish fires increasing in frequency, Fire Chief Tom Watson and Lusk Thursday urged Haskell citizens to exercise caution and vigilance in seeing that their trash burners are contained.

DAN BLOCKER tank-size Texan

Texas Press Association Honors 'Hoss' Cartwright As 'Texan-of-Year'

Dan Blocker, better known as "Hoss" Cartwright, a really "big" man, was the recipient of the Texas Press Association's 1962 "Texan-of-the-Year" award.

Announcement of his selection has been made by George Baker, president of the newspaper association and publisher of the Fort Stockton Pioneer.

The presentation to Dan Blocker, 300-pound co-star of the NBC-TV show Bonanza, was made at TPA's Mid-Winter meeting at the El Tropicana Hotel in San Antonio, Saturday, Jan. 26.

Blocker was born in Bowie County, Texas, on Dec. 10, 1929. He grew up in the Texas Panhandle and received his education in Texas.

Weighing 14 pounds at birth, he pulled the scales to 105 pounds by the time he entered grade school. He became known among his friends as "The Big'n". At age 10 he worked alongside grown men at grain elevators and could whip any of the local toughs, regardless of age.

Despite his extraordinary strength, Dan Blocker had other ideas than pushing his weight around as a strong man. When 12 years old he enrolled in the Texas Military Institute at San Antonio. At that time he weighed 200 pounds and stood six feet tall.

From the military institute he went to Hardin-Simmons University at Abilene for a semester, then to Sul Ross State College at Alpine, on a football scholarship, to major in physical education.

The football programs at Sul Ross probably read, "Blocker, Tackle." That should have confused the opposition.

He changed his major to drama before he was graduated in 1950.

From Alpine he went to Boston for summer stock. Then, as did most young men of his time, Dan Blocker received greetings from The President and went overseas for a whirl at Korea.

When he finished his army hitch, he came home with the stripes of a first sergeant, to further impress Dolphia Parker, his college sweetheart. They were married on August 25, 1952. They now have four children, twin girls and two boys.

Blocker returned to Sul Ross shortly after his marriage to work on his master's degree. He left classes for one year to teach in the high school at

SOCIAL SECURITY 'TAKE' GOES UP THIS MONTH

Working people and their employers will begin paying an increased social security tax this month, R. R. Tuley Jr., social security district manager of Abilene, reminded last week.

The increase, scheduled in the law since 1958, will bring the social security tax rate for employees and their employers to 3 5/8 percent each, fifty cents more on each \$100 of earnings up to the top taxable figure of \$4,800 a year.

Self-employed people will pay 7 percent more, or a total of 5.4 percent of their new earnings up to \$4,800 per year, but not until they file tax returns on their 1963 earnings after the end of the year.

Tuley said that under the social security law as originally enacted in 1935, only employees in commerce and industry were covered and then only for the payment of retirement benefits ranging from \$10 to \$85 per month.

Gradual Increase It was estimated that a social security tax rate of six percent, 3 percent from the employee and 3 percent from

the employer, would be needed to finance these retirement benefits. But in order not to disrupt the economy by immediately imposing the full tax rate, Congress wrote into the law a gradually increasing schedule of taxes.

In addition, benefits have been increased several times to take account of rising levels of living and price changes. Under present law, retirement benefits range from \$40 to \$127 per month. The maximum family payment is \$254 a month.

2 More Hikes Due Under the law as it now stands, Tuley said, there will be two more increases in the social security tax rates, one in 1966 and one in 1968 when the top rate of 4 5/8 percent each for employees and employers, and 6.9 percent for the

Labor Department Seal Observes 50th Anniversary

The Department of Labor has published a special seal to commemorate its 50th anniversary in 1963.

The seal shows an American eagle, its wing spread wide, holding a badge which carries the wording "50 years of progress." The years 1913 and 1963 are on either side of the eagle. In a semicircle under the eagle are the words "the dignity of labor in a free society," the theme for the anniversary period beginning next March 4. In a semi-circle over the eagle is printed "United States De-

partment of Labor." All publications issued by the Department in 1963 will carry the seal. It will also appear on the Department's stationery and on certificates of appointment being presented to all members of a special anniversary committee established earlier this year by President Kennedy.

The seal will also appear in special window displays and other exhibits staged around the country to observe the event.

The Labor Department was established on March 4, 1913, when President William Howard Taft signed a bill creating the Department, "to foster, promote and develop the welfare of the wage earners of the United States, to improve their working conditions and to advance their opportunities for profitable employment."

of the present grass cover.
When the grass cover is in-
sufficient to control erosion,
consideration should be given
to the re-seeding of the pas-
ture in connection with either
of the two types of mechanical
control recommended in Has-
kell county.

The Soil Conservation Dist-
rict recommends that the local
Soil Conservation technician
be consulted as to the most
efficient method of control to
use. He will also be in a po-
sition to assist the individual
producer to determine the need
for seeding. He will have avail-
able average costs and can dis-
cuss with each producer the
different Cost-share programs
available to the producer.

If mechanical methods of
mesquite control are used, the
earlier the method is used gen-
erally means the better recov-
ery of native species remaining
and a much better chance for
seeded varieties to become well
established prior to hot weath-

During 1962, 2300 acres of
mesquite brush were controlled
in the Haskell Work Unit area.
1022 acres of native rangeland
were seeded.

When a producer decides to

and field boundaries, and other
physical items included on the
map. An approximation of the
number of acres in each field
will also be shown on the plan
map, plus the farmer's deci-

Rudyard Kipling at one time
was in line to be named poet
laureate of England, but be-
cause of his showing up the
vices and shams among the
royalty, he never received that
honor. For example in one of
his poems, he said: "Judy O'-
Grady and the Colonel's lady
are sisters under the skin." In
our own social world it isn't
always intellect, character, or
blood lines that elevates one
to the upper bracket of society
—more often it's the dollar
mark.

Back in the 'teens when the
late James E. Ferguson was
running for governor, the Hon.
C. C. McDonald of Wichita
Falls stumped the state for him.
I attended one of McDonald's
speeches in my home county,
held under a shingle arbor.
The audience was composed
mostly of farmers, and the
speaker was aware of the fact.
McDonald paused, and in sol-
emn tones, stated: "In good
times you farmers have a lot
of fair weather friends, but let
the going get rough, who are
your friends? The merchant
doesn't care for you; the bank-
er cares less, and the fact is
you only have three friends in
this world. Who are they?
Sears-Roebuck, Jesus Christ,
and Jim Ferguson."

The host was serving an-
other round of drinks when one
of his guests declined: "I'd
better pass up this one, as I'm
so dizzy now I can't see straight
and if I had another my wife
would insist on driving — that
would be dangerous."

Cong. Purcell Says Tax Reform Is Hottest Issue

Congressman Graham Pur-
cell, of Wichita Falls, who al-
ready has attained a position
of eminent stature in his brief
period of service in Washing-
ton as member of the House of
Representatives from the 13th
District of Texas, declares the
problem of a tax cut is in the
forefront among issues facing
the current session of Congress
which opened last week.

In response to a request by
the Haskell Free Press for his
views on this session of Con-
gress, the Congressman advises
that the tax cut problem will
not have quick action.

"It is generally agreed that
our tax rates are too high,"
Congressman Purcell declares,
"that they are beginning to
serve as a drag on the overall
economy. I would not predict
that there will be quick action
on this matter. Most Congress-
men see into feel they should
study this matter very care-
fully."

Reason for this, Congress-
man Purcell says, is "they
seem to feel, as I do, that most
careful consideration should be
given to the question of wheth-
er overall tax reform should
be tied to a tax cut, or whether
the situation is serious enough
now so that we should go a-
head and grant a cut and then
worry about reform. This issue,
I feel, will dominate most of
the session."

Among other issues, "some
of them quite controversial," to
come up this year are medical
care for the aged, education,
public works, and foreign aid.
The Congressman writes. He

Arledge Capsules Comments On Austin Arena

State Representative Roy
Arledge, the 53rd Texas Legis-
lative District's neophyte law-
maker, has some son-of-the-
soil views on issues upcoming
in the Austin assembly. Here
are his capsule comments:

Arledge is all for the state
sales tax but would like some
revisions of it.

"It must be changed so that
merchants can live with it," he
said.

He is opposed to including
farm equipment in the tax—
because "it is used to produce
commodities that eventually
are under sales tax."

He would like to see the sales
levy over more of the liquor
business, along with the pres-
ent liquor and beer taxes.

And he reports he believes
a majority of taxpayers might
be happier if the sales levy
were across-the-board, with a
few exceptions, and thus at a
lower rate.

As a new member, Arledge
plans no immediate legislative
efforts until "I know my way
around."

He sees the upcoming session
"as a good one," with a good
administrator in John Con-
nally, a personal friend of Ar-
ledge's and with good leader-

ship in both the House and the
Arledge, who classifies him-
self as a political conservative
has these other opinions:
Poll tax — Since the people
have expressed themselves, he
will support repeal. "But I fa-
vor a strong registration law."
He would be for a reasonable
literacy test for voters "be-
cause I don't see how anyone
who can't read the English
language is informed enough
to vote."

Primary dates: "Suit me as
they are."

On limiting governor's term:
"Yes, to not more than two
terms."

"Loan shark" legislation—
"As far as I can find out, in
my district we don't have any.
I'm not well enough informed
on cities to know what the sit-
uation is in the rest of the state.
But we have laws on the books
now—if we would just enforce
them."

Congressional re-districting:
"Not familiar with how it
should be done."

Salt pollution: "We should
give all authority on this to one
agency, probably the Railroad
Commission. But we should be
